ABOUT THE PAPER USED FOR THIS REPORT

The inks used in the printing of this report contain an average of 25% - 35% vegetable oils from plant derivatives, a renewable resource. They replace petroleum based inks as an effort to also reduce volatile organic compounds (VOCs).

The cover and full color insert in this report were printed on coated paper using material from well-managed FSC®-certified forests, 10% recycled materials and other controlled sources. The uncoated paper being used comes from well-managed FSC®-certified forests and other controlled sources.

Unstoppable Growth, Digitally Powered

David Gibbs
Chief Executive Officer
Yum! Brands, Inc.

Dear fellow stakeholders:

At Yum! Brands, we have a bold vision to build the world's most loved, trusted and fastest growing restaurant brands through our **Good Growth strategy**. As the world's largest restaurant company, our diversified global system includes approximately 1,500 franchisees who are the primary operators of our more than 58,000 restaurants in over 155 countries and territories. Our iconic brands delight millions of customers daily with craveable food and memorable experiences. We and our franchisees are proud of the meaningful careers we provide and the investments we make to unlock opportunity for team members and for the communities we serve.

Yum!'s **Good Growth** strategy is grounded in the idea that our growth and brand relevance will only endure if our brands are inclusive, sustainable and reflective of evolving employee, franchisee and stakeholder needs.

Our Growth priorities are our framework for building sustainable, long-term results. These priorities drive same-store sales and net-new unit growth and serve as our guiding principles across business decisions.

Unrivaled Culture & Talent

Leverage our culture and people capability to fuel brand performance and franchise success

Unmatched Operating Capability

Recruit and equip the best restaurant operators in the world to deliver great customer experiences

Relevant, Easy & Distinctive Brands

Innovate and elevate iconic restaurant brands people trust and champion

Bold Restaurant Development

Drive market and franchise unit expansion with strong economics and value

To amplify these priorities, we have made strategic technology investments that have enabled our franchisees to gain innovative and cutting-edge capabilities. These investments bring to life our "Easy" framework, which is designed to create Easy Experiences for our consumers, Easy Operations for our team members and franchisees and Easy Insights that leverage our data to enhance decision-making. We enter 2024 having made significant progress in scaling our proprietary technology platforms and AI-driven solutions including our global e-commerce platform, point-of-sale system and suite of restaurant technologies like Dragontail and SuperApp. These platforms will contribute to our global growth momentum.

Highlights from 2023: This was a remarkable year for Yum! as we crossed the \$60 billion system sales threshold and exceeded all aspects of our long-term growth algorithm. Our digital sales approached \$30 billion for the year and grew 22% year-over-year, and we made massive strides in scaling our proprietary AI-driven digital ecosystem. We also set an industry development record for the third straight year, opening over 3,300 net-new units. We enter 2024 just shy of adding 10,000 net-new restaurants over the past three years and are well on our way to reaching 60,000 restaurants in 2024.

Our Good priorities involve social responsibility, risk management and sustainable stewardship of our People, Food and Planet. These priorities are at the center of how we're building a resilient growth business, and we have made strong progress. On **People**, we continued our investments in growing our talent through powerful forums, leadership development conferences and programming aimed at preparing the next generation of senior leadership – all intentionally focused on supporting our unrivaled culture and talent growth driver and ensuring we have a strong bench to drive performance. As a result of our ongoing focus, we were thrilled to be recognized in TIME Magazine's inaugural list of the Best Companies for Future Leaders with Yum! ranking an impressive 32nd among U.S. companies. On **Food**, we continue our progress toward removing artificial colors and flavors from core food ingredients globally by 2025 through simplifying ingredients in our menu items. On **Planet**, we made progress on our goal of reducing greenhouse gas emissions by 46% by 2030 through investments in renewable energy, energy efficiencies in our restaurants and reduction commitments by our food suppliers. In terms of packaging, we are reducing our use of virgin plastic, as well as eliminating unnecessary plastic and Styrofoam. In addition, we are moving our global system to more widely recyclable or compostable consumer packaging.

To bring these accomplishments to life, let me share specific highlights from each of our four brands:

Nothing hits like **KFC**. The brand's global growth engine was unstoppable in 2023, setting a development record of over 2,700 restaurants opened across 97 countries. As 2023 ended, KFC was quickly approaching an impressive 30,000 restaurants globally. This past year, the brand focused on executing its winning recipe of core menu innovation, disruptive value, expanding category use occasions and doubling down on digital initiatives. KFC U.S. launched the Original Recipe chicken nuggets and is now scaling this product to other markets. The brand also accelerated the deployment of kiosks across its system, leading to kiosk sales growth of 65% year-over-year. In terms of supporting our Good agenda, KFC continues to operate dozens of programs globally aimed at fostering people's potential and unlocking opportunities while also feeding those in need by donating 1.5 million pounds of surplus food in 2023 alone.

Taco Bell is truly a **Category of One for Everyone**, believing every person deserves the right to Live Más. On a global basis, Taco Bell crossed the \$15 billion system sales milestone this year, reflecting the growing scale of this powerhouse brand. The Taco Bell team leveraged its magic formula that encompasses a balanced set of commercial strategies involving brand buzz, unparalleled value, and más occasions – the brand's personal expression of building new category entry points and digital initiatives. Taco Bell concluded the year with digital sales mix reaching an all-time high of approximately 31%, up seven points year-over-year. Growth in kiosk sales was a large driver behind the digital mix increase. Optimizing our digital channels is also contributing to growth in the Taco Bell U.S. loyalty program, with active loyalty users growing 17% in 2023. The brand also continues its efforts around unlocking opportunities, with the

Taco Bell Foundation awarding more than \$10 million in Live Más Scholarships to over 980 Taco Bell team members and consumers.

Pizza Hut is focused on connecting people through the joy of pizza by delivering a craveable, reliable and fun experience every time. Through additional aggregator partnerships, the Pizza Hut team expanded its digital ordering and off-premises channels, particularly in markets outside of the U.S. The brand leaned into its long-term strategy to build new category entry points for the individual meal occasion with products like Melts, which are now offered in dozens of markets around the world. The Pizza Hut markets are not only sharing consumer insights and product innovation at unprecedented speed, but the operations teams are also using augmented reality to expedite training for international team members, which is all done through our intelligent coaching app. Additionally, as part of the brand's work to advance our Good agenda, Pizza Hut in South Africa continued to elevate its LeadHERship Initiative, which matches women with 12-month job placements in health services, creative fields, literacy and education roles.

Drawing inspiration from the vibrant spirit of Southern California, **The Habit Burger Grill**, with its made-to-order chargrilled burgers cooked over an open flame and handcrafted sandwiches, is dedicated to delivering fresh, high-quality food and warm hospitality at affordable prices. The Habit's new leadership team has focused on modifying operations to elevate the brand's drive-thru and off-premise service levels, including expediting a robust kiosk rollout, implementing a sales-driven labor optimization model and harnessing the advantages of Yum!'s co-op purchasing group to drive cost efficiency - all of which have positively impacted store-level margins. Lastly, The Habit Burger Grill maintains its commitment to fighting childhood hunger through its longstanding partnership with No Kid Hungry, which raised over \$220,000 in 2023 through donations facilitated by rounding up checks from digital orders.

In closing, the unique advantages of our diversified system shone through in 2023. Executing the components of our Good Growth strategy resulted in unit growth across 110 countries, meaningfully scaling our technology systems, deepening collaboration across our brands and delivering both sales and profits well above our long-term growth algorithm. We're confident 2024 will be another banner year for our brands. With a world-class team, globally iconic brands, industry-leading franchisees and a relentless appetite for growth, the future is brighter than ever as we aim to maximize value for our shareholders. Thank you to our shareholders, franchisees, customers and Yum! family for your continued support.

David Gibbs, CEO

April 5, 2024

Dear Fellow Shareholders:

On behalf of your Board of Directors, we are pleased to invite you to attend the 2024 Annual Meeting of Shareholders of YUM! Brands, Inc. The Annual Meeting will be held Thursday, May 16, 2024, at 9:00 a.m., central time, in the YUM! Brands Center of Restaurant Excellence at 7100 Corporate Drive in Plano, Texas.

YUM! Brands, Inc,
1441 Gardiner Lane
Louisville Kentucky 40213

Once again, we encourage you to take advantage of the Securities and Exchange Commission rule allowing companies to furnish proxy materials to their shareholders over the Internet. We believe that this e-proxy process expedites shareholders' receipt of proxy materials, lowers the costs of delivery and helps reduce environmental impact.

Your vote is important. We encourage you to vote promptly whether or not you plan to attend the meeting. You may vote your shares over the Internet or via a toll-free telephone number. If you received a paper copy of the proxy card by mail, you may sign, date and mail the proxy card in the envelope provided. Instructions regarding the three methods of voting prior to the meeting are contained on the notice or proxy card.

If you plan to attend the meeting in person, please bring your notice, admission ticket from your proxy card or proof of your ownership of YUM common stock as of March 20, 2024, as well as valid picture identification. Whether or not you plan to attend, we encourage you to consider the matters presented in the proxy statement and vote as soon as possible.

Sincerely,

David Gibbs
Chief Executive Officer

Important Notice Regarding the Availability of Proxy Materials for the Shareholders Meeting to Be Held on May 16, 2024—this notice and the proxy statement are available at <https://investors.yum.com/governance/governance-documents>. The Annual Report on Form 10-K is available at <https://investors.yum.com/financial-information/annual-reports/>.

Notice of Annual Meeting of Shareholders

Thursday, May 16, 2024 9:00 a.m.

YUM! Brands Center of Restaurant Excellence, 7100 Corporate Drive, Plano, Texas 75024.

Items of Business:

1 To elect twelve (12) directors to serve until the 2025 Annual Meeting of Shareholders and until their respective successors are duly elected and qualified.	2 To ratify the selection of KPMG LLP as our independent auditors for the fiscal year ending December 31, 2024.	3 To consider and hold an advisory vote on executive compensation.	4 To consider and vote on two (2) shareholder proposals, if properly presented at the meeting.	5 To transact such other business as may properly come before the meeting.
---	---	--	--	--

Proxy Statement

Who Can Vote?:

You can vote if you were a shareholder of record as of the close of business on March 20, 2024.

Annual Report:

A copy of our 2023 Annual Report on Form 10-K is included with this proxy statement.

Website:

You may also read the Company's Annual Report and this Notice and proxy statement on our website at <https://investors.yum.com/financial-information/annual-reports/>.

Date of Mailing:

This Notice, the proxy statement and the form of proxy are first being mailed to shareholders on or about April 5, 2024.

By Order of the Board of Directors

Scott A. Catlett
Chief Legal & Franchise Officer & Corporate Secretary

Your Vote is Important

Under securities exchange rules, brokers cannot vote on your behalf for the election of directors or on executive compensation related matters without your instructions. Whether or not you plan to attend the Annual Meeting, please provide your proxy by following the instructions on your Notice or proxy card. On or about April 5, 2024, we mailed to our shareholders a Notice containing instructions on how to access the proxy statement and our Annual Report and vote online.

If you received a Notice by mail, you will not receive a printed copy of the proxy materials in the mail unless you request a copy. Instead, you should follow the instructions included in the Notice on how to access and review the proxy statement and Annual Report. The Notice also instructs you on how you may submit your vote by proxy over the Internet.

If you received the proxy statement and Annual Report in the mail, please submit your proxy by marking, dating and signing the proxy card included and returning it promptly in the envelope enclosed. If you are able to attend the Annual Meeting and wish to vote your shares personally, you may do so at any time before the proxy is exercised.

PROXY STATEMENT

For Annual Meeting of Shareholders To Be Held On May 16, 2024

The Board of Directors (the “Board of Directors” or the “Board”) of YUM! Brands, Inc., a North Carolina corporation (“YUM” or the “Company”), solicits the enclosed proxy for use at the Annual Meeting of Shareholders of the Company to be held at 9:00 a.m. (Central Time), on Thursday, May 16, 2024, at the YUM! Brands Center of Restaurant Excellence at 7100 Corporate Drive in Plano, Texas.

This proxy statement contains information about the matters to be voted on at the Annual Meeting and the voting process, as well as information about our directors and most highly paid executive officers.

QUESTIONS AND ANSWERS ABOUT THE MEETING AND VOTING

What is the purpose of the Annual Meeting?

At our Annual Meeting, shareholders will vote on several important Company matters. In addition, our management will report on the Company’s performance over the last fiscal year and, following the meeting, respond to questions from shareholders.

Why am I receiving these materials?

The Board has made these materials available to you over the internet or has delivered printed versions of these materials to you by mail, in connection with the Board’s solicitation of proxies for use at the 2024 Annual Meeting of Shareholders (the “Annual Meeting”). The Annual Meeting is scheduled to be held on Thursday, May 16, 2024 at 9:00 a.m. Central Time, at 7100 Corporate Drive, Plano, Texas. This solicitation is for proxies for use at the Annual Meeting or at any reconvened meeting after an adjournment or postponement of the Annual Meeting.

Why did I receive a one-page Notice in the mail regarding the Internet availability of proxy materials this year instead of a full set of proxy materials?

As permitted by Securities and Exchange Commission (“SEC”) rules, we are making this proxy statement and our Annual Report available to our shareholders electronically via the Internet. On or about April 5, 2024, we mailed to our shareholders a Notice containing instructions on how to access this proxy statement and our Annual Report and vote online. If you received a Notice by mail you will not receive a printed copy of the proxy materials in the mail unless you request a copy. The Notice instructs you on how to access and review all of the important information contained in the proxy statement and Annual Report. The Notice also instructs you on how you may submit your proxy over the Internet. If you received a Notice by mail and would like to receive a printed copy of our proxy materials, you should follow the instructions for requesting such materials contained on the Notice.

We encourage you to take advantage of the availability of the proxy materials on the Internet in order to help lower the costs of delivery and reduce the Company's environmental impact.

Who may attend the Annual Meeting?

The Annual Meeting is open to all shareholders of record as of close of business on March 20, 2024, or their duly appointed proxies.

What do I need to bring to attend the Annual Meeting In-Person?

You will need valid picture identification and either an admission ticket or proof of ownership of YUM's common stock to enter the Annual Meeting. If you are a registered owner, your Notice will be your admission ticket.

If you received the proxy statement and Annual Report by mail, you will find an admission ticket attached to the proxy card sent to you. If you plan to attend the Annual Meeting in person, please so indicate when you vote and bring the ticket with you to the Annual Meeting. If your shares are held in the name of a bank or broker, you will need to bring your legal proxy from your bank or broker and your admission ticket in order to vote at the meeting. If you do not bring your admission ticket, you will need proof of ownership to be admitted to the Annual Meeting. A recent brokerage statement or letter from a bank or broker is an example of proof of ownership. If you arrive at the Annual Meeting without an admission ticket, we will admit you only if we are able to verify that you are a YUM shareholder. Your admittance to the Annual Meeting will depend upon availability of seating. All shareholders will be required to present valid picture identification prior to admittance. **IF YOU DO NOT HAVE VALID PICTURE IDENTIFICATION AND EITHER AN ADMISSION TICKET OR PROOF THAT YOU OWN YUM COMMON STOCK, YOU MAY NOT BE ADMITTED INTO THE ANNUAL MEETING.**

Please note that cellular and smart phones/devices, computers, cameras, sound or video recording equipment, and other similar devices, large bags, briefcases and packages will not be allowed in the meeting room. Seating is limited and admission is on a first-come, first-served basis.

May shareholders ask questions?

Yes. Representatives of the Company will answer shareholders' questions of general interest following the Annual Meeting. In order to give a greater number of shareholders an opportunity to ask questions, individuals or groups will be allowed to ask only one question and no repetitive or follow-up questions will be permitted.

Questions will be answered as time allows.

Who may vote?

You may vote if you owned YUM common stock as of the close of business on the record date, March 20, 2024. Each share of YUM common stock is entitled to one vote. As of March 20, 2024, YUM had approximately 281.5 million shares of common stock outstanding.

What am I voting on?

You will be voting on the following five (5) items of business at the Annual Meeting:

- The election of twelve (12) directors to serve until the next Annual Meeting of Shareholders and until their respective successors are duly elected and qualified;
- The ratification of the selection of KPMG LLP as our independent auditors for the fiscal year ending December 31, 2024;
- An advisory vote on executive compensation; and
- Two (2) shareholder proposals.

We will also consider other business that properly comes before the meeting.

How does the Board of Directors recommend that I vote?

Our Board of Directors recommends that you vote your shares:

- **FOR** each of the nominees named in this proxy statement for election to the Board;
- **FOR** the ratification of the selection of KPMG LLP as our independent auditors;
- **FOR** the proposal regarding an advisory vote on executive compensation; and
- **AGAINST** the shareholder proposals.

How do I vote before the Annual Meeting?

There are three ways to vote before the meeting:

- By Internet — If you have Internet access, we encourage you to vote on www.proxyvote.com by following instructions on the Notice or proxy card;
- By telephone — by making a toll-free telephone call from the U.S. or Canada to 1(800) 690-6903 (if you have any questions about how to vote over the phone, call 1(888) 298-6986); or
- By mail — If you received your proxy materials by mail, you can vote by completing, signing and returning the enclosed proxy card in the postage-paid envelope provided.

If you are a participant in the direct stock purchase and dividend reinvestment plan (ComputerShare CIP), as a registered shareholder, you will receive all proxy materials and may vote your shares according to the procedures outlined herein.

If you are a participant in the YUM! Brands 401(k) Plan (“401(k) Plan”), the trustee of the 401(k) Plan will only vote the shares for which it has received directions to vote from you.

Proxies submitted through the Internet or by telephone as described above must be received by 11:59 p.m., Eastern Time, on May 15, 2024. Proxies submitted by mail must be received prior to the meeting. Directions submitted by 401(k) Plan participants must be received by 12:00 p.m., Eastern Time, on May 14, 2024.

Also, if you hold your shares in the name of a bank or broker, your ability to vote by the Internet or telephone depends on their voting processes. Please follow the directions on your notice carefully. A number of brokerage firms and banks participate in a program provided through Broadridge Financial Solutions, Inc. (“Broadridge”) that offers Internet and telephone voting options. If your shares are held in an account with a brokerage firm or bank participating in the Broadridge program, you may vote those shares through the Internet at Broadridge’s voting website (www.proxyvote.com) or telephonically by calling the telephone number shown on the voting instruction form received from your brokerage firm or bank. Votes submitted through the Internet or by telephone through the Broadridge program must be received by 11:59 p.m., Eastern Time, on May 15, 2024.

Can I vote at the Annual Meeting?

Shares registered directly in your name as the shareholder of record may be voted in person at the Annual Meeting. Shares held through a broker or nominee may be voted in person only if you obtain a legal proxy from the broker or nominee that holds your shares giving you the right to vote the shares.

Even if you plan to attend the Annual Meeting, we encourage you to vote your shares by proxy. You may still vote your shares in person at the meeting even if you have previously voted by proxy.

Can I change my mind after I vote?

You may change your vote at any time before the polls close at the Annual Meeting. You may do this by:

- Signing another proxy card with a later date and returning it to us prior to the Annual Meeting;
- Voting again through the Internet or by telephone prior to 11:59 p.m., Eastern Time, on May 15, 2024;

- Giving written notice to the Corporate Secretary of the Company prior to the Annual Meeting; or
- Voting again at the Annual Meeting.

Your attendance at the Annual Meeting will not have the effect of revoking a proxy unless you notify our Corporate Secretary in writing before the polls close that you wish to revoke a previous proxy.

Who will count the votes?

Representatives of Computershare, Inc. will count the votes and will serve as the independent inspector of election.

What if I return my proxy card but do not provide voting instructions?

If you vote by proxy card, your shares will be voted as you instruct by the individuals named on the proxy card. If you sign and return a proxy card but do not specify how your shares are to be voted, the persons named as proxies on the proxy card will vote your shares in accordance with the recommendations of the Board. These recommendations are:

- **FOR** the election of the twelve (12) nominees for director named in this proxy statement (Item 1);
- **FOR** the ratification of the selection of KPMG LLP as our independent auditors for the fiscal year 2024 (Item 2);
- **FOR** the proposal regarding an advisory vote on executive compensation (Item 3); and
- **AGAINST** the shareholder proposals (Items 4-5).

What does it mean if I receive more than one proxy card?

It means that you have multiple accounts with brokers and/or our transfer agent. Please vote all of these shares. We recommend that you contact your broker and/or our transfer agent to consolidate as many accounts as possible under the same name and address. Our transfer agent is Computershare, Inc., which may be reached at 1 (888) 439-4986 and internationally at 1 (781) 575-2879.

Will my shares be voted if I do not provide my proxy?

Your shares may be voted if they are held in the name of a brokerage firm, even if you do not provide the brokerage firm with voting instructions. Brokerage firms have the authority under the New York Stock Exchange rules to vote shares for which their customers do not provide voting instructions on certain “routine” matters.

The proposal to ratify the selection of KPMG LLP as our independent auditors for fiscal year 2024 is considered a routine matter for which brokerage firms may vote shares for which they have not received voting instructions. The other proposals to be voted on at our Annual Meeting are not considered “routine” under applicable rules. When a proposal is not a routine matter and the brokerage firm has not received voting instructions from the beneficial owner of the shares with respect to that proposal, the brokerage firm cannot vote the shares on that proposal. This is called a “broker non-vote.”

How many votes must be present to hold the Annual Meeting?

Your shares are counted as present at the Annual Meeting if you attend the Annual Meeting in person or if you properly return a proxy by Internet, telephone or mail. In order for us to conduct our Annual Meeting, a majority of the outstanding shares of YUM common stock, as of March 20, 2024, must be present or represented by proxy at the Annual Meeting. This is referred to as a quorum. Abstentions and broker non-votes will be counted for purposes of establishing a quorum at the Annual Meeting.

How many votes are needed to elect directors?

You may vote “FOR” each nominee or “AGAINST” each nominee, or “ABSTAIN” from voting on one or more nominees. Unless you mark “AGAINST” or “ABSTAIN” with respect to a particular nominee or nominees, your proxy will be voted “FOR”

each of the director nominees named in this proxy statement. In an uncontested election, a nominee will be elected as a director if the number of “FOR” votes exceeds the number of “AGAINST” votes. Abstentions will be counted as present but not voted. Abstentions and broker non-votes will not affect the outcome of the vote on directors. Full details of the Company’s majority voting policy are set out in our Corporate Governance Principles at <https://investors.yum.com/governance/governance-documents/> and at page 19 under “What other significant Board practices does the Company have? — Majority Voting Policy.”

How many votes are needed to approve the other proposals?

In order to be approved, the ratification of the selection of KPMG LLP as our independent auditor, the approval of the advisory vote on executive compensation and the approval of the shareholder proposals must receive the “FOR” vote of a majority of the shares, present in person or represented by proxy, and entitled to vote at the Annual Meeting. For each of these items, you may vote “FOR”, “AGAINST” or “ABSTAIN.” Abstentions will be counted as shares present and entitled to vote at the Annual Meeting. Accordingly, abstentions will have the same effect as a vote “AGAINST” the proposals. Broker non-votes will not be counted as shares present and entitled to vote with respect to the particular matter on which the broker has not voted. Thus, broker non-votes will not affect the outcome of any of these proposals.

When will the Company announce the voting results?

The Company will announce the voting results of the Annual Meeting on a Current Report on Form 8-K filed within four business days of the Annual Meeting.

What if other matters are presented for consideration at the Annual Meeting?

The Company knows of no other matters to be submitted to the shareholders at the Annual Meeting, other than the proposals referred to in this Proxy Statement. If any other matters properly come before the shareholders at the Annual Meeting, it is the intention of the persons named on the proxy to vote the shares represented thereby on such matters in accordance with their best judgment.

GOVERNANCE OF THE COMPANY

The business and affairs of YUM are managed under the direction of the Board of Directors. The Board believes that good corporate governance is a critical factor in achieving business success and in fulfilling the Board’s responsibilities to shareholders. The Board believes that its practices align management and shareholder interests.

The corporate governance section of the Company website makes available the Company’s corporate governance materials, including the Corporate Governance Principles (the “Governance Principles”), the Company’s Articles of Incorporation and Bylaws, the charters for each Board committee, the Company’s Global Code of Conduct, the Company’s Political Contributions and U.S. Government Advocacy Policy, and information about how to report concerns about the Company. To access these documents on the Company’s website, please visit, <https://investors.yum.com/governance/governance-documents/>.

GOVERNANCE HIGHLIGHTS

Corporate Governance	Shareholder Rights	Compensation
<ul style="list-style-type: none"> ■ 12 Director nominees ■ 11 Independent nominees ■ Directors with experience, qualification and skills across a wide range of public and private companies ■ Board access to senior management and independent advisors ■ Independent non-executive chair ■ Independent board committees ■ Executive sessions of independent directors at every regular board and committee meeting ■ Risk oversight by board and its committees ■ Annual board and committee self-evaluations ■ All directors attended at least 75% of meetings held ■ YUM’s global code of conduct ■ Political Contributions and U.S. Government Advocacy Policy ■ Audit committee complaint procedures policy regarding accounting matters ■ No hedging or pledging of company stock 	<ul style="list-style-type: none"> ■ Annual election of Directors ■ Majority voting of Directors ■ Proxy access ■ Shareholder communication process for communicating with Board ■ Active shareholder engagement program 	<ul style="list-style-type: none"> ■ Independent Management Planning and Development Committee ■ Independent compensation consultant ■ Executive compensation is highly performance-based to align with shareholder interests and promote company business strategy ■ At-risk pay tied to performance ■ Strong stock ownership guidelines ■ No employment agreements or guaranteed bonuses ■ Compensation Recovery Policy (Clawback) applies to equity and bonus awards ■ Double trigger vesting upon change in control ■ No excise tax gross up

What is the composition of the Board of Directors and how often are members elected?

Our Board of Directors presently consists of 12 directors whose terms expire at this Annual Meeting. Our directors are elected annually. The average director tenure is 6.75 years, with our longest- and shortest-tenured directors having served for 18 years (Mr. Nelson) and for 9 months (Mr. Biggs and Ms. Doniz), respectively.

As discussed in more detail later in this section, the Board has determined that 11 of the 12 individuals standing for election are independent under the rules of the New York Stock Exchange (“NYSE”). The director tenure of the 12 individuals standing for election is reflected in the following chart:

How often did the Board meet in 2023?

The Board of Directors met 5 times during 2023. Each of the directors who served in 2023 attended at least 75% of the meetings of the Board and the committees of which he or she was a member and that were held during the period he or she served as a director.

What is the Board’s policy regarding director attendance at the Annual Meeting of Shareholders?

The Board of Directors’ policy is that all directors should attend the Annual Meeting, and all persons then serving as directors attended the 2023 Annual Meeting.

How does the Board select nominees for the Board?

The Nominating and Governance Committee considers candidates for Board membership suggested by its members and other Board members, as well as management and shareholders. The Committee’s charter provides that it may retain a third-party executive search firm to identify candidates from time to time.

In accordance with the Governance Principles, our Board seeks members from diverse professional backgrounds who combine a broad spectrum of experience and expertise with a reputation for integrity. Directors should have experience in positions with a high degree of responsibility, be leaders in the companies or institutions with which they are affiliated and are selected based upon contributions they can make to the Board and management. The Committee’s assessment of a proposed candidate will include a review of the person’s judgment, experience, independence, understanding of the Company’s business or other related industries and such other factors as the Nominating and Governance Committee determines are relevant in light of the needs of the Board of Directors. The Committee believes that its nominees should reflect a diversity of experience, gender, race, ethnicity and age. The Committee also considers such other relevant factors as it deems appropriate, including the current composition of the Board, the balance of management and independent directors, the need for Audit Committee expertise and the evaluations of other prospective nominees, if any.

In connection with this evaluation, it is expected that each member of the Nominating and Governance Committee will interview the prospective nominee before the prospective nominee is presented to the full Board for consideration. After completing this evaluation and interview process, the Committee will make a recommendation to the full Board as to the person(s) who should be nominated by the Board, and the Board determines the nominee(s) after considering the recommendation and report of the Committee.

The Company’s strategic vision is grounded in our “Good Growth Strategy.” Our Good Growth Strategy focuses on four growth drivers intended to accelerate same-store sales growth and net-new restaurant development at KFC, Pizza Hut and Taco Bell around the world. The Company remains focused on building the world’s most loved, trusted and fastest growing restaurant brands by:

- Growing *Unrivaled Culture and Talent* to leverage our culture and people capability to fuel brand performance and franchise success;
- Developing *Unmatched Operating Capability*, by recruiting and equipping the best restaurant operators in the world to deliver great customer experiences;
- Building *Relevant, Easy and Distinctive Brands*, by innovating and elevating iconic restaurant brands people trust and champion; and
- Achieving *Bold Restaurant Development* by driving market and franchise unit expansion with strong economics and value.

We look for director candidates who have the skills and experience necessary to help us achieve success with respect to the four growth drivers and the Company’s implementation of its “Good Growth Strategy,” including our continued focus on our People, Food and Planet strategy. As a result, the skills that our directors possess are thoroughly considered to ensure that they align with the Company’s goals.

The following table describes key characteristics of the Company’s “Good Growth Strategy” and indicates how the skills our Board collectively possesses positively impacts the growth drivers:

	<p>Growing Unrivaled Culture and Talent, by leveraging our culture and people capability to fuel brand performance and franchise success.</p>	<p>Talent Development. Experience building the knowledge, skills and abilities of employees and helping them develop and achieve their potential within an organization.</p>
	<p>Developing Unmatched Operating Capability, by recruiting and equipping the best restaurant operators in the world to deliver great customer experiences.</p>	<p>Leadership Experience. Experience as executive officer level business leader who demonstrates strong abilities to motivate and manage others and to effectively manage organizations.</p>
	<p>Building Relevant, Easy and Distinctive Brands, by innovating and elevating iconic restaurant brands people trust and champion.</p>	<p>Industry/Operations. Experience and understanding of operational and strategic issues facing large restaurant or consumer service driven companies.</p> <p>Marketing/Brand Management. Experience marketing and managing well-known brands or the types of products and experiences we sell.</p> <p>Technology, Digital or Cybersecurity. Experience in leadership and understanding of technology, digital platforms and new media, cybersecurity, and data analytics.</p>
	<p>Achieving Bold Restaurant Development, by driving market and franchise unit expansion with strong economics.</p>	<p>Global Experience. Experience at multinational companies or in international markets, which provides useful business and cultural perspectives.</p> <p>Finance. Experience in public company management and financial stewardship.</p>

Our “Good Growth Strategy” also provides a roadmap for social responsibility, risk management and sustainable stewardship of People, Food and Planet. Guided by this Strategy, we will strive to unlock potential in our people, grow sustainably and continue to serve delicious food that people trust.

We believe that each of our directors has met the guidelines set forth in the Governance Principles. As noted in the director biographies that follow in this section, our directors have experience, qualifications and skills across a wide range of public and private companies, possessing a broad spectrum of experience both individually and collectively. In addition to the information provided in the director biographies, our director nominees’ qualifications, experiences and skills are summarized in the following matrix. This matrix is intended to provide a summary of our directors’ qualifications and should not be considered to be a complete list of each nominee’s strengths and contributions to the Board.

If elected, we expect that all of the aforementioned nominees will serve as directors and hold office until the 2025 Annual Meeting of Shareholders and until their respective successors have been elected and qualified.

Director Compensation

How are directors compensated?

Employee Directors	Employee directors do not receive additional compensation for serving on the Board of Directors.
Non-Employee Directors Annual Compensation	The annual compensation for each non-employee Director is summarized in the table below. For 2023, each non-employee Director received an annual stock grant retainer with a fair market value of \$280,000. Directors may request to receive up to one-half of their stock retainer in cash. The request must be submitted to the Chair of the Management Planning and Development Committee. Directors may also defer payment of their retainers pursuant to the Directors Deferred Compensation Plan. Deferrals are invested in phantom Company stock and paid out in shares of Company stock. Deferrals may not be made for less than two years.
Chairperson of the Board and Committee Chairperson Retainers	In recognition of their added duties, the Chairperson of the Board (Mr. Cornell in 2023) receives an additional \$170,000 stock retainer annually and the Chairs of the Audit Committee (Mr. Alves in 2023), Management Planning and Development Committee (Mr. Connor in 2023) and the Nominating and Governance Committee (Ms. Graddick-Weir in 2023) each receive an additional \$30,000, \$20,000 and \$20,000 annual stock retainer, respectively. These committee chairperson retainers were paid in February of 2023.
Initial Stock Grant upon Joining Board	Non-employee directors also receive a one-time stock grant with a fair market value of \$25,000 on the date of grant upon joining the Board, distribution of which is deferred until termination from the Board.
Matching Gifts	To further YUM's support for charities, non-employee directors are able to participate in the YUM! Brands, Inc. Matching Gifts Program on the same terms as members of YUM's executive team. Under this program, the YUM! Brands Foundation will match up to \$10,000 a year in contributions by the director to a charitable institution approved by the YUM! Brands Foundation. At its discretion, the Foundation may match director contributions exceeding \$10,000.
Insurance	We also pay the premiums on directors' and officers' liability and business travel accident insurance policies. The annual cost of this coverage was approximately \$2 million. This is not included in the tables below as it is not considered compensation to the directors.

In setting director compensation, the Company considers the significant amount of time that directors expend in fulfilling their duties to the Company as well as the skill level required by the Company of members of the Board. The Board reviews each element of director compensation at least every two years.

In November 2023, the Management Planning and Development Committee of the Board ("Committee") benchmarked the Company's director compensation against director compensation from the Company's Executive Peer Group discussed at page 55. Data for this review was prepared for the Committee by its independent consultant, Meridian Compensation Partners LLC. This data revealed that the Company's total director compensation was consistent with market median measured against this benchmark, that the retainer paid to our Non-Executive Chairperson is at market median and that the retainers paid to the Chairpersons of the Audit and Nominating and Governance Committee were generally consistent with market practice, while the Management Planning and Development Committee chair retainer was approximately \$5,000 below market median. Based on this data, the determination was made that changes to director and committee chair retainers were not necessary at this time.

GOVERNANCE OF THE COMPANY

Name	Fees Earned or Paid in Cash (\$)	Stock Awards \$(¹)	Option/SAR Awards \$(²)	All Other Compensation \$(³)	Total (\$)
(a)	(b)	(c)	(d)	(e)	(f)
Alves, Paget	–	310,000	–	5,000	315,000
Barr, Keith	–	280,000	–	10,000	290,000
Biggs, M. Brett	–	71,667	–	–	71,667
Connor, Christopher	–	300,000	–	–	300,000
Cornell, Brian	–	450,000	–	2,132	452,132
Domier, Tanya	–	280,000	–	–	280,000
Doniz, Susan	–	71,667	–	–	71,667
Graddick-Weir, Mirian	–	300,000	–	–	300,000
Nelson, Thomas	–	280,000	–	–	280,000
Skala, Justin	–	280,000	–	–	280,000
Young-Scrivner, Annie	–	280,000	–	–	280,000

(1) Amounts in column (c) represent the grant date fair value for annual stock retainer awards, Committee Chairperson retainer awards, and Non-Executive Chairperson awards granted to directors in 2023. Retainer awards for new directors are pro-rated for partial years of service.

(2) At December 31, 2023, the aggregate number of stock appreciation rights (“SARs”) awards outstanding for each non-employee director was:

Name	SARs
Alves, Paget	–
Barr, Keith	–
Biggs, M. Brett	–
Connor, Christopher	–
Cornell, Brian	6,491
Domier, Tanya	–
Doniz, Susan	–
Graddick-Weir, Mirian	10,371
Nelson, Thomas	10,371
Skala, Justin	4,646
Young-Scrivner, Annie	–

(3) Amounts in this column represent charitable matching gifts except for with respect to Mr. Cornell, for whom these amounts represent personal use of corporate aircraft.

What are the Company’s policies and procedures with respect to related person transactions?

Under the Company’s policies and procedures for the review of related person transactions the Nominating and Governance Committee reviews related person transactions in which we are or will be a participant to determine if they are in the best interests of our shareholders and the Company. Transactions, arrangements, or relationships or any series of similar transactions, arrangements or relationships in which a related person had or will have a material interest and that exceed \$100,000 are subject to the Nominating and Governance Committee’s review. Any member of the Nominating and Governance Committee who is a related person with respect to a transaction under review may not participate in the deliberation or vote respecting approval or ratification of the transaction.

Related persons are directors, director nominees, executive officers, holders of 5% or more of our voting stock and their immediate family members. Immediate family members are spouses, parents, stepparents, children, stepchildren, siblings, daughters-in-law, sons-in-law and any person, other than a tenant or domestic employee, who resides in the household of a director, director nominee, executive officer or holder of 5% or more of our voting stock.

After its review, the Nominating and Governance Committee may approve the transaction. The related person transaction policies and procedures provide that certain transactions are deemed to be pre-approved, even though they exceed \$100,000. Pre-approved transactions include employment of executive officers, director compensation, and transactions with other companies if the aggregate amount of the transaction does not exceed the greater of \$1 million or 2% of that other company's total revenues and the related person is not an executive officer of that other company.

Does the Company require stock ownership by directors?

The Board believes that the number of shares of the Company's common stock owned by each non-management director is a personal decision; however, the Board strongly supports the position that non-management directors should own a meaningful number of shares in the Company and expects that each non-management director will (i) own Company common shares with a value of at least five times the annual Board retainer; (ii) accumulate those shares during the first five years of the director's service on the Board; and (iii) hold these shares at least until the director departs the Board. Each director may sell enough shares to pay taxes in connection with the receipt of his or her retainer or the exercise of stock appreciation rights and the ownership guideline will be adjusted to reflect the sale to pay taxes.

How much YUM stock do the directors own?

Stock ownership information for each director is shown in the table on page 37.

Does the Company have stock ownership guidelines for executives and senior management?

The Committee has adopted formal stock ownership guidelines that set minimum expectations for executive and senior management ownership. These guidelines are discussed on page 56.

The Company has maintained an ownership culture among its executive and senior managers since its formation. Substantially all executive officers and members of senior management hold stock well in excess of the guidelines.

How Can Shareholders Nominate for the Board?

Director nominations for inclusion in YUM's proxy materials (Proxy Access). Our bylaws permit a shareholder, or group of up to 20 shareholders, owning continuously for at least three years shares of YUM stock representing an aggregate of at least 3% of our outstanding shares, to nominate and include in YUM's proxy materials director nominees constituting up to 20% of YUM's Board, provided that the shareholder(s) and nominee(s) satisfy the requirements in YUM's bylaws. Notice of proxy access director nominees for the 2025 Annual Meeting of Shareholders must be received by us no earlier than November 6, 2024, and no later than December 6, 2024.

Director nominations to be brought before the 2025 Annual Meeting of Shareholders. Director nominations that a shareholder intends to present at the 2025 Annual Meeting of Shareholders, other than through the proxy access procedures described above, must have been received no later than February 15, 2025. These nominations must be submitted by a shareholder in accordance with the requirements specified in YUM's bylaws.

Where to send director nominations for the 2025 Annual Meeting of Shareholders. Director nominations brought by shareholders must be delivered to YUM's Corporate Secretary by mail at YUM! Brands, Inc., 1441 Gardiner Lane, Louisville, Kentucky 40213 and received by YUM's Corporate Secretary by the dates set forth above.

What is the Board's leadership structure?

In November 2018, Brian C. Cornell assumed the position of Non-Executive Chairperson of the Board. Applying our Corporate Governance Principles, the Board determined that based on Mr. Cornell's independence, it would not appoint a Lead Director when Mr. Cornell became Non-Executive Chairperson.

The Nominating and Governance Committee annually reviews the Board's leadership structure and evaluates the performance and effectiveness of the Board of Directors. The Board retains the authority to modify its leadership structure in order to stay current with our Company's circumstances and advance the best interests of the Company and its shareholders as and when appropriate. The Board's annual self-evaluation includes questions regarding the Board's opportunities for open communication and the effectiveness of executive sessions.

The Company's Governance Principles provide that the Chief Executive Officer ("CEO") may serve as Chairperson of the Board. These Principles also provide for an independent Lead Director when the CEO is serving as Chairperson. During 2023, our CEO did not serve as Chairperson. Our Board believes that Board independence and oversight of management are effectively maintained through a strong independent Chairperson or Lead Director and through the Board's composition, committee system and policy of having regular executive sessions of non-employee directors, all of which are discussed below. As Non-Executive Chairperson, Mr. Cornell is responsible for supporting the CEO on corporate strategy along with leadership development. Mr. Cornell also works with the CEO in setting the agenda and schedule for meetings of the Board, in addition to performing the duties that would otherwise be performed by a Lead Director, as described below.

As CEO, Mr. Gibbs is responsible for leading the Company's strategies, organization design, people development and culture, and for providing the day-to-day leadership over operations.

To ensure effective independent oversight, the Board has adopted a number of governance practices discussed below.

What are the Company's governance policies and ethical guidelines?

- **Board Committee Charters.** The Audit, Management Planning and Development, and Nominating and Governance Committees of the YUM Board of Directors operate pursuant to written charters. These charters were approved by the Board of Directors and reflect certain best practices in corporate governance. These charters comply with the requirements of the NYSE. Each charter is available on the Company's website at <https://investors.YUM.com/governance/committee-composition-and-charters/>.
- **Governance Principles.** The Board of Directors has documented its corporate governance guidelines in the YUM! Brands, Inc. Corporate Governance Principles. These guidelines are available on the Company's website at <https://investors.YUM.com/governance/governance-documents/>.
- **Ethical Guidelines.** YUM's Global Code of Conduct was adopted to emphasize the Company's commitment to the highest standards of business conduct. The Code of Conduct also sets forth information and procedures for employees to report misconduct, ethical or accounting concerns, or other violations of the Code of Conduct in a confidential manner. The Code of Conduct applies to the Board of Directors and all employees of the Company, including the principal executive officer, the principal financial officer and the principal accounting officer. Our directors and the senior-most employees in the Company are required to regularly complete a conflicts of interest questionnaire and certify in writing that they have read and understand the Code of Conduct. The Code of Conduct is available on the Company's website at <https://investors.YUM.com/governance/governance-documents/>. The Company intends to post amendments to or waivers from its Code (to the extent applicable to the Board of Directors or executive officers) on this website.

What other significant Board practices does the Company have?

- **Private Executive Sessions.** Our non-management directors meet in executive session at each regular Board meeting. The executive sessions are attended only by the non-management directors and are presided over by the Lead Director or our Non-Executive Chairperson, as applicable. Our independent directors meet in executive session at least once per year.
- **Role of Lead Director.** Our Governance Principles require the election, by the independent directors, of a Lead Director when the CEO is also serving as Chairperson.

The Board currently does not have a Lead Director, and the duties of the Lead Director are fulfilled by Mr. Cornell as Non-Executive Chairperson. Since Mr. Cornell is independent, the Board determined that it would not appoint a separate Lead Director upon Mr. Cornell's appointment as Non-Executive Chairperson.

The Lead Director position is structured so that one independent Board member is empowered with sufficient authority to ensure independent oversight of the Company and its management. The Lead Director position has no term limit and is subject only to annual approval by the independent members of the Board. Based upon the recommendation of the Nominating and Governance Committee, the Board has determined that the Lead Director, when appointed, is responsible for:

- (a) Presiding at all executive sessions of the Board and any other meeting of the Board at which the Chairperson is not present, and advising the Chairperson and CEO of any decisions reached or suggestions made at any executive session,
- (b) Approving in advance agendas and schedules for Board meetings and the information that is provided to directors,
- (c) If requested by major shareholders, being available for consultations and direct communication,
- (d) Serving as a liaison between the Chairperson and the independent directors, and
- (e) Calling special meetings of the independent directors.
 - **Advance Materials.** Information and data important to the directors' understanding of the business or matters to be considered at a Board or Board committee meeting are, to the extent practical, distributed to the directors sufficiently in advance of the meeting to allow careful review prior to the meeting.
 - **Board and Committees' Evaluations.** The Board has an annual self-evaluation process that is led by the Nominating and Governance Committee. This assessment focuses on the Board's contribution to the Company and emphasizes those areas in which the Board believes a better contribution could be made. As a part of this process, the Chairperson of the Board or the Chairperson of the Nominating and Governance Committee conduct personal interviews with each member of the Board, the results of which are summarized and discussed in an executive session. In addition, the Audit, Management Planning and Development and Nominating and Governance Committees also each conduct similar annual self-evaluations.
 - **Majority Voting Policy.** Our Articles of Incorporation require majority voting for the election of directors in uncontested elections. This means that director nominees in an uncontested election for directors must receive a number of votes "for" his or her election in excess of the number of votes "against." The Company's Governance Principles further provide that any incumbent director who does not receive a majority of "for" votes will promptly tender to the Board his or her resignation from the Board. The resignation will specify that it is effective upon the Board's acceptance of the resignation. The Board will, through a process managed by the Nominating and Governance Committee and excluding the nominee in question, accept or reject the resignation within 90 days after the Board receives the resignation. If the Board rejects the resignation, the reason for the Board's decision will be publicly disclosed.

What access do the Board and Board committees have to management and to outside advisors?

- **Access to Management and Employees.** Directors have full and unrestricted access to the management and employees of the Company. Additionally, key members of management attend Board meetings to present information about the results, plans and operations of the business within their areas of responsibility.
- **Access to Outside Advisors.** The Board and its committees may retain counsel or consultants without obtaining the approval of any officer of the Company in advance or otherwise. The Audit Committee has the sole authority to retain and terminate the independent auditor. The Nominating and Governance Committee has the sole authority to retain search firms to be used to identify director candidates. The Management Planning and Development Committee has the sole authority to retain compensation consultants for advice on executive compensation matters.

What is the Board's role in risk oversight?

The Board maintains overall responsibility for overseeing the Company's risk management, including succession planning, food safety and digital/information security. In furtherance of its responsibility, the Board has delegated specific risk-related responsibilities to each of its three standing Committees.

The Audit Committee engages in substantive discussions of risk management at its regular committee meetings held during the year. At these meetings, it discusses and reviews the Company's enterprise risk management program and key risks,

including cybersecurity and technology risks, as well as risks relating to sustainable stewardship of food that is part of our Good priorities of the Yum! Good Growth Strategy, including food safety and supply chain risk. The Committee receives functional risk review reports covering significant areas of risk from senior managers responsible for these functional areas, as well as receiving reports from the Chief Legal Officer and the Vice President, Internal Audit. Our Vice President, Internal Audit reports directly to the Chairman of the Audit Committee and our Chief Financial Officer (“CFO”). The Audit Committee also receives reports at each meeting regarding other legal and regulatory risks from management and meets in separate executive sessions with our independent auditors and our Vice President, Internal Audit. The Audit Committee provides a summary to the full Board at each regular Board meeting of the risk area reviewed together with any other risk related subjects discussed at the Audit Committee meeting.

The Management Planning and Development Committee oversees the stewardship of people under the Company’s Good Growth Strategy. It considers the risks that may be implicated by our compensation programs through a risk assessment conducted by management and reports its conclusions to the full Board.

The Nominating & Governance Committee reviews the Company’s commitment to grow sustainably by overseeing the sustainable stewardship of planet-related items under the Company’s Good Growth Strategy. It considers risk relating to climate impact and operational waste and recycling, and it reports its conclusions to the full Board.

What is the Board’s role in information security?

Information security and data privacy have been and remain of the utmost importance to the Company in light of the value we place on maintaining the trust and confidence of our consumers, employees and other stakeholders. The Company’s information security and cybersecurity risk management processes are integrated into the Company’s overall risk management processes. The Board of Directors has overall responsibility for the oversight of the Company’s risk management and has delegated the oversight of specific risk-related responsibilities to certain Board committees. The Audit Committee oversees the Company’s business and financial technology risk exposure, which includes data privacy and data protection, information security and cybersecurity, as well as the controls in place to monitor and mitigate these risks. At the management level, our cybersecurity program is led by our Chief Information Security Officer (“CISO”). Additionally, we have a formal data privacy management group made up of privacy professionals, operational experts and specialist legal counsel, which is overseen by our Chief Legal Officer. Our CISO and Chief Digital and Technology Officer advise the Audit Committee at least four times a year, and the Board of Directors regularly, on our management and oversight of information security risks, including data privacy and data protection risks. The Audit Committee also receives periodic updates on data privacy from members of management within our data privacy group, in addition to the regular updates from our CISO. The Audit Committee provides a summary to the full Board at each regular Board meeting of the information security risk review, together with any other risk related subjects discussed at the Audit Committee meeting. Other aspects of our comprehensive information security and cybersecurity program include:

- Information security and privacy modules included in our mandatory onboarding and annual compliance training for restaurant support center employees, as well as targeted specialized training for any employees that routinely have access to personal data;
- Regular testing, both by internal and external resources, of our information security defenses;
- Periodic phishing drills with all restaurant support center employees;
- Global security and privacy policies; and
- Table-top exercises with senior leaders covering ransomware and other third-party data security threats.

In addition, the Company maintains an information security risk insurance policy that provides coverage for data security breaches.

What is the Board’s role in the Company’s global sustainability initiatives?

The Company has an integrated, Board and executive-level governance structure to oversee its global sustainability initiatives. Oversight for environmental, social and governance issues (“ESG”) ultimately resides with the Board of Directors. The Board receives regular updates on these matters from management through the Audit, Management Planning and Development and

Nominating and Governance Committees. The committees have initial board-level oversight responsibilities for ESG-related items which fall within the purview of each of their designated areas of responsibility. In early 2023, the Committees' charters were each amended to clarify the areas of the Company's ESG strategy and initiatives for which each committee has initial oversight responsibility. At the operational level, the Chief Communications Officer is responsible for overseeing the global reputation of YUM Brands and is responsible for shaping the Citizenship and Sustainability Strategy, as approved by the Board, with the Chief Sustainability Officer and Vice President of Government Affairs.

Has the Company conducted a risk assessment of its compensation policies and practices?

As stated in the Compensation Discussion and Analysis at page 39, the philosophy of our compensation programs is to reward performance by designing pay programs that incorporate team and individual performance, and shareholder return; emphasize long-term incentives; drive ownership mentality; and require executives to personally invest in Company stock.

In early 2024, the Committee examined our compensation programs for all employees to determine whether they encourage unnecessary or excessive risk taking. In conducting this review, each of our compensation practices and programs was reviewed against the key risks facing the Company in the conduct of its business. Based on this review, the Committee concluded our compensation policies and practices do not encourage our employees to take unreasonable or excessive risks.

As part of this assessment, the Committee concluded the following policies and practices of the Company's cash and equity incentive programs serve to reduce the likelihood of excessive risk taking:

- Our compensation system is balanced, rewarding both short-term and long-term performance
- Long term performance is emphasized—majority of incentive compensation for the top-level employees is associated with the long-term performance
- Strong stock ownership guidelines in place for approximately 200 senior employees are enforced
- Annual incentive and performance share plans both have caps on the level of performance over which no additional rewards are paid, thereby, mitigating unreasonable risk
- Annual incentive target setting process is closely linked to the annual financial planning process and supports the Company's overall strategic plan, which is reviewed and approved by the Board
- With more than 98% of our restaurants franchised, our franchisee performance overwhelmingly drives YUM performance – mitigating risk of the Company manipulating results
- Compensation performance measures set for each Division are tied to multiple measurable factors, none of which exceed a 50% weighting. The measures are both apparent to shareholders and drivers of returns
- The performance which determines employee rewards is closely monitored by the Audit Committee and the full Board
- The Company has a recoupment policy (clawback)

How does the Board determine which directors are considered independent?

The Company's Governance Principles, adopted by the Board, require that we meet the listing standards of the NYSE. The full text of the Governance Principles can be found on the Company's website (<https://investors.YUM.com/governance/governance-documents/>).

Pursuant to the Governance Principles, the Board undertook its annual review of director independence. During this review, the Board considered transactions and relationships between each director or any member of his or her immediate family and the Company and its subsidiaries and affiliates. As provided in the Governance Principles, the purpose of this review was to determine whether any such relationships or transactions were inconsistent with a determination that the director is independent.

As a result of this review, the Board affirmatively determined that all of the directors are independent of the Company and its management under NYSE rules, with the exception of David Gibbs, who is not considered independent because of his employment by the Company.

In determining that the other directors did not have a material relationship with the Company, the Board determined that Messrs. Alves, Barr, Biggs, Connor, Nelson, Skala and Mmes. Doniz, Domier, Graddick-Weir and Young-Scrivner had no other relationship with the Company other than their relationship as a director. The Board did note as discussed in the next paragraph that Target Corporation, which employs Mr. Cornell, has a business relationship with the Company; however, as noted below, the Board determined that this relationship was not material to Mr. Cornell or Target Corporation, and therefore determined that Mr. Cornell was independent.

Brian C. Cornell is the Chairman and Chief Executive Officer of Target Corporation. During 2023, the Company received approximately \$7 million in license fees from Target Corporation in the normal course of business. Divisions of the Company paid Target Corporation approximately \$1 million in rebates in 2023. The Board determined that these payments did not create a material relationship between the Company and Mr. Cornell or the Company and Target Corporation as the payments represent less than 2% of Target Corporation's revenues. Furthermore, the licensing relationship between the Company and Target Corporation was initially entered into before Mr. Cornell joined the Board or became employed by Target Corporation.

How do shareholders communicate with the Board?

Shareholders and other parties interested in communicating directly with individual directors, the non-management directors as a group or the entire Board may do so by writing to the Nominating and Governance Committee, c/o Corporate Secretary, YUM! Brands, Inc., 1441 Gardiner Lane, Louisville, Kentucky 40213. The Nominating and Governance Committee of the Board has approved a process for handling letters received by the Company and addressed to individual directors, non-management members of the Board or the Board. Under that process, the Corporate Secretary of the Company reviews all such correspondence and regularly forwards to a designated individual member of the Nominating and Governance Committee copies of all such correspondence (although we do not forward commercial correspondence and correspondence duplicative in nature; however, we will retain duplicate correspondence and all duplicate correspondence will be available for directors' review upon their request) and a summary of all such correspondence. The designated director of the Nominating and Governance Committee will forward correspondence directed to individual directors as he or she deems appropriate. Directors may at any time review a log of all correspondence received by the Company that is addressed to members of the Board and request copies of any such correspondence. Written correspondence from shareholders relating to accounting, internal controls or auditing matters are immediately brought to the attention of the Company's Audit Committee Chair and to the internal audit department and handled in accordance with procedures established by the Audit Committee with respect to such matters (described below). Correspondence from shareholders relating to Management Planning and Development Committee matters are referred to the Chair of the Management Planning and Development Committee.

What are the Company's policies on reporting of concerns regarding accounting?

The Audit Committee has established policies on reporting concerns regarding accounting and other matters in addition to our policy on communicating with our non-management directors. Any person, whether or not an employee, who has a concern about the conduct of the Company or any of our people, with respect to accounting, internal accounting controls or auditing matters, may, in a confidential or anonymous manner, communicate that concern to our Chief Legal Officer, Scott A. Catlett. If any person believes that he or she should communicate with our Audit Committee Chair, Paget Alves, he or she may do so by writing him at c/o YUM! Brands, Inc., 1441 Gardiner Lane, Louisville, KY 40213. In addition, a person who has such a concern about the conduct of the Company or any of our employees may discuss that concern on a confidential or anonymous basis by contacting the Speak Up helpline at 1 (844) 418-4423. The Speak Up helpline is our designated external contact for these issues and is authorized to contact the appropriate members of management and/or the Board of Directors with respect to all concerns it receives. The full text of our Policy on Reporting of Concerns Regarding Accounting and Other Matters is available on our website at <https://investors.yum.com/governance/governance-documents/>.

What are the Committees of the Board?

The Board of Directors has standing Audit, Management Planning and Development and Nominating and Governance Committees.

Name of Committee and Members	Functions of the Committee	Number of Meetings in Fiscal 2023
Audit: Paget L. Alves, <i>Chair</i> M. Brett Biggs* Tanya L. Domier Susan Doniz* P. Justin Skala** Annie Young-Scrivner	<ul style="list-style-type: none"> ■ Possesses sole authority regarding the selection and retention of independent auditors ■ Reviews and has oversight over the Company's internal audit function ■ Reviews and approves the cost and scope of audit and non-audit services provided by the independent auditors ■ Reviews the independence, qualification and performance of the independent auditors ■ Reviews the adequacy of the Company's internal systems of accounting and financial control ■ Reviews the annual audited financial statements and results of the audit with management and the independent auditors ■ Reviews the Company's accounting and financial reporting principles and practices including any significant changes ■ Advises the Board with respect to Company policies and procedures regarding compliance with applicable laws and regulations and the Company's Global Code of Conduct and Policy on Conflicts of Interest ■ Discusses with management the Company's policies with respect to risk assessment and risk management. Further detail about the role of the Audit Committee in risk assessment and risk management is included in the section entitled "What is the Board's role in risk oversight?" set forth on page 20 	8

The Board of Directors has determined that all of the members of the Audit Committee are independent within the meaning of applicable SEC regulations and the listing standards of the NYSE and that Mr. Alves, the Chair of the Committee, is qualified as an audit committee financial expert within the meaning of SEC regulations. The Board has also determined that Mr. Alves has accounting and related financial management expertise within the meaning of the listing standards of the NYSE and that each member is financially literate within the meaning of the listing standards of the NYSE.

*Mr. Biggs and Ms. Doniz were appointed to the Audit Committee effective August 10, 2023.

**Mr. Skala served on the Audit Committee prior to his leaving that committee, effective August 10, 2023.

Name of Committee and Members	Functions of the Committee	Number of Meetings in Fiscal 2023
Management Planning and Development: Christopher M. Connor, <i>Chair</i> Keith Barr Brian C. Cornell Mirian M. Graddick-Weir Thomas C. Nelson	<ul style="list-style-type: none"> ■ Oversees the Company's executive compensation plans and programs and associated risks and reviews and recommends changes to these plans and programs ■ Monitors the performance of the Chief Executive Officer and other senior executives in light of corporate goals set by the Committee ■ Reviews and approves the compensation of the Chief Executive Officer and other senior executive officers ■ Reviews management succession planning 	4

GOVERNANCE OF THE COMPANY

The Board has determined that all of the members of the Management Planning and Development Committee are independent within the meaning of the listing standards of the NYSE.

Name of Committee and Members	Functions of the Committee	Number of Meetings in Fiscal 2023
Nominating and Governance: Mirian M. Graddick-Weir, <i>Chair</i> Brian C. Cornell Thomas C. Nelson P. Justin Skala*	<ul style="list-style-type: none"> ■ Identifies and proposes to the Board suitable candidates for Board membership ■ Advises the Board on matters of corporate governance ■ Reviews and reassesses from time to time the adequacy of the Company's Corporate Governance Principles ■ Receives comments from all directors and reports annually to the Board with assessment of the Board's performance ■ Prepares and supervises the Board's annual review of director independence 	4

The Board has determined that all of the members of the Nominating and Governance Committee are independent within the meaning of the listing standards of the NYSE.

