Dear Shareholders,

On behalf of the board of directors (the "Board") of Hong Kong Shanghai Alliance Holdings Limited and its subsidiaries (collectively, the "Group"), I am pleased to present you the audited consolidated results for the year ended 31st March 2023 (the "Year").

各位股東:

本人謹代表滬港聯合控股有限公司及其附屬公司 (統稱「本集團」)之董事會(「董事會」), 欣然提呈 截至二零二三年三月三十一日止年度(「本年度」)之 經審核綜合業績。

CHAIRMAN'S STATEMENT 主席報告書

Fiscal year 2022/23 was once again a year filled with severe macro headwinds. On the one hand, the rising geopolitical tension and lingering COVID-19 have together created a global supply chain chaos. That resulted in notable changes in trading patterns, followed by high volatility in commodity prices such as steel, which posed unwanted uncertainties to our Steels Distribution and Processing Business. Meanwhile, the rising interest rate and inflation environment have added complexity to the problem, with doubts and conservatism slowly growing into consumer pessimism and investor/ corporate hesitation in making investment/leasing decision, affecting our Building Products Distribution Business, as well as Property Investment and Fund Management Business.

Despite that, thanks to our dedication and expertise, we were able to sufficiently manage the challenges. Although there was a small drop in sales for our Steels Distribution and Processing Business during the Year, we still see a meaningful margin enhancement for the segment, highlighting the effectiveness of our procurement strategy. We also saw a growing adoption of offsite rebar fabrication in Hong Kong, with our delivery quantity recording a 11.6% growth year-on-year, giving us much optimism for the future. For our Building Products Distribution Business, we were able to maintain an adequate business level and sales performance; and for our Property Investment and Fund Management Business, we were able to leverage our COVID-19 experience over the past three years, maintaining operations and achieving a milestone in occupancy rate that led to a satisfactory fee income during the Year. Overall, the Group was able to report a net profit growth of 26.5% year-on-year to HK\$82.8 million during the Year. A lot of the credit goes to the dedication and hard work of our team, and the results may have simply validated our capabilities across Mainland China and Hong Kong.

While we worked hard on the business end, we also understand the growing expectation on corporate sustainability. Hence, we completed all phases of solar photovoltaic system installation for our automated rebar processing and assembly plant in Tsing Yi in January 2023, using it to cover approximately 70% of the plant's electricity consumption. In addition, our three commercial properties under management, namely Central Park • Pudong, Central Park • Jing'an and Central Park • Huangpu, have also been awarded LEED Gold and WELL Health-Safety Rating certifications, capable of attracting new tenants and setting the industry ESG standard of going forward.

Looking into next year, we believe there are ample room and development opportunities particularly for our Steels Distribution and Processing Business in Hong Kong. Across both The Chief Executive's "2022 Policy Address" and "2023-2024 Budget", we saw a growing emphasis and maturing plans to accelerate the development of Northern Metropolis in the North, as well as the development of Kau Yi Chau Artificial Islands in the South. Those two are expected to come with a strong pipeline of infrastructure projects. 二零二二/二三財政年度又是充滿宏觀挑戰的一 年。一方面,地緣政治緊張局勢升溫加上揮之不去 的新冠疫情陰霾,共同打亂全球供應鏈。貿易端亦 因此需要作出大幅調整,這導致鋼鐵等商品價格出 現大幅波動,亦為我們的鋼鐵分銷及加工業務增添 了不少不確定性。同時,利率上升和通脹環境進一 步增加了問題的複雜性,消費者及投資者/企業在 如此不確定的環境下均採取了較保守的態度,紛紛 降低消費及投資/租賃意慾,窒礙了我們建築材料 分銷業務以及房地產投資及基金運營業務的發展。

儘管如此,憑藉我們的專業及努力,我們得以乘風 破浪,迎難而上。本年度,受惠於我們行之有效的 採購政策,鋼鐵分銷及加工業務在收入錄得輕微下 跌的情況下,其分部利潤率依然有所上升。我們於 香港的場外鋼筋加工業務亦錄得穩定增長,本年度 交付量同比增加11.6%,為該分部的未來發展奠 下良好基礎。我們的建築材料分銷業務仍然維持資 了基金運營業務於過去三年疫情下仍創佳績,日常 了人工。 及基金運營業務於過去三年疫情下仍創佳績,目常 彈不單不受影響,旗下物業的出租率更實現里程。 整體而言,本集團於本年度的淨利潤得以同比增是 26.5%至82.8百萬港元,如此出眾的表現不僅是 團隊盡心盡力的功勞,更反映了我們於中國大陸及 香港的優秀服務能力。

埋首業務以外,我們亦意識到大眾對企業可持續發展日益增加的期望。因此,我們於二零二三年一月完成了位於青衣的自動化鋼筋加工及裝配廠的太陽能光伏系統的所有階段的安裝工程,現時該系統已可覆蓋該廠房約70%的耗電量。此外,我們在管的三幢商業物業一中港匯•浦東、中港匯•靜安及中港匯•黃浦亦已取得能源與環境設計先鋒建築評級體系(LEED)的金獎認證及WELL健康一安全評級認證,足證我們可同時平衡吸納新租戶及推行可持續發展,為行業豎立可持續發展標準。

展望來年,我們相信位於香港的鋼鐵分銷及加工 業務將有著充分的發展空間及機遇。從行政長官 的「2022年施政報告」以至「2023-2024年財政預算 案」當中,我們均看到加快北部都會區發展,以及 南部交椅洲人工島的意慾及計劃,而兩項大型項 目的落實相信亦將引伸出更多的基礎設施項目需 求。此外,「2022年施政報告」亦將完善道路網絡 及鐵路系統列為重點基建改善項目之一,例如北都 公路、沙田繞道、將軍澳一油塘隧道、港深西部

CHAIRMAN'S STATEMENT 主席報告書

In addition, the "2022 Policy Address" also pinpointed road network and railway system enhancement as one of the key infrastructure improvements, with projects such as Northern Metropolis Highway, Shatin Bypass, TKO-Yao Tong Tunnel, Hong Kong-Shenzhen Western Rail Link, Central Rail Link and TKO Line Southern Extension all being under consideration. In terms of housing supply, it is also expected that total public housing supply will increase to approximately 128,000 units in the next five years. After all, our leading market position in Steels Distribution and Processing Business in Hong Kong should allow us to capture more project opportunities in the market, laying a solid foundation for efficiency and margin enhancement from our steel operations in the near future.

Besides, as Hong Kong has fully opened its border to the world, we expect international travellers and economic activities to return, with venues such as shopping centers, hotels and conference centers being more incentivised to invest and renovate on sanitary products. These should also give us a strong market to tackle in the coming years for our Building Products Distribution Business, and hopefully we can have more positive news to share as the year goes by.

Lastly, regarding the Shanghai commercial property market, we saw stabilising rent rate and recovery in demand in the first quarter of 2023. Although the expected increase in short-term office supply may put pressure on occupancy rate and rent rates, supported by the gradual recovery of Mainland China's economy and the proven strategic advantage of Shanghai being a commercial, financial and technology centre, we remain confident in the economic development in the region, as well as its demand of commercial and industrial properties in the future. From recent figures, we continued to see a strong rebound in occupancy rate of the hotel at Central Park • Huangpu, reaching approximately 90% with average room rate approaching pre-COVID levels, as business travel and conferences and exhibitions continued to resume in Shanghai. We believe this should offer us optimism as we march forward.

Over the last three years, we believe that we have learned, grown, and matured as a team and as a company. There is no doubt that the economy is evolving, but so as our business model and daily operations which were able to deliver sustainable growth. For that, we are grateful to our business partners, staff and shareholders for their trust, commitment and support. Going forward, we will focus on the digitisation of the economy, as well as the use of Internet of Things (IoT) and energy-saving technologies, in order to better serve our customer's changing needs. We will continue to take our business to new heights, and drive greater returns for our shareholders and the greater community in the future. 鐵路、中鐵線及將軍澳線南延線等項目均在考慮之 列。住屋方面,香港政府亦預期未來五年將增加至 約128,000個公營房屋單位供應。憑藉我們在香港 鋼鐵分銷及加工業務的領先市場地位,我們將可從 中取得更多業務機會及更高市場份額,未來有望進 一步提升鋼鐵業務的營運效率及盈利表現。

此外,隨著香港全面開關,我們亦預期國際旅客和 經濟活動將重回香港,而購物中心、酒店及會議中 心等場所相信在未來數年亦將加大對衛浴產品的投 資,以迎接未來的客流及需求。這些發展亦將為我 們的建築材料分銷業務帶來相當的業務機遇,希望 來年我們可分享此業務板塊的更多正面成果。

上海商業房地產市場方面,我們在二零二三年第一季度看到租金及需求上均出現回穩。儘管寫字樓於短期內之供應或有所增加,而這或許會對出租率和租金水平構成一定壓力。然而,隨著中國大陸經濟持續復甦,加上上海擁有作為商業、金融和科技中心的戰略優勢,我們對該區的經濟發展,以及相應的商業和工業房地產的需求,依然充滿信心。根據近期之數據,由於上海的商旅活動和會議展覽持續恢復,我們亦看到中港匯•黃浦旗下酒店的入住率大幅提升,平均房價達至疫情前水平約90%,這亦為我們的未來發展打下強心針。

在過去的三年內,不論是作為一個團隊,或是一家 企業,我們都得以從中學習、成長,以至蛻變。毫 無疑問,經濟大環境正急速轉變,但可幸的是,我 們亦正致力完善我們的商業模式和日常營運。為 此,我們衷心感謝業務合作夥伴、員工和股東在過 去的信任、付出及支持。未來,我們將專注經濟數 字化,以及物聯網和節能技術的應用,以滿足客戶 不斷變化的需求。我們將繼續推動業務發展,務求 走得更前,為股東和廣大社區創造更高回報。

OVERALL PERFORMANCE

FY2022/23 (the "Year") represents another challenging year for the Group. During the first three quarters of the Year, COVID-19 outbreak continued to trouble both Hong Kong and Mainland China. Various geopolitical events, along with surging inflation and climbing interest rates, have also casted doubts over the region's short-term economic outlook, leading to a low lease absorption rate in Shanghai, as well as a decreasing demand for new home renovation and construction projects in the private sector in Hong Kong. Luckily, the Year ended on a good note, as the Group saw recovering momentum in Shanghai's leasing market, as well as its Steels Distribution and Processing Business in Hong Kong in the fourth quarter, supported by the easing pandemic measures and the introduction of various economic stimulus packages.

