Apportionment Ratio for B share issue November 2025

Further to Part 5 of the Circular to shareholders published on 17 June 2024 (the "Circular"), abrdn Diversified Income and Growth plc (the "Company") announces the apportionment ratio in relation to the B shares issued in November 2025. The Circular may be found on the Company's website (<https://www.abrdndiversified.co.uk/en-gb>).

For the purposes of United Kingdom taxation of capital gains and corporation tax on chargeable gains ("Capital Gains Tax"), the issue of B Shares constitutes a reorganisation of the share capital of the Company. Accordingly, the B Shares are treated as the same asset as a shareholder's holding of existing Ordinary shares, and as having been acquired at the same time as a shareholder's holding of existing Ordinary shares was acquired. A shareholder's combined holding of Ordinary shares and B shares has the same aggregate base cost as the shareholder's holding of Ordinary shares immediately before the issue of B shares. The aggregate base cost should be apportioned between B shares and the Ordinary shares held by a shareholder by reference to the market values of the Ordinary shares and the B shares on the first day of trading after the issue of B shares.

Due to the terms on which the B Shares were issued and subsequently redeemed, and as they were unlisted and non-transferable, their market value has been assessed, below, as equal to their nominal value of one pence on 14 November 2025. The market value of the Ordinary shares is calculated with reference to their market value on the first day of trading after the issue of the B shares, which is considered to be 14 November 2025.

Accordingly, the aggregate base cost of the Ordinary shares which should be apportioned against the B Shares redemption proceeds, received by shareholders on or about 21 November 2025, is **41.30%**, calculated as follows:

Class of share	Market value on first day of trading (pence per share)	Relevant ratio used for the issue of B Shares	Relevant value (pence per share)	Relevant percentage
Ordinary share*	27	1	27	58.70%
B Share	1	19	19	41.30%

* The lower of the two prices for an Ordinary share shown in the London Stock Exchange Daily Official List for 14 November 2025 as the closing price for an Ordinary share on that day plus one-half of the difference between those two figures in accordance with SI 2015/616.