*Mr. Skala was appointed to the Nominating and Governance Committee effective August 17, 2023.

MATTERS REQUIRING SHAREHOLDER ACTION

Item 1 Election of Directors (Item 1 on the Proxy Card)

Who are this Year's Nominees?

There are twelve (12) nominees recommended by the Nominating and Governance Committee of the Board of Directors for election this year to hold office until the 2025 Annual Meeting and until their respective successors are elected and qualified. Their biographies are provided above at pages 10 to 15. The biographies of each of the nominees contains information regarding the person's service as a director, business experience, public-company director positions held currently or at any time during the last five years, information regarding involvement in certain legal or administrative proceedings, if applicable, and the experiences, qualifications, attributes or skills that caused the Nominating and Governance Committee and the Board to determine that the person should serve as a director for the Company. In addition to the information presented above regarding each nominee's specific experience, qualifications, attributes and skills that led our Board to the conclusion that he or she should serve as a director, we also believe that all of our director nominees have a reputation for integrity, honesty and adherence to high ethical standards. They each have demonstrated business acumen and an ability to exercise sound judgment, as well as a commitment of service to YUM and our Board. Finally, we value their significant experience on other public company boards of directors and board committees.

There are no family relationships among any of the directors and executive officers of the Company.

As noted above, M. Brett Biggs and Susan Doniz joined the Company's Board, effective August 10, 2023 and they will stand for election to the Board by our shareholders for the first time. Mr. Biggs is the former Executive Vice President and Chief Financial Officer for Walmart, Inc.. Mr. Biggs brings significant operational and global management experience, strategic planning, global branding, and public company directorship experience which the Board intendeds to leverage. Ms. Doniz is the current Chief Information Officer and Senior Vice President of Information Technology & Data Analytics of The Boeing Company. Ms. Doniz's extensive technology and cybersecurity experience and management experience are strengths that the Board intends to leverage. Mr. Biggs and Ms. Doniz were recommended by our Non-Executive Chairman and Chief Executive Officer, respectively.

What is the Recommendation of the Board of Directors?

The Board of Directors recommends that you vote **"FOR"** the election of these nominees.

What if a Nominee is Unwilling or Unable to Serve?

That is not expected to occur. If it does, proxies may be voted for a substitute nominated by the Board of Directors.

What Vote is Required to Elect Directors?

A nominee will be elected as a director if the number of "FOR" votes exceeds the number of "AGAINST" votes with respect to his or her election.

Our policy regarding the election of directors can be found in our Governance Principles at <https://investors.yum.com/governance/governance-documents/> and at page 19 under “What other significant Board practices does the Company have? — Majority Voting Policy.”

Item 2 Ratification of Independent Auditors (Item 2 on the Proxy Card)

What am I Voting on?

A proposal to ratify the selection of KPMG LLP (“KPMG”) as our independent auditors for fiscal year 2024. The Audit Committee of the Board of Directors has selected KPMG to audit our consolidated financial statements. During fiscal 2023, KPMG served as our independent auditors and also provided other audit-related and non-audit services.

Will a Representative of KPMG be Present at the Meeting?

Representatives of KPMG will attend the Annual Meeting and will have the opportunity to make a statement if they desire and will be available to respond to appropriate questions from shareholders.

What Vote is Required to Approve this Proposal?

Approval of this proposal requires the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting. If the selection of KPMG is not ratified, the Audit Committee will reconsider the selection of independent auditors.

What is the Recommendation of the Board of Directors?

The Board of Directors recommends that you vote **“FOR”** approval of this proposal.

What were KPMG’s Fees for Audit and Other Services for Fiscal Years 2023 and 2022?

The following table presents fees for professional services rendered by KPMG for the audit of the Company’s annual financial statements for 2023 and 2022, and fees billed for audit-related services and tax services rendered by KPMG for 2023 and 2022.

	2023	2022
Audit fees ⁽¹⁾	\$6,145,000	\$6,797,000
Audit-related fees ⁽²⁾	\$ 349,000	\$ 395,000
Tax fees ⁽³⁾	\$ 148,000	\$ 219,000
All other fees	\$ —	\$ —
TOTAL FEES	\$6,642,000	\$7,411,000

(1) Audit fees include fees for the audit of the annual consolidated financial statements, reviews of the interim condensed consolidated financial statements included in the Company's quarterly reports, audits of the effectiveness of the Company's internal controls over financial reporting and statutory audits.

(2) Audit-related fees include fees associated with audits of financial statements of certain employee benefit plans, agreed upon procedures and other attestations and services rendered in connection with the Company's securities offerings including comfort letters and consents.

(3) Tax fees consist principally of fees for international tax compliance, tax audit assistance, value added tax services, and other tax advisory services.

What is the Company's Policy Regarding the Approval of Audit and Non-Audit Services?

The Audit Committee has implemented a policy for the pre-approval of all audit and permitted non-audit services, including tax services, proposed to be provided to the Company by its independent auditors. Under the policy, the Audit Committee may approve engagements on a case-by-case basis or pre-approve engagements pursuant to the Audit Committee's pre-approval policy. The Audit Committee may delegate pre-approval authority to one of its independent members and has currently delegated pre-approval authority up to certain amounts to its Chair.

Pre-approvals for services are granted at the January Audit Committee meeting each year. Any incremental audit or permitted non-audit services which are expected to exceed the relevant budgetary guideline must subsequently be pre-approved. In considering pre-approvals, the Audit Committee reviews a description of the scope of services falling within pre-designated services and imposes specific budgetary guidelines. Pre-approvals of designated services are generally effective for the succeeding 12 months.

The Corporate Controller monitors services provided by the independent auditors and overall compliance with the pre-approval policy. The Corporate Controller reports periodically to the Audit Committee about the status of outstanding engagements, including actual services provided and associated fees, and must promptly report any non-compliance with the pre-approval policy to the Chair of the Audit Committee. The complete policy is available on the Company's website at <https://investors.yum.com/governance/committee-composition-and-charters/>.

Item 3 Advisory Vote on Executive Compensation (Item 3 on the Proxy Card)

What am I Voting on?

In accordance with SEC rules, we are asking shareholders to approve, on a non-binding basis, the compensation of the Company's Named Executive Officers as disclosed in this proxy statement.

Our Performance-Based Executive Compensation Program Attracts and Retains Strong Leaders and Closely Aligns with Our Shareholders' Interests

Our performance-based executive compensation program is designed to attract, reward and retain the talented leaders necessary for our Company to succeed in the highly competitive market for talent, while maximizing shareholder returns. This approach has made our management team a key driver in the Company's strong performance over both the long- and short-term. We believe that our compensation program has attracted and retained strong leaders and is closely aligned with the interests of our shareholders.

In deciding how to vote on this proposal, we urge you to read the Compensation Discussion and Analysis section of this proxy statement, beginning on page 39, which discusses in detail how our compensation policies and procedures operate and are designed to meet our compensation goals and how our Management Planning and Development Committee makes compensation decisions under our programs.

Accordingly, we ask our shareholders to vote in favor of the following resolution at the Annual Meeting:

RESOLVED, that the shareholders approve, on an advisory basis, the compensation awarded to our Named Executive Officers, as disclosed pursuant to SEC rules, including the Compensation Discussion and Analysis, the compensation tables and related materials included in this proxy statement.

What Vote is Required to Approve this Proposal?

Approval of this proposal requires the affirmative vote of a majority of shares present in person or represented by proxy and entitled to vote at the Annual Meeting. While this vote is advisory and non-binding on the Company, the Board of Directors and the Management Planning and Development Committee will review the voting results and consider shareholder concerns in their continuing evaluation of the Company's compensation program. Unless the Board of Directors modifies its policy on the frequency of this advisory vote, the next advisory vote on executive compensation will be held at the 2025 Annual Meeting of Shareholders.

What is the Recommendation of the Board of Directors?

The Board of Directors recommends that you vote **“FOR”** approval of this proposal.

Item 4 Shareholder Proposal Regarding Adoption of a Policy on the Use of Medically Important Antimicrobials in Food-Producing Animals (Item 4 on the Proxy Card)

What am I Voting on?

The Shareholder Commons, on behalf of Amundi Asset Management (lead filer) and H.E.S.T. Australia Ltd. as trustee for HESTA (co-filer), has advised us that it intends to present the following shareholder proposal at the Annual Meeting. We will furnish the address and share ownership of the proponents upon request. In accordance with federal securities regulations, we have included the text of the proposal and supporting statement exactly as submitted by the proponents. We are not responsible for the content of the proposal or any inaccuracies it may contain.

RESOLVED, shareholders ask that the board of directors institute a policy that the Company (“Yum”) comply with World Health Organization (“WHO”) Guidelines on Use of Medically Important Antimicrobials in Food-Producing Animals (“WHO Guidelines”)¹ throughout Yum’s supply chains.

SUPPORTING STATEMENT: Yum is the world’s largest restaurant company and a major purchaser of meat; its policies thus have tremendous influence on the market as a whole. Some of Yum’s brands have made some progress in reducing use of

certain antibiotics in their poultry supply chains, and Taco Bell is working on reducing use of certain antibiotics in its U.S. and Canadian beef supply chains. While this is laudable, it falls short of the measures necessary to protect Yum’s investors’ diversified portfolios. The WHO Guidelines pertain to all food-producing animals in all markets.

Antibiotics overuse is known to exacerbate antimicrobial resistance (“AMR”), which the WHO describes as “one of the top 10 global public health threats facing humanity.”² AMR poses a systemic threat to public health and the economy. When the efficacy and availability of life-saving drugs are compromised, the entire economy suffers. And when the economy suffers, investors lose. By 2050, AMR could cause \$100 trillion in lost global production,³ thus lowering the economy’s intrinsic value and devastating portfolio returns for institutional investors.

Yum’s policies do not comport with the WHO Guidelines, which recommend that “farmers and the food industry stop using antibiotics routinely to promote growth and prevent disease in healthy animals” and provide evidence-based recommendations and best practices. Yum rightly acknowledges that robust AMR protections raise “[t]he challenge of individual costs and widely distributed societal benefits.”⁴ But for diversified investors, the portfolio-wide costs associated with AMR are paramount. As the *Financial Times* editorial board recently stated, “What has been dubbed ‘the silent pandemic’ requires the intervention at a global level of investors and governments alike.”⁵

Yum’s decision not to prioritize broad AMR risks does not account for its diversified owners’ interests in optimizing public health, the economy, and their long-term portfolio returns. By engaging meat suppliers that use medically important drugs beyond WHO Guidelines, Yum adds to the economic threat AMR poses to its diversified shareholders: reducing the economy’s intrinsic value will directly reduce diversified portfolios’ long-term returns.⁶ Yum’s profit gain that comes at the expense of public health is a bad trade for Yum’s diversified shareholders, who rely on broad economic growth to achieve their financial objectives.

By changing its policies and adhering to the WHO Guidelines, Yum could save lives, contribute to a more resilient economy, and protect its diversified investors’ portfolios.

Please vote for: Comply with Expert Guidelines on Antimicrobial Use – Item 4*

What is the Company’s Position Regarding this Proposal?

Statement in Opposition to Shareholder Proposal

Our Board of Directors unanimously recommends that shareholders vote AGAINST this proposal, as it seeks to prescriptively direct the adoption of a single policy that would undermine the Company’s well-considered strategy for limiting the use of antibiotics/antimicrobials in our supply chain, and the continued implementation of that policy, in a way that is not in the best interests of shareholders. The policy requested by the proponents would significantly limit management’s ability to employ multifaceted approaches when it comes to the oversight of the responsible and judicious use of antibiotics, in favor of a policy that has not been determined by the Board and management to best address the issue. Given the global scale and footprint of YUM’s business, it is critical for the Company to leverage a range of frameworks that help ensure both the well-being of animals used in YUM’s supply chain and necessary access to sufficient and cost-efficient supply for our business. Further, evolving scientific evidence and the complexities of varying global industry structures, governments and regulatory regimes make it impractical to implement a single global approach to antibiotic use in food producing animals. Adoption of a policy like this is particularly inadvisable where the policy at issue has not been widely accepted by industry peers and similarly situated businesses, or experts in the field, as is the case here. The Company recognizes that Antimicrobial Resistance (AMR) is a legitimate global health issue in the eyes of many policy makers, scientists and civil society organizations—including the World Health Organization (WHO), Food and Agricultural Organization (FAO) and World Organization for Animal Health (OIE). However, for reasons more fully described below, the Board has determined that the Company has already taken

MATTERS REQUIRING SHAREHOLDER ACTION

tangible steps towards addressing this issue and that the proponents' policy solution is unlikely to improve progress towards outcomes in a meaningful way and would have a significant negative impact on the interests of shareholders.

YUM's Antimicrobial Resistance Strategy & Commitments

YUM's strategy on antimicrobial resistance includes clear goals for beef and chicken, utilization of third party audited processes for verifying compliance, and cross sector engagement and research funding to help advance solutions in difficult supply chains.

YUM has a long history of being a good steward of animals raised for food throughout our supply chain and has a thoughtful, comprehensive health management program in place. Under this program, the Company has already committed to significantly reducing the use of antibiotics in food producing animals, while recognizing that there are circumstances which may necessitate their use to maintain or restore good animal health. YUM shares the concerns of the WHO, FAO and OIE and their work in developing One Health, a holistic and multi-sectoral long-term effort to combat AMR. The Company's approach to good antimicrobial stewardship in food animal production is grounded in our Sustainable Animal Protein Principles and is consistent with the One Health multi-sectoral approach and leading global and local initiatives for combating AMR.

There are six fundamental elements of enabling and continually improving good antimicrobial stewardship throughout YUM's global supply chain:

- Effective animal husbandry practices and alternate interventions that reduce risks to animal health;
- Responsible, judicious use of antimicrobials;
- Science-based solutions;
- Solutions tailored by country and region;
- Compliance with local government laws and regulations; and
- Surveillance and monitoring of antimicrobial usage.

To date, KFC, Pizza Hut and Taco Bell in the U.S. have already met a number of significant public commitments to reduce antibiotics important to human medicine in many of their key protein supply chains.

YUM Commitments for Responsible Use of Antibiotics		
Subsidiary	Commitments	Status
KFC U.S.	<ul style="list-style-type: none"> ■ To remove antibiotics important to human medicine from its poultry supply 	Complete
Pizza Hut U.S.	<ul style="list-style-type: none"> ■ To remove antibiotics important to human medicine from its chicken toppings for pizza ■ To remove antibiotics important to human medicine from chickens used for wings by 2022 	Complete
Taco Bell U.S.	<ul style="list-style-type: none"> ■ To remove antibiotics important to human medicine from all chicken products 	Complete
Taco Bell U.S. and Canada	<ul style="list-style-type: none"> ■ To reduce antibiotics important to human health by 25% in beef supply chain by 2025 ■ To give preference to beef suppliers that make measured reductions in their use of antibiotics ■ To participate in animal husbandry practices that promote antibiotic stewardship 	In progress

In addition, YUM uses the USDA Process Verified Program (PVP), a third party auditing system. This verification process ensures our antibiotics claims and standards are met for poultry.

YUM also regularly engages with internal and external stakeholders on this issue. For example, for our beef supply, YUM works with the U.S. Roundtable for Sustainable Beef (USRSB) and the International Consortium for Antimicrobial Stewardship in Agriculture (ICASA). The USRSB is a multi-stakeholder initiative developed to advance, support and communicate continuous improvement in sustainability of the U.S. beef value chain. ICASA is collaborating across the supply chain to pioneer technologies and management practices that promote judicious antibiotics use and produce healthier livestock. Through ICASA, YUM is investing, along with other supply chain partners, in a multiyear study to help better understand baseline utilization of antibiotics in the US feedlot industry.

Further, in 2021, following engagement with the proponents' representative, YUM published an evidence-based report that showcases third-party research around the global AMR scenario. In creating the report, YUM engaged independent third-party experts to ensure that the report presented a balanced and nuanced analysis of this issue. The report found that AMR is a multifaceted problem that requires a long-term approach, with governments best positioned to address the issue at scale. It also concluded that responsible antibiotic prescription and more specific use of antimicrobials in humans may be the highest impact strategy for reducing AMR's impact moving forward. It also noted that in agriculture, enhancing husbandry practices, judicious use of antimicrobials for animals, AMR monitoring and improvement of animal sanitation are seen as the most critical AMR reduction strategies. The report concluded that key enablers of these strategies include continued research and development efforts on the data collection and diagnostics side, as well as public-private partnerships, educational programs and awareness initiatives.

Given the robust policies that YUM already has in place, and the work it recently undertook through the above-mentioned report on this issue, the Company believes that it has taken significant steps towards doing its part in responsibly addressing AMR, and that adoption of the policy proposed by the proponents is unlikely to make a meaningful impact and would unnecessarily divert time and resources away from the Company's execution of its well-considered approach to this issue. More information about YUM's global AMR strategy and policy can be found on yum.com/citizenship.

The Board urges shareholders to vote AGAINST this proposal so that the Company may focus its efforts on accomplishing the existing strategy described above and not be limited in the exercise of its well-informed discretion on how best to address this issue.

What Vote is Required to Approve this Proposal?

Approval of this proposal requires the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting.

What is the Recommendation of the Board of Directors?

The Board of Directors recommends that you vote **“AGAINST”** this proposal.

Item 5 Shareholder Proposal Regarding Consideration of Proposed Capital Transactions Involving the Brands (Item 5 on the Proxy Card)

What am I Voting on?

The Robert Elliot Friedman Trust, has advised us that it intends to present the following shareholder proposal at the Annual Meeting. We will furnish the address and share ownership of the proponent upon request. In accordance with federal securities regulations, we have included the text of the proposal and supporting statement exactly as submitted by the proponent. We are not responsible for the content of the proposal or any inaccuracies it may contain.

RESOLVED: Shareholder requests that the Board of Directors prepare a strategic review regarding a proposed spin-off of YUM's KFC, Pizza Hut, and Taco Bell franchises into three separate publicly traded companies, and dispose of its Habit Burger chain in a separate, pre-spinoff transaction.

SUPPORTING STATEMENT: Spinning off YUM's three main franchises into separate companies would allow distinct CEO's, managements, and boards to focus better on each chain's operations, including each franchise's unique brand and end-markets. Separate companies would also allow talented operating heads to remain at each company as CEO, instead of having to depart eventually. For example, Brian Niccol, the highly talented former president of Taco Bell, left the chain in 2018 to become CEO of Chipotle. If Taco Bell had operated as a separate company, it would have been highly likely that Mr. Niccol would have continued managing the franchise.

Moreover, it seems apparent that YUM is experiencing serious challenges in concurrently operating three global franchises at optimal levels. For instance, all three flagship YUM franchises continue to lag meaningfully behind its main competitors in sales performance: From 2016 through 2022, Chick-fil-A's system revenues expanded at a six-year compound annual growth rate (CAGR) of 15%, versus 5.3% for KFC; Domino's Pizza's system revenues grew at a six-year CAGR of 8.4%, versus 1.2% for Pizza Hut; and Chipotle, Inc's system revenues rose at a six-year CAGR of 14%, versus 7.3% for Taco Bell.

On a per-outlet sales basis, YUM, again, lags behind its primary competitors: For example, in 2022, Chipotle posted per-outlet revenues of \$2,698,000, more than 50% higher than those of Taco Bell, which posted per-outlet revenues of \$1,783,000. Chick-fil-A's outperformance was even more stark: In 2022, Chick-fil-A posted per-outlet revenues of \$6,714,000, almost 500% greater than those of KFC, which generated per-outlet revenues of \$1,121,000.

It seems that YUM's competitors are also grabbing significant market share away from YUM's franchises. For example, from 2016 through 2022, U.S. chicken franchise restaurant industry revenues grew at a six-year CAGR of 11%. During the same period, Chick-fil-A's and KFC's U.S. revenues grew at six-year CAGRs of 15% and 2.2%, respectively. As such, it seems to reason that Chick-fil-A is taking serious U.S. market share away from KFC.

Turning to the Habit Burger (HB) franchise, since YUM's \$408 million acquisition of HB in early 2020, YUM has written off more than 70% of acquisition goodwill and 35% of YUM's initial investment in the chain. Given HB's ongoing lackluster financial performance, the shareholder believes the chain will generate long-term investment results from between low single-digit returns on invested capital (ROIC), to outright permanent capital losses.

Unfortunately, YUM's middling operating results have cascaded over to its investment performance: From 2012 and 2017—through 2022, YUM shares grew at 10- and five-year CAGR's of 11% and 10%, respectively, approximately matching the S&P 500 Index. For 2023, YUM is on track to underperform the Index by 20%. These results are particularly disappointing, given that YUM generates "look-through" ROIC of almost 50%.

What is the Company's Position Regarding this Proposal?

Statement in Opposition to Shareholder Proposal

Our Board of Directors unanimously recommends that shareholders vote AGAINST this proposal, as it would divert time and resources that the Company has determined would be better used to support our strategic business objectives.

Our scale is one of the key differentiators leveraged by the Company and its Brands in driving consistent results over many years. Through its Brands, the Company system includes over 58,000 restaurants in more than 155 countries and territories around the world. The scope and diversity of our business allows us to effectively perform in a dynamic marketplace, in a way that would be significantly more difficult for any of the individual Brands to do if they were not part of the combined YUM system. The competitive advantages from our scale are evident across multiple areas which help us drive growth and long-term shareholder value as further described below.

Human Capital & Talent

Our scale strengthens the Brands' access to human capital resources and capabilities, which is essential to our Good Growth Strategy. Because they are part of the global YUM system, our Brands are able to leverage talent exchanges from among the combined system's large number of talented leaders who support the business and create value. This allows us to develop a strong bench to drive performance and move leaders and/or their experiences from one Brand to help another make similar progress and to foster improved results. The proponent's view that each of our Brands could operate more effectively on their own does not fully comprehend these, and numerous other areas in which, efficiencies are created and innovation is supported by our current structure.

Investments in Digital and Technology

The Company's combined structure allows for significantly greater investment in digital and technology initiatives than the Brands could each make on their own, which allow the Company and its Brands to become increasingly more competitive on both a domestic and international basis. Scale is becoming even more critical within the restaurant industry where technology and data capabilities will be a crucial competitive advantage relative to brands of smaller scale. A key example of this can be seen in the Company's acquisition of several technology-focused companies in recent years, which are allowing us to improve operations and maximize marketing efficiencies that would have been cost prohibitive for any Brand to undertake independently. An illustration of this is the acquisition of Dragontail in 2021. As of 2023, the Company has deployed Dragontail AI in nearly 7,000 restaurants across the Pizza Hut and KFC systems to help optimize delivery order sequencing and food preparation processes. The Company sees this acquisition as a vital step towards improving operations and digital capabilities throughout the global business and plans to roll out Dragontail AI in 6,000 new restaurants in 2024. Restaurants that implement Dragontail AI consistently see improvements in product quality and customer satisfaction scores as the order sequencing algorithm and driver dispatch capabilities enable us to deliver hot and fresh products to our customers. The cost of this acquisition would have represented 17% of Pizza Hut's 2021 operating profit, making it and similar acquisitions, a significant financial endeavor from a singular Brand perspective. Because of the scale of YUM, Pizza Hut and its sister Brands will be able to receive the benefits of being part of a larger, unified system.

Our Proprietary Digital Systems

In addition to the benefits provided by the Company's increased acquisitive capabilities, the Brands also benefit from the investments the Company has, and continues to make, in its proprietary Ecommerce platform. The Brand benefit here is both in development and maintenance savings, as well as access to a platform which provides the Brands greater flexibility than third-party offerings would. Further, the Company's digital offerings provide the Brands and their franchisees with the opportunity to access emerging digital offerings at reduced costs and service levels exceeding those they could individually bargain for. For instance, the Company's custom-built SuperApp, which provides smart, automated routine management tools for our restaurant managers, is now used in over 8,500 Pizza Hut restaurants, with KFC planning a roll out to approximately 6,000 restaurants in 2024. This type of forward-thinking investment would be economically challenging for an independent Brand to create and support.

MATTERS REQUIRING SHAREHOLDER ACTION

Information Technology Support Services and Global Technology Risk Management

Our Brands also rely on the Company for cost effective and secure Information Technology Support Services and Global Technology Risk Management, which are pivotal in the protection of assets and customer data, an increasingly important area of focus for all companies. The Company's support services in these areas are numerous and extend far beyond the digital and technology systems referred to above.

Consumer Insights

In addition, the Brands leverage the Company's cross-brand and cross-market customer data. The Brands utilize the Company's unique global scale to bring new insights and enable even smarter and quicker decision-making. This year, the Company expanded its global data hub, which captures a significant and growing portion of global transaction-level sales data and other key operational and customer metrics. Brands are given unprecedented visibility into the ordering behaviors of millions of customers across the other Brands. In addition, the Brands have access to breakthrough consumer insight from Collider, the Company's boutique insights consultancy.

Best-in-Class Franchisees

Our Brands also have access to best-in-class franchisees. As of 2024, 80% of our global development was driven by 15 publicly traded franchisees, many of which are franchisees of more than one of our Brands. Our capable, well capitalized and committed franchisee partners know we offer unmatched scale that we leverage through supply chain excellence and favorable vendor terms, including cutting-edge aggregator agreements. Further, through our scale we offer a nearly unlimited range of growth opportunities through things like category restaurant design, flexible format options and leading market mapping capabilities culminating in compelling and consistent new unit returns. Finally, the Company's Brands are able to leverage our extensive international franchise relationships and go-to market strategies designed to provide them with accelerated development opportunities in new and evolving markets. The scope of these capabilities would be meaningfully reduced for the Brands operating in isolation.

Our Board of Directors unanimously recommends that shareholders vote AGAINST this proposal, for the reasons set forth above, as it would divert time and resources that the Company has determined would be better used to support our strategic business objectives.

What Vote is Required to Approve this Proposal?

Approval of this proposal requires the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting.

What is the Recommendation of the Board of Directors?

The Board of Directors recommends that you vote "**AGAINST**" this proposal.

STOCK OWNERSHIP INFORMATION

Who are Our Largest Shareholders?

This table shows ownership information for each YUM shareholder known to us to be the owner of 5% or more of YUM common stock. This information is presented as of December 31, 2023 and is based on a stock ownership report on Schedule 13G filed by such shareholders with the SEC and provided to us.

Name and Address of Beneficial Owner	Number of Shares Beneficially Owned	Percent of Class
The Vanguard Group 100 Vanguard Blvd. Malvern, PA 19355	23,397,919 ⁽¹⁾	8.35%

How Much YUM Common Stock is Owned by Our Directors and Executive Officers?

This table shows the beneficial ownership of YUM common stock as of December 31, 2023 by

- each of our directors,
- each of the executive officers named in the Summary Compensation Table on page 59, and
- all directors and relevant executive officers as a group.

Unless we note otherwise, each of the following persons and their family members have sole voting and investment power with respect to the shares of common stock beneficially owned by him or her. None of the persons in this table (nor the Directors and executive officers as a group) holds in excess of one percent of the outstanding YUM common stock.

STOCK OWNERSHIP INFORMATION

The table shows the number of shares of common stock and common stock equivalents beneficially owned as of December 31, 2023. Included are shares that could have been acquired within 60 days of December 31, 2023 through the exercise of stock options, stock appreciation rights (“SARs”) or distributions from the Company’s deferred compensation plans, together with additional underlying stock units as described in footnote (4) to the table. Under SEC rules, beneficial ownership includes any shares as to which the individual has either sole or shared voting power or investment power and also any shares that the individual has the right to acquire within 60 days through the exercise of any stock option or other right.

Name	Beneficial Ownership					Additional Underlying Stock Units ⁽⁴⁾	Total

Annie Young-Scrivner	4,171	–	–	4,171	4,768	8,939	
David Gibbs	123,218	290,989	10,287	424,494	7,786	432,280	
Christopher Turner	16,785	20,624	0	37,409	0	37,409	
Tracy Skeans	13,418	74,758	851	89,027	1,824	90,851	
Sabir Sami	6,652	61,016	0	67,668	0	67,668	
Aaron Powell	10,721	620	0	11,341	0	11,341	
All Directors and Executive Officers as a Group (19 persons)	258,730	591,316	11,462	861,508	227,105	1,088,613	

(1) Shares owned outright. These amounts include the following shares held pursuant to YUM’s 401(k) Plan as to which each named person has sole voting power:

- Ms. Skeans, 2,984
- all relevant executive officers as a group, 4,091 shares

(2) The amounts shown include beneficial ownership of shares that may be acquired within 60 days pursuant to SARs awarded under our employee or director incentive compensation plans. For SARs, we report the shares that would be delivered upon exercise (which is equal to the number of SARs multiplied by the difference between the fair market value of our common stock at year-end and the exercise price divided by the fair market value of the stock).

(3) These amounts shown reflect units denominated as common stock equivalents held in deferred compensation accounts for each of the named persons under our Director Deferred Compensation Plan or our Executive Income Deferral Program. Amounts payable under these plans will be paid in shares of YUM common stock at termination of directorship/employment or within 60 days, if so elected.

(4) The amounts shown include units denominated as common stock equivalents held in deferred compensation accounts which become payable in shares of YUM common stock at a time (a) other than at termination of directorship/employment and (b) after 60 days.

(5) For Ms. Domier, these shares are held in a trust for which she retains voting and/or investment power. For Mr. Gibbs and Ms. Skeans, 65,893 and 7,251 of these shares are held in trusts, respectively, for trusts in which they retain voting and/or investment power.

DELINQUENT SECTION 16(a) REPORTS

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our directors, executive officers and persons who own more than 10% of the outstanding shares of YUM common stock to file with the SEC reports of their ownership and changes in their ownership of YUM common stock. Directors, executive officers and greater-than-ten percent shareholders are also required to furnish YUM with copies of all ownership reports they file with the SEC. To our knowledge, based solely on a review of the copies of such reports furnished to YUM and representations that no other reports were required, all of our directors and executive officers complied with all Section 16(a) filing requirements during fiscal 2023.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis (“CD&A”) describes our executive compensation philosophy and program, the compensation decisions of the Management Planning and Development Committee (the “Committee”) for our named executive officers (“NEOs”) and factors considered in making those decisions.

I. Executive Summary

A. YUM 2023 Performance

2023 was another very strong year for the Company, as it surpassed the \$60 billion threshold in system sales and exceeded all aspects of our long-term growth algorithm. In reaching this milestone, YUM achieved 6% Same-Store Sales growth, 12% Core Operating Profit¹ growth and 6% net-new unit growth, with broad-based strength across the globe. Of note, the Company accomplished its net-new unit growth through another record year for unit development, opening over 4,700 new stores around the world. This performance illustrates the capability of our global system, driven by our iconic Brands and the unmatched operating capability of our committed, and well-capitalized franchise partners.

The Company again reached new heights in its digital capabilities, leading to \$29 billion in digital sales, a 22% increase over the prior year. Additionally, digital sales exceeded 45% of total system sales in 2023, an all time high and a further indicator that our digital-enabled ordering channels continue to mature and build upon prior momentum. Our digital sales growth in 2023 was underpinned by the continued scaling of our digital and AI-driven ecosystem, in partnership with our franchisees, and continued to capitalize on the structural advantages of our diversified global portfolio by leveraging our unmatched global scale, sophisticated supply chains and marketing and consumer insights expertise to fuel growth and deliver consistently strong results.

¹ See pages 31-32 and 35-36 in Item 7 of YUM's Form 10-K for the fiscal year ended on December 31, 2023 for a discussion of Core Operating Profit in 2023

Looking to 2024, we expect this will be a year of major milestones for YUM, as we expect to exceed 60,000 restaurants within the YUM system globally by year end, led by 30,000 restaurants at KFC and 20,000 at Pizza Hut. Going forward, we remain confident we will continue to build the world’s most loved and trusted brands while delivering lasting value for our shareholders. To accomplish these goals, we will continue to leverage our Good Growth Strategy, which forms the basis of the Company’s plans to drive same-store sales growth and net-new restaurant development around the world. The Company remains focused on creating cravable experiences for customers and building the fastest growing restaurant brands by:

- growing Unrivaled Culture and Talent to fuel brand performance and franchisee success;
- developing Unmatched Operating Capability by recruiting and equipping the best restaurant operators in the world to deliver great customer experiences;
- building Relevant, Easy and Distinctive Brands by innovating and elevating iconic restaurant brands that people trust and champion; and
- achieving Bold Restaurant Development by driving market share and franchise unit expansion with strong economics.

By continually leveraging our Good Growth Strategy — inclusive of our growth drivers and our commitment to social responsibility, risk management and sustainable stewardship of people, food and planet, internally and across our supply chain and franchise system — we will continue to drive our business model and improve the strength of our iconic Brands, as we look to another year of Good Growth in 2024.

2023 Performance Highlights¹

(1) See pages 31-32 and 35-36 in Item 7 of YUM's Form 10-K for the fiscal year ended on December 31, 2023 for a discussion of Core Operating Profit in 2023. System Sales Growth excludes impact of foreign currency translation.

B. Named Executive Officers

The Company's NEOs for 2023 were as follows:

Name	Title
David W. Gibbs	Chief Executive Officer
Chris Turner	Chief Financial Officer
Tracy L. Skeans	Chief Operating Officer and Chief People Officer
Sabir Sami	Chief Executive Officer of KFC Division
Aaron Powell	Chief Executive Officer of Pizza Hut Division

C. Compensation Philosophy

The business performance of the Company is of the utmost importance in determining how our executives are compensated. Our compensation program is designed to both support our long-term growth model and hold our executives accountable to achieve key annual results year after year. YUM's compensation philosophy for the NEOs is reviewed annually by the Committee and has the following objectives:

Objective	Pay Element		
	Base Salary	Annual Performance-Based Cash Bonuses	Long-Term Equity Performance-Based Incentives
Attract and retain the best talent to achieve superior shareholder results —To be consistently better than our competitors, we need to recruit and retain superior talent — individuals who are able to drive superior results. We have structured our compensation programs to be competitive and to motivate and reward high performers.	✓	✓	✓
Reward performance —The majority of NEO pay is performance-based and therefore at risk. We design pay programs that incorporate team and individual performance goals that lead to shareholder return.		✓	✓
Emphasize long-term value creation —Our belief is simple: if we create value for shareholders, then we share a portion of that value with those responsible for the results.			✓
Drive ownership mentality —We require executives to invest in the Company's success by owning a substantial amount of Company stock.			✓

D. Compensation Overview

2023 Compensation Highlights

- In January of 2023, the Committee made the following decisions and took the following actions:
 - The Committee continued to set our CEO target for total direct compensation (base salary, annual cash bonus and annual long-term incentive award value at grant date) at a level near the median of our Executive Peer Group (defined at page 55) for the CEO role; and
 - The Committee continued to set the equity mix for our NEOs' annual long-term incentive awards at 25% stock appreciation rights ("SARs"), 25% restricted stock units ("RSUs") and 50% performance share units ("PSUs").
- In February of 2023, the Committee certified that our 2020 PSU awards paid out at 115% of target, based on the Company's Total Shareholder Return ("TSR") at the 67th percentile compared to the S&P 500 Consumer Discretionary Index and Earnings Per Share ("EPS") growth of 7.6% CAGR, for the 2020-2022 performance cycle (see discussion of PSUs at page 47).
- **Say on Pay.** At our May 2023 Annual Meeting of Shareholders, shareholders approved our "Say on Pay" proposal in support of our executive compensation program, with approximately 87% of votes cast in favor of the proposal.
- **Shareholder Outreach.** We continued our shareholder outreach program to better understand our investors' opinions on our compensation practices and to respond to their questions. Committee and management team members from compensation, investor relations and legal continued to be directly involved in engagement efforts during 2023 that served to reinforce our open-door policy. The efforts included contacting our largest 35 shareholders, representing ownership of approximately 50% of our shares (discussed further on page 53).
- **Updated Executive Stock Ownership Guidelines.** In August 2023, the Committee revised the ownership guidelines applicable to our NEOs by adding a holding requirement which provides that at least 50% of each award granted must be held by an NEO until his or her ownership requirement is met (see page 56 for a more detailed discussion).

E. Relationship between Company Pay and Performance for the CEO

To focus on both the short-term and long-term success of the Company, approximately 92% of our CEO's annual target compensation is "at-risk" pay, with the compensation paid based on Company results. If short-term and long-term financial and operational target goals are not achieved, then performance-related compensation will decrease. If target goals are exceeded, then performance-related compensation will increase. As demonstrated below, our target annual pay mix for our CEO emphasizes our commitment to "at-risk" pay in order to tie pay to performance. The discussion in this section is limited to Mr. Gibbs, our CEO for 2023. Our other NEOs' target annual compensation is subject to a substantially similar set of considerations, which are discussed in Section III, 2023 Named Executive Officer Total Direct Compensation and Performance Summary, found at pages 48 to 52 of this CD&A.

CEO Target Pay Mix–2023

CEO Total Direct Compensation

The Committee sets the CEO's target for total direct compensation (base salary, annual cash bonus and annual long-term incentive award value at grant date) taking into account Company performance, the CEO's performance, time in role, other job-related factors and the range of market practices of our Executive Peer Group. The Committee was satisfied with Company results and the leadership of Mr. Gibbs in 2022 and expected that the Company would continue to build on that momentum in 2023. In January 2023, Mr. Gibbs' target total direct compensation was set near the median of our Executive Peer Group. For 2023, 75% of our CEO's target total direct compensation was in the form of long-term equity incentive compensation.

EXECUTIVE COMPENSATION

CEO TOTAL DIRECT COMPENSATION VS. PERFORMANCE

	2021	2022	2023
<i>Core Operating Profit Growth¹</i>	18%	6%	12%
<i>System Sales Growth²</i>	13%	6%	10%
<i>Total Shareholder Return³</i>	30%	-6%	4%

(1) A measure of results of operations for the purpose of evaluating performance against targets set under our YUM Leaders' Bonus Program and the annual PSU grants in 2023 and 2022. See pages 31-32 and 35-36 in Item 7 of YUM's Form 10-K for the fiscal year ended on December 31, 2023 for a discussion of Core Operating Profit in 2023.

(2) System sales growth excludes the impact of foreign currency translation.

(3) Total shareholder return is calculated as the change in YUM share price from the beginning of the respective year until the year-end, adjusted for dividends paid.

(4) The Accelerating Profitable Growth ("APG") PSU was only granted in 2021 and is not relevant to other years disclosed in this proxy statement.

II. Elements of Executive Compensation Program

Our annual executive compensation program has three primary pay components: base salary; annual performance-based cash bonuses; and long-term equity performance-based incentives. We also offer retirement and other benefits.

Element	Objective	Form
Base salary	Attract and retain high-caliber talent and provide a fixed level of cash compensation	Cash
Annual Performance-Based Cash Bonuses	Motivate high performance and reward short-term Company, team and individual performance	Cash
Long-Term Equity Performance-Based Incentives	Align the interests of executives with shareholders and emphasize long-term results	SARs, RSUs & PSUs
Retirement and Additional Benefits	Provide for long-term retirement income and basic health and welfare coverage	Various

A. Base Salary

We provide base salary to compensate our NEOs for their primary roles and responsibilities and to provide a stable level of annual compensation. A NEO’s salary varies based on the role, level of responsibility, experience, individual performance, potential and market value. Specific salary increases take into account these factors. The Committee reviews each NEO’s salary and performance annually.

B. Annual Performance-Based Cash Bonuses

Our performance-based annual bonus program, the YUM Leaders’ Bonus Program, is a cash-based plan. The principal purpose of the YUM Leaders’ Bonus Program is to motivate and reward short-term team and individual performance that drives shareholder value.

The formula for calculating the performance-based annual bonus under the YUM Leaders’ Bonus Program is the product of the following:

Base Salary	×	Target Bonus Percentage	×	Team Performance (0 – 200%)	×	Individual Performance (0 – 150%)	=	Bonus Payout (0 – 300%)
-------------	---	-------------------------	---	-----------------------------	---	-----------------------------------	---	-------------------------

Team Performance

The Committee carefully established final team performance measures, targets and weights in January 2023, following an extensive review of these items in August and November 2022, after receiving input and recommendations from management. The team performance targets were also reviewed by the Committee to ensure that the goals support the Company’s overall strategic objectives.

The performance targets were developed through the Company’s annual financial planning process, which takes into account KFC, Pizza Hut, Taco Bell and The Habit (each, a “Division”) growth strategies, historical performance, and the expected future operating environment for each Division.

When setting targets for each specific team performance measure, the Company takes into account overall business goals and structures targets designed to motivate achievement of desired performance consistent with our growth commitment to shareholders.

A leverage formula for each team performance measure magnifies the potential impact that performance above or below the performance target will have on the calculation of the annual bonus. This leverage increases the payouts when targets are

EXECUTIVE COMPENSATION

exceeded and reduces payouts when performance is below target. There is a threshold level of performance for all measures that must be met in order for any bonus to be paid, absent the use of discretion by the Committee in extraordinary circumstances. These minimum threshold performance targets are set forth in the Team Performance table that follows on page 46.

Additionally, all measures have a cap on the level of performance over which no additional bonus will be paid regardless of performance above the cap. The maximum performance cap for each measure is also set forth in the Team Performance table below.

The Committee may approve adjustments to Division targets or may exclude certain pre-established items from the financial results used to determine the annual bonus when doing so is consistent with the objectives and intent at the time the targets were originally set, in order to focus executives on the fundamentals of the Company's underlying business performance. As part of the 2023 target-setting process, the Committee decided that KFC, Pizza Hut, Taco Bell, Habit and/or YUM Operating Profit Growth performance for 2023 annual incentive purposes should be measured adjusting for certain factors that were not considered indicative of underlying business performance for the year. These factors included amounts associated with Special Items (as defined in our Form 10-K at page 31) and foreign currency translation.

Detailed Breakdown of 2023 Team Performance

The team performance targets, actual results, weights and overall performance for each measure for our NEOs are outlined below. The long-term drivers of value for YUM are profit growth, same-store sales growth and net-new unit development. Accordingly, the Committee approved these performance measures for the Company's annual incentive plan and these measures were included at both the corporate and divisional levels. For Divisions, the team performances were weighted 75% on Division operating measures and 25% on YUM team performance.

Team Performance									
NEO	Measures	Min	Target	Max	Actual	Earned Award as % of Target	Weighting	Final Team Performance

(1) See pages 31-32 and 35-36 in Item 7 of YUM's Form 10-K for the fiscal year ended on December 31, 2023 for a discussion of Core Operating Profit in 2023.

(2) Excludes the impact of foreign currency translation.

Individual Performance

Each NEO's individual performance factor is determined by the Committee based upon its subjective determination of the NEO's individual performance for the year, including consideration of specific objective individual performance goals set at the beginning of the year. Performance categories considered by the Committee include the NEO's performance in: Fostering Unrivaled Culture and Talent; Driving Bold Restaurant Development and Returns; Building Relevant, Easy and Distinctive Brands; Developing Unmatched Operating Capability; Driving ESG Progress in Key Areas of People, Food and Planet; and Delivering on Shareholder Promises. The Committee's determinations with respect to the individual performance of our NEOs is set forth below from pages 48 to 52.

C. Long-Term Equity Performance- and Time-Based Incentives

We provide performance- and time-based equity awards weighted 75% and 25% respectively to our NEOs. These awards are designed to encourage long-term decision making that creates shareholder value, as well as to foster retention of executive talent. We use equity vehicles that motivate and balance the tradeoffs between short-term and long-term performance.

Our NEOs are awarded long-term incentives annually based on the Committee's subjective assessment of the following items for each NEO (without assigning weight to any particular item):

- Prior year individual and team performance
- Expected contribution in future years
- Consideration of the market value of the executive's role compared with similar roles in our Executive Peer Group
- Retention considerations
- Achievement of stock ownership guidelines

Equity Mix

Each year, the Committee reviews the mix of long-term incentives. For 2023, the Committee continued to choose SAR, RSU and PSU awards, because these equity vehicles focus and reward management for enhancing long-term shareholder value, thereby aligning our NEOs with the interests of our shareholders.

At the beginning of 2023, the Committee determined a target grant value for each NEO (based on time in role, performance and market practice) and the split of that value between SAR, RSU and PSU grants. For each NEO, the target grant value was allocated 25% to SAR, 25% to RSU and 50% to PSU grants. For each NEO, the breakdown between SAR, RSU and PSU award values can be found under the Summary Compensation Table, page 59 at columns e and f.

Stock Appreciation Rights Awards

Under our Long Term Incentive Plan ("LTIP"), we granted our NEOs SAR awards in 2023. The Committee believes that SARs reward long-term value-creation generated from sustained results. They are, therefore, strongly linked to and based on, the performance of YUM common stock. In 2023, we granted to each of our NEOs SARs which have ten-year terms and vest over four years. The exercise price of each SAR award was based on the closing market price of the underlying YUM common stock on the date of grant. Therefore, SAR awards will only have value if our NEOs are successful in increasing the share price above the awards' exercise price.

Restricted Stock Unit Awards

Under our LTIP, we also granted our NEOs RSU awards in 2023. Like SARs, these RSU awards vest ratably over a four-year period at 25% per-year. The Committee believes that having RSUs in the compensation mix is appropriate to incentivize and retain executives and is consistent with shareholder preferences and market practice.

Performance Share Awards

Pursuant to the Performance Share Plan under our LTIP, we granted our NEOs PSU awards in 2023. These PSU awards are earned based on performance against target metrics which include 50% System Sales Growth and 50% Core Operating Profit Growth, with a TSR modifier relative to the S&P 500 Consumer Discretionary Index. The TSR modifier can increase or decrease earned payouts by up to 25% (but cannot result in a payout exceeding 200%). Incorporating System Sales Growth, Core Operating Profit Growth and TSR supports the Company's pay-for-performance philosophy while diversifying performance criteria by using certain measures not used in the annual bonus plan and aligning our NEOs' reward with the creation of shareholder value. The target, threshold and maximum number of shares that may be paid under these awards for each NEO are described at page 61. The Committee may, from time-to-time, grant PSU awards to eligible employees to incentivize various strategic initiatives, consistent with the terms of the LTIP.

For the performance period covering 2023 – 2025, each NEO will earn a percentage of his or her target PSU award, with 50% of the payout based on System Sales Growth and the other 50% based on Core Operating Profit Growth targets, with a TSR modifier relative to the S&P 500 Consumer Discretionary Index, as set forth in the table below:

50% SYSTEM SALES GROWTH			50% CORE OPERATING PROFIT GROWTH			TSR RELATIVE TO S&P 500 CONSUMER DISCRETIONARY INDEX	
2023-2025 CAGR	Payout %		2023-2025 CAGR	Payout %		TSR Percentile Ranking	Modifier %
10%	200%		11.5%	200%		>79 th	1.250
8.5%	150%	+	9.75%	150%	X	60 th – 79 th	1.125
7%	100%		8%	100%		40 th – 59 th	1.000
4%	35%		4.5%	35%		20 th – 39 th	0.875
<4%	0%		<4.5%	0%		<20 th	0.750

Dividend equivalents will accrue during the performance period and will be distributed as additional shares but only in the same proportion and at the same time as the original awards are earned. If no shares are earned, no dividend equivalents will be paid. The awards are eligible for deferral under the Company’s Executive Income Deferral (“EID”) Program.

III. 2023 Named Executive Officer Total Direct Compensation and Performance Summary

Below is a summary of each of our NEOs’ total direct compensation – which generally includes base salary, annual cash bonus, and long-term incentive awards – and an overview of their 2023 performance relative to our annual and long-term incentive performance goals. The process the Committee used to determine each officer’s 2023 compensation is described more fully in “How Compensation Decisions Are Made” beginning on page 53.

CEO Compensation

David Gibbs
Chief Executive Officer

2023 Performance Summary

Our Board, under the leadership of the Committee Chair, approved Mr. Gibbs’ goals as our Chief Executive Officer at the beginning of the year and conducted a mid-year and year-end evaluation of his performance. These evaluations included a review of his leadership, performance versus pre-established goals including business results, leadership in the development and implementation of Company strategies, and development of Company culture and talent.

EXECUTIVE COMPENSATION

The Committee determined that Mr. Gibbs' overall performance for 2023 merited an individual factor of 125. This individual factor was combined with YUM's earned team factor of 145 (discussed at page 44) resulting in an above target annual cash bonus. This determination was based on the Committee's subjective assessment of Mr. Gibbs' performance against his previously set goals which included the following items (without assigning a weight to any particular item):

- **Driving Bold Restaurant Development and Returns** – Opened 4,754 gross units in 2023 (resulting in 3,349 net-new units), reflecting another incredibly strong year of development growth and a restaurant industry record among global brands – for the third consecutive year;
- **Developing Unmatched Operating Capability** – Focused on increasing our technology capability and ensuring that recent technology acquisitions continue to contribute to better guest and team member experiences, while leveraging available data analytics and accelerated our use of artificial intelligence and internally developed and third-party platforms to enhance decision making and to improve capacity, security and innovation;
- **Building Relevant, Easy and Distinctive Brands** – Grew digital footprint, leading to almost \$30 billion in digital sales for 2023, a 22% increase over the prior year, by continuing to leverage investments in technologies and functions focused on analytics and innovation, as well as by strengthening and expanding loyalty programs across key markets;
- **Delivering on Shareholder Promises** – System sales growth increased 10% over the prior year, supported by 6% same-store sales growth and 6% unit growth, evidencing the health of our global system;
- **Driving ESG in Key Areas of People, Food and Planet** – Accomplished through: Continued integration of YUM's elevated Good Growth strategy into key business activities and strengthening leader governance and oversight, including a more robust board engagement strategy and establishing a management level ESG Disclosure Committee; and the global roll-out of enhanced food safety systems and dashboards allowing for real-time access to metrics and insights to drive actions that reduce risk and improve food safety with our suppliers and at our restaurants; and
- **Fostering Unrivaled Culture and Talent** – Achieved by concerted efforts to: develop and increase bench for senior management roles and improve the skills of the Company's broad-based global leadership team; and continuing to expand the pool of high-potential talent and developing CEO bench through the Seat at the Table program, which offers customized development options for each participant, including quarterly virtual leadership forums.

2023 Committee Decisions

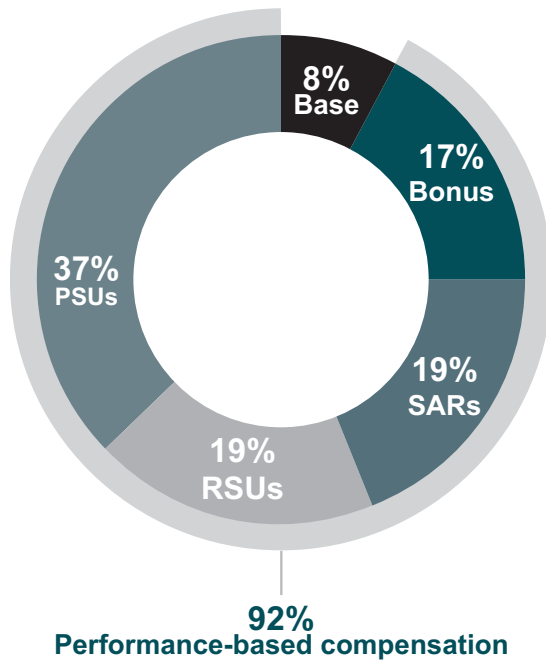

In January, the Committee made the following determinations with respect to Mr. Gibbs' compensation:

- Base salary remained at \$1,300,000;
- Annual cash bonus target percentage was increased to 200% of base salary;
- Grant value of annual long-term incentive equity awards was increased to \$11,500,000;
 - These adjustments were intended to recognize his performance, time in role, and to better align with market compensation norms.

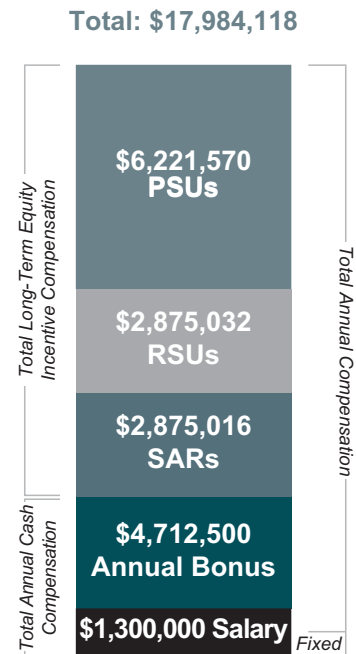

These decisions regarding the components of the Company's ongoing executive compensation program positioned Mr. Gibbs' 2023 target total direct compensation slightly above the 50th percentile of the Company's Executive Peer Group (defined at page 55) for his position.

The graphics below illustrate Mr. Gibbs' direct compensation:

CEO Awarded Compensation Mix

CEO Total Direct Compensation

Proxy Statement

Other NEO 2023 Total Direct Compensation

Chris Turner
Chief Financial Officer

2023 Performance Summary

The Committee determined that Mr. Turner's performance merited a 125 individual performance factor. The Committee recognized Mr. Turner's leadership in driving an increase in Company system sales growth of 10%, supported by 6% same-store sales growth and 6% unit growth. He was also recognized for continuing efforts in leading the Company's development initiative, which resulted in the opening of 4,754 gross units in 2023 (resulting in 3,349 net-new units), resulting in the strongest year of development growth in YUM's history for the third consecutive year. The Committee also noted Mr. Turner's leadership in Building Relevant, Easy and Distinctive Brands by increasing digital sales to greater than \$29 billion and digital sales to approximately 45% of total system sales, both YUM historical highs. He was also commended for achievements in digital and technology implementation strategies designed to provide further enhancements of the end-to-end customer experience, operations, and YUM's data and analytics strategy. Mr. Turner's individual factor was combined with an earned team factor of 145 (discussed at page 44) to calculate his annual cash bonus.

2023 Committee Decisions

In January, the Committee made the following determinations with respect to Mr. Turner's compensation:

- Base salary was increased to \$900,000;
- Annual cash bonus target remained at 115% of base salary;
- Grant value of annual long-term incentive equity awards was increased to \$2,750,000;
 - These adjustments were intended to recognize his performance, time in role and to better align with market compensation norms and internal peer equity.

These adjustments positioned Mr. Turner's 2023 total direct compensation at slightly above the 50th percentile of the Company's Executive Peer Group (defined at page 55) for his position.

Tracy L. Skeans

Chief Operating Officer and Chief People Officer

2023 Performance Summary

The Committee determined that Ms. Skeans' performance merited a 125 individual performance factor. The Committee recognized Ms. Skeans's leadership in driving an increase in Company system sales growth of 10%, supported by 6% same-store sales growth and 6% unit growth. She was also recognized for continuing efforts in leading the Company's development initiative, which resulted in the opening of 4,754 gross units in 2023 (resulting in 3,349 net-new units), resulting in the strongest year of development growth in YUM's history for the third consecutive year.

The Committee also commended Ms. Skeans for Fostering Unrivaled Culture and Talent by developing broad leadership bench for senior roles and building a strong culture focused on recognition. Ms. Skeans' individual factor was combined with an earned team factor of 145 (discussed at page 44) to calculate her annual cash bonus.

2023 Committee Decisions

In January, the Committee made the following determinations with respect to Ms. Skeans' compensation:

- Base salary was increased to \$900,000;
- Annual cash bonus target remained at 120% of base salary;
- Grant value of annual long-term incentive equity awards remained at \$2,750,000;
 - These adjustments were intended to recognize her performance and to better align with market compensation norms and internal peer equity.

These adjustments positioned Ms. Skeans' 2023 total direct compensation at slightly above the 50th percentile of the Company's Executive Peer Group (defined at page 55) for her position.

Sabir Sami

Chief Executive Officer, KFC Division

2023 Performance Summary

The Committee determined that Mr. Sami's performance merited a 130 individual performance factor. The Committee recognized Mr. Sami's leadership in driving net-new unit development. In addition, the Committee recognized Mr. Sami's performance in Building Relevant, Easy and Distinctive Brands – by ensuring distinctive, consistent brand positioning across markets globally and through driving increased digital sales and improved loyalty programs. Mr. Sami was also recognized for driving KFC core operating profit growth of approximately 12% over the prior year. Mr. Sami's individual factor was combined with an earned team factor of 165 (discussed at page 44) to calculate his annual cash bonus.

2023 Committee Decisions

In January, the Committee made the following determinations with respect to Mr. Sami's compensation:

- Base salary was increased to \$825,000;
- Annual cash bonus target increased to 115% of base salary;
- Grant value of annual long-term incentive equity awards remained at \$2,250,000;
 - These adjustments were intended to recognize his performance, time in role and to better align with market compensation norms and internal peer equity.

These adjustments positioned Mr. Sami's 2023 total direct compensation at the 50th percentile of the Company's Executive Peer Group (defined at page 55) for his position.

Aaron Powell

Chief Executive Officer, Pizza Hut Division

2023 Performance Summary

The Committee determined that Mr. Powell's performance merited a 110 individual performance factor. The Committee recognized Mr. Powell's role in developing a strong leadership bench for senior positions within Pizza Hut and at YUM. He was also recognized for driving Pizza Hut core operating profit growth of 3% and net-new unit growth of 4% over the prior year. In addition, he was credited for driving the reorganization of Pizza Hut's global digital and technology organization to improve operational results and customer experiences. Mr. Powell's individual factor was combined with an earned team factor of 95 (discussed at page 44) to calculate his annual cash bonus.

2023 Committee Decisions

In January, the Committee made the following determinations with respect to Mr. Powell's compensation:

- Base salary was increased to \$825,000;
- Annual cash bonus target percentage was increased to 110% of base salary;
- Grant value of annual long-term incentive equity awards was increased to \$2,250,000;
 - These adjustments were intended to recognize his performance, time in role and to better align with market compensation norms and internal peer equity.

These decisions positioned Mr. Powell's 2023 total direct compensation at slightly above the 50th percentile of the Company's Executive Peer Group (defined at page 55) for his position.

IV. Retirement and Other Benefits

Retirement Benefits

We offer several types of competitive retirement benefits.

The YUM! Brands Retirement Plan ("Retirement Plan") is a broad-based qualified plan designed to provide a retirement income based on years of service with the Company and average annual earnings. The plan is U.S.-based and was closed to new salaried entrants in 2001. Mr. Gibbs and Ms. Skeans are active participants in the Retirement Plan.

For executives hired or re-hired after September 30, 2001, the Company implemented the Leadership Retirement Plan ("LRP"). This is an unfunded, unsecured account-based retirement plan which allocates a percentage of pay to an account payable to the executive following the executive's separation of employment from the Company. For 2023, Messrs. Turner and Powell were eligible for the LRP. Under the LRP, Messrs. Turner and Powell received an annual allocation to their accounts equal to 4% of base salary and target bonus and will receive an annual earnings credit that is equivalent to the Moody's Aa Corporate Bond Yield Average for maturities 20 years and above (currently 5.05%) on the balance.

