KENNEDY WILSON

Kennedy Wilson grew out of a small office in Santa Monica, California built on trust and a people-first attitude. Relationships are still at the heart of our global real estate investment company as we have grown to \$23B of real estate assets under management (AUM). It is those relationships and mutual trust that enable us to empower the communities we activate and to design high-quality places for people to live, create, and flourish.

Today, we are a leading global real estate investment company. We own, operate, and invest in real estate through our balance sheet and through our investment management platform across the Western United States, United Kingdom, and Ireland. We focus on multifamily and office properties as well as industrial and debt investments in our investment management business.

William J. McMorrow
Chairman and Chief Executive Officer

Dear Fellow Shareholders,

I want to begin by wishing you and your families a happy and healthy 2023. We have all come through a challenging three years, starting with the shutdown in March 2020 that launched us into a period of uncertainty with far reaching effects to global health, economic systems, and workplace dynamics across the world. Today, we are in the midst of yet another challenging period created by higher interest rates, inflationary pressures, global political tensions, and continued supply chain issues. As I reflect on the past three years, I am proud that Kennedy Wilson has shown remarkable resilience navigating through this uncertainty and delivered outstanding results, including generating over \$2 billion of adjusted EBITDA, over \$1 billion of adjusted net income, and collecting \$4 billion of property-level rental income (Kennedy Wilson's share of which was 50%). At year-end 2022, our recurring estimated annual net operating income (NOI) grew to its highest level in our history – \$491 million – and Kennedy Wilson's fee-bearing capital rose to a record \$5.9 billion.

As a result of our performance, we returned \$1.23 per basic share or \$168 million to shareholders through common dividends and share repurchases in 2022.

People, Portfolio, and Partnerships

I am extremely honored to work alongside our dedicated team of professionals at Kennedy Wilson who never back down from a challenge, have worked together through several economic cycles, and most of all, are committed to working together to grow the company in a thoughtful way. Kennedy Wilson's ability to innovate, find opportunity, and navigate challenging periods is driven by our people who are constantly communicating, sharing ideas, and working as one global team.

The Bristol at Southport
Renton, WA

During 2022, our team completed a total of \$1.9 billion of gross real estate acquisitions, including 3,200 multifamily units and 4.5 million commercial square feet of industrial assets, as well as \$1 billion in loan originations.

Our people and the long-standing relationships we maintain in our key markets drive our business. Kennedy Wilson's on-the-ground teams have grown stronger over the past decade after working together through the great recession and the pandemic, and as a group, we have created a first-class reputation for following through on our word. This commitment to doing what we say we're going to do has only strengthened our ties with our partners around the globe including Fairfax Financial, which made a \$300 million strategic preferred equity investment in Kennedy Wilson in 2022. This partnership, along with our relationships with AXA, sovereign wealth funds, and Security Benefit, as well as owners, investors, brokers, lenders, and real estate industry professionals, has fueled our rapid growth, including the execution of \$31 billion in acquisitions and \$17 billion of real estate sales since going public in 2009.

In the past two years, we have added \$5 billion to our AUM, an increase of 31% over that period, concentrating almost two thirds of our stabilized portfolio in property sectors where we see strong cash flow growth, including rental apartments, logistics assets, and our floating-rate real estate loan portfolio. During 2022, our team completed a total of \$1.9 billion of gross real estate acquisitions, including 3,200 multifamily units and 4.5 million commercial square feet of industrial assets, as well as \$1 billion in loan originations. In total, our new investments added \$43 million of estimated annual NOI to Kennedy Wilson.

The key components of our high-quality global portfolio include:

- **Multifamily:** This is the largest sector of our global portfolio, totaling nearly 37,800 multifamily units. Kennedy Wilson has an approximate 60% ownership interest in our multifamily assets, which represent 54% of our estimated annual NOI. Our portfolio is concentrated in supply-constrained infill markets across the Western U.S. and Dublin, Ireland. In the U.S., which represents 90% of our multifamily NOI, we seek areas that offer a lower-cost, high quality of life. Our primary markets include the Mountain West, the greater suburban Seattle region, and suburban areas in Northern and Southern California.

Our capital recycling strategy enables us to upgrade the quality of our portfolio by selling non-core assets and harvesting value in investments where we have completed our business plan and then investing capital into our development projects and newer, better-located assets with superior long-term growth potential.

20 Kildare Street | Dublin, Ireland

- **Industrial:** Our industrial platform has seen rapid growth and now totals 10.6 million square feet (Kennedy Wilson ownership 18%) primarily across the UK and Ireland. We continue to focus on last-mile urban logistics assets with significant cash flow growth potential.
- **Office:** Kennedy Wilson has an approximate 57% ownership interest in our office portfolio, which represents 30% of Kennedy Wilson's estimated annual NOI. 70% of our office NOI is generated from our European portfolio, primarily from the UK and Ireland. The majority of our European office NOI is derived from major credit tenants with a strong weighted-average lease term of approximately eight years. Nearly all our European office assets are either low- or mid-rise, with two thirds of our assets either single-tenant or located within a business park. Our U.S. consolidated office portfolio includes five stabilized assets with 95% occupancy (at share) with credit tenants across diverse industries. Our global office portfolio has strong occupancy of 95% (at share), an attractive weighted-average unexpired lease term of six years, and no material near-term debt maturities.
- **Hospitality:** Kennedy Wilson owns two hotels - the five-star, landmark Shelbourne hotel, which enjoyed record growth in 2022 and will celebrate its 200-year anniversary in 2024, and the iconic Kona Village resort opening this summer in Hawaii.

Our capital recycling strategy enables us to upgrade the quality of our portfolio by selling non-core assets and harvesting value in investments where we have completed our business plan and then investing capital into our development projects and newer, better-located assets with superior long-term growth potential. In 2022, we generated approximately \$325 million in cash and over \$100 million in consolidated gains on asset sales earmarked for this strategy, for a total of \$850 million in gains on asset sales since 2020, which generated cash of \$1.6 billion.

In anticipation of the risks associated with today's inflationary and interest rate environment, our teams have been focused on refinancing both unsecured corporate debt and property-level debt on a long-term, fixed-rate basis. We never believed inflation was transitory and we executed a global plan to manage our debt maturities over the past several years to minimize our exposure to rising interest rates. Our overall debt now has a weighted average maturity of nearly six years and an effective interest rate of 4.2%. In 2022, we also completed \$100 million of discounted debt repurchases that resulted in \$22 million of gains on our early extinguishment of debt. Today, 97% of our share of debt is either fixed-rate or hedged against increases in interest rates.

Looking ahead to 2023 and beyond, we believe we have a clear path to continue growing both our recurring NOI and our fee income. Our extensive network of relationships with institutional partners combined with the significant amount of capital we can deploy, including approximately \$3.5 billion of non-discretionary fee-bearing capital from announced platforms, will enable us to act quickly as opportunities present themselves. Additionally, we are nearing the completion of many significant development projects, which will further grow our recurring cash flow.

Development Portfolio Nears Completion

Kennedy Wilson's development pipeline has played a key role in our progress towards growing our estimated annual NOI and will be an important driver of NOI growth from 2023 through 2025. Our development and lease-up portfolio is expected to generate \$96 million of additional estimated annual NOI to Kennedy Wilson when assets in our pipeline are stabilized.

In 2023 and 2024, we are on track to complete and deliver \$2.4 billion of development, including 3,400 market rate and affordable multifamily units across the Western U.S. and Dublin, 420,000 commercial square feet in Dublin, and one hotel property in Hawaii, all of which are expected to stabilize between 12 to 18 months following construction.

Following the completion and lease-up of the award-winning Capital Dock project, with 370,000 commercial square feet and 190 multifamily units, the 877-unit Clancy Quay community in Dublin, and the 277-unit Clara community in Boise in recent years, we stabilized five additional multifamily and office assets in 2022 that have added \$10 million of estimated annual NOI. Our major accomplishments in 2022 included completing and nearly fully leasing the 65,000 square-foot 20 Kildare Street office development in Dublin, and completing the development and full lease-up of Ten Hanover Quay, a Grade-A, 69,000 square-foot office warehouse in Dublin that was built to LEED and WELL Gold credentials. Both properties are now generating meaningful cash flow from long-term leases with very high-quality companies that we are grateful to have as clients.

In 2023 and 2024, we are aiming to complete and deliver approximately \$2.4 billion in development, including 3,400 market rate and affordable multifamily units across the Western U.S. and Dublin, 420,000 commercial square feet in Dublin, and one hotel property in Hawaii, all of which are expected to stabilize between 12 to 18 months following construction.

Our Vintage Housing senior and affordable housing joint venture is an important area of growth for our U.S. multifamily business. Together with our partners, we have grown this platform by over 100% since acquiring our partnership interest in Vintage Housing's 5,500-unit portfolio in 2015. We are continuing to build high-quality, affordable rental communities in a very capital light manner to meet the extraordinary demand for senior and affordable housing that we are seeing in our Western U.S. markets. We look forward to delivering 2,400 new units by the end of 2025, which will bring the total units in the Vintage Housing platform to approximately 12,000.

Anacapa Canyon | Camarillo, CA

The Qxbow | Bozeman, MT

Kona Village | Kona Coast, HI

Among the projects we expect to be completed in 2023 is the redevelopment of Kona Village, A Rosewood Resort, which concludes a seven-year effort to bring this beloved resort back to life on the Island of Hawaii's renowned Kona Coast. The reconstructed luxury resort will generate and store 100% of renewable energy onsite, target LEED certification, and models the spirit of the original Kona Village in its low-density architectural layout while embracing local culture and providing incredible guest amenities on 81 acres. Also delivering this year is Coopers Cross, our six-acre mixed-use campus with 471 multifamily units and 395,000 square feet of commercial space that will be a sustainable, Grade-A office and residential offering in the heart of Dublin, Ireland.

The reconstructed luxury resort will generate and store 100% of renewable energy onsite, target LEED certification, and models the spirit of the original Kona Village in its low-density architectural layout while embracing local culture and providing incredible guest amenities on 81 acres.

The upcoming delivery of our major construction projects is the result of the long-term strategy we embarked on nearly ten years ago. We initially focused on new developments on land adjacent to properties we already owned that had proven income streams. These properties were all in markets with strong demographics, plentiful job opportunities, and great lifestyle benefits. Over the years, we've built out our own talented in-house global construction management team both in the U.S. and in Europe. We continued to move forward over the last three years on all our projects with minimal disruptions from mandated site closures and we are completing our projects on time and on budget.

54%

Multifamily Assets in Global Portfolio

20%+

Return on Renovated Units

A Unique Multifamily Portfolio

We continue to weight our investments towards multifamily rental properties, which today is our largest sector representing 54% of our portfolio, compared to just 39% in 2017. In the U.S., we saw strong performance in 2022 from our two top apartment regions, the Mountain West and the Pacific Northwest, which experienced same-property NOI growth of 14% and 12%, respectively. Idaho, Arizona, Nevada, and Utah offer lower state taxes and are top ranked for domestic net migration and job creation, consistent with the trends we see on the ground as greater remote connectivity and flexible work arrangements enable high-skilled renters to enjoy the lifestyle benefits of the Mountain West. In the Pacific Northwest, our second largest region where many of our largely suburban assets have undergone value-add upgrades, rents grew by 10% in 2022. More than half of our multifamily units in the Western U.S. are yet to be renovated, which provides a solid runway for continued growth, as we are earning over 20% returns on cost on renovated units.

In the U.S., we saw strong performance in 2022 from our two top apartment regions, the Mountain West and the Pacific Northwest, which experienced same-property NOI growth of 14% and 12%, respectively.

In Dublin, our 2,500 multifamily units are currently 99% occupied, the highest level in Kennedy Wilson's history, which speaks to the continued demand for amenity-rich rental housing. Ireland was once again Europe's fastest growing economy in 2022. Given the continued undersupply of housing in Dublin, we are anticipating great leasing activity on our approximately 1,000 Irish multifamily units under development at Coopers Cross, The Grange, and the Cornerstone that are scheduled to be completed by the first quarter of 2024.

95%

Commercial Portfolio Occupancy

Leasing Success

Our very talented global asset management teams continue to drive impressive operating results within our global commercial portfolio. In 2022, we completed approximately 2.5 million square feet of leasing, which resulted in strong occupancy of 95% across our commercial portfolio at year-end.

We continue to see a flight to quality as occupiers look for buildings with best-in-class space, which is leading to solid leasing demand and improvements in occupancy across our office assets. At 111 Buckingham Palace Road in Central London, our largest office asset, occupancy improved from 80% in Q4 2021 to 100% in Q4 2022. Similarly, occupancy grew from 84% to 100% at One Embassy Gardens, a 156,000 square-foot property located in the growing Nine Elms London submarket.

We continue to see a flight to quality as occupiers look for buildings with best-in-class space, which is leading to solid leasing demand and improvements in occupancy across our office assets. At 111 Buckingham Palace Road in Central London, our largest office asset, occupancy improved from 80% in Q4 2021 to 100% in Q4 2022.

We also continue to see strong rent growth across our UK logistics portfolio. Most regions in the UK saw double-digit growth in rents in 2022 and UK vacancy remained tight at 2%. Occupancy in our portfolio was strong at 98% as we completed 40 lease transactions totaling 700,000 square feet in 2022, resulting in a 32% increase in rents. In-place rents were 33% under market at the end of 2022, with further rent growth projected as new developments in our markets slow down.

Investment Management Platform Momentum

Our investment management platform has been a fast growing part of our business in recent years driven by the successful launch of our new debt and logistic strategies. Kennedy Wilson now has \$5.9 billion in fee-bearing capital, representing 100% growth in the past three years, with an incremental \$3.5 billion in capital from announced platforms available to continue growing our fee business. The growth in our investment management platform has led to a 27% year-over-year increase in the base investment management fees that we earn.

Our debt platform has rapidly grown to \$2.7 billion since we started from scratch in May 2020, and as traditional sources of capital continue to pull back and debt capital becomes harder to find, we are well positioned to take advantage of the current lending opportunities. We are lending to higher-quality sponsors at lower leverage points with higher base rates, resulting in attractive unlevered returns to Kennedy Wilson north of 17%, including our asset management fees. We have a 6% ownership in our debt platform that was launched alongside our fantastic long-term partners Fairfax Financial and Security Benefit, and we have an additional loan capacity of approximately \$3 billion.

Our global logistics portfolio is also a significant driver of growth within our investment management platform. In 2022, our industrial portfolio grew to over 100 assets across 11 million square feet with total AUM of \$1.7 billion. The majority of our growth in this sector has been through our logistics platform, where we invest primarily in the UK and Ireland with our sovereign wealth fund partner. In this platform, we are focused on institutional-quality, last-mile assets with significant potential for NOI growth. We are looking to continue expanding our logistics platform along with our partner, who has committed to target total AUM of \$2.5 billion.

Kennedy Wilson Women Speaker Series

Responsible Investing and Thank You

We have been through five economic cycles over the last four decades at Kennedy Wilson, which has provided important perspective in dealing with current market conditions. We are focused on a long-term approach to our investment decisions while at the same time creating deep relationship ties in the markets where we do business. That long-term perspective also drives our desire to improve the communities where we operate, and is reflected in the main pillars of our environmental, social, and governance (ESG) program that is integrated across our business: optimizing resources for a healthy work environment and productive business; creating great places for people to live, work, and thrive; building communities for a prosperous society; and operating responsibly to ensure business-wide transparency and accountability, with a clear focus on empowering our employees.

We are focused on a long-term approach to our investment decisions while at the same time creating deep relationship ties in the markets where we do business. That long-term perspective also drives our desire to improve the communities where we operate, and is reflected in the main pillars of our environmental, social, and governance (ESG) program that is integrated across our business.

I am proud of our team's performance in 2022, and we are moving forward from a place of strength with a high-quality, diverse portfolio combined with well-located assets and an experienced, dedicated team that has a tireless work ethic. The key to our success over the past three decades has been our ability to keep the same group of people together, all operating within our unique culture to grow Kennedy Wilson in a sound manner with a long-term outlook on our decisions.

Thank you to the entire Kennedy Wilson team for your commitment to our company and to our Board of Directors for your leadership, counsel, and for constantly challenging us, which has played an extremely important role in our shared success. Finally, thank you to our shareholders, lenders, and strategic partners for your ongoing support of our company.

Business

Company Overview

Kennedy Wilson is a global real estate investment company. We own, operate and develop high-quality real estate across growing markets in the Western United States, the United Kingdom and Ireland with the objective of generating long-term risk-adjusted returns for our shareholders and partners. For the year ended December 31, 2022, our 230 employees managed a total of \$23.0 billion of Real Estate Assets Under Management ("AUM"), which includes 37,781 multifamily units (including 4,994 units under lease up or in process of being developed), 11.7 million office square feet, 10.6 million industrial square feet and 3.9 million retail square feet (including 1.7 million square feet under lease up or in process of being developed), and \$2.5 billion of development, residential and other. For the year ended December 31, 2022, the \$20.5 billion of operating properties within our AUM as of December 31, 2022 produced total revenue of \$1.4 billion (KW's share of which was \$706.0 million) compared to \$18.7 billion of operating properties as of December 31, 2021 with total revenue of \$1.2 billion (KW's share of which was \$583.0 million) during the same period in 2021. Our global team, located in offices throughout the United States, the United Kingdom, Ireland, Spain and Jersey, also managed the consummation of \$1.9 billion of gross acquisitions and \$970.0 million of loan investments (KW's ownership interest of 51% and 5%, respectively) and \$1.3 billion of gross dispositions and \$412.8 million of loan repayments (KW's ownership interest of 40% and 9%, respectively) during the year ended December 31, 2022.

Our global real estate portfolio is primarily comprised of multifamily communities (57%), commercial properties (39%) and hotel and other properties (4%) based on our share of net operating income ("NOI"). The Western United States represents 61% of our portfolio, with a focus on the Mountain West region, our largest global region which includes our investments in Idaho, Utah, Nevada, Arizona, and New Mexico. We also invest in the Pacific Northwest, including the state of Washington, and Northern and Southern California. In Europe, our portfolio is focused in the United Kingdom (16%) and Ireland (21%).

Our investment activities in our Consolidated Portfolio (as defined below) involve ownership of multifamily units, office, retail and industrial space and one hotel. Our ownership interests in such consolidated properties make up our Consolidated Portfolio ("Consolidated Portfolio") business segment as discussed in detail throughout this report.

In addition to investing our shareholder's capital, we invest capital on behalf of our partners in real estate and real estate related assets through our Co-Investment Portfolio ("Co-Investment Portfolio"). This fee-bearing capital represents total third-party committed or invested capital that we manage in our joint ventures and commingled funds that entitle us to earn fees, including, without limitation, asset management fees, construction management fees, acquisition and disposition fees and/or promoted interest, if applicable. As of December 31, 2022, our fee-bearing capital was \$5.9 billion and we recognized \$44.8 million in recurring investment management fees during the year ended December 31, 2022. In our Co-Investment Portfolio, we are also eligible to earn performance allocations (amounts that are allocated to us on co-investments we manage based on the cumulative performance of the underlying investment). During the year ended December 31, 2022, we had a reversal of \$21.1 million in performance allocations that we previously recognized based on the fair value of the underlying investment. Please see "Fair Value Investments" below for a discussion of our assets held at estimated fair value and our methodology with respect to the same. We generally invest our own capital alongside our equity partners in these joint ventures and commingled funds that we manage.

Business (continued)

As of December 31, 2022, the following key metrics of our Consolidated and Co-Investment Portfolio are as follows:

	Consolidated	Co-Investments
Multifamily units–market rate	11,475	14,780
Multifamily units–affordable	—	11,526
Office square feet (millions)	4.8	6.9
Industrial square feet (millions)	—	10.6
Retail square feet (millions)	2.5	1.4
Hotels	1	1
Real estate debt investments–100% (billions)	\$ —	\$ 2.4
Real estate debt investments–KW Share (millions)	\$ —	\$ 155.1
Revenues (millions)	\$ 481.8	\$ 276.0
NOI (millions)	\$ 294.2	\$ 157.6
AUM (billions)	\$ 9.2	\$ 13.8

In our Co-Investment Portfolio, 88% of our carrying value is accounted for at fair value. Our interests in such joint ventures and commingled funds and the fees that we earn from such vehicles make up our Co-Investment Portfolio segment as discussed in detail throughout this report.

In addition to our income-producing real estate, we also engage in development, redevelopment and value add initiatives through which we enhance cash flows or reposition assets to increase value. Our total share of development project costs with respect to these investments are estimated at \$379.0 million over the next three years. These costs are generally financed by cash from our balance sheet, capital provided by partners (if applicable), cash flows from investment and construction loans. Cost overrun risks are reduced by detailed architectural plans, guaranteed price contracts and supervision by expert Company executives and personnel. When completed, the construction loans are generally replaced by long-term mortgage financing. See additional detail in the section titled *Development and Redevelopment* below.

Investment Approach

The following is our investment approach:

- Identify countries and markets with an attractive investment landscape
- Establish operating platforms in our target markets
- Develop local intelligence and create long-lasting relationships, primarily with financial institutions
- Leverage relationships and local knowledge to drive proprietary investment opportunities with a focus on off-market transactions that we expect will result in above average cash flows and returns over the long term
- Acquire high quality assets, either on our own or with strategic partners
- Reposition assets to enhance cash flows post-acquisition
- Explore development opportunities on underutilized portions of assets, or acquire development assets that fit within our overall investment strategy
- Continuously evaluate and selectively harvest asset and entity value through strategic realizations using both the public and private markets

The table below highlights some of the Company's key metrics over the past five years:

	Year Ended December 31,				
(\$ in millions, except fee-bearing capital which \$ in billions)	2022	2021	2020	2019	2018

Business (continued)

Business Segments

Our operations are defined by two business segments: our consolidated investment portfolio (the "Consolidated Portfolio") and our co-investment portfolio (the "Co-Investment Portfolio")

- Our Consolidated Portfolio consists of the investments in real estate and real estate-related assets that we have made and consolidate on our balance sheet. We typically wholly-own the assets in our Consolidated Portfolio.
- Our Co-Investment Portfolio consists of (i) the co-investments in real estate and real estate-related assets, including loans secured by real estate, that we have made through the commingled funds and joint ventures that we manage; (ii) fees (including, without limitation, asset management fees and construction management fees); and (iii) performance allocations that we earn on our fee-bearing capital. We typically have a 5% to 50% ownership interest in the assets in our Co-Investment Portfolio. We have a weighted average ownership of 41% as of December 31, 2022.

In addition to our two primary business segments, our Corporate segment includes, among other things, our corporate overhead and our property services group prior to its sale in October 2020.

Consolidated Portfolio

Our Consolidated Portfolio is a permanent capital vehicle focused on maximizing property cash flow. These assets are primarily wholly-owned and tend to have longer hold periods and we target investments with accretive asset management opportunities. We typically focus on office and multifamily assets in the Western United States and commercial assets in the United Kingdom and Ireland within this segment.

The non-GAAP table below represents a summarized balance sheet of our Consolidated Portfolio which is held at historical depreciated cost as of December 31, 2022 and 2021. This table does not include amounts from our corporate segment such as corporate cash and the KWH Senior Notes.

(\$ in millions)	December 31, 2022	December 31, 2021
Cash and cash equivalents ⁽¹⁾	\$ 316.7	\$ 362.3
Real estate and acquired in place lease values	5,188.1	5,059.8
Accounts receivable and other assets, net	135.1	111.7
Total Assets	\$ 5,639.9	\$ 5,533.8
Accounts payable, accrued expenses and other liabilities	156.6	142.1
Mortgage debt	3,018.0	2,959.8
KWE unsecured bonds	506.4	622.8
Total Liabilities	3,681.0	3,724.7
Equity	\$ 1,958.9	\$ 1,809.1

⁽¹⁾ Excludes \$122.5 million and \$162.5 million as of December 31, 2022 and December 31, 2021, respectively, of corporate non-property level cash.

Co-Investment Portfolio

We utilize different platforms in the Co-Investment Portfolio segment depending on the asset and risk return profiles.

The table below represents the carrying value of our Co-Investment Portfolio balance sheet which is primarily at fair value, at our share of the underlying investments as of December 31, 2022 and December 31, 2021. The Co-Investment Portfolio consists of our unconsolidated investments as well as our loan purchases and originations.

(\$ in millions)	December 31, 2022	December 31, 2021
Cash and cash equivalents	\$ 86.9	\$ 103.7
Real estate and acquired in place lease values	4,319.1	3,667.9
Loan purchases and originations	158.7	143.4
Accounts receivable and other assets, net	298.0	311.9
Total Assets	\$ 4,862.7	\$ 4,226.9
Accounts payable, accrued expenses and other liabilities	88.0	87.1
Mortgage debt	2,387.2	2,061.9
Total Liabilities	2,475.2	2,149.0
Equity	\$ 2,387.5	\$ 2,077.9

Separate accounts

We have several equity partners whereby we act as the general partner and receive investment management fees including acquisition, disposition, financing, construction management and other fees. We also can earn performance allocations if investments exceed certain return hurdles. In addition to acting as the asset manager and general partner of those joint ventures, we are also a co-investor in these investments. Our separate account platforms have defined investment parameters such as asset types, leverage and return profiles and expected hold periods. As of December 31, 2022, our weighted average ownership interest in the various joint ventures that we manage was 45%.

Commingled funds

We currently have four closed-end funds that we manage and through which we receive investment management fees and potentially performance allocations. We focus on sourcing investors in the U.S., Europe and Middle East and target investments in the U.S. and Europe with respect to our commingled funds. Each of our funds have, among other things, defined investment guidelines, investment hold periods and target returns. Currently our U.S.-based funds focus on value-add properties that have an expected hold period of 5 to 7 years. Our European fund focuses on value add commercial properties in the United Kingdom, Ireland and Spain that also have expected hold periods of 5 to 7 years. As of December 31, 2022, our weighted average ownership interest in the commingled funds that we manage was 13%.

VHH

Through our Vintage Housing Holdings ("VHH") partnership, we acquire and develop income and age restricted properties. See a detailed discussion of this business in the Multifamily section below.

Business (continued)

Investment Types

The following are the product types we invest in through our Consolidated Portfolio and Co-Investment Portfolio segments:

Multifamily

We pursue multifamily acquisition opportunities where we can unlock value through a myriad of strategies, including institutional management, asset rehabilitation, repositioning and recapitalization. We focus primarily on apartments in supply-constrained, infill markets.

As of December 31, 2022, we held investments in 149 multifamily assets that include 11,475 consolidated market rate multifamily apartment units, 14,780 market rate units within our Co-Investment Portfolio and 11,526 affordable units in our VHH platform. The unit accounts above include units that are unstabilized and undergoing development. Our largest Western United States multifamily regions are the Mountain West region (Idaho, Utah, Montana, Colorado, Arizona, New Mexico and Nevada) and the Pacific Northwest (primarily the greater Seattle area and Portland, Oregon). The remainder of the Western United States portfolio is located in Northern and Southern California. In Ireland we focus on Dublin city center and the suburbs of the city.

Our asset management strategy entails installing strong property management teams to drive leasing activity and upkeep of the properties. We also seek to add amenities designed to promote health and wellness, celebrate local and cultural events and enhance the lives of residents living in our communities. We also incorporate spaces for rest and socialization across our global multifamily portfolio, including clubhouses, fitness centers, business suites, outdoor play areas, pools and dog parks. Lastly, we utilize real-time market data and artificial intelligence-based applications to ensure we are attaining current market rents.

Multifamily—Affordable Housing

Through our VHH platform we focus on affordable units based on income or age restrictions. With homes reserved for residents that make 50% to 60% of the area's median income, VHH provides an affordable long-term solution for qualifying working families and active senior citizens, coupled with modern amenities that are a hallmark of our traditional multifamily portfolio. Fundamental to our success is a shared commitment to delivering quality affordable homes and building communities that enrich residents' lives, including providing programs such as social support groups, after-school programs, transportation assistance, computer training, and wellness classes.

VHH typically utilizes tax-exempt bond financing and the sale of federal tax credits to help finance its investments. We are entitled to 50% of the operating cash flows from the VHH partnership in addition to any investing distributions we receive from federal tax credits or refinancing activity at the property level.

When we acquired VHH in 2015, the portfolio consisted of 5,485 units. As of December 31, 2022, the VHH portfolio includes 9,157 stabilized rental units with another 2,369 units currently under stabilization, development or undergoing entitlements in the Western United States. We acquired our ownership interest in VHH in 2015 for approximately \$80.0 million. As of December 31, 2022, we have contributed an additional \$121.8 million into VHH and have received \$267.9 million in cash distributions. VHH is an unconsolidated investment that we account for using the fair value option, which had a carrying value of \$272.3 million as of December 31, 2022. We have recorded \$268.5 million worth of fair value gains on our investment in VHH over the life of the investment, including \$108.4 million during the year ended December 31, 2022.

Commercial

Our investment approach for office acquisitions differs across our various investment platforms. For our Consolidated Portfolio, we look to invest in large high quality properties with high replacement costs. In our separate account portfolios, our partners have certain characteristics that factor into our investment decision, including, without limitation, location, financing (unencumbered properties) or hold periods. In our commingled funds that we manage, we typically look for opportunities that have a value-add component that can benefit from our asset management expertise. We do not typically own high-rise buildings in city centers and instead look to invest in mid-to-low rise buildings in areas adjacent to city centers and suburban markets. After acquisition, the properties are generally repositioned to enhance market value.