Under such challenging circumstances, the Group strives to maintain a cost-effective steel sourcing mechanism, enhances its steels processing efficiency, while refining its leasing strategy and implementing various cost containment measures. As a result, the Group was able to deliver another set of satisfactory results for the Year. Revenue decreased slightly by 5.3% year-on-year, from approximately HK\$2,807.9 million last year to approximately HK\$2,658.5 million for the Year, mainly due to the difficult pandemic situation and the high-base effect of last year. However, gross profit increased from approximately HK\$339.7 million to approximately HK\$352.0 million, with gross profit margin also slightly improved from 12.1% to 13.2% for the Year. Riding on the increasing economies of scale and improvement in operational leveraging, the Group's profit attributable to owners of the Company reached approximately HK\$82.8 million, representing a notable improvement of 26.5% as compared with the same period last year.

整體表現

二零二二/二三財年(「本年度」)對本集團而言再次 是充滿挑戰的一年。於本年度首三個季度,2019 冠狀病毒病疫情繼續困擾中港兩地。多項地緣政治 事件、通脹及利率攀升等均使市場對區內的短期經 濟前景產生憂慮,上海的租賃吸收率亦因此處於較 低水平,香港新屋裝修及私營建築項目之需求亦出 現下滑。幸而,本集團於本年度末漸見曙光,在疫 情防控措施紓緩及各項經濟刺激方案的支持下,上 海租賃市場及香港鋼鐵分銷及加工業務均於第四季 度出現穩步復甦勢頭。

縱使經濟環境嚴峻,本集團仍致力維持其極具成本 效益的鋼鐵採購機制,並提升鋼鐵加工效率、同時 完善其租賃策略,並實施多項成本控制措施。因 此,本集團於本年度再次交出理想的業績表現。受 嚴峻疫情影響,加上去年的高基數效應,本集團 收入由去年的約2,807.9百萬港元減至本年度的約 2,658.5百萬港元,同比輕微減少5.3%。然而,本 年度的毛利由約339.7百萬港元增至約352.0百萬 港元,毛利率亦由12.1%略增至13.2%。受惠於 規模經濟的提升及經營槓桿的改善,本公司擁有人 應佔本集團溢利達約82.8百萬港元,較去年同期 顯著增長26.5%。

Given the dynamic market situation, the Group's business segments also had varying performances during the Year. Property Investment and Fund Management Business achieved another milestone in occupancy rate of Central Park • Huangpu, which has resulted in an additional fee income for the Year. The segment's profit before income tax also demonstrated a significant growth of 2.1 times as compared to last year, reaching approximately HK\$30.8 million for the Year. Meanwhile, delay in projects delivery together with the interest rate hikes since the second half of the Year have put notable pressure on the Group's Steels Distribution and Processing Business and Building Products Distribution Business, resulting in a year-on-year drop of 4.8% and 25.7% in profits before income tax, respectively. Despite that, these two business segments continued to demonstrate their resilience, achieving profits before income tax of approximately HK\$84.1 million and HK\$32.0 million, respectively.

For the Year, basic earnings per ordinary share of the Company was HK12.94 cents, as compared with HK10.22 cents in the same period last year.

The Group also made strides in achieving sustainability. In particular, the Group's Automated Rebar Processing and Assembly Plant in Tsing Yi has completed all phases of its solar photovoltaic system installation in January 2023, allowing it to cover approximately 70% of the plant's electricity consumption through renewable energy. In addition, the three commercial properties under the Group's management, namely Central Park • Huangpu, Central Park • Jing'an and Central Park • Pudong, have all been awarded LEED GOLD and WELL Health-Safety Rating certifications, highlighting the Group's dedicated efforts in providing green and healthy workspace for its tenants and business partners. 本年度市場形勢瞬息萬變,本集團的業務分部亦因 此有著不同的表現。房地產投資及基金運營業務受 惠於中港匯。黃浦的租用率再創新高,令本年度 產生額外的費用收入,該分部除所得税前溢利較 去年顯著增長2.1倍,達約30.8百萬港元。另一方 面,項目延期交付連同自本年度下半年以來的加息 情況對本集團的鋼鐵分銷及加工業務及建築材料分 銷業務造成較大壓力,導致除所得税前溢利同比分 別下降4.8%及25.7%。儘管如此,該兩個業務分 部均繼續展現其業務穩定性,除所得税前溢利分別 達約84.1百萬港元及32.0百萬港元。

於本年度,本公司每股普通股基本盈利為12.94港 仙,去年同期為10.22港仙。

本集團於實現可持續發展方面亦取得進展。尤其 是,本集團位於青衣的自動化鋼筋加工及裝配廠已 於二零二三年一月完成其太陽能光伏系統所有階段 的安裝,使可再生能源可覆蓋工廠約70%的電力 消耗。此外,本集團在管的三個商業物業(即中港 匯•黃浦、中港匯•靜安及中港匯•浦東)均獲 授綠色建築評估系統的金級認證(LEED GOLD)及 WELL健康-安全評價認證(WELL HSR),突顯本 集團致力為其租戶及業務夥伴提供綠色健康工作空 間的決心。

BUSINESS REVIEW

Steels Distribution and Processing Business

Steels Distribution and Processing Business mainly offers construction and industrial steel in Hong Kong and Mainland China. During the Year, the segment continued to face challenges on various fronts. The COVID-19 outbreak in Shanghai has weaken the demand for its industrial steels in Mainland China, whereas the delay in construction projects in Hong Kong has also led to a slow order fulfillment, leading to a moderate drop in segment revenue from approximately HK\$2,317.1 million last Year, to approximately HK\$2,221.3 million for the Year. Nevertheless, as there is an increasing acceptance of offsite rebar fabrication in Hong Kong, the delivery quantity of the Group's construction steels processing business has increased by 11.6% year-on-year.

Despite the high volatility in steel prices during the Year, the Group continued to implement its proven procurement strategy in managing the price risks and was able to record an improvement in gross profit margin for the Year. That laid a solid foundation for another set of good results, with profit before income tax for the Year reaching approximately HK\$84.1 million, as compared to approximately HK\$88.4 million in the same period last year. During the Year, the Group has participated in a number of notable civil infrastructures works and private projects, including the construction of Shek Wu Hui Effluent Polishing Plant, public housing projects in Kwun Tong and Ma On Shan, and private residential projects in Siu Hong station, Tin Wing station and Pak Shek Kok, etc.

業務回顧

鋼鐵分銷及加工業務

鋼鐵分銷及加工業務主要於香港及中國大陸提供建築及工業用鋼鐵。於本年度,該分部繼續面對多方面的挑戰。2019冠狀病毒病於上海爆發,削弱了中國大陸對其工業用鋼鐵的需求,同時香港建築項目延期亦導致訂單交付情況放慢,分部收入因此由去年的約2,317.1百萬港元,輕微下跌至本年度的約2,221.3百萬港元。然而,由於香港對場外鋼筋加工的接受程度增加,本集團建築鋼鐵加工業務的交付量錄得11.6%的同比增幅。

儘管本年度的鋼鐵價格出現大幅波動,但本集團堅持執行其行之有效的採購策略,以應對價格風險, 本年度毛利率因此得到提升,為良好業績奠定堅實 基礎。本年度的除所得税前溢利達約84.1百萬港 元,而去年同期約為88.4百萬港元。於本年度, 本集團已參與多項著名的土木基建工程及私營項 目,包括興建石湖墟淨水設施、觀塘及馬鞍山的公 營房屋項目以及兆康站、天榮站及白石角的私營住 宅項目等。

Amidst the slump in residential property transactions in the Year, as well as the high base effect brought by certain largesize projects being completed in the same period last year, the segment reported a profit before income tax of approximately HK\$32.0 million, on revenue of approximately HK\$325.5 million, as compared with a profit before income tax of approximately HK\$43.1 million, on revenue of approximately HK\$393.7 million in the same period last year. 礙於本年度的住宅物業成交低迷,加上去年同期竣 工的若干大型項目造成的高基數效應,該分部錄得 收入約325.5百萬港元及除所得税前溢利約32.0百 萬港元,而去年同期的收入約為393.7百萬港元, 除所得税前溢利約為43.1百萬港元。該分部於本 年度內交付多個香港標誌性項目,當中包括香港機 場、港島香格里拉酒店、洲際酒店及創紀之城的翻 新工程。

Property Investment and Fund Management Business

Positioned as a niche market specialist with a proven track record in asset revitalisation and value optimisation, the Group continues to embrace its "asset-light" model when developing its investment projects in Shanghai. As at 31st March 2023, the Group manages a total gross floor area ("GFA") of approximately 161,724 square meters, with its assets value under management reached approximately HK\$9.1 billion. Among the three Central Park projects under management, Central Park • Pudong is wholly-owned by the Group, with a view to generating sustainable rental and property management fee income, as well as achieving fair value appreciation in the medium-to-long term. The Group is also partnering with leading investment funds for the other two revitalisation projects, namely Central Park • Jing'an and Central Park • Huangpu, where the Group takes an equity stake and acts as a general partner and/or investment manager.

房地產投資及基金運營業務

作為在資產活化及價值提升方面擁有良好往績紀 錄的細分市場專家,本集團繼續於上海秉持其「輕 資產」模式投資房地產項目。於二零二三年三月 三十一日,本集團管理的總建築面積(「建築面積」) 約為161,724平方米,其在管資產價值約為91億 港元。在管的三個中港匯項目中,中港匯 • 浦東 為本集團全資擁有,旨在產生可持續租金及物業管 理費收入,並於中長期實現公允價值提升。本集團 亦與領先的投資基金合作,以權益持有人並擔任普 通合夥人及/或投資經理的身份,參與中港匯 • 靜安及中港匯 • 黃浦兩個升級優化項目。

Our track record in Shanghai 我們於上海的彪炳往績

Looking back to the Year, even though the pandemic prevention measures continued to pose momentary impact on the Group's operation and hinder commercial activities in the region, the Central Park projects were able to carry on without significant disruption. Rental income of the Group's wholly-owned property, Central Park • Pudong, maintained at approximately HK\$48.3 million for the Year, as compared to HK\$49.9 million in the same period last year; the occupancy rate of Central Park • Huangpu has also improved considerably, reaching another milestone that has resulted in an increase in relevant fee income for the Year. Leveraging its unique position and proven capability, the Group's Property Investment and Fund Management Business recorded a profit before income tax of approximately HK\$30.8 million, on revenue of approximately HK\$111.6 million for the Year, representing a remarkable improvement from the profit before income tax of approximately HK\$10.0 million, on revenue of approximately HK\$97.1 million in the same period last year.

