About SkinBioTherapeutics plc

SkinBioTherapeutics is a life science company focused on skin health. The Group's proprietary platform technology, SkinBiotix®, is based upon discoveries made by the translational dermatology team at the University of Manchester.

The Group's foundation business is targeting the skin healthcare market via five pillars, the most advanced of which are cosmetic skincare (SkinBiotix®) and food supplements that harness the gut-skin axis (AxisBiotix™). The AxisBiotix™ pillar has a range of products targeting the symptoms of inflammatory skin conditions, being sold directly and via Amazon, and on the High Street in selected Superdrug Stores plc stores.

The Group is also acting as a consolidator and is making acquisitions in complementary areas such as skincare and cosmetic applications, that also bring new distribution and geographical platforms, and manufacturing capabilities through which it can funnel its in-house pillar products.