The Company provides retirement benefits for certain international employees through the Third Country National Plan ("TCN"). The TCN is an unfunded, unsecured account-based retirement plan that provides an annual contribution between 7.5% and 15% of salary and target bonus and an annual earnings credit of 5% on the balance. The level of contribution is based on the participants' role and their home country retirement plan. Mr. Sami is the only NEO who participates in the TCN. Under this plan, Mr. Sami receives an annual contribution equal to 15% of base salary and target bonus and an annual earnings credit of 5%.

Benefits payable under these plans are described in more detail beginning on page 65.

Medical, Dental, Life Insurance and Disability Coverage

We also provide other benefits such as medical, dental, life insurance and disability coverage to each NEO through benefit plans, which are also offered to all eligible U.S.-based salaried employees. Eligible employees can purchase additional life, dependent life and accidental death and dismemberment coverage as part of their employee benefits package. Our broad-based employee disability plan limits the annual benefit coverage to \$300,000.

Other Benefits

The Company provides a very limited number of other benefits to our NEOs. The CEO and his spouse were required to use company-owned aircraft, charter or approved commercial aircraft for personal as well as business travel pursuant to the Company's executive security program established by the Board of Directors. Our program provides that any costs for the CEO's personal aircraft use of above \$200,000 will be reimbursed to the Company in accordance with the requirements of the Federal Aviation Administration regulations. We do not provide tax gross-ups on the personal use of the company owned, charter or approved commercial aircraft. For 2023, the incremental cost of Mr. Gibbs personal use of company-owned, charter or commercial aircraft was \$144,407. In 2023, none of the other NEOs used Company-provided aircraft for personal travel.

V. How Compensation Decisions Are Made

Shareholder Outreach, Engagement and 2023 Advisory Vote on NEO Compensation

At our 2023 Annual Meeting of Shareholders, 87% of votes cast on our annual advisory vote on NEO compensation were in favor of our NEOs' compensation program as detailed in our 2023 proxy statement. During 2023, we continued our shareholder outreach program to better understand our investors' opinions on our compensation practices and respond to their questions. Committee members and management team members from compensation, investor relations and legal continued to be directly involved in engagement efforts that served to reinforce our open-door policy. The efforts included:

- Contacting our largest 35 shareholders, representing ownership of more than 50% of our shares;
- Dialogue with proxy advisory firms;
- Investor road shows and conferences; and
- Presenting shareholder feedback to the Committee.

Our annual engagement efforts allow many shareholders the opportunity to provide feedback. The Committee carefully considers shareholder and advisor feedback, among other factors discussed in this CD&A, in making its compensation decisions. Shareholder feedback, including the 2023 voting results on NEO compensation, has influenced and reinforced a number of compensation design changes over the years, including:

- Continued benchmarking of CEO compensation at near market median;
- Changed performance metrics under our annual PSU awards (Earnings Per Share and/or TSR in prior years; Core Operating Profit Growth, System Sales Growth and TSR since 2022); and
- Changed PSU award metrics to include the Company's 3-year average TSR relative to the companies in the S&P 500 Consumer Discretionary Index, rather than the average relative to the entire S&P 500.
- Beginning in 2022, changing our equity mix for NEOs to 50% PSUs, 25% SARs and 25% RSUs, to better align with business objectives, shareholder preferences and market practice.
- Added the "Driving ESG in Key Areas of People, Food and Planet" goal as an individual factor metric under our annual cash bonus plan.

The Company and the Committee appreciate the feedback from our shareholders and plan to continue these engagement efforts going forward.

Role of the Committee

Compensation decisions are ultimately made by the Committee using its judgment, focusing primarily on each NEO's performance against his or her financial and strategic objectives, qualitative factors and the Company's overall performance. The Committee considers the target total direct compensation of each NEO and retains discretion to make decisions that are reflective of overall business performance and each executive's strategic contributions to the business. In making its compensation decisions, the Committee typically follows the annual process described below, but adds additional meetings or modifies the timing of elements of the process when necessary in order to address important business considerations.

COMMITTEE ANNUAL COMPENSATION PROCESS

January	March	August	November
<ul style="list-style-type: none"> Evaluates and approves CEO and direct reports' performance against pre-established goals and compensation decisions Approves bonus and performance share plan results for the prior year Approves bonus and performance share plan metrics, targets and leverage for the current year Reviews tally sheets Confirms CEO and CEO's direct reports meet ownership guidelines 	<ul style="list-style-type: none"> Completes compensation risk assessment Conducts independence analysis of compensation consultant retaining sole authority to continue or terminate its relationship with outside advisors, including consultant Reviews and approves inclusion of CD&A in proxy statement 	<ul style="list-style-type: none"> Reviews compensation trends Mid-Year update to full Board on CEO's progress against goals Evaluates feedback from shareholders and proxy advisors 	<ul style="list-style-type: none"> Reviews competitive analysis/benchmarking for CEO and direct reports Reviews bonus and performance share plan metrics, targets, and leverage recommendations for the following year Reviews market analysis of Director compensation and makes recommendations to Board

Role of the Independent Consultant

The Committee's charter states the Committee may retain outside compensation consultants, lawyers or other advisors. The Committee retains an independent consultant, Meridian Compensation Partners, LLC ("Meridian"), to advise it on certain compensation matters. The Committee has instructed Meridian that:

- it is to act independently of management and at the direction of the Committee;
- its ongoing engagement will be determined by the Committee;
- it is to inform the Committee of relevant trends and regulatory developments;
- it is to provide compensation comparisons based on information that is derived from comparable businesses of a similar size to the Company for the NEOs; and
- it is to assist the Committee in its determination of the annual compensation package for our CEO and other NEOs.

The Committee considered the following factors, among others, in determining that Meridian is independent of management and its provision of services to the Committee did not give rise to a conflict of interest:

- Meridian did not provide any services to the Company unrelated to executive compensation;
- Meridian has no business or personal relationship with any member of the Committee or management; and
- Meridian's partners and employees who provide services to the Committee are prohibited from owning YUM stock per Meridian's firm policy.

Comparator Compensation Data

Our Committee evaluates our NEO total target direct compensation levels by comparing them against those of similarly situated executives at companies that comprise our Executive Peer Group (defined below) as one of the factors in setting executive compensation. The Executive Peer Group is made up of retail, hospitality, food, nondurable consumer goods companies, specialty eatery and quick service restaurants, as these represent the sectors with which the Company is most likely to compete for executive talent. The companies selected from these sectors must also be reflective of the overall market characteristics of our executive talent market, relative leadership position in their sector, size as measured by revenues, complexity of their business, and in many cases global reach.

Executive Peer Group

The Committee periodically reviews the peer group to ensure it reflects desired comparisons and appropriate size range. In August 2021, the Committee approved the peer group to be used for NEO pay determinations beginning in 2022 (the “Executive Peer Group”). The updates to the Executive Peer Group were made to better align the size of the peer group companies with YUM and include companies in relevant industry sectors. Many of these companies have a global reach and multiple brands. The Executive Peer Group used for 2023 pay determinations for all NEOs is comprised of the following companies:

Bath & Body Works, Inc.	Domino’s Pizza, Inc.	Kimberly-Clark Corporation	Mondelez International, Inc.
Chipotle Mexican Grill, Inc.	The Estee Lauder Companies, Inc.	The Kraft Heinz Corporation	Ralph Lauren Corporation
The Coca Cola Company	General Mills, Inc.	Lululemon Athletica	Restaurant Brands International, Inc.
Colgate-Palmolive Company	Hilton Worldwide Holdings, Inc.	Marriott International, Inc.	Starbucks Corporation
Darden Restaurants, Inc.	Kellogg Company	McDonald’s Corporation	V.F. Corporation

At the time a benchmarking analysis was prepared in November 2022, the Executive Peer Group’s median annual revenues were \$13.2 billion, while YUM equivalent annual revenues were estimated at \$16.1 billion (calculated as described below).

For companies with significant and global franchise operations, measuring size can be complex. In 2023, the Company’s system of global restaurants delivered approximately \$60 billion in system sales. Management responsibilities encompass more than just the revenues and operations directly owned and operated by the Company and include responsibilities for managing relationships with franchisees and developing and implementing global growth strategies. Specific responsibilities include managing and implementing product introductions and product specifications and supply, management of vendors, marketing, technological innovations and implementations, payment collections, risk management, including setting and monitoring food safety standards, protection of the Company’s trademarks and other intellectual property, new unit development, and customer satisfaction and overall operations improvements across the entire franchise system. As a result of accelerating growth in recent years, the Company’s leadership now oversees approximately 290 brand-country combinations and approximately 1,500 franchisees. To appropriately reflect this complexity in calibrating the size of our organization and underlying operating divisions during the 2022 benchmarking process, our philosophy was to add 25% of franchisee and licensee sales to the GAAP-reported Company sales to establish an appropriate revenue benchmark. The reason for this approach was twofold:

- Market-competitive compensation opportunities are related to scope of responsibility, often measured by company size, *i.e.*, revenues; and
- Scope of responsibility for a franchising organization lies between corporate-reported revenues and system-wide sales.

Peer groups of other globally prominent companies similarly include companies where the median revenue scope of those peers are materially above the reported corporate revenue. This likely reflects the same assessments of complexity and reach and accordingly appropriate company size profiles. We believe this approach is measured and reasoned in its approach to calibrating market competitive compensation opportunities without using organizations unduly larger than the Company.

Competitive Positioning and Setting Compensation

At the beginning of 2023, the Committee considered Executive Peer Group compensation data as a frame of reference for establishing compensation targets for base salary, annual bonus and long-term incentives for each NEO. In making compensation decisions, the Committee considers market data for comparable positions to each of our NEO roles. The Committee reviews market data and makes a decision for each NEO, most often in a range around market median for each element of compensation, including base salary, target bonus and long-term incentive target. In addition to the market data, the Committee takes into account the role, level of responsibility, experience, individual performance and potential of each NEO. The Committee reviews the NEOs' compensation and performance annually.

VI. Compensation Policies and Practices

Below are compensation and governance best practices we employ that provide a foundation for our pay-for-performance program and align our program with Company and shareholder interests.

We Do	We Don't Do
✓ Have an independent compensation committee (Management Planning & Development Committee), which oversees the Company's compensation policies and strategic direction	✗ Employment agreements
✓ Directly link Company performance to pay outcomes	✗ Re-pricing of SARs
✓ Have executive ownership guidelines that are reviewed annually against Company guidelines	✗ Grants of SARs with exercise price less than fair market value of common stock on date of grant
✓ Have a "clawback" policy under which the Company may recoup compensation if executive's conduct results in significant financial or reputational harm to Company or in the event of a financial restatement	✗ Permit executives to hedge or pledge Company stock
✓ Make a substantial portion of NEO target pay "at risk"	✗ Payment of dividends or dividend equivalents on PSUs unless or until they vest
✓ Have double-trigger vesting of equity awards upon a change in control	✗ Excise tax gross-ups upon change in control
✓ Utilize an independent Compensation Consultant	✗ Excessive executive perquisites, such as country club memberships
✓ Incorporate comprehensive risk mitigation into plan design	
✓ Periodically review our Executive Peer Group to align appropriately with Company size and complexity	
✓ Evaluate CEO and executive succession plans	
✓ Conduct annual shareholder engagement program to obtain feedback from shareholders for consideration in annual compensation program design	

YUM's Executive Stock Ownership Guidelines

The Committee has established stock ownership guidelines for approximately 200 of our senior employees, including the NEOs. These guidelines were most recently updated in August 2023 after the Committee's review of prevailing market practice. Under our current guidelines, our NEOs are now subject to a 50% holding requirement with respect to each equity award granted, until the ownership guidelines are satisfied. In determining whether the guidelines are met, shares owned outright and vested in-the-money SARs are counted, while unvested awards (including RSUs) and SARs that are not in-the-money are not. If a NEO or other executive does not meet his or her ownership guidelines, he or she may not be

EXECUTIVE COMPENSATION

eligible for a long-term equity incentive award. In 2023, all NEOs subject to guidelines met or exceeded their ownership guidelines.

NEO	Ownership Guidelines	Shares Owned ⁽¹⁾	Value of Shares ⁽²⁾	Multiple of Salary
Gibbs	7x base salary	407,873	\$53,292,706	41.0
Turner ⁽³⁾	3x base salary	31,337	\$ 4,094,448	4.5
Skeans	3x base salary	84,964	\$11,101,432	12.3
Sami ⁽³⁾	3x base salary	55,211	\$ 7,213,810	9.4
Powell ⁽³⁾	3x base salary	11,029	\$ 1,441,112	1.7

(1) Calculated as of December 31, 2023 and represents shares beneficially owned outright, shares underlying vested in-the-money SARs, and all RSUs received under the Company's EID Program. Calculation does not include unvested awards.

(2) Based on YUM closing stock price of \$130.66 as of December 29, 2023.

(3) Messrs. Turner and Powell joined the Company in 2019 and 2021, respectively, and have up to five years to reach the target levels of ownership set forth in our Ownership Guidelines. Mr. Sami became CEO of KFC in January 2022 and has up to five years to reach the target levels of ownership set forth in our Ownership Guidelines for his role.

Payments upon Termination of Employment

The Company does not have agreements with its executives concerning payments upon termination of employment except in the case of a change in control of the Company. The Committee believes these are appropriate agreements for retaining NEOs and other executive officers to preserve shareholder value in case of a potential change in control. The Committee periodically reviews these agreements and other aspects of the Company's change-in-control program.

The Company's change-in-control agreements, in general, entitle executives who are direct reports to our CEO and are terminated other than for cause within two years of the change in control, to receive a benefit of two times salary and bonus. The terms of these change-in-control agreements are described beginning on page 70.

The Company does not provide tax gross-ups for executives, including the NEOs, for any excise tax due under Section 4999 of the Internal Revenue Code and has implemented a "best net after-tax" approach to address any potential excise tax imposed on executives. If any excise tax is due, the Company will not make a gross-up payment, but instead will reduce payments to an executive if the reduction will provide the NEO the best net after-tax result. If full payment to a NEO will result in the best net after-tax result, the full amount will be paid, but the NEO will be solely responsible for any potential excise tax payment. Also, the Company has implemented "double trigger" vesting for equity awards, pursuant to which outstanding awards will fully and immediately vest only if the executive is employed on the date of a change in control of the Company and is involuntarily terminated (other than by the Company for cause) on or within two years following the change in control.

In case of retirement, the Company provides retirement benefits described above, life insurance benefits (to employees eligible under the Retirement Plan), the continued ability to exercise vested SAR awards and to vest in annual SAR and RSU awards granted at least one year prior to retirement, and the ability to vest in PSU awards on a pro-rata basis.

With respect to consideration of how these benefits fit into the overall compensation policy, the change-in-control benefits are reviewed from time to time by the Committee for competitiveness. The Committee believes the benefits provided in case of a change in control are appropriate, support shareholder interests and are consistent with the policy of attracting and retaining highly qualified employees.

YUM's Equity Award Granting Practices

Historically, we have made annual SAR awards and, beginning in 2022, annual RSU awards at the Committee's January meeting. This meeting date is set by the Board of Directors more than six months prior to the actual meeting. The Committee sets the annual grant date as the second business day after our fourth quarter earnings release. The exercise or grant price of these awards is set as the closing price on the date of grants. We ordinarily make grants at the same time other elements of annual compensation are determined so that we can consider all elements of compensation in making the grants. We do not backdate or make grants retroactively. In addition, we do not time such grants in coordination with our possession or release of material, non-public or other information. All equity awards are granted under our shareholder approved LTIP.

Grants may also be made on other dates the Board of Directors meets. These grants generally are CEO Awards, which are awards to individual employees (subject to Committee approval) in recognition of superlative performance and extraordinary impact on business results. These awards are currently made as RSUs which vest after three years. Historically, CEO Awards were made using SARs.

Management recommends the awards be made pursuant to our LTIP to the Committee, however, the Committee determines whether and to whom it will issue grants and determines the amount of the grant. The Board of Directors has delegated to our CEO and our Chief People Officer, the ability to make grants to employees who are not executive officers and whose grants are less than \$1,000,000 in accounting value annually. In the case of these grants, the Committee sets all the terms of each award, except the actual number of SARs/RSUs, which is determined by our CEO and our Chief People Officer pursuant to guidelines approved by the Committee in January of each year.

Limits on Future Severance Agreement Policy

The Committee has adopted a policy to limit future severance agreements with our NEOs and our other executives. The policy requires the Company to seek shareholder approval for future severance payments to a NEO if such payments would exceed 2.99 times the sum of (a) the NEO's annual base salary as in effect immediately prior to termination of employment; and (b) the highest annual bonus awarded to the NEO by the Company in any of the Company's three full fiscal years immediately preceding the fiscal year in which termination of employment occurs or, if higher, the executive's target bonus. Certain types of payments are excluded from this policy, such as amounts payable under arrangements that apply to classes of employees other than the NEOs or that predate the implementation of the policy, as well as any payment the Committee determines is a reasonable settlement of a claim that could be made by the NEO.

Compensation Recovery Policy

In June 2023, the SEC approved the NYSE's proposed rules implementing the incentive-based compensation recovery provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank Act"), which require listed companies to develop and implement a policy providing for the recovery of erroneously awarded incentive-based compensation received by current or former executive officers and to satisfy related disclosure obligations. On November 16, 2023, the Committee amended and restated our Compensation Recovery Policy (i.e., "clawback") to reflect these new requirements. In addition to requiring the recovery of compensation in the event of a financial restatement, our policy also permits the Committee to recover compensation in the event of other triggering events, including misconduct of covered employees that resulted in significant financial or reputational harm, a violation of Company policy, or contributed to the use of inaccurate metrics in the calculation of incentive compensation.

Hedging and Pledging of Company Stock

Under our Code of Conduct, no employee or director is permitted to engage in securities transactions that would allow them either to insulate themselves from, or profit from, a decline in the Company stock price. Similarly, no employee or director may enter into hedging transactions in the Company's stock. Such transactions include (without limitation) short sales as well as any hedging transactions in derivative securities (e.g. puts, calls, swaps, or collars) or other speculative transactions related to YUM's stock. Pledging of Company stock is also prohibited.

Management Planning and Development Committee Report

The Management Planning and Development Committee of the Board of Directors reports that it has reviewed and discussed with management the section of this proxy statement titled "Compensation Discussion and Analysis" and, on the basis of that review and discussion, recommended to the Board that the section be incorporated by reference into the Company's Annual Report on Form 10-K and included in this proxy statement.

EXECUTIVE COMPENSATION

THE MANAGEMENT PLANNING AND DEVELOPMENT COMMITTEE

Christopher M. Connor, *Chair*

Keith Barr

Brian C. Cornell

Mirian M. Graddick-Weir

Thomas C. Nelson

The following tables provide information on the compensation of the Named Executive Officers (“NEOs”) for our 2023 fiscal year. The Company’s NEOs are our Chief Executive Officer, Chief Financial Officer and our three other most highly compensated executive officers for our 2023 fiscal year, determined in accordance with SEC rules.

Summary Compensation Table

Name and Principal Position	Year	Salary (\$) ⁽¹⁾	Bonus (\$) ⁽²⁾	Stock Awards (\$) ⁽³⁾	Option/SAR Awards (\$) ⁽⁴⁾	Non-Equity Incentive Plan Compensation (\$) ⁽⁵⁾	Change in Pension Value and Nonqualified Deferred Compensation Earnings (\$) ⁽⁶⁾	All Other Compensation (\$) ⁽⁷⁾	Total (\$)
(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)	
David W. Gibbs	2023	1,300,000	—	9,096,602	2,875,016	4,712,500	2,999,005	255,832	21,238,955
Chief Executive Officer of YUM	2022	1,284,615	—	8,938,377	2,825,012	3,030,300	367,990	225,360	16,671,654
	2021	1,200,000	—	10,936,620	5,000,003	5,405,400	4,789,314	247,322	27,578,659
Chris Turner	2023	896,154	—	2,175,374	687,522	1,875,938	—	109,370	5,744,358
Chief Financial Officer of YUM	2022	871,154	—	1,977,749	625,001	1,222,594	—	139,443	4,835,941
	2021	850,000	—	3,585,851	1,125,013	2,552,550	716	124,727	8,238,857
Tracy L. Skeans	2023	896,154	—	2,175,374	687,522	1,957,500	375,582	12,176	6,104,308
Chief Operating Officer and Chief People Officer of YUM	2022	871,154	—	2,175,499	687,525	1,275,750	—	18,998	5,028,926
	2021	834,615	—	3,984,248	1,250,017	2,552,550	815,000	61,304	9,497,735
Sabir Sami	2023	757,507	—	1,779,851	562,504	1,885,059	—	380,586	5,365,507
Chief Executive Officer KFC Division									
Aaron Powell	2023	821,154	1,000,000	1,779,851	562,504	948,338	—	98,804	5,210,651
Chief Executive Officer of Pizza Hut Division	2022	800,000	1,000,000	1,582,250	500,006	616,400	—	205,827	4,704,483

(1) Amounts shown are not reduced to reflect the NEOs’ elections, if any, to defer receipt of salary into the Executive Income Deferral (“EID”) Program or into the Company’s 401(k) Plan.

(2) Amounts in this column for 2023 and 2022 represent a retention payment paid to Aaron Powell in accordance with his sign-on agreement in 2021.

(3) Amounts shown in this column represent the grant date fair values for performance share units (PSUs) granted in 2023, 2022 and/or 2021 and Restricted Stock Units (RSUs) granted in 2023 and/or 2022. Further information regarding the 2023 awards is included in the “Grants of Plan-Based Awards” and “Outstanding Equity Awards at Year-End” tables later in this proxy statement. The grant date fair value of the PSUs reflected in this column is the target payout based on the probable outcome of the performance condition, determined as of the grant date. The maximum potential values of the February 2023 annual PSUs is 200% of target. For 2023, Mr. Gibbs’ annual PSU maximum value at grant date fair value would be \$12,443,140; Mr. Turner’s annual PSU maximum value at grant date fair value would be \$2,975,670; Ms. Skeans’ annual PSU maximum value at grant date fair value would be \$2,975,670; Mr. Sami’s annual PSU maximum value at grant date fair value would be \$2,434,638; and Mr. Powell’s annual PSU maximum value at grant date fair value would be \$2,434,638.

(4) The amounts shown in this column represent the grant date fair values of the stock appreciation rights (SARs) awarded in 2023, 2022 and/or 2021. For a discussion of the assumptions and methodologies used to value the awards reported in column (e) and column (f), please see the discussion of stock awards and option awards contained at Note 16 to the Consolidated Financial Statements in Item 8 of YUM’s Form 10-K for the fiscal year ended December 31, 2023. See the Grants of Plan-Based Awards table for details.

(5) Amounts in this column reflect the annual incentive awards earned for the 2023, 2022 and/or 2021 fiscal year performance periods, which were awarded by our Management Planning and Development Committee (“Committee”) in January 2024, January 2023 and January 2022, respectively, under the YUM Leaders’ Bonus Program, which is described further in our CD&A beginning at page 44 under the heading “Annual Performance-Based Cash Bonuses”.

(6) Amounts in this column represent for Mr. Gibbs and Ms. Skeans the amounts of aggregate change in actuarial present values of their accrued benefits under all actuarial pension plans (using interest rate and mortality assumptions consistent with those used in the Company’s financial statements). For Mr. Gibbs and Ms. Skeans, the actuarial present value of their benefits under the YUM! Brands Retirement Plan (“Retirement Plan”) increased \$149,796 and \$53,640, respectively, during the 2023 fiscal year. In addition, for Mr. Gibbs and Ms. Skeans, the actuarial present value of their benefits under the YUM! Brands Pension Equalization Plan (“PEP”) increased \$2,849,209 and \$321,942, respectively, during the 2023 fiscal year. Messrs. Turner and Powell were hired after September 30, 2001, and are ineligible for the Company’s actuarial pension plans. Mr. Sami worked outside of the United States prior to September 30, 2001 and is ineligible for the Company’s actuarial pension plans. See the Pension Benefits Table at page 65 for a detailed discussion of the Company’s pension benefits.

(7) Amounts in this column are explained in the All Other Compensation Table and footnotes to that table, which follows.

All Other Compensation Table

The following table contains a breakdown of the compensation and benefits included under All Other Compensation in the Summary Compensation Table above for 2023.

Name	Perquisites and other personal benefits (\$) ⁽¹⁾	Reimbursements	Tax (\$)	Insurance premiums (\$) ⁽²⁾	LRP/TCN Contributions (\$) ⁽³⁾	Other (\$)	Total (\$)
(a)	(b)	(c)	(d)	(e)	(f)	(g)	(g)
Gibbs	225,678	—	—	25,766	—	4,388	255,832
Turner	—	—	—	5,777	100,087	3,506	109,370
Skeans	4,571	—	—	7,605	—	—	12,176
Sami	132,550	—	—	1,505	246,531	—	380,586
Powell	—	—	—	6,513	89,100	3,191	98,804

(1) Amounts in this column include personal use of charter and commercial aircraft, charitable matching gifts, executive physicals, employee recognition gifts and relocation expenses. None of the amounts in this column individually exceeded the greater of \$25,000 or 10% of the total amount of these perquisites and other personal benefits shown in this column for each NEO, except: For Mr. Gibbs, the cost of personal use of charter and commercial aircraft (\$144,407) and income associated with the payment of FICA taxes incurred upon RSUs vesting in accordance with retirement vesting provisions (\$81,271); for Ms. Skeans, an executive physical (\$4,071) and a charitable matching gift on her behalf (\$500); and for Mr. Sami, expatriation adjustments associated with his residence (\$132,550).

(2) These amounts reflect the income each executive was deemed to receive from IRS tables related to Company-provided life insurance in excess of \$50,000. The Company provides every salaried employee with life insurance coverage up to one times the employee’s base salary plus target bonus.

(3) For Messrs. Turner, Powell and Sami this column represents the Company’s annual allocations to the LRP or TCN, respectively, which are unfunded, unsecured account based retirement plans. For Mr. Turner and Mr. Powell, this column also includes a Company 401(k) matching contribution.

Grants of Plan-Based Awards

The following table provides information on SARs, RSUs, PSUs and other equity awards granted in 2023 to each of the Company's NEOs. The full grant date fair value of these awards is shown in the Summary Compensation Table at page 59.

Name	Grant Date	Estimated Future Payouts Under Non-Equity Incentive Plan Awards ⁽¹⁾			Estimated Future Payouts Under Equity Incentive Plan Awards ⁽²⁾			All Other Stock Awards: Number of Shares of Stock Units (#) ⁽³⁾	All Other Option/SAR Awards; Number of Securities Underlying Options (#) ⁽⁴⁾	Exercise or Base Price of Option/SAR Awards (\$/Sh) ⁽⁵⁾	Grant Date Fair Value (\$) ⁽⁶⁾
		Threshold (\$)	Target (\$)	Maximum (\$)	Threshold (#)	Target (#)	Maximum (#)				
(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)	(j)	(k)	(l)
Gibbs	2/10/2023	1,300,000	2,600,000	7,800,000							
	2/10/2023								96,058	131.31	2,875,016
	2/10/2023							21,895			2,875,032
	2/10/2023					43,790	87,580				6,221,570
Turner	2/10/2023	517,500	1,035,000	3,105,000							
	2/10/2023								22,971	131.31	687,522
	2/10/2023							5,236			687,539
	2/10/2023					10,472	20,944				1,487,835
Skeans	2/10/2023	540,000	1,080,000	3,240,000							
	2/10/2023								22,971	131.31	687,522
	2/10/2023							5,236			687,539
	2/10/2023					10,472	20,944				1,487,835
Sami	2/10/2023	439,408	878,815	2,636,446							
	2/10/2023								18,794	131.31	562,504
	2/10/2023							4,284			562,532
	2/10/2023					8,568	17,136				1,217,319
Powell	2/10/2023	453,750	907,500	2,722,500							
	2/10/2023								18,794	131.31	562,504
	2/10/2023							4,284			562,532
	2/10/2023					8,568	17,136				1,217,319

(1) Amounts in columns (c), (d) and (e) provide the threshold amount, target amount and maximum amount payable as annual incentive compensation under the YUM Leaders' Bonus Program ("YLB") based on the Company's performance and on each executive's individual performance during 2023. Performance under the threshold performance level will not result in payouts under the terms of the YLB. The actual amount of annual incentive compensation awards earned are shown in column (g) of the Summary Compensation Table on page 59. The performance measurements, performance targets, and target bonus percentages are described in the CD&A beginning on page 46 under the discussion of annual incentive compensation.

(2) Reflects grants of PSU awards subject to performance-based vesting conditions in 2023. The PSU awards vest on December 31, 2025 and PSU award payouts are weighted 50% on the achievement of specified Core Operating Profit Growth goals and 50% on the achievement of specified System Sales growth goals, with a positive or negative modifier of 25% based on relative total shareholder return ("TSR") rankings against the S&P 500 Consumer Discretionary Index during the performance period ending on December 31, 2025. With respect to the 50% weighted on Core Operating Profit Growth measured at the end of the performance period, if Core Operating Profit Growth of 8% compound annual growth rate ("CAGR") is achieved, this factor would provide for 100% weighting for the PSU payout with respect to this factor; if Core Operating Profit Growth of 9.75% CAGR is achieved, this factor would provide for 150% weighting for the PSU payout with respect to this factor; if Core Operating Profit Growth of 11.5% CAGR is achieved, this factor would provide for 200% weighting for the PSU payout with respect to this factor; and if Core Operating Profit Growth of less than 4.5% CAGR is achieved, this factor would provide for 0% weighting for the PSU payout with respect to this factor. With respect to the 50% weighted on System Sales growth measured at the end of the performance period, if System Sales growth of 7% CAGR is achieved, this factor would provide for 100% weighting for the PSU payout with respect to this factor; if System Sales growth of 8.5% CAGR is achieved, this factor would provide for 150% weighting for the PSU payout with respect to this factor; if System Sales growth of 10% CAGR is achieved, this factor would provide for 200% weighting for the PSU payout with respect to this factor; and if System Sales growth of less than 4% CAGR is achieved, this factor would provide for

0% weighting for the PSU payout with respect to this factor. With respect to the positive or negative 25% modifier based on a TSR percentile ranking for the Company, modifications to payouts are determined by comparing the Company's relative TSR ranking against the S&P 500 Consumer Discretionary Index as measured at the end of the performance period; if a greater than 79th TSR percentile ranking target is achieved, this factor would provide for 25% increase in the PSU payout determined under the Core Operating Profit Growth and System Sales growth metrics (not to exceed a total payout of 200% in any event); if TSR percentile ranking target is achieved between the 60th and 79th percentile is achieved, this factor would provide for 12.5% increase in the PSU payout determined under the Core Operating Profit Growth and System Sales growth metrics (not to exceed a total payout of 200% in any event); if TSR percentile ranking target is achieved between the 40th and 59th percentile is achieved, this factor would not impact the PSU payout determined under the Core Operating Profit Growth and System Sales growth metrics; if TSR percentile ranking target is achieved between the 20th and 39th percentile is achieved, this factor would provide for 12.5% decrease in the PSU payout determined under the Core Operating Profit Growth and System Sales growth metrics; if TSR percentile ranking target below the 20th percentile is achieved, this factor would provide for 25% decrease in the PSU payout determined under the Core Operating Profit Growth and System Sales growth metrics. The terms of the annual PSU awards provide that in case of a change in control during the first year of the award, shares will be distributed assuming target performance was achieved subject to reduction to reflect the portion of the performance period following the change in control. In case of a change in control after the first year of the award, shares will be distributed assuming performance at the greater of target level or projected level at the time of the change in control subject to reduction to reflect the portion of the performance period following the change in control.

(3) Amounts in this column reflect the number of RSUs granted to executives during the Company's 2023 fiscal year. RSUs allow the grantee to receive the number of shares of YUM common stock that is equal to the number of RSUs granted. These RSU grants become vested in equal installments on the first, second, third and fourth anniversaries of the grant date. The terms of each RSU grant provide that, in case of a change in control, if an executive is employed on the date of a change in control and is involuntarily terminated on or within two years following the change in control (other than by the Company for cause) then all outstanding awards become vested immediately. Executives who have attained age 55 with 10 years of service or 65 with 5 years of service who retire at least one year following the grant date will continue to vest following retirement through the fourth anniversary of the grant date. Unvested RSUs of executives who die will immediately vest. If an executive's employment is terminated due to gross misconduct, the entire award is forfeited.

(4) Amounts in this column reflect the number of SARs granted to executives during the Company's 2023 fiscal year. SARs allow the grantee to receive the number of shares of YUM common stock that is equal in value to the appreciation in YUM common stock with respect to the number of SARs granted from the date of grant to the date of exercise. These SAR grants become exercisable in equal installments on the first, second, third and fourth anniversaries of the grant date. The terms of each SAR grant provide that, in case of a change in control, if an executive is employed on the date of a change in control and is involuntarily terminated on or within two years following the change in control (other than by the Company for cause) then all outstanding awards become exercisable immediately. Executives who have attained age 55 with 10 years of service or 65 with 5 years of service who retire at least one year following the grant date will continue to vest following retirement through the fourth anniversary of the grant date. The SARs that vest in retirement must be exercised before the earlier of (i) the five year anniversary of the executive's retirement or (ii) the expiration dates of the SARs (generally 10 years from the grant date). Unvested SARs of executives who die will immediately vest and may be exercised by the executive's beneficiary before the earlier of (i) the five year anniversary of the executive's death or (ii) the expiration dates of the SARs (generally 10 years from the grant date). If an executive's employment is terminated due to gross misconduct, the entire award is forfeited. For other employment terminations, all vested or previously exercisable SARs as of the last day of employment must be exercised within 90 days following termination of employment.

(5) The exercise price of the SARs granted in 2023 equals the closing price of YUM common stock on their grant date.

(6) Amounts in this column reflect the full grant date fair value of the PSU awards shown in column (g), the RSUs shown in column (i) and the SARs shown in column (j). The grant date fair value is the amount that the Company is expensing in its financial statements over the award's vesting schedule. The fair values of RSU awards are based on the closing price of our Common Stock on the date of grant. The fair values of PSU awards have been valued based on the outcome of a Monte Carlo simulation. For SARs, fair value of \$29.93 was calculated using the Black-Scholes method on the grant date. For additional information regarding valuation assumptions of SARs, see the discussion of stock awards and option awards contained at Note 16 to the Consolidated Financial Statements in Item 8 of YUM's Form 10-K for the fiscal year ended December 31, 2023.

Outstanding Equity Awards at Year-End

The following table shows the number of shares covered by exercisable and unexercisable SARs, and unvested RSUs and PSUs held by the Company's NEOs on December 31, 2023. Unless otherwise indicated, all outstanding equity awards shown in the table relate to shares of YUM common stock.

Name	Grant Date	Option/SAR Awards ⁽¹⁾				Stock Awards

* YUM China Awards

(1) The actual vesting dates for unexercisable awards are as follows:

- (i) Remainder of unexercisable award will vest on February 10, 2024.
- (ii) One-half of the unexercisable award will vest on each of February 8, 2024 and 2025.
- (iii) One-third of the unexercisable award will vest on each of February 11, 2024, 2025 and 2026.
- (iv) One-fourth of the unexercisable award will vest on each of February 10, 2024, 2025, 2026 and 2027.

(2) For all NEOS, this column represents annual RSU grants which vest over four years. For Mr. Gibbs, it also represents an RSU grant he received in 2019 in connection with his promotion to Chief Operating Officer that is subject to five-year cliff vesting. For Ms. Skeans, it also represents a CEO Award RSU grant from 2020 that is subject to four-year cliff vesting.

(3) The market value of the YUM awards are calculated by multiplying the number of shares covered by the award by \$130.66, the closing price of YUM stock on the NYSE on December 29, 2023.

(4) The awards reflected in this column are unvested performance-based PSU awards with three-year performance periods that are scheduled to vest on December 31, 2024 and 2025 if the performance targets are met. In accordance with SEC rules, the PSU awards are reported at their maximum payout value.

Option Exercises and Stock Vested

The table below shows the number of shares of YUM and YUM China common stock acquired during 2023 upon exercise of stock option and SAR awards and vesting of stock awards in the form of RSUs and PSUs, each including accumulated dividends and before payment of applicable withholding taxes and broker commissions.

Name	Option/SAR Awards		Stock Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$)	Number of Shares Acquired on Vesting (#) ⁽¹⁾	Value realized on Vesting (\$)
(a)	(b)	(c)	(d)	(e)
Gibbs	75,717	6,625,757	136,347	17,812,783
Turner	—	—	44,876	5,864,390
Skeans	—	—	49,848	6,514,108
Sami	—	—	4,106	537,156
Powell	—	—	9,330	1,180,807

(1) For each of Messrs. Gibbs, Turner, Sami and Ms. Skeans, this amount includes PSUs that vested on December 31, 2023 with respect to the 2021-2023 performance period and were paid out in 2024. For Messrs. Sami and Powell, this amount includes the vested portion of their CEO Award and sign-on RSU grants, respectively.

Pension Benefits

The table below shows the present value of accumulated benefits payable to each of the NEOs, including the number of years of service credited to each NEO, under the YUM! Brands Retirement Plan ("Retirement Plan"), and the YUM! Brands Pension Equalization Plan ("PEP") determined using interest rate and mortality rate assumptions consistent with those used in the Company's financial statements.

Name	Plan Name	Number of Years of Credited Service (#)	Present Value of Accumulated Benefit (\$)	Payments During Last Fiscal Year (\$)
(a)	(b)	(c)	(d)	(e)
Gibbs	Qualified Retirement Plan	35	1,699,815	—
	PEP	35	23,259,980	—
Skeans	Qualified Retirement Plan	23	645,836	—
	PEP	23	4,380,200	—

(i) Messrs. Turner and Powell were hired after September 30, 2001 and Mr. Sami is located outside the United States and each is ineligible for the Company's actuarial pension plans. As discussed at page 68, Messrs. Turner and Powell participate in LRP and Mr. Sami participates in TCN.

YUM! Brands Retirement Plan

The Retirement Plan provides an integrated program of retirement benefits for salaried employees who were hired by the Company prior to October 1, 2001. The Retirement Plan replaces the same level of pre-retirement pensionable earnings for all similarly situated participants. The Retirement Plan is a tax qualified plan, and it is designed to provide the maximum possible portion of this integrated benefit on a tax qualified and funded basis.

Benefit Formula

Benefits under the Retirement Plan are based on a participant’s final average earnings (subject to the limits under Internal Revenue Code Section 401(a)(17)) and service under the plan. Upon termination of employment, a participant’s monthly normal retirement benefit from the plan is equal to

- A. 3% of Final Average Earnings times Projected Service up to 10 years of service, plus
- B. 1% of Final Average Earnings times Projected Service in excess of 10 years of service, minus
- C. 0.43% of Final Average Earnings up to Social Security covered compensation multiplied by Projected Service up to 35 years of service

the result of which is multiplied by a fraction, the numerator of which is actual service as of date of termination, and the denominator of which is the participant’s Projected Service.

Projected Service is the service that the participant would have earned if he had remained employed with the Company until his normal retirement age (generally age 65).

If a participant leaves employment after becoming eligible for early or normal retirement, benefits are calculated using the formula above except that actual service attained at the participant’s retirement date is used in place of Projected Service.

Final Average Earnings

A participant’s “Final Average Earnings” is determined based on his or her highest five consecutive years of pensionable earnings. Pensionable earnings is the sum of the participant’s base pay and annual incentive compensation from the Company, including amounts under the YUM Leaders’ Bonus Program. In general, base pay includes salary, vacation pay, sick pay and short-term disability payments. Extraordinary bonuses and lump sum payments made in connection with a participant’s termination of employment are not included.

Vesting

A participant receives a year of vesting service for each year of employment with the Company. A participant is 0% vested until he or she has been credited with at least five years of vesting service. Upon attaining five years of vesting service, a participant becomes 100% vested. All NEOs eligible for the Retirement Plan are 100% vested.

Normal Retirement Eligibility

A participant is eligible for normal retirement following the later of age 65 and 5 years of vesting service.

Early Retirement Eligibility and Reductions

A participant is eligible for early retirement upon reaching age 55 with 10 years of vesting service. A participant who has met the requirements for early retirement and who elects to begin receiving payments from the plan prior to age 62 will receive a reduction of 1/12 of 4% for each month benefits begin before age 62. Benefits are unreduced at age 62.

The table below shows when each of the NEOs became or becomes eligible for early retirement and the estimated lump sum value of the benefit each participant would receive from YUM plans (both qualified and non-qualified) if he or she retired from the Company on December 31, 2023 and received a lump sum payment.

Name	Earliest Retirement Date	Estimated Lump Sum from a Qualified Plan ⁽¹⁾	Estimated Lump Sum from a Non-Qualified Plan ⁽²⁾	Total Estimated Lump Sums
David W. Gibbs	April 1, 2018	\$1,816,916	\$24,841,458	\$26,658,374
Tracy L. Skeans	February 1, 2028	\$1,507,949	\$ 8,603,022	\$10,110,971

(1) The Retirement Plan

(2) PEP

The estimated lump sum values in the table above are calculated assuming no increase in the participant's Final Average Earnings. The lump sums are estimated using the mortality table and interest rate assumptions in the Retirement Plan for participants who would actually commence benefits on January 1, 2023. Actual lump sums may be higher or lower depending on the mortality table and interest rate in effect at the time of distribution and the participant's Final Average Earnings at his date of retirement.

Lump Sum Availability

Lump sum payments are available to participants who meet the requirements for early or normal retirement. Participants who leave the Company prior to meeting the requirements for Early or Normal Retirement must take their benefits in the form of a monthly annuity and no lump sum is available. When a lump sum is paid from the plan, it is calculated based on actuarial assumptions for lump sums required by Internal Revenue Code Section 417(e)(3).

PEP

The PEP is an unfunded, non-qualified plan that complements the Retirement Plan by providing benefits that federal tax law bars providing under the Retirement Plan. Benefits are generally determined and payable under the same terms and conditions as the Retirement Plan (except as noted below) without regard to federal tax limitations on amounts of includible compensation and maximum benefits. Benefits paid are reduced by the value of benefits payable under the Retirement Plan.

PEP retirement distributions are always paid in the form of a lump sum. Lump sums are calculated as the actuarial equivalent of the participant's life only annuity. Participants who terminate employment prior to meeting eligibility for Early or Normal Retirement must take their benefits from this plan in the form of a monthly annuity.

Present Value of Accumulated Benefits

For all plans, the present value of accumulated benefits (determined as of December 31, 2023) is calculated assuming that each participant is eligible to receive an unreduced benefit payable in the form of a single lump sum at age 62. This is consistent with the methodologies used in financial accounting calculations. In addition, the economic assumptions for the lump sum interest rate, post retirement mortality, and discount rate are also consistent with those used in financial accounting calculations at each measurement date.

Nonqualified Deferred Compensation

Amounts reflected in the Nonqualified Deferred Compensation table below are provided for under the Company's EID, LRP and TCN plans. These plans are unfunded, unsecured, deferred, account-based compensation plans. For each calendar year, participants are permitted under the EID Program to defer up to 85% of their base pay and up to 100% of their annual cash incentive award.

EID Program

Deferred Investments under the EID Program. Amounts deferred under the EID Program may be invested in the following phantom investment alternatives (12-month investment returns, as of December 31, 2023, are shown in parentheses):

- YUM! Stock Fund (4.01%*)
- YUM! Matching Stock Fund (4.01%*)
- S&P 500 Index Fund (26.28%)
- Bond Market Index Fund (5.61%)
- Stable Value Fund (2.73%)

* Assumes dividends are reinvested.

All of the phantom investment alternatives offered under the EID Program are designed to match the performance of actual investments; that is, they provide market rate returns and do not provide for preferential earnings. The S&P 500 index fund, bond market index fund and stable value fund are designed to track the investment return of like-named funds offered under the Company's 401(k) Plan. The YUM! Stock Fund and YUM! Matching Stock Fund track the investment return of the Company's common stock. Participants may transfer funds between the investment alternatives on a quarterly basis except (1) funds invested in the YUM! Stock Fund or YUM! Matching Stock Fund may not be transferred once invested in these funds and (2) a participant may only elect to invest into the YUM! Matching Stock Fund at the time the annual incentive deferral election is made. In the case of the Matching Stock Fund, participants who defer their annual incentive into this fund acquire additional phantom shares (RSUs) equal to 33% of the RSUs received with respect to the deferral of their annual incentive into the YUM! Matching Stock Fund (the additional RSUs are referred to as "matching contributions"). The RSUs attributable to the matching contributions are allocated on the same day the RSUs attributable to the annual incentive are allocated, which is the same day we make our annual stock appreciation right grants. Eligible amounts attributable to the matching contribution under the YUM! Matching Stock Fund are included in column (c) below as contributions by the Company (and represent amounts actually credited to the NEO's account during 2023).

Beginning with their 2009 annual incentive award, those who are eligible for annual PSU awards are no longer eligible to participate in the Matching Stock Fund.

RSUs attributable to annual incentive deferrals into the YUM! Matching Stock Fund and matching contributions vest on the second anniversary of the grant (or upon a change of control of the Company, if earlier) and are payable as shares of YUM common stock pursuant to the participant's deferral election. Unvested RSUs held in a participant's YUM! Matching Stock Fund account are forfeited if the participant voluntarily terminates employment with the Company within two years of the deferral date. If a participant terminates employment involuntarily, the portion of the account attributable to the matching contributions is forfeited and the participant will receive an amount equal to the amount of the original amount deferred. If a participant dies or becomes disabled during the restricted period, the participant fully vests in the RSUs. Dividend equivalents are accrued during the restricted period but are only paid if the RSUs vest. In the case of a participant who has attained age 55 with 10 years of service, or age 65 with five years of service, RSUs attributable to bonus deferrals into the YUM! Matching Stock Fund vest immediately and RSUs attributable to the matching contribution vest on the second anniversary of the deferral date.

Distributions under EID Program. When participants elect to defer amounts into the EID Program, they also select when the amounts ultimately will be distributed to them. Distributions may either be made in a specific year – whether or not employment has then ended – or at a time that begins at or after the executive's retirement, separation or termination of employment. Distributions can be made in a lump sum or quarterly or annual installments for up to 20 years. Initial deferrals are subject to a minimum two-year deferral. In general, with respect to amounts deferred after 2005 or not fully vested as of January 1, 2005, participants may change their distribution schedule, provided the new elections satisfy the requirements of Section 409A of the Internal Revenue Code. In general, Section 409A requires that:

- Distribution schedules cannot be accelerated (other than for a hardship)
- To delay a previously scheduled distribution,
 - A participant must make an election at least one year before the distribution otherwise would be made, and
 - The new distribution cannot begin earlier than five years after it would have begun without the election to re-defer.

With respect to amounts deferred prior to 2005, to delay a distribution the new distribution cannot begin until two years after it would have begun without the election to re-defer.

Investments in the YUM! Stock Fund and YUM! Matching Stock Fund are only distributed in shares of Company stock.

Leadership Retirement Plan

LRP Account Returns. The LRP provides an annual earnings credit to each participant's account based on the value of participant's account at the end of each year. Under the LRP, Messrs. Turner and Powell will receive an annual earnings credit equal to the Moody's Aa Corporate Bond Yield Average for maturities 20 years and above (currently 5.05%) of their account balances. The Company's contribution ("Employer Credit") for 2023 was equal to 4% of salary plus target bonus for Messrs. Turner and Powell.

EXECUTIVE COMPENSATION

Distributions under LRP. Under the LRP, participants who became eligible to participate in the plan before January 1, 2019 and are age 55 or older are entitled to a lump sum distribution of their account balance in the quarter following their separation of employment. Alternatively, these participants may elect to be paid in 5 or 10-year installments following the attainment of age 55. If these participants are under age 55 with a vested LRP benefit that, combined with any other deferred compensation benefits covered under Code Section 409A exceeds \$22,500, they will not receive a distribution until the calendar quarter that follows the participant's 55th birthday. Participants who become eligible to participate in LRP after January 1, 2019 (including Messrs. Turner and Powell will receive a lump sum distribution following separation from employment.

Third Country National Plan

TCN Account Returns. The TCN provides an annual earnings credit to each participant's account based on the value of each participant's account at the end of each year. Under the TCN, Mr. Sami receives an annual earnings credit equal to 5%. For Mr. Sami, the Employer Credit for 2023 was equal to 15% of his salary plus target bonus.

Distributions under TCN. Under the TCN, participants age 55 or older with a balance of \$19,500 or more, are entitled to a lump sum distribution of their account balance in the quarter following their separation of employment. Participants under age 55 who separate employment with the Company will receive interest annually and their account balance will be distributed in the quarter following their 55th birthday.

Name	Plan Name	Executive Contributions in Last FY (\$) ⁽¹⁾	Registrant Contributions in Last FY (\$) ⁽²⁾	Aggregate Earnings in Last FY (\$) ⁽³⁾	Aggregate Withdrawals/Distributions (\$) ⁽⁴⁾	Aggregate Balance at Last FYE (\$) ⁽⁵⁾

(1) Amounts in column (b) reflect deferred amounts that were also reported as compensation in our Summary Compensation Table filed last year or, would have been reported as compensation in our Summary Compensation Table last year if the executive were a NEO, and deferrals of base salary into the EID Program.

(2) Amounts in column (c) reflect Company contributions for EID and LRP and TCN allocations. See footnote 6 of the Summary Compensation Table for more detail.

(3) Amounts in column (d) reflect earnings during the last fiscal year on deferred amounts. All earnings are based on the investment alternatives offered under the EID Program or the earnings credits provided under the LRP and TCN described in the narrative above this table. The EID Program earnings are market based returns and, therefore, are not reported in the Summary Compensation Table. For Messrs. Turner, Sami and Powell, of the earnings reflected in this column, none were deemed above market earnings accruing to their accounts under the LRP and TCN.

(4) All amounts shown in column (e) were distributed in accordance with the executive's deferral election, except in the case of the following amounts distributed to pay payroll taxes due upon their account balance under the EID Program or LRP/TCN for 2023.

Gibbs	-
Turner	2,887
Skeans	-
Sami	-
Powell	-

(5) Amounts reflected in column (f) are the year-end balances for each executive under the EID Program and the LRP and TCN. As required under SEC rules, below is the portion of the year-end balance for each executive which has previously been reported as compensation to the executive in the Company's Summary Compensation Table for 2023 and prior years.

Gibbs	-
Turner	\$316,570
Skeans	-
Sami	\$246,531
Powell	\$133,300

Potential Payments Upon Termination or Change in Control

The information below describes and quantifies certain compensation that would become payable under existing plans and arrangements if the NEO's employment had terminated on December 31, 2023, given the NEO's compensation and service levels as of such date and, if applicable, based on the Company's closing stock price on that date. These benefits are in addition to benefits available generally to salaried employees, such as distributions under the Company's 401(k) Plan, retiree medical benefits, disability benefits and accrued vacation pay.

Due to the number of factors that affect the nature and amount of any benefits provided upon the events discussed below, any actual amounts paid or distributed may be different. Factors that could affect these amounts include the timing during the year of any such event, the Company's stock price and the executive's age.

SAR Awards. If one or more NEOs terminated employment for any reason other than retirement, death, disability or following a change in control as of December 31, 2023, they could exercise the SARs that were exercisable on that date as shown at the Outstanding Equity Awards at Year-End table on page 63, otherwise all SARs, pursuant to their terms, would have been forfeited and cancelled after that date. If the NEO had retired, died or become disabled as of December 31, 2023, exercisable SARs would remain exercisable through the term of the award and unvested shares would continue to vest if the award was granted at least one year before retirement and vesting would be accelerated for all SARs in the event of death. Except in the case of a change in control or death, no SARs become exercisable on an accelerated basis. In the case of an involuntary termination of employment as of December 31, 2023 following a change in control or death, each NEO would receive the following: Mr. Gibbs \$5,209,195, Mr. Turner \$1,249,485, Ms. Skeans \$1,269,583, Mr. Sami \$222,788, and Mr. Powell \$120,921.

RSU Awards. If one or more NEOs terminated employment for any reason other than retirement, death, disability or following a change in control as of December 31, 2023, all unvested RSUs, pursuant to their terms, would have been forfeited and cancelled after that date. If the NEO had retired, died or become disabled as of December 31, 2023, unvested annual RSUs would continue to vest if the award was granted at least one year before retirement and vesting would be accelerated for all annual RSUs granted in 2022 and 2023 in the event of death (CEO Award RSUs receive pro rata vesting in the event of death or retirement). Except in the case of a change in control or death, no RSUs become vested on an accelerated basis. In the case of an involuntary termination of employment as of December 31, 2023 following a change in control or death, each NEO would receive the following: Mr. Gibbs \$12,852,866, Mr. Turner \$1,218,729, Ms. Skeans \$1,955,120, Mr. Sami \$2,023,213, and Mr. Powell \$2,075,865.

EXECUTIVE COMPENSATION

Executive Income Deferral Program. As described in more detail beginning at page 67, the NEOs participate in the EID Program, which permits the deferral of salary and annual incentive compensation. The last column of the Nonqualified Deferred Compensation Table on page 69 includes each NEO's aggregate balance at December 31, 2023. The NEOs are entitled to receive their vested amount under the EID Program in case of voluntary termination of employment. In the case of involuntary termination of employment, they are entitled to receive their vested benefit and the amount of the unvested benefit that corresponds to their deferral. In the case of death, disability or retirement after age 65, they or their beneficiaries are entitled to their entire account balance as shown in the last column of the Nonqualified Deferred Compensation table on page 69.

In the case of an involuntary termination of employment as of December 31, 2023, each NEO would receive the following: Mr. Gibbs \$4,780,451, Mr. Turner \$0, Ms. Skeans \$591,623, Mr. Sami \$0, and Mr. Powell \$0. As discussed at page 67, these amounts reflect base salary or bonuses previously deferred by the executive and appreciation on these deferred amounts (see page 67 for discussion of investment alternatives available under the EID). Thus, these EID account balances represent deferred base salary or bonuses (earned in prior years) and appreciation of their accounts based primarily on the performance of the Company's stock.

Leadership Retirement Plan. Under the LRP, participants who become eligible to participate after January 1, 2019 (including Messrs. Turner and Powell) will receive a lump sum distribution following separation from employment unless they elect to be paid in 5 or 10-year installments after attaining age 54. In case of termination of employment as of December 31, 2023, Mr. Turner would have received \$309,905 and Mr. Powell would have received \$146,411.

Third Country National Plan. Under the TCN, participants age 55 or older are entitled to a lump sum distribution of their account balance in the quarter following their termination of employment. Participants under age 55 who terminate will receive interest annually and their account balance will be distributed in the quarter following their 55th birthday. In case of termination of employment as of December 31, 2023, Mr. Sami would have received \$2,352,245.

Performance Share Unit Awards. If one or more NEOs terminated employment for any reason other than retirement or death or following a change in control and prior to achievement of the performance criteria and vesting period, then the award would be cancelled and forfeited. If the NEO had retired or died or been involuntarily terminated following a change in control, as of December 31, 2023, the PSU award would be paid out based on actual performance for the performance period (or target performance if termination is in same year PSU granted), subject to a pro rata reduction reflecting the portion of the performance period not worked by the NEO. If any of these payouts had occurred on December 31, 2023, Messrs. Gibbs, Turner, Sami and Powell and Ms. Skeans would have been entitled to \$7,766,118, \$1,753,087, \$1,282,132, \$1,410,946, and \$1,881,899, respectively, assuming target performance.

Pension Benefits. The Pension Benefits Table on page 65 describes the general terms of each pension plan in which the NEOs participate, the years of credited service and the present value of the annuity payable to each NEO assuming termination of employment as of December 31, 2023. The table on page 66 provides the present value of the lump sum benefit payable to each NEO when they attain eligibility for Early Retirement (i.e., age 55 with 10 years of service) under the plans.

Life Insurance Benefits. For a description of the supplemental life insurance plans that provide coverage to the NEOs, see the All Other Compensation Table on page 60. If the NEOs had died on December 31, 2023, the survivors of Messrs. Gibbs, Turner, Sami and Powell and Ms. Skeans would have received Company-paid life insurance of \$3,000,000, \$1,935,000, \$1,000,000, \$1,733,000, and \$1,980,000, respectively, under this arrangement. Executives and all other salaried employees can purchase additional life insurance benefits up to a maximum combined company paid and additional life insurance of \$3.5 million. This additional benefit is not paid or subsidized by the Company and, therefore, is not shown here.

Change in Control. Change in control severance agreements are in effect between YUM and certain key executives (including Messrs. Gibbs, Turner, Sami and Powell and Ms. Skeans). These agreements are general obligations of YUM, and provide, generally, that if, within two years subsequent to a change in control of YUM, the employment of the executive is terminated (other than for cause, or for other limited reasons specified in the change in control severance agreements) or the executive terminates employment for Good Reason (defined in the change in control severance agreements to include a diminution of duties and responsibilities or benefits), the executive will be entitled to receive the following:

- a proportionate annual incentive assuming achievement of target performance goals under the bonus plan or, if higher, assuming continued achievement of actual Company performance until date of termination;
- a severance payment equal to two times the sum of the executive's base salary and the target bonus or, if higher, the actual bonus for the year preceding the change in control of the Company; and
- outplacement services for up to one year following termination.

In March 2013, the Company eliminated excise tax gross-ups and implemented a best net after-tax method. See the Company's CD&A on page 39 for more detail.

The change in control severance agreements have a three-year term and are automatically renewable each January 1 for another three-year term. An executive whose employment is not terminated within two years of a change in control will not be entitled to receive any severance payments under the change in control severance agreements.

Generally, pursuant to the agreements, a change in control is deemed to occur:

- (i) if any person acquires 20% or more of the Company's voting securities (other than securities acquired directly from the Company or its affiliates);
- (ii) if a majority of the directors as of the date of the agreement are replaced other than in specific circumstances; or
- (iii) upon the consummation of a merger of the Company or any subsidiary of the Company other than (a) a merger where the Company's directors immediately before the change in control constitute a majority of the directors of the resulting organization, or (b) a merger effected to implement a recapitalization of the Company in which no person is or becomes the beneficial owner of securities of the Company representing 20% or more of the combined voting power of the Company's then-outstanding securities.