Our industrial portfolio consists mainly of distribution centers located in the United Kingdom, Ireland, Spain and Mountain West regions.

Our retail portfolio has different characteristics based on the geographic markets wherein the properties are located. In Europe, we have a mixture of high street retail, suburban shopping centers and leisure assets which are mainly located in the United Kingdom, as well as in Dublin and Madrid. In our Western United States retail portfolio, we invest in shopping centers that are generally grocery anchored.

As of December 31, 2022, we hold investments in 58 office properties totaling over 11.7 million square feet, 109 industrial properties totaling 10.6 million square feet and 39 retail properties totaling 3.9 million square feet, predominately in the United Kingdom and Ireland with additional investments in the Pacific Northwest, Southern California, Spain and Italy. Our Consolidated Portfolio held over 4.8 million square feet of office space and 2.5 million square feet of retail space. Our Co-Investment Portfolio held 6.9 million square feet of office space, 10.6 million square feet of industrial space and 1.4 million square feet of retail space.

Development and redevelopment

We have a number of development, redevelopment and entitlement projects that are underway or in the planning stages. Unlike the residential projects that are held for sale and described in the *Residential and Other* section below, these initiatives may ultimately result in income-producing assets. As of December 31, 2022, we are actively developing 2,220 multifamily units, 0.4 million commercial rentable square feet and 150 hotel rooms. If these projects are brought to completion, the Company's estimated share of the total capitalization of these projects would be approximately \$1.1 billion (approximately 70% of which has already been funded), which we expect would be funded through our existing equity, third-party equity, project sales, tax credit financing and secured debt financing. This represents total capital over the life of the projects and is not a representation of peak capital and does not take into account any distributions over the course of the investment. We and our equity partners are under no obligation to complete these projects and may dispose of any such assets after adding value through the entitlement process. Please also see the section titled "*Liquidity and Capital Resources—Development and redevelopment*" in Management's Discussion and Analysis of Financial Condition and Results of Operations included in this report for additional detail on these investments.

Business (continued)

Real Estate Debt Investment

We have a global real estate debt platform with multiple partners. In March 2022, we announced the expansion of our global debt platform to over \$6 billion. Our global debt platform, which includes partners across insurance and sovereign wealth, seeks out investment opportunities across the entire real estate debt capital structure in the United States, United Kingdom and Europe and targets loans secured by high-quality real estate located in such jurisdictions. In our role as asset manager, we earn customary fees for managing the platform. Currently, our global debt platform investments have been made without the use of any leverage and are invested through our Co-Investment Portfolio.

As of December 31, 2022, we held interests in 39 loans, 87% of which have floating interest rates, with collateral located in the Western United States and the United Kingdom, with an average interest rate of 10.0% per annum and an unpaid principal balance ("UPB") of \$2.4 billion (of which our share was a UPB of \$155.1 million). Some of our loans contain additional funding commitments that will increase our loan balances if they are utilized. All of the loans in our global debt platform are performing and making payments as contractually agreed. In addition to interest income (which includes origination, exit and extension fees), we also earn customary asset management fees from our partners for managing these loan investments.

Our current loan portfolio is focused on performing loans. However, if market conditions deteriorate, we expect more opportunities to arise in acquiring loan portfolios at a discount to their contractual balance due as a result of deteriorated credit quality of the borrower. Such loans are underwritten by us based on the value of the underlying real estate collateral. Due to the discounted purchase price for such loans, we seek, and are generally able to, accomplish near term realization of the loan in a cash settlement or by obtaining title to the property. Accordingly, the credit quality of the borrower is not of substantial importance to our evaluation of the risk of recovery from such investments.

Hotel

We originally acquired debt interests in each of the hotels in our Consolidated and Co-Investment portfolios and were able to utilize these debt positions to take ownership of the real estate. These properties are examples of how we are able to leverage different platforms within the Company to add value to properties and shareholders.

As of December 31, 2022, we owned one consolidated operating hotel with 265 hotel rooms located in Dublin, Ireland. Additionally, in our Co-Investment Portfolio, we have a five-star resort development that will consist of 150 rooms in Kona, Hawaii and is currently expected to open in the second half of 2023.

Residential and Other

In certain cases, we may pursue for-sale housing acquisition opportunities, including land for entitlements, finished lots, urban infill housing sites and partially finished and finished housing projects. On certain income-producing acquisitions, there are adjacent land parcels for which we may pursue entitlement activities or, in some cases, development or re-development opportunities.

This group also includes our investment in liquid non-real estate investments which include investment funds that hold marketable securities and private equity investments.

As of December 31, 2022, we held 15 investments primarily comprised of 97 residential units/lots and 3,770 acres of land located in Hawaii and the Western United States. As of December 31, 2022, these investments had a Gross Asset Value of \$224.3 million and the Company had a weighted average ownership in such investments of 76%. These investments are in various stages of completion, ranging from securing the proper entitlements on land positions to sales of units/lots.

Fair Value Investments

As of December 31, 2022, \$2.1 billion, or 88%, of our investments in unconsolidated investments (25% of total assets) were held at estimated fair value. As of December 31, 2022, there were cumulative fair value gains of \$546.1 million which comprises 26% of the \$2.1 billion carrying value of fair value unconsolidated investments that are currently held. Our investment in VHH is our largest unconsolidated investment held at estimated fair value and was held at \$272.3 million and \$157.9 million as of December 31, 2022 and 2021, respectively. Fair value changes consist of changes in the underlying value of properties and associated mortgage debt as well as foreign currency fluctuations (net of any hedges) for non-dollar denominated investments. During the year ended December 31, 2022, we recognized \$93.5 million of fair value gains and performance allocations on unconsolidated investments.

In determining estimated fair market values, the Company utilizes two approaches to value real estate, a discounted cash flow analysis and direct capitalization approach.

Discounted cash flow models estimate future cash flows from a buyer's perspective (including terminal values) and compute a present value using a market discount rate. The holding period in the analysis is typically ten years. Although the ten year holding period is consistent with how market participants often estimate values in connection with buying real estate, these holding periods can be shorter depending on the life of the structure an investment is held within. The cash flows include a projection of the net sales proceeds at the end of the holding period, computed using a market reversionary capitalization rate.

Under the direct capitalization approach, the Company applies a market derived capitalization rate to current and future income streams with appropriate adjustments for tenant vacancies or rent-free periods. These capitalization rates and future income streams are derived from comparable property and leasing transactions and are considered to be key inputs in the valuation. Other factors that are taken into consideration include tenancy details, planning, building and environmental factors that might affect the property.

The Company also utilizes valuations from independent real estate appraisal firms on some of its investments ("appraised valuations"), with certain investment structures periodically (typically annually) requiring appraised valuations. All appraised valuations are reviewed and approved by the Company.

The accuracy of estimating fair value for investments cannot be determined with precision and cannot be substantiated by comparison to quoted prices in active markets and may not be realized in a current sale or immediate settlement of the asset or liability. Additionally, there are inherent uncertainties in any fair value measurement technique, and changes in the underlying assumptions used, including capitalization rates, discount rates, liquidity risks, and estimates of future cash flows could significantly affect the fair value measurement amounts. All valuations of real estate involve subjective judgments, and the actual market price of real estate can only be determined by negotiation between independent parties in a sales transaction.

Business (continued)

The table below describes the range of inputs used as of December 31, 2022 for real estate assets:

		<i>Estimated Rates Used For</i>	
		Capitalization Rates	Discount Rates
Multifamily	Income approach—discounted cash flow	5.80%–7.50%	8.00%–9.80%
	Income approach—direct capitalization	3.80%–5.70%	N/A
Office	Income approach—discounted cash flow	5.20%–7.50%	7.50%–9.30%
	Income approach—direct capitalization	4.20%–8.70%	N/A
Industrial	Income approach—discounted cash flow	5.00%–6.30%	6.30%–7.80%
	Income approach—direct capitalization	3.80%–8.30%	N/A
Retail	Income approach—discounted cash flow	6.50%	8.30%
Hotel	Income approach—discounted cash flow	6.00%	8.30%

In valuing indebtedness, Kennedy Wilson considers significant inputs to be the term of the debt, value of collateral, market loan-to-value ratios, market interest rates and spreads, and credit quality of investment entities. The credit spreads used by Kennedy Wilson for these types of investments range from 1.22% to 7.25%.

There is no active secondary market for the Company's development projects and no readily available market value given the uncertainty of the amount and timing of future cash flows. Accordingly, the Company's determination of fair value of the Company's development projects requires judgment and extensive use of estimates. Therefore, the Company typically uses investment cost as the estimated fair value until future cash flows become more predictable. Additionally, the fair value of its development projects may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that the Company may ultimately realize. If the Company were required to liquidate an investment in a forced or liquidation sale, it could realize significantly less than the value at which the Company have recorded it. In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the currently assigned valuations.

Ongoing macroeconomic conditions, such as, but not limited to, high inflation, central banks raising interest rates to curtail high inflation, currency fluctuations, the COVID-19 pandemic and the ongoing military conflict between Russia and Ukraine and international sanctions against Russia, continue to fuel recessionary fears and create volatility in our business results and operations. Any prolonged downturn in the financial markets or a recession, either globally or locally in the United States or in other countries in which we conduct business, could impact the fair value of investments held by the Company. As a result of the rapid development, fluidity and uncertainty surrounding these situations, the Company expects that information with respect to fair value measurement may change, potentially significantly, going forward and may not be indicative of the actual impact on our business, operations, cash flows and financial condition for the year ended December 31, 2022 and future periods.

Value Creation

Our differentiated and unique approach to investing is the cornerstone of how we create value for our shareholders. Our investment philosophy is based on three core fundamentals:

- Leverage our global footprint and complementary investment and investment management businesses to identify attractive investment markets across the world.

- Selectively invest in opportunities across many real estate product types with a goal of maximizing cash flow and risk-adjusted return on capital.
- Actively manage assets and finance our assets in a manner designed to generate stable, predictable and growing cash flows for shareholders and clients.

Kennedy Wilson is able to create value for its shareholders in the following ways:

- We are able to identify and acquire attractive real estate assets across many markets, in part due to the significant proprietary deal flow driven from an established global network of industry relationships, particularly with financial institutions. This can create value by allowing us to maintain and develop a large pipeline of attractive opportunities.
- Our operating expertise allows us to focus on opportunistic investments where we believe we can increase the value of assets and cash flows and include transactions with distressed real estate owners or lenders seeking liquidity, or purchases of under-managed or under-leased assets, and repositioning opportunities.
- We have been able to create place-making areas in our investment locations where we are able to make multiple investments in a particular city either through direct investments or development initiatives that further drives interest in the area.
- Many times, these investments are acquired at a discount to replacement cost or recent comparative sales, thereby offering opportunities to achieve above average total returns. In many cases, this may lead to significant additional returns, such as a carried interest (where we have partners), based on the performance of the assets.
- Our long-lasting and deep relationships with financial institutions allow us to refinance loans (generally after we implement our value-add initiatives) to reduce interest rates and/or increase borrowings due to property appreciation and thereby obtain cash flow to use for new investments.
- We have been able to attract third party capital due to our ability to generate above-market returns for our partners, diversity of geographic markets and investment product types as well as our flexibility in structuring deals through funds, separate accounts and equity partner arrangements.
- We understand that real estate is cyclical. Our management team employs a multi-cyclical approach that has resulted in our AUM being globally diversified across many sectors of real estate while maintaining a healthy liquidity position and adequate access to capital.

Competitive Strengths

We have a unique platform from which to execute our investment and investment management strategy. The combination of an investment and investment management platform provides several competitive strengths when compared to other real estate buyers and asset managers operating stand-alone or investment-focused firms and may allow us to generate superior risk-adjusted returns. Our investment strategy focuses on investments that offer significant appreciation potential through intensive asset management, leasing, repositioning, redevelopment and the opportunistic use of capital. We differentiate ourselves from other firms in the industry with our full service, investment-oriented structure.

Business (continued)

Our competitive strengths include:

- **Transaction experience:** Our senior management team has an average of over 25 years of real estate experience and has been working and investing together on average for almost 20 years. Members of the senior management team have collectively acquired, developed and managed in excess of \$30 billion of real estate investments in the United States, the United Kingdom, Ireland, Spain, Italy and Japan throughout various economic cycles, both at our Company and throughout their careers.
- **Extensive relationship and sourcing network:** We leverage our relationships in order to source attractive on and off-market deals. In addition, the senior management team and our acquisition team have transacted deals in nearly every major metropolitan market on the West Coast of the United States, as well as in the United Kingdom, Ireland, Spain, Italy and Japan. Their local presence and reputation in these markets have enabled them to cultivate key relationships with major holders of property inventory, in particularly financial institutions, throughout the real estate community.
- **Structuring expertise and speed of execution:** Prior acquisitions completed by us have taken a variety of forms, including direct property investments, joint ventures, exchanges involving stock or operating partnership units, participating loans and investments in performing and non-performing mortgages at various capital stack positions with the objective of long-term ownership. We believe we have developed a reputation of being able to quickly execute, as well as originate and creatively structure acquisitions, dispositions and financing transactions.
- **Strategic partnerships:** Through our relationships and transaction experience we have been able to establish various strategic partnerships with a variety of different companies and institutions in which we are highly collaborative and aligned with our partners in the deals. Coupled with our ability to structure acquisitions in a variety of ways that fit the needs of our strategic partners, we have been able to access various forms of capital due to our experience and versatility.
- **Vertically integrated platform for operational enhancement:** We have 230 employees in 12 offices throughout the United States, the United Kingdom, Ireland, Spain and Jersey. We have a hands-on approach to real estate investing and possess the local expertise in property and asset management, leasing, construction management, development and investment sales, which we believe enable us to invest successfully in selected submarkets.
- **Calculated risk taking:** We underwrite our investments based upon a thorough examination of property economics and a critical understanding of market dynamics and risk management strategies. We conduct an in-depth sensitivity analysis on each of our acquisitions. This analysis applies various economic scenarios that include changes to rental rates, absorption periods, operating expenses, interest rates, exit values and holding periods. We use this analysis to develop our disciplined acquisition strategies.
- **Management's alignment with shareholders:** As of December 31, 2022, our directors and executive officers and their respective affiliates owned an aggregate of approximately 14% of the outstanding shares of our common stock. Due to our management team's ownership interest in the Company its interests are in alignment with common shareholders of the Company and gives us an owner's mentality on the investments we own and manage.

The real estate business is cyclical. Real estate cycles are generally impacted by many factors, including availability of equity and debt capital, borrowing cost, rent levels, and asset values. Our strategy has resulted in a strong track record of creating both asset and entity value for the benefit of our shareholders and partners over these various real estate cycles.

Industry Overview

Key Investment Markets

Western United States

In 2022, the U.S. economy began to adjust to significant changes in monetary policy. For the first time since 2018, the Federal Reserve began to raise its key federal funds rate in 2022, ending the year by increasing rates 425 basis points, aiming to offset rising inflation. GDP decelerated to a 2.9% annualized pace in the fourth quarter of 2022, even though national unemployment rate improved to 3.5% from 3.9% at the beginning of the year. As a result of rapidly rising interest rates, the real estate transaction market in the U.S. fell sharply in the second half of the year, with transactions in the fourth quarter declining by over 60% according to Real Capital Analytics. The US equity markets, as measured by the S&P 500, experienced its worse year since 2008, driven by the onset of aggressive fed policy and potential risk of the U.S. economy experiencing a recession.

The multifamily sector continued to see strong rental growth in 2022 as overall demand for rental housing remained strong. Rising mortgage rates further drove demand due to the high cost of home ownership, and domestic migration patterns demonstrated that renters continued to move out of high cost cities and into more affordable markets. However, rising interest rates and borrowing costs resulted in declining transaction volumes, with fourth quarter 2022 multifamily volumes declining by an estimated 70% on a year-over-year basis. Investment volumes are expected to rebound when interest rates stabilize, as more debt capital is expected to be available for institutional investors, who remained on the sidelines during the fourth quarter of 2022. While the delivery of new supply is expected to rise in 2023, there continues to be a long-term undersupply of rental housing in the U.S., with CBRE estimating approximately 3.5 million new units that will be needed in the U.S. by 2035 to keep pace with demand. Kennedy Wilson's U.S. multifamily portfolio is largely comprised of garden style communities in suburban markets. In addition to our meaningful portfolio in the surrounding Seattle region, the Company has shifted its market-rate portfolio to the Mountain states, which now is the largest market-rate region by unit count and primarily consists of its assets in Utah, Idaho, and Nevada.

The outlook for office continued to be impacted by COVID-19 variants and the ability for workers to return to the office in 2022. Office investment volumes fell in fourth quarter of 2022 by 66%, compared to fourth quarter of 2021. Occupier demand for office is expected to improve in 2023, although there is a large divide between best-in-class primary office and secondary space. Hybrid working arrangements continues to see widespread adoption as occupiers focus on energy-efficient workplaces that offer a variety of amenities, new desirable technology, and flexible configurations. Kennedy Wilson's U.S. office portfolio is primarily located in Southern California and the Greater Seattle market. The majority of the U.S. office is owned with partners through the Company's Co-Investment segment.

Hawaii

The Hawaiian economy was negatively impacted by the COVID-19 pandemic but continues to experience a strong recovery. Travel to the islands has rebounded with 9.3 million visitors traveling to Hawaii in 2022, an increase of 37% from 2021. The luxury real estate market in Hawaii started off on a strong pace in 2022; however, as interest rates began to rise, transaction volumes slowed with total sales and transactions in 2022 decreasing by approximately 22% from 2021. However, property values in Hawaii continued to rise throughout every segment in 2022. The outlook remains positive for Hawaii, with almost 10 million visitors expected in 2023.

Business (continued)

Ireland

Ireland's economy is estimated to have had the strongest GDP growth across the EU at 10.1% in 2022 and the Organization for Economic Co-operation and Development is forecasting Ireland to have the highest GDP growth of any major European economy over the next two years.

Real estate investment volumes reached approximately €6.0 billion for 2022 which is the second strongest year on record. The overall investment volumes recorded in 2022 was up 9% on 2021 and almost 40% up on the 10-year average of €4.3 billion, a strong figure given the uncertain macroeconomic backdrop. Demonstrating Ireland's position as an attractive global real estate market, 62% of investments were from institutional investors, and foreign investors accounted for 68% of the volume.

Dublin office absorption was more than 2.5 million square feet in 2022 with 60% occurring in the second half of 2022 demonstrating a renewed level of employer confidence in the future of physical offices. Prime headline city center rents increased to €65.00 per square foot up from €57.50 in 2021 and are expected to remain stable over 2023.

The Irish multifamily sector remains the dominant investment sector accounting for 33% of all transactions in 2022. As a result of the persisting supply-demand gap in the Dublin rental market, average rent prices are expected to see further upward pressure in 2023.

United Kingdom

Annual GDP in the UK is estimated to have grown by 4.1% in 2022, following growth of 7.4% in 2021. Similar to trends in the U.S., the UK Consumer price index ("CPI") has continued on an upward trajectory to 10.5% in December. As of the beginning of February 2023 base rates have increased 50 basis points to 4% and headline CPI inflation has begun to edge back and is likely to fall over the rest of the year as a result of past movements in energy and other goods prices. The UK labor market remained strong, with the unemployment rate estimated at 3.7% at December 31, 2022.

Investment in UK commercial property fell by 24.9% to £10.1 billion during the fourth quarter 2022, from £13.4 billion at the end of September 2022, 6% higher than the fourth quarter ten-year quarterly average and 32% lower than the ten-year quarterly average. Capital deployed was split evenly with domestic investment accounting for 49% and international investment accounting for 51%.

In regards to South East London Offices, the 2022 annual transaction volume of £3 billion showed a 14% decrease on the five year annual average of £3.5 billion and a 30% decrease on 2021. Vacancy across the wider M25 market now stands at 11.2%, seeing a marginal decline quarter on quarter.

For the Industrial and Logistics sectors fourth quarter 2022 investment volumes totaled £1.5 billion (down 39% when compared to third quarter 2022), with multi-lets only capturing 26% of investment, down from 41% in third quarter 2022. Take up was 14.7 million square feet in fourth quarter 2022, almost exactly the same as in third quarter 2022 and 5% below the 5-year quarterly average. However, occupier take up for 2022 as a whole was 65.8 million square feet, down 25% on the record high in 2021, but still the second most active year on record.

In the UK Retail sector, economic headwinds proved strong in the second half of 2022, suppressing deal volumes to £2.75 billion (down 33% on the same period for 2021), contrasting against the high deal volumes of first half of 2022 at £3.58 billion (up 11% on the same period for 2021).

Environmental, Social and Governance (ESG)

Kennedy Wilson's approach to ESG aligns with its business strategy to maximize the inherent value of our assets and by striving to deliver long-term social, environmental, and economic value

across our portfolio and to our key stakeholders. We aim to integrate ESG factors into key business processes, underpinned by a measure, manage, and monitor approach framed by our four ESG pillars most relevant to our business: Optimizing Resources, Creating Great Places, Building Communities and Operating Responsibly. Details of this framework can be found on our ESG website (esg.kennedywilson.com) (this website address is not intended to function as a hyperlink, and the information contained in, or accessible from, our website is not intended to be a part of this filing).

The ESG Committee of the Board of Directors (the "ESG Committee") oversees the Company's ESG program, including opportunities and risk management strategies. The ESG Committee's main areas of focus include:

- Overseeing and reviewing the Company's ESG strategies, initiatives, and policies, including the Company's ESG-related reporting and disclosures.
- In conjunction with the Compensation Committee, overseeing and reviewing the Company's culture and human capital management strategy, initiatives, and policies, including our inclusion, diversity, and equity efforts; and
- In conjunction with the Audit Committee, overseeing risk management and oversight programs and performance-related material to ESG matters affecting Kennedy Wilson.

The ESG Committee is also responsible for overseeing Kennedy Wilson's management-level Global ESG Committee. The Global ESG Committee, chaired by our President and Board of Directors member Mary Ricks, manages the Company's ESG responsibilities and commitments and is responsible for formulating and implementing procedures and priorities to deliver the Company's ESG strategy.

The Global ESG Committee focuses on the following: monitoring compliance with existing and future material ESG-related laws and regulations applicable to the Company and its investments that would have a material impact on business operations; setting appropriate global ESG priorities aim to align across target markets; monitoring delivery progress; and supporting ESG communication to investors and other stakeholders. The Global ESG Committee is supported by two executive level ESG committees in the US and Europe, each of which focus on the implementation of ESG policies and strategies in their respective regions.

It is Kennedy Wilson's intention to manage ESG factors, both opportunities and risks, at the corporate, fund and individual assets level, with the goal of integrating robust procedures across all stages of its investment process. The Company's policies can be reviewed on its corporate website (<https://www.kennedywilson.com/corporate-responsibility>) (this website address is not intended to function as a hyperlink, and the information contained in, or accessible from, the Company's website is not intended to be a part of this filing) and cover guidelines and rules regarding ESG, anti-discrimination, anti-harassment, non-retaliation, human trafficking and slavery, fraud prevention, data security and data privacy.

Human Capital Management

Company Overview and Values

We operate as a non-bureaucratic, teamwork-oriented, and nimble organization. We promote an entrepreneurial culture, and at our core, we are powered by a team of focused, high-performance people who thrive on excellence in the workplace and a shared desire to make an impact.

Business (continued)

Workplace Diversity

We strive to maintain a diverse corporate culture, celebrating and promoting equality across gender, socio-economic backgrounds, education, and ethnicity. This allows for better representation of different viewpoints, historical perspective and can bring fresh ideas to all levels of the Company. Within Kennedy Wilson's total workforce of approximately 230 employees, 40% are women, with many serving in leadership positions throughout the company. Women also hold 25% of the board of director positions. In 2022, we continued Kennedy Wilson Woman speaker series as part of our efforts to advance women in real estate and finance and deepen our industry's talent pool.

Training and Development

Kennedy Wilson would not exist without our most important asset: our people. We strive to maintain a culture that fosters collaboration and innovation, and we take great pride in building and maintaining a driven, results-oriented workforce.

Our talent development program includes access to formal and informal mentorships, tuition reimbursement, where we are supporting employees who are seeking advanced certificates in areas of specialty that pertain to their role at Kennedy Wilson, and "Lunch and Learn" sessions. These alongside our regular global senior management calls continue to develop our managers to become more effective leaders. A dynamic internship and internal transfer program also helps promote personal development and improves leadership skills across all departments.

Through our annual summer internship program, we continue to find ways to better support our equality, diversity, and inclusion aspirations by building a diverse pipeline of talented individuals in the real estate industry with the intention to introduce our business to those who may not have considered a career in real estate.

Competition

We compete with a range of global, national and local real estate firms, individual investors and other corporations, both private and public. Our investment business competes with real estate investment partnerships, real estate investments trusts, private equity firms and other investment companies and regional investors and developers. We believe that our relationships with the sellers and our ability to close an investment transaction in a short time period at competitive pricing provide us a competitive advantage.

Foreign Currency

Approximately 37% of our investment account is invested through our foreign platforms in their local currencies. Investment level debt is generally incurred in local currencies and we consider our equity investment as the appropriate exposure to evaluate for balance sheet hedging purposes. We typically do not hedge foreign exchange rates for future operations or cash flows of operations, which may have a significant impact on the results of our operations. In order to manage the effect of fluctuations in foreign exchange rates, we generally hedge our book equity exposure to foreign currencies through currency forward contracts and options.

We wholly-own Kennedy Wilson Europe Real Estate Limited ("KWE"), which is domiciled in the United Kingdom and has GBP as its functional currency. KWE has investments in assets that have functional currencies of GBP and euros. Kennedy-Wilson Holdings, Inc. does not have a direct interest in the euro-denominated investments but has indirect ownership through its interest in

KWE. We cannot directly hedge the foreign currency movements in these euro-denominated assets but we do hedge foreign currency movements in euro assets at the KWE level through GBP/EUR hedging instruments. We then are able to hedge the USD/GBP foreign currency exposure through our direct interest in KWE.

Within KWE we have historically utilized three types of contracts to hedge our GBP/EUR exposure: foreign forward currency contracts; a cross currency swap (until its settlement in September 2021) on the 3.95% pound sterling-denominated bonds due 2022 (the "KWE Bonds") (swapped GBP to EUR); and the KWE Euro Medium Term Notes ("KWE Notes"). The KWE Notes were issued in euros and held by KWE but we have elected to treat the foreign currency movements as a net investment hedge on our euro-denominated investments in KWE. The foreign currency movements on these hedge items above are recorded to unrealized foreign currency derivative contract gains/losses within other comprehensive income for GBP/EUR movements. However, when we translate our investment in KWE from USD/GBP, the foreign currency movements on these items go through unrealized foreign currency translation gains/losses within other comprehensive income.

Please refer to Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation for a discussion regarding foreign currency and currency derivative instruments.

Transaction-Based Results

A significant portion of our cash flow is tied to transaction activity which can affect an investor's ability to compare our financial condition and results of operations on a quarter-by-quarter or year-over-year basis or to easily evaluate the breadth of our operation. Historically, this variability has caused our revenue, net income and cash flows to be tied to transaction activity, which is not necessarily concentrated in any one quarter.

Employees

As of December 31, 2022, we have 230 employees in 12 offices throughout the United States, the United Kingdom, Ireland, Spain and Jersey. We believe that we have been able to attract and maintain high quality employees. There are no employees subject to collective bargaining agreements. In addition, we believe we have a strong relationship with our employees.

Available Information

Information about us is available on our website (<http://www.kennedywilson.com>) (this website address is not intended to function as a hyperlink, and the information contained in, or accessible from, our website is not intended to be a part of this filing). We make available on our website, free of charge, copies of our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, Proxy Statements on Schedule 14A and amendments to those reports and other statements filed or furnished pursuant to Section 13(a), 14 or 15(d) of the Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after filing or submitting such material electronically or otherwise furnishing it to the SEC. In addition, we have previously filed registration statements and other documents with the SEC. Any document we file is available at the SEC's internet address at <http://www.sec.gov> (this website address is not intended to function as a hyperlink, and the information contained in, or accessible from, the SEC's website is not intended to be a part of this filing).

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the financial statements and related notes and the other financial information appearing elsewhere in this report. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. See the section titled "Forward-Looking Statements" for more information. Actual results could differ materially from those anticipated in the forward-looking statements as a result of many factors, including those discussed in the section titled "Risk Factors" and elsewhere in this report.

Unless specifically noted otherwise, as used throughout this Management's Discussion and Analysis section, "we," "our," "us," "the Company" or "Kennedy Wilson" refers to Kennedy-Wilson Holdings, Inc. and its wholly-owned subsidiaries. "Equity partners" refers to the subsidiaries that we consolidate in our financial statements under U.S. GAAP (other than wholly-owned subsidiaries) and third-party equity providers. Please refer to "Non-GAAP Measures and Certain Definitions" for definitions of certain terms used throughout this report.

