**Securities registered pursuant to Section 12(g) of the Act:**
**None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

| | | | |
|---|---|---|---|
| Large accelerated filer | ☐ | Accelerated filer | ☒ |
| Non-accelerated filer | ☐ | Smaller reporting company | ☒ |
| Emerging growth company | ☐ | | |

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The aggregate market value of the Registrant's common stock held by non-affiliates was $62,160,178 on June 30, 2022, computed on the basis on the closing sale price of the Registrant's common stock on the New York Stock Exchange on that date. As of March 3, 2023, the number of shares outstanding of the Registrant's common stock was 25,558,751.

**DOCUMENTS INCORPORATED BY REFERENCE**

Portions of the Registrant's Proxy Statement for its Annual Meeting of Stockholders are incorporated by reference into Part III of this Annual Report on Form 10-K, provided that if such Proxy Statement is not filed with the Securities and Exchange Commission within 120 days after the end of the fiscal year covered by this Form 10-K, an amendment to this Form 10-K shall be filed no later than the end of such 120-day period.

## FORWARD LOOKING STATEMENTS

*This Annual Report on Form 10-K contains forward-looking statements within the meaning of the federal securities laws. These forward-looking statements include, but are not limited to, statements regarding: our core strategy and ability to fully execute our business plan; our growth, including by geographic expansion, new lines of business, additional policies and new products and services, competitive strengths, proprietary capabilities, processes and new technology, results of operations and liquidity; strategic initiatives and their impact on shareholder value; statements concerning projections, predictions, expectations, estimates or forecasts as to our business, financial and operational results and future economic performance; statements of management's goals and objectives, including intentions to pursue certain business and the handling of certain claims; projections of revenue, earnings, capital structure, reserves and other financial items; assumptions underlying our critical accounting policies and estimates; assumptions underlying statements regarding us and our business; statements regarding the impact of legislation; expectations regarding claims and related expenses, and our reinsurers' obligations; and other similar expressions concerning matters that are not historical facts. These forward-looking statements are subject to risks and uncertainties that could cause actual results and events to differ. A detailed discussion of these and other risks and uncertainties that could cause actual results and events to differ materially from such forward-looking statements is included throughout this filing and particularly in Item 1A: "Risk Factors" and Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" set forth in this Annual Report on Form 10-K. All forward-looking statements included in this document are based on information available to us on the date hereof, and we assume no obligation to revise or publicly release any revision to any such forward-looking statement, except as may otherwise be required by law.*

These statements are based on current expectations, estimates and projections about the industry and market in which we operate, and management's beliefs and assumptions. Without limiting the generality of the foregoing, words such as "may," "will," "expect," "believe," "anticipate," "intend," "could," "would," "estimate," or "continue" or the negative variations thereof or comparable terminology are intended to identify forward-looking statements. Forward-looking statements are not guarantees of future performance and involve certain known and unknown risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements. The risks and uncertainties include, without limitation:

- the possibility that actual losses may exceed reserves, which are based on estimates;
- the concentration of our business in coastal states, which could be impacted by hurricane losses or other significant weather-related events such as northeastern winter storms;
- our exposure to catastrophic weather events;
- our failure to adequately assess and price the risks we underwrite;
- the fluctuation in our results of operations, including as a result of factors outside of our control;
- increased costs of reinsurance, non-availability of reinsurance, non-collectability of reinsurance and our ability to obtain reinsurance on terms and at a cost acceptable to us;
- inherent uncertainty of our models and our reliance on such models as a tool to evaluate risk;
- increased competition, competitive pressures, industry developments and market conditions;
- continued and increased impact of abusive and unwarranted claims;
- our inability to effectively manage our growth and integrate acquired companies;
- our failure to execute our diversification strategy;
- our reliance on independent agents to write insurance policies for us on a voluntary basis and our ability to attract and retain agents;
- the failure of our claims department to effectively manage or remediate claims;
- the failure of policy renewals to meet our expectations;
- our inability to maintain our financial stability rating;
- our ability to access sufficient liquidity or obtain additional financing to fund our operations and expand our business;
- our inability to generate investment income;
- effects of emerging claim and coverage issues relating to legal, judicial, environmental and social conditions;
- the failure of our risk mitigation strategies or loss limitation methods;

- lack of effectiveness of exclusions and loss limitation methods in the insurance policies we assume or write;
- the regulation of our insurance operations;
- changes in regulations and our failure to meet increased regulatory requirements, including minimum capital and surplus requirements;
- climate change, health crisis, severe weather conditions and other catastrophe events;
- litigation or regulatory actions;
- regulation limiting rate increases or that require us to participate in loss sharing or assessments;
- the terms of our indebtedness, including restrictions that limit our flexibility in operating our business, and our inability to comply with the financial and other covenants of our debt facilities;
- our ability to maintain effective internal controls over financial reporting;
- certain characteristics of our common stock;
- failure of our information technology systems or those of our key service providers and unsuccessful development and implementation of new technologies;
- a lack of redundancy in our operations; and
- our failure to attract and retain qualified employees and independent agents or our loss of key personnel.

Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or operating results. The forward-looking statements speak only as of the date on which they are made, and, except as required by law, we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrences of anticipated events. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in the forward-looking statements. Consequently, you should not place undue reliance on forward-looking statements.

**PART I**

## Item 1. Business

### Our Business

Heritage Insurance Holdings, Inc. ("we", "our", "us", "Heritage" and the "Company") is a super-regional property and casualty insurance holding company that primarily provides personal and commercial residential insurance through our insurance company subsidiaries. We are vertically integrated and control or manage substantially all aspects of insurance underwriting, customer service, actuarial analysis, distribution and claims processing and adjusting. We are led by a highly experienced and diverse management team with significant expertise in the residential property insurance industry and deep industry relationships.

Our insurance subsidiaries include:

- Heritage Property & Casualty Insurance Company ("Heritage P&C"), which provides personal and commercial residential property insurance and commercial general liability insurance;
- Narragansett Bay Insurance Company ("NBIC"), which provides personal and commercial residential property insurance; and
- Zephyr Insurance Company ("Zephyr"), which provides personal residential and wind-only property insurance in Hawaii.

Our financial strength ratings are important in establishing our competitive position and can significantly impact our ability to write policies. We are rated by both Demotech, Inc. ("Demotech") and Kroll Bond Rating Agency ("KBRA"). Demotech, a rating agency specializing in evaluating the financial stability of insurers, maintains a letter-scale financial stability rating system ("FSR") from A" (A double prime) to L (licensed by insurance regulatory authorities). KBRA's ratings assigned to insurance companies ranges from AAA (extremely strong operations to no risk) to R (operating under regulatory supervision).

Demotech and KBRA have assigned the following insurance financial strength ratings ("IFSR") to our key operating subsidiaries.

| Subsidiary | Demotech Rating | KBRA Rating | KBRA Investment Rating |
|---|---|---|---|
| Heritage P&C | A | BBB+ | N/A |
| Zephyr | A' | BBB+ | N/A |
| NBIC | A | A- | N/A |

Additionally, KBRA has assigned an investment grade issuer rating to Heritage Insurance Holdings, Inc. The KBRA outlook for Heritage P&C and Zephyr is stable and the KBRA outlook for Heritage Insurance Holdings, Inc. and NBIC is negative.

We also provide insurance and insurance-related services through the following operating subsidiaries:

- Osprey Re Ltd. ("Osprey"), our captive reinsurance subsidiary that may provide a portion of the reinsurance protection purchased by our insurance company subsidiaries;
- Heritage MGA, LLC, our managing general agent;
- NBIC Service Company, which provides services to NBIC;
- Contractors' Alliance Network, LLC ("CAN"), our vendor network manager for claims and provider of restoration, emergency and recovery services; and
- Skye Lane Properties, LLC, our property management subsidiary.

### Our Company

Our primary products are personal and commercial residential property insurance. On an admitted basis, we provide personal residential insurance in fourteen eastern and gulf states and commercial residential insurance in three of those states. We also write personal residential insurance on an admitted basis in Hawaii and on an excess and surplus lines basis in California and Florida. We are licensed, but inactive, in Pennsylvania.

We conduct our operations under one business and reporting segment.

As of December 31, 2022, we had 514,924 personal residential policies in force, representing $1.1 billion of annualized premium, 2,756 commercial residential policies in force, representing $154.6 million of annualized premium, and 12,227 commercial general liability policies in force, representing $11.0 million of annualized premium, for a total of 529,907 policies and $1.3 billion of annualized premium. For the year ended December 31, 2022, we had gross premiums written of $1.3 billion and an operating loss of $157.4 million. The operating loss for the year ended December 31, 2022 included a non-cash, mostly non-deductible goodwill impairment charge of $92.0 million. At December 31, 2022, we had total assets of $2.4 billion and total stockholders' equity of $131.0 million.

## Our Strategy

Our overall short-term strategy has shifted from growing premiums to rebalancing our portfolio of over $1 billion in gross written premium to optimize our portfolio toward products and geographies that maximize long term returns to our shareholders, while mitigating risk from a single or series of catastrophic weather events. We intend to improve underwriting results by undertaking the following:

### *Improve the Profitability of our Portfolio*

We believe that our goal to improve the profitability of our business will be achieved through disciplined underwriting, diversification of our book of business, and rate adequacy, as well as a robust reinsurance program. More selective underwriting has led to an intentional decline in policy count for our admitted personal lines product while achieving a higher average premium per policy through rate actions. Given our coastal exposure, which includes exposure to hurricanes and other severe weather events, our reinsurance program provides meaningful balance sheet protection and reduces earnings volatility. We continue to take underwriting and rate actions to improve the profitability of our business and continuously monitor our portfolio to manage the risk of wind and other perils.

### *Optimize Our Reinsurance Program*

We continue to strategically evaluate our reinsurance program to obtain what we believe to be the most appropriate levels and sources of reinsurance, and we trade with high quality reinsurers who are either rated or who collateralize our risk transfer. Our reinsurance program includes excess of loss, quota share, per risk and facultative coverage. We believe there is sufficient capital to support our reinsurance program and that we have an opportunity to obtain reasonable pricing and contract terms and conditions. We continue to evaluate cost-efficient alternatives to traditional reinsurance, such as the issuance of catastrophe bonds by Citrus Re Ltd. ("Citrus Re"), a Bermuda special purpose insurer. In addition, each year we evaluate whether to meet a portion of our reinsurance needs through the use of our reinsurance subsidiary, Osprey, which helps to manage our reinsurance expense and reduces our reliance on third-party reinsurance.

### *Efficiently Manage Losses and Loss Adjustment Expenses*

We are committed to proactively managing our loss costs through prudent underwriting and in-sourcing critical aspects of claims adjusting and remediation services. We have over 300 full-time employees dedicated to claims management. This includes personnel who in take claim information  an in-house insurance defense team, claims examiners, and claims vendor management and mediation personnel. We have additional contracted claims adjusting and loss mitigation resources in all states in which we conduct business and deploy those additional resources as needed. Our CAN subsidiary provides emergency claims and mitigation services to our policyholders. We believe our significant internal and external resources allow us to deliver timely service to our policyholders and effectively manage claims costs.

### *Expand and Cultivate Relationships with Large Independent Agencies*

As described in our competitive strengths below, we believe that continuing to expand and cultivate our relationships with large independent agencies and other stakeholders will foster a higher quality book of business. We have also established relationships with auto insurance carriers who package their auto product with our residential property insurance product to provide diversification opportunities.

### *Develop IT Solutions to More Effectively Service our Customers*

We continuously work to enhance our technology resources in order to better serve our agents and policyholders, streamline our processes and improve efficiency. We have made it a priority to transition each of our insurance companies to the same policy and claims system, which provides efficiencies for our personnel as well as our agency networks.

## Our Competitive Strengths

We believe that our business diversification to date and our ability to capitalize on our future business prospects are a result of the following competitive strengths of our business:

***Experienced Management Team With a Long History in the Residential Property Insurance Market***

We have an experienced executive management team led by Ernesto Garateix, Chief Executive Officer, Kirk Lusk, Chief Financial Officer and a highly experienced and diverse senior management team with significant expertise in the residential property insurance industry and deep industry relationships. Our former President, Richard Widdicombe, who serves as Chairman of the Board also has extensive experience in and an in-depth knowledge of the insurance industry.

***Strong, Conservative Capital Structure***

As of December 31, 2022, we had stockholders' equity of $131.0 million and Heritage P&C, NBIC and Zephyr, had policyholder surplus, as defined by statutory accounting principles, of $106.7 million, $89.6 million and $80.0 million, respectively. The surplus for each of our insurance subsidiaries is well in excess of the minimum capital levels required by our insurance regulators and Demotech.

***Selective Underwriting and Policy Acquisition Criteria***

We believe our proprietary data analytics capabilities and underwriting processes allow us to make better risk selections leading to profitability and high levels of policy retention. Our data analytics are embedded in the underwriting process and are used for strategic expansion into new product lines and states.

***Unique Claims Servicing Model and Superior Customer Service***

We believe that the vertical integration of our claims adjusting, water mitigation, and repair services provides us with a competitive advantage. Through our management of both claims adjusting and repair services, we are less reliant on third parties and are generally able to begin the adjustment and mitigation process in a timely manner, which helps manage our loss costs. We also believe our unique model provides a superior level of customer service for our policyholders, enhancing our reputation and increasing the likelihood that our policyholders will renew their policies with us.

***Relationships with Highly Rated Reinsurers***

We manage our exposure to catastrophic events through, among other things, the purchase of reinsurance. Our relationships with highly rated reinsurers have been developed as a result of our management team's industry experience and our reputation for selective underwriting and effective claims management. Our financial strength, underwriting results and the long-term relationships between our management team and our reinsurance partners help improve the cost-effectiveness of our reinsurance program.

***Relationships with Independent Agents and National Underwriters***

We have developed relationships with a large network of independent insurance agents. We have partnerships with certain large retail agencies which amplify our production. We believe we have been able to build this network due to our financial stability, disciplined underwriting, claims and mitigation capabilities, customer service, and robust reinsurance program. We have forged strategic relationships with national insurers and agencies that provides us access to their agent and production networks. The Products and Distribution section below describes the breadth of our agency network.

**ESG Strategy**

The advancement of the environmental, social and governance ("ESG") framework is intended to promote awareness, sustainable and inclusive development of insurance markets which has been an area of focus for standard setters and regulatory agencies at the state and federal level. We continue to progress in integrating ESG strategies into our business and operations. Specifically:

- ***Environment*** - we are currently focused on becoming more energy efficient, mitigating and adapting to climate change, conserving water and reducing waste.
- ***Social*** – we have put emphasis on creating an inclusive equal opportunity workplace and inspiring employees to support community relations.
- ***Governance*** – we are committed in our pursuit to create an ethical and transparent organization.

We continue to enhance our ESG policies as we assess, analyze and identify critical topics. We continue to monitor the expansion of these policies to ensure compliance with future regulations and seek to implement best practices in response to any emerging guidance.

**Our Competition**

The market for residential property insurance is highly competitive in the states in which we conduct business. We primarily compete against single state or regional carriers, but also compete to varying degrees against large national carriers and state-sponsored homeowners' insurance entities. We compete for business on the basis of price, financial strength, types of coverages

offered, availability of coverage desired by customers, commission structure and quality of service. We believe Heritage differentiates itself from many competitors with our service levels, financial resources, including a robust reinsurance program, streamlined processes, and vertical integration of loss mitigation and repair services. We've consistently ranked in the top 25 writers of homeowners' insurance business nationwide. Our market share by state varies depending upon our premium volume and that of competing property insurance writers in those states.

**Products and Distribution**

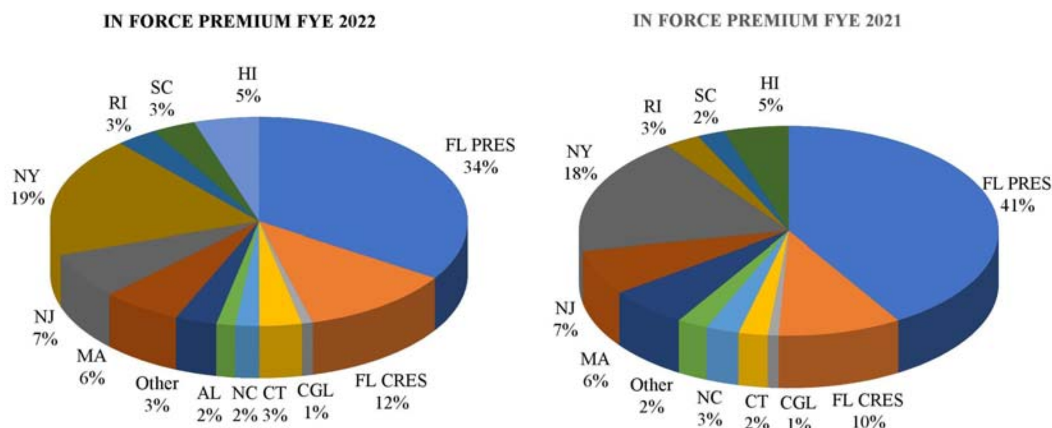
Heritage P&C writes voluntary personal residential insurance policies through a network of more than 2,000 independent agents in the states in which it is licensed. Approximately 28% of our voluntary personal lines policies are written by agents that are affiliated with eight large agency networks with which we have entered into master agency agreements. We market and write commercial residential policies through a network of approximately 400 independent agents in Florida.

NBIC writes personal lines policies through a network of retail independent agents, wholesale agents and a partnership with a large direct agency. We maintain master agency agreements with approximately 500 retail independent agents, representing over 800 agency locations, including several large agency networks. We also distribute indirectly to over 1,500 retail locations through eight wholesale agency relationships. Our three largest independent agency relationships represent 15.6% of annualized premiums. Additionally, we have expanded our product offering to include commercial residential products in New Jersey and New York.

Zephyr writes personal and commercial insurance policies through a network of approximately 70 independent agencies in Hawaii. Approximately 50.6% of our premium is written by agents that are affiliated with three large agency networks with which we have entered into master agency agreements.

**Our Markets**

The following charts depict the geographic distribution of our in-force premium as of December 31, 2022 and 2021, respectively. Our Florida personal lines in-force premium has declined as part of our strategy to re-allocate capital to products and geographies that maximize long-term returns.



** * Other includes CA, DE, GA, MD, MS and VA*
*CGL = commercial general liability*
*CRES = commercial residential insurance*
*PRES = personal residential insurance*

**Underwriting**

Our management establishes underwriting criteria for policies we accept. For consistency, efficiency, and compliance with our underwriting standards, our underwriting process is generally automated with our predetermined criteria programmed into our policy system. Certain policies have characteristics which require an independent review by our underwriters. Our underwriters evaluate and accept only those risks that they believe will enable us to achieve an underwriting profit. To achieve underwriting profitability on a consistent basis, we focus on (1) the suitability of the risk to be assumed or written, (2) the adequacy of the premium with regard to the risk to be assumed or written and (3) the geographic distribution of existing risk relative to the risk to be assumed or written.

All of our underwriting is performed internally. The underwriting team includes actuarial staff, underwriters, our risk management team, and product development personnel. Our underwriting team leverages our proprietary data analytics, which include

a number of automated processes, to analyze a number of risk evaluation factors, including the age, construction, location and value of the residence, premiums to be received from insuring the residence, geographic concentrations of policies and the cost of reinsurance. The underwriting criteria that we consider continues to evolve with our business and strategy.

We also review our expiring policies to determine if those risks continue to meet our underwriting guidelines. If a given policy no longer meets our criteria, we will take appropriate action, including raising rates, or, to the extent permitted by applicable law, not offering to renew the policy.

**Policy Administration**

We utilize web-based software solutions and insurance personnel to perform policy administration services, including processing, billing and policy maintenance. The software is able to adapt to a variety of forms and rates, handle the administration of our policy volume, and provides detailed information about our book of business to our internal underwriters so that they can adjust our underwriting criteria, as necessary. The systems also allow us to provide renewal notices, late payment notices, cancellation notices, endorsements and policies to our customers on a timely basis.

**Claims Administration**

We closely manage all aspects of the claims process, from processing the initial claim submission to providing remediation services for claims through our wholly-owned subsidiary, CAN, or preferred vendors. Claims from policyholders are reviewed by our managers and staff adjusters, who assess the extent of the loss, which may include thorough on-site investigations, and determine the resources needed to adjust each claim. Our claims are generally adjusted by our staff claims professionals, except in the case of a catastrophic event for which we have contracted with several large national claims adjusting firms and experienced independent contractors to assist our adjusters with the increased volume of claims to ensure timely responses to our policyholders. Our CAN subsidiary performs both catastrophe and non-catastrophe related repair and remediation services. We believe our approach to claims handling results in a higher level of customer service and reduces our losses and loss adjustment expense.

To encourage our Florida policyholders to allow us to manage their claims from beginning to end, we developed a program that provides participating customers with a 10% discount on their claim deductible, and gives us control over inspection, claims adjusting and repair services.

**Loss and Loss Adjustment Expense Reserves**

Our liability for losses and loss adjustment expenses represents our estimated ultimate liability of (i) claims that have been incurred and reported, but not yet paid (case reserves), (ii) claims that have been incurred but not yet reported to us ("IBNR"), and (iii) loss adjustment expenses ("LAE") which are intended to cover the cost of settling claims, including investigation and defense of lawsuits resulting from such claims.

Considerable time can pass between the occurrence of an insured loss, the reporting of the loss, and the payment of that loss. Our liability for losses and LAE, which we believe represents the best estimate at a given point in time based on facts, circumstances and historical trends then known, may necessarily be adjusted to reflect additional facts that become available during the loss settlement period. We continually review and adjust our estimated losses as necessary based on industry development trends, evolving claims experience and new information obtained.

For a discussion and summary of the activity in the liability for losses and LAE for the years ended December 31, 2022, 2021 and 2020, Refer to Note 13 "*Reserve for Unpaid Losses*" to our consolidated financial statements under Item 8 of this Annual Report on Form 10-K.

**Technology**

Technology has become an integral part of our organization and makes us more efficient, cost-effective and customer-centric. Our business depends upon the development, implementation and use of integrated technology systems to automate various processes such as underwriting, claims processing, billing and customer service. This leads to improved efficiency, reduced errors and faster turnaround times. These systems have enabled us to offer more personalized experience and better service to both our agents as well as our customers. Our technology platform has streamlined our various business processes making them faster and more efficient across our multi-state insurance business. The technology platform is supported by a robust enterprise data warehouse and analytics platform that provides key performance indicator measurements and actionable insights for our management, at the same time supporting all of our regulatory compliance reporting needs.

We license policy, billing and claims administration and catastrophe modeling software from third parties. We also own or license other technology systems used by our insurance company affiliates. Many of our technology platforms run on cloud-based solutions, and some run on servers hosted in a data center. All of our platforms are resilient and have disaster recovery backups.

**Reinsurance**

In order to limit our potential exposure to individual risks and catastrophic events, we purchase significant reinsurance from third party reinsurers. Purchasing reinsurance is an important part of our risk strategy, and premiums ceded to reinsurers is one of our largest costs. Reinsurance involves transferring, or "ceding", a portion of the risk exposure on policies we write to another insurer, known as a reinsurer. To the extent that our reinsurers are unable to meet the obligations they assume under our reinsurance agreements, we remain liable for the entire insured loss.

We have strong relationships with reinsurers, which we attribute to our management's industry experience, disciplined underwriting, and claims management capabilities. For each of the twelve months beginning June 1, 2022 and 2021, we purchased reinsurance from the following sources: (i) the Florida Hurricane Catastrophe Fund, a state-mandated catastrophe fund ("FHCF") for Florida admitted market policies only, (ii) private reinsurers, all of which were rated "A-" or higher by A.M. Best Company, Inc. ("A.M. Best") or Standard & Poor's Financial Services LLC ("S&P") or were fully collateralized, and (iii) our captive reinsurance subsidiary, Osprey. We also sponsored catastrophe bonds in 2022 through Citrus Re. In addition to purchasing excess of loss catastrophe reinsurance, we also purchased quota share, property per risk and facultative reinsurance. Our quota share programs limit our exposure on catastrophe and non-catastrophe losses and provides ceding commission income. Our per risk programs limit our net exposure in the event of a severe non-catastrophe loss impacting a single location or risk. We also utilize facultative reinsurance to supplement our per risk reinsurance program where our capacity needs dictate.

Our reinsurance agreements are prospective contracts. We record an asset, prepaid reinsurance premiums, and a liability, reinsurance payable, for the entire contract amount upon commencement of our new reinsurance agreements. We generally amortize our catastrophe reinsurance premiums over the 12-month contract period beginning on June 1 on a straight-line basis. Our quota share reinsurance is amortized over the 12-month contract period and may be purchased on a calendar or fiscal year basis.

Our insurance regulators require all insurance companies, like us, to have a certain amount of capital and reinsurance coverage in order to cover losses and loss adjustment expenses upon the occurrence of a catastrophic event. Our reinsurance program provides reinsurance in excess of our state regulator requirements, which are based on the probable maximum loss that we would incur from an individual catastrophic event estimated to occur once in every 100 years based on our portfolio of insured risks. The nature, severity and location of the event giving rise to such a probable maximum loss differs for each insurer depending on the insurer's portfolio of insured risks, including, among other things, the geographic concentration of insured value within such portfolio. As a result, a particular catastrophic event could be a one-in-100-year loss event for one insurance company while having a greater or lesser probability of occurrence for another insurance company. We also purchase reinsurance coverage to protect against the potential for multiple catastrophic events occurring in the same year. We share portions of our reinsurance program coverage among our insurance company affiliates.

We are responsible for all losses and loss adjustment expenses in excess of our reinsurance program. For second or subsequent catastrophic events, our total available coverage depends on the magnitude of the first event, as we may have coverage remaining from layers that were not previously fully exhausted. In the fourth quarter of 2022 we re-estimated our ultimate losses for Hurricane Irma, which struck Florida in 2017. As a result of that re-estimation, Heritage has exhausted the private layers of reinsurance specific to Hurricane Irma but has a 45% participation in the FHCF limit remaining. Accordingly, should future re-estimations to Hurricane Irma losses increase the expected loss reserves, a portion of the increase will be retained and a portion will be ceded to the FHCF.

For the contract period ending May 31, 2023, our insurance company subsidiaries purchased catastrophe excess of loss reinsurance from the following sources: (i) FHCF (i.e., Florida residential admitted market risks only), (ii) over 50 third-party private reinsurers, all of which were rated "A-" or higher by A.M. Best or S&P or which were fully collateralized, (iii) Osprey Re, our captive reinsurance subsidiary, and (iv) Citrus Re. There is no single reinsurer representing more than 10% of the limit purchased for our program other than the FHCF.

The chart below lists our third-party reinsurers with A.M. Best and S&P ratings as of December 31, 2022. To the extent a reinsurer is not rated, the reinsurance program is fully collateralized. Refer to Note 12 “Reinsurance” to our consolidated financial statements under Item 8 of this Annual Report on Form 10-K.

**Investments**

Our investments are managed by third-party asset managers. We have designed our investment policy to provide a balance between current yield, conservation of capital and the liquidity requirements of our operations. As such, our invested assets are primarily held in cash and bonds of high credit quality with relatively short durations. Our investment policy sets guidelines that provide for a well-diversified investment portfolio that is compliant with insurance regulations applicable to the states in which we operate. Our investment objectives include liquidity, safety and security of principal, and returns. The investment policy limits investments in common and preferred stocks and requires a minimum weighted average portfolio quality of A for our bond portfolio with an overall duration of three to five years. No more than 2% of admitted assets can be invested in any one issuer, with slightly higher limits for highly rated securities, excluding government-related securities. Investments in commercial mortgages cannot exceed 10% of admitted assets. Prohibited investments include short sales and margin purchases, oil, gas, mineral or other types of leases, speculative uses of futures and options, unrated corporate securities, non-US denominated securities, convertible securities, high risk CMO instruments, repurchase agreements, securities lending transactions and speculative foreign currency valuation transactions. Our investment policy, which may change from time to time, is approved by our Investment Committee and is reviewed on a regular basis in order to ensure that our investment policy evolves in response to changes in the financial markets. Refer to Note 2 "*Investments*" to our consolidated financial statements under Item 8 of this Annual Report on Form 10-K.

As of December 31, 2022, we held $280.9 million in cash and cash equivalents and $653.6 million in investments, which were comprised of $635.6 million in fixed maturities, $1.5 million in common stock and $16.5 million in other invested assets. Of the $635.6 million of fixed maturities, $24.3 million of U.S. government agency securities were pledged to the Federal Home Loan Bank ("FHLB") in connection with a FHLB loan to Heritage P&C. Refer to Note 14 "*Long-Term Debt"* to our consolidated financial statements under Item 8 of this Annual Report on Form 10-K.

**Seasonality of our Business**

Our insurance business is seasonal; hurricanes typically occur during the period from June 1 through November 30 and winter storms generally impact the first and fourth quarters, while hail and severe convective storms typically occur in the first and second quarters. Because our catastrophe reinsurance program incepts on June 1 annually, any variation in the cost of our reinsurance, whether due to changes to reinsurance rates or changes in the total insured value of our policy base, will be incurred over the twelve month period beginning with that date subject to certain adjustments.

**Government Regulation**

The insurance industry is extensively regulated. Our insurance company subsidiaries are subject to the laws and regulations of the states in which they conduct business. The insurance regulatory statutes and rules provide for regulation of virtually all aspects of the business of insurance companies. The states in which we conduct business, like many states, have adopted several model laws and regulations as promulgated by the National Association of Insurance Commissioners ("NAIC"). State statutes and administrative rules generally require each insurance company that is part of a holding company group to register with the department of insurance in its state of domicile and to furnish information concerning the operations of the companies within the holding company system which may materially affect the operations, management or financial condition of the insurers within the group. As part of its registration, each insurance company must identify material agreements, relationships and transactions with affiliates, including without limitation loans, investments, asset transfers, transactions outside of the ordinary course of business, certain management, service, and cost sharing agreements, reinsurance transactions, dividends and consolidated tax allocation agreements. In some instances, individual state insurance laws and regulations are even more stringent than those promulgated by the NAIC or other states.

We are subject to regulations administered by a department of insurance in each state in which we do business. These regulations relate to, among other things:

- the content and timing of required notices and other policyholder information;
- the amount of premiums the insurer may write in relation to its surplus (writing ratios);
- the amount and nature of reinsurance a company is required to purchase;
- participation in guaranty funds and other statutorily created markets or organizations;
- business operations and claims practices;
- approval of policy forms and premium rates;
- standards of solvency, including risk-based capital measurements;
- licensing of insurers and their products;
- restrictions on the nature, quality and concentration of investments;
- restrictions on the ability of insurance company subsidiaries to pay dividends to insurance holding companies;
- approval of and restrictions on transactions between insurance companies and their affiliates;

- restrictions on the size of risks insurable under a single policy;
- requiring deposits for the benefit of policyholders;
- requiring certain methods of accounting;
- periodic examinations of our operations and finances;
- the form and content of records of financial condition required to be filed; and
- requiring reserves.

Various regulatory and legislative bodies have adopted or proposed new laws or regulations to address the cyclical nature of the insurance industry, catastrophic events and insurance capacity and pricing. These regulations include (i) the creation of “market assistance plans” under which insurers are induced to provide certain coverages, (ii) restrictions on the ability of insurers to rescind or otherwise cancel certain policies in mid-term or to non-renew policies at their scheduled expirations, (iii) advance notice requirements or limitations imposed for certain policy non-renewals, (iv) limitations upon increases or decreases in rates permitted to be charged, (v) expansion of governmental involvement in the insurance market and (vi) increased regulation of insurers’ policy administration and claims handling practices. Further regulatory authorities have relatively broad discretion to impose fines, sanctions, and other penalties, and to deny or revoke licenses for various reasons, including the violation of regulations. In some instances, we follow practices based on our interpretations of regulations or practices that we believe may be generally followed by the industry. These practices may turn out to be different from the interpretations of regulatory authorities. If we do not have the requisite licenses and approvals or do not comply with applicable regulatory requirements, insurance regulatory authorities could preclude or temporarily suspend us from carrying on some or all of our activities or otherwise penalize us.

Our insurance subsidiaries are subject to risk-based capital standards and other minimum capital and surplus requirements imposed under applicable state laws. The risk-based capital standards, based upon the Risk-Based Capital Model Act adopted by the NAIC, require our insurance subsidiaries to report the results of risk-based capital calculations to state regulators and the NAIC. These risk-based capital standards provide for different levels of regulatory attention depending upon the ratio of an insurance company’s total adjusted capital, as calculated in accordance with NAIC guidelines, to its authorized control level risk-based capital. Authorized control level risk-based capital is determined using the NAIC’s risk-based capital formula, which measures the minimum amount of capital that an insurance company needs to support its overall business operations.

The State of Florida Office of Insurance Regulation (“FLOIR”) imposed certain additional solvency related requirements as a condition of receiving a certificate of authority for our Florida insurance company subsidiary. Finally, our insurance company affiliates are subject to state regulations or consent orders setting conditions related to various transactions, including intercompany transactions. We are in full compliance with all consent orders.

