Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. **For common equity, describe any dividend, voting and preemption rights.**

Voting Rights. Holders of our common stock are entitled to one vote per share in the election of directors and on all other matters on which stockholders are entitled or permitted to vote. Holders of our common stock are not entitled to cumulative voting rights.

Dividend Rights. Subject to the terms of any outstanding series of preferred stock, the holders of our common stock are entitled to dividends in the amounts and at times as may be declared by the board of directors out of funds legally available therefor.

Liquidation Rights. Upon liquidation or dissolution, holders of our common stock are entitled to share ratably in all net assets available for distribution to stockholders after we have paid, or provided for payment of, all of our debts and liabilities, and after payment of any liquidation preferences to holders of our preferred stock.

Other Matters. Holders of our common stock have no redemption, conversion or preemptive rights. There are no sinking fund provisions applicable to our common stock. The rights, preferences and privileges of the holders of our common stock are subject to the rights of the holders of shares of any series of preferred stock that we may issue in the future.

2. **For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.**

Voting. Holders of our preferred stock are entitled to the number of votes equal to the number of whole shares of common stock into which such shares of preferred stock can be converted and on all matters on which stockholders are entitled or permitted to vote, voting together and not as separate classes.

Dividend Rights. The holders of our preferred stock are entitled to dividends in the amounts and at times as may be declared by the board of directors out of funds legally available therefor.

Liquidation Rights. Upon liquidation or dissolution, holders of our preferred stock are entitled to an amount per share equal to one-third of the per share purchase price of the Series A Preferred Stock, the Series A-1 Preferred Stock and Series B Preferred Stock, as the case may be, or if the net assets are insufficient to pay such amounts, then the holders will share ratably in all net assets available for distribution to stockholders after we have paid, or provided for payment of, all of our debts and liabilities, and prior to payment of any liquidation preferences to holders of our common stock.

3. **Describe any other material rights of common or preferred stockholders.**

Rank. Holders of our preferred stock shall, with respect to dividend rights, and rights on liquidation, dissolution and winding up of the affairs, rank senior to the Common Stock and to all other classes and series of equity securities which are not by their terms expressly senior to, or on parity with, the Series A Preferred Stock, the Series A-1 Preferred Stock and the Series B Preferred Stock with respect to dividend rights, and rights on liquidation, dissolution and winding up of the affairs.

4. **Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.**

● On March 24, 2023, Vyant Bio, Inc. (the "Company") terminated its Equity Distribution Agreement, dated April 8, 2022, by and between the Company and Canaccord Genuity LLC, regarding the issue and sale, from time to time, of shares of the Company's common stock for an aggregate offering price of up to $20,000,000.

● On March 24, 2023, the "Company") terminated its Purchase Agreement, dated March 28, 2022, by and between the Company and Lincoln Park Capital Fund, LLC, regarding the issue and sale, from time to time, of shares of the Company's common stock for an aggregate offering price of up to $15,000,000.

● On March 24, 2023, the Company filed post-effective amendments to certain of its registration statements previously filed with the SEC, including post-effective amendments to each of: (i) Registration Statement Nos. 333-249513, 333-252628, 333-239497, and 333-218229 on Form S-3; (ii) Registration Statement Nos. 333-191520, 333-191521, 333-196198, 333-205903, 333-256225 and 333-214599 on Form S-8; and (ii) Registration Statement No. 333-215284 and 333-264595 on Form S-1 (such post-effective amendments, collectively the "Post-Effective Amendments" and such registration statements, collectively the "Registration Statements"). In accordance with undertakings made by the Company in each of the Registration Statements to remove from registration, by means of a post-effective amendment, any and all securities of the Company that were registered for issuance that remain unsold at the termination of the offerings, the Company removed from registration any and all securities of the Company registered but unsold under each of the Registration Statements. As a result of this deregistration, no securities remain registered for sale pursuant to the Registration Statements.

● On April 24, 2023 the Company's Board of Directors determined it was appropriate to voluntarily delist its securities from The Nasdaq Capital Market ("Nasdaq").

● On May 4, the Company filed a Form 25 with the Securities and Exchange Commission (the "SEC") and the delisting became effective on May 15, 2023.

● Following the delisting of the Company's securities from Nasdaq, the Company filed a Form 15 with the SEC to suspend its reporting obligations under the Securities Exchange Act of 1934, as amended. The Company expects that the deregistration of such securities will become effective 90 days after the filing of the Form 25 with the SEC.

3) Issuance History

The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities **in the past two completed fiscal years and any subsequent interim period**.

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. Example: A company with a fiscal year end of December 31st, in addressing this item for its Annual Report, would include any events that resulted in changes to any class of its outstanding shares from the period beginning on January 1, 2021 through December 31, 2022 pursuant to the tabular format above.

Use the space below to provide any additional details, including footnotes to the table above:

(1) Reflects opening balance for number of shares outstanding as of January 1, 2021.

(2) Various private and institutional shareholders received shares of Vyant Bio, Inc., formerly known as Cancer Genetics, Inc. ("CGI") in connection with the completion of the business combination (the "Merger") between CGI and StemoniX, Inc., a Minnesota corporation ("StemoniX") effective as of March 30, 2021 (the "Merger"), pursuant to which, CGI Acquisition Corp., a wholly-owned subsidiary of CGI ("Merger Sub") merged with and into StemoniX, with StemoniX surviving the Merger as a wholly-owned subsidiary of CGI. Effective with the Merger, CGI changed its name to Vyant Bio, Inc. The total consideration paid by StemoniX in the Merger amounted to $59.9 million, which represented the fair value of CGI's shares of Common Stock, warrants and options outstanding on the closing date of the Merger. At the effective time of the Merger, approximately 235 existing StemoniX shareholders received incremental shares in accordance with the conversion ratio set forth in the Merger Agreement.

(3) Reflects issuances to various private and institutional shareholders pursuant to the purchase agreement, dated March 28, 2022 ("Purchase Agreement") entered into between the Company and Lincoln Park Capital Fund, LLC ("Lincoln Park"), for the sale and purchase, from time to time, of up to $15 million of shares of Common Stock. The control persons of Lincoln Park were Josh Scheinfeld and Jonathan Cope.

(4) The Company effected a one-for-five (1:5) reverse stock split on November 1, 2022. Reflects repurchase of common shares for fractional shares as a result of the reverse stock split.

(5) Reflects various brokered transactions pursuant to the Equity Distribution Agreement, dated April 8, 2022 (the "Sales Agreement") entered into between the Company and Canaccord Genuity LLC (the "Agent"), for the issuance and sale, from time to time, of up to up to $20 million of shares of Common Stock (the "Shares"), depending on market demand, with the Agent acting as an agent for sales of the Shares made by any method permitted by law deemed to be an "at the market offering" as defined in Rule 415(a)(4) of the Securities Act of 1933, as amended (the "Securities Act"), including, those made directly on or through the NASDAQ Capital Market.

B. Promissory and Convertible Notes

4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations.
(Please ensure that these descriptions are updated on the Company's Profile on www.otcmarkets.com).

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

In January 2023, we have ceased substantially all preclinical and clinical development activities as we completed our review of our strategic alternatives. We do not currently have any manufacturing facilities or personnel for our therapeutic assets. We expect to rely on third parties to manufacture our therapeutic product candidates for preclinical and clinical testing. In 2022, we converted our Maple Grove, MN to a research and development facility to focus our resources on internal drug discovery development programs. We began transforming our Maple Grove, Minnesota facility to a high throughput manufacturing and screening facility in the fourth quarter of 2021 to expand our internal research and development capabilities. This transition was in line with our strategy to leverage our iPSC technology to pursue wholly owned and partnered drug discovery projects that yield higher valued proprietary therapeutic assets. This facility transformation was substantially completed in the second half of 2022. We have manufactured microBrains at our facility in Maple Grove, Minnesota. Previously, we derived revenue from the sale of iPSC-based microOrgan™ plates to pharmaceutical, biotechnology and research customers and through the performance of Discovery as a Service ("DaaS") for these customers.

