2 February 2026

**Eden Research plc**

**Retail Offer for up to £500,000**

The Board of Eden Research plc (the **Company**) is pleased to announce a retail offer via BookBuild (the **"Retail Offer"**) of new ordinary shares (**"Ordinary Shares"**) of £0.01 each in the capital of the Company (the **"Retail Offer Shares"**) at an issue price of 4.0 pence per Retail Offer Share (the **"Issue Price"**).

In addition to the Retail Offer, the Company announced earlier today, a proposed Fundraising, pursuant to which it proposes to raise, subject to certain conditions £10.7 million (before expenses). The Fundraising consists of the Firm Placing, the Firm Subscription (together the **Firm Capital Raising**) and the Retail Offer which will raise up to £3.6 million in aggregate (before expenses), assuming full take up of the Retail Offer, as well as the Conditional Placing which will conditionally raise £7.6 million in aggregate (before expenses). A separate announcement has been made regarding the Firm Capital Raising and Conditional Placing and their terms.

In recognition of their continued support to the Company, the Board believes that the Retail Offer provides the Company's longstanding and supportive Shareholders with an opportunity to participate in the Fundraising. The Issue Price represents a premium of approximately 2.6 per cent to the closing share price of 3.9 pence per existing Ordinary Share on 30 January 2026.

For the avoidance of doubt, the Retail Offer is not part of the Firm Capital Raising or Conditional Placing. Full details of the Fundraising, including the background to, and reasons for the Firm Capital Raise and the Conditional Placing and the Retail Offer, is included in the separate announcement released by the Company earlier today.

The Retail Offer is conditional on the passing of the Resolutions by Shareholders at the General Meeting, completion of the Firm Capital Raising and First Admission. The Firm Capital Raising and the Conditional Placing are not conditional upon the Retail Offer. Admission of the Retail Offer Shares pursuant to the Retail Offer is expected to take place as part of the First Admission on 19 February 2026.

The net proceeds of the Firm Capital Raising and any proceeds of the Retail Offer will be used principally to advance and expedite the development, registration and commercialisation of Eden's insecticide formulation and the development of a new fungicide which tackles Late Blight, the most important fungal disease of potatoes.

Subject to the satisfaction of the Conditions, the Conditional Placing will be used to develop and register the fungicide for Late Blight, development of broad acre crop fungicide for Septoria in wheat and commercial and operational scale up, as described in more detail in the announcement of the Fundraising earlier today.

**Investors should make their own investigations into the merits of an investment in the Company. Nothing in this announcement amounts to a recommendation to invest in the Company or amounts to investment, taxation or legal advice.**

**It should be noted that a subscription for Retail Offer Shares and investment in the Company carries a number of risks. Investors should take independent advice from a person experienced in advising on investment in securities such as the Retail Offer Shares if they are in any doubt.**

### **Key Investment Risks**

The Retail Offer may involve a significant degree of risk including loss of capital, rarity of dividends, lack of liquidity and potential for dilution and should only be done as part of a diversified portfolio. The value of an investment and the income from it could go down as well as up. The return of your investment is not guaranteed, and you may get back less than you originally invested. Past performance is not an indicator of future performance. Suffering a loss on your investment is always a possibility. Capital is at risk.

The potential gains and losses that may arise from your investments will depend on your appetite for risk and how you manage your approach to risk. Investing all your money into one type of investment can be a high-risk strategy and concentrate risks to which you and that type of investment may be exposed. A managed approach to risk may be to diversify your investments you make across different companies' securities and different asset classes.

Cavendish Capital Markets Limited ("Cavendish") and Oberon Investments Limited ("Oberon") acted as Joint Bookrunners in connection with the Placings.

The person responsible for arranging the release of this Announcement on behalf of the Company is Alex Abery, Chief Financial Officer.

**Unless otherwise defined herein or the context requires, capitalised terms used in this announcement have the meanings given to them in the Fundraising announcement released earlier today under RNS number 3600R.**

#### **Notes to Editors:**

**Eden Research** is the only UK-listed company focused on biopesticides for sustainable agriculture. It develops and supplies innovative biopesticide products and natural microencapsulation technologies to the global crop protection, animal health and consumer products industries.

