2023 Annual Report

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

FORM 10-K

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2023

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE
TRANSITION PERIOD FROM TO

Commission File Number 001-39775

ContextLogic Inc.

(Exact name of Registrant as specified in its Charter)

Delaware
(State or other jurisdiction of
incorporation or organization)
One Sansome Street 33rd Floor
San Francisco, CA
(Address of principal executive offices)

27-2930953
(I.R.S. Employer
Identification No.)

94104
(Zip Code)

Registrant's telephone number, including area code: (415) 432-7323

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Class A Common Stock, \$0.0001 par value	WISH	Nasdaq Global Select Market
Preferred Stock Purchase Rights		Nasdaq Global Select Market

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. YES NO

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. YES NO

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
Emerging growth company	<input type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b).

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

The aggregate market value of the registrant's Class A common stock held by non-affiliates of the registrant, based on the closing price of the registrant's Class A common stock as reported by the Nasdaq Global Select Market on June 30, 2023 (the last business day of the registrant's most recently completed second fiscal quarter) was approximately \$174 million, based upon the closing sale price of such stock on the Nasdaq Global Select Market. Shares of common stock held by each executive officer, director, and holder or 5% or more of the outstanding common stock have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes.

As of February 29, 2024, the number of shares of the registrant's Class A common stock outstanding was 24,397,977 and there were no shares of the registrant's Class B common stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the information called for by Part III of this Annual Report on Form 10-K is hereby incorporated by reference from the definitive proxy statement for the registrant's 2024 annual meeting of stockholders, which will be filed with the Securities and Exchange Commission not later than 120 days after the registrant's fiscal year ended December 31, 2023.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended ("Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended ("Exchange Act"), which statements involve substantial risks and uncertainties. Forward-looking statements include all statements that are not historical facts such as information concerning our evaluation and pursuit of strategic alternatives, our possible or assumed future results of operations and expenses, new or planned features or services, management strategies and plans, competitive position, business environment and potential growth strategies and opportunities. In some cases, forward-looking statements can be identified by terms such as "anticipates," "believes," "could," "estimates," "expects," "foresees," "forecasts," "intends," "goals," "may," "might," "outlook," "plans," "potential," "predicts," "projects," "seeks," "should," "targets," "will," "would" or similar expressions and the negatives of those terms.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance, or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Those risks include those described in Part I, Item 1A. "Risk Factors" in this Annual Report on Form 10-K. The inclusion of forward-looking information should not be regarded as a representation by us, our management or any other person that the future plans, estimates, or expectations contemplated by us will be achieved. Given these uncertainties, you should not place undue reliance on any forward-looking statements in this Annual Report on Form 10-K.

In addition, statements that "we believe" and similar statements reflect our beliefs and opinions on the relevant subject, including, but not limited to, statements regarding the proposed Asset Sale (as defined in Part I, Item 1. "Business—Asset Purchase Agreement with Qoo10"), including our ability to complete the Asset Sale on the anticipated timeline, or at all, and restrictions imposed on our business under the Asset Purchase Agreement (as defined in Part I, Item 1. "Business—Asset Purchase Agreement with Qoo10") while the Asset Sale is pending; the satisfaction or waiver of the closing conditions to the Asset Sale, including the approval of the Asset Sale by our stockholders; disruptions to our business while the proposed Asset Sale is pending; risks associated with our ability to identify and realize business opportunities following the Asset Sale; risks associated with our ability to utilize our federal income tax net operating loss carryforwards (the "NOLs") and other tax attributes following the Asset Sale; the occurrence of any event, change or other circumstances that could give rise to the termination of the Asset Purchase Agreement; the impact of management's time and attention being focused on consummation of the proposed Asset Sale; costs associated with the proposed Asset Sale; the scope, timing and outcome of any potential stockholder litigation related to the Asset Sale; future financial performance; implementation and execution of business strategies, including turnaround efforts, restructuring plans, and reductions in force; implementation and execution of promotional strategies and rebrand efforts; our future liquidity and operating expenditures; the impact of the 1-to-30 reverse stock split; compliance with Nasdaq continued listing requirements; financial condition and results of operations; our future market position, technological advances, and competitive changes in the marketplace; expected consumer behavior; the outcome of ongoing litigation; our expected tax rate; the effect of changes in or the application of new or revised tax laws; the effect of new accounting pronouncements; and other characterizations of future events or circumstances. These statements are based on information available to us as of the date of this Annual Report on Form 10-K. While we believe such information provides a reasonable basis for these statements, such information may be limited or incomplete. Our statements should not be read to indicate that we have conducted an exhaustive inquiry into, or review of, all relevant information. These statements are inherently uncertain, and investors are cautioned not to unduly rely on these statements.

The forward-looking statements made in this Annual Report on Form 10-K relate only to events as of the date on which the statements are made. We undertake no obligation to update any forward-looking statements made in this Annual Report on Form 10-K to reflect events or circumstances after the date of this Annual Report on Form 10-K or to reflect new information or the occurrence of unanticipated events, except as required by law. We may not actually achieve the plans, intentions, or expectations disclosed in our forward-looking statements, and you should not place undue reliance on our forward-looking statements. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures, or investments. The risks affecting our forward-looking statements could also change as a result of consummation of the proposed Asset Sale.

You should read this Annual Report on Form 10-K and the documents that we reference in this Annual Report on Form 10-K and have filed with the Securities and Exchange Commission as exhibits to this Annual Report on Form 10-K with the understanding that our actual future results, levels of activity, performance, and events and circumstances may be materially different from what we expect.

RISK FACTORS SUMMARY

Below is a summary of the principal factors that make an investment in our Class A common stock speculative or risky:

- Our efforts to acquire new users and engage existing users may not be successful or may be more costly than we expect, which could prevent us from maintaining or increasing our revenue.
- If we are unable to promote, maintain, and protect our brand and reputation and offer a compelling user experience, our ability to attract new users and engage with our existing base of users will be impaired.
- If we lose the services of members of our senior management team we may not be able to execute our business strategy.
- We rely on the Apple App Store and the Google Play Store to offer and promote our app. If we are unable to maintain a good relationship with such platform providers, if their terms and conditions change to our detriment, if we violate, or if a platform provider believes that we have violated, the terms and conditions of its platform, our business will suffer.
- Merchants on our platform may experience additional disruptions to their supply and restrictions on their ability to deliver products to our users in a timely manner, which could harm our business.
- Our brand, reputation, and business may be harmed if merchants on our platform use unethical or illegal business practices, including the sale of counterfeit or fraudulent products or if our policies and practices with respect to such sales are perceived or found to be inadequate, and we may be impacted by the unlawful activity of merchants on our platform.
- The market in which we operate is rapidly evolving and we face intense competition; if we do not compete effectively, our results of operations and financial condition could be harmed.
- Our company is evolving, and we are in the process of executing on new business strategies and restructuring efforts; if we fail to successfully execute on these strategies, our business, financial condition, and operating results could be harmed.
- We will be subject to business uncertainties while the asset sale with Qoo10 is pending, which could adversely affect our business.
- We may not successfully execute or achieve the expected benefits of our new business strategies and restructuring efforts, which could adversely affect our business, financial condition, and operating results could be harmed.
- We may be involved in litigation matters or other legal proceedings or regulatory investigations that are expensive, time consuming, and may result in restrictions in our business operations.
- We identified material weaknesses in our internal control over financial reporting and may identify additional material weaknesses in the future or otherwise fail to maintain an effective system of internal controls, which may result in material misstatements of our consolidated financial statements or cause us to fail to meet our periodic reporting obligations.
- Economic tension between the United States and China, or between other countries, may intensify and the United States, China, or other countries may adopt drastic measures in the future that impact our business.
- Any significant disruption in service on our platform or in our computer systems, some of which are currently hosted by third-party providers, for any reason, including cyber threats, could damage our reputation and result in a loss of users, which would harm our business and results of operations.
- Our business and our merchants and users may be subject to sales and other taxes and these taxes may negatively impact our revenue and growth.

PART I

Item 1. Business.

Overview

Wish brings an affordable and entertaining shopping experience to millions of consumers around the world. Since our founding in San Francisco in 2010, we have become one of the largest global ecommerce platforms, connecting millions of value-conscious consumers to hundreds of thousands of merchants globally. Wish combines technology and data science capabilities and an innovative discovery-based mobile shopping experience to create a highly-visual, entertaining, and personalized shopping experience for its users.

Wish's mission "Bargains Made Fun, Discovery Made Easy" represents the company's commitment to a unique, discovery-based shopping experience, where consumers can scroll through a varied product selection that is driven by personalization technology and complemented by robust merchandising. Wish users engage with our app in a similar manner to how they engage with social media, which is scrolling through visually-rich and interactive content. To enhance user engagement, we incorporate fresh gamified features, rich user-generated content including photos, videos, and reviews, and a wide range of relevant products to make shopping more entertaining.

We also built Wish to empower merchants around the world. While the majority of the merchants on our platform are currently based in China, we are continuing to expand our merchant base around the world. Through our diversified and global merchant base, we are able to offer greater depth and breadth of categories and products. We provide our merchants with immediate access to our global base of monthly active users ("MAUs") and a comprehensive suite of merchant services, including demand generation and engagement, data intelligence, promotional and logistics capabilities, integration partnerships, as well as business operations support, all in a cost-efficient manner.

We launched Wish Local in 2019 to help local retailers increase their online reach and discovery, drive foot traffic, and generate additional sales by leveraging the Wish marketplace platform. Our Wish Local partners also serve as Wish Pickup locations for online Wish orders, which enables us to efficiently expand our fulfillment footprint around the world.

Our data science capabilities provide us with a unique competitive advantage. Our proprietary algorithms analyze a rich and growing data set of transactions and historical behaviors of both users and merchants to drive continuous optimization on the platform and inform key business decisions on a daily basis. Our machine learning technology enables personalization at the individual user level on a massive scale and drives significant advantages across all aspects of our business operations, including user acquisition, user experience, user-generated content, merchant insights, and user and merchant support.

Our proprietary data and technology also create powerful network effects. The scale of our user base and active global merchants means we accumulate significant data across user and merchant activities, which we believe strengthens our data advantage, and creates an even better experience for everyone on our platform, which in turn can attract more users and merchants. As more users come to Wish, driven by the affordable value proposition and differentiated shopping experience, we can drive more sales to our merchants. Our large user base also drives our user-generated feedback loop of ratings, reviews, photos, and videos, which results in greater user engagement. As more merchants succeed on Wish, more merchants join the platform to grow their businesses, broadening our product selection which, in turn, improves the user experience. This flywheel effect has driven tremendous value to both users and merchants and has made Wish one of the largest ecommerce marketplaces in the world.

Asset Purchase Agreement with Qoo10

On February 10, 2024, we entered into an asset purchase agreement (the "Asset Purchase Agreement") with Qoo10 Inc., a Delaware corporation ("Qoo10"), and, for certain specified purposes, Qoo10 Pte. Ltd., a Singapore private limited company and parent to Qoo10 (the "Parent"). The Asset Purchase Agreement provides, among other things, and subject to the satisfaction or waiver of the conditions set forth therein, that we will sell substantially all of our assets to Qoo10, other than (i) our NOLs and certain other tax attributes, (ii) our marketable securities held in a specified wealth management account and (iii) our cash and cash equivalents held in that wealth management account, and Qoo10 has agreed to acquire those assets and assume substantially all liabilities of the Company as specified in the Asset Purchase Agreement (the "Asset Sale").

As consideration for the foregoing Asset Sale, Qoo10 has agreed to:

- assume substantially all of our liabilities as specified in the Asset Purchase Agreement; and

- pay us a purchase price equal to the “Cash Consideration,” equal to \$173 million in cash, less the amount of certain excluded cash, cash equivalents and marketable securities that will be retained by us following the closing of the Asset Sale. The Cash Consideration is subject to certain adjustments, depending on whether (i) the Company’s closing cash is greater than or less than a cash threshold of \$320 million and (ii) whether the closing date for the Asset Sale (the “Closing Date”) is on or before May 31, 2024.

If the Closing Date is on or before May 31, 2024, then:

- If the Company’s closing cash is greater than the \$320 million cash threshold, the Cash Consideration will be adjusted upward by a cash adjustment equal to 100% of such surplus (subject to a downward adjustment of up to \$3 million if Qoo10 pays certain transaction expenses incurred by the Company); and
- If the Company’s closing cash is less than the \$320 million cash threshold, then the Cash Consideration will be adjusted downward by a cash adjustment equal to 50% of the amount of such deficit.

However, if the Closing Date is on or after June 1, 2024, then:

- If the Company’s closing cash is greater than the \$320 million cash threshold, the Cash Consideration will be adjusted upward by a cash adjustment equal to 50% of such surplus (subject to a downward adjustment of up to \$3 million if Qoo10 pays certain transaction expenses incurred by the Company); and
- If the Company’s closing cash is less than the \$320 million cash threshold, then the Cash Consideration will be adjusted downward by a cash adjustment equal to 100% of the amount of such deficit.

The sum of (i) the Cash Consideration plus (ii) the cash, cash equivalents and marketable securities that will be retained by the Company (and withheld from the Asset Sale) is referred to as the Company’s “Post-Closing Cash.”

In addition, we have agreed to certain covenants in the Asset Purchase Agreement restricting the conduct of our business between the date of the Asset Purchase Agreement and the earlier of the closing of the Asset Sale and the termination of the Asset Purchase Agreement. During such interim period, we have agreed that we and our subsidiaries will conduct our business in the ordinary course in substantially the same manner as previously conducted and use reasonable best efforts to preserve intact our business organization and operations and the assets that Qoo10 has agreed to purchase under the terms of the Asset Purchase Agreement. In addition, in the Asset Purchase Agreement, we have agreed to specific restrictions relating to the conduct of our business and other actions that we are expressly not permitted to take.

The Asset Purchase Agreement also contains customary provisions regarding (i) our indemnification of Qoo10 and certain of their affiliates with respect to liabilities retained by us and any material breach by us of any of our post-closing covenants or agreements in the Asset Purchase Agreement and (ii) Qoo10’s indemnification of us and certain of our affiliates with respect to liabilities assumed by Qoo10 and any material breach by Qoo10 of any of its post-closing covenants or agreements. In addition, we and Qoo10 have agreed to use our reasonable best efforts to consummate the Asset Sale and other transactions contemplated by the Asset Purchase Agreement. The Asset Purchase Agreement also contains a guaranty by the Parent to satisfy Qoo10’s performance of its obligations under the Asset Purchase Agreement, including payment of the Cash Consideration.

Additionally, pursuant to the Asset Purchase Agreement, we have agreed, subject to certain exceptions with respect to unsolicited bids, not to directly or indirectly solicit competing proposals or to enter into discussions concerning, or provide confidential information in connection with, any unsolicited competing proposals. We have also agreed to cease all existing discussions with third parties regarding any competing proposals.

However, our Board of Directors may, subject to certain conditions, change its recommendation in favor of approving the Asset Purchase Agreement in response to a bona fide written competing proposal that was not solicited in breach of the non-solicit provisions set forth in the Asset Purchase Agreement, if our Board of Directors determines in good faith, after consulting with our financial advisors and outside legal counsel, that the competing proposal is a superior proposal and determines in good faith, after consulting with our outside legal counsel, that the failure to effect such a change in recommendation in response to such superior proposal would be inconsistent with its fiduciary duties to our stockholders under applicable law. Our Board of Directors may also terminate the Asset Purchase Agreement in order to enter into a definitive written agreement providing for a superior proposal, but only if (i) the receipt of the superior proposal did not result from a breach of the non-solicit provisions set forth in the Asset Purchase Agreement, (ii) we complied with obligations set forth in the Asset Purchase Agreement with respect to the superior proposal, (iii) we, concurrently with termination, cause to be paid the \$5.2 million termination fee described below and (iv) our Board of Directors (or any committee thereof) has authorized us to enter into, and we concurrently enter into, a definitive written agreement providing for the superior proposal.

Our Board of Directors also may, subject to certain conditions, change its recommendation in favor of approving the Asset Purchase Agreement (but may not terminate the Asset Purchase Agreement) in response to certain “intervening events” if it determines in good faith, after consulting with our financial advisor and outside legal counsel, that an intervening event has occurred and that, after consulting with our outside legal counsel, the failure to effect such change in recommendation in response to such an intervening event would be inconsistent with its fiduciary duties to our stockholders under applicable law.

Our Board of Directors has approved the Asset Purchase Agreement, the Asset Sale and the other transactions contemplated by the Asset Purchase Agreement. The Asset Purchase Agreement, the Asset Sale and other transactions contemplated by the Asset Purchase Agreement must also be approved by the holders of a majority of the outstanding shares of our Class A common stock entitled to vote thereon. In addition to the receipt of the approval of our stockholders, each party’s obligation to consummate the Asset Sale is conditioned upon certain other customary closing conditions, including the accuracy of each other party’s representations and warranties as of the closing, subject, in certain instances, to certain materiality and other thresholds, the performance by each other party of its obligations and covenants under the Asset Purchase Agreement in all material respects, the delivery of certain documentation by each other party, and the absence of any injunction or other legal prohibitions preventing consummation of the Asset Sale.

If the closing has not occurred by June 30, 2024, we are unable to obtain the approval of our stockholders as discussed above or there shall be in place any injunction or other legal prohibitions preventing consummation of the Asset Sale, either we or Qoo10 may terminate the Asset Purchase Agreement. The Asset Purchase Agreement contains certain additional termination rights for both Qoo10 and us, and further provides that, upon termination of the Asset Purchase Agreement under specified circumstances, we will be required to pay Qoo10 a termination fee of \$5.2 million. Those circumstances include, among others, (i) our Board of Directors changing its recommendation in favor of the Asset Sale or approving or recommending a competing proposal, (ii) our entering into a definitive agreement with respect to a superior proposal, (iii) our failure to obtain stockholder approval of the Asset Sale, or (iv) a breach by us of any of our representations, warranties, covenants or agreements under the Asset Purchase Agreement that would result in the failure of a closing condition and that is not cured within a specified period, coupled with our entering into a definitive agreement with respect to a superior proposal that was announced or disclosed after the date of the Asset Purchase Agreement. In addition to the termination fee described above, each party remains liable to the other for any additional damages if such party commits an intentional and material breach of a covenant, agreement or obligation under the Asset Purchase Agreement.

The above is a summary of the material terms of the Asset Purchase Agreement and is qualified in its entirety by the terms and conditions of the Asset Purchase Agreement, which is incorporated by reference as Exhibit 2.1 to this Annual Report on Form 10-K.

Also on February 10, 2024, Qoo10 entered into separate Voting and Support Agreements (the “Voting Agreements”) with funds managed by GGV Capital, General Atlantic and Altai Capital, each of our directors and our CEO, COO/CFO, and General Counsel (collectively, the “Supporting Stockholders”). Collectively, the Supporting Stockholders beneficially own approximately 6.78% of the voting power of the outstanding Class A common stock as of February 10, 2024. Each Supporting Stockholder entered into the Voting Agreement solely in his, her or its capacity as a stockholder of ours, and the Voting Agreements do not restrict the actions of any director or officer of the Company in his or her capacity as a director or officer of ours.

Each Supporting Stockholder’s Voting Agreement generally requires that such Supporting Stockholder vote or cause to be voted all shares of Class A common stock owned by such Supporting Stockholder in favor of any proposal to adopt the Asset Purchase Agreement and against alternative transactions. Subject to certain exceptions, the Voting Agreements also contain prohibitions applicable to the Supporting Stockholders that are consistent with the non-solicitation provisions of the Asset Purchase Agreement.

In addition, until the termination of each Supporting Stockholder’s Voting Agreement, that Voting Agreement restricts that Supporting Stockholder from selling shares of Class A common stock and other equity securities of ours owned by that Supporting Stockholder.

Generally, each Voting Agreement will terminate upon the earlier to occur of (a) the consummation of the Asset Sale and (b) the termination of the Asset Purchase Agreement pursuant to and in compliance with its terms.

Also on February 10, 2024, in light of the significance of the NOLs to us following the completion of the Asset Sale, our Board of Directors adopted a tax benefits preservation plan (the “Tax Benefits Preservation Plan”) in order to protect against a possible limitation on our ability to use our NOLs and certain other tax attributes to reduce potential future U.S. federal income tax obligations. See Item 8, “Financial Statements and Supplementary Data, Note 13. Subsequent Events” for further information on the Tax Benefits Preservation Plan.

If the Asset Sale closes, Wish will exit the operation of its e-commerce business and other historical operations. However, Wish does not intend to liquidate following the closing of the Asset Sale. Our Board of Directors will evaluate alternatives for the Post-Closing Cash remaining in the Company after the Asset Sale. Those alternatives are currently expected to include using the Post-Closing Cash to fund, at least in part, the acquisition of assets that will potentially allow the Company to utilize the NOLs and certain other tax attributes, which will be retained by Wish. Wish expects to complete the transaction in the second quarter of 2024, subject to the approval of its stockholders and other customary closing conditions.

See Item 1A, "Risk Factors—Risks Related to the Asset Sale," for further discussion of risks related to the Asset Sale.

The Wish Platform

Our global ecommerce platform connects millions of MAUs in over 60 countries to thousands of active global merchants. We define MAUs as the number of unique users that visited the Wish platform, either on our mobile app, mobile web, or on a desktop, during the month. An active user is identified by a unique email-address; a single person can have multiple user accounts via multiple email addresses. We determine our number of active global merchants by counting the total number of merchants who have sold at least one order on the Wish platform, either on our mobile app, mobile web, or on a desktop, during the preceding 12 months.

Our vision is to unlock the vast potential of ecommerce for the underserved, value-oriented consumer by making the Wish platform affordable, open, and accessible to all users and merchants in many countries around the world. We do this through our relentless focus on product, technology, data science, and logistics. For our users, we are revolutionizing the mobile shopping experience by making it affordable, relevant, personalized, and entertaining. For our merchants, we offer immediate, cost-efficient access to our global user base, scaled data, and technology platform, as well as a comprehensive suite of merchant services to help run their businesses and drive sales. To serve our global and diversified user and merchant base, we approach our platform development with a specific geographic focus, enabling an authentic, localized experience.

Value Proposition to Wish Users

We have democratized ecommerce by making it:

- **Affordable.** Price is the single most important determinant when making a purchase for a substantial portion of the global population, and we aim to serve the affordability needs of these value-conscious consumers. The merchants on our platform offer primarily unbranded products that can be deeply discounted as compared to branded alternatives across several categories. Our Wish Standards program, which measures the performance of merchants in areas that matter to consumers the most, promotes higher quality merchants and products on our platform. This allows us to offer a vast selection of high-quality items at competitive prices, a value proposition that attracts our millions of MAUs to our platform.
- **Accessible.** We built Wish to be mobile-first so any consumer around the world can easily access our shopping platform on a mobile device. Over 90% of our user activity and purchases occur on our mobile app.
- **Everywhere.** To better serve our global user base, we localize various features on our online platform and tailor our experience to each respective market through, for example, making it accessible in different languages and providing country-specific payment methods. This localization is designed to improve the engagement of our large, diverse user base, in addition to connecting our users with approximately 25,000 local brick-and-mortar Wish Local stores.

We have re-invented the online shopping experience to be:

- **Mobile-First.** Wish was built for mobile. Our application is image-rich, with minimal search input or text-based interactions. Over 90% of our user activity and purchases occur on our mobile app.
- **Discovery-Based.** Our platform is designed to make it easy to navigate a vast selection of products when users do not have a specific item or brand in mind. Unlike other ecommerce platforms where consumers often visit with a predetermined purchase intent for specific items, our navigational and entertaining shopping experience gives us the ability to create purchase intent in our users across a diverse set of products and categories. Approximately 70% of the sales on our platform do not involve a search query and instead come from personalized browsing.
- **Personalized.** Personalized shopping experience is powered by machine learning technology. The more users that engage with the Wish platform, the smarter and more intuitive their product feed gets, so no two interfaces

are ever the same. We deliver personalized and curated products to our users and help them discover desired products quickly.

- **Entertaining.** We have transformed the user experience to make shopping on Wish as engaging and entertaining as browsing on social media. We utilize highly-personalized feeds with a wide range of relevant products as well as gamified, interactive, and social features to increase the length and frequency of a user's sessions and drive increased engagement.

Value Proposition to Wish Merchants

Accessible and Cost-Efficient Ecommerce Platform. We give our merchants immediate access to our global base of millions of MAUs and a comprehensive suite of merchant services in a cost-efficient manner to help them run their businesses and grow sales. We empower these highly capable merchants offering quality products at compelling values and unlock this supply of goods to consumers globally.

In addition, we give our merchants the following merchant services:

Demand Generation and Engagement

- **Global Reach for Online Merchants.** Wish gives merchants immediate access to millions of MAUs across more than 60 countries, with a significant user footprint in the United States ("U.S.") and Europe. We help our merchants reach these users in a highly targeted and cost-efficient manner.
- **Promotion.** Wish merchants can amplify their reach and sales by utilizing our native advertising tool, ProductBoost. We utilize data science to optimize ad placement, target users, and maximize the merchant's return on ad spend.

User-Generated Content Creation. User-generated content that is particular, authentic, and localized can meaningfully improve user engagement and increase the purchases of products on our platform. Our value-conscious users rely on user-generated content such as reviews, ratings, photos, and videos, rather than brand recognition, when making purchase decisions. Our data science technology prioritizes items with favorable reviews, higher ratings and shipping history, connecting buyers with high-quality merchants and enhancing both the user and merchant experience.

Data Intelligence

- **Data Insight.** We provide our merchants with a comprehensive data set to run their businesses through the Wish Merchant Dashboard. This dashboard helps our merchants improve their performance in terms of total impressions, overall sales, product assortment, service quality, fulfillment, shipping needs, and refunds, among others.
- **Revenue Impact.** Our proprietary, state-of-the-art data science capabilities are designed to display products to users who are most likely to buy them, in turn driving more revenue to merchants.

Logistics

- **Shipping Logistics.** With ongoing changes to global postal regulations and increases in cross-border sales volume, logistics has become paramount for small merchants to succeed in ecommerce. We have developed a number of logistics programs to provide a set of reliable cross-border logistics solutions at competitive costs for our merchants. We believe that ensuring a consistent delivery experience for our users increases value to our merchants by boosting sales volumes and minimizing returns.
- **Wish Local Partners.** Through our Wish Local partnerships, our Wish Local partners also serve as Wish Pickup locations for online Wish orders. These Wish Local stores effectively give us a fulfillment footprint around the world without owning any real estate.

Business Operations

- **Optimization Tools, Services, and Education.** We provide tools, services, and ongoing education to our merchant base to help them improve their business operations and drive greater success.
- **Merchant Support.** Wish assists merchants with international trade compliance, payment processing, user support, and certain other services.

Data Science

Our machine learning and data science capabilities drive all aspects of our business. Our data advantage comes from our rich and growing data set of historical and recent user and merchant behaviors and transactions, and deep understanding of our millions of MAUs and thousands of active global merchants. All of this feeds into a proprietary data science algorithm that we continuously optimize for more intelligent insights and decision making.

Key examples of how we use data science to drive our business include:

- **User Acquisition:** We leverage the power of our proprietary data to make decisions on what to show to whom, when, and through which acquisition channel, with a focus on maximizing our return on marketing investment and conversion.
- **Lifetime Value Maximization:** Data science plays a critical role in maximizing lifetime value (“LTV”) of our users and optimizing the initial user acquisition investment. We use data science to determine the allocation of marketing investment across different users, marketing channels, and user acquisition and re-engagement strategies.
- **User Personalization:** Our proprietary algorithms utilize a rich and growing data set of historical and recent user behaviors that includes browsing data, past transactions, reviews, and preferences noted on Wish, to display the most relevant and personalized content. This data-driven approach enables efficient and enjoyable navigation and discovery on a mobile screen, creates purchase intent across a diverse set of products, and increases conversion to sales.
- **User-Generated Content:** Our platform offers mostly unbranded goods. Our value-conscious users rely on user-generated content such as reviews, ratings, photos, and videos, rather than brand recognition, when making purchase decisions. This makes the user-generated content on our platform an important source of trust and quality for our largely unbranded product selection.
- **Merchant Insights:** Our platform includes a merchant dashboard with built-in analytics to help merchants sell more products and track their performance. Our data capabilities help merchants better understand user behavior and preferences, enabling them to operate more intelligently and efficiently.
- **ProductBoost:** ProductBoost is our native advertising tool for merchants, which helps them promote their products on our platform. We utilize data science to improve the performance of ProductBoost and help maximize the merchants’ return on their ad spend.
- **Logistics:** We leverage data science to improve transparency and logistics operational efficiency for our merchants, while also reducing shipping time and improving delivery reliability for our buyers.
- **User and Merchant Support:** We use data to understand what a user or merchant is likely to need help with in order to improve the quality of support and maximize cost efficiency of providing such support.

Our Customers

We generate revenue from marketplace and logistics services provided to our customers. We consider both the merchant and the user to be our customers. We provide a mix of marketplace services to merchants. We provide merchants access to our marketplace where merchants display and sell their products to users. We also provide a range of merchandising services including ProductBoost to help merchants promote their products within our marketplace. Our logistics offering for merchants, introduced in 2018, is designed for direct end-to-end single order shipment from a merchant’s location to the user. Logistics services include transportation and delivery of the merchant’s products to the user. Merchants are required to prepay for logistics services on a per order basis.

Sales and Marketing

Our sales and marketing capabilities represent a core competency that is essential to the success of the Wish platform. We are focused on continuing to acquire and retain users and build brand awareness efficiently. Our advertising costs to acquire users constituted 73% of our sales and marketing expenses, and sales and marketing expenses constituted 37% of our operating expenses, in 2023. We have extensive experience in cost-effective, data-driven digital marketing and user acquisition. We also design innovative marketing programs that help increase brand awareness by targeting people who we believe have a higher propensity to engage with our platform and buy from our merchants. We continue to partner with various social-media platforms to ensure we gain exposure with broader audiences.

As discussed below under Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Key Financial and Performance Metrics,” our MAUs and last-twelve-months active buyers were negatively impacted by our decision to significantly reduce our digital advertising expenditures to focus our resources on other strategic initiatives that we believe will improve the user experience and increase retention, including (i) investing in our search experience on the platform, (ii) exploring experiences to make it easier for users to continue exploring products and adding to shopping carts, including through the use of video, (iii) optimizing the incentives, deals, and coupons available to our users to boost conversion, and (iv) introducing new growth channels and improving existing unpaid channels like

notifications and emails. We believe our continued strategy to improve users' experience in our marketplace and provide a more differentiated and engaging user experience will position us for long-term sustainable growth.

We currently acquire new users through a variety of marketing channels including social media, search engine optimization, affiliate marketing, and brand-oriented marketing campaigns. We rely on our data to understand consumer behavior and long term value of the consumer which guide our acquisition strategy. We also utilize data in determining how best to engage our users and seek to optimize the mode, timing and frequency of interactions across our mobile app, push notifications, and emails.

We have invested heavily in building a talented in-house marketing team, while also developing proprietary technologies that enable us to build data-driven and highly-personalized campaigns that can scale globally on digital platforms including Facebook, Instagram, and various Google properties. Our marketing efforts also focus on re-targeting of existing users, building our brand, generating awareness, and cultivating the Wish community.

Additionally, our user base has created additional opportunities for us to reach existing and new customers organically, a venue of demand generation that supplements our paid market efforts.

Finally, we also invest in efficient sales and marketing activities to identify and onboard high potential merchants around the world both for our online marketplace as well as Wish Local. Similar to our user acquisition strategies, we deploy digital performance marketing campaigns on social media and other channels to acquire new merchants. We supplement this effort with offline marketing activities that include attending trade shows and conducting seminars. We also leverage partnerships with third-party platforms for merchant referrals.

Research and Development

We have a technology and data-driven research and development culture that allows us to deliver a high-quality experience for our users and merchants. Our research and development talent is responsible for the design, development, testing, and delivery of our platform and user experience. The vast majority of our research and development talent is located in San Francisco and Toronto. We strive to create an environment that utilizes our employees' talents and satisfies their intellectual curiosities while promoting the development of impactful and transformative technologies.

As a company, we invest substantial resources in research and development to drive core technology innovation and bring new products to market. As of December 31, 2023, approximately 60% of our total headcount was involved in research and development and related activities.

Our Competition

We compete for both users and merchants. For users, we compete on the basis of affordability and user experience. For merchants, we compete on the basis of providing profitable distribution, an end to end platform and global reach.

Our online competitors include large, global ecommerce platforms such as Amazon, Alibaba, Pinduoduo, Shein, and Shopify as well as more traditional discount retailers such as Walmart and Target. Our offline competitors also include scaled discount retailers that offer heavily discounted and off-season products, such as Dollar General and TJ Maxx. We are able to compete for users based on our massive product selection, low prices and daily discounts, deeply-personalized and differentiated shopping experience powered by our data science and optimized for the mobile device, and entertainment derived from various engaging and interactive features of our platform.

Intellectual Property

We rely on federal, state, common law, and international rights, as well as contractual restrictions, to protect our intellectual property. We control access to our proprietary technology through a combination of trademarks, domain names, copyrights, trade secrets, patents, and confidentiality agreements with employees and third parties. We pursue the registration of our copyrights, trademarks, service marks, and domain names in the U.S. and in certain locations outside the U.S. Our success depends in part upon our ability to protect and use our core technology and intellectual property. We rely on a combination of trade secret, copyright, trademark and, to a lesser extent, patent laws, as well as confidentiality protection procedures to protect our intellectual property rights.

See Item 1A, "Risk Factors," for further discussion of risks related to protecting our intellectual property.

Government Regulations

As with any company operating on the Internet, we are subject to a growing number of local, national and international laws and regulations. These laws are often complex, sometimes contradict other laws, and are frequently still evolving. Laws may be interpreted and enforced in different ways in various locations around the world, posing a significant challenge to our global business. For example, U.S. federal and state laws, European Union Directives and Regulations, and other national laws govern the processing of payments, consumer protection and the privacy of consumer information; other laws define and regulate unfair and deceptive trade practices. Still other laws dictate when and how sales or other taxes must be collected. The growing regulation of ecommerce worldwide could impose additional compliance burdens and costs on us or on Wish merchants, and could subject us to significant liability for any failure to comply. Additionally, because we operate internationally, we need to comply with various laws associated with doing business outside of the U.S., including anti-money laundering, anti-corruption and export control laws. Recent trends globally toward increased protectionism and trade barriers can result in actions by governments around the world that may be disruptive to our businesses.

See Item 1A, "Risk Factors," for further discussion of risks related to government regulations and other legal obligations related to privacy, data protection, information security, and consumer protection.

Legal Proceedings

We are currently involved in, and may in the future be involved in, actual and threatened legal proceedings, claims, investigations and government inquiries arising in the ordinary course of our business, including legal proceedings, claims, investigations and government inquiries involving intellectual property, data privacy and data protection, torts, consumer protection, securities, employment, contractual rights or false or misleading advertising. We are also regularly subject to proceedings, claims, investigations and government inquiries seeking to hold us liable for the actions of merchants on our platform.

Although the results of the actual and threatened legal proceedings, claims, investigations and government inquiries in which we currently are involved cannot be predicted with certainty, we do not believe that there is a reasonable possibility that the final outcome of these matters will have a material adverse effect on our business or financial results. Regardless of the final outcome, however, litigation can have an adverse impact on us because of defense and settlement costs, diversion of management resources, harm to our reputation and brand, and other factors.

See Item 1A, "Risk Factors," for further discussion of risks related to legal proceedings. See also, Item 8, Financial Statements and Supplementary Data, Note 7. Commitments and Contingencies, "Legal Contingencies and Proceedings," for further discussion of current litigation.

Human Capital

We are continually investing in the engagement and retention of our global workforce by creating a diverse and inclusive workplace, providing market-competitive benefits to support our employees' health and well-being, and fostering an environment of learning and growth in support of employee development.

As of December 31, 2023, we had a total of 452 full-time employees worldwide, of which 195 are located in the U.S. Our team includes employees in 10 countries, spread across 4 continents, reflecting various cultures, backgrounds and ethnicities. We also engage temporary employees and consultants as needed to support our operations.

In 2023, we reduced our workforce by approximately 400 employees. The reductions in workforce were intended to refocus our operations to support our ongoing business prioritization efforts, better align resources, and improve operational efficiencies. See the sections titled Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Reductions in Workforce" and Item 8, "Financial Statements and Supplementary Data, Note 12. Reductions in Workforce", for further discussion of our reductions in workforce.

None of our employees in the U.S. is represented by a labor union or subject to a collective bargaining agreement. In certain countries in which we operate, we may be subject to, and need to comply with, local labor law requirements which may automatically make our employees subject to industry-wide collective bargaining agreements. We may be required to comply with the terms of these collective bargaining agreements. We have not experienced any work stoppages, and we consider our relations with our employees to be good.

Fostering Organizational Diversity

As a global business with users and merchants in more than 60 countries, we understand that our ability to harness the power of diverse perspectives within our organization is crucial to our success in serving those customers effectively.

Wish is committed to organizational diversity in all areas of our workforce and will continue to pursue meaningful diversity, equity, and inclusion initiatives. As of December 31, 2023, our employee base was 59% male and 41% female, and our Board of Directors was 70% male and 30% female.

Promoting an Inclusive Workplace

In addition to fostering diversity in all categories and across all levels of our organization, we are committed to creating and maintaining an inclusive workplace free from discrimination or harassment on the basis of race, color, citizenship, religion, creed, national origin, ancestry, gender, sexual orientation, age, marital status, veteran status, disability, medical condition, or any other status protected by applicable law.

As a part of this effort, we deploy a variety of different tools to ensure a welcoming workplace for employees and business partners of all backgrounds, including:

- Robust policies and a Company code of conduct prohibiting discrimination and harassment in the workplace;
- A clearly communicated and routinely reinforced policy that management and employees alike are expected to exhibit and promote honest, ethical, and respectful conduct in the workplace;.
- The establishment of Employee Resource Groups (“ERGs”) targeted at building community and fostering communication across cultural, ethnic, and religious lines, including those focused on people of color, LGBTQ+, and gender communities; and
- Recognition and celebration of various ethnic, religious, and cultural awareness holidays and other observances.

We have also established various training programs to promote a welcoming workplace, including:

- Annual training for employees and managers relating to topics of diversity, equity, and inclusion, as well as training to counteract bias in the workplace; and
- In 2022, we incorporated elements of bias identification and approaches to reject biases in our performance evaluations such as writing feedback using the Situation-Behavior-Impact (“SBI”) framework.

Employee Development and Training

Our employees are critical to the success of our company and we strive to create a supportive environment where all can contribute, learn, and grow in their careers. We prioritize employee development and training, and seek to foster both formal and informal learning opportunities inside and outside of the Company.

We provide an annual professional development stipend, which employees and managers can use for reimbursement of professional development expenses including seminars, courses, books, and training programs. We believe our investment in employee development has a direct impact on employee growth, engagement, and retention and is critical to our Company’s success.

To further support managers and individual contributors at Wish, most of whom work remotely due to the on-going COVID-19 pandemic, we also provide virtual training and development opportunities, including:

- Writing Effective Feedback Review (offered to all employees);
- Performance Management Training (offered to all managers);
- Amazon Web Service Training for Engineering Teams; and
- Manager Handbook for Managers in Technology Organization.

Employee Benefits and Retention Strategies

We provide employees competitive benefits and additional perks to support the health and well-being of all, including:

- **Comprehensive Health, Dental, and Vision Care** - We offer an array of healthcare, financial, and Wellness Benefits, to employees and their dependents at no cost to employees. Employees can choose from a variety of two different healthcare providers (three medical plan offerings total), including supplemental health voluntary coverage that fits the needs of our employees and their families.

- **Mental Health and Well-Being Support** - Our Wellness services include access to services from various providers. We provide an annual allotment to employees to access these services and annual education reimbursements for career development.
- **Competitive Parental Leave Policies** - 16 weeks of parental leave for birthing parents and 10 weeks for non-birthing parents.

Flexibility and Decentralization

In 2022, we made a decision to shift towards a primarily remote working environment in which most employees had the option to work from home even after we reopened our offices.

In 2023, we rolled out a more formalized 'return to office protocol' for our workforce located in China, San Francisco and San Jose Metropolitan areas, and Canada that provided hybrid work processes for many of our employees, while providing remote work in other parts of the United States and the rest of the world.

In 2024, we expect to continue to closely analyze internal hybrid work processes and the external best practices for return to office processes that will help us to design a flexible work environment while creating efficient in-person interactions.

We believe the above working policy will unlock further opportunities to source, connect, hire, and retain talent in more locations while also enabling us to cultivate a vibrant, collaborative office environment at our China, Bay Area, and Canada locations.

Information about Segment and Geographic Areas

The segment and geographic information required herein is contained in Note 11 of Notes to Consolidated Financial Statements included in Part II, Item 8 of this Annual Report on Form 10-K.

Corporate Information

We were incorporated in the state of Delaware in June 2010 as ContextLogic Inc., d/b/a "Wish." Our principal executive offices are located at One Sansome Street 33rd Floor, San Francisco, California 94104. Our telephone number is (415) 432-7323. Our website address is www.wish.com.

We use various trademarks, trade names, and design marks in our business, including Wish™, Wish Shopping Made Fun™, W™, WishPost™, Wish Pickup™, Wish Local™, ProductBoost™, and ContextLogic™. This annual report also contains trademarks and trade names of other businesses that are the property of their respective holders. We do not intend our use or display of other companies' trademarks and trade names to imply a relationship with, or endorsement or sponsorship of us by, these other companies.

Available Information

We file our annual reports on Form 10-K, quarterly reports on Form 10-Q, and current reports on Form 8-K with the Securities and Exchange Commission ("SEC") electronically. The SEC maintains a website that contains reports, proxy and information statements, and other information regarding issuers, including ContextLogic Inc. that file electronically with the SEC. The address of that website is <https://www.sec.gov>.

You may obtain a free copy of our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports on our website at <http://www.wish.com> under the Investor Relations section. Such reports and other information are available on our website as soon as reasonably practicable after they are electronically filed with, or furnished to, the SEC. Our Corporate Governance Standards, the charters of our Audit Committee, Compensation Committee, and Nominating and Corporate Governance Committee, as well as our Worldwide Code of Business Conduct are also available on our website. Information on our website is not, and will not be deemed, a part of this report or incorporated into any other filings the Company makes with the SEC.

Investors and others should note that we announce material financial and operational information to our investors using our Investor Relations website (<https://ir.wish.com>), press releases, SEC filings and public conference calls and webcasts. We also use the following channels to provide updates to the public about our business, activities, and other related matters, which could be deemed to be material information: www.twitter.com/WishShopping and www.linkedin.com/company/wishshopping. Information contained on or accessible through our websites are neither a part of nor incorporated by reference into this Annual Report on Form 10-K or any other report or document we file with or furnish

to the SEC, and any references to our websites and the inclusion of our website addresses in this Annual Report on Form 10-K are intended to be inactive textual references only.

Item 1A. Risk Factors.

RISK FACTORS

Investing in our Class A common stock involves a high degree of risk. Before deciding whether to purchase shares of our Class A common stock, you should consider carefully the risks and uncertainties described below, our consolidated financial statements and related notes, and all of the other information in this Annual Report on Form 10-K. Additional risks and uncertainties that we are unaware of, or that we currently believe are not material, may also become important factors that affect our business. These risk factors could materially and adversely affect our business, financial condition and results of operations, and the market price of our Class A common stock could decline. These risk factors do not identify all risks that we face – our operations could also be affected by factors that are not presently known to us or that we currently consider to be immaterial to our operations. Due to risks and uncertainties, known and unknown, our past financial results may not be a reliable indicator of future performance and historical trends should not be used to anticipate results or trends in future periods.

Risks Related to Our Business and Industry

Our efforts to acquire new users and engage existing users may not be successful or may be more costly than we expect, which could prevent us from maintaining or increasing our revenue.

Our success depends on our ability to attract new users and engage existing users in a cost-effective manner. In order to acquire and engage users, we must, among other things, promote and sustain our platform and provide high-quality products, user experiences, and service. Our marketing efforts currently include various initiatives and consist primarily of digital marketing on a variety of social media channels, such as Facebook, search engine optimization on websites, such as Google, Bing, and Yahoo!, various branding strategies, such as our relationship with social influencers, and mobile “push” notifications, text messaging, and email. For the years ended December 31, 2023 and 2022, we spent \$143 million and \$254 million on sales and marketing, representing 50% and 45% of our revenue, respectively. We anticipate that sales and marketing expenses will continue to comprise a substantial majority of our overall operating costs for the foreseeable future. We have historically acquired a significant number of our users through digital advertising on platforms and websites owned by Meta and Google, which may terminate their agreements with us anytime. Our investments in sales and marketing may not effectively reach potential users, potential users may decide not to buy through us, or user spend on our platform may not yield the intended return on investment, any of which could negatively affect our financial results.

In addition, during the first half of 2022 we continued to face headwinds from the rise in digital advertising costs which has among other things impacted new customer acquisition and conversion. In response to rising digital advertising costs, which contributed to lower marketing efficiency, we decided to significantly reduce our digital advertising expenditures as we focused our resources on other strategic initiatives. As discussed under Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Key Financial and Performance Metrics,” our monthly active users and last-twelve-months Active Buyers were negatively impacted by our decision to significantly reduce our digital advertising expenditures. In response to these headwinds, we commenced a number of initiatives that we believe will improve the user experience and increase retention, including (i) investing in our search experience on the platform, (ii) exploring experiences to make it easier for users to continue exploring products and adding to shopping carts, including through the use of video, (iii) optimizing the incentives, deals, and coupons available to our users to boost conversion, and (iv) introducing new growth channels and improving existing unpaid channels like notifications and emails. We believe our continued strategy to improve users’ experience in our marketplace and provide a more differentiated and engaging user experience will position us for long-term sustainable growth, but there can be no assurance that our initiatives will be successful.

Many other factors, some of which are beyond our control, may reduce our ability to acquire, maintain and further engage with users, including those described in this “Risk Factors” section and the following:

- system updates to app stores and advertising platforms such as Meta and Google, including adjustments to algorithms that may decrease user engagement or negatively affect our ability to target a broad audience;
- ongoing changes in advertising platforms’ pricing, which could continue to result in higher advertising costs;
- changes in digital advertising platforms’ policies, such as those of Meta and Google, that may delay or prevent us from advertising through these channels, which could result in reduced traffic to and sales on our platform;
- changes in search algorithms by search engines;
- inability of our email marketing messages to reach the intended recipients’ inbox;
- ineffectiveness of our marketing efforts and other spend to continue to acquire new users and maintain and increase engagement with existing users;
- decline in popularity of, or governmental restrictions on, social media platforms where we advertise;
- the development of new search engines or social media sites that reduce traffic on existing search engines and social media sites;
- consumer behavior changes as a result of COVID-19; and
- products listed by merchants on our platform that are the subject of adverse media reports, regulatory investigations, or other negative publicity.