B. List any subsidiaries, parent company, or affiliated companies.

StemoniX, Inc., a Minnesota corporation.

C. Describe the issuers' principal products or services.

Historically, we have been a company that incorporates innovative biology and data science to improve drug discovery for complex neurodevelopmental and neurodegenerative disorders. Our central nervous system ("CNS") drug discovery platform combines human-derived organoid models of brain disease, scaled biology, and machine learning. Our platform is designed to: (i) elucidate disease pathophysiology; (ii) formulate key therapeutic hypotheses; (iii) identify and validate drug targets, cellular assays, and biomarkers to guide candidate molecule selection; and (iv) guide clinical trial patient selection and trial design. Our programs focused on identifying repurposed and novel small molecule clinical candidates for rare CNS genetic disorders including Rett Syndrome ("Rett"), CDKL5 Deficiency Disorders ("CDD") and familial Parkinson's Disease ("PD"). Our management believes that drug discovery needs to progressively shift as the widely used preclinical models for predicting safe and effective drugs have under-performed, as evidenced by the time and cost of bringing novel drugs to market. As a result, we focused on combining sophisticated data science capabilities with highly functional human cell derived disease models. We also leveraged our ability to identify validated targets and molecular-based biomarkers to screen and test thousands of small molecule compounds in human diseased 3D brain organoids in order to create a unique approach to assimilating biological data that supports decision making iteratively throughout the discovery phase of drug development to identify both novel and repurposed drug candidates. In January 2023 we have ceased substantially all preclinical and clinical development activities in furtherance of completing our review of strategic alternatives as further discussed below.

5) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

As of March 31, 2023, we have lease agreements for two locations, including a 14,932 square foot lab, manufacturing and office in Maple Grove, Minnesota, and a 1,625 square foot corporate headquarters office in Cherry Hill, New Jersey. Our leases have escalating payment schedules. The Maple Grove lease expires in 2027 and the Cherry Hill lease expires on March 31, 2024. We believe that these facilities are adequate for our current needs. On March 9, 2023, we terminated our January 2022 lease agreement for the lease of a San Diego office and laboratory, effective March 31, 2023, resulting in a $1.2 million reduction in future operating lease payments and an early termination fee of $45 thousand. On May 11, 2023, we returned one piece of equipment to our leasing company for the final lease payment of $181 thousand. Prior to that, we sold equipment in our San Diego laboratory on March 7, 2023 to a third party in exchange of $200,000 in consideration.

6) Officers, Directors, and Control Persons

Using the table below, please provide information, as of the period end date of this report, regarding any officers, or directors of the company, individuals or entities controlling more that 5% of any class of the issuers securities, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

Note 1. Organization and Description of Business

Vyant Bio, Inc. (the "Company", "Vyant Bio", "VYNT" or "we"), has historically been an innovative biotechnology company reinventing drug discovery for complex neurodevelopmental and neurodegenerative disorders. Our central nervous system ("CNS") drug discovery platform combines human-derived organoid models of brain disease, scaled biology, and machine learning. Our platform is designed to: 1) elucidate disease pathophysiology; 2) formulate key therapeutic hypotheses; 3) identify and validate drug targets, cellular assays, and biomarkers to guide candidate molecule selection; and 4) guide clinical trial patient selection and trial design. Our current programs are focused on identifying repurposed and novel small molecule clinical candidates for rare CNS genetic disorders including Rett Syndrome ("Rett"), CDKL5 Deficiency Disorders ("CDD") and familial Parkinson's Disease ("PD"). The Company's management believes that drug discovery needs to progressively shift as the widely used preclinical models for predicting safe and effective drugs have under-performed, as evidenced by the time and cost of bringing novel drugs to market. As a result, Vyant Bio has historically focused on combining sophisticated data science capabilities with highly functional human cell derived disease models. We have leveraged our ability to identify validated targets and molecular-based biomarkers to screen and test thousands of small molecule compounds in human diseased 3D brain organoids in order to create a unique approach to assimilating biological data that supports decision making iteratively throughout the discovery phase of drug development to identify both novel and repurposed drug candidates.

In December 2021, the Company's Board of Directors approved a plan to sell the *vivo*Pharm Pty Ltd ("*vivo*Pharm") business to focus the Company on the development of neurological developmental and degenerative disease therapeutics. In the fourth quarter of 2022, the Company sold substantially all of the operations of *vivo*Pharm in two separate transactions. To complete the disposition of the Company's former *vivo*Pharm business and to resolve certain issues that had arisen with the Buyer, on March 13, 2023, the Company sold *vivo*Pharm to the Buyer for a nominal sum. As part of the sale of *vivo*Pharm to Buyer, the Company provided that *vivo*Pharm had cash of at least $200 thousand and the Company assumed certain specific *vivo*Pharm liabilities, principally liabilities directly associated with the proposed Phase 2 Donepezil clinical trial in Australia (which the Company has placed on hold as it evaluates its strategic alternatives) and certain *vivo*Pharm tax liabilities through the transaction's closing. The transaction was consummated effective March 13, 2023.

Going Concern

The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business.

The Company has suffered recurring losses and negative cash flows from operations since inception, has an accumulated deficit, and is expected to generate minimal revenue from continuing operations as we have substantially ceased the Maple Grove facility's revenue producing operations to support internal drug discovery programs. The Company is projecting insufficient liquidity to meet its obligations as they become due over the next twelve months. The Company had cash and cash equivalents of $4.9 million as of March 31, 2023, an accumulated deficit of $106.0 million, cash outflows from continuing operations of $5.1 million for the three-months ended March 31, 2023 and $12.8 million for the year then ended December 31, 2022, as well as a net loss from continuing operations of $4.3 million for the three months ended March 31, 2023 and $15.8 million for the year ended December 31, 2022. These conditions and events raise substantial doubt about the Company's ability to continue as a going concern.

In 2023, the Company has undertaken the following actions:

- On January 4, 2023, the Company announced that it had engaged LifeSci Capital as its financial advisor to assist in exploring a range of strategic alternatives focused on enhancing shareholder value. There can be no assurance that this review process will result in any changes to the Company's current business plans or lead to any specific action or transaction.

- The Company's Board of Directors (the "Board") approved a plan on January 31, 2023 to preserve the Company's cash to be able to continue to pursue a satisfactory strategic alternative for the purpose of maximizing the value of the Company's business while also having sufficient cash to adequately fund an orderly wind down of the Company's operations (the "Cash Preservation Plan") in the event it is unable to secure a satisfactory strategic alternative. As part of the Cash Preservation Plan, the Company implemented a reduction in force which included the Company's former President and Chief Executive Officer, and Chief Scientific Officer.

- On March 7, 2023, the Company sold its equipment in its San Diego laboratory to a third party in exchange of $200,000 in consideration.

- On March 9, 2023, the Company terminated its January 2022, San Diego office and laboratory lease agreement. The effective date of the termination was March 31, 2023. The landlord retained approximately $45 thousand as an early termination fee. This lease termination resulted in a $1.2 million reduction in future operating lease payments.

- On March 24, 2023 the Company terminated its (a) Equity Distribution Agreement, dated April 8, 2022, by and between the Company and Canaccord Genuity LLC, regarding the issue and sale, from time to time, of shares of the Company's common stock for an aggregate offering price of up to $20,000,000, and (b) Purchase Agreement, dated March 28, 2022, by and between the Company and Lincoln Park Capital Fund, LLC, regarding the issue and sale, from time to time, of shares of the Company's common stock for an aggregate offering price of up to $15,000,000.

