

Predator Oil & Gas Holdings Plc

("Predator" or the "Company" and together with its subsidiaries "the Group")

Total Voting Rights

In accordance with the FCA's Disclosure Guidance and Transparency Rules, as at 30 January 2026, the Company's issued share capital consists of 814,857,814 Ordinary Shares of no par value, each with one voting right. The Company does not hold any Ordinary Shares in treasury. Therefore, the total number of voting rights in the Company is 814,857,814.

The above figure of 814,857,814 should be used by shareholders in the Company as the denominator for the calculations by which they will determine if they are required to notify their interest in, or a change to their interest in, the share capital of the Company under the Financial Conduct Authority's Disclosure Guidance and Transparency Rules.

Notes to Editors:

Predator is an oil & gas company with a diversified portfolio of scaled assets including unique and highly prospective onshore Moroccan gas exposure, with multiple fully financed upcoming catalysts.

Predator has an interesting gas project in Morocco with fast pace of commercialisation and significant upside. The Guercif project is a shallow CNG biogenic gas development with different traps and separate identified reservoirs. The Jurassic Titanosaurus is a shallow thermogenic gas prospect evaluating 249m of potential gross reservoir thickness in a trap of maximum closure of 187 km² for pipeline gas to power, with pipeline 2.5km from wellhead. Moroccan gas prices are high, and the fiscal terms are some of the best in the world. Predator also has a diversified portfolio of assets across Ireland and Trinidad, which is a near-term revenue-generating project.

Predator has an experienced management team with particular knowledge in Moroccan sub surface and operations. The team specialises in incorporating modern, proven technologies and processes from Canada and the US to provinces where the conventional technologies did not allow their hydrocarbon potential to be revealed.