State regulators where we are and may become licensed and offer insurance products conduct periodic examinations of the affairs of insurance companies and require the filing of annual and other reports related to financial condition, holding company issues and other matters. These regulatory authorities also conduct periodic examinations into insurers’ business practices. Additionally, we are subject to assessments levied by governmental and quasi-governmental entities from the states in which we conduct business.

## Human Capital

At December 31, 2022, we had 612 full-time and part-time employees. We do not have collective bargaining agreements relating to any of our associates. Our employees are our most valuable asset, and we are committed to building a workforce that supports each employee’s unique professional journey. We believe having an inclusive work environment, which not only drives engagement but fosters innovation, is critical to driving growth. Our business results depend in part on our ability to successfully manage our human capital resources, including attracting, identifying and retaining key talent. We provide all employees a wide range of professional development experiences, both formal and informal. Our formal offerings include leadership development experiences, vocational training, and a certification program. Most training and courses are delivered virtually.

We are committed to the health and safety of our employees, which is critical to our success. We provide our employees with access to a variety of innovative, flexible and convenient health and wellness programs. These programs are designed to support employees' physical and mental health by providing tools and resources to help them improve or maintain their health status and encourage engagement in healthy behaviors. We provide competitive compensation and benefits as well as a 401(k) plan with employee matching opportunities, healthcare and insurance benefits, health savings and flexible spending accounts, telemedicine, paid time off, family leave, employee assistance programs and free education, training and development programs.

We are committed to the wellness of our employees and our community and as part of that commitment we have volunteer programs to support our local community’s wellness which provides our employees paid time to volunteer to Heritage-sponsored volunteer opportunities.

**Available Information**

We make available free of charge on our investor website, investors.heritagepci.com, all materials that we file electronically with the Securities and Exchange Commission (“SEC”), including our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports, filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after electronically filing such materials with, or furnishing them to, the SEC. During the period covered by this Form 10-K, we made all such materials available through our website as soon as reasonably practicable after filing such materials with the SEC. To access these filings, go to the Company’s website at **https://investors.heritagepci.com** and under the “Investors” heading, click on “Financial Information” then “SEC Filings”.

The SEC maintains an Internet website, www.sec.gov that contains reports, proxy and information statements and other information that we file electronically with the SEC. Our principal corporate offices are located at 1401 N. Westshore Blvd., Tampa, Florida, 33607.

## Item 1A. Risk Factors

*Set forth below are certain risk factors that could harm our business, results of operations and financial condition. You should carefully read the following risk factors, together with the financial statements, related notes and other information contained in this Annual Report on Form 10-K. Our business, financial condition and operating results may suffer if any of the following risks are realized. If any of these risks or uncertainties occur, the trading price of our common stock could decline and you might lose all or part of your investment. This Annual Report on Form 10-K contains forward-looking statements that contain risks and uncertainties. Please Refer to the discussion of "Forward-Looking Statements" of this Annual Report in connection with your consideration of the risk factors and other important factors that may affect future results described herein.*

### Risks Related to Our Business

***Our loss reserves are estimates and may be inadequate to cover our actual liability for losses, causing our results of operations to be adversely affected.***

We maintain reserves to cover our estimated ultimate liabilities for losses and loss adjustment expenses, also referred to as loss reserves. Our loss reserves are based primarily on our historical data and statistical projections of what we believe the resolution and administration of claims will cost based on facts and circumstances then known to us. Our claims experience and our experience with the risks related to certain claims is inherently limited. We use company historical data to the extent it is available and rely on industry historical data which may not be indicative of future periods. As a result, our projections and our estimates may be inaccurate, which in turn may cause our actual losses to exceed our loss reserves. If our actual losses exceed our loss reserves, our financial results and our ability to expand our business and to compete in the property and casualty insurance industry may be negatively affected.

Factors that affect unpaid losses and loss adjustment expenses include the estimates made on a claim-by-claim basis known as "case reserves" coupled with bulk estimates known as "incurred but not yet reported" (or "IBNR"). Periodic estimates by management of the ultimate costs required to resolve all claims are based on our analysis of historical data and estimations of the impact of numerous factors such as (i) per claim information, (ii) industry and company historical loss experience and development patterns, (iii) legislative enactments, judicial decisions, legal developments in the awarding of damages and changes in political attitudes, and (iv) trends in general economic conditions, including the effects of inflation. Management revises its estimates based on the results of its analysis. This process assumes that past experience, adjusted for the effects of current developments and anticipated trends, is an appropriate basis for estimating the ultimate resolution of all claims. There is no precise method for subsequently evaluating the impact of any specific factor on the adequacy of the reserves because the eventual redundancy or deficiency is affected by multiple factors.

Because of the inherent uncertainties in the reserving process, we cannot be certain that our reserves will be adequate to cover our actual losses and loss adjustment expenses. If our reserves for unpaid losses and loss adjustment expenses are less than actual losses and loss adjustment expenses, we will be required to increase our reserves with a corresponding reduction in our net income in the period in which the deficiency is identified. Future loss experience substantially in excess of our reserves for unpaid losses and loss adjustment expenses could substantially harm our results of operations and financial condition.

***We have exposure to unpredictable catastrophes that are more pronounced because a large portion of our insurance business is conducted in coastal states, which exposure can materially and adversely affect our financial results.***

We write insurance policies that cover homeowners, condominium owners and commercial residential buildings for losses that result from, among other things, catastrophes. We are therefore subject to losses, including claims under policies we have assumed or written, arising out of catastrophes that may have a significant effect on our business, results of operations and financial condition. A significant catastrophe, or a series of catastrophes, could also have an adverse effect on our reinsurers. Catastrophes can be caused by various events, including hurricanes, severe convective storms, tropical storms, snowstorms, tornadoes, earthquakes, hailstorms, explosions, power outages, fires and by man-made events, such as terrorist attacks. Climate change, to the extent it produces extreme changes in temperatures and changes in weather patterns, could affect the frequency or severity of weather-related catastrophes. The incidence and severity of catastrophes are inherently unpredictable. The extent of losses from a catastrophe is a function of both the total amount of insured exposure in the area affected and the severity of the event.

As of December 31, 2022, nearly all of our premium in force related to business in coastal states, which are especially subject to adverse weather conditions such as hurricanes, tropical storms, earthquakes, and winter storms. A single catastrophic event, or a series of such events, destructive weather patterns, general economic trend, regulatory development or other condition specifically affecting the states in which we conduct business, particularly the more densely populated areas of those states, could have a disproportionately adverse impact on our business, financial condition and results of operations. Therefore, although we attempt to manage our exposure to catastrophes through our underwriting process and the purchase of reinsurance protection, an especially severe catastrophe or series of catastrophes could exceed our reinsurance protection and may have a material adverse impact on our results of operations and financial condition. In the fourth quarter of 2022 we re-estimated our ultimate losses for Hurricane Irma, which struck Florida in 2017. As a result of that re-estimation, Heritage has exhausted the private layers of reinsurance specific to Hurricane Irma but has a 45% participation in the FHCF limit remaining Accordingly, should future re-estimations to Hurricane Irma losses increase the expected loss reserves, a portion of the increase will be retained and a portion will be ceded to the FHCF. In total, for the period from June 1, 2022 through May 31, 2023, we have purchased an aggregate limit of $3.2 billion of catastrophe reinsurance coverage for Heritage

P&C, Zephyr, and NBIC, for multiple catastrophic events. Our ability to access this coverage, however, is subject to the severity and frequency of such events. We may experience significant losses and loss adjustment expenses in excess of our retention or experience multiple retentions for a series of catastrophic events in a single season, which could materially and adversely affect our financial results.

***Our success depends on our ability to adequately assess risk and set premiums accordingly, and our failure to do so could affect the growth of our business and adversely impact our financial results.***

Our results of operations and financial condition depend on our ability to underwrite and set premium rates accurately for a wide variety of risks. Rate adequacy is necessary to generate sufficient premiums to pay losses, loss adjustment expenses, reinsurance costs and underwriting expenses and to earn a profit. In order to price our products accurately, we must collect and properly analyze a substantial amount of data; develop, test and apply appropriate rating formulas; closely monitor and timely recognize changes in trends; and project both severity and frequency of losses with reasonable accuracy. Our ability to successfully perform these tasks, and as a result price our products accurately, is subject to a number of risks and uncertainties, some of which are outside our control, including:

- the availability of sufficient reliable data and our ability to properly analyze available data;
- regulatory delays in approving filed rate changes;
- the uncertainties that inherently characterize estimates and assumptions;
- our selection and application of appropriate rating and pricing techniques;
- changes in legal standards, claim resolution practices, and restoration costs; and
- legislatively imposed consumer initiatives.

In addition, we could underprice risks, which would negatively affect our profit margins. We could also overprice risks, which could reduce the number of policies we write and our competitiveness. In either event, our profitability could be materially and adversely affected.

***Our results of operations may fluctuate significantly based on industry factors.***

The insurance business historically has been a cyclical industry characterized by periods of intense price competition due to excess underwriting capacity, as well as periods when shortages of capacity permitted an increase in pricing. As premium levels increase, there may be new entrants to the market, which could then lead to increased competition, a significant reduction in premium rates, less favorable policy terms and fewer opportunities to underwrite insurance risks, which could have a material adverse effect on our results of operations and cash flows. In addition to these considerations, changes in the frequency and severity of losses suffered by insureds and insurers, including changes resulting from multiple and/or catastrophic weather events, may affect the cycles of the insurance business significantly. We cannot predict whether market conditions will improve, remain constant or deteriorate. Negative market conditions may impair our ability to write insurance at rates that we consider appropriate relative to the risk assumed. If we cannot write insurance at appropriate rates, our business would be materially and adversely affected.

In addition, the uncertainties inherent in the reserving process, together with the potential for unforeseen developments, including changes in laws and the prevailing interpretation of policy terms, may result in losses and loss adjustment expenses materially different from the reserves initially established. Changes to prior year reserves will affect current underwriting results by increasing net income if the prior year reserves prove to be redundant or by decreasing net income if the prior year reserves prove to be insufficient. We may not record contingency reserves to account for expected future losses. As a result, we expect volatility in operating results in periods in which significant loss events occur because generally accepted accounting principles do not permit insurers or reinsurers to reserve for loss events until they have occurred and are expected to give rise to a claim. We anticipate that claims arising from future events may require the establishment of substantial reserves from time to time.

***Reinsurance coverage may not be available to us in the future at commercially reasonable rates or at all.***

The cost of reinsurance is subject to prevailing market conditions beyond our control such as the amount of capital in the reinsurance market, as well as the frequency and magnitude of natural and man-made catastrophes. Our total cost of obtaining reinsurance over the last few years has increased, both on an absolute basis and as a percentage of premiums-in-force, and is expected to continue to increase in the future. We cannot be assured that reinsurance will remain continuously available to us in the amounts we consider sufficient and at prices acceptable to us. As a result, we may determine to increase the amount of risk we retain or look for other alternatives to reinsurance, which could in turn have a material adverse effect on our financial position, results of operations and cash flows.

***We may not be able to collect reinsurance amounts due to us from the reinsurers with which we have contracted.***

Reinsurance is a method of transferring part of an insurance company's risk under an insurance policy to another insurance company. To the extent that our reinsurers are unable to meet the obligations they assume under our reinsurance agreements, we remain liable for the entire insured loss. We use reinsurance arrangements to significantly limit and manage the amount of risk we retain, to stabilize our underwriting results, and to increase our underwriting capacity. Our ability to recover amounts due from reinsurers under the reinsurance treaties we currently have in effect is subject to the reinsurance company's ability and willingness to pay and to meet its obligations to us. We attempt to select financially strong reinsurers with an A.M. Best or S&P rating of "A-" or better or we require the reinsurer to fully collateralize its exposure. While we monitor from time to time their financial condition, we also rely on our reinsurance broker and rating agencies in evaluating our reinsurers' ability to meet their obligations to us.

Our reinsurance coverage in any given year may be concentrated with one or a limited group of reinsurers. No single private market reinsurer represented more than 10% of the overall limit purchased from our total reinsurance coverage. Any failure on the part of any one reinsurance company to meet its obligations to us could have a material adverse effect on our financial condition or results of operations.

All residential insurance companies that write admitted business in Florida, including Heritage P&C, are required to obtain reinsurance through the FHCF, and this coverage comprises a substantial portion of the Heritage P&C reinsurance program for our Florida insured properties. The limit and retention of the FHCF coverage is subject to upward or downward adjustment based on, among other things, submitted exposures to FHCF by all participants. We have purchased private reinsurance alongside our FHCF layer to fill in gaps in coverage that may result from the adjustment of the limit or retention of our FHCF coverage; however, such reinsurance would not cover any losses we may incur as a result of FHCF's inability to pay the full amount of our claims. If a catastrophic event occurs in Florida, the FHCF may not have sufficient funds to pay all of its claims from insurance companies in full or in a timely manner. This could result in significant financial, legal and operational challenges to our Company. In the event of a catastrophic loss, the FHCF's ability to pay may be dependent upon its ability to issue bonds in amounts that would be required to meet its reinsurance obligations. There can be no assurance that FHCF will be able to do this. While we believe FHCF currently has adequate capital and financing capacity to meet its reinsurance obligations, there can be no assurance that it will be able to meet its obligations in the future, and any failure to do so could have a material adverse effect on our liquidity, financial condition and results of operations.

***We carry a significant amount of intangible assets on our consolidated balance sheets. Earnings for future periods may be impacted by impairment charges for intangible assets.***

We have a significant amount of intangible assets that could be subject to impairment. If we determine that a significant impairment has occurred in the value of our unamortized intangible assets, we could be required to write off a portion of our assets, which could adversely affect our consolidated financial condition or our reported results of operations.

***The inherent uncertainty of models and our reliance on such models as a tool to evaluate risk may have an adverse effect on our financial results.***

We license analytic and modeling software from third parties to facilitate our pricing, assess our risk exposure and determine our reinsurance needs. Given the inherent uncertainty of modeling techniques and the application of such techniques, these models and databases may not accurately address the emergence of a variety of matters which might impact our exposure to losses. If these models understate the exposures we are assuming, we may not properly assess the risk and we may make poor decisions relating to pricing, underwriting, and the related amount of reinsurance we purchase. As a result, our financial results may be adversely impacted, perhaps significantly.

***Increased competition, competitive pressures, industry developments and market conditions could affect the growth of our business and adversely impact our financial results.***

The property and casualty insurance industry in the states in which we do business is cyclical and, during times of increased capacity, highly competitive. We compete not only with other public and private insurance companies, but also with state governmental insurance entities, mutual companies, other underwriting organizations and alternative risk sharing mechanisms. Our principal lines of business are also written by numerous other insurance companies. Competition for any one account may come from very large, well-established national companies, smaller regional companies, other specialty insurers in our field and other companies that write insurance. Some of these competitors have greater financial resources, larger agency networks and greater name recognition than we do. We compete for business not only on the basis of price, but also on the basis of financial strength, types of coverages offered, and availability of coverage desired by customers, commission structure and quality of service. We may have difficulty continuing to compete successfully on any of these bases in the future. Competitive pressures coupled with market conditions may affect our rate of premium growth and financial results.

In addition, industry developments could further increase competition in our industry. These developments could include:

- an influx of new capital in the marketplace as existing companies attempt to expand their businesses and new companies attempt to enter the insurance business as a result of better premium pricing and/or policy terms;
- an increase in programs in which state-sponsored entities provide property insurance in catastrophe-prone areas;
- changes in state regulatory climates; and
- the passage of federal proposals for an optional federal charter that would allow some competing insurers to operate under regulations different or less stringent than those applicable to us.

These developments and others could make the property and casualty insurance marketplace more competitive by increasing the supply of insurance available. If competition limits our ability to write new business at adequate rates, our future results of operations would be adversely affected.

***We may not be able to effectively integrate newly acquired businesses or achieve expected profitability from acquisitions.***

We have in the past and may in the future expand through the acquisition of complementary businesses. This could occur through an acquisition of a company or a portion of a company's business. Any future acquisitions may entail a number of risks that could adversely affect our business and the market price of our common stock, including the integration of the acquired operations and information systems, diversion of management's attention, risks of entering new market regions in which we have limited experience, adverse short-term effects on our reported operating results, the potential loss of key employees of acquired businesses, changes for impairment of long-terms assets or goodwill and risks associated with unanticipated liabilities

In connection with an acquisition, we could incur debt, recognize amortization expenses related to intangible assets, have to take large and immediate write-offs, including but not limited to goodwill impairment, and assume liabilities. We may also use our common stock to pay for acquisitions. If the owners of potential acquisition candidates are not willing to accept our common stock in exchange for their businesses, our acquisition prospects could be limited. Future acquisitions could also result in accounting charges, potentially dilutive issuances of equity securities and increased debt and contingent liabilities, including liabilities related to unknown or undisclosed circumstances, any of which could have a material adverse effect on our business and the market price of our common stock.

***We may not be able to effectively execute our business diversification strategy.***

We have and intend to continue to invest significant time and resources to employ our business strategies, including the rebalancing of our portfolio toward products and geographies that maximize long-term returns to our shareholders, and we may not achieve the return on our investment that we expect. Initial timetables for optimizing and diversifying our portfolio of policies may not be achieved and price and profitability targets may not prove feasible. External factors, such as compliance with regulations, competitive alternatives, and shifting customer preferences may also impact the successful implementation of our business plan. Such external factors and requirements may increase our costs and potentially affect the speed with which we will be able to re-allocate capital among our portfolio of policies. There can be no assurance that we will be successful in deploying this strategy. Additionally, to the extent our business strategies include any geographic expansion, new line of business and/or new product or service, such expansion or new products or services could have a significant impact on the effectiveness of our system of internal controls. Failure to successfully manage these risks could have a material adverse effect on our business, results of operations and financial condition.

***We rely on independent agents to write insurance policies for us, and if we are not able to attract and retain independent agents, our revenues would be negatively affected.***

We write personal and commercial insurance policies through a network of independent agents. Our southeastern personal residential insurance policies are written through a network of more than 2,000 independent agents. Approximately 28% of our voluntary personal lines policies are written by agents that are affiliated with eight large agency networks with which we have entered into master agency agreements. We market and write commercial residential policies through a network of approximately 400 independent agents in Florida. Of our network of approximately 500 retail independent agents for business in the northeastern U.S., our three largest relationships represent approximately $79.0 million in annualized premiums. Of our network of approximately 70 Hawaiian independent agencies, approximately 50.6% are affiliated with three large multi-producer agencies.

Our strategic focus is to improve the underwriting performance of our policies throughout the states in which we are licensed, which will further increase our reliance on our network of independent agents. If any of our independent agents cease writing policies for us, or if any of our master agency agreements are terminated, we may suffer a reduction in the number of products we are able to sell, which would negatively impact our results of operations.

Many of our competitors also rely on independent agents. As a result, we must compete with other insurers for independent agents' business. Our competitors may offer a greater variety of insurance products, lower premiums for insurance coverage, or higher

commissions to their agents. If our products, pricing and commissions do not remain competitive, we may find it more difficult to attract business from independent agents to sell our products.

***The failure of our claims department to effectively manage or remediate claims could adversely affect our insurance business, financial results and capital requirements.***

We rely on our claims department and any outsourced claims resources to facilitate and oversee the claims adjustment process for our policyholders. Many factors could affect the ability of our claims department to effectively manage claims by our policyholders, including:

- the accuracy of our adjusters as they make their assessments and submit their estimates of damages;
- the training, background and experience of our claim's representatives;
- the ability of our claims department to ensure consistent claims handling;
- the ability of our claims department to translate the information provided by adjusters into acceptable claims resolutions; and
- the ability of our claims department to maintain and update its claims handling procedures and systems as they evolve over time based on claims and geographical trends in claims reporting.

Any failure to effectively manage the claims adjustment process, including failure to pay claims accurately, could lead to material litigation, undermine our reputation in the marketplace, impair our corporate image and negatively affect our financial results.

Additionally, as a component of the claims process, we leverage CAN's vendor network to provide repair and remediation services to the policyholder. If such services are not performed properly, we may face liability. Although we maintain professional liability insurance to cover losses arising from our repair and remediation services, there can be no assurances that such coverage is adequate. In addition, our failure to timely and properly remediate claims, or the perception of such failure, may damage our reputation and adversely affect our ability to renew existing policies or write new policies.

***If actual renewals of our existing contracts do not meet expectations, our premiums written in future years and our future results of operations could be materially adversely affected.***

Our insurance policies are written for a one-year term. We make assumptions about the renewal of our prior year's contracts, including for purposes of determining the amount of reinsurance we purchase. If actual renewals do not meet expectations or if we choose not to write on a renewal basis because of pricing conditions, our premiums written in future years and our future operations would be materially adversely affected, and we may purchase reinsurance beyond what we believe is the most appropriate level.

***Our inability to maintain our financial stability rating may have a material adverse effect on our competitive position, the marketability of our product offerings, and our liquidity, operating results and financial condition.***

Financial stability ratings are important factors in establishing the competitive position of insurance companies and can have a significant effect on an insurance company's business. Many insurance buyers, agents, brokers and secured lenders use the ratings assigned by rating agencies to assist them in assessing the financial stability and overall quality of the companies from which they are considering purchasing insurance or in determining the financial stability of the company that provides insurance. Each of our insurance company affiliates currently maintain a Demotech rating of "A" ("Exceptional") or higher. Our insurance company subsidiaries and the Company is also rated BBB- or better by KBRA. These financial stability ratings provide an objective baseline for assessing solvency and should not be interpreted as (and are not intended to serve as) an assessment of a recommendation to buy, sell, or hold, any securities of an insurance company or its parent holding company, including shares of our common stock.

On an ongoing basis, rating agencies review the financial performance and condition of insurers and can downgrade or change the outlook on an insurer's ratings due to, for example, a change in an insurer's statutory capital, a reduced confidence in management or a host of other considerations that may or may not be under the insurer's control. All ratings are subject to continuous review; therefore, the retention of these ratings cannot be assured. A downgrade in any of these ratings could have a material adverse effect on our competitive position, the marketability of our product offerings and our ability to grow in the marketplace.

***If we are unable to expand our business because our capital must be used to pay greater than anticipated claims, our financial results may suffer. Further, we may require additional capital in the future which may not be available or may only be available on unfavorable terms.***

Our future growth and future capital requirements will depend on the number of insurance policies we write, the kinds of insurance products we offer, the geographic markets in which we do business and, to the extent part of our business strategy in the

future, policy and/or geographic expansion, all balanced by the business risks we choose to assume and cede. Growth initiatives require capital. Our existing sources of funds include possible sales of common or preferred stock, incurring debt and our earnings from operations and investments. Unexpected catastrophic events in our coverage areas, such as hurricanes, may result in greater claims losses than anticipated, which could require us to limit or halt our growth while we redeploy our capital to pay these unanticipated claims unless we are able to raise additional capital.

To the extent that our present capital is insufficient to meet future operating requirements or to cover losses, we may need to raise additional funds through financing or curtail our growth. Based on our current operating plan, we believe that our current capital together with our anticipated retained income will support our operations. However, we cannot provide any assurance in that regard, since many factors will affect the amount and timing of our capital needs, including profitability of our business, the availability and cost of reinsurance, market disruptions and other unforeseeable developments. If we require additional capital, it is possible that equity or debt financing may not be available on acceptable terms or at all. In the case of equity financings, dilution to our stockholders could result, and in any case such securities may have rights, preferences and privileges that are senior to those of existing stockholders. If we cannot obtain adequate capital on favorable terms or at all, our business, financial condition or results of operations could be materially adversely affected.

***Our financial results may be negatively affected by the fact that a portion of our income is generated by the investment of our company's capital, premiums and loss reserves.***

A portion of our income is, and likely will continue to be, generated by the investment of our capital, premiums and loss reserves. The amount of income generated is a function of our investment policy, available investment opportunities and the amount of available cash invested. We are also constrained by investment limitations required by our state insurance regulators. At December 31, 2022, approximately 97% of our total investments was invested in fixed-maturity securities. We may, under certain circumstances, be required to liquidate our investments in securities at prices below book value, which may adversely affect our financial results. This risk could be amplified in periods of rising interest rates. We currently hold all of our cash in accounts with eight financial institutions and, as a result of this concentration, a portion of the balances in such accounts exceeds the Federal Deposit Insurance Corporation ("FDIC") insurance limits. While we monitor and adjust the balances in our accounts as appropriate, these balances could be impacted if any of these financial institutions fail and could be subject to other adverse conditions in the financial markets.

We may alter our investment policy to accept higher levels of risk with the expectation of higher returns. Fluctuating interest rates and other economic factors make it impossible to estimate accurately the amount of investment income that will be realized. In fact, we may realize losses on our investments.

***The effects of emerging claim and coverage issues on our business are uncertain.***

Loss frequency and severity in the property and casualty insurance industry and multi-peril personal lines business has continued to increase in recent years, often driven by actual and social inflation.  Litigation and assignment of benefits ("AOB") in the State of Florida is an example of these trends. For example, in recent years, Florida homeowners have been assigning the benefit of their insurance recovery to third parties, which has resulted in increases in the size and number of claims and the amount of litigation, interference in the adjustment of claims, the assertion of bad faith actions and one-way rights to claim attorney fees. The Florida legislature enacted several reform bills in the last three years with the intention to limit AOB and frivolous litigation. There can be no assurance that this new legislation will reduce the future impact of AOB or litigated claims practices.

Many legal actions and proceedings have been brought on behalf of classes of complainants, which can increase the size of judgments. The propensity of policyholders and third-party claimants to litigate and the willingness of courts to expand causes of loss and the size of awards may render the loss reserves of our insurance subsidiaries inadequate for current and future losses. In addition, as industry practices and social and other environmental conditions change, unexpected and unintended issues related to claims and coverage may emerge. These issues may adversely affect our business by either extending coverage beyond our underwriting intent or by increasing the number or size of claims. In some instances, these changes may not become apparent until sometime after we have issued insurance policies that are affected by the changes. As a result, the full extent of liability under our insurance policies may not be known at the time such policies are issued or renewed, and our financial position and results of operations may be adversely affected.

***The failure of the risk mitigation strategies we utilize could have a material adverse effect on our financial condition or results of operations.***

We utilize a number of strategies to mitigate our risk exposure including:

- employing proper underwriting processes;
- carefully evaluating the terms and conditions of our policies;

- geographic diversification; and
- ceding insurance risk to reinsurance companies.

However, there are inherent limitations in these strategies. No assurance can be given that an event or series of unanticipated events will not result in loss levels which could have a material adverse effect on our financial condition or results of operations.

***Lack of effectiveness of exclusions and other loss limitation methods in the insurance policies we assume or write could have a material adverse effect on our financial condition or our results of operations.***

Various provisions of our policies, such as limitations or exclusions from coverage which are designed to limit our risks, may not be enforceable in the manner we intend. In addition, the policies we issue contain conditions requiring the prompt reporting of claims to us and our right to decline coverage in the event of a violation of that condition. While our insurance product exclusions and limitations reduce the loss exposure to us and help eliminate known exposures to certain risks, it is possible that a court or regulatory authority could nullify or void an exclusion or limitation, or legislation could be enacted modifying or barring the use of such endorsements and limitations in a way that would adversely affect our loss experience, which could have a material adverse effect on our financial condition or results of operations.

**Risks Related to Regulation of Our Insurance Operations**

***We are subject to extensive regulation which may reduce our profitability or limit our growth. Moreover, if we fail to comply with these regulations, we may be subject to penalties, including fines and suspensions, which may adversely affect our financial condition and results of operations.***

We are subject to extensive state regulation. The NAIC and state insurance regulators regularly examine existing laws and regulations, generally focusing on modifications to holding company regulations, interpretations of existing laws and the formation of new laws. Our insurance company affiliates are subject to supervision and regulation that is primarily designed to protect our policyholders rather than our stockholders, and such regulation is imposed by the states in which we are domiciled and the states in which our insurance subsidiaries do business. These regulations relate to, among other things, the approval of policy forms and premium rates, our conduct in the marketplace, our compliance with solvency and financial reporting requirements, transactions with our affiliates, limitations on the amount of business we can write, the amount of dividends we can pay to stockholders, and the types of investments we can make. Insurance holding company regulations generally provide that transactions between an insurance company and its affiliates must be fair and reasonable and must be clearly and accurately disclosed in the records of the respective parties, with expenses and payments allocated between the parties in accordance with customary accounting practices. Many types of transactions between an insurance company and its affiliates, such as transfers of assets, loans, reinsurance agreements, service agreements, certain dividend payments by the insurance company and certain other material transactions, may be subject to prior approval by, or prior notice to, state regulatory authorities. If we are unable to obtain the requisite prior approval for a specific transaction, we would be precluded from taking the action, which could adversely affect our operations. These regulatory requirements may adversely affect or inhibit our ability to achieve some or all of our business objectives. In addition, regulatory authorities also may conduct periodic examinations into insurers' business practices. These reviews may reveal deficiencies in our insurance operations or differences between our interpretations of regulatory requirements and those of the regulators.

State insurance regulations also frequently impose notice or approval requirements for the acquisition of specified levels of ownership in the insurance company or insurance holding company. Additionally, state legislation can impact our results of operations. For example, in 2007, Florida enacted legislation that led to rate levels in the private insurance market that we believe, in many instances in the past, were inadequate to cover the related underwriting risk. This same legislation required Citizens Property Insurance ("Citizens") to reduce its premium rates and begin competing against private insurers in the Florida residential property insurance market. Florida lawmakers may continue to enact or retain legislation that suppresses the rates of Citizens, further adversely impacting the private insurance market and increasing the likelihood that it must levy assessments on private insurance companies and ultimately on Florida consumers. These and other aspects of the political environment in jurisdictions where we operate may reduce our profitability, limit our growth, or otherwise adversely affect our operations.

During the past several years, various regulatory and legislative bodies have adopted or proposed new laws or regulations to address the cyclical nature of the insurance industry, catastrophic events and insurance capacity and pricing. These regulations include (i) the creation of "market assistance plans" under which insurers are induced to provide certain coverages, (ii) restrictions on the ability of insurers to rescind or otherwise cancel certain policies in mid-term or to nonrenew policies at their scheduled expirations, (iii) advance notice requirements or limitations imposed for certain policy non renewals, (iv) limitations upon increases or decreases in rates permitted to be charged, (v) expansion of governmental involvement in the insurance market and (vi) increased regulation of insurers' policy administration and claims handling practices. Further, regulatory authorities have relatively broad discretion to deny or revoke licenses for various reasons, including the violation of regulations. In some instances, we follow practices based on our interpretations of regulations or practices that we believe may be generally followed by the industry. These practices may turn out to be different from the interpretations of regulatory authorities. If we do not have the requisite licenses and approvals or do not comply

with applicable regulatory requirements, insurance regulatory authorities could preclude or temporarily suspend us from carrying on some or all of our activities or otherwise penalize us. This could adversely affect our ability to operate our business.

We cannot predict with certainty the effect any enacted, proposed or future state or federal legislation or NAIC initiatives may have on the conduct of our business. Furthermore, there can be no assurance that the regulatory requirements applicable to our business will not become more stringent in the future or result in materially higher costs than current requirements, or that creation of a federal insurance regulatory system will not adversely affect our business or disproportionately benefit our competitors. Changes in the regulation of our business may reduce our profitability, limit our growth or otherwise adversely affect our operations.

***Our insurance subsidiaries are subject to minimum capital and surplus requirements, and our failure to meet these requirements could subject us to regulatory action.***

Our insurance subsidiaries are subject to risk-based capital standards and other minimum capital and surplus requirements imposed under applicable state laws. The risk-based capital standards, based upon the Risk-Based Capital Model Act adopted by the NAIC, require our insurance subsidiaries to report the results of risk-based capital calculations to state regulators and the NAIC. These risk-based capital standards provide for different levels of regulatory attention depending upon the ratio of an insurance company's total adjusted capital, as calculated in accordance with NAIC guidelines, to its authorized control level risk-based capital. Authorized control level risk-based capital is determined using the NAIC's risk-based capital formula, which measures the minimum amount of capital that an insurance company needs to support its overall business operations.

An insurance company with total adjusted capital that is less than 200% of its authorized control level risk-based capital is at a company action level, which would require the insurance company to file a risk-based capital plan that, among other things, contains proposals of corrective actions the company intends to take that are reasonably expected to result in the elimination of the company action level event. Additional action level events occur when the insurer's total adjusted capital falls below 150%, 100%, and 70% of its authorized control level risk-based capital. The lower the percentage, the more severe the regulatory response, including, in the event of a mandatory control level event (total adjusted capital falls below 70% of the insurer's authorized control level risk-based capital), placing the insurance company into receivership. As of December 31, 2022, our insurance subsidiaries each maintained a risk-based capital ratio of over 300% and complied with the requirement of our state regulators. Our subsidiary, HPCI, has agreed to continue to maintain a risk-based capital ratio of at least 300%. Our subsidiary, NBIC, has agreed to maintain a risk-based capital ratio requirement of 350%.

In addition, our insurance subsidiaries are required to maintain certain minimum capital and surplus and to limit its written premiums to specified multiples of its capital and surplus. Our insurance subsidiaries could exceed these ratios if their volume increases faster than anticipated or if their surplus declines due to catastrophe or non-catastrophe losses or excessive underwriting and operational expenses.