Overview

Kennedy Wilson is a global real estate investment company. We own, operate and develop high-quality real estate across growing markets in the Western United States, the United Kingdom and Ireland with the objective of generating long-term risk adjusted returns for our shareholders and partners. As of December 31, 2022, we have 230 employees in 12 offices primarily located throughout the United States, the United Kingdom, Ireland and Spain. As of December 31, 2022, our AUM stood at \$23.0 billion. The real estate that we hold in our global portfolio consists primarily of multifamily apartments (57%) and commercial (39%) based on Consolidated NOI and JV NOI. Geographically, we focus on the Western United States (61%), the United Kingdom (16%) and Ireland ((21%).

2022 Highlights

- For the year ended December 31, 2022, we had net income attributable to Kennedy-Wilson Holdings, Inc. common shareholders of \$64.8 million as compared to net income attributable to Kennedy-Wilson Holdings, Inc. common shareholders of \$313.2 million for the same period in 2021.
- For the year ended December 31, 2022 we had Adjusted EBITDA of \$591.5 million as compared to \$927.9 million for the same period in 2021.
- The decreases in net income attributable to Kennedy-Wilson Holdings, Inc. common shareholders and Adjusted EBITDA are due to higher gains on sale of real estate and higher fair value gains on unconsolidated investments during the year ended December 31, 2021, offset by higher fair value gains on interest rate derivatives and gains on extinguishment of debt during the year ended December 31, 2022.
- We recorded fair value gains and unrealized promotes (aggregate of \$93.5 million) during the year ended December 31, 2022, primarily due to fair value gains associated with fixed rate mortgages secured by our real estate assets, fair value gains associated with interest rate derivatives that we held on property level mortgages that have increased in value with rising interest rates and increases in fair value on our affordable housing portfolio VHH.

Results of Operations

The following tables summarize our results of operations by segment for the years ended December 31, 2022 and 2021 and is intended to be helpful in understanding the year over year explanations following the tables.

Our results of operations for 2021 and 2020 compared to 2020 can be found under Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, which is incorporated by reference herein to our Annual Report on Form 10-K for the fiscal year ended December 31, 2021, filed with the SEC on February 25, 2022, and is available on the SEC's website at www.sec.gov and our Investor Relations website at www.ir.kennedywilson.com.

Kennedy Wilson Consolidated Financial Results: Year Ended December 31, 2022 Compared to the Year Ended December 31, 2021

Financial Highlights

GAAP net income to common shareholders was \$64.8 million and \$313.2 million for the years ended December 31, 2022 and 2021, respectively.

Adjusted EBITDA was \$591.5 million for the year ended December 31, 2022, a 36% decrease from \$927.9 million for 2021. The decreases in GAAP net income to common shareholders and Adjusted EBITDA are due to lower gains on sale of real estate and fair value increases on our Co-Investment assets.

Operational Highlights

Same store property highlights for the year ended December 31, 2022 include:

- For our 12,917 same property market rate multifamily units for the year ended December 31, 2022 as compared to the prior period:
 - occupancy decreased 1% to 94%
 - net operating income increased 11%
 - total revenues increased 10%
- For our 8,017 same property affordable rate multifamily units for the year ended December 31, 2022 as compared to the prior period:
 - occupancy remained flat at 97%
 - net operating income increased 6%
 - total revenues increased 7%
- For our 3.8 million square feet of same property office real estate for the year ended December 31, 2022 as compared to the prior period:
 - occupancy remained flat at 95% from the same period in 2021
 - net operating income increased 1%
 - total revenues increased 1%
- Investment Transactions
 - acquired \$1.9 billion of assets (our share of which was \$984.9 million) and sold \$1.3 billion of assets (our share of which was \$518.0 million) during the year ended December 31, 2022. For the year ended December 31, 2021, we acquired \$2.9 billion of assets (our share of which was \$1.4 billion) and sold \$1.5 billion of assets (our share of which was \$811.9 million).
 - originated \$970.0 million of loans (our share of which was \$49.5 million) and had \$412.8 million of loans that were repaid (our share of which was \$35.5 million) during the year ended December 31, 2022. For the year ended December 31, 2021, we originated \$1.2 billion of loans (our share of which was \$94.3 million) and had \$253.1 million of loans that were repaid (our share of which was \$35.1 million).

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Foreign Exchange—Results of Operations

A significant portion of our investments are in foreign currencies. We typically do not hedge future operations or cash flows so changes in foreign currency rates will have an impact on our results of operations. We have included the table below to illustrate the impact these fluctuations have had on our revenues, net income and Adjusted EBITDA by applying the relevant exchange rates for the prior period. Please refer to the section titled "Currency Risk - Foreign Currencies" in Item 3 for a discussion of risks relating to foreign currency and our hedging strategy and the "Other Comprehensive Income" section below for a discussion of the balance sheet impact of foreign currency movements on our results of operations.

	Year Ended December 31, 2022					
	Consolidated		Co-Investment		Total	
Revenues	\$ (20.6)	(4)%	\$ (1.1)	—%	\$ (21.7)	(4)%
Net Income	(7.8)	(12)%	(6.0)	(9)%	(13.8)	(21)%
Adjusted EBITDA	(21.9)	(4)%	(8.2)	(1)%	(30.1)	(5)%

	Year Ended December 31, 2021					
	Consolidated		Co-Investment		Total	
Revenues	\$ 0.8	—%	\$ (0.4)	—%	\$ 0.4	—%
Net Income	(3.2)	(1)%	(15.6)	(5)%	(18.8)	(6)%
Adjusted EBITDA	(2.2)	—%	(16.2)	(2)%	(18.4)	(2)%

Consolidated Portfolio Segment

Rental income was \$434.9 million for the year ended December 31, 2022 as compared to \$390.5 million for the same period in 2021. The \$44.4 million increase is primarily due to the acquisition of office properties in the United Kingdom and multifamily properties in the Western United States. Additionally, we had a \$9.4 million reduction to rental income for the year ended December 31, 2022, as we assessed the full collection of these rents as improbable, primarily driven by the impact of the COVID-19 pandemic. This reduction was offset by the cash collection of \$7.5 million we received during the year ended December 31, 2022 on previously reserved receivables, which increased rental income. We had a \$12.9 million reduction to rental income for the year ended December 31, 2021, as we assessed the full collection of these rents as improbable, primarily driven by the impact of the COVID-19 pandemic. We received \$11.7 million on previously reserved receivables during the year ended December 31, 2021. The cash collections were primarily from governmental assistance programs for multifamily properties and collections of past due receivables at retail properties.

Hotel income was \$46.9 million for the year ended December 31, 2022 as compared to \$17.1 million for 2021. The \$29.8 million increase is due to improved operations of the Shelbourne Hotel during the year ended December 31, 2022, as COVID-19 related restrictions in Ireland have eased.

Gain on sale of real estate, net was \$103.7 million for the year ended December 31, 2022 as compared to \$412.7 million in the prior period. The gains recognized during the year ended December 31, 2022 related to the sale of non-core retail assets in the United Kingdom and the Western United States and a multifamily property in the Western United States. During the year ended December 31, 2022, we also recorded a gain of \$56.7 million in connection with the sale of a 49% interest in a previously wholly-owned multifamily asset to a strategic partner and the resulting deconsolidation of the investment from the Company's financial statements. For the year ended December 31, 2021, gain on

sale of real estate, net primarily related to the sale of a 49% interest in nine of our previously wholly-owned assets to a global institutional partner to commence our JV with such partner (the "MF seed portfolio") and resulting deconsolidation of the assets that made up the MF seed portfolio and the sale of Friars Bridge Court, an office building in the United Kingdom. Included in the gain on sale of real estate, net for December 31, 2022 is an impairment loss of \$13.3 million on non-core retail and office properties in the United Kingdom that were being prepared for sale and have carrying values above anticipated sales prices. For the year ended December 31, 2021, we recorded an impairment loss of \$20.9 million on two retail properties in the United Kingdom and a residential property in the Western United States.

Rental expenses increased to \$151.2 million for the year ended December 31, 2022 as compared to \$132.7 million for the year ended December 31, 2021. The increase was due to new acquisitions of office properties in the United Kingdom and multifamily properties in the Western United States as discussed above.

Hotel expenses increased to \$29.5 million for the year ended December 31, 2022 as compared to \$12.7 million for the year ended December 31, 2021, and is due to an increased level of activity and operations at the Shelbourne Hotel during 2022 as described above.

Compensation and related expenses decreased to \$41.5 million for the year ended December 31, 2022 as compared to \$60.4 million for the year ended December 31, 2021 as a result of a more challenging global real estate environment with rising rates in addition to lower Adjusted EBITDA, for the year ended December 31, 2022 compared to the prior period which drove a lower discretionary bonus compensation accrual.

General and administrative expenses decreased to \$14.7 million for year the ended December 31, 2022 as compared to \$18.5 million for the year ended December 31, 2021. While overall general and administrative expenses increased during the year there was a decrease in indirect costs associated with the Consolidated segment in the year the ended December 31, 2022.

Depreciation and amortization increased to \$172.9 million as compared to \$166.3 million for the year ended December 31, 2021. The increase was due to new acquisitions of office properties in the United Kingdom and multifamily properties in the Western United States as discussed above.

Interest expense was \$128.2 million for the year ended December 31, 2022 as compared to \$119.1 million for the year ended December 31, 2021. The increase is due to higher mortgage loan balance in the current year primarily due to consolidated multifamily acquisitions and increases in rates on variable and new fixed rate loans.

Gain on early extinguishment of debt was \$27.5 million for the year ended December 31, 2022 as compared to a loss on early extinguishment of debt of \$19.2 million in the same period in 2021. During the year ended December 31, 2022 we had gains associated with KWE's cash tender offer for up to €150 million in aggregate nominal amount of the KWE Notes, which resulted in acceptance of all of the €75.0 million (approximately \$80.3 million based on December 31, 2022 rates) in aggregate nominal amount of KWE Notes validly tendered pursuant to the tender offer for a purchase price equal to 82% of the nominal amount of the KWE Notes, and a mortgage on a retail property in the United Kingdom. With respect to these instruments, we extinguished certain amounts at discounts to their carrying value resulting in gains on extinguishment. These gains were offset by prepayment penalties on mortgage loans

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

that were refinanced during the year. In the year ended December 31, 2021, we incurred a \$16.3 million loss associated with the redemption of the KWE Bonds and the remaining balance was related to prepayment penalties on the refinancing of three multifamily property level mortgages. We also incurred a loss associated with the partial tender offer and subsequent redemption of the total balance of the 2024 Notes during the year ended December 31, 2021 as explained in the description of the "Corporate" segment below.

Other income was \$20.8 million for the year ended December 31, 2022 as compared to other loss of \$4.7 million for the year ended December 31, 2021. We had mark to market fair value gains of \$24.0 million on the Company's undesignated interest rate caps and swap contracts held by KWE and consolidated multifamily properties in the year ended December 31, 2022. Please also see Part I. Item 1. "Fair Value Investments" for additional details. We have entered into these undesignated contracts to hedge against rising interest rates. The gains from the interest rate contracts were offset by realized foreign currency exchange losses of \$2.0 million. Other loss for the year ended December 31, 2021 was due to realized foreign currency exchange losses.

Co-Investment Portfolio Segment

Investment Management

On our Co-Investment Portfolio assets, we receive asset management fees for managing assets on behalf of our partners. During the year ended December 31, 2022, fees recorded through revenues were \$44.8 million as compared to \$35.3 million for the same period in 2021. During the year ended December 31, 2022, we had higher base management fees as a result of having more AUM in our Co-Investment Portfolio mainly from growth in our European industrial platform and Western United States multifamily separate accounts. There was also an increase in AUM in our global real estate debt platform. Performance allocations are recorded as part of income from unconsolidated investments and discussed below.

Loans and other income increased to \$11.7 million for the year ended December 31, 2022 as compared to \$8.6 million for the same period in 2021. These amounts represent interest income on our share of loans within our global real estate debt platform and the increase was due to the growth of the platform over the last year.

Expenses decreased to \$55.1 million for the year ended December 31, 2022 as compared to \$90.9 million for the same period in 2021, primarily due to a \$46.3 million decrease to performance allocation expense. Performance allocation expense is a percentage of accrued performance allocations which declined over the year ended December 31, 2022 due to lower fair values on separate accounts and commingled funds that have performance allocation sharing programs.

Co-Investment Operations

In addition to our management of investments in the Co-Investment Portfolio, we have ownership interests in the properties. The table below represents a breakout of the amounts within income from unconsolidated investments which represents our share of underlying property investments in the Co-Investment Portfolio assets and any performance allocations relating to our management of these properties for the year ended December 31, 2022 and the year ended December 31, 2021:

	Year Ended December 31,	
	2022	2021
Revenue		
Rental	\$ 224.0	\$ 177.6
Sale of real estate	52.0	39.5
Total revenue	276.0	217.1
Fair value/other adjustments	110.2	210.6
Gain (loss) on sale of real estate, net	4.9	(3.1)
Performance allocations	(21.1)	117.9
Expenses		
Rental	66.4	53.2
Cost of real estate sold	40.7	36.8
Depreciation and amortization	3.8	5.6
Total expenses	110.9	95.6
Interest expense	(60.1)	(40.0)
Other loss	(17.9)	(17.9)
Provision for income taxes	(2.7)	—
Income from unconsolidated investments	\$ 178.4	\$ 389.0

The decrease in income from unconsolidated investments is primarily due to the following:

Valuations of our market rate multifamily assets globally and industrial assets in the United Kingdom were at historically high levels at the end of 2021 and into the first quarter of 2022, and we have started to see valuations pull back slightly with cap rate expansion, primarily as a result of increased borrowing rates, which led to fair value losses on real estate during the year ended December 31, 2022. We also had fair value foreign exchange losses, net of any hedges on our foreign fair value investments as the euro and the GBP were at historically low levels against the U.S. Dollar. These fair value losses were offset by fair value increases on our affordable multifamily properties in our VHH platform due to increased NOI at the properties driven by rental increases and the stabilization of assets that recently completed development.

Fair value losses on real estate were also offset by fair value gains on our fixed rate mortgages that are secured by certain properties. This was primarily related to our long term fixed rate debt having lower rates than the current market rates as a result of higher base rates and spreads in today's financing market driven by recent rate increases implemented by the Federal Reserve and the European Central Bank ("ECB"). We also had fair value gains associated with interest rate derivatives held by properties on variable rate mortgages which have increased in value with rising interest rates.

Our investment in VHH also had significant fair value gains for the year ended December 31, 2022 due to gains on its fixed rate property loans and increases in NOI at the properties due to rental increases. VHH does not have a performance allocation structure associated with the investment, and therefore, such gains did not contribute to performance allocations.

Please also see Part I. Item 1. "Fair Value Investments" for additional details.

During the year ended December 31, 2022, we recorded a \$21.1 million decrease in the accrual for performance allocations relating to our commingled funds and certain separate account investments due to declines in fair value of the applicable investments. During the year ended December 31, 2022, we had realized performance fees of \$6.8 million relating to the sale of two multifamily

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

properties in the Western United States, of which the Company paid \$1.2 million of performance allocation compensation to employees for performance allocations that were realized during the period.

Increases in rental income and rental expenses were a result of an increase in assets in the Co-Investment Portfolio due to new acquisitions and the deconsolidation of MF seed portfolio in June 2021. Interest expense increased in encumbered assets, primarily due to increasing interest rates in 2022 as well as higher loan balances due to recent acquisitions in the Co-Investment portfolio. The increase in sale of real estate and cost of real estate sold was due to higher sales of homes in our Kohanaiki residential community in Hawaii during the year ended December 31, 2022.

During the year ended December 31, 2021, we had fair value gains primarily from increases in NOI as a result of significant increases in market rents and cap rate compression in our market rate fair value multifamily assets in the Western United States. The cap rate compression was supported by recent transactions entered into by the Company as well as third party transactional and market data. We also had fair value gains due to resyndications and cap rate compression in our VHH portfolio and fair value increases in our retained unconsolidated investment interest in the Zonda business from Meyers Research after our sale of that business in 2018. There were higher gains from sales on homes at our Kohanaiki residential community in Hawaii for the year ended December 31, 2021 due to an increased volume of sales.

During the year ended December 31, 2021, we had a \$117.9 million increase in the accrual for performance fees relating to our commingled funds and a separate account investment. The increase in the accrual was due to higher fair values on market rate multifamily properties as discussed above and UK industrial assets in commingled funds and separate account investments that we manage. We had \$9.6 million of realized performance fees collected during the year ended December 31, 2021 from a separate account that held office properties in the Seattle area that fully disposed of all its assets in the third quarter of 2021.

Corporate

Expenses for the year ended December 31, 2022 were \$61.9 million as compared to \$68.1 million for the year ended December 31, 2021. The decrease in expenses is primarily due to lower discretionary bonus compensation expense.

Interest expense was \$92.6 million for the year ended December 31, 2022 as compared to \$73.3 million for the same period in 2021. The increase was due to higher corporate debt balances for the year ended December 31, 2022, primarily from higher balances on our revolving credit facility and higher average balance on our unsecured senior notes over the course of the year.

The \$26.5 million loss on the early extinguishment of debt for the year ended December 31, 2021 was due to the extinguishment of the 2024 Notes and resulting premium and write off of capitalized debt costs and debt discount with no comparable activity in the year ended December 31, 2022.

Other income increased to \$15.3 million for the year ended December 31, 2022 as compared to other loss of \$0.3 million for the same period in 2021. We had mark to market fair value gains on interest rate caps and swaps that the Company holds to hedge its variable rate interest rate exposure during the year ended December 31, 2022.

Our provision for income taxes was \$36.2 million for the year ended December 31, 2022 as compared to \$126.2 million for the year ended December 31, 2021. The decrease in income tax expense was primarily attributable to a \$324.4 million decrease in worldwide pre-tax book income in 2022 as compared to 2021. Our effective tax rate for the year ended December 31, 2022 was 26.2% as compared to an effective tax rate of 27.3% in 2021. Significant items impacting the tax provision include: tax charges associated with non-deductible executive compensation under Code Section 162(m) and non-deductible interest expense in the United Kingdom, and changes in our estimated state effective tax rate, offset by tax benefits from the partial release of the valuation allowance against our deferred tax assets associated with our excess tax basis in UK real estate assets and our excess tax basis in our investment in KWE. During the year ended December 31, 2022, our net deferred tax asset (and associated valuation allowance) related to our excess tax basis in the legacy UK real estate assets increased due to unrealized foreign currency losses that is not currently deductible. In addition, the deferred tax asset (and associated valuation allowance) related to our investment in KWE decreased due to book gains but tax losses realized on the sale of real estate and from book fair value gains not recognized for tax. The effective tax rate for 2022 exceeded the statutory tax rate due to non-deductible executive compensation in the United States and non-deductible interest expense in the United Kingdom.

Preferred dividends were \$28.9 million for the year ended December 31, 2022 as compared to \$17.2 million for the year ended December 31, 2021. The increase was due to the issuance of \$300 million of our Series B cumulative perpetual preferred stock to affiliates of Fairfax Financial Holdings Limited (collectively, "Fairfax") during 2022.

Comprehensive Income

The two major components that drive the change in other comprehensive income are the changes in foreign currency rates and the gains or loss of any associated foreign currency hedges. Please refer to the section titled "Currency Risk - Foreign Currencies" in Item 3 for a discussion of our risks relating to foreign currency and our hedging strategy. Below is a table that details the activity for the years ended December 31, 2022 and 2021.

(Dollars in millions)	Year Ended December 31,	
	2022	2021
Net income attributable to Kennedy-Wilson Holdings, Inc. common shareholders	\$ 64.8	\$ 313.2
Unrealized foreign currency translation loss, net of noncontrolling interests and tax	(68.7)	(57.5)
Amounts reclassified out of accumulated other comprehensive loss during the period	(0.8)	2.2
Unrealized foreign currency derivative contract gain, net of noncontrolling interests and tax	23.4	56.2
Unrealized gain on interest rate swaps, net of tax	5.6	3.2
Comprehensive income attributable to Kennedy-Wilson Holdings, Inc. common shareholders	\$ 24.3	\$ 317.3

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

The main currencies that the Company has exposure to are the euro and pound sterling. The table below represents the change in rates over the years ended December 31, 2022 and 2021 as compared to the U.S. Dollar:

	Year Ended December 31,	
	2022	2021
Euro	(5.9)%	(6.9)%
GBP	(10.6)%	(1.1)%

Comprehensive income, net of taxes and noncontrolling interests, for the year ended December 31, 2022 and 2021 was \$24.3 million and \$317.3 million, respectively. The Company experienced net unrealized losses on foreign currency through other comprehensive income for the period due to the EUR and GBP weakening against the U.S. Dollar. Unrealized hedge gains were driven by hedges that the Company has on its GBP-denominated investments. The Company also has interest rate swap contracts to swap some of its variable rate loans to fixed rate terms, which resulted in unrealized gains on interest rate swaps from the reversal of prior losses as the contracts get closer to their maturity date.

Liquidity and Capital Resources

Our liquidity and capital resources requirements include acquisitions of real estate and real estate related assets, funding development projects, capital expenditures for consolidated real estate and unconsolidated investments, working capital needs, interest and principal payments on our debt and dividends to our common and preferred shareholders. We finance these activities with internally generated funds through general operations including rental income, asset sales, borrowings under our revolving line of credit, sales of equity (common and preferred) and debt securities and cash out refinancings to the extent they are available and fit within our overall portfolio leverage strategy. Our investments in real estate are typically financed with equity from our balance sheet, third party equity and mortgage loans secured by that real estate. These mortgage loans are generally nonrecourse in that, in the event of default, recourse will be limited to the mortgaged property serving as collateral, subject to limited customary exceptions. In some cases, we guarantee a portion of the loan related to a consolidated property or an unconsolidated investment, usually until some condition, such as completion of construction or leasing or certain net operating income criteria, has been met. We do not expect these guarantees to materially affect liquidity or capital resources. Please refer to the section titled "Off Balance Sheet Arrangements" for further information.

Our short-term liquidity requirements primarily consist of operating expenses and other expenditures associated with our properties, dividend payments to our common and preferred shareholders, interest on our unsecured corporate debt, development, redevelopment and capital expenditures and, potentially, share repurchases and acquisitions. Our short-term liquidity requirements primarily consist of operating expenses and other expenditures associated with our properties, dividend payments to our common and preferred shareholders, interest on our unsecured corporate debt, development, redevelopment and capital expenditures and, potentially, share repurchases and acquisitions. We currently expect to meet our short-term liquidity requirements through our existing cash and cash equivalents plus capital generated from our investments, and sales of real estate as well as availability on our current revolving lines of credit. Our need to raise funds from time to time to meet our capital requirements will depend on many factors, including the success and pace of the implementation of our strategy for strategic and accretive growth

where appropriate. Additionally, we may opportunistically seek to raise capital (equity or debt) when we believe market conditions are favorable and when consistent with our growth and financing strategies. We may also seek third party financing to the extent that we engage in additional strategic investments, including in order to raise capital necessary to execute potential development or redevelopment strategies or acquire real estate, note portfolios, or other real estate related companies or real estate related securities. Similarly, we may from time to time seek to refinance our existing indebtedness opportunistically in order to reduce our overall cost of debt capital or optimize the maturity schedule of our outstanding indebtedness, or for other strategic reasons. Also, in May 2022, we established an ATM Program pursuant to which we may issue and sell shares of the Company's common stock having an aggregate gross sales price of up to \$200.0 million in amounts and at times as the Company determines from time to time. During the year ended December 31, 2022, the Company did not issue any shares under our ATM Program. The Company has no obligation to sell any of such shares under its ATM Program. Actual sales will depend on a variety of factors to be determined by the Company from time to time, including, among others, market conditions, the trading price of its common stock, the Company's determination of the appropriate sources of funding for the Company, and potential uses of funding available.

As of December 31, 2022, we and our consolidated subsidiaries had approximately \$439.3 million (\$278.7 million of which is in foreign currencies of GBP or EUR) of consolidated cash (as shown on our consolidated balance sheet), our share of cash held at unconsolidated Co-Investment Portfolio assets was \$86.9 million and we had \$218.0 million of availability under lines of credit. As of December 31, 2022, we have \$21.4 million of restricted cash, which is included in cash and cash equivalents, that primarily relates to lender reserves associated with consolidated mortgages that we hold on properties. These reserves typically relate to interest, tax, insurance and future capital expenditures at the properties.

Additionally, we are subject to withholding taxes to the extent we repatriate cash from certain of our foreign subsidiaries. Under the KWE Notes covenants, we have to maintain certain interest coverage and leverage ratios to remain in compliance (see "Indebtedness and Related Covenants" for more detail on KWE Notes). Due to these covenants, we evaluate the tax and covenant implications before we distribute cash, which could impact the availability of funds at the corporate level.

As discussed throughout this report, ongoing macroeconomic conditions, such as, but not limited to, high inflation and central banks raising interest rates to curtail high inflation continue to fuel recessionary fears and create volatility in our business results and operations, including our ability to access the capital markets at desired terms or at all. Please also see the "Current Economic Conditions and Market Dynamics" above for additional details. In addition to such market conditions, Moody's Investors Service, Inc. and Standard & Poor's Ratings Services ("S&P"), a division of The McGraw-Hill Companies, Inc., rate our outstanding debt. These ratings are based on a variety of factors, including our current leverage and transactional activity. In October of 2022, S&P placed us on negative CreditWatch due to a slowdown in investment transaction activity leading to elevated leverage and in February 2023, S&P downgraded us to 'BB' from 'BB+' and maintained their negative CreditWatch. Additionally, S&P downgraded the KWE Notes to 'BB+' from 'BBB-' and the KWI Notes to 'BB-' from 'BB'. These ratings and downgrades thereof may impact our ability to access the debt market in the future at desired terms or at all. Please also see Part I. Item 1A. Risk Factors.

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Development and Redevelopment

Kennedy Wilson has a number of market rate development, redevelopment and entitlement projects that are underway or are in the planning stages. These initiatives, if completed, will result in market-rate income producing assets. As of December 31, 2022, we have 2,220 multifamily units, 0.4 million commercial rentable square feet and 150 hotel rooms we are actively developing. If these projects were brought to completion, the estimated share of the Company's total cost would be approximately \$1.1 billion, which we expect would be funded through our existing equity, third-party equity, project sales and secured debt financing. As of December 31, 2022, we have incurred \$797.0 million of costs to date and expect to spend an additional \$379.0 million to develop to completion or complete the entitlement process on these projects. Of the \$379.0 million of remaining costs to complete, we currently expect \$133.0 million of it to be funded through cash from us over the life of the projects. This represents total capital over the life of the projects and is not a representation of peak equity and does not take into account any distributions over the course of the investment. When development projects are completed, they typically move into our unstabilized category as they undergo lease up post-completion.

In addition to the market rate development and redevelopment projects described above, we have 2,369 affordable and/or age-restricted multifamily units within our VHH platform that we are currently developing or in the process of stabilizing. We expect to have no cash equity basis in these projects at completion due to the use of property level debt and proceeds from the sale of tax credits. If these projects are brought to completion, we expect to receive \$34.3 million in cash from paid developer fees and proceeds from the sale of tax credits.

The figures described in the two preceding paragraphs and in the table below are budgeted costs and are subject to change. There is no certainty that the Company will develop or redevelop any or all of these potential projects and the Company and its equity partners are under no obligation to complete these projects and may dispose of any such assets after adding value through the entitlement process. These are budgeted figures and are subject to change (increase or decrease) due to a number of factors (some of which are beyond our control), including, that these projects are being developed under construction management contracts with the general contractors and therefore we and our equity partners could be called upon to contribute additional capital in the event that actual costs exceed budgeted costs. The scope of these projects may also change. The estimated costs and amounts of cash to complete projects reflected in the table below represent management's current expectations and the total costs incurred to date include the land costs of these projects.

The table below describes the market rate development or redevelopment projects that the Company is undergoing or considering, and excludes the affordable and/or age-restricted multifamily units that it is developing in its VHH platform and its residential investments (\$ in millions).

Location	Type	Investment	Status	Est. Completion Date ⁽¹⁾	If Completed			Current		
					Commercial Sq. Ft.	MF Units/ Hotel Rooms	KW Est. Total Cost ⁽⁴⁾	KW Costs Incurred ⁽⁴⁾	KW Est. Costs to Complete ⁽²⁾

Total						422,000	2,370	\$ 1,148	\$ 797	\$ 379

⁽¹⁾ The actual completion date for projects is subject to several factors, many of which are not within our control. Accordingly, the projects identified may not be completed when expected, or at all.

⁽²⁾ Figures shown in this column are an estimate of our remaining costs to develop to completion or to complete the entitlement process, as applicable, as of December 31, 2022. Total remaining costs may be financed with third-party cash contributions, proceeds from projected sales, and/or debt financing. We expect to fund \$133 million of our share of remaining costs to complete with cash over the life of these projects. These figures are budgeted costs and are subject to change. There is no guarantee that we will be able to secure the project-level debt financing that is assumed in the figures above. If we are unable to secure such financing, the amount of capital we will have to invest to complete the projects above may significantly increase. Our cost to complete differs from our share total capitalization as the latter includes costs that have already been incurred to date while the former relates to future estimated costs.