回顧本年度,儘管防疫措施對本集團的營運以及當 地的商業活動造成短暫影響,但中港匯項目均未遭 受重大影響。本集團全資擁有的物業中港匯 • 浦 東,其本年度租金收入維持在約48.3百萬港元, 去年同期則為49.9百萬港元;中港匯 • 黃浦的出 租率亦顯著提升,帶動本年度的相關費用收入增 長。憑藉本集團獨特的定位及備受認可的能力,本 集團之房地產投資及基金運營業務於本年度錄得收 入約111.6百萬港元,及除所得税前溢利約30.8百 萬港元,較去年同期的收入約97.1百萬港元,及 除所得税前溢利約10.0百萬港元,錄得顯著增長。

ASSET UNDER MANAGEMENT 在管資產

OUTLOOK

Heading into FY2023/24, the Group expects the market to remain volatile and unpredictable. The lingering effect of geopolitical events and tension, the low short-term economic visibility, as well as the expectation of sustained high interest rates, are all likely to pose sustained impact on global steel prices, suppressing new home renovation and private construction demand, and hindering property leasing decision and investment appetite.

Nonetheless, the Group remains cautiously optimistic on the economic development of both Shanghai and Hong Kong. For Hong Kong, it is noted that the Chief Executive's 2022 Policy Address has highlighted the need to accelerate the development of the Northern Metropolis, along with a series of infrastructure projects and initiatives that would increase overall public housing supply by 50% in the coming five years. Those projects are expected to boost the Government's annual expenditure on capital works to over HK\$100 billion in the next few years. Compounded by the contribution from private projects, the annual total construction volume in Hong Kong is expected to reach HK\$300 billion in the next few years, laying a solid foundation for the demand of the Group's Steels Distribution and Processing Business. In face of the potential surge in demand, the Group also invested in new machineries for automated rebar processing, in order to further expand its processing capacity and gain market share, as well as playing a more important role in driving local construction industry transformation.

Regarding the Group's Property Investment and Fund Management Business, the Group saw various policies and domestic measures that have been put forth by the municipal government in stimulating economic recovery and restoring market confidence. Shanghai gradually moves out of the shadow of COVID-19, with the resumption of business travel as well as conference and exhibitions activities, we saw a strong rebound of occupancy rate of the hotel in our Central Park • Huangpu, reaching approximately 90% with average room rate approaching pre-COVID level. The Group believes Shanghai would continue be the ideal destination for businesses to establish or expand their presence in Mainland China. The Group will continue to keep a keen eye on available market opportunities using a light asset approach, and expand its asset management capability in the future.

Currently, the businesses are well on track to deliver sustainable profit. The Group will continue to execute its prudent cost control and capital management measures, so as to mitigate risks and headwinds ahead; while continue to drive changes for better serving our customers' needs and business growth.

展望

邁進二零二三/二四財年,本集團預期市場將持續 波動及不可預測。地緣事件及緊張局勢帶來的陰 霾、短期經濟的不確定性,以及利率預期持續高 企,均可能對全球鋼鐵價格造成持續影響,同時或 會抑制新屋裝修及私營建築項目需求,並降低物業 租賃及投資意慾。

儘管如此,本集團對上海及香港的經濟發展仍持審 慎樂觀態度。就香港而言,行政長官二零二二年施 政報告強調需要加快發展北部都會區及一系列基建 項目,有關項目預計將於未來五年內把整體公營房 屋供應量大幅增加50%。預期有關項目於未來數 年將增加政府每年基本建設工程開支至超過1,000 億港元。疊加私營項目的需求,預期未來數年香港 每年的總建築量將達3,000億港元。這些潛在項目 亦將為本集團的鋼鐵分銷及加工業務奠下堅實的發 展基礎。面對潛在需求激增,本集團亦已為其自動 化鋼筋加工業務投入新機械,以進一步提升其加工 能力及市場份額,致力於香港建築業轉型上發揮更 重要的作用。

就本集團的房地產投資及基金運營業務而言,本集 團看到當地政府為刺激經濟復甦及重振市場信心已 推出多項政策及措施。隨著上海逐漸走出2019冠 狀病毒病的陰霾,商務差旅以及會議及展覽活動恢 復,我們中港匯。黃浦的酒店入住率大幅回升, 平均房價達至疫情前水平約90%。本集團相信上 海將繼續成為企業在中國大陸建立或擴大業務的理 想地點。本集團日後將繼續以輕資產的方式密切關 注市場機會,同時將繼續擴展其資產管理能力。

目前,各業務板塊已實現可持續利潤。本集團將繼 續透過審慎的成本控制及資本管理措施,進一步減 低未來風險;同時繼續推動變革以更妥善地滿足客 戶需要及業務增長。

CORPORATE FINANCE AND RISK MANAGEMENT

Financial Position

Compared with the financial year ended 31st March 2022, the Group's total assets decreased from approximately HK\$3,368.2 million to approximately HK\$2,957.4 million as at 31st March 2023, mainly as a result of translation difference of the Group's investments in Mainland China, and the reduction in working capital. With the softening of steel price and the arrival of low-cost shipments, the Group's inventories decreased from approximately HK\$547.5 million to approximately HK\$473.1 million. The average inventory days of supply increased to 81 days. The Group's trade and bill receivables also decreased from approximately HK\$509.6 million to approximately HK\$430.7 million, with the average overall days of sales outstanding increasing to 57 days. Net asset value of the Group reduced to approximately HK\$1,072.7 million, mainly attributable to the translation difference arisen from the depreciation on Renminbi ("RMB") for Group's net investments in Mainland China. Net asset value per ordinary share of the Company was equivalent to approximately HK\$1.50 as at 31st March 2023.

Compared with the financial position as at 31st March 2022, the Group's cash and cash equivalents and pledged bank deposits decreased to approximately HK\$159.2 million. The Group's borrowings also decreased by approximately HK\$65.6 million to approximately HK\$1,433.3 million as at 31st March 2023. Gearing ratio (net debt, which is total borrowings minus pledged bank deposits and cash and cash equivalents, divided by capital and reserves attributable to owners of the Company plus net debt) slightly increased from 56.1% to 57.0%, mainly contributed by the reduction in capital and reserves upon currency translation.

As a result of the reclassification of current portion of longterm bank loans of approximately HK\$475.7 million to current liabilities as at 31st March 2023, the Group's current ratio has been reduced to 0.68. To fulfill such short-term commitment, the Group has received indicative term sheets for refinancing the aforementioned current portion of longterm bank loans. The Group is in the process of finalising the terms and the binding credit facilities agreements with the banks. In the opinion of the directors of the Company (the "Directors"), after due and careful consideration and taking into account of the internally generated funds as well as all the banking facilities presently available to the Group, the Group has sufficient financial resources to meet its liabilities as they fall due, and is able to carry on its business without significant disruption.

企業財務及風險管理

財務狀況

與截至二零二二年三月三十一日止財政年度相比, 本集團總資產由約3,368.2百萬港元減至二零二三 年三月三十一日的約2,957.4百萬港元,主要由於 本集團於中國大陸之投資之匯兑差額以及營運資金 減少。由於鋼價回軟及低價的鋼鐵入庫,本集團的 存貨由約547.5百萬港元減至約473.1百萬港元, 平均可供應存貨週轉天數增至81天。本集團的應 收賬款及票據由約509.6百萬港元減少至約430.7 百萬港元,平均應收賬款週轉天數增至57天。本 集團的資產淨值減至約1,072.7百萬港元,主要是 由於本集團於中國大陸之淨投資因人民幣(「人民 幣」)減值而產生了匯兑差額。於二零二三年三月 三十一日,本公司每股普通股的資產淨值相當於約 1.50港元。

與二零二二年三月三十一日的財務狀況相比,本 集團之現金及現金等值及已抵押銀行存款減至約 159.2百萬港元。本集團於二零二三年三月三十一 日之借貸亦減少約65.6百萬港元至約1,433.3百萬 港元。資產負債比率(負債淨額,即借貸總額減去 已抵押銀行存款與現金及現金等值,再除以本公司 擁有人應佔股本及儲備加上負債淨額)由56.1%輕 微增至57.0%,主要由於貨幣匯兑後資本及儲備減 少所致。

由於長期銀行貸款之即期部分約475.7百萬港元於 二零二三年三月三十一日被重新分類為流動負債, 本集團的流動比率因而減至0.68。為履行該短期 承諾,本集團就上述長期銀行貸款之即期部分再融 資已成功取得指示性條款清單。本集團正與銀行就 具有約束力的信貸融資協議的條款作最後確定。經 審慎考慮及計及內部產生的資金,以及所有本集團 現時可動用的銀行融資,本公司董事([董事])認為 本集團有足夠財務資源償還其到期負債以及持續維 持業務。

These facilities are either secured by the Group's pledged bank deposits and/ or corporate guarantee provided by the Company or the Group's machineries. All of the above borrowings were on floating rate basis except for certain term loans totalling HK\$55.9 million, which are converted to a fixed rate basis through an interest rate swap arrangement. Interest costs of import bank loans were levied on interbank offered rates plus very competitive margin. RMB loans of the Group have been obtained from domestic and foreign banks in the amount of RMB419.8 million. Interest costs of RMB banking facilities were based on standard loan rates set by the People's Bank of China/Loan Prime Rate adjusted with competitive margin. The maturity of the Group's borrowings as at 31st March 2023 was as follows:

The followings are the major risks and uncertainties identified by the Group. There may be other possible risks and uncertainties which we are not aware of or which may not be material at present but may turn out to be material in the future.

Financial Risks

The Group's overall treasury and funding policies focus on managing financial risks including interest rate, foreign exchange and liquidity risks. The Group has always adhered to prudent financial management principles. The Group always monitors cash flows and maintains an adequate level of cash and cash equivalents to ensure the ability to finance the Group's operations and reduce the effects of fluctuation in cash flows to mitigate liquidity risk.

Operational Risk

The Group may face operational risk resulting from inadequate or deficiency in internal processes, people and systems or from external events. The Group has clear responsibility and accountability rests with every function at divisional and departmental levels. The Group are governed and guided by good standard operating procedures, proper authorisation policies and reporting framework. Our management will identify and assess key operational exposures from time to time to adjust potential risk response.

Business Risk

The Group's business performance will be affected by various factors, including but not limited to economic conditions, competitive environment of steels and building materials industry, performance of property markets and regulatory changes in regions where our business carry on or investments locate, which would not be mitigated even with careful and prudent investment strategy and strict procedure.

We focused on this area due to the magnitude of the balance to the financial position of the Group, and the significant judgement and estimates involved in the determination of the fair value of investment properties which is dependent on key assumptions including market rents, term and reversionary yields and market prices etc.

