Mr. Tiezheng Li, Chief Executive Officer of FinVolution, commented, "We ended the first half of 2024 on a positive note, driving progressive growth in the China market while maintaining faster growth momentum internationally through strong execution of our Local Excellence, Global Outlook Strategy.

"Cumulatively, we have served around 31.5 million borrowers across China, Indonesia and the Philippines as of June 30, 2024. During the first half of 2024, transaction volume for the China market reached RMB92.5 billion, up 6.0% year-over-year. Transaction volume for the international market continued to grow faster, soaring to RMB4.5 billion, up 32.4% year-over-year. In terms of outstanding balances, the China market reached RMB64.2 billion while our international market reached RMB1.4 billion, up 2.6% and 27.3% respectively year-over-year. This stellar performance stands as a testament to our strategy's effectiveness," concluded Mr. Li.

Mr. Jiayuan Xu, FinVolution's Chief Financial Officer, continued, "Alongside solid operational metrics, our financial performance improved progressively with net revenues for the quarter reaching RMB3,168.0 million (US\$435.9 million), up 3.0% year-over-year. Notably, contributions from international revenue grew to RMB562.9 million (US\$77.5 million), up 12.0% year-over-year, and representing 17.8% of total revenue. Our total liquidity position remained healthy and robust at RMB8,138.8 million (US\$1,119.9 million) as of June 30, 2024.

"As part of our ongoing consistent commitment to return value to shareholders, we deployed approximately US\$29.6 million in the second quarter of 2024 to repurchase our shares on the secondary market. In the first half of 2024, we deployed approximately US\$56.8 million to repurchase our shares on the secondary market. Since 2018, we have cumulatively returned a total of approximately US\$661.8 million to our shareholders through our leading capital return program, underscoring our consistent and sustainable commitment to our shareholders," concluded Mr. Xu.

#### Second Quarter 2024 Financial Results

**Net revenue** for the second quarter of 2024 was RMB3,168.0 million (US\$435.9 million), compared with RMB3,075.7 million for the same period of 2023. This increase was primarily due to the increase in guarantee income and other revenue.

*Loan facilitation service fees* was RMB1,110.5 million (US\$152.8 million) for the second quarter of 2024, compared with RMB1,115.0 million for the same period of 2023, remaining stable year-over-year.

*Post-facilitation service fees* was RMB389.2 million (US\$53.6 million) for the second quarter of 2024, compared with RMB488.2 million for the same period of 2023. This decrease was primarily due to the rolling impact of deferred transaction fees.

*Guarantee income* was RMB1,298.9 million (US\$178.7 million) for the second quarter of 2024, compared with RMB1,072.9 million for the same period of 2023. This increase was primarily due to the increased outstanding loan balance of off-balance sheet loans in the international markets, higher guarantee rates and the rolling impact of deferred guarantee income. The fair value of quality assurance commitment upon loan origination is released as guarantee income systematically over the term of the loans subject to quality assurance commitment.

*Net interest income* was RMB218.8 million (US\$30.1 million) for the second quarter of 2024, compared with RMB263.0 million for the same period of 2023. This decrease was primarily due to the decrease in the average outstanding loan balances of on-balance sheet loans in the international markets.

*Other revenue* was RMB150.5 million (US\$20.7 million) for the second quarter of 2024, compared with RMB136.5 million for the same period of 2023. This increase was primarily due to the increase in customer referral fees from the financial institutions along with our Company's enhanced product and service offerings.

**Origination, servicing expenses and other costs of revenue** was RMB575.2 million (US\$79.2 million) for the second quarter of 2024, compared with RMB516.0 million for the same period of 2023. This increase was primarily due to an increase in the facilitation costs as a result of the higher transaction volume in the international market and an increase in the loan collection expenses as a result of the higher outstanding loan balance.

**Sales and marketing expenses** was RMB473.3 million (US\$65.1 million) for the second quarter of 2024, compared with RMB468.8 million for the same period of 2023, as a result of our more proactive customer acquisition efforts focusing on better quality borrowers, especially in the international markets.

**Research and development expenses** was RMB119.3 million (US\$16.4 million) for the second quarter of 2024, compared with RMB124.6 million for the same period of 2023. This decrease was primarily due to the increase in technology development efficiency.

**General and administrative expenses** was RMB101.9 million (US\$14.0 million) for the second quarter of 2024, compared with RMB90.8 million for the same period of 2023. This increase was primarily due to the increase in employee compensation.

**Provision for accounts receivable and contract assets** was RMB57.2 million (US\$7.9 million) for the second quarter of 2024, compared with RMB67.5 million for the same period of 2023. This decrease was primarily due to the decrease in the outstanding loan balances for which the Company bears credit risks in the China market.

**Provision for loans receivable** was RMB92.0 million (US\$12.7 million) for the second quarter of 2024, compared with RMB159.2 million for the same period of 2023. This decrease was primarily due to the decreases in the loan volume and the outstanding loan balances of on-balance sheet loans in the international markets.

**Credit losses for quality assurance commitment** was RMB1,190.6 million (US\$163.8 million) for the second quarter of 2024, compared with RMB1,073.5 million for the same period of 2023. The increase was primarily due to the growth in the loan volume and the outstanding loan balances of off-balance sheet loans in the international markets.

**Operating profit** was RMB558.5 million (US\$76.9 million) for the second quarter of 2024, compared with RMB575.4 million for the same period of 2023.

**Non-GAAP adjusted operating income**, which excludes share-based compensation expenses before tax, was RMB598.6 million (US\$82.4 million) for the second quarter of 2024, compared with RMB606.9 million for the same period of 2023.