Any failure by our insurance subsidiaries to meet the applicable risk-based capital or minimum statutory capital requirements or the writings ratio limitations imposed by state law could subject our insurance subsidiaries to further examination or corrective action imposed by state regulators, including limitations on our writing of additional business, state supervision or liquidation.

Any changes in existing risk-based capital requirements, minimum statutory capital requirements, or applicable writings ratios may require us to increase our statutory capital levels, which we may be unable to do.

***Litigation or regulatory actions could have a material adverse impact on us.***

From time to time, we are subject to civil or administrative actions and litigation. Civil litigation frequently results when we do not pay insurance claims in the amounts or at the times demanded by policyholders or their representatives. We also may be subject to litigation or administrative actions arising from the conduct of our business and the regulatory authority of state insurance departments. Further, we are subject to other types of litigation inherent in operating our businesses, employing personnel, contracting with vendors and otherwise carrying out our affairs. As industry practices and legal, judicial, social and other environmental conditions change, unexpected and unintended issues related to claims and coverage may arise, including judicial expansion of policy coverage and the impact of new theories of liability, plaintiffs targeting property and casualty insurers in purported class-action litigation relating to claims-handling and other practices, and adverse changes in loss cost trends, including inflationary pressures in home repair costs. Multiparty or class action claims may present additional exposure to substantial economic, non-economic or punitive damage awards. Current and future litigation or regulatory matters may negatively affect us by resulting in the payment of substantial awards or settlements, increasing legal and compliance costs, requiring us to change certain aspects of our business operations, diverting management attention from other business issues, harming our reputation with agents and customers or making it more difficult to retain current customers and to recruit and retain employees or agents.

***Regulation limiting rate increases and requiring us to participate in loss sharing may decrease our profitability.***

From time to time, political dispositions affect the insurance market, including efforts to effectively suppress rates at a level that may not allow us to reach targeted levels of profitability. Despite efforts to remove politics from insurance regulation, facts and history demonstrate that public policymakers, when faced with untoward events and adverse public sentiment, can act in ways that impede a satisfactory correlation between rates and risk. Such acts may affect our ability to obtain approval for rate changes that may be required to attain rate adequacy along with targeted levels of profitability and returns on equity. Our ability to afford reinsurance required to reduce our catastrophe risk may be dependent upon the ability to adjust rates for our cost.

Additionally, we are required to participate in guaranty funds for insolvent insurance companies. The funds periodically assess losses against all insurance companies doing business in the state. Our operating results and financial condition could be adversely affected by any of these factors.

***Our revenues and operating performance will fluctuate due to statutorily approved assessments that support property and casualty insurance pools and associations.***

We operate in a regulatory environment where certain entities and organizations have the authority to require us to participate in assessments. Currently these entities and organizations include, but are not limited to, state guaranty funds, state joint underwriting associations, fair plans, wind pools, or the FHCF.

Insurance companies currently pass these assessments on to holders of insurance policies in the form of a policy surcharge and reflect the collection of these assessments as fully earned credits to operations in the period collected. The collection of these fees, however, may adversely affect our overall marketing strategy due to the competitive landscape of our business. As a result, the impact of possible future assessments on our balance sheet, results of operations or cash flow are indeterminable at this time.

**Risks Relating to Financing**

***Our variable rate indebtedness subjects us to interest rate risk, which could cause our annual debt service obligations to increase significantly.***

Borrowings under our credit facilities are at variable rates of interest and expose us to interest rate risk. If the rates on which our borrowings are based were to increase from current levels, our debt service obligations on our variable rate indebtedness would increase even though the amount borrowed remained the same, and our net income and cash available to service our other obligations would decrease. Due to inflationary pressures on the U.S. economy and governmental action to combat inflation, interest rates increased during 2022 and it appears likely that interest rates will continue to increase during 2023, which may decrease our net income and cash flows.

***Our credit agreement contains restrictions that can limit our flexibility in operating our business.***

The agreement governing our credit facilities contains various covenants that limit our ability to engage in certain transactions. These covenants limit our and our subsidiaries' ability to, among other things:

- incur additional indebtedness;
- declare or make any restricted payments, including dividends;
- make investments, including the contribution of capital to our insurance subsidiaries;
- create liens on any of our current or future assets;
- consolidate, merge, sell, or otherwise dispose of all or substantially all of our current or future assets; and
- enter into certain transactions with our affiliates.

These covenants could place us at a disadvantage compared to some of our competitors that may have fewer restrictive covenants and may not be required to operate under these restrictions. Further, these covenants could have an adverse effect on our business by limiting our ability to take advantage of financing and business opportunities. If we fail to comply with these covenants, it could result in an event of default under our credit facilities. If any default occurs, all amounts outstanding under our credit facilities may become immediately due and payable.

***Dividend payments on our common stock in the future are uncertain.***

Although we have paid dividends on our common stock in the past, the declaration and payment of dividends will be at the discretion of our board of directors and will depend on our profits, financial requirements and other factors, such as restrictions under

our credit facilities, which limit our ability to pay dividends, and other legal and regulatory restrictions on the payment of dividends, our overall business condition and other elements our board of directors considers relevant. Therefore, investors who purchase our common stock may only realize a return on their investment if the value of our common stock appreciates.

***We depend on the ability of our subsidiaries to generate and transfer funds to meet debt obligations and to make dividend payments.***

We do not have significant revenue generating operations of our own. As such, our ability to make scheduled payments on our debt obligations and pay dividends depends on the financial condition and operating performance of our subsidiaries. If the funds we receive from our subsidiaries, some of which are subject to regulatory restrictions on the payment of distributions, are insufficient to meet our debt obligations, we may be required to raise funds through the issuance of additional debt or equity securities, reduce or suspend dividend payments, or sell assets.

**Risks Relating to Ownership of Our Common Stock**

***Certain provisions of our certificate of incorporation and our bylaws may make it difficult for stockholders to change the composition of our board of directors and may discourage hostile takeover attempts that some of our stockholders may consider to be beneficial.***

Certain provisions of our certificate of incorporation and bylaws may have the effect of delaying or preventing changes in control if our board of directors determines that such changes in control are not in the best interests of us and our stockholders. The provisions in such certificate of incorporation and bylaws include, among other things, the following:

- the ability of our board of directors to issue shares of preferred stock and to determine the price and other terms, including preferences and voting rights, of those shares without stockholder approval;
- stockholder action can only be taken at a special or regular meeting and not by written consent;
- advance notice procedures for nominating candidates to our board of directors or presenting matters at stockholder meetings; and
- allowing only our board of directors to fill vacancies on our board of directors.

We have elected in our certificate of incorporation not to be subject to Section 203 of the DGCL, an anti-takeover law. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a business combination, such as a merger, with a person or group owning 15% or more of the corporation’s voting stock for a period of three years following the date the person became an interested stockholder, unless (with certain exceptions) the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Accordingly, we will not be subject to any anti-takeover effects of Section 203.

While these provisions have the effect of encouraging persons seeking to acquire control of our company to negotiate with our board of directors, they could enable the board of directors to hinder or frustrate a transaction that some, or a majority, of the stockholders might believe to be in their best interests, including an acquisition that would result in a price per share at a premium over the market price, and, in that case, may prevent or discourage attempts to remove and replace incumbent directors.

These provisions may frustrate or prevent any attempts by our stockholders to replace or remove our current management by making it more difficult for stockholders to replace members of our board of directors, which is responsible for appointing the members of our management.

***Applicable insurance laws may make it difficult to effect a change of control of our company.***

State insurance holding company laws require prior approval by the state insurance department of any change of control of an insurer that is domiciled in that respective state. “Control” is generally defined as the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a company, whether through the ownership of voting securities, by contract or otherwise. Control is generally presumed to exist through the direct or indirect ownership of 10% or more of the voting securities of a domestic insurance company or any entity that controls a domestic insurance company. These laws may discourage potential acquisition proposals and may delay, deter or prevent a change of control of us, including through transactions, and in particular unsolicited transactions, that some or all of our stockholders might consider to be desirable.

***Our stock price in recent years has been volatile and is likely to continue to be volatile, which may impact the value of stock held by investors.***

The market price of our common stock has experienced, and may continue to experience, significant volatility from time to time. Such volatility may be affected by various factors and events, such as:

- our operating results, including a shortfall in revenues or operating performance from that expected by securities analysts and investors;
- recognition of large unanticipated accounting charges, such as impairment charges;
- changes in securities analysts' estimates of our financial performance or the financial performance of our competitors or companies in our industry generally;
- a downgrade of our Demotech or KBRA rating;
- the announcement of a material event or anticipated event involving us or our industry or the markets in which we operate; and
- the other risk factors described in this Annual Report.

In recent years, the U.S. stock market has experienced extreme price and volume fluctuations, which have sometimes affected the market price of the securities issued by a particular company in a manner unrelated to our operational performance. This type of market effect could impact the price of our common stock as well. This volatility means that the price of our common stock may have declined substantially at such time as our stockholders may look to sell shares of our common stock, which reduces the value of their investment.

**General Risk Factors**

***Our information technology systems, or those of our key service providers, may fail or suffer a loss of security which could adversely affect our business.***

Our insurance business is highly dependent upon the successful and uninterrupted functioning of our computer and data processing systems. We rely on these systems to perform actuarial and other modeling functions necessary for writing business, as well as to handle our policy and claims administration process (i.e., handling and adjusting claims, the billing, printing and mailing of our policies, endorsements, renewal notices, etc.). The successful operation of our systems depends on a continuous supply of electricity. The failure of these systems or disruption in the supply of electricity could interrupt our operations and result in a material adverse effect on our business.

The development and expansion of our insurance business is dependent upon the successful development and implementation of advanced technology, including modeling, underwriting and information technology systems. We have engaged service providers to provide us with policy and other administration services for certain policies and we intend to continue to utilize third party systems. The failure of any of these systems to function as planned could adversely affect our future business volume service levels and results of operations. In addition, we have licensed certain systems and data from third parties. We cannot be certain that we will have access to these, or comparable systems, or that our technology or applications will continue to operate as intended. Moreover, we cannot be certain that we would be able to replace these systems without slowing our underwriting or claims handling response time. A major defect or failure in our internal controls or information technology systems could result in management distraction, harm to our reputation, a loss or delay of revenues or increased expense.

***We may be subject to information technology failures, including data protection breaches and cyber-attacks, that could disrupt our operations, damage our reputation and adversely affect our business, operations, and financial results.***

We rely on our information technology systems for the effective operation of our business and for the secure maintenance and storage of confidential data relating to our business and for our policyholders. We have implemented security controls to protect our information technology systems, but experienced programmers or hackers may be able to penetrate our security controls, and develop and deploy viruses, worms and other malicious software programs that compromise our confidential information or that of third parties and cause a disruption or failure of our information technology systems. For example, during the first quarter of 2021, we experienced a cyber intrusion on certain of our information technology systems. In addition, we have in the past and may in the future be subject to "phishing" attacks in which third parties send emails purporting to be from reputable companies in order to obtain personal information and infiltrate our systems to initiate wire transfers or otherwise obtain proprietary or confidential information.

Our customers provide personal information that we store and maintain in our data warehouse and policy and claims systems. We have implemented systems and processes to protect against unauthorized access to or use of such personal information, but there is no guarantee that these procedures are adequate to safeguard against all security breaches or misuse of the information. Furthermore, we rely on encryption and authentication technology to provide security and authentication to effectively secure transmission of confidential information, including customer bank account, credit card information and other personal information.

However, there is no guarantee that these systems or processes will address all of the cyber threats that continue to evolve. In addition, many of the third parties who provide products, services, or support to us could also experience any of the above cyber risks or security breaches, which could impact our policyholders and our business and could result in a loss of customers, suppliers or revenue.

Any compromise of our information technology systems could result in the unauthorized publication of our confidential business or proprietary information, result in the unauthorized release of customer, supplier or employee data, result in a violation of privacy or other laws, expose us to a risk of litigation, cause us to incur direct losses if attackers access our actuarial and other models, bank or investment accounts. Any breach in our information systems could result in interruptions to our operations and damage to our reputation, and the misappropriation of confidential information could result in regulatory enforcement actions, substantial fines and penalties, litigation or other liability or actions which could have a material adverse effect on our business, cash flows, financial condition and results of operations. Any interruption to the use or access of our information systems at critical points in time could adversely affect the timely and efficient operation of our business. Any delay in our business growth, significant costs or lost policyholders resulting from such information technology failures could adversely affect our business, operations and financial results.

The cost and operational consequences of implementing additional data protection measures either as a response to specific breaches or as a result of evolving changes in technology or risks, could be significant and negatively affect our business.

***The development and implementation of new technologies will require an additional investment of our capital resources in the future.***

Frequent technological changes, new products and services and evolving industry standards are all influencing the insurance business. We believe that the development and implementation of new technologies will require additional investment of our capital resources in the future. We have not determined, however, the amount of resources and the time that this development and implementation may require, which may result in short-term, unexpected interruptions to our business, or may result in a competitive disadvantage in price and/or efficiency, as we endeavor to develop or implement new technologies.

***We do not have significant redundancy in our operations.***

Despite system redundancy, our security measures and disaster recovery plan for our internal information technology may not be effective. Our systems are vulnerable to damage from a number of sources, including energy blackouts, natural disasters and other catastrophic events, terrorism, war, telecommunication failures and malicious software programs or cyber security attacks. We conduct our business primarily from offices located in Florida, Hawaii, and Rhode Island where catastrophic weather events could damage our facilities or interrupt our power supply. The loss or significant impairment of functionality in these facilities for any reason could have a material adverse effect on our business, as we do not have significant redundancies to replace our facilities if functionality is impaired. We contract with a third-party vendor to maintain complete daily backups of our systems; however, we have not fully tested our plan to recover data in the event of a disaster.

Furthermore, our disaster recovery and business continuity plans involve arrangements with our off-site, secure data centers. In the event of a catastrophic weather event or cyber security attack, we cannot assure that we will be able to access our systems from these facilities in the event that our primary systems are unavailable. While we have established infrastructure and geographic redundancy for our critical systems, our ability to utilize these redundant systems requires further testing and we cannot be assured that such systems are fully functional.

***We are dependent on our executives, key employees and the ability to hire and retain a qualified workforce.***

Our future success depends on the efforts of our leadership team and workforce.

If any other member of senior management dies or becomes incapacitated, or leaves the company to pursue employment opportunities elsewhere, we would be solely responsible for locating an adequate replacement for such senior management and for bearing any related cost. To the extent that we are unable to locate an adequate replacement or are unable to do so within a reasonable period of time, our business may be significantly and negatively affected.

Additionally, our future success is also based on our ability to develop the talent and skills of our human resources and attract and retain experienced and qualified employees. For example, if the quality of our underwriters, claims or other personnel decreases, we may be unable to maintain our current competitive position in the specialized markets in which we operate, which could adversely affect our results. There is strong competition within the insurance industry and from businesses outside the insurance industry for qualified employees. The unexpected loss of key employees in any of our could have a material adverse impact on our business because of the loss of such skills, knowledge of our products and years of industry experience.

**Item 1B. Unresolved Staff Comments**

None

**Item 2. Properties**

The following is a summary of our offices and locations:

| Location | Business Use | Square Footage | Lease Expiration Dates |
|---|---|---|---|
| Tampa, Florida | Corporate Headquarters | 89,000 | Leased |
| Honolulu, Hawaii | Insurance Company HI, Operations | 4,405 | Leased |
| Clearwater, Florida | Property occupied by unaffiliated tenant | 75,736 | Company owned |
| Johnston, Rhode Island | Insurance Company NE, Operations | 28,098 | Leased |

Approximately 96% of the building in Clearwater is leased to unaffiliated tenants. We believe that these properties are suitable and adequate to meet the needs of our business.

**Item 3. Legal Proceedings**

We are subject to routine legal proceedings in the ordinary course of business. We believe that the ultimate resolution of these matters will not have a material adverse effect on our business, financial condition or results of operations.

**Item 4. Mine Safety Disclosures**

Not applicable

## PART II

### Item 5. Market For Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

*Common Stock*

Our common stock is listed on the New York Stock Exchange ("NYSE") under the symbol "HRTG". As of March 3, 2023, we had 25,558,751 shares of common stock outstanding, including 622,011 shares of restricted stock for which restrictions have not lapsed.

*Holders of Record*

As of March 3, 2023, there were 48 holders of record of our common stock.

*Dividends*

While we have historically declared quarterly dividends, our board of directors did not declare a dividend for the second, third or fourth quarters of 2022. The declaration and payment of dividends will continue to be at the discretion of our board of directors and will depend on our profits, financial requirements and other factors, such as restrictions under our credit facilities, which limit our ability to pay dividends, and other legal and regulatory restrictions on the payment of dividends, our overall business condition and other elements our board of directors considers relevant. Refer to Note 22 "*Equity"* to our consolidated financial statements under Item 8 of this Annual Report on Form 10-K.

*Stock Repurchase Program*

During the three months ended December 31, 2022, we purchased 341,075 shares of common stock for an aggregate of $625,000 under our stock repurchase program. In addition, we acquired 18,422 shares of common stock for a total cost of $35,739 during the quarter ended December 31, 2022 that were not part of the publicly announced stock repurchase program authorization. These shares were delivered to the Company by employees to satisfy tax withholding obligations with the vesting of restricted stock awards.

A summary of our common stock repurchases during the quarter ended December 31, 2022, is set forth in the table below (in thousands, except shares and price per share):

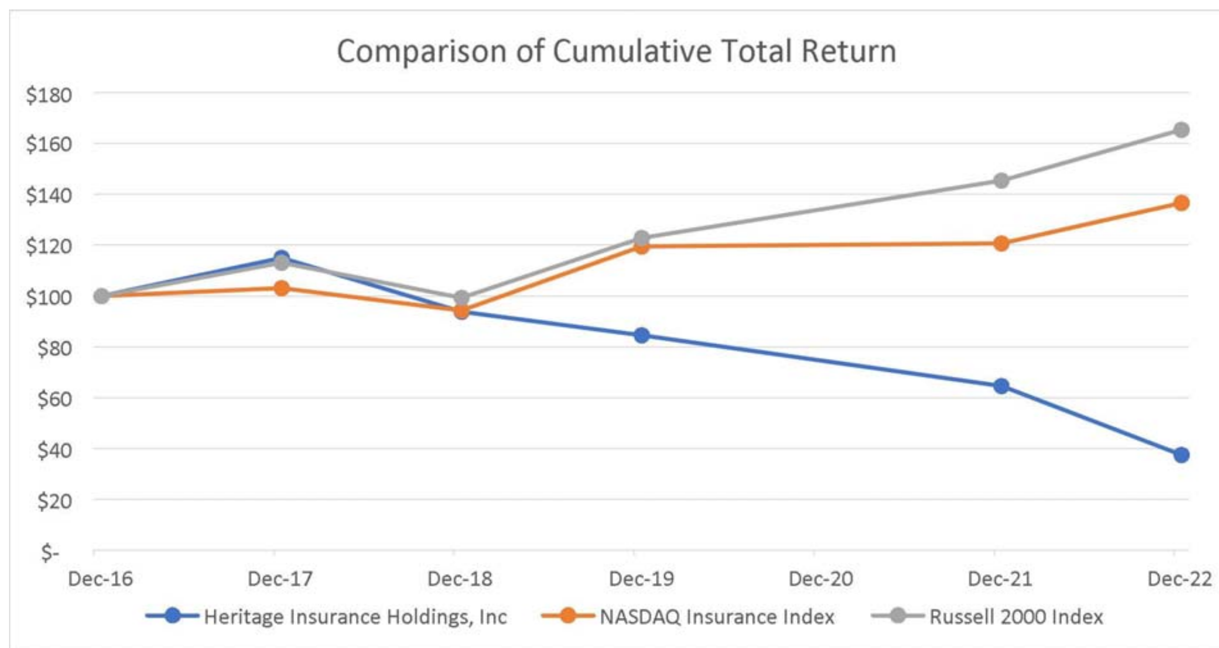
| Period | *Total Number of Shares Purchased* | *Average Price Paid Per Share* [(1)] | *Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs* | *Dollar Value of Shares that May Yet be Purchased Under the Plans or Programs* [(2)] |
|---|---|---|---|---|
| October 1 - October 31, 2022 | 47,540 | $ 2.40 | 47,540 | $ 18,127 |
| November 1 - November 30, 2022 | — | — | — | $ 18,127 |
| December 1 - December 31, 2022 | 311,957 | $ 1.70 | 293,535 | $ 10,000 |
| Total | 359,497 | | 341,075 | |

(1) Represents the balance before commission and fees at the end of each period.

(2) The reported repurchases were made under the prior $25.0 million repurchase plan, which expired on December 31, 2022. Effective December 31, 2022, the Board of Directors established a new share repurchase program. The new share repurchase program, which commenced upon the expiration of the prior repurchase share plan, allows the Company to repurchase up to an aggregate of $10.0 million of Common Stock, through open market repurchases in compliance with Rule 10b-18 under the Exchange Act, and/or in privately negotiated transactions at management's discretion based on market and business conditions, applicable legal requirements, and other factors, in such manner as will comply with the terms of applicable federal and state securities laws and regulations, at any time or from time to time on or prior to December 31, 2023.

*Stock Performance Graph*

The following five year graph and table compare the cumulative total stockholder return of our common stock over the period from December 31, 2016 through 2022, assuming an initial investment of $100 and reinvestment of dividends with the performance among Heritage, NASDAQ Insurance Index and Russell 2000 Index. We are a component of the Russell 2000 index and it provides a small and mid-cap benchmark index. The NASDAQ Insurance Index consists of all publicly traded insurance underwriters in the property and casualty sector in the United States.



| | Dec-16 | Dec-17 | Dec-18 | Dec-19 | Dec-21 | Dec-22 |
|---|---|---|---|---|---|---|
| Heritage Insurance Holdings, Inc | $ 100 | $ 115 | $ 94 | $ 85 | $ 65 | $ 38 |
| NASDAQ Insurance Index | $ 100 | $ 103 | $ 94 | $ 120 | $ 121 | $ 137 |
| Russell 2000 Index | $ 100 | $ 113 | $ 99 | $ 123 | $ 146 | $ 165 |

**Item 6. [Reserved]**

## Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Overview

We are a super-regional property and casualty insurance holding company that primarily provides personal and commercial residential insurance products across our multi-state footprint. We provide personal residential insurance in Alabama, California, Connecticut, Delaware, Florida, Georgia, Hawaii, Maryland, Massachusetts, Mississippi, New Jersey, New York, North Carolina, Rhode Island, South Carolina, and Virginia and commercial residential insurance in Florida, New Jersey, and New York. We provide personal residential insurance in Florida on both an admitted and non-admitted basis and in California on a non-admitted basis. As a vertically integrated insurer, we control or manage substantially all aspects of risk management, underwriting, claims processing and adjusting, actuarial rate making and reserving, customer service, and distribution. Our financial strength ratings are important to us in establishing our competitive position and can impact our ability to write policies.

### Trends

*Inflation, Underwriting and Pricing*

We continue to address rising reinsurance and loss costs in the property insurance sector through continued implementation of increased rates and inflation guard factors resulting in an increase in the average premium per policy of 18.1% for the year ended December 31, 2022 as compared to the prior year 2021. New rates, which are subject to approval by our regulators, become effective when a policy is written or renewed, and the premium is earned pro rata over the policy period of one year. As a result of this timing, it can take up to twenty-four months for the complete impact of a rate change to be fully earned in our financial statements. For that reason, we account for inflation in our rate indications and filings with our regulators.

We invest in data analytics, using software and experienced personnel, to continuously evaluate our underwriting criteria and manage exposure to catastrophe and other losses. Our retention has remained steadily in the range of 90% despite the rate increases we have implemented, in large part due to a challenging property insurance market in many of the regions in which we operate. Weather losses and a higher cost of reinsurance have impacted these markets. While we believe our rates are generally competitive with private market insurers operating in our space, we are focused on managing exposure and achieving rate adequacy throughout our book of business.

We continue to experience rising inflation in the form of increased labor and material costs, which drive up claim costs throughout all states in which we conduct business. Our Florida personal lines market is also seeing claim costs impacted by litigated claims, which substantially increases loss costs thereby driving up rates for the insurance buying public. Our response to this phenomenon is a combination of raising rates and reducing exposure. Claims abuse has extended throughout much of Florida, generated from assignment of benefits, excessive roof claims, and unwarranted litigated claims which far exceeds levels experienced in other states. Correspondingly, our exposure reduction plan expanded to personal lines business throughout the state of Florida.

Our industry experienced higher reinsurance costs and more constrained availability for catastrophe excess of loss reinsurance in the Spring 2022 renewals. We anticipate continued cost increases and availability constraints for the 2023 renewal season. As described herein, we are carefully managing exposure by reducing new business written in certain geographies, non-renewing unprofitable business in compliance with regulatory requirements, increasing rates, where permitted by regulators, and narrowing our underwriting requirements.

While we see improvement in the geographic distribution of our business, which is becoming more rate adequate, our Florida loss costs have continued to increase from a combination of adverse weather and exacerbation of losses on weather and other claims resulting from the litigated claims environment.

Recent legislative changes have been made in Florida in each of the last three years, which we believe is making some progress toward reducing losses from abusive claim reporting practices.

The special legislative session of December 2022 included a number of additional provisions aimed at driving down claims abuses and stabilizing the Florida property insurance market. We plan to evaluate the impact of this legislation before growing exposures in the Florida personal lines market.

The table below provides policy count, premiums-in-force, and TIV for Florida and all other states. Our goal is to reduce exposure in Florida given historical abusive claims practices. Florida policies-in-force and TIV have each declined from the prior year but premiums in force increased as a result of rate actions taken. For markets outside of Florida, the premiums-in-force increased while the policy count decreased due to rate actions taken.

| | At December 31, | | |
|---|---|---|---|
| **Policies in force:** | ***2022*** | ***2021*** | ***% Change*** |
| Florida | 182,673 | 215,074 | (15.1 ) % |
| Other States | 347,234 | 356,242 | (2.5 ) % |
| **Total** | **529,907** | **571,318** | (7.2 ) % |
| | | | |
| **Premiums in force:** | | | |
| Florida | $ 599,596,526 | $ 560,431,244 | 7.0 % |
| Other States | 684,469,189 | 611,972,698 | 11.8 % |
| **Total** | $ **1,284,065,715** | $ **1,172,103,942** | 9.6 % |
| | | | |
| **Total Insured Value:** | | | |
| Florida | $ 103,752,777,168 | $ 107,144,880,580 | (3.2 ) % |
| Other States | 306,070,446,229 | 290,830,572,887 | 5.2 % |
| **Total** | $ **409,823,223,397** | **$ 397,975,453,467** | 3.0 % |

**Strategic Profitability Initiatives**

The following provides an update to our strategic initiatives that we expect will enable us to achieve consistent long-term quarterly earnings and drive shareholder value.

- **Generate underwriting profit though rate adequacy and more selective underwriting.**
  - Significant rating actions throughout the book of business resulting in an increase in average premium per policy of 18.1% over fourth quarter 2021 and 5.6% over third quarter 2022.
  - Premiums-in-force of $1.3 billion are up 9.6% from fourth quarter 2021 while policy count is down 7.2% through more selective underwriting.
  - Continued focus on timely rate actions, tightening underwriting criteria, and expanding restrictions on new business written in over-concentrated markets or products.
- **Optimize capital allocation toward products and geographies that maximize long-term returns.**
  - Increased commercial residential premium by 41.1% year over year while TIV only increased 21.5% and policies in force increased by only 0.4%.
  - Reduced policy count for Florida personal lines business by 16.2% as compared fourth quarter 2021. The disciplined underwriting and rating actions have reduced Florida personal lines TIV by 11.1% while reducing premiums in force by only 1.9%.
  - This disciplined underwriting approach resulted in a policy count reduction of 2.5% in other states while generating a 11.9% increase in premiums in force.
- **Improve portfolio diversity.**
  - No state represents over 26% of the Company's TIV.
  - The top four states grew TIV by an average 2.2% while the smallest five states grew by 56.7%.
  - As a result of diversification efforts, the top five personal lines states represented 79.2% of all TIV at fourth quarter 2022 compared to 79.8% of all TIV at fourth quarter 2021.
- **Provide coverages suitable to the market and return targets.**
  - Offering Excess & Surplus lines ("E&S") policies in California and Florida.
  - Expanding E&S to South Carolina during second quarter of 2023.
  - Continue to evaluate other states for E&S and other products.

**Key Components of our Results of Operations**

**Revenue**

*Gross premiums written* represent, with respect to a period, the sum of direct premiums written (premiums from policies written during the period, net of any midterm cancellations and renewals of voluntary policies) and assumed premiums written (primarily premiums from state fair plan policies), in each case prior to ceding premiums to reinsurers.

*Gross premiums earned* represent the total premiums earned during a period from policies written. Premiums associated with new and renewal policies are earned ratably over the twelve-month term of the policy and premiums associated with assumed policies are earned ratably over the remaining term of the policy.

*Ceded premiums* represent the cost of our reinsurance during a period. We recognize the cost of our reinsurance program ratably over term of the arrangement, which is typically twelve months. Our catastrophe excess of loss reinsurance generally incepts June 1 and runs through May 31 of the following year. Our net quota share treaty incepts December 31. Our other reinsurance programs may be purchased on a calendar or fiscal year basis.

*Net premiums earned* reflect gross premiums earned less ceded premiums during the period.

*Net investment income* represents interest earned on fixed maturity securities, short term securities and other investments, dividends on equity securities.

*Net realized and unrealized gains or losses* represent gains or losses on investment sales and unrealized gains or losses on equity securities.

*Other revenue* includes rental income due under non-cancelable leases for space at the Company's commercial property in Clearwater, Florida, and all policy and pay-plan fees. Our regulators have approved a policy fee on each policy written for certain states; to the extent these fees are not subject to refund, the Company recognizes the income immediately when collected. The Company also charges pay-plan fees to policyholders that pay premiums in more than one installment and record the fees as income when collected.

**Expenses**

*Losses and loss adjustment expenses ("LAE")* reflect losses paid, expenses paid to resolve claims, such as fees paid to adjusters, attorneys and investigators, and changes in our reserves for unpaid losses and loss adjustment expenses during the period, in each case net of losses ceded to reinsurers. Our reserves for unpaid losses and loss adjustment expenses represent the estimated ultimate cost of resolving all reported claims plus all losses we incurred related to insured events that we assume have occurred as of the reporting date, but that policyholders have not yet reported to us (which are commonly referred to as incurred but not reported, or "IBNR"). We estimate our reserves for unpaid losses using individual case-based estimates for reported claims and actuarial estimates for IBNR losses. We continually review and adjust our estimated losses as necessary based on our evolving claims experience, new information obtained and industry development trends. If our unpaid losses and loss adjustment expenses are considered deficient or redundant, we increase or decrease the liability in the period in which we identify the difference and reflect the change in our current period results of operations.

*Policy acquisition costs ("PAC")* consist of: (i) commissions paid to outside agents at the time of policy issuance, (ii) policy administration fees paid to a third-party administrator at the time of policy issuance, (iii) premium taxes and (iv) inspection fees. We recognize policy acquisition costs ratably over the term of the underlying policy. We earn ceding commissions on our net quota share reinsurance contract and certain other reinsurance contracts, which are reported as a reduction to policy acquisition costs and general and administrative expenses based upon the proportion these costs bear to production of new business. Refer to Note 11 "*Deferred Policy Acquisition Costs"* to our consolidated financial statements under Item 8 of this Annual Report on Form 10K. Ceding commission income is deferred and earned over the contract period. The amount and rate of ceding commissions earned on the net quota share contract can slide within a prescribed minimum and maximum, depending on loss performance and how future losses develop.

*General and administrative expenses ("G&A")* include compensation and related benefits, professional fees, office lease and related expenses, information system expenses, corporate insurance, and other general and administrative costs. As noted above, a certain portion of our ceding commissions are allocated to general and administrative expenses.

*Provision for income taxes* consists of federal and state corporate level income taxes. The effective tax rate can fluctuate throughout the year as estimates used in the quarterly tax provision are updated with additional information throughout the year. The effective tax rate can vary from the 26.5% statutory federal and state blended rate depending on the amount of pretax income in proportion to permanent tax differences as well as state tax apportionment. The 2022 and 2021 effective tax rates were adversely impacted by the mostly non-deductible goodwill impairment reported of $92.0 million and $60.5 million, respectively. At December 31, 2022, the Company recognized a valuation allowance of $6.4 million against the net deferred tax asset generated at its foreign domiciled captive reinsurer, Osprey Re. The Company can only realize those net deferred tax assets to the extent Osprey Re generates future taxable income.

**Ratios**

*Ceded premium ratio* represents ceded premiums earned as a percentage of gross premiums earned.

*Net loss ratio* represents net losses and LAE as a percentage of net premiums earned.

*Net expense ratio* represents PAC and G&A expenses as a percentage of net premiums earned. Ceding commission income is reported as a reduction of policy acquisition costs and G&A expenses.

*Net combined ratio* represents the sum of the net loss and expense ratio. The net combined ratio is a key measure of underwriting performance traditionally used in the property and casualty insurance industry. A net combined ratio under 100% generally reflects profitable underwriting results.

