Form 10-K for Fiscal Year Ended December 31, 2023

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations
Research and Development, page 99

1. We note from the disclosures on page 5 that you have two oncology drug product candidates, CUE-101 and CUE-102. Please revise future filings to disclose the costs incurred during each period presented for each of your key research and development product candidates. If you do not track your research and development costs by project, disclose that fact and explain why you do not maintain and evaluate research and development costs by project. Also, revise to provide other quantitative and qualitative disclosures that give more transparency as to the type of research and development expenses incurred (i.e., by nature or type of expense) which should reconcile to total research and development expenses on your Statements of Operations.