- On March 24, 2023, the Company filed post-effective amendments to certain of its registration statements previously filed with the SEC, including post-effective amendments to each of: (i) Registration Statement Nos. 333-249513, 333-252628, 333-239497, and 333-218229 on Form S-3; (ii) Registration Statement Nos. 333-191520, 333-191521, 333-196198, 333-205903, 333-256225 and 333-214599 on Form S-8; and (ii) Registration Statement No. 333-215284 and 333-264595 on Form S-1 (such post-effective amendments, collectively the "Post-Effective Amendments" and such registration statements, collectively the "Registration Statements"). In accordance with undertakings made by the Company in each of the Registration Statements to remove from registration, by means of a post-effective amendment, any and all securities of the Company that were registered for issuance that remain unsold at the termination of the offerings, the Company removed from registration any and all securities of the Company registered but unsold under each of the Registration Statements. As a result of this deregistration, no securities remain registered for sale pursuant to the Registration Statements.

- On April 24, 2023 the Company's Board of Directors determined it was appropriate to voluntarily delist its securities from The Nasdaq Capital Market ("Nasdaq"). On May 4, the Company filed a Form 25 with the Securities and Exchange Commission (the "SEC") and the delisting became effective on May 15, 2023. Following the delisting of the Company's securities from Nasdaq, the Company filed a Form 15 with the SEC to suspend its reporting obligations under the Securities Exchange Act of 1934, as amended. The Company expects that the deregistration of such securities will become effective 90 days after the filing of the Form 25 with the SEC. The documents filed with the SEC will be available on the Company's website. The Board made the decision to pursue this strategy following its review and careful consideration of a number of factors, including, but not limited to, the expected reduction in operating expenses by eliminating SEC reporting costs, which would allow the Company to focus more resources on its continued pursuit and exploration of satisfactory strategic alternative transactions and/or execution of an orderly wind down of the Company, if necessary. The Board determined that deregistration is in the overall best interests of the Company and its stockholders. Following delisting of the Company's common stock from Nasdaq, the common stock has been quoted on the Pink Open Market operated by OTC Markets Group Inc. (the "OTC") under the symbol "VYNT" starting on May 15, 2023. The Company intends to continue to provide information to its stockholders and to take other actions within its control to enable its common stock to be quoted on the OTC Pink Open Market in the Pink Current Information market tier. There is no guarantee, however, that a broker will continue to make a market in the common stock and that trading of the common stock will continue on an OTC market or otherwise. Going forward, Vyant Bio may, from time to time, when it deems appropriate, provide limited information regarding its financial status and business activities, or issue press releases for select events or developments.

- On May 9, 2023, the Company and the Andrew D. C. LaFrence, the Company's President, Chief Executive Officer and Chief Financial Officer, entered into a Consulting Agreement providing that effective as of June 1, 2023 (or such later date as may be agreement to by the Company and Mr. LaFrence), Mr. LaFrence would continue to serve as the Company's President, Chief Executive Officer and Chief Financial Officer as a part time consultant rather than a full time employee. His employment agreement, which is filed as an exhibit to the Company's Annual Report on Form 10-K for the year ended December 31, 2021, would be deemed terminated as of that date by the Company without cause for purposes of determining severance thereunder. The Consulting Agreement is a further step in the Company's efforts to conserve cash consistent with its Cash Preservation Plan.

- On May 11, 2023 pursuant to the Company's Cash Preservation Plan, the Company returned one piece of equipment to its leasing Company for the final lease payment of $181 thousand.

As a result of the above activities, the Company accrued $1.2 million of severance expense in the first quarter of 2023 of which approximately $0.8 million was paid as of March 31, 2023. Substantially all of the remaining severance accrual is expected to be paid in the second quarter of 2023.

In response to these conditions and based on our current operating plan, the Company plans to further reduce expenses, slow cash flows, and evaluate strategic partners to acquire our assets, including our public company as a reverse merger candidate. There are no assurances that we will be able to raise cash in these transactions or find a reverse merger candidate and we may therefore need to complete an orderly winddown of the Company's operations or, if sufficient funds are not available, bankruptcy. These plans have not yet been finalized and are not within the Company's control, and therefore cannot be deemed probable. As a result, the Company has concluded that management's plans do not alleviate substantial doubt about the Company's ability to continue as a going concern.

The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might result from the outcome of this uncertainty.

These unaudited condensed consolidated financial statements should be read together with the audited consolidated financial statements for the year ended December 31, 2022, and notes thereto included in our Annual Report on Form 10-K as filed with the SEC. The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Ultimate results could differ from those estimates. The results of operations for the three months ended March 31, 2023 are not necessarily indicative of the results that may be expected for the entire 2023 year.

No new accounting pronouncement issued or effective has had, or is expected to have, a material impact on the Company's condensed consolidated financial statements.

Dollar amounts in tables are stated in thousands of U.S. dollars.

Note 2. Cancer Genetics, Inc. Merger

The Company formerly known as Cancer Genetics, Inc. ("CGI"), StemoniX and CGI Acquisition, Inc. ("Merger Sub") entered into a merger agreement on August 21, 2020, which was amended on February 8, 2021 and February 26, 2021 (as amended, the "Merger Agreement"). Pursuant to the terms of the Merger Agreement, Merger Sub was merged (the "Merger") with and into StemoniX on March 30, 2021, with StemoniX surviving the Merger as a wholly owned subsidiary of the Company. For U.S. federal income tax purposes, the Merger qualified as a tax-free "reorganization". Concurrent with the Merger closing, the Company changed its name to Vyant Bio, Inc. Under the terms of the Merger Agreement, upon consummation of the Merger, the Company issued (i) an aggregate of 3,595,508 shares of VYNT common stock, par value $0.0001 per share (the "Common Stock") to the holders of StemoniX capital stock (after giving effect to the conversion of all StemoniX preferred shares and StemoniX 2020 Convertible Notes) and StemoniX warrants (which does not include a certain warrant (the "Major Investor Warrant") issued to a certain StemoniX convertible note holder (the "Major Investor")), (ii) options to purchase an aggregate of 178,356 shares of Common Stock to the holders of StemoniX options with exercise prices ranging from $3.30 to $23.05 per share and a weighted average exercise price of $7.30 per share, and (iii) a warrant (the "Major Investor Warrant") to the Major Investor, expiring February 23, 2026 to purchase 28,778 shares of Common Stock at a price of $29.5295 per share in exchange for the Major Investor Warrant.

The Merger was accounted for as a reverse acquisition with StemoniX being the accounting acquirer of CGI using the acquisition method of accounting. Under acquisition accounting, the assets and liabilities (including executory contracts, commitments and other obligations) of CGI, as of March 30, 2021, the closing date of the Merger, were recorded at their respective fair values and added to those of StemoniX. Any excess of purchase price consideration over the fair values of the identifiable net assets is recorded as goodwill. The total consideration paid by StemoniX in the Merger amounted to $59.9 million, which represents the fair value of CGI's 2,201,437 shares of Common Stock or $50.74 million, 431,537 Common Stock warrants or $9.04 million and 11,181 Common Stock options outstanding on the closing date of the Merger with a fair value of $139 thousand. In addition, at the effective time of the Merger, existing StemoniX shareholders received an additional 160,942 incremental shares in accordance with the conversion ratio set forth in the Merger Agreement.

Note 3. Discontinuing Operations

In December 2021, the Company's Board of Directors approved a plan to sell the *vivo*Pharm Pty Ltd ("*vivo*Pharm") business to focus the Company on the development of neurological developmental and degenerative disease therapeutics. In December 2021, the Company engaged an investment bank to sell the *vivo*Pharm business which was substantially completed in the fourth quarter of 2022.

On November 2, 2022 the Company completed the sale of its *vivo*Pharm subsidiary, *vivo*Pharm LLC located in Hershey, Pennsylvania, to Reaction Biology Corporation for $5.5 million in an upfront cash payment, subject to customary adjustments for working capital, closing cash, indebtedness and transaction expenses. After these closing adjustments were reflected, $5.5 million was paid at closing and an additional $0.3 million was paid in February 2023. The Company received approximately $4.8 million in cash after transaction related expenses and income taxes, as well as incurred $0.4 million in exit costs associated with this transaction. Exit costs associated with the *vivo*Pharm business were paid in January 2023. In connection with the sale of the *vivo*Pharm LLC business, the Company agreed to retain certain liabilities aggregating to $357 thousand.

