Explanatory Note:

On August 8, 2024, USD Partners LP (the "Partnership") filed its Quarterly Report for the quarter ended June 30, 2024 with the OTC (the "Original Quarterly Report"). The purpose of this Amended and Restated Quarterly Report is to include the physical address of the Partnership's transfer agent in Section 1 below. No other disclosures in the Original Quarterly Report are being amended and this Amended and Restated Quarterly Report, and this Amended and Restated Quarterly Report does not reflect any events occurring after the filing of the Original Quarterly Report.

1) Name and address(es) of the issuer and its predecessors (if any)

In answering this item, provide the current name of the issuer and names used by predecessor entities, along with the dates of the name changes.

USD Partners LP

Current State and Date of Incorporation or Registration: Delaware
Standing in this jurisdiction: (e.g. active, default, inactive): In Good Standing

Prior Incorporation Information for the issuer and any predecessors during the past five years:

N/A

Describe any trading suspension or halt orders issued by the SEC or FINRA concerning the issuer or its predecessors since inception:

On November 15, 2023, USD Partners LP (the "Partnership") received a written notice from the staff of NYSE Regulation notifying the Partnership that NYSE Regulation had determined to commence proceedings to delist the Partnership's common units from the New York Stock Exchange ("NYSE"). Trading in the Partnership's common units on the NYSE was suspended after the market close on November 15, 2023. NYSE Regulation reached its decision to delist the common units pursuant to Section 802.01B of the NYSE's Listed Company Manual because the Partnership had fallen below the NYSE's continued listing standard requiring listed companies to maintain an average global market capitalization over a consecutive 30 trading day period of at least \$15 million. The Partnership's units were formally delisted from the NYSE on December 1, 2023.

List any stock split, dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

None.

Publicly Quoted or Traded Securities:

The goal of this section is to provide a clear understanding of the share information for its publicly quoted or traded equity securities. Use the fields below to provide the information, as applicable, for all outstanding classes of securities that are publicly traded/quoted.

Trading symbol:	USDP
Exact title and class of securities outstanding:	Common Units Representing Limited Partnership Interests
CUSIP:	903318 103
Par or stated value:	Not Applicable
Total shares authorized:	Not Applicable
Total shares outstanding:	33,774,427 Common Units as of June 30, 2024
Total number of shareholders of record:	10 as of February 8, 2024

Please provide the above-referenced information for all other publicly quoted or traded securities of the issuer.

Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

Distributions will be made as and when declared by the Board of Directors of the Partnership's General Partner, USD Partners GP LLC (the "General Partner").

Unlike the holders of common stock in a corporation, unitholders have only limited voting rights on matters affecting our business and, therefore, limited ability to influence management's decisions regarding our business. Unitholders do not elect the General Partner or the board of directors of the General Partner and have no right to elect the General Partner or the board of directors of the General Partner on an annual or other continuing basis. The board of directors of the General Partner is chosen by the members of the General Partner, which is indirectly owned by US Development Group, LLC ("USD").

The vote of the holders of at least 66 2/3% of all outstanding units voting together as a single class is required to remove the General Partner. At August 1, 2024, our general partner and its affiliates owned 51.2% of the limited partnership interests entitled to vote in this matter (excluding any common units held by our officers, directors, employees and certain other persons affiliated with the General Partner).

Furthermore, unitholders' voting rights are further restricted by the partnership agreement provision providing that any units held by a person that owns 20.0% or more of any class of units then outstanding, other than the General Partner, its affiliates, their transferees, and persons who acquired such units with the prior approval of the board of directors of the General Partner, cannot vote on any matter.

Our partnership agreement also contains provisions limiting the ability of unitholders to call meetings or to acquire information about our operations, as well as other provisions limiting the unitholders' ability to influence the manner or direction of management.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

Not Applicable.

3. Describe any other material rights of common or preferred stockholders.
4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

None.

3) Issuance History

The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities in the past two completed fiscal years and any subsequent interim period.

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. Using the tabular format below, please describe these events.

A. Changes to the Number of Outstanding Shares for the two most recently completed fiscal years and any subsequent period.

Indicate by check mark whether there were any changes to the number of outstanding shares within the past two completed fiscal years:

4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

USD Partners LP is a fee-based master limited partnership formed by our sponsor, USD Group LLC (USD), to acquire, develop and operate midstream infrastructure and complementary logistics solutions for crude oil and other energy-related products. We generate substantially all of our operating cash flows from take-or-pay contracts with primarily investment grade and other high credit quality customers, including major integrated oil companies and refiners. Our network of crude oil terminals facilitates the transportation of heavy crude oil from Western Canada to key demand centers across North America. Our operations include railcar loading and unloading, outbound pipeline connectivity, truck transloading, as well as other related logistics services.

We also provide one of our customers with leased railcars and fleet services to facilitate the transportation of liquid hydrocarbons by rail. We generally do not take ownership of the products that we handle nor do we receive any payments from our customers based on the value of such products.

B. List any subsidiaries, parent company, or affiliated companies.

C. Describe the issuers' principal products or services.

Our operations include railcar loading and unloading, outbound pipeline connectivity, truck transloading, as well as other related logistics services. We also provide one of our customers with leased railcars and fleet services to facilitate the transportation of liquid hydrocarbons by rail.

5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

Our Hardisty Terminal is an origination terminal where we load various grades of Canadian crude oil onto railcars for transportation to end markets. The Hardisty Terminal has the designed takeaway capacity of three and one-half unit trains per day, or approximately 262,500 barrels per day and consists of a fixed loading rack with approximately 60 railcar loading positions, a unit train staging area and loop tracks capable of holding five unit trains simultaneously. The terminal is also equipped with an onsite vapor management system that allows our customers to minimize hydrocarbon loss while improving safety during the loading process. Our Hardisty Terminal receives inbound deliveries of crude oil through a direct pipeline connection from Gibson Energy Inc.'s, or Gibson's, Hardisty storage terminal. We own the Hardisty Terminal.

6) All Officers, Directors, and Control Persons of the Company

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own.

In addition, list all individuals or entities controlling 5% or more of any class of the issuer's securities. If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity. Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide investors with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial owners.

