2 February 2026

Devolver Digital, Inc.
("Devolver" or the "Company")
Block Listing Application

Devolver, the award-winning digital publisher and developer of independent ("**indie**") video games, announces today that an application has been made to AIM for a block listing of 10,000,000 shares of common stock of 0.0001 par value in the Company ("Ordinary Shares"), taken from the treasury stock of the Company ("Block Listing Admission"). This will be used to facilitate the admission of shares to trading following the exercise of options and shares issued under the Company's Share Incentive Programmes and Long-Term Incentive Plan.

The Ordinary Shares will be issued from time to time pursuant to the Company's existing plans, including options already issued but not yet exercised to employees. New Ordinary Shares issued following option exercises and admitted to trading under the block admission will rank *pari passu* in all respects with the existing Ordinary Shares.

The Block Listing Admission is expected to become effective at 8.00 am on Monday 2 February 2026. Including the 10 million block listing shares, Devolver has 485,471,127 Ordinary Shares (excluding 17,946,940 Ordinary Shares held in treasury) in issue. This figure may be used by shareholders in the Company as the denominator for the calculations by which they will determine if they are required to notify their interest in, or a change in their interest in, the share capital of the Company under the FCA's Disclosure Guidance and Transparency Rules.
