EAGLE POINT INCOME COMPANY

QUARTERLY UPDATE – 4Q 2019

FEBRUARY 27, 2020

IMPORTANT INFORMATION

This presentation and the information and views included herein do not constitute investment advice, or a recommendation or an offer to enter into any transaction with Eagle Point Income Company Inc. ("EIC" or the "Company") or any of its affiliates. This presentation is provided for informational purposes only, does not constitute an offer to sell securities of the Company or a solicitation of an offer to purchase any such securities, is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted, and is not a prospectus. From time to time, the Company may have a registration statement relating to one or more of its securities on file with the Securities and Exchange Commission ("SEC"). Any registration statement that has not yet been declared effective by the SEC, and any prospectus relating thereto, is not complete and may be changed. Any securities that are the subject of such a registration statement may not be sold until the registration statement filed with the SEC is effective.

This presentation is solely for the use of the intended recipient(s). The information and its contents are the property of Eagle Point Income Management LLC (the "Adviser") and/or the Company. Any unauthorized dissemination, copying or use of this presentation is strictly prohibited and may be in violation of law. This presentation is being provided for informational purposes only.

Investors should read the Company's prospectus and SEC filings (which are publicly available on the EDGAR Database on the SEC website at <http://www.sec.gov>) carefully and consider their investment goals, time horizons and risk tolerance before investing in the Company. Investors should consider the Company's investment objectives, risks, charges and expenses carefully before investing in securities of the Company as described in the prospectus. There is no guarantee that any of the goals, targets or objectives described in this presentation will be achieved. An investment in the Company is not appropriate for all investors and is not intended to be a complete investment program. Shares of closed-end investment companies, such as the Company, frequently trade at a discount from their net asset value, which may increase investors' risk of loss. **Past performance is not indicative of, or a guarantee of, future performance.** The performance and certain other portfolio information quoted herein represents information as of dates noted herein. Nothing herein shall be relied upon as a representation as to the future performance or portfolio holdings of the Company. Investment return and principal value of an investment will fluctuate, and shares, when sold, may be worth more or less than their original cost. The Company's performance is subject to change since the end of the period noted in this report and may be lower or higher than the performance data shown herein. More recent performance information current to the most recent month-end is available by calling (844) 810-6501.

Neither the Adviser nor the Company provides legal, accounting or tax advice. Any statement regarding such matters is explanatory and may not be relied upon as definitive advice. Investors should consult with their legal, accounting and tax advisers regarding any potential investment. The information presented herein is as of the dates noted and is derived from financial and other information of the Company, and, in certain cases, from third party sources and reports (including reports of third party custodians, CLO collateral managers and trustees) that have not been independently verified by the Company. As noted herein, certain of this information is estimated and unaudited, and therefore subject to change. The Company does not represent that such information is accurate or complete, and it should not be relied upon as such. This report does not purport to be complete and no obligation to update or revise any information herein is being assumed.

Information contained on our website is not incorporated by reference into this report and you should not consider information contained on our website to be part of this report or any other report we file with the SEC.

ABOUT EAGLE POINT INCOME COMPANY

The Company is a non-diversified, closed-end management investment company. The Company's investment objective is to generate high current income, with a secondary objective to generate capital appreciation, by investing primarily in junior debt tranches of CLOs. In addition, the Company may invest up to 20% of its total assets (at the time of investment) in CLO equity securities and related securities and instruments (primarily via minority ownership positions). The Company is externally managed and advised by Eagle Point Income Management LLC.

In addition to the Company's regulatory requirement to file certain quarterly and annual portfolio information as described further in the enclosed report, the Company makes a monthly estimate of NAV and certain additional financial information available to investors via our website (www.eaglepointincome.com). This information includes (1) an estimated range of the Company's net investment income and realized capital gains or losses per share of common stock for each calendar quarter end, generally made available within the first fifteen days after the applicable calendar month end, (2) an estimate of the Company's NAV (or an estimated range of the Company's NAV) per share of common stock for the prior month end and certain additional portfolio-level information, generally made available within the first fifteen days after the applicable calendar month end, and (3) with respect to each calendar quarter end, an updated estimate of the Company's NAV per share of common stock, if applicable, and net investment income and realized capital gains or losses per share for the applicable quarter, if available.

FORWARD-LOOKING STATEMENTS

These materials may contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Statements other than statements of historical facts included in this presentation may constitute forward-looking statements and are not guarantees of future performance or results and involve a number of risks and uncertainties. Actual results may differ materially from those in the forward-looking statements as a result of a number of factors, including those described in the prospectus and the Company's other filings with the SEC. The Company undertakes no duty to update any forward-looking statement made herein. All forward-looking statements speak only as of the date of this presentation.

INTRODUCTION TO EIC

Why Invest in BB-Rated CLO Debt?

Key Attributes

- Potential for lower credit expense
- Potential for higher returns
- Expected protection against rising interest rates¹

Potential For Lower Credit Expense

From 1996 - 2Q 2018, the cumulative default rate on BB-Rated CLO Debt was 1.5% (or ~ 7 bps per annum)²

Potential For Higher Returns

The spread on BB-Rated CLO Debt is currently 454 to 487 bps in excess of that on senior secured loans and high yield bonds

Source: J.P. Morgan, Bloomberg, as of December 31, 2019.

Past performance is not indicative of, or a guarantee of, future performance. No representation is being made as to the applicability of historical statistics to future periods. The information shown herein is for background purposes only. Please see Important Information on page 1.