我們關注此範疇是鑒於投資物業對 貴集團財務狀況的結 餘屬重大,以及對投資物業公允價值的釐定涉及重大判斷 及評估,而這取決於若干關鍵假設,包括市場租金、期 限、復歸收益率及市價等。 How our audit addressed the Key Audit Matter 我們的審計如何處理關鍵審計事項

Our procedures in relation to management's valuations of the investment properties included: 我們就管理層對投資物業的估值所進行的程序包括:

We obtained an understanding of the management's internal control and assessment process of valuation and assessed the inherent risk of material misstatement by considering the degree of estimation uncertainty and level of other inherent risk factors such as significant judgements involved in determining assumptions to be applied.

我們了解了管理層對估值的內部控制及評估流程,並通過 考慮估計不確定性的程度以及其他固有風險因素的水平, 例如於釐定將予應用假設時涉及的重大判斷,評估了重大 錯報的固有風險。

We evaluated the competence, capabilities and objectivity of the independent external valuers.

我們評估獨立外部估值師的勝任能力、專業素質和客觀 性。

We involved our internal valuation expert in assessing the methodologies and the key assumptions, including market rents, term and reversionary yields and market prices etc, used by the management's expert by comparing with relevant comparable market data and industry research.

我們的內部估值專家透過比較相關可資比較的市場數據及 行業研究,協助我們評估管理層專家的方法論及主要假 設,包括市場租金、期限、復歸收益率及市價等。

Based upon the above, we considered that management judgement and estimation applied in respect of the relevant valuation were supportable by the evidence obtained and procedures performed. 基於以上實施的審計程序,已獲取的審計證據能夠支持其 應用於相關估值的管理判斷及假設。

基於我們已執行的工作,如果我們認為其他信息存 在重大錯誤陳述,我們需要報告該事實。在這方 面,我們沒有任何報告。

董事及審核委員會就綜合財務報表須 承擔的責任

RESPONSIBILITIES OF DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with Section 90 of the Companies Act 1981 of Bermuda and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

 Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2.2 Subsidiaries

(a) Consolidation

A subsidiary is an entity (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has right to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

(i) Business combinations

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

Acquisition-related costs are expensed as incurred.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisitiondate fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the profit or loss.

 - Intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.
- (ii) Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in a loss of control are accounted for as equity transactions - that is, as transactions with the owners of the subsidiary in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying amount of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity. 2 主要會計政策概要(續)

2.2 Subsidiaries (Continued)

(a) Consolidation (Continued)

(iii) Disposal of subsidiaries

When the Group ceases to have control. any retained interest in the entity is remeasured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. It means the amounts previously recognised in other comprehensive income are reclassified to profit or loss or transferred to another category of equity as specified/ permitted by applicable HKFRSs.

(b) Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

2.3 Associates

An associate is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition. The Group's investments in associates include goodwill identified on acquisition. Upon the acquisition of the ownership interest in an associate, any difference between the cost of the associate and the Group's share of the aggregate fair value of the associate's identifiable assets and liabilities is accounted for as goodwill.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate.

The Group's share of post-acquisition profit or loss is recognised in the consolidated income statement, and its share of post-acquisition movements in reserves is recognised in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

2.3 聯營公司

聯營公司是指本集團對其有重大影響力 但無控制權之實體,一般附帶20%至 50%投票權之股權。於聯營公司之投資 以權益會計法入賬。根據權益法,投資 初始以成本確認,於收購日期後,其賬 面金額會增加或減少,以確認投資者於 被投資公司之應佔溢利或虧損。本集團 於聯營公司之投資包括收購時已識別之 商譽。於收購聯營公司擁有權權益時, 投資於聯營公司之成本與本集團所佔於 聯營公司可識別資產及負債公允價值差 額列作商譽。

若於聯營公司擁有權權益減少但仍存在 重大影響力,先前於其他全面收入中確 認之金額僅按比例(如適用)重新分類至 損益。

本集團應佔收購後之溢利或虧損於綜合 損益表中確認,而其應佔收購後儲備變 動則於其他全面收入中確認,並相應調 整投資之賬面金額。當本集團應佔一間 聯營公司之虧損等於或超過其在該聯 營公司之權益(包括任何其他無抵押應 收賬款)時,本集團不會進一步確認虧 損,除非其已產生法律或推定義務或已 代聯營公司作出付款。

2.3 Associates (Continued)

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount adjacent to "share of results of investments accounted for using the equity method - net" in the consolidated income statement.

Profits and losses resulting from upstream and downstream transactions between the Group and its associate are recognised in the Group's consolidated financial statements only to the extent of unrelated investor's interests in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

2.4 Joint arrangements

The Group has applied HKFRS 11 - Joint Arrangements to all joint arrangements. Under HKFRS 11, investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations of each investor. The Group has assessed the nature of its joint arrangements and determined them to be joint ventures. Joint ventures are accounted for using the equity method.

2.3 聯營公司(續)

本集團在每個報告日釐定是否有客觀證 據證明於聯營公司之投資已減值。如投 資已減值,本集團計算減值金額應為於 聯營公司可收回金額與其賬面價值之差 額,並於綜合損益表中之「應佔按權益 法入賬之投資之業績一淨額」內確認該 金額。

本集團與其聯營公司間之上游和下游交 易之溢利及虧損,於本集團之綜合財務 報表中確認,但僅以無關連投資者於聯 營公司之權益為限。除非該交易提供證 據顯示所轉讓資產有所減值,否則未變 現虧損亦予以抵銷。聯營公司之會計政 策已按需要作出改變,以確保與本集團 採用之政策一致。

2.4 合營安排

本集團對所有合營安排已應用香港財務 報告準則第11號一合營安排。根據香 港財務報告準則第11號,於合營安排 之投資,視乎各投資者之合約權益及義 務而定,分類為合營業務或合營公司。 本集團已評估其合營安排之性質,並釐 定其為合營公司。合營公司採用權益法 入賬。

2.4 Joint arrangements (Continued)

Under the equity method of accounting, interests in joint ventures are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses and movements in other comprehensive income. The Group's investments in joint ventures include goodwill identified on acquisition. Upon the acquisition of the ownership interest in a joint venture, any difference between the cost of the joint venture and the Group's share of the net fair value of the joint venture's identifiable assets and liabilities is accounted for as goodwill. When the Group's share of losses in a joint venture equals or exceeds its interests in the joint ventures, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint ventures.

Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

2.5 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ("CODM"), who is responsible for allocating resources and assessing performance of the operating segments, and has been identified as the Executive Directors that make strategic decisions. 2.6 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in HK\$, which is the Company's functional and the Group's presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at yearend exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss. All foreign exchange gains and losses are presented in the consolidated income statement within "other gains- net".

Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss. Translation differences on non-monetary financial assets, such as equities classified as financial asset at fair value through other comprehensive income are recognised in other comprehensive income.

- (i) assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;

2.6 Foreign currency translation (Continued)

(d) Disposal of foreign operation and partial disposal

On the disposal of a foreign operation (that is, a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation or a disposal involving loss of joint control over a joint venture that includes a foreign operation, or a disposal involving loss of significant influence over an associate that includes a foreign operation), all of the currency translation differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In the case of a partial disposal that does not result in the Group losing control over a subsidiary that includes a foreign operation, the proportionate share of accumulated currency translation differences are reattributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (that is, reductions in the Group's ownership interest in associates or joint ventures that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange difference is reclassified to profit or loss.

(d) 出售海外業務及部分出售

於出售海外業務(即出售本集團於 海外業務之全部權益或有關出售 導致失去對一間附屬公司之控制 權(包括海外業務),或出售導致 對一間合營公司失去共同控制權 (包括海外業務)或出售導致對一 間聯營公司失去重大影響力(包括 海外業務)),則本公司擁有人於 該業務相關所有權益累計的匯兑 差異將重新分類至損益。

對於出售一間附屬公司(包括海外 業務)部分權益而沒有導致本集團 失去對附屬公司的控制權時,相 應比例的累計匯兑差額重新歸入 非控制性權益,但並不會於損益 確認。至於所有其他部分出售(即 部分出售聯營公司或合營公司而 沒有導致本集團失去重大影響力 或失去共同控制權),相應比例的 累計匯兑差額重新分類至損益。

2.7 Property, plant and equipment

Property, plant and equipment, is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the profit or loss during the financial year in which they are incurred.

The depreciation of property, plant and equipment is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives, as follows:

– Buildings	2% to 20%
 Leasehold improvements 	20% to 33%
 Furniture and equipment 	15% to 33%
– Machinery	10% to 25%
 Motor vehicles 	10% to 20%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.11).

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognised within "general and administrative expenses" in the consolidated income statement.

2.7 物業、廠房及設備

物業、廠房及設備按歷史成本減折舊列 賬。歷史成本包括收購項目直接應佔之 開支。

其後成本僅在於與該項目有關之未來經 濟利益有可能流入本集團,而該項目之 成本能可靠計量時,計入資產賬面金額 或確認為獨立資產(視適用情況而定)。 已被替換部分之賬面金額已被終止確 認。所有其他維修及保養於其產生之財 政年度內於損益內計入。

物業、廠房及設備之折舊根據估計可使 用年期採用直線法將成本分攤至剩餘價 值計算如下:

- 樓宇	2%至20%
- 租賃物業裝修	20%至33%
- 傢俬及設備	15%至33%
- 機器	10%至25%
- 汽車	10%至20%

資產之剩餘價值及可使用年期在每個報告期末進行檢討,及在適當時調整。倘若資產之賬面金額高於其可收回估計金額,其賬面金額即時撇減至可收回金額(附註2.11)。

出售之收益及虧損透過比較所得款項與 其賬面金額釐定,並於綜合損益表「一 般及行政支出」中確認。

2.8 Intangible assets

(a) Goodwill

Goodwill arises on the acquisition of subsidiaries represents the excess of the consideration transferred over the Group's interest in net fair value of the net identifiable assets, liabilities and contingent liabilities of the acquiree and the fair value of the non-controlling interest in the acquiree.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units ("CGUs"), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

(b) Customer contracts

Customer contracts acquired in a business combination are recognised at fair values at the acquisition date. Customer contracts have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the utilisation method to allocate the cost of customer contracts over their estimated useful life.

商譽於收購附屬公司時產生,指 轉讓代價超過本集團在被收購方 可識別淨資產、負債及或然負債 淨公允價值之權益及在被收購方 非控制性權益之公允價值。

2.9 Land use rights

The up-front prepayments made for land use rights are carried at cost less accumulated amortisation. Amortisation are calculated using the straightline method to allocate the costs of leasehold land over their terms. Land use rights are presented as right-of-use assets on the consolidated statement of financial position.

2.10 Investment properties

Investment properties, principally comprising leasehold land and buildings, are held for longterm rental yields or for capital appreciation or both, and that is not occupied by the Group.