⁽³⁾ Estimated foreign exchange rates are €0.93 = \$1 USD and £0.83 = \$1 USD, related to NOI.

⁽⁴⁾ Includes land costs.

⁽⁵⁾ Included in Consolidated Portfolio Segment.

⁽⁶⁾ Included in Co-Investment Portfolio Segment.

Unstabilized and Value Add Capital Expenditure Programs

We currently have six assets that comprise 0.8 million commercial square feet that are currently unstabilized and are undergoing various stages of lease-up, value-add or development. In order to stabilize these assets we project our share of costs to complete to be \$26.9 million. The cost to complete this work and the time frame described is subject to many uncertainties that are beyond our control, and the actual costs may be significantly higher than the estimates shown below.

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

The table below describes assets that are currently unstabilized (\$ in millions):

Property	Location	Type	KW Ownership	# of Assets	Commercial Sq. Ft.	Leased %	KW Est. Costs to Complete ⁽¹⁾
Stockley Park	United Kingdom ⁽²⁾	Office	100%	1	54,000	—	\$ —
The Oaks	Southern California	Office	100%	1	357,000	82%	5.6
The Heights Building 4	United Kingdom ⁽²⁾	Office	51%	1	74,000	—	—
Hamilton Landing H7	Northern California	Office	100%	1	61,000	—	4.3
Various	United Kingdom ⁽²⁾	Office	100%	2	281,000	34	17.0
Total Lease-Up				6	827,000	47%	\$ 26.9

Note: The table above excludes minority-held investments and two wholly-owned assets expected to sell, totaling 405 units and 0.8 million commercial sq. ft.

⁽¹⁾ Figures shown in this column are an estimate of KW's remaining costs to develop to completion or to complete the entitlement process, as applicable, as of December 31, 2022. Total remaining costs may be financed with third-party cash contributions, proceeds from projected sales, and/or debt financing. These figures are budgeted costs and are subject to change. There is no guarantee that the Company will be able to secure the project-level debt financing that is assumed in the figures above. If the Company is unable to secure such financing, the amount of capital that the Company will have to invest to complete the projects above may significantly increase.

⁽²⁾ Estimated foreign exchange rates are €0.93 = \$1 USD and £0.83 = \$1 USD, related to NOI.

In addition to our development, redevelopment and stabilization initiatives, we regularly implement a value-add approach to our consolidated and unconsolidated investments, which includes rehabbing properties and adding or updating property amenities. The capital required to implement these value-add initiatives is typically funded with capital calls, refinancing or supplemental financings at the property level. We are not required to make these investments, but they are a key driver in our ability to increase net operating income at our properties post acquisition.

Other Items

On November 3, 2020, the Company's board of directors authorized an expansion of its existing \$250 million share repurchase plan to \$500 million. Repurchases under the program may be made in the open market, in privately negotiated transactions, through the net settlement of the Company's restricted stock grants or otherwise, with the amount and timing of repurchases dependent on market conditions and subject to the Company's discretion. The program does not obligate the Company to repurchase any specific number of shares and, subject to compliance with applicable laws, may be suspended or terminated at any time without prior notice. As of December 31, 2022, we had \$144.8 million remaining under the plan for stock repurchases. Please see the section titled "Purchases of Equity Securities by the Company" in Part II of this annual report on Form 10-K for additional information.

The Company maintains a deferred compensation program for certain employees of the Company (the "Deferred Compensation Program"). The named executive officers of the Company are not participants of the Deferred Compensation Program. The compensation committee of the Company's board of directors approves an amount annually to be allocated to certain employees of the Company in the United States and in Europe. The amount allocated to each employee vests ratably over a three-year vesting period, subject to continued employment with the Company. Prior to 2022, half of the allocated amount was tied specifically to the performance and value of the Company's common stock at the time of each vesting ("Bonus Units"). Beginning in 2022, the entire

amount allocated to each employee consisted of Bonus Units. Under the Deferred Compensation Program, at the time of each vesting, the employees receive an amount equal to either the dividend yield of the Company's common stock or the actual amount of dividends paid on the Company common stock (in the case of Bonus Units) during the immediately preceding year on the amount that is subject to such vesting. During the years ended December 31, 2022 and 2021 the Company recognized \$9.2 million and \$11.7 million, respectively, under the Deferred Cash Bonus Program.

The Company also maintains a performance allocation sharing program for certain employees of the Company (the "Performance Allocation Sharing Program"). The named executive officers of the Company are not participants of the Performance Allocation Sharing Program. The compensation committee of the Company's board of directors approved, reserved and authorized executive management to issue up to thirty-five percent (35%) of any performance allocations earned by certain commingled funds and separate account investments to be allocated to certain non-NEO employees of the Company. Currently structures participating in the Performance Allocation Sharing Program have allocated a range of 20% - 35% of performance allocations to employees. Sixty percent of the award to each employee vests ratably over four years and the remaining forty percent vest upon the consummation of a liquidity event of the investment whereby the Company actually receives cash performance allocations from its partner. The full performance allocation earned by the Company will be recorded to income from unconsolidated investments and the amount allocated to employees is recorded as performance allocation compensation. During the years ended December 31, 2022 and 2021, the Company recognized \$(4.3) million and \$42.0 million, respectively, related to this program.

The Company also recently implemented a global employee co-investment program (the "Co-Investment Program"). The named executive officers are not participants of the Co-Investment Program. Under the Co-Investment Program, certain employees are provided the opportunity to invest alongside the Company in its investments (in all future investments and certain recently acquired transactions). The amount of funds that the employees, as a group, can invest in the Company's investments is capped at 1.5% of the Company's equity. Participants in the Co-Investment Program will make commitments to the program every year. Generally (with limited exceptions), participants in the Co-Investment Program will invest in every investment made by the Company (investments that such employee has an active role in acquiring and managing) in the applicable year.

Cash Flows

The following table summarizes the cash provided by or used in our operating, investing and financing activities for the years ended December 31, 2022 and 2021:

(Dollars in millions)	Year ended December 31,	
	2022	2021
Net cash provided by (used in) operating activities	\$ 32.9	\$ (30.3)
Net cash used in investing activities	(361.6)	(1,038.0)
Net cash provided by financing activities	264.2	632.0

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Operating

Our cash flows from operating activities are primarily dependent upon operations from consolidated properties, the operating distributions and fees from our Co-Investment Platform, general and administrative costs, compensation and interest expense payments. For the years ended December 31, 2022 and 2021, cash flows used by operations were \$32.9 million and \$30.3 million, respectively.

The increase in cash used in operations was primarily due to higher interest expense for year ended December 31, 2021 from premiums and accrued interest paid associated with repayment of the 2024 Notes and the remaining outstanding portion of the KWE Bonds.

Investing

Our cash flows from investing activities are generally comprised of cash used to fund property acquisitions, investments in unconsolidated investments, capital expenditures, purchases of loans secured by real estate, as well as cash received from property sales and return of capital from our co-investments.

Year Ended December 31, 2022

Net cash used in investing activities totaled \$361.6 million for the year ended December 31, 2022. During the year ended December 31, 2022, we received \$325.9 million primarily from the sale of non-core retail assets in the United Kingdom and Western United States and a multifamily property in the Western United States. We received \$157.1 million in investing distributions from our co-investments primarily from the sale of assets within our comingled funds and financing distributions from multifamily properties in Ireland. Our share of new loans issued as part of our global debt platform were \$50.9 million, and we received \$34.5 million of proceeds from repayments on loans previously issued. Additionally, we acquired \$408.2 million of consolidated real estate assets, including an office building in Scotland and four multifamily properties in the Mountain West. We spent \$160.9 million on capital expenditures on consolidated assets, as well as continued investments in our development properties and value add on our operating properties. We also contributed \$361.3 million to unconsolidated investments that were primarily used to fund our share of capital calls on Kona Village and new acquisitions made within our European Industrial JV platform and comingled funds. The settlement of foreign currency derivatives generated \$112.6 million of cash during the year ended December 31, 2022, primarily due to settlement of interest rate and foreign currency derivatives that had appreciated in value. We spent \$10.4 million in premiums on new derivative contracts entered into during the year ended December 31, 2022.

Year Ended December 31, 2021

Net cash used in investing activities totaled \$1,038.0 million for the year ended December 31, 2021. During the year ended December 31, 2021, we received \$486.4 million primarily from the sale of the MF seed portfolio and an office building in the United Kingdom. We received \$82.8 million in investing distributions from our co-investments primarily from the sale of assets within our comingled funds, refinancing and resyndications with our VHH portfolio and a partial redemption of a hedge fund investment. Our share of new loans issued as part of our debt platform was \$83.4 million and we received \$58.1 million of proceeds from the sale of a portion

of existing loans to equity partners and repayments on loans issued. Additionally, we acquired \$1,131.8 million of consolidated real estate assets, including an office building in London, and multifamily properties in the Pacific Northwest and Mountain West regions. We spent \$139.2 million on capital expenditures on consolidated assets, as well as continued investments in our development properties and value add on our operating properties. We also contributed \$280.8 million to unconsolidated investments that were primarily used to fund our share of capital calls on Kona Village and new acquisitions made within our European Industrial JV platform and comingled funds. The settlement of foreign currency derivatives was \$30.1 million during the year ended December 31, 2021, primarily due to the cross currency swap on the KWE Bonds.

Financing

Our net cash related to financing activities is generally impacted by capital-raising activities net of dividends and distributions paid to common and preferred shareholders and noncontrolling interests as well as financing activities for consolidated real estate investments.

Year Ended December 31, 2022

Net cash provided by financing activities totaled \$264.2 million for the year ended December 31, 2022. During the year ended December 31, 2022, the Company received proceeds of \$297.3 million from the issuance of its perpetual preferred stock and warrants to Fairfax. We drew \$528.4 million on our revolving line of credit and repaid \$325.0 million on our revolving line of credit during the year ended December 31, 2022. Kennedy Wilson received proceeds of \$401.3 million from mortgage loans to finance and refinance consolidated property acquisitions. These proceeds were offset by the repayment of \$389.6 million of mortgage debt and \$65.8 million on our KWE Notes. Additionally, we paid common dividends of \$134.6 million and preferred dividends of \$25.9 million, and we repurchased \$31.2 million of our common stock under our share repurchase plan.

Year Ended December 31, 2021

Net cash provided by financing activities totaled \$632.0 million for the year ended December 31, 2021. The Company received proceeds of \$1,804.3 million from the issuance of the 2029 Notes, 2030 Notes and 2031 Notes and repaid \$1,150.0 million of the 2024 Notes. We drew \$314.3 million on our revolving line of credit and repaid \$438.5 million on our revolving line of credit during the year ended December 31, 2021. We incurred \$35.6 million of debt issuance costs associated with the issuance of the 2029 Notes, 2030 Notes and 2031 Notes. Kennedy Wilson received proceeds of \$1,144.9 million from mortgage loans to finance and refinance consolidated property acquisitions. These proceeds were offset by the repayment of \$268.2 million of mortgage debt and \$504.4 million on our KWE Bonds. During the year ended December 31, 2021, we paid common dividends of \$123.5 million and preferred dividends of \$17.2 million, and we repurchased \$83.2 million of our common stock under our share repurchase plan.

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Contractual Obligations and Commercial Commitments

At December 31, 2022, Kennedy Wilson's consolidated contractual cash obligations, including debt, lines of credit, operating leases and ground leases included the following:

(Dollars in millions)	Payments due by period ⁽⁹⁾				
	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
Contractual obligations					
Borrowings: ⁽¹⁾⁽⁴⁾					
Mortgage debt ⁽²⁾	\$ 3,034.9	\$ 247.8	\$ 1,119.5	\$ 679.0	\$ 988.6
Senior notes ⁽³⁾	1,800.0	—	—	—	1,800.0
Credit facility	282.0	—	282.0	—	—
KWE unsecured bonds ⁽⁵⁾	508.4	—	508.4	—	—
Total borrowings ⁽⁴⁾	5,625.3	247.8	1,909.9	679.0	2,788.6
Operating leases	10.8	1.0	2.1	2.2	5.5
Ground leases ⁽⁸⁾	29.5	0.2	0.5	0.5	28.3
Total contractual cash obligations ⁽⁶⁾⁽⁷⁾	\$ 5,665.6	\$ 249.0	\$ 1,912.5	\$ 681.7	\$ 2,822.4

⁽¹⁾ See Notes 7-9 of our Notes to Consolidated Financial Statements. Figures do not include scheduled interest payments. Assuming each debt obligation is held until maturity, we estimate that we will make the following interest payments: Less than 1 year - \$142.2 million; 1-3 years - \$351.6 million; 4-5 years - \$100.5 million; After 5 years - \$83.3 million. The interest payments on variable rate debt have been calculated at the interest rate in effect as of December 31, 2022.

⁽²⁾ Excludes \$0.6 million net unamortized debt discount on mortgage debt.

⁽³⁾ Excludes \$3.5 million unamortized debt premium on senior notes.

⁽⁴⁾ Excludes \$40.3 million of unamortized loan fees.

⁽⁵⁾ Excludes \$1.5 million net unamortized discount on KWE unsecured bonds.

⁽⁶⁾ Kennedy Wilson's share of contractual obligations, (excluding amounts that are attributable to noncontrolling interests), including debt, lines of credit, operating leases and ground leases, consisted of the following: Less than 1 year - \$248.8 million; 1-3 years - \$1,910.2 million; 4-5 years - \$677.0 million; After 5 years - \$2,758.9 million.

⁽⁷⁾ Table above excludes \$246.6 million unfulfilled capital commitments to our unconsolidated investments.

⁽⁸⁾ Ground leases on consolidated assets. Amounts are undiscounted and have leases that expire as far out as 2258.

⁽⁹⁾ Principal debt payments include the effect of extension options.

Indebtedness and Related Covenants

The following describes certain indebtedness and related covenants.

KWI Notes

On February 11, 2021, Kennedy-Wilson, Inc., issued \$500.0 million aggregate principal amount of 2029 Notes and \$500.0 million aggregate principal amount of 2031 Notes (together with the 2029 Notes, the "initial notes"). On March 15, 2021, Kennedy-Wilson, Inc. issued an additional \$100 million aggregate principal of the 2029 Notes and an additional \$100 million of the 2031 Notes. These additional notes were issued as "additional notes" under the indentures pursuant to which Kennedy Wilson previously issued 2029 Notes and the 2031 Notes. On August 23, 2021, Kennedy-Wilson, Inc. issued \$600.0 million aggregate principal amount of 2030 Notes (together with the 2029 Notes, the 2031 Notes and the additional notes, the "notes"). The notes are senior, unsecured obligations of Kennedy Wilson and are guaranteed by Kennedy-Wilson Holdings, Inc. and certain subsidiaries of Kennedy Wilson.

The notes accrue interest at a rate of 4.750% (in the case of the 2029 Notes), 4.750% (in the case of the 2030 Notes) and 5.000% (in the case of the 2031 Notes) per annum, payable semi-annually in arrears on March 1 and September 1 of each year, beginning on September 1, 2021 for the 2029 Notes and 2031 Notes and March 1, 2022 for the 2030 Notes. The notes will mature on March 1, 2029 (in the case of the 2029 Notes), February 1, 2030 (in case of 2030 Notes) and March 1, 2031

(in the case of the 2031 Notes), in each case unless earlier repurchased or redeemed. At any time prior to March 1, 2024 (in the case of the 2029 Notes), September 1, 2024 (in the case of the 2030 Notes) or March 1, 2026 (in the case of the 2031 notes), Kennedy Wilson may redeem the notes of the applicable series, in whole or in part, at a redemption price equal to 100% of their principal amount, plus an applicable "make-whole" premium and accrued and unpaid interest, if any, to the redemption date. At any time and from time to time on or after March 1, 2024 (in the case of the 2029 Notes), September 1, 2024 (in the case of the 2030 Notes) or March 1, 2026 (in the case of the 2031 Notes), Kennedy Wilson may redeem the notes of the applicable series, in whole or in part, at specified redemption prices set forth in the indenture governing the notes of the applicable series, plus accrued and unpaid interest, if any, to the redemption date. In addition, prior to March 1, 2024 (for 2029 Notes and 2031 Notes) and September 1, 2024 (for 2030 Notes), Kennedy Wilson may redeem up to 40% of the notes of either series from the proceeds of certain equity offerings. No sinking fund will be provided for the notes. Upon the occurrence of certain change of control or termination of trading events, holders of the notes may require Kennedy Wilson to repurchase their notes for cash equal to 101% of the principal amount of the notes to be repurchased, plus accrued and unpaid interest, if any, to, but excluding, the applicable repurchase date. The total amount of the 2029 Notes, 2030 Notes and 2031 Notes included in the Company's consolidated balance sheets was \$1.8 billion at December 31, 2022.

KWE Notes

The KWE Notes were issued at a discount and have a carrying value of \$507.1 million at December 31, 2022 and have an annual fixed coupon of 3.25% and mature in 2025. During the year ended December 31, 2022, KWE launched a cash tender offer for up to €150 million in aggregate nominal amount of the KWE Notes and accepted all of the €75.0 million (approximately \$80.3 million based on December 31, 2022 rates) in aggregate nominal amount of KWE Notes validly tendered pursuant to the tender offer for a purchase price equal to 82% of the nominal amount of the KWE Notes, which resulted in a gain on extinguishment of debt of \$13.9 million.

Borrowings Under Line of Credit

On March 25, 2020, Kennedy-Wilson, Inc. (the "Borrower"), a wholly-owned subsidiary of Kennedy-Wilson Holdings, Inc. (the "Company"), the Company, as a guarantor and certain subsidiaries of the Company (such subsidiaries, the "Subsidiary Guarantors") on March 25, 2020 entered into a \$500 million revolving line of credit ("Second A&R Facility"). Loans under the Second A&R Facility bear interest at a rate equal to LIBOR plus between 1.75% and 2.50%, depending on the consolidated leverage ratio as of the applicable measurement date. The Second A&R Facility has a maturity date of March 25, 2024. Subject to certain conditions precedent and at the Borrower's option, the maturity date of the Second A&R Facility may be extended by one year.

The Company has \$282.0 million outstanding on the A&R Facility as of December 31, 2022 with \$218.0 million available to be drawn under the revolving credit facility.

Debt Covenants

The Second A&R Facility and the indentures governing the notes contain numerous restrictive covenants that, among other things, limit the Company and certain of its subsidiaries' ability to incur additional indebtedness, pay dividends or make distributions to stockholders, repurchase capital

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

stock or debt, make investments, sell assets or subsidiary stock, create or permit liens, engage in transactions with affiliates, enter into sale/leaseback transactions, issue subsidiary equity and enter into consolidations or mergers.

The Second A&R Facility has certain covenants as set forth in that certain Second Amended and Restated Credit Agreement, dated as of March 25, 2020 (the "Credit Agreement"), that, among other things (including the limitations set forth in the preceding paragraph), requires the Company to maintain (i) a maximum consolidated leverage ratio (as defined in the Credit Agreement) of not greater than 65%, measured as of the last day of each fiscal quarter, (ii) a minimum fixed charge coverage ratio (as defined in the Credit Agreement) of not less than 1.70 to 1.00, measured as of the last day of each fiscal quarter for the period of four full fiscal quarters then ended, (iii) a minimum consolidated tangible net worth equal to or greater than the sum of \$1,700,000,000 plus an amount equal to fifty percent (50%) of net equity proceeds received by the Company after the date of the most recent financial statements that are available as of March 25, 2020, measured as of the last day of each fiscal quarter, (iv) a maximum recourse leverage ratio (as defined in the Credit Agreement) of not greater than an amount equal to consolidated tangible net worth as of the measurement date multiplied by 1.5, measured as of the last day of each fiscal quarter, (v) a maximum secured recourse leverage ratio (as defined in the Credit Agreement) of not greater than an amount equal to 3.5% of consolidated total asset value (as defined in the Credit Agreement) and \$299,000,000, (vi) a maximum adjusted secured leverage ratio (as defined in the Credit Agreement) of not greater than 55%, measured as of the last day of each fiscal quarter, and (vii) liquidity (as defined in the Credit Agreement) of at least \$75.0 million. As of December 31, 2022, the Company was in compliance with the foregoing financial covenants. The obligations of the Borrower pursuant to the Credit Agreement are guaranteed by the Company and certain wholly-owned subsidiaries of the Company.

The indentures governing the notes limit Kennedy-Wilson, Inc.'s ability to incur additional indebtedness if, on the date of such incurrence and after giving effect to the new indebtedness, Kennedy-Wilson, Inc.'s maximum balance sheet leverage ratio (as defined in the indenture) is greater than 1.50 to 1.00. This ratio is measured at the time of incurrence of additional indebtedness.

The KWE Notes require KWE to maintain (i) consolidated net indebtedness (as defined in the trust deed for the notes) of no more than 60% of the total asset value; (ii) consolidated secured indebtedness (less cash and cash equivalents) of no more than 50% of total asset value; (iii) an interest coverage ratio of at least 1.5 to 1.0, and (iv) unencumbered assets of no less than 125% of the unsecured indebtedness (less cash & cash equivalents). The covenants associated with KWE Notes are not an obligation of KWH and these amounts are presented as a component of our investment debt as it is an unsecured obligation relating to an underlying investment of ours. As of December 31, 2022, the Company was in compliance with these covenants.

In addition, loan agreements that govern the Company's property-level non-recourse financings that are secured by its properties may contain operational and financial covenants, including but not limited to, debt yield related covenants and debt service coverage ratio covenants and, with respect to mortgages secured by certain properties in Europe, loan-to-value ratio covenants. Property-level non-recourse financings with such loan-to-value covenants require that the underlying properties are valued on a periodic basis (at least annually). Subsequent to the year-ended December 31, 2022, the Company resolved a breach of a loan-to-value covenant in a non-recourse loan agreement secured by retail and commercial assets in the United Kingdom. The Company promptly resolved such breach

by paying down the mortgage by \$9.1 million, \$7.6 million of which was held at the properties that serves as the collateral for the subject mortgage. The loan totals \$165.8 million or 5.5% of our consolidated mortgage balance. As of December 31, 2022, the Company was in compliance with all property-level mortgages (other than discussed immediately above) and was current on all payments (principal and interest) with respect to the same. The failure by the Company to comply with such covenants and/or secure waivers from lenders could result in defaults under these instruments. In addition, if the Company defaults under a mortgage loan and/or such loan is accelerated by the lender, it may automatically be in default under any of its property and corporate unsecured loans that contain cross-default and/or cross-acceleration provisions. Please also see Part I. Item 1A Risk Factors.

Off-Balance Sheet Arrangements

Guarantees

We have provided guarantees associated with loans secured by consolidated assets. At December 31, 2022, the maximum potential amount of future payments (undiscounted) we could be required to make under the guarantees was approximately \$142.9 million at December 31, 2022. The guarantees expire through 2031 and our performance under the guarantees would be required to the extent there is a shortfall in liquidation between the principal amount of the loan and the net sale proceeds of the applicable properties. If we were to become obligated to perform on these guarantees, it could have an adverse effect on our financial condition.

As of December 31, 2022, we have unfulfilled capital commitments totaling \$246.6 million to our unconsolidated investments and \$17.7 million to our loan portfolio. In addition to the unfunded capital commitments on its joint venture investments, the Company has \$87.4 million of equity commitments relating on consolidated and unconsolidated development projects. As we identify investment opportunities in the future, we may be called upon to contribute additional capital to unconsolidated investments in satisfaction of our capital commitment obligations.

Non-Recourse Carve Out Guarantees

Most of our real estate properties within our equity partnerships are encumbered by traditional non-recourse debt obligations. In connection with most of these loans, however, we entered into certain "non-recourse carve out" guarantees, which provide for the loans to become partially or fully recourse against us if certain triggering events occur. Although these events are different for each guarantee, some of the common events include:

- the special purpose property-owning subsidiary's filing a voluntary petition for bankruptcy;
- the special purpose property-owning subsidiary's failure to maintain its status as a special purpose entity; and
- subject to certain conditions, the special purpose property-owning subsidiary's failure to obtain lender's written consent prior to any subordinate financing or other voluntary lien encumbering the associated property.

In the event that any of these triggering events occur and the loans become partially or fully recourse against us, our business, financial condition, results of operations and common stock price could be materially adversely affected.

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

In addition, other items that are customarily recourse to a non-recourse carve out guarantor include, but are not limited to, the payment of real property taxes, liens which are senior to the mortgage loan and outstanding security deposits.

Impact of Inflation and Changing Prices

However, as discussed throughout this report, high inflation impacted the global economy during the year ended December 31, 2022 and continues to impact the global economy. Our exposure to market risk from changing prices consists primarily of fluctuations in rental rates of commercial and multifamily properties, market interest rates on investment mortgages and debt obligations and real estate property values. Rental rate increases are dependent upon market conditions and the competitive environments in the respective locations of the properties. To the extent that we engage in development activities, we may have exposure to changing prices in materials or cost of labor.

The revenues of the investment management operations with respect to rental properties are highly dependent upon the aggregate rents of the properties managed, which are affected by rental rates and building occupancy rates. Employee compensation is the principal cost element of investment management.

We may be able to recoup all or a significant portion of any impact that we may suffer from rising costs through rental increases. To the extent that the rate of increase in expenses is greater than the rate of increase in rental rates, changing price will have an adverse impact on the Company. See also Inflation may adversely affect our financial condition and results of operations in Item 1A. Risk Factors for more detailed discussion on the impact of inflation on the Company.

Qualitative and Quantitative Disclosures about Market Risk

Our primary market risk exposure relates to changes in interest rates in connection with our short-term borrowings and fluctuations in foreign currency exchange rates in connection with our foreign operations.

Interest Rate Risk

We have established an interest rate management policy, which attempts to minimize our overall cost of debt while taking into consideration the earnings implications associated with the volatility of short-term interest rates. As part of this policy, we have elected to maintain a combination of variable and fixed rate debt. As of December 31, 2022, 76% of our consolidated debt is fixed rate, 20% is floating rate with interest caps and 4% is floating rate without interest caps. As such, fluctuations in interest rates may impact our floating rate debt (and floating rate debt with interest caps to a lesser extent) and cause our consolidated interest expense and income from unconsolidated investments to fluctuate. Typically, these fluctuations do not give rise to a significant long-term interest rate risk because they generally have short maturities.

We hold variable rate debt on some of our consolidated and unconsolidated properties that is subject to interest rate fluctuations. These variable rates generally are based on the lender's base rate, prime rate, EURIBOR, GBP LIBOR, LIBOR, SONIA plus an applicable borrowing margin. Additionally, in order to mitigate some of the risk associated with increasing interest rates, we have purchased interest rate caps that limit the amount that interest expense can increase with rate increases. However, some of our debt is uncapped and the mortgages that do have interest caps are subject to increased interest expense until rates hit the level of caps that have been purchased. If there was a 100-basis point increase or decrease, we would have a \$6.3 million increase in interest

expense or \$9.5 million decrease in interest expense savings during 2023 on our current share of indebtedness. The weighted average strike price on caps and maturity of Kennedy Wilson's variable rate mortgages are 2.32% and approximately 2.1 years, respectively, as of December 31, 2022.

The table below represents contractual balances of our financial instruments at the expected maturity dates as well as the fair value as of December 31, 2022. The weighted average interest rate for the various assets and liabilities presented are actual as of December 31, 2022. We closely monitor the fluctuation in interest rates, and if rates were to increase significantly, we believe that we would be able to either hedge the change in the interest rate or refinance the loans with fixed interest rate debt. All instruments included in this analysis are non-trading.

(Dollars in millions)	Principal Maturing in:						Total	Fair Value

Currency Risk—Foreign Currencies

A significant portion of our business is located outside the United States. As such, we have foreign currency fluctuation risk with respect to those investments and business units. In certain instances, we utilize foreign currency hedging derivatives to mitigate the impact of this risk on our equity.

The financial statements of Kennedy Wilson's subsidiaries located outside the United States are measured using the local currency, as this is their functional currency. The assets and liabilities of these subsidiaries are translated at the rates of exchange at the balance sheet date and income and expenses are translated at the average monthly rate. The foreign currencies include the euro and the British pound sterling. Cumulative translation adjustments, to the extent not included in cumulative net income, are included in the consolidated statement of equity as a component of accumulated other comprehensive income. Currency translation gains and losses and currency derivative gains and losses will remain in other comprehensive income unless and until the Company substantially liquidates underlying investments.

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Approximately 37% of our investment account is invested through our foreign platforms in their local currencies. Investment level debt is generally incurred in local currencies and therefore we consider our equity investment as the appropriate exposure to evaluate for hedging purposes. Additionally, the costs to operate these businesses, such as compensation, overhead and interest expense are incurred in local currencies. We typically do not hedge future operations or cash flows of operations denominated in foreign currencies, which may have a significant impact on the results of our operations for both the Consolidated and Co-Invest segments. In order to manage the effect of these fluctuations, we generally hedge our book equity exposure to foreign currencies through currency forward contracts and options. As of December 31, 2022, we have hedged 91% of the gross asset carrying value of our euro-denominated investments and 92% of the gross asset carrying value of our GBP-denominated investments.

Our investment management businesses typically do not require much capital, so foreign currency translation and derivative activity primarily relates to the investments segment as that has greater balance sheet exposure to foreign currency fluctuations.