On December 30, 2022, the Company entered into a Share Purchase Agreement (the "Agreement") with Sabine Brandt as trustee for the Brandt Family Trust ("Buyer"), pursuant to which *vivo*Pharm sold the entirety of the Company's remaining *vivo*Pharm business for early discovery services, represented by 100% of the outstanding shares of (i) of RDDT a *vivo*Pharm Company Pty Ltd; and (ii) *vivo*Pharm Europe Ltd, to Buyer in exchange for a nominal cash amount, subject to adjustments for closing cash and accounts payable, on and subject to the terms and conditions set forth therein. The sale resulted in the Company delivering target closing cash as part of the sold entities of approximately $827 thousand and the assumption by Buyer of liabilities of the sold entities aggregating to approximately $2.0 million. The Transaction was consummated effective December 31, 2022. The Agreement contains customary representations, warranties, covenants and indemnification provisions.

To complete the disposition of the Company's former *vivo*Pharm business and to resolve certain issues that had arisen with the Buyer, on March 13, 2023, the Company sold *vivo*Pharm to the Buyer for a nominal sum. As part of the sale of *vivo*Pharm to Buyer, the Company provided that *vivo*Pharm had cash of at least $200 thousand and the Company assumed certain specific *vivo*Pharm liabilities, principally liabilities directly associated with the proposed Phase 2 Donepezil clinical trial in Australia (which the Company has placed on hold as it evaluates its strategic alternatives) and certain *vivo*Pharm tax liabilities through the transaction's closing. The transaction was consummated effective March 13, 2023.

Also included in discontinuing operations are pre-Merger-related payables related to Cancer Genetics' sale of its BioPharma and Clinical businesses ("Pre-Merger discontinuing operations"). As of March 31, 2023 and December 31, 2022, $263 thousand and $267 thousand, respectively, of liabilities relating to these businesses are classified as other current liabilities – discontinuing operations on the Company's condensed consolidated balance sheets. Note 7. Income Taxes

The Company recognizes deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets include, among others, capitalized research and development costs, net operating loss carryforwards and research and development tax credit carryforwards. Deferred tax assets are partially offset by deferred tax liabilities arising from intangibles, fixed assets and lease assets. Realization of net deferred tax assets is dependent upon future earnings, if any, the timing and amount of which are uncertain based on the Company's history of losses. Accordingly, the Company's net deferred tax assets have been fully offset by a valuation allowance. Utilization of net operating loss and credit carryforwards may be subject to substantial annual limitation due to ownership change provisions of Section 382 of the Internal Revenue Code, as amended and similar state provisions. The annual limitation may result in the expiration of net operating losses and credits before utilization. As of both March 31, 2023 and December 31, 2022, the Company's liability for gross unrecognized tax benefits (excluding interest and penalties) totaled $0 thousand and $0, respectively, in continuing operations. The Company had accrued interest and penalties relating to unrecognized tax benefits of $0 and $0 on a gross basis as of March 31, 2023 and December 31, 2022, respectively, in continuing operations. The Company does not currently expect significant changes in the amount of unrecognized tax benefits during the next twelve months.

Note 8. Long-Term Debt

Long-term debt as of March 31, 2023 and December 31, 2022 consists of a $57 thousand Economic Injury Disaster Loan with annual principal payments of approximately $1 thousand per year. This loan bears interest at 3.75% and is repayable in monthly installments starting in June 2023 with a final balance due on June 21, 2050.

Note 9. Stockholders' Equity

Common Stock

Holders of common stock are entitled to one vote per share, to receive dividends if and when declared, and, upon liquidation or dissolution, are entitled to receive all assets available for distribution to stockholders. The holders have no preemptive or other subscription rights and there are no redemption or sinking fund provisions with respect to such shares. Common stock is subordinate to the preferred stock with respect to dividend rights and rights upon liquidation, winding up and dissolution of the Company.

Lincoln Park Capital Fund, LLC Agreement

On March 28, 2022, the Company entered into a purchase agreement, or Purchase Agreement, with Lincoln Park Capital Fund, LLC ("Lincoln Park"), which, subject to the terms and conditions, provides that the Company has the right to sell to Lincoln Park and Lincoln Park was obligated to purchase up to $15.0 million of its common shares. Under the Purchase Agreement, the Company issued a commitment fee of 81,190 common shares as consideration for Lincoln Park entering into the Purchase Agreement.

At The Market Financing

On April 8, 2022, the Company entered into an Equity Distribution Agreement with Canaccord Genuity LLC ("Canaccord"), pursuant to which the Company could issue and sell, from time to time, shares of its common stock having an aggregate offering price of up to $20,000,000, depending on market demand, with Canaccord acting as an agent for sales. As of December 31, 2022, the Company had issued 41,162 shares of common stock under the Sales Agreement with Canaccord. The Company sold 342,067 shares pursuant to this agreement in the first quarter of 2023 realizing net proceeds of $458 thousand.

On March 23, 2023, the Company terminated the arrangements with both Lincoln Park and Canaccord.

Warrants

Common Stock Warrants

The Company issued the Investor Warrant on February 23, 2022. Effective with the Merger, the Investor Warrant was exchanged for a warrant to purchase 28,778 shares of the Company's common stock at an exercise price of $29.5295 per share. In connection with the Merger, the Company assumed 431,537 common stock warrants issued in prior financings of which 426,361 remain outstanding as of March 31, 2023. A summary of all common stock warrants outstanding as of March 31, 2023 is as follows:

Debt	$ 138.00	2,955	Mar 22, 2024
Total		455,139	

Note 10. Fair Value Measurements

In the fourth quarter of 2021, the Company classified the *vivo*Pharm business as discontinuing operations and applied held for sale accounting. The Company valued the *vivo*Pharm business as of December 31, 2021 equally weighting public company revenue multiples as of December 31, 2021 and comparable transaction revenue multiples, which are classified as Level 3 measurements within the fair value hierarchy. The Company updated the valuation of the *vivo*Pharm business during the quarter ending March 31, 2022 based on equally weighting public company revenue multiples and comparable transaction revenue multiples, which resulted in a $4.5 million decrease to the fair value of *vivo*Pharm in the first quarter of 2022. The Company recognized an impairment charge of $4.3 million during the quarter ended March 31, 2022, which decreased *vivo*Pharm's net carrying value, net of estimated disposal costs from $9.2 million as of December 31, 2021 to $4.9 million. During the second quarter of 2022, the Company received two offers for mutually exclusive components of the *vivo*Pharm business and assessed the carrying value of each asset group using the estimated net sales proceeds based on these offers. As a result, the Company recorded a net impairment charge of $1.5 million during the second quarter of 2022. The Company recorded an impairment recovery of $388 thousand during the third quarter of 2022 based upon September 30, 2022 *vivo*Pharm net assets. As described in Note 3, the Company completed the sales of *vivo*Pharm's operating subsidiaries in the fourth quarter of 2022 resulting in a loss upon sales of $106 thousand.

The following tables present changes in fair value of level 3 valued instruments as of and for the three months ended March 31, 2022:

	vivoPharm Business
Balance – January 1, 2022	$ 11,000
Additions	-
Measurement adjustments	(4,500)
Settlement	-
Balance – March 31, 2022	$ 6,500

The Company did not have level 3 valued instruments as of March 31, 2023 and December 31, 2022 or during the quarter ended March 31, 2023.

Note 11. Loss Per Share

Basic loss per share is computed by dividing the net loss after tax attributable to common stockholders by the weighted average shares outstanding during the period. Diluted loss per share is computed by including potentially dilutive securities outstanding during the period in the calculation of weighted average shares outstanding. The Company did not have any dilutive securities during the periods presented; therefore, diluted loss per share is equal to basic loss per share.