The information in the table below is as of August 1, 2024.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. ORGANIZATION AND BASIS OF PRESENTATION

USD Partners LP and its consolidated subsidiaries, collectively referred to herein as we, us, our, the Partnership and USDP, is a fee-based master limited partnership formed in 2014 by US Development Group, LLC, or USD, through its wholly-owned subsidiary, USD Group LLC, or USDG. We were formed to acquire, develop and operate midstream infrastructure and complementary logistics solutions for crude oil, biofuels and other energy-related products. We generate substantially all of our operating cash flows from take-or-pay contracts with primarily investment grade and other high credit quality customers, including major integrated oil companies, refiners and marketers. Our network of crude oil terminals facilitate the transportation of heavy crude oil from Western Canada to key demand centers across North America. Our operations include railcar loading and unloading, storage and blending in onsite tanks, inbound and outbound pipeline connectivity, truck transloading, as well as other related logistics services. We also provide one of our customers with leased railcars and fleet services to facilitate the transportation of liquid hydrocarbons by rail. We do not generally take ownership of the products that we handle, nor do we receive any payments from our customers based on the value of such products.

A substantial amount of the operating cash flows related to the terminal services that we provide are generated from take-or-pay contracts with minimum monthly commitment fees and, as a result, are not directly related to actual throughput volumes at our crude oil terminals. Throughput volumes at our terminals are primarily influenced by the difference in price between Western Canadian Select, or WCS, and other grades of crude oil, commonly referred to as spreads, rather than absolute price levels. WCS spreads are influenced by several market factors, including the availability of supplies relative to the level of demand from refiners and other end users, the price and availability of alternative grades of crude oil, the availability of takeaway capacity, as well as transportation costs from supply areas to demand centers.

On March 31, 2023, we completed our divestiture of all of the equity interests in our Casper Terminal, which included the Casper Crude to Rail, LLC and CCR Pipeline, LLC entities, for approximately \$33 million in cash, subject to customary adjustments. On December 20, 2023, we completed our divestiture of 100% of the equity interest in our West Colton Terminal, which included West Colton Rail Terminal LLC, for approximately \$31.3 million in cash, subject to customary adjustments. Refer to [*Note 3. Acquisition and Dispositions*](#) for additional details regarding these dispositions. The Casper and West Colton Terminals were included in our Terminalling Services segment. On April 26, 2024, we completed our divestiture of our Stroud Terminal assets for approximately 20.1 million in cash, subject to customary adjustments.

Basis of Presentation

Our accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, for interim consolidated financial information.

In the opinion of our management, our unaudited interim consolidated financial statements contain all adjustments, consisting only of normal recurring adjustments, which our management considers necessary to present fairly our financial position as of June 30, 2024, our results of operations for the three and six months ended June 30, 2024 and 2023, and our cash flows for the six months ended June 30, 2024 and 2023. We derived our consolidated balance sheet as of December 31, 2023, from the audited consolidated financial statements included in our Annual Report for the fiscal year ended December 31, 2023. Our results of operations for the three and six months ended June 30, 2024 and 2023 should not be taken as indicative of the results to be expected for the full year due to fluctuations in the supply of and demand for crude oil and biofuels, timing and completion of acquisitions, if any, changes in the fair market value of our derivative instruments and the impact of fluctuations in foreign currency exchange rates. These unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes thereto presented in our Annual Report for the fiscal year ended December 31, 2023.

Going Concern

We evaluate at each annual and interim period whether there are conditions or events, considered in the aggregate, that raise substantial doubt about our ability to continue as a going concern within one year after the date that the consolidated financial statements are issued. Our evaluation is based on relevant conditions and events that are known and reasonably knowable at the date that the consolidated financial statements are issued.

The maturity date of our Credit Agreement (as defined below) is November 2, 2024. As a result of the maturity date being within 12 months after the date that these financial statements were issued, the amounts due under our Credit Agreement have been included in our going concern assessment. Our ability to continue as a going concern is dependent on the refinancing or the extension of the maturity date of our Credit Agreement. If we are unable to refinance or extend the maturity date of our Credit Agreement, we likely would not have sufficient cash on hand or available liquidity to repay the maturing Credit Agreement debt as it becomes due.

The Credit Agreement also set forth certain milestones that we were required to achieve in the months leading up to the maturity of the Credit Agreement, including milestones related to total contracted revenue. On June 20, 2024 we entered into a Forbearance Agreement with the lenders under the Credit Agreement, pursuant to which the lenders and administrative agent under the Credit Agreement agreed not to exercise any rights or remedies arising from our failure or prospective failure to meet these milestones.

In exchange for agreeing to enter into the Forbearance Agreement, the lenders under the Credit Agreement required that we agree, among other things, to complete the sale of the Hardisty Rail Terminal on or before December 30, 2024. The Forbearance Agreement also obligates the Partnership to adhere to an operating budget approved by the administrative agent and includes an obligation to repay borrowings with any cash on hand in excess of an agreed maximum. If we fail to timely achieve the milestones for the sale of the Hardisty Rail Terminal or if we fail to abide by our other obligations set forth in the Forbearance Agreement, unless we are able to obtain a waiver for such milestones or other obligations an event of default will occur under the Credit Agreement.

The conditions described above raise substantial doubt about our ability to continue as a going concern for the next 12 months.

Due to the substantial doubt about our ability to continue as a going concern discussed above, as of June 30, 2024 we have recorded a valuation allowance against our deferred tax asset that is associated with our Canadian entities. These consolidated financial statements do not include any other adjustments that might result from the outcome of this uncertainty, nor do they include adjustments to reflect the possible future effects of the recoverability and classification of recorded asset amounts and classifications of liabilities that might be necessary should we be unable to continue as a going concern.

Foreign Currency Translation

We conduct a substantial portion of our operations in Canada, which we account for in the local currency, the Canadian dollar. We translate most Canadian dollar denominated balance sheet accounts into our reporting currency, the U.S. dollar, at the end of period exchange rate, while most accounts in our statement of operations accounts are translated into our reporting currency based on the average exchange rate for each monthly period. Fluctuations in the exchange rates between the Canadian dollar and the U.S. dollar can create variability in the amounts we translate and report in U.S. dollars.

Within these consolidated financial statements, we denote amounts denominated in Canadian dollars with “C\$” immediately prior to the stated amount.

US Development Group, LLC

USD and its affiliates are engaged in designing, developing, owning and managing large-scale multi-modal logistics centers and energy-related infrastructure across North America. USD is the indirect owner of our general partner through its direct ownership of USDG and is currently owned by Energy Capital Partners, Goldman Sachs and certain of USD’s management team.

