Baidu Announces Third Quarter 2022 Results

BEIJING, China, November 22, 2022 -Baidu, Inc. (NASDAQ: BIDU and HKEX: 9888) ("Baidu" or the "Company"), a leading AI company with strong Internet foundation, today announced its unaudited financial results for the third quarter ended September 30, 2022.

"Baidu Core delivered a solid set of financial and operational results in the third quarter, despite the continued challenges posed by the COVID-19 resurgence. Baidu Core's revenue resumed positive growth, driven by a gradual recovery of our online marketing business and the steady growth of our Al Cloud revenue. Notably, we continued to make significant progress in intelligent driving. On the one hand, Baidu Apollo's auto solutions continued gaining popularity amongst leading automakers. On the other hand, Apollo Go continued scaling up its operation, completing more than 474,000 rides in the quarter, further strengthening its leading position in the global autonomous ride-hailing market," said Robin Li, Co-founder and CEO of Baidu. "Looking ahead, we expect our mobile ecosystem to continue generating strong cash flow and fund our investment in Al Cloud and intelligent driving, which will help maintain our leadership in the new AI business and drive long term business growth."

"In the third quarter of 2022, Baidu Core's non-GAAP operating profit increased by 14% year over year to RMB6.7 billion despite that the resurgence of COVID-19 pressured revenue performance. This achievement is attributable to our relentless efforts in cost optimization and operational efficiency." said Rong Luo, CFO of Baidu. "Going forward, we will continue to focus on quality revenue growth. At the same time, we will keep investing in technology and talents to propel our future development."
