Market and Performance Review

In the first half of 2022, in the face of the global economic slowdown, coupled with the Russian-Ukrainian war, the prices of commodities and freight rates remained high, and the global economy shrunk rapidly with further increases in the inflation index. As a result, the market economy environment was constantly changing, and all the industries were facing major challenges in their operation. All major banks and financial institutions had lowered their GDP growth forecasts for various countries one after another, resulting in a sharp drop in their confidence in economic growth this year. The global economy is expected to rise by merely 3.6% in 2022 according to the latest World Economic Outlook published by the International Monetary Fund.

Faced with the tight supply chain, the Group adjusted its procurement strategy and signed strategic cooperation agreements with core suppliers to control costs and ensure a stable supply. The Group has successfully recorded stable sales performance in the international lighting business with its good brand reputation and strong sales channels. The Group has paid attention to the market trend, launched a series of new lighting products to meet the needs of customers, and strengthened the Group's sales foundation. In addition to the international lighting business, the Group had been preparing for the expansion of its non-lighting business in the global market in the first half of 2022. With the brand mission of "Empowering Your LifeScape • 讓生活如你所願" and by focusing on our customers and their environment, we have been actively expanding products in the two elements of "air" and "water" and related fields to improve the life quality of consumers, to realise the vision of sustainable development and to build a smarter, more environmentally friendly and more technological living space. During the Period under Review, affected by a number of unfavorable factors such as the weak global economy, increased prices in raw materials and the lockdown measures in Shanghai, the Group achieved sales revenue of RMB1,043,362,000, representing a decrease of 8.7% as compared with the Corresponding Period; and gross profit of RMB243,956,000, representing a decrease of 30.1% as compared with the Corresponding Period.

市場及業績回顧

在2022年上半年,面對全球經濟放緩,加上 俄烏戰爭,大宗商品及運費價格持續高企, 全球經濟加速萎縮、通脹指數進一步提升, 造成市場經濟環境變化多端,各行各業的 經營面臨重大的挑戰。所有主要銀行、金融 機構紛紛下調各國的GDP增速預期,導致對 於本年度的經濟增長信心大幅下降。國際 貨幣基金組織IMF在最新發表的《世界經濟 展望》報告中指出,2022年全球經濟預計增 長僅有3.6%。

在供應鏈緊張的情況下,本集團調整採購 戰略,與核心供應商簽訂戰略合作協議, 以控制成本,確保供應穩定。本集團以良好 的品牌口碑和強大的銷售渠道,成功在國 際照明業務上錄得穩定的銷售表現。本集 團關注市場動向,針對客戶的需求,推出多 款新照明產品,鞏固本集團的銷售基礎。除 國際照明業務外,本集團在2022年上半年 致力於籌備開拓非照明業務的全球市場。 以「Empowering Your LifeScape • 讓生活 如你所願」的品牌使命,我們以客戶以及客 戶環境為本,積極拓展在「空氣」和「水」兩大 元素及相關領域的產品以提升消費者生活 品質,實現可持續發展的生活願景,構築更 智能,更環保,更科技的生活空間。回顧期 內,受到全球經濟疲弱,原材料價格上升及 上海封城等多項不利因素影響,本集團實 現銷售收入人民幣1.043.362千元,對比同 期銷售收入下降8.7%;及實現毛利人民幣 243,956千元,對比同期毛利减少30.1%。

Selling and Distribution

The Group has established sales networks and channels in major countries and regions including the PRC, North America, Europe, Australia, East Asia, the Middle East and Southeast Asia leveraging its extensive marketing experience and superior globe-based operation team

North American and Japanese Markets

During the Period under Review, the North American market remained the Group's core area for development. The Group streamlined its operation by differentiating retail and distribution channels. Affected by the serious inflation issues and the weak economy in the U.S., the retail market became despondent with sales declining. Large retailers lowered their sales forecasts while raising retail prices to ensure they could meet profit targets for the year. Despite the above unfavorable factors, by leveraging its long-standing and stable strategic relationships with major customers and through frequent communication with our customers, the Group managed to realise an overall retail sale as nearly flat as that of the Corresponding Period. In terms of distribution channels, the Group adjusted its sales team and strengthened inventory control in the first half of the year. However, under the complicated and volatile macro-economy, the sales prices in the market continued to increase, and the overall market sales were weak with a rapid and nearly double-digital decline, resulting in a decline in the Group's sales through distribution channels. Based on the sales performance of the above retail channels and distribution channels, the Group's sales in the North American market recorded a slight improvement.