In addition to the payments described above, upon a change in control:

- All outstanding SARs held by the executive and not otherwise exercisable will fully and immediately vest following a change in control if the executive is employed on the date of the change in control of the Company and is involuntarily terminated (other than by the Company for cause) on or within two years following the change in control. See Company's CD&A on page 39 for more detail;
- RSUs under the Company's EID Program or otherwise held by the executive will automatically vest; and
- Pursuant to the Company's Performance Share Plan under the LTIP, all PSU awards awarded in the year in which the change in control occurs, will be paid out at target assuming a target level performance had been achieved for the entire performance period, subject to a pro rata reduction to reflect the portion of the performance period after the change in control. All PSUs awarded for performance periods that began before the year in which the change in control occurs will be paid out assuming performance achieved for the performance period was at the greater of target level performance or projected level of performance at the time of the change in control, subject to pro rata reduction to reflect the portion of the performance period after the change in control. In all cases, executives must be employed with the Company on the date of the change in control and involuntarily terminated upon or following the change in control and during the performance period. See Company's CD&A on page 39 for more detail.

If a change in control and each NEO's involuntary termination had occurred as of December 31, 2023, the following payments or other benefits would have been made or become available.

	Gibbs \$	Turner \$	Skeans \$	Sami \$	Powell \$
Severance Payment	8,660,600	4,245,188	4,351,500	3,356,866	3,465,000
Annual Incentive	4,712,500	1,875,938	1,957,500	1,885,059	948,338
Accelerated Vesting of SARs	5,209,195	1,249,485	1,269,583	222,788	120,921
Accelerated Vesting of RSUs	12,852,866	1,218,729	1,955,120	2,023,213	2,075,865
Acceleration of PSU Performance/Vesting	7,766,118	1,753,087	1,881,899	1,282,132	1,410,946
Outplacement	25,000	25,000	25,000	25,000	25,000
TOTAL	39,226,279	10,367,426	11,440,603	8,795,057	8,046,070

CEO Pay Ratio

Each year the Company and our franchisees around the world create thousands of restaurant jobs, which are part-time, entry-level opportunities to grow careers at our KFC, Pizza Hut, Taco Bell and The Habit Burger Grill brands. As evidence of the opportunities these positions create, approximately 80% of our Company-owned Restaurant General Managers (“RGMs”) located in the U.S. have been promoted from other positions in our restaurants and such RGMs often earn competitive pay greater than the average American household income. In the United States, approximately 90% of our Company-owned restaurant employees are part-time and at least 50% have been employed by the Company for less than a year.

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and applicable SEC rules, we are providing the following information about the relationship of the annual total compensation of our employees and the annual total compensation of Mr. Gibbs, our Chief Executive Officer (our “CEO”).

To identify the 2023 median employee, we used the December 2023 base wages or base salary information for all employees who were employed by us on December 31, 2023, excluding our CEO. We included all full-time and part-time employees and annualized the employees’ base salary or base wages to reflect their compensation for 2023. We believe the use of base wages or base salary for all employees is a consistently applied compensation measure.

As of December 31, 2023, our global workforce used for determining the pay ratio was approximately 35,000 employees (approximately 25,000 in the U.S. and 10,000 internationally).

After calculating employee compensation, our median employee was identified as a part-time Taco Bell restaurant employee in the United States. After identifying the median employee, we calculated total annual compensation in accordance with the requirements of the Summary Compensation Table.

For 2023, the total compensation of our CEO, as reported in the Summary Compensation Table at page 59, was \$21,238,955. The total compensation of our median employee was estimated to be \$17,628. As a result, we estimate that our CEO to median employee pay ratio is 1205:1.

This pay ratio is a reasonable estimate calculated in a manner consistent with SEC rules based on our payroll and employment records and the methodology described above. The SEC rules for identifying the median compensated employee and calculating the pay ratio based on that employee’s annual total compensation allow companies to adopt a variety of methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect their compensation practices. As such, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies may have different employment and compensation practices and may utilize different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios.

PAY VERSUS PERFORMANCE DISCLOSURE

As required by Section 953(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(v) of Regulation S-K, we are providing the following information about the relationship between executive compensation actually paid (as defined by SEC rules) and certain financial performance of the Company. The Management Planning and Development Committee did not consider the pay versus performance disclosure when making its incentive compensation decisions. For further information about how we align executive compensation with the company's performance, see "Compensation Discussion and Analysis" on page 39 above. The amounts in the table below are calculated in accordance with SEC rules and do not represent amounts actually earned or realized by NEOs, including with respect to SARs, RSUs and PSUs. See the "2023 Option Exercises and Stock Vested" table on page 65 for more information.

The following table sets forth additional compensation information of our Chief Executive Officer (CEO) and our non-CEO NEOs along with total shareholder return, net income, and Core Operating Profit Growth performance results for 2020, 2021, 2022 and 2023.

Year ⁽¹⁾	Summary Compensation Table Total for CEO (\$)	Compensation Actually Paid to CEO (\$) ⁽²⁾⁽³⁾	Average Summary Compensation Table Total for Non-CEO NEOs (\$)	Average Compensation Actually Paid to Non-CEO NEOs(\$) ⁽²⁾⁽³⁾	Value of Initial Fixed \$100 Investment Based On:		Net Income (\$)	Core Operating Profit Growth ⁽⁹⁾
					Total Shareholder Return (\$) ⁽⁸⁾	Peer Group Total Shareholder Return (\$) ⁽⁸⁾		
2023	21,238,955	19,362,404 ⁽⁴⁾	5,606,206	5,685,564 ⁽⁴⁾	140	149	1,597,000,000	12%
2022	16,671,654	16,099,314 ⁽⁵⁾	4,984,077	4,629,758 ⁽⁵⁾	134	104	1,325,000,000	5%
2021	27,578,659	45,011,805 ⁽⁶⁾	8,305,919	13,880,647 ⁽⁶⁾	143	166	1,575,000,000	18%
2020	14,631,451	10,894,204 ⁽⁷⁾	4,294,455	4,270,359 ⁽⁷⁾	110	133	904,000,000	(7)%

(1) The CEO and NEOs included in the above compensation columns reflect the following:

Year	CEO	NEOs
2023	David Gibbs	Chris Turner, Tracy Skeans, Sabir Sami, Aaron Powell
2022	David Gibbs	Chris Turner, Tracy Skeans, Mark King, Aaron Powell
2021	David Gibbs	Chris Turner, Tracy Skeans, Mark King, Tony Lowings
2020	David Gibbs	Chris Turner, Tracy Skeans, Mark King, Tony Lowings

(2) Fair value or change in fair value, as applicable, of equity awards in the "Compensation Actually Paid" columns was determined by reference to (1) for RSU awards, closing price of YUM common stock on applicable year-end dates or, in the case of vesting dates, the actual vesting price, (2) for PSU awards, the same valuation methodology as RSU awards above except year-end and vesting date values are multiplied by the probability of achievement or actual results, as applicable, as of each such date and, for PSU awards with market-based conditions, the probability is determined based on the outcome of a Monte Carlo simulation and (3) for SARs, the fair value calculated by a Black-Scholes option-pricing model as of the applicable year-end or vesting date(s), determined based on the same methodology as used to determine grant date fair values but using the closing YUM or YUM China common stock price on the applicable revaluation date as the current market price as of the revaluation date, and in all cases based on expected term, as determined using the simplified method, volatility, dividend rates and risk free rates determined as of the revaluation date. The simplified method was used to determine expected term as of the revaluation date as we do not have sufficient historical exercise data to provide a reasonable basis upon which to estimate the expected term for awards with remaining contractual terms of less than 10 years.

(3) For the portion of "Compensation Actually Paid" that is based on year-end stock prices, the following prices were used: for 2023: \$130.66 (a 2% increase from prior year); for 2022: \$128.08 (an 8% reduction from prior year), for 2021: \$138.86 (a 28% increase from prior year), and for 2020: \$108.56 (an 8% increase from prior year).

PAY VERSUS PERFORMANCE DISCLOSURE

(4) 2023 "Compensation Actually Paid" to the CEO and the average "Compensation Actually Paid" to the Non-CEO NEOs reflect the following adjustments from Total Compensation reported in the Summary Compensation Table

	CEO (\$)	Average of Non-CEO NEOs (\$)
Total Reported in 2023 Summary Compensation Table (SCT)	21,238,955	5,606,206
Less, Value of Stock & Option Awards Reported in SCT	11,971,618	2,602,626

Plus, Year-End value of Awards Granted in Fiscal Year that are Unvested and Outstanding	28,021,727	7,768,744
Plus, Change in Fair Value of Prior Year awards that are Outstanding and Unvested	7,360,149	2,090,847
Plus, Fair Value of Awards Granted this Year and that Vested this Year	—	—
Plus, Change in Fair Value (from Prior Year-End) of Prior Year awards that Vested this year	1,179,444	294,627
Less, Prior Year Fair Value of Prior Year awards that failed to vest this year	—	—
Total Adjustments	17,433,146	5,574,728
"Compensation Actually Paid" for Fiscal Year 2021	45,011,805	13,880,647

(7) 2020 “Compensation Actually Paid” to the CEO and the average “Compensation Actually Paid” to the Non-CEO NEOs reflects the following adjustments from Total Compensation reported in the Summary Compensation Table:

	CEO (\$)	Average of Non-CEO NEOs (\$)
Total Reported in 2020 Summary Compensation Table (SCT)	14,631,451	4,294,455
Less, Value of Stock & Option Awards Reported in SCT	8,146,446	1,963,535
Less, Change in Pension Value in SCT	4,517,703	463,105
Plus, Pension Service Cost and impact of Pension Plan Amendments	445,160	52,089
Plus, Year-End value of Awards Granted in Fiscal Year that are Unvested and Outstanding	8,657,431	2,206,217
Plus, Change in Fair Value of Prior Year awards that are Outstanding and Unvested	351,871	196,358
Plus, Fair Value of Awards Granted this Year and that Vested this Year	—	—
Plus, Change in Fair Value (from Prior Year-End) of Prior Year awards that Vested this year	(527,560)	(52,120)
Less, Prior Year Fair Value of Prior Year awards that failed to vest this year	—	—
Total Adjustments	(3,737,247)	(24,096)
“Compensation Actually Paid” for Fiscal Year 2020	10,894,204	4,270,359

(8) Company and Peer Group TSR reflects the Company’s peer group (S&P 500 Consumer Discretionary Index) as reflected in our Annual Report on the Form 10-K for the fiscal year ended December 31, 2023. Each year reflects what the cumulative value of \$100 would be, including the reinvestment of dividends, if such amount were invested on December 27, 2019.

(9) Core Operating Profit is a non-GAAP measure. Core Operating Profit is determined by excluding from Operating Profit both Special Items, which the Company does not believe are indicative of our ongoing operations due to their size and/or nature, and the impacts of foreign currency translation. Special Items include, among other items, gain or loss associated with market-wide refranchising, operating profit or loss associated with the decision to cease operations in Russia, and certain charges associated with resource optimization. See pages 31-32 and 35-36 in Item 7 of YUM’s Form 10-K for the fiscal year ended on December 31, 2023 for a discussion of Core Operating Profit in 2023. Core Operating Profit Growth shown above for 2020 excludes the impact of a 53rd week in 2019.

Pay versus Performance Descriptive Disclosure

We chose Core Operating Profit Growth as our Company Selected Measure for evaluating Pay versus Performance because it is a key metric in our annual bonus (50% weighting) and annual PSU Plans (50% weighting) in 2023. Over the four-year period from 2020 to 2023, our TSR was generally trending in a similar manner or exceeding the TSR for our peer group. The increase in the Company’s TSR lagged our peers in 2020 and 2021, and more narrowly in 2023, while our 2022 TSR performance significantly outpaced that of our peers, although our “Compensation Actually Paid” to our NEOs in 2022 decreased compared to what is reported in the Summary Compensation Table. There is generally a directionally corresponding relationship between TSR and “Compensation Actually Paid” between 2020 and 2023. As TSR increased or declined, “Compensation Actually Paid” increased or decreased accordingly. Between 2020 and 2023, we see a similar directionally corresponding relationship between Net Income and “Compensation Actually Paid.” As Net Income increased or declined over the four-year period, “Compensation Actually Paid” increased or decreased accordingly. Core Operating Profit Growth is a performance measure in both our annual bonus and PSU plans and, accordingly, we observed a correlation between Core Operating Profit Growth and “Compensation Actually Paid.” However, the increase in “Compensation Actually Paid” in 2021 was driven largely by the one-time Accelerating Profitable Growth PSU grant made to our CEO and NEOs in 2021.

Pay versus Performance Tabular List

The table below lists our most important financial performance measures used to link “Compensation Actually Paid” for our CEO and NEOs to company performance, over the year ending December 31, 2023. These measures are used to determine the annual bonus and PSU payouts for each of the CEO and the other NEOs. Core Operating Profit Growth, Same Store Sales Growth and Net New Unit Growth are key metrics under our annual bonus plan, while Core Operating Profit Growth and System Sales Growth are the primary metrics under our annual PSU plan. For more information on our annual bonus and PSUs, see the Compensation Discussion and Analysis, beginning on page 39 of this Proxy Statement. The performance measures included in this table are not ranked by relative importance.

Most Important Financial Performance Measures

Core Operating Profit Growth

System Sales Growth

Net New Unit Growth

Same Store Sales Growth

Total Shareholder Return

EQUITY COMPENSATION PLAN INFORMATION

The following table summarizes, as of December 31, 2023, the equity compensation plans under which we may issue shares of stock to our directors, officers, current employees and former employees. Those plans include the Long Term Incentive Plan (the “LTIP”) and the Restaurant General Manager Stock Option Plan (“RGM Plan”).

Plan Category	Number of Securities To be Issued Upon Exercise of Outstanding Options, Warrants and Rights	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column (a))
	(a)	(b)	(c)
Equity compensation plans approved by security holders	5,816,786 ⁽¹⁾	92.68 ⁽²⁾	22,943,859 ⁽³⁾
Equity compensation plans not approved by security holders	15,577 ⁽⁴⁾	57.28 ⁽²⁾	—
TOTAL	5,832,363⁽¹⁾	92.58⁽²⁾	22,943,859⁽³⁾

(1) Includes 2,643,300 shares issuable in respect of RSUs, performance units and deferred units.

(2) Weighted average exercise price of outstanding Options and SARs only.

(3) Includes 11,471,929 shares available for issuance of awards of stock units, restricted stock, restricted stock units and performance share unit awards under the LTIP Plan.

(4) Awards are made under the RGM Plan.

What are the key features of the LTIP?

The LTIP provides for the issuance of up to 92,600,000 shares of stock as non-qualified stock options, incentive stock options, SARs, restricted stock, restricted stock units, performance shares or performance units. Only our employees and directors are eligible to receive awards under the LTIP. The purpose of the LTIP is to motivate participants to achieve long range goals, attract and retain eligible employees, provide incentives competitive with other similar companies and align the interest of employees and directors with those of our shareholders. The LTIP is administered by the Management Planning and Development Committee of the Board of Directors (the “Committee”). The exercise price of a stock option grant or SAR under the LTIP may not be less than the closing price of our stock on the date of the grant, and no options or SARs may have a term of more than ten years. The options and SARs that are currently outstanding under the LTIP generally vest over a one-to-four-year period and expire ten years from the date of the grant. Our shareholders approved the LTIP in 1999, and the plan as amended in 2003, 2008 and 2016.

What are the key features of the RGM Plan?

Effective May 20, 2016, we canceled the remaining shares available for issuance under the RGM Plan, except for the approximately 220,000 shares necessary to satisfy then outstanding awards. No future awards will be made under the RGM Plan. The RGM Plan has provided for the issuance shares of common stock at a price equal to or greater than the closing price of our stock on the date of grant. The RGM Plan allowed us to award non-qualified stock options, SARs, restricted stock and RSUs. Employees, other than executive officers, have been eligible to receive awards under the RGM Plan. The purpose of the RGM Plan was (i) to give restaurant general managers (“RGMs”) the opportunity to become owners of stock, (ii) to align the interests of RGMs with those of YUM’s other shareholders, (iii) to emphasize that the RGM is YUM’s #1 leader, and (iv) to reward the performance of RGMs. In addition, the Plan provides incentives to Area Coaches, Franchise Business Leaders and other supervisory field operation positions that support RGMs and have profit and loss responsibilities within a defined region or area. While all non-executive officer employees have been eligible to receive awards under the RGM plan, all awards granted have been to RGMs or their direct supervisors in the field. Grants to RGMs generally have four-year vesting and expire after ten years. The RGM Plan is administered by the Committee, and the Committee has delegated its responsibilities to the Chief People Officer of the Company. The Board of Directors approved the RGM Plan on January 20, 1998.

AUDIT COMMITTEE REPORT

Who serves on the Audit Committee of the Board of Directors?

The members of the Audit Committee (for purposes of this report, the “Committee”) are Paget L. Alves, M. Brett Biggs, Tanya L. Domier, Susan Doniz and Annie Young-Scrivner. Mr. Alves serves as Chair of the Committee.

The Board of Directors has determined that all of the members of the Audit Committee are independent within the meaning of applicable SEC regulations and the listing standards of the NYSE and that Mr. Alves, the chair of the Committee, is qualified as an audit committee financial expert within the meaning of SEC regulations. The Board has also determined that Mr. Alves has accounting and related financial management expertise within the meaning of the listing standards of the NYSE and that each member of the Committee is financially literate within the meaning of the NYSE listing standards.

What document governs the activities of the Audit Committee?

The Audit Committee operates under a written charter adopted by the Board of Directors. The Committee’s responsibilities are set forth in this charter, which was amended and restated effective January 26, 2023. The charter is reviewed by management at least annually, and any recommended changes are presented to the Audit Committee for review and approval. The charter is available on our website at <http://investors.yum.com/committee-composition-and-charters>.

What are the responsibilities of the Audit Committee?

The Audit Committee assists the Board in fulfilling its responsibilities for general oversight of the integrity of the Company’s financial statements, the adequacy of the Company’s system of internal controls and procedures and disclosure controls and procedures, the Company’s risk management, the Company’s compliance with legal and regulatory requirements, the independent auditors’ qualifications and independence, the performance of the Company’s internal audit function and independent auditors, and the Food pillar of the Company’s environmental, social and governance strategy referred to as the YUM! Good Growth Strategy. The Committee has the authority to obtain advice and assistance from outside legal, accounting or other advisors as the Committee deems necessary to carry out its duties and receive appropriate funding, as determined by the Committee, from the Company for such advice and assistance.

The Committee has sole authority over the selection of the Company’s independent auditors and manages the Company’s relationship with its independent auditors (who report directly to the Committee). KPMG LLP has served as the Company’s independent auditors since 1997. Each year, the Committee evaluates the performance, qualifications and independence of the independent auditors. The Committee is also involved in the selection of the lead audit partner. In evaluating the Company’s independent auditors, the Committee considers the quality of the services provided, as well as the independent auditors’ and lead partner’s capabilities and technical expertise and knowledge of the Company’s operations and industry.

The Committee met 8 times during 2023. The Committee schedules its meetings with a view to ensuring that it devotes appropriate attention to all of its tasks. The Committee’s meetings generally include private sessions with the Company’s independent auditors and with the Company’s internal auditors, in each case without the presence of the Company’s management, as well as executive sessions consisting of only Committee members. In addition to the scheduled meetings, senior management confers with the Committee or its Chair from time to time, as senior management deems advisable or appropriate, in connection with issues or concerns that arise throughout the year.

Management is responsible for the Company’s financial reporting process, including its system of internal control over financial reporting, and for the preparation of consolidated financial statements in accordance with accounting principles generally accepted in the U.S. The Company’s independent auditors are responsible for auditing those financial statements in accordance with professional standards and expressing an opinion as to their material conformity with U.S. generally accepted accounting principles and for auditing the effectiveness of the Company’s internal control over financial reporting. The Committee’s responsibility is to monitor and review the Company’s financial reporting process and discuss management’s report on the Company’s internal control over financial reporting. It is not the Committee’s duty or responsibility to conduct audits or accounting reviews or procedures. The Committee has relied, without independent

verification, on management's representations that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the U.S. and that the Company's internal control over financial reporting is effective. The Committee has also relied, without independent verification, on the opinion of the independent auditors included in their report regarding the Company's financial statements and effectiveness of internal control over financial reporting.

What matters have members of the Audit Committee discussed with management and the independent auditors?

As part of its oversight of the Company's financial statements, the Committee reviews and discusses with both management and the Company's independent auditors all annual and quarterly financial statements prior to their issuance. With respect to each 2023 fiscal reporting period, management advised the Committee that each set of financial statements reviewed had been prepared in accordance with accounting principles generally accepted in the U.S., and reviewed significant accounting and disclosure issues with the Committee. These reviews included discussions with the independent auditors of matters required to be discussed pursuant to Public Company Accounting Oversight Board ("PCAOB") Auditing Standard No. 1301 (Communication with Audit Committees), including the quality (not merely the acceptability) of the Company's accounting principles, the reasonableness of significant judgments, the clarity of disclosures in the financial statements and disclosures related to critical accounting practices. The Committee has also discussed with KPMG LLP matters relating to its independence, including a review of audit and non-audit fees and the written disclosures and letter received from KPMG LLP required by applicable requirements of the PCAOB regarding KPMG LLP's communications with the Committee concerning independence. The Committee also considered whether non-audit services provided by the independent auditors are compatible with the independent auditors' independence. The Committee also received regular updates, and written summaries as required by the PCAOB rules (for tax and other services), on the amount of fees and scope of audit, audit-related, tax and other services provided.

In addition, the Committee reviewed key initiatives and programs aimed at strengthening the effectiveness of the Company's internal and disclosure control structure. As part of this process, the Committee continued to monitor the scope and adequacy of the Company's internal auditing program, reviewing staffing levels and steps taken to implement recommended improvements in internal procedures and controls. The Committee reviewed and discussed the Company's enterprise risk management program and key risks, including the Company's business and financial technology risk exposure, which includes data privacy and data protection, information security and cybersecurity. It also reviewed and discussed risks relating to the Food pillar of the YUM! Good Growth Strategy, including food safety and supply chain risk. The Committee also reviewed and discussed legal and compliance matters with management, and, as necessary or advisable, the Company's independent auditors.

Has the Audit Committee made a recommendation regarding the audited financial statements for fiscal 2023?

Based on the Committee's discussions with management and the independent auditors and the Committee's review of the representations of management and the report of the independent auditors to the Board of Directors and shareholders, and subject to the limitations on the Committee's role and responsibilities referred to above and in the Audit Committee Charter, the Committee recommended to the Board of Directors that it include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023 for filing with the SEC.

Who prepared this report?

This report has been furnished by the members of the Audit Committee:

Paget L. Alves, Chairperson
M. Brett Biggs
Tanya L. Domier
Susan Doniz
Annie Young-Scrivner

Additional Information

Who pays the expenses incurred in connection with the solicitation of proxies?

Expenses in connection with the solicitation of proxies will be paid by the Company. Proxies are being solicited principally by mail, by telephone and through the Internet. In addition, our directors, officers and regular employees, without additional compensation, may solicit proxies personally, by e-mail, telephone, fax or special letter. We will reimburse brokerage firms and others for their expenses in forwarding proxy materials to the beneficial owners of our shares.

How may I elect to receive shareholder materials electronically and discontinue my receipt of paper copies?

YUM shareholders with shares registered directly in their name who received shareholder materials in the mail may elect to receive future annual reports and proxy statements from us and to vote their shares through the Internet instead of receiving copies through the mail. We are offering this service to provide shareholders with added convenience, to reduce our environmental impact and to reduce Annual Report printing and mailing costs.

To take advantage of this option, shareholders must subscribe to one of the various commercial services that offer access to the Internet. Costs normally associated with electronic access, such as usage and telephone charges, will be borne by the shareholder.

To elect this option, go to www.computershare.com, click on Shareholder Account Access, log in and locate the option to receive Company mailing via e-mail. Shareholders who elect this option will be notified by mail how to access the proxy materials and how to vote their shares on the Internet or by phone.

If you consent to receive future proxy materials electronically, your consent will remain in effect unless it is withdrawn by writing our Transfer Agent, Computershare, Inc., 462 South 4th Street, Suite 1600, Louisville, Kentucky 40202 or by logging onto our Transfer Agent's website at www.computershare.com and following the applicable instructions. Also, while this consent is in effect, if you decide you would like to receive a hard copy of the proxy materials, you may call, write or e-mail Computershare, Inc.

I share an address with another shareholder and we received only one paper copy of the proxy materials. How may I obtain an additional copy of the proxy materials?

The Company has adopted a procedure called "householding" which has been approved by the SEC. The Company and some brokers household proxy materials, delivering a single Notice and, if applicable, this proxy statement and Annual Report, to multiple shareholders sharing an address unless contrary instructions have been received from the affected shareholders or they participate in electronic delivery of proxy materials. Shareholders who participate in householding will continue to access and receive separate proxy cards. This process will help reduce our printing and postage fees, as well as save natural resources. If at any time you no longer wish to participate in householding and would prefer to receive a separate proxy statement, or if you are receiving multiple copies of the proxy statement and wish to receive only one, please notify your broker if your shares are held in a brokerage account or us if you hold registered shares. You can notify us by sending a written request to YUM! Brands, Inc., Investor Relations, 1441 Gardiner Lane, Louisville, KY 40213 or by calling Investor Relations at 1 (888) 298-6986 or by sending an e-mail to yum.investor@yum.com.

May I propose actions for consideration at next year's Annual Meeting of Shareholders or nominate individuals to serve as directors?

Under the rules of the SEC, if a shareholder wants us to include a proposal in our proxy statement and proxy card for presentation at our 2025 Annual Meeting of Shareholders, the proposal must be received by us at our principal executive offices at YUM! Brands, Inc., 1441 Gardiner Lane, Louisville, Kentucky 40213 by December 6, 2024. The proposal should be sent to the attention of the Corporate Secretary.

Under our bylaws, certain procedures are provided that a shareholder must follow to nominate persons for election as directors or to introduce an item of business at an Annual Meeting of Shareholders that is not included in our proxy statement. These procedures provide that nominations for director nominees and/or an item of business to be introduced at an Annual Meeting of Shareholders must be submitted in writing to our Corporate Secretary at our principal executive offices and you must include information set forth in our bylaws. We must receive the notice of your intention to introduce a nomination or to propose an item of business at our 2025 Annual Meeting no later than the date specified in our bylaws. If the 2025 Annual Meeting is not held within 30 days before or after the anniversary of the date of this year's Annual Meeting, then the nomination or item of business must be received by the tenth day following the earlier of the date of mailing of the notice of the meeting or the public disclosure of the date of the meeting. Assuming that our 2025 Annual Meeting is held within 30 days of the anniversary of this Annual Meeting, we must receive notice of your intention to introduce a nomination or other item of business at that meeting by February 15, 2025.

In addition to satisfying the foregoing requirements under our bylaws, to comply with the universal proxy rules, shareholders who intend to solicit proxies in support of director nominees other than the Company's nominees must provide notice that sets forth the information required by the SEC's Rule 14a-19, which notice must be postmarked or transmitted electronically to our principal executive offices no later than 60 calendar days prior to the anniversary date of this year's Annual Meeting (or no later than March 17, 2025). However, if the date of the 2025 Annual Meeting is changed by more than 30 calendar days from such anniversary date, then notice must be provided by the later of 60 calendar days prior to the date of the 2025 Annual Meeting or the 10th calendar day following the day on which public announcement of the date of the 2025 Annual Meeting is first made by the Company.

In addition, our bylaws provide for proxy access for director nominations by shareholders (as described at page 18). A shareholder, or group of up to 20 shareholders, owning continuously for at least three years shares of YUM common stock representing an aggregate of at least 3% of our outstanding shares, may nominate, and include in YUM's proxy materials, director nominees constituting up to 20% of YUM's Board, provided that the shareholder(s) and nominee(s) satisfy the requirements in YUM's bylaws. Notice of proxy access director nominees must be received no earlier than November 6, 2024, and no later than December 6, 2024.

The Board is not aware of any matters that are expected to come before the 2024 Annual Meeting other than those referred to in this proxy statement. If any other matter should come before the Annual Meeting, the individuals named on the form of proxy intend to vote the proxies in accordance with their best judgment.

The chairperson of the Annual Meeting may refuse to allow the transaction of any business, or to acknowledge the nomination of any person, not made in compliance with the foregoing procedures.

Bylaw Provisions. You may contact YUM's Corporate Secretary at the address mentioned above for a copy of the relevant bylaw provisions regarding the requirements for making shareholder proposals and nominating director candidates.

Forward-Looking Statements

In this Form 10-K, as well as in other written reports and oral statements, we present “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We intend all forward-looking statements to be covered by the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, and we are including this statement for purposes of complying with those safe harbor provisions.

Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts and by the use of forward-looking words such as “expect,” “expectation,” “believe,” “anticipate,” “may,” “could,” “intend,” “belief,” “plan,” “estimate,” “target,” “predict,” “likely,” “seek,” “project,” “model,” “ongoing,” “will,” “should,” “forecast,” “outlook” or similar terminology. Forward-looking statements are based on our current expectations, estimates, assumptions and/or projections, our perception of historical trends and current conditions, as well as other factors that we believe are appropriate and reasonable under the circumstances. Forward-looking statements are neither predictions nor guarantees of future events, circumstances or performance and are inherently subject to known and unknown risks, uncertainties and assumptions that could cause our actual results to differ materially from those indicated by those forward-looking statements. There can be no assurance that our expectations, estimates, assumptions and/or projections will be achieved. Factors that could cause actual results and events to differ materially from our expectations, estimates, assumptions, projections and/or forward-looking statements include (i) the risks and uncertainties described in the Risk Factors included in Part I, Item 1A of this Form 10-K and (ii) the factors described in Management’s Discussion and Analysis of Financial Condition and Results of Operations included in Part II, Item 7 of this Form 10-K. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. The forward-looking statements included in this Form 10-K are only made as of the date of this Form 10-K and we disclaim any obligation to publicly update any forward-looking statement to reflect subsequent events or circumstances.

PART I

Item 1. Business.

Yum! Brands, Inc. (referred to herein as “YUM”, the “Registrant” or the “Company”), was incorporated under the laws of the state of North Carolina in 1997. The principal executive offices of YUM are located at 1441 Gardiner Lane, Louisville, Kentucky 40213, and the telephone number at that location is (502) 874-8300. Our website address is <https://www.yum.com>.

YUM, together with its subsidiaries, is referred to in this Form 10-K annual report (“Form 10-K”) as the Company. The terms “we,” “us” and “our” are also used in the Form 10-K to refer to the Company. Throughout this Form 10-K, the terms “restaurants,” “stores” and “units” are used interchangeably. While YUM does not directly own or operate any restaurants, throughout this document we may refer to restaurants that are owned or operated by our subsidiaries as being Company-owned.

Overview of Business

YUM has over 58,000 restaurants in more than 155 countries and territories primarily operating under the four concepts of KFC, Taco Bell, Pizza Hut and The Habit Burger Grill (the “Concepts”). The Company’s KFC, Taco Bell and Pizza Hut brands are global leaders of the chicken, Mexican-style food and pizza categories, respectively. The Habit Burger Grill is a fast-casual restaurant concept specializing in made-to-order chargrilled burgers, sandwiches and more. At December 31, 2023, 98% of our Concepts’ units are operated by independent franchisees or licensees under the terms of franchise or license agreements. The terms franchise or franchisee within this Form 10-K are meant to describe third parties that operate units under either franchise or license agreements.

The following is a brief description of each Concept and a summary of our Concepts’ operations as of and for the year ended December 31, 2023:

	Number of Units	% of Units International	Number of Countries and Territories	% Franchised	System Sales ^(a) (in Millions)
KFC Division	29,900	87%	149	99%	\$ 33,863
Taco Bell Division	8,564	14%	32	94%	15,915
Pizza Hut Division	19,866	67%	109	99%	13,315
Habit Burger Grill Division	378	3%	3	19%	696
YUM	58,708	69%	157	98%	\$ 63,789

(a) Constitutes sales of all restaurants, both Company-owned and franchised. See further discussion of this performance metric within Part II, Item 7 of this Form 10-K.

KFC

KFC was founded in Corbin, Kentucky, by Colonel Harland D. Sanders, an early developer of the quick service food business and a pioneer of the restaurant franchise concept. The Colonel perfected his secret blend of 11 herbs and spices for Kentucky Fried Chicken in 1939 and signed up his first franchisee in 1952. KFC restaurants across the world offer fried and non-fried chicken products such as sandwiches, chicken strips, chicken-on-the-bone and other chicken products marketed under a variety of names.

Taco Bell

The first Taco Bell restaurant was opened in 1962 by Glen Bell in Downey, California, and in 1964, the first Taco Bell franchise was sold. Taco Bell specializes in Mexican-style food products, including various types of tacos, burritos, quesadillas, salads, nachos and other related items.

Pizza Hut

The first Pizza Hut restaurant was opened in 1958 in Wichita, Kansas, and within a year, the first franchise unit was opened. Today, Pizza Hut specializes in the sale of ready-to-eat pizza products and operates in the delivery, carryout and casual dining segments around the world.

Habit Burger Grill

The first Habit Burger Grill restaurant opened in 1969 in Santa Barbara, California. The Habit Burger Grill restaurant concept is built around a distinctive and diverse menu that includes chargrilled burgers and sandwiches made-to-order over an open flame and topped with fresh ingredients.

Business Strategy

Through our Recipe for Good Growth we intend to unlock the growth potential of our Concepts and YUM, drive increased collaboration across our Concepts and geographies and consistently deliver better customer experiences, improved unit economics and higher rates of growth. Key enablers include accelerated use of digital and technology and better leverage of our systemwide scale.

Our global citizenship and sustainability strategy is reflected in our Good agenda, which includes our priorities for social responsibility, risk management and sustainable stewardship of our people, food and planet.

Our Growth agenda is based on four key drivers:

- Unrivaled Culture and Talent: Leverage our culture and people capability to fuel brand performance and franchise success
- Unmatched Operating Capability: Recruit and equip the best restaurant operators in the world to deliver great customer experiences
- Relevant, Easy and Distinctive Brands: Innovate and elevate iconic restaurant brands people trust and champion
- Bold Restaurant Development: Drive market and franchise unit expansion with strong economics and value

Information about Operating Segments

As of December 31, 2023, YUM consists of four operating segments:

- The KFC Division which includes our worldwide operations of the KFC concept
- The Taco Bell Division which includes our worldwide operations of the Taco Bell concept
- The Pizza Hut Division which includes our worldwide operations of the Pizza Hut concept
- The Habit Burger Grill Division which includes our worldwide operations of the Habit Burger Grill concept

Franchise Agreements

The franchise programs of the Company are designed to promote consistency and quality, and the Company is selective in granting franchises. The Company is focused on partnering with franchisees who have the commitment, capability and capitalization to grow our Concepts. Franchisees can range in size from individuals owning just one restaurant to large publicly-traded companies. The Company has franchise relationships that are particularly important to our business, such as our relationship with Yum China (defined below) and our relationships with certain other large franchisees.

The Company currently has approximately 1,500 franchisees with whom we have franchise contracts. The Company utilizes both store-level franchise and master franchise programs to grow our businesses. Of our over 57,000 franchised units at December 31, 2023, approximately 35% operate under our master franchise programs, including over 13,700 units in mainland China. The remainder of our franchise units operate under store-level franchise agreements. Under both types of franchise programs, franchisees supply capital by purchasing or leasing the land, building, equipment, signs, seating, inventories and supplies and, over the longer term, by reinvesting in the business. In certain historical refranchising transactions the Company may have retained ownership of land and building and continues to lease them to the franchisee. Store-level franchise agreements typically require payment to the Company of certain upfront fees such as initial fees paid upon opening of a store,

fees paid to renew the term of the franchise agreement and fees paid in the event the franchise agreement is transferred to another franchisee. Franchisees also pay monthly continuing fees based on a percentage of their restaurants' sales (typically between 4% to 6%) and are required to spend a certain amount to advertise and promote the brand. Under master franchise arrangements, the Company enters into agreements that allow master franchisees to operate restaurants as well as sub-franchise restaurants within certain geographic territories. Master franchisees are typically responsible for overseeing development within their territories and performing certain other administrative duties with regard to the oversight of sub-franchisees. In exchange, master franchisees retain a certain percentage of fees payable by the sub-franchisees under their franchise agreements and often pay lower fees for the restaurants they operate.

On October 31, 2016, we completed the spin-off of our China business into an independent, publicly-traded company under the name of Yum China Holdings, Inc. ("Yum China"). As our largest master franchisee, Yum China, pays the Company a continuing fee of 3% on system sales of our Concepts in mainland China. The use by Yum China of certain of our material trademarks and service marks is governed by a master license agreement between Yum Restaurants Consulting (Shanghai) Company Limited, a wholly-owned indirect subsidiary of Yum China, and YUM, through YRI China Franchising LLC, a subsidiary of YUM.

The Company seeks to maintain strong and open relationships with our franchisees and their representatives. To this end, the Company invests a significant amount of time working with the franchisee community and their representative organizations on key aspects of the business, including products, technology, equipment, operational improvements and standards.

Restaurant Operations

Through its Concepts, YUM develops, operates and franchises a worldwide system of both traditional and non-traditional Quick Service Restaurants ("QSR"). Traditional units can feature dine-in, carryout, drive-thru and delivery services. Non-traditional units include express units that have a more limited menu, usually generate lower sales volumes and operate in non-traditional locations like malls, airports, gasoline service stations, train stations, subways, convenience stores, stadiums, amusement parks and colleges, where a full-scale traditional outlet would not be practical or efficient.

Most restaurants in each Concept offer consumers the ability to dine in, carryout and/or have the Concepts' food delivered either by store-level personnel or third-party delivery services such as aggregators. In addition, Taco Bell, KFC and Habit Burger Grill offer a drive-thru option in many stores. Pizza Hut offers a drive-thru option on a much more limited basis.

Restaurant management structure varies by Concept, unit size and franchise organization. Generally, each restaurant is led by a restaurant general manager ("RGM"), together with one or more assistant managers, depending on the operating complexity and sales volume of the restaurant. Each Concept issues manuals, which may then be customized to meet local regulations and customs. These manuals set forth standards and requirements for restaurant operations, including food safety and quality, food handling and product preparation procedures, equipment maintenance, facility standards and accounting control procedures. Each franchise organization and their respective restaurant management teams are responsible for the day-to-day operation of their units, including all matters related to employment of restaurant staff, and for ensuring compliance with operating standards.

Digital and technology are at the core of our Recipe for Good Growth. In recent years the Company has focused on building and acquiring a distinctive set of solutions with next-generation capabilities tailored for our brands and scaling these common digital and technology platforms across the globe. The Company's technology initiatives are aligned with the "Easy" element of its Relevant, Easy and Distinctive Brands growth driver: easy experiences for our customers, easy operations for our team members and franchisees and easy insights from our data. Together, our technological initiatives are designed to simultaneously enhance the experience for our customers and restaurant-level employees while driving profitable sales growth. Digital sales include transactions where consumers at system restaurants utilize ordering interaction that is primarily facilitated by automated technology. In 2023, our system restaurants generated digital sales of \$29 billion, representing over 45% of overall system sales.

The Company and its Concepts own numerous registered trademarks. The Company believes that many of these marks, including our Kentucky Fried Chicken®, KFC®, Taco Bell®, Pizza Hut® and The Habit® marks, have significant value and material importance to our business. The Company's policy is to pursue registration of important marks whenever feasible and to challenge any infringement of our marks vigorously. The use of certain of these marks by franchisees has been authorized in our franchise agreements. Under current law and with proper use, the Company's rights in our marks can generally last indefinitely. The Company also has certain patents on restaurant equipment and technology which, while valuable, are not currently considered material to our business.

Supply and Distribution

The Company and franchisees of the Concepts are substantial purchasers of a number of food and paper products, equipment and other restaurant supplies. The principal items purchased include chicken, cheese, beef and pork products, paper and packaging materials. Prices paid for these supplies fluctuate. When prices increase, the Concepts may attempt to pass on such increases to their customers, although there is no assurance that this can be done in practice. The Company does not typically experience significant continuous shortages of supplies, and alternative sources for most of these supplies are generally available.

In the U.S., the Company, along with the representatives of the Company's KFC, Taco Bell and Pizza Hut franchisee groups, are members of Restaurant Supply Chain Solutions, LLC ("RSCS"), a third party which is responsible for purchasing certain restaurant products and equipment. Additionally, The Habit Burger Grill entered into a purchasing agreement with RSCS effective July 31, 2020. The core mission of RSCS is to provide the lowest possible sustainable store-delivered prices for restaurant products and equipment. This arrangement combines the purchasing power of the Company-owned and franchisee restaurants, which the Company believes leverages the system's scale to drive cost savings and effectiveness in the purchasing function. The Company also believes that RSCS fosters closer alignment of interests and a stronger relationship with our franchisee community.

Most food products, paper and packaging supplies, and equipment used in restaurant operations are distributed to individual restaurant units by third-party distribution companies. In the U.S., McLane Foodservice, Inc. is the exclusive distributor for the majority of items used in Company-owned restaurants and for a substantial number of franchisee restaurants. Outside the U.S., we and our Concepts' franchisees primarily use decentralized sourcing and distribution systems involving many different global, regional and local suppliers and distributors. Our international franchisees generally select and manage their own third-party suppliers and distributors, subject to our internal standards. All suppliers and distributors are expected to provide products and/or services that comply with all applicable laws, rules and regulations in the state and/or country in which they operate as well as comply with our internal standards.

Advertising and Promotional Programs

Company-owned and franchise restaurants are required to spend a percentage of their respective restaurants' sales on advertising programs with the goal of increasing sales and enhancing the reputation of the Concepts. Advertising may be conducted nationally, regionally and locally. When multiple franchisees operate in the same country or region, the national and regional advertising spending is typically conducted by a cooperative to which the franchisees and Company-owned restaurants, if any, contribute funds as a percentage of restaurants' sales. The contributions are primarily used to pay for expenses relating to purchasing media for advertising, market research, commercial production, talent payments and other support functions for the respective Concepts. We have the right to control the advertising activities of certain advertising cooperatives, typically in markets where we have Company-owned restaurants, through our majority voting rights.

Working Capital

Information about the Company's working capital is included in MD&A in Part II, Item 7 and the Consolidated Statements of Cash Flows in Part II, Item 8.

Seasonal Operations

The Company does not consider its operations to be seasonal to any material degree.

Competition

The retail food industry, in which our Concepts compete, is made up of supermarkets, supercenters, warehouse stores, convenience stores, coffee shops, snack bars, delicatessens and restaurants (including those in the QSR segment), and is intensely competitive with respect to price and quality of food products, new product development, digital engagement,

advertising levels and promotional initiatives, customer service reputation, restaurant location and attractiveness and maintenance of properties. Competition has also increased from and been enabled by delivery aggregators and other food delivery services in recent years, particularly in urbanized areas. Our Concepts also face competition as a result of convergence in grocery, convenience, deli and restaurant services, including the offering by the grocery industry of convenient meals, including pizzas and entrees with side dishes. The retail food industry is often affected by: changes in consumer tastes; national, regional or local economic conditions; currency fluctuations; demographic trends; traffic patterns; the type, number and location of competing food retailers and products; and disposable purchasing power. Within the retail food industry, each of our Concepts competes with international, national and regional chains as well as locally-owned establishments, not only for customers, but also for management and hourly personnel, suitable real estate sites and qualified franchisees. Given the various types and vast number of competitors, our Concepts do not constitute a significant portion of the retail food industry in terms of number of system units or system sales, either on a worldwide or individual country basis.

Environmental Matters

The Company is not aware of any federal, state or local environmental laws or regulations that will materially affect our earnings or competitive position, or result in material capital expenditures. However, the Company cannot predict the effect on our operations due to possible future environmental legislation or regulations. During 2023, there were no material capital expenditures for environmental control facilities and no such material expenditures are anticipated.

Government Regulation

U.S. Operations. The Company and its U.S. operations, as well as our franchisees, are subject to various federal, state and local laws affecting our business, including laws and regulations concerning information security, privacy, labor and employment, health, marketing, food labeling, competition, public accommodation, sanitation and safety. Each of our and our Concepts' franchisees' restaurants in the U.S. must comply with licensing requirements and regulations promulgated by a number of governmental authorities, which include health, sanitation, safety, fire and zoning agencies in the state and/or municipality in which the restaurant is located. In addition, each Concept must comply with various state and federal laws that regulate the franchisor/franchisee relationship. To date, the Company has not been materially adversely affected by such licensing requirements and regulations or by any difficulty, delay or failure to obtain required licenses or approvals.

International Operations. Our and our Concepts' franchisees' restaurants outside the U.S. are subject to national and local laws and regulations which have similarities to those affecting U.S. restaurants but may differ among jurisdictions. The restaurants outside the U.S. are also subject to tariffs and regulations on imported commodities and equipment, laws regulating foreign investment and anti-bribery and anti-corruption laws.

See Item 1A "Risk Factors" of this Form 10-K for a discussion of risks relating to federal, state, local and international regulation of our business.

Human Capital Management

Overview

As of December 31, 2023, the Company and its subsidiaries employed approximately 35,000 persons (collectively referred to throughout this filing as "our employees" or "YUM employees"), including approximately 25,000 employees in the U.S. and approximately 10,000 employees outside the U.S. Approximately 85% of our employees work in restaurants while the remainder work in our restaurant-support centers. In the U.S., approximately 90% of our Company-owned restaurant employees are part-time and approximately 50% have been employed by the Company for less than a year. Some of our International employees are subject to labor council relationships whose terms vary due to the diverse countries in which the Company operates.

In addition to the persons employed by the Company and its subsidiaries, our approximately 57,000 franchise restaurants around the world are responsible for the employment of over an estimated 1 million people who work in and support those restaurants. Each year YUM and our franchisees around the world create thousands of restaurant jobs, which are part-time, entry-level opportunities to grow careers at our KFC, Taco Bell, Pizza Hut and The Habit Burger Grill brands. As evidence of the

ITEM 1. BUSINESS.

opportunities these positions create, approximately 80% of the Company-owned Restaurant General Managers (“RGMs”) located in the U.S. have been promoted from other positions in our brands’ restaurants and such RGMs often earn pay greater than the average American household income.

Human capital management considerations are integral to our Recipe for Good Growth strategy, the drivers of which include leveraging our culture and people capability to fuel brand performance and franchise success, as well as recruiting and equipping the best restaurant operators in the world to deliver great customer experiences. Our investment in people includes creating a culture of engagement that attracts, retains and grows the best people and creates high performance in our restaurants. We are also highly focused on building an inclusive culture among our employees, franchisees, suppliers and partners to reflect the diversity of our customers and communities. Our commitments and progress towards executing this strategy are reflected below.

Culture & Talent

We believe that our culture and talent provide us with a competitive advantage with respect to the performance of our business. Our areas of focus in this regard include the following:

- Measuring YUM employee engagement regularly. For example, every other year we conduct a global employee engagement survey of all employees working in our restaurant support centers. The most recent survey conducted was in 2023 and reflected an engagement level among our employees significantly exceeding the average engagement levels of benchmarked companies.
- Providing YUM employees with training and development that builds world-class leaders and drives business results. We promote these efforts through initiatives such as our leadership development program (Heartstyles), our unconscious bias program (Inclusive Leadership) and training programs with respect to our compliance policies, including our Code of Conduct. Our Heartstyles program is also available to our franchisees so that their employees may benefit as well.
- Enabling a culture that fuels results and cross-brand collaboration on operational execution, people capability and customer experience initiatives throughout our system.
- Assessing progress towards lowering turnover and increasing retention rates, particularly at the restaurant-employee level.

Equity, Inclusion & Belonging

In connection with our focus on equity, inclusion and belonging, our areas of focus include the following:

- Continually building upon ongoing inclusion efforts to help ensure our workplaces are environments where all people can be successful.
- Consistent with our Code of Conduct, making employment-related decisions based on an individual’s abilities and merit, not personal characteristics that are unrelated to the job.
- Significantly increasing the number of women in our senior leadership globally, with a goal of achieving gender parity by 2030. In 2022, approximately 43% of our global corporate leadership roles were held by women and approximately 52% of our global workforce were women.
- Continuing to make Inclusive Leadership training and anti-racism training available across our system. We intend to expand our Inclusive Leadership training to employees and franchisees around the world and have started development of an online module of this training program to help provide even greater access.

Available Information

The Company makes available, through the Investor Relations section of its internet website at <https://www.yum.com>, its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act, as soon as reasonably practicable after electronically filing such material with the Securities and Exchange Commission (“SEC”) at <https://www.sec.gov>.

Our Corporate Governance Principles and our Code of Conduct are also located within the Investor Relations section of the Company’s website. The references to the Company’s website address in this Form 10-K do not constitute incorporation by reference of the information contained on the website and should not be considered part of this Form 10-K. These documents, as well as our SEC filings, are available in print free of charge to any shareholder who requests a copy from our Investor Relations Department.

Item 1A. Risk Factors.

You should carefully review the risks described below as they identify important factors that could cause our actual results to differ materially from our forward-looking statements, expectations and historical trends. Any of the following risk factors, either by itself or together with other risk factors, could materially adversely affect our business, growth prospects, results of operations, cash flows and/or financial condition.

Risks Related to Food Safety and Catastrophic Events

Food safety and food- or beverage-borne illness concerns may have an adverse effect on our business and/or our growth prospects.

Food or beverage-borne illnesses (that can be caused by food-borne pathogens such as E. coli, Listeria, Salmonella, Cyclospora and Trichinosis) and food safety issues (such as food tampering, contamination including with respect to allergens or adulteration) have occurred and may occur within our system from time to time. In addition, the health and environmental risks of certain ubiquitous substances (including per- and polyfluoroalkyl substances (PFAS)) commonly found in packaging have been the subject of increased regulatory scrutiny and lawsuits against other restaurant companies. Any report linking our or our Concepts' franchisees' restaurants, our suppliers or distributors or otherwise involving the types of products used at our restaurants, or linking our competitors, suppliers, distributors or the retail food industry generally, to instances of food- or beverage-borne illness or food safety issues or substances having perceived health or environmental risks could result in adverse publicity and otherwise adversely affect us and possibly lead to consumer complaints, litigation and/or governmental investigations. There is also a risk that we or our Concepts' franchisees' restaurants, suppliers or distributors under report food safety incidents or system failures, which could hinder response and tracking of such risks. Moreover, our Concepts' restaurants' reliance on third-party food suppliers and distributors and increasing reliance on food delivery aggregators may increase the risk that food- or beverage-borne illness incidents and food safety issues could be caused by factors outside of our control. If a customer is believed to have become ill from food or beverage-borne illnesses or as a result of food safety issues, remediation efforts could include temporary closure of restaurants, which could disrupt our operations and adversely affect our reputation, business and/or our growth prospects. The occurrence of food-borne pathogens in restaurant products or food safety issues could also adversely affect the price and availability of affected ingredients, which could result in disruptions in our supply chain and/or lower margins for us and our Concepts' franchisees.

Our business and/or growth prospects may be adversely affected by public health conditions associated with the coronavirus ("COVID-19"), or the occurrence of other catastrophic or unforeseen events, such as future health epidemics, or natural disasters, geopolitical events, acts of war and events that lead to avoidance of public places or restrictions on public gatherings.

If public health conditions related to COVID-19 significantly worsen in markets where we conduct significant operations, our business and financial results could be adversely impacted, and we may be unable to effectively respond to any such developments. In addition, our business and/or growth prospects could be adversely impacted by various other future occurrences (which may be beyond our control), including health epidemics or pandemics, natural disasters, geopolitical events, acts of war, terrorism, political, financial or social instability, boycotts, social or civil unrest, workplace violence, or other events that lead to avoidance of public places or restrictions on public gatherings such as in our and our Concepts' franchisees' restaurants. For example, the outbreak of a widespread future health epidemic or pandemic, particularly if located in regions where we have significant operations, could adversely affect our business and/or growth prospects.

In addition, our operations could be disrupted if any employees at our, our Concepts' franchisees' restaurants or our business partner employees had or were suspected of having the avian flu or swine flu, or other highly communicable illnesses such as hepatitis A or norovirus, since this could require us, our Concepts' franchisees, or our business partners to quarantine some or all of such employees and close facilities, including restaurants. Prior outbreaks of avian flu have resulted in confirmed human cases and it is possible that outbreaks could reach pandemic levels. Public concern over avian flu may cause fear about the consumption of chicken, eggs and other products derived from poultry, which could cause customers to consume less poultry and related products, which would adversely affect us given that poultry is widely offered at our Concepts' restaurants. Avian flu outbreaks could also adversely affect the price and availability of poultry, which could negatively impact our business.

Furthermore, other viruses may be transmitted through human contact, and the risk or perceived risk of contracting viruses could cause employees or guests to avoid gathering in public, which could adversely affect restaurant guest traffic or the ability

ITEM 1A. RISK FACTORS.

to adequately staff restaurants. We could also be adversely affected if government authorities impose mandatory or voluntary closures, impose restrictions on operations of restaurants, or restrict the import or export of products, or if suppliers issue mass recalls of products.

Risks Related to our Business Strategy and Reliance upon Franchisees

Our operating results and growth strategies are closely tied to the success of our Concepts' franchisees.

The vast majority (98%) of our restaurants are operated by our Concepts' franchisees. Our long-term growth depends on maintaining the pace of our new unit growth rate through our Concepts' franchisees. We also rely on master franchisees, who have rights to license to sub-franchisees the right to develop and operate restaurants, to achieve our expectations for new unit development. If our Concepts' franchisees and master franchisees do not meet our expectations for new unit development, we may not achieve our desired growth.

We have limited control over how our Concepts' franchisees' businesses are run, and their inability to operate successfully could adversely affect our operating results through decreased royalties, advertising funds contributions, and fees paid to us for other discrete services we may provide to our Concepts' franchisees (e.g. fees for the management of e-commerce platforms). Our control is further limited where we utilize master franchise arrangements, which require us to rely on our master franchisees to enforce sub-franchisee compliance with our operating standards. If our Concepts' franchisees fail to adequately capitalize their businesses or incur too much debt, if their operating expenses or commodity prices increase or if economic or sales trends deteriorate such that they are unable to operate profitably or repay existing debt, it could result in their financial distress, including insolvency or bankruptcy, or the inability to meet development targets or obligations. If a significant franchisee of our Concepts becomes, or a significant number of our Concepts' franchisees in the aggregate become, financially distressed our operating results could be impacted through reduced or delayed fee payments that cause us to record bad debt expense and reduced advertising fund contributions, and experience reduced new unit development.

In addition, we are secondarily liable on certain Concepts' franchisees' restaurant lease agreements, including lease agreements that we have guaranteed or assigned to franchisees, and our operating results and/or growth prospects could be impacted by any rent obligations to the extent such franchisees default on these lease agreements.

Our results may also be impacted by whether our Concepts' franchisees implement marketing programs or other major initiatives, such as restaurant remodels or equipment or technology upgrades, which may require financial investment by such franchisees. Our Concepts may be unable to successfully implement strategies that we believe are necessary for growth if our Concepts' franchisees do not participate, which may harm our growth prospects and financial results. Additionally, the failure of our Concepts' franchisees to focus on key elements of restaurant operations, such as compliance with our operating standards addressing quality, service and cleanliness (even if such failures do not breach the franchise documents), may be attributed by guests to our Concepts' brand and could negatively impact our reputation, business and/or our growth prospects. Moreover, franchisee noncompliance with our franchise agreements may reduce the overall customer perception and goodwill of our Concepts' brands, including by failing to meet health and safety standards, to engage in quality control or maintain product consistency or to comply with cybersecurity requirements, as well as through the participation in improper business practices.

We have franchise relationships that are particularly important to our business due to their scale and/or growth prospects such as our relationship with Yum China. Any failure to realize the expected benefits of such franchise relationships, including with Yum China, may adversely impact our business, growth prospects and operating results. In connection with the spin-off of our China business in 2016 into an independent publicly-traded company (the "Separation" or "Yum China spin-off"), we entered into a Master License Agreement ("MLA") pursuant to which Yum China is the exclusive licensee of the KFC, Taco Bell and Pizza Hut Concepts and their related marks and other intellectual property rights for restaurant services in mainland China. Following the Separation, Yum China became, and continues to be, our largest franchisee.

We may not achieve our target restaurant development goal and new restaurants may not be profitable.

Our growth strategy depends on our and our Concepts' franchisees' ability to increase the number of restaurants around the world. The successful development of new units depends in large part on the ability of our Concepts' franchisees to open new restaurants and to operate these restaurants profitably. Effectively managing growth can be challenging, particularly as we expand into new markets, and we cannot guarantee that we, or our Concepts' franchisees, including Yum China, will be able to achieve our expansion goals or that new restaurants will be operated profitably, consistent with results of existing restaurants or with our or our Concepts' franchisees' expectations. Other risks that could impact our ability to open new restaurants include:

(i) economic conditions and trade or economic policies or sanctions, (ii) our ability to attract new franchisees, (iii) new restaurant construction and development costs, (iv) our Concepts' franchisees' ability to meet new restaurant permitting, construction, development and team member training timelines, and (v) supply chain challenges, including our ability to secure sufficient supply to support new restaurants.

Expansion could also be affected by our Concepts' franchisees' willingness to invest capital or ability to obtain financing to construct and open new restaurants. If it becomes more difficult or more expensive for our Concepts' franchisees to obtain financing to develop new restaurants, or if the perceived return on invested capital is not sufficiently attractive, the expected growth of our system could slow and our future financial results could be adversely impacted.

In addition, new restaurants could impact the sales of our Concepts' existing restaurants nearby, and the risks of such sales cannibalization may become more significant in the future as we increase our presence in existing markets.

We may not realize the anticipated benefits from past or potential future acquisitions, investments or other strategic transactions, or our portfolio business model.

From time to time we have completed, and we may evaluate and continue to complete, mergers, acquisitions, divestitures, joint ventures, strategic partnerships, minority investments (including minority investments in third parties, such as, franchisees or master franchisees) and other strategic transactions.

Past and potential future strategic transactions may involve various inherent risks, including, without limitation:

- expenses, delays or difficulties in integrating acquired companies, joint ventures, strategic partnerships or investments into our organization, including the failure to realize expected synergies and/or the inability to retain key personnel;
- diversion of management's attention from other initiatives and/or day-to-day operations to effectively execute our growth strategy;
- inability to generate sufficient revenue, profit, and cash flow from acquired companies, joint ventures, strategic partnerships or investments;
- the possibility that we have acquired substantial contingent or unanticipated liabilities in connection with acquisitions or other strategic transactions; and
- the possibility that our interests and strategic direction do not align with those of acquired companies or other parties that maintain an interest in our investments.

Past and potential future strategic transactions may not ultimately create value for us and may harm our reputation and adversely affect our business, growth prospects, financial condition and results of operations. In addition, we account for certain investments, including minority investments in certain franchisees such as Devyani International Limited, on a mark-to-market basis and, as a result, changes in the fair value of these investments impact our reported results. Changes in market prices for equity securities are unpredictable, and our investments have caused, and could continue to cause, fluctuations in our results of operations and/or growth prospects.