As a result of any of these factors or any additional factors that are outside of our control, if we are unable to continue acquiring new users or increasing engagement with existing users, it could have a material adverse effect on our business, financial condition, results of operations, and prospects.

If we are unable to promote, maintain, and protect our brand and reputation, and offer a compelling user experience, our ability to attract new users and engage with our existing base of users will be impaired.

We believe that maintaining our brand and reputation will be critical to attracting new users and encouraging users to transact on our platform. In addition to targeted online marketing, we spend a considerable amount of resources on promoting our brand and reputation. For example, starting in 2020, we began to invest in additional off-line marketing activities. Our brand promotion activities may not be successful or cost effective, and to the extent that these activities yield increased revenue, the increased revenue may not offset the expenses we incur. If we do not successfully drive brand awareness, we may fail to attract new users or increase engagement with existing users and our business may not grow or may decline, all of which could harm our business, financial condition, results of operations, and prospects.

Our ability to provide a high-quality user experience is also highly dependent on external factors over which we may have little or no control, including, without limitation, the reliability and performance of our merchants and third-party carriers. If our users are dissatisfied with the quality of the products sold on our platform, the customer service they receive or their overall user experience, or if our merchants or third-party carriers cannot deliver products to our users in a timely manner or at all, our users may stop purchasing products on our platform. Our users may also become dissatisfied with their user experience if they are unable to receive timely customer service, and because we rely in large part on an automated customer service system, it is possible our users could become dissatisfied with our customer service. We also rely on merchants for information, including product characteristics, descriptions, images, and availability that may be inaccurate or misleading. Our failure to provide our users with high-quality products and high-quality user experiences for any reason could substantially harm our reputation and adversely impact our efforts to develop Wish as a trusted brand, which could have a material adverse effect on our business, financial condition, results of operations, and prospects.

In addition, we may be subject to unfavorable publicity that would create a public perception that non-authentic, counterfeit, dangerous, illegal, or defective goods are sold on our platform, or that our policies and practices are insufficient to deter or respond to such conduct. Even if these claims are factually incorrect or based on isolated incidents, it could damage our reputation, diminish the value of our brand, draw governmental or regulatory scrutiny or action, undermine our trust and credibility, or have a negative impact on our ability to attract new users, or discourage our existing users from continuing to transact on our platform. We may also be subject to negative media regarding our privacy or cybersecurity practices, terms of service, product quality, litigation or regulatory activity, the sale of illicit or dangerous goods, other unauthorized actions by merchants on our platform, or the actions of other companies that provide similar services to ours, which may adversely affect our reputation, business, and financial results.

If we lose the services of members of our senior management team or key employees, we may not be able to execute our business strategy.

Competition for talent in our industry and the technology industry has become increasingly intense as the current labor market to build, retain, and replace highly skilled personnel has become highly competitive. We rely on the continued service of our senior management team, key employees, and other highly skilled personnel. The failure to properly manage succession plans, develop leadership talent, and/or replace the loss of services of senior management or other key employees, could significantly delay or prevent the achievement of our objectives. From time to time, there have been and may continue be changes in our senior management team resulting from the hiring or departure of executives, which could disrupt our business. We do not have long-term employment agreements with any of our key personnel, and do not maintain any “key person” life insurance policies. The loss of the services of one or more of our senior management or other key employees for any reason could adversely affect our business, financial condition, and results of operations, and require significant amounts of time, training and resources to find suitable replacements and integrate them within our business and could affect our corporate culture. Further, in connection with the announcement of our restructuring plan in February 2022 and a reductions in workforce announced in January 2023 and August 2023, we may find it even more difficult to recruit and retain highly skilled personnel, which could harm our business. See the sections titled Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Reductions in Workforce” and Item 8, “Financial Statements and Supplementary Data, Note 12. Reductions in Workforce and Note 13. Subsequent Events”, for further discussion of our restructuring and turnaround initiatives.

We rely on the Apple App Store and the Google Play Store to offer and promote our app. If we are unable to maintain a good relationship with such platform providers, if their terms and conditions change to our detriment, if we violate, or if a platform provider believes that we have violated, the terms and conditions of its platform, our business will suffer.

A significant portion of our users download our mobile app through the Apple App Store and the Google Play Store, and over 90% of our user activity and purchases occur on our mobile app.

We are subject to the policies and terms of service of these third-party platforms, which govern the promotion, distribution, content, and operation of our app on the platform. Each platform provider has broad discretion to change and interpret its terms of service and other policies with respect to us and other developers, and those changes may be unfavorable to us. A platform provider may also add fees associated with access to and use of its platform, alter how we are able to advertise on the platform, prevent our app from being offered on their platform, change how the personal information of its users is made available to application developers on the platform, or limit the use of personal information for advertising purposes.

If we violate, or a platform provider believes we have violated, its terms of service (or if there is any change or deterioration in our relationship with these platform providers), that platform provider could limit or discontinue our access to the platform. A platform provider may also object to content created by merchants on our platform, such as drug paraphernalia or adult content, and our perceived distribution or advertisement of such content may cause a platform provider to view us in a negative light or take other adverse actions against us. For example, platform providers have warned application developers on their platform, including Wish, that providing content related to drug paraphernalia or adult content could cause such platform providers to remove the apps from their platforms. While we believe that we have complied with platform providers’ requirements, they may introduce additional requirements in the future. If a platform provider establishes more favorable relationships with one or more of our competitors or such platform provider determines that we are a competitor, our access to a platform may be limited or discontinued entirely. Any limit or discontinuation of our access to any platform could adversely affect our business, financial condition, and results of operations.

In the past, some of these platforms have been unavailable for short periods of time. This and other changes, bugs, or technical system issues could degrade the user experience on our platform. There may also be changes to mobile hardware or software technology that make it more difficult for our users to access and use our platform on their mobile devices, which could adversely affect our user growth and user engagement. If any of these events recurs on a prolonged, or even short-term basis, or other similar issues arise that impact users’ ability to access our app or use mobile devices, our business, financial condition, results of operations, or reputation may be harmed.

If we are unable to offer features and attract merchants to list products that keep pace with changing consumer preferences, our business, financial condition, and results of operations may be materially and adversely affected.

Constantly changing consumer preferences have affected and will continue to affect the ecommerce industry. We must stay ahead of emerging consumer preferences and anticipate product trends that will appeal to existing and potential users. Our users choose to purchase products due in part to the attractive prices that we offer, and they may choose to

shop elsewhere if we cannot match the prices offered by other websites and platforms or by brick-and-mortar stores. If our users do not find our platform entertaining and are not shown desired products on our platform at attractive prices, they may lose interest in us, which in turn may materially and adversely affect our business, financial condition, and results of operations.

We rely on our merchants to provide a positive experience to our users.

Negative publicity or sentiment as a result of complaints about merchants selling on our platform could reduce our ability to attract users, discourage users from making additional purchases on our platform, or otherwise damage our reputation. A perception that our levels of responsiveness and support for our users are inadequate could have similar results. In some situations, we may choose to reimburse users for their purchases to help avoid harm to our reputation, but we may not be able to recover the funds we expend for those reimbursements.

Disruptions in the operations of a substantial number of merchants on our platform, to the extent they are caused by events that are beyond their control, such as interruptions in order or payment processing, transportation disruptions, natural disasters, pandemics, inclement weather, geo-political conflicts, including the current conflict between Russia and Ukraine arising from the invasion of Ukraine by Russia, terrorism, public health crises, or political unrest, could result in negative experiences for a substantial number of our users, which could harm our reputation and adversely affect our business. For example, if there are additional COVID-19 outbreaks in China or elsewhere, merchants on our platform may experience additional disruptions to their supply and restrictions on their ability to deliver products to our users in a timely manner, which could harm our business.

Our brand, reputation, and business may be harmed if merchants on our platform use unethical or illegal business practices, including the sale of hazardous, counterfeit, fraudulent, or illegal products, or if our policies and practices with respect to such sales are perceived or found to be inadequate, and we may be impacted by the unlawful activities of merchants on our platform.

It is important that both merchants and users have confidence in the transactions they are completing on our platform. Merchants on our platform have in the past, and may in the future, engage in illegal or unethical business practices. Allegations or findings of such illegal or unethical business practices by merchants on our platform could harm our brand, reputation, and business. Our policies promote legal and ethical business practices, such as prohibiting false or misleading seller or product information, the listing or sale of counterfeit or otherwise infringing goods, and the listing or sale of hazardous, fraudulent, or illegal products. For example, our merchant terms explicitly prohibit any illegal activity by merchants and require compliance with our policies. We maintain a suite of policies that educate merchants regarding items and practices that are explicitly prohibited from the platform, as well as the penalties for violations of our policies. We enforce these policies through the use of human and machine reviews as well as penalties for merchants if a violation of the policies is discovered. However, we do not control merchants or their business practices and cannot ensure their compliance with our policies.

If merchants on our platform engage in illegal or unethical business practices or are perceived to do so, we may receive negative publicity and our brand and reputation may be harmed.

Additionally, while we do not control merchants and cannot ensure their compliance with applicable law, we nevertheless frequently receive and respond to inquiries and demands from regulators and law-enforcement agencies around the globe, and we expect to continue to receive more inquiries and demands in the future. If our policies are violated by merchants, or if our policies and practices or responses to such conduct are perceived as or found to be inadequate by regulators or law-enforcement agencies, it could subject us to government inquiries, investigations, or enforcement actions, as well as potential civil or criminal liabilities, or requiring changes to our policies and practices with respect to illegal or unethical business practices that could lower our revenue, increase our costs, make our platform less user-friendly, or otherwise adversely impact our business. This has been the case in France, where regulators are attempting to hold Wish accountable and responsible for the purportedly illegal or hazardous listings created by merchants; we are currently responding to and challenging these claims in French courts. Separately, during the initial outbreak of COVID-19, a small number of merchants created listings of personal protective equipment and other health-related products that regulators deemed to violate consumer protections related to pricing and advertising. Though these listings were posted by merchants in violation of our policies, Wish has received and may continue to receive inquiries and demands from regulators regarding these listings.

Our merchants are subject to regulation by the U.S. Consumer Product Safety Commission and similar state and international regulatory authorities in the United States (“U.S.”) and abroad, and their products sold on our platform could be subject to involuntary recalls, takedown notices, and other actions by these authorities. Concerns about product safety, including concerns about the safety of products manufactured in developing countries, could lead to recalls of selected

products sold on our platform. Recall and government or user concerns about product safety could harm our reputation and reduce sales, either of which could have a material adverse effect on our business, results of operations, financial condition, and prospects.

Proposed laws in Europe, the U.S., and other jurisdictions and/or novel interpretations or enforcement of existing law may change the scope of platform liability, and ongoing case law developments may unpredictably increase our liability as a platform for merchant activity or for activities adjacent to the marketplace, such as logistics, or otherwise constrain or impede our ability to do business in a given jurisdiction. In that event, we may be held directly or secondarily liable for the intellectual property infringement, product compliance deficiencies, consumer protection deficiencies, privacy and data protection incidents, or regulatory issues of our merchants, including potentially for their conduct over which we have no control or influence. Moreover, we may be subject to product liability claims where merchants lack sufficient assets or are not reachable, which could be costly to defend in the aggregate. Regardless of the validity of any claims made against us, we may incur significant costs and efforts to defend against or settle them. We expect to continue to receive inquiries or demands from regulators and law enforcement regarding intellectual property, product compliance, and product safety. This could lead to government investigations, inquiries, and/or the imposition of penalties, fines and/or criminal liability in certain jurisdictions and, consequently, would be costly, time consuming, and would adversely impact our business.

Merchants on our platform have in the past, and may in the future, engage in fictitious transactions or collaborate with third parties in order to artificially inflate their sales records and search results rankings. Such activity may frustrate other merchants by enabling the perpetrating merchants to be favored over legitimate merchants, may harm users by misleading them to believe that a merchant is more reliable or trustworthy than the merchant actually is, and may impact key performance metrics. Although we have implemented policies and practices to detect and penalize merchants who engage in fraudulent activities on our platform, there can be no assurance that such policies and practices will be effective in preventing fraudulent transactions. Any of these activities may adversely affect our brand, reputation, and business. If a governmental authority determines that we have aided and abetted the infringement or sale of counterfeit goods or if legal changes result in us potentially being liable for actions by merchants on our platform, we could face regulatory, civil, or criminal penalties. Successful claims by third-party rights owners could require us to pay substantial damages or refrain from permitting any further listing of the relevant items. These types of claims could force us to modify our business practices, which could lower our revenue, increase our costs, or make our platform less user friendly. Moreover, public perception that counterfeit or other unauthorized items are common in our platform, even if factually incorrect, could result in negative publicity and damage to our reputation and brand.

Our merchants rely on third-party carriers and transportation providers as part of the fulfillment process, and these third parties may fail to adequately serve our users and comply with shipping and related regulations, which could adversely affect our service offerings and results of operations.

We rely on merchants to properly and promptly prepare products ordered by our users for shipment and our logistics program relies on third-party carriers and logistics providers to deliver products as well as third parties to consolidate packages for shipping. Any failure by merchants to timely prepare such products for shipment or any delay by third-party carriers to deliver the products will have an adverse effect on the fulfillment of user orders, which could negatively affect the user experience and harm our business and results of operations. Any increase in shipping costs, any significant shipping difficulties, disruptions or delays, or any failure by merchants on our platform to deliver products in a timely manner or to otherwise adequately serve our users, could damage our reputation and brand, and may harm our business. For example, due to abrupt new value added tax ("VAT") regulations in Colombia (and related evolving interpretations of the same by local regulatory enforcement agencies), the de minimis threshold exception to remitting VAT for certain low-value declared parcels was removed, subjecting any and all parcels (regardless of import value) to VAT payment obligations. Further, there was industry-wide confusion as to whether the exemption from VAT liability applied to items "shipped from" or "originating in" countries with which Colombia has a Free Trade Agreement ("FTA"). This caused certain parcels shipped by Wish merchants to be held up at Colombia customs, causing delays and increasing charges for consumers. Also, during the initial outbreak of COVID-19, our cross-border logistics function was severely impacted in terms of both disrupted processing capabilities and increased costs, which resulted in a decrease in sales due to higher logistics costs and higher refund rates due to poor performance. Our merchants based in China also experienced supply interruptions and delivery delays during the outbreak of COVID-19 and have continued to experience such interruptions and delays, which may continue to have an adverse effect on our users' experience on our platform.

Historically, our merchants in China have benefitted from lower shipping costs due to the Universal Postal Union Treaty ("UPU"). Certain expected changes to UPU postal rates that went into effect in July 2020 and other expected changes that will be implemented in the future are likely to increase the shipping rates our merchants incur to ship products from China. Further, the European Commission is considering a legislative proposal from trade industry associations to eliminate de minimis thresholds for customs entry, which if later enacted, would limit packages from several countries from qualifying

for tariff-free entry into the EU-27 under existing de minimis laws, thus making importing goods from any country to the European Union (“EU”) more complicated and expensive. The actions we have taken in our logistics program to mitigate these increased costs may not be successful over the long term. If there are increases in shipping costs, including rising oil and gas prices, the sales price of products on our platform could increase, which could reduce the volume of transaction activity on our platform to decrease and may consequently have a negative impact on our results of operations.

We generate a portion of our revenue from merchant advertising on our platform. A reduction in advertising spend by merchants could harm our business.

We offer various features on our platform, such as ProductBoost and the Merchant Promotions Platform, which allow merchants to promote their listings to our users. In addition to generating revenue from merchants, these features may also result in increased purchases by users. However, not all merchants on our platform may agree with us on the value of these new features and may not use ProductBoost or the Merchant Promotions Platform, and some of our merchants could react negatively to these features. During the initial outbreak of COVID-19, merchant advertising declined due to the shutdown of business activity in China. If we are unable to monetize existing and new features for merchants, it could have a significant impact on our business, financial condition, and prospects.

Our continued efforts to improve our logistics programs and enable faster and more reliable delivery in order to help grow our business and generate revenue may not be effective.

We have worked to improve our logistics programs and to streamline our processes in order to provide a more consistent and reliable experience for our users through programs such as Wish Express and Wish Local. However, we still rely on third-party carriers for delivery and we are still in the process of establishing reliable long-term agreements with such carriers both in the U.S. and worldwide. If we are not able to negotiate acceptable pricing, service level requirements, and other terms with these carriers, or these carriers experience capacity or performance problems or other issues, it could negatively impact our results of operations and our users’ experience. For example, due to COVID-19 and related supply chain issues, global logistics has experienced longer delivery times.

We have also developed and experimented with different logistics offerings in order to monetize our logistics platform. This is a relatively new business initiative for us. If we are unable to consistently generate revenue from our logistics platform or offer logistics services that are appealing to merchants and users, or if changes in carrier policies and pricing, shortage of low-cost carriers, and fluctuation of oil and gas prices result in higher logistics costs, it could have a material impact on our business, financial condition, and prospects.

The market in which we operate is rapidly evolving and we face intense competition; if we do not compete effectively, our results of operations and financial condition could be harmed.

Our market is highly competitive and characterized by rapid changes in technology and consumer sentiment. Competition in our industry has intensified, and we expect this trend to continue as the list of our competitors grows. This competition, among other things, affects our ability to attract new users and engage our existing users.

We compete with ecommerce platforms and other retailers for merchants on our platform and merchants can list their goods on a number of ecommerce platforms, such as Amazon.com, Alibaba, Pinduoduo, Shein, and Shopify.

There are various factors that affect how merchants engage with our platform, including:

- the number and engagement of users on our platform;
- our fees;
- our brand awareness;
- our reputation;
- the quality of our services; and
- the functionality of our platform.

We also compete with retailers for the attention of users. A user has the choice of shopping with any online or offline retailer, whether large marketplaces, such as Amazon.com, Alibaba, Pinduoduo, Shein, and Shopify, as well as more traditional discount retailers, such as Walmart and Target, and discount retailers that offer heavily discounted and off-season merchandise, such as Dollar General and TJ Maxx, or local stores or other venues or marketplaces. Many of these competitors offer low-cost or free shipping, fast shipping times, favorable return policies, and other features that may be difficult or impossible for our merchants to match.

There are various factors that affect how users engage with our platform, including:

- our brand awareness and recognition;
- our reputation;
- the prices of goods sold on our platform;
- the functionality of our platform;
- ease of payment;
- shipping terms; and
- the breadth of the products sold on our platform.

Some of our competitors have, and potential competitors may have, longer operating histories, greater financial, technical, marketing, institutional and other resources, faster shipping times, lower-cost shipping, larger databases, greater name and brand recognition, or a larger base of users or merchants than we do. For example, Google or Meta could enter the ecommerce space and they have significantly more resources and users than we do. They may devote greater resources to the development, marketing, and promotion of their services than we do, and they may offer lower pricing or free shipping to the users on their platforms. These factors may allow our competitors to derive greater revenue and profits from their existing user and merchant bases, acquire users at lower costs or respond more quickly than we can to new or emerging technologies and changes in trends and consumer shopping behavior. If we are unable to compete successfully, or if competing successfully requires us to expend greater resources, our financial condition and results of operations could be adversely affected.

We have a history of operating losses and we may not achieve or maintain profitability in the future.

Since our inception in 2010, we have incurred net losses each year. We incurred net losses of \$317 million and \$384 million for the years ended December 31, 2023 and 2022, respectively. As of December 31, 2023, we had an accumulated deficit of approximately \$3.2 billion. We may not achieve or maintain profitability in the future. Our operating expenses may continue to increase in the future as we increase our efforts to expand our user base, continue to invest in the research and development of our technologies and service offerings and continue to operate as a public company. These efforts may be more costly than we expect and we may not be able to increase our revenue to offset our operating expenses. Our revenue growth slowed for the year ended December 31, 2023 and may slow again, or our revenue may decline for a number of other possible reasons, including increased competition, a decrease in the growth or reduction in size of our overall market, or if we fail for any reason to capitalize on growth opportunities.

Our company is evolving, and we are in the process of executing on new business strategies and restructuring efforts; if we fail to successfully execute on these strategies, our business, financial condition, and operating results could be harmed.

Our business is undergoing significant changes and our business strategy is constantly evolving. Our success depends on our ability to adapt our business model to changing market conditions and consumer spending habits. For example, we made a number of strategic decisions in an effort to improve our business operations and our marketplace offerings in response to the headwinds of reduced retention and new buyer conversion and a rise in digital advertising costs and have effected reductions in force to align our work force with strategic decisions we have made. Nevertheless, certain elements of this shift in strategy, or any future changes to our strategy that we may make could be disruptive to our business and our employees if we do not manage the changes properly. Furthermore, continuing changes in macroeconomic trends and shifting consumer priorities may hamper and delay our efforts by, for example, making our assumptions regarding our strategies incorrect or subject to change or causing our strategies to not have the effect and outcomes that we anticipate. The slowing of consumer discretionary spending due to macroeconomic factors could also impede our turnaround efforts.

We may not successfully execute or achieve the expected benefits of our restructuring and turnaround initiatives, which could adversely affect our business.

We recently commenced executing on a turnaround and restructuring strategy which focuses on narrowing our business focus, reducing our headcount and outside spend, reviewing our real estate footprint, and a number of other cost saving measures. These restructuring initiatives were intended to focus the business on operational efficiency and right-sizing our expenses. Although we believe these initiatives address the needs of our business and its long-term objectives, our strategy is based on certain assumptions and forecasts, which are subject to change and risks and uncertainties, including whether we have accurately identified the issues, whether we targeted the appropriate cost saving measures, and whether our right-sizing efforts are executed at the appropriate scale and scope. Consequently, the implementation of these restructuring initiatives may not be successful in yielding the intended results. Moreover, implementation of these initiatives may be costly and disruptive to our business, with the intended impact falling short or resulting in an overcorrection. Our cost cutting initiatives, including our RIFs conducted in 2023 may negatively affect employee morale, which has resulted and could continue to result in personnel losses beyond our workforce reductions, diminished productivity, loss of institutional knowledge, and difficulty attracting highly skilled employees. The intended results of our turnaround effort may also be impacted by negative publicity about the Company and/or our restructuring initiatives, resulting in reputational harm, diminished investor confidence, and consumer backlash. These new initiatives have and may continue to require a significant amount of executive management's time and focus, which may divert attention from other areas of our business. See the sections titled Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Reductions in Workforce" and Item 8, "Financial Statements and Supplementary Data, Note 12. Reductions in Workforce and Note 13. Subsequent Events", for further discussion of our restructuring and turnaround initiatives. Additionally, there can be no assurance that our restructuring and turnaround initiatives will be successful or that our business will generate sufficient cash flow from operations as a result of such initiatives or that we will be able to draw funds from other sources of financing in an amount sufficient to fund our liquidity needs. If cash flows and capital resources are insufficient to operate our business, we would face substantial liquidity problems and may be forced to sell assets, seek additional capital or seek bankruptcy protection. If the Asset Sale is not completed within the intended timeframe or at all, these liquidity risks may be enhanced and, even if the Asset Sale is completed, we will no longer have an operating business and our liquidity will depend, in part, on our ability to acquire suitable revenue-generating assets using the net proceeds from the Asset Sale. If we are not able to identify and acquire additional revenue-generating assets or businesses to effectively utilize our NOLs after the Asset Sale, we may voluntarily dissolve. In that case, there is no assurance that we will have sufficient cash on hand to distribute to stockholders or any additional assets to sell or liquidate and you may be at risk for a loss of all or substantially all of your investment.

Our recent reductions in force may not achieve the anticipated cost savings, and any savings may be offset by increased costs in other areas due to the disruption of our business.

In 2023, we conducted reductions in force affecting approximately one half of our then global workforce in order to reduce operating costs and consolidate functions. These reductions in force reflect ongoing efforts focused on realigning our organizational structure, eliminating redundancies, and reducing operating costs. However, we may not realize, in full or in part, the anticipated savings due to unanticipated events and/or unexpected costs.

These reductions in force have resulted in and may continue to result in unintended consequences and costs, such as the loss of institutional knowledge and expertise, attrition beyond the intended number of employees, decreased morale and productivity among our remaining employees, inability to maintain an effective system of internal controls, and the risk that we may not achieve the anticipated benefits. In addition, while positions have been eliminated, certain functions necessary to our operations remain, and we may be unsuccessful in distributing the duties and obligations of departed employees among our remaining employees. Moreover, reductions in force may also result in increased costs due to associated legal risks, and could distract management and remaining employees.

If we are unable to realize the anticipated benefits from the reductions in force, or if we experience significant adverse consequences from the reductions in force, our business, financial condition, and results of operations may be materially adversely affected.

Adverse impacts on our ability to effectively use social media, emails, and text messages may subject us to fines or penalties or impact our reputation or ability to generate revenue.

We use social media, emails, and text messages as part of our omnichannel approach to marketing. As laws and regulations rapidly evolve to govern the use of these channels, the failure by us, our employees or third parties acting on our behalf or at our direction to abide by applicable laws and regulations in the use of these channels could adversely affect our reputation or subject us to fines, other penalties, or lawsuits. Although we continue to update our practices as these laws change over time, we may be subject to lawsuits alleging our failure to comply with such laws. In addition, our

employees or third parties acting on our behalf or at our direction may knowingly or inadvertently use social media, including through advertisements, in ways that could lead to the loss or infringement of intellectual property, as well as the public disclosure of proprietary, confidential, or sensitive personal information of our business, employees, users, merchants, or others. Any such inappropriate use of social media, emails, and text messages could also cause reputational damage.

Moreover, changes in advertising and tracking policies of mobile device operating systems and platforms (e.g., Apple and Android) may limit or prevent the collection and use of certain data elements for certain purposes, such as ad targeting, and the use of such data elements may subject us to fines or other penalties.

Our users may engage with us online through social media platforms, including Facebook, Instagram, and Twitter, by providing feedback and public commentary about all aspects of our business. Information concerning us or our merchants, whether accurate or not, may be posted on social media platforms at any time and may have a disproportionately adverse impact on our brand, reputation, or business. The harm may be immediate without affording us an opportunity for redress or correction and could have a material adverse effect on our business, results of operations, financial condition, and prospects. Additionally, changes to the terms of these social networking services to limit promotional communications, any restrictions that would limit our ability or our customers' ability to send communications through their services, disruptions or downtime experienced by these social media platforms or decline in the use of or engagement with social media platforms by consumers could materially adversely affect our business, financial condition, and results of operations. Further, if certain social media platforms change their business strategy to one that does not align with our values we may choose to limit or discontinue use of such platform, which could lead to a decline in customer acquisition and engagement and result in a reduction to the reach of our advertisements.

Further, we believe that social media, emails, and text messages are an important part of our customer outreach and user experience. If we are unable to successfully deliver emails or other messages to our subscribers, or if subscribers decline to open or read our messages, our net revenue and profitability would be materially adversely affected. Changes in how web and mail services block, organize and prioritize email may reduce the number of subscribers who receive or open our emails. For example, Google's Gmail service has a feature that organizes incoming emails into categories (primary, social and promotions). Such categorization or similar inbox organizational features may result in our emails being delivered in a less prominent location in a subscriber's inbox or viewed as "spam" by our subscribers and may reduce the likelihood of that subscriber reading our emails. Actions by third parties to block, impose restrictions on or charge for the delivery of emails or other messages could also adversely impact our business. From time to time, emails service providers or other third parties may block bulk email transmissions or otherwise experience technical difficulties that could result in our inability to successfully deliver emails or other messages to customers.

We are subject to payment-related risks.

Our users can pay for purchases using a variety of methods, including through credit cards or Buy Now, Pay Later solutions through various third-party payment providers, and we pay our merchants through a variety of methods. If these service providers do not perform adequately or if our relationships with these service providers were to terminate, our users' ability to place orders, and our merchants' ability to receive orders or payments could be adversely affected and our business could be harmed. For example, in 2014, PayPal temporarily suspended processing payments on our platform as a result of concerns related to products listed on our platform. If a third-party payment provider suspends service or has significant outages in the future and we do not have alternative payment providers in place or are unable to provide our own solution, our business could be harmed. Likewise, if our third-party payment providers experience a security breach or fraud attack, our merchants and users could be adversely impacted. In addition, if our third-party providers increase the fees they charge us, our margins could decrease. If we respond by increasing the fees we charge to our merchants, some merchants may increase the price of their products, stop listing new items for sale or even close their accounts altogether.

The laws and regulations related to payments are complex, evolving, subject to change and vary across different jurisdictions in the United States and globally. Any failure or claim of our failure to comply, or any failure by our third-party payment processors to comply, could cost us substantial resources and could result in liabilities. Further, through our agreements with our third-party payment processors, we are indirectly subject to payment card association operating rules, and certification requirements, including the Payment Card Industry Data Security Standard and Visa Network Rules, which are subject to change. Failure to comply with these rules and certification requirements could impact our ability to meet our contractual obligations with our third-party payment processors and could result in potential fines. We are also subject to rules governing electronic funds transfers. Any change in these rules and requirements could make it difficult or impossible for us to comply. In addition, similar to a potential increase in costs from third-party providers described above, any increased costs associated with compliance with payment card association rules could lead to increased fees for our merchants, which may negatively impact our marketplaces.

We track certain performance metrics with internal tools and do not independently verify such metrics. Certain of our performance metrics are subject to inherent challenges in measurement, and real or perceived inaccuracies in such metrics may harm our reputation and negatively affect our business.

We calculate and track performance metrics with internal tools, which are not independently verified by any third-party. While we believe our metrics are reasonable estimates of our user or merchant base for the applicable period of measurement, the methodologies used to measure these metrics require significant judgment and may be susceptible to algorithm or other technical errors. For example, user accounts are based on email addresses, and a user could use multiple email addresses to establish multiple accounts, and merchants in many instances will have multiple accounts. As a result, the data we report may not be accurate. Our internal tools and processes we use to identify multiple accounts or fraudulent accounts have a number of limitations, and our methodologies for tracking key metrics may change over time, which could result in unexpected changes to our metrics, including historical metrics. Our ability to recalculate our historical metrics may be impacted by data limitations or other factors that require us to apply different methodologies for such adjustments and we generally do not intend to update previously disclosed metrics for any such changes. Though we regularly review our processes for calculating metrics and may adjust our processes for calculating metrics to improve their accuracy, limitations or errors with respect to how we measure data (or the data that we measure) may affect our understanding of certain details of our business, which could affect our longer term strategies. If our performance metrics are not accurate representations of our business, user or merchant base, or traffic levels; if we discover material inaccuracies in our metrics; or if the metrics we rely on to track our performance do not provide an accurate measurement of our business, user or merchant base or traffic levels, we may not be able to effectively implement our business strategy, our reputation may be harmed, and our operating and financial results could be adversely affected.

Our merchants, platform partners, and investors rely on our key metrics as a representation of our performance. If these third parties do not perceive our user metrics to be accurate representations of our user base or user engagement, or if we discover material inaccuracies in our user metrics, our reputation may be harmed and merchants may be less willing to sell on our platform, which could negatively affect our business, financial condition, or results of operations.

We must develop new offerings to respond to our users' and merchants' changing needs.

Our industry is characterized by rapidly changing technology, new service and product introductions, and changing user and merchant demands.

Our users and merchants may not be satisfied with our new platform offerings or perceive that the new offerings do not respond to their needs. Developing new offerings is complex, and the timetable for commercial release is difficult to predict and may vary from our historical experience. As a result, the introduction of new offerings may occur after anticipated or announced release dates. In addition, new offerings could require us to comply with additional governmental regulations. Our new offerings also may bring us more directly into competition with companies that are better established or have greater resources than we do.

If we do not continue to cost-effectively develop new offerings that satisfy our users or merchants, then our competitive position and growth prospects may be harmed. In addition, new offerings may have lower margins than existing offerings and our revenue may not grow enough as a result of the new offerings to offset the cost of developing them.

If we fail to maintain, expand, and diversify our relationships with merchants, our revenue and results of operations will be harmed.

We rely on our merchants to offer products that appeal to our existing and potential users at attractive prices. Our ability to provide popular products on our platform at attractive prices depends on our ability to develop mutually beneficial relationships with our merchants. For example, we rely on our merchants, most of whom are based in China, to make available sufficient inventory and fulfill large volumes of orders in an efficient and timely manner to ensure a positive user experience. Merchants can leave our platform at any time, so we may experience merchant attrition in the ordinary course of business resulting from several factors, such as losses to competitors, perception that marketing on our platform is ineffective, reduction in our or merchants' marketing budgets, and the penalties we impose on merchants for failing to comply with our policies. We have had, and may continue to have, disputes with merchants with respect to their compliance with our delivery requirements, quality control policies and measures, and the penalties imposed by us for violation of these policies or measures, which may cause them to be dissatisfied with our platform or to legally challenge the enforceability of our terms. If we experience significant merchant attrition, or if we are unable to attract new and geographically-diverse merchants, our revenue and results of operations may be materially and adversely affected. For example, during the initial outbreak of COVID-19, many of our merchants based in China were adversely impacted, which had a negative impact on the supply of inventory on our marketplace and our merchants based in China continue to be adversely impacted. In addition, our agreements with merchants also typically do not restrict them from establishing or maintaining business relationships

with our competitors. Furthermore, the European Commission is considering a legislative proposal from trade industry associations to eliminate de minimis thresholds for customs entry. If the European Commission were to adopt these recommendations, it would bar or limit packages from numerous countries from qualifying for tariff-free entry into the EU-27 under existing de minimis laws, and make importing goods from any country to the EU more complicated and expensive, which could adversely affect our business.

Failure to deal effectively with fraudulent activities on our platform would increase our loss rate and harm our business, and could severely diminish merchant and user confidence in and use of our services.

We have in the past incurred and may in the future incur losses from various types of fraud, including stolen credit card numbers, claims that a user did not authorize a purchase, merchant fraud, and users who have closed bank accounts or have insufficient funds in open bank accounts to satisfy payments. We face risks with respect to fraudulent activities on our platform and periodically receive complaints from users who may not have received the products that they had contracted to purchase. In some jurisdictions, users may also have the right to cancel a sale made by a merchant within a specified time period and for any reason. Although we have implemented measures to detect and reduce the occurrence of fraudulent activities, combat bad user experiences, and increase user satisfaction, including evaluating merchants on the basis of their transaction history and restricting or suspending their activity, there can be no assurance that these measures will be effective in combating fraudulent transactions or improving overall satisfaction among merchants, users, and other participants. Additional measures to address fraud could negatively affect the attractiveness of our services to users or merchants, resulting in a reduction in our ability to attract new users or continue to engage current users, damage to our reputation, or a diminution in the value of our brand.

Additionally, under current credit card practices, we are liable for fraudulent credit card transactions because we do not obtain a cardholder's signature, which results in chargebacks made to our users that we are not able to collect from our merchants. We do not currently carry insurance against this risk. We face the risk of significant losses from this type of fraud as our net sales increase and as we continue to expand globally. Our failure to adequately control fraudulent credit card transactions could damage our reputation and brand and substantially harm our business, results of operations, financial condition, and prospects.

We also accept payments for many of our sales through credit and debit card transactions, which are handled through third-party payment processors. As a result, we are subject to a number of risks related to credit and debit card payments, including that we pay interchange and other fees, which may increase over time and could require us to absorb or pass along an increase in our costs and expenses. In addition, as part of payment processing, our users' credit and debit card information is transmitted to our third-party credit card payment processors. We may in the future become subject to lawsuits or other proceedings for purportedly fraudulent transactions arising out of the actual or alleged theft of our users' credit or debit card information if the security of our third-party credit card payment processors is breached. We and our third-party credit card payment processors are also subject to payment card association operating rules, certification requirements and rules governing electronic funds transfers, which could change or be reinterpreted to make it difficult or impossible for us to comply. If we or our third-party credit card payment processors fail to comply with these rules or requirements, we may be subject to fines and higher transaction fees and lose our ability to accept credit and debit card payments from our users in addition to the consequences that could arise from such action or inaction violating applicable privacy, data protection, data security and other laws as outlined above, and there may be an adverse impact on our business, results of operations, financial condition, and prospects.

Our refund policies may adversely affect our results of operations.

We have adopted user-friendly refund policies that make it convenient and easy for users to receive a refund after completing purchases. These policies are designed to improve users' shopping experience and promote user loyalty, which in turn help us acquire and engage our existing users. We may also be required by law to adopt new or amend existing refund policies from time to time. These policies also make us more susceptible to misuse and if our refund policy is misused by a significant number of users, our costs may increase significantly, and our results of operations may be materially and adversely affected. If we revise these policies to reduce our costs and expenses, our users may be dissatisfied, which may result in loss of existing users or failure to acquire new users at a desirable pace or cost, which may materially and adversely affect our results of operations.

Our ability to recruit and retain employees is important to our success.

Our future performance depends on our employees, including key engineering and product development personnel. Due to competition for key personnel within our industry, we may be unable to successfully attract, integrate, or retain sufficiently qualified key personnel. In making employment decisions, particularly in the internet and high-technology industries, job candidates and current employees often consider the value of the equity awards they would receive in

connection with their employment or continued employment and fluctuations in and negative pressure on our stock price may make it more difficult to attract, retain, and motivate employees. Our recent reductions in workforce and the proposed Asset Sale may make it more difficult for us to recruit and retain employees.

Our forecasts of market opportunity and market growth may prove to be inaccurate, and, even if these forecasts materialize, we cannot assure you our business will grow at similar rates, if at all.

Estimates of market opportunity and forecasts of market growth are subject to significant uncertainty and are based on assumptions and estimates that may not prove to be accurate. Any estimates of the size of the markets that we may be able to address and any forecasts relating to the expected growth in ecommerce and other markets are subject to many assumptions and may prove to be inaccurate. These markets may not grow at the rates that we forecast. We may not grow our business at similar rates, or at all. Our growth is subject to many factors, including our success in implementing our business strategy, which is subject to many risks and uncertainties. Accordingly, any estimates of market opportunity and forecasts of market growth, including any in this report, should not be taken as indicative of our future growth.

We rely on consumer discretionary spending and may be adversely affected by economic downturns and other macroeconomic conditions or trends.

Macroeconomic conditions may adversely affect our business. If general economic conditions deteriorate globally or in specific markets where we operate, consumer discretionary spending may decline and demand for products available in our platform may be reduced. Recently, there have been some indications of deteriorating economic conditions both globally and in the markets we operate. A decrease in consumer discretionary spending would cause sales in our platform to decline and adversely impact our business. If the Company's costs were to become subject to significant inflationary pressures, including recent inflationary pressures, the Company may not be able to fully offset such higher costs through increases in revenue as increases in core inflation rates are affecting consumers' willingness to make discretionary purchases on our platforms. The Company's inability or failure to do so could harm the Company's business, financial condition, and results of operations. As the world moves into new phases of the pandemic, with new variants emerging, and inflation on the rise, macroeconomic conditions may continue to trend downward for a more prolonged period than expected.

Unfavorable changes or failure by us to comply with new and/or evolving internet and ecommerce regulations could substantially harm our business and operating results.

We are subject to general business regulations and laws as well as regulations and laws specifically governing the internet and ecommerce. These regulations and laws may involve taxes, privacy and data security, consumer protection, the ability to collect and/or share necessary information that allows us to conduct business on the internet, marketing communications and advertising, content protection, electronic contracts, or gift cards. Furthermore, the regulatory landscape impacting internet and ecommerce businesses is constantly evolving, and new regulations and laws will be forthcoming. Any failure, or perceived failure, by us to comply with any of these laws or regulations could result in damage to our reputation, a loss in business and proceedings, or actions against us by governmental entities or others, which could impact our operating results.

Our business could suffer if we are unsuccessful in making, integrating, and maintaining any future acquisitions and investments.

We may acquire businesses or technologies in the future. Integrating an acquired business or technology is difficult and can be risky. These potential and completed transactions create risks such as:

- disruption of our ongoing business, including loss of management focus on existing businesses;
- the difficulty of integrating new businesses and technologies into our infrastructure; and
- the risks associated with assuming liabilities related to the activities of the acquired business before and after the acquisition, including liabilities for violations of laws and regulations, commercial disputes, cyberattacks, taxes, and other matters.

Moreover, acquisitions may divert management's time and focus from operating our business. Acquisitions also may require us to spend a substantial portion of our available cash, issue stock, incur debt or other liabilities, amortize expenses related to intangible assets, or incur write-offs of goodwill or other assets. Finally, acquisitions could be viewed negatively by analysts, investors, merchants, or our users.

We may be involved in litigation matters or other legal proceedings that are expensive and time consuming.

We may become involved in litigation matters, including class action lawsuits, relating to intellectual property, product liability, and consumer practices, whether for our own services or products offered by merchants, as well as other commercial disputes. Any lawsuit to which we are a party, with or without merit, may result in an unfavorable judgment. We also may decide to settle lawsuits on unfavorable terms. Any such negative outcome could result in payments of substantial damages or fines, damage to our reputation, loss of rights, or adverse changes to our offerings or business practices. Any of these results could adversely affect our business. In addition, defending claims is costly and can impose a significant burden on our management.

Additionally, the market price of our Class A common stock has been and may continue to be volatile. As a result, we have been named in lawsuits, and may be subject to both ongoing litigation and other requests related to our stock price/performance and/or Board performance and independence. Beginning in May 2021, four putative class action lawsuits were filed in the U.S. District Court for the Northern District of California against the Company, its directors, certain of its officers and the underwriters named in its initial public offering (“IPO”) registration statement alleging violations of securities laws based on statements made in its registration statement on Form S-1 filed with the SEC in connection with its IPO and seeking monetary damages. One of these cases has since been dismissed by the plaintiff and the remaining three have been coordinated and consolidated (the “IPO Case”). In May 2022, the Court appointed lead plaintiffs, who subsequently filed an amended consolidated class action complaint pursuant to Sections 11 and 15 of the Securities Act and Sections 10(b) and 20(a) of the Exchange Act.

In April 2023, the plaintiffs filed an amended complaint and assert only claims made under Sections 11 and 15 of the Securities Act. The Court dismissed this complaint in December 2023 with leave to amend. The plaintiffs have until February 2024 to do so. In August 2021, a shareholder derivative action purportedly brought on behalf of the Company, Patel v. Szulczewski, was filed in the U.S. federal court alleging that the Company’s directors and officers made or caused the Company to make false and/or misleading statements about the Company’s business operations and financial prospects in various public filings. This matter is stayed pending certain motion practice in the IPO Case. We may continue to be the target of securities litigations, and/or may receive other civil and regulator inquiries and requests, in the future. Securities litigation or inquiries or investigations against us could result in substantial costs and divert our management’s attention from other business concerns, which could adversely affect our business.

From time to time, we are subject to investigations, demands, litigation and other proceedings involving consumer protection, product safety, and data protection authorities or other regulatory agencies, including, in particular, in Denmark, France, Hungary, Italy, the Netherlands, and the United States. These proceedings can result, and in one case in 2023 in France resulted, in civil and/or criminal penalties, large fines, other penalties, and/or remediation efforts and/or injunctive relief that could limit or restrict our ability to do business either in a given jurisdiction within a product class. Implementing these requests or defending against any associated fines could prove expensive and time consuming and negatively affect our results of operations and financial condition. While we may dispute the charges or cases, novel interpretations of the law or enforcement efforts could subject us to litigation and/or time consuming and costly remediation measures or otherwise impair business operations in a jurisdiction.

Bank failures or other events affecting financial institutions could materially adversely affect our operations, liquidity and financial performance.

We maintain domestic cash deposits in Federal Deposit Insurance Corporation (“FDIC”) insured banks, which exceed the FDIC insurance limits, and any deposits beyond these limits could be lost. We also maintain cash deposits in foreign banks where we operate, some of which are not insured or are only partially insured by the FDIC or other similar agencies. The failure of a bank, or events involving limited liquidity, defaults, non-performance or other adverse conditions in the financial or credit markets impacting financial institutions at which we maintain balances, or concerns or rumors about such events, may lead to disruptions in access to our bank deposits or otherwise adversely impact our liquidity and financial performance. While we maintain our cash and short-term investments with a diverse group of large national financial institutions and our limited deposits at Silicon Valley Bank were backstopped by the U.S. government, there can be no assurance that any of our other deposits in excess of the FDIC or other comparable insurance limits will be backstopped by the U.S. or that any bank or financial institution with which we do business will be able to obtain needed liquidity from other banks, government institutions or by acquisition in the event of a failure or liquidity crisis.

In addition, instability, liquidity constraints or other distress in the financial markets, including the effects of bank failures, defaults, non-performance or other adverse developments that affect financial institutions, could impair the ability of one or more of the banks participating in our credit agreement or any future credit agreement from honoring their commitments. This could have a material adverse effect on our business if we were not able to replace those commitments or to locate other sources of liquidity on acceptable terms.

We have identified material weaknesses in our internal control over financial reporting and may identify additional material weaknesses in the future or otherwise fail to maintain an effective system of internal controls, which may result in material misstatements of our consolidated financial statements or cause us to fail to meet our periodic reporting obligations.

During the preparation and the audit of our consolidated financial statements for the year ended December 31, 2021, we and our independent registered public accounting firm identified material weaknesses in our internal control over financial reporting. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. In addition, given our reliance on information technology (“IT”) systems to synthesize both financial and nonfinancial information, any material weaknesses in our IT controls may result in errors in not only our consolidated financial statements but our nonfinancial metrics as well.

The material weaknesses we identified in 2021 occurred because (i) the processes and controls over our IT systems relevant to the preparation of our consolidated financial statements were inadequate and (ii) the current processes in place were insufficient to allow us to complete the testing and assessment of the design and operating effectiveness of internal controls over financial reporting in a timely manner.

As described in Item 9A, “Controls and Procedures”, we will continue our initiatives to implement measures designed to ensure that remaining control deficiencies contributing to the material weaknesses are remediated, such that these controls are designed, implemented, and operating effectively.

We cannot guarantee that our efforts will remediate these deficiencies in internal control over financial reporting or that additional material weaknesses in our internal control over financial reporting will not be identified in the future. Our failure to implement and maintain effective internal control over financial reporting could result in errors in our consolidated financial statements that could result in a restatement of our financial statements and could cause us to fail to meet our reporting obligations, any of which could diminish investor confidence and cause a decline in the price of our Class A common stock. See Item 9A, “Controls and Procedures” for further discussions of the identified material weaknesses.