**Other income** was RMB67.7 million (US\$9.3 million) for the second quarter of 2024, compared with RMB119.9 million for the same period of 2023. This decrease was mainly due to the decrease in government subsidies.

**Income tax expense** was RMB75.2 million (US\$10.3 million) for the second quarter of 2024, compared with RMB105.2 million for the same period of 2023. This decrease was mainly due to the decrease in pre-tax profit and the change in the estimated annual effective tax rate.

**Net profit** was RMB551.0 million (US\$75.8 million) for the second quarter of 2024, compared with RMB590.1 million for the same period of 2023.

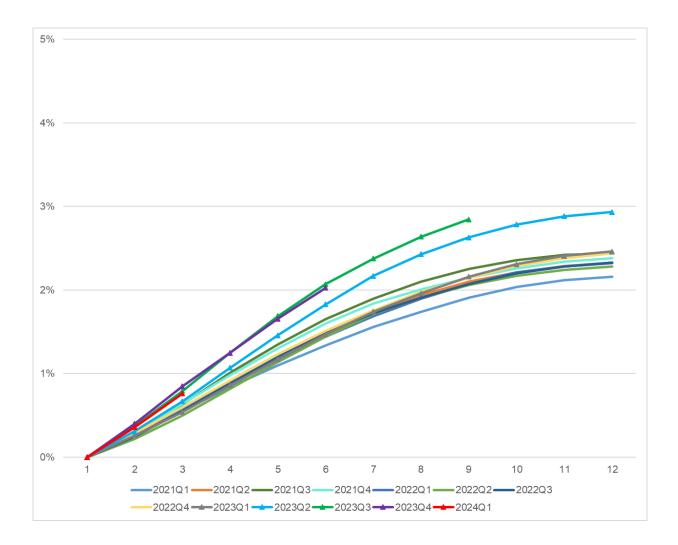

**Net profit attributable to ordinary shareholders of the Company** was RMB551.1 million (US\$75.8 million) for the second quarter of 2024, compared with RMB554.4 million for the same period of 2023.

**Diluted net profit per ADS** was RMB2.07 (US\$0.28) and **diluted net profit per share** was RMB0.41 (US\$0.06) for the second quarter of 2024, compared with RMB1.95 and RMB0.39 for the same period of 2023 respectively.

**Non-GAAP diluted net profit per ADS** was RMB2.22 (US\$0.30) and **non-GAAP diluted net profit per share** was RMB0.44 (US\$0.06) for the second quarter of 2024, compared with RMB2.06 and RMB0.41 for the same period of 2023 respectively. Each ADS represents five Class A ordinary shares of the Company.

As of June 30, 2024, the Company had cash and cash equivalents of RMB5,705.9 million (US\$785.2 million) and short-term investments, mainly in wealth management products and term deposit, of RMB2,432.8 million (US\$334.8 million).

The following chart shows the historical cumulative 30-day plus past due delinquency rates by loan origination vintage for loan products facilitated through the Company's platform in China's Mainland as of June 30, 2024. Loans facilitated under the capital-light model, for which the Company does not bear principal risk, are excluded from the chart.

#### **Shares Repurchase Update**

For the second quarter of 2024, the Company deployed approximately US\$29.6 million to repurchase its own Class A ordinary shares in the form of ADSs in the market. During the first half of 2024, the Company has deployed approximately US\$56.8 million to repurchase its own Class A ordinary shares in the form of ADSs in the market. As of June 30, 2024, in combination with the Company's historical and existing share repurchase programs, the Company had cumulatively repurchased its own Class A ordinary shares in the form of ADSs with a total aggregate value of approximately US\$336.8 million since 2018.

#### **Business Outlook**

While the macroeconomic recovery continued to gain traction with pockets of improvement since the beginning of 2024, uncertainties persist in the markets in which we operate. The Company has observed encouraging signs of recovery and will continue to closely monitor macro conditions across all the markets in which we operate and remain prudent in our business operations. The Company reiterates its full-year 2024 transaction volume guidance for the China market in the range of RMB195.7 billion to RMB205.0 billion, representing year-over-year growth of approximately 5.0% to 10.0%. At the same time, the Company expects its 2024 transaction volume for the international markets to be in the range of RMB9.4 billion to RMB11.0 billion, representing year-over-year growth of approximately 20.0% to 40.0%.

The above forecast is based on the current market conditions and reflects the Company's current preliminary views and expectations on market and operational conditions and the regulatory and operating environment, as well as customers' and institutional partners' demands, all of which are subject to change.

#### **Use of Non-GAAP Financial Measures**

We use non-GAAP adjusted operating income, non-GAAP operating margin, non-GAAP net profit, non-GAAP net profit attributable to FinVolution Group, and non-GAAP basic and diluted net profit per share and per ADS which are non-GAAP financial measures, in evaluating our operating results and for financial and operational

decision-making purposes. We believe that these non-GAAP financial measures help identify underlying trends in our business by excluding the impact of share-based compensation expenses and expected discretionary measures. We believe that non-GAAP financial measures provide useful information about our operating results, enhance the overall understanding of our past performance and future prospects and allow for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

Non-GAAP adjusted operating income, non-GAAP operating margin, non-GAAP net profit, non-GAAP net profit attributable to FinVolution Group, and non-GAAP basic and diluted net profit per share and per ADS are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as analytical tool, and when assessing our operating performance, cash flows or our liquidity, investors should not consider it in isolation, or as a substitute for net income, cash flows provided by operating activities or other consolidated statements of operation and cash flow data prepared in accordance with U.S. GAAP. The Company encourages investors and others to review our financial information in its entirety and not rely on a single financial measure.

For more information on this non-GAAP financial measure, please see the table captioned "Reconciliations of GAAP and Non-GAAP results" set forth at the end of this press release.