Risks Related to Operating a Global Business

We have exposure to the Chinese market through our largest franchisee, Yum China, which subjects us to risks that could negatively affect our business and/or our growth prospects.

A meaningful portion of our total business, particularly with respect to our KFC Concept, is conducted in mainland China through our largest franchisee, Yum China. We are contractually entitled to receive a 3% sales-based license fee on all Yum China system sales related to our KFC, Taco Bell and Pizza Hut Concepts. Yum China's business is exposed to risks in mainland China, which include, among others, potential political, financial and social instability, changes in economic conditions (including consumer spending, unemployment levels and ongoing wage and commodity inflation), consumer preferences, the regulatory environment (including uncertainties with respect to the interpretation and enforcement of Chinese laws, rules and regulations), heightened data and cybersecurity risks associated with the conduct of business in China, and food safety related matters (including compliance with food safety regulations and ability to ensure product quality and safety). Any significant or prolonged deterioration in U.S.–China relations, including as the result of current U.S.–China tensions, could adversely affect our Concepts in mainland China. Additionally, Chinese law regulates Yum China's business conducted in mainland China, and as such our

ITEM 1A. RISK FACTORS.

license fee from the Yum China business is subject to numerous uncertainties based on Chinese laws, regulations and policies, which may change from time to time. If Yum China's business is harmed or development of our Concepts' restaurants is slowed in mainland China due to any of these factors, it could negatively impact the license fee paid by Yum China to us, which would negatively impact our financial results.

Our relationship with Yum China is governed primarily by a MLA, as amended from time to time, which may be terminated upon the occurrence of certain events, such as the insolvency or bankruptcy of Yum China. In addition, if we are unable to enforce our intellectual property or contract rights in mainland China, if Yum China is unable or unwilling to satisfy its obligations under the MLA, or if the MLA is otherwise terminated, it could result in an interruption in the operation of our brands that have been exclusively licensed to Yum China for use in mainland China. Disputes over the proper interpretation of the MLA have arisen in the past and may arise from time to time in the future. Such interruption or disputes could cause a delay in, or loss of, the license fee paid to us, which would negatively impact our financial results.

Our global operations subject us to risks that could negatively affect our business.

A significant portion of our Concepts' restaurants are operated outside of the U.S., and we intend to continue expansion of our global operations. As a result, our and our Concepts' franchisees' business and/or growth prospects are increasingly exposed to risks inherent in global operations. These risks, which can vary substantially by country, include political, financial or social instability or conditions, corruption, increasing anti-American sentiment and perception of our Concepts as American brands, social and ethnic unrest, natural disasters, military conflicts and terrorism, as well as exposure to the macroeconomic environment in such markets, the regulatory environment (including the risks of operating in markets in which there are uncertainties regarding the interpretation and enforceability of legal requirements and the enforceability of contract rights and intellectual property rights), and income and non-income based tax rates and laws. Additional risks include the impact of import restrictions or controls, sanctions, foreign exchange control regimes (including restrictions on currency conversion), health guidelines and safety protocols, labor costs and conditions, compliance with the U.S. Foreign Corrupt Practices Act, the UK Bribery Act and other similar applicable laws prohibiting bribery of government officials and other corrupt practices, and the laws and policies that govern foreign investment in countries where our Concepts' restaurants are operated. For example, we have been subject to a regulatory enforcement action in India alleging violation of foreign exchange laws for failure to satisfy conditions of certain operating approvals, such as minimum investment and store build requirements as well as limitations on the remittance of fees outside of the country (see Note 20).

As a result of our global operations, we also have increased exposure to geopolitical events and instability. We have been adversely affected, and may continue to be adversely affected, by ongoing geopolitical instability arising from current events such as the military conflict between Russian and Ukraine, and the conflict in the Middle East. Such conflicts may affect our business and operations as result of, among other things, the economic consequences and disruptions from such conflicts, increased energy and supply prices, consumer boycotts of Western brands, consumer reaction to perceived acts or failures to act by us or our Concepts including maintaining operations in countries or regions that are linked to such conflicts, and economic sanctions restricting cross-border commerce. These risks may be further heightened if either conflict expands in scope, or other conflicts arise in other areas of the globe. As a result of the conflict between Russia and Ukraine, we no longer have any corporate presence in Russia following our disposal of our Pizza Hut and KFC businesses in Russia during the second quarters of 2022 and of 2023, respectively.

In addition, we and our Concepts' franchisees do business in jurisdictions that may be subject to trade or economic sanction regimes, which sanctions could be expanded. Any failure to comply with such sanctions or other similar legal requirements could result in the imposition of damages or penalties, the suspension of business licenses, or a cessation of operations at our Concepts' restaurants, as well as damage to our and our Concepts' brand images and reputations.

Foreign currency risks and foreign exchange controls could adversely affect our financial results.

Our results of operations, growth prospects and the value of our assets are affected by fluctuations in currency exchange rates, which have had, and may continue to have adverse effects on our reported earnings. More specifically, an increase in the value of the U.S. dollar, relative to other currencies, such as the Chinese Renminbi ("RMB"), Australian Dollar, the British Pound and the Euro, as well as currencies in certain other markets have had and could continue to have an adverse effect on our reported earnings. Any significant fluctuation in the value of currencies of countries in which we or our Concepts' franchisees operate, and in particular RMB in China, could materially impact the U.S. dollar value of royalty payments made to us, which could result

in lower revenues. In addition, fluctuations in the value of currencies in which we or our Concepts' franchisees operate could lead to increased costs and lower profitability to us or our Concepts' franchisees and/or cause us or our Concepts' franchisees to increase prices to customers, which could negatively impact sales in these markets and harm our financial results. In addition, the governments in certain countries where our Concepts operate, including China and certain others, restrict the conversion of local currency into foreign currencies and, in certain cases, the remittance of currency out of the country. Currency control restrictions on the conversion of other currencies to U.S. dollars or restrictions imposed by countries on cash remittances could cause royalty payments to us to be delayed, remitted only partially or not remitted at all, which could cause us to incur bad debt expense and impact our liquidity.

Risks Related to Technology, Data Privacy and Intellectual Property

Any cybersecurity incident, including the failure to protect the integrity or availability of IT systems or the security of Confidential Information, or the introduction of malware or ransomware, could materially affect our business, financial results and/or our growth prospects and result in substantial costs, litigation, reputational harm and a loss of consumer confidence.

Our business relies heavily on computer systems, hardware, software, technology infrastructure and online websites, platforms and networks (collectively, "IT Systems") to support both internal and external, including franchisee-related, operations. We own and manage some of these IT Systems but also rely on third parties for a range of IT Systems and related products and services. In addition, we and other parties (such as vendors and franchisees), collect, transmit and/or maintain certain personal, financial and other information about our customers, employees, vendors and franchisees, as well as proprietary information pertaining to our business (collectively, "Confidential Information"). The security and availability of our IT Systems and Confidential Information is critical to our business and regulated by evolving and increasingly demanding laws and regulations in various jurisdictions, certain third-party contracts and industry standards.

The current cyber threat environment presents increased risk for all companies, including companies in our industry. The cybersecurity risks we face include cyber-attacks involving ransomware and malicious software, phishing, and other attempts by third parties and others to access, acquire, use, disclose, misappropriate or manipulate our information, systems, databases, processes and people. We are regularly the target of cyber-attacks and other attempts to breach, or gain unauthorized access to, our systems and databases. Moreover, given the current cyber threat environment, we expect the volume and intensity of cyber-attacks and attempted intrusions to continue to increase. Further, the information systems of third parties upon which we rely in connection with our business, such as vendors, suppliers, franchisees and third-party delivery providers, could be compromised in a manner that adversely affects us and our information systems and business continuity and could result in indemnification claims or other disputes with such third parties. Despite our security measures, we have experienced security incidents from time to time and we may continue to experience such attacks and incidents in the future. In particular, on January 18, 2023, we announced a ransomware attack that impacted certain IT Systems which resulted in the closure of fewer than 300 restaurants in one market for one day, temporarily disrupted certain of our affected systems and resulted in data being taken from our network. We have incurred, and will continue to incur, certain expenses related to this attack, including expenses to respond to, remediate and investigate this matter. We remain subject to risks and uncertainties as a result of the incident, including as a result of the data that was taken from the Company's network.

There is no assurance that the security measures we take to reduce the risk of such incidents and protect our systems will be sufficient. There can be no assurance that our cybersecurity risk management program and processes, including our policies, controls or procedures, will be fully implemented, complied with or effective in protecting our systems and information. Additionally, the cybersecurity risks we face are exacerbated by an increase in the use of and reliance on our digital commerce platforms. Moreover, advanced new attacks against information systems and devices by potential malicious attackers, including nation-state actors, state-sanctioned groups, advanced persistent threats, and known and unknown ransomware groups, increase the risk of cybersecurity incidents, including ransomware, malware and phishing attacks. The rapid evolution and increased adoption of artificial intelligence technologies may also heighten our cybersecurity risks by making cyber-attacks more difficult to detect, contain, and mitigate. Other adversarial cyber actions that may occur, such as credential stuffing or distributed denial-of-service attacks, may affect consumer confidence, our ability to provide digital commerce platforms, or lead to regulatory actions or litigation. Furthermore, the significant increase in remote working and personal device use, increases the risks of cyber incidents and the improper dissemination of personal or Confidential Information.

If our IT Systems or the information systems of any of our franchisees are disrupted or compromised, or the information systems of businesses with which we interact, such as suppliers or distributors or third-party delivery providers, are disrupted or compromised, in a manner which impacts us or our IT Systems, as a result of a cyber-attack, data or security breach, or other

ITEM 1A. RISK FACTORS.

security incident, or if our employees, franchisees or vendors fail to comply with applicable laws and regulations or fail to meet contractual and industry standards in connection therewith, any such developments could result in liabilities and penalties, have an adverse impact on our financial results and growth prospects, damage our brands and reputation, cause interruption of normal business operations, cause us to incur substantial costs, result in a loss of consumer confidence and sales and disrupt our supply chain, business and plans. Additionally, such events could result in the loss, misappropriation, corruption or unauthorized access, acquisition, use or disclosure of data or inability to access data, the release of Confidential Information about our operations and subject us to litigation and government enforcement actions. Moreover, any significant cybersecurity event could require us to devote significant management time and resources to address such events, interfere with the pursuit of other important business strategies and initiatives, and cause us to incur additional expenditures, which could be material, including to investigate such events, remedy cybersecurity problems, recover lost data, prevent future compromises and adapt systems and practices in response to such events. There is no assurance that any remedial actions will meaningfully limit the success of future attempts to breach our IT Systems, particularly because malicious actors are increasingly sophisticated and utilize tools and techniques specifically designed to circumvent security measures, avoid detection and obfuscate forensic evidence, which means we may be unable to identify, investigate or remediate effectively or in a timely manner. Additionally, while we maintain insurance coverage designed to address certain aspects of cybersecurity risks, such insurance coverage may be insufficient to cover all losses or all types of claims that may arise. Further, our franchisees may not have insurance coverage (or may have insufficient insurance coverage) designed to cover business interruption losses and/or all types of claims that may arise from cybersecurity risks.

Further, the standards and the technology currently used for transmission and approval of electronic payment transactions can put such data at risk, and are determined and controlled by the payment card industry, not by us. If we or our Concepts' franchisees fail to adequately control fraudulent credit card and debit card transactions or to comply with the global Payment Card Industry Data Security Standards, we or our Concepts' franchisees may face civil liability, diminished public perception of our security measures, fines and assessments from the card brands, and significantly higher credit card and debit card related costs, any of which could adversely affect us.

The failure to maintain satisfactory compliance with data privacy and data protection legal requirements may adversely affect our business and/or growth prospects and subject us to penalties.

Data privacy is subject to frequently changing legal requirements, which sometimes conflict among the various jurisdictions where we and our Concepts' franchisees do business. For example, we are subject to numerous global laws, including but not limited to, the European Union's ("E.U.") General Data Protection Regulation ("GDPR") and the UK General Data Protection Regulations, which impose strict data protection requirements and provide for significant penalties for noncompliance. In addition, within the U.S., various states, including California, have passed laws that require companies that process information with respect to consumers to, among other things, provide new disclosures and options to consumers about data collection, use and sharing practices. Some of these laws are already in effect, while others are proposed and will go into effect in the coming years. Moreover, the U.S. federal government and a significant number of additional states are considering expanding or passing privacy laws in the near term. These and other newly enacted and evolving legal requirements, such as the E.U.'s Directive 2011/16/EU on administrative cooperation in the field of taxation (referred to as "DAC7"), have required, and may continue to require, us and our Concepts' franchisees to modify our data processing practices and policies and to incur substantial costs and expenses to comply. Moreover, some of these laws, such as the GDPR and the California Consumer Privacy Act, confer a private right-of-action to certain individuals and associations. Additionally, state regulatory bodies and other governmental authorities tasked with enforcing new privacy laws are engaging in enforcement investigations and actions. Future enforcement priorities from these bodies may be unclear or changing. Failure to comply with these and any other comprehensive privacy laws passed at the international, federal or state level may result in regulatory enforcement action, the imposition of monetary penalties, and damage our reputation.

The Federal Trade Commission ("FTC") and many state attorneys general are also interpreting federal and state consumer protection laws to impose standards for the collection, use, dissemination and security of data. The FTC has also been pursuing privacy as a dedicated enforcement priority, with specialized attorneys seeking enforcement action for violation of US privacy laws including unfair or deceptive practices relating to privacy policies, consumer data collection and processing consent, and digital advertising practices. Various other jurisdictions where our Concepts have operations, have significantly strengthened, and may continue to strengthen, their data privacy requirements. Moreover, new and changing cross-border data transfer requirements, including the implementation of Standard Contractual Clauses published by the European Commission in June 2021 and the UK International Data Transfer Agreement finalized by the UK in March 2022, will require us to incur costs to

comply and may impact the transfer of personal data throughout our organization and to third parties. Additionally, we are subject to increasing legal requirements with respect to the use of artificial intelligence and machine learning applications and tools (including in relation to hiring and employment practices and in digitally marketing our Concepts), data collected from minors, and biometric information. These legal requirements are rapidly changing and are not consistent across jurisdictions, and our inability to adapt to or comply with such legal requirements may adversely impact us, including as the result of liabilities or penalties as the result of any such non-compliance.

The increasingly complex, restrictive and evolving regulatory environment at the international, federal and state level related to data privacy and data protection may require significant continued effort and cost, changes to our business practices and impact our ability to obtain and use data to provide personalized experiences for our customers. In addition, failure to comply with applicable requirements may subject us and our Concepts' franchisees to fines, sanctions, governmental investigation, lawsuits and other potential liability, as well as reputational harm.

Unreliable or inefficient restaurant technology or the failure to successfully implement technology initiatives in the future could adversely impact operating results, growth prospects and the overall consumer experience.

We and our Concepts' franchisees rely heavily on IT Systems to efficiently operate our restaurants and drive the customer experience, sales growth and margin improvement. Our growth may be impacted by our initiatives to implement proprietary technology, as well as third-party technology solutions (including point-of-sale processing in our restaurants, management of our supply chain, and various other processes and procedures) and gather and leverage data to enhance restaurant operations and improve the customer experience. These IT Systems are subject to damage, interruption or failure due to theft, fire, power outages, telecommunications failure, computer viruses, employee misuse, security breaches, malicious cyber-attacks including the introduction of malware or ransomware or other disruptive behavior by hackers, or other catastrophic events. If our or our Concepts' franchisees' IT Systems are damaged or fail to function properly, we may incur substantial costs to repair or replace them, and may experience loss of critical data and interruptions or delays in our ability to manage inventories or process transactions, which could result in lost sales, customer or employee dissatisfaction, or negative publicity that could adversely impact our reputation, growth prospects, results of operations and financial condition.

Moreover, our failure to adequately invest in new technology or adapt to technological advancements and industry trends, particularly with respect to digital commerce capabilities, could result in a loss of customers and related market share. If our Concepts' digital commerce platforms do not meet customers' expectations in terms of security, speed, privacy, attractiveness or ease of use, customers may be less inclined to return to such digital commerce platforms, which could negatively impact us and our Concepts' franchisees. Developing and implementing consumers' evolving technology demands may place a significant financial burden on us and our Concepts' franchisees, and our Concepts' franchisees may have differing views on investment priorities. Our strategic digital and technology initiatives may not be timely implemented or may not achieve the desired results. Failure to adequately manage implementations, updates or enhancements of new technology or interfaces between platforms could place us at a competitive disadvantage, and disrupt and otherwise adversely impact our operations and/or growth prospects. It may be difficult to recruit and retain qualified individuals for these efforts due to intense competition for qualified technology systems' developers necessary to innovate, develop and implement new technologies for our growth initiatives, including increasing our digital relationship with customers. Even if we effectively implement and manage these technology initiatives, there is no guarantee that this will result in sales growth or margin improvement.

Certain IT Systems which are managed, hosted, provided and/or used by third parties may also be unreliable or inefficient, and technology vendors may limit or terminate product support and maintenance, which could impact the reliability of critical systems' operations. However, if there are issues with the proprietary technology, we may be subject to liability or financial penalties to our Concepts' franchisees.

We cannot predict the impact that alternative methods of delivery, including autonomous vehicle delivery and third-party delivery technology solutions, or changes in consumer behavior facilitated by these alternative methods of delivery, will have on our business. Advances in alternative methods of delivery, including advances in digital ordering technology, or certain changes in consumer behavior driven by these or other technologies and methods of delivery, could have a negative effect on our business, growth prospects and market position.

Moreover, technology and consumer offerings continue to develop and evolve and we cannot predict consumer or team member acceptance of these existing and new technologies (e.g. automation, artificial intelligence, new delivery channels) or

ITEM 1A. RISK FACTORS.

their impact on our business, and/or our growth prospects, nor can we be certain of our ability to implement or execute such technologies, which could result in loss of sales; dissatisfaction from our customers, employees, or employees of our Concepts' franchisees; or negative publicity that could adversely impact our reputation or financial results.

There are risks associated with our increasing dependence on digital commerce platforms to maintain and grow sales.

Customers are increasingly using our internally-owned e-commerce websites and apps, such as kfc.com, tacobell.com, pizzahut.com, habitburger.com, and the KFC, Taco Bell, Pizza Hut and The Habit Burger Grill apps in the U.S., as well as apps owned by third-party delivery aggregators and third-party developers and payment processors, to order and pay for our Concepts' products. Moreover, there has been a rapid increase in the use of owned and/or third-party delivery services by our Concepts. As a result, our Concepts and our Concepts' franchisees are increasingly reliant on digital ordering and payment as a sales channel and our business and/or growth prospects could be negatively impacted if we are unable to successfully implement, execute or maintain our consumer-facing digital initiatives, such as delivery, curbside pick-up and mobile carryout. If the third-party aggregators that we utilize for delivery, including marketplace and delivery as a service, cease or curtail their operations, fail to maintain sufficient labor force to satisfy demand, provide poor customer service, materially change fees, access or visibility to our products, or give greater priority or promotions to our competitors, our reputation, business and/or growth prospects may be negatively impacted. In addition, third-party delivery services typically charge restaurants a per order fee, and as such utilizing third-party delivery services may not be as profitable as sales directly to our customers, and may also introduce food quality and customer satisfaction risks outside of our control. These digital ordering and payment platforms also could be damaged or interrupted by power loss, technological failures, user errors, cyber-attacks, other forms of sabotage, inclement weather or natural disasters and have experienced interruptions and could experience further interruptions, which could limit or delay customers' ability to order through such platforms or make customers less inclined to return to such platforms. The rapid acceleration in growth of digital sales has placed additional stress on those platforms that are more reliant upon legacy technology, such as certain platforms used by Pizza Hut, which may result in more frequent and potentially more severe interruptions. Moreover, our reliance on multiple digital commerce platforms to support our global footprint, multiple Concepts and highly franchised business model could increase our vulnerability to cyber-attacks and/or security breaches and could necessitate additional expenditures as we endeavor to consolidate and standardize such platforms.

Yum China, our largest franchisee, utilizes third-party mobile payment apps such as Alipay, WeChat Pay and Union Pay as a means through which to generate sales and process payments. Should customers become unable to access mobile payment apps in China, should the relationship between Yum China and one or more third-party mobile payment processors become interrupted, or should Yum China's ability to use Alipay, WeChat Pay, Union Pay or other third-party mobile payment apps in its operations be restricted, its business could be adversely affected, which could have a negative impact on the license fee paid to us.

Our inability or failure to recognize, respond to and effectively manage the increased impact of social media could adversely impact our business and/or growth prospects.

There has been a marked increase in the use of social media platforms, including blogs, chat platforms, social media websites, and other forms of Internet-based communications which allow individuals access to a broad audience of consumers and other interested persons. The rising popularity of social media and other consumer-oriented technologies has increased the speed and accessibility of information dissemination and given users the ability to more effectively organize collective actions such as boycotts and other brand-damaging behaviors. Many social media platforms immediately publish content, often without filters or checks on accuracy. Information posted on such platforms may be adverse to our interests and/or may be inaccurate. The dissemination of information online could harm our reputation, business and/or growth prospects, regardless of the information's accuracy. The damage may be immediate without an opportunity for redress or correction.

In addition, social media is frequently used by our Concepts or Concepts' franchisees to communicate with customers and the public. Failure by our Concepts or Concepts' franchisees to use social media effectively or appropriately, particularly as compared to our Concepts' competitors, could lead to a decline in brand reputation, brand value, customer visits and revenue. Social media is also increasingly used to compel companies to express public positions on issues and topics not directly related to their core business, which could prove controversial or divisive to consumers and result in lost sales or a misallocation of resources. In addition, laws and regulations, including FTC enforcement, are rapidly evolving to govern social media platforms and communications. A failure of us, our employees, our Concepts' franchisees or third parties acting at our direction or on our behalf, or others perceived to be associated with us or our Concepts' franchisees, to abide by applicable laws and regulations regarding the use of social media, or to appropriately use social media, could adversely impact our Concepts' brands, our

reputation, our business and our growth prospects, result in negative publicity, or subject us or our Concepts' franchisees to fines, other penalties or litigation. Other risks associated with the use of social media include improper disclosure of proprietary information, negative comments about our Concepts' brands, exposure of personally identifiable information, fraud, hoaxes or malicious dissemination of false information.

Failure to protect our trademarks or other intellectual property could harm our Concepts' brands and overall business and/or growth prospects.

We regard our registered trademarks (e.g., Yum[®], KFC[®], Taco Bell[®], Pizza Hut[®] and The Habit[®]), unregistered trademarks, copyrightable works, inventions, and trade secrets related to our restaurant businesses as having significant value and being important to our marketing efforts. Our trademarks, many of which are registered in various jurisdictions, create brand awareness and help build goodwill among our customers.

We rely on a combination of legal protections provided by trademark registrations, contracts, copyrights, patents and common law rights, such as unfair competition, passing off and trade secret laws to protect our intellectual property from potential infringement. However, from time to time, we become aware of other persons or companies using names and marks that are identical or confusingly similar to our brands' names and marks, or using other proprietary intellectual property we own. Although our policy is to challenge infringements and other unauthorized uses of our intellectual property, certain or unknown unauthorized uses or other misappropriation of our trademarks and other intellectual property could diminish the value of our Concepts' brands and adversely affect our business, growth prospects and goodwill.

In addition, effective intellectual property protection may not be available in every country in which our Concepts have, or may in the future open or franchise, a restaurant and the laws of some countries do not protect intellectual property rights to the same extent as the laws of the U.S. There can be no assurance that the steps we have taken to protect our intellectual property or the legal protections that may be available will be adequate or that our Concepts' franchisees will maintain the quality of the goods and services offered under our brands' trademarks or always act in accordance with guidelines we set for maintaining our brands' intellectual property rights and defending or enforcing our trademarks and other intellectual property could result in significant expenditures.

Our brands may also be targets of infringement claims that could interfere with the use of certain names, trademarks, works of authorship and/or the proprietary know-how, inventions, recipes, or trade secrets used in our business. Defending against such claims can be costly, and as a result of defending such claims, we may be prohibited from using such intellectual property or proprietary information in the future or forced to pay damages, royalties, or other fees for using such proprietary information, any of which could negatively affect our business, growth prospects, reputation and financial results.

Risks Related to Our Supply Chain and Employment

Shortages or interruptions in the availability and delivery of food, equipment and other supplies may increase costs or reduce revenues.

The products sold or used by our Concepts and their franchisees are sourced from a wide variety of suppliers although certain products and equipment have limited suppliers, which increases our reliance on those suppliers. We, along with our Concepts' franchisees, are also dependent upon third parties to make frequent deliveries of food products, equipment and supplies that meet our specifications at competitive prices. Shortages or interruptions in the supply or distribution of food items, equipment and other supplies to our Concepts' restaurants have happened from time to time and could reduce sales, harm our Concepts' reputations and delay the planned openings of new restaurants by us and our Concepts' franchisees. We have experienced and may continue to experience certain supply chain disruptions resulting from the current macroeconomic environment, which have adversely affected and may continue to adversely affect our business, growth prospects and results of operations. Future shortages or disruptions could also be caused by factors such as natural disasters, health epidemics and pandemics, social unrest, the impacts of climate change, inaccurate forecasting of customer demand, problems in production or distribution, restrictions on imports or exports including due to trade disputes or restrictions, the inability of vendors to obtain credit, political instability in the countries in which the suppliers and distributors are located, the financial instability of suppliers and distributors, suppliers' or distributors' failure to meet our standards or requirements, transitioning to new suppliers or distributors, product quality issues or recalls, inflation, food safety warnings or advisories, the cancellation of supply or distribution agreements or an inability to renew such arrangements or to find replacements on commercially reasonable terms.

ITEM 1A. RISK FACTORS.

In addition, in the U.S., the Company and the Company's KFC, Taco Bell and Pizza Hut franchisee groups are members of Restaurant Supply Chain Solutions, LLC ("RSCS"), which is a third party responsible for purchasing certain restaurant products and equipment. The Habit Burger Grill entered into a purchasing agreement with RSCS in 2020. RSCS manages our relationship with McLane Foodservice, Inc. ("McLane") which serves as the largest distributor for the Company's KFC, Taco Bell and Pizza Hut Concepts in the U.S. RSCS and McLane both have certain contractual rights to terminate the relevant distribution contract upon a specified notice period. Any failure or inability of our significant suppliers or distributors to meet their respective service requirements or any termination of relevant agreements without a notice period sufficient to enable an appropriate transition, could result in shortages or interruptions in the availability of food and other supplies.

The loss of key personnel, labor shortages and increased labor costs could adversely affect our business and/or growth prospects.

Much of our future success depends on the continued availability and service of senior management personnel. The loss or failure to engage in adequate succession planning of any of our executive officers or other key senior management personnel could harm our business and/or our growth prospects.

In addition, our restaurant operations are highly service-oriented and our success depends in part on our and our Concepts' franchisees' ability to attract, retain and motivate a sufficient number of qualified employees, including franchisee management, restaurant managers and other crew members. Our Concepts and their franchisees have experienced and may continue to experience increased labor shortages and employee turnover at many of our restaurants and increased competition for qualified employees, taking into account ongoing challenging labor market conditions. These labor market conditions and the ongoing inflationary environment in markets where we operate have increased in recent years, and may continue to increase, the labor costs for our Concepts and their franchisees, including due to the payment of higher wages to attract or retain qualified employees (including franchisee management, restaurant managers and other crew members) and due to increased overtime costs to meet demand. Such increases in labor costs have also been driven by, and may continue to be driven by, higher minimum wages at the federal, state or local level, including in connection with the increases in minimum wages that have recently been enacted by various states and any potential increase in the federal minimum wage in the U.S. Moreover, there may be a long-term trend toward higher wages in emerging markets as well as various other markets. For example, California's Assembly Bill No. 1228 ("AB 1228") raises the minimum wage to \$20 an hour beginning April 2024 (with annual increases through 2030) for workers at quick service restaurants in the state that are part of brands that have more than 60 establishments nationwide. AB 1228 also creates an advisory-only council with powers to recommend that state agencies enact additional health, safety and employment standards for quick service restaurants. Because AB 1228 will increase the operating costs for our Concepts' restaurants in California, it may have an adverse impact on and disrupt the operations of our Concepts' restaurants located there.

The inability to recruit and retain a sufficient number of qualified individuals at the store level may result in reduced operating hours, have a negative impact on service or customer experience, delay our planned use, development or deployment of technology, impact planned openings of new restaurants, or result in closures of existing restaurants by us and our Concepts' franchisees, any of which could adversely affect our business. In addition, our Concepts and their franchisees may be subject to increasing union activity in the restaurant space. In the event of a strike, work slowdown or other labor unrest, the ability to adequately staff at the store level could be impaired, which could adversely impact our operations, growth prospects and distract management from focusing on our business and strategic priorities.

An increase in food prices and other operating costs may have an adverse impact on our business and/or our growth prospects.

Our and our Concepts' franchisees' businesses depend on reliable sources of large quantities of raw materials such as proteins (including poultry, pork, beef and seafood), cheese, oil, flour and vegetables (including potatoes and lettuce). Raw materials purchased for use in our Concepts' restaurants are subject to price volatility caused by any fluctuation in aggregate supply and demand, or other external conditions, such as weather and climate conditions, (which may be exacerbated by climate change), energy costs or natural events or disasters that affect expected harvests of such raw materials, taxes and tariffs (including as a result of trade disputes), industry demand, inflationary conditions, labor shortages, transportation issues, fuel costs, food safety concerns, product recalls, governmental regulation and other factors, all of which are beyond our control and in many instances are unpredictable. Taking into account ongoing inflationary conditions, we have recently experienced and expect to continue to experience, an increase in the price of various raw materials and other operating costs (such as rent and energy costs) as well as increased volatility in such prices and costs, which has adversely affected, and may continue to adversely affect our results of operations and/or our growth prospects. In addition, a significant increase in gasoline prices could result in the imposition of fuel surcharges by our distributors.

We and/or our Concepts' franchisees have taken, and may continue to take, certain actions as a result of recent inflationary increases in food and other operating costs noted above, including by increasing food prices beyond typical pricing patterns at certain of our Concepts' restaurants, attempting to negotiate favorable pricing terms with our suppliers and/or shifting to suppliers with more favorable pricing where feasible, and utilizing forward contracts and commodity futures and options contracts where possible to hedge commodity prices. However, because we and our Concepts' franchisees provide competitively priced food, we have not always been able to pass through to our customers the full amount of our cost increases or otherwise fully mitigate the cost increases experienced by us or our Concepts' franchisees. If we and our Concepts' franchisees are unable to manage the cost of raw materials or to increase the prices of products proportionately, our and our Concepts' franchisees' profit margins and return on invested capital may be adversely impacted. Moreover, to the extent that we raise menu prices to offset these costs, this could result in decreased consumer demand and adversely affect our business and/or our growth prospects.

Risks Related to our Concepts' Brands and Reputation

Our success depends substantially on our corporate reputation and on the value and perception of our brands.

Our success depends in large part upon our ability and our Concepts' franchisees' ability to maintain and enhance our corporate reputation and the value and perception of our brands, and a key aspect of our growth strategy is based on innovating and elevating the perception of our restaurant brands. Brand value is based in part on consumer perceptions regarding a variety of subjective factors, including the nutritional content and preparation of our food, our ingredients, food safety, our business practices, including with respect to how we source commodities, and our pricing (including price increases and discounting). Consumer acceptance of our offerings is subject to change and some changes can occur rapidly. For example, nutritional, health and other scientific studies and conclusions, which constantly evolve and may have contradictory implications, drive popular opinion, litigation and regulation (including initiatives intended to drive consumer behavior) in ways that may affect perceptions of our Concepts' brands generally or relative to alternatives. The retail food industry has also been subject to scrutiny and claims that the menus and practices of restaurant chains have led to customer health issues, such as weight gain and other adverse effects. Publicity about these matters (particularly directed at the quick service and fast-casual segments of the retail food industry) may harm our Concepts' reputations and adversely affect our business and/or our growth prospects. Moreover, this scrutiny could lead to increased regulation of the content or marketing of our products, including legislation or regulation taxing and/or regulating food with high-fat, sugar and salt content, or foods otherwise deemed to be "unhealthy," which may increase costs of compliance and remediation to us and our Concepts' franchisees. Additionally, if the demand for offerings at our Concepts' restaurants and other fast-casual or quick service segments of the retail food industry decreases or shifts as a result of wellness trends or changing dietary preferences, including as a result of developments in or increased adoption of weight loss medications, our business, financial results and/or growth prospects may be adversely impacted.

In addition, business or other incidents, whether isolated or recurring, and whether originating from us, our Concepts' restaurants, franchisees, competitors, governments, suppliers or distributors, can significantly reduce brand value and consumer perception, particularly if the incidents receive considerable publicity or result in litigation or investigations. For example, the reputation of our Concepts' brands could be damaged by claims or perceptions about the quality, safety or reputation of our products, suppliers, distributors or franchisees or by claims or perceptions that we, founders of our Concepts, our Concepts' franchisees or other business partners have acted or are acting in an unethical, illegal, racially-biased or socially irresponsible manner or are not fostering an inclusive and diverse environment, including with respect to the service and treatment of customers at our Concepts' restaurants, and our or our Concepts' franchisees' treatment of employees, regardless of whether real or perceived. Our corporate reputation could also suffer from negative publicity or consumer sentiment regarding Company action or brand imagery, misconduct by any of our or our Concepts' franchisees' employees, or a real or perceived failure of corporate governance. Any such developments could adversely impact the perception of, our Concepts' brands or our products, reduce consumer demand for our products or otherwise adversely impact us.

We cannot guarantee that franchisees or other third parties with licenses to use our intellectual property will not take actions that may harm the value of our intellectual property. Franchisee use of our Concepts' trademarks are governed through franchise agreements and we monitor use of our trademarks by both franchisees and third parties, but franchisees or other third parties use or may refer to or make statements about our Concepts' brands that do not make proper use of our trademarks or required designations, that improperly alter trademarks or branding, or that are critical of our Concepts' brands or place our Concepts' brands in a context that may tarnish their reputation. Moreover, unauthorized third parties, including our Concepts' current and former franchisees, may use our intellectual property to trade on the goodwill of our Concepts' brands, resulting in consumer confusion or brand dilution.

ITEM 1A. RISK FACTORS.

Our ability to reach consumers and drive results is heavily influenced by brand marketing and advertising and our ability to adapt to evolving consumer preferences, including developing and launching new and innovative products and offerings. Our marketing and advertising programs may not be as successful as intended, or may not be as successful as our competitors, and thus, may adversely affect our reputation, business, our growth prospects and the strength of our brand. In addition, any decisions we may make to collaborate or cease to collaborate with certain endorsers or marketing partners in light of actions taken or statements made by them could seriously harm our brand image with consumers, and, as a result, could have an adverse effect on our reputation and financial results.

We are subject to increasing and evolving expectations and requirements with respect to social and environmental sustainability matters, which could expose us to numerous risks.

There has been an increased focus, including from investors, the public and governmental and nongovernmental authorities, on social and environmental sustainability matters, such as climate change, greenhouse gases, packaging and waste, human rights, diversity, sustainable supply chain practices, animal health and welfare, deforestation, land, energy and water use and other corporate responsibility matters. At the same time, other stakeholders and regulators have increasingly expressed or pursued opposing views, legislation and investment expectation with respect to sustainability initiatives, including so-called anti-environmental, social and governance (“ESG”) legislation or policies. We are and may become subject to changing rules and regulations promulgated by governmental and self-regulatory organizations with respect to social and environmental sustainability matters. These changing rules, regulations and stakeholder expectations have resulted in, and are likely to continue to result in, an increase in expenses and management focus associated with satisfying such regulations and expectations. As a result of these increased expectations and evolving requirements, as well as our commitment to social and environmental sustainability matters, we may continue to establish or expand goals, commitments or targets, and take actions to meet such goals, commitments and targets. These goals could be difficult and expensive to implement, the technologies needed to implement them may not be cost effective and may not advance at a sufficient pace, and we may be criticized for the accuracy, adequacy or completeness of disclosures. Further, these goals may be based on standards for measuring progress that are still developing, internal controls and processes that continue to evolve, assumptions that are subject to change, and other risks and uncertainties, many of which are outside of our control. If our data, processes and reporting with respect to social and environmental matters are incomplete or inaccurate, or if we fail to achieve progress with respect to these goals on a timely basis, consumer and investor trust in our brands may suffer. In addition, some third parties (including ESG groups) may object to the scope or nature of our social and environmental program initiatives or goals, or any revisions to these initiatives or goals, which could give rise to negative responses by governmental actors (such as retaliatory legislative actions) or consumers (such as boycotts, lawsuits or negative publicity campaigns) that could adversely affect us or our brand value.

We may be adversely affected by climate change.

We could be adversely affected by the physical and/or transitional effects of climate change. Our and our franchisees’ properties and operations may be vulnerable to the adverse effects of climate change, which is predicted to result in ongoing changes in global weather patterns and more frequent and severe weather-related events such as droughts, wildfires, hurricanes and other natural disasters. Such adverse weather-related impacts may also adversely affect the general economy in countries where we operate, disrupt our operations, cause restaurant closures or delay the opening of new restaurants, adversely impact our supply chain and increase the costs of (and decrease the availability of) food and other supplies needed for our operations. In addition, various legislative and regulatory efforts to combat climate change may increase in the future, which could result in additional taxes, increased compliance costs, and otherwise disrupt and adversely impact us and our franchisees.

Risks Related to Government Regulation and Litigation

We may be subject to litigation that could adversely affect us by increasing our expenses, diverting management attention or subjecting us to significant monetary damages and other remedies.

We are regularly involved in legal proceedings, which include regulatory claims or disputes by claimants such as franchisees, suppliers, employees, customers, governments and others related to operational, foreign exchange, tax, franchise, contractual or employment issues. These claims or disputes may relate to personal injury, employment, real estate, environmental, tort, intellectual property, breach of contract, technology services, data privacy, securities, consumer protection, derivative and other litigation matters. See the discussion of legal proceedings in Note 20 to the Consolidated Financial Statements included in Item 8 of this Form 10-K. Plaintiffs often seek recovery of large or indeterminate amounts, and lawsuits are subject to inherent uncertainties (some of which are beyond the Company’s control). Unfavorable rulings or developments may also occur in cases

we are not involved in. Moreover, regardless of whether any such lawsuits have merit, or whether we are ultimately held liable or settle, such litigation may be expensive to defend, may divert resources and management attention away from our operations, and may negatively impact our financial results. With respect to insured claims, a judgment for damages in excess of any insurance coverage could adversely affect our financial condition or results of operations and/or growth prospects. Any adverse publicity resulting from these allegations may also adversely affect our Concepts' reputations, which could adversely affect our financial results.

Changes in, or noncompliance with, legal requirements may adversely affect our business operations, growth prospects or financial condition.

The Company, and our Concepts and their franchisees, are subject to numerous laws and regulations around the world. These laws and regulations change regularly and are increasingly complex. For example, we are subject to:

- The Americans with Disabilities Act in the U.S. and similar laws that provide protection to individuals with disabilities in the context of employment, public accommodations and other areas.
- The U.S. Fair Labor Standards Act as well as a variety of similar laws, which govern matters such as minimum wages, and overtime, and the U.S. Family and Medical Leave Act as well as a variety of similar laws which provide protected leave rights to employees.
- Employment laws related to workplace health and safety, non-discrimination, non-harassment, whistleblower protections, and other terms and conditions of employment.
- Laws and regulations in government-mandated health care benefits such as the Patient Protection and Affordable Care Act in the U.S.
- Laws and regulations relating to nutritional content, nutritional labeling, product safety, product marketing and menu labeling.
- Laws relating to state and local licensing.
- Laws relating to the relationship between franchisors and franchisees.
- Laws and regulations relating to health, sanitation, food, workplace safety, child labor, including laws regulating the use of certain "hazardous equipment", building and zoning, and fire safety and prevention.
- Laws and regulations relating to union organizing rights and activities.
- Laws relating to information security, privacy, cashless payments, and consumer protection.
- Laws relating to our use of third party aggregators.
- Laws relating to currency conversion or exchange.
- Laws relating to international trade and sanctions.
- Anti-bribery and anti-corruption laws, including the U.S. Foreign Corrupt Practices Act.
- Environmental laws and regulations, including with respect to climate change and greenhouse gas emissions.
- Federal and state immigration laws and regulations in the U.S.

We may also be adversely impacted by legal developments resulting in broader standards for determining when two or more entities may be found to be joint employers of the same employees under laws such as the National Labor Relations Act (the "NLRA"). In this regard, the National Labor Relations Board issued a rule with an anticipated effective date in February 2024 addressing the joint-employer test under the NLRA. This rule provides for more expansive standards in relation to determining joint employer status by giving consideration as to whether one entity has authority to control essential terms and conditions of employment of another entity, whether or not such control is exercised and whether or not any such exercise of control is direct or indirect. To the extent that the joint employer standards reflected in this rule are determined to be applicable to franchise relationships, we or our Concepts could be liable or held responsible for unfair labor practices and other violations and could be required to engage in collective bargaining with representatives of the employees of our Concepts' franchisees. In addition to the foregoing, many states (including California) have enacted or are considering legislation regarding, or otherwise increased their focus on, the misclassification of independent contractors, which could have an adverse impact on and disrupt the operations of our Concepts' restaurants in other ways, such as costs relating to delivery aggregators or certain staff augmentation models.

Any failure or alleged failure to comply with applicable laws or regulations or related standards or guidelines could adversely affect our reputation, global expansion efforts, growth prospects and financial results or result in, among other things, litigation, revocation of required licenses, internal investigations, governmental investigations or proceedings, administrative enforcement

ITEM 1A. RISK FACTORS.

actions, fines and civil and criminal liability. Publicity relating to any such noncompliance or perception that we are not paying a sufficient amount of taxes could also harm our Concepts' reputations and adversely affect our revenues. In addition, the compliance costs associated with complying with new or existing legal requirements could be substantial.

Tax matters, including changes in tax rates or laws, disagreements with taxing authorities, imposition of new taxes and our restructurings could impact our results of operations, growth prospects and financial condition.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property, withholding and franchise taxes in various jurisdictions. Our accruals for tax liabilities are based on past experience, interpretations of applicable law, and judgments about potential actions by tax authorities. Such tax positions require significant judgment which may be incorrect or challenged by tax authorities and may result in payments greater than the amounts accrued. If the Internal Revenue Service ("IRS") or another taxing authority disagrees with our tax positions, we could face additional tax liabilities, including interest and penalties, which could be material. For example, as disclosed in Note 20, as a result of an audit by the IRS for fiscal years 2013 through 2015, in August 2022, we received a Revenue Agent's Report that includes a proposed adjustment for the 2014 fiscal year relating to a series of reorganizations we undertook during that year in connection with the business realignment of our corporate and management reporting structure along brand lines. While we disagree with the position of the IRS and intend to contest it vigorously, an unfavorable resolution of this matter could have a material, adverse impact on our Consolidated Financial Statements in future periods.

In addition, if jurisdictions in which we or our Concepts operate enact tax legislation, modify tax treaties and/or increase audit scrutiny, it could increase our taxes and have an adverse impact on our results of operations, growth prospects and financial position. For example, the Organization for Economic Cooperation and Development (the "OECD"), the E.U. and other countries (including countries in which we operate) have committed to enacting substantial changes to numerous long-standing tax principles impacting how large multinational enterprises are taxed in an effort to limit perceived base erosion and profit shifting incentives. In particular, the OECD's Pillar Two initiative provides for a 15% global minimum tax applied on a country-by-country basis, with a recommended effective date for most provisions of January 1, 2024. These proposals have been or are expected to be implemented in many jurisdictions in which we operate, and we anticipate an increase in the burdens related to the tax compliance and reporting costs as a result of the new rules.

Risks Related to the Yum China Spin-Off

The Yum China spin-off and certain related transactions could result in substantial U.S. tax liability.

We received opinions of outside counsel substantially to the effect that, for U.S. federal income tax purposes, the Yum China spin-off and certain related transactions qualified as generally tax-free under Sections 355 and 361 of the U.S. Internal Revenue Code. The opinions relied on various facts and assumptions, as well as certain representations as to factual matters and undertakings (including with respect to future conduct) made by Yum China and us. If any of these facts, assumptions, representations or undertakings are incorrect or not satisfied, we may not be able to rely on these opinions of outside counsel. Accordingly, notwithstanding receipt of the opinions of outside counsel, the conclusions reached in the tax opinions may be challenged by the IRS. Because the opinions are not binding on the IRS or the courts, there can be no assurance that the IRS or the courts will not prevail in any such challenge.

If, notwithstanding receipt of any opinion, the IRS were to conclude that the Yum China spin-off was taxable, in general, we would recognize taxable gain as if we had sold the Yum China common stock in a taxable sale for its fair market value. In addition, each U.S. holder of our Common Stock who received shares of Yum China common stock in connection with the spin-off transaction would generally be treated as having received a taxable distribution of property in an amount equal to the fair market value of the shares of Yum China common stock received. That distribution would be taxable to each such U.S. stockholder as a dividend to the extent of accumulated earnings and profits as of the date of the spin-off. For each such U.S. stockholder, any amount that exceeded our earnings and profits would be treated first as a non-taxable return of capital to the extent of such stockholder's tax basis in our shares of Common Stock with any remaining amount being taxed as a capital gain.

The Yum China spin-off may be subject to China's indirect transfer tax.

In February 2015, the Chinese State Tax Administration ("STA") issued the Bulletin on Several Issues of Enterprise Income Tax on Income Arising from Indirect Transfers of Property by Non-resident Enterprises ("Bulletin 7"). Pursuant to Bulletin 7, an

“indirect transfer” of Chinese taxable assets, including equity interests in a China resident enterprise (“Chinese interests”), by a non-resident enterprise, may be recharacterized and treated as a direct transfer of Chinese taxable assets, if such arrangement does not have reasonable commercial purpose and the transferor has avoided payment of Chinese enterprise income tax. Using general anti-tax avoidance provisions, the STA may treat an indirect transfer as a direct transfer of Chinese interests if the transfer has avoided Chinese tax by way of an arrangement without reasonable commercial purpose. As a result, gains derived from such indirect transfer may be subject to Chinese enterprise income tax, and the transferee or other person who is obligated to pay for the transfer would be obligated to withhold the applicable taxes, currently at a rate of up to 10% of the capital gain in the case of an indirect transfer of equity interests in a China resident enterprise. We evaluated the potential applicability of Bulletin 7 in connection with the Separation in the form of a tax free restructuring and continue to believe it is more likely than not that Bulletin 7 does not apply and that the restructuring had reasonable commercial purpose.

However, there are significant uncertainties on what constitutes a reasonable commercial purpose, how the safe harbor provisions for group restructurings are to be interpreted and how the Chinese tax authorities will ultimately view the spin-off. As a result, our position could be challenged by the Chinese tax authorities resulting in a tax at a rate of 10% assessed on the difference between the fair market value and the tax basis of Yum China at the date of the spin-off. As our tax basis in Yum China was minimal, the amount of such a tax could be significant and have an adverse effect on our results of operations, growth prospects and our financial condition.

Risks Related to Consumer Discretionary Spending and Macroeconomic Conditions

Our business and/or our growth prospects may be adversely impacted by changes in consumer discretionary spending and macroeconomic conditions, including inflationary pressures and elevated interest rates, in markets in which we operate.

As a company dependent upon consumer discretionary spending, we (and our Concepts’ franchisees) are sensitive to macroeconomic conditions and consumer discretionary spending levels in markets where we and our Concepts’ franchisees operate. Some of the factors that may impact discretionary consumer spending and macroeconomic conditions include unemployment and underemployment rates, fluctuations in disposable income, the price of gasoline, other inflationary pressures, higher taxes, reduced access to credit, elevated interest rate levels, stock market performance and changes in consumer confidence. In this regard, we and our Concepts’ franchisees have been adversely impacted by, and may continue to be adversely impacted by, negative macroeconomic conditions in certain markets where we and our Concepts’ franchisees operate, including impacts from increased commodity prices and other inflationary pressures, elevated interest rates, challenging labor market conditions, ongoing geopolitical instability, supply chain disruption, and increases in real estate costs in certain domestic and international markets. Any significant deterioration in current negative macroeconomic conditions in markets where we operate, or any recovery therefrom that is significantly slower than anticipated, could have an adverse effect on our business, growth prospects, financial conditions, or results of operations. In addition, negative macroeconomic conditions or other adverse business developments may result in future asset impairment charges. Moreover, if negative macroeconomic conditions result in significant disruptions to capital and financial markets, or negatively impact our credit ratings, our cost of borrowing, our ability to access capital on favorable terms and our overall liquidity and capital structure could be adversely impacted.

Risks Related to Competition

The retail food industry is highly competitive.

Our Concepts’ restaurants compete with international, national and regional restaurant chains as well as locally-owned restaurants, and the industry in which we operate is highly competitive with respect to price and quality of food products, new product development, digital engagement, advertising levels and promotional initiatives, customer service reputation, restaurant location and attractiveness and maintenance of properties, management and hourly personnel and qualified franchisees. Moreover, if we are unable to successfully respond to changing consumer or dietary preferences, if our marketing efforts and/or launch of new products are unsuccessful, or if our Concepts’ restaurants are unable to compete successfully with other retail food outlets, our and our Concepts’ franchisees’ businesses and/or our growth prospects could be adversely affected. We also face ongoing competition due to convergence in grocery, convenience, deli and restaurant services, including the offering by the grocery industry of convenient meals, including pizzas and entrees with side dishes. Competition from delivery aggregators and

ITEM 1A. RISK FACTORS.

other food delivery services has also increased and is expected to continue to increase, particularly in urbanized areas. Finally, not all of our competitors may seek to establish environmental or sustainability goals comparable to ours, which could result in lower supply chain or operating costs for our competitors. Increased competition and other competitive factors could have an adverse effect on our business or development plans.

Risks Related to Our Indebtedness

Our level of indebtedness makes us more sensitive to adverse economic conditions, may limit our ability to plan for or respond to significant changes in our business, and requires a significant amount of cash to service our debt payment obligations that we may be unable to generate or obtain.

As of December 31, 2023, our total outstanding short-term borrowings and long-term debt was approximately \$11.2 billion. Subject to the limits contained in the agreements governing our outstanding indebtedness, we may incur additional debt from time to time, which would increase the risks related to our level of indebtedness. Our level of indebtedness could have important potential consequences, including, but not limited to:

- increasing our vulnerability to, and reducing our flexibility to plan for and respond to, adverse economic and industry conditions and changes in our business and the competitive environment;
- requiring the dedication of a substantial portion of our cash flow from operations to the payment of principal of, and interest on, indebtedness, thereby reducing or eliminating the availability of such cash flow to fund working capital, capital expenditures, acquisitions, dividends, share repurchases or other corporate purposes;
- increasing our vulnerability to a downgrade of our credit rating, which could adversely affect our cost of funds, liquidity and access to capital markets;
- restricting us from making strategic acquisitions or causing us to make non-strategic divestitures;
- placing us at a disadvantage compared to other less leveraged competitors or competitors with comparable debt at more favorable interest rates;
- increasing our exposure to the risk of increased interest rates insofar as current and future borrowings are subject to variable rates of interest or we are forced to refinance indebtedness at higher interest rates, which risks are heightened by the current elevated interest rate environment;
- increasing our exposure to the risk of discontinuance, replacement or modification of certain reference rates;
- making it more difficult for us to repay, refinance or satisfy our obligations with respect to our debt;
- limiting our ability to borrow additional funds in the future and increasing the cost of any such borrowing;
- imposing restrictive covenants on our operations due to the terms of our indebtedness, which, if not complied with, could result in an event of default, which if not cured or waived, could result in the acceleration of the applicable debt, and may result in the acceleration of any other debt to which a cross-acceleration or cross-default provision applies; and
- increasing our exposure to risks related to fluctuations in foreign currency as we earn profits in a variety of currencies around the world and our debt is primarily denominated in U.S. dollars.

If our business does not generate sufficient cash flow from operations or if future debt or equity financings are not available to us on acceptable terms in amounts sufficient to pay our indebtedness or to fund other liquidity needs, our financial condition may be adversely affected. As a result, we may need to refinance all or a portion of our indebtedness on or before maturity. There is no assurance that we will be able to refinance any of our indebtedness on favorable terms, or at all. Any inability to generate sufficient cash flow or refinance our indebtedness on favorable terms could have an adverse effect on our business, growth prospects and financial condition.

Item 1B. Unresolved Staff Comments.

The Company has received no written comments regarding its periodic or current reports from the staff of the Securities and Exchange Commission that were issued 180 days or more preceding the end of its 2023 fiscal year and that remain unresolved.

Item 1C. Cybersecurity.

Cybersecurity Risk Management Program

Information security and data privacy have been and remain of the utmost importance to the Company in light of the value we place on maintaining the trust and confidence of our consumers, employees and other stakeholders.

We have a risk-based cybersecurity risk management program (the “Program”) in place designed to assess, identify and manage material risks from cybersecurity threats. The Program falls under the oversight of our Chief Information Security Officer (“CISO”) and defines controls for access management, data protection and vulnerability detection, in addition to incident response protocols which are discussed further in the “Governance” section herein. The Program incorporates customized elements from industry-leading standards to drive robust and comprehensive protection.

To supplement our own internal processes and controls, we regularly engage consultants and other third parties as part of our Program, including to periodically:

- Test our information security defenses and to perform external penetration assessments;
- Review and assess the Program and its maturity; and
- Advise our Board of Directors and management regarding the structure and oversight of the program, incident response services and various cybersecurity related matters

We also have processes to oversee and identify material cybersecurity risks associated with our use of third-party service providers and their information systems. As part of these processes, we conduct cybersecurity due diligence around significant third-party service providers who access our information technology systems before their engagement. We require third-party service providers to promptly notify us of any actual or suspected breach impacting our data or operations. Additionally, we obtain System and Organization Controls (“SOC”) 1 or SOC 2 reports on an annual basis from vendors that host our significant financial applications to aid in our assessment of information security risk associated with our relationship with the host vendor. If a host vendor is not able to provide a SOC 1 or SOC 2 report, we take additional steps to assess information security risk associated with the relationship.

Over 98% of our restaurants are owned and operated by franchisees who themselves are at risk of cyber-attacks or security incidents. There is limited direct connectivity between the Company’s network and the networks on which our franchisees operate. We have established minimum information security standards for our franchisees, which are in process of being adopted.

Despite the security measures implemented as part of our Program, the current cyber threat environment presents increased risks for all companies, and we are a frequent target of cyber-attacks and have experienced security incidents. For example, on January 18, 2023, the Company announced a ransomware attack that impacted certain Information Technology (“IT”) systems. This incident resulted in the closure of fewer than 300 restaurants in one market for one day, and certain of the Company’s IT systems and data were affected. In addition, although data was taken from our network, the affected data was limited to certain personal information of former and current employees, and we have no evidence that customer databases were accessed.

We have incurred, and may continue to incur, certain expenses related to this attack, including expenses to respond to, remediate and investigate this matter. In addition, several separate putative class actions have been filed in U.S. federal and state court by current and/or former employees alleging violations of privacy and other rights in connection with the ransomware incident.

We do not believe that any risks we have identified to date from cybersecurity threats, including as a result of any previous cybersecurity incidents, have materially affected or are reasonably likely to materially affect us, including our business strategy, results of operations or financial condition. For additional information regarding the risks to us associated with cybersecurity incidents, see Item 1A. “Risk Factors”.

Governance

The Company's cybersecurity risk management processes are integrated into the Company's overall risk management processes. The Board of Directors has overall responsibility for the oversight of the Company's risk management and has delegated the oversight of specific risk-related responsibilities to certain Board committees. The Audit Committee oversees the Company's business and financial technology risk exposure, which includes data privacy and data protection, information security and cybersecurity, as well as the controls in place to monitor and mitigate these risks.

At a management level, our Program is led by our CISO, who reports to the Company's Chief Digital and Technology Officer. Our CISO has expertise in cybersecurity risk management through, among other things, his past service in information security roles at the Company, prior IT and security leadership positions at other public companies, and certain technology and information security matters certifications. Additionally, we have a formal data privacy management committee made up of privacy professionals, operational experts and specialist legal counsel which is overseen by our Chief Legal Officer.

We have a Data Incident Response Plan ("the Plan") which provides for controls and procedures in connection with cybersecurity events including escalation procedures as summarized below. Under the Plan, we have established a Data Incident Response Team (the "Response Team"), a cross-functional group comprised of certain members of senior management, including our Chief Legal Officer and CISO. The Plan provides that the Response Team is responsible for assessing, investigating and responding to any cybersecurity event elevated for its consideration by our CISO.

In addition, under the Plan, we have established a cross-functional management group comprised of our Chief Legal Officer, Chief Financial Officer, Vice President Internal Audit, Vice President Compliance, Senior Vice President Finance & Corporate Controller and CISO. The Plan provides that any cybersecurity incident that is elevated for the review of the Response Team will also be reviewed by this group to determine whether any such incident is material for securities laws purposes and whether public disclosure is required or advisable in connection therewith, following any necessary consultation with the Company's senior management, Disclosure Committee, Audit Committee and/or Board of Directors.

Our CISO and Chief Digital and Technology Officer advise the Audit Committee at least four times a year, and the Board of Directors regularly, on our management and oversight of information security risks, including data privacy and data protection risks. The Audit Committee also receives periodic updates on data privacy from members of management within our data privacy group in addition to the regular updates from our CISO. The Audit Committee provides a summary to the full Board at each regular Board meeting of the information security risk review together with any other risk related subjects discussed at the Audit Committee meeting.

Item 2. Properties.

As of year end 2023, the Company's Concepts owned land, building or both for 326 restaurants worldwide in connection with the operation of our 1,017 Company-owned restaurants. These restaurants are further detailed as follows:

- The KFC Division owned land, building or both for 66 restaurants.
- The Taco Bell Division owned land, building or both for 258 restaurants.
- The Pizza Hut Division owned land, building or both for 2 restaurants.

The Company currently also owns land, building or both related to approximately 450 franchise restaurants that it leases to franchisees and leases land, building or both related to approximately 250 franchise restaurants that it subleases to franchisees, principally in the U.S., United Kingdom, Australia and Germany.

Company-owned restaurants in the U.S. with leases are generally leased for initial terms of 10 to 20 years and generally have renewal options. Company-owned restaurants outside the U.S. with leases have initial lease terms and renewal options that vary by country.

The KFC Division and Pizza Hut Division corporate headquarters and a KFC and Pizza Hut research facility in Plano, Texas are owned by Pizza Hut. A leased building in Irvine, California contains the Taco Bell Division and The Habit Burger Grill Division corporate headquarters and a Taco Bell research facility. The YUM corporate headquarters and a KFC research facility in Louisville, Kentucky are owned by KFC. Additional information about the Company's properties is included in the Consolidated Financial Statements in Part II, Item 8.