2. RECENT ACCOUNTING PRONOUNCEMENTS

Recent Accounting Pronouncements Not Yet Adopted

Segment Reporting (ASU 2023-07)

In November 2023, the FASB, issued Accounting Standards Update No. 2023-07, or ASU 2023-07, which amends Accounting Standards Codification Topic 280 to require enhanced disclosures about significant segment expenses. Specifically, this amendment requires disclosure on an annual and interim basis of the following: significant segment expenses that are regularly provided to the chief operating decision maker, or CODM, and included within each reported measure of segment profit or loss, collectively referred to as the significant expense principle, and an amount for other segment items by reportable segment and a description of its composition, where the other segment items disclosed is the difference between segment revenue less the segment expenses disclosed under the significant expense principle and each reported measure of segment profit and loss. In addition, the amendment requires all annual disclosures about a reportable segment's profit or loss and assets currently required by Topic 280 in interim periods. It also clarifies that if the CODM uses more than one measure of a segment's profit or loss in assessing segment performance and deciding how to allocate resources, one or more of those additional measures of segment profit may be reported. However, at least one of the reported segment profit or loss measures (or the single reported measure, if only one is disclosed) should be the measure that is most consistent with the measurement principles used in measuring the corresponding amounts in the consolidated financial statements. In other words, in addition to the measure that is most consistent with the measurement principles under generally accepted accounting principles, or GAAP, reporting additional measures of a segment's profit or loss that are used by the CODM in assessing segment performance and deciding how to allocate resources may be included. The amendment requires that the title and position of the CODM are disclosed and an explanation of how the CODM uses the reported measure(s) of segment profit or loss in assessing segment performance and deciding how to allocate resources. Lastly the amendment requires that if there is a single reportable segment, all the disclosures required by the amendments in ASU 2023-07 and all existing segment disclosures in Topic 280 be disclosed.

The pronouncement is effective for fiscal years beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. A public entity should apply the amendments in this Update retrospectively to all prior periods presented in the financial statements. Upon transition, the segment expense categories and amounts disclosed in the prior periods should be based on the significant segment expense categories identified and disclosed in the period of adoption. We do not anticipate that our adoption of this standard will have a material impact on our financial statements.

Income Taxes (ASU 2023-09)

In December 2023, the FASB, issued Accounting Standards Update No. 2023-09, or ASU 2023-09, which amends Accounting Standards Codification Topic 740 to require enhanced income tax disclosures. The amendments in ASU 2023-09 require that public business entities on an annual basis disclose specific categories in the rate reconciliation and provide additional information for some reconciling items, and provide an explanation, if not otherwise evident, of the individual reconciling items disclosed, such as the nature, effect, and underlying causes of the reconciling items and the judgment used in categorizing the reconciling items. In addition, qualitative disclosures are required for state and local categories that make up greater than 50% of these income tax categories. This amendment also requires all entities to disclose annually the amount of income taxes paid, net of refunds received, disaggregated by federal, state and foreign taxes, and disaggregated by individual jurisdictions in which income taxes paid is equal to or greater than five percent of total income taxes paid. In addition, disclosures are required for disaggregation of domestic or foreign continuing operations income or loss before income taxes.

The pronouncement is effective for annual periods beginning after December 15, 2024. Early adoption is permitted. The amendments to ASU 2023-09 should be applied on a prospective basis, however retrospective application is permitted. We do not anticipate that our adoption of this standard will have a material impact on our financial statements.

3. ACQUISITIONS AND DISPOSITIONS

Casper Terminal Divestiture

On March 31, 2023 we completed our divestiture of 100% of the equity interests in our Casper Terminal, which included the Casper Crude to Rail, LLC and CCR Pipeline, LLC entities, for approximately \$33.0 million in cash, subject to customary adjustments.

The Casper Terminal entities had a carrying value of \$26.8 million at the time of sale. The Casper Terminal was included in our Terminalling services segment. The Casper crude oil terminal, located in Casper, Wyoming, primarily consists of unit train-capable railcar loading capacity in excess of 100,000 barrels per day, six customer-dedicated storage tanks with 900,000 barrels of total capacity and a six-mile, 24-inch diameter pipeline with a direct connection from the Express Pipeline. We recognized a gain of \$6.2 million from the sale of the terminal which we recorded as “*Gain on sale of business*” in our consolidated statement of operations. The gain on sale of business that resulted from the sale of the Casper Terminal was not subject to income tax as the entity is included within our partnership structure. Therefore, no impact was reflected within the “*Provision for income taxes*” recognized in the three months ended March 31, 2023 in our consolidated statements of operations.

West Colton Divestiture

On December 20, 2023, we completed our divestiture of 100% of the equity interest in our West Colton Terminal, which included West Colton Rail Terminal LLC, for approximately \$31.3 million in cash, subject to customary adjustments.

The West Colton Terminal had a carrying value of \$3.3 million at the time of the sale. The West Colton Terminal was included in our Terminalling services segment. The West Colton Terminal, located in West Colton, California, is a unit train-capable destination terminal that can transload up to 13,000 bpd of ethanol and renewable diesel received from producers by rail onto trucks to meet local demand in the San Bernardino and Riverside County-Inland Empire region of Southern California. The West Colton Terminal has 20 railcar offloading positions and four truck loading positions. We recognized a gain of \$27.9 million from the sale of the terminal which we recorded as “*Gain on sale of business*” in our consolidated statement of operations for the year ended December 31, 2023. We recognized an additional gain of \$30 thousand from the sale of the terminal recorded as “*Gain on sale of business*” in our consolidated statement of operations for the six months ended June 30, 2024 related to the final working capital adjustment. The gain on sale of business that resulted from the sale of the West Colton Terminal was not subject to income tax as the entity is included within our partnership structure. Therefore, no impact was reflected within the “*Provision for income taxes*” recognized in the three months ended June 30, 2024 in our consolidated statements of operations.

Stroud Terminal Assets Divestiture

On April 26, 2024 we completed our divestiture of our Stroud Terminal assets, which included the Stroud Crude Terminal LLC assets and the SCT Pipeline LLC assets for approximately \$20.1 million in cash, subject to customary adjustments. As such, subsequent to the end of first quarter of 2024, we reevaluated the fair value of the Stroud Terminal, taking into account the final purchase price of the assets. Refer to [Note 6. Property and Equipment](#) for further details. The Stroud Terminal was included in our Terminalling services segment.

The Stroud Terminal, located in Cushing, Oklahoma, includes 76-acres with current unit train unloading capacity of approximately 50,000 bpd, two onsite tanks with 140,000 barrels of capacity, one truck bay and a 12-inch diameter, 17-mile pipeline with a direct connection to the crude oil storage hub in Cushing, Oklahoma. We recognized a gain of \$1.0 million from the sale of the terminal assets which we recorded in “*Gain on sale of business*” in our consolidated statements of operations for the three and six months ended June 30, 2024. The gain on sale of assets of the Stroud Terminal were not subject to income tax as the entity is included within our partnership structure. Therefore, no impact was reflected within the “*Provision for income taxes*” recognized in the three and six months ended June 30, 2024 in our consolidated statements of operations.

