"The closing of our merger with legacy Cadence Bancorporation certainly highlights the completion of another successful year for our Company," remarked Dan Rollins, Chairman and Chief Executive Officer of the Company. "We are very pleased to have been able to complete this transaction prior to the end of the year, particularly in light of the current regulatory environment. Our operational integration teams are working diligently toward our core system conversion later in 2022. While elevated merger expenses and other purchase accounting related items negatively impacted our earnings, we continue to be pleased with our core operating performance. Credit quality is certainly a positive story. We reported a meaningful decline in our non performing asset levels relative to the size of the balance sheet and also had net recoveries of \$5.3 million for the year."

Rollins continued, "From a capital management perspective, we completed the repurchase of the full 6 million shares authorized under the 2021 share repurchase program and our board recently approved an additional 10 million common stock share repurchase authorization for 2022. We also completed our provisional purchase accounting marks during the fourth quarter of 2021. The improvement in the loan mark relative to our initial estimate at announcement further validates the

economic stability as well as the legacy Cadence team's efforts in working through any potential problem credits."

Paul Murphy, Executive Vice Chairman, added "As we look specifically at our fourth quarter performance, the ability of our relationship managers to produce approximately \$400 million in net organic loan growth in the same quarter as the merger closing is a noteworthy accomplishment. This success is a testament to the efforts of both our front-line teammates as well as our credit administration and other support functions, and is also reflective of the positive economic momentum across our footprint."

Earnings Summary

The Company reported net income available to common shareholders of \$185.7 million, or \$1.54 per diluted common share, for the year ended December 31, 2021 compared with \$218.6 million, or \$2.12 per diluted common share, for the year ended December 31, 2020. Given the merger date of October 29, 2021, the fourth quarter results do not represent a full quarter of comparable combined earnings. The Company reported adjusted PPNR of \$442.8 million, or 1.48 percent of average assets, for the year ended December 31, 2021 compared with \$400.5 million, or 1.76 percent of average assets, for the year ended December 31, 2020. Net interest income for the fourth quarter of 2021 included \$16.4 million in accretion income related to acquired loans and leases. This accretion income added approximately 19 basis points to the net interest margin and 28 basis points to the yield on loans and leases for the fourth quarter of 2021. This compares to net accretion income of \$2.3 million for the fourth quarter of 2020 and net accretion income of \$3.2 million for the third quarter of 2021.

Balance Sheet Activity

Loans and leases, net of unearned income, increased \$11.9 billion to \$26.9 billion during the fourth quarter of 2021 while deposits and customer repos increased \$16.3 billion to \$40.5 billion. Efficiency Ratio (tax equivalent) and Adjusted Efficiency Ratio-excluding MSR (tax equivalent) Definitions

The efficiency ratio (tax equivalent) and the adjusted efficiency ratio-excluding MSR (tax equivalent) are supplemental financial measures utilized in management's internal evaluation of the Company's use of resources and are not defined under GAAP. The efficiency ratio (tax equivalent) is calculated by dividing total noninterest expense by total revenue, which includes net interest income plus noninterest income plus the tax equivalent adjustment. The adjusted efficiency ratio-excluding MSR (tax equivalent) excludes expense items otherwise disclosed as non-operating from total noninterest expense. In addition, the MSR valuation adjustment as well as securities gains and losses are excluded from total revenue.