The Company believes that its properties are generally in good operating condition and are suitable for the purposes for which they are being used.

Item 3. Legal Proceedings.

The Company is subject to various lawsuits covering a variety of allegations. The Company believes that the ultimate liability, if any, in excess of amounts already provided for these matters in the Consolidated Financial Statements, is not likely to have a material adverse effect on the Company's annual results of operations, financial condition or cash flows. Matters faced by the Company include, but are not limited to, claims from franchisees, suppliers, employees, customers, governments and others related to operational, foreign exchange, tax, franchise, contractual, cybersecurity or employment issues as well as claims that the Company has infringed on third-party intellectual property rights. In addition, the Company brings claims from time-to-time relating to infringement of, or challenges to, our intellectual property, including registered marks. Finally, as a publicly-traded company, disputes arise from time-to-time with our shareholders, including allegations that the Company breached federal securities laws or that officers and/or directors breached fiduciary duties. Descriptions of significant current specific claims and contingencies appear in Note 20, Contingencies, to the Consolidated Financial Statements included in Part II, Item 8, which is incorporated by reference into this item.

Item 4. Mine Safety Disclosures.

Not applicable.

Executive Officers of the Registrant.

The executive officers of the Company as of February 20, 2024, and their ages and current positions as of that date are as follows:

David Gibbs, 60, is Chief Executive Officer of YUM a position he has held since January 2020. Prior to that, he served as President and Chief Operating Officer from August 2019 to December 2019, as President, Chief Financial Officer and Chief Operating Officer from January 2019 to August 2019 and as President and Chief Financial Officer from May 2016 to December 2018. Prior to these positions, he served as Chief Executive Officer of Pizza Hut Division from January 2015 to April 2016. From January 2014 to December 2014, Mr. Gibbs served as President of Pizza Hut U.S. Prior to this position, Mr. Gibbs served as President and Chief Financial Officer of Yum! Restaurants International, Inc. ("YRI") from May 2012 through December 2013. Mr. Gibbs served as Chief Financial Officer of YRI from January 2011 to April 2012. He was Chief Financial Officer of Pizza Hut U.S. from September 2005 to December 2010.

Scott Catlett, 47, is Chief Legal and Franchise Officer and Corporate Secretary of YUM. He has served in this position since July 2020. Prior to that, he served as General Counsel and Corporate Secretary of YUM from July 2018 to June 2020 and he served as Vice President and Deputy General Counsel of YUM from November 2015 to June 2018. From September 2007 to October 2015 Mr. Catlett held various YUM positions including Vice President & Associate General Counsel.

Sean Tresvant, 53, is Chief Executive Officer of Taco Bell Division. He joined Taco Bell in January 2022 as the Global Chief Brand Officer. In February 2023, he was elevated to Global Chief Brand & Strategy Officer, and in January 2024 he became Chief Executive Officer. He is responsible for driving Taco Bell's global growth strategies, franchise operations and overall performance. He is also Vice Chairman of the Taco Bell Foundation. Previously he spent 15 years at Nike, most recently as Chief Marketing Officer of the Jordan Brand.

Aaron Powell, 52, is Chief Executive Officer of Pizza Hut Division, a position he has held since September 2021. Before joining YUM, Mr. Powell served in various positions at Kimberly-Clark from September 2007 to August 2021. Prior to joining Kimberly-Clark, he served in various positions at Bain & Company and Proctor & Gamble.

David Russell, 54, is Senior Vice President, Finance and Corporate Controller of YUM. He has served as YUM's Corporate Controller since February 2011 and as Senior Vice President, Finance since February 2017. Prior to serving as Corporate Controller, Mr. Russell served in various positions at the Vice President level in the YUM Finance Department, including Controller-Designate from November 2010 to February 2011 and Vice President, Assistant Controller from January 2008 to December 2010.

Sabir Sami, 56, is Chief Executive Officer of KFC Division, a position he has held since January 2022. From January 2020 to December 2021 he served in a dual role as KFC Division Chief Operating Officer and Managing Director of KFC Asia. Prior to this, from April 2013 to December 2019, he was Managing Director for the KFC Middle East, North Africa, Pakistan and Turkey markets. Before joining YUM in 2009, Mr. Sami served in various leadership roles at Procter & Gamble, the Coca-Cola Company and Reckitt Benckiser.

Tracy Skeans, 51, is Chief Operating Officer and Chief People Officer of YUM. She has served as Chief Operating Officer since January 2021 and Chief People Officer since January 2016. She also served as Chief Transformation Officer from November 2016 to December 2020. From January 2015 to December 2015, she was President of Pizza Hut International. Prior to this position, Ms. Skeans served as Chief People Officer of Pizza Hut Division from December 2013 to December 2014 and Chief People Officer of Pizza Hut U.S. from October 2011 to November 2013. From July 2009 to September 2011, she served as Director of Human Resources for Pizza Hut U.S and was on the Pizza Hut U.S. Finance team from September 2000 to June 2009.

Christopher Turner, 49, is Chief Financial Officer of YUM, a position he has held since August 2019. Before joining YUM, he served as Senior Vice President and General Manager in PepsiCo's retail and e-commerce businesses with Walmart in the U.S. and more than 25 countries and across PepsiCo's brands from December 2017 to July 2019. Prior to leading PepsiCo's Walmart business, he served in various positions including Senior Vice President of Transformation for PepsiCo's Frito-Lay North America business from July 2017 to December 2017 and Senior Vice President of Strategy for Frito-Lay from February 2016 to June 2017. Prior to joining PepsiCo, he was a partner in the Dallas office of McKinsey & Company, a strategic management consulting firm.

Executive officers are elected by and serve at the discretion of the Board of Directors.

PART II

Item 5. Market for the Registrant's Common Stock, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Market Information and Dividend Policy

The Company's Common Stock trades under the symbol YUM and is listed on the New York Stock Exchange ("NYSE").

As of February 16, 2024, there were 34,276 registered holders of record of the Company's Common Stock.

In 2023, the Company declared and paid four cash dividends of \$0.605 per share. In January 2024, the Company's Board of Directors declared a dividend of \$0.67 per share to be distributed March 8, 2024, to shareholders of record at the close of business on February 21, 2024. Future decisions to pay cash dividends continue to be at the discretion of the Company's Board of Directors and will be dependent on our operating performance, financial condition, capital expenditure requirements and other factors that the Company's Board of Directors considers relevant.

Issuer Purchases of Equity Securities

During the quarter ended December 31, 2023, we did not repurchase shares of our Common Stock. In September 2022, our Board of Directors authorized share repurchases of up to \$2.0 billion (excluding applicable transaction fees) of our outstanding Common Stock through June 30, 2024. As of December 31, 2023, we have remaining capacity to repurchase up to \$1.7 billion of Common Stock under this authorization.

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON STOCK, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Stock Performance Graph

This graph compares the cumulative total return of our Common Stock to the cumulative total return of the S&P 500 Index and the S&P 500 Consumer Discretionary Sector Index, a peer group that includes YUM, for the period from December 31, 2018 to December 29, 2023. The graph assumes that the value of the investment in our Common Stock and each index was \$100 at December 31, 2018, and that all cash dividends were reinvested.

	12/31/2018	12/31/2019	12/30/2020	12/31/2021	12/30/2022	12/29/2023

Item 6. [Reserved]

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Introduction and Overview

The following Management's Discussion and Analysis ("MD&A"), should be read in conjunction with the Consolidated Financial Statements ("Financial Statements") in Item 8 and the Forward-Looking Statements and the Risk Factors set forth in Item 1A. All Note references herein refer to the Notes to the Financial Statements. Tabular amounts are displayed in millions of U.S. dollars except per share and unit count amounts, or as otherwise specifically identified. Percentages may not recompute due to rounding.

Yum! Brands, Inc. and its subsidiaries (collectively referred to herein as the "Company", "YUM", "we", "us" or "our") franchise or operate a system of over 58,000 restaurants in more than 155 countries and territories, primarily under the concepts of KFC, Taco Bell, Pizza Hut and The Habit Burger Grill (collectively, the "Concepts"). The Company's KFC, Taco Bell and Pizza Hut brands are global leaders of the chicken, Mexican-style food and pizza categories, respectively. The Habit Burger Grill is a fast-casual restaurant concept specializing in made-to-order chargrilled burgers, sandwiches and more. Of the over 58,000 restaurants, 98% are operated by franchisees.

As of December 31, 2023, YUM consists of four operating segments:

- The KFC Division which includes our worldwide operations of the KFC concept
- The Taco Bell Division which includes our worldwide operations of the Taco Bell concept
- The Pizza Hut Division which includes our worldwide operations of the Pizza Hut concept
- The Habit Burger Grill Division which includes our worldwide operations of the Habit Burger Grill concept

Through our Recipe for Good Growth we intend to unlock the growth potential of our Concepts and YUM, drive increased collaboration across our Concepts and geographies and consistently deliver better customer experiences, improved unit economics and higher rates of growth. Key enablers include accelerated use of digital and technology and better leverage of our systemwide scale.

Our global citizenship and sustainability strategy is reflected in our Good agenda, which includes our priorities for social responsibility, risk management and sustainable stewardship of our people, food and planet.

Our Growth agenda is based on four key drivers:

- Unrivaled Culture and Talent: Leverage our culture and people capability to fuel brand performance and franchise success
- Unmatched Operating Capability: Recruit and equip the best restaurant operators in the world to deliver great customer experiences
- Relevant, Easy and Distinctive Brands: Innovate and elevate iconic restaurant brands people trust and champion
- Bold Restaurant Development: Drive market and franchise unit expansion with strong economics and value

We intend to drive long-term growth and shareholder returns primarily through consistent same-store sales growth and new unit development across all of our Concepts. We intend to support this growth and development through a capital and operating structure that:

- Invests capital in a manner consistent with an asset light, franchisor model;
- Allocates G&A in an efficient manner that provides leverage to operating profit growth while at the same time opportunistically investing in strategic growth initiatives;
- Maximize shareholder return through a combination of paying a competitive dividend and returning excess free cash flow through debt paydowns and share repurchases; and
- Targets a consolidated net leverage ratio that balances shareholder returns, cost of capital and flexibility against various risk factors.

We intend for this MD&A to provide the reader with information that will assist in understanding our results of operations, including performance metrics that management uses to assess the Company's performance. Throughout this MD&A, we commonly discuss the following performance metrics:

- Same-store sales growth is the estimated percentage change in system sales of all restaurants that have been open and in the YUM system for one year or more (except as noted below), including those temporarily closed. From time-to-time restaurants may be temporarily closed due to remodeling or image enhancement, rebuilding, natural disasters, health epidemic or pandemic, landlord disputes or other issues. The system sales of restaurants we deem temporarily closed remain in our base for purposes of determining same-store sales growth and the restaurants remain in our unit count (see below). We believe same-store sales growth is useful to investors because our results are heavily dependent on the results of our Concepts' existing store base. Additionally, same-store sales growth is reflective of the strength of our Brands, the effectiveness of our operational and advertising initiatives and local economic and consumer trends. In 2021, when calculating respective same-store sales growth we also included in our prior year base the sales of stores that were added as a result of our acquisition of The Habit Restaurants, Inc. on March 18, 2020, and that were open for one year or more.
- Gross unit openings reflects new openings by us and our franchisees. Net new unit growth reflects gross unit openings offset by permanent store closures, by us and our franchisees. To determine whether a restaurant meets the definition of a unit we consider factors such as whether the restaurant has operations that are ongoing and independent from another YUM unit, serves the primary product of one of our Concepts, operates under a separate franchise agreement (if operated by a franchisee) and has substantial and sustainable sales. We believe gross unit openings and net new unit growth are useful to investors because we depend on new units for a significant portion of our growth. Additionally, gross unit openings and net new unit growth are generally reflective of the economic returns to us and our franchisees from opening and operating our Concept restaurants.
- System sales and System sales excluding the impacts of foreign currency translation ("FX") reflect the results of all restaurants regardless of ownership, including Company-owned and franchise restaurants. Sales at franchise restaurants typically generate ongoing franchise and license fees for the Company at a rate of 3% to 6% of sales. Increasingly, customers are paying a fee to a third party to deliver or facilitate the ordering of our Concepts' products. We also include in System sales any portion of the amount customers pay these third parties for which the third party is obligated to pay us a license fee as a percentage of such amount. Franchise restaurant sales and fees paid by customers to third parties to deliver or facilitate the ordering of our Concepts' products are not included in Company sales on the Consolidated Statements of Income; however, any resulting franchise and license fees we receive are included in the Company's revenues. We believe System sales growth is useful to investors as a significant indicator of the overall strength of our business as it incorporates our primary revenue drivers, Company and franchise same-store sales as well as net unit growth.

As of the beginning of the second quarter of 2022, as a result of our progress towards exiting Russia and our decision to reclass future net profits attributable to Russia subsequent to the date of invasion of Ukraine from the Division segments in which those profits were earned to Unallocated Other income (see Notes 3 and 19), we elected to remove all Russia units from our unit count as well as to begin excluding those units' associated sales from our system sales totals. We removed 1,112 units and 53 units in Russia from our global KFC and Pizza Hut unit counts, respectively. These units were treated similar to permanent store closures for purposes of our same-store sales calculations and thus they were removed from our same-store sales calculations beginning April 1, 2022.

In addition to the results provided in accordance with Generally Accepted Accounting Principles in the United States of America ("GAAP"), the Company provides the following non-GAAP measurements.

- Diluted Earnings Per Share excluding Special Items (as defined below);
- Effective Tax Rate excluding Special Items;
- Core Operating Profit. Core Operating Profit excludes Special Items and FX and we use Core Operating Profit for the purposes of evaluating performance internally;
- Company restaurant profit and Company restaurant margin as a percentage of sales (as defined below).

These non-GAAP measurements are not intended to replace the presentation of our financial results in accordance with GAAP. Rather, the Company believes that the presentation of these non-GAAP measurements provide additional information to investors to facilitate the comparison of past and present operations.

Special Items are not included in any of our Division segment results as the Company does not believe they are indicative of our ongoing operations due to their size and/or nature. Our chief operating decision maker does not consider the impact of Special Items when assessing segment performance.

Company restaurant profit is defined as Company sales less Company restaurant expenses, both of which appear on the face of our Consolidated Statements of Income. Company restaurant expenses include those expenses incurred directly by our Company-owned restaurants in generating Company sales, including cost of food and paper, cost of restaurant-level labor, rent, depreciation and amortization of restaurant-level assets and advertising expenses incurred by and on behalf of that Company restaurant. Company restaurant margin as a percentage of sales (“Company restaurant margin %”) is defined as Company restaurant profit divided by Company sales. We use Company restaurant profit for the purposes of internally evaluating the performance of our Company-owned restaurants and we believe Company restaurant profit provides useful information to investors as to the profitability of our Company-owned restaurants. In calculating Company restaurant profit, the Company excludes revenues and expenses directly associated with our franchise operations as well as non-restaurant-level costs included in General and administrative expenses, some of which may support Company-owned restaurant operations. The Company also excludes restaurant-level asset impairment and closures expenses, which have historically not been significant, from the determination of Company restaurant profit as such expenses are not believed to be indicative of ongoing operations. Company restaurant profit and Company restaurant margin % as presented may not be comparable to other similarly titled measures of other companies in the industry.

Certain performance metrics and non-GAAP measurements are presented excluding the impact of FX. These amounts are derived by translating current year results at prior year average exchange rates. We believe the elimination of the FX impact provides better year-to-year comparability without the distortion of foreign currency fluctuations.

Results of Operations

Summary

All comparisons within this summary are versus the same period a year ago. For discussion of our results of operations for 2022 compared to 2021, refer to the Management’s Discussion and Analysis of Financial Condition and Results of Operations included in Part II, Item 7 of our Form 10-K for the fiscal year ended December 31, 2022, filed with the SEC on February 27, 2023.

2023 financial highlights:

	% Change				
	System Sales, ex FX	Same-Store Sales	Units	GAAP Operating Profit	Core Operating Profit
KFC Division	+12	+7	+8	+9	+12
Taco Bell Division	+9	+5	+4	+11	+11
Pizza Hut Division	+5	+2	+4	+1	+3
Worldwide	+10	+6	+6	+6	+12

Additionally:

- Foreign currency translation unfavorably impacted Divisional Operating Profit by \$49 million for the year ended December 31, 2023. This included a negative impact to our KFC Division Operating Profit of \$41 million for the year ended December 31, 2023.

	2023	2022	% Change
GAAP EPS	\$ 5.59	\$ 4.57	+23
Special Items EPS	\$ 0.42	\$ 0.04	NM
EPS Excluding Special Items	\$ 5.17	\$ 4.53	+14

- Gross unit openings for the year were 4,754 units resulting in 3,349 net new units.

Impact on Tax Rate as a result of Special Items	(8.5)%	(0.6)%	(15.5)%
Effective Tax Rate excluding Special Items	20.6%	20.9%	21.4%

(a) Due to their size and volatility, we have reflected as Special Items those refranchising gains and losses that were recorded in connection with market-wide refranchisings. During the years ended December 31, 2023 and 2021, we recorded net refranchising losses of \$5 million and \$4 million, respectively, that have been reflected as Special Items.

Additionally, during the years ended December 31, 2023, 2022 and 2021, we recorded net refranchising gains of \$34 million, \$27 million and \$39 million, respectively, that have not been reflected as Special Items. These net refranchising gains relate to refranchising of restaurants unrelated to market-wide refranchisings that we believe are indicative of our expected ongoing refranchising activity.

(b) In the first quarter of 2022, as a result of the Russian invasion of Ukraine, we suspended all investment and restaurant development in Russia. We also suspended all operations of our 70 company-owned KFC restaurants in Russia and began finalizing an agreement to

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

suspend all Pizza Hut operations in Russia, in partnership with our master franchisee. Further, we pledged to redirect any future net profits attributable to Russia subsequent to the date of invasion to humanitarian efforts. During the second quarter of 2022, we completed the transfer of ownership of the Pizza Hut Russia business to a local operator. In the second quarter of 2023, we completed our exit from the Russia market by selling the KFC business in Russia.

Our GAAP operating results presented herein reflect revenues from and expenses to support the Russian operations for KFC and Pizza Hut prior to the dates of sale or transfer, within their historical financial statement line items and operating segments. However, given our decision to exit Russia and our pledge to direct any future net profits attributable to Russia subsequent to the date of invasion to humanitarian efforts, we reclassified such net operating profits or losses from the Division segment results in which they were earned to Unallocated Other income (expense). Additionally, we incurred certain expenses related to the dispositions of the businesses and other one-time costs related to our exit from Russia which we recorded within Corporate and unallocated G&A and Unallocated Franchise and property expenses. Also recorded in Unallocated Other income (expense) were foreign exchange impacts attributable to fluctuations in the value of the Russian ruble and a charge of \$3 million recorded during the year ended December 31, 2023, as a result of the completion of the sale of the KFC Russia business. The resulting net Operating Loss of \$11 million for the year ended December 31, 2023, and net Operating Profit of \$44 million for the year ended December 31, 2022, have been reflected as Special Items.

- (c) Charges related to a resource optimization program initiated in the third quarter of 2020. See Note 5. Due to their scope and size, the charges over the life of the program, which have primarily resulted from severance associated with positions that have been eliminated or relocated and consultant fees, are being recorded as Special Items.
- (d) Amounts recorded in connection with redemptions of long-term debt. See Note 5. Due to their size and the fact that they are not indicative of our ongoing interest expense, these amounts have been reflected as Special Items.
- (e) The below table includes the detail of Special Items Tax (Benefit) Expense:

	Year		
	2023	2022	2021
Tax (Benefit) Expense on Special Items Operating Profit and Interest Expense	\$ (8)	\$ 2	\$ (11)
Tax (Benefit) Expense - Other Income tax impacts from decision to exit Russia	(7)	72	-
Tax (Benefit) - Intra-entity transfers and valuations of intellectual property	(183)	(82)	(251)
Tax Expense - Other Income tax impacts recorded as Special	37	-	(8)
Special Items Tax (Benefit) Expense	\$ (161)	\$ (8)	\$ (270)

Tax (Benefit) Expense on Special Items Operating Profit and Interest Expense was determined by assessing the tax impact of each individual component within Special Items based upon the nature of the item and jurisdictional tax law.

In addition to the corresponding Tax (Benefit) Expense on the Operating (Profit) Loss impact from our decision to exit Russia as included above, Special Items Tax (Benefit) Expense also includes \$72 million of incremental net tax expense recorded in the year ended December 31, 2022 from the remeasurement and reassessment of the need for a valuation allowance on deferred tax assets in Switzerland due to the expected reduction in the tax basis of intellectual property rights ("IP") associated with the loss of the Russian royalty income. In addition, we reassessed certain deferred tax liabilities associated with the Russia business given the expectation that the existing basis difference would reverse by way of sale.

Special Items Tax (Benefit) Expense includes \$183 million, \$82 million and \$251 million of tax benefit recorded in the years ended December 31, 2023, 2022 and 2021 respectively, associated with intra-entity transfers and valuations of certain IP rights.

- The benefit recorded in the year ended December 31, 2023, resulted primarily from \$99 million of deferred tax benefit arising from the remeasurement of deferred tax assets associated with previously transferred IP rights in Switzerland as a result of an increase in our jurisdictional tax rate, as well as a \$29 million deferred tax benefit associated with credits granted by local Swiss tax authorities. The benefit recorded in the year ended December 31, 2023, also includes \$30 million of deferred tax benefit associated with the intra-entity transfer of certain Asia region IP rights to Singapore or the U.S.
- The benefit recorded in the year ended December 31, 2022, resulted from the remeasurement of deferred tax assets associated with IP rights held in Switzerland in connection with an annual valuation under Swiss law, as well as the reassessment of the need for a valuation allowance on those deferred tax assets based on forecasted future taxable income. The annual valuation supported an increase to tax basis of Swiss IP rights associated with parts of our business that continue to use these IP rights due to expected royalty growth assumptions in those parts of the business that largely offset the loss of Russia royalty income associated with such IP rights as a result of our decision to exit the Russia market.
- The benefit recorded in the year ended December 31, 2021, resulted primarily from \$187 million of tax benefit as a result of concentration of management responsibility for European (excluding the UK) KFC franchise development,

support operations and management oversight in Switzerland. Concurrent with this change in management responsibility, we completed intra-entity transfers of certain KFC IP rights from subsidiaries in the UK to subsidiaries in Switzerland, and later, additional European IP rights from subsidiaries in the U.S. to subsidiaries in Switzerland. With the transfers of these rights, we received a step-up in amortizable basis of those IP rights to current fair value under Swiss law. The benefit recorded in the year ended December 31, 2021, also includes \$64 million of benefit resulting from the remeasurement of deferred tax assets associated with previously transferred IP rights in the UK as a result of an increase in our jurisdictional tax rate.

Other Income Tax impacts recorded as Special in the year ended December 31, 2023 include \$41 million of expense associated with a correction in the timing of capital loss utilization related to refranchising gains previously recorded as Special Items to tax years with a lower statutory tax rate.

Reconciliation of GAAP Operating Profit to Company Restaurant Profit

	2023

Items Impacting Reported Results and/or Reasonably Likely to Impact Future Results

The following items impacted reported results in 2023 and/or 2022 and/or are reasonably likely to impact future results. See also the Detail of Special Items section of this MD&A for other items similarly impacting results.

Middle East Conflict

During the fourth quarter of 2023, certain of our markets, principally in our KFC and Pizza Hut Divisions, began being impacted by a military conflict in the Middle East region. As a result, our sales were impacted to varying degrees in markets across the Middle East, Malaysia and Indonesia. This represented a low single-digit headwind to fourth-quarter same-store sales growth. This trend has continued into the first quarter of 2024, and we expect the sales impact to decrease over the course of 2024.

Impact of Foreign Currency Translation on Operating Profit

Changes in foreign currency exchange rates negatively impacted the translation of our foreign currency denominated Divisional Operating Profit by \$49 million for the year ended December 31, 2023. This included a negative impact to our KFC Division Operating Profit of \$41 million for the year ended December 31, 2023. For 2024, we currently expect changes in foreign currency to negatively impact Divisional Operating Profit by approximately \$10 to \$30 million, primarily in the first half of the year.

Investment in Devyani

In 2020, we received an approximate 5% minority interest in Devyani International Limited (“Devyani”), an entity that owns our KFC India and Pizza Hut India master franchisee rights. The minority interest was received in lieu of cash proceeds upon the refranchising of approximately 60 KFC restaurants in India. On August 16, 2021, Devyani executed an initial public offering and subsequently the fair value of this investment became readily determinable. As a result, concurrent with the initial public offering we began recording changes in fair value in Investment (income) expense, net in our Consolidated Statements of Income and recognized pre-tax investment income of \$8 million and \$11 million in the years ended December 31, 2023 and 2022, respectively.

KFC Division

The KFC Division has 29,900 units, 87% of which are located outside the U.S. Additionally, 99% of the KFC Division units were operated by franchisees as of the end of 2023.

Company-owned	220	219	291	–	(25)
Total	29,900	27,760	26,934	8	3

Company sales and Company restaurant margin %

In 2023, the increase in Company sales, excluding the impact of foreign currency translation, was driven by Company same-store sales growth of 5%, partially offset by the suspension of operations of our 70 company owned KFC restaurants in Russia.

In 2023, the increase in Company restaurant margin percentage was driven by Company same-store sales growth, partially offset by commodity inflation.

Franchise and property revenues

In 2023, the increase in Franchise and property revenues, excluding the impact of foreign currency translation, was driven by franchise same-store sales growth of 7% and unit growth, partially offset by a 5% negative impact from the sale of our KFC Russia business.

G&A

In 2023, the decrease in G&A, excluding the impact of foreign currency translation, was driven by the impact of the sale of our KFC Russia business, partially offset by higher headcount and salaries, and higher expenses related to our annual incentive compensation programs.

Operating Profit

In 2023, the increase in Operating Profit, excluding the impact of foreign currency translation, was driven by same-store sales growth and unit growth, partially offset by higher restaurant operating costs and the negative impact of 1 percentage point on operating profit growth as a result of lower profits in Russia.

Taco Bell Division

The Taco Bell Division has 8,564 units, 86% of which are in the U.S. The Company owned 7% of the Taco Bell units in the U.S. as of the end of 2023.

Total	8,564	8,218	7,791	4	5

Company sales and Company restaurant margin %

In 2023, the increase in Company sales was driven by company same-store sales growth of 5% and unit growth partially offset by franchising.

In 2023, the increase in Company restaurant margin percentage was driven by same-store sales growth partially offset by higher labor costs, commodity inflation and increases in other restaurant operating costs.

Franchise and property revenues

In 2023, the increase in Franchise and property revenues was driven by franchise same-store sales growth of 6% and unit growth.

G&A

In 2023, the increase in G&A was driven by higher digital and technology expenses and higher headcount and salaries, partially offset by lower expenses related to our annual incentive compensation programs.

Operating Profit

In 2023, the increase in Operating Profit was driven by same-store sales growth and unit growth partially offset by higher restaurant operating costs and higher G&A.

Pizza Hut Division

The Pizza Hut Division has 19,866 units, 67% of which are located outside the U.S. Over 99% of the Pizza Hut Division units were operated by franchisees as of the end of 2023. The Pizza Hut Division uses multiple distribution channels including delivery, dine-in and express (e.g. airports) and includes units operating under both the Pizza Hut and Telepizza brands.

Franchise and property revenues

In 2023, the increase in Franchise and property revenues, excluding the impacts of foreign currency translation, was driven by unit growth and franchise same-store sales growth of 2%, partially offset by lapping the prior year recognition of franchise fees related to unexercised development rights arising from a master franchise agreement.

G&A

In 2023, the increase in G&A, excluding the impacts of foreign currency translation, was driven by higher headcount and salaries, higher professional fees and higher travel related expenses.

Operating Profit

In 2023, the increase in Operating Profit, excluding the impacts of foreign currency translation, was driven by unit growth and same-store sales growth, partially offset by higher G&A and lapping the prior year recognition of franchise fees related to unexercised development rights arising from a master franchise agreement.

Habit Burger Grill Division

The Habit Burger Grill Division has 378 units, the vast majority of which are in the U.S. The Company owned 84% of the Habit Burger Grill units in the U.S. as of December 31, 2023.

Effective tax rate (See Note 18)	12.1%	20.3%	5.9%	8.2 ppts.	(14.4) ppts.

Corporate and unallocated G&A

In 2023, the increase in Corporate and Unallocated G&A expenses was driven by higher costs associated with our resource optimization program, higher current year expenses related to our annual incentive compensation programs and costs associated with the previously disclosed January 2023 ransomware attack.

Unallocated Other income (expense)

Unallocated Other income (expense) for the year ended December 31, 2022, includes Russia net operating profits of \$44 million reclassified from KFC and Pizza Hut Division Other income due to our decision to exit Russia (see Note 19).

Interest expense, net

The decrease in Interest expense, net for 2023 was primarily driven by lapping \$28 million of expense in the prior year relating to the call premium and unamortized debt issuance costs written-off associated with the redemption of the 2025 Notes (as discussed in our 2022 Form 10-K) and higher interest income. This was partially offset by a higher weighted average interest rate.

Consolidated Cash Flows

Net cash provided by operating activities was \$1,603 million in 2023 versus \$1,427 million in 2022. The increase was largely driven by an increase in Operating profit and a decrease in incentive compensation payments, partially offset by higher tax payments.

Net cash used in investing activities was \$107 million in 2023 versus \$202 million in 2022. The change was primarily driven by proceeds from the current year sale of KFC Russia, partially offset by lower refranchising proceeds.

Net cash used in financing activities was \$1,429 million in 2023 versus \$1,323 million in 2022. The change was primarily driven by lower net borrowings, partially offset by lower current year share repurchases.

Liquidity and Capital Resources

We have historically generated substantial cash flows from our extensive franchise operations, which require a limited YUM investment, and from the operations of our Company-owned stores. Our annual operating cash flows have been in excess of \$1.3 billion in each of the past five years and we expect that to continue to be the case in 2024. It is our intent to use these operating cash flows to continue to invest in growing our business and pay a competitive dividend, with any remaining excess then returned to shareholders through debt paydowns and share repurchases. To the extent operating cash flows plus other sources of cash do not cover our anticipated cash needs, we maintain a \$1.25 billion Revolving Facility under our Credit Agreement (see Note 11) that was undrawn as of December 31, 2023. We believe that our ongoing cash from operations, cash on hand, which was approximately \$500 million at December 31, 2023, and availability under our Revolving Facility will be sufficient to fund our cash requirements over the next twelve months.

Our material cash requirements include the following contractual and other obligations.

Debt Obligations and Interest Payments

As of December 31, 2023, approximately 94%, including the impact of interest rate swaps, of our \$11.2 billion of total debt outstanding, excluding finance leases and debt issuance costs and discounts, is fixed with an effective overall interest rate of approximately 4.6%. We ended 2023 with a consolidated net leverage ratio of 4.2x EBITDA. We continually reassess our optimal leverage ratio to maximize shareholder returns. We target a capital structure which we believe provides an attractive balance between optimized interest rates, duration and flexibility with diversified sources of liquidity and maturities spread over multiple years. We currently have credit ratings of BB (Standard & Poor's)/Ba2 (Moody's).

The following table summarizes the future maturities of our outstanding long-term debt, excluding finance leases and debt issuance costs and discounts, as of December 31, 2023.

	2024	2025	2026	2027	2028	2029	2030	2031	2032	2037	2043	Total
Securitization Notes			\$ 938	\$ 884	\$ 595	\$ 589		\$ 737				\$ 3,743
Credit Agreement	\$ 48	\$ 53	661	15	1,399							2,176
Subsidiary Senior Unsecured Notes				750								750
YUM Senior Unsecured Notes							\$ 800	1,050	\$ 2,100	\$ 325	\$ 275	4,550
Total	\$ 48	\$ 53	\$ 1,599	\$ 1,649	\$ 1,994	\$ 589	\$ 800	\$ 1,787	\$ 2,100	\$ 325	\$ 275	\$ 11,219

Interest payments on the outstanding long-term debt in the table above total approximately \$3.1 billion, with approximately \$500 million due within the next twelve months on the outstanding amounts on a nominal basis. The estimated interest payments related to the variable rate portion of our debt, net of our interest rate swaps, are based on current Secured Overnight Financing Rate ("SOFR") interest rates.

See Note 11 for details on the Securitization Notes, the Credit Agreement, Subsidiary Senior Unsecured Notes and YUM Senior Unsecured Notes.

Operating and Finance Leases

Payments required under our operating and finance leases total \$1,163 million, of which \$128 million is payable within the next 12 months. These amounts are on a nominal basis and include payments related to lease renewal options we are reasonably certain to exercise. These leases relate primarily to approximately 700 Company-owned restaurants and approximately 250 leased restaurants for which we sublease land, building or both to our franchisees. See Note 12.

Investing Activities

We remain committed to maintaining our asset light, franchisor model that includes at least a 98% franchise mix. Our allocation strategy for investing activities includes:

- Run-rate capital expenditures consisting of company restaurant repairs, maintenance and remodels, support of our digital and technology initiatives and project-specific capital expenditures,
- Targeted new company unit development to spur additional growth that is largely funded through refranchising a comparable number of existing company units, and
- Strategic investments that create incremental value for shareholders and franchisees.

In 2024, we expect that company store investments will exceed refranchising proceeds by \$85 to \$95 million, primarily driven by our strategy to accelerate growth of Habit Burger Grill company units and continued investments in Taco Bell company restaurants. This will result in net capital expenditures of approximately \$275 million, reflecting up to \$315 million of gross capital expenditures and \$40 million of refranchising proceeds.

Additionally, on December 6th, 2023, the Company announced that it had entered into a definitive agreement to acquire 218 KFC restaurants in the U.K. and Ireland from a franchisee. The transaction will be funded from the Company's cash on hand and is expected to close early in 2024.

Purchase Obligations

Our purchase obligations include agreements to purchase goods or services that are enforceable and legally binding on us and that specify all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction. We have excluded agreements that are cancellable without penalty. Our purchase obligations relate primarily to marketing, information technology and supply agreements. We have purchase obligations of approximately \$425 million at December 31, 2023, with approximately \$250 million due within the next 12 months.

In addition to our contractual and other obligations, we seek to pay a competitive dividend and return excess cash to shareholders through share repurchases. As discussed in Note 20, we are also subject to claims and contingencies related to certain tax and legal matters that may require future cash outlays.

Dividends and Share Repurchases

In January 2024, our Board of Directors declared a dividend of \$0.67 per share of Common Stock, a 11% increase from the quarterly dividend of \$0.605 per share of Common Stock paid in 2023. This quarterly dividend will be distributed March 8, 2024, to shareholders of record at the close of business on February 21, 2024, and will total approximately \$190 million.

In September 2022, our Board of Directors authorized share repurchases of up to \$2 billion (excluding applicable transaction fees) of our outstanding Common Stock through June 30, 2024. This authorization took effect during the fourth quarter of 2022 upon the exhaustion of a prior authorization approved in May 2021. As of December 31, 2023, we have remaining capacity to repurchase up to \$1.7 billion of Common Stock under the September 2022 authorization. This authorization does not obligate the Company to acquire any specific number of shares.

Contingencies

As discussed in Note 20, as a result of an audit by the Internal Revenue Service ("IRS") for fiscal years 2013 through 2015, in August 2022, we received a Revenue Agent's Report ("RAR") from the IRS asserting an underpayment of tax of \$2.1 billion plus \$418 million in penalties for the 2014 fiscal year. Additionally, interest on the underpayment is estimated to be approximately

\$1.1 billion through December 31, 2023. The proposed underpayment relates primarily to a series of reorganizations we undertook during that year in connection with the business realignment of our corporate and management reporting structure along brand lines. The IRS asserts that these transactions resulted in taxable distributions of approximately \$6.0 billion.

We disagree with the IRS's position as asserted in the RAR and intend to contest that position vigorously. In September 2022, we filed a Protest with the IRS Examination Division disputing on multiple grounds the proposed underpayment of tax and penalties. We have received the IRS Examination Division's Rebuttal to our Protest and the case has been accepted by the IRS Office of Appeals.

Also, as discussed in Note 20, on January 29, 2020, we received an order from the Special Director of the Directorate of Enforcement ("DOE") in India imposing a penalty on Yum! Restaurants India Private Limited ("YRIPL") of approximately Indian Rupee 11 billion, or approximately \$135 million, primarily relating to alleged violations of operating conditions imposed in 1993 and 1994. We have been advised by external counsel that the order is flawed and have filed a writ petition with the Delhi High Court, which granted an interim stay of the penalty order on March 5, 2020. In November 2022, YRIPL was notified that an administrative tribunal bench had been constituted to hear an appeal by DOE of certain findings of the January 2020 order, including claims that certain charges had been wrongly dropped and that an insufficient amount of penalty had been imposed. A hearing with the administrative tribunal that had been scheduled for December 4, 2023 has been rescheduled to March 4, 2024. The stay order remains in effect, and the next hearing in the Delhi High Court that had been scheduled for December 14, 2023 has been rescheduled to March 21, 2024. We deny liability and intend to continue vigorously defending this matter.

See the Lease Guarantees section of Note 20 for discussion of our off-balance sheet arrangements.

New Accounting Pronouncements Not Yet Adopted

In November 2023, the Financial Accounting Standards Board ("FASB") issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which updates reportable segment disclosure requirements through enhanced disclosures about significant segment expenses. The standard is effective for the Company's Annual Report on Form 10-K for fiscal 2024, and subsequent interim periods, with early adoption permitted. The amendments should be applied retrospectively to all prior periods presented in the financial statements. We are currently evaluating the impact of the standard on our disclosures.

In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which updates income tax disclosure requirements related to the income tax rate reconciliation and requires disclosure of income taxes paid by jurisdiction. The standard is effective for the Company's Annual Report on Form 10-K for fiscal 2025 with early adoption permitted. The amendments should be applied prospectively; however, retrospective application is permitted. We are currently evaluating the impact of the standard on our disclosures.

Critical Accounting Policies and Estimates

Our reported results are impacted by the application of certain accounting policies that require us to make subjective or complex judgments. These judgments involve estimations of the effect of matters that are inherently uncertain and may significantly impact our quarterly or annual results of operations or financial condition. Changes in the estimates and judgments could significantly affect our results of operations and financial condition and cash flows in future years. A description of what we consider to be critical accounting policies follows.

Impairment or Disposal of Long-Lived Assets

We review long-lived assets of restaurants we intend to continue operating as Company restaurants (primarily PP&E, right-of-use operating lease assets and allocated intangible assets subject to amortization) annually for impairment, or whenever events or changes in circumstances indicate that the carrying amount of a restaurant may not be recoverable. We use two consecutive years of operating losses as our primary indicator of potential impairment for our annual impairment testing of these restaurant assets. We evaluate recoverability based on the restaurant's forecasted undiscounted cash flows, which incorporate our best estimate of sales growth and margin improvement based upon our plans for the unit and actual results at comparable restaurants. For restaurant assets that are deemed to not be recoverable, we write-down the impaired restaurant to its estimated fair value.

Fair value is an estimate of the price a franchisee would pay for the restaurant and its related assets, including any right-of-use assets, and is determined by discounting the estimated future after-tax cash flows of the restaurant, which include a deduction for royalties we would receive under a franchise agreement with terms substantially at market. The after-tax cash flows incorporate reasonable sales growth and margin improvement assumptions as well as expectations as to the useful lives of the restaurant assets that would be used by a franchisee in the determination of a purchase price for the restaurant.

We perform an impairment evaluation at a restaurant group level when it is more likely than not that we will rebrand restaurants as a group. Expected net sales proceeds are generally based on actual bids from the buyer, if available, or anticipated bids given the discounted projected after-tax cash flows for the group of restaurants. Historically, these anticipated bids have been reasonably accurate estimations of the proceeds ultimately received. The after-tax cash flows used in determining the anticipated bids incorporate similar assumptions to those of a restaurant level assessment.

The discount rate used in the fair value calculations is our estimate of the required rate of return that a franchisee would expect to receive when purchasing a similar restaurant or groups of restaurants and the related long-lived assets. The discount rate incorporates rates of returns for historical rebranding market transactions and is commensurate with the risks and uncertainty inherent in the forecasted cash flows.

Estimates of future cash flows are highly subjective judgments and can be significantly impacted by changes in the business or economic conditions. We formulate these estimates in consideration of historical experience, recent economic and industry trends, and competitive conditions. If our estimates or underlying assumptions, including the discount rate, change, we may experience higher impairment charges in the future.

We evaluate indefinite-lived intangible assets for impairment on an annual basis as of the beginning of our fourth quarter or more often if an event occurs or circumstances change that indicates impairment might exist. Fair value is an estimate of the price a willing buyer would pay for the intangible asset and is generally estimated by discounting the expected future after-tax cash flows associated with the intangible asset. Our most significant indefinite-lived intangible asset is our Habit Burger Grill brand asset with a book value of \$96 million at December 31, 2023. As of our fourth quarter 2023 annual impairment testing date, the fair values of all of our indefinite-lived intangible assets were in excess of their respective carrying values and no impairment was recorded.

Impairment of Goodwill

We evaluate goodwill for impairment on an annual basis as of the beginning of our fourth quarter or more often if an event occurs or circumstances change that indicates impairment might exist. Goodwill is evaluated for impairment by determining whether the fair value of our reporting units exceed their carrying values. Our reporting units are our business units (which are aligned based on geography) in our KFC, Taco Bell, Pizza Hut and Habit Burger Grill Divisions. Fair value is the price a willing buyer would pay for the reporting unit, and is generally estimated using discounted expected future after-tax cash flows from franchise royalties and Company-owned restaurant operations, if any. Future cash flow estimates and the discount rate are the key assumptions when estimating the fair value of a reporting unit.

Future cash flows are based on growth expectations relative to recent historical performance and incorporate sales growth (from net new units or same-store sales growth) and margin improvement (for those reporting units which include Company-owned restaurant operations) assumptions that we believe a third-party buyer would assume when determining a purchase price for the reporting unit. Any margin improvement assumptions that factor into the discounted cash flows are highly correlated with sales growth as cash flow growth can be achieved through various interrelated strategies such as product pricing and restaurant productivity initiatives. The discount rate is our estimate of the required rate of return that a third-party buyer would expect to receive when purchasing a business from us that constitutes a reporting unit. We believe the discount rate is commensurate with the risks and uncertainty inherent in the forecasted cash flows.

The fair values of all our reporting units with goodwill balances were in excess of their respective carrying values as of our fourth quarter 2023 goodwill testing date, with all but the Habit Burger Grill reporting unit having fair values that were substantially in excess of their respective carrying values. As it relates to our Habit Burger Grill reporting unit, which includes a goodwill balance of \$66 million as of the end of 2023, the assumptions that are most impactful to our fair value estimate include margin improvement, sales growth from net new units and same-store sales growth. Significant changes in the assumptions used in our analysis could result in a future goodwill impairment charge. Circumstances that could result in changes to our assumptions and related fair value estimate include, but are not limited to, expectations of lower than originally estimated margin improvement, which can be caused by a variety of factors including changes in expected labor costs and commodity inflation.

When we rebrand restaurants, we include goodwill in the carrying amount of the restaurants disposed of based on the relative fair values of the portion of the reporting unit disposed of in the rebranding versus the portion of the reporting unit that will be retained. The fair value of the portion of the reporting unit disposed of in a rebranding is determined by reference to the discounted value of the future cash flows expected to be generated by the restaurant and retained by the franchisee, which include a deduction for the anticipated, future royalties the franchisee will pay us associated with the franchise agreement entered into simultaneously with the rebranding transaction. The fair value of the reporting unit retained is based on the price a willing buyer would pay for the reporting unit retained and includes the value of franchise agreements. Appropriate adjustments are made to the fair value determinations if such franchise agreement is determined to not be at prevailing market rates. As such, the fair value of the reporting unit retained can include expected future cash flows from royalties from those restaurants currently being rebranded, royalties from existing franchise businesses and retained company restaurant operations. As a result, the percentage of a reporting unit's goodwill that will be written off in a rebranding transaction will be less than the percentage of the reporting unit's Company-owned restaurants that are rebranded in that transaction and goodwill can be allocated to a reporting unit with only franchise restaurants. When determining whether such franchise agreement is at prevailing market rates our primary consideration is consistency with the terms of our current franchise agreements both within the country that the restaurants are being rebranded in and around the world. The Company believes consistency in royalty rates as a percentage of sales is appropriate as the Company and franchisee share in the impact of near-term fluctuations in sales results with the acknowledgment that over the long-term the royalty rate represents an appropriate rate for both parties.

The discounted value of the future cash flows expected to be generated by the restaurant and retained by the franchisee is reduced by future royalties the franchisee will pay the Company. The Company thus considers the fair value of future royalties to be received under the franchise agreement as fair value retained in its determination of the goodwill to be written off when rebranding. Others may consider the fair value of these future royalties as fair value disposed of and thus would conclude that a larger percentage of a reporting unit's fair value is disposed of in a rebranding transaction.

During 2023, rebranding activity completed by the Company was limited and the write-off of goodwill associated with these transactions was less than \$1 million.

Pension Plans

Certain of our employees are covered under defined benefit pension plans. Our two most significant plans are in the U.S. and combined had a projected benefit obligation ("PBO") of \$778 million and a fair value of plan assets of \$680 million at December 31, 2023.

The PBO reflects the actuarial present value of all benefits earned to date by employees and incorporates assumptions as to future compensation levels. Due to the relatively long time frame over which benefits earned to date are expected to be paid, our PBOs are highly sensitive to changes in discount rates. For our U.S. plans, we measured our PBOs using a discount rate of 5.60% at December 31, 2023. The primary basis for this discount rate determination is a model that consists of a hypothetical portfolio of ten or more corporate debt instruments rated Aa or higher by Moody's or Standard & Poor's ("S&P") with cash flows that mirror our expected benefit payment cash flows under the plans. We exclude from the model those corporate debt instruments flagged by Moody's or S&P for a potential downgrade (if the potential downgrade would result in a rating below Aa by both Moody's and S&P) and bonds with yields that were two standard deviations or more above the mean. In considering possible bond portfolios, the model allows the bond cash flows for a particular year to exceed the expected benefit payment cash flows for that year. Such excesses are assumed to be reinvested at appropriate one-year forward rates and used to meet the benefit payment cash flows in a future year. The weighted-average yield of this hypothetical portfolio was used to arrive at an appropriate discount rate. We also ensure that changes in the discount rate as compared to the prior year are consistent with the overall change in prevailing market rates and make adjustments as necessary. A 50 basis-point increase in this discount rate would have decreased these U.S. plans' PBOs by approximately \$40 million at our measurement date. Conversely, a 50 basis-point decrease in this discount rate would have increased our U.S. plans' PBOs by approximately \$45 million at our measurement date.

The net periodic benefit cost we will record in 2024 is also impacted by the discount rate, as well as the long-term rates of return on plan assets and mortality assumptions we selected at our measurement date. We expect net periodic benefit income for our U.S. plans of \$3 million in 2024 compared to \$4 million of periodic benefit income in 2023, which represents a decrease in benefit of \$1 million year-over-year. A 50 basis-point change in our discount rate assumption at our 2023 measurement date

would impact our 2024 U.S. net periodic benefit cost by approximately \$5 million. The impacts of changes in net periodic benefit costs are reflected primarily in Other pension (income) expense.

Our estimated long-term rate of return on U.S. plan assets is based upon the weighted-average of historical and expected future returns for each asset category. Our expected long-term rate of return on U.S. plan assets, for purposes of determining 2024 pension expense, at December 31, 2023, was 6.35%, net of administrative and investment fees paid from plan assets. We believe this rate is appropriate given the composition of our plan assets and historical market returns thereon. A 100 basis point change in our expected long-term rate of return on plan assets assumption would impact our 2024 U.S. net periodic benefit cost by approximately \$8 million. Additionally, every 100 basis point variation in actual return on plan assets versus our expected return of 6.35% will impact our unrecognized pre-tax actuarial net loss by approximately \$8 million.

We have an unrecognized pre-tax actuarial net loss of \$84 million included in Accumulated other comprehensive income for these U.S. plans at December 31, 2023. We will recognize approximately \$1 million of loss in net periodic benefit cost in 2024 versus \$1 million of gain recognized in 2023.

Income Taxes

At December 31, 2023, we had valuation allowances of \$386 million to reduce our \$1,758 million of deferred tax assets to amounts that are more likely than not to be realized. The net deferred tax assets primarily relate to temporary differences in profitable U.S. federal, state and foreign jurisdictions and net operating losses in certain foreign jurisdictions, the majority of which do not expire. In evaluating our ability to recover our deferred tax assets, we consider future taxable income in the various jurisdictions, carryforward periods, restrictions on usage and prudent and feasible tax planning strategies. The estimation of future taxable income in these jurisdictions and our resulting ability to utilize deferred tax assets can significantly change based on future events, including our determinations as to feasibility of certain tax planning strategies and refranchising plans. Thus, recorded valuation allowances may be subject to material future changes.

As a matter of course, we are regularly audited by federal, state and foreign tax authorities. We recognize the benefit of positions taken or expected to be taken in our tax returns in our Income tax provision when it is more likely than not that the position would be sustained upon examination by these tax authorities. A recognized tax position is then measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon settlement. At December 31, 2023, we had \$151 million of unrecognized tax benefits, \$102 million of which would impact the effective income tax rate if recognized. We evaluate unrecognized tax benefits, including interest thereon, on a quarterly basis to ensure that they have been appropriately adjusted for events, including audit settlements, which may impact our ultimate payment for such exposures.

Repatriation of earnings generated after December 31, 2017, will generally be eligible for the 100% dividends received deduction or considered a distribution of previously taxed income and, therefore, exempt from U.S. federal tax. Undistributed foreign earnings may still be subject to certain state and foreign income and withholding taxes upon repatriation. Subject to limited exceptions, we do not intend to indefinitely reinvest our unremitted earnings outside the U.S. Thus, we have provided taxes, including any U.S. federal and state income, foreign income, or foreign withholding taxes on the majority of our unremitted earnings. In jurisdictions where we do intend to indefinitely reinvest our unremitted earnings, we would be required to accrue and pay applicable income taxes (if any) and foreign withholding taxes if the funds were repatriated in taxable transactions. We believe any such taxes would be immaterial.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

The Company is exposed to financial market risks associated with interest rates, foreign currency exchange rates, commodity prices and the value of our equity investment in Devyani International Limited. In the normal course of business and in accordance with our policies, we manage these risks through a variety of strategies, which may include the use of financial and commodity derivative instruments to hedge our underlying exposures. Our policies prohibit the use of derivative instruments for trading purposes, and we have processes in place to monitor and control their use.

Interest Rate Risk

We have a market risk exposure to changes in interest rates, principally in the U.S. Our outstanding total debt, excluding finance leases and debt issuance costs and discounts, of \$11.2 billion includes 81% fixed-rate debt and 19% variable-rate debt. We have attempted to minimize the interest rate risk from variable-rate debt through the use of interest rate swaps that, as of December 31, 2023, result in a fixed interest rate on \$1.5 billion of our variable-rate debt. As a result, approximately 94% of this \$11.2 billion of outstanding debt at December 31, 2023, is effectively fixed-rate debt. See Note 11 for details on our outstanding debt and Note 13 for details related to interest rate swaps.

At December 31, 2023, a hypothetical 100 basis-point increase in short-term interest rates would result, over the following twelve-month period after consideration of the aforementioned interest rate swaps, in an increase of approximately \$7 million in Interest expense, net within our Consolidated Statement of Income. These estimated amounts are based upon the current level of variable-rate debt that has not been swapped to fixed and assume no changes in the volume or composition of that debt and exclude any impact from interest income related to cash and cash equivalents.

The fair value of our cumulative fixed-rate debt of \$8.6 billion as of December 31, 2023, would decrease approximately \$430 million as a result of the same hypothetical 100 basis-point increase. At December 31, 2023, a hypothetical 100 basis-point decrease in short-term interest rates would decrease the asset associated with the fair value of our interest rate swaps by approximately \$17 million. Fair value was determined based on the present value of expected future cash flows considering the risks involved and using discount rates appropriate for the durations.

Foreign Currency Exchange Rate Risk

Changes in foreign currency exchange rates impact the translation of our reported foreign currency denominated earnings, cash flows and net investments in foreign operations and the fair value of our foreign currency denominated financial instruments. Historically, we have chosen not to hedge foreign currency risks related to our foreign currency denominated earnings and cash flows through the use of financial instruments. In addition, we attempt to minimize the exposure related to foreign currency denominated financial instruments by purchasing goods and services from third parties in local currencies when practical. Consequently, foreign currency denominated financial instruments consist primarily of intercompany receivables and payables. At times, we utilize forward contracts and cross-currency swaps to reduce our exposure related to these intercompany receivables and payables. The notional amount and maturity dates of these contracts match those of the underlying receivables or payables such that our foreign currency exchange risk related to these instruments is minimized.

The Company's foreign currency net asset exposure (defined as foreign currency assets less foreign currency liabilities) totaled approximately \$1 billion as of December 31, 2023. Operating in international markets exposes the Company to movements in foreign currency exchange rates. The Company's primary exposures result from our operations in Asia-Pacific, Europe and the Americas. For the fiscal year ended December 31, 2023, Operating Profit would have decreased approximately \$150 million if all foreign currencies had uniformly weakened 10% relative to the U.S. dollar. This estimated reduction assumes no changes in sales volumes, local currency sales or input prices.

Commodity Price Risk

We are subject to volatility in food costs at our Company-operated restaurants as a result of market risk associated with commodity prices. Our ability to recover increased costs through higher pricing is, at times, limited by the competitive environment in which we operate. We manage our exposure to this risk primarily through pricing agreements with our vendors.

Equity Investment Risk

YUM holds approximately 53 million shares of Devyani International Limited (“Devyani”) common stock (See Note 5). As of December 31, 2023, the National Stock Exchange of India Limited composite closing sales price of Devyani was Indian Rupee 193.75. A hypothetical 10% decline in the price of these shares would result in a \$12 million decrease in the fair value of this investment, which would be reflected as a charge in Investment (income) expense, net within our Consolidated Statements of Income. The effects of changes in market prices for equity securities are unpredictable, which could cause significant fluctuations in our quarterly and annual results.

Yum! Brands, Inc.:

Opinions on the Consolidated Financial Statements and Internal Control Over Financial Reporting

We have audited the accompanying consolidated balance sheets of Yum! Brands, Inc. and subsidiaries (the Company) as of December 31, 2023 and 2022, the related consolidated statements of income, comprehensive income, cash flows, and shareholders' deficit for each of the years in the three-year period ended December 31, 2023, and the related notes (collectively, the consolidated financial statements). We also have audited the Company's internal control over financial reporting as of December 31, 2023, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2023, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2023 based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Evaluation of unrecognized tax benefits

As discussed in Note 18 to the consolidated financial statements, the Company has recorded unrecognized tax benefits, excluding associated interest, of \$151 million. Tax laws are complex and often subject to different interpretations by tax payers and the respective tax authorities.

We identified the evaluation of the Company's unrecognized tax benefits as a critical audit matter. Subjective and complex auditor judgment was required to evaluate tax law and regulations, court rulings and audit settlements in the related taxing jurisdictions to determine the population of significant uncertain tax positions identified by the Company arising from tax planning strategies.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls over the Company's process for identification of uncertain tax positions. This included controls related to (1) identifying tax planning strategies that create significant uncertain tax positions, (2) evaluating interpretations of tax laws and court rulings, and (3) assessing which tax positions may not be sustained upon examination by a taxing authority. We involved tax professionals with specialized skills and knowledge who assisted in:

- Obtaining an understanding of the Company's tax planning strategies;
- Identifying tax positions created by tax planning strategies and comparing the results to the Company's identification of uncertain tax positions;
- Evaluating the Company's interpretation of tax laws and court rulings by developing an independent assessment; and
- Performing an independent assessment to identify tax positions that may not be sustained upon examination by the respective taxing authority and comparing the results to the Company's assessment.

/s/ KPMG LLP

We have served as the Company's auditor since 1997.

Notes to Consolidated Financial Statements

(Tabular amounts in millions, except share data)

Note 1 – Description of Business

Yum! Brands, Inc. and its Subsidiaries (collectively referred to herein as the “Company,” “YUM,” “we,” “us” or “our”) franchise or operate a system of over 58,000 restaurants in more than 155 countries and territories primarily under the concepts of KFC, Taco Bell, Pizza Hut and The Habit Burger Grill (collectively, the “Concepts”). The Company’s KFC, Taco Bell and Pizza Hut brands are global leaders of the chicken, Mexican-style and pizza categories. The Habit Burger Grill is a fast-casual restaurant concept specializing in made-to-order chargrilled burgers, sandwiches and more. At December 31, 2023, 98% of our restaurants were owned and operated by franchisees.

Through our widely-recognized Concepts, we develop, operate or franchise a system of both traditional and non-traditional restaurants. The terms “franchise” or “franchisee” within these Consolidated Financial Statements are meant to describe third parties that operate units under either franchise or license agreements. Our traditional restaurants feature dine-in, carryout and, in some instances, drive-thru service. Non-traditional units include express units which have a more limited menu and operate in non-traditional locations like malls, airports, gasoline service stations, train stations, subways, convenience stores, stadiums, amusement parks and colleges, where a full-scale traditional outlet would not be practical or efficient. We also operate or franchise multibrand units, where two or more of our Concepts are operated in a single unit.

As of December 31, 2023, YUM consisted of four operating segments:

- The KFC Division which includes our worldwide operations of the KFC concept
- The Taco Bell Division which includes our worldwide operations of the Taco Bell concept
- The Pizza Hut Division which includes our worldwide operations of the Pizza Hut concept
- The Habit Burger Grill Division which includes our worldwide operations of the Habit Burger Grill concept

Note 2 – Summary of Significant Accounting Policies

Our preparation of the accompanying Consolidated Financial Statements in conformity with Generally Accepted Accounting Principles in the United States of America (“GAAP”) requires us to make estimates and assumptions that affect reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Principles of Consolidation and Basis of Preparation. Intercompany accounts and transactions have been eliminated in consolidation. We consolidate entities in which we have a controlling financial interest, the usual condition of which is ownership of a majority voting interest. We also consider for consolidation an entity, in which we have certain interests, where the controlling financial interest may be achieved through arrangements that do not involve voting interests. Such an entity, known as a variable interest entity (“VIE”), is required to be consolidated by its primary beneficiary. The primary beneficiary is the entity that possesses the power to direct the activities of the VIE that most significantly impact its economic performance and has the obligation to absorb losses or the right to receive benefits from the VIE that are significant to it.