4. REVENUES

Disaggregated Revenues

We manage our business in two reportable segments: Terminalling services and Fleet services. Our segments offer different services and are managed accordingly. Our chief operating decision maker, or CODM, regularly reviews financial information about both segments in order to allocate resources and evaluate performance. As such, we have concluded that disaggregating revenue by reporting segments appropriately depicts how the nature, amount, timing, and uncertainty of revenue and cash flows are affected by economic factors. Refer to [Note 13. Segment Reporting](#) for our disaggregated revenues by segment. Additionally, the below tables summarize the geographic data for our revenues:

Remaining Performance Obligations

The transaction price allocated to the remaining performance obligations associated with our Terminal and Fleet services agreements as of June 30, 2024 are as follows for the periods indicated:

	Six months ending December 31, 2024	2025	2026	2027	2028	Thereafter	Total
	(in thousands)						
Terminalling Services ⁽¹⁾⁽²⁾	\$ 14,599	\$ 22,123	\$ 21,480	\$ 21,480	\$ 21,480	\$ 55,489	\$ 156,651

⁽¹⁾ A significant portion of our Terminal Services Agreements are denominated in Canadian dollars. We have converted the remaining performance obligations associated with these Canadian dollar-denominated contracts using the year-to-date average exchange rate of 0.7363 U.S. dollars for each Canadian dollar at June 30, 2024.

⁽²⁾ Includes fixed monthly minimum commitment fees per contracts and excludes constrained estimates of variable consideration for rate escalations associated with an index, such as the consumer price index, as well as any incremental revenue associated with volume activity above the minimum volumes set forth within the contracts.

We have applied the practical expedient that allows us to exclude disclosure of performance obligations that are part of a contract that has an expected duration of one year or less.

Deferred Revenue

Our deferred revenue is a form of a contract liability and consists of amounts collected in advance from customers associated with their terminal and fleet services agreements and deferred revenues associated with make-up rights, which will be recognized as revenue when earned pursuant to the terms of our contractual arrangements. We currently recognize substantially all of the amounts we receive for minimum volume commitments as revenue when collected, since breakage associated with these make-up rights is currently approximately 99% based on our expectations around usage of these options. Accordingly, we had no deferred revenue at June 30, 2024 and \$0.4 million at December 31, 2023, for estimated breakage associated with the make-up rights options we granted to our customers.

We also have deferred revenue that represents cumulative revenue that has been deferred due to tiered billing provisions. In such arrangements, revenue is recognized using a blended rate based on the billing tiers of the agreement, as the services are consistently provided throughout the duration of the contractual arrangement, which we included in “*Other current liabilities*” and “*Other non-current liabilities*” on our consolidated balance sheets.

The following table presents the amounts outstanding on our consolidated balance sheets and changes associated with the balance of our deferred revenue for the six months ended June 30, 2024 and 2023:

	<u>December 31, 2023</u>	<u>Cash Additions for Customer Prepayments</u>	<u>Balance Sheet Reclassification</u>	<u>Revenue Recognized</u>	<u>June 30, 2024</u>

Other non-current liabilities ⁽²⁾ ..	\$ 3,384	\$ (105)	\$ (252)	\$ —	\$ 3,027

⁽¹⁾ Includes deferred revenue of \$0.4 million at December 31, 2023, for estimated breakage associated with the make-up right options we granted our customers as discussed above.

⁽²⁾ Includes cumulative revenue that has been deferred due to tiered billing provisions included in certain of our Canadian dollar-denominated contracts, as discussed above. As such, the change in “*Other current liabilities*” has been decreased by \$24 thousand and “*Other non-current liabilities*” presented has been decreased by \$105 thousand due to the impact of the change in the end of period exchange rate between June 30, 2024 and December 31, 2023.

Other non-current liabilities ⁽²⁾ ..	\$ 3,943	\$ 88	\$ (392)	\$ —	\$ 3,639

⁽¹⁾ Includes deferred revenue of \$0.4 million at December 31, 2022, for estimated breakage associated with the make-up right options we granted our customers as discussed above. We had no deferred revenue at June 30, 2023 associated with make-up right options.

⁽²⁾ Includes cumulative revenue that has been deferred due to tiered billing provisions included in certain of our Canadian dollar-denominated contracts, as discussed above. As such, the change in “*Other current liabilities*” has been increased by \$127 thousand and “*Other non-current liabilities*” presented has been increased by \$88 thousand due to the impact of the change in the end of period exchange rate between June 30, 2023 and December 31, 2022..

Accounts Receivable

The balance of “*Accounts receivable, net*” and “*Accounts receivable — related party*” were \$2.2 million and \$0.4 million as of December 31, 2022, respectively.

5. RESTRICTED CASH

We include in restricted cash amounts representing a cash account for which the use of funds is restricted by a facilities connection agreement among us and Gibson Energy Inc., or Gibson, that we entered into during 2014 in connection with the development of our Hardisty Terminal. The collaborative arrangement is further discussed in [Note 10. Collaborative Arrangement](#).

In addition, we have an indemnity escrow account of \$2.1 million included in our restricted cash amounts associated with the divestiture of our Stroud Terminal assets. Refer to [Note 3. Acquisitions and Dispositions](#) for a further discussion of the Stroud Terminal divestiture.

The following table provides a reconciliation of cash, cash equivalents and restricted cash reported within our consolidated balance sheets to the amounts shown in our consolidated statements of cash flows for the specified periods:

Depreciation expense associated with property and equipment totaled \$1.2 million and \$1.7 million for the three months ended June 30, 2024 and 2023, respectively, and \$2.4 million and \$3.5 million, for the six months ended June 30, 2024 and 2023, respectively.

Hardisty Terminal

In June 2024, we entered into a forbearance agreement under our existing Credit agreement. Under this agreement we have agreed to sell our Hardisty Terminal on or before December 30, 2024. Refer to [Note 9. Debt](#) for

further discussion regarding the forbearance agreement. We determined that the agreement to sell our Hardisty Terminal was an event that required us to evaluate our Hardisty Terminal asset group for impairment.

When alternative courses of action to recover the carrying amount of a long-lived asset are under consideration, estimates of future undiscounted cash flows take into account possible outcomes and probabilities of their occurrence. If the carrying amount of the long-lived asset is not recoverable based on the estimated future undiscounted cash flows or when other methods of assessing fair value determine that fair value is less than the carrying amount of the asset, an impairment loss is recognized to the extent the carrying amount exceeds the estimated fair value of the long-lived asset.

The critical assumptions used in the analysis include the following:

- 1) Cumulative present value of free cash flow of C\$37.3 million
- 2) Annualized EBITDA of C\$10.7 million
- 3) Terminal value discount factor of 26%
- 4) Exit multiple range of 4.0x to 5.0x

We determined the fair value of our Hardisty Terminal based on a third party appraisal. The estimate of fair value required the use of significant unobservable inputs representative of a Level 3 fair value measurement.