## Recent Developments

**Economic and Market Factors**

We continue to monitor the effects of general changes in economic and market conditions on our business. As a result of general supply chain disruptions and inflationary pressures, we have experienced, and may continue to experience, increased cost of materials and labor needed for repairs and to otherwise remediate claims.

**Goodwill impairment Charge**

We evaluate goodwill and other intangible assets for impairment annually, or whenever events or changes in circumstances indicate that it is likely that the carrying amount of goodwill and other intangible assets may exceed the implied fair value. Any impairment is charged to operations in the period that the impairment is identified. The evaluation of goodwill impairment requires considerable management judgment and includes a review of a variety of factors as described in Note 3, *Goodwill and Other Intangible assets* to our consolidated financial statements. Any adverse change in those factors could have a significant impact on the recoverability of goodwill and a material impact on our financial results. During the second quarter of 2022, we concluded it was appropriate to perform an interim evaluation of goodwill for potential impairment given a variety of market trends. As a result of the analysis, management determined the entire amount of remaining goodwill was impaired, which reduced our carrying value of goodwill from $92.0 million to $0 based on the following factors: (i) disruptions in the equity markets, specifically for property and casualty insurance companies, largely due to recent weather-related catastrophe events; (ii) elevated loss ratios for property insurers in our markets; and (iii) trading of our stock below book value. These factors reduced our previously modeled fair value of the Company and resulted in a $92.0 million non-cash goodwill impairment charge, most of which is not tax deductible.

**Overview of 2022 Financial Results**

In the following section, we discuss our financial condition and results of operations for the year ended December 31, 2022 compared to the year ended December 31, 2021. For a discussion of the year ended December 31, 2021 compared to the year ended December 31, 2020, please Refer to Part II, Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2021, which was filed with the SEC on March 14, 2022.

The discussion of our financial condition and results of operations that follows provides information that will assist the reader in understanding our consolidated financial statements, the changes in certain key items in those financial statements from year to year, including certain key performance indicators such as net combined ratio, ceded premium ratio, net expense ratio and net loss ratio, and the primary factors that accounted for those changes, as well as how certain accounting principles, policies and estimates affect our consolidated financial statements. This discussion should be read in conjunction with our consolidated financial statements and the related notes included under Part II, Item 8 of this Annual Report on Form 10-K.

- Net loss for the year ended December 31, 2022 was $154.4 million or $5.86 per diluted share, compared to a net loss of $74.7 million or $2.69 per diluted share in the prior year, with the increase stemming from a $90.8 million, net of income tax, non-cash goodwill impairment charge in the second quarter contributing a $3.45 loss per share, compared to a $60.5

million, non-cash goodwill impairment charged reported in the fourth quarter of 2021 contributing a $2.18 loss per share; combined with higher losses and loss adjustments expenses incurred for the year ended December 31, 2022, which included net losses associated with Hurricanes Ian and Nicole. In addition, the Company recorded a $6.4 million valuation allowance against our net deferred tax asset related to certain tax elections made by Osprey Re, our captive reinsurer domiciled in Bermuda. The total amount of these expenses exceeded the increase in total revenue as described below.

- Gross premiums written of $1.3 billion, up 9.5% from $1.2 billion in the prior year, driven primarily by rate actions taken in all states with a policy count reduction of 7.2% driven substantially by a reduction in the number of Florida personal lines policies. Rate increases continued to meaningfully benefit written premiums throughout the book of business.
- Gross premiums earned of $1.2 billion, up 5.7% from $1.1 billion in the prior year, reflecting higher gross premiums written over the last twelve months driven by a higher average premium per policy.
- Net premiums earned of $637.1 million, up 4.3% from $611.1 million in the prior year, reflecting the higher gross earned premium outpacing the increase in ceded premiums for the year.
- Losses and loss adjustment expenses incurred of $501.2 million, up 17.3% from $427.4 million in the prior year. The increase primarily stems from retained losses from Hurricanes Ian and Nicole in 2022 as well as an increase in attritional losses. Additionally, we experienced $3.7 million of adverse prior year development compared to $3.5 million of favorable prior year development in the prior year.
- Ceded premium ratio of 47.3%, up 0.7 points from 46.6% in the prior year driven by a higher cost of the 2022-2023 catastrophe excess of loss program, stemming primarily from higher costs, which was partly offset by a higher cost for severe convective storm coverage in 2021 which did not recur in 2022. The ceded premium ratio change was dampened by the increase in gross premiums earned which exceeded the increase in the cost of the reinsurance program.
- Net loss ratio of 78.7%, 8.8 points higher than the prior year of 69.9%, driven by higher losses incurred and higher ceded premium as described above.
- Net expense ratio of 35.6%, up 0.9 points from the prior year amount of 34.7%, driven by a higher ceded premium ratio as described above, as well as higher policy acquisition associated with the increase in gross premiums written.
- Net combined ratio of 114.3%, up 9.7 points from 104.6% in the prior year, driven by higher net loss and net expense ratios as described above.
- Effective tax rate was 7.1% compared to 1.7% in the prior year. The effective tax rate for 2022 was significantly lower than the statutory rate due to a non-cash, mostly tax non-deductible goodwill impairment of $92.0 million recorded in the second quarter as well as a $6.4 million valuation allowance against our Osprey Re net deferred tax assets whose utilization may be limited under the Internal Revenue Code. The effective tax rate for 2021 was lower than the statutory rate primarily due to a mostly non-deductible non-cash goodwill impairment of $60.5 million. The effective tax rate can also vary driven by the impact of permanent differences in relation to the pre-tax income or loss each year.

***Consolidated Results of Operations***

The following table summarizes our results of operations for the years indicated:

| | Year Ended December 31, | | | |
|---|---|---|---|---|
| | *2022* | *2021* | *$ Change* | *% Change* |
| | *(in thousands, expect per share amounts)* | | | |
| **REVENUE:** | | | | |
| Gross premiums written | $ 1,275,031 | $ 1,164,879 | $ 110,152 | 9.5 % |
| Change in gross unearned premiums | (66,207 ) | (20,717 ) | (45,490 ) | 219.6 % |
| Gross premiums earned | 1,208,824 | 1,144,162 | 64,662 | 5.7 % |
| Ceded premiums | (571,759 ) | (533,091 ) | (38,668 ) | 7.3 % |
| Net premiums earned | 637,065 | 611,071 | 25,994 | 4.3 % |

| **Net loss** | $ (154,362 ) | $ (74,727 ) | $ (79,635 ) | 106.6 % |
| Basic net loss per share | $ (5.86 ) | $ (2.69 ) | $ (3.17 ) | 118.0 % |
| Diluted net loss per share | $ (5.86 ) | $ (2.69 ) | $ (3.17 ) | 118.0 % |

***NM – not meaningful***

Total revenue

Total revenue was $662.5 million for the year ended December 31, 2022, up 4.9% compared to $631.6 million in the prior year. The increase primarily stems from higher net premiums earned and investment income partly offset by a reduction in policy fee income, as described below.

Gross premiums written

Gross premiums written of $1.3 billion, up 9.5% year-over-year from $1.2 billion. We experienced premiums written growth of 12.1% outside Florida and 7.1% in Florida. Growth throughout our book of business was largely driven by rate increases resulting in a higher average premium per policy. Premiums-in-force were $1.3 billion as of December 31, 2022, representing a 9.6% increase from the prior year due to continued proactive underwriting and rate actions despite a reduction in policy count reduction of approximately 40,000. The reduction in policies-in-force from the fourth quarter of 2021 reflects our intentional exposure management initiatives.

Gross premiums earned

Gross premiums earned were $1.2 billion for the year ended December 31, 2022, up 5.7% compared to $1.1 billion in the prior year. The increase in gross premiums earned reflects higher gross premiums written over the last twelve months driven by rate increases, which resulted in higher average premium per policy, as described above.

Ceded premiums

Ceded premiums were $571.8 million for the year ended December 31, 2022, up 7.3% compared to $533.1 million in the prior year. The increase is primarily attributable to a higher cost of catastrophe excess of loss reinsurance coupled with higher ceded premiums for our quota share coverage due to the higher gross premiums written in the northeast, partly offset by a lower cost for our severe convective storm coverage from the prior year.

Net premiums earned

Net premiums earned were $637.1 million for the year ended December 31, 2022, up 4.3% compared to $611.1 million in the prior year. The increase primarily stems from higher gross premiums earned, partly offset by higher ceded premiums as described above.

Net investment income

Net investment income, inclusive of realized investment gains (losses) and unrealized gains (losses) on equity securities, was $11.7 million for the year ended December 31, 2022, up 109.0% compared to $5.6 million in the prior year. The increase stems from a higher interest rate environment in 2022 as compared to the prior year.

Other revenue

Other revenue was $13.7 million for the year ended December 31, 2022, down 7.9% compared to $14.9 million in the prior year. The decrease was driven largely by lower policy fee income as a result of the reduction in policy count in Florida.

| | *Year Ended December 31,* | | | |
|---|---|---|---|---|
| | *2022* | *2021* | *$ Change* | *% Change* |
| **OPERATING EXPENSES:** | | | | |
| Losses and loss adjustment expenses | $ 501,162 | $ 427,370 | $ 73,792 | 17.3 % |
| Policy acquisition costs | 156,304 | 145,968 | 10,335 | 7.1 % |
| General and administrative expenses | 70,396 | 65,787 | 4,610 | 7.0 % |
| Goodwill impairment | 91,959 | 60,500 | 31,459 | 52.0 % |
| Total operating expenses | $ 819,821 | $ 699,625 | $ 120,196 | 17.2 % |

Total operating expenses

Total operating expenses were $819.8 million, or 17.2% from $699.6 million in the prior year. As described below, the drivers included the increase in losses and loss adjustment expenses, an increase in acquisition costs, and additional goodwill impairment.

Losses and loss adjustment expenses (LAE)

Losses and LAE were $501.2 million for the year ended December 31, 2022, up 17.3% compared to $427.4 million in the prior year. The increase was driven primarily by more severe catastrophe weather activity in 2022 than in 2021. The remainder was driven by higher attritional losses, as well as unfavorable loss development of $3.7 million in 2022 compared to favorable loss development of $3.5 million in 2021.

Policy acquisition costs

Policy acquisition costs were $156.3 million for the year ended December 31, 2022, up 7.1% compared to $146.0 million in the prior year. Higher acquisition costs were driven by the increase in gross premiums written.

General and administrative expenses

General and administrative expenses were $70.4 million for the year ended December 31, 2022, up 7.0% compared to $65.8 million in the prior year. The increase is primarily attributable to higher human capital costs, mostly driven by employee benefits costs, as well as the non-recurrence of a $1.5 million state tax credit recorded in 2021.

Goodwill impairment

We evaluate goodwill and other intangible assets for impairment at least on an annual basis or whenever events or changes in circumstances indicate that it is more likely than not that the carrying amount of goodwill and other intangible assets may exceed their implied fair value. Goodwill is evaluated at the reporting unit level, for which we have one reporting unit level. Any impairment is charged to operations in the period that the impairment is identified. The Goodwill impairment evaluation includes a review of a variety of factors as described below, which require considerable management judgment. Any adverse change in these factors could have a significant impact on the recoverability of goodwill and could have a material impact on our consolidated financial statements.

As a result of our analysis for goodwill impairment, we impaired $60.5 million of goodwill in the fourth quarter of 2021 and impaired the entire amount of remaining goodwill in the second quarter of 2022, reducing our carrying value of goodwill from $92.0 million at December 31, 2021 to $0 at December 31, 2022. See the section titled "Goodwill Impairment Charge" above and Note 3 of the notes to our consolidated financial statements for more detail on our impairment of goodwill.

| | *Year Ended December 31,* | | | |
|---|---|---|---|---|
| | *2022* | *2021* | *$ Change* | *% Change* |
| **Operating income** | $ (157,361 ) | $ (68,064 ) | $ (89,296 ) | 131.2 % |
| Interest expense, net | 8,809 | 7,970 | 839 | 10.5 % |
| Loss before income taxes | (166,170 ) | (76,035 ) | (90,135 ) | 118.5 % |
| Benefit for income taxes | (11,807 ) | (1,307 ) | (10,500 ) | 803.4 % |
| **Net loss** | $ (154,362 ) | $ (74,727 ) | $ (79,635 ) | 106.6 % |
| Basic net (loss) income per share | $ (5.86 ) | $ (2.69 ) | $ (3.17 ) | 118.0 % |
| Diluted net (loss) income per share | $ (5.86 ) | $ (2.69 ) | $ (3.17 ) | 118.0 % |

Net loss

Net loss for the year ended December 31, 2022 was $154.4 million, up 106.6% from net loss of $74.7 million in the prior year. The increase primarily relates to a goodwill impairment charge as described in Note 3 to the consolidated financial statements coupled with higher catastrophe weather losses described above and a $6.4 million valuation allowance against our net deferred tax asset as described above, partly offset by higher total revenue as described above.

Interest expense, net

Interest expense was $8.8 million for the year ended December 31, 2022, above the prior year by 10.5% as a result of rising interest rates.

Benefit for income taxes

The benefit for income taxes was $11.8 million for the year ended December 31, 2022 compared to a benefit for income taxes of $1.3 million for the year ended December 31, 2021. The effective tax rate for the current year is 7.1% compared to 1.7% for the prior year. Our effective tax rate for both years was impacted by the non-deductible goodwill impairment of $92.0 million recognized during the second quarter of 2022 and $60.5 million during the fourth quarter of 2021. See further discussion of the goodwill impairment in the Note 3 of the Notes to our consolidated financial statements. The effective tax rate for the year ended December 31, 2022 was also impacted by a $6.4 million valuation allowance against our net deferred tax asset related to certain tax elections made by Osprey Re, our captive reinsurer domiciled in Bermuda, whose utilization may be limited under the Internal Revenue Code. Finally, the effective tax rate can fluctuate throughout the year as estimates used in the quarterly tax provision are updated with additional information throughout the year, including changes to pre-tax income and from the impact of permanent differences on pre-tax income or loss.

**Ratios**

| | *Year Ended December 31,* | |
|---|---|---|
| | ***2022*** | ***2021*** |
| Ceded premium ratio | 47.3 % | 46.6 % |
| | | |
| Net loss and LAE ratio | 78.7 % | 69.9 % |
| Net expense ratio | 35.6 % | 34.7 % |
| Net combined ratio | 114.3 % | 104.6 % |

Net combined ratio

The net combined ratio was 114.3% for the year ended December 31, 2022, up 9.7 points from 104.6% in the prior year. The increase stems primarily from a higher net loss and net expense ratios, described below.

Ceded premium ratio

The ceded premium ratio was 47.3% for the year ended December 31, 2022, up 0.7 points from 46.6% in the prior year. The increase primarily stems from ceded premium growth that was partly offset by growth in gross premiums earned as described above.

Net loss and LAE ratio

The net loss and LAE ratio was 78.7% for the year ended December 31, 2022, up 8.8 points from 69.9% in the prior year. The increase primarily relates to higher weather and attritional losses in the current year as a percentage of net premium earned, mostly driven by Hurricanes Ian and Nicole and $3.7 million of unfavorable prior year reserve development in 2022 compared to $3.5 million of favorable prior year reserve development in 2021, as a percentage of net premiums earned.

Net expense ratio

The net expense ratio was 35.6% for the year ended December 31, 2022, up 0.9 points from 34.7% in the prior year. The increase primarily stems from the impact of a higher ceded premium ratio as well as higher policy acquisition associated with the increase in gross premiums written.

***Liquidity and Capital Resources***

Our principal sources of liquidity include cash flows generated from operations, our cash, cash equivalents, our marketable securities balances and borrowings available under our credit facilities. As of December 31, 2022, we held $280.9 million in cash and cash equivalents and $653.6 million in investments, compared to $359.3 million and $694.7 million as of December 31, 2021. The decrease in cash and cash equivalents was primarily driven by payment of reinsurance premiums, claim payment, stock repurchases,

and payment of dividends. The decrease in investments was driven by higher unrealized losses on our fixed income securities caused by rising interest rates.

We generally hold substantial cash balances to meet seasonal liquidity needs including amounts to pay quarterly reinsurance installments as well as meet the collateral requirements of Osprey, our captive reinsurance company, which is required to maintain a collateral trust account equal to the risk that it assumes from our insurance company affiliates.

We believe that our sources of liquidity are adequate to meet our cash requirements for at least the next twelve months.

We may continue to pursue the acquisition of complementary businesses and make strategic investments. We may increase capital expenditures consistent with our investment plans and anticipated growth strategy. Cash and cash equivalents may not be sufficient to fund such expenditures. As such, in addition to the use of our existing Credit Facilities, we may need to utilize additional debt to secure funds for such purposes.

***Statement of Cash Flows***

The net increases (decreases) in cash and cash equivalents are summarized in the following table:

| | *For the Year Ended December 31,* | | | | |
|---|---|---|---|---|---|
| | ***2022*** | ***2021*** | ***2020*** | ***2022 vs 2021 Change*** | ***2021 vs 2020 Change*** |
| Net cash provided by (used in): | | | *(in thousands)* | | |
| Operating activities | $ (34,260) | $ 60,130 | $ 170,211 | $ (94,390) | $ (110,081) |
| Investing activities | (37,862) | (124,480) | 22,062 | 86,618 | (146,542) |
| Financing activities | (5,058) | (17,281) | (28,898) | 12,223 | 11,617 |
| Net change in cash, cash equivalents, and restricted cash | $ (77,180) | $ (81,631) | $ 163,376 | $ 4,451 | $ (245,006) |

Operating Activities

Net cash used in operating activities for the year ended December 31, 2022 was $34.3 million compared to net cash provided by of $60.1 million during the prior year. The decrease in cash from operating activities relates primarily to timing of cash flows associated with claim and reinsurance payments as well as reinsurance reimbursements during the year ended December 31, 2022 compared to the year ended December 31, 2021.

Investing Activities

Net cash used in investing activities for the year ended December 31, 2022 was $37.9 million compared to net cash used of $124.5 million in the prior year. The change in cash used in investing activities relates primarily to allocations of funds for investment in each period. Strategic sales of investments to yield realized gains in 2020 produced proceeds which were re-invested in 2021, driving up the cash used for investing activities for that period.

Financing Activities

Net cash used in financing activities for the year ended December 31, 2022 was $5.1 million, compared to net cash used of $17.3 million in the prior year. The decrease in cash used for financing activities was primarily driven by draws from our Revolving Credit Facility (defined below) totaling $35 million to purchase and retire $22.5 million of Convertible Notes and contribute capital to our captive reinsurer, Osprey Re.

***Credit Facilities***

The Company is party to a Credit Agreement by and among the Company, as borrower, certain subsidiaries of the Company from time to time party thereto as guarantors, the lenders from time to time party thereto (the “Lenders”), Regions Bank, as Administrative Agent and Collateral Agent, BMO Harris Bank N.A., as Syndication Agent, Hancock Whitney Bank and Canadian Imperial Bank of Commerce, as Co-Documentation Agents, and Regions Capital Markets and BMO Capital Markets Corp., as Joint Lead Arrangers and Joint Bookrunners (as amended from time to time, the “Credit Agreement”).

Based on the Company’s results for the third quarter of 2022, management considered it likely at that time that the Company would be out of compliance with certain financial covenants in the Credit Agreement. In order to avoid a covenant violation, on November 7, 2022, the Company and its subsidiary guarantors entered into an amendment to the Credit Agreement to, among other things, (i) decrease the Revolving Credit Facility commitments from $75 million to $50 million, (ii) establish a new $25 million Term Loan Facility (defined below) to refinance loans outstanding under the existing Revolving Credit Facility and to pay fees, costs and expenses related thereto, (iii) reduce, from $50 million to $25 million, the aggregate amount of potential future increases to the Revolving Credit Facility commitments and/or Term Loan Facility commitments, (iii) modify the amortization of the existing term loan facility and new term loan facility to 10% per annum, paid quarterly, and (iv) increase the applicable margin for loans under the

Credit Agreement to a range from 2.75% to 3.25% per annum for SOFR loans (plus a 0.10% credit adjustment spread) and based on a leverage ratio (an increase from the prior range of 2.50% to 3.00%). The amendment also modified certain financial covenants in the Credit Agreement which may limit the Company's flexibility in connection with future financing transactions and in the allocation of capital in the future, including the Company's ability to pay dividends and make stock repurchases, and contribute capital to its insurance subsidiaries that are not parties to the Credit Agreement.

The Credit Agreement, as amended, provides for (1) a five-year senior secured term loan facility in an aggregate principal amount of $100 million (the "Term Loan Facility") and (2) a five-year senior secured revolving credit facility in an aggregate principal amount of $50 million (inclusive of a sublimit for the issuance of letters of credit equal to the unused amount of the revolving credit facility and a sublimit for swingline loans equal to the lesser of $25 million and the unused amount of the revolving credit facility) (the "Revolving Credit Facility" and together with the Term Loan Facility, the "Credit Facilities").

Term Loan Facility. The principal amount of the Term Loan Facility amortizes in quarterly installments, which began with the close of the fiscal quarter ending March 31, 2019, in an amount equal to $1.9 million per quarter, payable quarterly, decreasing to $875,000 per quarter commencing with the quarter ending December 31, 2021, and increasing to $2.4 million per quarter commencing with the quarter ending December 31, 2022, with the remaining balance payable at maturity. The Term Loan Facility matures on July 28, 2026. As of November 7, 2022, after giving effect to the additional term loan advance that was used to refinance amounts outstanding under the Revolving Credit Facility and to pay fees, costs and expenses related thereto, there was $73.9 million in aggregate principal outstanding under the Term Loan Facility. As of December 31, 2022, there was $89.1 million in aggregate principal outstanding under the Term Loan Facility.

Revolving Credit Facility. The Revolving Credit Facility allows for borrowings of up to $50 million inclusive of a sublimit for the issuance of letters of credit equal to the unused amount of the Revolving Credit Facility and a sublimit for swingline loans equal to the lesser of $25 million and the unused amount of the Revolving Credit Facility. As of September 30, 2022, we had $25.0 million in borrowings and a $22.6 million letters of credit outstanding under the Revolving Credit Facility. In connection with the incurrence of additional amounts under the Term Loan Facility pursuant to the amendment, the borrowings under the Revolving Credit Facility were repaid in full. On December 23, 2022, the Company borrowed $10.0 million under the Revolving Credit facility. At December 31, 2022, the Company had unused letters of credit totaling $32.6 million.

At our option, borrowings under the Credit Facilities bear interest at rates equal to either (1) a rate determined by reference to SOFR, plus an applicable margin (described below) and a credit adjustment spread equal to 0.10% or (2) a base rate determined by reference to the highest of (a) the "prime rate" of Regions Bank, (b) the federal funds rate plus 0.50%, and (c) the adjusted term SOFR in effect on such day for an interest period of one month plus 1.00%, plus an applicable margin (described below).

The applicable margin for loans under the Credit Facilities varies from 2.75% per annum to 3.25% per annum (for SOFR loans) and 1.75% to 2.25% per annum (for base rate loans) based on our consolidated leverage ratio ranging from 1.25-to-1 to greater than 2.25-to-1. Interest payments with respect to the Credit Facilities are required either on a quarterly basis (for base rate loans) or at the end of each interest period (for SOFR loans) or, if the duration of the applicable interest period exceeds three months, then every three months. As of December 31, 2022, the borrowings under the Term Loan Facility and Revolving Credit Facility accruing interest at a rate of 7.32% and 7.42% per annum, respectively.

In addition to paying interest on outstanding borrowings under the Revolving Credit Facility, we are required to pay a quarterly commitment fee based on the unused portion of the Revolving Credit Facility, which is determined by our consolidated leverage ratio.

We may prepay the loans under the Credit Facilities, in whole or in part, at any time without premium or penalty, subject to certain conditions including minimum amounts and reimbursement of certain costs in the case of prepayments of SOFR loans. In addition, we are required to prepay the loan under the Term Loan Facility with the proceeds from certain financing transactions, involuntary dispositions or asset sales (subject, in the case of asset sales, to reinvestment rights).

All obligations under the Credit Facilities are or will be guaranteed by each existing and future direct and indirect wholly owned domestic subsidiary of the Company, other than all of the Company's current and future regulated insurance subsidiaries (collectively, the "Guarantors").

The Company and the Guarantors are party to a Pledge and Security Agreement, (as amended from time to time the "Security Agreement"), in favor of Regions Bank, as collateral agent. Pursuant to the Security Agreement, amounts borrowed under the Credit Facilities are secured on a first priority basis by a perfected security interest in substantially all of the present and future assets of the Company and each Guarantor (subject to certain exceptions), including all of the capital stock of the Company's domestic subsidiaries, other than its regulated insurance subsidiaries.

The Credit Agreement contains, among other things, covenants, representations and warranties and events of default customary for facilities of this type. The Company is required to maintain, as of each fiscal quarter (1) a maximum consolidated leverage ratio of 2.50 to 1.00, stepping down to 2.25 to 1.00 as of the second quarter of 2024 and 2.00 to 1.00 as of the second quarter of 2025, (2) a minimum consolidated fixed charge coverage ratio of 1.20 to 1.00 and (3) a minimum consolidated net worth for the Company and its subsidiaries, which is required to be not less than $100 million plus 50% of positive quarterly net income (including its subsidiaries

and regulated subsidiaries) plus the net cash proceeds of any equity transactions. Events of default include, among other events, (i) nonpayment of principal, interest, fees or other amounts; (ii) failure to perform or observe certain covenants set forth in the Credit Agreement; (iii) breach of any representation or warranty; (iv) cross-default to other indebtedness; (v) bankruptcy and insolvency defaults; (vi) monetary judgment defaults and material nonmonetary judgment defaults; (vii) customary ERISA defaults; (viii) a change of control of the Company; and (ix) failure to maintain specified catastrophe retentions in each of the Company's regulated insurance subsidiaries.

***Convertible Notes***

On August 10, 2017, the Company and Heritage MGA, LLC (the "Notes Guarantor") entered into a purchase agreement (the "Purchase Agreement") with Citigroup Global Markets Inc., as the initial purchaser (the "Initial Purchaser"), pursuant to which the Company agreed to issue and sell, and the Initial Purchaser agreed to purchase, $125.0 million aggregate principal amount of the Company's 5.875% Convertible Senior Notes due 2037 (the "Convertible Notes") in a private placement transaction pursuant to Rule 144A under the Securities Act, as amended (the "Securities Act"). The Purchase Agreement contained customary representations, warranties and agreements of the Company and the Notes Guarantor and customary conditions to closing, indemnification rights and obligations of the parties and termination provisions. The net proceeds from the offering of the Convertible Notes, after deducting discounts and commissions and estimated offering expenses payable by the Company, were approximately $120.5 million. The offering of the Convertible Notes was completed on August 16, 2017.

The Company issued the Convertible Notes under an Indenture (the "Convertible Note Indenture"), dated August 16, 2017, by and among the Company, as issuer, the Notes Guarantor, as guarantor, and Wilmington Trust, National Association, as trustee (the "Trustee").

The Convertible Notes bear interest at a rate of 5.875% per year. Interest is payable semi-annually in arrears, on February 1 and August 1 of each year. The Convertible Notes are senior unsecured obligations of the Company that rank senior in right of payment to the Company's future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to the Company's unsecured indebtedness that is not so subordinated; effectively junior to any of the Company's secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all indebtedness or other liabilities incurred by the Company's subsidiaries other than the Notes Guarantor, which fully and unconditionally guarantee the Convertible Notes on a senior unsecured basis.

The Convertible Notes mature on August 1, 2037, unless earlier repurchased, redeemed or converted.

Holders may convert their Convertible Notes at any time prior to the close of business on the business day immediately preceding February 1, 2037, other than during the period from, and including, February 1, 2022 to the close of business on the second business day immediately preceding August 5, 2022, only under the following circumstances: (1) during any calendar quarter commencing after the calendar quarter ending on September 30, 2017, if the closing sale price of the Company's common stock, for at least 20 trading days (whether or not consecutive) in the period of 30 consecutive trading days ending on the last trading day of the calendar quarter immediately preceding the calendar quarter in which the conversion occurs, is more than 130% of the conversion price of the Convertible Notes in effect on each applicable trading day; (2) during the ten consecutive business-day period following any five consecutive trading-day period in which the trading price for the Convertible Notes for each such trading day was less than 98% of the closing sale price of the Company's common stock on such date multiplied by the then-current conversion rate; (3) if the Company calls any or all of the Convertible Notes for redemption, at any time prior to the close of business on the second business day immediately preceding the redemption date; or (4) upon the occurrence of specified corporate events.

During the period from and including February 1, 2022 to the close of business on the second business day immediately preceding August 5, 2022, and on or after February 1, 2037 until the close of business on the second business day immediately preceding August 1, 2037, holders may surrender their Convertible Notes for conversion at any time, regardless of the foregoing circumstances.

The conversion rate for the Convertible Notes was initially 67.0264 shares of common stock per $1,000 principal amount of Convertible Notes (equivalent to an initial conversion price of approximately $14.92 per share of common stock). The conversion rate is subject to adjustment in certain circumstances and is subject to increase for holders that elect to convert their Convertible Notes in connection with certain corporate transactions (but not, at the Company's election, a public acquirer change of control (as defined in the Convertible Note Indenture)) that occur prior to August 5, 2022.

Upon the occurrence of a fundamental change (as defined in the Convertible Note Indenture) (but not, at the Company's election, a public acquirer change of control (as defined in the Convertible Note Indenture), holders of the Convertible Notes may require the Company to repurchase for cash all or a portion of their Convertible Notes at a fundamental change repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest to, but excluding, the fundamental change repurchase date.

At any time prior to February 1, 2037, the Company may redeem for cash all or any portion of the Convertible Notes, at the Company's option, at a redemption price equal to 100% of the principal amount of the Convertible Notes to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date. No sinking fund is provided for the Convertible Notes, which means that the Company is not required to redeem or retire the Convertible Notes periodically. Holders of the Convertible Notes are able to cause the Company to repurchase their Convertible Notes for cash on any of August 1, 2022, August 1, 2027 and August 1, 2032, in each case at 100% of their principal amount, plus accrued and unpaid interest to, but excluding, the relevant repurchase date.

The Convertible Note Indenture contains customary terms and covenants and events of default. If an Event of Default (as defined in the Convertible Note Indenture) occurs and is continuing, the Trustee by notice to the Company, or the holders of at least 25% in aggregate principal amount of the Convertible Notes then outstanding by notice to the Company and the Trustee, may declare 100% of the principal of, and accrued and unpaid interest, if any, on, all the Convertible Notes to be immediately due and payable. In the case of certain events of bankruptcy, insolvency or reorganization (as set forth in the Convertible Note Indenture) with respect to the Company, 100% of the principal of, and accrued and unpaid interest, if any, on, the Convertible Notes automatically become immediately due and payable.

In January 2022, the Company repurchased $11.7 million principal amount of outstanding Convertible Notes. As of December 31, 2022, there was $885,000 principal amount of outstanding Convertible Notes, net of $21.1 million of Convertible Notes held by an insurance company subsidiary.

As discussed above, holders of the Convertible Notes issued by the Company had an optional put right, pursuant to the indenture governing the Convertible Notes, to require the Company to repurchase the aggregate principal amount of Convertible Notes that are validly tendered. The Company received notice from the Depositary for the Convertible Notes that, on July 29, 2022, $10.9 million aggregate principal amount of the Convertible Notes has been validly tendered in accordance with the terms of the indenture and the Company's notice with respect to the optional put right of the Convertible Notes, and the Company has requested that the Trustee cancel the Convertible Notes tendered. The outstanding balance as of December 31, 2022 of non-affiliated Notes was $885,000. On August 1, 2022, the Company made payments for the principal amount of the Convertible Notes tendered and unpaid interest in the aggregate amounts of $10.9 million and $320,041, respectively. The Company has drawn $10.0 million from the Revolving Credit Facility to replenish the cash used to pay the $10.9 million for the purchase of the tendered Convertible Notes.

### *FHLB Loan Agreements*

In December 2018, a subsidiary of the Company pledged U.S. government and agency fixed maturity securities with an estimated fair value of $24.3 million as collateral and received $19.2 million in a cash loan under an advance agreement with the FHLB Atlanta. The loan originated on December 12, 2018 and bears a fixed interest rate of 3.094% with interest payments due quarterly commencing in March 2019. The principal balance on the loan has a maturity date of December 13, 2023. In connection with the agreement, the subsidiary became a member of FHLB. Membership in the FHLB required an investment in FHLB's common stock which was purchased on December 31, 2018 and valued at $1.4 million. As of December 31, 2022, the common stock was valued at $1.5 million. The subsidiary is permitted to withdraw any portion of the pledged collateral over the minimum collateral requirement at any time, other than in the event of a default by the subsidiary. The proceeds from the loan were used to prepay the Company's Senior Secured Notes due 2023 in 2018.