Our most significant variable interests are in certain entities that operate restaurants under our Concepts’ franchise arrangements. We do not typically provide significant financial support such as loans or guarantees to our franchisees. Thus, our most significant variable interests in franchisees result from real estate lease arrangements to which we are a party. At the end of 2023, YUM has future lease payments due from certain franchisees, on a nominal basis, of approximately \$800 million, and we are secondarily liable on certain other lease agreements that have been assigned to certain franchisees. See the Lease Guarantees section in Note 20. As our franchise arrangements provide our franchisee entities the power to direct the activities that most significantly impact their economic performance, we do not consider ourselves the primary beneficiary of any such entity that might otherwise be considered a VIE.

We do not have a significant equity interest in any of our franchisee businesses except for a minority interest in an entity, Devyani International Limited (“Devyani”), that owns our KFC India and Pizza Hut India master franchisee rights. This minority

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

interest does not give us the ability to significantly influence this entity. We account for our investment in Devyani as an equity security. As the fair value of this equity security is readily determinable we record changes in fair value in Investment (income) expense, net.

We participate in various advertising cooperatives with our franchisees, typically within a country where we have both Company-owned restaurants and franchise restaurants, established to collect and administer funds contributed for use in advertising and promotional programs designed to increase sales and enhance the reputation of the Company and our Concepts. Contributions to the advertising cooperatives are required of both Company-owned, if any, and franchise restaurants and are generally based on a percentage of restaurant sales. We maintain certain variable interests in these cooperatives. As the cooperatives are required to spend all funds collected on advertising and promotional programs, total equity at risk is not sufficient to permit the cooperatives to finance their activities without additional subordinated financial support. Therefore, these cooperatives are VIEs. We consolidate certain of these cooperatives for which we are the primary beneficiary due to our voting rights.

Fiscal Year. YUM's fiscal year begins on January 1 and ends December 31 of each year, with each quarter comprised of three months. The majority of our U.S. subsidiaries and certain international subsidiaries operate on a weekly periodic calendar where the first three quarters of each fiscal year consists of 12 weeks and the fourth quarter consists of 16 weeks in fiscal years with 52 weeks and 17 weeks in fiscal years with 53 weeks. Our remaining international subsidiaries operate on a monthly calendar similar to that on which YUM operates.

Our next fiscal year scheduled to include a 53rd week for our period calendar reporters is 2024.

Foreign Currency. The functional currency of our foreign entities is the currency of the primary economic environment in which the entity operates. Functional currency determinations are made based upon a number of economic factors, including but not limited to cash flows and financing transactions. The operations, assets and liabilities of our entities outside the U.S. are initially measured using the functional currency of that entity. Income and expense accounts for our operations of these foreign entities are then translated into U.S. dollars at the average exchange rates prevailing during the period. Assets and liabilities of these foreign entities are then translated into U.S. dollars at exchange rates in effect at each period-end balance sheet date. As of December 31, 2023, net cumulative translation adjustment losses of \$201 million are recorded in Accumulated other comprehensive income ("AOCI") in the Consolidated Balance Sheet.

The majority of our foreign currency net asset exposure is in countries where we have Company-owned restaurants. As we manage and share resources at the individual brand level within a country, cumulative translation adjustments are recorded and tracked at the foreign-entity level that represents the operations of our individual brands within that country. Translation adjustments recorded in AOCI are subsequently recognized as income or expense generally only upon sale of the related investment in a foreign entity, or upon a sale of assets and liabilities within a foreign entity that represents a complete or substantially complete liquidation of that foreign entity. For purposes of determining whether a sale or complete or substantially complete liquidation of an investment in a foreign entity has occurred, we consider those same foreign entities for which we record and track cumulative translation adjustments.

Gains and losses arising from the impact of foreign currency exchange rate fluctuations on transactions in foreign currency are included in Other (income) expense in our Consolidated Statements of Income.

Reclassifications. We have reclassified certain items in the Consolidated Financial Statements for prior periods to be comparable with the classification for the fiscal year ended December 31, 2023. These reclassifications had no effect on previously reported Net Income.

Revenue Recognition. Below is a discussion of how our revenues are earned, our accounting policies pertaining to revenue recognition under Accounting Standards Codification ("ASC") Topic 606, Revenue from Contracts with Customers ("Topic 606") and other required disclosures.

Taxes assessed by a governmental authority that are both imposed on and concurrent with a specific revenue transaction and collected from a customer are excluded from revenue.

Company Sales

Revenues from the sale of food items by Company-owned restaurants are recognized as Company sales when a customer purchases the food, which is when our obligation to perform is satisfied.

Franchise and Property Revenues

Franchise Revenues

Our most significant source of revenues arises from the operation of our Concepts' stores by our franchisees. Franchise rights may be granted through a store-level franchise agreement or through a master franchise agreement that set out the terms of our arrangement with the franchisee. Our franchise agreements require that the franchisee remit continuing fees to us as a percentage of the applicable restaurant's sales in exchange for the license of the intellectual property associated with our Concepts' brands (the "franchise right"). Our franchise agreements also typically require certain, less significant, upfront franchise fees such as initial fees paid upon opening of a store, fees paid to renew the term of the franchise right and fees paid in the event the franchise agreement is transferred to another franchisee.

Continuing fees represent the substantial majority of the consideration we receive under our franchise agreements. Continuing fees are typically billed and paid monthly and are usually 4% - 6% for store-level franchise agreements. Master franchise agreements allow master franchisees to operate restaurants as well as sub-franchise restaurants within certain geographic territories. The percentage of sales that we receive for restaurants owned or sub-franchised by our master franchisees as a continuing fee is typically less than the percentage we receive for restaurants operating under a store-level franchise agreement. Based on the application of the sales-based royalty exception within Topic 606 continuing fees are recognized as the related restaurant sales occur.

Upfront franchise fees are typically billed and paid when a new franchise or sub-franchise agreement becomes effective or when an existing agreement is transferred to another franchisee or sub-franchisee. We have determined that the services we provide in exchange for upfront franchise fees, which primarily relate to pre-opening support, are highly interrelated with the franchise right and are not individually distinct from the ongoing services we provide to our franchisees. As a result, upfront franchise fees are recognized as revenue over the term of each respective franchise or sub-franchise agreement. Revenues for these upfront franchise fees are recognized on a straight-line basis, which is consistent with the franchisee's or sub-franchisee's right to use and benefit from the intellectual property.

Additionally, from time-to-time we provide consideration to franchisees in the form of cash (e.g. cash payments to offset new build costs) or other incentives (e.g. free or subsidized equipment) with the intent to drive new unit development or same-store sales growth that will result in higher future revenues for the Company. Such payments are capitalized and presented within Prepaid expense and other current assets or Other assets. These assets are being amortized as a reduction in Franchise and property revenues over the period of expected cash flows from the franchise agreements to which the payment relates.

Property Revenues

From time to time, we enter into rental agreements with franchisees for the lease or sublease of restaurant locations. These rental agreements typically originate from refranchising transactions and revenues related to the agreements are recognized as they are earned. Amounts owed under the rental agreements are typically billed and paid on a monthly basis. Related expenses are presented as Franchise and property expenses within our Consolidated Statements of Income and primarily include depreciation or, in the case of a sublease, rent expense.

Franchise Contributions for Advertising and Other Services

Advertising Cooperatives

We have determined we act as a principal in the transactions entered into by the advertising cooperatives we are required to consolidate based on our responsibility to define the nature of the goods or services provided and/or our commitment to pay for advertising services in advance of the related franchisee contributions. Additionally, we have determined the advertising services provided to franchisees are highly interrelated with the franchise right and therefore not distinct. Franchisees remit to these consolidated advertising cooperatives a percentage of restaurant sales as consideration for providing the advertising services. As a result, revenues for advertising services are recognized when the related franchise restaurant sales occur based on the application of the sales-based royalty exception within Topic 606. Revenues for these services are typically billed and received on a monthly basis.

Other Goods or Services

On a much more limited basis, we provide goods or services to certain franchisees that are individually distinct from the franchise right because they do not require integration with other goods or services we provide. Such arrangements typically

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

relate to technology, supply chain and quality assurance services. The extent to which we provide such goods or services varies by brand, geographic region and, in some instances, franchisee. In instances where we rely on third parties to provide goods or services to franchisees at our direction, we have determined we act as a principal in these transactions and recognize related revenues as the goods or services are transferred to the franchisee.

Franchise Support Costs. Certain direct costs of our franchise operations are charged to Franchise and property expenses. These costs include provisions for estimated uncollectible upfront and continuing fees, rent or depreciation expense associated with restaurants we lease or sublease to franchisees, marketing funding on behalf of franchisees, amortization expense for franchise-related intangible assets, value added taxes on royalties and certain other direct incremental franchise support costs.

The costs we incur to provide support services to our franchisees for which we do not receive a reimbursement are charged to General and administrative expenses (“G&A”) as incurred. Expenses related to the provisioning of goods or services for which we receive reimbursement for all or substantially all of the expense amount from a franchisee are recorded in Franchise advertising and other services expense (the associated revenue is recorded within Franchise contributions for advertising and other services as described above). The majority of these expenses relate to advertising and are incurred on behalf of franchisees by the advertising cooperatives we are required to consolidate. These expenses are accounted for as described in the Advertising Costs policy below. For such expenses that do not relate to advertising the expenses are recognized as incurred.

Advertising Costs. To the extent we participate in advertising cooperatives, we, like our participating franchisees, are required to make contributions. Our contributions are based on a percentage of sales of our participating Company restaurants. These contributions as well as direct marketing costs we may incur outside of a cooperative related to Company restaurants are recorded within Company restaurant expenses. Advertising expense included in Company restaurant expenses totaled \$81 million, \$78 million and \$84 million in 2023, 2022 and 2021, respectively.

To the extent we consolidate advertising cooperatives, we incur advertising expense as a result of our obligation to spend franchisee contributions to those cooperatives (see above for our accounting for these contributions). Such advertising expense is recorded in Franchise advertising and other services expense and totaled \$1,293 million, \$1,298 million and \$1,264 million in 2023, 2022 and 2021, respectively. At the end of each fiscal year additional advertising costs are accrued to the extent advertising revenues exceed the related advertising expense to date, as we are obligated to expend such amounts on advertising.

From time to time, we may make the decision to incur discretionary advertising expenditures on behalf of franchised restaurants. Such amounts are recorded within Franchise and property expenses and totaled \$13 million, \$8 million and \$11 million in 2023, 2022 and 2021, respectively.

To the extent the advertising cooperatives we are required to consolidate are unable to collect amounts due from franchisees they incur bad debt expense. In 2023 and 2022, we recorded \$3 million and \$6 million in net provisions, respectively, and in 2021, we recorded \$6 million in net recoveries. To the extent our consolidated advertising cooperatives have a provision or recovery for bad debt expense, the cooperative’s advertising spend obligation is adjusted such that there is no net impact within our Financial Statements.

Share-Based Employee Compensation. We recognize ongoing share-based payments to employees, including grants of stock appreciation rights (“SARs”) and restricted stock units (“RSUs”), in the Consolidated Financial Statements as compensation cost over the service period based on their fair value on the date of grant. This compensation cost is recognized over the service period on a straight-line basis, net of an assumed forfeiture rate, for awards that actually vest. Forfeiture rates are estimated at grant date based on historical experience and compensation cost is adjusted in subsequent periods for differences in actual forfeitures from the previous estimates. We present this compensation cost consistent with the other compensation costs for the employee recipient in G&A, Franchise advertising and other services expense or Company restaurant expenses. See Note 16 for further discussion of our share-based compensation plans.

Legal Costs. Settlement costs are accrued when they are deemed probable and reasonably estimable. Anticipated legal fees related to self-insured workers’ compensation, employment practices liability, general liability, automobile liability, product liability and property losses (collectively, “property and casualty losses”) are accrued when deemed probable and reasonably estimable. Legal fees not related to self-insured property and casualty losses are recognized as incurred. See Note 20 for further discussion of our legal proceedings.

Impairment or Disposal of Long-Lived Assets. Long-lived assets, including Property, plant and equipment (“PP&E”) as well as right-of-use operating lease assets are tested for impairment whenever events or changes in circumstances indicate that the carrying value of the assets may not be recoverable. The assets are not recoverable if their carrying value is less than the undiscounted cash flows we expect to generate from such assets. If the assets are not deemed to be recoverable, impairment is measured based on the excess of their carrying value over their fair value.

For purposes of impairment testing for our restaurants, we have concluded that an individual restaurant is the lowest level of independent cash flows unless it is more likely than not that we will rebrand restaurants as a group. We review our long-lived assets of such individual restaurants (primarily PP&E, right-of-use operating lease assets and allocated intangible assets subject to amortization) that we intend to continue operating as Company restaurants annually for impairment, or whenever events or changes in circumstances indicate that the carrying amount of a restaurant may not be recoverable. We use two consecutive years of operating losses as our primary indicator of potential impairment for our annual impairment testing of these restaurant assets. We evaluate the recoverability of these restaurant assets by comparing the estimated undiscounted future cash flows, which are based on our entity-specific assumptions, to the carrying value of such assets. For restaurant assets that are not deemed to be recoverable, we write-down an impaired restaurant to its estimated fair value, which becomes its new cost basis. Individual restaurant-level impairment is recorded within Other (income) expense. Any right-of-use asset may alternatively be valued at the amount we could receive for such right-of-use asset from a third-party that is not a franchisee through a sublease if doing so would result in less overall impairment of the restaurant assets in total.

In executing our rebranding initiatives, we most often offer groups of restaurants for sale. When we believe it is more likely than not a restaurant or groups of restaurants will be rebranded for a price less than their carrying value, but do not believe the restaurant(s) have met the criteria to be classified as held for sale, we review the restaurants for impairment. We evaluate the recoverability of these restaurant assets by comparing estimated sales proceeds plus holding period cash flows, if any, to the carrying value of the restaurant or group of restaurants. For restaurant assets that are not deemed to be recoverable, we recognize impairment for any excess of carrying value over the fair value of the restaurants, which is based on the expected net sales proceeds. To the extent ongoing agreements to be entered into with the franchisee simultaneous with the rebranding are expected to contain terms, such as royalty rates or rental payments, not at prevailing market rates, we consider the off-market terms in our impairment evaluation. We recognize any such impairment charges in Rebranding (gain) loss. We recognize gains on restaurant rebrandings when the sale transaction closes and control of the restaurant operations have transferred to the franchisee.

When we decide to close a restaurant, it is reviewed for impairment, which includes an estimate of sublease income that could be reasonably obtained, if any, in relation to the right-of-use operating lease asset. Additionally, depreciable lives are adjusted based on the expected disposal date. Other costs incurred when closing a restaurant such as costs of disposing of the assets as well as other facility-related expenses from previously closed stores are generally expensed as incurred. Any costs related to a store closure as well as any changes in estimates of sublease income or subsequent adjustments to liabilities for remaining lease obligations as a result of lease termination are recorded in Other (income) expense. To the extent we sell assets, primarily land, associated with a closed store, any gain or loss upon that sale is also recorded in Other (income) expense.

Management judgment is necessary to estimate future cash flows, including cash flows from continuing use, terminal value, sublease income and rebranding proceeds. Accordingly, actual results could vary significantly from our estimates.

Guarantees. We recognize, at inception of a guarantee, a liability for the fair value of certain obligations undertaken, in addition to a liability for the expected credit losses under the life of such guarantees.

The majority of our guarantees are issued as a result of assigning our interest in obligations under operating leases as a condition to the rebranding of certain Company restaurants. We recognize a liability for such lease guarantees upon rebranding and upon subsequent renewals of such leases when we remain secondarily liable. The related expense and any subsequent changes are included in Rebranding (gain) loss. Any expense and subsequent changes in the guarantees for other franchise support guarantees not associated with a rebranding transaction are included in Franchise and property expenses.

Income Taxes. We record deferred tax assets and liabilities for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases as well as operating loss, capital loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those differences or carryforwards are expected to be

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in our Income tax provision in the period that includes the enactment date. Additionally, in determining the need for recording a valuation allowance against the carrying amount of deferred tax assets, we consider the amount of taxable income and periods over which it must be earned, actual levels of past taxable income and known trends and events or transactions that are expected to affect future levels of taxable income. Where we determine that it is more likely than not that all or a portion of an asset will not be realized, we record a valuation allowance.

We recognize the benefit of positions taken or expected to be taken in our tax returns in our Income tax provision when it is more likely than not (i.e., a likelihood of more than fifty percent) that the position would be sustained upon examination by tax authorities. A recognized tax position is then measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon settlement with the taxing authorities. We evaluate these amounts on a quarterly basis to ensure that they have been appropriately adjusted for audit settlements and other events we believe may impact the outcome. Changes in judgment that result in subsequent recognition, derecognition or a change in measurement of a tax position taken in a prior annual period (including any related interest and penalties) are recognized as a discrete item in the interim period in which the change occurs. We recognize accrued interest and penalties related to unrecognized tax benefits as components of our Income tax provision.

We do not record a deferred tax liability for unremitted earnings of our foreign subsidiaries to the extent that the earnings meet the indefinite reversal criteria. This criteria is met if the foreign subsidiary has invested, or will invest, the earnings indefinitely. The decision as to the amount of unremitted earnings that we intend to maintain in non-U.S. subsidiaries considers items including, but not limited to, forecasts and budgets of financial needs of cash for working capital, liquidity plans and expected cash requirements in the U.S.

See Note 18 for a further discussion of our income taxes.

Fair Value Measurements. Fair value is the price we would receive to sell an asset or pay to transfer a liability (exit price) in an orderly transaction between market participants. For those assets and liabilities we record or disclose at fair value, we determine fair value based upon the quoted market price, if available. If a quoted market price is not available for identical assets, we determine fair value based upon the quoted market price of similar assets or the present value of expected future cash flows considering the risks involved, including counterparty performance risk if appropriate, and using discount rates appropriate for the duration. The fair values are assigned a level within the fair value hierarchy, depending on the source of the inputs into the calculation.

Level 1 Inputs based upon quoted prices in active markets for identical assets.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.

Level 3 Inputs that are unobservable for the asset.

Cash and Cash Equivalents. Cash equivalents represent funds we have temporarily invested (with original maturities not exceeding three months), including short-term, highly liquid debt securities. Cash and overdraft balances that meet the criteria for right of setoff are presented net on our Consolidated Balance Sheet.

Receivables. The Company's receivables are primarily generated from ongoing business relationships with our franchisees as a result of franchise agreements, including contributions due to advertising cooperatives we consolidate. These receivables from franchisees are generally due within 30 days of the period in which the corresponding sales occur and are classified as Accounts and notes receivable, net on our Consolidated Balance Sheet and are presented net of expected credit losses. Expected credit losses for uncollectible franchisee receivable balances consider both current conditions and reasonable and supportable forecasts of future conditions. Current conditions we consider include pre-defined aging criteria as well as specified events that indicate we may not collect the balance due, including foreign currency control restrictions that may exist. Reasonable and supportable forecasts used in determining the probability of future collection consider publicly available data regarding default probability. While we use the best information available in making our determination, the ultimate recovery of recorded receivables is dependent upon future economic events and other conditions that may be beyond our control. Receivables that are ultimately deemed to be uncollectible, and for which collection efforts have been exhausted, are written off against the allowance for doubtful accounts.

We recorded \$4 million and \$5 million of net bad debt expense in 2023 and 2022, respectively, and \$8 million of net bad debt recoveries in 2021, within Franchise and property expenses related to continuing fees, initial fees and rent receivables from our franchisees.

Accounts and notes receivable as well as the Allowance for doubtful accounts, including balances attributable to our consolidated advertising cooperatives, as of December 31, 2023 and 2022, respectively, are as follows:

	2023	2022
Accounts and notes receivable	\$ 776	\$ 685
Allowance for doubtful accounts	(39)	(37)
Accounts and notes receivable, net	\$ 737	\$ 648

Our financing receivables primarily consist of notes receivables and direct financing leases with franchisees which we enter into from time-to-time. As these receivables primarily relate to our ongoing business agreements with franchisees, we consider such receivables to have similar risk characteristics and evaluate them as one collective portfolio segment and class for determining the allowance for doubtful accounts. Balances of notes receivable and direct financing leases due within one year are included in Accounts and notes receivable, net while amounts due beyond one year are included in Other assets. Amounts included in Other assets totaled \$61 million (net of an allowance of less than \$1 million) and \$64 million (net of an allowance of less than \$1 million) at December 31, 2023, and December 31, 2022, respectively. Financing receivables that are ultimately deemed to be uncollectible, and for which collection efforts have been exhausted, are written off against the allowance for doubtful accounts. Interest income recorded on financing receivables has historically been insignificant.

Property, Plant and Equipment. PP&E is carried net of accumulated depreciation and amortization. We calculate depreciation and amortization on a straight-line basis over the estimated useful lives of the assets as follows: 5 to 25 years for buildings and leasehold improvements and 3 to 20 years for machinery and equipment. We suspend depreciation and amortization on assets that are held for sale.

Leases and Leasehold Improvements. We lease land, buildings or both for certain of our Company-operated restaurants and restaurant support centers worldwide. Rent expense for leased Company-operated restaurants is presented in our Consolidated Statements of Income within Company restaurant expenses and rent expense for restaurant support centers is presented within G&A. The length of our lease terms, which vary by country and often include renewal options, are an important factor in determining the appropriate accounting for leases including the initial classification of the lease as finance or operating as well as the timing of recognition of rent expense over the duration of the lease. We include renewal option periods in determining the term of our leases when failure to renew the lease would impose a penalty on the Company in such an amount that a renewal appears to be reasonably certain at the commencement of the lease. The primary penalty to which we are subject is the economic detriment associated with the existence of leasehold improvements that might be impaired if we choose not to continue the use of the leased property. Leasehold improvements are amortized over the shorter of their estimated useful lives or the lease term. We generally do not receive leasehold improvement incentives upon opening a store that is subject to a lease. We expense rent associated with leased land or buildings while a restaurant is being constructed whether rent is paid or we are subject to a rent holiday. Our leasing activity for other assets, including equipment, is not significant.

Right-of-use assets and liabilities are recognized upon lease commencement for operating and finance leases based on the present value of lease payments over the lease term. Right-of-use assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Subsequent reductions in the right-of-use asset and accretion of the lease liability for an operating lease are recognized as a single lease cost, on a straight-line basis, over the lease term. For finance leases, the right-of-use asset is depreciated on a straight-line basis over the lesser of the useful life of the leased asset or lease term. Interest on each finance lease liability is determined as the amount that results in a constant periodic discount rate on the remaining balance of the liability. As the discount rate implicit in most of our leases is not readily determinable, we use our group incremental secured borrowing rate based on the information available at commencement date, including the lease term and currency, in determining the present value of lease payments for both operating and finance leases. Leases with an initial term of 12 months or less are not recorded in the Consolidated Balance Sheet; we recognize rent expense for these leases on a straight-line basis over the lease term.

Right-of-use assets are assessed for impairment in accordance with our long-lived asset impairment policy, which is performed annually for restaurant-level assets or whenever events or changes in circumstances indicate that the carrying amount of a restaurant may not be recoverable. We reassess lease classification and remeasure right-of-use assets and lease liabilities

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

when a lease is modified and that modification is not accounted for as a separate new lease or upon certain other events that require reassessment. The difference between operating lease single lease cost recognized in our Consolidated Statements of Income and cash payments for operating leases is recognized within Other, net within Net Cash Provided by Operating Activities in our Consolidated Statements of Cash Flows.

In certain instances, we lease or sublease certain restaurants to franchisees. Our lessor and sublease portfolio primarily consists of stores that have been leased to franchisees subsequent to refranchising transactions. Our most significant leases with lease and non-lease components are leases with our franchisees that include both the right to use a restaurant as well as a license of the intellectual property associated with our Concepts' brands. For these leases, which are primarily classified as operating leases, we account for the lease and non-lease components separately. Revenues from rental agreements with franchisees are presented within Franchise and property revenues in our Consolidated Statements of Income and related expenses (e.g. depreciation and rent expense) are presented within Franchise and property expenses.

Goodwill and Intangible Assets. From time-to-time, the Company acquires restaurants from one of our Concept's franchisees or acquires another business. Goodwill from these acquisitions represents the excess of the cost of a business acquired over the net of the amounts assigned to assets acquired, including identifiable intangible assets, and liabilities assumed. Goodwill is not amortized and has been assigned to reporting units for purposes of impairment testing. Our reporting units are our business units (which are aligned based on geography) in our KFC, Taco Bell, Pizza Hut and Habit Burger Grill Divisions.

We evaluate goodwill for impairment on an annual basis or more often if an event occurs or circumstances change that indicate impairment might exist. We have selected the beginning of our fourth quarter as the date on which to perform our ongoing annual impairment test for goodwill. We may elect to perform a qualitative assessment for our reporting units to determine whether it is more likely than not that the fair value of the reporting unit is greater than its carrying value. If a qualitative assessment is not performed, or if as a result of a qualitative assessment it is not more likely than not that the fair value of a reporting unit exceeds its carrying value, then the reporting unit's fair value is compared to its carrying value. An impairment charge is recognized based on the excess of a reporting unit's carrying amount over its fair value.

If we record goodwill upon acquisition of a restaurant(s) from a franchisee and such restaurant(s) is then sold within two years of acquisition, the goodwill associated with the acquired restaurant(s) is written off in its entirety. When we refranchise restaurants, or if a previously acquired restaurant is refranchised two years or more subsequent to its acquisition, we include goodwill in the carrying amount of the restaurants disposed of based on the relative fair values of the portion of the reporting unit disposed of in the refranchising and the portion of the reporting unit that will be retained.

We evaluate the remaining useful life of an intangible asset that is not being amortized each reporting period to determine whether events and circumstances continue to support an indefinite useful life. If an intangible asset that is not being amortized is subsequently determined to have a finite useful life, we amortize the intangible asset prospectively over its estimated remaining useful life. Intangible assets that are deemed to have a finite life are amortized on a straight-line basis to their residual value.

We evaluate our indefinite-lived intangible assets for impairment on an annual basis or more often if an event occurs or circumstances change that indicate impairments might exist. We perform our annual test for impairment of our indefinite-lived intangible assets at the beginning of our fourth quarter. We may elect to perform a qualitative assessment to determine whether it is more likely than not that the fair value of an indefinite-lived intangible asset is greater than its carrying value. If a qualitative assessment is not performed, or if as a result of a qualitative assessment it is not more likely than not that the fair value of an indefinite-lived intangible asset exceeds its carrying value, then the asset's fair value is compared to its carrying value.

Our finite-lived intangible assets, including capitalized software, that are not allocated to an individual restaurant are evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount of the intangible asset may not be recoverable. An intangible asset that is deemed not recoverable on an undiscounted basis is written down to its estimated fair value. Once these assets are fully amortized and it is determined that we are no longer deriving economic benefit from ownership of the asset, the cost basis and accumulated amortization are written off.

Capitalized Software. We state capitalized software at cost less accumulated amortization within Intangible assets, net on our Consolidated Balance Sheets. We calculate amortization on a straight line basis over the estimated useful life of the software which ranges from 3 to 7 years upon initial capitalization.

Derivative Financial Instruments. We use derivative instruments primarily to hedge interest rate and foreign currency risks, and to reduce our exposure to market-driven charges in certain of the liabilities associated with employee compensation deferrals into our Executive Income Deferral (“EID”) Plan. These derivative contracts are entered into with financial institutions. We do not use derivative instruments for trading purposes and we have procedures in place to monitor and control their use.

We record all derivative instruments on our Consolidated Balance Sheet at fair value. For derivative instruments that are designated and qualify as a cash flow hedge, gain or loss on the derivative instrument is reported as a component of AOCI and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. For derivative instruments not designated as hedging instruments, the gain or loss is recognized in the results of operations immediately.

As a result of the use of derivative instruments, the Company is exposed to risk that the counterparties will fail to meet their contractual obligations. To mitigate the counterparty credit risk, we only enter into contracts with carefully selected major financial institutions based upon their credit ratings and other factors, and continually assess the creditworthiness of counterparties. At December 31, 2023 and December 31, 2022, all of the counterparties to our derivative instruments had investment grade ratings according to the three major ratings agencies. To date, all counterparties have performed in accordance with their contractual obligations.

Common Stock Share Repurchases. From time-to-time, we repurchase shares of our Common Stock under share repurchase programs authorized by our Board of Directors. Shares repurchased constitute authorized, but unissued shares under the North Carolina laws under which we are incorporated. Additionally, our Common Stock has no par or stated value. Accordingly, we record the full value of share repurchases, or other deductions to Common Stock such as shares cancelled upon employee share-based award exercises, upon the trade date, against Common Stock on our Consolidated Balance Sheet except when to do so would result in a negative balance in such Common Stock account. In such instances, on a period basis, we record the cost of any further share repurchases or other deductions to Common Stock as an addition to Accumulated deficit. Due to the large number of share repurchases of our stock in certain years, our Common Stock balance can be zero at the end of any period. Accordingly, \$26 million, \$1,131 million and \$1,549 million in share repurchases in 2023, 2022 and 2021, respectively, were recorded as an addition to Accumulated deficit. See Note 17 for additional information on our share repurchases.

Pension and Post-retirement Medical Benefits. We measure and recognize the overfunded or underfunded status of our pension and post-retirement plans as an asset or liability in our Consolidated Balance Sheet as of our fiscal year end. The funded status represents the difference between the projected benefit obligations and the fair value of plan assets, which is calculated on a plan-by-plan basis. The projected benefit obligation and related funded status are determined using assumptions as of the end of each year. The projected benefit obligation is the present value of benefits earned to date by plan participants, including the effect of future salary increases, as applicable. The difference between the projected benefit obligations and the fair value of plan assets that has not previously been recognized in our Consolidated Statement of Income is recorded as a component of AOCI.

The net periodic benefit costs associated with the Company’s defined benefit pension and post-retirement medical plans are determined using assumptions regarding the projected benefit obligation and, for funded plans, the market-related value of plan assets as of the beginning of each year, or remeasurement period if applicable. The service cost component of net periodic benefit costs is primarily recorded in G&A. Non-service cost components are recorded in Other pension (income) expense. We have elected to use a market-related value of plan assets to calculate the expected return on assets, net of administrative and investment fees paid from plan assets, in net periodic benefit costs. For each individual plan we amortize into pension expense the net amounts in AOCI, as adjusted for the difference between the fair value and market-related value of plan assets, to the extent that such amounts exceed 10% of the greater of a plan’s projected benefit obligation or market-related value of assets, over the remaining service period of active participants in the plan or, for plans with no active participants, over the expected average life expectancy of the inactive participants in the plan. The market-related value of plan assets is the fair value of plan assets as of the beginning of each year adjusted for variances between actual returns and expected returns. We attribute such variances to the market-related value of plan assets evenly over five years.

We record a curtailment when an event occurs that significantly reduces the expected years of future service or eliminates the accrual of defined benefits for the future services of a significant number of employees. We record a curtailment gain when the employees who are entitled to the benefits terminate their employment; we record a curtailment loss when it becomes probable a loss will occur. We recognize settlement gains or losses only when we have determined that the cost of all settlements in a year will exceed the sum of the service and interest costs within an individual plan.

Note 3 – Divestitures and Acquisitions

Russia Invasion of Ukraine

In the first quarter of 2022, as a result of the Russian invasion of Ukraine, we suspended all investment and restaurant development in Russia. We also suspended all operations of our 70 company-owned KFC restaurants in Russia and began finalizing an agreement to suspend all Pizza Hut operations in Russia, in partnership with our master franchisee. Further, we pledged to redirect any future net profits attributable to Russia subsequent to the date of invasion to humanitarian efforts.

During the second quarter of 2022, we completed the transfer of ownership of the Pizza Hut Russia business to a local operator. In April 2023, we completed our exit from the Russian market by selling the KFC business in Russia to Smart Service Ltd., including all Russian company owned KFC restaurants, operating system, and master franchise rights as well as the trademark for the Rostik's brand. Under the sale and purchase agreement, the buyer agreed to lead the process to rebrand KFC restaurants in Russia to Rostik's and to retain the Company's employees in Russia. We recorded a charge of \$3 million to Other income (expense) during the year ended December 31, 2023 as the write-off of our net investment in KFC Russia, including the related cumulative foreign currency translation losses of \$60 million, exceeded the consideration received from the sale which primarily included cash proceeds of \$121 million.

Our operating results presented herein reflect revenues from and expenses to support the Russian operations for KFC and Pizza Hut prior to the dates of sale or transfer, within their historical financial statement line items and operating segments. However, given our decision to exit Russia and our pledge to direct any future net profits attributable to Russia subsequent to the date of invasion to humanitarian efforts, we reclassified the resulting net profits or losses subsequent to that date from the Division segment results in which they were earned to Unallocated Other income (expense). See Note 19.

Note 4 – Earnings Per Common Share (“EPS”)

	2023	2022	2021
Net Income	\$ 1,597	\$ 1,325	\$ 1,575
Weighted-average common shares outstanding (for basic calculation)	281	286	297
Effect of dilutive share-based employee compensation	4	4	5
Weighted-average common and dilutive potential common shares outstanding (for diluted calculation)	285	290	302
Basic EPS	\$ 5.68	\$ 4.63	\$ 5.30
Diluted EPS	\$ 5.59	\$ 4.57	\$ 5.21
Unexercised employee SARs, RSUs, PSUs and stock options (in millions) excluded from the diluted EPS computation ^(a)	1.7	1.9	1.1

(a) These unexercised employee SARs, RSUs, performance share units (“PSUs”) and stock options were not included in the computation of diluted EPS because to do so would have been antidilutive for the periods presented.

Note 5 – Items Affecting Comparability of Net Income and Cash Flows

Refranchising (Gain) Loss

The Refranchising (gain) loss by our Divisional reportable segments is presented below. Given the size and volatility of refranchising initiatives, our chief operating decision maker (“CODM”) does not consider the impact of Refranchising (gain) loss when assessing Divisional segment performance. As such, we do not allocate such gains and losses to our Divisional segments for performance reporting purposes.

During the years ended December 31, 2023, 2022 and 2021, we refranchised 15, 22 and 83 restaurants, respectively. Additionally, during the years ended December 31, 2023, 2022 and 2021, we sold certain restaurant assets associated with existing franchise restaurants to the franchisee. We received \$60 million, \$73 million and \$85 million in pre-tax cash refranchising proceeds in 2023, 2022 and 2021, respectively, as a result of the sales of these restaurants and restaurant assets.

A summary of Refranchising (gain) loss is as follows:

	Refranchising (gain) loss		
	2023	2022	2021
KFC Division	\$ 2	\$ (3)	\$ (1)
Taco Bell Division	(33)	(13)	(29)
Pizza Hut Division	2	(1)	1
Habit Burger Grill Division	–	(10)	(6)
Worldwide	\$ (29)	\$ (27)	\$ (35)

Resource Optimization

During the third quarter of 2020, we initiated a resource optimization program that has allowed us to reallocate significant resources to accelerate our digital, technology and innovation capabilities to deliver a modern, world-class team member and customer experience and improve unit economics. We are currently exploring expanding the program to identify further opportunities to optimize the company’s spending and identify additional, critical areas in which to potentially reallocate resources, both with a goal to enable the acceleration of the Company’s growth rate. Costs incurred to date related to the program primarily include severance associated with positions that have been eliminated or relocated and consultant fees.

As a result of this program, we recorded charges of \$21 million, \$11 million and \$8 million in the years ended 2023, 2022 and 2021, respectively. These charges were primarily recorded as General and administrative expenses. Due to their scope and size, these costs were not allocated to any of our segment operating results for performance reporting purposes.

Investment in Devyani

In 2020, we received an approximate 5% minority interest in Devyani, an entity that owns our KFC India and Pizza Hut India master franchisee rights. The minority interest was received in lieu of cash proceeds upon the refranchising of approximately 60 KFC restaurants in India. On August 16, 2021, Devyani executed an initial public offering and subsequently the fair value of this investment became readily determinable. As a result, concurrent with the initial public offering we began recording changes in fair value in Investment (income) expense, net in our Consolidated Statements of Income and recognized pre-tax investment income of \$8 million, \$11 million and \$87 million in the years ended December 31, 2023, 2022 and 2021, respectively (see Note 14).

Long-term Debt Redemptions

On February 23, 2022, the Company issued a notice of redemption for April 1, 2022, for \$600 million aggregate principal amount of 7.75% YUM Senior Unsecured Notes due in 2025. The redemption amount was equal to 103.875% of the \$600 million aggregate principal amount redeemed, reflecting a \$23 million call premium, plus accrued and unpaid interest to the date of redemption. We recognized the call premium and the write-off of \$5 million of unamortized debt issuance costs associated with the notes within Interest expense, net.

On April 23, 2021, certain subsidiaries of the Company issued a notice of redemption for June 1, 2021, for \$1,050 million aggregate principal amount of 5.25% Subsidiary Senior Unsecured Notes due in 2026. The redemption amount was equal to 102.625% of the \$1,050 million aggregate principal amount redeemed, reflecting a \$28 million call premium. We recognized the call premium and the write-off of \$6 million of unamortized debt issuance costs associated with the notes within Interest expense, net.

See Note 11 for further discussion of the YUM and Subsidiary Senior Unsecured Notes.

Income Tax Matters

Our effective tax rates in the years ended 2023, 2022 and 2021 have been significantly impacted by upfront recognition of and subsequent adjustments to amounts associated with recently completed intra-entity transfers of intellectual property (“IP”) rights, as well as adjustments related to prior years.

As a result, our effective tax rates have fluctuated significantly and were 12.1%, 20.3% and 5.9% for the years ended December 31, 2023, 2022 and 2021, respectively. See Note 18.

Note 6 – Revenue RecognitionDisaggregation of Total Revenues

The following tables disaggregate revenue by Concept, for our two most significant markets based on Operating Profit and for all other markets. We believe this disaggregation best reflects the extent to which the nature, amount, timing and uncertainty of our revenues and cash flows are impacted by economic factors.

	2023				Total
	KFC Division	Taco Bell Division	Pizza Hut Division	Habit Burger Grill Division	
U.S.					
Company sales	\$ 67	\$ 1,069	\$ 14	\$ 575	\$ 1,725
Franchise revenues	205	822	284	7	1,318
Property revenues	14	42	4	2	62

Contract Liabilities

Our contract liabilities are comprised of unamortized upfront fees received from franchisees and are presented within Accounts payable and other current liabilities and Other liabilities and deferred credits on our Consolidated Balance Sheet. A summary of significant changes to the contract liability balance during 2023 and 2022 is presented below.

	Deferred Franchise Fees
Balance at December 31, 2021	\$ 421
Revenue recognized that was included in unamortized upfront fees received from franchisees at the beginning of the period	(79)
Increase for upfront fees associated with contracts that became effective during the period, net of amounts recognized as revenue during the period	112
Deferred franchise fees related to KFC Russia reclassified to liabilities held for sale (see Note 9)	(15)
Other ^(a)	(5)
Balance at December 31, 2022	\$ 434
Revenue recognized that was included in unamortized upfront fees received from franchisees at the beginning of the period	(81)
Increase for upfront fees associated with contracts that became effective during the period, net of amounts recognized as revenue during the period	101
Other ^(a)	(10)
Balance at December 31, 2023	\$ 444

(a) Includes impact of foreign currency translation, as well as, in 2023, the recognition of deferred franchise fees into Refranchising (gain) loss upon the termination of existing franchise agreements when entering into master franchise agreements.

We expect to recognize contract liabilities as revenue over the remaining term of the associated franchise agreement as follows:

Less than 1 year	\$ 72
1 - 2 years	65
2 - 3 years	60
3 - 4 years	53
4 - 5 years	45
Thereafter	149
Total	\$ 444

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

We have applied the optional exemption, as provided for under Topic 606, which allows us to not disclose the transaction price allocated to unsatisfied performance obligations when the transaction price is a sales-based royalty.

Note 7 – Supplemental Cash Flow Data

	2023	2022	2021
Cash Paid For:			
Interest ^(a)	\$ 526	\$ 486	\$ 471
Income taxes	432	371	308
Reconciliation of Cash and cash equivalents to Consolidated Statements of Cash Flows:			
Cash and cash equivalents as presented in Consolidated Balance Sheets	\$ 512	\$ 367	\$ 486
Restricted cash included in Prepaid expenses and other current assets ^(b)	177	220	250
Restricted cash and restricted cash equivalents included in Other assets ^(c)	35	35	35
Cash and restricted cash related to KFC Russia included in assets held for sale (see Note 3)	–	25	–
Cash, Cash Equivalents and Restricted Cash as presented in Consolidated Statements of Cash Flows	\$ 724	\$ 647	\$ 771

(a) Amounts exclude payments of \$23 million in 2022 and \$28 million in 2021 classified as Interest expense in our Consolidated Statements of Income which are included in Repayments of long-term debt within financing activities in our Consolidated Statements of Cash Flows (see Note 11).

(b) Restricted cash within Prepaid expenses and other current assets reflects the cash related to advertising cooperatives which we consolidate that can only be used to settle obligations of the respective cooperatives and cash held in reserve for Taco Bell Securitization interest payments (see Note 11).

(c) Primarily trust accounts related to our self-insurance program.

Note 8 – Other (Income) Expense

	2023	2022	2021
Foreign exchange net (gain) loss	\$ 5	\$ (9)	\$ 8
Impairment and closure expense	12	8	16
Other	(3)	8	(22)
Other (income) expense	\$ 14	\$ 7	\$ 2

Note 9 – Supplemental Balance Sheet Information

Prepaid Expenses and Other Current Assets	2023	2022
Income tax receivable	\$ 20	\$ 32
Restricted cash	177	220
Assets held for sale ^(a)	4	190
Other prepaid expenses and current assets	159	152
Prepaid expenses and other current assets	\$ 360	\$ 594
Property, Plant and Equipment		
Land	\$ 373	\$ 376
Buildings and improvements	1,421	1,364
Finance leases, primarily buildings	59	63
Machinery, equipment and other	676	651
Property, plant and equipment, gross	2,529	2,454
Accumulated depreciation and amortization	(1,332)	(1,283)
Property, plant and equipment, net	\$ 1,197	\$ 1,171

Depreciation and amortization expense related to PP&E was \$126 million, \$128 million and \$134 million in 2023, 2022 and 2021, respectively.

Other Assets	2023	2022
Operating lease right-of-use assets	\$ 764	\$ 742
Franchise incentives	175	172
Investment in Devyani International Limited	124	116
Other	298	294
Other assets	\$ 1,361	\$ 1,324

Accounts Payable and Other Current Liabilities	2023	2022
Accounts payable	\$ 231	\$ 243
Accrued compensation and benefits	258	246
Accrued advertising	146	175
Operating lease liabilities	79	79
Accrued interest	82	83
Gift card liability	72	69
Liabilities held for sale ^(a)	2	65
Other current liabilities	299	291
Accounts payable and other current liabilities	\$ 1,169	\$ 1,251

(a) Assets and liabilities held for sale reflect the carrying value of restaurants we have offered for sale to franchisees, excess properties that we do not intend to use for restaurant operations in the future and, at December 31, 2022, the assets and liabilities of KFC Russia. KFC Russia assets held for sale accounted for \$185 million, including property, plant and equipment of \$59 million, of the \$190 million, while KFC Russia liabilities held for sale accounted for all of the \$65 million as of December 31, 2022.

Note 10 – Goodwill and Intangible Assets

The changes in the carrying amount of goodwill are as follows:

	KFC	Taco Bell	Pizza Hut	Habit Burger Grill	Worldwide
Goodwill, net as of December 31, 2021 ^(a)	\$ 232	\$ 98	\$ 257	\$ 70	\$ 657
Disposals and other, net ^(b)	(7)	–	(8)	(4)	(19)
Goodwill, net as of December 31, 2022 ^(a)	\$ 225	\$ 98	\$ 249	\$ 66	\$ 638
Disposals and other, net ^(b)	1	–	3	–	4
Goodwill, net as of December 31, 2023 ^(a)	\$ 226	\$ 98	\$ 252	\$ 66	\$ 642

(a) Goodwill, net includes \$144 million of accumulated impairment losses related to our Habit Burger Grill segment and \$17 million of accumulated impairment losses related to our Pizza Hut segment for each year presented.

(b) Disposals and other, net includes the impact of foreign currency translation on existing balances and goodwill write-offs associated with refranchising.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

Intangible assets, net for the years ended 2023 and 2022 are as follows:

	2023		2022	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Finite-lived intangible assets				
Capitalized software costs	\$ 524	\$ (309)	\$ 469	\$ (263)
Reacquired franchise rights	7	(3)	35	(29)
Franchise contract rights	78	(73)	91	(84)
Other	24	(19)	24	(16)
	\$ 633	\$ (404)	\$ 619	\$ (392)
Indefinite-lived intangible assets				
KFC trademark	\$ 31		\$ 31	
Habit Burger Grill brand asset	96		96	
Other	21		–	
	\$ 148		\$ 127	

Amortization expense for all finite-lived intangible assets was \$74 million in 2023, \$68 million in 2022 and \$76 million in 2021. Amortization expense for finite-lived intangible assets, based on existing intangible assets as of December 31, 2023, is expected to approximate \$79 million in 2024, \$63 million in 2025, \$48 million in 2026, \$26 million in 2027 and \$10 million in 2028.

At December 31, 2022, KFC Russia finite-lived intangible assets of \$23 million were classified as held for sale and are included in Prepaid expenses and other current assets in our Consolidated Balance Sheet (see Note 9) and thus are not included in the table above.

Note 11 – Short-term Borrowings and Long-term Debt

	2023	2022
Short-term Borrowings		
Current maturities of long-term debt	\$ 56	\$ 405
Less current portion of debt issuance costs and discounts	(3)	(7)
Short-term borrowings	\$ 53	\$ 398
Long-term Debt		
Securitization Notes	\$ 3,743	\$ 3,772
Subsidiary Senior Unsecured Notes	750	750
Revolving Facility	–	279
Term Loan A Facility	717	736
Term Loan B Facility	1,459	1,474
YUM Senior Unsecured Notes	4,550	4,875
Finance lease obligations (See Note 12)	50	57
	\$ 11,269	\$ 11,943
Less long-term portion of debt issuance costs and discounts	(71)	(85)
Less current maturities of long-term debt	(56)	(405)
Long-term debt	\$ 11,142	\$ 11,453

Securitization Notes

Taco Bell Funding, LLC (the “Issuer”), a special purpose limited liability company and a direct, wholly-owned subsidiary of Taco Bell Corp. (“TBC”) through a series of securitization transactions has issued fixed rate senior secured notes collectively referred to as the “Securitization Notes”. The following table summarizes Securitization Notes outstanding at December 31, 2023:

Issuance Date	Anticipated Repayment Date ^(a)	Outstanding Principal (in millions)	Interest Rate	
			Stated	Effective ^(b)
May 2016	May 2026	\$ 938	4.970%	5.14%
November 2018	November 2028	\$ 595	4.940%	5.06%
August 2021	February 2027	\$ 884	1.946%	2.11%
August 2021	February 2029	\$ 589	2.294%	2.42%
August 2021	August 2031	\$ 737	2.542%	2.64%

- (a) *The legal final maturity dates of the Securitization Notes issued in 2016, 2018 and 2021 are May 2046, November 2048 and August 2051, respectively. If the Issuer has not repaid or refinanced a series of Securitization Notes prior to its respective Anticipated Repayment Dates, rapid amortization of principal on all Securitization Notes will occur and additional interest will accrue on the Securitization Notes.*
- (b) *Includes the effects of the amortization of any discount and debt issuance costs.*

The Securitization Notes were issued in transactions pursuant to which certain of TBC’s domestic assets, consisting principally of franchise-related agreements and domestic intellectual property, were contributed to the Issuer and the Issuer’s special purpose, wholly-owned subsidiaries (the “Guarantors”, and collectively with the Issuer, the “Securitization Entities”) to secure the Securitization Notes. The Securitization Notes are secured by substantially all of the assets of the Securitization Entities, and include a lien on all existing and future U.S. Taco Bell franchise and license agreements and the royalties payable thereunder, existing and future U.S. Taco Bell intellectual property, certain transaction accounts and a pledge of the equity interests in asset-owning Securitization Entities. The remaining U.S. Taco Bell assets that were excluded from the transfers to the Securitization Entities continue to be held by Taco Bell of America, LLC (“TBA”) and TBC. The Securitization Notes are not guaranteed by these remaining U.S. Taco Bell assets, the Company, or any other subsidiary of the Company.

Payments of interest and principal on the Securitization Notes are made from the continuing fees paid pursuant to the franchise and license agreements with all U.S. Taco Bell restaurants, including both company and franchise operated restaurants. Interest on and principal payments of the Securitization Notes are due on a quarterly basis. In general, no amortization of principal of the Securitization Notes is required prior to their anticipated repayment dates unless as of any quarterly measurement date the consolidated leverage ratio (the ratio of total debt to Net Cash Flow (as defined in the related indenture)) for the preceding four fiscal quarters of either the Company and its subsidiaries or the Issuer and its subsidiaries exceeds 5.0:1, in which case amortization payments of 1% per year of the outstanding principal as of the closing of the Securitization Notes are required. As of the most recent quarterly measurement date the consolidated leverage ratio for the Issuer and its subsidiaries did not exceed 5.0:1 and, as a result, amortization payments are not required.

The Securitization Notes are subject to a series of covenants and restrictions customary for transactions of this type, including (i) that the Issuer maintains specified reserve accounts to be available to make required interest payments in respect of the Securitization Notes, (ii) provisions relating to optional and mandatory prepayments and the related payment of specified amounts, including specified make-whole payments in the case of the Securitization Notes under certain circumstances, (iii) certain indemnification payments relating to taxes, enforcement costs and other customary items and (iv) covenants relating to recordkeeping, access to information and similar matters. The Securitization Notes are also subject to rapid amortization events provided for in the indenture, including events tied to failure to maintain a stated debt service coverage ratio (as defined in the related indenture) of at least 1.1:1, gross domestic sales for U.S. Taco Bell restaurants being below certain levels on certain measurement dates, a manager termination event, an event of default and the failure to repay or refinance the Securitization Notes on the Anticipated Repayment Date (subject to limited cure rights). The Securitization Notes are also subject to certain customary events of default, including events relating to non-payment of required interest or principal due on the Securitization Notes, failure to comply with covenants within certain time frames, certain bankruptcy events, breaches of specified representations and warranties, failure of security interests to be effective, certain judgments and failure of the Securitization Entities to maintain a stated debt service coverage ratio. As of December 31, 2023, we were in compliance with all of our debt covenant requirements and were not subject to any rapid amortization events.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

In accordance with the indenture, certain cash accounts have been established with the indenture trustee for the benefit of the note holders, and are restricted in their use. The indenture requires a certain amount of securitization cash flow collections to be allocated on a weekly basis and maintained in a cash reserve account. As of December 31, 2023, the Company had restricted cash of \$76 million primarily related to required interest reserves included in Prepaid expenses and other current assets on the Consolidated Balance Sheets. Once the required reserve obligations are satisfied, there are no further restrictions, including payment of dividends, on the cash flows of the Securitization Entities.

Additional cash reserves are required if any of the rapid amortization events occur, as noted above, or in the event that as of any quarterly measurement date the Securitization Entities fail to maintain a debt service coverage ratio (or the ratio of Net Cash Flow to all debt service payments for the preceding four fiscal quarters) of at least 1.75:1. The amount of weekly securitization cash flow collections that exceed the required weekly allocations is generally remitted to the Company. During the most recent quarter ended December 31, 2023, the Securitization Entities maintained a debt service coverage ratio significantly in excess of the 1.75:1 requirement.

Term Loan Facilities, Revolving Facility and Subsidiary Senior Unsecured Notes

KFC Holding Co., Pizza Hut Holdings, LLC, and TBA, each of which is a wholly-owned subsidiary of the Company, as co-borrowers (the “Borrowers”) have entered into a credit agreement providing for senior secured credit facilities and a \$1.25 billion revolving facility maturing March 15, 2026 (the “Revolving Facility”). The senior secured credit facilities, which include a Term Loan A Facility and a Term Loan B Facility, and the Revolving Facility are collectively referred to as the “Credit Agreement”. Additionally, the Borrowers through a series of transactions have issued Subsidiary Senior Unsecured Notes (collectively referred to as the “Subsidiary Senior Unsecured Notes”).

The following table summarizes borrowings outstanding under the Credit Agreement, as well as our Subsidiary Senior Unsecured Notes as of December 31, 2023. There were no outstanding borrowings under the Revolving Facility and \$2 million of letters of credit outstanding as of December 31, 2023.

	Issuance Date	Maturity Date	Outstanding Principal (in millions)	Interest Rate	
				Stated	Effective ^(b)
Term Loan A Facility	March 2021	March 2026	\$ 717	(a)	6.34%
Term Loan B Facility	March 2021	March 2028	\$ 1,459	(a)	5.06%
Subsidiary Senior Unsecured Notes	June 2017	June 2027	\$ 750	4.75%	4.90%

(a) *The interest rates applicable to the Term Loan A Facility as well as the Revolving Facility range from 0.75% to 1.50% plus Secured Overnight Financing Rate (“SOFR”) or from 0.00% to 0.50% plus the Base Rate (as defined in the Credit Agreement), at the Borrowers’ election, based upon the total leverage ratio (as defined in the Credit Agreement). As of December 31, 2023, the interest rate spreads on the SOFR and Base Rate applicable to our Term Loan A Facility were 0.75% and 0.00%, respectively.*

The interest rates applicable to the Term Loan B Facility are 1.75% plus SOFR or 0.75% plus the Base Rate, at the Borrowers’ election.

We transitioned to SOFR as the benchmark reference rate under the Credit Agreement during 2023 following the cease of publication of remaining LIBOR tenors on June 30, 2023.

(b) *Includes the effects of the amortization of any discount and debt issuance costs as well as the impact of the interest rate swaps on the Term Loan A and Term Loan B Facilities (see Note 13). The effective rates related to our Term Loan A and B Facilities are based on SOFR-based interest rates at December 31, 2023.*

The Term Loan A Facility is subject to quarterly amortization payments in an amount equal to 0.625% of the principal amount of the facility as of the issuance date of \$750 million. These quarterly amortization payments increase to 1.25% of this principal amount beginning with the second quarter of 2024 with the balance payable at maturity on March 15, 2026.

The Term Loan B Facility is subject to quarterly amortization payments in an amount equal to 0.25% of the principal amount of the facility as of the issuance date of \$1.5 billion, with the balance payable at maturity on March 15, 2028.

The Credit Agreement is unconditionally guaranteed by the Company and certain of the Borrowers’ principal domestic subsidiaries and excludes Taco Bell Funding LLC and its special purpose, wholly-owned subsidiaries (see above). The Credit Agreement is also secured by first priority liens on substantially all assets of the Borrowers and each subsidiary guarantor, excluding the stock of certain subsidiaries and certain real property, and subject to other customary exceptions.

The Credit Agreement is subject to certain mandatory prepayments in the event certain covenants are not met, including an amount equal to 50% of excess cash flow (as defined in the Credit Agreement) on an annual basis and the proceeds of certain asset sales, casualty events and issuances of indebtedness, subject to customary exceptions and reinvestment rights.

The Credit Agreement’s covenants include two financial maintenance covenants which require the Borrowers to maintain a total leverage ratio (defined as the ratio of Consolidated Total Debt to Consolidated EBITDA (as these terms are defined in the Credit Agreement)) of 5.0:1 or less and a fixed charge coverage ratio (defined as the ratio of EBITDA minus capital expenditures to fixed charges (inclusive of rental expense and scheduled amortization)) of at least 1.5:1, each as of the last day of each fiscal quarter. The Credit Agreement includes other affirmative and negative covenants and events of default that are customary for facilities of this type. The Credit Agreement contains, among other things, limitations on certain additional indebtedness and liens, and certain other transactions specified in the agreement. We were in compliance with all debt covenants as of December 31, 2023.

The Subsidiary Senior Unsecured Notes are guaranteed on a senior unsecured basis by (i) the Company, (ii) the Specified Guarantors (as defined in the Credit Agreement) and (iii) by each of the Borrower’s and the Specified Guarantors’ domestic subsidiaries that guarantees the Borrower’s obligations under the Credit Agreement, except for any of the Company’s foreign subsidiaries. The indenture governing the Subsidiary Senior Unsecured Notes contains covenants and events of default that are customary for debt securities of this type. We were in compliance with all debt covenants as of December 31, 2023.

YUM Senior Unsecured Notes

The majority of our remaining long-term debt primarily comprises YUM Senior Unsecured Notes. The following table summarizes all YUM Senior Unsecured Notes issued that remain outstanding at December 31, 2023:

Issuance Date	Maturity Date	Principal Amount (in millions)	Interest Rate	
			Stated	Effective ^(a)
October 2007	November 2037	\$ 325	6.88%	7.45%
October 2013	November 2043	\$ 275	5.35%	5.42%
September 2019	January 2030	\$ 800	4.75%	4.90%
September 2020	March 2031	\$ 1,050	3.63%	3.77%
April 2021	January 2032	\$ 1,100	4.63%	4.77%
April 2022	April 2032	\$ 1,000	5.38%	5.53%

(a) Includes the effects of the amortization of any (1) premium or discount; (2) debt issuance costs; and (3) gain or loss upon settlement of related treasury locks and forward starting interest rate swaps utilized to hedge the interest rate risk prior to debt issuance.

The YUM Senior Unsecured Notes represent senior, unsecured obligations and rank equally in right of payment with all of our existing and future unsecured unsubordinated indebtedness. Our YUM Senior Unsecured Notes contain covenants and events of default that are customary for debt securities of this type, including cross-default provisions whereby the acceleration of the maturity of any of our indebtedness in a principal amount in excess of \$50 million (\$100 million or more in the case of the YUM Senior Unsecured Notes issued in 2019 and subsequent years) will constitute a default under the YUM Senior Unsecured Notes unless such indebtedness is discharged, or the acceleration of the maturity of that indebtedness is annulled, within 30 days after notice.

The annual maturities of all Short-term borrowings and Long-term debt as of December 31, 2023, excluding finance lease obligations of \$50 million and debt issuance costs and discounts of \$74 million are as follows:

Year ended:	
2024	\$ 48
2025	53
2026	1,599
2027	1,649
2028	1,994
Thereafter	5,876
Total	\$ 11,219

Interest expense on Short-term borrowings, Long-term debt and gross interest on cash pooling arrangements was \$602 million, \$558 million and \$551 million in 2023, 2022 and 2021, respectively.