Investment properties are measured initially at its cost, including related transaction costs. After initial recognition, investment properties are carried at fair value, representing open market value determined at each reporting date by external valuers. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If the information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections. Changes in fair values are recorded in profit or loss.

投資物業(主要包括租賃土地及樓宇)乃 持作長期租金回報或資本升值或二者兼 具,且並非由本集團佔用。

投資物業初始按其成本計量,包括相關 交易成本。在初始確認後,投資物業按 公允價值列賬,即於各報告日由外部估 值師釐定之公開市值。公允價值以活躍 市場價格為基準,如有需要就特定資產 之性質、地點或狀況之任何差異作出調 整。如並無此項資料,本集團須使用其 他估值方法,例如較不活躍市場之近期 價格或貼現現金流量預測法。公允價值 變動於損益中列賬。

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.11 Impairment of non-financial assets

Assets that have an indefinite useful life - for example goodwill, are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (CGUs). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

2.12 Financial assets

(a) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ("FVOCI"), or through profit or loss); and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

2.11 非金融資產之減值

無特定使用期限之資產,例如商譽,毋 須攤銷,惟須每年進行減值評估。當 有事件或情況轉變顯示賬面金額未能收 回,須予攤銷之資產會進行減值評估。 資產賬面金額超過其可收回金額之數額 確認為一項減值虧損。可收回金額之數額 確認為一項減值虧損。可收回金額為資 產公允價值減出售成本與使用價值之間 之較高者。就評估減值而言,資產分組 至可分開識別現金流量(現金產生單位) 之最低層次。商譽以外出現減值之非金 融資產會於每個報告日就可能撥回之減 值進行評估。

2.12 金融資產

- (a) 分類 本集團將其金融資產分為以下計 量類別:
 - 於期後按公允價值計量(計 入其他全面收入(「按公允價 值計入其他全面收入」)或計 入損益);及
 - 按攤銷成本計量。

分類取決於實體管理金融資產之 業務模式及現金流量之約定條款。

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.12 Financial assets (Continued)

(a) Classification (Continued)

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at FVOCI.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(b) Recognition and measurement

Regular way purchases and sales of financial assets are recognised on the trade-date – the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

(c) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in the consolidated income statement. 2 主要會計政策概要(續)

2.12 金融資產(續)

- (a) 分類(續)
 - 對按公允價值計量之資產而言, 收益及虧損將於損益或其他全面 收入中列賬。對非持作買賣之權 益工具投資而言,這將取決於本 集團在首次確認時,是否對按公 允價值計入其他全面收入之股權 投資作出不可撤銷之選擇。

本集團僅在於其管理該等資產之 業務模式改變時,重新分類債務 投資。

(b) 確認及計量

常規買賣之金融資產在交易當日 (即本集團承諾購買或出售資產之 日期)確認。當收取來自金融資產 現金流量之權利已屆滿或已轉移 及本集團已大致上轉移擁有權全 部風險及回報時,金融資產被終 止確認。

(c) 計量

初始確認時,倘若金融資產非按 公允價值計入損益,本集團按公 允價值加上因收購金融資產而產 生之直接交易成本,以計量金融 資產。按公允價值計入損益之金 融資產交易成本於綜合損益表中 支銷。

2.12 Financial assets (Continued)

(c) Measurement (Continued)

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the consolidated income statement.

債務工具

債務工具其後之計量取決於本集 團管理資產之業務模式及資產之 現金流特性。本集團將其債務工 具分為以下三個計量類別:

 攤銷成本:以收取約定現金 流所持有的資產,該等現金 流僅為支付本金及利息,其 按攤銷成本計量。來自此 按攤銷成本計量。來自此實際 利率法計入財務收入。終止 確認產生之任何收益或虧止 直接於損益中確認,並建 直接於損益中確認,並建同 外匯收益及虧損於其他收虧損 於綜合損益表中為單獨項目 呈列。

(c) Measurement (Continued)

- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI. except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in the consolidated income statement.
- FVPL: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss and presented in net within other gains/(losses) in the period in which it arises.

(c) Measurement (Continued)

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in "other gains - net" in the consolidated income statement as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(d) Impairment

The Group assesses on a forward-looking basis the expected credit losses ("ECL") associated with its debt instruments carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

權益工具

本集團其後按公允價值計量所有 權益性投資。倘本集團管理層已 選擇於其他全面收入中呈列股 權性投資公允價值收益及虧損, 則終止確認投資後,公允價值收 益及虧損其後不會重新分類至損, 益。在本集團收款權利確立時, 來自該投資之股息繼續於損益中 確認為其他收入。

按公允價值計入損益之金融資產 公允價值變動,如適用,於綜合 損益表內「其他收益-淨額」中確 認。按公允價值計入其他全面收 入計量之股權投資減值虧損(及減 值虧損撥回),不須與其他公允價 值變動分開呈報。

(d) 減值

本集團對按攤銷成本列賬之債務 工具相關之預期信貸虧損(「預期 信貸虧損」)按前瞻基準作出評 估。所用減值方法取決於信貸風 險是否大幅增加。

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.12 Financial assets (Continued)

(d) Impairment (Continued)

At each reporting date, the Group calculates the ECL of financial instruments in different stages. Stage 1 refers to financial instruments that have not had a significant increase in credit risk since initial recognition; Stage 2 refers to financial instruments that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment; Stage 3 refers to financial assets for which there are objective evidence of impairment at the reporting date since initial recognition. For these assets at Stage 1, 12-month ECL are recognised and for assets at Stage 2 and 3, life-time ECL are recognised. For financial assets with low credit risks as at the date of the consolidated statement of financial position, the Group recognises 12-month ECL based on the assumption that the credit risks have not significantly increased after initial recognition. The Group determines the level of credit risks according to their internal and external investment grade credit rating and the ages of financial assets. For those financial assets are more than 30 days past due, they would be classified as Stage 2 and 3, unless the Group has reasonable and supportable information that demonstrates otherwise.

For financial assets in Stage 1 and Stage 2, interest income is calculated based on the gross carrying amount of the asset, that is, without deduction for credit allowance, and the effective interest rates. For financial assets in Stage 3, interest income is calculated on the net carry amount, that is, net of credit allowances, and the effective interest rates.

(d) 减值(續)

於每個報告日,本集團對於處於 不同階段的金融工具的預期信貸 虧損進行計算。金融工具自初始 確認後信貸風險未顯著增加的, 屬於第一階段;金融工具自初始 確認後信用風險已顯著增加但尚 未有客觀證據發生信用減值的, 處於第二階段; 金融資產自初始 確認後已經有客觀證據顯示於 報告日發生信用減值,屬於第三 階段。對處於第一階段的金融資 產,本集團確認12個月預期信貸 虧損,對於處於第二階段和第三 階段的金融資產,本集團確認全 期預期信貸虧損。對於在綜合財 務狀況表日具有較低信用風險的 金融資產,本集團基於假設;其 信用風險自初始確認後並未顯著 增加,確認12個月預期信貸虧 損。本集團根據金融資產之內部 及外部投資評級等級及賬齡以判 別其信貸風險級別。除非本集團 有合理及具支持的資料顯示不同 分類,逾期超過30天之金融資產 將分類為第二及第三階段。

對於處於第一階段及第二階段的 金融資產,利息收入乃按未扣除 信貸撥備的資產總賬面值與實際 利率計算。對於處於第三階段的 金融資產,利息收入乃根據扣除 信貸撥備的凈賬面值與實際利率 計算。

2.12 Financial assets (Continued)

(d) Impairment (Continued)

The Group recognises the provision and reversal of ECL in profit or loss. For debt instrument at FVOCI, the Group makes relevant adjustments to other comprehensive income at the same time as recognising ECL in profit and loss.

For trade receivables, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables, see Note 3.1(b) for further details.

Impairment on bill receivables, other receivables and deposits are measured as either 12-month ECL or lifetime ECL, depending on whether there has been a significant increase in credit risk since initial recognition. If a significant increase in credit risk of a receivable has occurred since initial recognition, then impairment is measured as lifetime ECL, see Note 3.1(b) for further details.

2.13 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

(d) 减值(續)

本集團於損益確認預期信貸虧損 撥備及撥回。就按公允價值計入 其他全面收入的債務工具而言, 本集團於損益確認預期信貸虧損 的同時,對其他全面收入作出相 關調整。

對應收賬款而言,本集團採用香 港財務報告準則第9號所允許之 簡化法,其中規定預期全期虧損 自應收賬款於初始確認時確認, 其他詳情見附註3.1(b)。

應收票據、其他應收賬款及按金 之減值按十二個月預期信貸虧損 或全期預期信貸虧損計量,視乎 自初始確認以來信貸風險有否顯 著上升。倘應收賬款之信貸風險 自初始確認以來顯著上升,則減 值按全期預期信貸虧損計量,進 一步詳情見附註3.1(b)。

2.13 抵銷金融工具

於具法定權利以抵銷已確認金額,且有 意按其淨額作結算或同時變現資產及 清償負債時,金融資產及負債乃予以抵 銷,並於綜合財務狀況表呈報其淨值。 法定權利不得取決於未來事件,而是在 一般業務過程中執行及倘公司或對手方 一旦出現違約、無償債能力或破產時, 必須具有約束力。

2.14 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the firstin, first-out method. It excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

2.15 Trade and other receivables

Trade and bill receivables are amounts due from customers for goods received or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade and bill receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less provision for impairment. See Note 2.12(d) for a description of the Group's impairment policies.

2.16 Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash on hand and deposits held at call with banks with original maturities of three months or less.

2.17 Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.15 應收賬款及其他應收賬款

應收賬款及票據為在日常業務中就已收 取商品或已提供服務而應收客戶之款 項。如預期於一年或以內(或倘較長, 則在業務正常經營週期中)收回應收賬 款及其他應收賬款,則該等賬款分類為 流動資產。否則,該等賬款呈列為非流 動資產。

應收賬款及其他應收賬款於確認公允價 值時,初始無條件按代價金額確認,除 非其具重大融資成份在內。本集團持有 應收賬款及票據,目的在於收取約定現 金流量,及其後以實際利息法按攤銷成 本減去減值撥備計量。有關本集團之減 值政策情況見附註2.12(d)。

2.16 現金及現金等值

於綜合現金流量表中,現金及現金等值 包括手頭現金及於三個月或以內到期存 於銀行之通知存款。

2.17 股本

普通股分類為權益。

發行新股或購股權直接有關的增量成本 於扣除税項後於權益中作為發行所得的 減項列示。

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.18 Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.19 Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period.