If there was a 5% increase or decrease in foreign exchange rates on the currencies we invest to the U.S. Dollar our net asset value would increase by \$22.6 million or decrease by \$23.1 million. If rates moved 10%, we would have an increase of \$44.6 million and a decrease of \$46.6 million.

Financial Measures and Descriptions.

Rental—Rental income is comprised of rental revenue earned by our consolidated real estate investments.

Hotel—Hotel income is comprised of hotel revenue earned by our consolidated hotels.

Investment Management Fees—Investment management fees are primarily comprised of base asset management fees and acquisition fees generated by our investment management division. Fees earned from consolidated investments are eliminated in consolidation with the amount relating to our equity partners being recognized through income attributable to noncontrolling interests.

Property Services—Property services fees are primarily comprised of property management fees, leasing fees and sales commissions generated by our property services division until its sale in the fourth quarter of 2020. Fees earned from consolidated investments are eliminated in consolidation with the amount relating to our equity partners being recognized through income attributable to noncontrolling interests.

Loans and other income—Interest income earned on consolidated loans.

Income from unconsolidated investments—principal co-investments—Income from unconsolidated investments—principal co-investments consists of the Company's share of income or loss earned on investments in which the Company can exercise significant influence but does not have control. Income from unconsolidated investments includes income or loss from ordinary course operations of the underlying investment, gains or losses on sale and fair value gains and losses.

Income from unconsolidated investments—performance allocations—Performance allocations relate to allocations to the general partner, special limited partner or asset manager of Kennedy Wilson's co-investments it manages based on the cumulative performance of the fund and are subject to preferred return thresholds of the limited partners.

Gain on sale of real estate, net—Gain on sale of real estate, net relates to the amount received over the carrying value of assets sold. Impairments on consolidated real estate assets are also recorded to this line to the extent that do not require separate presentation.

Rental—Rental expenses consist of the expenses of our consolidated real estate investments, including items such as property taxes, insurance, maintenance and repairs, utilities, supplies, salaries and management fees.

Hotel—Hotel expenses consist of expenses of our consolidated hotel investments, including items such as property taxes, insurance, maintenance and repairs, utilities, supplies, salaries and management fees.

Compensation and related—Employee compensation, comprising of salary, bonus, employer payroll taxes and benefits paid on behalf of employees.

Share-based compensation—Compensation associated with the grants of share-based awards.

Performance allocation compensation—Compensation associated with up to thirty-five percent (35%) of any performance allocation earned by certain commingled funds and separate account investments to be allocated to certain non-NEO employees of the Company.

General and administrative—General and administrative expenses represent administrative costs necessary to run Kennedy Wilson's businesses and include items such as occupancy and equipment expenses, professional fees, public company costs, travel and related expenses, and communications and information services.

Depreciation and amortization—Depreciation and amortization is comprised of depreciation expense which is recognized ratably over the useful life of an asset and amortization expense which primarily consist of the amortization of assets allocated to the value of in-place leases upon acquisition of a consolidated real estate asset.

Interest expense—Interest expense represents interest costs associated with our senior notes payable, revolving credit facility, mortgages on our consolidated real estate, and unsecured debt held by KWE.

Other income (loss)—Other income (loss) includes the realized foreign currency exchange income or loss relating to the settlement of foreign transactions during the year which arise due to changes in currency exchange rates, realized gains or losses related to the settlement of derivative instruments, interest income on bank deposits, commission expenses on property services and transaction related expenses related to unsuccessful deals.

Income taxes—The Company's services business operates globally as corporate entities subject to federal, state, and local income taxes and the investment business operates through various partnership structures to acquire wholly-owned or jointly-owned investments in multifamily, commercial, residential and development properties. The Company's distributive share of income from its partnership investments will be subject to federal, state, and local taxes and the related tax provision attributable to the Company's share of the income tax is reflected in the consolidated financial statements.

Accumulated other comprehensive income (loss)—Accumulated other comprehensive income (loss) represents the Company's share of foreign currency movement on translating Kennedy Wilson's foreign subsidiaries from their functional currency into the Company's reporting currency. These amounts are offset by Kennedy Wilson's effective portion of currency related hedge instruments.

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Non-GAAP Measures and Certain Definitions

"KWH," "KW," "Kennedy Wilson," the "Company," "we," "our," or "us" refers to Kennedy-Wilson Holdings, Inc. and its wholly-owned subsidiaries. The consolidated financial statements of the Company include the results of the Company's consolidated subsidiaries.

"KWE" refers to Kennedy Wilson Europe Real Estate Limited.

"Adjusted EBITDA" represents net income before interest expense, (gain) loss on early extinguishment of debt, our share of interest expense included in unconsolidated investments, depreciation and amortization, our share of depreciation and amortization included in unconsolidated investments, provision for income taxes, our share of taxes included in unconsolidated investments, share-based compensation expense for the Company and EBITDA attributable to noncontrolling interests. Please see "Management's Discussion and Analysis of Financial Condition and Results of Operations—Non-GAAP measures" for a reconciliation of Adjusted EBITDA to net income as reported under GAAP. Our management uses Adjusted EBITDA to analyze our business because it adjusts net income for items we believe do not accurately reflect the nature of our business going forward or that relate to non-cash compensation expense or noncontrolling interests. Such items may vary for different companies for reasons unrelated to overall operating performance. Additionally, we believe Adjusted EBITDA is useful to investors to assist them in getting a more accurate picture of our results from operations. However, Adjusted EBITDA is not a recognized measurement under GAAP and when analyzing our operating performance, readers should use Adjusted EBITDA in addition to, and not as an alternative for, net income as determined in accordance with GAAP. Because not all companies use identical calculations, our presentation of Adjusted EBITDA may not be comparable to similarly titled measures of other companies. Furthermore, Adjusted EBITDA is not intended to be a measure of free cash flow for our management's discretionary use, as it does not remove all non-cash items (such as non-cash acquisition-related gains or expenses) or consider certain cash requirements such as tax and debt service payments. The amount shown for Adjusted EBITDA also differs from the amount calculated under similarly titled definitions in our debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments.

"Adjusted Net Income" represents net income before depreciation and amortization, our share of depreciation and amortization included in unconsolidated investments, share-based compensation, net income attributable to the noncontrolling interests, before depreciation and amortization and preferred dividends.

"Cap rate" represents the net operating income of an investment for the year preceding its acquisition or disposition, as applicable, divided by the purchase or sale price, as applicable. Cap rates set forth in this report only include data from income-producing properties. We calculate cap rates based on information that is supplied to us during the acquisition diligence process. This information is not audited or reviewed by independent accountants and may be presented in a manner that is different from similar information included in our financial statements prepared in accordance with GAAP. In addition, cap rates represent historical performance and are not a guarantee of future NOI. Properties for which a cap rate is provided may not continue to perform at that cap rate.

"Co-Investment Portfolio NOI" refers to the NOI that is generated from the properties that we have an ownership interest in and are held in our Co-Investment Portfolio business segment. Please also see "Management's Discussion and Analysis of Financial Condition and Results of Operations—Certain

Non-GAAP Measures and Reconciliations" for a reconciliation of Co-Investment Portfolio NOI to net income as reported under GAAP.

"Consolidated Portfolio NOI" refers to the NOI that is generated from the properties that we have an ownership interest in and are held in our Consolidated Properties business segment. Please also see "Management's Discussion and Analysis of Financial Condition and Results of Operations—Certain Non-GAAP Measures and Reconciliations" for a reconciliation of Consolidated Portfolio NOI to net income as reported under GAAP.

"Equity partners" refers to non-wholly-owned subsidiaries that we consolidate in our financial statements under U.S. GAAP and third-party equity providers.

"Estimated annual NOI" refers to our consolidated NOI (comprised of rental revenues, hotel revenues, rental (expenses), hotel (expenses) and loans and other), as adjusted to the property-level NOI, at our share, as further adjusted by assets acquired and disposed (net), lease-up and development portfolio, hotel operations, assets owned and occupied by us, amortization of above/below market leases (net), straight-line and free rent (net) and non-recurring income/expense, FX, and other on an estimated annualized basis. It is a property-level non-GAAP measure representing the estimated annual net operating income from each property as of the date shown, inclusive of rent abatements (if applicable). The calculation excludes depreciation and amortization expense, and does not capture the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures, tenant improvements, and leasing commissions necessary to maintain the operating performance of our properties. For assets wholly-owned and fully occupied by KW, the Company provides an estimated NOI for valuation purposes of \$4.1 million, which includes an assumption for applicable market rents. Any of the enumerated items above could have a material effect on the performance of our properties. Also, where specifically noted, for properties purchased in 2022, the NOI represents estimated Year 1 NOI from our original underwriting. Estimated year 1 NOI for properties purchased in 2022 may not be indicative of the actual results for those properties. Estimated annual NOI is not an indicator of the actual annual net operating income that the Company will or expects to realize in any period.

"Fee-bearing Capital" represents total third-party committed or invested capital that we manage in our joint-ventures and commingled funds that entitle us to earn fees, including without limitation, asset management fees, construction management fees, acquisition and disposition fees and/or performance allocations, if applicable.

"Gross Asset Value" refers to the gross carrying value of assets, before debt, depreciation and amortization, and net of noncontrolling interests.

"Net operating income" or "NOI" is a non-GAAP measure representing the income produced by a property calculated by deducting certain property expenses from property revenues. Our management uses net operating income to assess and compare the performance of our properties and to estimate their fair value. Net operating income does not include the effects of depreciation or amortization or gains or losses from the sale of properties because the effects of those items do not necessarily represent the actual change in the value of our properties resulting from our value-add initiatives or changing market conditions. Our management believes that net operating income reflects the core revenues and costs of operating our properties and is better suited to evaluate trends in occupancy and lease rates.

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

"Noncontrolling interests" represents the portion of equity ownership in a consolidated subsidiary not attributable to Kennedy Wilson.

"Performance allocation compensation"—the compensation committee of the Company's board of directors approved and reserved between twenty percent (20%) and thirty-five percent (35%) of any performance allocation earned by certain commingled funds and separate account investments to be allocated to certain non-NEO employees of the Company.

"Performance allocations" relates to allocations to the general partner, special limited partner or asset manager of Kennedy Wilson's co-investments it manages based on the cumulative performance of the fund and are subject to preferred return thresholds of the limited partners.

"Principal co-investments" consists of the Company's share of income or loss earned on investments in which the Company can exercise significant influence but does not have control. Income from unconsolidated investments includes income from ordinary course operations of the underlying investment, gains on sale, fair value gains and losses.

"Real Estate Assets under Management" ("AUM") generally refers to the properties and other assets with respect to which we provide (or participate in) oversight, investment management services and other advice, and which generally consist of real estate properties or loans, and investments in joint ventures. Our AUM is principally intended to reflect the extent of our presence in the real estate market, not the basis for determining our management fees. Our AUM consists of the total estimated fair value of the real estate properties and other real estate related assets either owned by third parties, wholly-owned by us or held by joint ventures and other entities in which our sponsored funds or investment vehicles and client accounts have invested. Committed (but unfunded) capital from investors in our sponsored funds is not included in our AUM. The estimated value of development properties is included at estimated completion cost.

"Same property" refers to properties in which Kennedy Wilson has an ownership interest during the entire span of both periods being compared. The same property information presented throughout this report is shown on a cash basis and excludes non-recurring expenses. This analysis excludes properties that are either under development or undergoing lease up as part of our asset management strategy.

We use certain non-GAAP measures to analyze our business, including Adjusted EBITDA and Adjusted Net Income. We use these metrics for evaluating the success of our company and believe that they enhance the understanding of our operating results. A reconciliation of net income to Adjusted EBITDA and Adjusted Net Income is presented below:

	<i>Years Ended December 31,</i>

Same Property	\$ 374.0	\$ 270.5	\$ 350.1	\$ 252.9

⁽¹⁾ Represents rental revenue and rental expenses and hotel revenue and hotel expenses attributable to non-controlling interests.

⁽²⁾ Represents the Company's share of unconsolidated investment rental revenues and rental expenses, as applicable, which are within the applicable same property population.

⁽³⁾ Represents properties excluded from the same property population that were purchased or sold during the applicable period.

⁽⁴⁾ Represents properties excluded from the same property population that were not stabilized during the applicable periods.

⁽⁵⁾ Represents other properties excluded from the same property population that were not classified as either a commercial or multifamily property within the Company's portfolio. Also includes immaterial adjustments for foreign exchange rates, changes in ownership percentages, and certain non-recurring income and expenses.

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Critical Accounting Policies

A critical accounting policy is one that involves an estimate or assumption that is subjective and requires judgment on the part of management about the effect of a matter that is inherently uncertain and is material to an entity's financial condition and results of operations. Estimates are prepared using management's best judgment, after considering past and current economic conditions and expectations for the future. Changes in estimates could affect our financial position and specific items in our results of operations that are used by stockholders, potential investors, industry analysts and lenders in their evaluation of our performance. Of the significant accounting policies discussed in Note 2 to the Consolidated Financial Statements, those presented below have been identified by us as meeting the criteria to be considered critical accounting policies. Refer to Note 2 for more information on these critical accounting policies.

Fair Value Investments

Kennedy Wilson records its investments in certain commingled funds it manages and sponsors (the "Funds") that are investment companies under the Accounting Standards Codification ("ASC") Topic 946, *Financial Services—Investment Companies*, based upon the net assets that would be allocated to its interests in the Funds assuming the Funds were to liquidate their investments at fair value as of the reporting date. Thus, the Funds reflect their investments at fair value, with unrealized gains and losses resulting from changes in fair value reflected in their earnings. Kennedy Wilson has retained the specialized accounting for the Funds as discussed in ASC Topic 323, *Investments—Equity Method and Joint Ventures* in recording its equity in joint venture income from the Funds.

Additionally, Kennedy Wilson elected the fair value option for 67 investments in unconsolidated investment entities. Due to the nature of these investments, Kennedy Wilson elected to record these investments at fair value in order to report the value in the underlying investments in the results of our current operations.

The use of different assumptions to fair value these investments could have material impact on the consolidated statements of income.

See Item 1. Business "Fair Value Investments" for detail on fair value methods and range of inputs that are used as part of valuations.

Performance Allocations

Performance allocations or carried interest are allocated to the general partner, special limited partner or asset manager of Kennedy Wilson's real estate funds and fair value option unconsolidated investments based on the cumulative performance of the fund or underlying investments and are subject to preferred return thresholds of the limited partners and participants. At the end of each reporting period, Kennedy Wilson calculates the performance allocation that would be due as if the fair value of the underlying investments were realized as of such date, irrespective of whether such amounts have been realized. As the fair value of underlying investments varies between reporting periods, it is necessary to make adjustments to amounts recorded as performance allocations to reflect either (a) positive performance resulting in an increase in the performance allocations to the general partner or asset manager or (b) negative performance that would cause the amount due to Kennedy Wilson to be less than the amount previously recognized, resulting in a negative adjustment to performance allocations to the general partner or asset manager. To the extent that a fund or investment has a performance allocation sharing program, a portion of performance allocations will be recorded to performance allocation compensation.

Real Estate Acquisitions

The purchase price of acquired properties is recorded to land, buildings and building improvements and intangible lease value (value of above-market and below-market leases, acquired in-place lease values, and tenant relationships, if any). The ownership of the other interest holders in consolidated subsidiaries is reflected as noncontrolling interests. Real estate is recorded based on cumulative costs incurred and allocated based on relative fair value.

The valuations of real estate are based on management estimates of the real estate assets using income and market approaches. The indebtedness securing the real estate is valued, in part, based on third party valuations and management estimates also using an income approach.

The use of different assumptions to value the acquired properties and intangible assets and assumed liabilities could affect the future revenues and expenses we recognize over the estimated remaining useful life or lease term.

Recently Issued Accounting Pronouncements

See Note 2 to the Consolidated Financial Statements.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors
Kennedy-Wilson Holdings, Inc.:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Kennedy-Wilson Holdings, Inc. and subsidiaries (the Company) as of December 31, 2022 and 2021, the related consolidated statements of income, comprehensive income, equity, and cash flows for each of the years in the three-year period ended December 31, 2022, and the related notes and financial statement schedule III—Real Estate and Accumulated Depreciation (collectively, the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2022, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2022, based on criteria established in Internal Control—Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated February 22, 2023 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Evaluation of the fair value of certain unconsolidated investments and commingled funds

As discussed in Notes 2 and 5 to the consolidated financial statements, the Company elected to record certain unconsolidated investments using the fair value option to more accurately reflect the timing of the value created in the underlying investments and report those changes in current operations. Additionally, the Company records its investments in its managed commingled funds (the "Funds") based upon the net assets that would be allocated to its interests in the Funds, assuming the Funds were to liquidate their investments at fair value as of the reporting date. As of December 31, 2022, these investments had a fair value of \$2,093.7 million.

We identified the evaluation of the fair value of certain unconsolidated investments and commingled funds as a critical audit matter. A high degree of subjectivity was required in applying and evaluating results from procedures over the respective discounted cash flow models used to calculate the fair value of the underlying real estate investments. Specifically, the respective cash flow models were sensitive to changes in certain key assumptions, including discount, terminal capitalization, and overall capitalization rates, which have a significant effect on the determination of fair value of these investments.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls over the Company's fair value process for unconsolidated investments and commingled funds, including controls related to the development of the discount rate and terminal capitalization rate assumptions. For a selection of the Company's investments, we involved valuation professionals with specialized skills and knowledge who assisted in comparing the discount rate and terminal capitalization rate used by the Company to independently developed ranges using market information obtained from third-party real estate publications or to rates observed in similar investments in the current period.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors
Kennedy-Wilson Holdings, Inc.:

Opinion on Internal Control Over Financial Reporting

We have audited Kennedy-Wilson Holdings, Inc. and subsidiaries' (the Company) internal control over financial reporting as of December 31, 2022, based on criteria established in Internal Control—Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2022, based on criteria established in Internal Control—Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of December 31, 2022 and 2021, the related consolidated statements of income, comprehensive income, equity, and cash flows for each of the years in the three-year period ended December 31, 2022, and the related notes and financial statement schedule III- Real Estate and Accumulated Depreciation (collectively, the consolidated financial statements), and our report dated February 22, 2023 expressed an unqualified opinion on those consolidated financial statements.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made

only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Interest ⁽¹⁾⁽²⁾	\$ 214.4	\$ 183.7	\$ 209.7
Income taxes	19.9	16.5	12.6

⁽¹⁾ \$4.0 million, \$4.1 million, and \$4.3 million attributable to non-controlling interests for the years ended December 31, 2022, 2021, and 2020, respectively.

⁽²⁾ Excludes \$3.3 million, \$3.2 million, and \$3.4 million of capitalized interest during the for the years ended December 31, 2022, 2021 and 2020, respectively.

As of December 31, 2022, 2021, and 2020, we have \$21.4 million, \$24.2 million, and \$101.7 million, respectively, of restricted cash, which is included in cash and cash equivalents, that primarily relates to lender reserves associated with consolidated mortgages that we hold on properties as well as escrow deposits associated with acquisitions and dispositions. These reserves typically relate to interest, tax, insurance and future capital expenditures at the properties.

Supplemental disclosure of non-cash investing and financing activities:

During the year ended December 31, 2022, the noncontrolling 51% interest that the Company retained as part of the sale of a 49% ownership interest in the Montivo multifamily asset in the Western United States ("Montivo") (see gain on sale of real estate in Note 3 for further description of the transaction) was treated as a non-cash activity with the remaining share of real estate, mortgage loan and other balance sheet items being removed from the consolidated balance sheet resulting in an increase of \$31.9 million to unconsolidated investments.

During the year ended December 31, 2021, the noncontrolling 51% interest that the Company retained in the MF seed portfolio (see gain on sale of real estate in footnote 3 for further description of the transaction) was treated as a non-cash activity with the remaining share of real estate, mortgage loan and other balance sheet items being removed from the consolidated balance sheet resulting in an increase of \$178.8 million to unconsolidated investments.

During the year ended December 31, 2020, the Company deconsolidated its interest in KW Real Estate II ("KW Europe Fund II") that was previously consolidated in the Company's financial statements due to additional investors coming into the fund and the Company no longer controlling it. The portion of the Company's share of real estate, mortgage loan and other balance sheet items were removed from the consolidated balance sheet. These items along with an increase of \$7.8 million to unconsolidated investments for the Company's retained share of the fund were all recorded as non-cash activities.

During the year ended December 31, 2020, the Company sold its interest in a development project in the Western United States to its equity partner. The Company received cash, a loan receivable and three parcels of land valued at \$16.5 million that the Company now wholly owns. The parcels of land were treated as a non-cash increase to the real estate balance.

Kennedy-Wilson Holdings, Inc. and Subsidiaries Notes to Consolidated Financial Statements December 31, 2022, 2021 and 2020

NOTE 1—ORGANIZATION

Kennedy-Wilson Holdings, Inc. (“KWH,” NYSE: KW), a Delaware corporation and its wholly owned and consolidated subsidiaries (collectively the “Company” or “Kennedy Wilson”), is a global real estate investment company. The Company owns, operates, and invests in real estate both on its own and through its investment management platform. The Company primarily focuses on multifamily and office properties, as well as industrial and debt investments in its Investment Management business in the Western United States, United Kingdom and Ireland. The Company’s operations are defined by two business segments; its Consolidated Portfolio and Co-Investment Portfolio. Investment activities in the Consolidated Portfolio involve ownership of multifamily units, office, retail and industrial space and one hotel. The Co-Investment Portfolio segment consists of investments the Company makes with partners in which it receives (i) fees (including, without limitation, asset management fees and construction management fees), (ii) performance allocations that it earns on its fee-bearing capital, and (iii) distributions and profits from its ownership interest in the underlying operations of its co-investments.

NOTE 2—BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION—The consolidated financial statements include the accounts of Kennedy Wilson and voting interest entities which it controls. All intercompany balances and transactions have been eliminated in consolidation. In addition, Kennedy Wilson evaluates its relationships with other entities to identify whether they are variable interest entities (“VIE”) as defined by Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Subtopic 810, Consolidation, and to assess whether it is the primary beneficiary of such entities. In determining whether Kennedy Wilson is the primary beneficiary of a VIE, qualitative and quantitative factors are considered, including, but not limited to: the amount and characteristics of Kennedy Wilson’s investment; the obligation or likelihood for Kennedy Wilson to provide financial support; Kennedy Wilson’s ability to control or significantly influence key decisions for the VIE; and the similarity with and significance to the business activities of Kennedy Wilson.

The Company determines the appropriate accounting method with respect to all investments that are not VIEs based on the control-based framework (controlled entities are consolidated) provided by the consolidation guidance in ASC Subtopic 810. The Company accounts for joint ventures where it is deemed that the Company does not have control through the equity method of accounting while joint ventures that the Company controls are consolidated in Kennedy Wilson’s financial statements.

USE OF ESTIMATES—The preparation of the accompanying consolidated financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosure about contingent assets and liabilities, and reported amounts of revenues and expenses. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which management believes to be reasonable under the circumstances. Management adjusts such estimates and assumptions when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results could

differ significantly from these estimates. Changes in those estimates will be reflected in the financial statements in future periods.

REVENUE RECOGNITION—Revenue consists of rental and hotel income, management fees, leasing and commission fees, loan interest income and sales of real estate. ASC Topic 606, *Revenue from Contracts with Customers*, is a five step model to recognize revenue from customer contracts. The model identifies the contract, any separate performance obligations in the contract, determines the transaction price, allocates the transaction price and recognizes revenue when the performance obligations are satisfied. Management has concluded that, with the exception of performance allocations, the nature of the Company’s revenue streams is such that the requirements are generally satisfied at the time that the fee becomes receivable.

Rental income from operating leases is generally recognized on a straight-line basis over the terms of the leases in accordance with ASC Topic 842, *Leases*.

Hotel income is earned when rooms are occupied or goods and services have been delivered or rendered.

Management fees are primarily comprised of investment management and property services fees. Investment management fees are earned from limited partners of funds, co-investments, or separate accounts and are generally based on a fixed percentage of committed capital or net asset value. Property services fees are earned for managing the operations of real estate assets and are generally based on a fixed percentage of the revenues generated from the respective real estate assets. The Company sold its property services group (“Property Services”) in the fourth quarter 2020 with the sale of KWP (as further discussed in Note 10—Related Party Transactions) and will have minimal property services fees going forward from its auction sales and marketing business. The Company provides investment management and property services on investments it also has an ownership interest in. Fees earned on consolidated properties are eliminated in consolidation and fees on unconsolidated investments are eliminated for the portion that relate to the Company’s ownership interest.

Commissions primarily consist of acquisition and disposition fees, auction and consulting fees and, prior to the sale of Property Services, also consisted of real estate sales commissions, and leasing commissions. Acquisition and disposition fees are earned for identifying and closing investments on behalf of investors and are based on a fixed percentage of the acquisition or disposition price, as applicable. Acquisition and disposition fees are recognized upon the successful completion of an acquisition or disposition after all required services have been performed. In the case of auction and real estate sales commissions, the revenue is generally recognized when escrow closes. In accordance with the guidelines established for Reporting Revenue Gross as a Principal versus Net as an Agent in the ASC Topic 606, Kennedy Wilson records commission revenues and expenses on a gross basis. Of the criteria listed in ASC Topic 606, Kennedy Wilson is the primary obligor in the transaction, does not have inventory risk, performs all or part of the service, has credit risk, and has wide latitude in establishing the price of services rendered and discretion in selection of agents and determination of service specifications. Leasing fees that are payable upon tenant occupancy, payment of rent or other events beyond Kennedy Wilson’s control are recognized upon the occurrence of such events.

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2022, 2021 and 2020 (continued)

Interest income from investments in performing loans which Kennedy Wilson originates or acquires are recognized at the stated interest rate plus any amortization of premiums/discounts or fees earned on the loans. Interest income from investments in loans acquired at a discount are recognized using the effective interest method. When a loan or loans are acquired with deteriorated credit quality primarily for the rewards of collateral ownership, such loans are accounted for as loans until Kennedy Wilson is in possession of the collateral. However, accrual of income is not recorded during the conversion period under ASC Subtopic 310-30-25, *Receivables—Loans and Debt Securities Acquired with Deteriorated Credit Quality*. Income is recognized to the extent that cash is received from the loan.

Sales of real estate are recognized when title to the real property passes to the buyer and there is no continuing involvement in the real property. Under ASC Subtopic 610-20, *Other Income—Gains and Losses from the Derecognition of Nonfinancial Assets*, the Company recognizes the entire gain attributed to contributions of real estate properties to unconsolidated entities.

REAL ESTATE ACQUISITIONS—The purchase price of acquired properties is recorded to land, buildings and building improvements and intangible lease value (value of above-market and below-market leases, acquired in-place lease values, and tenant relationships, if any). The ownership of the other interest holders in consolidated subsidiaries is reflected as noncontrolling interests (“NCI”). Real estate is recorded based on cumulative costs incurred and allocated based on relative fair value. Acquisition fees and expenses associated with the acquisition of properties determined to be business combinations are expensed as incurred. Acquisition fees and expenses associated with transactions determined to be asset acquisitions are capitalized as part of the real estate acquired.

The valuations of real estate are based on management estimates of the real estate assets using income and market approaches. The indebtedness securing the real estate is valued, in part, based on third party valuations and management estimates also using an income approach.

The Company is involved in all stages of real estate ownership, including development. Once a project is in development, consistent with ASC 360 *Property Plant, and Equipment* costs including interest and real estate taxes and associated costs directly related to the project under development, are capitalized. During the predevelopment period of a probable project and the period in which a project is under construction, the Company capitalizes all direct and indirect costs associated with planning, developing, and constructing the project. Once a project is constructed and deemed substantially complete and ready for occupancy, carrying costs, such as real estate taxes, interest and associated costs, are expensed as incurred.

UNCONSOLIDATED INVESTMENTS—Kennedy Wilson has a number of joint venture interests that were formed to acquire, manage, and/or sell real estate. Investments in unconsolidated investments are accounted for under the equity method of accounting as Kennedy Wilson can exercise significant influence, but does not have the ability to control the unconsolidated investment. An investment in an unconsolidated investment is recorded at its initial investment and is increased or decreased by Kennedy Wilson’s share of income or loss, plus additional contributions and less distributions. A decline in the value of an unconsolidated investment that is other than temporary is recognized when evidence indicates that such a decline has occurred in accordance with ASC Topic 323, *Investments—Equity Method and Joint Ventures*.

Kennedy Wilson elected the fair value option for 67 investments in unconsolidated investment entities (“FV Option” investments). Due to the nature of these investments, Kennedy Wilson elected to record these investments at fair value in order to report the change in value in the underlying investments in the results of its current operations.

Additionally, Kennedy Wilson records its investments in certain commingled funds it manages and sponsors (the “Funds”) that are investment companies under the ASC Topic 946, *Financial Services—Investment Companies*, based upon the net assets that would be allocated to its interests in the Funds assuming the Funds were to liquidate their investments at fair value as of the reporting date. Thus, the Funds reflect their investments at fair value, with unrealized gains and losses resulting from changes in fair value reflected in their earnings.