### *Contractual Obligations and Commitments*

The following table summarizes our material contractual obligations and commitments as of December 31, 2022:

| Contractual Obligations and Commercial Commitments | Total | Less Than 1 Year | 1-3 Years | 3-5 Years | More than 5 - Years |
|---|---|---|---|---|---|
| | | | *(in thousands)* | | |
| Term loans, notes and interest [(1)] | $ 119,873 | $ 16,563 | $ 30,253 | 73,057 | $ — |
| Convertible debt [(1)] | 1,613 | 52 | 104 | 104 | 1,353 |
| Mortgage loan [(1)] | 17,783 | 893 | 1,786 | 1,786 | 13,318 |
| FHLB agreement [(1)] | 19,802 | 19,802 | — | — | — |
| Operating lease obligations | 36,898 | 4,678 | 9,301 | 9,360 | 13,559 |
| Total Contractual Obligations | $ 195,969 | $ 41,988 | $ 41,444 | $ 84,307 | $ 28,230 |

(1) Amounts represent principal and interest payments to debt obligations. Debt obligations are classified based on their stated maturity date. For further information on long-term debt, Refer to Note 14 "*Long Term Debt*" of the Notes to Consolidated Financial Statements included in Part II, Item 8 of this Annual Report on Form 10-K.

The expected timing of payments of the obligations in the preceding table is estimated based on current information. Timing of payments and actual amounts paid may be different due to changes to agreed-upon amounts for some obligations.

**Critical Accounting Policies and Estimates**

The following discussion and analysis presents the more significant factors that affected our financial conditions as of December 31, 2022 and 2021 and results of operations for each of the years then ended. The preparation of financial statements in conformity with accounting principles of generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. While we base estimates on historical experience, current information and other factors deemed to be relevant, actual results could differ from those estimates.

We consider accounting estimates to be critical to reported financial results if (i) the accounting estimate requires management to make assumptions about matters that are highly uncertain and (ii) different estimates that management reasonably could have used for the accounting estimates in the current period, or changes in the accounting estimate that are reasonably likely to occur from period to period, could have a material impact on our consolidated financial statements. When we prepare our condensed consolidated financial statements and accompanying notes in conformity with U.S. generally accepted accounting principles (GAAP), we must make estimates and assumptions about future events that affect the amounts we report. Certain of these estimates result from judgments that can be subjective and complex. As a result of that subjectivity and complexity, and because we continuously evaluate these estimates and assumptions based on a variety of factors, actual results could materially differ from our estimates and assumptions if changes in one or more factors require us to make accounting adjustments.

*Premiums*. We recognize direct and assumed premiums written as revenue, net of ceded amounts, on a daily pro rata basis over the contract period of the related policies that are in force. For any portion of premiums not earned at the end of the reporting period, we record an unearned premium liability.

Premiums receivable represents amounts due from our policyholders for billed premiums and related policy fees. Our billing system is equity based such that policies are canceled if the unpaid premium exceeds the amount of premium earned. When we receive payments on amounts previously charged off, we credit bad debt expense in the period we receive the payment. Balances in premiums receivable and the associated allowance account are removed upon cancellation of the policy due to non-payment. We recorded bad debt expense of approximately $0, $0 and $161,300 in 2022, 2021, 2020, respectively.

When we receive premium payments from policyholders prior to the effective date of the related policy, we record an advance premium liability. On the policy effective date, we reduce the advance premium liability and record the premiums as described above.

*Reserves for Unpaid Losses and Loss Adjustment Expenses*. Reserves for unpaid losses and loss adjustment expenses, also referred to as loss reserves, represent the most significant accounting estimate inherent in the preparation of our financial statements. These reserves represent management’s best estimate of the amount we will ultimately pay for losses and loss adjustment expenses and we base the amount upon the application of various actuarial reserve estimation techniques as well as considering other material facts and circumstances known at the balance sheet date. We establish two categories of loss reserves as follows: **Case reserves**—When a claim is reported, we establish an initial estimate of the losses that will ultimately be paid on the reported claim. Our initial estimate for each claim is based upon the judgment of our claims professionals who are familiar with property and liability losses associated with the coverage offered by our policies. Then, our claims personnel perform an evaluation of the type of claim involved, the circumstances surrounding each claim and the policy provisions relating to the loss and adjust the reserve, as necessary. As claims mature, we increase or decrease the reserve estimates as deemed necessary by our claims department based upon additional information we receive regarding the loss, the results of on-site reviews and any other information we gather while reviewing the claims. **IBNR reserves**—Our IBNR reserves include true IBNR reserves plus “bulk” reserves. True IBNR reserves represent amounts related to claims for which a loss occurred on or before the date of the financial statements, but which have not yet been reported to us. Bulk reserves represent additional amounts that cannot be allocated to particular claims, but which are necessary to estimate ultimate losses on known claims. We estimate our IBNR reserves by projecting our ultimate losses using industry accepted actuarial methods and then deducting actual loss payments and case reserves from the projected ultimate losses. We review and adjust our IBNR reserves on a quarterly basis based on information available to us at the balance sheet date.

When we establish our reserves, we analyze various factors such as the evolving historical loss experience of the insurance industry as well as our experience, claims frequency and severity, our business mix, our claims processing procedures, legislative enactments, judicial decisions and legal developments in imposition of damages, and general economic conditions, including inflation. A change in any of these factors from the assumptions implicit in our estimates will cause our ultimate loss experience to be better or worse than indicated by our reserves, and the difference could be material. Due to the interaction of the foregoing factors, there is no precise method for evaluating the impact of any one specific factor in isolation, and an element of judgment is ultimately required. Due to the uncertain nature of any future projections, the ultimate amount we will pay for losses will be different from the reserves we record.

We determine our ultimate loss reserves by selecting an estimate within a relevant range of indications that we calculate using generally accepted actuarial techniques. Our selection of the point estimate is influenced by the analysis of our paid losses and incurred losses since inception.

Our external reserving actuaries evaluated the adequacy of our reserves as of December 31, 2022 and concluded that our reported loss reserves would meet the requirements of the insurance laws of the states in which our insurance subsidiaries are domiciled, be consistent with reserves computed in accordance with accepted loss reserving standards and principles, and make a reasonable provision for all unpaid loss and loss adjustment expense obligations under the terms of our contracts and agreements. In addition to $300.6 million of recorded case reserves, we recorded $831.2 million of IBNR reserves as of December 31, 2022 to achieve overall gross reserves of $1.1 billion. At December 31, 2022, ceded IBNR and net IBNR were $546.0 million and $285.2 million, respectively.

The process of establishing our reserves is complex and inherently imprecise, as it involves using judgment that is affected by many variables. We believe a reasonably likely change in almost any of the factors we evaluate as part of our loss reserve analysis could have an impact on our reported results, financial position and liquidity.

The following table quantifies the pro forma impact of hypothetical changes in our net loss reserves on our net income and stockholders' equity as of and for the year ended December 31, 2022 (in thousands):

| | Actual | Low Estimate | % Change from Actual | High Estimate | % Change from Actual |
|---|---|---|---|---|---|
| **Net Loss Reserves** | $ 372,126 | $ 294,847 | 20.8 % | $ 393,989 | (5.9 )% |
| | | | | | |
| **Impact on:** | | | | | |
| Net loss | $ (154,363 ) | $ (97,564 ) | (36.8 )% | $ (170,433 ) | (10.4 )% |
| Stockholders' equity | $ 131,039 | $ 187,838 | (43.3 )% | $ 114,969 | 12.3 % |
| Cash, cash equivalents and investments[1] | $ 934,451 | $ 991,250 | (6.1 )% | $ 918,381 | 1.7 % |

(1) Estimated cash, cash equivalents and investments is intended to reflect the impact of loss reserves, net of taxes.

*Policy Acquisition Costs.* We incur policy acquisition costs that vary with, and are directly related to, the production of new business. Policy acquisition costs consist of the following four items: (i) commissions paid to outside agents at the time of policy issuance, (ii) policy administration fees paid to a third-party administrator at the time of policy issuance, (iii) premium taxes and (iv) inspection fees. We capitalize policy acquisition costs to the extent recoverable, then we amortize those costs over the contract period of the related policy. We also earn ceding commission on our quota share reinsurance contracts, which is presented as a reduction of policy acquisition costs with any unearned ceding commission recognized as a liability. Ceding commission income is deferred and earned over the contract period. The amount and rate of ceding commissions earned on the net quota share contract can slide within a prescribed minimum and maximum, depending on loss performance and how future losses develop.

Our accounting policy is to allocate ceding commission between policy acquisition costs and general and administrative expenses for financial reporting purposes based upon the proportion these costs bear to production of new business. For the years ended December 31, 2022, 2021 and 2020, we earned ceding commission income of $61.8 million, $62.7 million and $57.1 million of which $46.5 million, $47.1 million and $43.0 million was allocable to policy acquisition costs.

*Deferred taxes*. At December 31, 2022, we assessed our deferred tax position and hold a $6.4 million valuation against our net deferred tax assets. We intend to continue maintaining the valuation allowance on our net deferred tax asset until there is sufficient evidence to support the reversal of all or some portion of the allowance.

*Provision for Premium Deficiency*. At each reporting date, we determine whether we have a premium deficiency. A premium deficiency would result if the sum of our expected losses, deferred policy acquisition costs and policy maintenance costs (such as costs to store records and costs incurred to collect premiums and pay commissions) exceeded our related unearned premiums plus investment income. Should we determine that a premium deficiency exists, we would write off the unrecoverable portion of deferred policy acquisition costs. No accruals for premium deficiency were considered necessary as of December 31, 2022 and 2021.

*Reinsurance.* We follow industry practice of reinsuring a portion of our risks. Reinsurance involves transferring, or "ceding", all or a portion of the risk exposure on policies we write to another insurer, known as a reinsurer. To the extent that our reinsurers are unable to meet the obligations they assume under our reinsurance agreements, we remain liable for the entire insured loss.

Our reinsurance agreements are prospective contracts. We record an asset, prepaid reinsurance premiums, and a liability, reinsurance payable, for the entire contract amount upon commencement of our new reinsurance agreements. We amortize our prepaid reinsurance premiums over the 12-month contract period.

In the event that we incur losses recoverable under our reinsurance program, we record amounts recoverable from our reinsurers on paid losses plus an estimate of amounts recoverable on unpaid losses. The estimate of amounts recoverable on unpaid losses is a function of our liability for unpaid losses associated with the reinsured policies; therefore, the amount changes in conjunction with any changes to our estimate of unpaid losses. In the event that we incur losses recoverable under the reinsurance program, the estimate of amounts recoverable from reinsurers on unpaid losses may change at any point in the future because of its relation to our reserves for unpaid losses.

We estimate uncollectible amounts receivable from reinsurers based on an assessment of factors including the creditworthiness of the reinsurers and the adequacy of collateral obtained, where applicable. We had no uncollectible amounts under our reinsurance program or bad debt expense related to reinsurance for the years ended December 31, 2022, 2021 and 2020.

**Recent Accounting Pronouncements Not Yet Effective**

The Company describes the recent pronouncements that have had or may have a significant effect on its financial statements or on its disclosures. The Company does not discuss recent pronouncements that a) are not anticipated to have an impact on, or b) are unrelated to its financial condition, results of operations, or related disclosures. For accounting pronouncements not yet adopted, Refer to Note 1 "*Basis of Presentation, Nature of Business and Significant Accounting Policies and Practices"* to our consolidated financial statements included in this Annual Report on Form 10-K, for further information.

**Item 7A. Quantitative and Qualitative Disclosures About Market Risk.**

Our investment portfolios at December 31, 2022, include interest rate-sensitive securities, mainly fixed income securities. Our fixed income securities portfolio is comprised primarily of investment grade (investments receiving Standard & Poor's Global Ratings ("S&P") or an equivalent rating of BBB- or above) corporate securities, U.S. government and agency securities, municipal obligations, collateralized loan obligations ("CLO") and other asset-backed securities ("ABS"), and mortgage-backed securities ("MBS"). Our main objective is to maximize after-tax investment income and maintain sufficient liquidity to meet policyholder obligations while minimizing market risk, which is the potential economic loss from adverse fluctuations in securities' prices. We consider many factors when establishing our investment policy, including credit ratings, investment concentrations, regulatory requirements, anticipated fluctuation of interest rates, durations and market conditions in developing investment strategies. Investment securities are managed by a nationally recognized asset manager and are overseen by the investment committee appointed by our board of directors. We classify our fixed-maturity securities as available-for-sale and report any unrealized gains or losses, net of deferred income taxes, as a component of other comprehensive income within our stockholders' equity. As such, any material temporary changes in their fair value can adversely impact the carrying value of our stockholders' equity. Unrealized gains and losses for any equity securities held are reported in our consolidated statement of operations as a component of net realized and unrealized gains and losses.

*Interest Rate Risk*

On November 7, 2022, the Company amended its Credit Agreement to replace LIBOR with an alternative benchmark rate. Borrowings under the Credit Facilities bear interest at rates equal to either (1) a rate determined by reference to SOFR, plus an applicable margin and a credit adjustment spread equal to 0.10% or (2) a base rate determined by reference to the highest of (a) the "prime rate" of Regions Bank, (b) the federal funds rate plus 0.50%, and (c) the adjusted term SOFR in effect on such day for an interest period of one month plus 1.00%, plus an applicable margin, eliminating any reference to LIBOR.

Our exposure to interest rate risk relates primarily to the market price and cash flow variability associated with changes in interest rates. Our fixed income securities portfolio contains interest rate-sensitive instruments, and its performance could be adversely affected by changes in interest rates resulting from governmental monetary policies, domestic and international economic and political conditions, and other factors beyond our control. All else being equal, a rise in interest rates will decrease the fair value of our existing fixed income investments, and a decline in interest rates will increase the fair value of our existing fixed income investments.

However, new and reinvested money used to purchase fixed income securities would benefit from rising interest rates and would be negatively impacted by falling interest rates. We seek to mitigate our interest rate risk associated with holding fixed income investments by monitoring and managing the effective duration of our portfolio to maximize yield while managing interest rate risk at an acceptable level.

The duration of the financial instruments held in our portfolio that are subject to interest rate risk was 3.179 years at December 31, 2022 and 3.903 years at December 31, 2021. Credit risk results from uncertainty in a counterparty's ability to meet its obligations. Credit risk is managed by maintaining a high credit quality fixed maturity securities portfolio. As of December 31, 2022, the estimated weighted-average credit quality rating of the fixed maturity securities portfolio was A+, at fair value, consistent with our average credit quality rating at December 31, 2021.

The following table illustrates the impact of hypothetical changes in interest rates to the fair value of our fixed-maturity securities at December 31, 2022 (in thousands, except percentages):

| Hypothetical Change in Interest rates | Estimated Fair Value After Change | Change In Estimated Fair Value | Percentage Increase (Decrease) in Estimated Fair Value |
|---|---|---|---|
| 300 basis point increase | $ 575,037 | $ (60,535) | (10)% |
| 200 basis point increase | $ 595,204 | $ (40,368) | (6)% |
| 100 basis point increase | $ 615,383 | $ (20,189) | (3)% |
| 100 basis point decrease | $ 655,773 | $ 20,201 | 3% |
| 200 basis point decrease | $ 675,984 | $ 40,412 | 6% |
| 300 basis point decrease | $ 695,985 | $ 60,413 | 10% |

Credit risk can expose us to potential losses arising principally from adverse changes in the financial condition of the issuer of our fixed-maturity securities. The Company's Investment Committee has the responsibility to create, oversee, implement and review investment policies. The Investment Committee is responsible for ensuring the policies mitigate this risk by investing in fixed-maturity securities that are generally investment grade and by diversifying our investment portfolio to avoid concentrations in any single issuer or market sector.

The following table presents the composition of our fixed-maturity portfolio by rating at December 31, 2022 (in thousands, except percentages):

| Comparable Rating | Amortized Cost | % of Total Amortized Cost | Fair Value | % of Total Fair Value |
|---|---|---|---|---|
| AAA | $ 127,865 | 18% | $ 116,694 | 18% |
| AA+, AA, AA- | $ 346,935 | 49% | $ 307,965 | 48% |
| A+, A, A-1+ | $ 132,405 | 19% | $ 121,391 | 19% |
| BBB+, BBB, BBB- | $ 98,234 | 14% | $ 89,421 | 14% |
| Not rated | $ 109 | 0% | $ 101 | 0% |
| | **$ 705,548** | **100%** | **$ 635,572** | **100%** |

Below investment grade securities have different characteristics than investment grade corporate fixed-maturity securities. Risk of loss from default by the borrower is greater with below-investment grade securities. Typically, below investment grade securities are generally unsecured and are often subordinated to other creditors of the issuer. Also, issuers of below-grade securities usually have higher levels of debt and are more sensitive to adverse economic conditions, such as recession or increasing interest rates, than investment grade issuers.

Our equity investment portfolio at December 31, 2022 consisted of membership shares held of FHLB common stock which are carried at cost. The estimated fair value of the FHLB common stock was based on the amount we would receive if our memberships were canceled, as the membership cannot be sold.

The following table illustrates the composition of our equity portfolio at December 31, 2022 (in thousands):

| | Estimated Fair Value | % of Total Estimated Fair value |
|---|---|---|
| Stocks by sector: | | |
| Financial | $ — | 0% |
| Energy | — | 0% |
| Other | 1,514 | 100% |
| Subtotal | $ 1,514 | 100% |
| Mutual Funds and ETF by type: | | |
| Equity | $ — | 0% |
| Subtotal | $ — | 0% |
| Total | $ 1,514 | 100% |

*Foreign Currency Exchange Risk*

At December 31, 2022, we did not have any material exposure to foreign currency related risk.

## Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors
Heritage Insurance Holdings, Inc.

***Opinions on the Consolidated Financial Statements and Internal Control Over Financial Reporting***

We have audited the accompanying consolidated balance sheets of Heritage Insurance Holdings, Inc. (the "Company") as of December 31, 2022 and 2021; the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2022; and the related notes and schedules (collectively referred to as the "financial statements"). We also have audited the Company's internal control over financial reporting as of December 31, 2022, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (the "COSO framework").

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021 and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2022 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2022, based on criteria established in the COSO framework.

***Basis for Opinion***

The Company's management is responsible for these financial statements; maintaining effective internal control over financial reporting; and its assessment of the effectiveness of internal control over financial reporting, included in the accompanying "Management's Report on Internal Control over Financial Reporting." Our responsibility is to express an opinion on the Company's financial statements and an opinion on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the financial statements included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

***Definition and Limitations of Internal Control Over Financial Reporting***

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

***Critical Audit Matter***

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that (1) relates to accounts or disclosures that are material to the financial statements and (2) involved especially challenging, subjective, or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the financial statements taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

***Liability for Unpaid Losses and Loss Adjustment Expenses - Refer to Notes 1 and 13 to the Financial Statements***

***Critical Audit Matter Description***

The Company's estimated liability for unpaid losses and loss adjustment expense (LAE) totaled $1.1 billion at December 31, 2022. The Company's reserve for unpaid losses and LAE represents the estimated ultimate cost of settling all claims incurred related to insured events that have occurred as of the reporting date. The Company determines the reserve for unpaid losses and LAE on an individual-case basis for those claims reported as of December 31, 2022, with bulk reserves for additional development, if any, on the reported claims and an estimate for unpaid losses and LAE for all claims incurred related to insured events that have occurred as of December 31, 2022 but have not yet been reported by the policyholders to the Company (collectively referred to as incurred but not reported or IBNR). The Company estimates IBNR reserves by projecting ultimate losses using industry-accepted actuarial methods. Management engages independent actuarial firms to prepare an actuarial analysis of unpaid losses and LAE and provides statements of actuarial opinion on management's estimate of unpaid losses and LAE.

Estimating the liability for unpaid losses and LAE requires significant judgment, relating to factors such as claim development patterns, severity, type and jurisdiction of loss, economic conditions, legislative development, and a variety of actuarial assumptions. Estimating the liability for unpaid losses and LAE is inherently uncertain, dependent on management's judgment, and significantly impacted by claim and actuarial factors and conditions that may change over time. The ultimate settlement of unpaid losses and LAE may vary materially from the recorded liability, and such variance may adversely affect the Company's financial results. For these reasons, we identified the estimate of unpaid losses and LAE as a critical audit matter, as it involved especially subjective auditor judgment.

***How the Critical Audit Matter was Addressed in the Audit***

Our audit procedures related to the unpaid losses and LAE reserve included the following, among others:

- We obtained an understanding, evaluated the design, and tested the operating effectiveness of key controls over the process and data used by management to estimate the liability for unpaid losses and LAE, including those controls related to the estimation of and management's review of the estimated liability of unpaid losses and LAE.
- We tested the completeness, integrity, and accuracy of the underlying data used by the Company's actuaries, such as paid loss data, case reserve data, loss adjustment expense data, and loss development tables.
- We verified the consistency of the estimation process between the current year and those used in prior years and assessed the reasonableness of management's selection of its estimate for unpaid losses and LAE, including the key factors considered by management in arriving at such estimates. With assistance from our engaged actuarial specialist, we reviewed the reasonableness of the methods and assumptions used by the Company and their engaged actuaries to develop their unpaid losses and LAE reserve estimate.
- We evaluated management's prior year estimate for unpaid losses and LAE and the factors leading to changes in the estimate recognized in the current year. With the assistance of our engaged actuarial specialist, we assessed the reasonableness of management's revisions to the estimate for unpaid losses and LAE.

Plante & Moran, PLLC

We have served as the Company's auditor since 2018.

## Note 1. Basis of Presentation, Nature of Business and Significant Accounting Policies and Practices

### *Business Description*

Heritage Insurance Holdings, Inc. is an insurance holding company. Our insurance subsidiaries are Heritage Property & Casualty Insurance Company ("Heritage P&C"), Zephyr Insurance Company ("Zephyr"), Narragansett Bay Insurance Company ("NBIC") and Pawtucket Insurance Company ("PIC"). PIC is currently inactive and has no policies in force or outstanding claims. Our other subsidiaries include: Heritage MGA, LLC ("MGA"), the managing general agent that manages substantially all aspects of our insurance subsidiaries' business; Contractors' Alliance Network, LLC, our vendor network manager; Skye Lane Properties, LLC, our property management subsidiary; Osprey Re Ltd., our reinsurance subsidiary that may provide a portion of the reinsurance protection purchased by our insurance subsidiaries; Heritage Insurance Claims, LLC, an inactive subsidiary reserved for future development; Zephyr Acquisition Company ("ZAC"); NBIC Holdings, Inc., and NBIC Service Company which provides services to NBIC.

Our primary products are personal and commercial residential insurance, which we currently offer in Alabama, California, Connecticut, Delaware, Florida, Georgia, Hawaii, Maryland, Massachusetts, Mississippi, New Jersey, New York, North Carolina, Rhode Island, South Carolina, and Virginia. We conduct our operations under a single reporting segment.

### *Basis of Presentation*

The consolidated financial statements include the accounts of Heritage Insurance Holdings, Inc. and its wholly-owned subsidiaries. The accompanying consolidated financial statements include the accounts of the Company and all other entities in which the Company has a controlling financial interest (none of which are variable interest entities). All intercompany accounts and transactions have been eliminated in consolidation.

### *Use of Estimates*

The preparation of consolidated financial statements in conformity with United States Generally Accepted Accounting Principles ("U.S. GAAP") requires us to make estimates and assumptions about future events that affect the amounts reported in our consolidated financial statements and accompanying notes. We evaluate our estimates on an ongoing basis when updated information related to such estimates becomes available. We base our estimates on historical experience and information available to us at the time these estimates are made. Actual results could differ materially from these estimates.

### *Cash and Cash Equivalents*

The Company's cash and cash equivalents include demand deposits with financial institutions and short-term, highly-liquid financial instruments with original maturities of three months or less when purchased. The carrying amounts reported in the consolidated balance sheets for interest bearing deposits approximate their fair value because of the short maturity of these financial instruments.

To the extent there are negative cash balances with any individual financial institution, the Company excludes the negative amount from cash and cash equivalents negative cash balances and reports as accounts payable and other liabilities.

### *Restricted Cash*

Restricted cash related to individual state regulatory deposits was $6.7 and $5.4 million for the years ended December 31, 2022 and 2021, respectively. The Company earned interest income of $12,612 and $11,918 on its restricted cash deposits.

### *Investments*

*Fixed-Maturity Securities*

The Company classifies all of its investments in debt securities as available-for-sale and reports them at fair value. Subsequent to its acquisition of debt securities available-for-sale, the Company records changes in value through the date of disposition as unrealized holding gains and losses, net of tax effects, and includes them as a component of other comprehensive income. Refer to Note 2 *"Investments"* to these consolidated financial statements for further information.

*Short-term Securities*

Short-terms securities have an original maturity of less than one year and are carried at amortized cost, which approximates fair value.

*Accumulated Other Comprehensive Income*

Accumulated other comprehensive income consists solely of unrealized gains and losses on debt securities available-for-sale, net of tax.

***Investment Gains and Losses***

Net realized investment gains and losses are included as a component of pre-tax revenues based upon specific identification of the investments sold on the trade date. Included in net realized and unrealized gains (losses) are credit impairment losses on invested assets other than those investments accounted for using the equity method of accounting described in the “Allowance for Credit Losses” and “Impairment of Other Investments” section discussed below.

***Allowance for Credit Losses (Available-for-Sale-Debt Securities)***

The impairment model for available-for-sale (“AFS”) debt securities differs from the current expected credit loss (“CECL”) methodology applied for held to maturity debt securities because AFS debt securities are measured at fair value rather than amortized cost. Although ASC 326 replaced the legacy other-than-temporary impairment (“OTTI”) model with a credit loss model, it retained the fundamental nature of the legacy OTTI model. For AFS debt securities in an unrealized loss position, the Company first assesses whether it intends to sell, or it is more likely than not that it will be required to sell, the security before recovery of its amortized cost basis. If either criteria is met, the security’s amortized cost basis is written down to fair value through income. For AFS debt securities where neither of the criteria are met, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, management considers the extent to which fair value is less than amortized cost, any changes to the credit rating of the security by a rating agency, and adverse conditions specifically related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited to the amount that the fair value is less than the amortized cost basis. Under the guidance, an entity may no longer consider the length of time fair value has been less than amortized cost. As of December 31, 2022 and 2021, management evaluated and determined a credit allowance was not significant to the financial statements.

***Other Investments***

Non-Consolidating Variable Interest Entities (“VIEs”)

The Company makes passive investments in limited partnerships (“LPs”), corporations, and a Real Estate Investment Trust (“REIT”). The Company determines at the inception of each arrangement whether an entity in which it has made an investment or in which it has other variable interests is considered a variable interest entity ("VIE"). The Company consolidates VIEs when it is determined to be the primary beneficiary. The Company is the primary beneficiary of a VIE when it has the power to direct activities that most significantly affect the economic performance of the VIE and has the obligation to absorb the majority of their losses or entitled to benefits. If the Company is not the primary beneficiary in a VIE, it will account for the investment or other variable interests in a VIE in accordance with applicable GAAP. For the year ended December 31, 2022 and 2021, the Company was not the primary beneficiary to any of its other investments and therefore considered the other investments as non-consolidated VIEs.

Equity securities that do not result in consolidation and are not accounted for under the equity method, are measured at fair value. Equity securities without a readily determinable fair value are reported at cost, less impairment, unless we identify observable price changes in orderly transactions for the identical or a similar investment of the same issuer (measurement alternative). Changes in fair value are reflected in the Company’s consolidated statements of operations. Certain other investments provide the Company with monthly or quarterly return on capital on a regular schedule.

**Impairment of Other Investments**

The Company maintains various interests in other investments without a readily determinable fair value that are evaluated for impairment at each reporting period. When such events or changes occur, the Company evaluates the estimated present value of future cash flows compared to its cost basis in the investment to evaluate whether there may be an impairment. For the year ended December 31, 2022, the Company recorded no impairment charges on its other investments compared to recording an impairment of $2.2 million for the year ended December 31, 2021.

***Fair Value***

Major categories of financial assets and liabilities, including short-term investments, other assets and derivatives are measured at fair value on a recurring basis. Certain assets and liabilities are measured at fair value on a nonrecurring basis when impaired, which include long-lived assets, goodwill, asset retirement obligations and other investments that the Company cannot significantly influence.

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the principal or most advantageous market in which we would transact is analyzed. Assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of non-performance, are considered.

The Company estimates the fair value of its investments using the closing prices on the last business day of the reporting period, obtained from active markets such as the NYSE and NASDAQ. For securities for which quoted prices in active markets are unavailable, the Company uses observable inputs such as quoted prices in inactive markets, quoted prices in active markets for similar instruments, benchmark interest rates, broker quotes and other relevant inputs. The Company does not have any investments in its portfolio which require the use of unobservable inputs. The Company's estimate of fair value reflects the interest rate environment that existed as of the close of business on December 31, 2022. Changes in interest rates after December 31, 2022 may affect the fair value of the Company's investments.

The Company's non-financial assets, such as goodwill and intangible assets, are carried at cost until there are indicators of impairment and are recorded at fair value only when an impairment charge is recognized. Refer to **Note 3** "*Goodwill and Other Intangible Assets*" to these consolidated financial statements for further information on our 2021 and 2022 goodwill impairment charges. At December 31, 2022, all goodwill had been written off. Long term debt is recorded at carrying value, Refer to **Note 14** "*Long-Term Debt"* to these consolidated financial statements for further information.

***Premiums***

The Company records direct and assumed premiums written as revenue on a daily pro rata basis over the contract period of the related in force policies or reinsurance contract. For any portion of premiums not earned at the end of the reporting period, the Company records an unearned premium liability.

Premiums receivable represents amounts due from our policyholders for billed premiums and related policy fees. We perform a policy-level evaluation to determine the extent to which the balance of premiums receivable exceeds the balance of unearned premiums. When we receive payments on amounts previously charged off, we reduce bad debt expense in the period we receive the payment. Balances in premiums receivable and the associated allowance account are removed upon cancellation of the policy due to non-payment. An allowance of $451,000 was recorded as of December 31, 2022 and 2021. Bad debt expense related to uncollectible premiums was $0, $0 and $161,300 for the years ended December 31, 2022, 2021 and 2020, respectively.

When the Company receives premium payments from policyholders prior to the effective date of the related policy, the Company records an advance premiums liability. On the policy effective date, the Company reduces the advance premium liability and records the premiums as described above.

***Policy Acquisition Costs***

The Company incurs policy acquisition costs that vary with, and are directly related to, the production of new business. Policy acquisition costs consist of the following four items: (i) commissions paid to outside agents at the time of policy issuance; (ii) policy administration fees paid to a third-party administrator at the time of policy issuance; (iii) premium taxes; and (iv) inspection fees. The Company capitalizes policy acquisition costs to the extent recoverable, then the Company amortizes those costs over the contract period of the related policy.

We earn ceding commission on our quota share reinsurance contracts. Our accounting policy is to allocate ceding commission between policy acquisition costs and general and administrative expenses for financial reporting purposes. Ceding commission is allocated between policy acquisition costs and general and administrative expenses based upon the proportion these costs bear to production of new business. For the years ended December 31, 2022 and 2021, we earned ceding commission income of $61.9 million and $62.7 million of which $46.5 million and $47.1 million was allocable to policy acquisition costs.

Ceding commission income is deferred and recognized over the quota share contract period. The amount and rate of ceding reinsurance commissions earned on the net quota share contract can slide within a prescribed minimum and maximum, depending on loss performance and how future losses develop.

***Premium Deficiency Reserve***

At each reporting date, the Company determines whether it has a premium deficiency. A premium deficiency would result if the sum of the Company's expected losses, deferred policy acquisition costs, and policy maintenance costs (such as costs to store records and costs incurred to collect premiums and pay commissions) exceeded the Company's related unearned premiums plus investment income. Should the Company determine that a premium deficiency exists, the Company would write off the unrecoverable portion of deferred policy acquisition cost.

***Reinsurance***

The Company follows industry practice of reinsuring a portion of our risks. Reinsurance involves transferring, or "ceding", all or a portion of the risk exposure on policies the Company writes to another insurer, known as a reinsurer. To the extent that the Company's reinsurers are unable to meet the obligations they assume under the Company's reinsurance agreements, the Company remains liable for the entire insured loss. As a result, a reasonable possibility exists that an estimated recovery may change significantly in the near term from the amounts included in the Company's consolidated financial statements.

The Company's reinsurance agreements are generally short-term, prospective contracts. The Company records an asset, prepaid reinsurance premiums, and a liability, reinsurance payable, for the entire contract amount upon commencement of new reinsurance agreements. The Company amortizes its prepaid reinsurance premiums over the 12-month contract period.

When the Company incurs losses recoverable under its reinsurance program, the Company records amounts recoverable from its reinsurers on paid losses plus an estimate of amounts recoverable on unpaid losses. The estimate of amounts recoverable on unpaid losses is a function of the Company's liability for unpaid losses associated with the reinsured policies; therefore, the amount changes in conjunction with any changes to the estimate of unpaid losses. Given that an estimate of amounts recoverable from reinsurers on unpaid losses may change at any point in the future because of its relation to the Company's reserves for unpaid losses, a reasonable possibility exists that an estimated recovery may change significantly from initial estimates.

The Company remains liable for claims payments if any reinsurer is unable to meet its obligations under the reinsurance agreements. Failure of reinsurers to honor their obligations could result in losses to the Company. The Company evaluates the financial condition of its reinsurers and monitors concentration of credit risk arising from similar geographic regions, activities or economics characteristics of the reinsurers to minimize its exposure to significant losses from reinsurer insolvencies. The Company contracts with a diverse population of reinsurers to secure its annual reinsurance coverage, for which the excess of loss treaties generally become effective June 1st each year.