The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as either:

- hedges of the fair value of recognised assets or liabilities or a firm commitment (fair value hedges),
- hedges of a particular risk associated with the cash flows of recognised assets and liabilities and highly probable forecast transactions (cash flow hedges), or
- hedges of a net investment in a foreign operation (net investment hedges).

At the inception of the hedging, the Group documents the economic relationship between hedging instruments and hedged items, including whether changes in the cash flows of the hedging instruments are expected to offset changes in the cash flows of hedges items. The Group documents its risk management objective and strategy for undertaking its hedge transactions.

2.18 應付賬款及其他應付賬款

應付賬款為在日常業務過程中就從供應 商購買之貨品或服務之付款義務。倘付 款於在一年或以內(或倘較長,則在業 務日常經營週期中)到期,則應付賬款 分類為流動負債;否則,該等應付賬款 呈列為非流動負債。

應付賬款及其他應付賬款初始按公允價 值確認,其後則採用實際利率法按攤銷 成本計量。

2.19 衍生工具及對沖活動

衍生工具於衍生工具合約訂立之日,按 公允價值初始確認,且隨後在各報告期 末按其公允價值重新計量。

公允價值後續變動的會計處理取決於衍 生工具是否被指定為對沖工具,且倘被 指定為對沖工具,則取決於被對沖項目 之性質。本集團指定若干衍生工具為:

- 已確認資產或負債或一項確定承 擔之公允價值對沖(公允價值對 沖),
- 與已確認資產及負債及極有可能 的預期交易相關現金流的一項特 定風險對沖(現金流量對沖),或
- 一項境外業務的投資淨額對沖(投 資淨額對沖)。

於對沖開始時,本集團記錄對沖工具與 所對沖項目之間的經濟關係,包括對沖 工具的現金流量變動是否預期將抵銷所 對沖項目的現金流量變動。本集團記錄 其風險管理目標及進行其對沖交易的策 略。

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.19 Derivatives and hedging activities (Continued)

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months or if the counter party has the right to terminate the hedging instruments anytime. Trading derivatives are classified as a current asset or liability.

Cash flow hedge that qualifies for hedge accounting

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in hedge reserve within equity. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss within "other gains – net".

Amounts accumulated in equity are reclassified in the periods when the hedged item affects profit or loss, as follows:

- Where the hedged item subsequently results in the recognition of a non-financial asset, both the deferred hedging gains and losses and the deferred time value of the option contracts or deferred forward points, if any, are included within the initial cost of the asset. The deferred amounts are ultimately recognised in profit or loss as the hedged item affects profit or loss.
- The gain or loss relating to the effective portion of the interest rate swaps hedging variable rate borrowings is recognised in profit or loss within finance cost at the same time as the interest expense on the hedged borrowings.

2.19 衍生工具及對沖活動(續)

當所對沖項目的剩餘到期日超過12個 月,則對沖衍生工具的全部公允價值分 類為非流動資產或負債;當所對沖項目 的剩餘到期日少於12個月或倘交易方 有權隨時終止對沖工具,則其分類為流 動資產或負債。交易衍生工具分類為流 動資產或負債。

符合對沖會計資格的現金流量對沖

被指定為合資格作為現金流量對沖的衍 生工具,公允價值變動的有效部分在權 益內的對沖儲備中確認。無效部分有關 之收益或虧損即時在「其他收益-淨額」 內於損益中確認。

當所對沖項目影響損益,於權益中之累 計金額於期間重新分類如下:

- 倘所對沖項目其後導致一項非金 融資產確認,則遞延對沖收益及 虧損以及期權合約的遞延時間價 值或遞延遠期點數(如有)計入資 產的初始成本。當所對沖項目影 響損益,遞延金額最終於損益中 確認。
- 與利率掉期對沖浮動利率借款的 有效部分相關的收益或虧損同時 在財務費用內的損益中確認為所 對沖借款的利息開支。

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.19 Derivatives and hedging activities (Continued)

Cash flow hedge that qualifies for hedge accounting (Continued)

When a hedging instrument expires, or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative deferred gain or loss and deferred costs of hedging in equity at that time remains in equity until the forecast transaction occurs, resulting in the recognition of a non-financial asset. When the forecast transaction is no longer expected to occur, the cumulative gain or loss and deferred costs of hedging that were reported in equity are immediately reclassified to profit or loss.

2.20 Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

2.19 衍生工具及對沖活動(續)

符合對沖會計資格的現金流量對沖(續)

當對沖工具屆滿或被出售或終止時,或 當對沖不再符合對沖會計標準時,於 當時任何累計遞延收益或虧損及於權益 的遞延對沖成本將保留於權益中,直至 預期交易發生為止,導致確認非金融資 產。當預期交易預計不再發生時,已於 權益中呈報的累計收益或虧損及遞延對 沖成本即時重新分類至損益。

2.20 借貸

借貸初始按公允價值扣除已產生之交易 成本後確認,其後則按攤銷成本列賬; 所得款項(扣除交易成本)與贖回價值間 之任何差異於借貸期使用實際利率法於 損益中確認。

在貸款很可能部分或全部提取的情況 下,就設立貸款融資支付的費用乃確認 為貸款交易成本。在此情況下,費用遞 延至提取發生為止。倘並無任何證據顯 示該融資很有可能將獲部分或全部提 取,則該費用撥充資本作為流動資金服 務之預付款項,並於其相關融資期間予 以攤銷。

除非本集團具無條件權利於報告期末後 延遲償還負債最少十二個月,否則借貸 分類為流動負債。

2.21 Borrowings costs

General and specific borrowing costs directly attributable to the acquisitions, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in the profit or loss in the period in which they are incurred.

2.22 Current and deferred income tax

The income tax expense or credit for the year is the tax payable on the current year's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company and its subsidiaries, associates and joint ventures operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

所有其他借貸成本均於其產生期間於損 益中確認。

2.22 當期及遞延所得税

本年度的所得税費用或所得税抵免額為 當期應納税所得額,按各司法權區適用 的所得税税率計算,並根據歸屬於暫時 性差異的遞延所得税資產和負債的變動 以及未使用的税收損失調整確認。

(a) 當期所得税

2.22 Current and deferred income tax (Continued)

(b) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

The deferred tax liability in relation to investment property that is measured at fair value is determined assuming the property will be recovered entirely through sale.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.22 Current and deferred income tax (Continued)

(b) Deferred income tax (Continued)

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.23 Employee benefits

(a) Pension obligation

The Group operates defined contribution plan. The schemes are generally funded through payments to insurance companies or trusteeadministered funds.

A defined contribution plan is a pension plan under which the Group pays fixed contributions. The Group has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

約定供款計劃為本集團支付固定 供款之退休福利計劃。倘該項基 金不具備足夠資產,無法向所有 僱員支付與本期及過往期間之僱 員服務有關之福利,則本集團並 無法定或推定責任作進一步供款。

2.23 Employee benefits (Continued)

(a) Pension obligation (Continued)

The Group pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(b) Termination benefits

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to a termination when the entity has a detailed formal plan to terminate the employment of current employees without possibility of withdrawal. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to their present value.

(c) Bonus plans

The Group recognises a liability and an expense for bonus. The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

(d) Employee leave entitlements

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the reporting date. Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(e) Long service payments

The Group's net obligation in respect of long service payments to its employees upon termination of their employment or retirement when the employees fulfil certain circumstances under the Hong Kong Employment Ordinance is the amount of future benefit that employees have earned in return for their service in the current and prior periods.

2.24 Share-based payments

The Group operates a number of equity-settled, share-based compensation plans, under which the Group receives services from employees as consideration for equity instruments (options) of the Group. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (for example, an entity's share price);
- excluding the impact of any service and nonmarket performance vesting conditions (for example, profitability, sales growth targets and remaining an employee of the entity over a specified time period); and

(e) 長期服務金

當僱員在符合香港僱傭條例之若 干情況下終止僱傭關係或退休 時,本集團須承擔支付長期服務 金予其僱員之責任,而所承擔之 責任淨額為僱員於現時及過往期 間提供服務所得之日後福利金額。

 including the impact of any non-vesting conditions (for example, the requirement for employees to save).

Non-market performance and service conditions are included in assumptions about the number of options that are expected to vest. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied.

In addition, in some circumstances employees may provide services in advance of the grant date and therefore the grant date fair value is estimated for the purposes of recognising the expense during the period between service commencement period and grant date.

At the end of each reporting period, the Group revises its estimates of the number of options that are expected to vest based on the non-market performance and service conditions. It recognises the impact of the revision of original estimates, if any, in the consolidated income statement with a corresponding adjustment to equity.

When the options are exercised, the Company issues new shares. The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium.

The grant by the Company of options over its equity instruments to the employees of subsidiary undertaking in the Group is treated as a capital contribution. The fair value of employee services received, measured by reference to the grant date fair value, is recognised over the vesting period as an increase to investment in subsidiary undertaking, with a corresponding credit to equity in the parent entity accounts.

2.25 Provision

Provisions for environment restoration, restructuring costs and legal claims are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Restructuring provisions comprise lease termination penalties and employee termination payments. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

2.25 撥備

當本集團因過往事件而產生現有法定或 推定責任:可能須償付有關責任而導致 資源流出:且金額已可靠估計,則會就 環境復原、重組成本及法律索償確認撥 備。重組撥備包括租賃終止罰款及僱員 離職付款。不會就未來經營虧損確認撥 備。

倘有多項類似責任,則考慮責任之整體 類別釐定其須在償付中流失資源之可能 性。即使在同一類別責任所包含之任何 一個項目資源流失之可能性極低,仍須 確認撥備。

撥備按預期清償債務責任所需開支以税 前貼現率計算之現值計量,該比率反映 市場當時對貨幣時間價值之評估及該責 任之獨有風險。因時間流逝而產生之撥 備增加確認為利息開支。

2.26 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for goods supplied and service rendered, stated net of discounts, returns and value added taxes. The Group recognises revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the Group; and when specific criteria have been met for each of the Group's activities as described below.

(a) Sales of goods

Sales of goods are recognised when a group entity has delivered products to the customer, the customer has full discretion over channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs until the products have been shipped to the specified location, the risk of obsolescence and loss have been transferred to the customers, and either the customers have accepted the products in accordance with sales contracts, and there is no unfulfilled obligation that could affect the customers' acceptance of the products.

Revenue from these sales is recognised based on the price specified in the contract. Accumulated experience is used to estimate and provide for the returns, if any, using the expected value method, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. No element of financing is deemed present as the sales are made with credit terms that are consistent with market practice.

2.26 Revenue recognition (Continued)

(b) Service income

Revenue from providing service is recognised in accounting period in which the services are rendered, by reference to stage of completion of the specific transaction and assessed on the basis of actual services provided as a proportion of the total service to be provided.