Our management is required to evaluate the effectiveness of our disclosure controls and internal control over financial reporting. If we are unable to maintain effective disclosure controls and internal control over financial reporting, investors may lose confidence in the accuracy of our financial reports.

As a public company, we are required to maintain internal control over financial reporting and to report any material weaknesses in such internal control. Section 404 of the Sarbanes-Oxley Act requires that we evaluate and determine the effectiveness of our internal control over financial reporting. Additionally, our independent registered public accounting firm is required to deliver an attestation report on the effectiveness of our internal control over financial reporting. We expect that the requirements of these rules and regulations will continue to increase our legal, accounting, and financial compliance costs, make some activities more difficult, time-consuming, costly, and place significant strain on our personnel, systems, and resources.

We are continuing to develop and refine our disclosure controls and other procedures that are designed to ensure that information required to be disclosed in the reports that we will file with the SEC is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms and that information required to be disclosed in reports under the Exchange Act is accumulated and communicated to our principal executive and financial officers. While we continue to improve our internal control over financial reporting through remediation measures described in Item 9A, “Controls and Procedures—Management’s Plan to Remediate the Material Weaknesses”, we cannot guarantee that these changes will remediate future deficiencies or that additional material weaknesses in our internal control over financial reporting will not be identified in the future.

In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, we have expended, and anticipate that we will continue to expend, significant resources, including accounting-related costs and significant management oversight. If any of these new or improved controls and systems do not perform as expected, we may experience further deficiencies in our controls.

Our current controls and any new controls that we develop may become inadequate because of changes in conditions in our business, some of which may arise from our restructuring and turnaround initiatives. We and our independent registered public accounting firm identified weaknesses in our internal control over financial reporting and additional weaknesses may be discovered in the future. Any failure to develop or maintain effective controls or any difficulties encountered in their implementation or improvement could harm our results of operations, cause us to fail to meet our reporting obligations, and adversely affect the results of periodic management evaluations and our independent registered

public accounting firm's attestation reports required by the SEC. Ineffective disclosure controls and procedures and internal control over financial reporting could diminish investor confidence, negatively affect the price of our Class A common stock, and could result in our delisting on Nasdaq. As noted previously, see Item 9A, "Controls and Procedures" for further discussions of the identified material weaknesses.

Risks Related to our International Operations

Economic tension between the United States and China, or between other countries, may intensify and the United States, China, or other countries may adopt drastic measures in the future that impact our business.

Our merchants source a large percentage of the products we list on our platform from China and other countries outside the U.S. and Europe. Additionally, most of our merchants, and some of our operations, are located in China, making the price and availability of products on our platform susceptible to international trade risks and other international economic conditions.

If the U.S. government or other governments impose tariffs or other economic measures that directly or indirectly increase the price of products it imports and that we list on our platform, the increased prices could have a material adverse effect on our financial results and business. The effects of the imposed and proposed tariffs are uncertain because of the dynamic nature of governmental action, relations and responses. Further escalation of trade, economic and geo-political tensions between the United States and its trading partners, especially China, could result in long-term changes to global trade, including retaliatory trade restrictions that restrict the international flow of products. We also cannot predict what actions may ultimately be taken with respect to tariffs or trade relations between the U.S. and China or other countries, what products may be subject to such actions, or what actions may be taken by the other countries in retaliation. Any alterations to our business strategy or operations made in order to adapt to or comply with any such changes would be time-consuming and expensive, and certain of our competitors may be better suited to withstand or react to these changes.

Additionally, certain jurisdictions may attempt to restrict the operation and access of certain China-based companies, such as TikTok, WeChat and Alipay in the U.S. In response, government authorities in China, or elsewhere, may seek to restrict access and operation of U.S. companies. Most of our merchants and some of our operations are located in China; if our operations or our merchant's activities were restricted in China, our platform, our business, financial condition, and results of operations would be adversely affected.

We are not able to predict future economic policy of the U.S., China, or of any foreign countries in which we operate. The adoption and expansion of restrictions, including restrictions on access to apps and other platforms, cross-border data transfers, tariffs, or other governmental action related to economic policies, has the potential to adversely impact our business, operational results and financial position.

Certain aspects of our business relating to the provision of financial services are subject to government regulation and oversight.

Many jurisdictions in which we operate have laws that govern financial services activities. Regulators in certain jurisdictions may determine that certain aspects of our business are subject to these laws and could require us to obtain licenses to continue to operate in such jurisdictions. For example, if we are deemed to be a money transmitter as defined by applicable regulation, we could be subject to certain laws, rules and regulations enforced by multiple authorities and governing bodies in the United States and abroad. If we are found to be a money transmitter or lender under any applicable regulation and we are not in compliance with such regulations, we may be subject to fines or other penalties in one or more jurisdictions levied by federal or state or local regulators, including state Attorneys General, as well as those levied by foreign regulators. In addition to fines, penalties for failing to comply with applicable rules and regulations could include criminal and civil proceedings or other enforcement actions. We could also be required to make changes to our business practices or compliance programs as a result of regulatory scrutiny.

One of our subsidiaries, ContextLogic Collections B.V., received a payments institution license in 2021 from its regulatory authority, De Nederlandsche Bank. This license permits ContextLogic Collections B.V. to operate as a payment service provider (including acquiring and executing payment transactions, as referred to in the Revised Payment Services Directive ("2015/2366/EU") in the Netherlands. In addition, ContextLogic Collections B.V. can offer its payment services in all other countries of the European Economic Area ("EEA") on the basis of a European passport. As a regulated financial institution, ContextLogic Collections B.V. is in compliance and will continue to comply with financial services regulations within the EU, including those relating to anti-money laundering, combating the financing of terrorism, bribery, forced labor, human trafficking, slavery, and sanctioned or prohibited persons or regions.

We continue to evaluate our options for seeking additional licenses and/or subsidiaries in several other jurisdictions to optimize our payment solutions, interchange fees, and to support the future growth of our business. We could be denied such licenses, have existing licenses revoked, or be required to make significant changes to our business operations before being granted such licenses. If we are denied licenses or such licenses are revoked, we may be forced to cease or limit business operations in certain jurisdictions, including in the EEA, and even if we are able to obtain such licenses, we could be subject to fines or other enforcement action, or stripped of such licenses, if we are found to violate the requirements of such licenses. Such regulatory actions, or the need to obtain regulatory approvals, could impose significant costs and involve substantial delay in payments we make in certain local markets, any of which could adversely affect our business, financial condition, or operating results.

In addition, laws related to money transmission and online payments are evolving, and changes in such laws could affect our ability to provide payment processing on our platform in the same form and on the same terms as we have historically, or at all. As we evolve our business or make changes to our business structure, we may be subject to additional laws or requirements related to money transmission, lending, online payments and financial regulation. These laws govern, among other things, money transmission, prepaid access instruments, lending, electronic funds transfers, anti-money laundering, combating the financing of terrorism, banking, systematic integrity risk assessments, cybersecurity of payment processes, sanctions and import and export restrictions. Our business operations may not always comply with these financial laws and regulations. Historical or future non-compliance with these laws or regulations could result in significant criminal and civil lawsuits, penalties, forfeiture of significant assets or other enforcement actions. Costs associated with fines and enforcement actions, as well as reputational harm, changes in compliance requirements or limits on our ability to expand our product offerings, could harm our business.

Further, our payment system is susceptible to illegal and improper uses, including money laundering, terrorist financing, fraud and payments to sanctioned parties. We have invested and will need to continue to invest substantial resources to comply with applicable financial services legislation, including anti-money laundering, combating the financing of terrorism, and sanctions laws. Government authorities may seek to bring legal action against us if we fail to prevent or detect that our payment system is used for improper or illegal purposes or if our enterprise risk management or controls are not adequately assessed, updated, or implemented, and any such action could result in financial or reputational harm to our business.

Additionally, some of our merchants use applications, such as WeChat, for transmitting payments and communicating with us. If any of these payment applications were limited or banned by governmental authorities, certain payments could be delayed or our communications with merchants could be adversely impacted.

Certain aspects of our business are subject to global trade customs regulations and government oversight.

We are also within the scope of certain customs enquiries and subject to international trade law enforcement, that could require us to incur an increase in costs and/or impacting the supply and delivery-times of products from merchants to consumers, potentially causing us to experience damage in reputation and/or restricting our rate of global growth.

Our business is conducted worldwide, with goods imported from and exported to a substantial number of countries. The vast majority of products sold on our platform are shipped internationally. We are subject to numerous regulations, including customs and international trade laws that govern the importation, exportation, and sale of goods. For example, due to abrupt new VAT regulations in Colombia (and related evolving interpretations of the same by local regulatory enforcement agencies), the de minimis threshold exception to remitting VAT for certain low-value declared parcels was removed, subjecting any and all parcels (regardless of import value) to VAT payment obligations. Further, there was industry-wide confusion as to whether the exemption from VAT liability applied to items "shipped from" or "originating in" countries with which Colombia has a FTA. This caused certain parcels shipped by Wish merchants to be held up at Colombia customs, causing delays and increasing charges for consumers. Also, during the initial outbreak of COVID-19, our cross-border logistics function was severely impacted in terms of both disrupted processing capabilities and increased costs, which resulted in a decrease in sales due to higher logistics costs and higher refund rates due to poor performance.

In addition, we face risks associated with trade protection laws, policies and measures and other regulatory requirements affecting trade and investment, including loss or modification of exemptions for taxes and tariffs, imposition of new tariffs and duties, and import and export licensing requirements in the countries in which we operate. If these laws or regulations were to change or were violated by our management, employees or merchants, we could experience delays in shipments of our goods, be subject to fines or penalties, or suffer reputational harm, which could reduce demand for our services and negatively impact our results of operations.

Legal requirements are frequently changed and subject to interpretation, and we are unable to predict the ultimate cost of compliance with these requirements or their effects on our operations. We may be required to make significant

expenditures to comply with existing or future laws and regulations, which may increase our costs and materially limit our ability to operate our business. In addition, changes to legal requirements can create delays in the introduction and sale of our products and services, or in some cases, prevent the export or import of our products and services to certain countries, governments, or persons altogether.

We rely on the free flow of goods through open and operational ports worldwide. Labor disputes or other disruptions at ports create significant risks for our business, particularly if work slowdowns, lockouts, strikes, or other disruptions occur. Any of these factors could result in reduced sales or canceled orders, which may limit our growth and damage our reputation and may have a material adverse effect on our business, results of operations, financial condition, and prospects.

Our international operations are subject to increased risks.

There are inherent risks in doing business internationally, including:

- There are inherent risks in doing business internationally, including: expenses associated with localizing our products and services and user data, including offering our users and merchants the ability to transact business in the local currency and language, and adapting our platform to local preferences;
- challenges to enforceability in some foreign jurisdictions of so-called “clickwrap” contracts with our customers, merchants and Wish Local retailers;
- trade barriers and changes in trade regulations;
- difficulties in developing, staffing, and simultaneously managing a large number of varying foreign operations as a result of distance, language, and cultural differences;
- stringent local labor laws and regulations;
- credit risk and higher levels of payment fraud;
- laws or regulations related to the import or export of goods alleged to violate third-party intellectual property rights;
- political or social unrest, economic instability, repression, or human rights issues;
- geopolitical events, including natural disasters, public health issues, acts of war, and terrorism;
- compliance with U.S. laws such as the Foreign Corrupt Practices Act (“FCPA”) and foreign laws prohibiting corruption, U.S. and foreign economic and trade sanctions laws, and U.S. and foreign laws designed to combat money laundering and the financing of terrorist activities;
- antitrust and competition regulations;
- potentially adverse tax developments and consequences;
- economic uncertainties relating to sovereign and other debt;
- different, uncertain, or more stringent user protection, data protection, data collection, privacy, payments, advertising, pricing, and other laws;
- limitations by governmental authorities on transmission of privacy information and other data between countries, whether from the U.S. or other jurisdictions;
- national and regional laws, regulations and directives and norms, in the EU, EEA, and UK, regarding content moderation and intermediary liability, transparency, product safety and conformity marking, consumer deception, and forced labor;
- restrictions on sales or distribution of certain products or services and uncertainty regarding liability for products, services, content, including uncertainty as a result of less internet-friendly legal systems, local laws, lack of legal precedent, and varying rules, regulations, and practices;
- risks related to other government regulation or required compliance with local laws;
- national or regional differences in macroeconomic growth rates; and
- local licensing and reporting obligations.

Violations of the complex foreign and U.S. laws and regulations that apply to our international operations may result in litigation, fines, criminal actions, or sanctions against us, our officers, or our employees; restrictions on the operations of our business; and damage to our reputation. Although we have implemented policies and procedures designed to promote compliance with these laws, there can be no assurance that our employees, contractors, or agents will not violate our

policies. These risks inherent in our international operations and expansion increase our costs of doing business internationally and could harm our business.

We face exposure to foreign currency exchange rate fluctuations.

Our user pricing and payments are denominated in the local currencies of the users, primarily in U.S. dollars and Euros, and we make a majority of our payments in Renminbi (“RMB”) to the merchants in China for products sold on the Wish platform, which creates exposure to currency rate fluctuations. Additionally, our operating expenses are denominated in the currencies of the countries in which our operations are located, and may be subject to fluctuations due to changes in foreign currency exchange rates, particularly changes in RMB. As part of our currency hedging strategy, we use financial instruments such as forward contracts to hedge our foreign currency exposure in order to reduce the frequency that we need to adjust local currency pricing as well as reduce the short-term impact of foreign currency rate fluctuations on our operating results.

Any factors that reduce cross-border trade or make such trade more difficult could harm our business.

Cross-border trade is an important source of revenue for us. The shipping of goods across national borders is often more expensive and complicated than domestic shipping. Customs and duty procedures and reviews, including duty-free thresholds in various key markets, the interaction of national postal systems, and security related governmental processes at international borders, may increase costs, discourage cross-border purchases, delay transit, and create shipping uncertainties. Any factors that increase the costs of cross-border trade or restrict, delay, or make cross-border trade more difficult or impractical, including any delays or other factors caused by the current conflict between Russia and Ukraine arising from the invasion of Ukraine by Russia, would lower our revenue and profits and could harm our business.

Changes in China’s economic, political or social conditions or government policies could have a material adverse effect on our business and operations.

Most of our merchants, and some of our operations, are located in China. Accordingly, our business, financial condition, results of operations, and prospects may be influenced to a significant degree by political, economic and social conditions in China generally. The Chinese economy differs from the economies of most developed countries in many respects, including the level of government involvement, level of development, and growth rate. The Chinese government continues to play a significant role in regulating industry development by imposing industrial policies. The Chinese government also exercises significant control over China’s economic growth through allocating resources, controlling payment of foreign currency-denominated obligations, setting monetary policy, and providing preferential treatment to particular industries or companies.

Uncertainties with respect to the People’s Republic of China’s (“PRC”) legal system and changes in laws and regulations in China could adversely affect us.

Our operations in China are governed by PRC laws and regulations. Our Chinese subsidiaries are subject to laws and regulations applicable to foreign investment in China. The PRC legal system is a civil law system based on written statutes. Unlike the common law system, prior court decisions under the civil law system may be cited for reference but have limited precedential value. In addition, any new or changes in PRC laws and regulations related to foreign investment in China could affect the business environment and our ability to operate our business in China.

From time to time, we may have to resort to administrative and court proceedings to enforce our legal rights. Any administrative and court proceedings in China may be protracted, resulting in substantial costs and diversion of resources and management attention. Since PRC administrative and court authorities have significant discretion in interpreting and implementing statutory provisions and contractual terms, it may be more difficult to evaluate the outcome of administrative and court proceedings and the level of legal protection we enjoy than in more developed legal systems. These uncertainties may impede our ability to enforce the contracts we have entered into and could materially and adversely affect our business and results of operations.

Furthermore, the PRC legal system is based in part on government policies and internal rules, some of which are not published on a timely basis or at all and may have retroactive effect. As a result, we may not be aware of our violation of any of these policies and rules until sometime after the violation. Such unpredictability towards our contractual, property and procedural rights could adversely affect our business and impede our ability to continue our operations.

We may be adversely affected by the complexity, uncertainties and changes in PRC regulation of internet-related businesses and companies, and any lack of requisite approvals, licenses or permits applicable to our business may have a material adverse effect on our business and results of operations.

The Chinese government extensively regulates the internet industry, including foreign ownership of, and the licensing and permit requirements pertaining to, companies in the internet industry. These internet-related laws and regulations are relatively new and evolving, and their interpretation and enforcement involve significant uncertainties. As a result, in certain circumstances it may be difficult to determine what actions or omissions may be deemed to be in violation of applicable laws and regulations.

Because our business may be subject to governmental supervision and regulation by the relevant Chinese governmental authorities in many aspects of the operation of online retailing, we may be required to hold a number of licenses and permits in connection with our business operation. New laws and regulations may be adopted from time to time to require additional licenses and permits other than those we currently have. As a result, substantial uncertainties exist regarding the interpretation and implementation of current and any future PRC laws and regulations applicable to online retail businesses. If the Chinese government considers that we were operating without the proper approvals, licenses or permits, or promulgates new laws and regulations that require additional approvals or licenses or impose additional restrictions on the operation of any part of our business, it has the power, among other actions, to levy fines, confiscate our income, revoke our business licenses, or require us to discontinue our relevant business or impose restrictions on the affected portion of our business. Any of these or other regulatory actions by the Chinese governmental authorities, including issuance of official notices, change of policies, promulgation of regulations and imposition of sanctions, may adversely affect our business and have a material and adverse effect on our results of operations.

Risks Related to Network and Infrastructure

Any significant disruption in service on our platform or in our computer systems, some of which are currently hosted by third-party providers, could damage our reputation and result in a loss of users, which would harm our business and results of operations.

Our brand, reputation and ability to deliver a positive user experience depends upon the reliability of our infrastructure. We have experienced interruptions in these systems in the past, including server failures that temporarily slowed down or interfered with the performance of our websites and apps, or particular features of our websites and apps, and we may experience interruptions in the future. For example, in June 2020, we experienced a full platform outage for more than one hour due to the release of a software update that did not follow proper internal protocols. We have since updated our processes for following such protocols. Interruptions, whether due to system failures, human errors, computer viruses, physical or electronic break-ins, denial-of-service attacks, and capacity limitations, could prevent or inhibit the ability of merchants to access, or users from completing purchases on, our websites and apps. Volume of traffic and activity on our platform spikes on certain days, and any such interruption would be particularly problematic if it were to occur at such a high-volume time. Problems with the reliability of our systems could prevent us from earning revenue and could harm our reputation. Damage to our reputation, any resulting loss of user confidence and the cost of remedying these problems could negatively affect our business, results of operations, financial condition, and prospects.

We either lease or own our servers and have service agreements with data center providers. Our systems and operations are vulnerable to damage or interruption from fire, flood, power loss, telecommunications failure, terrorist attacks, acts of war, electronic and physical break-ins, computer viruses, earthquakes, and similar events. The occurrence of any of the foregoing events could result in damage to our systems and hardware or could cause them to fail completely, and our insurance may not cover such events or may be insufficient to compensate us for losses that may occur. Our systems are not completely redundant, so a system failure at one site could result in reduced platform functionality for our users, and a total failure of our systems could cause our websites or apps to be inaccessible by some or all of our users. A significant portion of our data storage, data processing and other computing services and systems is hosted by Amazon Web Services (“AWS”). AWS provides us with computing and storage capacity pursuant to an agreement that continues until terminated by either party. Problems with our third-party service providers, including AWS, or with their network providers or with the systems allocating capacity among their users, including us, could adversely affect our users’ experience. Our third-party service providers could decide to close their facilities without adequate notice. Any financial difficulties, such as bankruptcy or reorganization, faced by our third-party service providers or any of the service providers with whom they contract may have negative effects on our business, the nature and extent of which are difficult to predict. If our third-party service providers are unable to keep up with our needs for capacity, this could have an adverse effect on our business. In the event that our agreement with AWS, or other third-party service providers, is terminated, or we add additional cloud infrastructure service providers, we may experience significant costs or downtime in connection with the transfer to, or the addition of, new cloud infrastructure service providers. Any of the above circumstances or events may harm our reputation and brand, reduce the availability or usage of our platform, lead to a significant short-term loss of revenue, increase our costs, and impair our ability to attract new users or merchants, any of which could adversely affect our business, financial condition, and results of operations.

Our failure or the failure of third parties to protect our sites, networks and systems against security breaches, or otherwise to protect our confidential information, could damage our reputation and brand and substantially harm our business and operating results.

We collect, maintain, transmit, and store data about our users, merchants and others, including personally identifiable information and personal data, as well as other confidential information.

We also engage third parties that store, process, and transmit these types of information on our behalf. We rely on technology licensed from third parties in an effort to securely transmit confidential and sensitive information, including credit card numbers. Advances in computer capabilities, new technological discoveries, or other developments may result in the whole or partial failure of this technology to protect transaction data or other confidential and sensitive information from being breached or compromised. In addition, ecommerce websites are often attacked through compromised credentials, including those obtained through phishing, credential stuffing, and password spraying. Our security measures, and those of our third-party service providers, may not detect or prevent all attempts to breach our systems, viruses, malicious software, break-ins, phishing attacks, accidental actions or omissions to act that create vulnerabilities, social engineering, security breaches, or other attacks and similar disruptions that may jeopardize the security of information stored in or transmitted by our websites, networks and systems or that we or such third parties otherwise maintain, including payment card systems, which may subject us to fines or higher transaction fees or limit or terminate our access to certain payment methods. We and such third parties may not be able to anticipate or prevent all types of attacks, and we may not detect such attacks until after they have already been launched. Further, techniques used to obtain unauthorized access to or sabotage systems change frequently and may not be known until launched against us or our third-party service providers. In addition, security breaches can also occur as a result of non-technical issues, including intentional or inadvertent actions by our employees or by third parties. These risks may increase over time as the complexity and number of technical systems and applications we use also increases.

Cybersecurity incidents or breaches of our security measures or those of our third-party service providers could result in unauthorized access to our websites, networks and systems; unauthorized access to and misappropriation of our data, including user information, personally identifiable information, or other confidential or proprietary information of ours or of third parties; viruses, worms, spyware, or other malware being served from our websites, networks, or systems; deletion or modification of content or the display of unauthorized content on our sites; interruption, disruption, or malfunction of operations; costs relating to breach remediation, deployment of additional personnel and protection technologies, response to governmental investigations and media inquiries and coverage; engagement of third-party experts and consultants; litigation, regulatory action and other potential liabilities. Further, due to the political uncertainty involving Russia and Ukraine, there is an increased likelihood that escalation of tensions could result in cyberattacks that could either directly or indirectly impact our operations. Social engineering, phishing, malware, and similar attacks and threats of denial-of-service attacks could have a material adverse effect on our operations. Additionally, from time to time, our merchants' and users' accounts have been subject to unauthorized access by third parties, including through illicit purchase of usernames and passwords by bad actors. If any of these breaches of security should occur, our reputation and brand could be damaged, our business may suffer, we could be required to expend significant capital and other resources to alleviate problems caused by such breaches, and we could be exposed to a risk of loss, litigation or regulatory action and possible liability. We cannot guarantee that recovery protocols and backup systems will be sufficient to prevent data loss. Actual or anticipated attacks may cause us to incur increasing costs, including costs to deploy additional personnel and protection technologies, train employees and engage third-party experts and consultants. In addition, any party who is able to illicitly obtain a user or merchant password could access the user or merchant's transaction data or personal information, resulting in the perception that our systems are insecure.

Any compromise or breach of our security measures, or those of our third-party service providers, could violate applicable privacy, data protection, data security, network and information systems security and other laws and cause significant legal and financial exposure (including costs for technical teams to investigate and remediate such incidents), adverse publicity and a loss of confidence in our security measures, which could have a material adverse effect on our business, results of operations, financial condition, and prospects. We devote significant resources to protect against security breaches and we may need to devote more resources in the future to address problems caused by breaches, including notifying affected users and responding to any resulting litigation, which in turn, diverts resources from the growth and expansion of our business.

Additionally, many governments have enacted laws or regulations that require companies to notify individuals about certain types of security incidents or breaches, and any such disclosures may lead to negative publicity and may deter customers from shopping on our platform. It is also possible that security breaches affecting our competitors or others in our industry could also result in negative publicity that indirectly harms our reputation. Increasing public, industry, and governmental focus on privacy and data security may continue to lead to additional guidance or legislative and regulatory

action, and the increased emphasis on privacy and data security may continue to lead to additional guidance or legislative and regulatory action, and the increased emphasis on privacy may lead customers to request that we take additional measures to enhance security or restrict the manner in which we collect and use customer information to gather insights into customer behavior and craft our marketing programs. As a result, we may have to modify our business systems and practices with the goal of further improving data security, which could result in reduced net revenue, increased expenditures and operating complexity. Any compromise of our security or security breach could result in a violation of applicable privacy and other laws, significant legal and financial exposure or damage to our reputation, which could result in reduced net revenue, increased expenditures and operating complexity. Any compromise of our security or security breach could result in a violation of applicable privacy and other laws, significant legal and financial exposure or damage to our reputation, which could have a material adverse effect on our business, financial condition, and results of operations.

Our existing general liability and cybersecurity insurance may not cover any, or cover only a portion of any, potential claims or expenses related to security breaches that affect us or may not be adequate to indemnify us for all or any portion of liabilities that may be imposed. In addition, we cannot assure investors that the limitations on liability in our contracts would be enforceable or adequate or would otherwise protect us from any such liabilities with respect to any particular claim. Any imposition of liability that is not covered by insurance or is in excess of insurance coverage would increase our operating expenses and reduce our net income, if any, or increase our net loss.

We are subject to governmental regulation and other legal obligations related to privacy, data protection, information security, and consumer protection. If we are unable to comply with these, we may be subject to governmental enforcement actions, litigation, fines and penalties, or adverse publicity.

We collect personally identifiable information and other data from users and prospective users. We use this information to provide services and relevant products to our users, to support, expand and improve our business, and to tailor our marketing and advertising efforts. We may also share users' personal data with certain third parties as authorized by the user or as described in our privacy policy.

As a result, we are subject to governmental regulation and other legal obligations related to the protection of confidential and sensitive data (including personally identifiable information and personal data), privacy, information security and consumer protection in certain countries where we do business and there has been and will continue to be a significant increase globally in such laws that restrict or control the use of personal data.

In Europe, where the data privacy and information security regime underwent a significant change in 2018, the legal environment related to personal data continues to evolve and companies like us that process personal data from large numbers of individuals are subject to increasing regulatory scrutiny. The General Data Protection Regulation ("GDPR") implemented more stringent operational requirements for our use of personal data. These more stringent requirements include expanded disclosures to tell our users about how we may use their personal data, increased controls on profiling users and increased rights for users to access, control and delete their personal data. In addition, there are mandatory data breach notification requirements and significantly increased penalties of the greater of €20 million or 4% of global turnover for the preceding financial year.

Although there are legal mechanisms to allow for the transfer of personal data from the United Kingdom ("U.K."), EEA and Switzerland to the U.S., uncertainty about compliance with such data protection laws remains and such mechanisms may not be available or applicable with respect to the personal data processing activities necessary to research, develop and market our products and services. For example, legal challenges in Europe to the mechanisms allowing companies to transfer personal data from the EEA to the United States could result in further limitations on the ability to transfer personal data across borders, particularly if governments are unable or unwilling to reach new or maintain existing agreements that support cross-border data transfers, such as the EU-U.S. and Swiss-U.S. Privacy Shield Frameworks. Specifically, on July 16, 2020, the Court of Justice of the European Union invalidated Decision 2016/1250 on the adequacy of the protection provided by the EU-U.S. Privacy Shield Framework ("Schrems II" decision). To the extent that we or our service providers were to rely on the EU-U.S. Privacy Shield Framework, we may not be able to do so in the future, which could increase our costs and limit our ability to process personal data from the European Union. The Schrems II decision also cast doubt on the ability to use one of the primary alternatives to the Privacy Shield, namely, the European Commission's Standard Contractual Clauses, to lawfully transfer personal data from Europe to the U.S. and most other countries. In November 2020, the European Commission released a draft of revised Standard Contractual Clauses, and, in January 2021, the European Data Protection Board and the European Data Protection Supervisor issued a joint opinion regarding these revised Standard Contractual Clauses. These revised Standard Contractual Clauses and related developments, opinions, and guidance from European regulators may significantly increase our liability under, and compliance costs related to, cross-border data transfers and the GDPR, and may impact our ability to operate and deliver services in the EEA.

Following its exit from the EU in January 2020, the U.K. implemented legislation referred to as the “U.K.-GDPR” which substantially aligns with requirements and penalties under the EU GDPR. We may face similar costs, risks, and operational impacts in complying with the U.K.-GDPR as we face in complying with the EU GDPR.

In recent years, U.S. and European lawmakers and regulators have expressed concern over the use of third-party cookies and similar technologies for online behavioral advertising, and laws in this area are also under reform. In the EU current national laws that implement the ePrivacy Directive will be replaced by an EU regulation known as the ePrivacy Regulation. The draft ePrivacy Regulation retains existing informed consent conditions and also imposes the strict opt-in marketing rules on direct marketing that is “presented” on a web page rather than sent by email, alters rules on third-party cookies and similar technology and significantly increases penalties for breach of the rules. Regulation of cookies and similar technologies may lead to broader restrictions on our marketing and personalization activities and may negatively impact the effectiveness of our marketing. Such regulations may also increase regulatory scrutiny and increase potential civil liability under data protection or consumer protection laws. The ePrivacy Regulations draft also advocates the development of browsers that block cookies by default. These developments could impair our ability to collect user information, including personal data and usage information, that helps us provide more targeted advertising to our current and prospective users, which could adversely affect our business, given our use of cookies and similar technologies to target our marketing and personalize the user experience. We may incur liabilities, expenses, costs, and other operational losses under GDPR and applicable EU Member States and the U.K. privacy laws in connection with any measures we take to comply with them.

As interpretation of both the ePrivacy Regulation and GDPR develop, we could incur substantial costs to comply with these regulations. The changes could require significant systems changes, limit the effectiveness of our marketing activities, adversely affect our margins, increase costs and subject us to additional liabilities.

In the U.S., federal and various state governments have adopted or are considering, laws, guidelines or rules for the collection, distribution, use and storage of information collected from or about users or their devices. For example, California passed the California Consumer Privacy Act (the “CCPA”), which became effective on January 1, 2020 and introduced substantial changes to privacy law for businesses that collect personal information from California residents. The CCPA creates individual privacy rights for California consumers and increases the privacy and security obligations of entities handling certain personal information. The CCPA provides for civil penalties for violations, as well as a private right of action for data breaches that is expected to increase data breach litigation. And on November 3, 2020, California passed the California Privacy Rights Act (the “CPRA”). The CPRA, which will not be fully in effect until January 1, 2023, amends and expands the CCPA, including the introduction of sensitive personal information as a new regulated dataset in California that is subject to new disclosure and purpose limitation requirements. Additionally, the Virginia Consumer Data Protection Act (the “VCDPA”) will become effective on January 1, 2023. The Colorado Privacy Act and the Connecticut Data Privacy Act will become effective on July 1, 2023, and the Utah Consumer Privacy Act will become effective on December 31, 2023. Other states may decide to adopt similar laws in the future. Additionally, the U.S. Federal Trade Commission and many state attorneys general are applying federal and state consumer protection laws, to impose standards for the online collection, use and dissemination of data. Furthermore, these obligations may be interpreted and applied inconsistently from one jurisdiction to another and may conflict with other requirements or our practices.

Additionally, new platform liability laws, potential amendments to existing laws, and ongoing regulatory and judicial interpretation of these laws imparting liability for conduct by users of a platform may create costs and uncertainty for our platform at its users. In the U.S., the United States Supreme Court recently agreed to review a matter in which the scope of protections available to online platforms under Section 230 of the Communications Decency Act, or CDA, is at issue. In parallel, there have also been various Executive and Congressional efforts to restrict the scope of protections available to online platforms under Section 230 of the CDA, and our current protections from liability for third-party content posted on our platform in the United States could decrease or change depending on judicial interpretation and/or content-related legislation. We could incur significant costs investigating and defending such claims and, if we are found liable, significant damages.

In September 2021 and November 2021, the PRC made effective its new Data Security Law and Personal Information Protection Law, respectively. While there are many aspects of these laws that are still yet-to-be-defined, they impose complex and far-reaching requirements related to cybersecurity and the processing of personal data, both within China and extraterritorially. Potential penalties under the Personal Information Protection Law are severe, at up to the greater of 5% of global revenue or \$7.7 million. The precise scope and impact of these laws is still unclear but they could significantly increase our compliance costs, cause us to suffer monetary penalties, or otherwise adversely impact our business and operations.

Many data protection regimes apply based on where a user is located, and as we expand our platform and new laws are enacted or existing laws change, we may be subject to new laws, regulations or standards or new interpretations of

existing laws, regulations or standards, including those in the areas of data security, data privacy and regulation of email providers and those that require localization of certain data, which could require us to incur additional costs and restrict our business operations. Any failure or perceived failure by us to comply with rapidly evolving privacy or security laws policies (including our own stated privacy policies), legal obligations or industry standards or any security incident that results in the unauthorized release or transfer of personally identifiable information or other user data may result in governmental enforcement actions, litigation (including user class actions), fines and penalties or adverse publicity and could cause our users to lose trust in us, which could have a material adverse effect on our business, results of operations, financial condition, and prospects.

A failure to comply with current laws, rules and regulations or changes to such laws, rules and regulations and other legal uncertainties may adversely affect our business, financial performance, results of operations or business growth.

Our business and financial performance could be adversely affected by unfavorable changes in or interpretations of existing laws, rules, and regulations or the promulgation of new laws, rules, and regulations applicable to us and our business, including those relating to the internet and ecommerce, internet advertising and price display, consumer protection, anti-corruption, economic and trade sanctions, tax, payments, banking, data security, network and information systems security, data protection and privacy. As a result, regulatory authorities could prevent or temporarily suspend us from carrying on some or all of our activities or otherwise penalize us if our practices were found not to comply with applicable regulatory or licensing requirements or any binding interpretation of such requirements. Unfavorable changes or interpretations could decrease demand for our services, limit marketing methods and capabilities, affect our margins, increase costs or subject us to additional liabilities. For example, as a result of the initial outbreak of COVID-19, consumer protection authorities demanded rapid and decisive changes in the way that Wish screens and handles product listings that potentially violate various laws, including emergency price caps on certain items. We believe we have legal grounds to satisfy current requests or prevail against associated fines and penalties, and we intend to vigorously defend such fines and penalties.

Additionally, there are, and will likely continue to be, an increasing number of laws and regulations pertaining to both the internet and ecommerce as well as third-party merchant-seller consumer products, that may relate to liability for information retrieved from or transmitted over the internet, display of certain taxes and fees, online editorial and user-generated content, user privacy, data security, network and information systems security, behavioral targeting and online advertising, taxation, liability for third-party activities, quality of services and consumer protection.

For example, the European Digital Services Act ("DSA"), which is expected to take effect in the first half of 2024, intends to impose new legal obligations on online marketplaces operating in Europe in terms of both verifying and ensuring the accuracy and disclosure of required information, as well as the safety and authenticity of products posted by third-party merchants. The DSA also updates the responsibilities and liabilities of digital online services, such as the rules on illegal content, notice-and-takedown, and online targeted advertising, bringing new powers to fine in-scope eligible companies up to 6% of their global annual turnover. In addition, the European Union's Market Surveillance Regulation, which took effect in July 2021, placed new obligations on online marketplaces that perform certain "fulfilment service provider" activities in Europe and was designed to reduce the availability of non-compliant products in Europe when offered by sellers outside of the region that either had or did not have an appointed authorized product compliance representative in Europe. The UK is expected to pass the Online Harms Bill that will require social media platforms to remove illegal adult content expeditiously and to also proactively prevent such listings from being uploaded, which will also impact online marketplace platforms. Denmark has also passed a law placing new obligations on marketplaces and giving its regulators the right to request fines and shutdowns where marketplaces are consistently unsuccessful in screening products that are unsafe or unlawful.

Additionally, the U.K. is also expected to introduce its own mandatory conformity marking requirements under the proposed a new UKCA scheme from 2024 (replacing the existing EU CE marking scheme), which is anticipated to require online sellers of certain eligible consumer products to U.K. consumers to visually display evidence of such requisite marks on physical product and/or packaging and on their online product listings. Certain EU-27 Member States, such as France, Germany, Sweden, and Austria, have already updated their own versions of Extended Producer Responsibility ("EPR") schemes under applicable EU Directives that apply to online marketplace platforms, by requiring them to collect, report, and at times publish mandatory registration or other product data from third-party sellers offering certain in-region products or packaging on their platforms. Failure of online marketplace platforms to ensure their merchant-sellers' own primary independent product compliance obligations are satisfied can result in civil penalties to such platforms. These types of product-specific compliance regulations and laws primarily targeting merchant-sellers but secondarily holding online marketplaces responsible and/or liable, are only expected to increase in breadth and number over the coming years.

Furthermore, the growth and development of ecommerce may prompt calls for more stringent consumer protection laws and more aggressive enforcement efforts, which may impose additional burdens on online businesses generally. For example, amendments to the EU's Unfair Commercial Practices Directive that took effect May 2022 mandated additional obligations on online platforms and marketplaces that host user-customer reviews regarding third-party products. Such new obligations created greater disclosure, transparency, reactionary reporting, and policy enforcement requirements on online platforms and marketplaces in the area of user reviews, designed to prevent the risks of the reviews being fake, false, or misleading.

Likewise, the Securities and Exchange Commission (the "SEC"), the U.S. Department of Justice, the U.S. Treasury Department's Office of Foreign Assets Controls, the U.S. Department of State, as well as other foreign regulatory authorities continue to enforce economic and trade regulations and anti-corruption laws, across industries as well as certain regions. U.S. trade sanctions relate to transactions with designated foreign countries and territories, including Cuba, Iran, North Korea, Syria, the Crimea and recently annexed Luhansk and Donetsk regions of Ukraine, as well as specifically targeted individuals and entities that are identified on U.S.'s and other blacklists, and those owned by them or those acting on their behalf. Further, In February 2022, following Russia's invasion of Ukraine, the U.S. and other countries announced sanctions against Russia. The U.S. and other countries could impose wider sanctions and take other actions should the conflict further escalate. While it is difficult to anticipate the impact the sanctions announced to date may have on the Company, any further sanctions imposed or actions taken by the U.S. or other countries, and any retaliatory measures by Russia in response, could have an adverse effect on our business. We have established a trade and screening compliance program designed to increase our compliance with these economic and trade restrictions and export and import control regimes. However, these laws and regulations are complex and subject to frequent change, including with respect to jurisdictions and the lists of sanctioned entities and other regulatory controls. For example, in June 2022, the Uyghur Forced Labor Prevention Act (UFLPA) went into effect in the U.S., which establishes a rebuttable presumption that the importation of any goods, wares, articles, and merchandise mined, produced, or manufactured wholly or in part in the Xinjiang Uyghur Autonomous Region of the PRC, or produced by certain entities, is prohibited by Section 307 of the Tariff Act of 1930 and are not entitled to entry to the United States. We may incur significant costs related to laws, regulations, sanctions, embargoes, export controls programs or other restrictions and disclosure requirements, as well as negative publicity, investigations, fines, fees or settlements, which may be difficult to predict. We also could face increased compliance costs and risks as our merchant-base and logistics offerings continue to expand.

Similarly, state and federal lawmakers have introduced more robust Know-Your-Customer/Business ("KYC/KYB") regulations to ensure greater transparency for third-party sellers of consumer products online. For example, on June 27, 2023, the INFORM Consumers Act will become effective in the U.S. This law, among other things, directs online marketplaces to collect, verify, and disclose to consumers certain high-volume third-party seller information by authenticating the seller's government ID, tax ID, bank account information, and contact information. Under such law, online marketplaces will also be required to supply a hotline to allow customers to report to the marketplace suspicious marketplace activity, such as the posting of suspected stolen, counterfeit, or dangerous products. We may incur significant costs related to current, new or changing KYC/KYB regulations as well as increased liability risks (including civil penalties) if deemed non-compliant.

Anti-corruption laws, including the U.S. FCPA and the U.K. Bribery Act, generally prohibit direct or indirect corrupt payments to government officials and, under certain laws, to private persons to obtain or retain business or an improper business advantage. Similarly, global anti-money laundering laws and regulations generally prohibit exchanging money or assets that were obtained criminally for money or other assets that are clean, including money that is used to fund terrorism. Although we have policies and procedures in place designed to promote compliance with these laws and regulations, our employees, partners, or agents could take actions in contravention of our policies and procedures or violate applicable laws or regulations. In the event our controls should fail, or we are found to be not in compliance for other reasons, we could be subject to monetary damages, civil and criminal monetary penalties, withdrawal of business licenses or permits, litigation and damage to our reputation and the value of our brand.

Additionally, the law relating to liability of online service providers is currently unsettled at both a national and global level. Lawmakers and governmental agencies have in the past and could in the future require changes in the way our business is conducted, including with explicit obligations to inspect and screen content and products or implicit obligations that might stem from increased legal liability for online service providers, including online marking and labeling requirements, akin to those traditionally reserved for either manufacturers, suppliers, importers-of-record, and/or distributors of physical consumer goods. Unfavorable regulations, laws, decisions, or interpretations by government or regulatory authorities applying those laws and regulations, or inquiries, investigations, or enforcement actions threatened or initiated by them, could cause us to incur substantial costs, expose us to unanticipated civil and criminal liability or penalties (including substantial monetary fines), increase our cost of doing business, require us to change our business practices in a manner

materially adverse to our business, damage our reputation, impede our growth, or otherwise have a material effect on our operations.

Risks Related to Our Intellectual Property

We may be unable to protect our intellectual property adequately.

Our intellectual property is an essential asset of our business, and our success is dependent, in part, upon protecting our intellectual property. To establish and protect our intellectual property rights, we rely on a combination of trade secret, copyright, trademark and, to a lesser extent, patent laws, as well as confidentiality protection procedures and contractual provisions. The efforts we have taken to protect our intellectual property may not be sufficient or effective. We generally do not elect to register our copyrights, relying instead on the laws protecting unregistered intellectual property, which may not be sufficient. We rely on both registered and unregistered trademarks, which may not always be comprehensive in scope. In addition, our copyrights and trademarks, whether or not registered, and patents may be held invalid or unenforceable if challenged and may be of limited territorial reach. Moreover, effective trademark, copyright, patent and trade secret protection may not be available or commercially feasible in every country in which we conduct business. Further, intellectual property law, including statutory and case law, particularly in the United States, is constantly developing, and any changes in the law could make it harder for us to enforce our rights. While we have obtained or applied for patent protection with respect to some of our intellectual property, we generally do not rely on patents as a principal means of protecting intellectual property. We make business decisions about when to seek patent protection for a particular technology and when to rely upon trade secret protection, and the approach we select may ultimately prove to be inadequate. To the extent we do seek patent protection, any U.S. or other patents issued to us may not be sufficiently broad to protect our proprietary technologies.

We may be subject to claims that items listed on our platform are counterfeit, infringing or illegal, which may harm our business.

We frequently receive communications alleging that items listed on our platform infringe third-party copyrights, trademarks, or other intellectual property rights. We have intellectual property complaint and take-down procedures in place to address these communications, and we believe such procedures are important to promote confidence in our platform and provide users reassurance in the products they are purchasing. We follow these procedures to review complaints and relevant facts to determine the appropriate action, which may include removal of the item from our platform and, in certain cases, prohibiting merchants from participating in our platform who repeatedly violate our policies.

Our procedures may not effectively reduce or eliminate our liability. In particular, we may be subject to civil or criminal liability for activities carried out by merchants on our platform, especially outside the U.S. where laws may offer less protection for intermediaries and platforms than the U.S. Under current U.S. copyright law, we may benefit from statutory safe harbor provisions that protect us from copyright liability for content posted on our platform by our merchants and users. However, trademark and patent laws do not include similar statutory provisions, and liability for these forms of intellectual property is often determined by court decisions. These safe harbors and court rulings may change unfavorably. In that event, we may be held secondarily liable for the intellectual property infringement of merchants on our platform. We may also be directly liable for the inventory we purchase ourselves that we sell on our platform.

In addition, allegations of infringement of intellectual property rights, including but not limited to counterfeit items, have resulted in actual litigation from time to time by rights owners against merchants. These and similar suits have resulted in the freezing of merchant accounts or the shutdown of merchant storefronts on our platform, which can adversely impact revenue in the short-term, and may require us to spend substantial resources to comply with court orders. We may also incur costs responding to subpoenas from governmental authorities regarding illegal or counterfeit products listed for sale on our platform. In addition, we may receive media attention relating to the listing or sale of illegal or counterfeit goods, which could damage our reputation, diminish the value of our brand, and make users and merchants reluctant to use our platform.

Regardless of the validity of any claims made against us, we may incur significant costs and efforts to defend against or settle them.

Under our standard form agreements, we require our merchants to indemnify us for any losses we suffer or any costs that we incur due to any products sold by these merchants. However, we may not be able to successfully enforce our contractual rights and may need to initiate costly and lengthy legal proceedings to protect our rights.

We may be subject to intellectual property claims, which are extremely costly to defend, could require us to pay significant damages and could limit our ability to use certain technologies in the future.

Companies in the internet and technology industries are frequently subject to litigation based on allegations of infringement or other violations of intellectual property rights. We periodically receive communications that claim we have infringed, misappropriated or misused others' intellectual property rights. To the extent we gain greater public recognition, we may face a higher risk of being the subject of intellectual property claims. Third parties may have intellectual property rights that cover significant aspects of our technologies or business methods and prevent us from expanding our offerings. Any intellectual property claim against us, with or without merit, could be time consuming and expensive to settle or litigate and could divert the attention of our management. Litigation regarding intellectual property rights is inherently uncertain due to the complex issues involved, and we may not be successful in defending ourselves in such matters.

In addition, some of our competitors have extensive portfolios of issued patents. In a patent infringement claim against us, we may assert, as a defense, that we do not infringe the relevant patent claims, that the patent is invalid, or both. The strength of our defenses will depend on the patents asserted, the interpretation of these patents, and our ability to invalidate the asserted patents. However, we could be unsuccessful in advancing non-infringement and/or invalidity arguments in our defense. In the United States, issued patents enjoy a presumption of validity, and the party challenging the validity of a patent claim must present clear and convincing evidence of invalidity, which is a high burden of proof. Conversely, the patent owner need only prove infringement by a preponderance of the evidence, which is a lower burden of proof. We may be unaware of the intellectual property rights that others may claim cover some or all of our technology or services. Because patent applications can take years to issue and are often afforded confidentiality for some period of time, there may currently be pending applications, unknown to us, that later result in issued patents that could cover one or more of our products.