Presented in the table below is a reconciliation of the numerator and denominator for the basic and diluted loss per share calculations for the three months ended March 31, 2023 and 2022:

	March 31,	
	2023	**2022**
Net loss from continuing operations	$ (4,328)	$ (4,406)
Net loss from discontinuing operations	(152)	(4,757)
Net loss	$ (4,480)	$ (9,163)
Basic and diluted weighted average shares outstanding	6,248,736	3,184,106
Basic and diluted net loss per share:		
Continuing operations	$ (0.69)	$ (0.76)
Discontinuing operations	(0.02)	(0.82)
Net loss	$ (0.71)	$ (1.58)

The following securities were not included in the computation of diluted shares outstanding for the for the three months ended March 31, 2023 and 2022 because the effect would be anti-dilutive:

	March 31,	
	2023	2022
Common Stock warrants	455,139	458,599
Common Stock options	251,593	553,325
Restricted stock	38,409	-
Total	745,141	1,011,924

Note 12. Stock-Based Compensation

he Company has three legacy equity incentive plans: the Cancer Genetics, Inc. 2008 Stock Option Plan (the “2008 Plan”) and the Cancer Genetics Inc. 2011 Equity Incentive Plan (the “2011 Plan”), and the StemoniX Inc. 2015 Stock Option Plan (the “2015 Plan”, and together with the 2008 Plan, and the 2011 Plan, the “Frozen Stock Option Plans”). The Frozen Stock Option Plans as well as the 2021 Plan (as defined below) are meant to provide additional incentive to officers, employees and consultants to remain in the Company’s employment. Options granted are generally exercisable for up to 10 years. Effective with the Merger, the Company is no longer able to issue options from the Frozen Stock Option Plans. The number of common stock options issued under the 2015 plan were adjusted for the Merger exchange ratio resulting in an incremental 38,376 options outstanding.

Effective with the Merger, the Vyant Bio 2021 Equity Incentive Plan (the "2021 Plan") came into effect, pursuant to which the Company's Board of Directors may grant up to 900,000 of equity-based instruments to officers, key employees, and non-employee consultants. Options granted to officers and employees vest 25% one year from the grant date and thereafter equally over the next 36 months. The options granted to Board members vested upon grant. RSU's are granted to members of the Board of Directors and vest one year from the grant date.

As StemoniX was the acquirer for accounting purposes, the pre-Merger vested stock options granted by CGI under the 2008 and 2011 Plans are deemed to have been exchanged for equity awards of the Company. The exchange of StemoniX stock options for options to purchase Company common stock was accounted for as a modification of the StemoniX stock options; however, the modification did not result in any incremental compensation expense as the modification did not increase the fair value of the stock options.

For StemoniX stock options issued prior to the Merger, the expected volatility was estimated based on the average historical volatility of similar entities with publicly traded shares as StemoniX's shares historically were not publicly traded and its shares rarely traded privately. For common stock options granted at the time of the Merger, the Company used Vyant Bio's historical volatility to determine the expected volatility of post-Merger option grants. Subsequently, the Company used a comparable public company group to estimate the anticipated volatility of the Company's stock. The risk-free rate for the expected term of the option is based on the U.S. Treasury yield curve at the date of grant.

The Company uses a simplified method to determine the expected term for the valuation of employee options. This method effectively assumes that exercise occurs over the period from vesting until expiration, and therefore, the expected term is the midpoint between the service period and the contractual term of the award. The simplified method is applicable to options with service conditions. For options granted to nonemployees, the contractual term is used for the valuation of the options.

As of March 31, 2023, there were 661,659 additional shares available for the Company to grant under the 2021 Plan. The grant-date fair value of each option award is estimated on the date of grant using the Black-Scholes-Merton option-pricing model. The assumptions for stock option grants during the quarters ended March 31, 2023 and 2022 are provided in the following table.

	2023	**2022**
Valuation assumptions		
Expected dividend yield	-%	0.0%
Expected volatility	-%	56.3% –69.8%
Expected term (years) – simplified method	-	3.0 – 6.1
Risk-free interest rate	-%	1.74% – 2.13%

Stock option activity during the for the three-month periods ended March 31, 2023 and 2022 is as follows:

	Number of Options		Weighted average exercise price	Weighted average remaining contractual term
Balance as of January 1, 2022	464,021	$	20.95	7.4
Granted	145,060		5.05	
Exercised	(1,035)		4.80	
Forfeited	(51,153)		21.10	
Expired	(3,568)		286.20	
Balance as of March 31, 2022	553,325	$	15.09	8.7
Balance as of January 1, 2023	428,301	$	14.97	7.5
Granted	-		-	
Exercised	-		-	
Forfeited	(144,150)		11.06	
Expired	(32,558)		35.49	
Balance as of March 31, 2023	251,593	$	11.06	5.3
Exercisable as of March 31, 2023	195,316	$	16.07	4.8

The weighted average grant-date fair value of options granted during the three-month period ended March 31, 2022 was $2.70. There were no stock options issue in the first quarter of 2023. The aggregate intrinsic value of options outstanding and options exercisable as of March 31, 2023 was zero. The total intrinsic value of options exercised was $1 thousand for the three-month period ended March 2022. No stock options were exercised in the first quarter of 2023. An aggregate of 60,333 RSU's vested in the first quarter of 2023.

The Company recognized stock-based compensation in continuing operations related to different instruments for the three-month periods ended March 31 as follows:

		2023		2022
Stock options	$	38	$	258
Shares issued for services		121		20
Total	$	159	$	278

As of March 31, 2023, there was $0.1 million of total unrecognized compensation cost related to unvested stock options granted under the Plan. That cost is expected to be recognized over a weighted average period of 1.77 years.

Note 13. Segment Information

The Company reports segment information based on how the Company's chief operating decision maker ("CODM"), regularly reviews operating results, allocates resources and makes decisions regarding business operations. For segment reporting purposes, the Company's business structure is comprised of one operating and reportable segment.

During the three-months ended March 31, 2023 and 2022, two customers and four customers accounted for approximately 94% and 76%, respectively, of the consolidated revenue from continuing operations.

During the three-months ended March 31, 2023 and 2022, approximately 66% and 33%, respectively, of the Company's consolidated revenue from continuing operations were earned outside of the U.S.

Customers representing 10% or more of the Company's total revenue from continuing operations for the three-month periods ended March 31, 2023 and 2022 are presented in the table below:

	2023	2022
Customer A	66%	27%
Customer B	28%	24%
Customer C	-%	14%
Customer D	-%	11%

Note 14. Related Party Transactions

During the first quarter of 2022, the Company paid a third-party collaboration partner $39 thousand as a reimbursement of third-party costs incurred by the collaborator in connection with the collaboration arrangement. An executive's family member is an employee of this collaborator. The arrangements with this third-party collaborator had arms-length terms.

As disclosed in Note 3, the Company sold RDDT a *vivo*Pharm Company Pty Ltd, *vivo*Pharm Europe Ltd and *vivo*Pharm Pty Ltd to Sabine Brandt as trustee for the Brandt Family Trust. Mrs. Brandt is a former Company employee and is married to a former officer of the Company.