As a result of the impairment analysis discussed above, we determined that the carrying value of our Hardisty Terminal asset group exceeded the fair value of the Hardisty terminal as of June 30, 2024, the date of our evaluation. As a result, we have recognized a non-cash impairment loss of C\$23.9 million (USD \$17.4 million) for the three and six months ended June 30, 2024, to write down the property, plant and equipment of the terminal to its fair market value, the charge for which we have included in “Impairment of long-lived assets” within our consolidated statements of operations. The Hardisty Terminal is included in our Terminalling services segment as reported in our segment results included in Note 13. Segment Reporting.

Stroud Terminal

During the second quarter of 2023 our board of directors of our general partner approved the sale of the Stroud Terminal and we classified it as held for sale in our consolidated balance sheets. The Stroud Terminal is included in our Terminalling Services Segment. Property and equipment is the only significant class of assets at our Stroud Terminal.

As a result of classifying our Stroud Terminal as held for sale, we evaluate the terminal’s fair value on a quarterly basis. In January 2024, we entered into an exclusivity agreement with a third party regarding the potential sale of the Stroud Terminal, which among other items, contemplated a purchase price for the asset. As such, we assessed a fair value of the Stroud Terminal at December 31, 2023, taking into account the purchase price contemplated from the aforementioned agreement, less the estimated cost to sell the assets. As a result of this analysis, we recognized a \$3.0 million loss presented as “*Loss on assets held for sale*” on our consolidated statement of operations in our annual report for the year ended December 31, 2023.

We closed the sale of our Stroud Terminal assets on April 26, 2024. As such, subsequent to the end of first quarter of 2024, we reevaluated the fair value of the Stroud Terminal as of March 31, 2024, taking into account the final purchase price of the assets and determined that the purchase price less the estimated costs to sell the assets was higher than the original carrying value of the assets. Accordingly, we recognized a \$3.0 million recovery of the loss on the assets held for sale, presented as “*Recovery of loss on assets held for sale*” for the six months ended June 30, 2024 on our consolidated statement of operations. Refer to [Note 3. Acquisitions and Dispositions](#) for further discussion of the sale of the Stroud Terminal assets.

As indicated above, our estimate of fair value for the Stroud Terminal required us to use significant unobservable inputs representative of Level 3 fair value measurements.

7. LEASES

Lessee

Historically, we had noncancellable operating leases for railcars, buildings, storage tanks, offices, railroad tracks, and land. We currently have noncancellable leases for equipment and railcars.

We serve as an intermediary to assist our customers with obtaining railcars. In connection with our leasing of railcars from third parties, we simultaneously enter into lease agreements with our customers for noncancellable terms that are designed to recover our costs associated with leasing the railcars plus a fee for providing this service. Historically, we also had lease income from storage tanks and lease income from our related party Terminal Services Agreement associated with transloading renewable diesel at our West Colton Terminal that commenced in December 2021 and was sold to a third party in December 2023.

9. DEBT

In November 2018, we amended and restated our revolving senior secured credit agreement, which we originally established in October 2014. We refer to the amended and restated senior secured credit agreement executed in November 2018, including all amendments through November 20, 2023, as the Credit Agreement. See our December 31, 2023 Annual Report for further discussion on our Credit Agreement.

Our Credit Agreement was scheduled to mature on November 2, 2023. Under a series of letter agreements, the maturity date was extended while we negotiated an amendment with our lenders. On November 21, 2023, we entered into another amendment, or the Amendment, which among other things extends the maturity date to November 2, 2024 and waives prior defaults under the Credit Agreement. The Amendment also provides that interest owing on each loan under the Credit Agreement after the effective date, shall be paid in kind by ratably increasing the amount of principal of the applicable loan by the amount of such interest due, on a quarterly basis, on each applicable interest payment date. In accordance with the Amendment, we are required to prepay, subject to certain exceptions, the loans under the Credit Agreement in an aggregate amount equal to 100% of the net cash proceeds from the sale of any property by us or our subsidiaries. The Amendment also requires that our West Colton Terminal be sold, subject to certain conditions. Furthermore, if we have in excess of \$6.0 million of unrestricted cash at the end of any calendar month, such amounts in excess of \$6.0 million are required to be used to prepay any loans under the Credit Agreement. The Amendment also provide that upon the earlier of the sale of the West Colton Terminal or December 22, 2023, the Loan Parties must maintain unrestricted cash of at least \$2.0 million, tested on a weekly basis. In addition, the Amendment requires us to appoint a new independent director to the board of directors, or the Board, and delegate to that director certain rights, powers and authority over certain material transactions and actions that we undertake, which serve the function of the Chief Restructuring Officer, or CRO required and defined by the Amendment. In addition, no additional borrowings may be made after November 21, 2023. Therefore, as of June 30, 2024, we have no available capacity under our Credit Agreement.

In addition, amongst other covenants, we must comply with several dated milestones contained within the Amendment that require us to: (i) reduce our expenses to approximately \$3 million per year as determined by the CRO; (ii) enter into additional contracts at the Hardisty Terminal by specified dates; (iii) provide a structured payment agreement to refinance or repay the outstanding debt on our Credit Agreement in its entirety by a specified date; and (iv) reduce the conflicts committee to two persons, including the CRO. If we are unable to comply with the milestones defined within the Amendment and we are unable to negotiate an extension of such milestones, an event of default will occur under the Credit Agreement and, among other things, we may potentially be required to sell the Hardisty Terminal, the proceeds of which would be used to repay the Credit Agreement.

Also on November 21, 2023, as required by the Amendment to the Credit Agreement, we entered into a Side Letter to the Amended and Restated Omnibus Agreement, or the Omnibus Agreement, with USD, USDG, as defined below, and certain other of their subsidiaries. Among other things, the Side Letter provides that the maximum amount of expenses incurred as part of the Administrative Fee that are fixed and would otherwise be payable by us under the Omnibus Agreement are not permitted to exceed approximately \$1.5 million during the period from November 1, 2023 to the maturity date of our Credit Agreement and will be classified as a liability until such time as we have paid our Credit Agreement in full. In addition, all employee related general and administrative expenses paid by us are limited to specified amounts during the same period, and are subject to further reduction upon the sale of our West Colton or Stroud Terminals. Additionally, the payment of corporate general and administrative costs that are reimbursable by us under the Omnibus Agreement are subject to the approval of the CRO.

Obligations under the Credit Agreement are guaranteed by our restricted subsidiaries (as such term is defined therein) and are secured by a first priority lien on our assets and those of our restricted subsidiaries, other than certain excluded assets.