Many potential litigants, including some of our competitors and patent holding companies, have the ability to dedicate substantial resources to enforcing their intellectual property rights. Moreover, our patents may provide little or no deterrence in litigation involving patent holding companies or other adverse patent owners that have no relevant product revenue. Any claims successfully brought against us could subject us to significant liability for damages and we may be required to stop using technology or other intellectual property alleged to be in violation of a third-party's rights in jurisdictions where we do business. We also might be required to enter into costly settlement agreements or seek a license for third-party intellectual property. Even if a license is available, we could be required to pay significant royalties or submit to unreasonable terms, which would increase our operating expenses. We may also be required to develop alternative non-infringing technology, which could require significant time and expense. If we cannot license or develop technology for any allegedly infringing aspect of our business, we would be forced to limit our service and may be unable to compete effectively. Any of these results could harm our business.

Our software is highly complex and may contain undetected errors.

The software and code underlying our platform is highly interconnected and complex and may contain undetected errors or vulnerabilities, some of which may only be discovered after the code has been released. We typically release software code daily and this practice may result in the more frequent introduction of errors or vulnerabilities into the software underlying our platform, which can impact the user and merchant experience on our platform. Additionally, due to the interconnected nature of the software underlying our platform, updates to certain parts of our code, including changes to our website or mobile app or third-party APIs on which our website and mobile app rely, could have an unintended impact on other sections of our code, which may result in errors or vulnerabilities to our platform. Any errors or vulnerabilities discovered in our code after release could result in damage to our reputation, loss of our merchants or users, loss of revenue, or liability for damages, any of which could adversely affect our growth prospects and our business.

Our use of open source software may pose particular risks to our proprietary software and systems.

We use open source software in our proprietary software and systems and will use open source software in the future. The licenses applicable to our use of open source software may require that source code that is developed using open source software be made available to the public and that any modifications or derivative works to certain open source software continue to be licensed under open source licenses. From time to time, we may face claims from third parties claiming infringement of their intellectual property rights, or demanding the release or license of the open source software or derivative works that we developed using such software (which could include our proprietary source code) or otherwise seeking to enforce the terms of the applicable open source license. These claims could result in litigation and could require us to purchase a costly license, publicly release the affected portions of our source code, be limited in or cease using the implicated software unless and until we can re-engineer such software to avoid infringement or change the use of, or remove, the implicated open source software. Our use of open source software may also present additional security risks because the source code for open source software is publicly available, which may make it easier for hackers and other third parties to determine how to breach our website and systems that rely on open source software. Any of these risks

could be difficult to eliminate or manage, and, if not addressed, could have a material adverse effect on our business, results of operations, financial condition, and prospects.

Risks Related to Our Taxes and Financial Position

Our business and our merchants and users may be subject to sales and other taxes and these taxes may negatively impact our revenue and growth.

The application of indirect taxes, such as sales and use tax, VAT, provincial taxes, goods and services tax, business tax and gross receipt tax to our business and to our merchants and users is a complex and evolving issue. In addition, governments are increasingly looking for ways to increase revenue, which has resulted in discussions about new legislative actions to increase tax revenue, including through indirect taxes.

Significant judgment and expertise are required to evaluate applicable tax obligations. As a result, amounts recognized may be subject to adjustments by the relevant tax authorities. In many cases, the ultimate tax determination is uncertain because it is not clear how new and existing statutes might apply to our business or to the businesses of our merchants. One or more states, the federal government or other countries may seek to impose additional reporting, recordkeeping or indirect tax collection obligations on businesses like ours that facilitate ecommerce.

State and local taxing authorities in the U.S. have identified ecommerce platforms as a means to calculate, collect and remit indirect taxes for transactions taking place over the internet. U.S. states began enacting related legislation with effective dates in early 2018 and in June 2018, the U.S. Supreme Court held in *South Dakota v. Wayfair* that a U.S. state may require an ecommerce platform to collect sales taxes imposed by the state in which the buyer is located, even if the retailer has no physical presence in that state, thus permitting a wider enforcement of such sales tax collection requirements. All U.S. states have since followed suit in enacting similar legislation.

Outside of the U.S., the application of VAT or other indirect taxes on ecommerce providers continues to evolve. An increasing number of jurisdictions are legislating or have adopted laws that impose new taxes, including revenue-based taxes that target ecommerce and the remote selling of goods. These laws include new obligations to collect sales, consumption, value added, or similar taxes on ecommerce platform and remote sellers, or other requirements that may result in liability for third-party obligations. As a result of Brexit, the U.K. began imposing VAT on ecommerce platform effective January 2021, and the EU abolished its low value goods exemption effective July 2021 and require online marketplace facilitators to collect and remit VAT. Our business could be adversely affected by additional taxes that focus on marketplace service revenue.

Additionally, existing and new tax laws and legislation could require us or our merchants to incur substantial costs in order to comply, including costs associated with legal advice, tax calculation, collection, remittance and audit requirements, which could make selling in such markets less attractive and could adversely affect our business. Further, these laws may be applied prospectively or retroactively. Noncompliance with existing and new laws may result in fines or penalties. It is possible we may not have sufficient notice to create and adopt processes to properly comply with new reporting or collection obligations by the effective date.

Our results of operations and cash flows could be adversely affected by additional taxes or increasing taxes of this nature imposed on us prospectively or retroactively, or additional taxes or penalties resulting from the failure to comply with any collection obligations or failure to provide information about our users, merchants or other third parties for tax reporting purposes to various government agencies.

We may experience fluctuations in various tax related obligations.

We are subject to income taxes and various other taxes in both the U.S. and in many international jurisdictions. We record these taxes based on current tax payment calculations and estimates of tax liabilities, which may include estimates of probable settlements of tax audits. The determination of these liabilities requires estimation and significant judgment and the ultimate determination is uncertain. At any time, multiple tax years could be subject to audit by various taxing jurisdictions. As a result, we could be subject to higher than anticipated tax liabilities as ongoing variability in our quarterly tax rates related to potential audits and exposures are re-evaluated. While we have estimated accruals that we believe are reasonable to cover potential exposures, the reserves may ultimately not be sufficient and additional cash outflows may result. Fluctuations in our tax obligations could adversely affect our business.

We may not be able to utilize a significant portion of our net operating loss carryforwards, and other tax attributes, which could adversely affect the value of our Class A common stock.

As of December 31, 2023, we had federal NOLs available to reduce future taxable income, if any, of \$886 million that begin to expire in 2030 and continue to expire through 2037 and \$1.9 billion that have an unlimited carryover period. As of December 31, 2023, we had state NOLs available to reduce future taxable income, if any, of \$7.0 billion that begin to expire in 2026 and continue to expire through 2043 and \$2.0 billion that have an unlimited carryover period. Under legislation enacted in 2017, informally titled the Tax Cuts and Jobs Act (the “Tax Act”), as modified by the Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”), unused U.S. federal NOLs generated in tax years beginning after December 31, 2017, will not expire and may be carried forward indefinitely, but the deductibility of such federal NOLs in tax years beginning after December 31, 2021, is limited to 80% of taxable income. It is uncertain if and to what extent various states will conform to the Tax Act or the CARES Act. In addition, the utilization of NOLs and other tax attributes to offset future taxable income or taxes may be subject to limitations under Sections 382 and 383 of the Internal Revenue Code of 1986, as amended (the “Code”), and similar state statutes as a result of ownership changes that have occurred or could occur in the future. While we believe that our NOLs are currently not subject to limitation under these rules and have entered into a Tax Benefits Preservation Plan designed to preserve and protect our NOLs, there is no guarantee that we have not undergone an ownership change in the past or that such plan will prevent us from experiencing an ownership change in the future and, therefore, having a limitation on our ability to use our NOLs. Additionally, portions of these NOLs could expire unused and be unavailable to offset future income tax liabilities. In addition, at the state level, there may be periods during which the use of NOLs is suspended or otherwise limited. For example, California recently imposed limits on the usability of California state NOLs to offset taxable income in tax years beginning after 2019 and before 2022. As a result, even if we acquire income producing assets and attain profitability in the future, we may be unable to use a material portion of our NOLs and other tax attributes, which could adversely affect our future cash flows and the value of our Class A common stock.

We may need additional capital, which may not be available to us on acceptable terms or at all.

We believe that our existing cash, cash equivalents and marketable securities, together with cash generated from our operations, will be enough to meet our anticipated cash needs for at least the next 12 months. However, we may require additional cash resources due to changes in business conditions or other developments, such as acquisitions or investments we may decide to pursue. Any debt financing that we may secure in the future could result in additional operating and financial covenants that would limit or restrict our ability to take certain actions, such as incurring additional debt, making capital expenditures or declaring dividends. It is also possible that financing may not be available to us in amounts or on terms acceptable to us, if at all.

Risks Related to the Asset Sale

We will be subject to business uncertainties while the Asset Sale is pending, which could adversely affect our business.

On February 10, 2024, we entered into the Asset Purchase Agreement. See Part I, Item 1. “Business—Asset Purchase Agreement with Qoo10” for further discussion of the Asset Purchase Agreement. The Asset Purchase Agreement generally requires us to operate our business in the ordinary course in substantially the same manner as previously conducted pending consummation of the Asset Sale and restricts us, without Qoo10’s consent, from taking certain specified actions until the Asset Sale is completed, including incurring indebtedness and making capital expenditures subject to certain specified exceptions. These restrictions may affect our ability to execute our business and goals, and prevent us from pursuing attractive business opportunities.

The Asset Sale could also disrupt our business or business relationships. Parties with which we have business relationships may delay or defer certain business decisions, seek alternative relationships with third parties or seek to alter their present business relationships with us. Parties with which we otherwise may have sought to establish business relationships may seek alternative relationships with third parties.

In addition, customers who would otherwise use our platform may choose not to use our platform during the pendency of the Asset Sale.

The pursuit of the Asset Sale will also continue to place a significant burden on management and other internal resources. It may also divert management’s time and attention from the day-to-day operation of our business and the execution of our other strategic initiatives. In addition, during the pendency of the Asset Sale, we may be unable to attract and retain key personnel.

In addition, we have incurred and will continue to incur significant costs for professional services and other transaction costs in connection with the Asset Sale, and many of these costs are payable regardless of whether or not the Asset Sale is consummated. We may also incur material tax costs in connection with the Asset Sale, including U.S. federal, state, local or non-U.S. income or non-income taxes. Furthermore, the Cash Consideration is subject to adjustment. See

Part I, Item 1. “Business—Asset Purchase Agreement with Qoo10” for further discussion of the Cash Consideration and its calculation. If our business performance suffers or we incur increased expenses, the amount of Post-Closing Cash we have immediately following the closing of the Asset Sale may decrease pursuant to the adjustment provisions in the Asset Purchase Agreement, and the amount of Post-Closing Cash could decrease materially as a result of these adjustments, particularly if the closing is delayed beyond May 31, 2024.

Any of the foregoing could adversely affect our business, results of operations, cash flows and financial condition, and the trading price of our Class A common stock.

The Asset Purchase Agreement limits our ability to pursue alternatives to the Asset Sale.

The Asset Purchase Agreement contains non-solicitation provisions that make it substantially more difficult for us to sell our assets or engage in another type of acquisition transaction with a party other than Qoo10. Specifically, we agreed, subject to certain exceptions with respect to unsolicited bids and the exercise of fiduciary duties by our Board of Directors, not to directly or indirectly solicit competing proposals or to enter into discussions concerning, or provide confidential information in connection with, any unsolicited competing proposals. We also agreed to cease all existing discussions with third parties regarding any competing proposals.

These non-solicitation provisions, among others contained in the Asset Purchase Agreement, could discourage a third party that might have an interest in acquiring all of or substantially all of our assets or our Class A common stock from considering or proposing such an acquisition, even if that party were prepared to pay consideration with a higher value than the consideration to be paid by Qoo10.

The Asset Sale may not be completed within the intended timeframe, or at all, and the failure to complete the Asset Sale would likely adversely affect our business, results of operations, financial condition, and the trading price of our Class A common stock.

The Asset Purchase Agreement contains a number of conditions that must be satisfied or waived prior to its completion, including the approval of the Asset Purchase Agreement, the Asset Sale and the transactions contemplated by the Asset Purchase Agreement by the holders of a majority of the outstanding shares of our Class A common stock entitled to vote thereon. The Voting Agreements with the Supporting Stockholders, which collectively beneficially owned approximately 6.78% of the voting power of the outstanding Class A common stock as of February 10, 2024, require that such Supporting Stockholders vote or cause to be voted all shares of Class A common stock owned by such Supporting Stockholders in favor of any proposal to approve the Asset Purchase Agreement and against any competing proposals. Subject to certain exceptions, the Voting Agreements also contain prohibitions applicable to the Supporting Stockholders that are consistent with the non-solicitation provisions of the Asset Purchase Agreement. Notwithstanding the Voting Agreements, there can be no assurance that we will be able to obtain stockholder approval of the Asset Sale.

The closing conditions to the Asset Sale may not be satisfied (or waived, if applicable), and, even if all closing conditions are satisfied (or waived, if applicable), the Asset Sale may not be completed in a timely manner or at all.

If the Asset Sale is not completed within the intended timeframe or at all, we may be subject to a number of material risks. In such instances, the trading price of our Class A common stock would likely decline to the extent that current market prices reflect a market assumption that the Asset Sale will be completed. We may also experience negative reactions from our investors, merchants, users, business partners, vendors and employees.

Upon termination of the Asset Purchase Agreement under specified circumstances, including, among others, if our Board of Directors changes its recommendation in favor of the Asset Sale or approves or recommends a competing proposal, or we fail to obtain the required stockholder approval of the Asset Sale, we would be required to make a payment to Qoo10 of \$5.2 million.

Our stockholders may not receive any of the proceeds of the Asset Sale.

We, and not our stockholders, will receive the proceeds from the Asset Sale. If the Asset Sale closes, we will exit the operation of our e-commerce business and other historical operations. However, we do not intend to liquidate following the closing of the Asset Sale. Our Board of Directors will evaluate alternatives for the use of the Post-Closing Cash. Those alternatives are currently expected to include using the Post-Closing Cash to fund, at least in part, the acquisition of assets that will potentially allow us to utilize our NOLs and certain other tax attributes, which will be retained by us, as discussed elsewhere in this Annual Report on Form 10-K.

Although the alternatives under evaluation by our Board of Directors for the use of the proceeds from the Asset Sale include funding, at least in part, the acquisition of assets that will potentially allow us to utilize our NOLs and certain

other tax attributes, there can be no guarantee that suitable assets will be available for us to purchase or that any assets acquired will generate the revenues anticipated or any revenue at all. If we are not able to acquire suitable assets, the value of our remaining tax attributes will be limited and may be worthless.

Stockholder litigation could prevent or delay the closing of the Asset Sale or otherwise negatively impact our business, operating results and financial condition.

We may incur additional costs in connection with the defense or settlement of any stockholder litigation relating to the Asset Sale. Such litigation may adversely affect our ability to complete the Asset Sale. We could incur significant costs in connection with any such litigation, including costs associated with our indemnification obligations to our directors.

Risks Related to Our Future Operations

We will have no material operations and no material sources of revenue following the Asset Sale, which may negatively impact the value and liquidity of our Class A common stock.

Upon the closing of the Asset Sale, we will have our NOLs and the Post-Closing Cash, and our shares of Class A common stock will still be publicly traded. However, until we deploy the Post-Closing Cash and/or otherwise monetize our NOLs, we will have no material sources of revenue. Although the alternatives under evaluation by our Board of Directors for the use of the Post-Closing Cash include funding, at least in part, the acquisition of assets that will potentially allow us to utilize our NOLs and certain other tax attributes, there can be no guarantee that suitable assets will be available for us to purchase or that any assets acquired will generate the revenues anticipated or any revenue at all. If we are not able to acquire suitable assets, the value of our remaining tax attributes will be limited and may be worthless. A failure by us to secure additional sources of revenue following the closing of the Asset Sale could negatively impact the value and liquidity of our Class A common stock.

The uncertainty regarding the use of proceeds from the Asset Sale and our future operations may negatively impact the value and liquidity of our Class A common stock.

Assuming the Asset Sale is consummated, we will have broad discretion regarding the use of proceeds from the Asset Sale. Although our Board of Directors will evaluate various alternatives regarding the use of the proceeds from the Asset Sale with a goal to maximize the value of our NOLs, it has not yet identified any particular acquisitions or investments or committed to making any such decision by a particular date. This uncertainty may negatively impact the value and liquidity of our Class A common stock.

We will continue to incur the expense of complying with public company reporting requirements following the closing of the Asset Sale.

After the Asset Sale, we will continue to be required to comply with the applicable reporting requirements of the Exchange Act, and such compliance with such reporting requirements is economically burdensome and will require our management's time and attention.

Risks Related to Our Class A Common Stock

We completed a reverse stock split in order to regain compliance with the listing requirements of the Nasdaq Global Select Market, but there is no assurance that the reverse stock split will result in us remaining compliant with such listing requirements.

Our Class A common stock is listed on the Nasdaq Global Select Market and, in order to maintain that listing, we must satisfy minimum financial and other continued listing requirements and standards including, without limitation, that our closing bid price be at least \$1.00 per share (the "Minimum Bid Price Requirement").

On April 10, 2023, following stockholder approval, our Board of Directors approved a 1-for-30 reverse stock split of our issued and outstanding shares of common stock. On April 12, 2023, our common stock began trading on a split-adjusted basis on the Nasdaq Global Select Market.

Although as of April 26, 2023, we regained compliance with the Minimum Bid Price Requirement, there can be no assurance that we will remain in compliance with the Minimum Bid Price Requirement or will otherwise be in compliance with other Nasdaq listing rules.

We completed a 1-for-30 reverse stock split of our shares of common stock, which may reduce and limit the market trading liquidity of the shares due to the reduced number of shares outstanding.

Effective April 11, 2023, we completed a reverse stock split of our common stock by a ratio of 1-for-30. As a result, the liquidity of our Class A common stock may be adversely affected by the reverse stock split due to the reduced number of shares outstanding following such reverse stock split. Absent other factors, reducing the number of outstanding shares of our common stock through the reverse stock split is intended to increase the per-share market price of our Class A common stock. However, a reduction in the liquidity of our Class A common stock as well as other factors, including our financial and operating results, strategic direction, market conditions, and market perception may adversely affect the market price of our Class A common stock. As such, there can be no assurance that the reverse stock split will result in an increase in the market price of our Class A common stock, and such market price may also decrease in the future.

Our Tax Benefits Preservation Plan may reduce the volume of trading in our Class A common stock because it limits the ability of persons or entities from acquiring a significant percentage of our outstanding Class A common stock.

Our Tax Benefits Preservation Plan is designed to preserve the value of certain tax assets associated with NOL carryforwards under Section 382 of the Code. The inability of some stockholders to acquire a significant position in our Class A common stock could substantially reduce the market liquidity of our Class A common stock, making it more difficult for a stockholder to dispose of, or obtain accurate quotations for the price of, our Class A common stock.

The price of our Class A common stock has been and continues to be volatile. Declines in the price of our Class A common stock has resulted in and could subject us to future litigation.

The market price of our Class A common stock has fluctuated and declined and may continue to fluctuate or decline substantially. Further, the trading prices of the securities of technology companies have historically been highly volatile. Accordingly, the price of our Class A common stock has been subject to wide fluctuations and could continue to be subject to wide fluctuations for many reasons, many of which are beyond our control, including those described in this “Risk Factors” section and others such as:

- variations in our operating results and other financial and operational metrics, including the key financial and operating metrics disclosed in this report, as well as how those results and metrics compare to analyst and investor expectations;
- speculation about our operating results in the absence of our own financial projections;
- failure of analysts to initiate or maintain coverage of our company, changes in their estimates of our operating results or changes in recommendations by analysts that follow our Class A common stock;
- announcements of new services or enhancements, strategic alliances or significant agreements or other developments by us or our competitors;
- announcements by us or our competitors of mergers or acquisitions or rumors of such transactions involving us or our competitors;
- changes in our senior management or other key personnel;
- disruptions in our platform due to hardware, software or network problems, security breaches or other issues;
- the strength of the global economy or the economy in the jurisdictions in which we operate, and market conditions in our industry and those affecting our merchants and users;
- trading activity by our principal stockholders and other market participants, in whom ownership of our Class A common stock may be concentrated following our IPO;
- changes in legal or regulatory requirements relating to our business;
- litigation or other claims against us;
- the impact or perceived impact of our 30-for-1 reverse stock split;
- the number of shares of our Class A common stock that are available for public trading; and
- any other factors discussed in this report.

In addition, if the market for technology stocks or the stock market in general experiences a loss of investor confidence, the price of our Class A common stock could decline for reasons unrelated to our business, results of operations or financial condition. The price of our Class A common stock might also decline in reaction to events that affect other companies, even if those events do not directly affect us. We have been named in lawsuits and may be subject to both ongoing litigation and other requests related to our stock price/performance and/or Board performance and independence.

This could result in securities litigation. If we are the subject of additional securities class actions, it could result in substantial costs and could divert our management's attention and resources, which could adversely affect our business. Additionally, the price of our Class A common stock may be volatile and may decline regardless of our operating performance and you may lose all or part of your investment.

Our actual operating results may differ significantly from our outlook.

From time to time, we release outlook (or guidance) in our quarterly earnings conference calls, quarterly earnings releases, or otherwise, regarding our future financial performance that represents our management's estimates as of the date of release. This outlook, which includes forward-looking statements, is based on projections prepared by our management. This outlook is not prepared with a view toward compliance with published guidelines of the American Institute of Certified Public Accountants (AICPA) regarding projections or the SEC regarding forward-looking statements, and neither our independent registered public accounting firm nor any other independent expert or outside party compiles or examines the projections. Accordingly, no such person will express any opinion or any other form of assurance with respect to the projections.

Projections are based upon a number of assumptions and estimates that, while presented with numerical specificity, are inherently subject to significant business, industry, economic and competitive uncertainties and contingencies, many of which are beyond our control and are based upon specific assumptions with respect to future business decisions, some of which will change. The principal reason that we release outlook is to provide a basis for our management to discuss our business expectations with analysts and investors. We do not accept any responsibility for any projections or reports published by any such third parties.

Outlook is necessarily speculative in nature, and it can be expected that some or all of the assumptions underlying the outlook furnished by us will not materialize or will vary significantly from actual results. Accordingly, our outlook is only an estimate of what management believes is realizable as of the date of release. Actual results may vary and the variations may be material. We expressly disclaim any obligations to update or revise any outlook, whether as a result of new information, future events or otherwise, except as required by law. In light of the foregoing, investors are urged to put the outlook in context and not place undue reliance on it.

Any failure to successfully implement our operating strategy or the occurrence of any of the events or circumstances set forth in this "Risk Factors" section in this Form 10-K could result in the actual operating results being different from our outlook, and the differences may be adverse and material.

Future sales and issuances of our Class A common stock or rights to purchase Class A common stock could result in additional dilution to our stockholders and could cause the price of our Class A common stock to decline.

We may issue additional Class A common stock, convertible securities or other equity. We also expect to issue Class A common stock to our employees, directors and other service providers pursuant to our equity incentive plans. Such issuances could be dilutive to investors and could cause the price of our Class A common stock to decline. New investors in such issuances could also receive rights senior to those of holders of our Class A common stock.

The price of our Class A common stock could decline if there are substantial sales of our Class A common stock, particularly sales by our directors, executive officers, employees, and significant stockholders, or when there is a large number of shares of our Class A common stock available for sale.

The market price of the shares of our Class A common stock could decline as a result of the sale of a substantial number of our shares of common stock in the public market or the perception in the market that the holders of a large number of shares intend to sell their shares.

Anti-takeover provisions in our charter documents and under Delaware law could make an acquisition of our company more difficult, could limit attempts to make changes in our management and could depress the price of our Class A common stock.

Provisions in our certificate of incorporation and bylaws may have the effect of delaying or preventing a change in control of our company or limiting changes in our management. In August 2022, Piotr Szulczewski, our founder and member of our Board of Directors until his resignation in August 2022, converted all shares of Class B common stock he held into the same number of shares of Class A common stock. Immediately following such conversion, Mr. Szulczewski's voting power decreased to approximately 8% of the voting power of our outstanding common stock (not including outstanding options that are immediately exercisable). Additionally, following such conversion the outstanding shares of our Class B common stock constituted less than 1% of our outstanding shares of our common stock. This resulted in all other shares of

Class B common stock converting automatically into the same number of shares of Class A common stock. Among other things, the provisions in our certificate of incorporation and bylaws provide:

- in connection with the conversion noted above, our Board of Directors became classified into three classes of directors with staggered three-year terms;
- in connection with the conversion noted above, directors are now able to be removed only for cause and only by the affirmative vote of the holders of at least two-thirds of the voting power of our common stock. Vacancies on our Board of Directors will be able to be filled only by our Board of Directors and not by stockholders;
- certain amendments to our certificate of incorporation or bylaws will require the approval of two-thirds of our common stock;
- authorization of the issuance of “blank check” preferred stock that our Board of Directors could use to implement a stockholder rights plan;
- in connection with the conversion noted above, our stockholders are now only able to take action at a meeting of stockholders and not by written consent;
- stockholders may not call special meetings of the stockholders;
- our Board of Directors is expressly authorized to amend or repeal any provision of our bylaws;
- that the forum for certain litigation against us must be Delaware or the U.S. federal district courts; and
- advance notice requirements for nominations for election to our Board of Directors or for proposing matters that can be acted upon by stockholders at annual stockholder meetings.

These provisions may delay or prevent attempts by our stockholders to replace members of our management by making it more difficult for stockholders to replace members of our Board of Directors, which is responsible for appointing the members of our management. In addition, Section 203 of the Delaware General Corporation Law (the “DGCL”) may delay or prevent a change in control of our company. Section 203 imposes certain restrictions on mergers, business combinations and other transactions between us and holders of 15% or more of our common stock. Anti-takeover provisions could depress the price of our common stock by acting to delay or prevent a change in control of our company.

Our certificate of incorporation provides that the Court of Chancery of the State of Delaware and the federal district courts of the United States of America are the exclusive forums for substantially all disputes between us and our stockholders, which could limit our stockholders’ ability to obtain a favorable judicial forum for disputes with us or our directors, officers or employees.

Our certificate of incorporation provides that the Court of Chancery of the State of Delaware and the federal district courts of the United States of America are the exclusive forum for substantially all disputes between us and our stockholders, which could limit our stockholders’ ability to obtain a favorable judicial forum for disputes with us or our directors, officers or employees. Our certificate of incorporation provides that the Court of Chancery of the State of Delaware is the exclusive forum for: (i) any derivative action or proceeding brought on behalf of us; (ii) any action asserting a claim of breach of a fiduciary duty; (iii) any action arising pursuant to any provision of the DGCL, our certificate of incorporation or bylaws (as either may be amended from time to time); (iv) any action to interpret, apply, enforce or determine the validity of our certificate of incorporation or our bylaws; or (v) any action asserting a claim against us that is governed by the internal affairs doctrine.

This provision does not apply to suits brought to enforce a duty or liability created by the Exchange Act. Furthermore, Section 22 of the Securities Act creates concurrent jurisdiction for federal and state courts over all such Securities Act actions. Accordingly, both state and federal courts have jurisdiction to entertain such claims. To prevent having to litigate claims in multiple jurisdictions and the threat of inconsistent or contrary rulings by different courts, among other considerations, our certificate of incorporation further provides that the U.S. federal district courts are the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act. While the Delaware courts have determined that such choice of forum provisions are facially valid, a stockholder may nevertheless seek to bring a claim in a venue other than those designated in the exclusive forum provisions. In such instance, we would expect to vigorously assert the validity and enforceability of the exclusive forum provisions of our certificate of incorporation. This may require significant additional costs associated with resolving such action in other jurisdictions and there can be no assurance that the provisions will be enforced by a court in those other jurisdictions.

These exclusive-forum provisions may limit a stockholder’s ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers, or other employees. If a court were to find either exclusive forum

provision of our certificate of incorporation to be inapplicable to or unenforceable in an action, we may incur further significant additional costs associated with resolving the dispute in other jurisdictions, all of which could seriously harm our business.

We do not intend to pay dividends on our capital stock, so any returns will be limited to increases in the value of our Class A common stock.

We have never declared or paid any cash dividends on our capital stock. We currently anticipate that we will retain future earnings for the operation and expansion of our business. Accordingly, we do not anticipate declaring or paying any cash dividends for the foreseeable future. In addition, the terms of our Revolving Credit Facility contain, and any future credit facility or financing we obtain may contain, terms prohibiting or limiting the amount of dividends that may be declared or paid on our common stock. Any return to stockholders will therefore be limited to increases in the price of our Class A common stock, if any.

General Risk Factors

Our quarterly and annual operating results may fluctuate, which could cause our stock price to decline.

Our quarterly and annual operating results may fluctuate for a variety of reasons, many of which are beyond our control. These reasons include those described in this “Risk Factors” section as well as the following:

- the amount and timing of our sales and marketing costs;
- our user acquisition strategies;
- traffic on our platform;
- selling prices on our platform and the percentage of revenue we retain from the sale of products;
- mix of products listed on our platform;
- fraud, including the sale of counterfeit goods, and refunds, including our response to these areas;
- continued impact from public health crises such as COVID-19, including the effects of phasing out of governmental measures, decreased online activity, and phasing out of government stimulus programs;
- the level of merchant advertising on our platform;
- disruptions in supply or shipment of products listed on our platform, especially from China where most of our merchants are currently located;
- the actions of app stores and advertising platforms such as Meta and Google;
- seasonality;
- fluctuations in exchange rates;
- the amount and timing of our other operating expenses;
- the expiration of expiration of contractual lock-up agreements and market standoff agreements;
- the impact of competitive developments and our response to those developments;
- changes in carrier policies and pricing and resulting higher logistics costs;
- actual or perceived disruptions or defects in our platform, such as data security breaches or outages;
- changes in laws and regulations that impact our business;
- changes in tax laws in the jurisdictions in which we operate; and
- general political, economic, and market conditions, particularly those affecting our industry.

Fluctuations in our quarterly and annual operating results may cause those results to fall below the expectations of analysts or investors, which could cause the price of our Class A common stock to decline. Fluctuations in our results could also cause a number of other problems. For example, analysts or investors might change their models for valuing our Class A common stock, we could experience short-term liquidity issues, our ability to retain or attract key personnel may diminish, and other unanticipated issues may arise.

In addition, we believe that our quarterly and annual operating results may vary in the future and that period-to-period comparisons of our operating results may not be meaningful. For example, our historical growth may have overshadowed

the seasonal effects on our historical operating results. These seasonal effects may become more pronounced over time, which could also cause our operating results to fluctuate. You should not rely on the results of one quarter or one year as an indication of future performance.

Seasonality may cause fluctuations in our operating results.

Our operating results are seasonal in nature because our transaction volume is affected by traditional retail selling periods that impact sales on our platform. Our historical growth may have reduced or outweighed seasonal effects on our past financial results. However, seasonal effects may become more pronounced over time, which could cause fluctuations in our financial results. For example, sales on our platform have historically peaked in the fall and user activity begins to slow down in December as it may be too late to place orders for holiday delivery. Additionally, we have historically experienced some slowdown in merchant activity in late January or early February due to our China-based merchants celebrating the Chinese New Year holiday.

Catastrophic events may disrupt our business.

Natural disasters or other catastrophic events, which may become more frequent, may cause damage or disruption to our operations, international commerce, and the global economy, and thus could harm our business. In the event of a major earthquake, hurricane or catastrophic event such as fire, power loss, telecommunications failure, cyberattack, war, or terrorist attack, pandemic or epidemic, we may be unable to continue our operations and may endure reputational harm, delays in developing our platform and solutions breaches of data security and loss of critical data, all of which could harm our business, results of operations, and financial condition.

Additionally, we rely on our network and third-party infrastructure and applications, internal technology systems, and our websites for our development, marketing, operational support, hosted services, and marketing activities. If these systems were to fail or be negatively impacted as a result of a natural disaster or other event, our ability to deliver a positive user and merchant experience would be impaired.

As we grow our business, the need for business continuity planning and disaster recovery plans will grow in significance. If we are unable to develop adequate plans to ensure that our business functions continue to operate during and after a disaster, and successfully execute on those plans in the event of a disaster or emergency, our business and reputation would be harmed.

We may be subject to tax-related controversies.

We may also be subject to tax controversies in the U.S. and in foreign jurisdictions that can result in tax assessments against us. Developments in an audit, investigation, or other tax controversy can have a material effect on our operating results or cash flows. We regularly assess the likelihood of an adverse outcome resulting from these proceedings to determine the adequacy of our tax accruals and while we believe our tax estimates are reasonable, the final outcome of audits, investigations, and any other tax controversies could be materially different from our historical tax accruals.

Operating as a public company requires us to incur substantial costs and requires substantial management attention. In addition, our management team has limited experience managing a public company and the requirements of being a public company may strain our resources, divert management's attention and affect our ability to attract and retain additional executive management and qualified board members.

As a public company, we incur substantial legal, accounting, and other expenses that we did not incur as a private company. For example, we are subject to the reporting requirements of the Securities Exchange Act of 1934 as amended (the "Exchange Act"), the applicable requirements of the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"), the Dodd-Frank Wall Street Reform and Consumer Protection Act and the rules and regulations of the SEC. The rules and regulations of Nasdaq also apply to us. As part of the new requirements, we need to establish and maintain effective disclosure and financial controls and we have made changes to our corporate governance practices. We expect that compliance with these requirements will increase our legal and financial compliance costs and will make some activities more time-consuming or costly and increase demand on our systems and resources.

Many members of our management and other key personnel have little experience managing a public company and preparing public filings. In addition, as a public company, our management and other key personnel must divert attention from other business matters to devote substantial time to the reporting and other requirements of being a public company. In particular, we incur significant expense and devote substantial management effort to complying with the requirements of Section 404 of the Sarbanes-Oxley Act. We will need to continue to hire additional accounting and financial staff with appropriate public company experience and technical accounting knowledge.

As a result of disclosure of information in this report and in filings required of a public company, our business and financial condition will become more visible, which may result in threatened or actual litigation, including by stockholders and competitors. If such claims are successful, our business and operating results could be adversely affected, and even if the claims do not result in litigation or are resolved in our favor, these claims, and the time and resources necessary to resolve them, could divert the resources of our management and adversely affect our business and operating results.

In addition, as a result of our disclosure obligations as a public company, we have reduced flexibility and are under pressure to focus on short-term results, which may adversely affect our ability to achieve long-term profitability.

If our estimates or judgments relating to our critical accounting policies prove to be incorrect or financial reporting standards or interpretations change, our operating results could be adversely affected.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates, judgments, and assumptions that affect the amounts reported in our consolidated financial statements and accompanying notes. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, as provided in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations." The results of these estimates form the basis for making judgments about the carrying values of assets, liabilities, and equity as of the date of the financial statements, and the amount of revenue and expenses, during the periods presented, that are not readily apparent from other sources. Significant assumptions and estimates used in preparing our consolidated financial statements include those related to the fair value of financial instruments, useful lives of long-lived assets, fair value of common stock prior to IPO, fair value of derivative instruments, fair value of redeemable convertible preferred stock and related redeemable convertible preferred stock warrant and equity awards and other equity issuances prior to IPO, incremental borrowing rate applied to lease accounting, contingent liabilities, allowances for refunds and chargebacks and uncertain tax positions. Our operating results may be adversely affected if our assumptions change or if actual circumstances differ from those in our assumptions, which could cause our operating results to fall below the expectations of industry or financial analysts and investors, resulting in a decline in the trading price of our Class A common stock.

Increased scrutiny and changing expectations from investors, customers, employees and others regarding our environmental, social and governance practices and reporting could cause us to incur additional costs, devote additional resources and expose us to additional risks, which could adversely impact our reputation, customer acquisition and retention, access to capital and employee retention.

Across all industries, companies are facing increased scrutiny related to their environmental, social and governance ("ESG") practices and reporting. Certain investors, customers, employees and other stakeholders have focused increasingly on ESG practices and have begun placing increasing importance on the implications and social cost of their investments, purchases and other interactions with companies. With this increased focus and demand, public reporting regarding ESG practices is becoming more broadly expected. If our ESG practices and reporting do not meet investor, customer or employee expectations, which continue to rapidly evolve, our brand, reputation and customer retention may be negatively impacted.

Our ability to achieve any ESG objective is subject to numerous risks, many of which are outside of our control. Examples of such risks include:

- the availability and cost of low- or non-carbon based energy sources;
- the evolving regulatory requirements affecting ESG standards or disclosures;
- the availability of suppliers that can meet our sustainability, diversity and other ESG standards;
- the ability of merchants using our platform to meet our sustainability, diversity, and other ESG standards;
- our ability to enforce and monitor our merchants' compliance with our sustainability, diversity, and other ESG standards; and
- our ability to recruit, develop and retain diverse talent in our labor markets.

If we fail, or are perceived to be failing, to meet the standards included in any sustainability disclosure or the expectations of our various stakeholders, it could negatively impact our reputation, customer acquisition and retention, access to capital and employee retention. In addition, new sustainability rules and regulations have been adopted and may continue to be introduced by the SEC as well as in various states and other jurisdictions, and our failure to comply with any applicable rules or regulations, including new SEC disclosure requirements, could lead to penalties and adversely impact our reputation, customer acquisition and retention, access to capital and employee retention.

If analysts do not publish research about our business or if they publish inaccurate or unfavorable research, our stock price and trading volume could decline.

The trading market for our Class A common stock will depend in part on the research and reports that analysts publish about our business. We do not have any control over these analysts. If one or more of the analysts who cover us downgrade our Class A common stock or publish inaccurate or unfavorable research about our business, the price of our Class A common stock would likely decline. If few analysts cover us, demand for our Class A common stock could decrease and our Class A common stock price and trading volume may decline. Similar results may occur if one or more of these analysts stop covering us in the future or fail to publish reports on us regularly.

We are a smaller reporting company, and any decision on our part to comply only with reduced reporting and disclosure requirements applicable to such companies could make our ordinary shares less attractive to investors.

As of June 30, 2023, we qualified as a “smaller reporting company,” as defined in the Exchange Act. For as long as we continue to be a smaller reporting company, we may choose to take advantage of exemptions from various reporting requirements applicable to other public companies that are not smaller reporting companies, including, but not limited to, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and only being required to provide two years of audited financial statements in annual reports.

We will remain a smaller reporting company so long as, as of June 30 of the preceding year, (i) the market value of our shares of common stock held by non-affiliates, or our public float, is less than \$250 million; or (ii) we have annual revenues less than \$100 million and either we have no public float or our public float is less than \$700 million.

To the extent we take advantage of some or all of the reduced disclosure requirements available to smaller reporting companies, investors may find our ordinary shares less attractive, which may result in a less active trading market for our common stock and greater stock price volatility.

Item 1B. Unresolved Staff Comments.

Not applicable.

Item 1C. Cybersecurity.

As a data-driven company, we may be a potential target for cyberattacks and may be exposed to a number of cybersecurity risks in the normal course of operations. Our success as a business may depend upon our ability to address these risks, and to keep our platform and internal systems secure for the benefit of our merchants, users, business partners, employees, and other stakeholders.

In order to protect our customers' data - and any other data we manage or handle - we have adopted a number of safeguards and security measures. For example, we have implemented firewalls, endpoint protection, detection and response solutions, intrusion detection systems, access controls including multi-factor authentication, vulnerability scanning, software static analysis, dynamic analysis, third- party independent penetration testing, independent third- party control audits, a public bug bounty program. In addition, we have developed and maintained a robust Incident Response Plan ("IRP"), which is designed to equip our employees and managers with the necessary tools to detect, respond to, and ultimately prevent cybersecurity incidents affecting the platform.

Our IRP contains detailed processes and procedures to assist employees in managing cybersecurity incidents when they happen, including techniques for detecting/identifying suspicious activity in our data environment, response and escalation protocols to defend against intrusions and contain any potential data leakage, data preservation measures to ensure data integrity going forward, and remediation steps to diagnose root causes and secure gaps to prevent future attacks.

Our cybersecurity risk management program and our IRP is led by our Director of Security, who is supported by a multi-tier incident response team comprised of security, technical, and legal experts across our business who are responsible for coordinating and managing data security efforts, including incident response. This cross-functional team of specialists operates under the supervision of our executive management team with oversight from the Audit Committee of our Board of Directors and holds briefings to ensure the executive group is attuned to matters of data security impacting us. Our Director of Security has 14 years of experience working in the IT, infrastructure, and security domains. Before that, he worked for 6 years at Microsoft and 4 years at Garmin in similar roles.

Finally, the IRP is also supported by a full curriculum of training for engineering and non-engineering employees that is drafted and administered under the supervision of our Director of Security. Importantly, these training sessions include several modules and quizzes for both technical and non-technical employees to assist our employees in comprehensively understanding the importance of data security to our stakeholders and our business and the various ways they can promote a security environment throughout our Company.

Risk Management and Strategy

Assessing and Responding to Cyber Threats and Cyber Incidents

Our IRP sets forth the company's process for assessing cyber threats. The IRP serves as the incident response plan for Higher-Risk Security Incidents affecting Wish Information Systems and Wish Data, and it applies to all Wish personnel, including employees, contractors, consultants, and any other individuals acting for or on behalf of the Company of its subsidiaries or affiliated entities anywhere in the world. Lower-Risk Security Incidents are managed by the IT/Engineering Teams under their internal processes. The IRP assesses and responds to cyber threats by the following, to the extent applicable, (1) review from the initial assessment team, (2) escalation to a core incident response team, (3) involvement of the extended incident response team, (4) initial containment and preservation, (5) investigation, (6) breach notification, (7) remediation and resumption, and (8) post-mortem assessment.

Evaluation

As part of our IRP, we conduct regular testing to ensure that the IRP is functional and effective. Tests may include tabletop exercises, full simulations, verbal walkthroughs with relevant stakeholders, or responses to actual Security Incidents.

We also engage third-party services to conduct evaluations of our security controls, including the IRP, whether through penetration testing, independent cybersecurity audits or consulting on best practices to address new challenges and risks. These evaluations include testing both the design and operational effectiveness of security controls.

Proactively Managing Privacy Risks

We also take several measures to proactively manage privacy risks. As part of our commercial contract review process, we require every third-party vendor (“vendor”) engaged by the company to go through a separate privacy review. The privacy review includes, evaluating the personal data processed by the company and/or vendor, assessing the potential risks to such personal and applicable data subjects and identifying the specific measures that must be implemented to mitigate against such risks. One of these measures is to require vendors to agree to our standard Data Security and Privacy Addendum (“DPSA”), which was prepared with the assistance of outside consultants or revising the vendor’s proposed Data Protection Agreement (“DPA”) to provide the same protections as our DPSA. Wish’s DPSA contains privacy preserving language and security controls to protect the Company in the event of a Security Incident.

Additionally, we’ve also appointed a Data Protection Officer (“DPO”) who advises and monitors data protection functions at the Company. Our DPO has 15 years of experience working in cybersecurity, IT, governance, risk management, regulatory compliance, and data protection and privacy program design and implementation. Our DPO previously served as the DPO for several large companies, including ecommerce, life sciences, ESG, and legal services businesses. Our DPO is also a Certified Information Systems Security Professional.

Board and Management Oversight

The Company’s management is involved in assessing Security Incidents to the extent discussed in the IRP above. The Board and Audit Committee are notified and updated on any Security Incidents on a regular basis. The Board actively oversees our enterprise risk management, including cybersecurity risks. Our cybersecurity policies and procedures are integrated into our overall risk assessment program. Additionally, the Audit Committee is responsible for overseeing our cybersecurity risk management and strategy and regularly meets with the CTO about the Company’s ongoing compliance and risk management and reports to the Board regularly.

Cybersecurity Threat Disclosure

To date, we are not aware of any cybersecurity threats that have materially affected or are reasonably likely to materially affect us.

For further discussion of risks related to data protection, cybersecurity, and intellectual property, please see Item 1A, “Risk Factors”.

Item 2. Properties.

Our corporate headquarters consists of approximately 69,000 square feet in San Francisco, California under leases that expire in 2025, with approximately 34,000 square feet being subleased to other organizations. We also lease offices in Canada and China.

As part of the restructuring plan approved in February 2022, we are continuing to evaluate options to decrease our real estate footprint, which include subleasing and/or terminating additional offices leases located in San Francisco. See the section titled Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Reductions in Workforce” and Item 8, “Financial Statements and Supplementary Data, Note 12. Reductions in Workforce” for further discussion of our reductions in workforce.

Item 3. Legal Proceedings.

The information set forth under the heading “Legal Contingencies and Proceedings” within Item 8, “Financial Statements and Supplementary Data, Note 7. Commitments and Contingencies”, in Part II of this Report, is incorporated herein by reference.

Item 4. Mine Safety Disclosures.

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Market Price of Our Class A Common Stock

Our Class A common stock has been listed on the Nasdaq Global Select Market under the symbol "WISH".

Holders of Record

As of December 31, 2023, we had 43 holders of record of our Class A common stock. Because many of our shares of Class A common stock are held in street name by brokers and other nominees on behalf of stockholders, we are unable to estimate the total number of beneficial owners of our Class A common stock represented by these holders of record.

Dividend Policy

We have never declared or paid any cash dividends on our capital stock. We currently intend to retain any future earnings and do not expect to pay any dividends in the foreseeable future. Any future determination to declare cash dividends will be made at the discretion of our Board of Directors, subject to applicable laws, and will depend on a number of factors, including our financial condition, results of operations, capital requirements, contractual restrictions, general business conditions, and other factors that our board of directors may deem relevant.

Unregistered Sales of Equity Securities

None.

Issuer Purchases of Equity Securities

None.

Securities Authorized for Issuance Under Equity Compensation Plans

The information required by this item is incorporated herein by reference to our definitive proxy statement for our 2024 annual meeting of stockholders, which will be filed not later than 120 days after the end of our fiscal year ended December 31, 2023.