Note 16. Subsequent Events

NASDAQ Delisting

On April 24, 2023 the Company's Board of Directors determined it was appropriate to voluntarily delist its securities from The Nasdaq Capital Market ("Nasdaq"). On May 4, the Company filed a Form 25 with the Securities and Exchange Commission (the "SEC") and the delisting became effective on May 15, 2023. Following the delisting of the Company's securities from Nasdaq, the Company filed a Form 15 with the SEC to suspend its reporting obligations under the Securities Exchange Act of 1934, as amended. The Company expects that the deregistration of such securities will become effective 90 days after the filing of the Form 25 with the SEC. The documents filed with the SEC will be available on the Company's website. The Board made the decision to pursue this strategy following its review and careful consideration of a number of factors, including, but not limited to, the expected reduction in operating expenses by eliminating SEC reporting costs, which would allow the Company to focus more resources on its continued pursuit and exploration of satisfactory strategic alternative transactions and/or execution of an orderly wind down of the Company, if necessary. The Board determined that deregistration is in the overall best interests of the Company and its stockholders. Following delisting of the Company's common stock from Nasdaq, the common stock has been quoted on the Pink Open Market operated by OTC Markets Group Inc. (the "OTC") under the symbol "VYNT" starting on May 15, 2023. The Company intends to continue to provide information to its stockholders and to take other actions within its control to enable its common stock to be quoted on the OTC Pink Open Market in the Pink Current Information market tier. There is no guarantee, however, that a broker will continue to make a market in the common stock and that trading of the common stock will continue on an OTC market or otherwise. Going forward, Vyant Bio may, from time to time, when it deems appropriate, provide limited information regarding its financial status and business activities, or issue press releases for select events or developments.

<u>Cash Preservation Plan Developments</u>

On May 9, 2023, the Company and the Andrew D. C. LaFrence, the Company's President, Chief Executive Officer and Chief Financial Officer, entered into a Consulting Agreement providing that effective as of June 1, 2023 (or such later date as may be agreement to by the Company and Mr. LaFrence), Mr. LaFrence would continue to serve as the Company's President, Chief Executive Officer and Chief Financial Officer as a part time consultant rather than a full time employee. His employment agreement, which is filed as an exhibit to the Company's Annual Report on Form 10-K for the year ended December 31, 2021, would be deemed terminated as of that date by the Company without cause for purposes of determining severance thereunder. The Consulting Agreement is seen as a further step in the Company's efforts to conserve cash consistent with its Cash Preservation Plan.

On May 11, 2023 pursuant to the Company's Cash Preservation Plan, the Company returned one piece of equipment to its leasing Company for the final lease payment of $181 thousand.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis provides information management believes is useful in understanding the operating results, cash flows and financial condition of Vyant Bio, Inc. The discussion should be read in conjunction with both the unaudited condensed consolidated financial statements and related notes included in this Quarterly Report on Form 10-Q and our audited consolidated financial statements and related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations, each included in our Annual Report on Form 10-K for the year ended December 31, 2022. This discussion contains various "Forward-Looking Statements" within the meaning of the Private Securities Litigation Reform Act of 1995. We refer readers to the statement entitled "Forward-Looking Statements" located at the end of this Item 2.

Overview

Vyant Bio, Inc. (the "Company", "Vyant Bio", "VYNT" or "we"), has historically been an innovative biotechnology company reinventing drug discovery for complex neurodevelopmental and neurodegenerative disorders. Our central nervous system ("CNS") drug discovery platform combines human-derived organoid models of brain disease, scaled biology, and machine learning. Our platform is designed to: 1) elucidate disease pathophysiology; 2) formulate key therapeutic hypotheses; 3) identify and validate drug targets, cellular assays, and biomarkers to guide candidate molecule selection; and 4) guide clinical trial patient selection and trial design. Our current programs are focused on identifying repurposed and novel small molecule clinical candidates for rare CNS genetic disorders including Rett Syndrome ("Rett"), CDKL5 Deficiency Disorders ("CDD") and familial Parkinson's Disease ("PD"). The Company's management believes that drug discovery needs to progressively shift as the widely used preclinical models for predicting safe and effective drugs have under-performed, as evidenced by the time and cost of bringing novel drugs to market. As a result, Vyant Bio has historically focused on combining sophisticated data science capabilities with highly functional human cell derived disease models. We have leveraged our ability to identify validated targets and molecular-based biomarkers to screen and test thousands of small molecule compounds in human diseased 3D brain organoids in order to create a unique approach to assimilating biological data that supports decision making iteratively throughout the discovery phase of drug development to identify both novel and repurposed drug candidates.

In December 2021, the Company's Board of Directors approved a plan to sell the *vivo*Pharm Pty Ltd ("*vivo*Pharm") business to focus the Company on the development of neurological developmental and degenerative disease therapeutics. In the fourth quarter of 2022, the Company sold substantially all of the operations of *vivo*Pharm in two separate transactions. To complete the disposition of the Company's former *vivo*Pharm business and to resolve certain issues that had arisen with the Buyer, on March 13, 2023, the Company sold *vivo*Pharm to the Buyer for a nominal sum. As part of the sale of *vivo*Pharm to Buyer, the Company provided that *vivo*Pharm had cash of at least $200 thousand and the Company assumed certain specific *vivo*Pharm liabilities, principally liabilities directly associated with the proposed Phase 2 Donepezil clinical trial in Australia (which the Company has placed on hold as it evaluates its strategic alternatives) and certain *vivo*Pharm tax liabilities through the transaction's closing. The transaction was consummated effective March 13, 2023.

We have incurred substantial operating losses and have used cash in our operating activities since inception. On January 4, 2023, the Company announced that it had engaged LifeSci Capital as its financial advisor to assist in exploring a range of strategic alternatives focused on enhancing shareholder value. There can be no assurance that this review process will result in any changes to the Company's current business plans or lead to any specific action or transaction. On January 31, 2023 the Company's Board of Directors, approved a plan to preserve the Company's cash to be able to continue to pursue a satisfactory strategic alternative for the purpose of maximizing the value of the Company's business while also having sufficient cash to adequately fund an orderly wind down of the Company's operations (the "Cash Preservation Plan") in the event it is unable to secure a satisfactory strategic alternative. On April 24, 2023 the Company's Board of Directors determined it was appropriate to voluntarily delist its securities from The Nasdaq Capital Market. See further discussion regarding our liquidity and capital resources below.

Cancer Genetics, Inc. Merger

On March 30, 2021, Vyant Bio, formerly known as Cancer Genetics, Inc. ("CGI"), completed its business combination (the "Merger") with StemoniX, Inc., a Minnesota corporation ("StemoniX"), in accordance with the Agreement and Plan of Merger and Reorganization, dated as of August 21, 2020 (the "Initial Merger Agreement") by and among the Company, StemoniX and CGI Acquisition, Inc., a Minnesota corporation and wholly-owned subsidiary of the Company ("Merger Sub"), as amended by Amendment No. 1 thereto made and entered into as of February 8, 2021 (the "First Amendment") and Amendment No. 2 thereto made and entered into as of February 26, 2021 (the "Second Amendment") (the Initial Merger Agreement, as amended by the First Amendment and Second Amendment, the "Merger Agreement"), pursuant to which Merger Sub merged with and into StemoniX, with StemoniX surviving the Merger as a wholly-owned subsidiary of the Company.

The Merger was accounted for as a reverse acquisition with StemoniX being the accounting acquirer of CGI using the acquisition method of accounting. Under acquisition accounting, the assets and liabilities (including executory contracts, commitments and other obligations) of CGI, as of March 30, 2021, the closing date of the Merger, were recorded at their respective fair values and added to those of StemoniX. Any excess of purchase price consideration over the fair values of the identifiable net assets is recorded as goodwill. The total consideration paid by StemoniX in the Merger amounted to $59.9 million, which represents the fair value of CGI's 2,201,437 shares of Common Stock or $50.74 million, 431,537 Common Stock warrants or $9.04 million and 11,181 Common Stock options outstanding on the closing date of the Merger with a fair value of $139 thousand. In addition, at the effective time of the Merger, existing StemoniX shareholders received an additional 160,942 incremental shares in accordance with the conversion ratio set forth in the Merger Agreement.