The Group's presence in Japanese market mainly includes retail channels and engineering project channels. Due to the decline in retail sales of home appliances and the depreciation of the Japanese yen, the Group's retail channel sales recorded a significant decline compared to the Corresponding Period. The Group's gross profit performance in the Japanese market decreased due to the sharp increase in sea freight rates compared to the Corresponding Period. In order to improve the business in the Japanese market, the Japanese management team of the Group adjusted the sales structure of products and strengthened inventory control to minimise the logistics costs in Japan. In addition, the Japanese factory had started production in the second half year of 2021, which reduced transportation costs and improved the gross profit margin of the Japanese market.

銷售及分銷

憑藉豐富的營銷經驗及優秀的全球化運作 團隊,本集團目前已於中國、北美、歐洲、 澳洲、東亞、中東及東南亞等主要國家及地 區建立銷售網絡及渠道。

北美和日本市場

回顧期內,北美市場仍然是本集團發展的 核心地區。本集團透過區分零售渠道和經 銷渠道進行精細化運作。受到美國本土通 脹問題嚴重以及經濟疲弱的影響,零售市 場出現頹廢現象,銷售數量下滑。大型零售 商一邊調低銷售預測,一邊不斷提高零售 價格,以確保當年利潤目標的達成。儘管以 上不利因素,本集團憑藉與主要客戶長期 穩定的戰略合作關係,與客戶持續溝通,總 體零售渠道銷售與去年同期基本持平。經 銷渠道方面,本集團於上半年集中調整銷 售團隊,加強庫存管控。但受到宏觀經濟複 雜多變的情況下,市場銷售價格不斷提價, 整體市場銷售疲軟、訊速下滑接近雙位數 等因素下,本集團經銷渠道銷售下跌。結合 以上零售渠道和經銷渠道的銷售表現,本 集團在北美市場的銷售錄得輕微提升。

本集團在日本市場主要包括零售渠道和工 程項目渠道。由於家電零售銷售額下降,加 上日元貶值,令本集團零售渠道銷售與同 期相比錄得明顯下跌。由於海運費對比同 期大幅上漲,降低本集團日本市場的毛利 表現。為了提升日本市場業務,本集團的日 本管理團隊調整了產品的銷售結構、加強 庫存管控以儘量降低在日本的物流費用。 加上日本工廠於2021年下半年投入生產, 運輸成本減少,提升日本毛利率。

UK and Nordic Markets

Despite facing inflation of production cost and shipping cost of global market, the management team of the Group made their efforts on maintaining stable financial performance of UK and Nordic markets. The Group focused on developing the brand reputation and driving lighting products demand in the UK and Nordic markets. Also, it drived the product mix to the more added value and higher margin channels. After acquisition of a Danish distributor in 2021, the Group had expanded its footprint to Danish market. It improved the overall revenue compared with first half of 2021. With integration and centralization of Nordic market. Furthermore, the Group focused on promoting DERNIER & HAMLYN ("D&H"), a century-old high-quality luxury lighting manufacturer in the UK, and offering bespoke lighting products to customers. With the high margin bespoke products, it maintained stable gross profit margin for UK and Nordic market.

The negative sentiments in the Southeast Asia regional retail market have reduced consumer spending during the Period under Review. This affected the Group's overall performance in Southeast Asia regions. However, the management of the Group was constantly adapting strategy towards maintaining market reach and assisting local partners towards project fulfilment. Some Southeast Asia regions, such as Singapore and Pakistan, had recorded a decent improvement on revenue when compared with Corresponding Period due to resumption of construction work projects. During the Period under Review, the Group has launched some non-lighting products to our targeted distributors and this improved the overall performance in Southeast Asia regions.

Market Risks

We are exposed to various market risks in the ordinary course of business. Our risk management strategy aims to minimise the adverse effects of these risks to our financial results.

Foreign Currency Risk

We are exposed to transactional currency risk. Such risk arises from sales or procurement by operating units in currencies other than its functional currency. As a result, we are exposed to fluctuations in the exchange rate between the functional currencies and foreign currencies. During the Period under Review, the Group had entered into several forward currency contracts in place to hedge the foreign exchange exposure, therefore did not experience any material difficulties or negative impacts on our operations or liquidity as a result of fluctuations in currency exchange rates.

Commodity Price Risk

We are exposed to fluctuations in the prices of raw materials which are influenced by global changes as well as regional supply and demand conditions. Fluctuations in the prices of raw materials could adversely affect our financial performance. We did not enter into any commodity derivative instruments to hedge the potential commodity price changes.