Performance allocations or carried interest are allocated to the general partner, special limited partner or asset manager of Kennedy Wilson’s real estate funds based on the cumulative performance of the fund and are subject to preferred return thresholds of the limited partners. At the end of each reporting period, Kennedy Wilson calculates the performance allocation that would be due as if the fair value of the underlying investments were realized as of such date, irrespective of whether such amounts have been realized. As the fair value of underlying investments varies between reporting periods, it is necessary to make adjustments to amounts recorded as performance allocation to reflect either (a) positive performance resulting in an increase in the performance allocation to the general partner or asset manager or (b) negative performance that would cause the amount due to Kennedy Wilson to be less than the amount previously recognized as income from unconsolidated investments, resulting in a negative adjustment to performance allocations to the general partner or asset manager. As of December 31, 2022, the Company has \$141.6 million of accrued performance allocations recorded to unconsolidated investments that are subject to future adjustments based on the underlying performance of investments. During the year ended December 31, 2022 and 2021 the Company collected \$6.8 million and \$9.6 million of performance allocations. There were no collections of performance allocations during the year ended December 31, 2020.

The Company has concluded that performance allocations to the Company, based on cumulative performance to-date, represent carried interests. For equity method investments, these allocations are included as a component of the income reported from the underlying equity method investee and for equity method investments where the fair value option has been elected, these allocations are included in the determination of fair value under ASC Topic 820, *Fair Value Measurement*.

Performance allocation compensation is recognized in the same period that the related performance allocations are recognized and can be reversed during periods when there is a reversal of performance allocations that were previously recognized. As of December 31, 2022, the Company has \$37.1 million of accrued performance allocation compensation recorded to accrued expenses and other liabilities that are subject to future adjustments based on the underlying performance of investments. During the year ended December 31, 2022, the Company paid \$1.2 million of performance allocation compensation to employees for performance allocations that were realized during the period.

FAIR VALUE MEASUREMENTS—Kennedy Wilson accounts for fair value measurements of financial assets and financial liabilities and for fair value measurements of non-financial items that are recognized or disclosed at fair value in the financial statements on a recurring basis under the

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2022, 2021 and 2020 (continued)

provisions of ASC Topic 820. ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When estimating fair value in the absence of an orderly transaction between market participants, valuations of real estate are based on management estimates of the real estate assets using income and market approaches. The indebtedness securing the real estate and the investments in debt securities are valued, in part, based on third party valuations and management estimates also using an income approach. The use of different market assumptions or estimation methodologies may have a material impact on the estimated fair value amounts.

FAIR VALUE OF FINANCIAL INSTRUMENTS—The estimated fair value of financial instruments is determined using available market information and appropriate valuation methodologies. Considerable judgment, is necessary, however, to interpret market data and develop the related estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that could be realized upon disposition of the financial instruments. The use of different market assumptions or estimation methodologies may have a material impact on the estimated fair value amounts.

DISTRIBUTIONS FROM UNCONSOLIDATED INVESTMENTS—The Company utilizes the nature of distributions approach and distributions are reported under operating cash flow unless the facts and circumstances of a specific distribution clearly indicate that it is a return of capital (e.g., a liquidating dividend or distribution of the proceeds from unconsolidated investments' sale of assets), in which case it is reported as an investing activity. This enables Kennedy Wilson to look to the nature and source of the distribution received and classify it appropriately between operating and investing activities on the statement of cash flows based upon the source.

FOREIGN CURRENCIES—The financial statements of Kennedy Wilson's subsidiaries located outside the United States are measured using the local currency as this is their functional currency. The assets and liabilities of these subsidiaries are translated at the rates of exchange at the balance sheet date, and income and expenses are translated at the average monthly rate. The foreign currencies include the euro and the British pound sterling. Cumulative translation adjustments, to the extent not included in cumulative net income, are included in the consolidated statement of equity as a component of accumulated other comprehensive income.

Investment level debt is generally incurred in local currencies. Fluctuations in foreign exchange rates may have a significant impact on the results of the Company's operations. In order to manage the effect of these fluctuations, the Company enters into hedging transactions, in the form of currency derivative contracts, that are designed to reduce its book equity exposure to foreign currencies. KWE has also entered into currency derivative contracts to manage its exposure to euro to British pound currency fluctuations. See Note 5 for a complete discussion on currency derivative contracts.

DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES—Kennedy Wilson has derivatives to reduce its exposure to foreign currencies. All derivative instruments are recognized as either assets or liabilities in the balance sheet at their respective fair values. For derivatives designated in hedging relationships, changes in fair value of cash flow hedges or net investment hedges are recognized in accumulated other comprehensive income, to the extent the derivative is effective at offsetting the changes in the item being hedged until the hedged item affects earnings.

Fluctuations in foreign exchange rates may have a significant impact on the Company's results of operations. In order to manage the potential exposure from adverse changes in foreign exchange rates arising from the Company's net investments in foreign operations, the Company may enter into currency derivative contracts to hedge all or portions of the net investments in the Company's non-U.S. dollar denominated foreign operations.

GOODWILL—Goodwill results from the difference between the purchase price and the fair value of net assets acquired based upon the purchase method of accounting for business combinations. In accordance with ASC Subtopic 350-20, *Accounting for Intangibles—Goodwill and Other*, goodwill is reviewed for impairment on an annual basis. The Company performs its annual review of impairment at year end and when a triggering event occurs between annual year end reviews. As a result of the evaluation performed as described above, Kennedy Wilson has determined that there was no impairment of goodwill as of December 31, 2022, 2021 and 2020.

CASH AND CASH EQUIVALENTS—Cash and cash equivalents consist of cash and all highly liquid investments purchased with maturities of three months or less. Cash and cash equivalents are invested in institutions insured by government agencies. Certain accounts contain balances in excess of the insured limits. Kennedy Wilson's operations and financial position are affected by fluctuations in currency exchange rates between the euro and British pound sterling against the U.S. Dollar. As of December 31, 2022, 2021, and 2020 we have \$21.4 million, \$24.2 million, and \$101.7 million, respectively, of restricted cash, which is included in cash and cash equivalents, that primarily relates to lender reserves associated with consolidated mortgages that we hold on properties as well as escrow deposits associated with acquisitions and dispositions. These reserves typically relate to interest, tax, insurance and future capital expenditures at the properties.

LONG-LIVED ASSETS—Kennedy Wilson reviews its long-lived assets (excluding goodwill) whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable in accordance with ASC Subtopic 360-10, *Property, Plant and Equipment*. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized in gain on sale of real estate, net in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of are presented separately in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of the assets to be disposed of are classified as held for sale and would be presented separately in the appropriate asset and liability sections of the consolidated balance sheets.

ACCOUNTS RECEIVABLE—Accounts receivable are recorded at the contractual amount as determined by the underlying agreements and do not bear interest. The Company recognizes revenue to the extent that amounts are probable that substantially all rental income will be collected.

CONCENTRATION OF CREDIT RISK—Financial instruments that subject Kennedy Wilson to credit risk consist primarily of accounts and notes receivable, cash equivalents and derivative instruments. Credit risk is generally diversified due to the large number of entities composing Kennedy Wilson's customer base and their geographic dispersion throughout the United States,

Kennedy-Wilson Holdings, Inc. and Subsidiaries Notes to Consolidated Financial Statements December 31, 2022, 2021 and 2020 (continued)

the United Kingdom, Ireland, Spain and Italy. Kennedy Wilson performs ongoing credit evaluations of its customers and debtors.

EARNINGS PER SHARE—Basic earnings per share is computed based upon the weighted average number of shares of common stock outstanding during the periods presented. Diluted earnings per share is computed based upon the weighted average number of shares of common stock and potentially dilutive securities outstanding during the periods presented. The dilutive impact of potentially dilutive securities including convertible securities, and unvested stock which were outstanding during the period. Unvested stock are calculated by the “treasury stock” method and the convertible securities under the “if converted” method.

COMPREHENSIVE INCOME (LOSS)—Comprehensive income (loss) consists of net income (loss) and other comprehensive income (loss). In the accompanying consolidated balance sheets, accumulated other comprehensive income consists of foreign currency translation adjustments and unrealized gains (losses) on derivative instruments.

REPURCHASE OF EQUITY INSTRUMENTS—Upon the decision to retire repurchased equity instruments, Kennedy Wilson records the retirement as a reduction to additional paid in capital for the amount that shares were initially issued at with the excess paid recorded to retained earnings.

SHARE-BASED PAYMENT ARRANGEMENTS—Kennedy Wilson accounts for its share-based payment arrangements under the provisions of ASC Subtopic 718-10, *Compensation—Stock Compensation*. Compensation cost for employee service received in exchange for an award of equity instruments is based on the grant-date fair value of the share-based award that is ultimately settled in equity of Kennedy Wilson. The cost of employee services is recognized over the period during which an employee provides service in exchange for the share-based payment award. Share-based payment arrangements with only services conditions that vest ratably over the requisite service period are recognized on the straight-line basis and performance awards that vest ratably are recognized on a tranche by tranche basis over the performance period.

INCOME TAXES—Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In accordance with accounting for uncertainty in ASC Subtopic 740-10, *Income Taxes*, Kennedy Wilson recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

Kennedy Wilson records interest related to unrecognized tax benefits in interest expense and penalties in general and administrative expenses on the consolidated statements of income.

NONCONTROLLING INTERESTS—Noncontrolling interests are reported within equity as a separate component of Kennedy Wilson’s equity in accordance with ASC Subtopic 810-10. Revenues, expenses, gains, losses, net income or loss, and other comprehensive income are reported in the consolidated statements of income at the consolidated amounts and net income and comprehensive income attributable to noncontrolling interests are separately stated.

RECENT ACCOUNTING PRONOUNCEMENTS

In August 2020, the FASB issued Accounting Standards Update (“ASU”) 2020-06, *Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity’s Own Equity (Subtopic 815-40)* to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity’s own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity’s own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. The Company adopted ASU 2020-06 and the effect of the adoption of the ASU did not impact the Company’s financial statements.

In June 2016, the FASB updated ASC Topic 326, *Financial Instruments—Credit Losses* with ASU 2016-13, *Measurement of Credit Losses on Financial Instruments*. ASU 2016-13 enhances the methodology of measuring expected credit losses to include the use of forward-looking information to better inform credit loss estimates. This ASU is effective for all entities for annual and interim periods in fiscal years beginning after December 15, 2019. In addition, in November 2018 the FASB issued ASU 2018-19, which clarifies that receivables arising from operating leases are not within the scope of the credit losses standard, but rather, should be accounted for in accordance with ASC Topic 842. The Company adopted this standard on January 1, 2020 and the adoption of this standard did not have a material impact on Kennedy Wilson’s consolidated financial statements. During the course of 2020 the Company has launched a debt platform originating and acquiring performing loans. As of December 31, 2022, the Company has \$149.4 million of investments in loan originations and acquisitions. The Company’s current loans are performing and backed by credit worthy borrowers and although the Company does not expect significant credit losses, it will monitor and evaluate loans in accordance with ASU 2016-13.

In March 2020, the FASB issued ASU No. 2020-04, *Reference Rate Reform (Topic 848)*, which provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships, and other transactions affected by reference rate reform if certain criteria are met. The amendments apply only to contracts, hedging relationships, and other transactions that reference LIBOR or another reference rate expected to be discontinued because of reference rate reform. The ASU was effective upon issuance on a prospective basis beginning January 1, 2020 and may be elected over time as reference rate reform activities occur. The Company adopted this standard on January 1, 2020 and the adoption of this standard did not have a material impact on the Company’s consolidated financial statements. The Company is in the process of converting applicable transaction documents from LIBOR to other reference rates and does not expect any issues with the conversion.

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2022, 2021 and 2020 (continued)

The FASB did not issue any other ASUs during the year ended December 31, 2022 that the Company expects to be applicable and have a material impact on the Company's financial statements.

NOTE 3—REAL ESTATE AND ACQUIRED IN PLACE LEASE VALUE

The following table summarizes the Company's investment in consolidated real estate properties at December 31, 2022 and 2021:

	December 31,	
<i>(Dollars in millions)</i>	2022	2021
Land	\$ 1,319.2	\$ 1,277.6
Buildings	3,961.9	3,744.1
Building improvements	494.2	545.6
Acquired in-place lease values	295.0	330.6
	6,070.3	5,897.9
Less accumulated depreciation and amortization	(882.2)	(838.1)
Real estate and acquired in place lease values, net of accumulated depreciation and amortization	\$ 5,188.1	\$ 5,059.8

Real property, including land, buildings, and building improvements, are included in real estate and are generally stated at cost. Buildings and building improvements are depreciated on the straight-line method over their estimated lives not to exceed 40 years. Acquired in-place lease values are recorded at their estimated fair value and amortized over their respective weighted-average lease term which was 6.7 years at December 31, 2022.

Depreciation and amortization expense on buildings, building improvements and acquired in-place lease values for the years ended December 31, 2022, 2021 and 2020 was \$162.7 million, \$151.3 million and \$165.7 million, respectively.

Consolidated Acquisitions

The purchase of property is recorded to land, buildings, building improvements, and intangible lease value (including the value of above-market and below-market leases, acquired in-place lease values, and tenant relationships, if any) based on their respective estimated relative fair values. The purchase price generally approximates the fair value of the properties as acquisitions are transacted with third-party willing sellers after arms-length negotiations.

During the year ended December 31, 2022, Kennedy Wilson acquired the following consolidated properties which were treated as asset acquisitions:

<i>(Dollars in millions)</i>		Purchase Price Allocation at Acquisition ⁽¹⁾				
Location	Description	Land	Building	Acquired in-place lease values ⁽²⁾	Investment debt	KWH Shareholders' Equity
Western U.S.	Four multifamily properties	\$ 99.2	\$ 396.6	\$ 1.4	\$ 203.4	\$ 293.8
United Kingdom	Office building	25.5	74.1	6.9	—	106.5
		\$ 124.7	\$ 470.7	\$ 8.3	\$ 203.4	\$ 400.3

⁽¹⁾ Excludes net other assets.

⁽²⁾ Above- and below-market leases are included in other assets and accrued expenses and other liabilities, respectively, on the accompanying consolidated balance sheets.

During the year ended December 31, 2021, Kennedy Wilson acquired the following consolidated properties which were treated as asset acquisitions:

<i>(Dollars in millions)</i>		Purchase Price Allocation at Acquisition ⁽¹⁾				
Location	Description	Land	Building	Acquired in-place lease values ⁽²⁾	Investment debt	KWH Shareholders' Equity
Western U.S.	Ten multifamily properties	\$ 166.1	\$ 610.9	\$ 2.3	\$ 469.1	\$ 310.2
United Kingdom	Two commercial properties	95.9	231.3	22.3	—	349.5
		\$ 262.0	\$ 842.2	\$ 24.6	\$ 469.1	\$ 659.7

⁽¹⁾ Excludes net other assets.

⁽²⁾ Above- and below-market leases are included in other assets and accrued expenses and other liabilities, respectively, on the accompanying consolidated balance sheets.

Gains on Sale of Real Estate, Net

During the years ended December 31, 2022, 2021 and 2020, Kennedy Wilson recognized the following net gains on sale of real estate. Included in the net gains for the year ended December 31, 2022 is an impairment loss of \$13.3 million on European non-core retail and office assets. Included in the net gains for year ended December 31, 2021 is an impairment loss of \$20.9 million on two retail properties in the United Kingdom and an additional impairment on a residential property in the Western United States. Included in the net gains for year ended December 31, 2020 is a \$15.6 million impairment loss on five retail properties in the United Kingdom and a residential property in the Western United States.

<i>(Dollars in millions)</i>		Gain on sale of real estate		
Year ended December 31,	Description	Consolidated	NCI	Net of NCI
2022	Primarily due to the sale of a 49% equity interest in a multifamily property in Western United States that was previously wholly-owned and controlled by the Company and the sale of a wholly-owned office property in the United Kingdom	\$ 103.7	\$ (1.0)	\$ 102.7
2021	Primarily due to the sale of a 49% equity interest in nine multifamily properties in Western United States that were previously wholly-owned and controlled by the Company and the sale of 19 office properties in the United Kingdom, one multifamily property in Western United States, three retail properties in Western United States and an office property in Western United States	412.7	(5.4)	407.3

Kennedy-Wilson Holdings, Inc. and Subsidiaries Notes to Consolidated Financial Statements December 31, 2022, 2021 and 2020 (continued)

Deconsolidation of Previously Consolidated Real Estate

Under ASC Subtopic 610-20, the Company consummated the following transactions that resulted in the deconsolidation of the Company's interests in investments previously consolidated in the Company's financial statements:

During the year ended December 31, 2022, due to the sale and deconsolidation of Montiao, the Company recognized a \$56.7 million gain on sale of real estate, net and generated \$30.2 million of cash proceeds for the Company. The gain is due to the sale of the 49% interest to the Company's partner and the recording of the Company's retained 51% interest in unconsolidated investments at the fair value established by the transaction.

During the year ended December 31, 2021, due to the sale and deconsolidation of the assets that make up the MF seed portfolio, the Company recognized a \$332.0 million gain on sale of real estate, net and generated \$166.4 million of cash proceeds for the Company. The gain is due to the sale of the 49% interest to the Company's partner and the recording of the Company's retained 51% interest in unconsolidated investments at the fair value established by the transaction. The MF seed portfolio and subsequent investments within the separate account are accounted for at fair value as the Company elected to account for this investment under the fair value adoption.

During the year ended December 31, 2020, due to the sale and deconsolidation of the assets that made up the urban logistics properties in the UK ("European Industrial JV") the Company recognized a \$126.3 million gain from the sale of real estate, net. The gain is due to the sale of the 80% interest to the Company's partner and the recording of the Company's retained 20% interest in unconsolidated investments at the fair value established by the transaction. The European Industrial JV commenced with investing in an ownership stake in 18 industrial assets located throughout the United Kingdom and subsequent investments within the separate account are accounted for at fair value as the Company elected to account for this investment under the fair value adoption.

The Company leases its operating properties to customers under agreements that are classified as operating leases. The total minimum lease payments provided for under the leases are recognized on a straight-line basis over the lease term. The majority of the Company's rental expenses, including common area maintenance, real estate taxes and insurance, are recovered from the Company's tenants. The Company records amounts reimbursed by customers in the period that the applicable expenses are incurred, which is generally ratably throughout the term of the lease. The reimbursements are recognized in rental income in the consolidated statements of operations as the Company is the primary obligor with respect to purchasing and selecting goods and services from third-party vendors and bearing the associated credit risk.

The following table summarizes the minimum lease payments due from the Company's tenants on leases with lease periods greater than one year at December 31, 2022:

<i>(Dollars in millions)</i>	Minimum Rental Revenues ⁽¹⁾
2023	\$ 144.2
2024	127.9
2025	112.8
2026	95.6
2027	76.6
Thereafter	232.6
Total	\$ 789.7

⁽¹⁾ These amounts do not reflect future rental revenues from the renewal or replacement of existing leases, rental increases that are not fixed and exclude reimbursements of rental expenses.

NOTE 4—UNCONSOLIDATED INVESTMENTS

Kennedy Wilson has a number of joint venture interests including commingled funds and separate accounts, generally ranging from 5% to 50%, that were formed to acquire, manage, develop, service and/or sell real estate. Kennedy Wilson has significant influence over these entities, but not control. Accordingly, these investments are accounted for under the equity method.

Joint Venture and Fund Holdings

The following table details Kennedy Wilson's investments in joint ventures by investment type and geographic location as of December 31, 2022:

<i>(Dollars in millions)</i>	Multifamily	Commercial	Hotel	Funds	Residential and Other	Total
Western U.S.	\$ 857.6	\$ 89.2	\$ 195.9	\$ 158.3	\$ 169.1	\$ 1,470.1
Ireland	378.1	176.7	—	8.0	—	562.8
United Kingdom	—	138.7	—	36.3	30.2	205.2
Total	\$ 1,235.7	\$ 404.6	\$ 195.9	\$ 202.6	\$ 199.3	\$ 2,238.1

The following table details the Kennedy Wilson's investments in joint ventures by investment type and geographic location as of December 31, 2021:

<i>(Dollars in millions)</i>	Multifamily	Commercial	Hotel	Funds	Residential and Other	Total
Western U.S.	\$ 592.1	\$ 81.0	\$ 131.0	\$ 189.2	\$ 179.6	\$ 1,172.9
Ireland	389.5	141.1	—	3.1	—	533.7
United Kingdom	—	169.3	—	42.9	28.8	241.0
Total	\$ 981.6	\$ 391.4	\$ 131.0	\$ 235.2	\$ 208.4	\$ 1,947.6

During the year ended December 31, 2022, the change in unconsolidated investments primarily relates to \$361.3 million of cash contributions to unconsolidated investments, \$235.2 million of distributions from unconsolidated investments, \$31.9 million associated with the deconsolidation of Montiao as discussed in Note 3, \$178.4 million of income from unconsolidated investments (including \$114.6 million of fair value gains), and a \$41.8 million decrease related to other items, which primarily related to foreign exchange movements.

As of December 31, 2022 and December 31, 2021, \$2,093.7 million and \$1,794.8 million, respectively, of unconsolidated investments were accounted for at fair value. See Note 5 for more detail.

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2022, 2021 and 2020 (continued)

Contributions to Joint Ventures

During the year ended December 31, 2022, Kennedy Wilson contributed \$361.3 million to joint ventures, primarily to fund new acquisitions in the Company's European Industrial JV and multifamily properties in Western United States with separate account partners and capital calls with respect to the Kona Village hotel development.

Distributions from Joint Ventures

The following table details cash distributions by investment type and geographic location for the year ended December 31, 2022:

(Dollars in millions)	Multifamily		Commercial		Funds		Residential and Other		Total	
	Operating	Investing	Operating	Investing	Operating	Investing	Operating	Investing	Operating	Investing
Western U.S.	\$ 38.8	\$ 66.6	\$ 11.2	\$ 0.2	\$ 10.2	\$ 10.7	\$ 0.2	\$ 23.5	\$ 60.4	\$ 101.0
Ireland	8.0	38.6	7.3	—	—	4.9	—	—	15.3	43.5
United Kingdom	—	—	1.7	1.3	—	—	0.7	11.3	2.4	12.6
Total	\$ 46.8	\$ 105.2	\$ 20.2	\$ 1.5	\$ 10.2	\$ 15.6	\$ 0.9	\$ 34.8	\$ 78.1	\$ 157.1

Investing distributions resulted primarily from the sales of three multifamily properties and one office property in Fund VI, refinancing and buyouts from limited partners in the VHH portfolio, and distributions from mortgage refinancing on multifamily properties in the Western United States and Ireland. Operating distributions resulted from operating cash flow generated by the joint venture investments that have been distributed to the Company.

Income from Unconsolidated Investments

The following table presents income from unconsolidated investments recognized by Kennedy Wilson during the years ended December 31, 2022, 2021 and 2020:

(Dollars in millions)	Year Ended December 31,		
	2022	2021	2020
Income from unconsolidated investments—operating performance	\$ 80.2	\$ 60.7	\$ 43.4
Income from unconsolidated investments—realized gains from cost basis investments	4.7	—	—
Income from unconsolidated investments—unrealized and realized fair value gains	114.6	213.5	47.2
Income from unconsolidated investments—realized losses and impairment	—	(3.1)	(12.3)
Principal co-investments	199.5	271.1	78.3
(Loss) income from unconsolidated investments—performance allocation	(21.1)	117.9	2.7
	\$ 178.4	\$ 389.0	\$ 81.0

Operating performance is related to underlying performance from unconsolidated investments.

Realized gains during the year ended December 31, 2022, relates to the sale of a legacy multifamily property accounted for at historical cost in the Western United States at a sales price greater than its carrying value.

The decrease in income from unconsolidated investments is due to lower fair value gains and decreases in performance allocations on Western United States multifamily assets and commingled fund assets. The Company had a net fair value gain for the year ended December 31, 2022 as fair value losses on real estate and foreign exchange movements were more than offset by fair value gains on mortgages and interest rate derivatives as detailed below.

Valuations of global market rate multifamily assets in the Company's Western United States and Dublin markets and industrial assets in the United Kingdom were at historic levels at the end of 2021 and into the first quarter of 2022 and the Company has started to see this pull back slightly with cap rate expansion, which led to fair value losses on real estate during the year ended December 31, 2022. The Company also had fair value foreign exchange losses, net of any hedges on our foreign fair value investments as the GBP and Euro were at historically low levels in relation to the U.S. Dollar during the same period.

Fair value losses on real estate were also offset by fair value gains on fixed rate mortgages that are secured by certain properties, primarily related to having long term fixed rate debt that is at substantially lower interest rates than the current market interest rates as a result of higher base rates and spreads in today's financing market driven by recent rate increases implemented by the Federal Reserve and the European Central Bank ("ECB"). There were also fair value gains associated with interest rate derivatives held by properties on variable rate mortgages which have increased in value with rising interest rates.

VHH has had significant fair value gains in the current year due to gains on its fixed rate property loans and increases in NOI at the properties driven by rental increases and the stabilization of properties that have recently completed development. However, VHH does not have a performance allocation structure associated with the investment, which drove performance allocations being lower in relation to fair value gains.

During the year ended December 31, 2022, the Company recorded a \$21.1 million decrease in the accrual for performance allocations relating to its commingled funds and separate account investments as the fair value of assets within these funds decreased. During the year ended December 31, 2022, the Company collected \$6.8 million of performance allocations.

The Company evaluates on a quarterly basis the carrying value of its historical cost based investments and to the extent the carrying value is in excess of its fair value, an impairment loss is recorded. Realized losses and impairment are related to asset sales on non-core retail assets in the United Kingdom during the year ended December 31, 2021 and 2020.

Vintage Housing Holdings ("VHH")

As of December 31, 2022 and 2021, the carrying value of the Company's investment in VHH was \$272.3 million and \$157.9 million, respectively. The total equity income recognized from the Company's investment in VHH was \$119.8 million, \$41.4 million and \$22.8 million for the years ended December 31, 2022, 2021 and 2020, respectively. Distributions in the current period primarily relate to the refund of advances on two development projects in which VHH provides cash for the construction costs in advance, and other partners subsequently pay their share of the costs back to VHH, a resyndication and investing distributions from refinancing proceeds. Fair value gains in the current period primarily relate to having long term fixed rate debt that is at substantially lower

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2022, 2021 and 2020 (continued)

interest rates than the current market interest rates. There were also fair value gains associated with increases in rents as area median income ("AMI") in the relevant market increased by an average rate of 10% and additional NOI from the stabilization of properties that have recently completed development. Prior period fair value gains primarily relate to resyndications in which VHH dissolves an existing partnership and recapitalizes into a new partnership with tax exempt bonds and tax credits that are sold to a new tax credit partner and, in many cases, yields cash back to VHH. Upon resyndication, VHH retains a GP interest in the partnership and receives various future streams of cash flows including: development fees, asset management fees, other GP management fees and distributions from operations.

Capital Commitments

As of December 31, 2022, Kennedy Wilson had unfulfilled capital commitments totaling \$246.6 million to nine of its unconsolidated joint ventures, including \$76.8 million relating to four closed-end funds managed by Kennedy Wilson, under the respective operating agreements. In addition to the unfunded capital commitments, the Company has \$87.4 million of equity commitments on various development projects. The Company may be called upon to contribute additional capital to joint ventures in satisfaction of such capital commitment obligations.

Summarized Financial Data

VHH

The income from VHH was a significant component of the Company's operations for the year ended December 31, 2022 when it had \$119.8 million of income from unconsolidated investments, which consisted of \$108.4 million of fair value gains and \$11.4 million relating to the Company's ownership in the underlying operations and as such VHH is considered a significant subsidiary for the year ended December 31, 2022. Financial information is provided for December 31, 2021 for comparative purposes.

MF Seed Portfolio

The income from the MF seed portfolio was a significant component of the Company's operations for the year ended December 31, 2021 when it had \$92.1 million of income from unconsolidated investments, which consisted of \$73.3 million of fair value gains, \$15.7 million of performance allocations and \$3.2 million relating to the Company's ownership in the underlying operations and as such the MF seed portfolio is considered a significant subsidiary for the year ended December 31, 2021. Financial information is provided for December 31, 2022 for comparative purposes.

The MF seed portfolio had \$43.8 million of income from unconsolidated investments, which consisted of \$28.6 million of fair value gains, \$5.2 million of performance allocations and \$9.9 million relating to the Company's ownership in the underlying operations of the properties in the portfolio for the year ended December 31, 2022.

Kennedy-Wilson Holdings, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2022, 2021 and 2020 (continued)

Unconsolidated Investments

Kennedy Wilson elected to use the FV Option for 67 unconsolidated investments to more accurately reflect the timing of the value created in the underlying investments and report those changes in current operations. Kennedy Wilson's investment balance in the FV Option investments was \$1,891.1 million and \$1,568.5 million at December 31, 2022 and 2021, respectively, which are included in unconsolidated investments in the accompanying balance sheets.

Additionally, Kennedy Wilson records its investments in its managed commingled funds (the "Funds") based upon the net assets that would be allocated to its interests in the Funds, assuming the Funds were to liquidate their investments at fair value as of the reporting date. The Company's investment balance in the Funds was \$202.6 million and \$226.3 million at December 31, 2022 and 2021, respectively, which is included in unconsolidated investments in the accompanying consolidated balance sheets.

