TPXimpact Holdings PLC

("TPXimpact", or the "Group", or the "Company")

TPXimpact announces £39 million Contract with the Department for Environment, Food and Rural Affairs

TPXimpact Holdings PLC (AIM: TPX), a leading technology-enabled services company focused on people-powered digital transformation, is pleased to announce that it has been selected as the successful bidder for a **£39 million, 4-year contract with the Department for Environment, Food & Rural Affairs (DEFRA)**.

Following a competitive tender process, the Company has been awarded the **Service Type 3 - Product Development** lot under DEFRA's new Digital, Data and Technology (DDaT) "Capability as a Service" (CaaS) resourcing model. This strategic award builds upon TPXimpact's existing position as an incumbent provider for User-Centred Design (UCD) roles within the department.

Bjørn Conway, Chief Executive Officer of TPXimpact, commented:

"This award with DEFRA is of significant strategic importance and places TPXimpact at the heart of the UK's environmental and rural digital agenda. It reflects the department's trust in our ability to deliver at scale on complex, nationally critical programmes. Our work will not only improve service delivery for farmers and citizens but will also play a tangible role in achieving national sustainability goals. This win is a clear endorsement of our people and our role in delivering digital services that have a lasting, positive impact on our planet and society."

About TPXimpact

We believe in a world enriched by people-powered digital transformation. Working in collaboration with organisations, we're on a mission to accelerate positive change and build a future where people, places and the planet are supported to thrive.

Led by passionate people, TPXimpact works closely with its clients in agile, multidisciplinary teams; challenging assumptions, testing new approaches and building confidence and capabilities. Combining our rich heritage with expertise in human-centred design, data, experience and technology, we work to create sustainable solutions with the flexibility to learn, evolve and change.

The business is being increasingly recognised as a leading alternative digital transformation provider to the UK public services sector, with over 90% of its client base representing public services.