Item 6. [Reserved]

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward-Looking Statements

This Annual Report on Form 10-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements that involve expectations, plans or intentions (such as those relating to future business, future results of operations or financial condition, new or planned features or services, management strategies or timing and other expectations regarding our business). You can identify these forward-looking statements by words such as "may," "will," "would," "should," "could," "expect," "anticipate," "believe," "estimate," "intend," "plan" and other similar expressions. These forward-looking statements involve risks and uncertainties that could cause our actual results to differ materially from those expressed or implied in our forward-looking statements. Such risks and uncertainties include, among others, those discussed in "Item 1A: Risk Factors" of this Annual Report on Form 10-K, as well as in our consolidated financial statements, related notes, and the other information appearing elsewhere in this report and our other filings with the Securities and Exchange Commission. We do not intend, and undertake no obligation, to update any of our forward-looking statements after the date of this report to reflect actual results or future events or circumstances. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. You should read the following Management's Discussion and Analysis of Financial Condition and Results of Operations in conjunction with the special note regarding forward-looking statements, consolidated financial statements and the related notes included in this report. A discussion regarding our financial condition and results of operations for the year ended December 31, 2022 compared to the year ended December 31, 2021 is included under "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2022.

Financial Results for the Year Ended December 31, 2023

- Total revenue was \$287 million.
- Total costs of revenue and operating expenses were \$615 million, including stock-based compensation expense of \$64 million.
- Loss from operations was \$328 million.
- Net loss was \$317 million.
- Cash and cash equivalents and marketable securities were \$382 million.

As of December 31, 2023, we had an accumulated deficit of \$3.2 billion. We expect losses from operations to continue for the foreseeable future as we incur costs and expenses related to brand development, expansion of market share, and continued development of our mobile shopping marketplace infrastructure.

Global Considerations

We are monitoring the recent volatility in the global financial markets, including inflation and rising interest rates. These developments could continue to negatively impact global economic activity and consumer behavior, which may adversely affect our business and our results of operations. As our customers react to these global economic conditions, we may take additional precautionary measures to limit or delay expenditures and preserve capital and liquidity.

Reductions in Workforce

In February 2022, our Board of Directors approved the February 2022 Restructuring Plan ("2022 Restructuring Plan") to refocus our operations to support sustainable long-term growth, better align resources, and improve operational efficiencies. The 2022 Restructuring Plan included i) the reduction of our headcount by approximately 15% (or approximately 190 positions), ii) the exit from various office leases, and iii) the reduction and realignment of vendor expenditures. In connection with the 2022 Restructuring Plan, we incurred charges of approximately \$3 million in severance and other personnel reduction costs for terminated employees and \$11 million in impairments of leased assets and property and equipment. All related severance payments were paid as of December 31, 2022.

In January 2023 and August 2023, we conducted workforce reductions of approximately 400 employees, representing approximately one half of our then global workforce ("2023 RIFs"). In connection with the 2023 RIFs, we incurred charges of approximately \$13 million in severance and other personnel reductions costs for terminated employees. The 2023 RIFs were intended to refocus our operations to support our ongoing business prioritization efforts, better align resources, and improve operational efficiencies. Substantially all related severance payments were paid as of December 31, 2023.

Asset Purchase Agreement with Qoo10

On February 10, 2024, we entered into the Asset Purchase Agreement with Qoo10 pursuant to which we have agreed to sell substantially all of our assets to Qoo10, other than (i) our NOLs and certain other tax attributes, (ii) our marketable securities held in a specified wealth management account and (iii) our cash and cash equivalents held in that wealth management account. As consideration for the Asset Sale, Qoo10 has agreed to pay to Wish the Cash Consideration and assume substantially all of our liabilities as specified in the Asset Purchase Agreement. If the Asset Sale closes, Wish will exit the operation of its e-commerce business and other historical operations. However, Wish does not intend to liquidate following the closing of the Asset Sale. Our Board of Directors will evaluate alternatives for the use of the Post-Closing Cash). Those alternatives are currently expected to include using the Post-Closing Cash to fund, at least in part, the acquisition of assets that will potentially allow the Company to utilize the NOLs and certain other tax attributes, which will be retained by Wish. Wish expects to complete the transaction in the second quarter of 2024, subject to the approval of its stockholders and other customary closing conditions.

See Part I, Item 1. “Business—Asset Purchase Agreement with Qoo10” for further discussion of the Asset Purchase Agreement.

Our Financial Model

Our business benefits from powerful network effects, fueled by our data advantage and scale. As more users join Wish, attracted by our affordable value proposition and personalized shopping experiences, we are able to increase revenue potential for our merchants. The successes of our merchants attract more merchants and broaden the product listings on Wish’s platform, which further improves user experiences. The growth in users and merchants generates more data, which, in turn, refines our algorithm and strengthens our data advantage. By focusing on users and merchants, we align their success with our own.

The economics of the Wish platform rely on cost-effectively adding new users, converting those users into buyers, and improving engagement and monetization of those buyers over time as well as acquiring new merchants and monetizing the end-to-end services that we provide to them.

Key Financial and Performance Metrics

In addition to the measures presented in our consolidated financial statements, we monitor the following key metrics and other financial information to measure our performance, identify trends affecting our business, and make strategic decisions.

	Year Ended December 31,	
	2023	2022
	(\$ in millions)	
MAU	11	24
LTM Active Buyers	7	13
Adjusted EBITDA	\$ (236)	\$ (288)
Adjusted EBITDA Margin	(82)%	(50)%
Free Cash Flow	\$ (344)	\$ (424)

Monthly Active Users

We define MAUs as the number of unique users that visited the Wish platform, either on our mobile app, mobile web, or on a desktop, during the month. MAUs for a given reporting period equal the average of the MAUs for that period. An active user is identified by a unique email-address; a single person can have multiple user accounts via multiple email addresses. The change in MAUs in a reported period captures both the inflow of new users as well as the outflow of existing users who did not visit the platform in a given month. We view the number of MAUs as a key driver of revenue growth as well as a key indicator of user engagement and brand awareness.

MAUs decreased approximately 54% from the year ended December 31, 2023 compared to the year ended December 31, 2022. We believe this decline was primarily driven by our decision to significantly reduce our digital advertising expenditures.

LTM Active Buyers

As of the last date of each reported period, we determine our number of unique last-twelve-months active buyers ("LTM active buyers") by counting the total number of individual users who have placed at least one order on the Wish platform, either on our mobile app, mobile web, or on a desktop, during the preceding 12 months. We, however, exclude from the computation those buyers whose order is canceled before the item is shipped and the purchase price is refunded. The number of LTM active buyers is an indicator of our ability to attract and monetize a large user base to our platform and of our ability to convert visits into purchases. We believe that increasing our LTM active buyers will be a significant driver to our future revenue growth.

LTM active buyers decreased approximately 46% from the year ended December 31, 2023 compared to the year ended December 31, 2022. We believe this decline was primarily driven by reduced digital advertising expenditures resulting in lower MAUs and conversion.

Non-GAAP Financial Measures

Adjusted EBITDA and Adjusted EBITDA Margin

We provide Adjusted EBITDA, a non-GAAP financial measure that represents our loss before interest and other income, net (which includes foreign exchange gain or loss and other non-operating income and expenses), income tax expense, and depreciation and amortization, adjusted to eliminate stock-based compensation expense, lease termination and impairment related expenses, restructuring, strategic evaluation expenses and other discrete one-time charges, and to add back certain recurring other items. Additionally, we provide Adjusted EBITDA Margin, a non-GAAP financial measure that represents Adjusted EBITDA divided by revenue. Below is a reconciliation of Adjusted EBITDA to net loss, the most directly comparable GAAP financial measure.

We have included Adjusted EBITDA and Adjusted EBITDA Margin in this report because they are key measures used by our management and the Board to understand and evaluate our operating performance and trends and how we are allocating internal resources, to prepare and approve our annual budget and to develop short- and long-term operating plans. We also believe that the exclusion of certain items in calculating Adjusted EBITDA can provide a useful measure for period-to-period comparisons of our business as it removes the impact of non-cash items and certain variable charges.

Adjusted EBITDA has limitations as an analytical measure, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and Adjusted EBITDA does not reflect cash capital expenditure requirements for such replacements or for new capital expenditure requirements;
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Adjusted EBITDA does not consider the impact of stock-based compensation and related charges;
- Adjusted EBITDA does not reflect tax payments that may represent a reduction in cash available to us; and
- other companies, including companies in our industry, may calculate Adjusted EBITDA differently, which reduces its usefulness as a comparative measure.

Because of these limitations, you should consider Adjusted EBITDA and Adjusted EBITDA Margin alongside other financial performance measures, including various cash flow metrics, net loss and our other GAAP results.

The following table reflects the reconciliation of net loss to Adjusted EBITDA and net loss as a percentage of revenue to Adjusted EBITDA margin for each of the periods indicated:

	Year Ended December 31,	
	2023	2022
	(\$ in millions)	
Revenue	\$ 287	\$ 571
Net loss	(317)	(384)
Net loss as a percentage of revenue	(110)%	(67)%
Excluding:		
Interest and other income, net	(16)	(15)
Provision for income taxes	5	1
Depreciation and amortization	4	6
Stock-based compensation expense and related employer payroll taxes ⁽¹⁾⁽²⁾	68	74
Restructuring and other discrete items ⁽³⁾	13	29
Impairment of lease assets and property and equipment ⁽⁴⁾	4	—
Strategic alternatives expenses ⁽⁵⁾	3	—
Others	—	1
Adjusted EBITDA	\$ (236)	\$ (288)
Adjusted EBITDA margin	(82)%	(50)%

- (1) Total amount for the year ended December 31, 2023 consisted of \$64 million of stock-based compensation expense and \$4 million of related employer payroll taxes. Total amount for the year ended December 31, 2022 consisted of \$72 million of stock-based compensation expense and \$2 million of related employer payroll taxes.
- (2) Total stock-based compensation related employer payroll taxes for the year ended December 31, 2023 increased by \$2 million compared to the year ended December 31, 2022 primarily due to a catchup payroll tax adjustment related to employees that resided in Nevada during 2021.
- (3) Total amount for the year ended December 31, 2023 consisted of \$13 million of employee severance and other personnel reduction costs. Total amount for the year ended December 31, 2022 included a \$15 million one-time discretionary cash bonus paid to select employees to cover their respective tax obligations triggered by the settlement of their RSUs that vested upon the Company's initial public offering ("IPO") as well as restructuring charges consisting of \$3 million of severance and other personnel reduction costs and \$11 million in impairment of lease assets and property and equipment.
- (4) Impairment of lease assets and property and equipment unrelated to restructuring activities.
- (5) Our Board has initiated a process to explore a range of strategic alternatives to maximize value for our stockholders as disclosed in our 8-K filed with the SEC on November 7, 2023. These are the third-party expenses incurred in the relevant period related to the evaluation of strategic alternatives.

The following table summarizes our cash flows for the periods presented:

	Year Ended December 31,	
	2023	2022
	(in millions)	
Cash (used in) provided by:		
Operating activities	\$ (341)	\$ (422)
Investing activities	74	(47)
Financing activities	(5)	(22)

Free Cash Flow

We also provide Free Cash Flow, a non-GAAP financial measure that represents net cash used in operating activities less purchases of property and equipment and development of internal-use software. We believe that Free Cash Flow is an important measure since we use third parties to host our services and therefore, we do not incur significant capital expenditures to support revenue generating activities.

Free Cash Flow has limitations as an analytical measure, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

- it is not a substitute for net cash used in operating activities;
- other companies may calculate Free Cash Flow or similarly titled non-U.S. GAAP measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of free cash flow as a tool for comparison; and
- the utility of free cash flow is further limited as it does not reflect our future contractual commitments and does not represent the total increase or decrease in our cash balance for any given period.

Because of these limitations, you should consider Free Cash Flow alongside other financial performance measures, such as net cash used in operating activities, net loss and our other GAAP results.

The following table reflects the reconciliation of net cash used in operating activities to Free Cash Flow for each of the periods indicated:

	Year Ended December 31,	
	2023	2022
	(in millions)	
Cash used in operating activities	\$ (341)	\$ (422)
Less:		
Purchases of property and equipment and development of internal-use software	3	2
Free Cash Flow	<u>\$ (344)</u>	<u>\$ (424)</u>

See the “Liquidity and Capital Resources” section below for further discussion on our cash position and future liquidity for the year ended December 31, 2023.

Components of Results of Operations

Revenue

Our revenue consists of marketplace and logistics revenue.

Marketplace revenue

We provide a mix of marketplace services to our customers. We provide merchants access to our marketplace where merchants display and sell their products to users. We also provide ProductBoost services to help merchants promote their products within our marketplace.

Marketplace revenue includes commission fees collected in connection with user purchases of the merchants' products. The commission fees vary depending on factors such as geography, product category, Wish Standards' tier, item value and dynamic pricing. We recognize revenue when a user's order is processed and the related order information has been made available to the merchant. Commission fees are recognized net of estimated refunds and chargebacks. Marketplace revenue also includes ProductBoost revenue generated by increasing exposure for a merchant's relevant products within our marketplace. We recognize ProductBoost revenue based on the number of impressions delivered, or clicks by users. *Logistics revenue*

Our logistics offering for merchants is designed for direct end-to-end single order shipment from a merchant's location to the user. Logistics services include transportation and delivery of the merchant's products to the user. Merchants are required to prepay for logistics services on a per order basis.

We recognize revenue over time as the merchant simultaneously receives and consumes the logistics services benefit as the logistics services are performed. We use an output method of progress based on days in transit as it best depicts the Company's progress toward complete satisfaction of the performance obligation.

Cost of Revenue and Operating Expenses

Cost of revenue

Cost of revenue includes colocation and data center charges, interchange and other fees for credit card processing services, fraud and chargeback prevention service charges, costs of refunds and chargebacks made to our users that we are not able to collect from our merchants, depreciation and amortization of property and equipment, shipping charges, tracking and logistics costs, warehouse fees, and employee-related costs, including salaries, benefits, and stock-based compensation expense for our infrastructure, merchant support, and logistics personnel. Cost of revenue also includes an allocation of general information technology ("IT") and facilities overhead expenses.

Sales and marketing

Our sales and marketing expenses are primarily driven by the cost of acquiring and engaging users by targeting social media and search engine digital advertisements, outsourced user support services, sponsorships and local marketing campaigns. Other drivers consist of employee-related costs, including salaries, benefits, and stock-based compensation, for our employees involved in marketing, user support, and business development functions. Sales and marketing spend also includes an allocation of general IT and facilities overhead expenses as well as business development expenses for attracting merchants and conducting ongoing merchant education.

Product development

Our product development expenses consist primarily of employee-related costs, including salaries, benefits, and stock-based compensation for our engineers and other employees involved in product development activities. Product development costs have historically been expensed as incurred. Product development costs also include the cost of IT and outside services used by the product development team as well as an allocation of general IT and facilities overhead expenses.

General and administrative

Our general and administrative expenses consist primarily of employee-related costs, including salaries, benefits, and stock-based compensation for our executives, finance, legal, information technology, human resources, and other administrative teams. General and administrative expenses also include outside consulting, legal, tax, and accounting services, and facilities and other supporting overhead costs.

Interest and Other Income, net

Interest and other income, net consists primarily of interest income earned on our cash, cash equivalents and marketable securities, interest expense, foreign exchange gain or loss and gain or loss from our foreign currency forward contracts.

Income Tax

Income taxes consist primarily of income taxes in certain foreign jurisdictions in which we conduct business.

Results of Operations

The following tables show our results of operations for the periods presented and express the relationship of certain line items as a percentage of revenue for those periods. The period-to-period comparison of financial results is not necessarily indicative of future results.

	Year Ended December 31,	
	2023	2022
	(in millions)	
Revenue	\$ 287	\$ 571
Cost of revenue ⁽¹⁾	228	405
Gross profit	59	166
Operating expenses:		
Sales and marketing ⁽¹⁾	143	254
Product development ⁽¹⁾	152	194
General and administrative ⁽¹⁾	92	116
Total operating expenses	387	564
Loss from operations	(328)	(398)
Other income, net		
Interest and other income, net	16	15
Loss before provision for income taxes	(312)	(383)
Provision for income taxes	5	1
Net loss	<u>\$ (317)</u>	<u>\$ (384)</u>

(1) Includes stock-based compensation expense as follows:

	Year Ended December 31,	
	2023	2022
	(in millions)	
Cost of revenue	\$ 3	\$ 7
Sales and marketing	4	6
Product development	36	50
General and administrative	21	9
Total stock-based compensation	<u>\$ 64</u>	<u>\$ 72</u>

The following table presents the components of our consolidated statements of operations as a percentage of revenue:

	Year Ended December 31,	
	2023	2022
Revenue	100%	100%
Cost of revenue	79%	71%
Gross profit	21%	29%
Operating expenses:		
Sales and marketing	50%	45%
Product development	53%	34%
General and administrative	32%	20%
Total operating expenses	135%	99%
Loss from operations	(114)%	(70)%
Other income, net:		
Interest and other income, net	6%	3%
Loss before provision for income taxes	(108)%	(67)%
Provision for income taxes	2%	—
Net loss	<u>(110)%</u>	<u>(67)%</u>

Comparison of the Years Ended December 31, 2023 and 2022

Revenue

	Year Ended December 31,		Change	
	2023	2022	\$	%
	(\$ in millions)			
Core marketplace revenue ⁽¹⁾	\$ 86	\$ 220	\$ (134)	(61)%
ProductBoost revenue	24	46	(22)	(48)%
Marketplace revenue	110	266	(156)	(59)%
Logistics revenue	177	305	(128)	(42)%
Revenue	<u>\$ 287</u>	<u>\$ 571</u>	<u>\$ (284)</u>	<u>(50)%</u>

(1) Wish Cash liability breakage recognized within core marketplace revenue was \$3 million and \$4 million for the years ended December 31, 2023 and 2022, respectively. Refer to Note 4 to our consolidated financial statements in Item 8 "Financial Statements and Supplementary Data" for additional details. In addition, core marketplace revenue included approximately a \$3 million net loss and \$6 million net loss for the years ended December 31, 2023 and 2022, respectively, from our cash flow hedging program.

Revenue decreased \$284 million, or 50%, to \$287 million for the year ended December 31, 2023 as compared to \$571 million for the year ended December 31, 2022. This decrease was attributable to decreased marketplace and logistics revenue, as noted below.

Marketplace revenue decreased \$156 million, or 59% to \$110 million for the year ended December 31, 2023, as compared to \$266 million for the year ended December 31, 2022. This decrease was primarily driven by lower order volumes associated with reduced MAUs and LTM Active Buyers, as well as revisions to our pricing strategy, which resulted in lower marketplace revenue.

Logistics revenue decreased \$128 million or 42% to \$177 million for the year ended December 31, 2023, as compared to \$305 million for the year ended December 31, 2022. Like marketplace revenue, the decrease was primarily driven by lower order volumes during the year ended December 31, 2023 as compared to the year ended December 31, 2022.

Cost of Revenue and Gross Margin

	Year Ended December 31,		Change	
	2023	2022	\$	%
	(\$ in millions)			
Cost of revenue	\$ 228	\$ 405	\$ (177)	(44)%
Percentage of revenue	79%	71%		
Gross Margin	21%	29%		

Cost of revenue decreased \$177 million, or 44%, to \$228 million for the year ended December 31, 2023, as compared to \$405 million for the year ended December 31, 2022. This decrease was primarily due to lower marketplace and logistics related costs as a result of lower order volumes.

The gross margin decreased to 21% for the year ended December 31, 2023 from 29% for the year ended December 31, 2022, primarily driven by a greater percentage of lower margin logistics services making up overall revenue during the year ended December 31, 2023 as compared to the year ended December 31, 2022, and revisions to our pricing strategy.

Sales and Marketing

	Year Ended December 31,		Change	
	2023	2022	\$	%
	(\$ in millions)			
Sales and marketing	\$ 143	\$ 254	\$ (111)	(44)%
Percentage of revenue	50%	45%		

Sales and marketing expenses decreased \$111 million, or 44%, to \$143 million for the year ended December 31, 2023, compared to \$254 million for the year ended December 31, 2022. The decrease was primarily due to a \$92 million reduction in advertising expenditures, a \$11 million reduction of employee-related costs due to lower headcount, and a \$7 million reduction in customer support service and other costs as a result of lower order volumes.

Product Development

	Year Ended December 31,		Change	
	2023	2022	\$	%
	(\$ in millions)			
Product development	\$ 152	\$ 194	\$ (42)	(22)%
Percentage of revenue	53%	34%		

Product development expense decreased \$42 million, or 22%, to \$152 million for the year ended December 31, 2023, as compared to \$194 million for the year ended December 31, 2022. The decrease was primarily due to a \$34 million reduction of employee-related costs, including stock-based compensation, due to lower headcount, a \$9 million one-time discretionary bonus paid to select product development employees during the first quarter of 2022 to help cover their tax obligations triggered by the settlement of their RSUs that vested upon the Company's IPO, and \$3 million decrease in other product related expenditures. These decreases were partially offset by an increase of \$4 million in impairment of lease assets and property and equipment.

General and Administrative

	Year Ended December 31,		Change	
	2023	2022	\$	%
	(\$ in millions)			
General and administrative	\$ 92	\$ 116	\$ (24)	(21)%
Percentage of revenue	32%	20%		

General and administrative expenses decreased \$24 million, or 21%, to \$92 million for the year ended December 31, 2023, as compared to \$116 million for the year ended December 31, 2022. The decrease was primarily due to a \$10 million reduction of employee-related cost, due to lower headcount, \$11 million decrease in impairment of lease assets and property and equipment, and \$15 million decrease in insurance and legal expenses. The decrease was partially offset by a \$12 million increase in stock-based compensation expense mostly driven by one-time reversals in 2022 of \$21 million of stock-based compensation expense in connection with the resignation of Mr. Szulczewski from his former position as CEO, offset in part by the \$6 million accelerated vesting of stock-based compensation expense recognized in 2022 in connection with the termination of Mr. Talwar from his position of CEO, and an overall decrease in other stock-based compensation in 2023 due to lower headcount.

Interest and Other Income, net

	Year Ended December 31,		Change	
	2023	2022	\$	%
	(\$ in millions)			
Interest and other income, net	\$ 16	\$ 15	\$ 1	7%
Percentage of revenue	6%	3%		

Interest and other income, net increased \$1 million, or 7%, to \$16 million for the year ended December 31, 2023, as compared to \$15 million for the year ended December 31, 2022. The increase was attributable to less foreign exchange losses offset by an increase in interest income due to higher interest rates.

Provision for Income Taxes

	Year Ended December 31,		Change	
	2023	2022	\$	%
	(\$ in millions)			
Provision for income taxes	\$ 5	\$ 1	\$ 4	400%
Percentage of revenue	2%	0%		

Provision for income taxes increased \$4 million, or 400%, to \$5 million for the year ended December 31, 2023, as compared to \$1 million for the year ended December 31, 2022. The increase was primarily due to an increase in unrecognized tax benefits for the year ended December 31, 2023.

Liquidity and Capital Resources

As of December 31, 2023, we had cash, cash equivalents and marketable securities of \$382 million, a majority of which were held in cash deposits and money market funds and were held for working capital purposes. We believe that our existing cash, cash equivalents and marketable securities will be sufficient to meet our anticipated cash needs for at least the next 12 months, though we may require additional financing or capital resources in the future.

We incurred net operating cash outflows of \$341 million and \$422 million in the years ending December 31, 2023 and 2022, respectively. Our material cash requirements include \$104 million in accounts and merchants payable, \$45 million remaining on a colocation and cloud services purchase commitment, and \$14 million of facility lease obligations, of which \$8 million is due within the next 12 months.

Sources of Liquidity

In December 2020, we completed our IPO of Class A common stock and received net proceeds of approximately \$1.1 billion after deducting underwriting discounts and commissions of approximately \$52 million, but before deducting offering costs, net of reimbursements, of approximately \$6 million. As of December 31, 2023, we did not have any outstanding borrowings. If the Asset Sale is consummated, the net cash proceeds from the Asset Sale we receive will be an additional source of liquidity, although there can be no assurance that the Asset Sale will be consummated on the expected timing or at all.

Share Repurchase Program

On April 20, 2023, we announced that our board of directors authorized us to repurchase up to \$50 million of the Company's common stock, effective through December 31, 2023. Under this Program, we may repurchase our common stock through open market transactions, in privately negotiated transactions, or by other means, including through the use of trading plans, each in accordance with applicable securities laws and other restrictions. The manner, timing, and amount of any purchase will be based on an assessment of business, economic and market conditions, corporate and regulatory requirements, prevailing stock prices, and other considerations. The repurchase program may be suspended, terminated, or modified at any time for any reason.

There were no share repurchases through December 31, 2023 and the repurchase program is no longer active.

November 2020 Credit Facility

In November 2020, we entered into the Revolving Credit Facility which enables us to borrow up to \$280 million. The Revolving Credit Facility contains a minimum liquidity financial covenant of \$350 million, which includes unrestricted cash and any available borrowing capacity under the Revolving Credit Facility. As of December 31, 2023, we had not made any borrowings under the Revolving Credit Facility. Refer to Note 7 to our consolidated financial statements in Item 8 of Part II, "Financial Statements and Supplementary Data" for additional details related to the Revolving Credit Facility. If the Asset Sale closes, we expect to terminate the Revolving Credit Facility at the closing of such transaction.

Cash Flows

	Year Ended December 31,	
	2023	2022
	(in millions)	
Cash (used in) provided by:		
Operating activities	\$ (341)	\$ (422)
Investing activities	74	(47)
Financing activities	(5)	(22)

Net Cash Used in Operating Activities

Our cash flows from operations are largely dependent on the amount of revenue we generate. Net cash provided by operating activities in each period presented has been influenced by changes in funds receivable, prepaid expenses, and other current and noncurrent assets, accounts payable, merchants payable, accrued and refund liabilities, lease liabilities, and other current and noncurrent liabilities.

Net cash used in our operating activities for the year ended December 31, 2023 was \$341 million. This was primarily driven by our net loss of \$317 million and \$90 million of unfavorable changes in our operating assets and liabilities, which was partially offset by non-cash expenses of \$66 million, consisting of \$64 million in stock-based compensation expense and \$2 million of other non-cash expenses. Unfavorable working capital movement was mainly driven by reductions in accounts payable, merchants payable and accrued and refund liabilities. Accounts payable, merchants payable, and accrued and refund liabilities decreased by \$106 million primarily due to lower order volumes and reduced digital advertising expenditures.

Net cash used in our operating activities for the year ended December 31, 2022 was \$422 million. This was primarily driven by our net loss of \$384 million and \$136 million of unfavorable changes in our operating assets and liabilities, which was partially offset by non-cash expenses of \$98 million, consisting of \$72 million in stock-based compensation expense and \$26 million of other non-cash expenses. Unfavorable working capital movement was mainly driven by reductions in accounts payable, merchants payable and accrued and refund liabilities. Accounts payable, merchants payable, and accrued and refund liabilities decreased by \$127 million primarily due to lower order volumes and reduced digital advertising expenditures.

Net Cash Used in Investing Activities

Our primary investing activities have consisted of investing excess cash balances in marketable securities.

Net cash provided by investing activities was \$74 million for the year ended December 31, 2023. This was primarily due to \$390 million of maturities in marketable securities, partially offset by \$313 million in purchases of marketable securities and \$3 million in capital expenditures.

Net cash used in investing activities was \$47 million for the year ended December 31, 2022. This was primarily due to \$368 million in purchases of marketable securities and \$2 million in capital expenditures, partially offset by \$321 million of maturities in marketable securities and \$2 million of other investing activities.

Net Cash (Used in) Provided by Financing Activities

Net cash used in our financing activities was \$5 million for the year ended December 31, 2023. This was primarily due to \$5 million in payments of taxes related to employee RSU settlements and cashless exercises of stock options.

Net cash used in our financing activities was \$22 million for the year ended December 31, 2022. This was primarily due to \$23 million in payments of taxes related to employee RSU settlements and cashless exercises of stock options, offset by \$1 million in proceeds from common stock purchased under the Company's Employee Stock Purchase Plan.

Off Balance Sheet Arrangements

For the years ended December 31, 2023 and 2022, we did not have any relationships with unconsolidated organizations or financial partnerships, such as structured finance or special purpose entities that would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

Critical Accounting Policies and Estimates

Our management's discussion and analysis of our financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with GAAP as set forth in the Financial Accounting Standards Board's Accounting Standards Codification ("ASC"). The preparation of these consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, expenses and related disclosures. We evaluate our estimates and assumptions on an ongoing basis. Our estimates are based on historical experience and various other assumptions that we believe to be reasonable under the circumstances. Our actual results could differ from these estimates.

We believe the accounting policies below involve a significant degree of assumptions and estimates, and thus have the greatest potential impact on our consolidated financial statements. For further information on all of our significant accounting policies, refer to our consolidated financial statements in Item 8 of Part II, "Financial Statements and Supplementary Data, Note 2. Summary of Significant Accounting Policies".

Revenue Recognition

The most critical judgments required in applying ASC 606, *Revenue Recognition from Customers*, and our revenue policy relate to:

- The determination of distinct promises to the customer that should not be combined;
- The recognition of revenue, as a principal or an agent based on the nature of the promise, and at a point in time or over time;
- Estimates related to future refunds and chargebacks;
- The evaluation of whether a promotion or incentive is a payment to a customer or a non-customer; and
- The determination of accounting treatment based on whether the contract is with a customer, vendor or other parties.

Changes in judgments with respect to these assumptions and estimates could impact the timing and amount of revenue recognition.

Deferred Revenue

Deferred revenue consists of amounts received, primarily related to unsatisfied performance obligations of logistics services, at the end of the period. Due to the short-term duration of contracts, all of the performance obligations will be satisfied in the following reporting period.

Wish Cash Liability

We issue Wish Cash to end-users who opt to receive it for their refundable transactions, and as a part of our various referral and incentive programs. We accrue a liability for issued Wish Cash which is reduced when Wish Cash is redeemed by our users. We record breakage revenue within core marketplace revenue, on unredeemed Wish Cash balances based on expected customer redemption. We estimate breakage based on historical and expected trends. Actual redemptions may vary from our estimates.

Operating Lease Obligations

We lease facilities and data center colocations in multiple locations under non-cancelable lease agreements through 2027. For leases with a term greater than one year, lease liabilities are recognized at the lease commencement date based on the present value of the future lease payments over the expected lease term. The discount rate the Company uses to estimate the present value of future lease payments is the Company's incremental borrowing rate because the rate implicit in our leases are not readily available. The right-of-use ("ROU") asset is determined based on the lease liability initially established and adjusted for any prepaid lease payments and any lease incentives received. The expected lease term to calculate the ROU asset and related lease liability includes options to extend or terminate the lease when it is reasonably certain that the Company will exercise the option.

Determining the incremental borrowing rate to calculate the present value of future lease payments involves considerable estimates and assumptions. These estimates and assumptions include, among others, future economic and market conditions, analysis of publicly traded debt of companies with similar credit risk profiles of our own, and likelihood of

the Company exercising lease renewal options (if applicable). Changes in these factors and assumptions used can materially affect the amount of ROU assets and lease liabilities we recognize on our consolidated balance sheets.

Impairment of Long-Lived Assets

We review long-lived assets, including intangible and ROU assets, for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured first by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, an impairment loss would be recognized based on the excess of the carrying amount of the asset above the fair value of the asset.

Calculating the fair value of the asset involves significant estimates and assumptions. These estimates and assumptions include, among others, projected future cash flows, risk-adjusted discount rates, future economic and market conditions, and the determination of appropriate market comparables. Changes in these factors and assumptions used can materially affect the amount of impairment loss recognized in the period the asset was considered impaired.

Loss Contingencies

We are involved in various lawsuits, claims, investigations, and proceedings that arise in the ordinary course of business. Certain of these matters include speculative claims for substantial or indeterminate amounts of damages. We record a liability when we believe that it is both probable that a loss has been incurred and the amount or range can be reasonably estimated. We disclose material contingencies when we believe that a loss is not probable but reasonably possible. Significant judgment is required to determine both probability and the estimated amount. We review these provisions on an ongoing basis and adjust these provisions accordingly to reflect the impact of negotiations, settlements, rulings, advice of legal counsel, and updated information.

The outcome of legal matters and litigation is inherently uncertain. Therefore, if one or more of these legal matters were resolved against us for amounts in excess of management's expectations, our results of operations, and financial condition, including in a particular reporting period, could be materially adversely affected.

Stock-Based Compensation

We measure and recognize compensation expense for all stock-based awards, including restricted stock units ("RSUs"), performance-based units ("PSUs"), stock options, and purchase rights issued to employees under our employee stock purchase plan ("ESPP"), based on the estimated fair value of the awards on the grant date. We use the Black-Scholes option pricing model to estimate the fair value of stock options and ESPP purchase rights and the Monte Carlo Simulation model to estimate the fair value of a PSU. The fair value of RSUs is based on the market closing price for its common stock as reported on the Nasdaq Global Select Market on the date of grant.

Our use of the Black-Scholes option-pricing and Monte-Carlo Simulation models require the input of highly subjective assumptions, including the fair value of the underlying common stock, expected term of the option, expected volatility of the price of our common stock, risk-free interest rates, and the expected dividend yield of our common stock. The assumptions used in these valuation models represent management's best estimates. These estimates involve inherent uncertainties and the application of management's judgment. If factors change and different assumptions are used, our stock-based compensation expense could be materially different in the future.

Income Taxes

We are subject to income taxes in the U.S. and in many international jurisdictions. The determination of these tax liabilities requires estimation, significant judgment, and interpretation of each jurisdiction's tax statutes, regulations, and case laws. Additionally, governing tax legislation could change significantly with little or no notice. It is important for us to monitor economic, political, and other conditions in the various countries with operations as changes in a jurisdiction's conditions could impact the amount of deferred tax assets or our ability to utilize deferred tax assets in the future.

We account for income taxes using the asset and liability method, under which deferred tax liabilities and assets are recognized for the expected future tax consequences of temporary differences between consolidated financial statement carrying amounts and the tax basis of assets and liabilities and net operating loss and tax credit carryforwards. Valuation allowances are established when deemed necessary to reduce deferred tax assets to the amount expected to be realized.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

We have operations both within the U.S. and internationally, and we are exposed to market risks in the ordinary course of our business, including the effects of interest rate changes and foreign currency fluctuations. Information relating to quantitative and qualitative disclosures about these market risks is described below.

Interest Rate Sensitivity

Cash, cash equivalents and marketable securities as of December 31, 2023 were held primarily in cash deposits, treasuries, and corporate bonds. The fair value of our cash, cash equivalents, and investments would not be significantly affected by either an increase or decrease in interest rates due mainly to the short-term nature of these instruments and that the Company's policy is to hold investments to maturity except in cases of non-compliance with our investment policy.

Foreign Currency Risk

We transact business in various foreign countries and are, therefore, subject to risk of foreign currency exchange rate fluctuations. We have established a foreign currency risk management policy to provide processes and procedures for managing this risk. We use natural hedging techniques first to net off existing foreign currency exposures. For the remaining exposure, we may enter into short term foreign currency derivative contracts, including forward contracts to hedge exposures associated with monetary assets and liabilities, mainly merchants payable, and cash flows denominated in non-functional currencies.

The credit risk of our foreign exchange derivative contracts is minimized since contracts are not concentrated with any one financial institution and all contracts are only placed with large financial institutions. The gains and losses on foreign currency derivative contracts generally offset the losses and gains on the assets, liabilities and transactions hedged. The fair value of foreign exchange derivative contracts is reported in the consolidated balance sheets. The majority of these foreign exchange contracts expire in less than three months and all expire within one year. Refer to Note 5 to our consolidated financial statements in Item 8 of Part II, "Financial Statements and Supplementary Data" for more information related to our derivative financial instruments.

Based on our overall currency rate exposures as of December 31, 2023, including the derivative financial instruments intended to hedge the nonfunctional currency-denominated monetary assets, liabilities and cash flows, and other factors, a 10% appreciation or depreciation of the U.S. dollar from its cross-functional rates would not be expected, in the aggregate, to have a material effect on our financial position, results of operations and cash flows in the near-term.

Inflation Risk

As of the date of filing of this Annual Report, we do not believe that inflation has had a material effect on our business, financial condition, or results of operations. If the Company's costs were to become subject to significant inflationary pressures, the Company may not be able to fully offset such higher costs through increases in revenue as increases in core inflation rates may also affect consumers' willingness to make discretionary purchases on our platforms. The Company's inability or failure to do so could negatively impact the Company's business, financial condition, and results of operations.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of ContextLogic Inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of ContextLogic Inc. and its subsidiaries (the “Company”) as of December 31, 2023 and 2022, and the related consolidated statements of operations, of comprehensive loss, of stockholders’ equity and of cash flows for the years then ended, including the related notes (collectively referred to as the “consolidated financial statements”). We also have audited the Company’s internal control over financial reporting as of December 31, 2023, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company did not maintain, in all material respects, effective internal control over financial reporting as of December 31, 2023, based on criteria established in Internal Control - Integrated Framework (2013) issued by the COSO because material weaknesses in internal control over financial reporting existed as of that date related to the Company not designing and maintaining (i) an effective control environment, specifically not providing sufficient management oversight and ownership over the internal control evaluation process and not hiring and training sufficient competent personnel to support the Company’s internal control objectives, and (ii) effective controls over information technology general controls for information systems and applications that are relevant to the preparation of the consolidated financial statements, including lack of sufficient user access controls, program change management controls, and computer operations controls.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. The material weaknesses referred to above are described in Management’s Report on Internal Control Over Financial Reporting appearing under Item 9A. We considered these material weaknesses in determining the nature, timing, and extent of audit tests applied in our audit of the 2023 consolidated financial statements, and our opinion regarding the effectiveness of the Company’s internal control over financial reporting does not affect our opinion on those consolidated financial statements.

Basis for Opinions

The Company’s management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in management’s report referred to above. Our responsibility is to express opinions on the Company’s consolidated financial statements and on the Company’s internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Consolidated Financial Statements - Impact of Control Environment and Information Technology General Controls

The completeness and accuracy of the consolidated financial statements, including the financial condition, results of operations and cash flows, is dependent on, in part, management's ability to (i) fully implement components of the COSO framework, including elements of the control environment component relating to providing sufficient management oversight and ownership over the internal control evaluation process, hiring and training sufficient competent personnel to support the Company's internal control objectives, and (ii) design and maintain effective information technology general controls for information systems and applications that are relevant to the preparation of the consolidated financial statements, including sufficient user access controls, program change management controls and computer operations controls.

The principal considerations for our determination that performing procedures relating to the consolidated financial statements - impact of control environment and information technology general controls is a critical audit matter are the high degree of auditor judgment, subjectivity, and effort in performing procedures and evaluating audit evidence related to the consolidated financial statements and information systems, which affect substantially all financial statement account balances and disclosures. As disclosed by management, material weaknesses existed during the year related to management not (i) fully implementing components of the COSO framework, including elements of the control environment component, relating to providing sufficient management oversight and ownership over the internal control evaluation process, hiring and training sufficient competent personnel to support the Company's internal control objectives, and (ii) designing or maintaining effective information technology general controls for information systems and applications that are relevant to the preparation of the consolidated financial statements, including sufficient user access controls, program change management controls and computer operations controls. As described above in the "Opinions on the Financial Statements and Internal Control over Financial Reporting" section, material weaknesses were identified related to this matter.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included, among others, (i) evaluating and determining the nature and extent of audit procedures performed and evidence obtained that are responsive to the material weaknesses identified and (ii) manually testing the completeness and accuracy of system reports or other information generated by the Company's information technology systems.

1. DESCRIPTION OF BUSINESS

ContextLogic Inc. (“Wish” or the “Company”) is a mobile ecommerce company that provides a shopping experience that is mobile-first and discovery-based, which connects merchants’ products to users based on user preferences. The Company generates revenue from marketplace and logistics services provided to merchants.

The Company was incorporated in the state of Delaware in June 2010 and is headquartered in San Francisco, California, with operations domestically and internationally.

Reverse Stock Split

On April 10, 2023, the Company filed a certificate of amendment (the “Reverse Stock Split Amendment”) to the Company’s Restated Certificate of Incorporation with the Secretary of State of Delaware to effect a 1-for-30 Reverse Stock Split of the Company’s Class A common stock (“common stock”), which became effective on April 11, 2023. The Reverse Stock Split Amendment did not reduce the number of authorized shares of common stock, which remains at 3.0 billion, and did not change the par value of the common stock, which remains at \$0.0001 per share. As a result of the Reverse Stock Split, every thirty shares of the common stock were combined into one issued and outstanding share of common stock and no fractional shares were issued. Instead, to any holder who would have otherwise been entitled to receive a fractional share of common stock, the Company issued such holder an additional fractional share, such that, when combined with the fractional share otherwise issuable as a result of the Reverse Stock Split, equaled a whole share of common stock.

All share and per share information has been retroactively adjusted to reflect the reverse stock split for all periods presented.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Consolidation

The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

The Company evaluated whether there are any conditions and events, considered in the aggregate, that raise substantial doubt about its ability to continue as a going concern over the next twelve months from the date of filing this report. As of December 31, 2023, the Company had approximately \$382 million in unrestricted cash, cash equivalents, and marketable securities. The Company believes that substantial doubt about its ability to continue as a going concern does not exist as its cash on hand will be sufficient to meet its working capital and capital expenditure requirements for a period of at least twelve months from the date of the filing of this Form 10-K.

The Company has incurred significant accumulated losses of approximately \$3.2 billion. The Company expects to continue to incur operating losses for the foreseeable future. To the extent that the Company’s current resources are insufficient to satisfy its cash requirements, the Company may need to seek additional equity or debt financing and there can be no assurance that the Company will be successful in its efforts. If the financing is not available, or if the terms of financing are less desirable than the Company expects, the Company may be forced to continue to scale back its operations, which could have an adverse impact on its business and financial prospects.

Use of Estimates

The preparation of consolidated financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. These estimates form the basis for judgments the Company makes about the carrying values of its assets and liabilities that are not readily available from other sources. These estimates include, but are not limited to, fair value of financial instruments, useful lives and impairment of long-lived assets, fair value of derivative instruments, incremental borrowing rate applied to lease accounting, contingent liabilities, redemption probabilities associated with Wish Cash, allowances for refunds and chargebacks and uncertain tax positions. As a result, many of the Company’s estimates and assumptions required increased judgment and these estimates may change materially in future periods.

Segments

The Company manages its operations and allocates resources as a single operating segment. The Company’s chief

operating decision-maker is its Chief Executive Officer (“CEO”) who makes operating decisions, assesses financial performance and allocates resources based on consolidated financial information. As such, the Company has determined that it operates in one reportable segment.

Revenue Recognition

The Company generates revenue from marketplace and logistics services provided to its customers. Revenue is recognized as the Company transfers control of promised goods or services to its customers in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services. The Company considers both the merchant and the user to be customers. The Company evaluates whether it is appropriate to recognize revenue on a gross or net basis based upon its evaluation of whether the Company obtains control of the specified goods or services by considering if it is primarily responsible for fulfillment of the promise, has inventory risk and has latitude in establishing pricing and selecting suppliers, among other factors. Based on these factors, marketplace revenue is generally recognized on a net basis and logistics revenue is generally recognized on a gross basis. Revenue excludes any amounts collected on behalf of third parties, including indirect taxes.

The following table shows the disaggregated revenue for the applicable periods:

	Year Ended December 31,	
	2023	2022
	(in millions)	
Core marketplace revenue	\$ 86	\$ 220
ProductBoost revenue	24	46
Marketplace revenue	110	266
Logistics revenue	177	305
Revenue	<u>\$ 287</u>	<u>\$ 571</u>

Refer to Note 11 – Geographic Information for the disaggregated revenue by geographical location.

Marketplace Revenue

The Company provides a mix of marketplace services to its customers. The Company provides merchants access to its marketplace where merchants display and sell their products to users. The Company also provides ProductBoost services to help merchants promote their products within the Company’s marketplace.

Marketplace revenue includes commission fees collected in connection with user purchases of the merchants’ products. The commission fees vary depending on factors such as geography, product category, Wish Standards’ tier, item value and dynamic pricing. The Company recognizes revenue when a user’s order is processed and the related order information has been made available to the merchant. Commission fees are recognized net of estimated refunds and chargebacks. Marketplace revenue also includes ProductBoost revenue generated by increasing exposure for a merchant’s relevant products within the Company’s marketplace. The Company recognizes ProductBoost revenue based on the number of impressions delivered, or clicks by users.

Logistics Revenue

The Company’s logistics offering for merchants is designed for direct end-to-end single order shipment from a merchant’s location to the user. Logistics services include transportation and delivery of the merchant’s products to the user. Merchants are required to prepay for logistics services on a per order basis.

The Company recognizes revenue over time as the merchant simultaneously receives and consumes the logistics services benefit as the logistics services are performed. The Company uses an output method of progress based on days in transit as it best depicts the Company’s progress toward complete satisfaction of the performance obligation.

Deferred Revenue

Deferred revenue consists of amounts received primarily related to unsatisfied performance obligations of logistics services and marketplace services for shipments in-transit at the end of the period where the Company is the principal. The deferred revenue balances as of December 31, 2023 and 2022 are disclosed in Note 4 – Balance Sheet Components. Due to the short-term duration of contracts, all of the performance obligations will be satisfied in the following reporting period.

Refunds and Chargebacks

Refunds and chargebacks are associated with marketplace revenue. Returns are not material to the Company's business. Estimated refunds and chargebacks are recognized on the consolidated balance sheets as refunds liability. The merchant's share of the refunds is recognized as a reduction to the amount due to merchants. The revenue recognized on transactions subject to refunds and chargebacks is reversed. The Company estimates future refunds and chargebacks using a model that incorporates historical experience, considering recent business trends, and market activity.

Incentive Discount Offers

The Company provides incentive discount offers to its users to encourage purchases of products through its marketplace. Such offers include current discount offers of a certain percentage off current purchases and inducement offers, such as set percentage offers off future purchases subject to a minimum current purchase. The Company generally records the related discounts taken as a reduction of revenue when the offer is redeemed. The Company also offers free products to encourage users to make purchases on its marketplace. The resulting discount is recognized as a reduction of revenue when the offer for free product is redeemed.