***Allowance for Credit Losses for Reinsurance Recoverables***

The allowance for credit losses for reinsurance recoverable is evaluated based on historical loss experience adjusted for current events and reasonable and supportable forecasts from both internal and external sources.

The Company monitors the credit quality of its reinsurance recoverables through the use of A.M. Best's Financial Strength rating ("FSR"), or in the absence of an FSR consideration of credit ratings issued by approved rating agencies such as S&P, Moody's, or Fitch. At December 31, 2022, the determination of the allowance for credit losses on reinsurance recoverables included analysis of (i) reinsurance recoverable balances by reinsurer FSR, (ii) estimated payment patterns associated with the claims underlying the reinsurance balances and (iii) historical default rates by reinsurer FSR as published by A.M. Best. In addition to the quantitative analysis, qualitative factors considered include but are not limited to (i) global reinsurer capital level, (ii) reinsurance market trends,

(iii) the interest rate environment and (iv) the stressed global economy. Reinsurance recoverables are reported on the consolidated balance sheets net of the CECL allowance, if any.

***Long-Lived Assets—Property and Equipment***

Property and equipment is stated at cost less accumulated depreciation and amortization. Depreciation is calculated on a straight-line basis over the estimated useful lives as follows: building—40 years; computer hardware and software 3-years; office and furniture equipment—3 to 7 years. Leasehold improvements are amortized over the shorter of the lease term or the asset's useful life. Expenditures for improvements are capitalized to the property accounts. Replacements and maintenance and repairs that do not improve or extend the life of the respective assets are expensed as incurred.

***Capitalized Software***

Costs associated with the implementation of certain internal systems are capitalized and carried at capitalized less accumulated amortization once they are it is placed in service and are included as a component of fixed assets on the Company's consolidated balance sheet. Costs capitalized include internal personnel costs, external developer costs, and interest. The implementation costs relate to systems built on software which the Company purchased or licensed and developed both internally and with third party vendors. As such, capitalized costs will be amortized over the term of the useful life of the software.

***Leases***

We lease office space under finance and operating leases with expiration dates through 2031. We determine whether an arrangement constitutes a lease and record lease liabilities and right-of-use assets on our consolidated balance sheets at lease commencement. We primarily use our incremental borrowing rates for our operating leases (rates are not readily determinable) and implicit rates for our financing leases in determining the present value of lease payments. We measure right-of-use assets based on the corresponding lease liability adjusted for (i) payments made to the lessor at or before the commencement date, (ii) initial direct costs we incur and (iii) tenant incentives under the lease. We begin recognizing rent expense when the lessor makes the underlying asset available to us, we do not assume renewals or early terminations unless we are reasonably certain to exercise these options at commencement, and we do not allocate consideration between lease and non-lease components.

For short-term leases, we record rent expense in our consolidated statements of operations on a straight-line basis over the lease term and record variable lease payments as incurred.

***Goodwill and Intangible Assets***

On January 1, 2020, the Company adopted ASU 2017-04, Simplifying the Test for Goodwill Impairment (ASC 350) ("ASU 2017-04"), which changed the guidance on goodwill impairment. Under the guidance, the qualitative assessment of the recoverability of goodwill remains the same, but the second step of the two-step quantitative test, which required calculation of the implied fair value of goodwill, has been eliminated. Instead, an impairment charge is recognized when the carrying value of a reporting unit exceeds its fair value. Any excess of carrying value over fair value is written down as an impairment. This evaluation is performed annually, during the fourth quarter or more frequently if facts and circumstances warrant. An impairment loss would be recognized if, and to the extent that, the carrying value of goodwill exceeded the implied value. The remaining balance of goodwill was written off during the second quarter of 2022. The Company reviews amortizable intangible assets for impairment whenever events or circumstances indicate that carrying amounts may not be recoverable. If the Company concludes that impairment exists, the carrying amount is reduced to fair value. Refer to **Note 3** "*Goodwill and Other Intangible Assets*" to these consolidated financial statements, for further information on our 2022 goodwill impairment charge."

***Unpaid Losses and Loss Adjustment Expenses***

The Company's reserves for unpaid losses and loss adjustment expenses represent the estimated ultimate cost of settling all reported claims plus all claims we incurred related to insured events that have occurred as of the reporting date, but that policyholders have not yet reported to the Company (incurred but not reported, or "IBNR").

The reserve for unpaid losses is the estimate of amounts necessary to settle all reported and unreported incurred claims for the ultimate cost of insured losses, based upon the facts of each case and the Company's experience with similar cases. Salvage and subrogation are deducted from the reserve for claims and claims expense on a cash basis. The establishment of appropriate reserves, including reserves for catastrophe losses, is an inherently uncertain and complex process. Reserve estimates are primarily derived using an actuarial estimation process in which historical loss patterns are applied to actual paid losses and reported losses (paid losses plus individual case reserves established by claim adjusters) for an accident or report year to create an estimate of how losses are likely to develop over time. Development factors are calculated quarterly and periodically throughout the year for data elements such as claims reported and settled, paid losses, and paid losses combined with case reserves. The historical development patterns for these data elements are used as the assumptions to calculate reserve estimates, including the reserves for reported and unreported claims. Reserve estimates are regularly reviewed and updated, using the most current information available. Any resulting re-estimates are reflected in current results of operations.

The Company reports its reserves for unpaid losses and loss adjustment expenses gross of the amounts related to unpaid losses recoverable from reinsurers and reports loss and loss adjustment expenses net of amounts ceded to reinsurers. The Company does not discount its loss reserves for financial statement purposes.

***Other Revenue***

Our insurance affiliates may charge policyholders a policy fee on each policy written; to the extent these fees are not subject to refund, and the Company recognizes the income immediately when collected, which coincide with related service obligations. The Company also charges pay-plan fees to policyholders that pay its premiums in more than one installment and records the fees as income when collected. Other income also includes rental income due under non-cancelable leases for space at the Company's commercial property.

***Assessments***

Guaranty fund and other insurance-related assessments imposed upon the Company's insurance company affiliates are recorded as policy acquisition costs in the period the regulatory agency imposes the assessment. To recover assessments which are paid in advance to the guaranty fund or other insurance-related entity, the Company recoups such assessments from our policyholders in the form of a policy surcharge. Once the recoupment period begins, the entire recoupment amount is recorded as an asset on our balance sheet. There were no such assessments during the periods presented.

The Company collects pass through assessments imposed upon policyholders as a policy surcharge and records the amounts collected as a liability until the Company remits the amounts to the regulatory agency that imposed the assessment.

***Convertible Notes***

In August 2017 and September 2017, the Company issued collectively $136.8 million of 5.875% Convertible Senior Notes (the "Convertible Notes") due August 1, 2037. As of December 31, 2022, the Company has approximately $885,000 of the Convertible Notes outstanding. This amount is net of $21.1 million of Convertible Notes reacquired and held by an insurance company subsidiary. Refer **Note 14** "*Long-Term Debt"* to these consolidated financial statements for further information**.**

***Debt Issuance and Discount Costs***

In connection with the issuance of debt, any debt issuance and discount costs are reflected on the balance sheet as an offset to long-term debt and amortized using the effective interest method over the life of the underlying debt instrument. As of December 31, 2022, all debt issuance and discount costs have been fully amortized.

***Stock-Based Compensation***

The Company measures stock-based compensation at the grant date based on the fair value of the award and recognizes stock-based compensation expense over the requisite vesting period in accordance with ASC Topic 718, *Compensation—Stock Compensation*. For awards with performance-based vesting conditions expense is not recognized until it is determined that it is probable the performance-based conditions will be met. When achievement of a performance-based condition is probable, a catch-up of expense will be recorded as if the award had been vesting on a straight line basis from the award date. The award will continue to be expensed on a straight-line basis until probability of achieving the performance-based conditions changes, if applicable.

***Earnings Per Share***

Basic net earnings per share is computed by dividing net income by the weighted average number of common shares outstanding during the reporting period. Diluted net earnings per share is computed by dividing net income by the weighted average number of common and common equivalent shares outstanding during the reported period. Common equivalent shares include incremental shares from diluted vested and unvested shares of restricted common stock and convertible notes outstanding during the period based on the "if converted" method under the guidance of ASU 2020-06, adopted by the Company on January 1, 2022.

### *Income tax*

Income taxes are accounted for under the asset and liability method, that recognizes the amount of income taxes payable or refundable for the current year and recognizes deferred tax assets and liabilities based on the tax rates expected to be in effect during the periods in which the temporary differences reverse. Temporary differences arise when income or expenses are recognized in different periods in the consolidated financial statements than on the tax returns. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred tax assets are reduced by a valuation allowance if it is more likely than not that all, or some portion, of the benefits related to deferred tax assets will not be realized. Income taxes includes both estimated federal and state income taxes.

### *Reclassification*

Certain prior year amounts have been reclassified to conform to the current year presentation.

### *Accounting Pronouncements Adopted*

In August 2020, the FASB issued ASU 2020-06, "Accounting for Convertible Instruments and Contracts in an Entity's Own Equity". The ASU i) simplifies the accounting for convertible debt and convertible preferred stock by reducing the number of accounting models, and amends certain disclosures, ii) amends and simplifies the derivative scope exception guidance for contracts in an entity's own equity, including share-based compensation, and iii) amends the diluted earnings per share calculations for convertible instruments and contracts in an entity's own equity. The if-converted method will be the only permissible method for computing the dilutive effect of the convertible debt instruments. Interest expense no longer includes amortization of debt discount. The Company adopted the guidance of ASU 2020-06 on January 1, 2022, reporting no material impact to the Company's consolidated condensed financial statements or disclosures for the year ended December 31, 2022.

### *Accounting Pronouncements Not Yet Adopted*

The Company describes below recent pronouncements that may have a significant effect on its consolidated financial statements or on its disclosures upon future adoption. The Company does not discuss recent pronouncements that are not anticipated to have an impact on, or are unrelated to, its financial condition, results of operations, or related disclosures.

In March 2022, the FASB issued ASU 2022-02, “2022-02 Financial Instruments-Credit Losses” (Topic 326): Troubled Debt Restructurings and Vintage Disclosures (“ASU 2022-02”). ASU 2022-02 requires that an entity disclose current-period gross write-offs by year of origination for financing receivables and net investments in leases. ASU 2022-02 is effective for annual periods beginning after December 15, 2022, including interim periods within those periods. Early adoption is permitted. The Company will adopt ASU 2022-02 during the first quarter of 2023 and will provide the required disclosures, if determined to be material.

In June 2022, the FASB issued ASU 2022-03 , Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions (“ASU 2022-03”). ASU 2022-03 clarifies that a contractual sales restriction on an equity security is not considered when determining the security's fair value. This ASU was issued to eliminate diversity in practice by clarifying that contractual arrangements restricting an entity's ability to sell the security for a certain period of time is a characteristic of the reporting entity and should not be contemplated when determining the security's fair value. ASU 2022-03 requires new disclosures that provide investors with information about the restriction, including the nature and remaining duration of the restriction. The ASU is effective for annual periods beginning after December 15, 2023, including interim periods within those annual periods. Early adoption is permitted. We are currently evaluating the impact of this guidance.

Although there are several other new accounting pronouncements issued by the FASB, the Company does not believe any of these accounting pronouncements have or will have a material impact on its consolidated financial statements.

## Note 2. Investments

The amortized cost, gross unrealized gains and losses, and fair value of the Company’s debt securities available-for-sale are as follows:

| *December 31, 2022* | *Cost or Adjusted / Amortized Cost* | *Gross Unrealized Gains* | *Gross Unrealized Losses* | *Fair Value* |
|---|---|---|---|---|
| | | *(in thousands)* | | |
| ***Debt Securities Available-for-sale*** | | | | |
| U.S. government and agency securities [(1)] | $ 121,811 | $ 24 | $ 4,093 | $ 117,742 |
| States, municipalities and political subdivisions | 104,361 | — | 12,734 | 91,627 |
| Special revenue | 284,946 | 1 | 34,817 | 250,130 |
| Industrial and miscellaneous | 194,430 | 90 | 18,447 | 176,073 |
| Total | $ 705,548 | $ 115 | $ 70,091 | $ 635,572 |

(1) Includes securities at December 31, 2022 with a carrying amount of $24.3 million that were pledged as collateral for the advance agreement entered into with a financial institution in 2018. The Company is permitted to withdraw or exchange any portion of the pledged collateral over the minimum requirement at any time.

The Company's unrealized losses on corporate bonds have not been recognized because the bonds are of a high credit quality with investment grade ratings. The decline in fair value is deemed to be caused by rising interest rates resulting in no credit loss allowance recorded for the year ended December 31, 2022.

| *December 31, 2021* | *Cost or Adjusted / Amortized Cost* | *Gross Unrealized Gains* | *Gross Unrealized Losses* | *Fair Value* |
|---|---|---|---|---|
| | | *(in thousands)* | | |

| Total | $ 675,245 | $ 2,146 | $ 8,037 | $ 669,354 |

(1) Includes securities at December 31, 2021 with a carrying amount of $22.5 million that were pledged as collateral for the advance agreement entered into with a financial institution in 2018. The Company is permitted to withdraw or exchange any portion of the pledged collateral over the minimum requirement at any time.

The table below summarizes the Company's fixed maturity securities at December 31, 2022 and 2021 by contractual maturity periods. Actual results may differ as issuers may have the right to call or prepay obligations, with or without penalties, prior to the contractual maturity of those obligations.

| | *December 31, 2022* | | | |
|---|---|---|---|---|
| | *Cost or Amortized Cost* | *Percent of Total* | *Fair Value* | *Percent of Total* |
| ***Debt Securities Available-for-sale*** | *(in thousands)* | | *(in thousands)* | |
| Due in one year or less | $ 115,959 | 16 % | $ 113,683 | 18 % |
| Due after one year through five years | 344,554 | 49 % | 314,420 | 49 % |
| Due after five years through ten years | 182,793 | 27 % | 150,906 | 25 % |
| Due after ten years | 62,242 | 9 % | 56,564 | 9 % |
| Total | $ 705,548 | 100 % | $ 635,572 | 100 % |

| | *December 31, 2021* | | | |
|---|---|---|---|---|
| | *Cost or Amortized Cost* | *Percent of Total* | *Fair Value* | *Percent of Total* |
| ***Debt Securities Available-for-sale*** | *(in thousands)* | | *(in thousands)* | |
| Due in one year or less | $ 42,200 | 6 % | $ 42,323 | 6 % |
| Due after one year through five years | 311,799 | 46 % | 309,744 | 46 % |
| Due after five years through ten years | 224,654 | 33 % | 220,777 | 33 % |
| Due after ten years | 96,592 | 15 % | 96,510 | 15 % |
| Total | $ 675,245 | 100 % | $ 669,354 | 100 % |

Actual maturities may differ from the contractual maturities because borrowers may have certain prepayment conditions.

### *Net Realized and Unrealized (Losses) Gains*

The proceeds from the sale of debt securities were $27.1 million, $30.4 million and $381.2 million for the years ended December 31, 2022, 2021 and 2020, respectively.

The following table presents net realized (losses) gains on the Company's debt securities available-for-sale for the years ended December 31, 2022, 2021 and 2020, respectively:

| | For the Years ended December 31, | | | | | |
|---|---|---|---|---|---|---|
| | 2022 | | 2021 | | 2020 | |
| | Realized Gains (Losses) | Fair Value at Sale | Realized Gains (Losses) | Fair Value at Sale | Realized Gains (Losses) | Fair Value at Sale |
| | (in thousands) | | | | | |
| ***Debt Securities Available-for-sale*** | | | | | | |
| Realized gains | $ 37 | $ 4,836 | $ 716 | $ 26,029 | $ 22,466 | $ 374,863 |
| Realized losses | (295) | 22,245 | (652) | 4,359 | (71) | 6,368 |
| Net realized (losses) gains | $ (258) | $ 27,081 | $ 64 | $ 30,388 | $ 22,395 | $ 381,231 |

The following table presents the reconciliation of net realized and unrealized (losses) gains on the Company's investments reported for the years ended December 31, 2022, 2021 and 2020, respectively:

| | For the Year Ended December 31, | | |
|---|---|---|---|
| | 2022 | 2021 | 2020 |
| | (in thousands) | | |
| Gross realized gains on sales of available-for-sale securities | $ 64 | $ 716 | $ 22,466 |
| Gross realized losses on sales of available-for-sale securities | (322) | (652) | (71) |
| Gross realized and unrealized gains in other investments | — | 2,100 | — |
| Impairment charge in other investments | — | (2,180) | — |
| Net realized and unrealized (losses) gains | $ (258) | $ (16) | $ 22,395 |

### *Equity Investments*

For the years ended December 31, 2022, 2021 and 2020, the Company had no net holding realized and unrealized gains or (losses) reported.

The following table presents the Company's equity investments as of December 31, 2022 and 2021, respectively.

| *For the Year Ended December 31,* | 2022 | 2021 |
|---|---|---|
| Common stock | $ — | $ — |
| Membership Shares | 1,514 | 1,415 |
| Total equity investments | $ 1,514 | $ 1,415 |

### *Net Investment Income*

The following table summarizes the Company's net investment income by major investment category for the years ended December 31, 2022, 2021 and 2020, respectively:

| | For the Year Ended December 31, | | |
|---|---|---|---|
| | 2022 | 2021 | 2020 |
| | (in thousands) | | |
| Debt securities available-for-sale | $ 11,037 | $ 7,220 | $ 12,067 |
| Equity securities | 50 | — | — |
| Cash and cash equivalents | 2,257 | 71 | 223 |
| Other investments | 693 | 1,435 | 1,100 |
| Net investment income | 14,037 | 8,726 | 13,390 |
| Investment expenses | 2,060 | 3,074 | 1,088 |
| Net investment income, less investment expenses | $ 11,977 | $ 5,652 | $ 12,302 |

***Unrealized Losses on Debt Securities***

The following tables present, for all debt securities available-for-sale in an unrealized loss position, for which no allowance for credit loss is established (including securities pledged), the aggregate fair value and gross unrealized loss by length of time the security has continuously been in an unrealized loss position:

| | *Less Than Twelve Months* | | | *Twelve Months or More* | | |
|---|---|---|---|---|---|---|
| ***December 31, 2022*** | ***Number of Securities*** | ***Gross Unrealized Losses*** | ***Fair Value*** | ***Number of Securities*** | ***Gross Unrealized Losses*** | ***Fair Value*** |
| | | | *(in thousands)* | | | |
| ***Debt Securities Available-for-sale*** | | | | | | |
| U.S. government and agency securities | 61 | $ 2,040 | $ 56,389 | 36 | $ 2,053 | $ 56,389 |
| States, municipalities and political subdivisions | 28 | 1,967 | 17,730 | 95 | 10,767 | 68,852 |
| Special revenue | 273 | 5,832 | 57,881 | 259 | 28,985 | 167,384 |
| Industrial and miscellaneous | 95 | 1,535 | 32,387 | 197 | 16,912 | 134,462 |
| Total | 457 | $ 11,374 | $ 164,386 | 587 | $ 58,717 | $ 427,087 |

| | *Less Than Twelve Months* | | | *Twelve Months or More* | | |
|---|---|---|---|---|---|---|
| ***December 31, 2021*** | ***Number of Securities*** | ***Gross Unrealized Losses*** | ***Fair Value*** | ***Number of Securities*** | ***Gross Unrealized Losses*** | ***Fair Value*** |
| | | | *(in thousands)* | | | |
| ***Debt Securities Available-for-sale*** | | | | | | |
| U.S. government and agency securities | 43 | $ 282 | $ 57,420 | — | $ — | $ — |
| States, municipalities and political subdivisions | 98 | 1,270 | 80,972 | — | — | — |
| Special revenue | 253 | 3,485 | 195,450 | 14 | 35 | 1,214 |
| Industrial and miscellaneous | 191 | 2,387 | 146,746 | 18 | 578 | 11,598 |
| Total | 585 | $ 7,424 | $ 480,588 | 32 | $ 613 | $ 12,812 |

The Company's unrealized losses on corporate bonds have not been recognized because the bonds are of a high credit quality with investment grade ratings. The Company does not intend to sell and it is unlikely the Company will be required to sell the securities prior to their anticipated recovery, and the decline in fair value is deemed due to changes in interest rates and other market conditions. The debt issuers continue to make timely principal and interest payments on the bonds. After taking into account these and other factors previously described, the Company believes these unrealized losses generally were caused by a decrease in market interest rates since the time the securities were purchased and not as a result of credit losses.

***Other Investments***

*Non-Consolidated Variable Interest Entities ("VIEs")*

The Company makes passive investments in limited partnerships ("LPs"), which is accounted for using the equity method, with income reported in net realized and unrealized gains and losses. The Company also makes passive investments in a Real Estate Investment Trust ("REIT") and Insuretech company, which are accounted for using the measurement alternative method, which is reported at cost less impairment (if any), plus or minus changes from observable price changes, as described in the table below.

The following table summarizes the Company's non-consolidated VIEs by category at December 31, 2022 and 2021 (in thousands):

| | | | *Carrying Value* | |
|---|---|---|---|---|
| ***For the Year Ended December 31,*** | ***Balance Sheet*** | ***Method*** | ***2022*** | ***2021*** |
| Other Real Estate LLC | Other Investments | Equity Method | $ 1,508 | $ 1,843 |
| Real Estate Corporation[1] | Other Investments | Measure Alternative | 2,377 | 2,977 |
| Preferred Interests [2] | Other Investments | Amortized Cost | 8,490 | 15,000 |
| Non-real estate related [3] | Other Investments | Equity Method | 2,009 | 2,009 |
| Insurtech Stock [4] | Other Investments | Measure Alternative | 2,100 | 2,100 |
| Total non-consolidated VIEs | | | $ 16,484 | $ 23,929 |

(1) For the year ended December 31, 2021, a $1.0 million impairment was recognized in net realized and unrealized gains (losses) on the Statement of Operations.

(2) The preferred membership interests issued originally at $7.5 million and $9.9 million were measured at amortized cost under the guidance of ASC 320 and are subject to a fixed principal and interest payment schedule with maturity dates of February 1, 2023 and April 1, 2024, respectively. As of December 31, 2022, the Company received in aggregate a return of capital of approximately $14.0 million and executed a new preferred membership interest agreement in aggregate of $8.5 million subject to fixed principal and interest schedules with a maturity date of July 1, 2027.

(3) Certain underlying assets of the funds are expected to be liquidated over the period of approximately 3 to 5 years from December 31, 2021. In addition, the Company does not have the ability to redeem or withdraw from the funds, or to sell, assign, or transfer its investment, without the consent of the General Partner or Managers of each fund, but will receive distributions based on the liquidation of the underlying assets and interest processed from the underlying assets.

(4) For the year ended December 31, 2021, the Company acquired common shares and warrants of an Insurtech company.

The following table summarizes the carrying value and maximum loss exposure of the Company's non-consolidated VIEs at December 31, 2022 and 2021:

| | *As of December 31, 2022* | | *As of December 31, 2021* | |
|---|---|---|---|---|
| | *Carrying Value* | *Maximum Loss Exposure* | *Carrying Value* | *Maximum Loss Exposure* |
| | *(in thousands)* | | | |
| Investments in non-consolidated VIEs | $ 16,484 | $ 16,484 | $ 23,929 | $ 23,929 |

The Company's maximum exposure to loss with respect to these investments is limited to the investment carrying amounts reported as "other investments" in the Company's consolidated balance sheet. No agreements exist requiring the Company to provide additional funding to any of the non-consolidated VIEs in excess of the Company's initial investment.

**Note 3. Goodwill and Other Intangible Assets**

For the years ended December 31, 2022 and 2021, goodwill was $0 million and $92.0 million, respectively, and intangible assets were $49.6 million and $55.9 million, respectively. The Company has recorded $1.3 million relating to insurance licenses classified as an indefinite lived intangible.

***Goodwill***

| | **Amount** |
|---|---|
| Balance as of December 31, 2019 | $ 152,459 |
| Goodwill acquired | — |
| Impairment | (60,500) |
| Balance as of December 31, 2021 | $ 91,959 |
| Goodwill acquired | — |
| Impairment | (91,959) |
| Balance as of December 31, 2022 | $ (0) |

The Company utilizes a combination of approaches to value the Company's single reporting unit. The estimate of fair value was derived from the weighting of the income approach (discounted cash flow model) in conjunction with the market approach (guideline public company method and guideline transaction method) to determine the fair value of the single reporting unit.

Management tests goodwill and other intangible assets for impairment annually during the fourth quarter, or more frequently should events or changes in circumstances indicate that goodwill or the Company's other intangible assets might be impaired. During the second quarter of 2022, management determined a triggering event occurred for which it deemed an interim evaluation of goodwill was appropriate and concluded the remaining balance of its goodwill was fully impaired. The carrying value of $92.0 million was written off based on the following factors: (i) disruptions in the equity markets, specifically for property and casualty insurance companies, largely due to recent weather-related catastrophe events; (ii) elevated loss ratios for property insurers in the Company's markets; and (iii) the Company's market cap was below book value. These factors reduced the Company's previously modeled fair value of the Company and resulted in a $92.0 million goodwill impairment charge, as of the second quarter of 2022, most of which was not tax deductible.

***Other Intangible Assets***

Our intangible assets resulted primarily from the acquisitions of Zephyr Acquisition Company and NBIC Holdings, Inc. and consist of brand, agent relationships, renewal rights, customer relations, trade names, non-competes and insurance licenses. Finite-lived intangibles assets are amortized over their useful lives from one to fifteen years.

The tables below detail the finite-lived intangible assets, net as of December 31, 2022 and 2021, respectively (amounts in thousands):

| | For the Year Ended December 31, | |
|---|---|---|
| | 2022 | 2021 |
| **Amortizing intangible assets** | (in thousands) | |
| Brand | $ 1,210 | $ 1,210 |
| Agent relationships | 15,500 | 15,500 |
| Renewal rights | 57,200 | 57,200 |
| Customer relations | 870 | 870 |
| Trade names | 9,000 | 9,000 |
| Non-compete | 4,790 | 4,790 |
| | 88,570 | 88,570 |
| Accumulated amortization | (40,310) | (33,959) |
| Total infinite-lived intangible assets, net | 48,260 | 54,611 |
| **Indefinite-lived intangible assets:** | | |
| License acquired | 1,315 | 1,315 |
| Total intangible assets, net | $ 49,575 | $ 55,926 |

Estimated annual pretax amortization of intangible assets for each of the next five years and thereafter is as follows (in thousands):

| Year | Amount |
|---|---|
| 2023 | $ 6,351 |
| 2024 | 6,351 |
| 2025 | 6,315 |
| 2026 | 6,114 |
| 2027 | 5,881 |
| Thereafter | 17,249 |
| | $ 48,260 |

Amortization expense of intangible assets was $6.4 million for each of the years ending December 31, 2022, 2021 and 2020, respectively.

**Note 4. Earnings (Loss) Per Share**

The following table sets forth the computation of basic and diluted net (loss) income per share for the periods indicated:

| | *For the Year Ended December 31,* | | |
|---|---|---|---|
| | *2022* | *2021* | *2020* |
| **Basic (loss) earnings per share:** | | | |
| Net (loss) income attributable to common stockholders (000's) | $ (154,363) | $ (74,727) | $ 9,326 |
| Weighted average shares outstanding | 26,343,826 | 27,804,355 | 27,978,519 |
| **Basic (loss) earnings per share:** | **$ (5.86)** | **$ (2.69)** | **$ 0.33** |
| | | | |
| **Diluted (loss) earnings per share:** | | | |
| Net (loss) income attributable to common stockholders (000's) | $ (154,363) | $ (74,727) | $ 9,326 |
| Weighted average shares outstanding | 26,343,826 | 27,804,355 | 27,978,519 |
| **Add: Effect of dilutive securities** | | | |
| Impact of unvested equity awards | — | — | 10,447 |
| Diluted weighted average common shares outstanding | 26,343,826 | 27,804,355 | 27,988,966 |
| **Diluted (loss) earnings per share:** | **$ (5.86)** | **$ (2.69)** | **$ 0.33** |

The Company had 84,263 and 1,569,236 anti-dilutive shares for the years ended December 31, 2022 and 2021, respectively. The convertible notes were excluded from the computations because the conversion price on these notes was greater than the average market price of our common shares during each of the respective periods, and therefore, would be anti-dilutive to earnings per share under the "if converted" method under the guidance of ASU 2020-06, adopted by the Company on January 1, 2022.

**Note 5. Fair Value Measurements**

Certain of the Company's assets are carried at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company employs a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Accordingly, when market observable data are not readily available, the Company's own assumptions are set to reflect those that market participants would be presumed to use in pricing the asset or liability at the measurement date. Assets and liabilities recorded at fair value on the consolidated balance sheets are categorized based on the level of judgment associated with inputs used to measure their fair value and the level of market price observability, as follows:

***Level 1*** – Unadjusted quoted prices are available in active markets for identical assets/liabilities as of the reporting date.

***Level 2*** – Valuations based on observable inputs, such as quoted prices similar assets or liabilities at the measurement date; quoted prices in the markets that are not active; or other inputs that are observable, either directly or indirectly.

***Level 3*** – Pricing inputs are unobservable and significant to the overall fair value measurement, and the determination of fair value requires significant management judgment or estimation.

For the Company's investments in U.S. government securities that do not have prices in active markets, agency securities, state and municipal governments, and corporate bonds, the Company obtains the fair values from its third-party valuation service and evaluates the relevant inputs, assumptions, methodologies and conclusions associated with such valuations. The valuation service calculates prices for the Company's investments in the aforementioned security types on a month-end basis by using several matrix-pricing methodologies that incorporate inputs from various sources. The model the valuation service uses to price U.S. government securities and securities of states and municipalities incorporates inputs from active market makers and inter-dealer brokers. To price corporate bonds and agency securities, the valuation service calculates non-call yield spreads on all issuers, uses option-adjusted yield spreads to account for any early redemption features, then adds final spreads to the U.S. Treasury curve as of quarter end. The inputs the valuation service uses in their calculations are not quoted prices in active markets, but are observable inputs, and therefore represent Level 2 inputs.

The following table presents information about the Company's assets measured at fair value on a recurring basis. The Company assesses the levels for the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Company's accounting policy regarding the recognitions of transfers between levels of the fair value hierarchy.

For the years ended December 31, 2022 and 2021, there were no transfers in or out of Level 1, 2, and 3.

| ***December 31, 2022*** | ***Total*** | ***Quoted Prices in Active Markets for Identical Assets (Level 1)*** | ***Significant Other Observable Inputs (Level 2)*** | ***Significant Unobservable Inputs (Level 3)*** |
|---|---|---|---|---|
| ***Invested Assets:*** | | ***(in thousands)*** | | |
| ***Debt Securities Available-for-sale*** | | | | |
| U.S. government and agency securities | $ 117,742 | $ — | $ 117,742 | $ — |
| States, municipalities and political subdivisions | 91,627 | — | 91,627 | — |

| Industrial and miscellaneous | 201,162 | — | 201,162 | — |
| Total debt securities | $ 669,354 | $ 364 | $ 668,990 | $ — |

**Non-recurring fair value measurements**

Assets and liabilities that are measured at fair value on a non-recurring basis include intangible assets and goodwill which are recognized at fair value during the period in which an acquisition is completed, from updated estimates and assumptions during the measurement period, or when they are considered to be impaired. To evaluate such assets for a potential impairment, we determine the fair value of the goodwill and intangible assets using a combination of a discounted cash flow approach and market approaches, which contain significant unobservable inputs and therefore are considered a Level 3 fair value measurement. The unobservable inputs in the analysis generally include future cash flow projections and a discount rate.

Certain of our investments in accordance with GAAP for the type of investment, are measured using methodologies other than fair value. The following table presents information for assets measured at an estimated fair value on a nonrecurring basis as of December 31, 2022:

| *Other Investments* | *Carrying Value Balance, January 1, 2022* | *Amounts impaired* | *Carrying Value Balance, December 31, 2022* |
|---|---|---|---|
| | *(in thousands)* | | |
| Goodwill [1] | $ 91,959 | $ (91,959) | — |
| Total | $ 91,959 | $ (91,959) | $ — |

| *Other Investments* | *Carrying Value Balance, January 1, 2021* | *Amounts impaired* | *Carrying Value Balance, December 31, 2021* |
|---|---|---|---|
| | *(in thousands)* | | |
| Goodwill [1] | $ 152,459 | $ (60,500) | 91,959 |
| Total | $ 152,459 | $ (60,500) | $ 91,959 |

(1) Non-cash impairment charge recorded in operating expenses in the consolidated statement of operations by the legal entity or related holding companies acquired. Goodwill that is impaired and subject to nonrecurring fair value measurements is a Level 3 valuation.

During the second quarter of 2022, the Company recorded a goodwill impairment of approximately $92.0 million. Management concluded there was a goodwill impairment based on the following factors: (i) disruptions in the equity markets, specifically for property and casualty insurance companies, largely due to recent weather-related catastrophe events; (ii) elevated loss ratios for property insurers in the Company's markets; and (iii) the Company's market cap was below book value.

