

## Fatality at Palito Complex

**Serabi Gold plc (â€œSerabiâ€ or the â€œCompanyâ€)**(AIM:SRB, TSX:SBI, OTCQX:SRBIF), the Brazilian focused gold mining and development company, regrets to announce an incident occurred resulting in a fatality at its Palito underground operation on 30 January 2026. The incident was related to a traffic accident underground at the Palito Complex. No other personnel were injured.

The Company has notified the relevant authorities, including the police, and are providing all necessary assistance for the enquiries into the incident. The involvement of the Brazilian authorities means that investigations into the circumstances remain ongoing. Production in the area of the incident is expected to be resumed within a few days once the authorities have completed their enquiries, but mining operations are otherwise unaffected.

Until such a time as the outcome of the enquiries has been reached, no further details can be released. The Directors and management of Serabi express their sincere condolences to the family and colleagues of the deceased and the Company is providing all necessary support to the family. The Companyâ€™s immediate priority is to ensure the safety and well-being of our colleagues and is providing appropriate support to staff during this time.

### **Mike Hodgson, CEO of Serabi, commented:**

*â€œWe are deeply saddened at this tragic event, having lost two employees in a short period. It is doubly saddening because weâ€™ve just completed a superb year of health and safety performance. Ensuring the health and safety of our workforce is our highest priority and we are taking immediate action to review the effectiveness and safety of all our operations. We extend our heartfelt condolences and support to the family and friends of the deceased, and to all our employees during this difficult time.*

### **About Serabi Gold plc**

Serabi Gold plc is a gold exploration, development and production company focused on the prolific TapajÃ’s region in Para State, northern Brazil. The Company has consistently produced 30,000 to 40,000 ounces per year with the Palito Complex and is planning to double production in the coming years with the construction of the Coringa Mine. Serabi Gold plc recently made a copper-gold porphyry discovery on its extensive exploration licence. The Company is headquartered in the United Kingdom with a secondary office in Toronto, Ontario, Canada.

## Assay Results

Assay results reported within this release include those provided by the Company's own on-site laboratory facilities at Palito and have not yet been independently verified. Serabi closely monitors the performance of its own facility against results from independent laboratory analysis for quality control purpose. As a matter of normal practice, the Company sends duplicate samples derived from a variety of the Company's activities to accredited laboratory facilities for independent verification. Since mid-2019, over 10,000 exploration drill core samples have been assayed at both the Palito laboratory and certified external laboratory, in most cases the ALS laboratory in Belo Horizonte, Brazil. When comparing significant assays with grades exceeding 1 g/t gold, comparison between Palito versus external results record an average over-estimation by the Palito laboratory of 6.7% over this period. Based on the results of this work, the Company's management are satisfied that the Company's own facility shows sufficiently good correlation with independent laboratory facilities for exploration drill samples. The Company would expect that in the preparation of any future independent Reserve/Resource statement undertaken in compliance with a recognized standard, the independent authors of such a statement would not use Palito assay results without sufficient duplicates from an appropriately certificated laboratory.

## Forward-looking statements

Certain statements in this announcement are, or may be deemed to be, forward looking statements. Forward looking statements are identified by their use of terms and phrases such as "we believe", "we could", "we should", "we envisage", "we estimate", "we intend", "we may", "we plan", "we will" or the negative of those, variations or comparable expressions, including references to assumptions. These forward-looking statements are not based on historical facts but rather on the Directors' current expectations and assumptions regarding the Company's future growth, results of operations, performance, future capital and other expenditures (including the amount, nature and sources of funding thereof), competitive advantages, business prospects and opportunities. Such forward looking statements reflect the Directors' current beliefs and assumptions and are based on information currently available to the Directors. Several factors could cause actual results to differ materially from the results discussed in the forward-looking statements including risks associated with vulnerability to general economic and business conditions, competition, environmental and other regulatory changes, actions by governmental authorities, the availability of capital markets, reliance on key personnel, uninsured and underinsured losses and other factors, many of which are beyond the control of the Company. Although any forward-looking statements contained in this announcement are based upon what the Directors believe to be reasonable assumptions, the Company cannot assure investors that actual results will be consistent with such forward looking statements.

## Qualified Persons Statement

The scientific and technical information contained within this announcement has been reviewed and approved by Michael Hodgson, a Director of the Company. Mr Hodgson is an Economic Geologist by training with over 30 years' experience in the mining industry. He holds a BSc (Hons) Geology, University of London, a MSc Mining Geology, University of Leicester and is a Fellow of the Institute of Materials, Minerals and Mining and a Chartered Engineer of the Engineering Council of UK, recognizing him as both a Qualified Person for the purposes of Canadian National Instrument 43-101 and by the AIM Guidance Note on Mining and Oil & Gas Companies dated June 2009.

## Notice

Beaumont Cornish Limited, which is authorised and regulated in the United Kingdom by the Financial Conduct Authority, is acting as nominated adviser to the Company in relation to the matters referred herein. Beaumont Cornish Limited is acting exclusively for the Company and for no one else in relation to the matters described in this announcement and is not advising any other person and accordingly will not be responsible to anyone other than the Company for providing the protections afforded to clients of Beaumont Cornish Limited, or for providing advice in relation to the contents of this announcement or any matter referred to in it.