On June 21, 2024 we entered into an agreement, or the Forbearance Agreement, with the lenders and administrative agent under our existing Credit Agreement. Pursuant to the Forbearance Agreement, subject to certain terms and conditions, the lenders have agreed to forbear through and until November 1, 2024, from exercising any rights or remedies arising from certain events of default and certain prospective events of default related to our failure to satisfy certain milestones under the Credit Agreement and other loan documents.

In exchange for agreeing to enter into the Forbearance Agreement, the lenders under the Credit Agreement will require us to, among other things, complete the sale of our Hardisty Terminal on or before December 30, 2024. The Termination Date of our Credit Agreement may be extended (i) to December 30, 2024, upon satisfaction of certain milestones in the sale process and (ii) to January 31, 2025, in the discretion of the administrative agent. The Forbearance Agreement also obligates us to adhere to an operating budget approved by the administrative agent and includes an obligation to repay borrowings with any cash on hand in excess of an agreed maximum.

Our borrowings under the Credit Agreement bear interest equal to the sum of Adjusted Term SOFR for the interest period plus 6.75%.

Our Credit Agreement contains affirmative and negative covenants that, among other things, limit or restrict our ability and the ability of our restricted subsidiaries to incur or guarantee debt, incur liens, make investments, make restricted payments, engage in certain business activities, engage in mergers, consolidations and other organizational changes, sell, transfer or otherwise dispose of assets, enter into burdensome agreements or enter into transactions with affiliates on terms that are not at arm’s length, in each case, subject to exceptions.

The Credit Agreement contains events of default, including, but not limited to (and subject to grace periods in circumstances set forth in the Credit Agreement the failure to pay any principal, interest or fees when due, failure to perform or observe any covenant (subject in some cases to certain grace periods or other qualifications), any representation, warranty or certification made or deemed made in the agreements or related loan documentation being untrue in any material respect when made, default under certain material debt agreements, commencement of bankruptcy or other insolvency proceedings, certain changes in our ownership or the ownership of our general partner, certain material judgments or orders, ERISA events, the invalidity of the loan documents, failure to add the CRO to the Board or the Conflicts Committee or provide the CRO with the authorizations granted by the Board necessary to act on behalf of the Loan Parties or termination of the CRO by the General Partner, unless otherwise in accordance with the Credit Agreement, or failure to complete the West Colton Terminal sale by the date specified in the Credit Agreement or the gross proceeds from such sale are less than the amount specified in the Credit Agreement. Upon the occurrence and during the continuation of an event of default under the Credit Agreement, the lenders may, among other things, terminate their commitments, declare any outstanding loans to be immediately due and payable and/or exercise remedies against us and the collateral as may be available to the lenders under the agreements and related documentation or applicable law. The CRO, at the direction of the lenders, may also commence an out-of-court process for the sale of all or substantially all of our assets upon the occurrence and during the continuation of an event of default under the Credit Agreement.

Our long-term debt balances included the following components as of the specified dates:

	<u>June 30, 2024</u>	<u>December 31, 2023</u>

The weighted-average interest rate on our outstanding indebtedness was 12.19% and 12.42% at June 30, 2024 and December 31, 2023, respectively. At June 30, 2024, we were not in compliance with the covenants set forth in our Credit Agreement, however, under the forbearance agreement discussed above, the lenders have agreed to forbear through and until November 1, 2024, from exercising any rights or remedies arising from this noncompliance.

Interest expense associated with our outstanding indebtedness was as follows for the specified periods:

Supplier Financing Agreement

We have agreements with a third party that allows a provider of some of our received services to finance payment obligations from us with a designated third-party financial institution associated with insurance for certain of our terminals. The extended payment terms that we have with this supplier for these arrangements is nine months from the execution of the insurance contract. We are not required to provide collateral to the financial institution.

Our outstanding payment obligation under these arrangements was \$52 thousand at December 31, 2023 and recorded in “*Other current liabilities*” on our consolidated balance sheet. We had no outstanding payment obligation under these arrangements at June 30, 2024.

10. COLLABORATIVE ARRANGEMENT

We entered into a facilities connection agreement in 2014 with Gibson under which Gibson developed, constructed and operates a pipeline and related facilities connected to our Hardisty Terminal. Gibson’s storage terminal is the exclusive means by which our Hardisty Terminal receives crude oil. Subject to certain limited exceptions regarding manifest train facilities, our Hardisty Terminal is the exclusive means by which crude oil from Gibson’s Hardisty storage terminal may be transported by rail. We remit pipeline fees to Gibson for the transportation of crude oil to our Hardisty Terminal based on a predetermined formula. Pursuant to our arrangement with Gibson, we incurred pipeline fees of \$2.6 million and \$5.8 million for the three months ended June 30, 2024 and 2023, respectively, and \$5.5 million and \$11.3 million for the six months ended June 30, 2024 and 2023, respectively, which are presented as “*Pipeline fees*” in our consolidated statements of operations.

11. TRANSACTIONS WITH RELATED PARTIES

Nature of Relationship with Related Parties

USD is engaged in designing, developing, owning and managing large-scale multi-modal logistics centers and other energy-related infrastructure across North America. USD is also the sole owner of USDG and the ultimate parent of our general partner. USD is owned by Energy Capital Partners, Goldman Sachs and certain members of its management.

USDG is the sole owner of our general partner and at June 30, 2024, owns 17,308,226 of our common units representing a 51.2% limited partner interest in us. USDG also provides us with general and administrative support services necessary for the operation and management of our business.

USD Partners GP LLC, our general partner, pursuant to our partnership agreement, is responsible for our overall governance and operations. However, our general partner has no obligation to, does not intend to and has not implied that it would provide financial support to or fund cash flow deficits of the Partnership.

USD Marketing LLC, or USDM, is a wholly-owned subsidiary of USDG organized to promote contracting for services provided by our terminals and to facilitate the marketing of customer products.

Historically, USD Clean Fuels LLC, or USDCF, was a subsidiary of USD organized for the purpose of providing production and logistics solutions to the growing market for clean energy transportation fuels prior to its sale in December 2023.

Omnibus Agreement

We are party to an omnibus agreement with USD, USDG and certain of their subsidiaries, or the Omnibus Agreement, including our general partner, pursuant to which we obtain and make payments for specified services provided to us and for out-of-pocket costs incurred on our behalf. We pay USDG, in equal monthly installments, the annual amount USDG estimates will be payable by us during the calendar year for providing services for our benefit. The Omnibus Agreement provides that this amount may be adjusted annually to reflect, among other things, changes in the scope of the general and administrative services provided to us due to a contribution, acquisition or disposition of assets by, us or our subsidiaries, or for changes in any law, rule or regulation applicable to us, which affects the cost of providing the general and administrative services. We also reimburse USDG for any out-of-pocket costs and expenses incurred on our behalf in providing general and administrative services to us. This reimbursement is in addition to the amounts we pay to reimburse our general partner and its affiliates for certain costs and expenses incurred on our behalf for managing our business and operations, as required by our partnership agreement.

