**Eurasia Mining plc**  
**Webinar Q&A on Website**

Eurasia Mining PLC ("Eurasia" or the "Company"), the iridium, osmium, palladium, platinum, rhodium, ruthenium and gold mining company, are providing an update on the recent webinar hosted by the Company on 30 December 2025.

The Company was delighted that, on short notice during the festive period, the webinar had almost 500 registrants, with Christian Schaffalitzky, Chairman, providing a general update on the Company whilst focusing on the proposed sale of the Company's shares in the West Kytlim mine, to concentrate on the Kola projects in the Arctic.

The Company received over 200 questions during the live webinar, so the Company was unable to answer all of them at the time of the recording. The Company has subsequently reviewed the questions on the platform and noticed that some of the questions were duplicated or considered closely related.

The Company, therefore, has collated the questions into a consolidated Q&A document to cover as many of the themes asked, with similar questions combined into broader ones.

The consolidated document and the webinar link can be downloaded from the Company's website at:

We look forward to our General Meeting to be held this Thursday on 15 January at 11am.
