The Renewables Infrastructure Group Limited

The Renewables Infrastructure Group Limited ("TRIG" or "the Company") is a London-listed renewable energy investment company. TRIG creates shareholder value through a resilient dividend and long-term capital growth, underpinned by a diversified portfolio of renewable energy infrastructure that is actively managed by specialist investment and operations managers.

Share buyback programme completion

The Company has concluded its Â£150 million share buyback programme (the â€œShare Buybackâ€). The Share Buyback has delivered 2.1p of Net Asset Value (â€œNAVâ€) per share accretion. 193 million shares have been repurchased, representing approximately 8% of the Companyâ€™s shares that were in issue prior to the start of the Share Buyback.

Share repurchases remain an important part of TRIGâ€™s disciplined capital allocation strategy, alongside reducing borrowings under the Revolving Credit Facility and investing in TRIGâ€™s organic, higher-returning construction and development pipeline. Share repurchases continue to provide the hurdle rate for new investments on a risk-adjusted basis and further share buybacks beyond the Share Buyback will be considered following the future realisation of capital from asset sales or debt issuance.

Notes

The Company

The Renewables Infrastructure Group Limited ("TRIG" or "the Company") is a London-listed renewable energy investment company. TRIG creates shareholder value through a resilient dividend and long-term capital growth, underpinned by a diversified portfolio of renewable energy infrastructure that is actively managed by specialist investment and operations managers.
Â
TRIG is invested in a portfolio of wind, solar and battery storage projects across six markets in Europe with a net operational capacity of 2.3GW. In 2025, the portfolio generated enough renewable electricity to power the equivalent of 1.6 million homes and to avoid 1.8 million tonnes of carbon emissions per annum.
Â
Further details can be found on TRIG's website at www.trig-ltd.com.
Â

Investment Manager

Â
InfraRed is a leading international mid-market infrastructure asset manager. Over the past 25 years, InfraRed has established itself as a highly successful developer, particularly in early-stage projects, and an active steward of

essential infrastructure.

InfraRed manages US$13bn of equity capital[1] for investors around the globe in listed and private funds across both core and value-add strategies.

InfraRed combines a global reach, operating worldwide from offices in London, Frankfurt, Madrid, New York, Miami, Sydney and Seoul, with deep sector expertise from a team of more than 160 people.

InfraRed is part of SLC Management, the institutional alternatives and traditional asset management business of Sun Life, and benefits from its scale and global platform.

For more information, please visit www.ircp.com.

[1] Uses five-year average FX as at 31 December 2025. GBP/USD of 1.2900; EUR/USD of 1.1125. EUM is US$13.3bn.