Eden's products are formulated with terpene active ingredients, based on natural plant defence metabolites. To date, they have been primarily used on high-value fruits and vegetables, improving crop yields and marketability, with equal or better performance when compared with conventional pesticides. Eden has three products currently on the market:

Based on plant-derived active ingredients, **Mevalone®** is a foliar biofungicide which initially targets a key disease affecting grapes and other high-value fruit and vegetable crops. It is a useful tool in crop defence programmes and is aligned with the requirements of integrated pest management programmes. It is approved for sale in a number of key countries whilst Eden and its partners pursue regulatory clearance in new territories thereby growing Eden's addressable market globally.

**Cedroz™** is a bionematicide that targets free living nematodes which are parasitic worms that affect a wide range of high-value fruit and vegetable crops globally. Cedroz is registered for sale on two continents and Eden's commercial collaborator, Eastman Chemical, is pursuing registration and commercialisation of this important new product in numerous countries globally.

Eden's seed treatment product, **Ecovelex®** was developed to safely tackle crop destruction caused by birds - a major cause of losses in maize and other crops. Ecovelex works by creating an unpleasant taste or odour that repels birds, leaving the seeds safely intact and the birds unaffected and free to find alternative food sources. The product is based on Eden's plant-derived chemistry, registered in the EU, U.S. and elsewhere, and formulated using Eden's Sustaine® microencapsulation system.

Eden's **Sustaine®** encapsulation technology is used to harness the biocidal efficacy of naturally occurring chemicals produced by plants (terpenes) and can also be used with both natural and synthetic compounds to enhance their performance and ease-of-use. Sustaine microcapsules are naturally-derived, plastic-free, biodegradable micro-spheres derived from yeast. It is one of the only viable, proven and immediately registerable solutions to the microplastics problem in formulations requiring encapsulation.

Eden was admitted to trading on AIM on 11 May 2012 and trades under the symbol EDEN. It was awarded the London Stock Exchange **Green Economy Mark** in January 2021, which recognises London-listed companies that derive over 50% of their total annual revenue from products and services that contribute to the global green economy. Eden derives 100% of its total annual revenues from sustainable products and services.

### **UK Product Governance Requirements**

Solely for the purposes of the product governance requirements of Chapter 3 of the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Requirements"), and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any "manufacturer" (for the purposes of the UK MiFIR Product Governance Requirements) may otherwise have with respect thereto, the Retail Offer Shares have been subject to a product approval process, which has determined that the Retail Offer Shares are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in paragraphs 3.5 and 3.6 of COBS; and (ii) eligible for distribution through all permitted distribution channels (the "Target Market Assessment"). Notwithstanding the Target Market Assessment, distributors should note that: the price of the Retail Offer Shares may decline and investors could lose all or part of their investment; the Retail Offer Shares offer no guaranteed income and no capital protection; and an investment in the Retail Offer Shares is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The Target Market Assessment is without prejudice to any contractual, legal or regulatory selling restrictions in relation to the Retail Offer.

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of Chapters 9A or 10A respectively of COBS; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the Retail Offer Shares. Each distributor is responsible for undertaking its own target market assessment in respect of the Retail Offer Shares and determining appropriate distribution channels.

### **EU Product Governance Requirements**

Solely for the purposes of the product governance requirements contained within: (a) EU Directive 2014/65/EU on markets in financial instruments, as amended ("MiFID II"); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593 supplementing MiFID II; and (c) local implementing measures (together, the "MiFID II Product Governance Requirements"), and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any "manufacturer" (for the purposes of the MiFID II Product Governance Requirements) may otherwise have with respect thereto, the Retail Offer Shares have been subject to a product approval process, which has determined that the Retail Offer Shares are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in MiFID II; and (ii) eligible for distribution through all distribution channels as are permitted by MiFID II (the "EU Target Market Assessment"). Notwithstanding the EU Target Market Assessment, distributors should note that: the price of the Retail Offer Shares may decline and investors could lose all or part of their investment; the Retail Offer Shares offer no guaranteed income and no capital protection; and an investment in the Retail Offer Shares is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The EU Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Retail Offer.

For the avoidance of doubt, the EU Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of MiFID II; or (b) a recommendation to any investor or group of investors to invest in, or purchase or take any other action whatsoever with respect to the Retail Offer Shares. Each distributor is responsible for undertaking its own target market assessment in respect of the Retail Offer Shares and determining appropriate distribution channels.