In estimating fair value of real estate held by the Funds and the 67 FV Option investments, the Company considers significant unobservable inputs to be the capitalization and discount rates.

The following table summarizes the Company's investments in unconsolidated investments held at fair value by type:

<i>(Dollars in millions)</i>	December 31, 2022	December 31, 2021
FV Option	\$ 1,891.1	\$ 1,568.5
Funds	202.6	226.3
Total	\$ 2,093.7	\$ 1,794.8

The following table presents changes in Level 3 investments, investments in investment companies and investments in joint ventures that elected the fair value option, for the years ended December 31:

<i>(Dollars in millions)</i>	2022	2021	2020
Beginning balance	\$ 1,794.8	\$ 1,136.5	\$ 1,099.3
Unrealized and realized gains, including performance allocations	274.4	390.0	109.8
Unrealized and realized losses	(114.1)	(5.0)	(13.5)
Contributions	348.1	273.8	109.2
Distributions	(188.9)	(144.3)	(189.7)
Foreign exchange	(55.8)	(28.4)	24.5
Other	35.2	172.2	(3.1)
Ending balance	\$ 2,093.7	\$ 1,794.8	\$ 1,136.5

The Other balance for the year ended December 31, 2022 includes \$31.9 million related to the sale of a 49% ownership interest in the Montivo. The Other balance for the year ended December 31, 2021 above includes \$178.8 million related to the deconsolidation of nine multifamily assets in the MF seed portfolio during the period. As the increase in unconsolidated investments was due to a non-cash movement the amounts are reflected in Other above. See notes to cash flow statement and Note 3 for further discussion regarding the sale.

The change in unrealized gains and losses on Level 3 investments during 2022 and 2021 for investments still held as of December 31, 2022 and 2021 were gains of \$120.8 million and \$195.3 million, respectively. The change in unrealized and realized gains and losses are included in principal co-investments within income from unconsolidated investments in the accompanying consolidated statements of income.

Unobservable Inputs for Real Estate

In determining estimated fair market values, the Company utilizes two approaches to value real estate, a discounted cash flow analysis and direct capitalization approach.

Discounted cash flow models estimate future cash flows from a buyer's perspective (including terminal values) and compute a present value using a market discount rate. The holding period in the analysis is typically ten years. This is consistent with how market participants often estimate values in connection with buying real estate but these holding periods can be shorter depending on the life of the structure an investment is held within. The cash flows include a projection of the net sales proceeds at the end of the holding period, computed using a market reversionary capitalization rate.

Under the direct capitalization approach, the Company applies a market derived capitalization rate to current and future income streams with appropriate adjustments for tenant vacancies or rent-free periods. These capitalization rates and future income streams are derived from comparable property and leasing transactions and are considered to be key inputs in the valuation. Other factors that are taken into consideration include tenancy details, planning, building and environmental factors that might affect the property.

The Company also utilizes valuations from independent real estate appraisal firms on some of its investments ("appraised valuations"), with certain investment structures requiring appraised valuations periodically (typically annually). All appraised valuations are reviewed and approved by the Company.

The accuracy of estimating fair value for investments cannot be determined with precision and cannot be substantiated by comparison to quoted prices in active markets and may not be realized in a current sale or immediate settlement of the asset or liability. Additionally, there are inherent uncertainties in any fair value measurement technique, and changes in the underlying assumptions used, including capitalization rates, discount rates, liquidity risks, and estimates of future cash flows could significantly affect the fair value measurement amounts. All valuations of real estate involve subjective judgments, and the actual market price of real estate can only be determined by negotiation between independent parties in a sales transaction.

The table below describes the range of inputs used as of December 31, 2022 for real estate assets:

		<i>Estimated Rates Used For</i>	
		Capitalization Rates	Discount Rates
Multifamily	Income approach—discounted cash flow	5.80% – 7.50%	8.00% – 9.80%
	Income approach—direct capitalization	3.80% – 5.70%	N/A
Office	Income approach—discounted cash flow	5.20% – 7.50%	7.50% – 9.30%
	Income approach—direct capitalization	4.20% – 8.70%	N/A
Industrial	Income approach—discounted cash flow	5.00% – 6.30%	6.30% – 7.80%
	Income approach—direct capitalization	3.80% – 8.30%	N/A
Retail	Income approach—discounted cash flow	6.50%	8.30%
Hotel	Income approach—discounted cash flow	6.00%	8.30%

In valuing indebtedness, Kennedy Wilson considers significant inputs to be the term of the debt, value of collateral, market loan-to-value ratios, market interest rates and spreads, and credit quality of investment entities. The credit spreads used by Kennedy Wilson for these types of investments range from 1.22% to 7.25%.

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2022, 2021 and 2020 (continued)

There is no active secondary market for the Company's development projects and no readily available market value given the uncertainty of the amount and timing of future cash flows. Accordingly, determination of fair value of its development projects requires judgment and extensive use of estimates. Therefore, the Company typically uses investment cost as the estimated fair value until future cash flows become more predictable. Additionally, the fair value of its development projects may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that the Company may ultimately realize. If the Company were required to liquidate an investment in a forced or liquidation sale, it could realize significantly less than the value at which the Company has recorded it. In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the currently assigned valuations.

Ongoing macroeconomic conditions such as, but not limited to, high inflation, central banks raising interest rates to curtail high inflation, currency fluctuations, the COVID-19 pandemic and the ongoing military conflict between Russia and Ukraine and international sanctions against Russia, continue to fuel recessionary fears and create volatility in our business results and operations. Any prolonged downturn in the financial markets or a recession, either globally or locally in the United States or in other countries in which we conduct business, could impact the fair value of investments held by the Company. As a result of the rapid development, fluidity and uncertainty surrounding these situations, the Company expects that information with respect to fair value measurement may change, potentially significantly, going forward and may not be indicative of the actual impact on its business, operations, cash flows and financial condition for the year ended December 31, 2022 and future periods.

Currency Derivative Contracts

Kennedy Wilson uses foreign currency derivative contracts such as forward contracts and options to manage its foreign currency risk exposure against a portion of certain non-U.S. dollar denominated currency net investments. Foreign currency options are valued using a variant of the Black-Scholes model tailored for currency derivatives and the foreign currency forward contracts are valued based on the difference between the contract rate and the forward rate at maturity of the underlying currency applied to the notional value in the underlying currency discounted at a market rate for similar risks. Although the Company has determined that the majority of the inputs used to value its currency derivative contracts fall within Level 2 of the fair value hierarchy, the counterparty risk adjustments associated with the currency derivative contracts utilize Level 3 inputs. However, as of December 31, 2022 and 2021, Kennedy Wilson assessed the significance of the impact of the counterparty valuation adjustments on the overall valuation of its derivative positions and determined that the counterparty valuation adjustments are not significant to the overall valuation of its derivative. As a result, the Company has determined that our derivative valuation in its entirety be classified in Level 2 of the fair value hierarchy.

Changes in fair value are recorded in other comprehensive income (loss) in the accompanying consolidated statements of comprehensive income as the portion of the currency forward and option contracts used to hedge currency exposure of its certain consolidated subsidiaries qualifies as a net investment hedge under ASC Topic 815, *Derivatives and Hedging*. Changes in fair value on hedges associated with investments that are held at fair value are recorded through principal

co-investments within income from unconsolidated investments. The Company has elected to amortize the spot to forward difference ("forward points") to interest expense over the contractual life of the hedges. On hedges associated with fair value investments the forward point amortization to interest expense is recorded as a component of principal co-investments.

The fair value of the currency derivative contracts held as of December 31, 2022 and 2021 are reported in other assets for hedge assets and included in accrued expenses and other liabilities for hedge liabilities on the accompanying balance sheet. See Note 14 for a complete discussion on other comprehensive income including currency forward and option contracts and foreign currency translations.

The table below details the currency forward contracts and currency option contracts Kennedy Wilson had as of December 31, 2022:

		December 31, 2022				Year Ended December 31, 2022			
Currency Hedged	Underlying Currency	Notional	Hedge Asset	Hedge Liability	Change in Unrealized Gains	Realized Gains	Interest Expense	Cash Paid	
Outstanding									
EUR	USD	€ 287.5	\$ 5.2	\$ 12.7	\$ (0.6)	\$ (8.7)	\$ 1.8	\$ —	\$ —

⁽¹⁾ Hedge is held by KWE on its wholly-owned subsidiaries.

⁽²⁾ Relates to KWE's Euro Medium Term Note. See discussion in Note 9.

⁽³⁾ Excludes deferred tax expense of \$16.1 million.

The gains and (losses) recognized through other comprehensive income (loss) will remain in accumulated other comprehensive income (loss) until the underlying investments they were hedging are substantially liquidated by Kennedy Wilson.

The currency derivative contracts discussed above are offset by foreign currency translation of the Company's foreign net assets. For the year ended December 31, 2022, Kennedy Wilson had a gross foreign currency translation loss on its net assets of \$73.9 million. As of December 31, 2022, the Company has hedged 91% of the net asset carrying value of its euro denominated investments and 92% of the net asset carrying value of its GBP denominated investments. See Note 14 for a complete discussion on other comprehensive income including currency derivative contracts and foreign currency translations.

Interest Rate Derivatives

The Company has interest rate swaps and caps to hedge its exposure to rising interest rates. Changes in the value of interest rate swaps that are designated to specific investments have fair value movements recorded to other comprehensive income (loss) and had fair value gains of \$7.4 million and a loss of \$4.2 million for the years ended December 31, 2022 and 2021. Changes in the value of interest rate swaps and caps that are undesignated are recorded to other income and

Kennedy-Wilson Holdings, Inc. and Subsidiaries Notes to Consolidated Financial Statements December 31, 2022, 2021 and 2020 (continued)

had fair value gains of \$42.4 million and \$0.8 million for the years ended December 31, 2022 and 2021. Some of the Company's unconsolidated investments have interest rate caps which resulted in a \$16.9 million gain recorded in principal co-investments for the year ended December 31, 2022. During the year end December 31, 2022 the Company refinanced a mortgages with interest rate swaps. Due to the refinancing, the Company recognized \$1.1 million to other income for amounts that had previously been recognized to other comprehensive income.

Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, accounts receivable including related party receivables, accounts payable, accrued expenses and other liabilities approximate fair value due to their short-term maturities. The carrying value of loans (excluding related party loans as they are presumed not to be an arm's length transaction) approximates fair value as the terms are similar to loans with similar characteristics available in the market.

Debt liabilities are accounted for at face value plus net unamortized debt premiums. Debt assumed in an asset acquisition, or business combination, is recorded at fair value on the date of acquisition. The fair value as of December 31, 2022 and 2021 for mortgages, KW unsecured debt, and KWE unsecured bonds were estimated to be approximately \$5.0 billion and \$5.5 billion, respectively, based on a comparison of the yield that would be required in a current transaction, taking into consideration the risk of the underlying collateral and the Company's credit risk to the current yield of a similar security, compared to their carrying value of \$5.6 billion and \$5.1 billion as of December 31, 2022 and 2021, respectively. The inputs used to value mortgages, KW unsecured debt, and KWE unsecured bonds are based on observable inputs for similar assets and quoted prices in markets that are not active and are therefore determined to be level 2 inputs.

NOTE 6—OTHER ASSETS

Other assets consist of the following:

(Dollars in millions)	December 31,	
	2022	2021
Straight line rent receivable	\$ 42.2	\$ 44.3
Interest rate caps and swaps	41.0	2.3
Hedge assets	34.3	24.5
Goodwill	23.9	23.9
Other	13.7	13.0
Furniture and equipment net of accumulated depreciation of \$29.4 and \$27.4 at December 31, 2022 and 2021, respectively	13.4	17.6
Prepaid expenses	12.7	13.3
Right of use asset, net	12.2	10.0
Leasing commissions, net of accumulated amortization of \$11.1 and \$9.7 at December 31, 2022 and 2021, respectively	9.4	8.0
Deferred taxes, net	9.4	12.6
Above-market leases, net of accumulated amortization of \$53.0 and \$60.4 at December 31, 2022 and 2021, respectively	3.9	8.4
Other Assets	\$ 216.1	\$ 177.9

Depreciation and amortization expense related to the above depreciable assets were \$10.2 million, \$14.5 million, and \$13.6 million for the years ended December 31, 2022, 2021 and 2020, respectively.

Right of use asset, net

The Company, as a lessee, has three office leases and three ground leases, which qualify as operating leases, with remaining lease terms of three to 236 years. The payments associated with office space leases have been discounted using the Company's incremental borrowing rate which is based on collateralized interest rates in the market and risk profile of the associated lease. For ground leases the rate implicit in the lease was used to determine the right of use asset.

The following table summarizes the fixed, future minimum rental payments, excluding variable costs, which are discounted to calculate the right of use asset and related lease liability for its operating leases in which we are the lessee:

(Dollars in millions)	Minimum Rental Payments
2023	\$ 1.1
2024	1.0
2025	1.4
2026	1.3
2027	1.3
Thereafter	33.8
Total undiscounted rental payments	39.9
Less imputed interest	(27.7)
Total lease liabilities	\$ 12.2

Rental expense was \$0.6 million, \$0.7 million, and \$1.0 million for the years ended December 31, 2022, 2021 and 2020, respectively, and is included in general and administrative expense in the accompanying consolidated statements of income.

NOTE 7—MORTGAGE DEBT

The following table details mortgage debt secured by Kennedy Wilson's consolidated properties as of December 31, 2022 and 2021:

Mortgage Debt by Product Type	Region	Carrying amount of mortgage debt as of December 31, ⁽¹⁾	
		2022	2021
Multifamily ⁽¹⁾	Western U.S.	\$ 1,692.9	\$ 1,493.1
Commercial ⁽¹⁾	United Kingdom	637.4	683.8
Commercial	Western U.S.	296.6	351.0
Commercial ⁽¹⁾	Ireland	370.7	327.3
Hotel	Ireland	—	82.0
Commercial	Spain	36.9	40.4
Mortgage debt (excluding loan fees) ⁽¹⁾		3,034.5	2,977.6
Unamortized loan fees		(16.5)	(17.8)
Total Mortgage Debt		\$ 3,018.0	\$ 2,959.8

⁽¹⁾ The mortgage debt payable balances include unamortized debt discount or premiums. Debt discount or premiums represent the difference between the fair value of debt and the principal value of debt assumed in various acquisitions and are amortized into interest expense over the remaining term of the related debt in a manner that approximates the effective interest method. The net unamortized loan discount as of December 31, 2022 was \$0.6 million and the unamortized debt premium as of December 31, 2021 was \$2.5 million.

Kennedy-Wilson Holdings, Inc. and Subsidiaries Notes to Consolidated Financial Statements December 31, 2022, 2021 and 2020 (continued)

The mortgage debt had a weighted average interest rate of 4.12% and 3.11% per annum as of December 31, 2022 and 2021, respectively. As of December 31, 2022, 65% of Kennedy Wilson's property level debt was fixed rate, 27% was floating rate with interest caps and 8% was floating rate without interest caps, compared to 78% fixed rate, 13% floating rate with interest caps and 9% floating rate without interest caps, as of December 31, 2021.

Mortgage Debt Transactions and Maturities

During the year ended December 31, 2022, four acquisitions were partially financed with mortgages, five existing mortgages were refinanced, one loan was deconsolidated and one existing investments that closed with all equity were subsequently partially financed with mortgage loans. The Company also fully repaid the mortgage that was secured by the Shelbourne Hotel, so that the asset is now unencumbered. The Company and its partner also repaid a mortgage secured by a retail property in the United Kingdom at a discount and recognized a gain on extinguishment of debt of \$16.1 million. See Note 4 for more detail on the acquisitions and the investment debt associated with them.

The aggregate maturities of mortgage loans subsequent to December 31, 2022 are as follows:

<i>(Dollars in millions)</i>	Aggregate Maturities
2023 ⁽¹⁾	\$ 247.9
2024	186.2
2025	359.9
2026	573.4
2027	378.1
Thereafter	1,289.6
	3,035.1
Unamortized debt discount	(0.6)
Unamortized loan fees	(16.5)
Total Mortgage Debt	\$ 3,018.0

⁽¹⁾ The Company expects to repay the amounts maturing in the next twelve months with new mortgage loans, cash generated from operations, existing cash balances, proceeds from dispositions of real estate investments, or as necessary, with borrowings on the Company's Second A&R Facility.

Subsequent to the year-ended December 31, 2022, the Company resolved a breach of a loan-to-value covenant in a non-recourse loan agreement secured by retail and commercial assets in the United Kingdom. The Company promptly resolved such breach by paying down the mortgage by \$9.1 million, \$7.6 million of which was held at the properties that serves as the collateral for the subject mortgage. The loan totals \$165.8 million or 5.5% of our consolidated mortgage balance at December 31, 2022.

As of December 31, 2022, the Company was in compliance with all property-level mortgages (other than discussed immediately above) and was current on all payments (principal and interest) with respect to the same.

NOTE 8—KW UNSECURED DEBT

The following table details KW unsecured debt as of December 31, 2022 and 2021:

<i>(Dollars in millions)</i>	<i>December 31,</i>	
	2022	2021
Credit Facility	\$ 282.0	\$ 75.0
Senior Notes ⁽¹⁾	1,803.5	1,803.9
KW Unsecured Debt	2,085.5	1,878.9
Unamortized loan fees	(22.9)	(26.6)
Total KW Unsecured Debt	\$ 2,062.6	\$ 1,852.3

⁽¹⁾ The senior notes balances include unamortized debt premiums (discounts). Debt premiums (discounts) represent the difference between the fair value of debt and the principal value of debt assumed in various acquisitions and are amortized into interest expense over the remaining term of the related debt in a manner that approximates the effective interest method. The unamortized debt premium as of December 31, 2022 and December 31, 2021 was \$3.5 million and \$3.9 million, respectively.

Borrowings Under Credit Facilities

The Company, through its wholly-owned subsidiary, Kennedy-Wilson, Inc. (the "Borrower"), has a \$500 million unsecured revolving credit facility (the "Second A&R Facility"). Loans under the Second A&R Facility bear interest at a rate equal to London Interbank Borrowing Rate ("LIBOR") plus between 1.75% and 2.50%, depending on the consolidated leverage ratio as of the applicable measurement date. The Second A&R Facility has a maturity date of March 25, 2024. Subject to certain conditions precedent and at the Borrower's option, the maturity date of the Second A&R Facility may be extended by one year.

The Second A&R Facility has certain covenants as set forth in that certain Second Amended and Restated Credit Agreement, dated as of March 25, 2020 (the "Credit Agreement") that, among other things, limit the Company and certain of its subsidiaries' ability to incur additional indebtedness, pay dividends or make distributions to stockholders, repurchase capital stock or debt, make investments, sell assets or subsidiary stock, create or permit liens, engage in transactions with affiliates, enter into sale/leaseback transactions, issue subsidiary equity and enter into consolidations or mergers. The Credit Agreement requires the Company to maintain (i) a maximum consolidated leverage ratio (as defined in the Credit Agreement) of not greater than 65%, measured as of the last day of each fiscal quarter, (ii) a minimum fixed charge coverage ratio (as defined in the Credit Agreement) of not less than 1.70 to 1.00, measured as of the last day of each fiscal quarter for the period of four full fiscal quarters then ended, (iii) a minimum consolidated tangible net worth equal to or greater than the sum of \$1,700,000,000 plus an amount equal to fifty percent (50%) of net equity proceeds received by the Company after the date of the most recent financial statements that are available as of March 25, 2020, measured as of the last day of each fiscal quarter, (iv) a maximum recourse leverage ratio (as defined in the Credit Agreement) of not greater than an amount equal to consolidated tangible net worth as of the measurement date multiplied by 1.5, measured as of the last day of each fiscal quarter, (v) a maximum secured recourse leverage ratio (as defined in the Credit Agreement) of not greater than an amount equal to 3.5% of consolidated total asset value (as defined in the Credit Agreement) and \$299,000,000, (vi) a maximum adjusted secured leverage ratio (as defined in the Credit Agreement) of not greater than 55%, measured as of the last day of each fiscal quarter, and (vii) liquidity (as defined in the Credit Agreement) of at least \$75.0 million.

Kennedy-Wilson Holdings, Inc. and Subsidiaries Notes to Consolidated Financial Statements December 31, 2022, 2021 and 2020 (continued)

As of December 31, 2022, the Company was in compliance with all financial covenant calculations. The obligations of the Borrower pursuant to the Credit Agreement are guaranteed by the Company and certain wholly-owned subsidiaries of the Company.

As of December 31, 2022, the Company had \$282.0 million outstanding on the Second A&R Facility with \$218.0 million available to be drawn.

The average outstanding borrowings under credit facilities was \$208.0 million during the year ended December 31, 2022.

Senior Notes

On February 11, 2021, Kennedy-Wilson, Inc., as issuer, issued \$500.0 million aggregate principal amount of 4.750% senior notes due 2029 (the "2029 notes") and \$500.0 million aggregate principal amount of 5.000% senior notes due 2031 (the "2031 notes" and, together with the 2029 notes, the "initial notes"). On March 15, 2021, Kennedy-Wilson, Inc. issued an additional \$100 million aggregate principal of the 2029 notes and an additional \$100 million of the 2031 notes. These additional notes were issued as "additional notes" under the indentures pursuant to which Kennedy Wilson previously issued 2029 notes and the 2031 notes. On August 23, 2021, Kennedy-Wilson, Inc. issued \$600.0 million aggregate principal amount of 4.750% senior notes due 2030 (the "2030 notes" and, together with the 2029 notes and the 2031 notes, the "notes"). The notes are senior, unsecured obligations of Kennedy Wilson and are guaranteed by Kennedy-Wilson Holdings, Inc. and certain subsidiaries of Kennedy Wilson.

The notes accrue interest at a rate of 4.750% (in the case of the 2029 notes), 4.750% (in the case of the 2030 notes) and 5.000% (in the case of the 2031 notes) per annum, payable semi-annually in arrears on March 1 and September 1 of each year, beginning on September 1, 2021 for the 2029 notes and 2031 notes and March 1, 2022 for the 2030 notes. The notes will mature on March 1, 2029 (in the case of the 2029 notes), February 1, 2030 (in case of 2030 notes) and March 1, 2031 (in the case of the 2031 notes), in each case unless earlier repurchased or redeemed. At any time prior to March 1, 2024 (in the case of the 2029 notes), September 1, 2024 (in the case of the 2030 notes) or March 1, 2026 (in the case of the 2031 notes), Kennedy Wilson may redeem the notes of the applicable series, in whole or in part, at a redemption price equal to 100% of their principal amount, plus an applicable "make-whole" premium and accrued and unpaid interest, if any, to the redemption date. At any time and from time to time on or after March 1, 2024 (in the case of the 2029 notes), September 1, 2024 (in the case of the 2030 notes) or March 1, 2026 (in the case of the 2031 notes), Kennedy Wilson may redeem the notes of the applicable series, in whole or in part, at specified redemption prices set forth in the indenture governing the notes of the applicable series, plus accrued and unpaid interest, if any, to the redemption date. In addition, prior to March 1, 2024 (for 2029 notes and 2031 notes) and September 1, 2024 (for 2030 notes), Kennedy Wilson may redeem up to 40% of the notes of either series from the proceeds of certain equity offerings. No sinking fund will be provided for the notes. Upon the occurrence of certain change of control or termination of trading events, holders of the notes may require Kennedy Wilson to repurchase their notes for cash equal to 101% of the principal amount of the notes to be repurchased, plus accrued and unpaid interest, if any, to, but excluding, the applicable repurchase date.

As of December 31, 2020, Kennedy Wilson, Inc. had \$1.2 billion of 5.875% Senior Notes due 2024 (the "2024 notes"). On January 27, 2021 the Company announced a tender offer for up to \$1.0 billion aggregate principal amount of outstanding 2024 notes. On February 9, 2021, \$576.9 million aggregate principal amount of the 2024 notes were tendered. As a result of the tender offer the Company recognized \$14.8 million of loss on early extinguishment of debt due to the tender premium and the proportionate write off of capitalized loan fees and debt discount associated with the bonds retired as part of the tender offer. On April 1, 2021 the Company redeemed the remaining \$573.1 million of the 2024 notes using cash on hand from the proceeds of the 2029 notes and 2031 notes. As a result of the redemption the Company recognized an additional \$11.7 million of loss on early extinguishment of debt during the year ended December 31, 2021.

The indentures governing the notes contain various restrictive covenants, including, among others, limitations on the Company's ability and the ability of certain of the Company's subsidiaries to incur or guarantee additional indebtedness, make restricted payments, pay dividends or make any other distributions from restricted subsidiaries, redeem or repurchase capital stock, sell assets or subsidiary stocks, engage in transactions with affiliates, create or permit liens, enter into sale/leaseback transactions, and enter into consolidations or mergers. The indentures governing the notes limit the ability of Kennedy Wilson and its restricted subsidiaries to incur additional indebtedness if, on the date of such incurrence and after giving effect to the new indebtedness, the maximum balance sheet leverage ratio (as defined in the indenture) is greater than 1.50 to 1.00, subject to certain exceptions. As of December 31, 2022, the maximum balance sheet leverage ratio was 1.15 to 1.00. See Note 17 for the guarantor and non-guarantor financial statements.

As of December 31, 2022, the Company was in compliance with all financial covenants.

NOTE 9—KWE UNSECURED BONDS

The following table details the KWE unsecured bonds as of December 31, 2022 and 2021:

	December 31,	
<i>(Dollars in millions)</i>	2022	2021
KWE Euro Medium Term Note Programme	507.1	624.1
Unamortized loan fees	(0.7)	(1.3)
Total KWE Unsecured Bonds	\$ 506.4	\$ 622.8

⁽¹⁾ The KWE unsecured bonds balances include unamortized debt discounts. Debt discounts represent the difference between the fair value of debt at issuance and the principal value of debt and are amortized into interest expense over the remaining term of the related debt in a manner that approximates the effective interest method. The net unamortized loan discount as of December 31, 2022 and 2021 was \$1.5 million and \$2.1 million, respectively.

KWE issued senior unsecured notes for an aggregate principal amount of (€550 million) (the "KWE Notes"). The KWE Notes were issued at a discount with an annual fixed coupon of 3.25%, and mature in 2025. KWE invested proceeds from the KWE Notes to fund equity investments in euro denominated assets and has designated the KWE Notes as a net investment hedge under ASC Topic 815. Subsequent fluctuations in foreign currency rates that impact the carrying value of the KWE Notes are recorded to accumulated other comprehensive income. During the year ended December 31, 2022, Kennedy Wilson recognized a loss of \$28.3 million in accumulated other comprehensive income due to the weakening of the euro against the GBP during the period. During the year ended December 31, 2022, KWE launched a cash tender offer for up to €150.0 million in aggregate

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2022, 2021 and 2020 (continued)

nominal amount of the KWE Notes and accepted all of the €75.0 million (approximately \$80.3 million, based on December 31, 2022 rates) in aggregate nominal amount of KWE Notes validly tendered pursuant to the tender offer for a purchase price equal to 82% of the nominal amount of the KWE Notes, which resulted in a gain on extinguishment of debt of \$13.9 million.

The trust deed that governs the bonds contain various restrictive covenants for KWE, including, among others, limitations on KWE's and its material subsidiaries' ability to provide certain negative pledges. The trust deed limits the ability of KWE and its subsidiaries to incur additional indebtedness if, on the date of such incurrence and after giving effect to the incurrence of the new indebtedness, (1) KWE's consolidated net indebtedness (as defined in the trust deed) would exceed 60% of KWE's total assets (as calculated pursuant to the terms of the trust deed); and (2) KWE's consolidated secured indebtedness (as defined in the trust deed) would exceed 50% of KWE's total assets (as calculated pursuant to the terms of the trust deed). The trust deed also requires KWE, as of each reporting date, to maintain an interest coverage ratio (as defined in the trust deed) of at least 1.50 to 1.00 and have unencumbered assets of no less than 125% of its unsecured indebtedness (as defined in the trust deed).

As of December 31, 2022, KWE was in compliance with these financial covenants.

NOTE 10—RELATED PARTY TRANSACTIONS

Related party revenue is fees and other income received from investments in which the Company has an ownership interest, excluding amounts eliminated in consolidation discussed below. Kennedy Wilson earned related party fees of \$45.2 million, \$35.3 million and \$22.8 million for the periods ended December 31, 2022, 2021 and 2020, respectively.

The Company provides investment and property management and other property related services on properties in which it also has an ownership interest. Fees earned on consolidated properties are eliminated in consolidation and fees on unconsolidated investments are eliminated for the portion that relate to the Company's ownership interest. During the years ended December 31, 2022, 2021 and 2020 fees of \$0.4 million, \$0.8 million and \$1.1 million, respectively, were eliminated in consolidation.

