**Domino's Pizza Group PLC ("DPG" or "Domino's")  
Third Quarter Trading Statement**

**CONTINUED POSITIVE TRADING MOMENTUM, MAINTAIN FULL YEAR EXPECTATIONS**

Our trading in the quarter to 30 September 2026 continued the positive momentum delivered in H1 2026, with positive results on all metrics. Total system sales in the period increased by 3.5%, including like for like growth of 2.3%, while total orders rose by 2.6%, with like for like orders up 1.4%. Following the positive benefits of the World Cup at the start of the period, we continued to grow in both August and September.

Like-for-like performance:

|               | Q1   | Q2   | H1   | Q3   | YTD  |
|---------------|------|------|------|------|------|
| <b>Sales</b>  | 4.5% | 5.2% | 4.9% | 2.3% | 4.0% |
| <b>Orders</b> | 0.9% | 2.2% | 1.6% | 1.4% | 1.5% |

Performance was again driven by growth in both Pizza and CHICK 'N' DIP, with continued strong sales from our Italianos pizza range. CHICK 'N' DIP continues to perform in line with management's expectations, with customer feedback highly positive and advocacy levels strong.

All major cost categories are fixed for FY26 and into FY27, providing good visibility over the cost base. Combined with our strategic growth initiatives, this gives us confidence in delivering earnings growth in FY27 and beyond.

Consequently, the Board remains confident of achieving our earnings expectations for the full year, in line with market expectations.

**Commenting on the performance in Q3, Nicola Frampton, CEO, said:**

*"Our strong performance year-to-date reflects our organic growth strategy and we have been rewarded by our focus on the core Domino's business model. The proof points of our innovation in Italianos and CHICK 'N' DIP, combined with our fantastic brand, quality franchisee partners and leading supply chain have enabled us to attract more customers, more often whilst achieving more for less.*

*Whilst there is a lot of work still to be done, this gives us confidence in achieving our expectations for the full year, while building the foundations for further growth in 2027 and beyond."*