For the December 31, 2021, the goodwill impairment charge of $60.5 million was recorded following the Company's annual valuation review and principally stemmed from its common stock valuation and prevailing valuation multiples in the property insurance market. The Company used a weighting of the income and market approaches to determine the fair value of the reporting unit. The impairment was based on the following factors: (i) the fair value of our stock trading significantly below book value, (ii) market capitalization control premium; and (iii) financial performance such as a negative or declining cash flows due to recent weather related catastrophes.

## Note 6. Other Comprehensive Income

The following table is a summary of other comprehensive (loss) income and discloses the tax impact of each component of other comprehensive (loss) income for the years ended December 31, 2022, 2021 and 2020, respectively:

| | *For the Year Ended December 31,* | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | *2022* | | | *2021* | | | *2020* | | |
| | *Pre-tax* | *Tax* | *After-tax* | *Pre-tax* | *Tax* | *After-tax* | *Pre-tax* | *Tax* | *After-tax* |
| | | | | | *(in thousands)* | | | | |
| **Other comprehensive (loss) income** | | | | | | | | | |
| Change in unrealized gains on investments, net | $ (64,335) | 15,126 | $ (49,209) | $ (13,661) | 3,081 | $ (10,580) | $ 20,738 | $ (4,807) | $ 15,931 |
| Reclassification adjustment of realized (gains) losses included in net (loss) income | 258 | (61) | 197 | (64) | 14 | (50) | (22,395) | 5,191 | $ (17,204) |
| **Effect on other comprehensive (loss) income** | $ (64,077) | $ 15,065 | $ (49,012) | $ (13,725) | $ 3,095 | $ (10,630) | $ (1,657) | $ 384 | $ (1,273) |

## Note 7. Other Assets

The following table summarizes the Company's other assets for the years ended December 31, 2022 and 2021:

| Description | December 31, 2022 | December 31, 2021 |
|---|---|---|
| | (in thousands) | |
| Other amounts receivable | $ 1,363 | $ 1,934 |
| State underwriting pooling & assoc. | 4,697 | 3,956 |
| Prepaid expense | 4,694 | 6,382 |
| Unallocated Remittances | 755 | — |
| **Total other assets** | $ 11,509 | $ 12,272 |

## Note 8. Leases

The Company has entered into operating and financing leases primarily for real estate and vehicles. The Company will determine whether an arrangement is a lease at inception of the agreement. The operating leases have terms of one to ten years, and often include one or more options to renew. These renewal terms can extend the lease term from two to ten years and are included in the lease term when it is reasonably certain that the Company will exercise the option. The Company considers these options in determining the lease term used in establishing our right-of-use assets and lease obligations. Our lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Because the rate implicit in each operating lease is not readily determinable, the Company uses its incremental borrowing rate to determine present value of the lease payments. The Company used the implicit rates within the finance leases.

The components of lease costs were as follows (in thousands) for the respective years:

| | For the Year Ended December 31, 2022 | For the Year Ended December 31, 2021 |
|---|---|---|
| Operating lease cost, included in General & Administrative expenses on the Consolidated Statements of Operations | $ 1,449 | $ 1,359 |
| **Finance lease cost:** | | |
| Amortization of assets, included in General & Administrative expenses on the Consolidated Statements of Operations | 2,591 | 1,969 |
| Interest on lease liabilities, included in Interest expense on the Consolidated Statements of Operations | 977 | 785 |
| **Total finance lease cost** | $ 3,568 | $ 2,754 |
| Variable lease cost, included in General & Administrative expenses on the Consolidated Statements of Operations | $ 952 | $ 542 |
| Short-term lease cost, included in General & Administrative expenses on the Consolidated Statements of Operations | $ 188 | $ 106 |

Right-of-use lease asset and Lease Liability was as follows (in thousands):

| **Operating Leases** | December 31, 2022 | December 31, 2021 |
|---|---|---|
| Right of use assets | $ 7,335 | $ 5,035 |
| Lease liability | $ 8,690 | $ 6,551 |
| **Finance Leases** | | |
| Right of use assets | $ 20,132 | $ 22,718 |
| Lease liability | $ 22,557 | $ 24,621 |

Weighted-average remaining lease term and discount rate for our operating and financing leases was as follows:

| **Weighted-average remaining lease term** | December 31, 2022 | December 31, 2021 |
|---|---|---|
| Operating lease | 6.49 yrs. | 6.23 yrs. |
| Finance lease | 8.13 yrs. | 9.1 yrs. |
| **Weighted-average discount rate** | | |
| Operating lease | 5.14 % | 5.33 % |
| Finance lease | 4.16 % | 4.18 % |

Supplemental disclosure of cash flow information related to leases were as follows:

| | For the Year Ended December 31, 2022 | For the Year Ended December 31, 2021 |
|---|---|---|
| | (in thousands) | |
| Cash payments for: | | |
| Finance lease - Operating cash flows | $ 975 | $ 291 |
| Finance lease - Financing cash flows | $ 2,063 | $ 599 |
| | | |
| Operating lease - Operating cash flows (fixed payments) | $ 1,610 | $ 1,505 |
| Operating lease - Operating cash flows (liability reduction) | $ 1,251 | $ 1,133 |

Maturities of lease liabilities for financing and operating leases were as follows as of December 31, 2022 (in thousands):

| | Financing Lease | Operating Lease |
|---|---|---|
| 2023 | $ 3,085 | $ 1,593 |
| 2024 | 3,101 | 1,572 |
| 2025 | 3,166 | 1,462 |
| 2026 | 3,197 | 1,469 |
| 2027 | 3,190 | 1,504 |
| 2028 and thereafter | 10,920 | 2,639 |
| Total lease payments | 26,659 | 10,239 |
| Less: imputed interest | (4,102) | (1,549) |
| Present value of lease liabilities | $ 22,557 | $ 8,690 |

**Note 9. Property and Equipment**

Property and equipment, net consists of the following at December 31, 2022 and 2021:

| | December 31, 2022 | December 31, 2021 |
|---|---|---|
| | (in thousands) | |
| Land | $ 2,582 | $ 2,582 |
| Building | 9,599 | 10,141 |
| Software in progress | 6,884 | — |
| Computer hardware and software | 8,851 | 7,204 |
| Office furniture and equipment | 1,381 | 1,355 |
| Tenant and leasehold improvements | 10,485 | 8,255 |
| Vehicle fleet | 594 | 720 |
| Total, at cost | 40,376 | 30,257 |
| Less: accumulated depreciation and amortization | (14,647) | (12,831) |
| Property and equipment, net | $ 25,729 | $ 17,426 |

Through December 31, 2022, the Company had invested approximately $6.9 million for software development and implementation services for a new policy, billing and claims system for which one component is anticipated to be completed and placed in service during the third quarter of 2023 with the remaining components anticipated to be placed in service in early 2024.

Depreciation expense for the years ended December 31, 2022, 2021 and 2020 was $2.0 million, $2.1 million, $1.6 million, respectively. The Company's own real estate consists of 13 acres of land, two buildings with a gross area of 88,378 square feet and a parking garage.

Expected annual rental income due under non-cancellable operating leases for our real estate properties is as follows (in thousands):

| Year | Amount |
|---|---|
| 2023 | $ 3,000 |
| 2024 | 2,751 |
| 2025 | 2,466 |
| 2026 | 2,518 |
| 2027 | 2,569 |
| 2028 and Thereafter | 14,571 |
| Total | $ 27,874 |

**Note 10. Deferred Reinsurance Ceding Commission**

The Company defers certain income in connection with its quota share treaties, the ceded reinsurance commissions income, called deferred reinsurance ceding commissions ("DRCC"), which are deferred and earned over the terms of the reinsurance agreements. Ceding commission on quota share agreements call for provisional ceding rate, subject sliding scale adjustments based on the loss experience of the reinsurers. Adjustments are reflected in current operations. The Company allocates 75% of total ceding commission income to policy acquisition costs and 25% of total ceding commission income to general and administrative expense.

The Company defers reinsurance ceding commission income, which is amortized over the effective period of the related insurance policies. For the year ended December 31, 2022, 2021 and 2020 the Company allocated ceding commission income of $46.5 million, $47.1 million and $43.0 million to policy acquisition costs and $15.4 million, $15.6 million and $14.1 million to general and administrative expense, respectively.

The table below depicts the activity with regard to deferred reinsurance ceding commission during the years ended December 31, 2022, 2021 and 2020.

| | *For the Year Ended December 31,* | | |
|---|---|---|---|
| | *2022* | *2021* | *2020* |
| | | *(in thousands)* | |
| Beginning balance of deferred ceding commission income | $ 40,405 | $ 39,995 | $ 37,464 |
| Ceding commission deferred | $ 64,201 | 63,131 | 59,664 |
| Less: ceding commission earned | $ (61,848) | (62,721) | (57,134) |
| Ending balance of deferred ceding commission income | $ 42,757 | $ 40,405 | $ 39,995 |

Deferred ceding commission income is included in Other Liabilities in the Company's consolidated financial statements.

**Note 11. Deferred Policy Acquisition Costs**

The Company defers certain costs in connection with written policies, called deferred policy acquisition costs ("DPAC"), which are amortized over the effective period of the related insurance policies.

The Company anticipates that its DPAC costs will be fully recoverable in the near term. The table below depicts the activity with regard to DPAC for the years ended December 31, 2022, 2021 and 2020:

| | *For the Year Ended December 31,* | | |
|---|---|---|---|
| | *2022* | *2021* | *2020* |
| | | *(in thousands)* | |
| Beginning Balance | $ 93,881 | $ 89,265 | $ 77,211 |
| Policy acquisition costs deferred | $ 202,793 | 193,106 | 171,275 |
| Amortization | $ (197,057) | (188,490) | (159,220) |
| Ending Balance | $ 99,617 | $ 93,881 | $ 89,265 |

**Note 12. Reinsurance**

**Overview**

**Reinsurance**

In order to limit the Company's potential exposure to individual risks and catastrophic events, the Company purchases significant reinsurance from third party reinsurers. Purchasing reinsurance is an important part of the Company's risk strategy, and premiums ceded to reinsurers is one of the Company's largest costs. The Company has strong relationships with reinsurers, which it attributes to its management's industry experience, disciplined underwriting, and claims management capabilities. For each of the twelve months beginning June 1, 2021 and 2022, the Company purchased reinsurance from the following sources: (i) the Florida Hurricane Catastrophe Fund, a state-mandated catastrophe fund ("FHCF") for Florida policies only, (ii) private reinsurers, all of which were rated "A-" or higher by A.M. Best Company, Inc. ("A.M. Best") or Standard & Poor's Financial Services LLC ("S&P") or were fully collateralized, and (iii) the Company's wholly-owned reinsurance subsidiary, Osprey Re Ltd. ("Osprey"). We also sponsored catastrophe bonds in 2022 through Citrus Re Ltd. In addition to purchasing excess of loss catastrophe reinsurance, the Company also purchased quota share, property per risk and facultative reinsurance. The Company's quota share program limits its exposure on catastrophe and non-catastrophe losses and provides ceding commission income. The Company's per risk programs limit its net exposure in the event of a severe non-catastrophe loss impacting a single location or risk. The Company also utilizes facultative reinsurance to supplement its per risk reinsurance program where the Company capacity needs dictate.

Purchasing a sufficient amount of reinsurance to cover catastrophic losses from single or multiple events or significant non-catastrophe losses is an important part of the Company's risk strategy. Reinsurance involves transferring, or "ceding", a portion of the risk exposure on policies we write to another insurer, known as a reinsurer. To the extent that the Company's reinsurers are unable to meet the obligations they assume under the Company's reinsurance agreements, the Company remains liable for the entire insured loss.

The Company's insurance regulators require all insurance companies, like us, to have a certain amount of capital and reinsurance coverage in order to cover losses and loss adjustment expenses upon the occurrence of a catastrophic event. The Company's reinsurance program provides reinsurance in excess of its state regulator requirements, which are based on the probable maximum loss that it would incur from an individual catastrophic event estimated to occur once in every 100 years based on its portfolio of insured risks. The nature, severity and location of the event giving rise to such a probable maximum loss differs for each insurer depending on the insurer's portfolio of insured risks, including, among other things, the geographic concentration of insured value within such portfolio. As a result, a particular catastrophic event could be a one-in-100-year loss event for one insurance company while having a greater or lesser probability of occurrence for another insurance company. The Company also purchases reinsurance coverage to protect against the potential for multiple catastrophic events occurring in the same year. The Company shares portions of its reinsurance program coverage among its insurance company affiliates.

**2022-2023 Reinsurance Program**

***Catastrophe Excess of Loss Reinsurance***

Effective June 1, 2022, the Company entered into catastrophe excess of loss reinsurance agreements covering Heritage Property & Casualty Insurance Company ("Heritage P&C"), Zephyr Insurance Company ("Zephyr") and Narragansett Bay Insurance Company ("NBIC"). The catastrophe reinsurance programs are allocated among traditional reinsurers, the Florida Hurricane Catastrophe Fund ("FHCF"), Citrus Re and Osprey Re Ltd ("Osprey"), the Company's captive reinsurer. The FHCF covers Florida risks only and the Company elected to participate at 90% for the 2022 hurricane season. Osprey Re will provide reinsurance for a portion of the Heritage P&C, NBIC and Zephyr programs. The Company's third-party reinsurers are either rated "A-" or higher by A.M. Best or S&P or are fully collateralized, to reduce credit risk. Osprey Re is fully collateralized.

The reinsurance program, which is segmented into layers of coverage, protects the Company for excess property catastrophe losses and loss adjustment expenses. The 2022-2023 reinsurance program provides first event coverage up to $1.2 billion for Heritage P&C, first event coverage up to $1.2 billion for NBIC, and first event coverage up to $780.0 million for Zephyr. The Company's first event retention in a 1 in 100-year event would include retention for the respective insurance company as well as any retention by Osprey. The first event maximum retention up to a 1 in 100-year event for each insurance company subsidiary is as follows: Heritage P&C – $40.0 million, of which $35.0 million would be ceded to Osprey; NBIC – $30.0 million of which $30 million would be ceded to Osprey in a shared contract with Zephyr; and Zephyr – $40 million, of which $30 million would be ceded to Osprey in a shared contract with NBIC.

The Company is responsible for all losses and loss adjustment expenses in excess of our reinsurance program. For second or subsequent catastrophic events, the Company's total available coverage depends on the magnitude of the first event, as the Company may have coverage remaining from layers that were not previously fully exhausted. An aggregate of $3.2 billion of limit purchased in 2022 includes reinstatement through the purchase of reinstatement premium protection. The amount of coverage, however, will be subject to the severity and frequency of such events.

Additionally, the Company placed an occurrence contract for business underwritten by NBIC which covers all catastrophe losses excluding named storms, on December 31, 2021, expiring December 31, 2022. The limit on the contract is $20.0 million with a retention of $20.0 million and has one reinstatement available.

The Company placed an aggregate contract for the Company's business underwritten by NBIC which covers all catastrophe losses excluding named storms, on December 1, 2022, expiring March 31, 2023. The limit on the contract is $20.0 million with an aggregate retention of $21.0 million, with a $21.0 million per occurrence cap, and a $2.0 million franchise deductible.

*Net Quota Share Reinsurance*

The Company's Net Quota Share coverage is proportional reinsurance, which applies to business underwritten by NBIC, for which certain of the Company's other reinsurance (property catastrophe excess of loss and the second layer of the general excess of loss) inures to the quota share program. An occurrence limit of $20.0 million for catastrophe losses is in effect on the quota share program, subject to certain aggregate loss limits that vary by reinsurer. The amount and rate of ceding commissions slide, within a prescribed minimum and maximum, depending on loss performance. The Net Quota Share program was renewed on December 31, 2022 ceding 41.0% of the net premiums and losses and 16% of the prior year quota share is in run off.

*Per Risk Coverage*

For losses arising from business underwritten by Heritage P&C and losses arising from commercial residential business underwritten by NBIC, excluding losses from named storms, the Company purchased property per risk coverage for losses and loss adjustment expenses in excess of $1.0 million per claim. The limit recovered for an individual loss is $9.0 million and total limit for all losses is $27.0 million. There are two reinstatements available with additional premium due based on the amount of the layer exhausted. For losses arising from commercial residential business underwritten by NBIC, the Company also purchased property per risk coverage for losses and loss adjustments expenses in excess of $750,000 per claim. The limit recovered for an individual loss is $250,000 and total limit for all losses is $750,000. There are two reinstatements available with additional premium due based on the amount of the layer exhausted.

In addition, the Company purchased facultative reinsurance for losses in excess of $10.0 million for any properties it insured where the total insured value exceeded $10.0 million. This coverage applies to losses arising from business underwritten by Heritage P&C and losses arising commercial residential business underwritten by NBIC, excluding losses from named storms.

*General Excess of Loss*

The Company's general excess of loss reinsurance protects business underwritten by NBIC and Zephyr multi-peril policies from single risk losses. For the contract period of July 1, 2022 through June 30, 2023, the coverage is $2.75 million excess $750,000 for property losses and $1.25 million excess $750,000 for casualty losses.

In addition, the Company purchased facultative reinsurance for losses underwritten by NBIC in excess of $3.5 million.

*For a discussion of 2021**-2022 Reinsurance Program** please Refer to Part II, Item 8, "Financial Statements and Supplementary Data" further "**Note 12. Reinsurance**" in our Annual Report on Form 10-K for the year ended December 31, 2021, which was filed with the SEC on March 14, 2022.*

**Effect of Reinsurance**

The Company's reinsurance arrangements had the following effect on certain items in the Consolidated Statement of Income for the year ended December 31, 2022, 2021 and 2020:

| | *For the Year Ended December 31, 2022* | | |
|---|---|---|---|
| | Premiums Written | Premiums Earned | Losses and Loss Adjustment Expenses |
| | | *(in thousands)* | |
| Direct | $ 1,275,031 | $ 1,208,824 | $ 1,318,001 |
| Ceded | (612,863) | (571,759) | (816,839) |
| Net | $ 662,168 | $ 637,065 | $ 501,162 |

| | *For the Year Ended December 31, 2021* | | |
|---|---|---|---|
| | Premiums Written | Premiums Earned | Losses and Loss Adjustment Expenses |
| | | *(in thousands)* | |
| Direct | $ 1,164,879 | $ 1,144,162 | $ 625,748 |
| Ceded | (553,147) | (533,091) | (198,378) |
| Net | $ 611,732 | $ 611,071 | $ 427,370 |

| | *For the Year Ended December 31, 2020* | | |
|---|---|---|---|
| | Premiums Written | Premiums Earned | Losses and Loss Adjustment Expenses |
| | | *(in thousands)* | |
| Direct | $ 1,080,100 | $ 996,842 | $ 609,593 |
| Ceded | (473,836) | (452,120) | (236,206) |
| Net | $ 606,264 | $ 544,722 | $ 373,387 |

**Note 13. Reserve For Unpaid Losses**

The Company determines the reserve for unpaid losses on an individual-case basis for all incidents reported. The liability also includes amounts which are commonly referred to as incurred but not reported, or "IBNR", claims as of the balance sheet date. We estimate our IBNR reserves by projecting our ultimate losses using industry accepted actuarial methods and then deducting actual loss payments and case reserves from the projected ultimate losses.

The table below summarizes the activity related to the Company's reserve for unpaid losses:

| | For the Year Ended December 31, | | |
|---|---|---|---|
| | 2022 | 2021 | 2020 |
| | (in thousands) | | |
| Balance, beginning of period | $ 590,166 | $ 659,341 | $ 613,533 |
| Less: reinsurance recoverable on unpaid losses | 301,757 | 397,688 | 393,630 |
| Net balance, beginning of period | 288,409 | 261,653 | 219,903 |
| Incurred related to: | | | |
| Current year | 497,428 | 430,907 | 392,976 |
| Prior years | 3,734 | (3,537) | (19,589) |
| Total incurred | 501,162 | 427,370 | 373,387 |
| Paid related to: | | | |
| Current year | 267,319 | 247,903 | 228,394 |
| Prior years | 150,126 | 152,711 | 103,243 |
| Total paid | 417,445 | 400,614 | 331,637 |
| Net balance, end of period | 372,126 | 288,409 | 261,653 |
| Plus: reinsurance recoverable on unpaid losses | 759,681 | 301,757 | 397,688 |
| Balance, end of period | $ 1,131,807 | $ 590,166 | $ 659,341 |

The Company believes that the reserve for unpaid losses reasonably represents the amount necessary to pay all claims and related expenses which may arise from incidents that have occurred as of the balance sheet date.

The Company's losses incurred for the year ended December 31, 2022, reflect adverse development of $3.7 million and for the years ended December 31, 2021 and 2020 reflect prior year favorable development of $3.5 million and $19.6 million, respectively, associated with management's best estimate of actuarial loss and LAE reserves with consideration given to Company specific historical loss experience.

The following is information about incurred and paid claims development as of December 31, 2022, net of reinsurance, as well as cumulative claim payments and the total of incurred-but-not-reported liabilities plus expected development on reported claims included within the net incurred claims amounts.

The information by accident year is presented as required supplementary information and are unaudited.

## Note 14. Long-Term Debt

### Convertible Senior Notes

In August 2017 and September 2017, the Company issued in aggregate $136.8 million of 5.875% Convertible Senior Notes (“Convertible Notes”) maturing on August 1, 2037, unless earlier repurchased, redeemed or converted. Interest is payable semi-annually in arrears, on February 1, and August 1 of each year.

Holders of the Convertible Notes had an optional put right, pursuant to the indenture governing the Convertible Notes, to require the Company to repurchase the aggregate principal amount of Convertible Notes that are validly tendered. The Company received notice from the Depositary for the Convertible Notes that, on July 29, 2022, $10.9 million aggregate principal amount of the Convertible Notes has been validly tendered in accordance with the terms of the indenture and the Company’s notice with respect to the optional put right of the Convertible Notes, and the Company directed the trustee to cancel the Convertible Notes tendered. Prior to this transaction, the outstanding balance as of July 31, 2022 of non-affiliated Convertible Notes was $11.8 million. On August 1, 2022, the Company made payments for the principal amount of the Convertible Notes tendered and unpaid interest in the aggregate amounts of $10.9 million and $320,041, respectively. The Company used $10.0 million from its revolving credit facility to replenish the cash used to pay the $10.9 million for the purchase of the tendered Convertible Notes.

In January 2022, the Company reacquired and retired $11.7 million of its outstanding Convertible Notes. Payment was made in cash and the Convertible Notes were retired at the time of repurchase. In addition, the Company expensed $242,700 which represents the proportionate amount of the unamortized issuance and debt discount costs associated with this repurchase.

As of December 31, 2022, the Company had approximately $885,000 of the Convertible Notes outstanding, net of $21.1 million of Convertible Notes held by an insurance company subsidiary. For the year ended December 31, 2022, the Company made interest payments, net of affiliated Convertible Notes of approximately $1.4 million, on the outstanding Convertible Notes.

As of December 31, 2021, the Company had $22.9 million of the Convertible Notes outstanding, net of issuance and debt discount costs in aggregate of approximately $506,000 and net of $21.1 million of Convertible Notes held by an insurance company subsidiary. For the year ended December 31, 2021, the Company made interest payments, net of affiliated Convertible Notes of approximately $1.4 million, on the outstanding Convertible Notes.

At December 31, 2020, the Company had $22.1 million of the Convertible Notes outstanding, net of issuance and debt discount costs in aggregate of approximately $1.3 million and net of $21.1 million of Convertible Notes held by an insurance company subsidiary. For the year ended December 31, 2020, the Company made interest payments, net of affiliated Convertible Notes of approximately $1.4 million, on the outstanding Convertible Notes.

**Mortgage Loan**

In October 2017, the Company and its subsidiary, Skye Lane Properties LLC, jointly obtained a commercial real estate mortgage loan in the amount of $12.7 million, bearing interest of 4.95% per annum and maturing on October 30, 2027. Pursuant to the terms of the mortgage loan, on October 30, 2022, the interest rate adjusted to an interest rate equal to the annualized interest rate of the United States 5-year Treasury Notes as reported by Federal Reserve on a weekly average basis plus 3.10%, which resulted in an increase of the rate from 4.95% to 7.42% per annum. The Company makes monthly principal and interest payments against the loan. For each of the respective years ended December 31, 2022 and 2021, the Company made principal and interest payments of $892,850 on the mortgage loan, respectively.

**Senior Secured Credit Facility**

The Company is party to a credit agreement dated as of December 14, 2018 (as amended from time to time, the "Credit Agreement") with a syndicate of lenders.

On November 7, 2022, the Company and its subsidiary guarantors entered into an amendment to the Credit Agreement (the "Seventh Amendment") to, among other things, (1) decrease the Revolving Credit Facility (defined below) commitments from $75 million to $50 million, (2) establish a new $25 million Term Loan Facility (defined below) to refinance loans outstanding under the existing Revolving Credit Facility and to pay fees, costs and expenses related thereto, (3) reduce, from $50 million to $25 million, the aggregate amount of potential future increases to the Revolving Credit Facility commitments and/or Term Loan Facility commitments, (4) modify the amortization of the existing term loan facility and new term loan facility to 10% per annum, paid quarterly, and (5) increase the applicable margin for loans under the Credit Agreement to a range from 2.75% to 3.25% per annum for SOFR loans (plus a 0.10% credit adjustment spread) and based on a leverage ratio (an increase from the prior range of 2.50% to 3.00%).

The Seventh Amendment also modified certain financial covenants in the Credit Agreement which may limit the Company's flexibility in connection with future financing transactions and in the allocation of capital in the future, including the Company's ability to pay dividends and make stock repurchases, and contribute capital to its insurance subsidiaries that are not parties to the Credit Agreement. Specifically, starting in the first quarter of 2023, the Seventh Amendment amended certain financial covenants as follows: (1) require additional leverage ratios under the Consolidated Leverage Ratio covenant (as defined in the Credit Agreement) after the initial step down to 2.50x in the second quarter of 2023 not to exceed 2.25x as of the second quarter of 2024 and 2.00x as of the second quarter of 2025, (2) apply all (A) Restricted Payments (as defined in the Credit Agreement) and (B) fee forgiveness & other capital contributions to the Company's regulated insurance companies that are not a party to the Credit Agreement that exceed $38 million, when calculating (i) Consolidated Tangible Net Worth (as defined in the Credit Agreement) which is required to be not less than $100 million plus 50% of positive quarterly net income (including its subsidiaries and regulated subsidiaries) plus the net cash proceeds of any equity transactions and (ii) Consolidated Fixed Charge Ratio (as defined in the Credit Agreement) which is required to be 1.20x. The Seventh Amendment also (A) eliminated the current $10 million basket available to the Company to pay dividends to its shareholders or to repurchase its securities, (B) provides for a dividend of up to $2 million in the fourth quarter of 2024 under certain conditions and (C) restricts future dividends based on maintenance of certain financial ratios, including Consolidated Tangible Net Worth. As a result, going forward, dividends and stock repurchases may be limited or restricted entirely and the Company's ability to contribute capital to its insurance subsidiaries that are not parties to the Credit Agreement may be limited.

The Credit Agreement, as amended, provides for (1) a five-year senior secured term loan facility in an aggregate principal amount of $100 million (the "Term Loan Facility") and (2) a five-year senior secured revolving credit facility in an aggregate principal amount of $50 million (inclusive of a sublimit for the issuance of letters of credit equal to the unused amount of the revolving credit facility and a sublimit for swingline loans equal to the lesser of $25 million and the unused amount of the revolving credit facility) (the "Revolving Credit Facility" and together with the Term Loan Facility, the "Credit Facilities").

Term Loan Facility. As amended by the Seventh Amendment, the principal amount of the Term Loan Facility amortizes in quarterly installments, which began with the close of the fiscal quarter ending March 31, 2019, in an amount equal to $1.9 million per quarter, payable quarterly, decreasing to $875,000 per quarter commencing with the quarter ending December 31, 2021, and increasing to $2.4 million per quarter commencing with the quarter ending December 31, 2022, with the remaining balance payable at maturity. The Term Loan Facility matures on July 28, 2026. As of December 31, 2022, there was $89.1 million in aggregate principal outstanding under the Term Loan Facility and as of December 31, 2022, after giving effect to the additional term loan advance that was used to refinance amounts outstanding under the Revolving Credit Facility and to pay fees, costs and expenses related thereto, there was $10.0 million in aggregate principal outstanding under the Revolving Credit Facility.

For the year ended December 31, 2022, the Company made principal and interest payments of approximately $5.0 million and $2.3 million, respectively and for the comparable year of 2021, the Company made principal and interest payments of approximately $4.7 million and $2.0 million on the Term Loan Facility, respectively.

Revolving Credit Facility. The Revolving Credit Facility allows for borrowings of up to $50 million inclusive of a sublimit for the issuance of letters of credit equal to the unused amount of the Revolving Credit Facility and a sublimit for swingline loans equal to

the lesser of $25 million and the unused amount of the Revolving Credit Facility. As of December 31, 2022, we had $10.0 million in borrowings and a $31.8 million letters of credit outstanding under the Revolving Credit Facility. In connection with the incurrence of additional amounts under the Term Loan Facility pursuant to the Seventh Amendment, the borrowings under the Revolving Credit Facility were repaid in full. On December 23, 2022, the Company drew $10 million from the amended Revolving Credit Facility, resulting in an outstanding principal balance under the Revolving Credit Facility in the amount of $10 million. At December 31, 2022, the Company had $32.6 million letters of credit outstanding under the Revolving Credit Facility. At January 31, 2023, $22.6 million letters of credit were terminated and there remained a letter of credit in the amount of $10 million.

At our option, borrowings under the Credit Facilities bear interest at rates equal to either (1) a rate determined by reference to SOFR, plus an applicable margin and a credit adjustment spread equal to 0.10% or (2) a base rate determined by reference to the highest of (a) the "prime rate" of Regions Bank, (b) the federal funds rate plus 0.50%, and (c) the adjusted term SOFR in effect on such day for an interest period of one month plus 1.00%, plus an applicable margin.

The Credit Agreement contains, among other things, covenants, representations and warranties and events of default customary for facilities of this type. The Company is required to maintain, as of each fiscal quarter (1) a maximum consolidated leverage ratio of 2.50 to 1.00, stepping down to 2.25 to 1.00 as of the second quarter of 2024 and 2.00 to 1.00 as of the second quarter of 2025, (2) a minimum consolidated fixed charge coverage ratio of 1.20 to 1.00 and (3) a minimum consolidated net worth for the Company and its subsidiaries, which is required to be not less than $100 million plus 50% of positive quarterly net income (including its subsidiaries and regulated subsidiaries) plus the net cash proceeds of any equity transactions. Events of default include, among other events, (i) nonpayment of principal, interest, fees or other amounts; (ii) failure to perform or observe certain covenants set forth in the Credit Agreement; (iii) breach of any representation or warranty; (iv) cross-default to other indebtedness; (v) bankruptcy and insolvency defaults; (vi) monetary judgment defaults and material nonmonetary judgment defaults; (vii) customary ERISA defaults; (viii) a change of control of the Company; and (ix) failure to maintain specified catastrophe retentions in each of the Company's regulated insurance subsidiaries.

In addition to paying interest on outstanding borrowings under the Revolving Credit Facility, we are required to pay a quarterly commitment fee based on the unused portion of the Revolving Credit Facility, which is determined by our consolidated leverage ratio.

At December 31, 2022, the effective interest rate on for the Term Loan Facility and Revolving Credit Facility was 7.317% and 7.423%, respectively. The Company monitors the rates prior to the reset date which allows it to establish if the payment is monthly or quarterly payment based on the most beneficial rate used to calculate the interest payment.

**FHLB Loan Agreements**

In December 2018, a subsidiary of the Company received a fixed interest rate 3.094% cash loan of $19.2 million from the Federal Home Loan Bank ("FHLB") Atlanta, with a maturity date of December 13, 2023. In connection with the agreement, the subsidiary became a member of FHLB. Membership in the FHLB required an investment in FHLB's common stock which was purchased in December 2018 and valued at $1.4 million. Additionally, the transaction required securities be pledged as collateral. As of December 31, 2022, the fair value of the collateralized securities was $24.2 million and the equity investment in FHLB common stock was valued at $1.5 million. As of December 31, 2022 and 2021, the Company made quarterly interest payments of approximately $601,000 and $604,000 per the terms of the agreement, respectively. As of December 31, 2022, and December 31, 2021, the Company also holds other common stock from FHLB Des Moines, and FHLB Boston carried at $319,100 and $215,900, respectively.

The following table summarizes the Company's long-term debt:

| | ***December 31, 2022*** | ***December 31, 2021*** |
|---|---|---|
| | ***(in thousands)*** | |
| Convertible debt | $ 885 | $ 23,413 |

| Deferred finance costs | $ 1,466 | $ 2,502 |
| Total long-term debt | $ 128,943 | $ 120,757 |

As of the date of this report, we were in compliance with the applicable terms of all our covenants and other requirements under the Credit Agreement, Convertible Notes, cash borrowings and other loans. Our ability to secure future debt financing depend, in part, on our ability to remain in such compliance. The covenants in the Credit Agreement may limit the Company's flexibility in connection with future financing transactions and in the allocation of capital in the future, including the Company's ability to pay dividends and make stock repurchases, and contribute capital to its insurance subsidiaries that are not parties to the Credit Agreement.