市場風險

在日常業務過程中,我們面臨各種市場風險。我們的風險管理策略旨在將這些風險 對我們財務業績的不利影響降低。

外幣風險

我們承受貨幣交易風險。交易風險因運營 單位以其功能貨幣以外的貨幣進行銷售或 採購而產生。因此,我們面臨功能貨幣與 外幣之間的匯率波動的風險。回顧期內,本 集團簽訂若干匯率遠期合同以對沖匯率風 險,因此並無因貨幣匯率的波動而令我們 營運或流動資金出現任何重大困難或負面 影響。

商品價格風險

我們承受原材料價格波動的風險。原材料 價格受全球變動及地區性供求狀況的影響。原材料價格的波動可能對我們的財務 業績產生不利影響。本公司尚未簽訂任何 商品衍生工具以對沖潛在的商品價格變化。

Liquidity Risk

We monitor our risk of having a shortage of funds by considering the maturity of our financial instruments, financial assets and liabilities and projected cash flows from operations. Our goal is to maintain a balance between continuity and flexibility of funding through the use of bank loans and other interest-bearing loans. Our Directors have reviewed our working capital and capital expenditure requirements and determined that we have no significant liquidity risk.

Credit Risk

Our major credit risk arises from exposure to a substantial number of trade and bills receivables, deposits and other receivables from debtors. We have policies in place to ensure that the sales of products are made to customers with an appropriate credit limit, and we have strict control over credit limits of trade receivables. Our cash and short-term deposits are mainly deposited with registered banks in China and Hong Kong. We also have policies that limit our credit risk exposure to any financial institutions. The carrying amounts of trade and bills receivables, deposits and other receivables, cash and cash equivalents and short-term deposits included in the condensed consolidated statement of financial position represent our maximum exposure to credit risk in relation to our financial assets. We have no other financial assets which carry significant exposure to credit risk. In 2021, we entered into a number of one-year insurance contracts with China Export & Credit Insurance Corporation, which covered 70% or 90% uncollectible receivables from international sales during the period from 1 July 2021 to 31 December 2022 with a maximum compensation amount of US\$31,280,000 (equivalent to approximately RMB201,675,000). We purchased such insurance in order to minimise our exposure to credit risk as we expand our business. We plan to renew such insurance contracts when they become due.

IMPORTANT EVENTS AFTER THE PERIOD UNDER REVIEW

No important events affecting the Company occurred since 30 June 2022 and up to the date of this report.

流動資金風險

我們通過考慮我們金融工具、金融資產及 負債的到期日和預計從營運產生的現金流 量來監控資金短缺的風險。我們的目標是 通過使用銀行貸款和其他計息貸款使資金 的連續性和靈活性保持平衡。我們的董事 已審核我們的營運資金及資本開支要求, 並確定我們沒有重大流動資金風險。

信用風險

我們的主要信用風險來自於債務人的大量 貿易及票據應收賬款、保證金及其他應收 賬款。我們已訂立政策確保產品出售予有 適當信用額度的客戶,且我們嚴格控制貿 易應收賬款的信用額度。我們的現金和短 期存款主要存於中國及香港的註冊銀行。 我們亦有限制暴露於任何金融機構的信用 風險政策。簡明綜合財務狀況表中的貿易 及票據應收賬款、保證金及其他應收賬款 的賬面值、現金及現金等價物和短期存款 反映了本集團就有關金融資產的最大信用 風險。我們沒有其他帶有重大信用風險的 金融資產。於2021年,我們與中國出口信 用保險公司訂立數份一年期信用保險合 同,在其承保範圍內,覆蓋於2021年7月1 日至2022年12月31日期間的國際銷售應收 賬款不可能收回的金額之70%或90%,最 高賠償金額為31,280千美元(折合約人民 幣201.675千元)。我們購買上述保險是為 了盡量降低我們擴張業務所帶來的信用風 險。我們計劃於該等信用保險合同到期時 續訂。

Report on Review of Condensed Consolidated Financial Statements 簡明綜合財務報表審閱報告

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of these condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

17. Fair Value Measurements of Financial Instruments

Fair value measurements and valuation processes

The management of the Group determines the appropriate valuation techniques and inputs for fair value measurements.

In estimating the fair value, the Group uses market-observable data to the extent it is available. For instruments with significant unobservable inputs under Level 3, the Group engages third party qualified valuers to perform the valuation. The management of the Group works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model. The management of the Group reports the findings to the board of directors of the Company to explain the cause of fluctuations in the fair value of the assets and liabilities.

The fair value of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used), as well as the level of the fair value hierarchy into which the fair value measurements are categorised (Levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market date (unobservable inputs).