Wish Cash Liability

The Company issues Wish Cash to end-users who opt to receive it for their refundable transactions. The Company also offers Wish Cash as part of its various referral and incentive programs. The Company accrues a liability for issued Wish Cash which is reduced when Wish Cash is redeemed by its users. Based on historical experience, the Company analyzes the Wish Cash liability considering usage patterns to determine the probability of redemption. While the Company will continue to honor all Wish Cash presented for payment, management may determine the likelihood of redemption to be remote for Wish Cash balances due to, among other things, long periods of inactivity. In these circumstances, to the extent management determines there is no requirement for remitting Wish Cash balances to government agencies under unclaimed property laws, the portion of Wish Cash balances not expected to be redeemed are recognized in Core Marketplace revenue. Refer to Note 4 – Balance Sheet Components for more information on Wish Cash liability breakage.

Cost of Revenue

Cost of revenue includes colocation and data center charges, interchange and other fees for payment processing services, fraud and chargeback prevention service charges, costs of refunds and chargebacks made to users that the Company is not able to collect from merchants, depreciation and amortization of property and equipment, shipping charges, tracking costs, warehouse fees, and employee-related costs, including salaries, benefits, and stock-based compensation expense, for the Company's infrastructure, merchant support and logistics personnel. Cost of revenue also includes an allocation of general IT and facilities overhead expenses.

Advertising Expense

Advertising expenses are included in sales and marketing expenses within the consolidated statements of operations and are expensed as incurred. Advertising expenses were \$104 million and \$195 million for the years ended December 31, 2023 and 2022, respectively.

Software Development Costs

The Company capitalizes costs to develop its mobile application and website when preliminary development efforts are successfully completed, management has authorized and committed project funding, and it is probable that the project will be completed, and the software will be used as intended. Costs incurred during the preliminary planning and evaluation stage of the project and during the post implementation operational stage, including maintenance, are expensed as incurred. Costs incurred for enhancements that are expected to result in additional functionality are capitalized and expensed over the estimated useful life of the upgrades on a per project basis.

Due to the iterative process by which the Company performs upgrades and the relatively short duration of its development projects, development costs meeting capitalization criteria generally are not material. If internal-use software development costs are material, they are capitalized and included in property and equipment, net within the consolidated balance sheets.

Cash, Cash Equivalents and Restricted Cash

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. As of December 31, 2023 and 2022, cash and cash equivalents consisted of cash deposited with banks and money market funds for which their cost approximates their fair value. The Company held 28% and 72% of its cash and cash equivalents in the United States as of December 31, 2023 and 2022, respectively.

Restricted cash as of December 31, 2022 represents amounts held in collateral and cash accounts in a foundation entity dedicated to safeguarding funds of payment service users consisting of European Economic Area merchants, ensuring the funds remain separate from the Company’s own funds. These funds are included within prepaid expenses and other current assets in the consolidated balance sheets. As of December 31, 2023, the balance of restricted cash was zero.

Marketable Securities

Marketable securities consist of short-term debt securities classified as available-for-sale and have original maturities greater than 90 days. Marketable securities are carried at fair value based upon quoted market prices or pricing models for similar securities. Unrealized gains and losses on available-for-sale securities are excluded from earnings and are recognized within other comprehensive loss. Realized gains or losses on the sale of all such securities are reported in interest and other income, net, and computed using the specific identification method. For declines in fair market value below the cost of an individual marketable security, the Company assesses whether the decline in value is other than temporary based on the length of time the fair market value has been below cost, the severity of the decline and the Company’s intent and ability to hold or sell the investment. If an investment is impaired, the Company writes it down through earnings to its recoverable value and establishes that as a new cost basis for the investment.

Funds Receivable

The Company uses several third-party Payment Service Providers (“PSPs”) to process user transactions on its marketplace. Transactions on the Company’s marketplace are mainly credit and debit card-based transactions that convert to cash on a regular basis and are net settled against refunds and chargebacks, with little default risk. Funds receivable represents the amounts expected to be received from PSPs for purchases on the Company’s marketplace and is recognized net of processing fees.

Concentrations of Risk

Credit Risk — Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents, funds receivable and marketable securities. The Company’s cash and cash equivalents are held on deposit with creditworthy institutions. Although the Company’s deposits exceed federally insured limits, the Company has not experienced any losses in such accounts. The Company invests its excess cash in money market accounts, U.S. Treasury notes, U.S. Treasury bills, commercial paper, corporate bonds, and non-U.S. government securities. The Company is exposed to credit risk in the event of a default by the financial institutions holding its cash, cash equivalents and marketable securities for the amounts reflected on the consolidated balance sheets. The Company’s investment policy limits investments to certain types of debt securities issued by the U.S. government, its agencies and institutions with investment-grade credit ratings and places restrictions on maturities and concentration by type and issuer.

The Company maintains certain bank accounts in China. The Company manages the counterparty risk associated with these funds through diversification with major financial institutions and monitors the concentration of this credit risk on a monthly basis. The total cash balance in these accounts represented approximately 49% and 24% of the Company’s total cash and cash equivalents as of December 31, 2023 and 2022, respectively.

The Company’s derivative financial instruments expose it to credit risk to the extent that the counterparties may be unable to meet the terms of the arrangement. The Company seeks to mitigate such risk by limiting its counterparties to, and by spreading the risk across, major financial institutions. In addition, the potential risk of loss with any one counterparty resulting from this type of credit risk is monitored on a monthly basis. The Company is not required to pledge, nor is it entitled to receive, collateral related to its foreign exchange derivative transactions.

The Company is exposed to credit risk in the event of a default by its PSPs. The Company does not generate revenue from PSPs. Significant changes in the Company’s relationship with its PSPs could adversely affect users’ ability to process transactions on the Company’s marketplaces, thereby impacting the Company’s operating results.

The following PSPs each represented 10% or more of the Company’s funds receivable balance:

	December 31,	
	2023	2022
PSP 1	28%	56%
PSP 2	57%	32%

Services Risk — The Company serves all of its users using third-party data center and hosting providers. The Company has disaster recovery protocols at the third-party service providers. Even with these procedures for disaster

recovery in place, access to the Company's service could be significantly interrupted, resulting in an adverse effect on its operating results and financial position. No significant interruptions of service were known to have occurred during the years ended December 31, 2023 and 2022.

Property and Equipment, Net

Property and equipment are stated at historical cost less accumulated depreciation. Depreciation and amortization are computed using the straight-line method over the estimated useful lives. Expenditures for repairs and maintenance are charged to expense as incurred.

The estimated useful lives of the Company's property and equipment are generally as follows:

Computers, equipment, software	3 years
Furniture and fixtures, servers, networking equipment	5 years
Leasehold improvements	Shorter of the estimated useful life or remaining lease term

Impairment of Long-Lived Assets

The Company reviews long-lived assets, including intangible and lease assets, for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured first by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, an impairment loss would be recognized based on the excess of the carrying amount of the asset above the fair value of the asset.

Merchants Payable

Merchants payable represents the amount of funds due to merchants and is recognized net of commission fees earned by the Company for marketplace transactions and other fees due from merchants. Merchants payable is adjusted for actual and estimated refunds the Company is expected to recover from merchants. The Company remits funds to merchants on a regular basis.

Operating Lease Obligations

The Company determines if an arrangement is a lease at inception. For leases where the Company is the lessee, right-of-use ("ROU") assets represent the Company's right to use the underlying asset for the term of the lease and the lease liabilities represent an obligation to make lease payments arising from the lease. Certain lease agreements contain tenant improvement allowances, rent holidays and rent escalation provisions, all of which are considered in determining the ROU assets and lease liabilities. The Company begins recognizing rent expense when the lessor makes the underlying asset available for use by the Company. Lease liabilities are recognized at the lease commencement date based on the present value of the future lease payments over the lease term. Lease renewal periods are considered on a lease-by-lease basis in determining the lease term. The interest rate the Company uses to determine the present value of future lease payments is the Company's incremental borrowing rate because the rate implicit in the Company's leases is not readily determinable. The incremental borrowing rate is a hypothetical rate for collateralized borrowings in economic environments where the leased asset is located based on credit rating factors. The ROU asset is determined based on the lease liability initially established and adjusted for any prepaid lease payments and any lease incentives received. The lease term to calculate the ROU asset and related lease liability includes options to extend or terminate the lease when it is reasonably certain that the Company will exercise the option. Certain leases contain variable costs, such as common area maintenance, real estate taxes or other costs. Variable lease costs are expensed as incurred on the consolidated statements of operations and comprehensive loss.

Operating leases are included in the ROU assets, accrued liabilities, and lease liabilities, non-current on the consolidated balance sheets. The Company has no finance leases.

Loss Contingencies

The Company is involved in various lawsuits, claims and proceedings that arise in the ordinary course of business. The Company records a liability for these when it believes it is probable that it has incurred a loss, and the Company can reasonably estimate the loss. If the Company determines that a material loss is reasonably possible and the loss or range

of loss can be estimated, the Company discloses the possible loss in the notes to the consolidated financial statements. The Company regularly evaluates current information to determine whether it should adjust a recognized liability or recognize a new one. Significant judgment is required to determine both the probability and the estimated amount.

Stock-Based Compensation

The Company measures and recognizes compensation expense for all stock-based awards, including restricted stock units (“RSUs”), performance-based units (“PSUs”), stock options, and purchase rights issued to employees under its employee stock purchase plan (“ESPP”), based on the estimated fair value of the awards on the grant date. The Company uses the Black-Scholes option pricing model to estimate the fair value of stock options and ESPP purchase rights and the Monte Carlo Simulation model to estimate the fair value of a PSU. The fair value of RSUs is based on the market closing price for its common stock as reported on the Nasdaq Global Select Market on the date of grant. The fair value of service-based RSUs and stock options is recognized as an expense on a straight-line basis over the requisite service period, which ranges from one to four years. For stock-based awards granted to employees with a performance condition, the Company recognizes stock-based compensation expense under the accelerated attribution method over the requisite service period. The fair value of the ESPP purchase rights is recognized as an expense on a straight-line basis over the offering period.

The Company accounts for forfeitures as they occur.

Foreign Currency

The functional currency of the Company’s foreign subsidiaries is the local currency for operating entities with employees and is the U.S. dollar for holding companies and pass-through entities. The assets and liabilities of its non-U.S. dollar functional currency subsidiaries are translated into U.S. dollars using exchange rates in effect at the end of each period. Revenue and expenses for its foreign subsidiaries are translated using rates that approximate those in effect during the period. Foreign currency translation adjustments are reflected in stockholders’ equity as a component of other comprehensive (loss) income.

Transactions on the Company’s marketplace occur in various foreign currencies that are processed by its PSPs. These transactions are collected on a regular basis and are converted to U.S. dollars or euros within the short period of time between the recognition of revenue and cash collection on a regular basis, which limits the Company’s exposure to foreign currency risk.

Merchants payable are denominated primarily in Renminbi (“RMB”) and other local currencies. As of December 31, 2023 and 2022, the merchants payable amount denominated in RMB was 58% and 70%, respectively.

Transaction gains and losses, including intercompany transactions denominated in a currency other than the functional currency of the entity involved are included in interest and other income, net on the consolidated statements of operations. The Company recognized a net loss resulting from foreign exchange transactions of \$1 million for the year ended December 31, 2023 and a net gain of \$10 million for the year ended December 31, 2022. The Company recognized a \$2 million cumulative translation loss for the year ended December 31, 2023 and a \$7 million cumulative translation loss in the year ended December 31, 2022.

Derivative Instruments

The Company conducts business in certain foreign currencies throughout its worldwide operations, and various entities hold monetary assets or liabilities, earn revenues, or incur costs in currencies other than the entity’s functional currency. As a result, the Company is exposed to foreign exchange gains or losses which impact the Company’s operating results. As part of the Company’s foreign currency risk mitigation strategy, starting in 2020, the Company has entered into foreign exchange forward contracts with up to twelve months in duration. In accordance with the accounting standards for derivatives and hedging activities, all derivative instruments are recognized at fair value on the Company’s consolidated balance sheets and classified as either derivative assets or derivative liabilities. Derivatives in a gain position are reported as derivative assets, while derivatives in a loss position are reported as derivative liabilities. The Company’s derivatives transactions are not collateralized and do not include collateralization agreements with counterparties.

Cash Flow Hedges

The Company’s largest cash flow exposure is in RMB for payments made to merchants in China that use the Wish platform. The Company hedges these cash flow exposures to reduce the risk that its earnings and cash flows will be adversely affected by changes in exchange rates. The Company recognizes changes in fair value of these cash flow hedges of foreign currency denominated merchants payable in accumulated other comprehensive income in its consolidated balance sheets, until the Company settles its forecasted foreign currency denominated merchants payable. When the

forecasted transaction affects earnings, the Company reclassifies the related gain or loss on the cash flow hedge to core marketplace revenue. All amounts in other comprehensive income at period end are expected to be reclassified to earnings within 12 months. In the event the underlying forecasted transaction does not occur, or it becomes probable that it will not occur, the Company reclassifies the gain or loss on the related cash flow hedge from accumulated other comprehensive income to core marketplace revenue.

Non-Designated Hedges

The Company's derivatives not designated as hedging instruments consist of foreign currency forward contracts to reduce the impact of currency exchange rate movements on its monetary assets and liabilities. These foreign exchange contracts are carried at fair value with changes in fair value of these contracts recognized to other income (expense), net in the Company's consolidated statements of operations.

The Company does not use derivative financial instruments for speculative or trading purposes.

Fair Value Measurement

The Company applies fair value accounting for its financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining fair value measurements for assets and liabilities, the Company considers the principal or most advantageous market in which it would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as risks inherent in valuation techniques, transfer restrictions and credit risk. Fair value is estimated by applying the following hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

- Level 1*— Quoted prices in active markets for identical assets or liabilities.
- Level 2*— Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3*— Inputs that are generally unobservable and typically reflect management's estimate of assumptions that market participants would use in pricing the asset or liability.

Income Taxes

The Company accounts for income taxes using the asset and liability method, under which deferred tax liabilities and assets are recognized for the expected future tax consequences of temporary differences between consolidated financial statement carrying amounts and the tax basis of assets and liabilities and net operating loss and tax credit carryforwards. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

The Company determines whether it is more likely than not that a tax position will be sustained upon examination. If it is not more likely than not that a position will be sustained, no amount of benefit attributable to the position is recognized. The tax benefit to be recognized of any tax position that meets the more likely than not recognition threshold is calculated as the largest amount that is more than 50% likely of being realized upon resolution of the contingency.

It is the Company's policy to include penalties and interest expense related to income taxes as a component of interest and other income, net as necessary.

Comprehensive Loss

Comprehensive loss is comprised of two components: net loss and other comprehensive loss. Other comprehensive loss consists of unrealized holding gains or losses related to derivative instruments, unrealized gains or losses on marketable securities, and foreign currency translation adjustments.

Accounting Pronouncements

The Company has reviewed recent accounting pronouncements and concluded as follows:

In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures (ASU 2023-07), which requires additional segment-related disclosures on an annual and interim basis, to enable investors in developing more informed and actionable analyses. This guidance will be effective for the annual periods beginning the year ended December 31, 2024, and for interim periods beginning January 1, 2025. Early adoption is permitted. Upon adoption, the guidance should be applied retrospectively to all prior periods presented in the financial statements. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures (ASU 2023-09), which improves the transparency of income tax disclosures by requiring (1) consistent categories and greater disaggregation of information in the effective tax rate reconciliation, and (2) income taxes paid disaggregated by jurisdiction. It also includes certain other amendments to improve the effectiveness of income tax disclosures. This guidance will be effective for annual periods beginning after December 15, 2024. Early adoption is permitted. Upon adoption, the guidance can be applied prospectively or retrospectively. We are evaluating the impact this amended guidance may have on the footnotes to our consolidated statements.

3. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENT

The Company's financial instruments consist of cash equivalents, marketable securities, funds receivable, derivative instruments, accounts payable, accrued liabilities and merchants payable. Cash equivalents' carrying value approximates fair value at the balance sheet dates, due to the short period of time to maturity. Marketable securities and derivative instruments are recognized at fair value. Funds receivable, accounts payable, accrued liabilities and merchants payable carrying values approximate fair value due to the short time to the expected receipt or payment date.

Assets and liabilities recognized at fair value on a recurring basis in the consolidated balance sheets consisting of cash equivalents, marketable securities and derivative instruments are categorized based upon the level of judgment associated with the inputs used to measure their fair values. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Financial assets and liabilities subject to fair value measurements on a recurring basis and the level of inputs used in such measurements are as follows:

	December 31, 2023			
	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
	(in millions)			
Financial assets:				
Cash equivalents:

Derivative liabilities	\$ 2	\$ —	\$ 2	\$ —
Total financial liabilities	<u>\$ 2</u>	<u>\$ —</u>	<u>\$ 2</u>	<u>\$ —</u>

The Company classifies cash equivalents and marketable securities within Level 1 or Level 2 because the Company uses quoted market prices or alternative pricing sources and models utilizing market observable inputs to determine their fair value. The derivative asset and liability related to the Company's foreign currency derivative contracts are classified within Level 2 of the fair value hierarchy as the valuation inputs are based on quoted prices and market observable data of similar instruments in active markets, including currency spot and forward rates.

The following table summarizes the contractual maturities of the Company's marketable securities:

	December 31,			
	2023		2022	
	Amortized Cost	Estimated Fair Value	Amortized Cost	Estimated Fair Value
	(in millions)			
Due within one year	\$ 144	\$ 144	\$ 214	\$ 213
Total marketable securities	<u>\$ 144</u>	<u>\$ 144</u>	<u>\$ 214</u>	<u>\$ 213</u>

All of the Company's available-for-sale marketable securities are subject to a periodic evaluation for a credit loss allowance and impairment review. The Company did not identify any of its available-for-sale marketable securities requiring an allowance for credit loss or as other-than-temporarily impaired in any of the periods presented. Additionally, the unrealized net gain and net loss on available-for-sale marketable securities as of December 31, 2023 and 2022 were immaterial.

4. BALANCE SHEET COMPONENTS

Accrued Liabilities

Accrued liabilities consist of the following:

	December 31,	
	2023	2022
	(in millions)	
Logistics costs ⁽¹⁾	\$ 25	\$ 44
Deferred revenue and customer deposits ⁽²⁾	12	18
Wish Cash liability ⁽³⁾	11	14
Sales and indirect taxes ⁽⁴⁾	12	15
Other	30	39
Total accrued liabilities	<u>\$ 90</u>	<u>\$ 130</u>

- (1) Logistics costs decreased by \$19 million or 43% primarily due to lower shipping volumes during 2023 compared to 2022.
- (2) Deferred revenue and customer deposits decreased by \$6 million or 33% primarily due to lower logistics volumes during 2023 compared to 2022.
- (3) While the Company will continue to honor all Wish Cash presented for payment, it may determine the likelihood of redemption to be remote for certain Wish Cash liability balances due to, among other things, long periods of inactivity. In these circumstances, to the extent the Company determines there is no requirement for remitting Wish Cash balances to government agencies under unclaimed property laws, the portion of Wish Cash liability balances not expected to be redeemed are recognized in core marketplace revenue. Wish Cash liability breakage recognized in core marketplace revenue during the years ended December 31, 2023 and 2022 was \$3 million and \$4 million, respectively.
- (4) Sales and indirect taxes decreased by \$3 million or 20% primarily due to less taxes in connection with lower order volumes during 2023 compared to 2022.

5. DERIVATIVE FINANCIAL INSTRUMENTS

Volume of Derivative Activity

Total gross notional amounts for outstanding derivatives (recognized at fair value) as of the end of period consist of the following:

	December 31, 2023	December 31, 2022
	(in millions)	
Cash flow hedges	\$ 29	\$ 168
Non-designated hedges	44	11
Total	<u>\$ 73</u>	<u>\$ 179</u>

Fair Value of Derivative Financial Instruments

	December 31, 2023		December 31, 2022	
	Assets ⁽¹⁾	Liabilities ⁽²⁾	Assets ⁽¹⁾	Liabilities ⁽²⁾
	(in millions)			
Derivative designated as hedging instruments				
Cash flow hedges	\$ —	\$ —	\$ 2	\$ —
Derivative not designated as hedging instruments				
Foreign currency forward contracts	\$ 1	\$ 1	\$ 4	\$ 2
Total derivatives	<u>\$ 1</u>	<u>\$ 1</u>	<u>\$ 6</u>	<u>\$ 2</u>

(1) Derivative assets are included in prepaid and other current assets in the consolidated balance sheet.

(2) Derivative liabilities are included in accrued liabilities in the consolidated balance sheet.

Derivatives in Cash Flow Hedging Relationships

The changes in accumulated other comprehensive income resulting from cash flow hedging were as follows:

	December 31, 2023	December 31, 2022
	(in millions)	
Balance at the beginning of the period	\$ 2	\$ 2
Other comprehensive loss before reclassifications	(4)	(6)
Amounts recognized in core marketplace revenue and reclassified out of accumulated other comprehensive income	3	6
Balance at the end of the period	<u>\$ 1</u>	<u>\$ 2</u>

Derivatives Not Designated as Hedging Instruments

The changes in fair value of the Company's foreign exchange forward contracts not designated as hedging instruments were approximately a \$3 million net loss and a \$7 million net loss for the years ended December 31, 2023 and 2022, respectively, and were recognized in other income (expense), net in the consolidated statements of operations.

6. OPERATING LEASES

The Company leases its facilities and data center colocations under operating leases with various expiration dates through 2027.

The components of the Company's lease costs were as follows:

	Year Ended December 31,	
	2023	2022
	(in millions)	
Operating lease costs	\$ 4	\$ 7
Short-term lease costs	3	2
Variable costs	1	1
Total	<u>\$ 8</u>	<u>\$ 10</u>

As of December 31, 2023 and 2022, the Company's consolidated balance sheet included ROU assets in the amount of \$5 million and \$9 million, respectively, and lease liabilities in the amount of \$7 million and \$7 million in accrued liabilities, respectively, and \$6 million and \$13 million in lease liabilities, non-current, respectively.

In February 2022, the Company's Board of Directors ("the Board") approved a restructuring plan, which included exiting various office leases. As a result, the Company ceased using certain office spaces. As the carrying value of the related right-of-use assets and leasehold improvements exceeded the estimated fair value, the Company recognized an immaterial impairment loss related to the impairment of operating ROU assets for the year ended December 31, 2023. See Note 12. Reductions in Workforce for more information about the Company's restructuring plan.

As of December 31, 2023 and 2022, the weighted-average remaining lease term was 2 and 3 years and the weighted-average discount rate used to determine the net present value of the lease liabilities was 6% for both periods.

Supplemental cash flow information for the Company's operating leases were as follows:

	Year Ended December 31,	
	2023	2022
	(in millions)	
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows from operating leases	\$ 8	\$ 9
Right-of-use assets obtained in exchange for new lease liabilities	\$ —	\$ 4

The maturities of the Company's operating lease liabilities are as follows:

Year ending December 31,	December 31, 2023	
	(in millions)	
2024	\$	8
2025		4
2026		1
2027		1
Total lease payments		14
Less: imputed interest		(1)
Present value of lease liabilities	<u>\$</u>	<u>13</u>

7. COMMITMENTS AND CONTINGENCIES

Revolving Credit Facility

In November 2020, the Company entered into a five-year \$280 million senior secured revolving credit facility (the “Revolving Credit Facility”). If the Company is able to secure additional lender commitments and satisfy certain other conditions, the aggregate facility commitments can be increased by up to \$100 million through an accordion option. The Company also enters into letters of credit from time to time, which reduces its borrowing capacity under the Revolving Credit Facility. Interest on any borrowings under the Revolving Credit Facility accrues at either adjusted LIBOR plus 1.50% or at an alternative base rate plus 0.50%, at the Company’s election, and the Company is required to pay a commitment fee that accrues at 0.25% per annum on the unused portion of the aggregate commitments under the Revolving Credit Facility. The Company is required to pay a fee that accrues at 1.50% per annum on the average daily amount available to be drawn under any letters of credit outstanding under the Revolving Credit Facility.

The Revolving Credit Facility contains customary conditions to borrowing, events of default and covenants, including covenants that restrict the Company’s ability (and the ability of certain of the Company’s subsidiaries) to incur indebtedness, grant liens, make certain fundamental changes and asset sales, make distributions to stockholders, make investments or engage in transactions with affiliates. It also contains a minimum liquidity financial covenant of \$350 million, which includes unrestricted cash and any available borrowing capacity under the Revolving Credit Facility. The obligations under the Revolving Credit Facility are secured by liens on substantially all of the Company’s domestic assets and are guaranteed by any material domestic subsidiaries, subject to customary exceptions. A standby letter of credit in the amount of approximately \$7 million has been issued under the Revolving Credit Facility in conjunction with the lease of the Company’s headquarters in San Francisco, California. As of December 31, 2023, the Company had not made any borrowings under the Revolving Credit Facility and it was in compliance with the related financial covenants. Fees incurred under the Revolving Credit Facility were insignificant for the years ended December 31, 2023 and 2022.

Purchase Obligations

Effective September 1, 2022, the Company entered into an amendment to a colocation and cloud services arrangement committing the Company to make payments of \$85 million for services over 3 years. As of December 31, 2023, the remaining commitment under this amended agreement was approximately \$45 million and is payable within the next 1 year and 8 months.

Legal Contingencies and Proceedings

Beginning in May 2021, four putative class action lawsuits were filed in the U.S. District Court for the Northern District of California against the Company, its directors, certain of its officers and the underwriters named in its initial public offering (“IPO”) registration statement alleging violations of securities laws based on statements made in its registration statement on Form S-1 filed with the SEC in connection with its IPO and seeking monetary damages. One of these cases has since been dismissed by the plaintiff and the remaining three have been coordinated and consolidated. In May 2022, the Court appointed lead plaintiffs, who subsequently filed an amended consolidated class action complaint pursuant to Sections 11 and 15 of the Securities Act and Sections 10(b) and 20(a) of the Exchange Act. In April 2023, the plaintiffs filed an amended complaint and assert only claims made under Sections 11 and 15 of the Securities Act. In December 2023, the Court granted Defendants’ motion to dismiss with leave to amend. The Company believes these lawsuits are without merit and intends to vigorously defend them. Based on the preliminary nature of the proceedings in these cases, the Company cannot estimate a range of potential losses at this point in time.

In August 2021, a shareholder derivative action purportedly brought on behalf of the Company, Patel v. Szulczewski, was filed in the U.S. District Court for the Northern District of California alleging that the Company’s directors and officers made or caused the Company to make false and/or misleading statements about the Company’s business operations and financial prospects in various public filings. Plaintiff asserts claims for breach of fiduciary duties, unjust enrichment, abuse of control, gross mismanagement, waste of corporate assets, violations of Section 14(a) of the Exchange Act, and for contribution under Sections 10(b) and 21D of the Exchange Act and is seeking monetary damages. This matter is currently stayed. The Company believes this lawsuit is without merit and it intends to vigorously defend it. Based on the preliminary nature of the proceedings in these cases, the Company cannot estimate a range of potential losses at this point in time.

In November 2021, France’s Directorate General for Competition, Consumer Affairs and Repression of Fraud (“DGCCRF”) issued an injunction delisting the Wish “App” from Google Play and the Apple App Store, and blocking Wish from appearing in Google, Bing and Qwant search results on the premise that unsafe products or products of poor quality are available for purchase on Wish. On March 10, 2023, the DGCCRF determined that the Company is in compliance with the injunction and applicable regulatory requirements, and lifted the injunction. As a result, the Company has been relisted

and has returned to the application stores, such as Google Play and the Apple App Store, and search engines, such as Google, Bing and Qwant, in France. Although the underlying case reviewing the legal question of whether the agency has the power to delist any company remains pending, the Company no longer believes there is a reasonable possibility of a material loss.

As of December 31, 2023, in the opinion of management, there were no other legal contingency matters that arose in the ordinary course of business, either individually or in aggregate, that would have a material adverse effect on the financial position, results of operations, or cash flows of the Company. Given the unpredictable nature of legal proceedings, the Company bases its estimate on the information available at the time of the assessment. As additional information becomes available, the Company will reassess the potential liability and may revise the estimate.

8. COMMON STOCK AND STOCK-BASED COMPENSATION

Common Stock and Elimination of Dual-Class Structure

Prior to August 9, 2022, the Company had two classes of authorized common stock, Class A common stock and Class B common stock. Holders of Class A common stock are entitled to one vote for each share of Class A common stock held on all matters submitted to a vote of stockholders. Holders of Class B common stock were entitled to 20 votes for each share of Class B common stock held on all matters submitted to a vote of stockholders. Except with respect to voting, the rights of the holders of Class A and Class B common stock were identical. Shares of Class B common stock were voluntarily convertible into shares of Class A common stock at the option of the holder and were automatically converted into shares of Class A common stock upon a sale or transfer, subject to certain exemptions.

On August 4, 2022, Piotr Szulczewski provided notice of his intention to resign as a member of the Company's Board, effective August 9, 2022. In tandem with his resignation notice, Mr. Szulczewski submitted a conversion notice to convert (the "Conversion") all shares of Class B common stock of the Company he held into the same number of shares of Class A common stock of the Company, also effective August 9, 2022. In accordance with the Company's Amended and Restated Certificate of Incorporation, as the remaining outstanding shares of Class B common stock represented less than five percent (5%) of the aggregate number of outstanding shares of Class A common stock and Class B common stock outstanding after the Conversion, all remaining shares of Class B common stock were automatically converted into Class A common stock immediately following the Conversion on a one-to-one basis and no further Class B common stock will be issued. The Company filed a certificate with the Secretary of State of the State of Delaware effecting the retirement and cancellation of the shares of Class B Common Stock.

Until the Class B conversion, Class B shares of common stock were issued in connection with the settlement or exercise of equity awards granted under the 2010 Equity Stock Plan (the "2010 Plan") and Class A shares of common stock were issued in connection with the settlement or exercise of equity awards granted under the 2020 Equity Stock Plan (the "2020 Plan") or shares purchased under the 2020 Employee Stock Purchase Plan (the "2020 ESPP"). Effective August 9, 2022, Class A shares of common stock are issued under all equity plans. Additionally, all shares issuable pursuant to outstanding awards under the Company's 2010 Stock Plan will be issuable for Class A common stock.

2010 Equity Incentive Plan

Under the 2010 Plan, the Company granted RSUs to employees, which generally expire 7 years from the date of grant and vest upon the achievement of both a service condition and a liquidity condition. The service condition for these awards is satisfied over four or five years. The liquidity condition was satisfied upon the occurrence of the Company's IPO in December 2020.

The 2010 Plan was terminated in December 2020 in connection with the Company's IPO but continues to govern the terms of outstanding awards under the 2010 Plan. No further equity awards will be granted under the 2010 Plan. With the establishment of the 2020 Plan as further discussed below, upon the expiration, forfeiture or cancellation of any shares of Class A (Class B prior to the Conversion) common stock underlying outstanding stock-based awards granted under the 2010 Plan, an equal number of shares of Class A common stock will become available for grant under the 2020 Plan.

2020 Equity Incentive Plan

On November 19, 2020, the Company's Board of Directors adopted and approved the 2020 Plan. The 2020 Plan provides for the award of options, stock appreciation rights, restricted shares, and RSUs. The number of shares reserved for issuance under the 2020 Plan will be increased automatically on the first day of each fiscal year, commencing in 2022 and ending in 2030, by a number equal to the lesser of: (a) 5% of the shares of common stock outstanding on the last day

of the prior fiscal year; or (b) the number of shares determined by the Board of Directors. As of December 31, 2023, 2 million shares under the 2020 Plan remained available for grant.

2020 Employee Stock Purchase Plan

On November 19, 2020, the Company's Board of Directors adopted and approved the 2020 ESPP, which became effective on the IPO Date. The 2020 ESPP reserve for issuance will increase automatically on the first day of each fiscal year, commencing in 2022 and ending in 2040, by a number equal to the lesser of: (a) approximately 267 thousand shares of common stock; (b) 1% of the shares of common stock outstanding on the last day of the prior fiscal year; or (c) the number of shares of common stock determined by the Company's Board of Directors. As of December 31, 2023, 1 million shares under the 2020 ESPP remained available for issuance.

The 2020 ESPP allows eligible employees to purchase shares of the Company's Class A common stock at a discount through payroll deductions of up to 15% of eligible compensation, subject to caps of \$25,000 in any calendar year and 166 shares. The 2020 ESPP provides for 24-month offering periods, generally beginning in November and May of each year, and each offering period consists of four six-month purchase periods. During the year ended December 31, 2023, approximately 42 thousand shares of common stock were purchased under the ESPP for an aggregate amount of \$252 thousand.

On each purchase date, participating employees will purchase Class A common stock at a price per share equal to 85% of the lesser of the fair market value of the Company's Class A common stock on (i) the first trading day of the applicable offering period and (2) the last trading day of each purchase period in the applicable offering period. If the stock price of the Company's Class A common stock on any purchase date in an offering period is lower than the stock price on the enrollment date of that offering period, the offering period will immediately reset after the purchase of shares on such purchase date and automatically roll into a new offering period (ESPP reset). During the year ended December 31, 2023, there was an ESPP reset at the end of both May and November purchase periods, resulting in an additional expense of approximately \$2 million, which is being recognized on a straight-line basis through November 20, 2025.

2022 Inducement Plan

In January 2022, the Company's Board adopted and approved the 2022 Inducement Plan ("2022 Plan"). The Company intends that the 2022 Plan be reserved for persons to whom the Company may issue securities without stockholder approval as an inducement of employment pursuant to Rule 5635(c)(4) of the Marketplace Rules of the Nasdaq Stock Market, LLC. The 2022 Plan provides for the award of options, stock appreciation rights, restricted shares, and RSUs of the Company's Class A common stock to the Company's employees. Stock-based awards under the 2022 Plan that expire or are forfeited, cancelled, or repurchased generally are returned to the pool of shares of Class A common stock available for issuance under the 2022 Plan.

As of December 31, 2023, 350 thousand shares under the 2022 Plan remained available for grant.

Equity Award Activity

A summary of activity under the equity plans and related information is as follows:

	Options Outstanding			RSUs Outstanding	
	Number of Options (in thousands)	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (In Years)	Number of RSUs (in thousands)	Weighted-Average Grant Date Fair Value
Balances at December 31, 2022	67	\$ 31.17	9.5	2,399	\$ 83.88
Granted	299	\$ 15.03		2,871	\$ 13.56
Vested				(1,323)	\$ 65.26
Forfeited or cancelled	—			(1,771)	\$ 49.88
Balances at December 31, 2023	<u>366</u>	<u>\$ 18.00</u>	<u>9.0</u>	<u>2,176</u>	<u>\$ 30.05</u>

The weighted-average grant date fair value of options granted during the years ended December 31, 2023 and 2022 was \$11.27 and \$47.25 per share. Approximately 180 thousand options as of December 31, 2023 were vested. The vested options have a weighted average exercise price of \$21.09, a weighted-average remaining contractual term of 8.90 years, and an aggregate intrinsic value of zero. The aggregate intrinsic value of options exercised during the year ended December 31, 2022 was \$24 million. There were no options exercised during the year ended December 31, 2023. The intrinsic value

is the difference between the closing price of the Company's common stock at the date of exercise and the exercise price for in-the-money options.

The weighted-average grant date fair value of RSUs granted during the years ended December 31, 2023, and 2022 was \$13.56 and \$48.97 per share, respectively. The total intrinsic value of RSUs which were vested and released during the years ended December 31, 2023 and 2022 was \$13 million and \$42 million, respectively.

The aggregate intrinsic value of options and RSUs outstanding as of December 31, 2023 was zero and \$13 million, respectively. The aggregate intrinsic value of options and RSUs outstanding as of December 31, 2022 was zero and \$35 million, respectively.

Performance Stock Units

On January 31, 2022, Mr. Szulczewski resigned from his position as CEO of the Company. Due to his resignation prior to the second anniversary of the Company's IPO, Mr. Szulczewski is no longer eligible to vest in his PSUs, and as such, the PSUs were canceled. Consequently, the Company reversed \$21 million of previously recognized stock-based compensation expense related to these PSUs in the first quarter of 2022.

In February 2022, Jacqueline Reses resigned from her position as Executive Chair. Upon her resignation, Ms. Reses entered into a consulting agreement with the Company and her PSU award was modified to eliminate the market condition, with only continued service until the expiration of the consulting agreement being the sole vesting condition. Consequently, the Company reversed \$3 million of previously recognized stock-based compensation expense upon modification and recognized the modified fair value of approximately \$2 million from the modification date to the expiration date of the consulting agreement, which was May 16, 2023.

CEO transition

In January 2022, the Company entered into an employment agreement with Vijay Talwar, as the Company's new CEO, with employment commencing on February 1, 2022. As an inducement of employment, Mr. Talwar was granted, i) 154 thousand RSUs with an aggregate grant date fair value of \$13 million and ii) options to purchase 216 thousand shares of the Company's Class A common stock at an exercise price of \$85.80 per share with an aggregate grant date fair value of \$12 million. These RSUs and options were granted under the 2022 Plan and would have become vested and exercisable, respectively, in periodic installments over a 4-year term, subject to the CEO's continued employment with the Company. The option award had a term of 10 years.

In September 2022, the Company's Board terminated Mr. Talwar from his position as CEO of the Company. As set forth in his employment agreement with the Company, Mr. Talwar was entitled to certain benefits, which included, accelerated vesting of the unvested portion of his equity awards that would have vested within twelve months of his involuntary termination. Consequently, the Company recognized \$6 million of stock-based compensation expense upon the acceleration of Mr. Talwar's equity awards on his termination date.

In September 2022, the Company entered into an employment agreement with Jun Yan, as the Company's then interim CEO, with employment commencing September 27, 2022. As an inducement of employment, Mr. Yan was granted i) 65 thousand RSUs with an aggregate grant date fair value of \$2 million and ii) options to purchase 65 thousand shares of the Company's Class A common stock at an exercise price of \$25.85 per share with an aggregate grant date fair value of \$1 million. These RSUs and options were granted under the 2022 Plan and will become vested and exercisable, respectively, in periodic installments over an approximate 1-year term, subject to the interim CEO's continued employment with the Company. The option award has a term of 10 years. If Mr. Yan were to be terminated from his position as interim CEO within six months from his commencement of employment, 50% of both his RSU and options would immediately vest.

In February 2023, the Board appointed Jun Yan as the Company's CEO, who was then serving as the Company's interim CEO. According to the terms of his new employment agreement, Mr. Yan was granted (i) 167 thousand RSUs with an aggregate grant date fair value of \$3 million and (ii) options to purchase 299 thousand shares of the Company's common stock at an exercise price \$15.03 per share with an aggregate grant date fair value of \$3 million. These RSUs and options will become vested and exercisable, respectively, in periodic installments over a 2-year term, subject to the CEO's continued service with the Company. The option award has a term of 10 years. The vesting of Mr. Yan's equity awards granted under his previous employment agreement as interim CEO was accelerated upon Mr. Yan's appointment to the Company's CEO. As of December 31, 2023, those RSU and option awards are fully vested.

Stock Option Valuation

The fair value of options is estimated using the Black-Scholes option pricing model which takes into account inputs such as the exercise price, the value of the underlying shares as of the grant date, expected term, expected volatility, risk free interest rate, and dividend yield. The fair value of the options was determined using the methods and assumptions discussed below:

- The expected term of the options was determined using the “simplified” method as prescribed in the SEC’s Staff Accounting Bulletin No. 107, whereby the expected life equals the arithmetic average of the vesting term and the original contractual term of the option due to the Company’s lack of sufficient historical data.
- The risk-free interest rate was based on the interest rate payable on the U.S. Treasury securities in effect at the time of grant for a period that is commensurate with the assumed expected term.
- The expected volatility was based on the historical volatility of the publicly traded common stock of peer group companies blended with the limited historical volatility of the Company’s own common stock weighted to reflect the short trading period of the Company’s stock since its IPO in December 2020.
- The expected dividend yield was zero because the Company has not historically paid and does not expect to pay a dividend on its ordinary shares in the foreseeable future.

A summary of the weighted-average assumptions used in the Black-Scholes option pricing model to determine the fair value of the options granted during the years ended December 31, 2023 and 2022 is as follows:

	Year Ended	
	2023	2022
Expected term (in years)	5.55	5.93
Risk free interest rate	4.15%	2.28%
Volatility	91.51%	75.53%
Dividend yield	—	—

Stock-Based Compensation Expense

Total stock-based compensation expense included in the consolidated statements of operations is as follows:

	Year Ended December 31,	
	2023	2022
	(in millions)	
Cost of revenue	\$ 3	\$ 7
Sales and marketing	4	6
Product development	36	50
General and administrative	21	9
Total stock-based compensation⁽¹⁾	\$ 64	\$ 72

- (1) Total stock-based compensation expense for the year ended December 31, 2023 decreased by \$8 million compared to the year ended December 31, 2022 primarily because stock-based compensation of outstanding equity awards during 2023 was based off a lower weighted average grant date fair value compared to that of outstanding equity awards from the 2022 and the impacts of the reductions in force during the first and third quarters of 2023, partially offset by the impacts of PSU reversals and equity modifications during the year ended December 31, 2022.

The Company will recognize the remaining \$2 million and \$55 million of unrecognized stock-based compensation expense over a weighted-average period of approximately 1.1 years and 1.9 years related to options and RSUs, respectively.

9. INCOME TAXES

The components of loss before provision for income taxes are as follows:

	Year Ended December 31,	
	2023	2022
	(in millions)	
Domestic	\$ 321	\$ 388
Foreign	(9)	(5)
Loss before provision for income taxes	<u>\$ 312</u>	<u>\$ 383</u>

The provision for income taxes consisted of the following:

	Year Ended December 31,	
	2023	2022
	(in millions)	
Current:		
Federal	\$ —	\$ —
State	—	(1)
Foreign	6	1
Total current	<u>6</u>	<u>—</u>
Deferred:		
Federal	—	—
State	—	—
Foreign	(1)	1
Total deferred	<u>(1)</u>	<u>1</u>
Total provision for income taxes	<u>\$ 5</u>	<u>\$ 1</u>

There has historically been no federal or state provision for income taxes because the Company has historically incurred operating losses and maintains a full valuation allowance against its net deferred tax assets. For the years ended December 31, 2023 and 2022, the Company recognized \$5 million and \$1 million tax provision expense, respectively, related primarily to foreign income taxes. For the year ended December 31, 2023 there was \$6 million of current foreign tax expense offset against \$1 million of deferred foreign tax benefit. For the year ended December 31, 2022 there was \$1 million of current foreign tax expense offset against \$1 million current state tax benefit and \$1 million of deferred foreign tax expense.

The difference between income taxes computed at the statutory federal income tax rate and the provision for income taxes is attributable to the following:

	Year Ended December 31,	
	2023	2022
	(in millions)	
Federal benefit at statutory rate	\$ (66)	\$ (80)
State tax (benefit), net of federal benefit	—	(1)
Stock-based compensation	14	16
Foreign rate differential	7	11
Other	1	(2)
Change in valuation allowance	49	57
Total provision for income taxes	<u>\$ 5</u>	<u>\$ 1</u>

The tax provision differs from the benefit that would result from applying statutory rates to losses before income taxes primarily due to the valuation allowance provided on net deferred tax assets. Deferred income taxes reflect the net tax effects of (a) temporary differences between the tax basis of assets and liabilities and their carrying amounts for financial reporting purposes and (b) net operating losses and tax credit carryforwards. The change in valuation allowance is related mainly to the increase in net operating loss carryforwards, partially offset by other changes in the deferred tax assets.

Stock-based compensation increased the income tax provision by \$14 million and \$16 million in 2023 and 2022, respectively, due to the Company experiencing a tax shortfall. A tax shortfall occurs when the fair market value of stock on the vest date is lower than the stock price on the grant date, which causes book deductions to exceed deductions allowed for tax purposes.

Deferred tax assets and liabilities are as follows:

	December 31,	
	2023	2022
	(in millions)	
Deferred tax assets:		
Net operating loss carryforwards	\$ 609	\$ 558
Capitalization of R&D expenses	47	30
Lease liabilities	3	4
Reserves and accruals not currently deductible	9	11
Stock-based compensation	2	5
Fixed assets including right of use assets	1	1
Total gross deferred tax assets	671	609
Less: valuation allowance	(669)	(607)
Total deferred tax assets, net of valuation allowance	2	2
Deferred tax liabilities:		
Property and equipment, including right-of-use assets	—	—
Total gross deferred tax liabilities	—	—
Net deferred tax assets	\$ 2	\$ 2

Beginning January 1, 2022, the United States no longer allows research and development (R&D) expenses to be deducted as current expenditures when calculating taxable income. This change is a result of the Tax Cuts and Job Act enacted in 2017. R&D expenses incurred are subject to capitalization with amortization being allowed based on the location of the incurred expense; domestic United States expenses are amortized over a 5-year period and international expenses are amortized over a 15-year period. The \$47 million deferred tax asset recognized above is the net impact of capitalization and amortization expense. The deferred tax asset for reserves and accruals not currently deductible decreased by \$2 million in 2023. This change was due in large part to certain criteria being met to allow the expense for tax purposes. Net operating losses increased by \$51 million in 2023. The Company has not yet experienced any net operating losses expiring before use. The valuation allowance increased by \$62 million in 2023. Most of the Company's deferred tax assets are offset by valuation allowance as of December 31, 2023.

The table below details the activity of the deferred tax asset valuation allowance:

	Balance at Beginning of Period	Additions		Deductions		Balance at End of Period
	(in millions)					
Year ended December 31, 2023						
Deferred tax assets valuation allowance	\$ 607	\$ 62	\$ —	\$ —	\$ —	\$ 669
Year ended December 31, 2022						
Deferred tax assets valuation allowance	\$ 546	\$ 61	\$ —	\$ —	\$ —	\$ 607

Due to a history of losses, the Company believes it is not more likely than not that its domestic net deferred tax assets will be realized as of December 31, 2023 or 2022. Accordingly, the Company has established a full valuation allowance on its domestic net deferred tax assets. The Company's valuation allowance increased \$62 million and \$61 million during the years ended December 31, 2023 and 2022, respectively.

The Company intends to reinvest substantially all of its foreign subsidiary earnings indefinitely outside of the U.S. Due to the one-time transition tax and the imposition of the Global Intangible Low-Tax Income provisions, all previously unremitted earnings will no longer be subject to U.S. Federal income tax; however, there could be foreign withholding taxes upon distribution of such unremitted earnings. It is not practical to estimate this liability at this time.

As of December 31, 2023, the Company had federal net operating loss carryforwards available to reduce future taxable income, if any, of \$886 million that begin to expire in 2030 and continue to expire through 2037 and \$1.9 billion that have an unlimited carryover period. As of December 31, 2023, the Company had state net operating loss carryforwards available to reduce future taxable income, if any, of \$7.0 billion that begin to expire in 2026 and continue to expire through 2043 and \$2.0 billion that have an unlimited carryover period.