A contract liability is the obligation to transfer of goods or render of services to a customer for which the Group has received a consideration (or an amount of consideration that is due) from the customer. If a customer pays the consideration before the Group transfers goods or renders services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

(c) Rental income

Rental income from investment properties is recognised in profit or loss on a straight-line basis over the period of the relevant leases.

(d) Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money. 2 主要會計政策概要(續)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.27 Interest income

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

2.28 Dividend income

Dividend income is recognised when the right to receive payment is established.

2.29 Leases

As a lessee

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Contracts may contain both lease and nonlease components. The Group allocates the consideration in the contract to the lease and nonlease components based on their relative standalone prices.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;

合約可能同時包含租賃部分及非租賃部 分。本集團按租賃部分及非租賃部分 之相對獨立價格將合約代價分配至各部 分。

租賃產生之資產及負債初始按現值作計 量。租賃負債包括以下租賃付款之淨現 值:

- 固定付款(包括實質固定付款), 扣除任何應收租賃優惠;
- 根據一項指數或利率計算之可變 租賃付款,初始按於開始日期之 有關指數或利率計量;
- 根據剩餘價值保證,本集團預期 應付之金額;

2.29 Leases (Continued)

As a lessee (Continued)

- the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs; and
- restoration costs.

- 購買選擇權之行使價(倘可合理地 確定本集團將行使該選擇權);及
- 支付終止租賃之罰款(倘租期反映 本集團行使該選擇權)。

租賃付款使用租賃隱含之利率貼現。倘 利率難以釐定,大致如同本集團租賃之 狀況,則使用承租人之增量借貸利率, 即個別承租人在類似經濟環境中就類似 條款、抵押及條件借入為取得與使用權 資產價值相若之資產所需資金而須支付 之利率。

為釐定增量借貸利率,本集團使用個別 承租人最近獲得之第三方融資作為起始 點,並作出調整以反映自獲得第三方融 資以來融資條件之變動。

租賃付款分為本金與財務費用。財務費 用於租期內自損益中計入,使各期間負 債餘額結餘之週期利率維持固定。

使用權資產按成本計量,包括以下各 項:

- 租賃負債之初始計量金額;
- 於起始日期或之前作出之任何租 賃付款,減去已收之任何租賃優 惠;
- 任何初始直接成本;及
- 修復成本。

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.29 Leases (Continued)

As a lessee (Continued)

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the standalone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use assets.

與短期租賃及低價值資產租賃相關之付 款以直線法於損益中確認為支出。短期 租賃指租期為十二個月或以下之租賃。

倘符合以下條件,則本集團將租賃修訂 作為一項單獨租賃進行會計處理:

- 該修訂通過加入對一項或多項相 關資產的使用權擴大租賃範圍;
 及
- 租賃代價金額增加視乎對範圍增加之單獨價格及反映特定合約時 對單獨價格任何恰當之調整。

對於不作為一項單獨租賃進行會計處理 的租賃修訂,在修訂的生效日期,本集 團根據經修訂租賃的租期,通過使用經 修訂貼現率對經修訂租賃款項進行貼現 以重新計量租賃負債。

本集團對租賃負債進行重新計量,並對 相關使用權資產進行相應調整。

2.31 Government grants

Government grants relating to assets are deducted against the carrying amount of the assets.

3 FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including price risk, foreign exchange risk, and cash flow and fair value interest rate risk), credit risk, and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

Risk management is carried out by a central treasury department (group treasury) under policies approved by the Board of Directors. The Group treasury identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units. The board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk and credit risk.

(a) Market risk

(i) Price risk

The Group is subject to commodity price risk because certain subsidiaries of the Group are engaged in the trading of steel products. As at 31st March 2023 and 2022, the Group had committed sales orders for steel products for which the selling price is fixed, which exceeded the aggregate amount of on-hand inventories. As the prices of steel products can fluctuate materially, the Group's results may be affected significantly by future fluctuations in steel prices (Note 4(c)). To manage its commodity price risk arising from committed sales orders, the Group is closely monitoring the market price of steel products and adjusting its procurement strategy accordingly.

3 財務風險管理

3.1 財務風險因素

本集團之經營活動面對各種財務風險: 市場風險(包括價格風險、外匯風險及 現金流量及公允價值利率風險)、信貸 風險及流動資金風險。本集團之整體風 險管理計劃專注於財務市場之難預測性 及尋求減低對本集團財務表現之潛在不 利影響。

風險管理由司庫部(集團司庫)按照董事 會批准之政策執行。本集團司庫透過與 集團經營單位之緊密合作,負責確定、 評估和對沖財務風險。董事會為整體風 險管理訂定書面原則及書面政策,涵蓋 外匯風險、利率風險及信貸風險等特定 領域。

3.1 Financial risk factors (Continued)

(a) Market risk (Continued)

(i) Price risk (Continued)

The Group also exposed to price risk mainly arising from investments held by the Group and classified on the consolidated statement of financial position as financial assets at fair value through profit or loss and financial asset at fair value through other comprehensive income. Management considers that its price risk is insignificant.

(ii) Foreign exchange risk

The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US dollar ("US\$") and the Chinese Renminbi ("RMB"). Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.

Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currency.

The Group has certain investments in foreign operations, of which the net assets are exposed to foreign currency translation risk. Currency exposure arising from the net assets of the Group's foreign operations is managed primarily through borrowings denominated in the relevant foreign currencies.

本集團亦面對主要由本集團 持有之投資(於綜合財務狀 況表按公允價值計入損益及 按公允價值計入其他全面收 入之金融資產)所產生之價 格風險。管理層認為,其價 格風險並不重大。

(ii) 外匯風險

本集團業務跨越多國,因此 面對源於各種貨幣之外匯風 險,主要涉及美元(「美元」) 及人民幣(「人民幣」)。外匯 風險源於未來商業交易、已 確認資產及負債及外國業務 淨投資。

管理層已訂立政策,要求集 團公司管理對其功能貨幣相 關之外匯風險。

本集團持有若干境外經營投 資,其資產淨額承受外幣匯 兑風險。來自本集團境外經 營資產淨額所產生之貨幣風 險,主要以相關外幣計值之 借貸進行管理。

(ii) Foreign exchange risk (Continued)

As at 31st March 2023, if HK\$ had strengthened/weakened by 5% (2022: 5%) against RMB with all other variables held constant, profit before income tax would have been approximately HK\$478,000 (2022: HK\$89,000) lower/ higher, mainly as a result of foreign exchange (losses)/gains on translation of RMB-denominated monetary assets and liabilities.

As HK\$ are reasonably stable with US\$ under the Linked Exchange Rate System, the management considers the Group's foreign exchange risk arisen from US\$ is insignificant. Thus, no sensitivity analysis is presented.

(iii) Cash flow and fair value interest rate risk

The Group's income and operating cash flows are substantially independent of changes in market interest rates as the Group has no significant interest bearing assets except for cash and bank deposits, which earn low interest rate. The Group's interest rate risk arises mainly from borrowings. Borrowings obtained at variable rates expose the Group to cash flow interest rate risk except those under hedge accounting to change from variable rate to fixed rate and the hire purchase arrangement for machineries purchased.

3 FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Market risk (Continued)

(iii) Cash flow and fair value interest rate risk (Continued)

As at 31st March 2023, borrowings of HK\$56,000,000 (2022: HK\$98,000,000) are converted from quarterly variable interest payment to a quarterly fixed rate payment through interest rate swaps arrangements. The interest rate swaps and the corresponding bank borrowings have similar terms, such as principal amounts, currency, interest period, maturity dates and the counterparty, and the directors consider that the interest rate swaps are highly effective hedging instruments and are designated as cash flow hedging instruments from floating interest rates to fixed interest rates.

As at 31st March 2023, if interest rates on floating rate borrowings had been 100 basis points higher/lower with all other variables held constant, profit before income tax for the year would have been approximately HK\$13,774,000 (2022: approximately HK\$14,011,000) lower/higher, mainly as a result of higher/lower interest expenses on floating rate borrowings.

(b) Credit risk

(i) Risk management

The credit risk of the Group mainly arises from trade and bill receivables, deposits and other receivables and cash and cash equivalents.

Management considers that the Group has limited credit risk with its banks which are leading and reputable. The Group has not incurred significant loss from non-performance by these parties in the past and management does not expect so in the future. Therefore, expected credit loss rate of cash at bank is assessed to be immaterial and no provision was made as at 31st March 2023 and 2022.

The Group has policies in place to ensure that sales are made to reputable and creditworthy customers with an appropriate financial strength, credit history and appropriate percentage of down payments. It also has other monitoring procedures to ensure that follow-up action is taken to recover overdue debts.

Majority of the Group's revenue is received from individual customers in relation to trading of building products and distribution and processing of construction materials. As at 31st March, 2023, top 10 customers of the Group accounted for approximately 31% (2022: 28%) to the total trade and bill receivables of the Group. The Group has set up long-term cooperative relationship with these customers. In view of the history of business dealings with these customers and the collection history of the receivables due from them, management believes that there is no material credit risk inherent in the Group's outstanding receivable balance due from these customers saved for the debtors related to the impaired trade receivable disclosed below. Management makes periodic assessment on the recoverability of trade and other receivables based on historical payment records, the length of the overdue period, the financial strength of the debtors, the overall macro-economic environment and whether there are any disputes with the debtors. The Group's historical experience in collection of trade and other receivables falls within the recorded allowances and the directors are of the opinion that adequate provision for uncollectible receivables has been made in these consolidated financial statements.

- (ii) Impairment of financial assets
 - The Group has three main types of financial assets that are subject to the expected credit loss model:
 - trade receivables;
 - cash and cash equivalents and pledged bank deposits; and
 - other financial assets measured at amortised costs (including deposits, other receivables and bill receivables).

While cash and cash equivalents are also subject to the impairment requirements of HKFRS 9, the directors consider that the identified impairment loss was immaterial.

Trade receivables

The Group applies the HKFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade receivables. The Group measures the expected credit losses on a combination of both individual and collective basis.

Measurement of expected credit loss on individual basis

Receivables relating to customers with known financial difficulties or significant doubt on collection of receivables are assessed individually for provision for impairment allowance.

> The expected loss rates are based on the payment profiles of sales over a period of 24 months before 31st March 2022 and 31st March 2021 and the corresponding historical credit losses experienced within this year. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. For customers relating to the trading business in the PRC, the Group has identified the CPI inflation and nominal GDP of China to be the most relevant factors. For customers in Hong Kong, the Group has identified the real GDP levels, CPI inflation of Hong Kong, nominal GDP and annual current account balance as a percentage of nominal GDP of Hong Kong as the most relevant factors for trading and manufacturing business in Hong Kong, respectively. The Group adjusts the historical loss rates based on expected changes in these factors accordingly.