As previously discussed in further detail in [Note 9. Debt](#), in November 2023, we entered into a Side Letter to the Amended and Restated Omnibus Agreement, as required by the November 2023 Amendment to the Credit Agreement.

The total amounts charged to us under the Omnibus Agreement for the three months ended June 30, 2024 and 2023 was \$0.9 million and \$1.8 million, respectively, and for the six months ended June 30, 2024 and 2023 was \$2.0 million and \$4.0 million, respectively, which amounts are included in “*Selling, general and administrative — related party*” in our consolidated statements of operations. We had a payable balance of \$1.2 million and \$0.6 million with respect to these costs at June 30, 2024 and December 31, 2023, respectively, included in “*Accounts payable and accrued expenses — related party*” in our consolidated balance sheets.

Related Party Revenue and Deferred Revenue

We previously entered into a Terminal Services Agreement at our West Colton Terminal with USDCF that became effective in December 2021 and concluded when the West Colton Terminal was sold in December 2023. We include amounts received pursuant to the arrangement as revenue in the table below under “*Terminalling services — related party*” in our consolidated statements of operations.

We also have agreements to provide fleet services for USDM, which includes reimbursement to us for certain out-of-pocket expenses we incur. We received revenue from USDM for the lease of 200 railcars pursuant to the terms of an existing agreement with us that was extended in January 2024 until December 31, 2028, which is included in the table below under “*Fleet leases — related party*” and “*Fleet services — related party*” and in our consolidated statements of operations.

Our related party revenues from USD and affiliates are presented below in the following table for the indicated periods:

⁽¹⁾ Does not include amounts to related parties associated with the Omnibus Agreement, as discussed above.

12. COMMITMENTS AND CONTINGENCIES

From time to time, we may be involved in legal, tax, regulatory and other proceedings in the ordinary course of business. We do not believe that we are currently a party to any such proceedings that will have a material adverse impact on our financial condition or results of operations.

13. SEGMENT REPORTING

We manage our business in two reportable segments: Terminalling services and Fleet services. The Terminalling services segment charges minimum monthly commitment fees under multi-year take-or-pay contracts to load and unload various grades of crude oil into and from railcars, as well as fixed fees per gallon to transload ethanol and renewable diesel from railcars, including related logistics services. We also facilitate rail-to-pipeline shipments of crude oil. The Fleet services segment provides customers with railcars and fleet services related to the transportation of liquid hydrocarbons under multi-year, take-or-pay contracts. Corporate activities are not considered a reportable segment, but are included to present shared services and financing activities which are not allocated to our established reporting segments.

Our segments offer different services and are managed accordingly. Our CODM regularly reviews financial information about both segments in order to allocate resources and evaluate performance. Our CODM assesses segment performance based on the cash flows produced by our established reporting segments using Segment Adjusted EBITDA. Segment Adjusted EBITDA is a measure calculated in accordance with GAAP. We define Segment Adjusted EBITDA as “*Net income (loss)*” of each segment adjusted for depreciation and amortization, interest, income taxes, changes in contract assets and liabilities, deferred revenues, foreign currency transaction gains and losses and other items which do not affect the underlying cash flows produced by our businesses. As such, we have concluded that disaggregating revenue by reporting segments appropriately depicts how the nature, amount, timing, and uncertainty of revenue and cash flows are affected by economic factors.

14. DERIVATIVE FINANCIAL INSTRUMENTS

Our net income, or loss, and cash flows are subject to fluctuations resulting from changes in interest rates on our variable rate debt obligations and from changes in foreign currency exchange rates, particularly with respect to the U.S. dollar and the Canadian dollar. We use interest rate derivative instruments, specifically swaps, on our variable rate debt and to manage the risks associated with market fluctuations in interest rates to reduce volatility in our cash flows. We have not historically designated, nor do we expect to designate, our derivative financial instruments as hedges of the underlying risk exposure. All of our financial instruments are employed in connection with an underlying asset, liability and/or forecasted transaction and are not entered into for speculative purposes.

Interest Rate Derivatives

In October 2022, we terminated and settled our existing interest rate swap and simultaneously entered into a new interest rate swap. The new interest rate swap was a five-year contract with a \$175.0 million notional value that fixed SOFR to 3.956% for the notional value of the swap agreement instead of the variable rate that we pay under our Credit Agreement. The swap was to be settled monthly through the termination date in October 2027.

On October 10, 2023, based on the terms of a Letter Agreement associated with our Credit Agreement discussed above in [Note 9. Debt](#), we terminated and settled our existing interest rate swap for cash proceeds of \$2.6 million. Per the terms of the October Letter Agreement, the proceeds from this settlement were sent directly to Bank of Montreal, the administrative agent of our Credit Agreement and were applied to the outstanding interest balance on our Credit Agreement on October 12, 2023.

Derivative Positions

We had not designated our derivative financial instruments as hedges of our interest rate exposure. As a result, changes in the fair value of these derivatives was recorded as “*Gain associated with derivative instruments*” in our consolidated statements of operations. The gains or losses associated with changes in the fair value of our derivative contracts do not affect our cash flows until the underlying contract was settled by making or receiving a payment to or from the counterparty. In connection with our derivative activities, we recognized the following amounts during the periods presented:

	<u>Three Months Ended June 30,</u>		<u>Six Months Ended June 30,</u>	
	<u>2024</u>	<u>2023</u>	<u>2024</u>	<u>2023</u>
	(in thousands)			
Gain associated with derivative instruments	\$ —	\$ (4,755)	\$ —	\$ (2,905)

Historically, we determined the fair value of our derivative financial instruments using third party pricing information that was derived from observable market inputs, which we classify as level 2 with respect to the fair value hierarchy. We had no derivatives at June 30, 2024 or at December 31, 2023.

15. PARTNERS’ CAPITAL

Our common units represent limited partner interests in us and are entitled to participate in partnership distributions and to exercise the rights and privileges available to limited partners under our partnership agreement.

Pursuant to the terms of the First Amendment to the USD Partners LP Amended and Restated 2014 Long-Term Incentive Plan, which we refer to as the Amended LTIP Plan, our phantom unit awards, or Phantom Units, granted to directors and employees of our general partner and its affiliates, which are classified as equity, are converted into our common units upon vesting. As of June 30, 2024, awards of 465,133 Phantom Units vested. In addition, 131,517 Phantom Units were voluntarily forfeited associated with these vestings. The vested units were paid in cash based on the fair value of our common units on the respective vesting dates. Additional information and discussion regarding our unit based compensation plans is included below in [Note 16. Unit Based Compensation](#).