The covenants and other requirements under the revolving agreement represent the most restrictive provisions that we are subject to with respect to our long-term debt.

The schedule of principal payments on long-term debt is as follows:

| *December 31,* | *Amount* |
|---|---|
| 2023 | $ 29,039 |
| 2024 | 9,854 |
| 2025 | 9,874 |
| 2026 | 71,018 |
| 2027 | 414 |
| Thereafter | 10,210 |
| Total principal payments | $ 130,409 |

**Note 15. Income Taxes**

The following table summarizes the provision for income taxes:

| | *For the Year Ended December 31,* | | |
|---|---|---|---|
| | *2022* | *2021* | *2020* |
| | | *(in thousands)* | |
| Federal: | | | |
| Current | $ (1,196) | $ 3,015 | $ (14,863) |
| Deferred | (9,714) | (5,872) | 6,859 |
| Benefit for Federal income tax | (10,910) | (2,857) | (8,004) |
| State: | | | |
| Current | 592 | 1,634 | 1,501 |
| Deferred | (1,489) | (84) | (610) |
| (Benefit)/Provision for State income tax expense | (897) | 1,550 | 891 |
| Benefit for income taxes | $ (11,807) | $ (1,307) | $ (7,113) |

The income tax (benefit) expense differs from the amounts computed by applying the U.S. federal income tax rate of as indicated below to pretax income as a result of the following (in thousands):

| | *For the Year Ended December 31,* | | |
|---|---|---|---|
| | *2022* | *2021* | *2020* |
| Expected income tax expense at federal rate | 21.0% | 21.0% | 21.0% |
| State tax expense | 1.0% | (1.0)% | 25.9% |
| Permanent items | (0.3)% | (0.5)% | 16.0% |
| Goodwill impairment | (10.6)% | (16.7)% | 0.0% |
| Non-deductible stock compensation | (0.1)% | (0.2)% | 22.4% |
| Tax exempt interest | 0.1% | 0.1% | (18.4)% |
| Executive compensation 162(m) | (0.2)% | (0.2)% | 20.3% |
| Political contributions | 0.0% | (0.2)% | 6.2% |
| Tax rate change | 0.0% | (0.5)% | (409.1)% |
| Valuation allowance | (3.8)% | 0.0% | 0.0% |
| Other | 0.0% | 0.0% | (5.6)% |
| Reported income tax expense | 7.11% | 1.7% | (321.3)% |

The effective tax rates for 2022 and 2021 were impacted by non-deductible goodwill impairment of $92.0 million recognized during the second quarter of 2022 and $60.5 million during fourth quarter of 2021. Furthermore, the 2022 effective tax rate was impacted by the recognition of a $6.4 million valuation allowance related to a portion of its deferred tax inventory associated with its foreign domiciled captive reinsurer, Osprey Re. The Company may only realize those net deferred tax assets to the extent Osprey Re generates future taxable income.

Additionally, the effective tax rates were affected by various permanent tax differences, including disallowed executive compensation deductions which were further limited in 2017 and future years upon the enactment of H.R.1, commonly referred to as the Tax Cuts and Jobs Act ("Tax Act"). The effective tax rate for 2020 benefitted from a tax rate change related to a carryback of a tax net operating loss, which was carried back five years under The Coronavirus Aid, Relief, and Economic Security (CARES) Act.

On March 27, 2020, former President Trump signed into law the CARES Act to mitigate the economic impacts of the COVID-19 crisis. The CARES Act amended the law for net operating losses generated in taxable years beginning after December 31, 2017 and before January 1, 2021. Net operating losses generated by a corporation during these taxable years are allowed a five-year carryback

period. As the Company had a 2020 tax net operating loss, the Company's 2020 rate reconciliation reflects the favorable $7.1 million tax benefit from carrying back tax losses to years for which the statutory rate was 35%.

- Enactment of the Inflation Reduction Act of 2022

  The Inflation Reduction Act of 2022 (Tax Act) was enacted on August 16, 2022. Along with other changes, the Tax Act created a new corporate alternative minimum tax (AMT) for certain corporations based on 15% of adjusted financial statement income for the taxable year. The Company does not meet the requirements to be subject to the AMT for 2023. In addition, the Tax Act imposes a 1% excise tax on corporate stock repurchases. The effective date of these two provisions was January 1, 2023.

The significant components of deferred tax assets and liabilities included in the consolidated balance sheets as of December 31, 2022 and 2021 were as follows:

| | *For the Year Ended December 31,* | |
|---|---|---|
| | ***2022*** | ***2021*** |
| **Deferred tax assets:** | *(in thousands)* | |
| Unearned premiums | $ 17,060 | $ 15,805 |
| Unearned commission | 10,053 | 9,459 |
| Net operating loss | 1,189 | 1,222 |
| Tax-related discount on loss reserve | 4,902 | 3,872 |
| Stock-based compensation | 297 | 84 |
| Accrued expenses | 1,016 | 1,182 |
| Leases | 885 | 792 |
| Unrealized losses | 16,987 | 1,913 |
| Dual Consolidated loss limitation | 9,740 | — |
| Other | 238 | 472 |
| Total deferred tax asset | 62,367 | 34,801 |
| Valuation allowance | (6,376) | — |
| Adjusted deferred tax asset | 55,991 | 34,801 |
| Deferred tax liabilities: | | |
| Deferred acquisition costs | $ 23,420 | $ 21,977 |
| Prepaid expenses | 180 | 177 |
| Property and equipment | 2,200 | 1,504 |
| Note discount | 290 | 187 |
| Basis in purchased investments | 28 | 34 |
| Basis in purchased intangibles | 11,178 | 14,550 |
| Internal revenue code 481(a) | — | 4,416 |
| Other | 1,854 | 1,382 |
| Total deferred tax liabilities | 39,150 | 44,227 |
| Net deferred tax assets (liabilities) | $ 16,841 | $ (9,426) |

The Company had no capital loss carryforward as of December 31, 2022.

In assessing the net carrying amount of deferred tax assets, we consider whether it is more likely than not that we will not realize some portion or all of the deferred tax assets. The ultimate realization of deferred tax assets depends upon the generation of future taxable income during the periods in which those temporary differences become deductible. We consider the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. During 2022, the Company recorded a $6.4 million valuation allowance related to a portion of its deferred tax inventory related to a portion of its deferred tax inventory associated with its foreign domiciled captive reinsurer, Osprey Re. The Company may only realize those net deferred tax assets to the extent Osprey Re generates future taxable income.

As of December 31, 2022, the Company has a gross operating loss carryforward for federal and state income tax purposes of $0 and $27.4 million, respectively, which will expire between 2040 and 2042. The statute of limitations related to our federal and state income tax returns remains open from our filings for 2019 through 2021. There are currently no tax years under examination.

As of December 31, 2022, the Company had no uncertain tax positions or unrecognized tax benefits that, if recognized, would impact the effective income tax rate.

Our reinsurance affiliate, Osprey Re, Ltd., which is based in Bermuda, made an irrevocable election under section 953(d) of the U.S. Internal Revenue Code of 1986, as amended, to be treated as a domestic insurance company for U.S. Federal income tax purposes. As a result of this election, our reinsurance subsidiary is subject to United States income tax as if it were a U.S. corporation.

As of December 31, 2022, the Company had no uncertain tax positions or unrecognized tax benefits that, if recognized, would impact the effective income tax rate.

**Note 16. Statutory Accounting and Regulations**

State laws and regulations, as well as national regulatory agency requirements, govern the operations of all insurers such as our insurance subsidiaries. The various laws and regulations require that insurers maintain minimum amounts of statutory surplus and risk-based capital; restrict insurers' ability to pay dividends; restrict the allowable investment types and investment mixes and subject the Company's insurers to assessments.

The Company's insurance subsidiaries are required to file with state insurance regulatory authorities an "Annual Statement" which report under the statutory-basis of accounting which differs from GAAP, among other items, net income and surplus as regards policyholders, which is called stockholder's equity under GAAP. Combined results of the Company's insurance subsidiaries reported statutory-basis net loss of $33.3 million and $38.3 million for the years ended December 31, 2022 and 2021, respectively. The Company's insurance subsidiaries must maintain capital and surplus ratios or balances as determined by the regulatory authority of the states in which they are domiciled. Heritage P&C is required to maintain statutory-basis capital and surplus equal to the greater of $15 million or 10% of their respective liabilities. Zephyr is required to maintain a deposit of $750,000 in a federally insured financial institution. NBIC is required to maintain statutory-basis capital and surplus of $3.0 million. The combined statutory surplus for Heritage P&C, NBIC, and Zephyr was $276.3 million at December 31, 2022. The combined statutory-basis surplus for Heritage P&C, NBIC, and Zephyr was $302.1 million at December 31, 2021. State laws also require the Company's insurance subsidiaries to adhere to prescribed premium-to-capital surplus ratios, with which the Company's insurance affiliates are complying. At December 31, 2022, our insurance subsidiaries met the financial and regulatory requirements of the states in which they do business.

The legislatures of the states of domicile of our insurance affiliates have adopted the National Association of Insurance Commissioners ("NAIC") recommendations with regard to expansion of the regulation of insurers to include non-insurance entity affiliates. Specifically, the law permits the state insurance regulators to examine affiliated entities within an insurance holding company system in order to ascertain the financial condition of the insurer. The law also provides for certain disclosures regarding enterprise risk, which are satisfied by the provision of related information filed with the SEC.

The NAIC published risk-based capital guidelines for insurance companies that are designed to assess capital adequacy and to raise the level of protection that statutory-basis surplus provides for policy holders. Most states, including Florida, Hawaii, and Rhode Island, have enacted the NAIC guidelines as statutory requirements, and insurers having less statutory-basis surplus than required will be subject to varying degrees of regulatory action, depending on the level of capital inadequacy. State insurance regulatory authorities could require an insurer to cease operations in the event the insurer fails to maintain the required statutory capital.

State laws for Florida, Hawaii, and Rhode Island permit an insurer to pay dividends or make distributions out of that part of statutory surplus derived from net operating profit and net realized capital gains. The applicable laws pertain to the state of domicile of each insurance company affiliate and provide calculations to determine the amount of dividends or distributions that can be made without the prior approval of the insurance regulatory authority and the amount of dividends or distributions that would require prior approval of the insurance regulatory authority. In the state of Florida, a dividend may be taken without regulatory approval if the dividend is equal to or less than the greater of 10% of the insurer's surplus or the insurer's net income. In the state of Rhode Island, a dividend may be taken without regulatory approval if the dividend is equal to or less than the lesser of 10% of the insurer's surplus or the insurer's net income excluding realized capital gains. The state of Hawaii restricts dividends without regulatory approval to the smaller of prior years' net income or 10% of prior year's surplus. Heritage P&C and NBIC have not paid dividends in any of the last three years. Zephyr paid dividends of $4.3 million and $6.8 million for the years ended December 31, 2022 and 2021.

Statutory risk-based capital requirements may further restrict our insurance subsidiaries ability to pay dividends or make distributions if the amount of the intended dividend or distribution would cause statutory-basis surplus to fall below minimum risk-based capital requirements.

State insurance laws limits an insurer's investment in equity instruments and also restricts investments in medium to low quality debt instruments. The Company's insurance affiliates were in compliance with all investment restrictions at December 31, 2022 and 2021.

Governmental agencies or certain quasi-governmental entities can levy assessments upon the Company in the states in which the Company writes policies. Refer to Note 1 "*Basis of Presentation, Nature of Business and Significant Accounting Policies and Practices"* to these consolidated financial statements for further information for a description of how the Company recovers assessments imposed upon it. Governmental agencies or certain quasi-governmental entities can also levy assessments upon policyholders, and the Company collects the amount of the assessments from policyholders as surcharges for the benefit of the assessing agency. There are currently assessments being collected from policyholders and remitted to governmental or quasi-governmental entities. If an assessment becomes levied the Company would multiply the premium written on each policy by these

assessment percentages to determine the additional amount that it will collect from the policyholder and remit to the assessing agencies.

The Company reported its insurance subsidiaries' assets, liabilities and results of operations in accordance with GAAP, which varies from statutory-basis accounting principles prescribed or permitted by state laws and regulations, as well as by general industry practices.

The Company's reinsurance subsidiary, Osprey, which was incorporated on April 23, 2013, is licensed as a Class 3A Insurer under The Bermuda Insurance Act 1978 and related regulations. Osprey is required to meet and maintain certain minimum levels of solvency and liquidity. Each year Osprey is required to file with the Bermuda Monetary Authority (the "Authority") a Capital and Solvency Return, Statutory Financial Return and Audited Financial Statements within four months of its relevant financial year end. Osprey maintains sufficient collateral to comply with regulatory requirements as of December 31, 2022. Bermuda's standard for financial statement reporting is U.S. GAAP.

**Note 17. Commitments and Contingencies**

The Company is involved in claims-related legal actions arising in the ordinary course of business. The Company accrues amounts resulting from claims-related legal actions in unpaid losses and loss adjustment expenses during the period that it determines an unfavorable outcome becomes probable and it can estimate the amounts. Management makes revisions to its estimates based on its analysis of subsequent information that the Company receives regarding various factors, including: (i) per claim information; (ii) company and industry historical loss experience; (iii) judicial decisions and legal developments in the awarding of damages; and (iv) trends in general economic conditions, including the effects of inflation.

**Note 18. Accounts Payable and Other Liabilities**

Other liabilities consist of the following as of December 31, 2022 and 2021:

| ***Description*** | | ***December 31, 2022*** | | ***December 31, 2021*** |
|---|---|---|---|---|
| | | *(in thousands)* | | |
| Deferred ceding commission | | 42,758 | $ | 40,406 |
| Accounts payable and other payables | | 17,660 | | 10,086 |
| Accrued dividends | | 72 | | 1,634 |
| Accrued interest and issuance costs | | 733 | | 735 |
| Other liabilities | | 229 | | 195 |
| Premium tax | | 1,001 | | 871 |
| Commission payables | | 17,558 | | 17,598 |
| Total other liabilities | $ | 80,010 | $ | 71,525 |

**Note 19. Accrued Bonus Compensation**

For the year ended December 31, 2022, the Company recognized bonus expense of $2.1 million, of which $2.0 million remains unpaid. For the year ended December 31, 2021, the Company recognized employee bonus compensation expense in aggregate of $3.4 million, of which $3.0 million was unpaid until 2022.

**Note 20. Related Party Transactions**

In July 2020, the Board of Directors appointed Mark Berset to the Board of Directors of the Company. Mr. Berset is also the Chief Executive Officer of Comegys Insurance Agency, Inc. ("Comegys"), an independent insurance agency that writes policies for Company. The Company pays commission to Comegys based upon standard industry rates consistent with those provided to the Company's other insurance agencies. There are no arrangements or understandings between Mr. Berset and any other persons with respect to his appointment as a director. For the years ended December 31, 2022, 2021 and 2020, the Company paid agency commission to Comegys of approximately $572,600, $843,180 and $1.0 million, respectively.

**Note 21. Employee Benefit Plan**.

The Company provides a 401(k) plan for substantially all employees. The Company provides a matching contribution of 100% on the first 3% of employees' contribution and 50% on the next 2% of the employees' contribution to the plan. The maximum match is 4%. For the years ended December 31, 2022, 2021 and 2020, the contributions made to the plan on behalf of the participating employees were approximately $1.3 million, $1.3 million and $1.2 million, respectively.

Effective September 1, 2021, the Company terminated its self-insured healthcare plan and enrolled in a flex healthcare plan which allows employees the choice of three medical plans with a range of coverage levels and costs. For the years ended December 31, 2022, 2021 and 2020, the Company incurred medical costs of $4.9 million, $3.5 million and $4.1 million, respectively. As of

December 31, 2022 and 2021, the Company had $221,386 and $422,800 of liability from the Company's legacy self-insured healthcare plan. The current healthcare plan is fully insured.

**Note 22. Equity**

The total amount of authorized capital stock consists of 50,000,000 shares of common stock and 5,000,000 shares of preferred stock. As of December 31, 2022, the Company had 25,539,433 shares of common stock outstanding, 12,231,674 treasury shares of common stock and 648,493 shares of unvested shares of restricted common stock issued reflecting total paid-in capital of $334.7 million as of such date.

**Common Stock**

Holders of common stock are entitled to one vote for each share held on all matters subject to a vote of stockholders, subject to the rights of holders of any outstanding preferred stock. Accordingly, holders of a majority of the shares of common stock entitled to vote in any election of directors may elect all of the directors standing for election, subject to the rights of holders of any outstanding preferred stock. Holders of common stock will be entitled to receive ratably any dividends that the board of directors may declare out of funds legally available therefor, subject to any preferential dividend rights of outstanding preferred stock. Upon the Company's liquidation, dissolution or winding up, the holders of common stock will be entitled to receive ratably its net assets available after the payment of all debts and other liabilities and subject to the prior rights of holders of any outstanding preferred stock. Holders of common stock have no preemptive, subscription, redemption or conversion rights. There is no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of the Company's capital stock (excluding restricted stock) are fully paid and nonassessable.

**Stock Repurchase Program**

On August 1, 2019, the Company announced that its Board of Directors ratified a stock repurchase program authorizing the Company to repurchase up to $50.0 million of its common stock which had expired on December 31, 2020. As of December 31, 2020, the Company repurchased in aggregate 2,065,042 shares of its common stock since authorizing the stock repurchase program for $26.2 million. On November 2, 2020, the Board of Directors extended the Company's existing share repurchase program from December 31, 2020 to December 31, 2021 and increased the authorization under the program from the $23.8 million remaining to $50.0 million, which repurchases may be made under the Company's current Rule 10b5-1 trading plan, which allows the Company to purchase shares below a predetermined price per share, or otherwise. As of December 31, 2021, the Company repurchased in aggregate 1,256,898 shares of its common stock under its repurchase program for $8.2 million. The stock purchase program expired on December 31, 2022.

On December 19, 2021, the Board of Directors established a new share repurchase program plan to commence upon December 31, 2021, for the purpose of repurchasing up to an aggregate of $25.0 million of common stock, through the open market or in such other manner as will comply with the terms of applicable federal and state securities laws and regulations, including without limitation, Rule 10b-18 under the Securities Act at any time or from time to time on or prior to December 31, 2022. As of December 31, 2022, the Company repurchased in aggregate 1,694,937 shares of its common stock under its repurchase program for $7.3 million. The stock purchase program expired on December 31, 2022.

On December 15, 2022, the Board of Directors established a new share repurchase program plan to commence upon December 31, 2022, for the purpose of repurchasing up to an aggregate of $10.0 million of common stock, through the open market or in such other manner as will comply with the terms of applicable federal and state securities laws and regulations, including without limitation, Rule 10b-18 under the Securities Act at any time or from time to time on or prior to December 31, 2023 (the "New Share Repurchase Plan").

**Dividends**

On March 4, 2022, the Company announced that its Board of Directors declared a $0.06 per share quarterly dividend payable on April 6, 2022 to stockholders of record as of March 17, 2022.

On May 5, 2022, the Company announced that its Board of Directors declared a $0.06 per share quarterly dividend payable on July 5, 2022 to stockholders of record as of June 14, 2022.

On August 3, 2022, the Board of Directors elected to allocate the $0.06 per share typically used to pay a quarterly dividend to shareholders to repurchase common stock totaling $1.7 million. The Board of Directors re-evaluates dividend distribution on a quarterly basis and will make a determination, in part, based on the current stock trading price as compared to book value.

**Note 23. Stock-Based Compensation**

*Restricted Stock*

The Company has adopted the Heritage Insurance Holdings, Inc., Omnibus Incentive Plan (the "Plan") effective on May 22, 2014. The Plan authorized 2,981,737 shares of common stock for issuance under the Plan for future grants.

At December 31, 2022, there were 386,603 shares available for grant under the Plan. The Company recognizes compensation expense under ASC 718 for its stock-based payments based on the fair value of the awards.

The Company has granted shares of its common stock subject to certain restrictions under the Plan. Restricted stock awards granted to employee's vest in equal installments generally over a three to five year period from the grant date subject to the recipient's continued employment. The fair value of restricted stock awards is estimated by the market price at the date of grant and amortized on a straight-line basis to expense over the period of vesting. Recipients of restricted stock awards granted prior to 2021 have the right to receive dividends; dividends accrue but are not paid until vesting for recipients of restricted stock awards granted 2021 and thereafter.

Effective January 1, 2022, the Board of Directors approved the recommendations made by the Compensation Committee to revise the non-employee director compensation policy to provide that: (i) each non-employee director of the Company is entitled to an annual cash fee of $125,000, payable quarterly; (ii) each member of a committee of the Board is entitled to an additional annual cash fee of $2,500; (iii) each chair of a committee of the Board is entitled to an additional $5,000 annual cash fee; (iv) the chair of the Board, to the extent the chair is a non-employee director, is entitled to an additional annual cash fee of $20,000; and (v) each non-employee director of the Company is granted annually a number of shares of restricted stock with a value equal to $40,000 at the date of issuance, a grant date of the date of the annual meeting of stockholders of the Company and which restricted stock will vest on the earlier of the one-year anniversary of the date of issuance and the day immediately prior to the date of the following year's annual meeting of stockholders of the Company.

During the first quarter of 2022, the Company awarded 3,636 shares and 115,327 shares of time-based restricted stock with at the time of grant a fair value of $5.50 and $6.72 per share, respectively to certain employees. The time-based restricted stock will vest in two and three year equal installments on December 27, 2022, 2023 and 2024, respectively. In addition, during the first quarter of 2022, the Company awarded 10,909 shares and 245,536 shares of performance-based restricted stock with at the time grant a fair value of $5.50 and $6.72 per share, respectively. The performance-based restricted stock has a three-year performance period beginning on January 1, 2022 and ending on December 31, 2024 and will vest following the end of the performance period but no later than March 5, 2025.

In January 2022, the Company awarded to non-employee directors in aggregate 21,768 shares of restricted stock with a fair value at the time of grant of $5.88 per share which were to vest on the date of the next annual meeting of the Company's stockholders that occurs after the award date, provided the member remains on the Board until such date. The Company's annual shareholders meeting was held on June 23, 2022, at which time the restricted stock was effectively vested.

In June 2022, the Company awarded to non-employee directors in aggregate 99,376 shares of restricted stock with a fair value at the time of grant of $3.22 per share. The awards will vest on the earlier of the one year anniversary of the grant date and the date immediately prior to the date of the next annual meeting of the Company's stockholders that occurs after the award date, provided the member remains on the Board until such date.

For the performance-based restricted stock the numbers of shares that will be earned at the end of the performance period is subject to decrease based on the results of the performance condition.

The Plan authorizes the Company to grant stock options at exercise prices equal to the fair market value of the Company's stock on the dates the options are granted. The Company has not granted any stock options since 2015 and all unexercised stock options have since been forfeited.

Restricted stock activity for the three years ended December 31, 2022, 2021 and 2020 is as follows:

| | Number of shares | Weighted-Average Grant-Date Fair Value per Share |
|---|---|---|
| **Non-vested, at December 31, 2019** | 345,534 | $ 19.56 |
| Granted | 15,000 | 10.68 |
| Vested | (13,044 ) | 13.17 |
| Canceled and surrendered | (247,223 ) | 9.49 |
| **Non-vested, at December 31, 2020** | 100,267 | $ 15.37 |
| Granted - Performance-based restricted stock | 174,689 | 9.45 |
| Granted - Time-based restricted stock | 80,104 | 9.68 |
| Vested | (43,711 ) | 9.61 |
| Canceled and surrendered | (28,257 ) | 10.69 |
| **Non-vested, at December 31, 2021** | 283,092 | $ 9.32 |
| Granted - Performance-based restricted stock | 256,445 | 6.67 |
| Granted - Time-based restricted stock | 240,107 | 5.18 |
| Vested | (90,458 ) | 4.81 |
| Canceled and surrendered | (40,693 ) | 4.40 |
| **Non-vested, at December 31, 2022** | 648,493 | $ 7.38 |

Awards are being amortized to expense over a one to five year vesting period. The Company recognized $2.0 million, $1.2 million and $4.7 million of compensation expense for the years ended December 31, 2022, 2021 and 2020, respectively.

During the year ended December 31, 2022, the Company granted in aggregate 484,130, net of 12,422 canceled shares of time-based and performance-based restricted stock. During the year ended December 31, 2022, 96,961 shares of restricted stock were vested and released. Of the stock released to employees, 28,271 shares were withheld to cover withholding taxes of $94,000. During the year ended December 31, 2021, the Company granted in aggregate 254,793 shares of time-based and performance-based restricted stock. During the year ended December 31, 2021, 71,968 shares of restricted stock were vested and released. Of the stock released to employees, 28,257 shares were withheld to cover withholding taxes of $231,000. During the year ended December 31, 2020, 260,267 shares of restricted stock were vested and released. Of the stock released to employees, 247,223 shares were withheld by the Company to cover withholding taxes of $2.4 million.

At December 31, 2022, there was approximately $926,640 unrecognized expense related to time-based unvested restricted stock and an additional $1.1 million for performance-based restricted stock, which is expected to be recognized over the remaining restriction periods as described in the table below. For the comparable period in 2021, there was $2.0 million of unrecognized expense.

Additional information regarding the Company's outstanding non-vested time-based restricted stock and performance-based restricted stock at December 31, 2022 is as follows:

| Grant date | Restricted shares unvested | Share Value at Grant Date Per Share | Remaining Restriction Period (Years) |
|---|---|---|---|
| February 12, 2018 | 25,000 | 16.35 | 0.0 |
| January 4, 2021 | 111,857 | 10.43 | 1.2 |
| April 13, 2021 | 32,681 | 10.71 | 1.2 |
| October 18, 2021 | 56,853 | 6.89 | 1.2 |
| March 3, 2022 | 12,727 | 5.50 | 2.2 |
| March 16, 2022 | 322,421 | 6.72 | 2.2 |
| June 23, 2022 | 86,954 | 3.22 | 0.5 |
| | 648,493 | | |

**Note 24. Selected Quarterly Financial Data (unaudited)**

The following table provides a summary of unaudited quarterly results for the periods presented (in thousands, except per share data):

| For the year ended December 31, 2022 | First Quarter | Second Quarter | Third Quarter | Fourth Quarter |
|---|---|---|---|---|
| Net premiums earned | $ 152,929 | $ 158,271 | $ 159,693 | $ 166,171 |
| Investment income | $ 2,000 | $ 2,163 | $ 2,887 | $ 4,927 |
| Total revenues | $ 158,608 | $ 163,770 | $ 165,493 | $ 174,589 |
| Total operating expenses(1) | $ 198,019 | $ 249,322 | $ 212,801 | $ 159,679 |
| Operating (loss) income | $ (39,411) | $ (85,552) | $ (47,308) | $ 14,908 |
| Net (loss) income | $ (30,759) | $ (87,866) | $ (48,240) | $ 12,501 |
| Basic net (loss) income per share | $ (1.15) | $ (3.32) | $ (1.83) | $ 0.49 |
| Diluted net (loss) income per share | $ (1.15) | $ (3.32) | $ (1.83) | $ 0.48 |

| For the year ended December 31, 2021 | First Quarter | Second Quarter | Third Quarter | Fourth Quarter |
|---|---|---|---|---|
| Net premiums earned | $ 142,199 | $ 146,499 | $ 162,445 | $ 159,928 |
| Investment income | $ 1,293 | $ 956 | $ 1,548 | $ 1,855 |
| Total revenues | $ 147,243 | $ 150,197 | $ 167,408 | $ 166,712 |
| Total operating expenses(1) | $ 153,075 | $ 154,187 | $ 182,785 | $ 209,578 |
| Operating (loss) income | $ (5,832) | $ (3,990) | $ (15,377) | $ (42,865) |
| Net (loss) income | $ (5,148) | $ (3,950) | $ (16,410) | $ (49,218) |
| Basic net (loss) income per share | $ (0.19) | $ (0.14) | $ (0.59) | $ (1.79) |
| Diluted net (loss) income per share | $ (0.19) | $ (0.14) | $ (0.59) | $ (1.79) |

The sum of quarterly amounts, including per share amounts, may not equal amounts reported for year-to-date periods. This is due to the effects of rounding and changes in the number of weighted-average shares outstanding for each period.

(1) The second quarter of 2022 and the fourth quarter of 2021 results include a $92.0 million and $60.5 million impairment of goodwill, respectively. Refer to **Note 3** "*Goodwill and Other Intangible Assets*" to these consolidated financial statements for further information on our 2022 and 2021 goodwill impairment charge.

**Note 25. Subsequent Events**

The Company performed an evaluation of subsequent events through the date the condensed consolidated financial statements were issued and determined there were no recognized or unrecognized subsequent events that would require an adjustment or additional disclosure in the condensed consolidated financial statements as of December 31, 2022.

## Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None

## Item 9A. Controls and Procedures

### Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) that are designed to assure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

As required by Exchange Act Rule 13a-15(b), as of the end of the period covered by this Annual Report, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of our disclosure controls and procedures. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of December 31, 2022.

### Limitations on Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, do not expect that our disclosure controls and procedures will prevent all errors and fraud. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives. Further, the design of a control system must reflect the fact that there are resource constraints, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management's override of the control.

The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

### Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Internal control over financial reporting is a process designed under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

As of December 31, 2022, our management assessed the effectiveness of our internal control over financial reporting using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control-Integrated Framework, or 2013 Framework. Based on this assessment, our management concluded that, as of December 31, 2022, our internal control over financial reporting was effective based on those criteria.

Plante & Moran, PLLC, the independent registered public accounting firm who also audited the Company's consolidated financial statements included in this Form 10-K, has issued their attestation report on the Company's internal control over financial reporting presented in Part IV, Item 15 of this report under "Report of Independent Registered Public Accounting Firm."

### Changes in Internal Control Over Financial Reporting

There has been no change in our internal controls over financial reporting during our most recent quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## Item 9B. Other Information

Not applicable

## Item 9C. Disclosure Regarding Foreign Jurisdictions That Prevent Inspections

Not applicable

# PART III

## Item 10. Directors, Executive Officers and Corporate Governance

The items required by Part III, Item 10 are incorporated herein by reference from the Registrant's Proxy Statement for its 2023 Annual Meeting of Stockholders to be filed with the SEC within 120 days after the end of our fiscal year ended December 31, 2022.

## Item 11. Executive Compensation

The items required by Part III, Item 11 are incorporated herein by reference from the Registrant's Proxy Statement for its 2023 Annual Meeting of Stockholders to be filed with the SEC within 120 days after the end of our fiscal year ended December 31, 2022.

## Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

## SCHEDULE II – CONDENSED FINANCIAL INFORMATION OF REGISTRANT

### Notes to Condensed Financial Statements

### (1) Organization and Basis of Presentation

Heritage Insurance Holdings, Inc., (“we”, “our”, “us” and “Heritage”), established in 2012 and incorporated in the state of Delaware in 2014, is a property and casualty insurance holding company that provides personal and commercial residential property insurance. We are headquartered in Tampa, Florida and, through our insurance company subsidiaries, Heritage Property & Casualty Insurance Company (“Heritage P&C”), Narragansett Bay Insurance Company (“NBIC”) and Zephyr Insurance Company (“Zephyr”), we write personal residential property insurance for single-family homeowners and condominium owners, and rental property insurance in the states of Alabama, California, Connecticut, Delaware, Florida, Georgia, Hawaii, Maryland, Massachusetts, Mississippi, New Jersey, New York, North Carolina, Rhode Island, South Carolina, and Virginia. We also provide commercial residential insurance for properties in Florida, New Jersey, and New York and are also licensed in the state of Pennsylvania. In order to limit our potential exposure to catastrophic events, we purchase significant reinsurance from third party reinsurers and may sponsor catastrophe bonds issued by Citrus Re Ltd.

The accompanying condensed financial statements included the activity of Heritage and the equity basis of its consolidated subsidiaries. Accordingly, these condensed financial statements have been presented for the parent company only. These condensed financial statements should be read in conjunction with the consolidated financial statements and related notes of Heritage Insurance and subsidiaries set forth in Part II, Item 8 Financial Statements and Supplemental Data of this Annual Report.

In applying the equity method to our consolidated subsidiaries, we record the investment at cost and subsequently adjust for additional capital contributions, distributions and proportionate share of earnings or losses.

## SCHEDULE V – VALUATION ALLOWANCES AND QUALIFYING ACCOUNTS

**Report of Independent Registered Public Accounting Firm on Supplemental Information**

To the Board of Directors and Stockholders
Heritage Insurance Holdings, Inc.

We have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements of Heritage Insurance Holdings, Inc. (the "Company") as of and for the year ended December 31, 2022 and issued our report thereon dated March 13, 2023, which expressed an unqualified opinion on those consolidated financial statements and is included at Item 8 in this Form 10-K. The supplemental information contained in the consolidated financial statement schedules of the Company in the accompanying index at Item 15 in this Form 10-K has been subjected to audit procedures performed in conjunction with the audit of the Company's consolidated financial statements. The supplemental information is the responsibility of the Company's management. Our audit procedures included determining whether the supplemental information reconciles to the consolidated financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.