Revenue from Continuing Operations

The Company's primary revenue sources are microOrgan plate product sales and the performance of preclinical drug testing services using our microOrgan technology, referred to as Discovery as a Service, or DaaS. In December 2021, the Company announced its plan to focus its resources on internal drug discovery development programs and wind down substantially all customer revenue generation. The Company expects nominal sales in 2023. For the three months ended March 31, 2023 and 2022, 66% and 33%, respectively, of revenue from continuing operations in each period was generated from customers located outside of the United States. During the three months ended March 31, 2023 and 2022, two customers accounted for approximately 94% and four customers accounted for approximately 76%, respectively, of the consolidated revenue from continuing operations.

Cost of Goods Sold from Continuing Operations

The Company separately reports cost of goods sold for product sales and service revenue. Product revenue costs include labor and product costs such as labware, plates and reagents required to develop iPSC's into microOrgans as well as overhead, facility and equipment costs at the Company's Maple Grove, Minnesota facility. As the facility was designed to accommodate the Company's long-term growth, it has historically operated at less than 25% of capacity. The Company converted the Maple Grove facility to a research and development facility in the first half of 2022 to focus its resources on internal drug discovery development programs. Cost of goods sold for service revenue includes internal labor, materials and allocated overhead costs to perform services for DaaS projects.

Operating Expenses from Continuing Operations

The Company classifies its operating expenses into three categories: research and development, selling, general and administrative as well as merger related costs. Operating expenses principally consist of personnel costs including non-cash stock-based compensation, outside services, laboratory consumables, rent, overhead, development costs, and marketing program costs, legal and accounting fees.

Research and Development Expenses. Research and development expenses reflect the personnel related expenses, overhead and lab consumable costs to develop its microOrgan technology at its San Diego, California facility as well as development activities undertaken at the Maple Grove, Minnesota facility. The Company closed its San Diego facility in the first quarter of 2023.

Selling, General and Administrative Expenses. Selling, general and administrative expenses consist principally of personnel-related expenses, professional fees, such as legal, accounting, occupancy costs and other general expenses as well as personnel and related overhead costs for its business development team and related support personnel, travel and entertainment expenses, other selling costs, and trade shows.

Results of Operations

Three Months Ended March 31, 2023 and 2022

The following table sets forth certain information concerning the Company's results from continuing operations for the periods shown (in thousands):

Operating results: Comparison for the three months ended March 31, 2023 and 2022

Revenue from Continuing Operations

Total revenue decreased 74%, or $223 thousand, to $80 thousand for the three months ended March 31, 2023, as compared with $303 thousand for the three months ended March 31, 2022. We realized a decrease in product revenue of 62% or $129 thousand in 2023 due to decreased sales volume as compared with 2022. There was no service revenue in the first quarter of 2023.

Cost of Goods Sold from Continuing Operations

Cost of goods sold – service aggregated $38 thousand for the three months ended March 31, 2022, resulting in a cost of goods sold of 40% of service revenue. There were no service revenue or related costs of goods - service in the first quarter of 2023.

Cost of goods sold – product aggregated $142 thousand and $348 thousand for the three months ended March 31, 2023 and 2022, respectively, resulting in a cost of goods sold gross margin deficit of $62 thousand and $139 thousand. The decrease in cost of sales resulted from a decrease in production in the 2023 period.

Operating Expenses from Continuing Operations

Research and development expenses decreased by 15%, or $233 thousand, to $1.3 million for the three months ended March 31, 2023 from $1.6 million for the three months ended March 31, 2022. This decrease is principally due reductions in personnel and research and development activities related to the Company's Cash Preservation Plan offset by severance expense of $360 thousand in the current-year quarter and an asset impairment charge of $170 thousand.

Selling, general and administrative expenses increased by 9%, or $255 thousand, to $3.0 million for the three months ended March 31, 2023, as compared with $2.8 million for the three months ended March 31, 2022. The increase in current-year expense was the result of an increase of severance expense of $428 thousand as compared with the prior-year quarter which was partially offset by lower head count and consulting expenses.

Other Expenses, net from Continuing Operations

Total other income, net was not significant for the quarters ended March 31, 2023 and 2022.

Discontinuing Operations

During the fourth quarter of 2022, the Company sold its *vivo*Pharm operating companies and in March 2023, sold the *vivo*Pharm PTY LTD ("PTY"), the holding company of the former operating companies. Therefore, there was no significant activity in the first quarter of 2023 other than administrative and costs to sell PTY. The Company incurred a loss of $152 thousand in the first quarter of 2023 related to the sale of PTY. In the quarter ended March 31, 2022, the *vivo*Pharm business generated $1.4 million in revenue and incurred a $4.8 million net loss. This net loss includes a goodwill impairment charge of $2.2 million, an impairment charge of $2.1 million for intangible assets arising from the merger, $168 thousand of professional service costs related to accounting for the *vivo*Pharm business and a $298 thousand operating loss. The impairment loss of $4.3 million during the quarter ended March 31, 2022 was the result of changes in market valuations for contract research organizations from December 31, 2021 to March 31, 2022 which impact the Company's valuation of the *vivo*Pharm business which is accounted for as a held for sale asset since the fourth quarter of 2021. Factors such as funding for biotech and pharma companies, higher interest rates and inflation as well as the Ukraine War have all impacted public company stock valuations in 2022 which may result in additional adjustments to the carrying value of the *vivo*Pharm business.

Liquidity and Capital Resources

The Company has financed its operations through CGI cash balances on hand on the Merger date, product and services revenue, the sale of the *vivo*Pharm business and the sale of common stock under its at-the-market financing vehicle. Prior to the Merger, the Company's operating activities have been primarily funded with proceeds from the sale of convertible notes and preferred stock securities.

The Company's Board of Directors (the "Board"), after an assessment of the status of the Company's efforts to seek strategic alternatives and the Company's then current cash position, approved a plan on January 31, 2023 to preserve the Company's cash to be able to continue to pursue a satisfactory strategic alternative for the purpose of maximizing the value of the Company's business while also having sufficient cash to adequately fund an orderly wind down of the Company's operations (the "Cash Preservation Plan") in the event it is unable to secure a satisfactory strategic alternative. As part of the Cash Preservation Plan, the Company implemented a reduction in force, resulting in the retention of a core group of employees required for one or more potential strategic transactions and/or to execute an orderly wind down of the Company if required. The Company estimates that it will incur approximately $1.4 million for retention, severance and other employee termination-related costs in the first and second quarters of 2023. The Company has put on hold its pending efforts with respect to its current preclinical and clinical programs.

The Company has suffered recurring losses and negative cash flows from operations since inception, has an accumulated deficit, and is expected to generate minimal revenue from continuing operations as we have substantially ceased the Maple Grove facility's revenue producing operations to support internal drug discovery programs. The Company is projecting insufficient liquidity to meet its obligations as they become due over the next twelve months. The Company had cash and cash equivalents of $4.9 million as of March 31, 2023, an accumulated deficit of $106.0 million, cash outflows from continuing operations of $5.1 million for the three-months ended March 31, 2023 and $12.8 million for the year then ended December 31, 2022, as well as a net loss from continuing operations of $4.3 million for the three months ended March 31, 2023 and $15.8 million for the year ended December 31, 2022. These conditions and events raise substantial doubt about the Company's ability to continue as a going concern.

The Company's forecast of the period of time through which its current financial resources will be adequate to support its operations and its expected operating expenses are forward-looking statements and involve risks and uncertainties. In 2023, the Company has undertaken the following actions:

- On January 4, 2023, the Company announced that it had engaged LifeSci Capital as its financial advisor to assist in exploring a range of strategic alternatives focused on enhancing shareholder value. There can be no assurance that this review process will result in any changes to the Company's current business plans or lead to any specific action or transaction.

- The Company's Board of Directors (the "Board") approved a plan on January 31, 2023 to preserve the Company's cash to be able to continue to pursue a satisfactory strategic alternative for the purpose of maximizing the value of the Company's business while also having sufficient cash to adequately fund an orderly wind down of the Company's operations (the "Cash Preservation Plan") in the event it is unable to secure a satisfactory strategic alternative. As part of the Cash Preservation Plan, the Company implemented a reduction in force which included the Company's former President and Chief Executive Officer, and Chief Scientific Officer.