Other financial assets at amortised costs

Management considers that its credit risk has not increased significantly since initial recognition with reference to the counterparty historical default rate and current financial position. The impairment provision is determined based on the 12-month expected credit loss which is considered insignificant.

(c) Liquidity risk

Cash flow forecasting is performed in the operating entities of the Group and aggregated by group finance. Group finance monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities (Note 32) at all times so that the Group does not breach borrowing limits or covenants on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance and compliance with internal ratio of the consolidated statement of financial position targets.

Surplus cash held by the operating entities over and above balance required for working capital management are transferred to the Group's treasury. The Group's treasury invests surplus cash in time deposits, marketable securities, and other instruments with appropriate maturities or sufficient liquidity to provide sufficient head-room as determined by the abovementioned forecasts. At the reporting date, the Group held cash and cash equivalents of approximately HK\$147,485,000 (2022: HK\$188,931,000) (Note 28) and trade and bill receivables, net, of approximately HK\$430,674,000 (2022: HK\$509,598,000) (Note 26) that are expected to readily generate cash inflows for managing liquidity risk.

3.2 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings and lease liabilities less pledged bank deposits and cash and cash equivalents. Total capital is calculated as equity (excluding non-controlling interests), as shown in the consolidated statement of financial position, plus net debt.

The gearing ratios as at 31st March 2023 and 2022 were as follows:

本集團管理資金之目標為保障本集團持 續經營之能力,以為股東提供回報及為 其他持份者提供利益,並保持一個最佳 資本架構以減少資本成本。

為維持或調節資本架構,本集團可調節 向股東派付之股息金額、退回資本予股 東、發行新股份或出售資產以減債。

為與同業一致,本集團根據資本負債比 率監察資本。該比率乃以淨負債除以資 本總額計算得出。淨負債乃以借貸及租 賃負債總額減已抵押銀行存款以及現金 及現金等值計算。如綜合財務狀況表所 示,資本總額以權益(不包括非控制性 權益)加淨負債計算。

(i) Fair value hierarchy (Continued)

- Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period.
- Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-thecounter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs). This is the case for unlisted equity interests.

The carrying amounts of the Group's financial instruments carried at cost or amortised cost approximate their fair values as at the reporting date since either the instrument are with short maturities or the interest rate is close to the current market rate.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

(a) Valuation of investment properties

The Group carries its investment properties at fair value with changes in the fair value recognised in the consolidated income statement. The fair value of investment properties was determined by using valuation technique and management updates their assessment of the fair value of each property, taking into account the key valuation assumptions, including adjusted market yield. Details of the judgements and assumptions have been disclosed in Note 15.

(b) Provision for impairment of trade and other receivables

The Group follows the guidance of HKFRS 9 to determine when trade and other receivables are impaired. This determination requires significant judgement and estimation based on assumptions about risk of default and expected loss rates. In making this judgement and estimation, the Group evaluates, among other factors, the duration of receivables and the financial health and collection history of individual debtors and expected future change of credit risks, including the consideration of factors such as general economy measure, changes in macroeconomic indicators etc. Details of the assumptions and inputs used are discussed in Note 3.1(b).

4 重要會計推算及判斷

根據過往經驗及其他因素對推算及判斷作出 持續評估,該等因素包括在有關情況下對未 來事件作合理預期。

本集團就未來作出推算及假設。顧名思義, 由此而生之會計推算極少與相關實際結果相 同。下文論述具有會導致須對下一個財政年 度之資產及負債之賬面金額作出重大調整之 重大風險推算及假設。

(a) 投資物業的估值

本集團按公允價值持有之投資物業,其 公允價值變動於綜合損益表內確認列 賬。投資物業之公允價值乃根據估值方 法,管理層更新對各物業公允價值的評 估而釐定,其中經考慮主要估值假設, 包括經調整市場收益率。判斷及假設之 詳情已於附註15披露。

(b) 應收賬款及其他應收賬款減值撥備

本集團依循香港財務報告準則第9號指 引釐定應收賬款及其他應收賬款何時減 值。此釐定按有關違約風險及預期虧損 率之假設要求重大判斷及估算。作此判 斷及估算時,本集團評估(其中包括)應 收款項期限、個別債務人財務健全度及 收款記錄,以及預期日後信貸風險變動 等因素,包括考慮整體經濟措施、宏觀 經濟指標變動等因素。所用假設值及輸 入值之詳情於附註3.1(b)中探討。

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

(c) Useful lives and depreciation expenses for property, plant and equipment

The Group's management determines the estimated useful lives, and related depreciation charges for its property, plant and equipment. This estimate is based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. Actual economic lives may differ from estimated useful lives. Periodic review could result in a change in useful lives and therefore depreciation expense in future periods.

(d) Recognition of deferred income tax assets

The Group is mainly subject to income taxes in Hong Kong and Mainland China. Significant judgement is required in determining the worldwide provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred income tax provisions in the period in which such determination is made. Deferred income tax assets relating to certain temporary differences and tax losses are recognised when management considers it is likely that future taxable profits will be available against which the temporary differences or tax losses can be utilised. When the expectations are different from the original estimates, such differences will impact the recognition of deferred income tax assets and income tax charges in the period in which such estimates have been changed.

4 重要會計推算及判斷(續)

(c) 物業、廠房及設備之可使用年期及 折舊支出

本集團之管理層釐定其物業、廠房及設備之估計可使用年期,以及有關折舊費 用。該估計乃根據功能及性質類似之物 業、廠房及設備之實際可使用年期之過 往經驗計算。實際經濟年期或與估計可 使用年期可能不同。定期檢討時可導致 可使用年期改變,未來期間之折舊支出 亦會因而出現之變動。

(d) 遞延所得税資產確認

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

(e) Onerous contract provision

As at 31st March 2023, the Group had committed sales orders which exceeded the aggregate amount of on-hand inventories and committed purchase orders. If the cost of certain future purchases to fulfil these sales orders exceeds the contracted selling prices of the sales orders, a provision for onerous contracts would be made. In estimating the amount by which the cost of purchases are expected to exceed sales prices of committed sales orders, management takes into account the cost of on-hand inventories and the forecast market price of future purchases where that can be reliably estimated.

(f) Provision for impairment of property, plant and equipment

At the end of each reporting period, the Group reviews internal and external sources of information to identify indications that the property, plant and equipment may be impaired or an impairment loss previously recognised may be reversed. If an indication of impairment is identified, the Group is required to estimate the recoverable value, representing the greater of the asset's fair value less cost to sell or its value in use. Changes in any of these estimates could result in a material change to the assets' carrying amount in the consolidated financial statements.

(g) Net realisable value of inventories

Net realisable value of inventories is the estimated selling price in the ordinary course of business, less estimated costs of completion and variable selling expenses. These estimates are based on the current market condition and the historical experience of selling products of similar nature. It could change significantly as a result of changes in customer demand and competitor actions in response to severe industry cycle. Management reassesses the estimations at each reporting date. 4 重要會計推算及判斷(續)

(e) 有償契約之撥備

於二零二三年三月三十一日,本集團已 確定之銷售訂單已超過手頭存貨及已確 定之購貨訂單總額。倘用以履行此等銷 售訂單之若干未來採購成本比銷售訂單 所訂約之售價為高,則會就有償契約作 出一項撥備。在推算預期採購成本超出 已確定銷售訂單之售價金額時,管理層 計及手頭存貨之成本及按可靠推算之未 來採購之市場價格預測。

(f) 物業、廠房及設備之減值撥備

於各報告期末,本集團審閱內部及外部 資料來源以識別物業、廠房及設備可 能減值或先前確認之減值虧損可獲撥回 之跡象。倘一項減值跡象被確定,則本 集團須估計可收回值,即資產之公允價 值減出售成本或其使用價值(以較高者 為準)。任何該等估計之變動均可能導 致資產賬面值於綜合財務報表之重大變 動。

(g) 存貨之可變現淨值

存貨之可變現淨值為日常業務過程中之 推算售價減推算完成成本及可變銷售支 出。該等推算乃基於現時市況以及銷售 類似性質產品之過往經驗。其可因客戶 之需求轉變及競爭對手為應付嚴峻行業 週期採取之行動而大幅改變。管理層會 於每個報告日重估該等推算。

- (b) The Group maintains two defined contribution pension schemes for its employees in Hong Kong, the ORSO Scheme and the MPF Scheme. The assets of these schemes are held separately from those of the Group under independently administered funds.

Under the ORSO Scheme, the related companies and their employees make monthly contribution to the scheme at 5% (2022: 5%) of the employees' salary. The unvested benefits of employees who have terminated employment could be utilised by the Group to reduce its future contributions.

Under the MPF Scheme, the related companies and their employees make monthly contributions to the scheme at 5% (2022: 5%) of the employee's relevant income, as defined in the Hong Kong Mandatory Provident Fund Scheme Ordinance. Both the Group's and the employee's contributions are subject to a cap of HK\$1,500 per month. The contributions are fully and immediately vested for the employees.

As stipulated by rules and regulations in Mainland China, the Group contributes to state-sponsored retirement plans for employees of its subsidiaries established in Mainland China. The employees are entitled to retirement pension calculated with reference to their basic salaries on retirement and their length of service in accordance with the relevant government regulations. The Group has no further obligations for the actual payment of pensions or post-retirement plans are responsible for the entire pension obligations payable to retired employees.

During the year ended 31st March 2023, the aggregate amount of the Group's contributions to the aforementioned pension schemes was approximately HK\$7,682,000 (2022: HK\$7,611,000). As at 31st March 2023 and 2022, there is no unutilised forfeited contribution which could be utilised to reduce future contributions of the Group.

During the years ended 31st March 2023 and 2022, the Group has entitled rental concession from the landlords. For a lease modification that is not accounted for a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification. The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use assets. Any differences between the adjustments of lease liabilities and right-of-use assets are recognised in "other gains - net" in the consolidated income statement (Note 6). 附註:

截至二零二三年及二零二二年三月三十一日止年 度,本集團享有來自業主的租金寬減。對於不作為 一項單獨租賃進行會計處理之租賃修訂,在修訂的 生效日期,本集團根據經修訂租賃的租期,通過使 用經修訂貼現率對經修訂租賃款項進行貼現以重新 計量租賃負債。本集團通過對相關使用權資產進行 相應調整,對租賃負債進行重新計量。租賃負債與 使用權資產調整之間的任何差異於綜合損益表「其 他收益一淨額」中確認(附註6)。