Note 12 – Lease AccountingComponents of Lease Cost

	2023	2022	2021
Operating lease cost	\$ 130	\$ 133	\$ 145
Finance lease cost			
Amortization of right-of-use assets	6	7	5
Interest on lease liabilities	2	3	4
Total finance lease cost	\$ 8	\$ 10	\$ 9
Sublease income	\$ (51)	\$ (55)	\$ (59)

Supplemental Cash Flow Information

	2023	2022	2021
Cash paid for amounts included in the measurement of lease liabilities			
Operating cash flows from operating leases	\$ 127	\$ 137	\$ 140
Operating cash flows from finance leases	2	3	4
Financing cash flows from finance leases	7	5	4
Right-of-use assets obtained in exchange for lease obligations			
Operating leases	127	93	119
Finance leases	6	10	5
Operating lease liabilities transferred through refranchising	(14)	(14)	(25)
Finance lease and other debt obligations transferred through refranchising	(5)	–	(2)

Supplemental Balance Sheet Information

	2023	2022	Consolidated Balance Sheet
Assets			
Operating lease right-of-use assets	\$ 764	\$ 742	Other assets
Finance lease right-of-use assets	29	33	Property, plant and equipment, net
Total right-of-use assets ^(a)	\$ 793	\$ 775	
Liabilities			
Current			
Operating	\$ 79	\$ 79	Accounts payable and other current liabilities
Finance	8	8	Short-term borrowings
Non-current			
Operating	757	731	Other liabilities and deferred credits
Finance	42	49	Long-term debt
Total lease liabilities ^(a)	\$ 886	\$ 867	
Weighted-average Remaining Lease Term (in years)			
Operating leases	10.6	10.8	
Finance leases	11.4	11.6	
Weighted-average Discount Rate			
Operating leases	5.3%	5.1%	
Finance leases	5.7%	5.8%	

(a) U.S. operating lease right-of-use assets and liabilities totaled \$541 million and \$605 million, respectively, as of December 31, 2023, and \$515 million and \$575 million, respectively, as of December 31, 2022. These amounts primarily related to Taco Bell U.S. and the Habit Burger Grill including leases related to Company-operated restaurants, leases related to franchise-operated restaurants we sublease and the Taco Bell and Habit Burger Grill restaurant support center.

Maturity of Lease Payments and Receivables

Future minimum lease payments, including rental payments for lease renewal options we are reasonably certain to exercise, and amounts to be received as lessor or sublessor as of December 31, 2023, were as follows:

	Commitments		Lease Receivables	
	Finance	Operating	Direct Financing	Operating
2024	\$ 10	\$ 118	\$ 3	\$ 77
2025	8	124	3	72
2026	6	118	3	69
2027	6	109	3	62
2028	5	99	2	55
Thereafter	29	531	17	416
Total lease payments/receipts	64	1,099	31	\$ 751
Less imputed interest/unearned income	(14)	(263)	(11)	
Total lease liabilities/receivables	\$ 50	\$ 836	\$ 20	

As of December 31, 2023, we have executed real estate leases that have not yet commenced with estimated future nominal lease payments of approximately \$75 million, which are not included in the tables above. These leases are expected to commence in 2024, 2025 and 2026 with lease terms of up to 20 years.

Note 13 – Derivative Instruments

We use derivative instruments to manage certain of our market risks related to fluctuations in interest rates, deferred compensation liabilities and foreign currency exchange rates. Our use of foreign currency contracts to manage foreign currency exchange rates associated with certain foreign currency denominated intercompany receivables and payables is currently not significant.

Interest Rate Swaps

We have entered into interest rate swaps with the objective of reducing our exposure to interest rate risk for a portion of our variable-rate debt interest payments. On May 14, 2018, we entered into forward-starting interest rate swaps to fix the interest rate on \$1.5 billion of borrowings, primarily under our Term Loan B Facility from July 2021 through March 2025. These interest rate swaps result in a fixed rate of 4.87% on the swapped portion of the Term Loan B Facility. These interest rate swaps are designated cash flow hedges as the changes in the future cash flows of the swaps are expected to offset changes in expected future interest payments on the related variable-rate debt. There were no other interest rate swaps outstanding as of December 31, 2023.

Gains or losses on the interest rate swaps are reported as a component of AOCI and reclassified into Interest expense, net in our Consolidated Statements of Income in the same period or periods during which the related hedged interest payments affect earnings. Through December 31, 2023, the swaps were highly effective cash flow hedges.

Gains and losses on these interest rate swaps recognized in OCI and reclassified from AOCI into Net Income were as follows:

	Gains/(Losses) Recognized in OCI			(Gains)/Losses Reclassified from AOCI into Net Income		
	2023	2022	2021	2023	2022	2021
Interest rate swaps	\$ 14	\$ 115	\$ 34	\$ (30)	\$ 21	\$ 29
Income tax benefit/(expense)	(4)	(30)	(8)	8	(4)	(6)

As of December 31, 2023, the estimated net gain included in AOCI related to our interest rate swaps that will be reclassified into earnings in the next 12 months is \$24 million, based on current SOFR interest rates.

Total Return Swaps

We have entered into total return swap derivative contracts, with the objective of reducing our exposure to market-driven changes in certain of the liabilities associated with compensation deferrals into our EID plan. While these total return swaps represent economic hedges, we have not designated them as hedges for accounting purposes. As a result, the changes in the fair value of these derivatives are recognized immediately in earnings within General and administrative expenses in our Consolidated Statements of Income largely offsetting the changes in the associated EID liabilities. The fair value associated with the total return swaps as of both December 31, 2023 and 2022, was not significant.

As a result of the use of derivative instruments, the Company is exposed to risk that the counterparties will fail to meet their contractual obligations. To mitigate the counterparty credit risk, we only enter into contracts with major financial institutions carefully selected based upon their credit ratings and other factors, and continually assess the creditworthiness of counterparties. At December 31, 2023, all of the counterparties to our derivative instruments had investment grade ratings according to the three major ratings agencies. To date, all counterparties have performed in accordance with their contractual obligations.

See Note 14 for the fair value of our derivative assets and liabilities.

Note 14 – Fair Value Disclosures

As of December 31, 2023, the carrying values of cash and cash equivalents, restricted cash, short-term investments, accounts receivable, short-term borrowings and accounts payable approximated their fair values because of the short-term nature of these instruments. The fair value of notes receivable net of allowances and lease guarantees less subsequent amortization approximates their carrying value. The following table presents the carrying value and estimated fair value of the Company's debt obligations:

	2023		2022	
	Carrying Value	Fair Value (Level 2)	Carrying Value	Fair Value (Level 2)
Securitization Notes ^(a)	\$ 3,743	\$ 3,391	\$ 3,772	\$ 3,273
Subsidiary Senior Unsecured Notes ^(b)	750	742	750	731
Term Loan A Facility ^(b)	717	716	736	729
Term Loan B Facility ^(b)	1,459	1,466	1,474	1,459
YUM Senior Unsecured Notes ^(b)	4,550	4,439	4,875	4,473

(a) We estimated the fair value of the Securitization Notes using market quotes and calculations. The markets in which the Securitization Notes trade are not considered active markets.

(b) We estimated the fair value of the YUM and Subsidiary Senior Unsecured Notes, Term Loan A Facility, and Term Loan B Facility using market quotes and calculations based on market rates.

Recurring Fair Value Measurements

The Company has interest rate swaps and investments, all of which are required to be measured at fair value on a recurring basis (see Note 13 for discussion regarding derivative instruments). The following table presents fair values for those assets and liabilities measured at fair value on a recurring basis and the level within the fair value hierarchy in which the measurements fall.

	Consolidated Balance Sheet	Level	Fair Value	
			2023	2022
Assets				
Investments	Other assets	1	\$ 125	\$ 118
Investments	Other assets	3	7	5
Interest Rate Swaps	Prepaid expenses and other current assets	2	24	26
Interest Rate Swaps	Other assets	2	2	16

The fair value of the Company's interest rate swaps were determined based on the present value of expected future cash flows considering the risks involved, including nonperformance risk, and using discount rates appropriate for the duration based on observable inputs.

Investments as of December 31, 2023 and 2022, primarily include our approximate 5% minority interest in Devyani, a publically-traded entity, with a fair value of \$124 million and \$116 million, respectively.

Non-Recurring Fair Value Measurements

During the years ended December 31, 2023, 2022 and 2021, we recognized non-recurring fair value measurements of \$11 million, \$9 million and \$4 million, respectively, related to restaurant-level impairment. Restaurant-level impairment charges are recorded in Other (income) expense and resulted primarily from our impairment evaluation of long-lived assets of individual restaurants that were being operated at the time of impairment and had not been offered for refranchising. The fair value measurements used in these impairment evaluations were based on discounted cash flow estimates using unobservable inputs (Level 3). These amounts exclude fair value measurements made for assets that were subsequently disposed of prior to those respective year end dates. The remaining net book value of restaurant assets measured at fair value during the years ended December 31, 2023 and 2022, was \$21 million and \$20 million, respectively.

During the year ended December 31, 2021, we recognized non-recurring fair value measurements of \$6 million related to refranchising related impairment. Refranchising related impairment results from writing down the assets of restaurants or restaurant groups offered for refranchising, including certain instances where a decision has been made to refranchise restaurants that are deemed to be impaired. The fair value measurements used in our impairment evaluation were based on actual bids received from potential buyers (Level 2).

Note 15 – Pension, Retiree Medical and Retiree Savings Plans

U.S. Pension Plans

We sponsor qualified and supplemental (non-qualified) noncontributory defined benefit plans covering certain full-time salaried and hourly U.S. employees. The qualified plan meets the requirements of certain sections of the Internal Revenue Code and provides benefits to a broad group of employees with restrictions on discriminating in favor of highly compensated employees with regard to coverage, benefits and contributions. The supplemental plans provide additional benefits to certain employees. We fund our supplemental plans as benefits are paid.

The most significant of our U.S. plans is the YUM Retirement Plan (the "Plan"), which is a qualified plan. Our funding policy with respect to the Plan is to contribute amounts necessary to satisfy minimum pension funding requirements, including requirements of the Pension Protection Act of 2006, plus additional amounts from time-to-time as are determined to be necessary to improve the Plan's funded status. We do not expect to make any significant contributions to the Plan in 2024. Our two significant U.S. plans, including the Plan and a supplemental plan, were previously amended such that any salaried employee hired or rehired by YUM after September 30, 2001, is not eligible to participate in those plans. Additionally, these two significant U.S. plans are currently closed to new hourly participants.

We do not anticipate any plan assets being returned to the Company during 2024 for any U.S. plans.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

Obligation and Funded Status at Measurement Date:

The following chart summarizes the balance sheet impact, as well as benefit obligations, assets, and funded status associated with our two significant U.S. pension plans. The actuarial valuations for all plans reflect measurement dates coinciding with our fiscal year end.

	2023	2022
<i>Change in benefit obligation:</i>		
Benefit obligation at beginning of year	\$ 755	\$ 1,069
Service cost	5	7
Interest cost	41	31
Benefits paid	(34)	(29)
Settlement payments	–	(59)
Actuarial (gain) loss	11	(264)
Benefit obligation at end of year	\$ 778	\$ 755

A significant component of the overall increase in the Company's benefit obligation for the year ended December 31, 2023, was due to interest cost on the benefit obligation partially offset by benefits paid during the year.

A significant component of the overall decrease in the Company's benefit obligation for the year ended December 31, 2022, was due to an actuarial gain, which was primarily due to an increase in the discount rate used to measure our benefit obligation from 3.00% at December 31, 2021 to 5.60% at December 31, 2022.

	2023	2022
<i>Change in plan assets:</i>		
Fair value of plan assets at beginning of year	\$ 664	\$ 1,010
Actual return on plan assets	46	(272)
Employer contributions	4	14
Benefits paid	(34)	(29)
Settlement payments	–	(59)
Fair value of plan assets at end of year	\$ 680	\$ 664
Funded status at end of year	\$ (98)	\$ (91)

Amounts recognized in the Consolidated Balance Sheet:

	2023	2022
Accrued benefit asset - non-current	\$ –	\$ –
Accrued benefit liability - current	(8)	(6)
Accrued benefit liability - non-current	(90)	(85)
	\$ (98)	\$ (91)

The accumulated benefit obligation was \$763 million and \$740 million at December 31, 2023 and 2022, respectively.

The table below provides information for those pension plan(s) with an accumulated benefit obligation in excess of plan assets. The pension plan(s) included also have a projected benefit obligation in excess of plan assets.

	2023	2022
Projected benefit obligation	\$ 778	\$ 755
Accumulated benefit obligation	763	740
Fair value of plan assets	680	644

Components of net periodic benefit cost:

	2023	2022	2021
Service cost	\$ 5	\$ 7	\$ 8
Interest cost	41	31	32
Amortization of prior service cost ^(a)	1	6	6
Expected return on plan assets	(50)	(46)	(43)
Amortization of net loss (gain)	(1)	11	14
Net periodic benefit cost (income)	\$ (4)	\$ 9	\$ 17

Additional (gain) loss recognized due to:

Settlement charges ^(b)	\$ –	\$ 6	\$ –
-----------------------------------	------	------	------

(a) Prior service costs are amortized on a straight-line basis over the average remaining service period of employees expected to receive benefits.

(b) Settlement losses result when benefit payments exceed the sum of the service cost and interest cost within a plan during the year. These losses were recorded in Other pension (income) expense.

Pension gains (losses) in AOCI:

	2023	2022
Beginning of year	\$ (74)	\$ (43)
Net actuarial gain (loss)	(13)	(54)
Amortization of net (gain) loss	(1)	11
Amortization of prior service cost	1	6
Settlement charges	–	6
End of year	\$ (87)	\$ (74)

Accumulated pre-tax losses recognized within AOCI:

	2023	2022
Actuarial net loss	\$ (84)	\$ (70)
Prior service cost	(3)	(4)
	\$ (87)	\$ (74)

Weighted-average assumptions used to determine benefit obligations at the measurement dates:

	2023	2022
Discount rate	5.60%	5.60%
Rate of compensation increase	3.00%	3.00%

Weighted-average assumptions used to determine the net periodic benefit cost for fiscal years:

	2023	2022	2021
Discount rate	5.60%	3.00%	2.80%
Long-term rate of return on plan assets	6.25%	5.40%	5.25%
Rate of compensation increase	3.00%	3.00%	3.00%

Our estimated long-term rate of return on plan assets represents the weighted-average of expected future returns on the asset categories included in our target investment allocation based primarily on the historical returns for each asset category and future growth expectations.

Plan Assets

The fair values of our pension plan assets at December 31, 2023 and 2022 by asset category and level within the fair value hierarchy are as follows:

	2023	2022
Level 1:		
Cash	\$ –	\$ 1
Cash Equivalents ^(a)	61	22
Fixed Income Securities - U.S. Corporate ^(b)	7	14
Level 2:		
Equity Securities ^(b)	213	179
Fixed Income Securities - U.S. Corporate ^(c)	25	22
Fixed Income Securities - U.S. Government and Government Agencies ^(d)	124	118
Fixed Income Securities - Other ^(d)	11	19
Total assets in the fair value hierarchy	441	375
Investments measured at net asset value ^(e)		
Fixed Income	132	146
Real Assets	149	192
Total fair value of plan assets ^(f)	\$ 722	\$ 713

(a) Short-term investments in money market funds.

(b) Securities held in common or collective trusts.

(c) Investments held directly by the Plan.

(d) Includes securities held in common or collective trusts and investments held directly by the Plan.

(e) Includes securities that have been measured at fair value using the net asset value per unit practical expedient due to the absence of readily available market prices. Accordingly, these securities have not been classified in the fair value hierarchy.

(f) 2023 and 2022 exclude net unsettled trade payables of \$42 million and \$49 million, respectively.

Our primary objectives regarding the investment strategy for the Plan's assets are to reduce interest rate and market risk and to provide adequate liquidity to meet immediate and future payment requirements. To achieve these objectives, we are using a combination of active and passive investment strategies. As of December 31, 2023, the Plan's assets consist of the weighted-average target allocation summarized as follows:

Asset Category	Target Allocation
Fixed income	49%
Equity securities	32%
Real assets	19%

Actual allocations to each asset class may vary from target allocations due to periodic investment strategy changes, market value fluctuations, the length of time it takes to fully implement investment allocation positions and the timing of benefit payments and contributions.

Fixed income securities at December 31, 2023, primarily consist of a diversified portfolio of long duration instruments that are intended to mitigate interest rate risk or reduce the interest rate duration mismatch between the assets and liabilities of the Plan. A smaller allocation (constituting 40% of the fixed income target allocation) is to diversified credit investments in a range of public and credit securities, including below investment grade rated bonds and loans, securitized credit and emerging market debt.

Equity securities at December 31, 2023, consist primarily of investments in publicly traded common stocks and other equity-type securities issued by companies throughout the world, including convertible securities, preferred stock, rights and warrants.

Real assets represent investments in real estate and infrastructure. These may take the form of debt or equity securities in public or private funds.

A mutual fund held as an investment by the Plan includes shares of Common Stock valued at \$0.1 million at both December 31, 2023 and 2022, (less than 1% of total plan assets in each instance).

Benefit Payments

The benefits expected to be paid in each of the next five years and in the aggregate for the five years thereafter are set forth below:

Year ended:	
2024	\$ 50
2025	54
2026	59
2027	57
2028	60
2029 - 2033	280

Expected benefit payments are estimated based on the same assumptions used to measure our benefit obligation on the measurement date and include benefits attributable to estimated future employee service.

International Pension Plans

We also sponsor various defined benefit plans covering certain of our non-U.S. employees, the most significant of which are in the UK. Both of our UK plans have previously been frozen such that they are closed to new participants and existing participants can no longer earn future service credits.

At the end of 2023 and 2022, the projected benefit obligations of these UK plans totaled \$190 million and \$179 million, respectively and plan assets totaled \$226 million and \$209 million, respectively. These plans were both in a net overfunded position at the end of 2023 and 2022. Total actuarial pre-tax losses related to the UK plans of \$63 million and \$64 million were recognized in AOCI at the end of both 2023 and 2022, respectively. The total net periodic cost or benefit recorded was \$2 million of cost in 2023, and net periodic benefit income of \$2 million in 2022 and less than \$1 million in 2021.

The funding rules for our pension plans outside of the U.S. vary from country to country and depend on many factors including discount rates, performance of plan assets, local laws and regulations. We do not plan to make significant contributions to either of our UK plans in 2024.

Retiree Medical Benefits

Our post-retirement plan provides health care benefits, principally to U.S. salaried retirees and their dependents, and includes retiree cost-sharing provisions and a cap on our liability. This plan was previously amended such that any salaried employee hired or rehired by YUM after September 30, 2001, is not eligible to participate in this plan. Employees hired prior to September 30, 2001, are eligible for benefits if they meet age and service requirements and qualify for retirement benefits. We fund our post-retirement plan as benefits are paid.

At the end of 2023 and 2022, the accumulated post-retirement benefit obligation was \$27 million and \$30 million, respectively. Actuarial pre-tax gains of \$15 million and \$16 million were recognized in AOCI at the end of 2023 and 2022, respectively. The net periodic benefit cost or benefit recorded was less than \$1 million of benefit in 2023, and \$1 million of cost in 2022 and 2021. The weighted-average assumptions used to determine benefit obligations and net periodic benefit cost for the post-retirement medical plan are identical to those as shown for the U.S. pension plans.

The benefits expected to be paid in each of the next five years are approximately \$3 million and in aggregate for the five years thereafter are \$11 million.

U.S. Retiree Savings Plan

We sponsor a contributory plan to provide retirement benefits under the provisions of Section 401(k) of the Internal Revenue Code (the "401(k) Plan") for eligible U.S. salaried and hourly employees. Participants are able to elect to contribute up to 75% of

eligible compensation on a pre-tax basis. Participants may allocate their contributions to one or any combination of multiple investment options or a self-managed account within the 401(k) Plan. We match 100% of the participant's contribution to the 401(k) Plan up to 6% of eligible compensation. We recognized as compensation expense our total matching contribution of \$15 million in 2023, \$13 million in 2022 and \$11 million in 2021.

Note 16 – Share-based and Deferred Compensation Plans

Overview

At year end 2023, we had one stock award plan in effect: the Yum! Brands, Inc. Long-Term Incentive Plan (the "LTIP"). Potential awards to employees and non-employee directors under the LTIP include stock options, incentive stock options, SARs, restricted stock, RSUs, performance restricted stock units, PSUs and performance units. We have issued only stock options, SARs, RSUs and PSUs under the LTIP. Under the LTIP, the exercise price of stock options and SARs granted must be equal to or greater than the average market price or the ending market price of the Company's stock on the date of grant. While awards under the LTIP can have varying vesting provisions and exercise periods, outstanding awards under the LTIP vest in periods ranging from immediate to five years. Stock options and SARs generally expire ten years after grant. At year end 2023, approximately 23 million shares were available for future share-based compensation grants under the LTIP.

Our EID Plan allows participants to defer receipt of a portion of their annual salary and all or a portion of their incentive compensation. As defined by the EID Plan, we credit the amounts deferred with earnings based on the investment options selected by the participants. These investment options are limited to cash, phantom shares of our Common Stock, phantom shares of a Stock Index Fund and phantom shares of a Bond Index Fund. Investments in cash and phantom shares of both index funds will be distributed in cash at a date as elected by the employee and therefore are classified as a liability on our Consolidated Balance Sheets. We recognize compensation expense for the appreciation or the depreciation, if any, of investments in cash and both of the index funds. Deferrals into the phantom shares of our Common Stock will be distributed in shares of our Common Stock, under the LTIP, at a date as elected by the employee and therefore are classified in Common Stock on our Consolidated Balance Sheets. We do not recognize compensation expense for the appreciation or the depreciation, if any, of investments in phantom shares of our Common Stock. Our EID plan also allows certain participants to defer incentive compensation to purchase phantom shares of our Common Stock and receive a 33% Company match on the amount deferred. Deferrals receiving a match are similar to an RSU award in that participants will generally forfeit both the match and incentive compensation amounts deferred if they voluntarily separate from employment during a vesting period that is two years from the date of deferral. We expense the intrinsic value of the match and the incentive compensation amount over the requisite service period which includes the vesting period.

Historically, the Company has repurchased shares on the open market in excess of the amount necessary to satisfy award exercises and expects to continue to do so in 2024.

In connection with the 2016 spin-off of our China business into an independent, publicly-traded company under the name of Yum China Holdings, Inc. ("Yum China"), under the provisions of our LTIP, employee stock options, SARs, RSUs and PSUs outstanding at that time were adjusted to maintain the pre-spin intrinsic value of the awards. Depending on the tax laws of the country of employment, awards were modified using either the shareholder method or the employer method. Share-based compensation as recorded in Net Income was based on the amortization of the fair value for both YUM and Yum China awards held by YUM employees. The fair value of Yum China awards held by YUM employees became fully amortized to expense in the year ended December 31, 2020. Share issuances for Yum China awards held by YUM employees will be satisfied by Yum China. Share issuances for YUM awards held by Yum China employees are being satisfied by YUM.

Award Valuation

We estimated the fair value of each stock option and SAR award as of the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

	2023	2022	2021
Risk-free interest rate	3.6%	1.7%	0.5%
Expected term	5.9 years	6.6 years	6.3 years
Expected volatility	22.0%	25.0%	27.0%
Expected dividend yield	1.8%	1.9%	1.9%

Grants made to executives typically have a graded vesting schedule of 25% per year over four years and expire ten years after grant. We use a single weighted-average term for our awards that have a graded vesting schedule. Based on analysis of our historical exercise and post-vesting termination behavior, we have determined that our executives exercised the awards on average after 5.9 years.

When determining expected volatility, we consider both historical volatility of our stock as well as implied volatility associated with our publicly-traded options. The expected dividend yield is based on the annual dividend yield at the time of grant.

The fair values of PSU awards without market-based conditions and RSU awards are based on the closing price of our Common Stock on the date of grant. The fair values of PSU awards with market-based conditions have been valued based on the outcome of a Monte Carlo simulation.

Award Activity

Stock Options and SARs

	Shares (in thousands)	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (in millions)
Outstanding at the beginning of the year	11,281	\$ 86.18		
Granted	1,057	131.28		
Exercised	(2,016)	74.33		
Forfeited or expired	(218)	117.63		
Outstanding at the end of the year	10,104 ^(a)	92.58	6.44	\$ 385
Exercisable at the end of the year	7,499	\$ 83.37	5.54	\$ 355

(a) Outstanding awards include 309 options and 9,795 SARs with weighted average exercise prices of \$103.33 and \$92.25, respectively. Outstanding awards represent YUM awards held by employees of both YUM and Yum China.

The weighted-average grant-date fair value of stock options and SARs granted during 2023, 2022 and 2021 was \$29.93, \$26.65 and \$21.32, respectively. The total intrinsic value of stock options and SARs exercised during the years ended December 31, 2023, 2022 and 2021, was \$114 million, \$105 million and \$234 million, respectively.

As of December 31, 2023, \$35 million of unrecognized compensation cost related to unvested stock options and SARs, which will be reduced by any forfeitures that occur, is expected to be recognized over a remaining weighted-average period of approximately 1.7 years. The total fair value at grant date of awards held by YUM employees that vested during 2023, 2022 and 2021 was \$31 million, \$31 million and \$35 million, respectively.

RSUs and PSUs

As of December 31, 2023, there was \$59 million of unrecognized compensation cost related to 1.2 million unvested RSUs and PSUs. The total fair value at grant date of awards that vested during 2023, 2022 and 2021 was \$84 million, \$20 million and \$20 million, respectively.

Impact on Net Income

The components of share-based compensation expense and the related income tax benefits are shown in the following table:

	2023	2022	2021
Options and SARs	\$ 27	\$ 26	\$ 29
Restricted Stock Units	35	27	16
Performance Share Units	33	29	30
Total Share-based Compensation Expense	\$ 95	\$ 82	\$ 75
Deferred Tax Benefit recognized	\$ 12	\$ 16	\$ 15

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

Cash received from stock option exercises for 2023, 2022 and 2021 was \$8 million, \$3 million and \$11 million, respectively. Tax benefits realized on our tax returns from tax deductions associated with share-based compensation for 2023, 2022 and 2021 totaled \$31 million, \$38 million and \$72 million, respectively.

Note 17 – Shareholders’ Deficit

Under the authority of our Board of Directors, we repurchased shares of our Common Stock during 2023, 2022 and 2021. All amounts exclude applicable transaction fees.

Authorization Date	Shares Repurchased (thousands)			Dollar Value of Shares Repurchased		
	2023	2022	2021	2023	2022	2021
September 2022	387	1,967	–	\$ 50	\$ 250	\$ –
May 2021	–	8,116	8,235	–	950	1,050
November 2019	–	–	4,746	–	–	530
Total	387	10,083	12,981 ^(a)	\$ 50	\$ 1,200	\$ 1,580 ^(a)

(a) 2021 amount excludes the effect of \$11 million in share repurchases (0.1 million shares) with trade dates on, or prior to, December 31, 2020, but settlement dates subsequent to December 31, 2020.

In September 2022, our Board of Directors authorized share repurchases of up to \$2 billion (excluding applicable transaction fees) of our outstanding Common Stock through June 30, 2024. The new authorization took effect during the fourth quarter of 2022 upon the exhaustion of a prior authorization approved in May 2021. As of December 31, 2023, we have remaining capacity to repurchase up to \$1.7 billion of Common Stock under the September 2022 authorization.

Changes in AOCI are presented below.

	Translation Adjustments and Gains (Losses) From Intra-Entity Transactions of a Long-Term Nature	Pension and Post-Retirement Benefits ^(a)	Derivative Instruments ^(b)	Total
Balance at December 31, 2021, net of tax	\$ (206)	\$ (34)	\$ (85)	\$ (325)
OCI, net of tax				
Gains (losses) arising during the year classified into AOCI, net of tax	(84)	(88)	86	(86)
(Gains) losses reclassified from AOCI, net of tax	–	28	14	42
	(84)	(60)	100	(44)
Balance at December 31, 2022, net of tax	\$ (290)	\$ (94)	\$ 15	\$ (369)
OCI, net of tax				
Gains (losses) arising during the year classified into AOCI, net of tax	18	(11)	10	17
(Gains) losses reclassified from AOCI, net of tax	71	1	(22)	50
	89	(10)	(12)	67
Balance at December 31, 2023, net of tax	\$ (201)	\$ (104)	\$ 3	\$ (302)

(a) Amounts reclassified from AOCI for pension and post-retirement benefit plans losses during 2023 include amortization of prior service cost of \$1 million. Amounts reclassified from AOCI for pension and post-retirement benefit plans losses during 2022 include amortization of net losses of \$22 million, amortization of prior service cost of \$5 million, settlement charges of \$7 million and related income tax benefit of \$6 million. See Note 15.

(b) See Note 13 for details on amounts reclassified from AOCI.

Note 18 – Income Taxes

U.S. and foreign income before taxes are set forth below:

	2023	2022	2021
U.S.	\$ 1,246	\$ 1,124	\$ 1,062
Foreign	572	538	612
	\$ 1,818	\$ 1,662	\$ 1,674

The details of our income tax provision (benefit) are set forth below:

	2023	2022	2021
Current: Federal	\$ 221	\$ 139	\$ 45
Foreign	222	200	214
State	68	53	40
	\$ 511	\$ 392	\$ 299
Deferred: Federal	\$ (121)	\$ (31)	\$ 21
Foreign	(153)	(10)	(227)
State	(16)	(14)	6
	\$ (290)	\$ (55)	\$ (200)
	\$ 221	\$ 337	\$ 99

The reconciliation of income taxes calculated at the U.S. federal statutory rate to our effective tax rate is set forth below:

	2023	2022	2021
U.S. federal statutory rate	21.0%	21.0%	21.0%
State income tax, net of federal tax	2.3	1.9	1.8
Statutory rate differential attributable to foreign operations	(1.7)	(2.0)	(1.0)
Adjustments to reserves and prior years	1.3	1.6	1.1
Excess tax benefits from stock-based awards	(1.1)	(1.4)	(2.7)
Change in valuation allowances	–	(0.5)	(0.8)
Impact of Russia Exit	(0.5)	4.3	–
Intercompany restructuring and Valuations of Intellectual Property	(9.1)	(4.9)	(11.3)
Nondeductible interest	–	–	1.4
Impact of tax law changes	–	–	(3.8)
Other, net	(0.1)	0.3	0.2
Effective income tax rate	12.1%	20.3%	5.9%

Statutory rate differential attributable to foreign operations. This item includes local country taxes, withholding taxes, and shareholder-level taxes, net of U.S. foreign tax credits. In 2023, this item was unfavorably impacted by a statutory tax rate increase in Switzerland.

Adjustments to reserves and prior years. This item includes: (1) changes in tax reserves, including interest thereon, established for potential exposure we may incur if a taxing authority takes a position on a matter contrary to our position; and (2) the effects of reconciling income tax amounts recorded in our Consolidated Statements of Income to amounts reflected on our tax returns, including any adjustments to the Consolidated Balance Sheets. In 2023, this item was unfavorably impacted by \$41 million of newly established reserves associated with a correction in the timing of capital loss utilization related to historical refranchising gains to tax years with a lower statutory tax rate, partially offset by \$18 million of reserve releases associated with prior year filing positions in various jurisdictions. In 2022, this item was unfavorably impacted by \$17 million of adjustments made to current and deferred tax accounts in various jurisdictions to align with balances supported by 2021 and prior tax filings. Additionally, in 2022 this item was unfavorably impacted by \$9 million of reserves established associated with prior year filing positions in various jurisdictions. In 2021, this item was unfavorably impacted by a \$22 million reserve established due to a challenge of a prior year filing position in a foreign jurisdiction.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

Change in valuation allowances. This item relates to changes for deferred tax assets generated or utilized during the current year and changes in our judgment regarding the likelihood of using deferred tax assets that existed at the beginning of the year. In 2022, this item was favorably impacted by \$13 million of tax benefit associated with a valuation allowance release in a foreign jurisdiction resulting from a change in management's judgement as to the realizability of deferred tax assets in that jurisdiction. In 2021, this item was favorably impacted by \$15 million of tax benefit associated with a valuation allowance release resulting from a change in management's judgment as to the realizability of foreign tax credit carryforwards in the U.S.

Impact of Russia Exit. Our decision to exit the Russia market resulted in a \$7 million tax benefit recorded in 2023 to account for the global tax ramification of current and future payments required to be made to the Russia IP rights holder in Switzerland. In 2022, this item was unfavorably impacted by \$72 million of tax expense primarily associated with a reduction in the tax basis of KFC IP rights held in Switzerland due to the expected loss of the Russia royalty income associated with such rights going forward. As a result, we remeasured and reassessed the need for a valuation allowance on the associated deferred tax assets. In addition, we reassessed certain deferred tax liabilities associated with the Russia business given the expectation that the basis difference would reverse by way of sale.

Intercompany Restructuring and Valuations of Intellectual Property.

In July 2021, we concentrated management responsibility for European (excluding the UK) KFC franchise development, support operations and management oversight in Switzerland (the "KFC Europe Reorganization"). Concurrent with this change in management responsibility, we completed intra-entity transfers of certain KFC IP rights from subsidiaries in the UK to subsidiaries in Switzerland. In December 2021, we continued our KFC Europe Reorganization and completed intra-entity transfers of additional European KFC IP rights from subsidiaries in the U.S. to subsidiaries in Switzerland. With the transfers of these rights, we received a step-up in amortizable tax basis of those IP rights to current fair value under applicable Swiss tax law. As a result of these transfers, we recorded a net one-time tax benefit of \$187 million in 2021.

In the year ended December 31, 2022, we performed an annual valuation under Swiss laws of these Swiss IP rights, incorporating current assumptions around the expected future cash flows attributable to the IP. This valuation supported an increase to tax basis of Swiss IP rights associated with parts of our business that will continue to use these IP rights due to expected royalty growth assumptions in those parts of the business that largely offset the loss of Russia royalty income described above. Based on the valuation as well as future forecasting of taxable income, we remeasured and reassessed the need for a valuation allowance on the deferred tax assets in Switzerland. As a result, we recorded a net tax benefit of \$75 million in 2022.

Consistent with the objectives of the IP restructuring transactions discussed above, in December 2023, we completed intra-entity transfers of certain Asia region IP rights to Singapore. In addition, certain remaining Asian IP rights were transferred to the U.S. As a result of these transfers, we recorded a net tax benefit of \$30 million comprised of \$14 million of current tax expense and a one-time deferred tax benefit of \$44 million primarily associated with establishing deferred tax assets on amortizable tax basis in the U.S.

Also in 2023, we agreed to receive a tax credit in exchange for an increase in our prospective statutory tax rate in Switzerland. Based on the agreement, we were granted a \$38 million tax credit expiring in 2031 and our statutory tax rate was increased to approximately 15% from the previous rate of approximately 10%. As a result of the tax rate increase, we were also required to remeasure our deferred tax assets associated with previously transferred IP rights in Switzerland, which resulted in a one-time deferred tax benefit of \$99 million. We also recorded a \$29 million deferred tax benefit associated with tax credit which represents the portion of the \$38 million tax credit that we anticipate utilizing against income tax before expiration.

Nondeductible Interest. As a result of the enactment of the Tax Cuts and Jobs Act of 2017 ("Tax Act") on December 22, 2017, deductibility of U.S. interest expense was limited to 30% of U.S. Earnings Before Interest, Taxes, Depreciation and Amortization. Beginning in 2022, deductibility of U.S. interest expense is limited to 30% of U.S. Earnings Before Interest and Taxes. Although the disallowed interest can be carried forward indefinitely, in management's judgment interest carried forward will not be realizable in the future. In 2021, the Company recorded \$23 million of related tax expense while in 2023 and 2022, the Company did not record any tax expense associated with disallowed U.S. interest expense.

Impact of Tax Law Changes.

UK Tax Rate Change – On June 10, 2021, the UK Finance Act 2021 was enacted resulting in an increase in the UK corporate tax rate from 19% to 25%. As such, the Company recognized a \$64 million tax benefit in the quarter ended June 30, 2021, associated with remeasuring its deferred tax assets in the UK, which primarily related to amortizable tax basis that arose as a result of previous IP transfers to the UK.

Companies subject to the Global Intangible Low-Taxed Income provision (GILTI) have the option to account for the GILTI tax as a period cost if and when incurred, or to recognize deferred taxes for outside basis temporary differences expected to reverse as GILTI. The Company has elected to account for GILTI as a period cost.

The details of 2023 and 2022 deferred tax assets (liabilities) are set forth below:

	2023	2022
Operating losses and interest deduction carryforwards	\$ 230	\$ 183
Capital losses	71	70
Tax credit carryforwards	188	206
Employee benefits	75	74
Share-based compensation	58	55
Lease-related liabilities	242	240
Accrued liabilities and other	59	40
Intangible assets	610	520
Property, plant and equipment	30	32
Deferred income	103	103
Capitalized Research & Development Costs	92	35
Gross deferred tax assets	1,758	1,558
Deferred tax asset valuation allowances	(386)	(458)
Net deferred tax assets	\$ 1,372	\$ 1,100
Property, plant and equipment	\$ (51)	\$ (79)
Operating lease right-of-use assets	(210)	(203)
Employee benefits	(8)	(7)
Derivative Instruments	(17)	(27)
Other	(42)	(35)
Gross deferred tax liabilities	\$ (328)	\$ (351)
Net deferred tax assets (liabilities)	\$ 1,044	\$ 749

The details of the 2023 and 2022 valuation allowance activity are set forth below:

	2023	2022
Beginning of Year	\$ (458)	\$ (462)
Increases	(19)	(22)
Decreases	91	21
Other Adjustments	–	5
End of Year	\$ (386)	\$ (458)

Reported in Consolidated Balance Sheets as:

	2023	2022
Deferred income taxes	\$ 1,045	\$ 750
Other liabilities and deferred credits	(1)	(1)
	\$ 1,044	\$ 749

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

As of December 31, 2023, we had approximately \$4.3 billion of unremitted foreign retained earnings. The Tax Act imposed U.S. federal tax on all post-1986 foreign Earnings and Profits accumulated through December 31, 2017. Repatriation of earnings generated after December 31, 2017, will generally be eligible for the 100% dividends received deduction or considered a distribution of previously taxed income and, therefore, exempt from U.S. federal tax. Undistributed foreign earnings may still be subject to certain state and foreign income and withholding taxes upon repatriation. Subject to limited exceptions, we do not intend to indefinitely reinvest our unremitted earnings outside the U.S. Thus, we have provided taxes, including any U.S. federal and state income, foreign income, or foreign withholding taxes on the majority of our unremitted earnings. In jurisdictions where we do intend to indefinitely reinvest our unremitted earnings, we would be required to accrue and pay applicable income taxes (if any) and foreign withholding taxes if the funds were repatriated in taxable transactions. We believe any such taxes would be immaterial.

Details of tax loss, credit carryforwards, and expiration dates along with valuation allowances as of December 31, 2023, are as follows:

	Gross Amount	Deferred Tax Asset	Valuation Allowance	Expiration
Federal net operating losses - Indefinite	\$ 60	\$ 13	\$ –	None
Foreign net operating losses	211	34	(14)	2024-2043
Foreign net operating losses - Indefinite	414	98	(20)	None
State net operating losses	1,208	52	(36)	2024-2043
Foreign capital loss carryforward - Indefinite	281	71	(71)	None
Foreign tax credits (US Tax Return)	150	150	(117)	2026-2032
Foreign country tax credits	38	38	(9)	2031
State interest deduction carryforward - Indefinite	681	33	(32)	None
	\$ 3,043	\$ 489	\$ (299)	

We recognize the benefit of positions taken or expected to be taken in tax returns in the Consolidated Financial Statements when it is more likely than not that the position would be sustained upon examination by tax authorities. A recognized tax position is measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon settlement.

At December 31, 2023, the Company had \$151 million of gross unrecognized tax benefits, \$102 million of which would impact the effective income tax rate if recognized. A reconciliation of the beginning and ending unrecognized tax benefits follows:

	2023	2022
Beginning of Year	\$ 128	\$ 116
Additions on tax positions - current year	9	4
Additions for tax positions - prior years	42	8
Reductions for tax positions - prior years	(28)	–
Reductions for settlements	–	–
End of Year	\$ 151	\$ 128

The Company believes it is reasonably possible that its unrecognized tax benefits as of December 31, 2023, may decrease by approximately \$23 million in the next 12 months due to settlements or statute of limitations expirations.

During 2023, 2022, and 2021 the Company recognized \$20 million, less than \$1 million, and \$4 million of net expense, respectively, for interest and penalties in our Consolidated Statements of Income as components of its Income tax provision.

The Company has recorded \$16 million of net tax payables and \$3 million of net tax receivables, as of December 31, 2023 and 2022, respectively, associated with interest and penalties.

The Company's income tax returns are subject to examination in the U.S. federal jurisdiction and numerous U.S. state and foreign jurisdictions.

The Company has settled audits with the IRS through fiscal year 2012 and is currently under IRS examination for 2013-2019. Our operations in certain foreign jurisdictions are currently under audit and remain subject to examination for tax years as far back as 1999. See Note 20 for discussion of an Internal Revenue Service Proposed Adjustment.

Note 19 – Reportable Operating Segments

See Note 1 for a description of our operating segments.

Habit Burger Grill Division	580	534
Corporate	156	128
	\$ 2,980	\$ 2,905

(a) U.S. revenues included in the combined KFC, Taco Bell, Pizza Hut and Habit Burger Grill Divisions totaled \$4.1 billion in 2023, \$3.9 billion in 2022 and \$3.6 billion in 2021.

(b) Amounts have not been allocated to any segment for performance reporting purposes.

(c) Our operating results presented herein reflect revenues from and expenses to support the Russian operations for KFC and Pizza Hut prior to the dates of sale or transfer (see Note 3), within their historical financial statement line items and operating segments. However, given our decision to exit Russia and our pledge to direct any future net profits attributable to Russia subsequent to the date of invasion to humanitarian efforts, we reclassified such net profits and losses subsequent to that date from the Division segment results in which they were earned to Unallocated Other income (expense). As a result, we reclassified net operating losses of \$1 million from KFC Division Other income (expense) to Unallocated Other income (expense) during the year ended December 31, 2023, and net operating profit of \$44 million from Divisional Other income (expense) to Unallocated Other income (expense) during the year ended December 31, 2022, respectively. Additionally, we recorded a charge of \$3 million to Unallocated Other income (expense) during the year ended December 31, 2023 from the sale of our KFC Russia business.

Also included in Unallocated Other income (expense) were \$1 million in foreign exchange losses and \$13 million in foreign exchange gains attributable to fluctuations in the value of the Russian Ruble during the years ended December 31, 2023 and 2022, respectively. Additionally, we recorded charges of \$5 million to Corporate and unallocated G&A expenses and \$1 million to Unallocated Franchise and property expenses during the year ended December 31, 2023, for certain expenses related to the disposition of the businesses and other costs related to our exit from Russia. We recorded similar charges of \$7 million to Corporate and Unallocated G&A expenses and \$6 million to Unallocated Franchise and property expenses during the year ended December 31, 2022.

(d) Primarily includes cash and deferred tax assets.

(e) U.S. identifiable assets included in the combined Corporate and KFC, Taco Bell, Pizza Hut, and Habit Burger Grill Divisions totaled \$2.8 billion at both 2023 and 2022.

(f) Includes PP&E, net, goodwill, intangible assets, net and Operating lease right-of-use assets. Excludes KFC Russia long-lived assets of \$108 million as of December 31, 2022 which were classified as held for sale and are included in Prepaid expenses and other current assets in our Consolidated Balance Sheet (see Note 9).

Note 20 – Contingencies

Internal Revenue Service Proposed Adjustment

As a result of an audit by the Internal Revenue Service (“IRS”) for fiscal years 2013 through 2015, in August 2022, we received a Revenue Agent’s Report (“RAR”) from the IRS asserting an underpayment of tax of \$2.1 billion plus \$418 million in penalties for the 2014 fiscal year. Additionally, interest on the underpayment is estimated to be approximately \$1.1 billion through December 31, 2023. The proposed underpayment relates primarily to a series of reorganizations we undertook during that year in connection with the business realignment of our corporate and management reporting structure along brand lines. The IRS asserts that these transactions resulted in taxable distributions of approximately \$6.0 billion.

We disagree with the IRS’s position as asserted in the RAR and intend to contest that position vigorously. In September 2022, we filed a Protest with the IRS Examination Division disputing on multiple grounds the proposed underpayment of tax and penalties. We have received the IRS Examination Division’s Rebuttal to our Protest and the case has been accepted by the IRS Office of Appeals.

The Company does not expect resolution of this matter within twelve months and cannot predict with certainty the timing of such resolution. The Company believes that it is more likely than not the Company’s tax position will be sustained; therefore, no reserve is recorded with respect to this matter.

An unfavorable resolution of this matter could have a material, adverse impact on our Consolidated Financial Statements in future periods.

Lease Guarantees

As a result of having assigned our interest in obligations under real estate leases as a condition to the refranchising of certain Company-owned restaurants, and guaranteeing certain other leases, we are frequently secondarily liable on lease agreements. These leases have varying terms, the latest of which expires in 2065. As of December 31, 2023, the potential amount of undiscounted payments we could be required to make in the event of non-payment by the primary lessee was approximately \$375 million. The present value of these potential payments discounted at our pre-tax cost of debt at December 31, 2023, was approximately \$325 million. Our franchisees are the primary lessees under the vast majority of these leases. We generally have cross-default provisions with these franchisees that would put them in default of their franchise agreement in the event of non-payment under the lease. We believe these cross-default provisions significantly reduce the risk that we will be required to make payments under these leases, although such risk may not be reduced in the context of a bankruptcy or other similar restructuring of a large franchisee or group of franchisees. Accordingly, the liability recorded for our expected exposure under such leases at both December 31, 2023 and 2022 was not material.

Insurance Programs

We are self-insured for a substantial portion of our current and prior years’ coverage including property and casualty losses. To mitigate the cost of our exposures for certain property and casualty losses, we self-insure the risks of loss up to defined maximum per occurrence retentions on a line-by-line basis. The Company then purchases insurance coverage, up to a certain limit, for losses that exceed the self-insurance per occurrence retention. The insurers’ maximum aggregate loss limits are significantly above our actuarially determined probable losses; therefore, we believe the likelihood of losses exceeding the insurers’ maximum aggregate loss limits is remote.

The following table summarizes the 2023 and 2022 activity related to our net self-insured property and casualty reserves as of December 31, 2023.

	Beginning Balance	Expense	Payments	Ending Balance
2023 Activity	\$ 50	35	(37)	\$ 48
2022 Activity	\$ 48	28	(26)	\$ 50

Due to the inherent volatility of actuarially determined property and casualty loss estimates, it is reasonably possible that we could experience changes in estimated losses which could be material. We believe that we have recorded reserves for property and casualty losses at a level which has substantially mitigated the potential negative impact of adverse developments and/or volatility.

In the U.S. and in certain other countries, we are also self-insured for healthcare claims and long-term disability for eligible participating employees subject to certain deductibles and limitations. We have accounted for our retained liabilities for property and casualty losses, healthcare and long-term disability claims, including reported and incurred but not reported claims, based on information provided by independent actuaries.

Legal Proceedings

We are subject to various claims and contingencies related to lawsuits, real estate, environmental and other matters arising in the normal course of business. An accrual is recorded with respect to claims or contingencies for which a loss is determined to be probable and reasonably estimable.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

India Regulatory Matter

Yum! Restaurants India Private Limited (“YRIPL”), a Yum subsidiary that operates KFC and Pizza Hut restaurants in India, is the subject of a regulatory enforcement action in India (the “Action”). The Action alleges, among other things, that KFC International Holdings, Inc. and Pizza Hut International failed to satisfy certain conditions imposed by the Secretariat for Industrial Approval in 1993 and 1994 when those companies were granted permission for foreign investment and operation in India. The conditions at issue include an alleged minimum investment commitment and store build requirements as well as limitations on the remittance of fees outside of India.

The Action originated with a complaint and show cause notice filed in 2009 against YRIPL by the Deputy Director of the Directorate of Enforcement (“DOE”) of the Indian Ministry of Finance following an income tax audit for the years 2002 and 2003. The matter was argued at various hearings in 2015, but no order was issued. Following a change in the incumbent official holding the position of Special Director of DOE (the “Special Director”), the matter resumed in 2018 and several additional hearings were conducted.

On January 29, 2020, the Special Director issued an order imposing a penalty on YRIPL and certain former directors of approximately Indian Rupee 11 billion, or approximately \$135 million. Of this amount, \$130 million relates to the alleged failure to invest a total of \$80 million in India within an initial seven-year period. We have been advised by external counsel that the order is flawed and have filed a writ petition with the Delhi High Court, which granted an interim stay of the penalty order on March 5, 2020. In November 2022, YRIPL was notified that an administrative tribunal bench had been constituted to hear an appeal by DOE of certain findings of the January 2020 order, including claims that certain charges had been wrongly dropped and that an insufficient amount of penalty had been imposed. A hearing with the administrative tribunal that had been scheduled for December 4, 2023 has been rescheduled to March 4, 2024. The stay order remains in effect and the next hearing in the Delhi High Court that had been scheduled for December 14, 2023 has been rescheduled to March 21, 2024. We deny liability and intend to continue vigorously defending this matter. We do not consider the risk of any significant loss arising from this order to be probable.

Other Matters

We are currently engaged in various other legal proceedings and have certain unresolved claims pending, the ultimate liability for which, if any, cannot be determined at this time. However, based upon consultation with legal counsel, we are of the opinion that such proceedings and claims are not expected to have a material adverse effect, individually or in the aggregate, on our Consolidated Financial Statements.

Item 9. Changes In and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as of the end of the period covered by this report. Based on the evaluation, performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer (the "CEO") and the Chief Financial Officer (the "CFO"), the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) under the Securities Exchange Act of 1934. Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in *Internal Control – Integrated Framework (2013)*, our management concluded that our internal control over financial reporting was effective as of December 31, 2023.

KPMG LLP, an independent registered public accounting firm, has audited the Consolidated Financial Statements included in this Annual Report on Form 10-K and the effectiveness of our internal control over financial reporting and has issued their report, included herein.

Changes in Internal Control

There were no changes with respect to the Company's internal control over financial reporting or in other factors that materially affected, or are reasonably likely to materially affect, internal control over financial reporting during the quarter ended December 31, 2023.

Item 9B. Other Information.

Securities Trading Plans

During the three months ended December 31, 2023, none of the Company's directors or executive officers adopted or terminated any contract, instruction or written plan for the purchase or sale of Company securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or any "non-Rule 10b5-1 trading arrangement" as defined in Item 408(c) of Regulation S-K, except as follows:

Name/Title	Type of Plan	Adoption Date	End Date	Aggregate Number of Securities to be Sold	Plan Description
Tracy Skeans / Chief Operating Officer and Chief People Officer	Rule 10b5-1 trading plan	November 26, 2023	December 31, 2024	62,417 ⁽¹⁾	Sale of Shares
David Gibbs / Chief Executive Officer	Rule 10b5-1 trading plan	December 1, 2023	December 31, 2024	115,582 ⁽²⁾	Sale of Shares/ Exercise of Stock Appreciation Rights and Sale of Resulting Shares

- (1) Represents the number of shares of common stock to be received upon vesting of Ms. Skeans' performance share unit awards (assuming maximum performance) and restricted stock unit awards specified in the plan. The actual number of shares of common stock that will be received upon vesting and sold pursuant to the trading plan will depend upon the Company's performance, dividend equivalent accruals, and the number of shares withheld for any taxes.
- (2) Represents the number of shares of common stock to be received upon vesting of Mr. Gibbs' restricted stock unit awards and exercise of stock appreciation rights awards specified in the plan. The actual number of shares of common stock under a restricted stock unit award that will be received upon vesting and sold pursuant to the trading plan will depend on dividend equivalent accruals and the number of shares withheld for any taxes. The resulting number of shares of common stock received and sold following the stock appreciation rights exercise will depend upon the appreciation of the award and the number of shares withheld for any taxes.

Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections.

Not applicable.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

Information regarding Section 16(a) compliance, the Audit Committee and the Audit Committee financial expert, the Company's code of ethics and background of the directors appearing under the captions "Stock Ownership Information," "Governance of the Company," "Executive Compensation" and "Item 1: Election of Directors" is incorporated by reference from the Company's definitive proxy statement which will be filed with the Securities and Exchange Commission no later than 120 days after December 31, 2023.

Information regarding executive officers of the Company is included in Part I.

Item 11. Executive Compensation.

Information regarding executive and director compensation and the Management Planning and Development Committee appearing under the captions "Governance of the Company" and "Executive Compensation" is incorporated by reference from the Company's definitive proxy statement which will be filed with the Securities and Exchange Commission no later than 120 days after December 31, 2023.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

Information regarding equity compensation plans and security ownership of certain beneficial owners and management appearing under the captions "Executive Compensation" and "Stock Ownership Information" is incorporated by reference from the Company's definitive proxy statement which will be filed with the Securities and Exchange Commission no later than 120 days after December 31, 2023.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Information regarding certain relationships and related transactions and information regarding director independence appearing under the caption "Governance of the Company" is incorporated by reference from the Company's definitive proxy statement which will be filed with the Securities and Exchange Commission no later than 120 days after December 31, 2023.

Item 14. Principal Accountant Fees and Services.

Our independent registered public accounting firm is KPMG, LLP, Louisville, Kentucky, Auditor Firm ID: 185.

Information regarding principal accountant fees and services and audit committee pre-approval policies and procedures appearing under the caption "Item 2: Ratification of Independent Auditors" is incorporated by reference from the Company's definitive proxy statement which will be filed with the Securities and Exchange Commission no later than 120 days after December 31, 2023.

PART IV

Item 15. Exhibits and Financial Statement Schedules.

- (a) (1) Financial Statements: Consolidated Financial Statements filed as part of this report are listed under Part II, Item 8 of this Form 10-K.
- (2) Financial Statement Schedules: No schedules are required because either the required information is not present or not present in amounts sufficient to require submission of the schedule, or because the information required is included in the Consolidated Financial Statements thereto filed as a part of this Form 10-K.
- (3) Exhibits: The exhibits listed in the accompanying Exhibit Index are filed as part of this Form 10-K. The Index to Exhibits specifically identifies each management contract or compensatory plan required to be filed as an exhibit to this Form 10-K.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this Form 10-K annual report to be signed on its behalf by the undersigned, thereunto duly authorized.

Date: February 20, 2024

YUM! BRANDS, INC.

By: /s/ David Gibbs

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, this annual report has been signed on February 20, 2024, by the following persons on behalf of the registrant and in the capacities indicated.

Cautionary Language Regarding Forward-Looking Statements

Forward-Looking Statements. This report may contain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. We intend all forward-looking statements to be covered by the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements generally can be identified by the fact that they do not relate strictly to historical or current facts and by the use of forward-looking words such as “expect,” “expectation,” “believe,” “anticipate,” “may,” “could,” “intend,” “belief,” “plan,” “estimate,” “target,” “predict,” “likely,” “seek,” “project,” “model,” “ongoing,” “will,” “should,” “forecast,” “outlook” or similar terminology. These statements are based on and reflect our current expectations, estimates, assumptions and/or projections, our perception of historical trends and current conditions, as well as other factors that we believe are appropriate and reasonable under the circumstances. Forward-looking statements are neither predictions nor guarantees of future events, circumstances or performance and are inherently subject to known and unknown risks, uncertainties and assumptions that could cause our actual results to differ materially from those indicated by those statements. There can be no assurance that our expectations, estimates, assumptions and/or projections, including with respect to the future earnings and performance or capital structure of Yum! Brands, will prove to be correct or that any of our expectations, estimates or projections will be achieved.

Numerous factors could cause our actual results and events to differ materially from those expressed or implied by forward-looking statements, including, without limitation: food safety and food-or beverage-borne illness concerns; adverse impacts of deterioration in public health conditions associated with COVID-19, or the occurrence of other catastrophic or unforeseen events; the success of our concepts’ franchisees; the success of our development strategy; anticipated benefits from past or potential future acquisitions, investments or other strategic transactions, or our portfolio business model; our significant exposure to the Chinese market; our global operations and related exposure to geopolitical instability; foreign currency risks and foreign exchange controls; our ability to protect the integrity or availability of IT systems or the security of confidential information and other cybersecurity risks; compliance with data privacy and data protection legal requirements; our ability to successfully implement technology initiatives; our increasing dependence on digital commerce platforms; the impact of social media; our ability to protect our trademarks or other intellectual property; shortages or interruptions in the availability and the delivery of food, equipment and other supplies; the loss of key personnel, labor shortages and increased labor costs, including as a result of state and local legislation related to wages and working conditions, such as AB1228 in California; changes in food prices and other operating costs; our corporate reputation, the value and perception of our brands and changes in consumer

preferences and wellness trends; evolving expectations and requirements with respect to social and environmental sustainability matters; adverse effects of climate change; pending or future litigation and legal claims or proceedings; changes in, or noncompliance with, legal requirements; tax matters, including changes in tax rates or laws, impositions of new taxes, tax implications of our restructurings, or disagreements with taxing authorities; changes in consumer discretionary spending and macroeconomic conditions, including inflationary pressures and elevated interest rates; competition within the retail food industry; risks relating to our level of indebtedness. In addition, other risks and uncertainties not presently known to us or that we currently believe to be immaterial could affect the accuracy of any such forward-looking statements. All forward-looking statements should be evaluated with the understanding of their inherent uncertainty.

The forward-looking statements included in this report are only made as of the date of this report and we disclaim any obligation to publicly update any forward-looking statement to reflect subsequent events or circumstances. You should consult our filings with the Securities and Exchange Commission (including the information set forth under the captions “Risk Factors” and “Forward-Looking Statements” in our most recently filed Annual Report on Form 10-K and Quarterly Report on Form 10-Q) for additional detail about factors that could affect our financial and other results.

Trademarks and Brands. We use “Yum! Brands” and the Yum! logo as our trademarks, among others. Product names and services appearing in this report are trademarks of Yum! Brands, Inc. or its subsidiaries and are copyrighted ©Yum! Brands, Inc. All Rights Reserved. This report also may refer to brand names, trademarks, service marks and trade names of other companies and organizations, and these brand names, trademarks, service marks and trade names are the property of their respective owners.

Market and Industry Data. Unless we indicate otherwise, we base the information concerning our industry and other statistical information contained in this report on our general knowledge of and expectations concerning the industry. Our market position and market share is based on our estimates using data from various industry sources and assumptions that we believe to be reasonable based on our knowledge of the industry. We have not independently verified the data obtained from these sources and cannot assure you of the data’s accuracy or completeness.

Non-GAAP Measures. This report includes certain non-GAAP financial measures. Reconciliation of these non-GAAP financial measures to the most directly comparable GAAP measures are included on our website at <http://www.investors.yum.com> Investors are urged to consider carefully the comparable GAAP measures and reconciliations.

Shareholder Information

Inquiries Regarding Your YUM Holdings