On October 2, 2020, the Company completed the sale of Kennedy-Wilson Properties, Ltd. ("KWP"), a wholly-owned subsidiary of the Company operating in the third-party real estate services industry, including, property management, commercial brokerage (leasing and sale), facilities management and lease administration, to an entity controlled by certain members of KWP management (the "Purchaser"). As part of the transaction and in exchange for an annual fee, the Company will provide certain services to KWP, including the use of certain office space and information technology related services, in addition to a license to use its trademark in connection with the operation of its business for a period of two years, with a two-year extension option exercisable by the Purchaser subject to certain conditions being met. The Purchaser exercised their option to extend the license to use the Company's trademark in 2022. The Company also provided financing to the Purchaser in connection with its purchase of KWP as well as a three-year line of credit. As of the closing date, the Purchaser will employ the approximately 110 employees and 25 independent contractors previously employed by KWP.

NOTE 11—INCOME TAXES

The table below represents a geographical breakdown of book income (loss) before the provision for income taxes:

(Dollars in millions)	Year ended December 31,		
	2022	2021	2020
Domestic	\$ 88.5	\$ 447.6	\$ (37.0)
Foreign	49.6	14.9	188.4
Total	\$ 138.1	\$ 462.5	\$ 151.4

The U.S. and foreign components of provision for income taxes consisted of the following components. However, it is not reflective of the cash tax results of the Company.

(Dollars in millions)	Year ended December 31,		
	2022	2021	2020
Federal			
Current	\$ —	\$ —	\$ —
Deferred	3.6	94.4	23.3
	3.6	94.4	23.3
State			
Current	0.3	(0.2)	1.5
Deferred	11.3	9.1	0.4
	11.6	8.9	1.9

Total deferred tax liabilities	349.7	292.9
Deferred tax liability, net	\$ (294.8)	\$ (256.9)

During 2019, the United Kingdom enacted a Finance Act, which introduced a new capital gain tax for non-UK resident investors who dispose of UK real estate. The new capital gain tax law became effective on April 6, 2019. Beginning on this date, non-UK resident investors are subject to UK tax on gains arising from the direct and indirect dispositions of UK real estate held for investment purposes. Transitional provisions allowed for rebasing of UK real estate values to fair market value as of April 5, 2019 ("UK Basis Step-Up"). Accordingly, only gains arising from property value increases after April 5, 2019 are subject to tax. The step-up led to a higher tax basis relative to the carrying value of the UK real estate, thus resulting in a UK deferred tax asset of \$107.0 million. The realizability of this deferred tax asset is dependent on future disposition of real estate at a fair market value in excess of appraised value as of April 5, 2019. Given uncertainties surrounding Brexit and its potential impact on future real estate values, the Company concluded that the U.K. deferred tax asset did not meet the more likely than not threshold of being realizable. Therefore, a full valuation allowance was recorded against the UK deferred tax asset. During fiscal year 2022, the valuation allowance on the UK Basis Step-Up increased to \$143.1 million, primarily due to current year depreciation expense.

During March 2018, Kennedy Wilson elected to treat KWE as a partnership for U.S. tax purposes retroactive to December 29, 2017. Due to unrealized foreign exchange losses not yet deductible for tax purposes and the consideration paid to acquire the non-controlling interests in KWE exceeding the book carrying value of the non-controlling interests in KWE, the Company's tax basis in KWE exceeded its book carrying value at December 29, 2017, and every period thereafter. Prior to the election to treat KWE as a partnership, KWE was taxed as a controlled foreign corporation. As a controlled foreign corporation, the Company was precluded from recognizing a deferred tax asset for its tax basis in excess of book carrying value for its investment in KWE as the excess tax basis from the investment was not expected to reverse in the foreseeable future. However, as a result

of the conversion of KWE to a partnership for U.S. tax purposes, the Company was required to record a deferred tax asset for its investment in KWE. As of December 31, 2018, the Company recorded a \$98.3 million deferred tax asset related to its excess tax basis over book carrying value for its investment in KWE. As a significant portion of the excess tax basis would only reverse upon a strengthening of foreign currencies or upon a disposition of KWE, the Company determined that a valuation allowance of \$98.3 million was required for the tax basis that was in excess of the Company's carrying value for its investment in KWE as it did not meet the more likely than not recognition threshold. During the years ended December 31, 2021, 2020 and 2019, a portion of the excess tax basis over book basis in KWE reversed as a result of lower tax gains on sales of real estate. During the year ended December 31, 2022, our excess tax basis over book basis in KWE increased due to unrealized foreign currency losses that are not currently deductible for tax. As of December 31, 2022, Kennedy Wilson's excess tax basis in KWE and the related valuation allowance were \$76.0 million and \$75.4 million, respectively.

As of December 31, 2022, Kennedy Wilson had federal, California and other state net operating losses of \$3.4 million, \$90.9 million, and \$11.2 million, respectively. The entirety of the \$3.4 million federal net operating loss carryforwards were generated after December 31, 2017 and do not expire. However, such losses are only eligible to offset 80% of taxable income in a given year. California net operating losses begin to expire in 2034. As of December 31, 2022, Kennedy Wilson had \$175.5 million of foreign net operating loss carryforwards, which have no expiration date. The Company has foreign tax credit carryforwards of \$92.0 million, of which \$0.5 million begin to expire in December 2023.

The Company's valuation allowance on deferred tax assets increased by \$8.8 million in 2022 and increased by \$52.7 million in 2021. The increase in the valuation allowance during 2022 primarily relates to additional valuation allowance recorded on the Company's UK Basis Step-Up deferred tax asset as a result of depreciation. The increase in the 2021 valuation allowance principally relates to remeasuring the UK Basis Step Up deferred tax asset from 19% to 25%.

In June 2021, the Company received a notification of a general tax inquiry being conducted by the Spanish tax authorities for several of its Spanish entities for tax years 2016 and 2017. As a result of the Spanish tax inquiry, management has reassessed the Company's prior Spanish tax filing positions and the need to accrue additional taxes. Based on this reassessment, the Company believes that no additional Spanish tax accruals are required.

Kennedy Wilson's federal and state income tax returns remain open to examination for the years 2019 through 2021 and 2017 through 2021, respectively. However, due to the existence of prior year loss carryovers, the IRS may examine any tax years for which the carryovers are used to offset future taxable income. Our foreign subsidiaries' tax returns remain open to examination for the years 2018 through 2021. The Spanish loss carryovers may be subject to tax examination for a period of 10 years from the period in which such losses were generated.

NOTE 12—COMMITMENTS AND CONTINGENCIES

CAPITAL COMMITMENTS—As of December 31, 2022 and 2021, the Company has unfunded capital commitments of \$246.6 million and \$113.7 million to its joint ventures under the respective operating agreements. It also has commitments of \$17.7 million and \$21.6 million as of December 31, 2022 and 2021 to its loan platform. In addition to the unfunded capital commitments on its joint venture

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2022, 2021 and 2020 (continued)

investments, the Company has \$87.4 million of equity commitments relating on consolidated and unconsolidated development projects as of December 31, 2022. The Company may be called upon to contribute additional capital to joint ventures in satisfaction of the Company's capital commitment obligations.

LITIGATION—Kennedy Wilson is currently a defendant in certain routine litigation arising in the ordinary course of business. It is the opinion of management and legal counsel that the outcome of these actions will not have a material effect on the financial statements taken as a whole.

NOTE 13—STOCK COMPENSATION AND OTHER RELATED PLANS

The Company maintains a shareholder-approved equity participation plan (the "Second Amended and Restated Plan") under which shares of common stock are reserved for issuance pursuant to grants of restricted stock and other awards to officers, employees, non-employee directors and consultants. The Second Amended and Restated Plan also allows for share recycling on net settled restricted stock awards, restricted stock unit awards, performance unit awards and performance share awards. Named Executive Officers ("NEO") participate in the Second Amended and Restated Plan. During the years ended December 31, 2022, 2021 and 2020, the compensation committee of the board of directors approved the total grant of 2.8 million shares of performance-based restricted stock units, 2.4 million shares of performance-based restricted stock units and 0.1 million shares of performance-based restricted shares of Company common stock and 2.0 million of performance-based restricted shares of Company common stock or performance-based restricted stock units covering Company common stock, respectively, subject to vesting based on the Company's total shareholder return (the "TSR restricted awards"), performance-based restricted shares of Company common stock or performance-based restricted stock units covering Company common stock subject to vesting based on the Company's return on equity (the "ROE awards"), and time-based restricted shares of Company common stock or time-based restricted stock units covering Company common stock (the "time-based awards") (collectively, the "awards"), under the Second Amended and Restated Plan. Up to 100% of the TSR awards will be eligible to vest based on the Company's total shareholder return relative to the MSCI World Real Estate Index during a three-year performance period (subject to continued employment through the vesting date), with the actual number of shares subject to such TSR awards that vest and cease to be subject to restrictions with respect to the performance period determined by multiplying (i) the total number of shares subject to the TSR award by (ii) the applicable vesting percentage (which is determined based on the level of the Company's relative total shareholder return attained during the performance period). Up to one-third of the ROE awards will be eligible to vest with respect to each Company fiscal year of the performance period (each, a "performance year") to the extent that the Company satisfies the return on equity goals for such performance year (subject to continued employment through the vesting date). One-third of the time-based awards will vest on each of the first three anniversaries of the grant date, subject to continued employment through the vesting date. Stock-based compensation expense is based on the fair values on the date of grant for the ROE awards and time-based awards. Certain ROE awards and time-based awards were granted with a three-year sale restriction period upon vesting. Due to the lack of marketability of these shares with the three-year sale restriction period upon vesting, a 12.5% discount was applied to the grant price of these shares when computing stock compensation expense. The fair value of the TSR awards are

estimated using a Monte Carlo simulation. As of December 31, 2022, there was \$32.4 million of unrecognized compensation cost for the Second Amended and Restated Plan related to unvested shares which will vest over the next three years.

Upon vesting, the restricted stock granted to employees discussed directly above is net share-settled to cover the withholding tax. Shares that vested during the years ended December 31, 2022, 2021 and 2020 were net-share settled such that the Company withheld shares with values equivalent to the employees' minimum statutory obligations for the applicable income and other employment taxes, and remitted the cash to the appropriate taxing authorities. The total shares withheld during the years ended December 31, 2022, 2021 and 2020 were 834,911 shares, 967,536 shares, and 571,983 shares respectively, and were valued based on the Company's closing stock price on the respective vesting dates. During the years ended December 31, 2022, 2021 and 2020, total payments for the employees' tax obligations to the taxing authorities were \$18.6 million, \$20.5 million, and \$11.6 million respectively. These figures are reflected as a financing activity on the accompanying consolidated statements of cash flows.

During the years ended December 31, 2022, 2021 and 2020, Kennedy Wilson recognized \$29.0 million, \$28.7 million, and \$32.3 million, respectively, of compensation expense related to the vesting of restricted common stock and is included in compensation and related expense in the accompanying consolidated statements of income.

The following table sets forth activity under the Amended and Restated Plan, the First Amended and Restated Plan, and the Second Amended and Restated Plan for the Company's fiscal years ending December 31, 2022, 2021 and 2020:

	Shares
Nonvested at December 31, 2020	3,453,768
Granted	619,945
Vested	(2,522,019)
Forfeited	(237,588)
Nonvested at December 31, 2021	1,314,106
Granted	1,221,362
Vested	(834,910)
Forfeited	—
Nonvested at December 31, 2022	1,700,558

Non-NEO Deferred Compensation Program and Performance Allocation Sharing Program

The Company maintains a deferred compensation program for certain employees of the Company (the "Deferred Compensation Program"). The named executive officers of the Company are not participants of the Deferred Compensation Program. The compensation committee of the Company's board of directors approves an amount annually to be allocated to certain employees of the Company in the United States and in Europe. The amount allocated to each employee vests ratably over a three-year vesting period, subject to continued employment with the Company. Prior to 2022, half of the allocated amount was tied specifically to the performance and value of the Company's common stock at the time of each vesting ("Bonus Units"). Beginning in 2022, the entire amount allocated to each employee consisted of Bonus Units. Under the Deferred Compensation Program, at the time of each vesting, the employees receive an amount equal to either the dividend yield of the Company's common stock or the actual amount of dividends paid on the Company

Kennedy-Wilson Holdings, Inc. and Subsidiaries Notes to Consolidated Financial Statements December 31, 2022, 2021 and 2020 (continued)

common stock (in the case of Bonus Units) during the immediately preceding year on the amount that is subject to such vesting. During the years ended December 31, 2022, 2021 and 2020 the Company recognized compensation expense of \$9.2 million, \$11.8 million and \$6.4 million, respectively, under the Deferred Cash Bonus Program.

The Company also maintains a performance allocation sharing program for certain employees of the Company (the "Performance Allocation Sharing Program"). The named executive officers of the Company are not participants of the Performance Allocation Sharing Program. The compensation committee of the Company's board of directors approved, reserved and authorized executive management to issue up to thirty-five percent (35%) of any performance allocation earned by certain commingled funds and separate account investments to be allocated to certain non-NEO employees of the Company, sixty percent of the award to each employee vests ratably over four years and the remaining forty percent vests upon the consummation of a liquidity event of the investment whereby the Company actually receives cash performance allocations from its partner. The full performance allocation earned by the Company will be recorded to income from unconsolidated investments and the amount allocated to employees is recorded as performance allocation expense. During the years ended December 31, 2022, 2021 and 2020 the Company recognized \$(4.3) million, \$42.0 million and \$0.2 million, respectively, of performance allocation compensation to employees.

NOTE 14—EQUITY

Preferred Stock

In October 2019, the Company announced the issuance of a \$300 million perpetual preferred equity investment in Kennedy Wilson by affiliates of Eldridge Industries (collectively, "Eldridge"). Under the terms of the agreement, Eldridge purchased \$300 million in cumulative perpetual convertible preferred stock carrying a 5.75% annual dividend rate, with an initial conversion price of \$25.00 per share. The preferred stock is callable by Kennedy Wilson on and after October 15, 2025.

On March 8, 2022, the Company announced the issuance of its \$300 million cumulative perpetual preferred stock, in addition to approximately 13 million of its warrants to affiliates of Fairfax Financial Holdings Limited (collectively, "Fairfax"). Under the terms of the agreements, Fairfax purchased \$300 million in cumulative perpetual preferred stock carrying a 4.75% annual dividend rate and approximately 13 million 7-year warrants, which are initially convertible to the same number of common shares with an initial exercise price of \$23.00 per share.

Both perpetual preferred stock issuances are treated as permanent equity.

At-the-Market Equity Offering Program

In May 2022, the Company established an at-the-market equity offering program (the "ATM Program") pursuant to which it may issue and sell shares of the Company's common stock having an aggregate gross sales price of up to \$200.0 million in amounts as the Company may determine from time to time. During the year ended December 31, 2022, the Company did not issue any shares under its ATM Program.

The Company has no obligation to sell any of such shares under its ATM Program. Actual sales will depend on a variety of factors to be determined by the Company from time to time, including, among others, market conditions, the trading price of its common stock, the Company's determination of the appropriate sources of funding for the Company, and potential uses of funding available.

Common Stock Repurchase Program

On March 20, 2018, the Company announced that its board of directors authorized a \$250.0 million stock repurchase program. Repurchases under the program may be made in the open market, in privately negotiated transactions, through the net settlement of the Company's restricted stock grants or otherwise, with the amount and timing of repurchases dependent on market conditions and subject to the Company's discretion. On November 4, 2020, the Company's board of directors authorized an expansion of its existing \$250 million share repurchase plan to \$500 million.

During the year ended December 31, 2022, Kennedy Wilson repurchased and retired 551,162 shares for \$12.6 million. During the year ended December 31, 2021, Kennedy Wilson repurchased and retired 2,824,665 shares for \$62.7 million under the previous stock repurchase program.

Generally, upon vesting, the restricted stock granted to employees is net share-settled such that the Company will withhold shares with value equivalent to the employees' minimum statutory obligation for the applicable income and other employment taxes, and remit the cash to the appropriate taxing authorities. See Note 14 for more detail.

Dividend Distributions

Kennedy Wilson declared and paid the following cash dividends on its common stock:

(Dollars in millions)	Year Ended December 31, 2022		Year Ended December 31, 2021	
	Declared	Paid	Declared	Paid
Preferred Stock	\$ 28.9	\$ 25.9	\$ 17.2	\$ 17.2
Common Stock⁽¹⁾	132.3	134.6	125.8	123.5

⁽¹⁾ The difference between declared and paid is the amount accrued on the consolidated balance sheets.

Taxability of Dividends

Earnings and profits, which determine the taxability of distributions to stockholders, may differ from income reported for financial reporting purposes due to the differences for federal income tax purposes in the treatment of revenue recognition, compensation expense, derivative investments and the basis of depreciable assets and estimated useful lives used to compute depreciation.

The Company's dividends related to its common stock will be classified for U.S. federal income tax purposes as follows:

Record Date	Payment Date	Distributions Per Share	Ordinary Dividends	Return of Capital
12/31/2021	1/6/2022	\$ 0.2400	\$ 0.0908	\$ 0.1492
3/31/2022	4/7/2022	0.2400	0.0908	0.1492
6/30/2022	7/7/2022	0.2400	0.0908	0.1492
9/30/2022	10/6/2022	0.2400	0.0908	0.1492
	Totals	\$ 0.9600	\$ 0.3632	\$ 0.5968

Accumulated Other Comprehensive Income (Loss)

The following table summarizes the changes in each component of accumulated other comprehensive loss ("AOCI"), net of taxes:

<i>(Dollars in millions)</i>	Foreign Currency Translation	Foreign Currency Derivative Contracts	Interest Rate Swaps	Total Accumulated Other Comprehensive Loss ⁽¹⁾
Balance at December 31, 2021	\$ (88.2)	\$ 58.6	\$ (1.6)	\$ (31.2)
Unrealized (losses) gains, arising during the period	(73.9)	39.5	7.4	(27.0)
Taxes on unrealized losses (gains), arising during the period	2.2	(16.1)	(1.8)	(15.7)
Amounts reclassified out of AOCI during the period, gross	—	—	(1.1)	(1.1)
Amounts reclassified out of AOCI during the period, taxes	—	—	0.3	0.3
Noncontrolling interest	3.0	—	—	3.0
Balance at December 31, 2022	\$ (156.9)	\$ 82.0	\$ 3.2	\$ (71.7)

⁽¹⁾ Excludes \$358.4 million of inception to date accumulated other comprehensive losses associated with noncontrolling interest holders of KWE that the Company was required to record as part of the KWE Transaction in October 2017.

The local currencies for the Company's interests in foreign operations include the euro and the British pound sterling. The related amounts on our balance sheets are translated into U.S. dollars at the exchange rates at the respective financial statement date, while amounts on our statements of income are translated at the average exchange rates during the respective period. Unrealized losses on foreign currency translation is a result of the weakening of the euro and British pound sterling against the U.S. dollar during the year ended December 31, 2022.

In order to manage currency fluctuations, Kennedy Wilson entered into currency derivative contracts to manage its exposure to currency fluctuations between its functional currency (U.S. dollar) and the functional currency (Euro and GBP) of certain of its wholly-owned and consolidated subsidiaries. See Note 5 for a more detailed discussion of Kennedy Wilson's currency derivative contracts.

NOTE 15—EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income (loss) attributable to Kennedy-Wilson Holdings, Inc. common stockholders by the weighted average number of common shares outstanding. Diluted earnings per share is computed after adjusting the numerator and denominator of the basic earnings per share computation for the effects of all potentially dilutive common shares. The dilutive effect of non-vested stock issued under share-based compensation plans is computed using the treasury stock method. The dilutive effect of the cumulative preferred stock is computed using the if-converted method.

The following is a summary of the elements used in calculating basic and diluted income per share for the years ended December 31, 2022, 2021 and 2020:

<i>(Dollars in millions, except share amounts and per share data)</i>	<i>Year ended December 31,</i>		
	2022	2021	2020
Net income attributable to Kennedy-Wilson Holdings, Inc. common shareholders	\$ 64.8	\$ 313.2	\$ 92.9
Weighted-average shares outstanding for basic	136,900,875	138,552,058	139,741,411
Income per share—basic	\$ 0.47	\$ 2.26	\$ 0.66
Weighted average shares outstanding for diluted	138,567,534	140,132,435	140,347,365
Income per share—diluted	\$ 0.47	\$ 2.24	\$ 0.66

There was a total of 26,958,511, 13,572,590 and 13,236,896 during the years ended December 31, 2022, 2021 and 2020, respectively, potentially dilutive securities were not included in the diluted weighted average shares as they were anti-dilutive. Potentially anti-dilutive securities include preferred stock and unvested restricted stock grants.

NOTE 16—SEGMENT INFORMATION

Segments

The Company's operations are defined by two business segments: its Consolidated investment portfolio (the "Consolidated Portfolio") and its Co-Investment Portfolio:

- Consolidated Portfolio consists of the investments that the Company has made in real estate and real estate-related assets and consolidates on its balance sheet. The Company typically wholly-owns the assets in its Consolidated Portfolio.
- Co-Investment Portfolio consists of (i) the co-investments that the Company has made in real estate and real estate-related assets, including loans secured by real estate, through the commingled funds and joint ventures that it manages; and (ii) the fees (including, without limitation, asset management fees and construction management fees); and (iii) performance allocations that it earns on its fee-bearing capital. The Company typically owns a 5% to 50% ownership interest in the assets in its Co-Investment Portfolio.

In addition to the Company's two primary business segments the Company's Corporate segment includes, among other things, corporate overhead and Property Services for all periods prior to its sale in the fourth quarter 2020.

Consolidated Portfolio

Consolidated Portfolio is a permanent capital vehicle focused on maximizing property cash flow. These assets are primarily wholly-owned and tend to have longer hold periods and the Company targets investments with accretive asset management opportunities. The Company typically focuses on office and multifamily assets in the Western United States and commercial assets in the United Kingdom and Ireland within this segment.

Kennedy-Wilson Holdings, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2022, 2021 and 2020 (continued)

Co-Investment Portfolio

Co-Investment Portfolio segment consists of investments the Company makes with partners in which it receives (i) the fees (including, without limitation, asset management fees and construction management fees); (ii) performance allocations that it earns on its fee-bearing capital; and (iii) and its ownership interest in the underlying operations of its co-investments. The Company utilizes different platforms in the Co-Investment Portfolio segment depending on the asset and risk return profiles.

No single third-party client accounted for 10% or more of Kennedy Wilson's revenue during any period presented in these financial statements.

The following tables summarize the income and expense activity by segment for the years ended December 31, 2022, 2021 and 2020 and total assets as of December 31, 2022 and 2021.

NOTE 17—GUARANTOR AND NON-GUARANTOR FINANCIAL STATEMENTS

The following consolidating financial information and condensed consolidating financial information includes:

(1) Condensed consolidating balance sheets as of December 31, 2022 and 2021, respectively; consolidating statements of income for the years ended December 31, 2022, 2021 and 2020, respectively; of (a) Kennedy-Wilson Holdings, Inc. on an unconsolidated basis as the parent (and guarantor), (b) Kennedy-Wilson, Inc., as the subsidiary issuer, (c) the guarantor subsidiaries, (d) the non-guarantor subsidiaries and (e) Kennedy-Wilson Holdings, Inc. on a consolidated basis; and

(2) Elimination entries necessary to consolidate Kennedy-Wilson Holdings, Inc., as the parent guarantor, with Kennedy-Wilson, Inc. and its guarantor and non-guarantor subsidiaries

Kennedy Wilson owns 100% of all of the guarantor subsidiaries, and, as a result, in accordance with Rule 3-10(d) of Regulation S-X promulgated by the SEC, no separate financial statements are required for these subsidiaries as of December 31, 2022 or 2021 and for the years ended December 31, 2022, 2021 or 2020.

Balance at close of period	\$ 619.6	\$ 564.0	\$ 551.8

See accompanying report of independent registered public accounting firm.

Performance Graph

The graph below compares the cumulative total return of our common stock from December 31, 2017 through December 31, 2022, with the comparable cumulative return of companies comprising the S&P 500 Index and the MSCI World Real Estate Index. The graph plots the growth in value of an initial investment of \$100 in each of our common stock, the S&P 500 Index, and the MSCI World Real Estate Index for the five-year period ended December 31, 2022, and assumes reinvestment of all dividends, if any, paid on the securities. The stock price performance shown on the graph is not necessarily indicative of future price performance.

Kennedy Wilson uses the MSCI World Real Estate Index, which includes international real estate companies as a comparable benchmark. The information under this caption, "Performance Graph," is deemed not to be incorporated by reference into any filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that such filing specifically states otherwise.

Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Stock Price Information

Our common stock trades on the NYSE under the symbol "KW."

Holders

As of February 21, 2023, we had approximately 82 holders of record of our common stock.

Dividends

We declared and paid quarterly dividends of \$0.24 per share each quarter of 2022. We declared and paid quarterly dividends of \$0.22 per share for the first three quarters of 2021 and \$0.24 per share for the fourth quarter of 2021.

Recent Sales of Unregistered Securities

None.

Equity Compensation Plan Information

See Item 12—"Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters."

Purchases of Equity Securities by the Company

Months	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan ⁽¹⁾	Maximum Amount that May Yet be Purchased Under the Plan ⁽¹⁾
October 1–October 31, 2022	—	\$ —	23,388,073	\$ 144,754,285
November 1–November 30, 2022	—	—	23,388,073	144,754,285
December 1–December 31, 2022	—	—	23,388,073	144,754,285
Total	—	\$ —	23,388,073	\$ 144,754,285

⁽¹⁾ On March 20, 2018, our board of directors authorized us to repurchase up to \$250 million of our common shares, from time to time, subject to market conditions. On November 4, 2020, our board of directors authorized us to repurchase an additional \$250 million of our common shares, from time to time, subject to market conditions.

During the year ended December 31, 2022, the Company repurchased and retired a total of 0.6 million shares of its common stock at a weighted average price of \$22.95. During the year ended December 31, 2021, the Company repurchased and retired a total of 2.8 million shares of its common stock at a weighted average price of \$22.20.

In addition to the repurchases of the Company's common stock made above, the Company also withheld shares with respect to the vesting of restricted stock that the Company made to its employees. Shares that vested during the year ended December 31, 2022 and 2021 were net-share settled such that the Company withheld shares with value equivalent to the employees' minimum statutory obligation for the applicable income and other employment taxes and remitted the cash to the appropriate taxing authorities. During the year ended December 31, 2022 and 2021, total payments for the employees' tax obligations to the taxing authorities were \$18.6 million (834,911 shares withheld) and \$20.5 million (967,536 shares withheld), respectively.

Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Real Estate Assets Under Management (AUM)

AUM generally refers to the properties and other assets with respect to which we provide (or participate in) oversight, investment management services and other advice, and which generally consist of real estate properties or loans, and investments in joint ventures. Our AUM is principally intended to reflect the extent of our presence in the real estate market, not the basis for determining our management fees. Our AUM consists of the total estimated fair value of the real estate properties and other real estate related assets either owned by third parties, wholly-owned by us or held by joint ventures and other entities in which our sponsored funds or investment vehicles and client accounts have invested. Committed (but unfunded) capital from investors in our sponsored funds is not included in our AUM. The estimated value of development properties is included at estimated completion cost.

The table below details the changes in the Company's AUM for the twelve months ended December 31, 2022:

<i>(in millions)</i>	December 31, 2021	Increases	Decreases	December 31, 2022
AUM	\$ 21,569.2	\$ 4,210.8	\$ 2,751.6	\$ 23,028.4

AUM increased 7% to approximately \$23.0 billion as of December 31, 2022. The increase is primarily due new acquisitions for consolidated multifamily properties in the Western United States, industrial properties in our European industrial separate account and loan originations in our debt platform. These were offset by foreign exchange losses on European assets and sales of non-core retail and office assets in the Western United States and United Kingdom.

Foreign currency and currency derivative instruments

Please refer to Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation for a discussion regarding foreign currency and currency derivative instruments.

FORWARD-LOOKING STATEMENTS

Statements made by us in this report and in other reports and statements released by us that are not historical facts constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These forward-looking statements are necessarily estimates reflecting the judgment of our senior management based on our current estimates, expectations, forecasts and projections and include comments that express our current opinions about trends and factors that may impact future results. Disclosures that use words such as "believe," "may," "anticipate," "estimate," "intend," "could," "plan," "expect," "project" or the negative of these, as well as similar expressions, are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance, rely on a number of assumptions concerning future events, many of which are outside of our control, and involve known and unknown risks and uncertainties that could cause our actual results, performance or achievement, or industry results, to differ materially from any future results, performance or achievements, expressed or implied by such forward-looking statements. Although we believe that our plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable, we do not guarantee that the transactions and events described will happen as described (or that they will happen at all). In addition, this report contains information and statistics regarding, among other things, the industry, markets, submarkets and sectors in which we operate. We obtained this information and these statistics from various third-party sources and our own internal estimates. We believe that these sources and estimates are reliable but have not independently verified them and cannot guarantee their accuracy or completeness.

Any such forward-looking statements, whether made in this report or elsewhere, should be considered in the context of the various disclosures made by us about our businesses including, without limitation, the risk factors discussed in Part I, Item IA of this Report. Except as required under the federal securities laws and the rules and regulations of the U.S. Securities and Exchange Commission (the "SEC"), we do not have any intention or obligation to update publicly any forward-looking statements, whether as a result of new information, future events, changes in assumptions, or otherwise. Please refer to "Non-GAAP Measures and Certain Definitions" in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations for definitions of certain terms used throughout this report.
