6. Given the significance of the information, please revise your next submission to provide a statement of changes in stockholders' equity for all interim periods.
7. We note your response to comment 31. Considering the guidance in ASC 805-50-45-5 requires comparative financial statement presentation for prior years, please revise your next submission to provide audited financial statements for Wins Finance Group Limited for the periods ending June 30, 2014 and June 30, 2013 as well as management's discussion and analysis of financial condition and results of operations (MD&A) for the periods presented. In addition, please provide updated interim financial statements and related MD&A.
8. We note your response to comment 33. Please revise your next submission to disclose the information included in the response regarding your presentation of the changes in restricted cash in your statements of cash flows.
9. We note your response to comment 35 and your revised disclosure in Note 17. It appears that net income divided by the weighted average number of common shares outstanding during the period does not equal your disclosed earnings per share. Please revise your filing as needed.

10. We note your response to comment 42 and your disclosure related to your short-term investments in your MD&A and in your risk factors on page 30. Please revise your next submission to include a breakdown of your short-term investment balances by type of investment (e.g. government bonds, corporate bonds, central bank notes, etc.) in a tabular format as of each period end. Also provide information that addresses the liquidity risk of these investments. For example, discuss if banks and financial institutions are required to redeem the investments, the price (e.g. market, par, etc.) at which they may be redeemed, etc.