Utilization of net operating loss carryforwards may be subject to future annual limitations due to the ownership change limitations provided by Section 382 of the Internal Revenue Code and similar state provisions.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

	Year Ended December 31,	
	2023	2022
	(in millions)	
Balance as of January 1	\$ 9	\$ 1
Additions for tax positions of current year	1	9
Additions for tax positions of prior years	2	—
Decreases for tax positions of prior years	(8)	(1)
Balance as of December 31	<u>\$ 4</u>	<u>\$ 9</u>

The \$4 million of unrecognized tax benefit as of December 31, 2023 will impact the Company's effective tax rate when it is subsequently recognized. The Company had unrecognized tax benefit as of December 31, 2022 of \$9 million. Interest and penalties incurred during the year ended December 31, 2023 were insignificant. The Company classifies interest and penalties as part of operating expenses. No interest or penalties were incurred during the year ended December 31, 2022. The decrease from 2022 to 2023 is due to clarifying guidance issued by the Internal Revenue Service regarding certain costs that may require capitalization. The Company does not anticipate that the amount of unrecognized tax benefit will significantly change within the next twelve months.

The Company files income tax returns in the U.S. federal jurisdiction, and various state and foreign jurisdictions. The Company is not currently under examination by income tax authorities in federal or other jurisdictions, with the exception of one state. All tax returns will remain open for examination by the federal and state authorities for three and four years, respectively, from the date of utilization of any net operating loss or credits. Certain tax years are subject to foreign income tax examinations by tax authorities until the statute of limitations expire.

In recent years the United States has enacted new tax legislations (the American Rescue Act, CHIPS and Science Act, and the Inflation Reduction Act). Due to the Company's net operating losses for both accounting and tax purposes, the new tax legislations do not have a material impact on the Company's provision for income taxes.

10. NET LOSS PER SHARE

Prior to August 9, 2022, the Company computed net loss per share attributable to common stockholders using the two-class method required for multiple classes of common stock and participating securities. The rights, including the liquidation and dividend rights, of the holders of Class A and Class B common stock were identical, except with respect to voting. As the liquidation and dividend rights were identical, the Company's undistributed earnings or losses were allocated on a proportionate basis among the holders of both Class A and Class B common stock. As a result, the net loss per share attributed to common stockholders was, therefore, the same for both Class A and Class B common stock on an individual or combined basis.

Effective August 9, 2022, all Class B common stock were converted to Class A common stock. Net loss per share for the years ended December 31, 2023 and 2022 were not affected by the conversion.

The following table sets forth the computation of basic and diluted net loss per share attributable to common stockholders:

	Year Ended December 31,	
	2023	2022
	(\$ in millions, shares in thousands, except per share data)	
Numerator:		
Net loss	\$ (317)	\$ (384)
Denominator:		
Weighted-average shares used in computing net loss per share, basic and diluted	23,732	22,415
Net loss per share attributable to common stockholders, basic and diluted	\$ (13.36)	\$ (17.13)

The following outstanding shares of potentially dilutive securities were excluded from the computation of diluted net loss per share because including them would have had an anti-dilutive effect:

	December 31,	
	2023	2022
	(in thousands)	
Common stock options outstanding	366	67
Unvested restricted stock units outstanding	2,176	2,399
Employee stock purchase plan	57	109
Total	2,599	2,575

11. GEOGRAPHICAL INFORMATION

The Company believes it is relevant to disclose geographical revenue information on both a demand basis, determined by the ship-to address of the user, and on a supply basis, determined by the location of the merchants' operations.

Core marketplace revenue by geographic area based on the ship-to address of the user is as follows:

	Year Ended December 31,			
	2023		2022	
	(\$ in millions)			
Europe	\$ 44	51%	\$ 83	38%
North America ⁽¹⁾	30	35%	105	48%
South America	4	5%	7	3%
Other	8	9%	25	11%
Core marketplace revenue ⁽²⁾	<u>\$ 86</u>	<u>100%</u>	<u>\$ 220</u>	<u>100%</u>

(1) United States accounted for \$22 million and \$83 million of core marketplace revenue for the years ended December 31, 2023 and 2022, respectively.

(2) Core marketplace revenue included a net loss of \$3 million for the year ended December 31, 2023 and a net loss of \$6 million for the year ended December 31, 2022, from the Company's cash flow hedging program.

China accounted for substantially all of marketplace and logistics revenue in 2023 and 2022, respectively, based on the location of the merchants' operations. Marketplace and logistics revenue from merchants based in the United States was immaterial in all years presented.

The Company's long-lived tangible assets, which consist of property and equipment, net, and operating lease right-of-use assets, net, is as follows:

	Year Ended December 31,			
	2023		2022	
	(\$ in millions)			
United States	\$ 5	56%	\$ 13	72%
China	4	44%	4	22%
Other ⁽¹⁾	—	—	1	6%
Total property and equipment, net and right-of-use assets	<u>\$ 9</u>	<u>100%</u>	<u>\$ 18</u>	<u>100%</u>

(1) Other long-lived tangible assets were located in Canada and the Netherlands.

12. REDUCTIONS IN WORKFORCE

In February 2022, the Company's Board approved the February 2022 Restructuring Plan ("2022 Restructuring Plan") to refocus the Company's operations to support sustainable long-term growth, better align resources, and improve operational efficiencies. The 2022 Restructuring Plan included i) the reduction of the Company's headcount by approximately 15% (or approximately 190 positions), ii) the exit from various office leases, and iii) the reduction and realignment of vendor expenditures. In connection with the 2022 Restructuring Plan, the Company incurred charges of approximately \$3 million in severance and other personnel reduction costs for terminated employees and \$11 million in impairments of leased assets and property and equipment. All related severance payments were paid as of December 31, 2022.

In January 2023 and August 2023, the Company announced plans to reduce its workforce by up to 150 and 255 employees, respectively, representing approximately 17% and 34%, respectively, of the Company's then global workforce ("2023 RIFs"). In connection with the 2023 RIFs, the Company incurred charges of approximately \$13 million in severance and other personnel reductions costs for terminated employees. The 2023 RIFs were intended to refocus the Company's operations to support its ongoing business prioritization efforts, better align resources, and improve operational efficiencies. Substantially all related severance payments were paid as of December 31, 2023.

The 2023 RIFs were intended to refocus the Company's operations to support its ongoing business prioritization efforts, better align resources, and improve operational efficiencies. Total severance and other personnel reduction costs included in the consolidated statements of operations are as follows:

	Year Ended December 31, 2023	
	(in millions)	
Cost of revenue	\$	1
Sales and marketing		2
Product development		8
General and administrative		2
Total severance and other personnel reduction costs	\$	<u>13</u>

The following table is a summary of the changes in severance and other personnel reduction liabilities, included within accrued liabilities on the consolidated balance sheet as of December 31, 2023, in connection with each of the 2023 RIFs:

	<u>January RIF</u>	<u>August RIF</u>
	(in millions)	
Balance at the beginning of the period	\$ —	\$ —
Severance and other personnel reduction costs	3	10
Cash payments during the period	(3)	(10)
Balance at the end of the period	<u>\$ —</u>	<u>\$ —</u>

13. SUBSEQUENT EVENTS

Asset Purchase Agreement

On February 10, 2024, the Company entered into an asset purchase agreement (the "Asset Purchase Agreement") with Qoo10 Inc., a Delaware corporation ("Qoo10"), and, for certain specified purposes, Qoo10 Pte. Ltd., a Singapore private limited company, pursuant to which (i) the Company has agreed to sell substantially all of its assets to Qoo10, other than (A) the Company's NOLs and certain other tax attributes, (B) the Company's marketable securities held in a specified wealth management account and (C) the Company's cash and cash equivalents held in that wealth management account, and (ii) Qoo10 has agreed to acquire those assets and assume substantially all of the Company's liabilities as specified in the Asset Purchase Agreement (the "Asset Sale"). As consideration for the Asset Sale, Qoo10 has agreed to pay to the Company a purchase price equal to \$173 million in cash, subject to certain cash adjustments as set forth in the Asset Purchase Agreement. The closing of the Asset Sale is subject to approval by holders of a majority of the outstanding shares of the

Company's Class A common stock entitled to vote thereon and other customary closing conditions. The Asset Sale is expected to close in the second quarter of 2024.

Series A Junior Participating Preferred Stock and Tax Benefits Preservation Plan

On February 10, 2024, the Company's Board of Directors adopted a Tax Benefits Preservation Plan and declared a dividend of one right (a "Right") for each outstanding share of the Company's Class A common stock to stockholders of record at the close of business on February 22, 2024 (the "Record Date"). Each Right entitles its holder, subject to the terms of the Tax Benefits Preservation Plan, to purchase from the Company one one-thousandth of a share of Series A Preferred Stock of the Company at an exercise price of \$20.00 per Right, subject to adjustment. The description and terms of the Rights are set forth in the Tax Benefits Preservation Plan.

In connection with the adoption of the Tax Benefits Preservation Plan, on February 12, 2024, the Company filed with the Delaware Secretary of State, a Certificate of Designation designating 3,000,000 shares of Series A Junior Participating Preferred Stock, \$0.0001 par value per share ("Series A Preferred Stock"). The Company designated the Series A Preferred Stock in connection with the Company's Board of Director's approval of a Tax Benefits Preservation Plan, as discussed below.

The Company adopted the Tax Benefits Preservation Plan in order to protect against a possible limitation on the Company's ability to use the Company's NOLs and certain other tax attributes to reduce potential future U.S. federal income tax obligations. The NOLs and certain other tax attributes are valuable assets to the Company, which may inure to the benefit of the Company and its stockholders. However, if the Company experiences an "ownership change," as defined in Section 382 of the Internal Revenue Code of 1986, as amended (the "Code"), its ability to fully utilize the NOLs and certain other tax attributes will be substantially limited and the timing of the usage of the NOLs and other tax attributes could be substantially delayed, which could significantly impair the value of those assets. Generally, an "ownership change" occurs if the percentage of the Company's stock owned by one or more of its "5-percent shareholders" (as such term is defined in Section 382 of the Code) increases by more than 50 percentage points over the lowest percentage of stock owned by such stockholder or stockholders at any time over a three-year period. The Tax Benefits Preservation Plan is intended to prevent such an "ownership change" by deterring any person or group, together with its affiliates and associates, from acquiring beneficial ownership of 4.9% or more of the Company's securities.

Subject to certain exceptions, the Rights become exercisable and trade separately from the Company's Class A common stock only upon the "Distribution Time", which occurs upon the earlier of: (i) the close of business on the tenth day after the "Stock Acquisition Date" (which is (a) the first date of public announcement that any person or group has become an "Acquiring Person," which is defined as a person or group that, together with its affiliates and associates, beneficially owns 4.9% or more of the outstanding shares of the Company's Class A common stock (with certain exceptions, including those described below) or (b) such other date, as determined by the Company's Board of Directors, on which a person or group has become an Acquiring Person), or (ii) the close of business on the tenth business day (or such later date as may be determined by the Company's Board of Directors prior to such time as any person or group becomes an Acquiring Person) after the commencement of a tender offer or exchange offer that, if consummated, would result in a person or group becoming an Acquiring Person.

The Rights will expire on the earliest to occur of: (a) the close of business on February 10, 2027; (b) the time at which the Rights are redeemed or exchanged by the Company; (c) upon the closing of any merger or other acquisition transaction involving the Company pursuant to a merger or other acquisition agreement that has been approved by the Company's Board of Directors before any person or group becomes an Acquiring Person or (d) the time at which the Company's Board of Directors determines that the NOLs and certain other tax attributes are utilized in all material respects or that an ownership change under Section 382 of the Code would not adversely impact in any material respect the time period in which the Company could use the NOLs and other tax attributes or materially impair the amount of NOLs and other tax attributes that could be used by the Company in any particular time period, for applicable tax purposes.

Other subsequent events have been evaluated through the date of filing and no other reportable items were identified.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) are designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission (“SEC”) and to ensure that information required to be disclosed is accumulated and communicated to management, including our principal executive and financial officers, to allow timely decisions regarding required disclosure.

Our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), with assistance from other members of management, have evaluated the effectiveness of our disclosure controls and procedures as of December 31, 2023, and based on their evaluation, have concluded that our disclosure controls and procedures were not effective as of such date due to material weaknesses in internal control over financial reporting, described below.

Management’s Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Management, with the participation of our CEO and CFO, has assessed the effectiveness of our internal control over financial reporting as of December 31, 2023 based on the criteria described in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”). Based on this assessment, management has concluded that our internal control over financial reporting as of December 31, 2023 was not effective due to the material weaknesses identified below.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our financial statements will not be prevented or detected on a timely basis. As of the end of the period covered by this report, the following material weaknesses exist:

- The Company did not design and maintain an effective control environment commensurate with its financial reporting requirements. Specifically, the Company did not (i) provide sufficient management oversight and ownership over the internal control evaluation process or (ii) hire and train sufficient competent personnel to support the Company’s internal control objectives. This material weakness contributed to the following additional material weakness:
- The Company did not design and maintain effective controls over information technology general controls (“ITGCs”) for information systems and applications that are relevant to the preparation of the consolidated financial statements. Specifically, the Company did not design and maintain: (i) sufficient user access controls to ensure appropriate segregation of duties and adequately restrict user and privileged access to financial applications, programs and data to appropriate Company personnel; (ii) program change management controls to ensure that information technology program and data changes affecting financial information technology applications and underlying accounting records are identified, tested, authorized and implemented appropriately; and (iii) computer operations controls to ensure that critical batch and interface jobs are monitored, privileges are appropriately granted, and data backups are authorized and monitored.

Neither of the material weaknesses described above resulted in a material misstatement to our annual or interim consolidated financial statements. However, the material weaknesses described above could result in a misstatement of one or more account balances or disclosures that would result in a material misstatement to the annual or interim consolidated financial statements that would not be prevented or detected.

The effectiveness of our internal control over financial reporting as of December 31, 2023 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report appearing under “Item 8. Financial Statements and Supplementary Data”.

Management's Plan to Remediate the Material Weaknesses

Our remediation efforts are ongoing. As noted in Item 1, Wish entered into an Asset Purchase Agreement with Qoo10 to sell substantially all of its assets, other than (A) the Company's NOLs and certain other tax attributes, (B) the Company's marketable securities held in a specified wealth management account and (C) the Company's cash and cash equivalents held in that wealth management account. The Company will reassess its remediation efforts after the close of this transaction, considering its anticipated minimal operations and future filer status.

The remediation measures we have taken to date include:

- i. hiring and continuing to hire additional qualified accounting, financial reporting, tax and information technology personnel as well as increasing third-party consultants with public company and internal control over financial reporting experience including a new Chief Executive Officer with a deep understanding of ecommerce and cross border business, a technical project manager to assist with communicating, documenting, and assisting with the remediation of deficiencies, and additional resources to test internal controls;
- ii. providing additional training for our personnel including the appropriate level of documentation to be maintained to support internal control over financial reporting;
- iii. holding periodic SOX Steering Committee meetings which are comprised of all the top Executives of the Company and whose purpose is to provide oversight of the Company's SOX program on behalf of the CEO, CFO and management responsible for SOX Compliance, including monitoring progress of the identified deficiencies and their remediation efforts;
- iv. designing and implementing controls to formalize roles and review responsibilities to align with the staff's skills and experience and to ensure proper internal control over financial reporting;
- v. continuing to enhance processes to monitor critical batch and interface jobs;
- vi. holding periodic meetings with the Audit Committee to communicate deficiencies, discuss the overall remediation plan, and discuss progress made against the approved plan;
- vii. enhancing our IT governance processes, including automating components of our change management and logical access processes, enhancing role-based access and logging capabilities, implementing automated controls, enhancing testing and approval controls for program development, and implementing more robust IT policies and procedures over change management and computer operations;
- viii. continuing to enhance and standardize user access reviews and monitoring controls to improve segregation of duties, and more comprehensively review user and privileged access to financial applications, programs and data to appropriate Company personnel;
- ix. continuing to enhance the design of computer operations controls related to the monitoring of critical batch and interface jobs;
- x. performed a comprehensive reassessment of financial reporting risks relevant to our consolidated financial statements, including identification of financially relevant systems and business processes at the financial statement assertion level, to facilitate the design and implementation or enhancement of existing controls to address the identified risks; and
- xi. enhanced the oversight and review of non-recurring transactions to include consistent communication between functional areas, support consistent documentation of conclusions reached, and retention of evidence supporting the operation of control activities.

We are committed to continuing to implement a strong system of controls and believe that our ongoing remediation efforts will result in significant improvements to our internal control over financial reporting and will remediate the material weaknesses. We will continue to monitor the effectiveness of these remediation measures, and we will make any changes to the design of this plan and take such other actions that we deem appropriate given the circumstances. As noted above, we will reassess our remediation efforts subsequent to the close of the Qoo10 transaction.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended December 31, 2023 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on the Effectiveness of Controls and Procedures

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls. The design of any system of controls is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with policies or procedures may deteriorate. Due to inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Item 9B. Other Information.

Rule 10b5-1 Trading Plans

On September 12, 2023, Rachel Wang, our previous Head of Data Science, entered into a pre-arranged trading plan that was intended to satisfy the affirmative defense of Rule 10b5-1(c) of the Exchange Act (the "Plan"). This Plan provided for the sale of up to an aggregate of 5,043 shares of our common stock, plus the total number of shares that would be issued in connection with the settlement of four RSU awards (after mandatory withholding in respect of tax withholding obligations) in connection with various vesting events between September 2023 and February 2025, and terminated on November 27, 2023, the date of Ms. Wang's termination.

No other director or officer, as defined in Rule 16a-1(f), adopted or terminated a Rule 10b5-1 trading arrangement or a non-Rule 10b5-1 trading arrangement, as defined in Item 408 of Regulation S-K of the Exchange Act during the year ended December 31, 2023.

Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections.

Not applicable.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

We maintain a Code of Business Conduct and Ethics that incorporates our code of ethics applicable to all employees, including all directors and executive officers. Our Code of Business Conduct and Ethics is published on our Investor Relations website at <https://ir.wish.com/> under "Corporate Governance." We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding amendments to, or waiver from, a provision of our Code of Business Conduct and Ethics by posting such information on the website address and location specified above.

The remaining information required by this item is incorporated by reference to the definitive Proxy Statement for our 2024 Annual Meeting of Stockholders, which will be filed with the SEC no later than 120 days after December 31, 2023.

Item 11. Executive Compensation.

The information required by this item is incorporated by reference to the definitive Proxy Statement for our 2024 Annual Meeting of Stockholders, which will be filed with the SEC no later than 120 days after December 31, 2023.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The information required by this item is incorporated by reference to the definitive Proxy Statement for our 2024 Annual Meeting of Stockholders, which will be filed with the SEC no later than 120 days after December 31, 2023.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

The information required by this item is incorporated by reference to the definitive Proxy Statement for our 2024 Annual Meeting of Stockholders, which will be filed with the SEC no later than 120 days after December 31, 2023.

Item 14. Principal Accounting Fees and Services.

The information required by this item is incorporated by reference to the definitive Proxy Statement for our 2024 Annual Meeting of Stockholders, which will be filed with the SEC no later than 120 days after December 31, 2023.

PART IV

Item 15. Exhibits, Financial Statement Schedules.

1. Consolidated Financial Statements

We have filed the consolidated financial statements listed in the Index to Consolidated Financial Statements, Schedules, and Exhibits included in Part II, Item 8, “Financial Statements and Supplementary Data” of this Annual Report on Form 10-K.

2. Financial Statement Schedules

All financial statement schedules have been omitted because they are not applicable, not material, or the required information is shown in the consolidated financial statements or the notes thereto.

**Indicates a management contract or compensatory plan.

Item 16. Form 10-K Summary

None.

DESCRIPTION OF CAPITAL STOCK

General

The following description of the capital stock of ContextLogic Inc. (“us”, “our,” “we”, or the “Company”) is a summary. Our Class A common stock is the only security of the Company registered under Section 12 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We have adopted an amended and restated certificate of incorporation (“Certificate of Incorporation”) and amended and restated bylaws (“Bylaws”), and this description summarizes the provisions that are included in such documents. Because it is only a summary, it does not contain all the information that may be important to you. For a complete description of the matters set forth in this Exhibit 4.6, you should refer to our Certificate of Incorporation, Bylaws, and amended and restated investors’ rights agreement, each previously filed with the Securities and Exchange Commission and incorporated by reference as an exhibit to the Annual Report on Form 10-K of which this Exhibit 4.4 is a part, and to the applicable provisions of Delaware law.

In August 2022, in connection with the Company’s founder converting all shares of Class B common stock held by him into Class A common stock, the outstanding shares of Class B common stock following such conversion represented less than 5% of the aggregate number of shares of Class A common stock and Class B common stock outstanding after such conversion. Therefore, pursuant to the Certificate of Incorporation all remaining shares of Class B common stock were automatically converted into Class A common stock immediately following the founders’ conversion and no further Class B common stock will be issued (collectively, the “Conversion”). The Company subsequently filed a certificate with the Secretary of State of the State of Delaware effecting the retirement and cancellation of the shares of Class B common stock (“Certificate of Retirement”). All further references herein to common stock shall mean the Company’s Class A common stock.

Pursuant to the Certificate of Incorporation, the Conversion triggered various corporate governance changes as previously disclosed in the Company’s filings, which include:

- the Board became classified into three classes of directors with staggered three-year terms;
- directors will be able to be removed only for cause and only by the affirmative vote of the holders of at least two-thirds of the voting power of the Common Stock; and
- stockholders will only be able to take action at a meeting of stockholders and not by written consent.

Summary of Capital Stock

Our authorized capital stock consists of 3,100,000,000 shares, all with a par value of \$0.0001 per share, of which:

- 3,000,000,000 shares are designated as Class A common stock; and
- 100,000,000 shares are designated as preferred stock.

Dividend Rights

Subject to preferences that may apply to shares of preferred stock outstanding at the time, the holders of outstanding shares of our common stock are entitled to receive dividends out of funds legally available if our board of directors, in its discretion, determines to issue dividends and only then at the times and in the amounts that our board of directors may determine. Under Delaware law, we can only pay dividends either out of “surplus” or out of the current or the immediately preceding year’s net profits. Surplus is defined as the excess, if any, at any given time, of the total assets of a corporation over its total liabilities and statutory capital. The value of a corporation’s assets can be measured in a number of ways and may not necessarily equal their book value.

Voting Rights

The holders of our common stock are entitled to one vote per share. The holders of common stock do not have cumulative voting rights in the election of directors. Accordingly, holders of a majority of the voting power of the shares of common stock entitled to vote in any election of directors may elect all of the directors standing for election. Except for the election of directors, if a quorum is present, an action on a matter is approved if it receives the affirmative vote of the holders of a majority of the voting power of the shares of capital stock present in person or represented by proxy at the meeting and entitled to vote on the matter, unless otherwise required by applicable law, the Delaware General Corporation Law, our Certificate of Incorporation or our Bylaws. The election of directors will be determined by a plurality of the votes cast in respect of the shares present in person or represented by proxy at the meeting and entitled to vote, meaning that the nominees with the greatest number of votes cast, even if less than a majority, will be elected. The rights, preferences and

privileges of holders of common stock are subject to, and may be impacted by, the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

No Preemptive or Similar Rights

Holders of our common stock have no preemptive or conversion rights or other subscription rights, and there are no redemption or sinking fund provisions applicable to our common stock.

Right to Receive Liquidation Distributions

Upon our dissolution, liquidation or winding-up, the assets legally available for distribution to our stockholders are distributable ratably among the holders of our common stock, subject to prior satisfaction of all outstanding debt and liabilities and the preferential rights and payment of liquidation preferences, if any, on any outstanding shares of preferred stock.

Preferred Stock

No shares of preferred stock are outstanding, but we are authorized, subject to limitations prescribed by Delaware law, to issue preferred stock in one or more series, to establish from time to time the number of shares to be included in each series, and to fix the designation, powers, preferences and rights of the shares of each series and any of its qualifications, limitations or restrictions. Our board of directors also can increase or decrease the number of shares of any series, but not below the number of shares of that series then outstanding, without any further vote or action by our stockholders. Our board of directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of the common stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring or preventing a change in control of our company and may adversely affect the market price of our common stock and the voting and other rights of the holders of common stock. We have no current plan to issue any shares of preferred stock.

Registration Rights

Certain holders of our shares of our Class A common stock have registration rights. These shares are referred to as registrable securities. The holders of these registrable securities possess registration rights pursuant to the terms of our amended and restated investors' rights agreement dated March 18, 2019, as amended (the "investors' rights agreement"), which terms are described in additional detail below.

Demand Registration Rights

Under our investors' rights agreement, upon the written request of the holders of not less than 50% of the registrable securities then outstanding that we file a registration statement under the Securities Act of 1933, as amended (the "Securities Act") with an anticipated aggregate price to the public of at least \$15 million, we will be obligated to use our commercially reasonable efforts to register the sale of all registrable securities that holders may request in writing to be registered within 20 days of the mailing of a notice by us to all holders of such registration. We are required to effect no more than two registration statements that are declared or ordered effective, subject to certain exceptions. We may postpone the filing of a registration statement for up to 90 days no more than once in any 12-month period if in the good faith judgment of our board of directors such registration would be seriously detrimental to us, and we do not file another registration statement on our account or that of any other stockholder during such 90 day period.

Piggyback Registration Rights

If we register any of our securities for public sale, we will be obligated to use all commercially reasonable efforts to register all registrable securities that the holders of such securities request in writing be registered within 20 days of mailing of notice by us to all holders of the proposed registration. However, this right does not apply to a registration relating solely to employee benefit plans, a registration relating to the offer and sale of debt securities or a registration relating to a corporate reorganization or other transaction under Rule 145 of the Securities Act. The managing underwriter of any underwritten offering will have the right to limit, due to marketing reasons, the number of shares registered by these holders to 30% of the total shares covered by the registration statement, except for in this offering, in which these holders may be excluded entirely if the underwriters determine that the sale of their shares may jeopardize the success of the offering.

Form S-3 Registration Rights

The holders of the registrable securities can request that we register all or a portion of their shares on Form S-3 if we are eligible to file a registration statement on Form S-3 and the aggregate price to the public of the shares offered is at least \$5 million. We are required to file no more than one registration statement on Form S-3 per 12-month period upon exercise of these rights, subject to certain exceptions. We may postpone the filing of a registration statement for up to 90 days once in any 12-month period if in the good faith judgment of our board of directors such registration would be seriously

detrimental to us, and we do not register any other securities for our account or the account of any other stockholder during such 90-day period.

Additionally, we are required, once we become eligible to register securities on Form S-3, to use commercially reasonable efforts to qualify the registrable securities for registration on a delayed or continuous basis on Form S-3 pursuant to Rule 415 under the Securities Act. Holders of registrable securities may, no more than twice in a 12-month period, elect to sell registrable securities pursuant to such registration on a delayed or continuous basis, including up to once in a 12-month period through an underwritten offering.

Registration Expenses

We will pay all expenses (other than underwriting discounts, selling commissions and stock transfer taxes) of the holders incurred in connection with each of the registrations described above, subject to certain limitations. However, we will not pay for any expenses of any demand or Form S-3 registration if the request is subsequently withdrawn at the request of the holders of a majority of the registrable securities to be registered, subject to limited exceptions.

Termination of Registration Rights

The registration rights described above will terminate upon a liquidation event or as to any stockholder at such time as all of such stockholder's securities (together with any affiliate of the stockholder with whom such stockholder must aggregate its sales) could be sold pursuant to Rule 144 of the Securities Act, but in any event no later than the third-year anniversary of our initial public offering.

Anti-Takeover Provisions

Section 203 of the Delaware General Corporation Law

We are governed by the provisions of Section 203 of the Delaware General Corporation Law regulating corporate takeovers. This section prevents some Delaware corporations from engaging, under some circumstances, in a business combination, which includes a merger or sale of at least 10% of the corporation's assets with any interested stockholder, meaning a stockholder who, together with affiliates and associates, owns or, within three years prior to the determination of interested stockholder status, did own 15% or more of the corporation's outstanding voting stock, unless:

- the transaction is approved by the board of directors prior to the time that the interested stockholder became an interested stockholder; or
- subsequent to such time that the stockholder became an interested stockholder the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders by at least two-thirds of the outstanding voting stock which is not owned by the interested stockholder.

A Delaware corporation may "opt out" of these provisions with an express provision in its original certificate of incorporation or an express provision in its certificate of incorporation or amended and restated bylaws resulting from a stockholders' amendment approved by a majority of the outstanding voting shares. We have not opted out of these provisions. As a result, mergers or other takeover or change in control attempts of us may be discouraged or prevented.

Certificate of Incorporation and Bylaw Provisions

Our Certificate of Incorporation and Bylaws include a number of provisions that may have the effect of deterring hostile takeovers or delaying or preventing changes in control of our management team, including the following:

- *Supermajority Approvals.* Our Certificate of Incorporation and Bylaws provide that certain amendments to our Certificate of Incorporation and Bylaws by stockholders will require the approval of two-thirds of the combined vote of our then-outstanding shares of common stock. This will have the effect of making it more difficult to amend our Certificate of Incorporation and Bylaws to remove or modify certain provisions.
- *Board of Directors Vacancies.* Our Certificate of Incorporation and Bylaws authorize only our board of directors to fill vacant directorships. In addition, the number of directors constituting our board of directors is set only by resolution adopted by a majority vote of our entire board of directors. These provisions restricting the filling of vacancies will prevent a stockholder from increasing the size of our board of directors and gaining control of our board of directors by filling the resulting vacancies with its own nominees.
- *Classified Board.* Our board of directors is classified into three classes of directors with staggered three-year terms and directors will only be able to be removed from office for cause. The existence of a classified board could delay a successful tender offeror from obtaining majority control of our board of directors, and the prospect of that delay might deter a potential offeror.

- *Stockholder Action; Special Meeting of Stockholders.* Our stockholders are unable to take action by written consent, and will only be able to take action at annual or special meetings of our stockholders. Stockholders are not permitted to cumulate their votes for the election of directors.
- *Advance Notice Requirements for Stockholder Proposals and Director Nominations.* Our Bylaws provide for advance notice procedures for stockholders seeking to bring business before our annual meeting of stockholders or to nominate candidates for election as directors at any meeting of stockholders. Our Bylaws also specify certain requirements regarding the form and content of a stockholder's notice. These provisions may preclude our stockholders from bringing matters before our annual meeting of stockholders or from making nominations for directors at our meetings of stockholders.
- *Issuance of Undesignated Preferred Stock.* Our board of directors will have the authority, without further action by the holders of common stock, to issue up to 100,000,000 shares of undesignated preferred stock with rights and preferences, including voting rights, designated from time to time by the board of directors. The existence of authorized but unissued shares of preferred stock will enable our board of directors to render more difficult or to discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest or otherwise.

Choice of Forum

Our Certificate of Incorporation provides that the Court of Chancery of the State of Delaware is the exclusive forum for any derivative action or proceeding brought on our behalf, any action asserting a breach of fiduciary duty, any action asserting a claim against us arising pursuant to the Delaware General Corporation Law, our Certificate of Incorporation or Bylaws, any action to interpret, apply, enforce or determine the validity of our Certificate of Incorporation or Bylaws, or any action asserting a claim against us that is governed by the internal affairs doctrine. Our Certificate of Incorporation also provides that the U.S. federal district courts are the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act.

These choice of forum provisions do not apply to actions brought to enforce a duty or liability created by the Exchange Act. We intend for the choice of forum provision regarding claims arising under the Securities Act to apply despite the fact that Section 22 of the Securities Act creates concurrent jurisdiction for federal and state courts over all actions brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder. There is uncertainty as to whether a court would enforce such provision with respect to claims under the Securities Act, and our stockholders will not be deemed to have waived our compliance with the federal securities laws and the rules and regulations thereunder.

Transfer Agent and Registrar

The transfer agent and registrar for our Class A common stock and our Class B common stock is American Stock Transfer & Trust Company. The transfer agent and registrar's address is 6201 15th Avenue, Brooklyn, NY 11219.

Jun (Joe) Yan
[* * *]

Dear Joe:

ContextLogic Inc. (the "Company" or "Wish") is pleased to offer you continued employment in our **San Francisco** office, on the following terms:

1. **Position and Appointment Date.** Your title will be **Chief Executive Officer**. In this role, you will report to the Company's Board of Directors and you will be expected to perform such duties and exercise such responsibilities as are assigned to you from time-to-time. In carrying out these duties and responsibilities, you shall comply with all policies, procedures, rules and regulations, both written and oral, as are provided by the Company from time-to-time, and carry out said duties and responsibilities in a diligent, faithful and honest manner. The effective date of your appointment as Chief Executive Officer will be **February 21, 2023** or such other date as may be mutually agreed upon by you and the Company ("Appointment Date"); this will also be your appointment date for external reporting purposes. You will also be appointed as a member of our Board of Directors, effective as of your Appointment Date.
2. **Superseding of Interim CEO Offer Letter.** The terms contained in this Offer Letter fully replace and supersede the terms of your Interim Chief Executive Officer Offer Letter dated September 7, 2022 (the "Interim CEO Offer Letter"), with the exception of Sections 3, 5 and 6 of the Interim CEO Offer Letter. You will retain all benefits awarded to you in Sections 3, 5 and 6 of the Interim CEO Offer Letter.
3. **Compensation.** The Company will pay you a starting base salary of **\$550,000** per year, payable in accordance with the Company's standard payroll schedule. This salary will be subject to adjustment pursuant to the Company's employee compensation policies and procedures in effect from time to time.
4. **Bonus:** You will be eligible to participate in any Company-sponsored bonus plan for the Company's executive officers, with a target bonus percentage set by the Compensation Committee of the Board of Directors.
5. **Employee Benefits.** As a regular employee of the Company, you will be eligible to participate in a number of Company-sponsored benefits, including our group health insurance plan, in accordance with the applicable plan documents and policies. The Company reserves the right to modify or discontinue such benefit plans in its sole discretion. In addition, you will be eligible for paid time off in accordance with the Company's paid time off policy, as in effect from time to time. A copy of the current paid time off policy will be provided to you and any subsequent versions will be posted on the Company's wiki/intranet.

6. **Restricted Stock Units.** Subject to the approval of the Company's Board of Directors, you will be granted an award of Restricted Stock Units ("RSUs") for that number of shares of the Company's Class A Common Stock equal to **\$3,000,000** divided by the average closing price of a share of the Company's Class A Common Stock as reported on Nasdaq during the full calendar month prior to the date of grant, rounded down to the nearest whole share. The date of grant is expected to be two (2) business days after the Company announces its earnings for the fiscal year ended December 31, 2022. RSUs will vest over time based on your continuous service with the Company, with the first 1/8th of the RSUs vesting on May 15, 2023. An additional 1/8th of the RSUs will vest on each Company Vesting Date thereafter, provided that you remain in continuous service through each such Company Vesting Date. For the avoidance of doubt, "service" for purposes of the RSUs shall include service as an employee, consultant, director or member of the Board of Directors. A "Company Vesting Date" means February 15th, May 15th, August 15th, or November 15th. The RSUs will be subject to the terms and conditions applicable to RSUs granted under the Company's 2020 Equity Incentive Plan (the "Plan"), as amended, your Notice of Restricted Stock Unit Award and Restricted Stock Unit Agreement, which will all be distributed to you as soon as practicable after the date of grant of the RSUs .
7. **Stock Options.** Subject to the approval of the Company's Board of Directors, you will be granted an option to purchase that number of shares of the Company's Class A Common Stock equal to **\$5,390,000** divided by the average closing price of a share of the Company's Class A Common Stock as reported on Nasdaq during the full calendar month prior to the date of grant, rounded down to the nearest whole share (the "Option"). The exercise price per share of the Option will be equal to the fair market value of the Company's Class A Common Stock on the date of grant, which is expected to occur two (2) business days after the Company announces its earnings for the fiscal year ended December 31, 2022. The Option will vest and become exercisable over time based on your continuous service with the Company, with the first 1/8th of the Option shares vesting on May 15, 2023. An additional 1/8th of the Option shares will vest on each Company Vesting Date thereafter, provided that you remain in continuous service through each such Company Vesting Date. For the avoidance of doubt, "service" for purposes of the Option shall include service as an employee, consultant, director or member of the board of directors. A "Company Vesting Date" means February 15th, May 15th, August 15th, or November 15th. The Option will be subject to the terms and conditions applicable to options granted under the Plan, as amended, your Notice of Stock Option Grant and Stock Option Agreement, which will all be distributed to you as soon as practicable after the date of grant of the Option.
8. **Executive Severance and Change in Control.** Attached as **Exhibit A** is the Executive Severance and Change in Control Agreement, pursuant to which you will be eligible for certain severance and acceleration benefits in connection with certain qualifying terminations of your employment with the Company.
9. **Confidential Information and Invention Assignment Agreement.** You are required to continue to abide by the terms of the Confidential Information and Invention Assignment Agreement, which you previously signed in connection with your Interim CEO Offer Letter.

10. **Conflicts of Interest.** During your employment, you agree not to engage in any employment, business, or activity that is in any way competitive with the business or proposed business of the Company, which materially interferes with the performance of your job duties, or creates a conflict of interest (this includes any other full-time employment arrangements); provided, however, that you may continue to provide services and/or continue to engage in the current business activities that you list on **Exhibit B** hereto during your employment with the Company. During your employment with the Company, you may request (and submit to Wish for approval) an Outside Activity Disclosure Form from hr@wish.com to disclose any other outside employment, business, or activity in which you intend to engage during employment with Wish. Failure to make disclosures is considered a material representation that you are not engaged or associated with any such outside activities at the beginning of employment. You will be responsible for complying with Wish's Conflict of Interest Policy, including updated disclosures of such outside activities, at all times during employment.
11. **Employment Relationship.** Employment with the Company is at-will. This means that you have the right to resign and the Company has the right to terminate your employment at any time, for any or no reason, with or without cause, and with or without notice. Any contrary representations that may have been made to you are superseded by this Offer Letter. This, along with the Confidential Information and Invention Assignment Agreement, is the full and complete agreement between you and the Company on this term. Although your job duties, title, responsibilities, compensation and benefits, as well as the Company's personnel policies and procedures, may change from time to time, the "at will" nature of your employment may only be changed in an express written agreement signed by you and the Board of Directors of the Company. At the sole discretion of the Company, you agree to serve, without additional compensation, as a director, officer, or member of the board of directors (collectively, "officer positions") of any of the Company's subsidiaries, partnerships, joint ventures or other affiliates. If your employment with the Company is terminated for any reason, whether such termination is voluntary or involuntary, you agree to take all necessary actions, as reasonably requested by the Company, to resign from all officer positions.
12. **Tax Matters.**
 - (a) **Withholding.** All forms of compensation referred to in this Offer Letter are subject to reduction to reflect applicable withholding and payroll taxes and other deductions required by law.
 - (b) **Tax Advice.** You are encouraged to obtain your own tax advice regarding your compensation from the Company. You agree that the Company does not have a duty to design its compensation policies in a manner that minimizes your tax liabilities, and you will not make any claim against the Company or its Board of Directors related to tax liabilities arising from your compensation.
13. **Interpretation, Amendment and Enforcement.** Unless otherwise specified in this Offer Letter, this Offer Letter and the accompanying exhibits, including the Confidential Information and Invention Assignment Agreement, along with documents related to your equity grants, constitute the complete agreement between you and the Company, contain all of the terms of your employment with the Company and supersede any prior agreements between you and the Company. This Offer Letter may only be amended by an authorized officer of the Company.

14. **Arbitration of Disputes.** The Company and I mutually consent to the resolution by arbitration, under the applicable rules of JAMS (which are available at jamsadr.com, or from the Company upon my request), of all claims (common law or statutory) that the Company might have against me, or that I may have against the Company, its affiliated companies, the directors, employees or agents of any such company, and all successors and assigns of any of them. The Company and I waive the right to have a court or jury trial on any arbitrable claim. The Federal Arbitration Act shall govern this arbitration agreement, or if for any reason the FAA does not apply, the arbitration law of the state in which I rendered services to the Company. Notwithstanding any provision of the JAMS Rules, arbitration shall occur on an individual basis only, and a court of competent jurisdiction (and not an arbitrator) shall resolve any dispute about the formation, validity, or enforceability of any provision of this arbitration agreement. I waive the right to initiate, participate in, or recover through, any class or collective action. To the maximum extent permitted by law, the arbitrator shall award the prevailing party its costs and reasonable attorney's fees; provided, however, that the arbitrator at all times shall apply the law for the shifting of costs and fees that a court would apply to the claim(s) asserted. Nothing in this arbitration agreement prevents me from filing or recovering pursuant to a complaint, charge, or other communication with any federal, state or local governmental or law enforcement agency. This arbitration agreement shall remain in effect notwithstanding the termination of my association with the Company. To opt-out of this paragraph, you must complete an opt-out form prior to your Appointment Date. Please email hr@wish.com for the form.

 15. **Contingencies.** Your continued employment with the Company is contingent upon you remaining authorized to work in the United States for Wish. The Company reserves the right to conduct background, credit and/or reference checks on all of its potential employees. Your offer of continued employment, therefore, is contingent upon clearance of such background, credit and/or reference checks, including satisfactory responses to a D&O questionnaire.
-

We hope that you will accept the offer to become the Chief Executive Officer of the Company. You may indicate your agreement with these terms and accept this offer by signing and dating this Offer Letter and the enclosed exhibit, and returning them to me. This offer, if not accepted, will expire at the end of day on **February 24, 2023**.

Very truly yours,

CONTEXTLOGIC INC.

Mauricio Monico
[* * *]

Dear Mauricio:

ContextLogic Inc. (the "Company" or "Wish") is pleased to offer you continued employment in our **San Francisco** office, on the following terms:

1. **Position and Start Date.** Your title is **Chief Product Officer**. In this role, you will report to the Company's **Chief Executive Officer** and you will be expected to perform such duties and exercise such responsibilities as are assigned from time-to-time. In carrying out these duties and responsibilities, you shall comply with all policies, procedures, rules and regulations, both written and oral, as are provided by the Company from time-to-time, and carry out said duties and responsibilities in a diligent, faithful and honest manner. The effective date of your appointment as Chief Product Officer was **March 1, 2023** ("Appointment Date"). This is your appointment date for external reporting purposes. This is a full-time position.
2. **Compensation.** As set forth in your May 12, 2023 Merit Increase Letter (the "Merit Increase Letter"), your base salary as of April 1, 2023 is **\$500,000.00** per year, payable in accordance with the Company's standard payroll schedule. This salary will be subject to adjustment pursuant to the Company's employee compensation policies and procedures in effect from time to time.
3. **Employee Benefits.** As a regular employee of the Company, you will be eligible to participate in a number of Company-sponsored benefits, including our group health insurance plan, in accordance with the applicable plan documents and policies. The Company reserves the right to modify or discontinue such benefit plans in its sole discretion. In addition, you will be eligible to participate in the Company's paid time off policy, as in effect from time to time. A copy of the current paid time off policy will be provided to you upon hire and any subsequent versions will be posted on the Company's wiki/intranet.
4. **Executive Severance and Change in Control.** Attached as **Exhibit A** is the Executive Severance and Change in Control Agreement, pursuant to which you will be eligible for certain severance and acceleration benefits in connection with certain qualifying terminations of your employment with the Company.
5. **Confidential Information and Invention Assignment Agreement.** Like all Company employees, you are required, to sign the Company's standard Confidential Information and Invention Assignment Agreement, a copy of which is attached hereto as **Exhibit B**.

6. **Conflicts of Interest.** During your employment, you agree not to engage in any employment, business, or activity that is in any way competitive with the business or proposed business of the Company, which materially interferes with the performance of your job duties, or creates a conflict of interest (this includes any other full-time employment arrangements); provided, however, that you may continue to provide services and/or continue to engage in the current business activities that you list on **Exhibit C** hereto during your employment with the Company. During your employment with the Company, you may request (and submit to Wish for approval) an Outside Activity Disclosure Form from hr@wish.com to disclose any other outside employment, business, or activity in which you intend to engage during employment with Wish. Failure to make disclosures is considered a material representation that you are not engaged or associated with any such outside activities during your employment. You will be responsible for complying with Wish's Conflict of Interest Policy, including updated disclosures of such outside activities, at all times during employment.
7. **Employment Relationship.** Employment with the Company is at-will. This means that you have the right to resign and the Company has the right to terminate your employment at any time, for any or no reason, with or without cause, and with or without notice. Any contrary representations that may have been made to you are superseded by this letter agreement. This, along with the Confidential Information and Invention Assignment Agreement, is the full and complete agreement between you and the Company on this term. Although your job duties, title, responsibilities, compensation and benefits, as well as the Company's personnel policies and procedures, may change from time to time, the "at will" nature of your employment may only be changed in an express written agreement signed by you and the CEO of the Company. At the sole discretion of the Company, you agree to serve, without additional compensation, as a director, officer, or member of the board of directors (collectively, "officer positions") of any of the Company's subsidiaries, partnerships, joint ventures or other affiliates. If your employment with the Company is terminated for any reason, whether such termination is voluntary or involuntary, you agree to take all necessary actions, as reasonably requested by the Company, to resign from all officer positions.
8. **Tax Matters.**
 - (a) **Withholding.** All forms of compensation referred to in this letter agreement are subject to reduction to reflect applicable withholding and payroll taxes and other deductions required by law.
 - (b) **Tax Advice.** You are encouraged to obtain your own tax advice regarding your compensation from the Company. You agree that the Company does not have a duty to design its compensation policies in a manner that minimizes your tax liabilities, and you will not make any claim against the Company or its Board of Directors related to tax liabilities arising from your compensation.
9. **Interpretation, Amendment and Enforcement.** Unless otherwise specified in this letter agreement, this letter agreement and the accompanying exhibits, along with documents related to your equity grants, constitute the complete agreement between you and the Company, contain all of the terms of your employment with the Company and supersede any prior employment agreements between you and the Company. This letter agreement may only be amended by an authorized officer of the Company.
10. **Arbitration of Disputes.** The Company and I mutually consent to the resolution by arbitration, under the applicable rules of JAMS (which are available at jamsadr.com, or from the Company upon my request), of all claims (common law or statutory) that the Company might have against me, or that I may have against the Company, its affiliated companies, the directors, employees or agents of any such company, and all successors and assigns of any of them.