- On March 7, 2023, the Company sold its equipment in its San Diego laboratory to a third party in exchange of $200,000 in consideration.

- On March 9, 2023, the Company terminated its January 2022, San Diego office and laboratory lease agreement. The effective date of the termination is March 31, 2023. The landlord retained approximately $45 thousand as an early termination fee. This lease termination resulted in a $1.2 million reduction in future operating lease payments.

- On March 24, 2023 the Company terminated its (a) Equity Distribution Agreement, dated April 8, 2022, by and between the Company and Canaccord Genuity LLC, regarding the issue and sale, from time to time, of shares of the Company's common stock for an aggregate offering price of up to $20,000,000, and (b) Purchase Agreement, dated March 28, 2022, by and between the Company and Lincoln Park Capital Fund, LLC, regarding the issue and sale, from time to time, of shares of the Company's common stock for an aggregate offering price of up to $15,000,000.

- On March 24, 2023, the Company filed post-effective amendments to certain of its registration statements previously filed with the SEC, including post-effective amendments to each of: (i) Registration Statement Nos. 333-249513, 333-252628, 333-239497, and 333-218229 on Form S-3; (ii) Registration Statement Nos. 333-191520, 333-191521, 333-196198, 333-205903, 333-256225 and 333-214599 on Form S-8; and (ii) Registration Statement No. 333-215284 and 333-264595 on Form S-1 (such post-effective amendments, collectively the "Post-Effective Amendments" and such registration statements, collectively the "Registration Statements"). In accordance with undertakings made by the Company in each of the Registration Statements to remove from registration, by means of a post-effective amendment, any and all securities of the Company that were registered for issuance that remain unsold at the termination of the offerings, the Company removed from registration any and all securities of the Company registered but unsold under each of the Registration Statements. As a result of this deregistration, no securities remain registered for sale pursuant to the Registration Statements.

- On April 24, 2023 the Company's Board of Directors determined it was appropriate to voluntarily delist its securities from The Nasdaq Capital Market ("Nasdaq"). On May 4, the Company filed a Form 25 with the Securities and Exchange Commission (the "SEC") and the delisting became effective on May 15, 2023. Following the delisting of the Company's securities from Nasdaq, the Company filed a Form 15 with the SEC to suspend its reporting obligations under the Securities Exchange Act of 1934, as amended. The Company expects that the deregistration of such securities will become effective 90 days after the filing of the Form 25 with the SEC. The documents filed with the SEC will be available on the Company's website. The Board made the decision to pursue this strategy following its review and careful consideration of a number of factors, including, but not limited to, the expected reduction in operating expenses by eliminating SEC reporting costs, which would allow the Company to focus more resources on its continued pursuit and exploration of satisfactory strategic alternative transactions and/or execution of an orderly wind down of the Company, if necessary. The Board determined that deregistration is in the overall best interests of the Company and its stockholders. Following delisting of the Company's common stock from Nasdaq, the common stock has been quoted on the Pink Open Market operated by OTC Markets Group Inc. (the "OTC") under the symbol "VYNT" starting on May 15, 2023. The Company intends to continue to provide information to its stockholders and to take other actions within its control to enable its common stock to be quoted on the OTC Pink Open Market in the Pink Current Information market tier. There is no guarantee, however, that a broker will continue to make a market in the common stock and that trading of the common stock will continue on an OTC market or otherwise. Going forward, Vyant Bio may, from time to time, when it deems appropriate, provide limited information regarding its financial status and business activities, or issue press releases for select events or developments.

- On May 9, 2023, the Company and the Andrew D. C. LaFrence, the Company's President, Chief Executive Officer and Chief Financial Officer, entered into a Consulting Agreement providing that effective as of June 1, 2023 (or such later date as may be agreement to by the Company and Mr. LaFrence), Mr. LaFrence would continue to serve as the Company's President, Chief Executive Officer and Chief Financial Officer as a part time consultant rather than a full time employee. His employment agreement, which is filed as an exhibit to the Company's Annual Report on Form 10-K for the year ended December 31, 2021, would be deemed terminated as of that date by the Company without cause for purposes of determining severance thereunder. The Consulting Agreement is a further step in the Company's efforts to conserve cash consistent with its Cash Preservation Plan.

- On May 11, 2023 pursuant to the Company's Cash Preservation Plan, the Company returned one piece of equipment to its leasing Company for the final lease payment of $181 thousand.

As a result of the above activities, the Company accrued $1.2 million of severance expense in the first quarter of 2023 of which $0.9 million was paid as of March 31, 2023. Substantially all of the remaining severance accrual is expected to be paid in the second quarter of 2023. As of May 22, 2023 the Company has 5 fulltime employees, including Mr. LaFrence.

In response to these conditions and based on our current operating plan, the Company plans to further reduce expenses, slow cash flows, and evaluate strategic partners to acquire our assets, including our public company as a reverse merger candidate. There are no assurances that we will be able to raise cash in these transactions or find a reverse merger candidate and we may therefore need to complete an orderly winddown of the Company's operations or, if sufficient funds are not available, bankruptcy. These plans have not yet been finalized and are not within the Company's control, and therefore cannot be deemed probable. As a result, the Company has concluded that management's plans do not alleviate substantial doubt about the Company's ability to continue as a going concern.

The Company expects to continue to incur operating losses in the future, unless and until the Company's drug discovery efforts or other revenue from collaborators are able to demonstrate a level of success that would lead to licensing potential. In addition, the Company will continue to incur the costs of being public, including legal and audit fees and director's and officer's liability insurance. These losses have had, and will continue to have, an adverse effect on the Company's working capital, total assets and stockholders' equity. Because of the numerous risks and uncertainties associated with drug discovery and development efforts and costs associated with being a public company, the Company is unable to predict when it will become profitable, and it may never become profitable. Even if the Company does achieve profitability, it may not be able to sustain or increase profitability on a quarterly or annual basis. The Company's inability to achieve and then maintain profitability would negatively affect its business, financial condition, results of operations and cash flows.

The Company's forecast of the period of time through which its current financial resources will be adequate to support its operations and its expected operating expenses are forward-looking statements and involve risks and uncertainties. Actual results could vary materially and negatively as a result of a number of factors, including:

- the Company's ability to consummate any strategic transaction, whether by acquisition, sale of any part of its business, or otherwise, and effectively operate its business during any such transaction process;
- The time needed to consummate a strategic transaction if a counterparty is found;
- the Company's ability to execute on its current business plans while exploring strategic alternatives;
- the Company's need for significant additional capital and the Company's ability to satisfy its capital needs;
- the Company's potential product liability or intellectual property infringement claims;
- the Company's ability to maintain or protect the validity of its patents and other intellectual property;
- the Company's dependency on third-party manufacturers to supply it with instruments and specialized supplies;
- the Company's ability to adapt its business for future developments in light of the global outbreak of COVID-19, which continues to rapidly evolve;
- the Company's dependency on the intellectual property licensed to the Company or possessed by third parties; and
- the Company's ability to retain key talent.

Cash Flows from Continuing Operations

Cash Flows from Discontinuing Operations

During the fourth quarter of 2022, the Company sold its *vivo*Pharm operating companies and in March 2023, sold *vivo*Pharm PTY LTD ("PTY"), the holding company of the former operating companies. During the first quarter of 2023, the Company used $535 thousand of cash in operating activities of discontinuing operations. This cash usage consistent of $152 thousand net loss and reductions in accounts payable and accruals related to *vivo*Pharm sale transactions costs and payment of contractual severance obligations to former *vivo*Pharm employees which were accrued as of December 31, 2022. During the first quarter of 2023, $132 thousand of cash was used in discontinuing operations investing activities related to the finalization of all of the *vivo*Pharm sale transactions.