1. Similar to the senior secured loans that serve as the underlying collateral for CLOs, BB-Rated CLO debt is a floating rate security that pays interest based on the 3-month LIBOR, plus a spread and, as a result, is expected to have lower interest rate risk than other fixed income securities in a rising interest rate environment. However, the Company's CLO investments are still subject to other forms of interest rate risk.
2. Standard & Poor's, Default, Transition, and Recovery: 2017 Annual Global Leveraged Loan CLO Default Study And Rating Transitions; Adviser's analysis of market data over applicable periods. The default rate on BB-Rated CLO Debt for the period from 1996 through 2Q 2018 is 1.5% (or just 0.07% per annum) as compared to 2.7% per annum for senior secured loans (from 1998 through 2Q 2018, the period for which the data is available) and 4.3% per annum for high-yield bonds (from 1996 through 2Q 2018).

CLO MARKET OVERVIEW

Loan Market Repayment Rate

Loan repayments provide capital for reinvestment within CLOs

CLO MARKET OVERVIEW

CLOs are Securitizations of a Portfolio of Senior Secured Loans

EIC focuses primarily in junior debt tranches of CLOs, with a focus on BB-Rated CLO Debt

Key Characteristics of CLO Structure

- No mark-to-market triggers (i.e., no margin calls or forced sales)
- Match funded (i.e., limited refinancing risk on CLO debt)¹
- Ability to reinvest loan principal (i.e., actively managed)

The CLO structure highlighted on this page is a hypothetical structure, and the structure of CLOs in which the Company invests may vary from the example.

1. Since a CLO's indenture typically requires that the maturity dates of a CLO's assets (typically 5 to 8 years from the date of issuance of a senior secured loan) be shorter than the maturity date of the CLO's liabilities (typically 12 to 13 years), CLOs generally do not face refinancing risk on the CLO debt. However, CLO investors do face reinvestment risk with respect to a CLO's underlying portfolio. In addition, in most CLO transactions, CLO debt investors are subject to prepayment risk in that the holders of a majority of the equity tranche can direct a call or refinancing of a CLO, which would cause the CLO's outstanding CLO debt securities to be repaid at par.

CLO MARKET OVERVIEW

Key Forms of Credit Enhancement for CLO Debt Investors

CLO debt benefits from structural features and covenants that enhance its credit protection

■ Overcollateralization

- At a CLO's inception, the principal value of the loan collateral exceeds the principal amount of the CLO debt outstanding (i.e., the CLO debt is "overcollateralized" by excess loan collateral)

■ Excess Spread

- Since the spread on a CLO's loan collateral exceeds the spread on the CLO debt, this excess spread serves as a source of credit enhancement for CLO debt investors

■ Non-Static Structure

- The structure of CLOs enables the CLO collateral manager to take advantage of periods of market stress and loan price volatility by re-investing principal proceeds from loan repayments and sales into loans potentially at lower prices and wider spreads

In the Adviser's opinion, these "self-correcting" structural features of CLOs offer a margin of safety for CLO debt investors and have contributed to the low historical default rate on CLO debt¹

- Represents the estimated fair value of investments as of December 31, 2019.
- WA (Weighted Average). Weighted average coupon of CLO debt and weighted average mark of CLO debt are based on relative par amounts as of December 31, 2019. Weighted average effective yield on the portfolio of investments is estimated based upon the estimated fair market value of the investments, current projections of the amounts and timing of each investment's recurring distributions (which for CLO debt securities reflects the scheduled coupon payments and for CLO equity securities reflects various assumptions), and the estimated amounts and timing of principal payments (which may differ from the scheduled maturity date of an investment). The weighted average effective yield is calculated based on the amortized current cost of investments. This statistic is being provided for informational purposes only and does not necessarily reflect the yield at which the Company's records its investment income for each investment. The estimated yield and investment cost may ultimately not be realized.
- The information presented herein is on a look-through basis to the collateralized loan obligation, or "CLO" and other related investments held by the Company as of December 31, 2019 (except as otherwise noted) and reflects the aggregate underlying exposure of the Company based on the portfolios of those investments. The data is estimated and unaudited and is derived from CLO trustee reports received by the Company relating to December 2019 and from custody statements and/or other information received from CLO collateral managers and other third party sources. Information relating to the market price of underlying collateral is as of month end; however, with respect to other information shown, depending on when such information was received, the data may reflect a lag in the information reported. As such, while this information was obtained from third party data sources, December 2019 trustee reports and similar reports, other than market price, it does not reflect actual underlying portfolio characteristics as of December 31, 2019 and this data may not be representative of current or future holdings. The weighted average remaining reinvestment period information is based on the fair value of CLO equity and debt investments held by the Company at the end of the reporting period.
- Data represents aggregate indirect exposure. We obtain our exposure in underlying senior secured loans indirectly through our CLO and related investments.
- Credit ratings shown are based on those assigned by Standard & Poor's Rating Group, or "S&P," or, for comparison and informational purposes, if S&P does not assign a rating to a particular obligor, the weighted average rating shown reflects the S&P equivalent rating of a rating agency that rated the obligor provided that such other rating is available with respect to a CLO or related investment held by us. In the event multiple ratings are available, the lowest S&P rating, or if there is no S&P rating, the lowest equivalent rating, is used. The ratings of specific borrowings by an obligor may differ from the rating assigned to the obligor and may differ among rating agencies. For certain obligors, no rating is available in the reports received by the Company. Such obligors 20 are not shown in the graphs and, accordingly, the sum of the percentages in the graphs may not equal 100%. Ratings below BBB- are below investment grade. Further information regarding S&P's rating methodology and definitions may be found on its website (www.standardandpoors.com).