The Company and I waive the right to have a court or jury trial on any arbitrable claim. The Federal Arbitration Act shall govern this arbitration agreement, or if for any reason the FAA does not apply, the arbitration law of the state in which I rendered services to the Company. Notwithstanding any provision of the JAMS Rules, arbitration shall occur on an individual basis only, and a court of competent jurisdiction (and not an arbitrator) shall resolve any dispute about the formation, validity, or enforceability of any provision of this arbitration agreement. I waive the right to initiate, participate in, or recover through, any class or collective action. To the maximum extent permitted by law, the arbitrator shall award the prevailing party its costs and reasonable attorney's fees; provided, however, that the arbitrator at all times shall apply the law for the shifting of costs and fees that a court would apply to the claim(s) asserted. Nothing in this arbitration agreement prevents me from filing or recovering pursuant to a complaint, charge, or other communication with any federal, state or local governmental or law enforcement agency. This arbitration agreement shall remain in effect notwithstanding the termination of my association with the Company. To opt-out of this paragraph, you must complete an opt-out form prior to your start date. Please email hr@wish.com for the form.

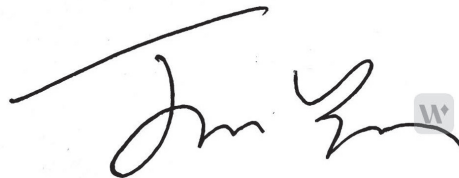

11. **Contingencies.** Your continued employment with the Company is contingent upon you remaining authorized to work in the United States for Wish. The Company reserves the right to conduct background, credit and/or reference checks on all of its potential employees. Your offer of continued employment, therefore, is contingent upon clearance of such background, credit and/or reference checks, including satisfactory responses to a D&O questionnaire, if necessary.

.....

You may indicate your agreement with these terms and accept this offer by signing and dating this letter agreement and the enclosed exhibits, and returning them to me. This letter agreement, if not accepted, will expire at the end of day on **August 4, 2023**.

Very truly yours,

EXHIBIT A
EXECUTIVE SEVERANCE AND CHANGE IN CONTROL AGREEMENT

CONTEXTLOGIC INC.

EXECUTIVE SEVERANCE AND CHANGE IN CONTROL AGREEMENT

This Executive Severance and Change in Control Agreement (the “**Agreement**”) is made and entered into by and between **Mauricio Monico** (the “**Executive**”) and ContextLogic Inc., a Delaware corporation (the “**Company**”), effective as of the date specified in Section 1 below.

This Agreement provides severance and acceleration benefits in connection with certain qualifying terminations of Executive’s employment with the Company.

Certain capitalized terms are defined in Section 8.

The Company and Executive agree as follows:

1. Term. This Agreement shall become effective on **July 25, 2023** (the “**Effective Date**”). Unless terminated sooner pursuant to Section 6(a), this Agreement will terminate automatically on the third anniversary of the Effective Date.

2. Severance Benefits.

(a) Termination Not Involving a Change in Control. If Executive is subject to an Involuntary Termination which occurs more than three months prior to a Change in Control (if any) or more than twelve months after a Change in Control and Executive satisfies the conditions described in Section 2(c) below, then Executive shall be entitled to the following severance benefits: (i) a lump-sum cash severance payment equal to six months of Executive’s Base Salary, (ii) an additional lump-sum cash payment equal to six months of Executive’s benefits premiums, and (iii) unless the Company provides otherwise when an equity award is granted, the unvested portion of each outstanding time-based equity award that Executive holds as of the Involuntary Termination that would have vested during Executive’s completion of an additional twelve months of employment following the Involuntary Termination will vest and, if applicable, become exercisable. In the case of any equity awards subject to performance conditions, whether such awards are eligible for acceleration in connection with such an Involuntary Termination will be determined at the time of grant of the equity award and set forth in the applicable equity award agreement.

(b) Involuntary Termination Involving a Change in Control. If Executive is subject to an Involuntary Termination which occurs within three months prior to, or twelve months following, a Change in Control and Executive satisfies the conditions described in Section 2(c) below, then Executive shall be entitled to the following severance benefits: (i) a lump-sum cash severance payment equal to twelve months of Executive’s Base Salary, (ii) an additional lump-sum cash payment equal to twelve months of Executive’s benefits premiums and (iii) unless the Company provides otherwise when an equity award is granted, one hundred percent of the unvested portion of each outstanding time-based equity award that Executive holds as of the Involuntary Termination will vest and, if applicable, become exercisable. In the case of equity awards subject to performance conditions, whether such awards are eligible for acceleration in connection with such an Involuntary Termination will be determined at the time of grant of the equity award and set forth in the equity award agreement. For avoidance of doubt, if Executive is subject to an Involuntary Termination that occurs within three

months prior to a Change in Control, the portion of Executive's then-outstanding and unvested equity awards that is eligible to vest and become exercisable pursuant to clause (iii) will remain outstanding for three months or the occurrence of a Change in Control, whichever is sooner, so that any additional benefits due pursuant to clause (iii) may be provided if a Change in Control occurs within three months after Executive's Involuntary Termination, provided that in no event will any of Executive's stock options remain outstanding beyond the option's maximum term to expiration. If a Change in Control does not occur within three months after an Involuntary Termination, any unvested portion of Executive's equity awards that remained outstanding following Executive's Involuntary Termination will immediately and automatically be forfeited.

(c) Preconditions to Severance and Change in Control Benefits / Timing of Benefits. As a condition to Executive's receipt of any benefits described in Section 2, Executive shall execute and allow to become effective the Company's then-standard general release of claims, comply with the Executive's continuing obligations (including the return of Company property) to the Company, and, if requested by the Company, immediately resign from all positions Executive holds with the Company, including as a member of the Company's Board of Directors and as a member of the board of directors of any subsidiaries of the Company. Executive must execute and return the release on or before the date specified by the Company, which will in no event be later than 50 days after Executive's employment terminates. If Executive fails to return the release by the deadline or if Executive revokes the release, then Executive will not be entitled to the benefits described in this Section 2. All such benefits will be paid or provided within 60 days after Executive's Termination Without Cause or Involuntary Termination, as applicable, or if later on the date a Change in Control occurs. If such 60 day period spans calendar years, then payment will in any event be made in the second calendar year.

3. Section 409A. The Company intends that all payments and benefits provided under this Agreement or otherwise are exempt from, or comply with, with the requirements of Section 409A of the Internal Revenue Code of 1986, as amended (the "**Code**") so that none of the payments or benefits will be subject to the additional tax imposed under Code Section 409A, and any ambiguities herein will be interpreted in accordance with such intent. For purposes of Code Section 409A, each payment, installment or benefit payable under this Agreement is hereby designated as a separate payment. In addition, if the Company determines that Executive is a "specified employee" under Code Section 409A(a)(2)(B)(i) at the time of Executive's Separation, then (i) any severance payments or benefits, to the extent that they are subject to Code Section 409A, will not be paid or otherwise provided until the first business day following (A) expiration of the six-month period measured from Executive's Separation or (B) the date of Executive's death and (ii) any installments that otherwise would have been paid or provided prior to such date will be paid or provided in a lump sum when the severance payments or benefits commence.

4. Section 280G. Notwithstanding anything contained in this Agreement to the contrary, in the event that the payments and benefits provided pursuant to this Agreement, together with all other payments and benefits received or to be received by Executive ("**Payments**"), constitute "parachute payments" within the meaning of Code Section 280G, and, but for this Section 4, would be subject to the excise tax imposed by Code Section 4999 (the "**Excise Tax**"), then the Payments shall be made to Executive either (i) in full or (ii) as to such lesser amount as would result in no portion of the Payments being subject to the Excise Tax (a "**Reduced Payment**"), whichever of the foregoing amounts, taking into account applicable federal, state and local income taxes and the Excise Tax, results in Executive's receipt on an after-tax basis, of the greatest amount of benefits, notwithstanding that all or some portion of the Payments may be subject to the Excise Tax. If a Reduced Payment is to be made under this section, reduction of Payments will occur in the following order: reduction of cash payments, then cancellation of equity-based payments and accelerated vesting of equity awards, and then reduction of employee benefits. If accelerated vesting of equity awards is to be reduced, such acceleration of vesting will be canceled in the reverse order of the date of grant. In the event that cash payments or other benefits are reduced, such reduction shall occur in reverse order

beginning with the payments and benefits which are to be paid furthest away in time. All determinations required to be made under this Section 4 (including whether any of the Payments are parachute payments and whether to make a Reduced Payment) will be made by an independent accounting firm selected by the Company. For purposes of making the calculations required by this section, the accounting firm may make reasonable assumptions and approximations concerning applicable taxes and may rely on reasonable, good faith interpretations concerning the application of Code Sections 280G and 4999. The Company will bear the costs that the accounting firm may reasonably incur in connection with the calculations contemplated by this Section 4. The accounting firm's determination will be binding on both Executive and the Company absent manifest error.

5. Company's Successors. Any successor to the Company to all or substantially all of the Company's business and/or assets (whether pursuant to a Change in Control, direct or indirect, and whether by purchase, merger, consolidation, liquidation or otherwise) shall assume the Company's obligations under this Agreement and agree expressly to perform the Company's obligations under this Agreement in the same manner and to the same extent as the Company would be required to perform such obligations in the absence of a succession.

6. Miscellaneous Provisions.

(a) Modification or Waiver. No provision of this Agreement may be modified, waived or discharged unless the modification, waiver or discharge is agreed to in writing and signed by Executive and by an authorized officer of the Company (other than Executive). No waiver by either party of any breach of, or of compliance with, any condition or provision of this Agreement by the other party shall be considered a waiver of any other condition or provision or of the same condition or provision at another time.

(b) Death of Executive. In the event of Executive's death following a qualifying termination of employment pursuant to which the Executive is entitled to receive benefits pursuant to Section 2, but prior to the full payment thereof, such unpaid amounts will remain payable to the Executive, and all such amounts, unless otherwise provided herein, shall be paid in accordance with the terms herein to the Executive's estate.

(c) Integration. This Agreement represents the entire agreement and understanding between the parties as to the subject matter herein and supersedes all prior or contemporaneous agreements, whether written or oral, with respect to the subject matter of this Agreement.

(d) Choice of Law. The validity, interpretation, construction and performance of this Agreement shall be governed by the internal substantive laws, but not the conflicts of law rules, of the State of California.

(e) Tax Withholding. Any payments provided for hereunder are subject to reduction to reflect applicable withholding and payroll taxes and other reductions required under federal, state or local law.

(f) Notices. Any notice required by the terms of this Agreement shall be given in writing. It shall be deemed effective upon (i) personal delivery, (ii) deposit with the United States Postal Service, by registered or certified mail, with postage and fees prepaid or (iii) deposit with Federal Express Corporation, with shipping charges prepaid. Notice shall be addressed to the Company at its principal executive office (attention General Counsel) and to the Executive at the address that he or she most recently provided to the Company in accordance with this Subsection (e).

(g) Severability. The invalidity or unenforceability of any provision or provisions of this Agreement shall not affect the validity or enforceability of any other provision hereof, which shall remain in full force and effect.

(h) Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together will constitute one and the same instrument.

7. At-Will Employment. Nothing contained in this Agreement shall (a) confer upon Executive any right to continue in the employ of the Company, (b) constitute any contract or agreement of employment, or (c) interfere in any way with the at-will nature of Executive's employment with the Company.

8. Definitions. The following terms referred to in this Agreement shall have the following meanings:

(a) **"Base Salary"** means Executive's annual base salary as in effect immediately prior to a Termination Without Cause or Involuntary Termination; provided, however, that in the event of a Resignation for Good Reason due to a material reduction in Executive's base salary, "Base Salary" means Executive's annual base salary as in effect immediately prior to such reduction or as in effect immediately prior to a Change in Control, whichever is greater.

(b) **"Cause"** means (i) Executive's willful and intentional unauthorized use or disclosure of the Company's confidential information or trade secrets, which use or disclosure causes material harm to the Company, (ii) Executive's material breach of any agreement with the Company, (iii) Executive's material failure to comply with the Company's written policies or rules, (iv) Executive's conviction of, or plea of "guilty" or "no contest" to, a felony under the laws of the United States or any State, (v) Executive's gross negligence or willful misconduct, (vi) Executive's continuing failure to perform assigned duties after receiving written notification of the failure from the Company's Board of Directors (other than as a result of having a disability that prevents Executive from performing the material duties required of a person holding the position with the Company for a period of at least 120 days) or (vii) Executive's failure to cooperate in good faith with a governmental or internal investigation of the Company or its directors, officers or employees, if the Company has requested such cooperation. In the case of clauses (ii), (iii) and (vii), the Company will not terminate Executive's employment for Cause without first giving Executive written notification of the acts or omissions constituting Cause and a reasonable cure period of not less than 10 days following such notice to the extent such events are curable (as determined by the Company).

(c) **"Change in Control"** means:

(i) Any "person" (as such term is used in Sections 13(d) and 14(d) of the Securities Exchange Act of 1934, as amended (the "**Exchange Act**")) other than Peter Szulczewski becomes the "beneficial owner" (as defined in Rule 13d-3 of the Exchange Act), directly or indirectly, of securities of the Company representing more than 50% of the total voting power represented by the Company's then-outstanding voting securities;

(ii) The consummation of the sale or disposition by the Company of all or substantially all of the Company's assets;

(iii) The consummation of a merger or consolidation of the Company with or into any other entity, other than a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or its parent) more than

50% of the total voting power represented by the voting securities of the Company or such surviving entity or its parent outstanding immediately after such merger or consolidation; or

(iv) Individuals who are members of the Company's board of directors (the "**Incumbent Board**") cease for any reason to constitute at least a majority of the members of the Company's board of directors over a period of 12 months; provided, however, that if the appointment or election (or nomination for election) of any new board member was approved or recommended by a majority vote of the members of the Incumbent Board then still in office, such new member shall, for purposes of this Agreement, be considered as a member of the Incumbent Board.

A transaction shall not constitute a Change in Control if its sole purpose is to change the state of the Company's incorporation or to create a holding company that will be owned in substantially the same proportions by the persons who held the Company's securities immediately before such transaction. In addition, if a Change in Control constitutes a payment event with respect to any amount which is subject to Code Section 409A, then the transaction must also constitute a "change in control event" as defined in Treasury Regulation Section 1.409A-3(i)(5) to the extent required by Code Section 409A.

(d) "**Involuntary Termination**" means either (i) a Termination without Cause or (ii) a Resignation for Good Reason.

(e) "**Resignation for Good Reason**" means a Separation as a result of Executive's resignation from employment after one of the following conditions has come into existence without Executive's consent: (i) a material diminution in the nature or scope of Executive's responsibilities, authority, powers, functions or duties within or to the Company (other than a change in title), (ii) a material reduction in Executive's annual base salary or (iii) Executive's required relocation to offices more than fifty (50) miles from Executive's principal place of business. In order to constitute a Resignation for Good Reason, Executive must give the Company written notice of the condition within 90 days after it comes into existence, the Company must fail to remedy the condition within 30 days after receiving Executive's written notice and Executive must terminate his or her employment within 30 days after expiration of the cure period.

(f) "**Separation**" means a "separation from service" as defined in the regulations under Code Section 409A.

(g) "**Termination Without Cause**" means a Separation as a result of the termination of Executive's employment by the Company without Cause and not as a result of Executive's death or disability.

IN WITNESS WHEREOF, each of the parties has executed this Agreement, in the case of the Company by its duly authorized officer, as of the day and year indicated below.

CONFIDENTIAL INFORMATION AND INVENTION ASSIGNMENT AGREEMENT

The following confirms and memorializes an agreement that ContextLogic Inc., a Delaware corporation (the "Company") and I have had since the commencement of my employment (which term, for purposes of this agreement, shall be deemed to include any relationship of service to the Company that I may have had prior to actually becoming an employee) with the Company in any capacity and that is and has been a material part of the consideration for my employment by Company:

1. **Prohibitions on Use of Third Party Information**. I have not entered into, and I agree I will not enter into, any agreement either written or oral in conflict with this Agreement or my employment with the Company. I will not violate any agreement with or rights of any third party or, except as expressly authorized by Company in writing hereafter, use or disclose my own or any third party's confidential information or intellectual property when acting within the scope of my employment or otherwise on behalf of Company. I represent that I have not retained and will not bring with me to the Company or use in the performance of my duties for the Company any documents or materials or intangibles of a former employer or third party that are not generally available to the public or have not been legally transferred to the Company.

2. **Work for Hire; Assignment of Inventions**. I acknowledge and agree that any copyrightable works prepared by me within the scope of my employment are "works for hire" under the Copyright Act and that pursuant to this Agreement, the Company is and without any further action required by either party shall be considered the author and owner of such copyrightable works. I agree that all inventions that I make, create, conceive, or first reduce to practice during the period of my employment, whether or not in the course of my employment, that (i) are developed using equipment, supplies, facilities or trade secrets of the Company, (ii) result from work performed by me for the

Company, or (iii) relate to the Company's business or actual or demonstrably anticipated research and development (the "**Assigned Inventions**"), are and will continue to be the sole and exclusive property of the Company pursuant to this Agreement without any further action required by either party. I hereby irrevocably assign the Assigned Inventions to the Company. I understand that this assignment by me pursuant to this Agreement is intended to, and does, extend to subject matters currently in existence, those in development, as well as those which have not yet been created.

(a) **Prior Inventions.** Attached hereto as Appendix B is a list describing all inventions, original works of authorship, developments and trade secrets which were made by me or acquired by me prior to the date of this Agreement, which belong to me and which are not assigned to the Company ("**Prior Inventions**"). If no such list is attached, I agree that it is because no such Prior Inventions exist. I acknowledge and agree that if I use any of my Prior Inventions in the scope of my employment, or include them in any product or service of the Company, I hereby grant to the Company a perpetual, irrevocable, nonexclusive, world-wide, royalty-free license without any further action required by either party to use, disclose, make, sell, copy, distribute, modify and create works based on, perform or display such Prior Inventions and to sublicense third parties with the same rights. If, at any time, a court or other tribunal rules that my assignment under this Paragraph is ineffective or unenforceable for any reason, I agree to perform all actions necessary to assign the Assigned Inventions and/or Prior Inventions to the Company.

(b) **Disclosure of Inventions.** I agree that without any further compensations and without any further action being necessary on my part, through this Agreement Company shall own all right, title and interest (including patent rights, copyrights, trade secret rights, mask work rights, *sui generis* database rights and all other intellectual property rights of any sort throughout the world) relating to any and all inventions (whether or not patentable), works of authorship, mask works, designs, know-how, ideas, computer software programs, and information made or conceived or reduced to practice, in whole or in part, by me during the term of my employment with Company to and only to the fullest extent allowed by law, including California Labor Code Section 2870 if applicable (collectively "**Inventions**"), and I will promptly disclose all Inventions to Company. Without disclosing any third party confidential information, I will also disclose anything I believe is excluded by law, including California Labor Code Section 2870 (which is attached as Appendix A) if applicable, so that the Company can make an independent assessment.

(c) **Assistance/Power to Act.** I hereby make all assignments necessary to accomplish the foregoing. I shall further assist Company, at Company's expense, to further evidence, record and perfect such assignments, and to perfect, obtain, maintain, enforce, and defend any rights specified to be so owned or assigned. I will execute any documents that the Company may reasonably request for use in obtaining or enforcing such patents, copyrights, mask work rights, trade secrets and other legal protections that the Company owns and/or which I have assigned to the Company pursuant to this Agreement. My obligations under this paragraph will continue beyond the termination of my employment with the Company, provided that the Company will compensate me at a reasonable rate after such termination for time or expenses actually spent by me at the Company's request on such assistance. I hereby irrevocably designate and appoint the Company through its General Counsel as my agent and attorney-in-fact, coupled with an interest and with full power of substitution, to act for and in my behalf to execute and file any document and to do all other lawfully permitted acts to further the purposes of the foregoing with the same legal force and effect as if executed by me. Without limiting Section 1 or the Company's other rights and remedies, if, when acting within the scope of my employment or otherwise on behalf of Company, I use or disclose my own or any third party's confidential information or intellectual property (or if any Invention cannot be fully made, used, reproduced, distributed and otherwise exploited without using or violating the foregoing), Company will have and I hereby grant Company a perpetual, irrevocable, worldwide royalty-free, non-exclusive, sublicensable right and license to exploit and exercise all such confidential information and intellectual property rights.

3. **Assignment of Other Rights.** In addition to the foregoing assignment of Assigned Inventions to the Company, I hereby irrevocably transfer and assign to the Company: (i) all worldwide patents, patent applications, copyrights, mask works, trade secrets and other intellectual property rights, including but not limited to rights in databases, in any Assigned Inventions, along with any registrations of or applications to register such rights; and (ii) any and all “Moral Rights” (as defined below) that I may have in or with respect to any Assigned Inventions. I also hereby forever waive and agree never to assert any and all “Moral Rights” I may have in or with respect to any Assigned Inventions, even after termination of my work on behalf of the Company. “**Moral Rights**” mean any rights to claim authorship of or credit on an Assigned Inventions, to object to or prevent the modification or destruction of any Assigned Inventions or Prior Inventions licensed to Company under this Agreement, or to withdraw from circulation or control the publication or distribution of any Assigned Inventions or Prior Inventions licensed to Company under this Agreement, and any similar right, existing under judicial or statutory law of any country or subdivision thereof in the world, or under any treaty, regardless of whether or not such right is denominated or generally referred to as a “moral right.”

4. **Confidential Information.**

(a) **Generally.** I understand that my employment by the Company creates a relationship of confidence and trust with respect to any information of a confidential or secret nature that (a) relates to the business of the Company or to the business of any parent, subsidiary, affiliate, customer, merchant or vendor of the Company, or any other party with whom the Company agrees to hold information of such party in confidence; (b) that is not generally known to the public or to other persons in the industry; and (c) that the Company has taken reasonable measures under the circumstances to protect from unauthorized use or disclosure (“**Confidential Information**”). Confidential Information covered by this Agreement means (i) trade secrets; (ii) proprietary information that does not rise to the level of a statutorily protectable trade secret that is made the property of the Company through positive operation of law in the form of this mutual agreement of the parties; and/or (iii) information that is otherwise legally protectable. Such Confidential Information includes, but is not limited to, inventions, knowledge, data, information, know-how, non-public intellectual property rights including unpublished or pending patent applications and all related patent rights, techniques, formulae, processes, discoveries, improvements, ideas, conceptions, compilations of data, and developments, whether or not patentable and whether or not copyrightable. By way of example, Confidential Information includes: information relating to the Company’s products, services and methods of operation, the identities and competencies of the Company’s employees, customers and suppliers, chemical formulae, computer software, financial information, operating and cost data, research databases, selling and pricing information, business and marketing plans, and information concerning potential acquisitions, dispositions or joint ventures. The foregoing are only examples of Confidential Information. However, I shall not be obligated under this paragraph with respect to information I can document is or becomes readily publicly available without restriction through no fault of mine.

(b) **Treatment of Confidential Information.** At all times, both during my employment and after its termination, I will keep all Confidential Information in strict confidence. I will not use, disclose, copy, reverse-engineer, distribute, gain unauthorized access or misappropriate any Confidential Information without the prior written consent of the Company, except as may be necessary to perform my duties as an employee of the Company for the benefit of the Company. Upon termination of my employment with the Company, I will not take with me or retain any documents or materials or copies thereof containing any Confidential Information. I agree to return all Confidential Information (original, hard and electronic copies) in my possession on or before my last day of employment. If, at the time of termination, I have Confidential Information stored in my personal computer or any mobile, cloud, or other storage medium, I shall so advise the Company. I will then work with the Company to ensure that the location of all such information is fully disclosed to the

Company, retrieved by the Company in a forensically sound manner, and is permanently deleted by the Company or its designee, and I will not delete or destroy any Confidential Information in my possession or control. Upon Company request, I will execute a document confirming my agreement to honor my responsibilities contained in this Agreement after my departure. Notwithstanding my confidentiality obligations, I am permitted to disclose Confidential Information that is required to be disclosed by me pursuant to judicial order or other legal mandate, provided that I have given the Company prompt notice of the disclosure requirement, and that I fully cooperate with any efforts by the Company to obtain and comply with any protective order imposed on such disclosure. I understand that I may keep my personal copies of (i) my compensation records, (ii) materials distributed to shareholders generally and (iii) this Agreement. I also recognize and agree that I have no expectation of privacy with respect to Company's telecommunications, networking or information processing systems (including, without limitation, stored computer files, email messages and voice messages) and that my activity and any files or messages on or using any of those systems may be monitored at any time without notice.

5. **Non-Solicitation of Merchants/Vendors/Customers.** During my employment with the Company, I will not directly or indirectly solicit or otherwise take away customers, merchants or vendors of the Company. For one year after the termination I will not directly or indirectly solicit or otherwise take away customers, merchants or vendors of the Company if, in so doing, I access, use or disclose any Confidential Information of the Company. I acknowledge and agree that the names and addresses of the Company's customers, merchants or vendors, and all other confidential information related to them, including their buying and selling habits and special needs, whether created or obtained by, or disclosed to me during my employment, constitute Confidential Information of the Company.

6. **Efforts; Duty Not to Compete.** I understand that my employment with the Company requires my undivided loyalty, attention and effort. As a result, I agree that during the term of my employment with Company (whether or not during business hours), I will not engage in any activity that is in any way competitive with the business or demonstrably anticipated business of Company, and I will not assist any other person or organization in competing or in preparing to compete with any business or demonstrably anticipated business of Company.

7. **Company Property.** All materials, documents and data pertaining to the business of the Company that come into my possession by virtue of my employment with the Company are the property of the Company. Upon termination of my employment (regardless of reason), or upon request of the Company at any time, I will deliver to the Company the originals and all copies of such documents and materials and any other property of any nature belonging to the Company or relating to the Company's business in my possession or control, including all forms of Confidential Information. I will work with the Company to ensure that the location of all such information is fully disclosed to the Company, retrieved by the Company in a forensically sound manner, and is permanently deleted by the Company or its designee, and I will not delete or destroy any Confidential Information or company property in my possession or control.

8. **Independent Obligations and Waivers.** I acknowledge that my obligations under this Agreement are intended to be agreements separate and independent from any other terms and provisions of my employment. The existence of any claim or cause of action by me against the Company, whether predicated on my employment or otherwise, shall not constitute a defense to the enforcement by the Company of my obligations hereunder. I further acknowledge that no delay or failure to require performance of any provision of this Agreement shall constitute a waiver of that provision as to that or any other instance. No waiver granted under this Agreement as to any one provision herein shall constitute a subsequent waiver or such provision or of any other provision herein, nor shall it constitute the waiver of any performance other than the actual performance specifically waived.

9. **Further Assurances.** I agree to execute such further documents and instruments and to take such further actions as may be reasonably necessary to carry out the purposes and intent of this Agreement.

10. **Obligations After Termination.** I agree that my obligations under paragraphs 2, 3, 4, and 5 of this Agreement shall continue in effect after termination of my employment, regardless of the reason or reasons for termination, and whether such termination is voluntary or involuntary on my part, and that Company is entitled to communicate my obligations under this Agreement to any future employer or potential employer of mine. My obligations under paragraphs 2, 3 and 4 also shall be binding upon my heirs, executors, assigns, and administrators and shall inure to the benefit of Company, its subsidiaries, successors and assigns.

11. **Governing Law; Severability.** Any dispute in the meaning, effect or validity of this Agreement shall be resolved in accordance with the laws of the State of California without regard to the conflict of laws provisions thereof. I further agree that if one or more provisions of this Agreement are held to be illegal or unenforceable under applicable California law, such illegal or unenforceable portion(s) shall be limited or excluded from this Agreement to the minimum extent required so that this Agreement shall otherwise remain in full force and effect and enforceable in accordance with its terms. This Agreement is fully assignable and transferable by Company, but any purported assignment or transfer by me is void. I also understand that any breach of this Agreement will cause irreparable harm to Company for which damages would not be an adequate remedy, and, therefore, Company will be entitled to injunctive relief with respect thereto in addition to any other remedies and without any requirement to post bond.

12. **DTSA Notification.** Notwithstanding my confidentiality obligations set forth in this Agreement, I understand that, pursuant to the Defend Trade Secrets Act of 2016, I will not be held criminally or civilly liable under any Federal or State trade secret law for the disclosure of a trade secret that: (A) is made (i) in confidence to a Federal, State, or local government official, either directly or indirectly, or to an attorney; and (ii) solely for the purpose of reporting or investigating a suspected violation of law; or (B) is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal. I understand that in the event it is determined that disclosure of Company trade secrets was not done in good faith pursuant to the above, I will be subject to substantial damages, including punitive damages and attorneys' fees.

13. **Name & Likeness Rights.** I hereby authorize the Company to use, reuse, and to grant others the right to use and reuse, my image, photograph, likeness (including caricature), voice, and any reproduction or simulation thereof, in any form of media or technology now known or hereafter developed (including, but not limited to, film, video and digital or other electronic media), both during and after my employment, for any purposes related to the Company's business, such as marketing, advertising, credits, and presentations.

14. **Non-Disparagement.** I further agree that I will not make any statement or issue any communication (or encourage or induce anyone else to do so), written or otherwise, directly or indirectly, that disparages, criticizes or otherwise reflects adversely on, or encourages any adverse action against, the Company or any of its predecessors, successors, subsidiaries, divisions, parents or affiliated entities, or any of its or their former or current agents, directors, officers, owners, executives, employees or customers, or its or their business, products, services, policies or practices, to the press, the media or the public generally, or to any current, former or prospective employee thereof, except if testifying truthfully under oath pursuant to any lawful court order or subpoena or otherwise responding to or providing disclosures required by law, or in connection with a government investigation.

15. **At Will Employment.** I understand that this Agreement does not constitute a contract of employment or obligate the Company to employ me for any stated period of time. I

understand that I am an “at will” employee of the Company and that my employment can be terminated at any time, with or without notice and with or without cause, for any reason or for no reason, by either the Company or myself. I acknowledge that any statements or representations to the contrary are ineffective, unless put into a writing signed by the Company. I further acknowledge that my participation in any stock option or benefit program is not to be construed as any assurance of continuing employment for any particular period of time.

.....

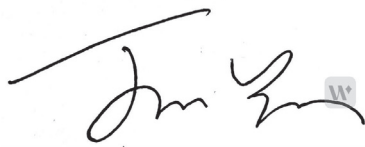

I HAVE READ THIS AGREEMENT CAREFULLY AND I UNDERSTAND AND ACCEPT THE OBLIGATIONS WHICH IT IMPOSES UPON ME WITHOUT RESERVATION. NO PROMISES OR REPRESENTATIONS HAVE BEEN MADE TO ME TO INDUCE ME TO SIGN THIS AGREEMENT. I SIGN THIS AGREEMENT VOLUNTARILY AND FREELY, IN DUPLICATE, WITH THE UNDERSTANDING THAT THE COMPANY WILL RETAIN ONE COUNTERPART AND THE OTHER COUNTERPART WILL BE RETAINED BY ME.

**APPENDIX A TO
CONFIDENTIAL INFORMATION AND INVENTION ASSIGNMENT AGREEMENT**

California Labor Code Section 2870. **Application of provision providing that employee shall assign or offer to assign rights in invention to employer.**

I have been notified and understand that the provisions of the Confidential Information and Invention Assignment Agreement do not apply to any Assigned Invention that qualifies fully under the provisions of Section 2870 of the California Labor code (or any comparable law of any other State), which states as follows:

Any provision in an employment agreement which provides that an employee shall assign, or offer to assign, any of his or her rights in an invention to his or her employer shall not apply to an invention that the employee developed entirely on his or her own time without using the employer's equipment, supplies, facilities, or trade secret information except for those inventions that either:

- (1) Relate at the time of conception or reduction to practice of the invention to the employer's business, or actual or demonstrably anticipated research or development of the employer; or
- (2) Result from any work performed by the employee for his employer.

To the extent a provision in an employment agreement purports to require an employee to assign an invention otherwise excluded from being required to be assigned under California Labor Code Section 2870(a), the provision is against the public policy of this state and is unenforceable.

CONTEXTLOGIC INC. POLICY FOR THE RECOVERY OF ERRONEOUSLY AWARDED COMPENSATION

1. **Purpose.** The purpose of this Policy for the Recovery of Erroneously Awarded Compensation (the “Policy”) is to describe the circumstances under which Executive Officers of ContextLogic Inc. dba Wish (“Wish” or the “Company”) will be required to repay or return Erroneously Awarded Compensation (as defined below) to members of the Company Group. This Policy is designed to comply with, and shall be interpreted to be consistent with, Section 10D of the Securities Exchange Act of 1934, as amended, Rule 10D-1 promulgated thereunder and the Listing Standards. Each Executive Officer shall be required to sign and return to the Company the Acknowledgment Form attached hereto as Exhibit A pursuant to which such Executive Officer will agree to be bound by the terms of and comply with this Policy.

2. **Administration.** This Policy shall be administered by the Compensation Committee of the Company’s Board of Directors (the “Committee”). The Committee is authorized to interpret and construe this Policy and to make all determinations, and take all actions, necessary, appropriate or advisable for the administration of this Policy. Any determinations and interpretations made by the Committee shall be final and binding on all affected individuals, and need not be uniform with respect to each individual covered by the Policy.

3. **Definitions.** As used in this Policy, the following capitalized terms shall have the meanings set forth below.

(a) “**Accounting Restatement**” shall mean an accounting restatement of the Company’s Financial Statements due to the Company’s material noncompliance with any financial reporting requirement under U.S. securities laws, including any required accounting restatement (i) that corrects an error in previously issued financial statements that is material to the previously issued financial statements (a “Big R” restatement), or (ii) that corrects an error that is not material to previously issued financial statements, but would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period (a “little r” restatement). An Accounting Restatement does not include situations in which financial statement changes did not result from material noncompliance with financial reporting requirements, such as, but not limited to, retrospective: (i) application of a change in accounting principles; (ii) revision to reportable segment information due to a change in the structure of the Company’s internal organization; (iii) reclassification due to a discontinued operation; (iv) application of a change in reporting entity, such as from a reorganization of entities under common control; (v) adjustment to provisional amounts in connection with a prior business combination; and (vi) revision for stock splits, reverse stock splits, stock dividends or other changes in capital structure.

(b) “**Board**” shall mean the Board of Directors of the Company.

(c) “**Clawback Eligible Incentive Compensation**” shall mean, in connection with an Accounting Restatement and with respect to each individual who served as an Executive Officer at any time during the applicable performance period for any Incentive-Based Compensation (whether or not such Executive Officer is serving at the time the Erroneously Awarded Compensation is required to be repaid to the

Company Group), all Incentive-Based Compensation Received by such Executive Officer (i) on or after the Effective Date (even if such Incentive-Based Compensation was approved, awarded, granted or paid prior to the Effective Date), (ii) after beginning service as an Executive Officer, (iii) while the Company has a class of securities listed on a national securities exchange or a national securities association, and (iv) during the applicable Clawback Period.

(d) “**Clawback Period**” shall mean, with respect to any Accounting Restatement, the three completed fiscal years of the Company immediately preceding the Restatement Date and any transition period (that results from a change in the Company’s fiscal year) of less than nine months within or immediately following those three completed fiscal years.

(e) “**Committee**” shall mean the Compensation Committee of the Board.

(f) “**Company**” shall mean ContextLogic Inc., a Delaware corporation.

(g) “**Company Group**” shall mean the Company and its subsidiaries and affiliated entities worldwide.

(h) “**Effective Date**” shall mean the effective date of this Policy (and the effective date of the Nasdaq Listing Standards), which date is October 2, 2023.

(i) “**Erroneously Awarded Compensation**” shall mean, with respect to each Executive Officer in connection with an Accounting Restatement, the amount of Clawback Eligible Incentive Compensation that exceeds the amount of Incentive-Based Compensation that otherwise would have been Received had it been determined based on the restated amounts as reflected in the Accounting Restatement, computed without regard to any taxes paid. For Incentive-Based Compensation based on (or derived from) stock price or total shareholder return, where the amount of Erroneously Awarded Compensation is not subject to mathematical recalculation directly from the information in the applicable Accounting Restatement, the amount shall be determined by the Committee based on a reasonable estimate of the effect of the Accounting Restatement on the stock price or total shareholder return upon which the Incentive-Based Compensation was Received (in which case, the Company shall maintain documentation of such determination of that reasonable estimate and provide such documentation to Nasdaq).

(j) “**Executive Officer**” shall mean each individual who is or was designated as an “officer” of the Company in accordance with 17 C.F.R. 240.16a-1(f). Identification of an executive officer for purposes of this Policy includes, at a minimum, executive officers identified pursuant to 17 C.F.R. 229.401(b). As of the Effective Date (and subject to later amendments to the above-referenced rules), Executive Officer covers the Company’s president, principal financial officer, principal accounting officer (or if there is no such accounting officer, the controller), any vice-president of the Company in charge of a principal business unit, division or function (such as sales, administration or finance), any other officer who performs a significant policy-making function, or any other person (including any executive officer of the Company’s affiliates including a parent or subsidiary of the Company) who performs similar policy-making functions for the Company.

(k) “**Financial Reporting Measures**” shall mean measures that are determined and presented in accordance with the accounting principles used in preparing the Company’s financial statements (including “non-GAAP financial measures,” such as those appearing in earnings releases), and any measures that are derived wholly or in part from such measures. For the avoidance of doubt, a Financial Reporting Measure need not be presented within the Company’s financial statements or included in a filing with the SEC. Stock price and total shareholder return shall for purposes of this Policy also be considered Financial Reporting Measures.

(l) “**Incentive-Based Compensation**” shall mean any compensation that is granted, earned or vested based wholly or in part upon the attainment of a Financial Reporting Measure. For the sake of clarity, examples of compensation that is not Incentive-Based Compensation include, but are not limited to: (i) base salaries; (ii) discretionary cash bonuses; (iii) awards (either of cash or equity) that are based solely upon subjective, strategic or operational metrics or measures; and (iv) equity awards that vest solely upon continued service or the passage of time.

(m) “**Listing Standards**” shall mean Nasdaq Listing Rule 5608.

(n) “**Nasdaq**” shall mean The Nasdaq Stock Market.

(o) “**Policy**” shall mean this Policy for the Recovery of Erroneously Awarded Compensation, as the same may be amended, restated, supplemented or otherwise modified from time to time.

(p) “**Received**” shall, with respect to any Incentive-Based Compensation, mean actual or deemed receipt, and Incentive-Based Compensation shall be deemed received in the Company’s fiscal period during which the Financial Reporting Measure specified in the Incentive-Based Compensation award is attained, even if grant or payment of the Incentive-Based Compensation occurs after the end of that period.

(q) “**Restatement Date**” shall mean the earlier to occur of (i) the date the Board, a committee of the Board or the officers of the Company authorized to take such action if Board action is not required, concludes, or reasonably should have concluded, that the Company is required to prepare an Accounting Restatement, or (ii) the date a court, regulator or other legally authorized body directs the Company to prepare an Accounting Restatement, in each case regardless of if or when the restated financial statements are filed.

(r) “**SEC**” shall mean the U.S. Securities and Exchange Commission.

4. Required Recovery of Erroneously Awarded Compensation.

(a) In the event the Company is required to prepare an Accounting Restatement, the Committee shall determine the amount of any Erroneously Awarded Compensation for each Executive Officer in connection with such Accounting Restatement, shall thereafter provide each Executive Officer with a written notice containing the amount of Erroneously Awarded Compensation and a demand for repayment or return, as applicable, and shall take all other actions necessary and appropriate to recover such Erroneously Awarded Compensation from the applicable Executive Officers reasonably promptly.

(b) The Committee shall determine, in its sole discretion, the timing and method for recovering Erroneously Awarded Compensation reasonably based on all applicable facts and circumstances and taking into account the time value of money and the cost to shareholders of delaying recovery. Such methods may include, without limitation, (i) seeking reimbursement of all or part of any cash or equity-based award, (ii) canceling prior cash or equity-based awards, whether vested or unvested or paid or unpaid, (iii) canceling or offsetting against any planned future cash or equity-based awards, (iv) forfeiture of deferred compensation, subject to compliance with Section 409A of the Internal Revenue Code and the regulations promulgated thereunder, and (v) any other method authorized by applicable law or contract. Subject to compliance with any applicable law, the Committee may effect recovery under this Policy (i) from any amount otherwise payable to the Executive Officer, including amounts payable to such individual under any otherwise applicable Company plan or program, including base salary, bonuses or commissions, and compensation previously deferred by the Executive Officer, and (ii) from any amount of compensation approved, awarded, granted, payable or paid to the Executive Officer prior to, on or after the effective date of the Listing Standards. For the avoidance of doubt, except as set forth in Section 4(d) below, in no event

may the Company Group accept an amount that is less than the amount of Erroneously Awarded Compensation in satisfaction of an Executive Officer's obligations hereunder.

(c) To the extent that an Executive Officer fails to repay all Erroneously Awarded Compensation to the Company Group when due, the Company shall, or shall cause one or more other members of the Company Group to, take all actions reasonable and appropriate to recover such Erroneously Awarded Compensation from the applicable Executive Officer. The applicable Executive Officer shall be required to reimburse the Company Group for any and all expenses reasonably incurred (including legal fees) by the Company Group in recovering such Erroneously Awarded Compensation in accordance with the immediately preceding sentence.

(d) Notwithstanding anything herein to the contrary, the Company shall not be required to recover Erroneously Awarded Compensation from any Executive Officer if the following conditions are met and the Committee determines that recovery would be impracticable:

(i) The direct expenses paid to a third party to assist in enforcing the Policy against an Executive Officer would exceed the amount to be recovered, after the Company has made a reasonable attempt to recover the applicable Erroneously Awarded Compensation, documented such attempt(s) and provided such documentation to Nasdaq;

(ii) Recovery would violate home country law of the Company where that law was adopted prior to November 28, 2022, after the Company has obtained an opinion of home country counsel, acceptable to Nasdaq, that recovery would result in such a violation and a copy of the opinion is provided to Nasdaq; or

(iii) Recovery would likely cause an otherwise tax-qualified retirement plan, under which benefits are broadly available to employees of the Company Group, to fail to meet the requirements of 26 U.S.C. 401(a)(13) or 26 U.S.C. 411(a) and regulations thereunder.

5. Reporting and Disclosure. The Company shall file all disclosures with respect to this Policy in accordance with the requirements of applicable federal securities laws, including the disclosure required by the applicable SEC filings. The Company shall also file a copy of this Policy and any amendments thereto as an exhibit to its annual report on Form 10-K.

6. No Indemnification of Executive Officers. Notwithstanding the terms of any indemnification or insurance policy or any contractual arrangement with any Executive Officer that may be interpreted to the contrary, no member of the Company Group shall be permitted to indemnify any Executive Officer against, or pay or reimburse the premiums for an insurance policy to cover, (i) the loss of any Erroneously Awarded Compensation that is repaid, returned or recovered pursuant to the terms of this Policy, or (ii) any claims relating to the Company Group's enforcement of its rights under this Policy. Further, no member of the Company Group shall enter into any agreement that exempts any Incentive-Based Compensation from the application of this Policy or that waives the Company Group's right to recovery of any Erroneously Awarded Compensation, and this Policy shall supersede any such agreement (whether entered into before, on or after the Effective Date).

7. Committee Indemnification. Any members of the Committee, and any other members of the Board who assist in the administration of this Policy, shall not be personally liable for any action, determination or interpretation made with respect to this Policy and shall be fully indemnified by the Company to the fullest extent under applicable law and Company policy with respect to any such action, determination or interpretation. The foregoing sentence shall not limit any other rights to indemnification of the members of the Board under applicable law or Company policy.

8. **Effective Date.** This Policy shall be effective as of the Effective Date.

9. **Amendment; Termination.** The Committee may amend, modify, supplement, rescind or replace all or any portion of this Policy at any time and from time to time in its discretion and shall amend this Policy as it deems necessary, including as and when it determines that it is legally required by any applicable federal securities laws, SEC rule or the rules of any national securities exchange or national securities association on which the Company's securities are listed. The Committee may terminate this Policy at any time. Notwithstanding anything in this Section 9 to the contrary, no amendment or termination of this Policy shall be effective if such amendment or termination would (after taking into account any actions taken by the Company contemporaneously with such amendment or termination) cause the Company to violate any federal securities laws, SEC rule or the rules of any national securities exchange or national securities association on which the Company's securities are listed.

10. **Other Recoupment Rights; Company Claims.**

(a) The Committee intends that this Policy will be applied to the fullest extent of the law and with respect to all Incentive-Based Compensation granted to an Executive Officer, whether pursuant to a pre-existing contract or arrangement, or one that is entered into after the Effective Date. Any right of recoupment under this Policy is in addition to, and not in lieu of, any other remedies or rights of recoupment that may be available to the Company Group under applicable law, regulation or rule or pursuant to the terms of any similar policy in any employment agreement, equity award agreement or similar agreement and any other legal remedies available to the Company Group.

(b) Nothing contained in this Policy, and no recoupment or recovery as contemplated by this Policy, shall limit any claims, damages or other legal remedies the Company or any of its affiliates may have against an Executive Officer arising out of or resulting from any actions or omissions by the Executive Officer.

11. **Successors.** This Policy shall be binding and enforceable against all Executive Officers and their beneficiaries, heirs, executors, administrators or other legal representatives.

Exhibit A

**CONTEXTLOGIC INC. POLICY FOR THE
RECOVERY OF ERRONEOUSLY AWARDED COMPENSATION**

ACKNOWLEDGMENT FORM

By signing below, the undersigned acknowledges and confirms that the undersigned has received and reviewed a copy of the Company Policy for the Recovery of Erroneously Awarded Compensation (as may be amended, restated, supplemented or otherwise modified from time to time, the “*Policy*”). Capitalized terms used but not otherwise defined in this Acknowledgment Form (this “*Acknowledgment Form*”) shall have the meanings ascribed to such terms in the Policy.

By signing this Acknowledgment Form, the undersigned acknowledges and agrees that the undersigned is and will continue to be subject to the Policy and that the Policy will apply both during and after the undersigned’s employment with the Company Group (as defined in the Policy). Further, by signing below, the undersigned agrees to abide by the terms of the Policy, including, without limitation, by promptly returning any Erroneously Awarded Compensation (as defined in the Policy) to the Company Group to the extent required by, and in a manner permitted by, the Policy. In the event of any inconsistency between the Policy and the terms of any employment agreement to which the undersigned is a party, or the terms of any compensation plan, program or agreement under which any compensation has been granted, awarded, earned or paid, the terms of the Policy shall govern.