We had 864,793 and 1,454,757 equity-classified Phantom Unit awards outstanding at June 30, 2024 and 2023, respectively, all of which were anti-dilutive and therefore excluded in our calculation of net income per limited partner unit.

Our partnership agreement does not require us to pay cash distributions on a quarterly or other basis. The amount of distributions we pay under our cash distribution policy and the decision to make any distribution are determined by our general partner and restricted by our lenders.

16. UNIT BASED COMPENSATION

Long-term Incentive Plan

In 2023, the board of directors of our general partner, acting in its capacity as our general partner, approved the grant of 714,725 Phantom Units, respectively, to directors and employees of our general partner and its affiliates under our Amended LTIP Plan. There were no grants of Phantom Units to date in 2024. At June 30, 2024, we had 3,869,880 Phantom Units remaining available for issuance. The Phantom Units are subject to all of the terms and conditions of the Amended LTIP Plan and the Phantom Unit award agreements, which are collectively referred to as

the Award Agreements. When a grant is approved by the board of directors, award amounts for each of the grants are generally determined by reference to a specified dollar amount based on an allocation formula which included a percentage multiplier of the grantee's base salary, among other factors, converted to a number of units based on the closing price of one of our common units preceding the grant date, as determined by the board of directors of our general partner and quoted on the applicable public market.

Phantom Unit awards generally represent rights to receive our common units upon vesting. However, with respect to the awards granted to directors and employees of our general partner and its affiliates domiciled in Canada, for each Phantom Unit that vests, a participant is entitled to receive cash for an amount equivalent to the closing market price of one of our common units on the vesting date. Each Phantom Unit granted under the Award Agreements includes an accompanying distribution equivalent right, or DER, which entitles each participant to receive payments at a per unit rate equal in amount to the per unit rate for any distributions we make with respect to our common units. The Award Agreements granted to employees of our general partner and its affiliates generally contemplate that the individual grants of Phantom Units will vest in four equal annual installments based on the grantee's continued employment through the vesting dates specified in the Award Agreements, subject to acceleration upon the grantee's death or disability, or involuntary termination in connection with a change in control of the Partnership or our general partner. Awards to independent directors of the board of our general partner and an independent consultant typically vest over a one year period following the grant date.

The following tables present the award activity for our Equity-classified Phantom Units:

	Director and Independent Consultant Phantom Units	Employee Phantom Units	Weighted- Average Grant Date Fair Value Per Phantom Unit

The following tables present the award activity for our Liability-classified Phantom Units:

	Director and Independent Consultant Phantom Units	Employee Phantom Units	Weighted- Average Grant Date Fair Value Per Phantom Unit
Phantom Unit awards at December 31, 2023	13,136	58,169	\$ 4.24
Granted	—	—	\$ —

	Director and Independent Consultant Phantom Units	Employee Phantom Units	Weighted- Average Grant Date Fair Value Per Phantom Unit
Phantom Unit awards at December 31, 2022	13,136	56,847	\$ 6.27
Granted	13,136	45,423	\$ 3.54
Vested	(13,136)	(3,022)	\$ 5.67
Phantom Unit awards at June 30, 2023	<u>13,136</u>	<u>99,248</u>	\$ 4.93

The fair value of each Phantom Unit on the grant date is equal to the closing market price of our common units on the grant date. We account for the Phantom Unit grants to independent directors and employees of our general partner and its affiliates domiciled in Canada that are paid out in cash upon vesting, throughout the requisite vesting period, by revaluing the unvested Phantom Units outstanding at the end of each reporting period and recording a charge to compensation expense in “*Selling, general and administrative*” in our consolidated statements of operations and recognizing a liability in “*Other current liabilities*” in our consolidated balance sheets. With respect to the Phantom Units granted to consultants, independent directors and employees of our general partner and its affiliates domiciled in the United States, we amortize the initial grant date fair value over the requisite service period using the straight-line method with a charge to compensation expense in “*Selling, general and administrative*” in our consolidated statements of operations, with an offset to common units within the Partners’ Capital section of our consolidated balance sheet.

For the three months ended June 30, 2024 and 2023, we recognized \$0.5 million and \$0.9 million, respectively, and for the six months ended June 30, 2024 and 2023, we recognized \$1.2 million and \$1.9 million, respectively, of compensation expense associated with outstanding Phantom Units. As of June 30, 2024, we have unrecognized compensation expense associated with our outstanding Phantom Units totaling \$2.9 million, which we expect to recognize over a weighted average period of 1.96 years. We have elected to account for actual forfeitures as they occur rather than using an estimated forfeiture rate to determine the number of awards we expect to vest.

We made payments to holders of the Phantom Units pursuant to the associated DERs we granted to them under the Award Agreements as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023

Equity-classified Phantom Units ⁽¹⁾	\$ —	\$ —	\$ —	\$ 169
Liability-classified Phantom Units	—	—	—	9
Total	\$ —	\$ —	\$ —	\$ 178

⁽¹⁾ We reclassified \$4 thousand and \$111 thousand to unit based compensation expense for DERs paid in relation to Phantom Units that have been forfeited for the three and six months ended June 30, 2024. We reclassified \$7 thousand and \$8 thousand for the three and six months ended June 30, 2023, respectively, for forfeitures.

17. SUPPLEMENTAL CASH FLOW INFORMATION

The following table provides supplemental cash flow information for the periods indicated:

	(in thousands)	
Property and equipment financed through accounts payable and accrued expenses	\$ —	\$ (302)
Accrued reimbursement of property and equipment	\$ —	\$ (12)

We recorded \$6.6 million and \$0.8 million of right-of-use lease assets and the associated liabilities on our consolidated balance sheet as of June 30, 2024 and December 31, 2023, respectively, representing non-cash activities resulting from either new, extended, canceled or declassified lease agreements. See [Note 7. Leases](#) for further discussion.

18. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through August 8, 2024 the date on which the consolidated financial statements were available to be issued.

Credit Agreement Activity

Subsequent to June 30, 2024, we repaid \$39.9 thousand under the terms of our Credit Agreement and incurred additional paid in kind interest of \$1.7 million. As of August 5, we had amounts outstanding of \$175.0 million under the Credit Agreement.

Assets Held for Sale - Hardisty Terminal

In July 2024, we began marketing for the sale of our Hardisty Terminal. As such, as of July 26, 2024, the Hardisty Terminal is classified as assets held for sale. We currently expect the sale of the Hardisty Terminal sometime in the last half of 2024.
