Except to the extent required by law, we undertake no obligation to update or revise our forward-looking statements. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected, anticipated, or implied. Although it is not possible to predict or identify all such risks and uncertainties, we encourage investors to read the risk factors described in our most recent annual and periodic report filed with the Securities and Exchange Commission.

GAAP / Non-GAAP Reconciliation

In an effort to provide additional and useful information regarding the Company’s financial results and other financial information as determined by generally accepted accounting principles (GAAP), certain materials in this presentation include non-GAAP information. The Company believes the presentation of non-GAAP measures provides useful supplemental information to investors with regard to its operating performance as well as comparability of financial results period-over-period. A reconciliation of the non-GAAP information to GAAP, and other related information is available in the appendix to this presentation, tables accompanying each period’s earnings press release, materials furnished to the SEC, and posted to www.mckesson.com under the “Investors” tab.

Fiscal 2023 Outlook

On the following slides, McKesson presents an overview of its fiscal 2023 Outlook assumptions. The Company does not provide forward-looking guidance on a GAAP basis as McKesson is unable to provide a quantitative reconciliation of this forward-looking Non-GAAP measure to the most directly comparable forward-looking GAAP measure, without unreasonable effort, because McKesson cannot reliably forecast LIFO inventory-related adjustments, certain litigation loss and gain contingencies, restructuring, impairment and related charges, and other adjustments, which are difficult to predict and estimate. These items are inherently uncertain and depend on various factors, many of which are beyond the company's control, and as such, any associated estimate and its impact on GAAP performance could vary materially.

- (7) Claims and litigation charges, net for the six months ended September 30, 2021 includes a pre-tax charge of \$27 million (\$22 million after-tax) related to an agreement to settle opioid-related claims with the State of New York and its participating subdivisions, including Nassau and Suffolk Counties, and a pre-tax charge of \$47 million (\$39 million after-tax) related to our estimated liability for a comprehensive proposed agreement to settle opioid-related claims of participating states, their political subdivisions, and other governmental entities, within Corporate expenses, net. This charge is included under "loss on debt extinguishment" in the reconciliation of McKesson's GAAP operating results to adjusted results (Non-GAAP) provided in Schedule 2 of the accompanying financial statement tables.

These charges are driven by the intent of management to not sell this excess inventory which required inventory write downs to zero net realizable value, and instead direct it to charitable organizations or otherwise dispose. A portion of this inventory was committed for donation to charitable organizations during our first quarter of fiscal 2022, which was delivered during fiscal 2022. Due to the nature of this inventory which is no longer intended for sale in a quantitatively significant amount, management believes this charge is not part of normal business operations and is therefore excluded from our determination of adjusted results. A pre-tax charge of \$147 million (\$112 million after-tax) is included under "gross profit" primarily related to the excess inventory, which we no longer plan to sell, and a pre-tax charge of \$8 million (\$6 million after-tax) is included under "total operating expenses" related to the completed donation in the reconciliation of McKesson's GAAP operating results to adjusted results (Non-GAAP) provided in Schedule 2 of the accompanying financial statement tables.

Income tax effects are calculated in accordance with Accounting Standards Codification ("ASC") 740, "Income Taxes," which is the same accounting principle used by the Company when presenting its GAAP financial results.
- **Adjusted Earnings (Non-GAAP):** We define Adjusted Earnings as GAAP income (loss) from continuing operations attributable to McKesson, excluding amortization of acquisition-related intangibles, transaction-related expenses and adjustments, LIFO inventory-related adjustments, gains from antitrust legal settlements, restructuring, impairment, and related charges, claims and litigation charges, other adjustments as well as the related income tax effects for each of these items, as applicable.

Supplemental Non-GAAP Financial Information

SUPPLEMENTAL NON-GAAP FINANCIAL INFORMATION (continued)

2 of 3

- **Adjusted Operating Profit (Non-GAAP):** We define Adjusted Operating Profit as GAAP income (loss) from continuing operations before interest expense and income taxes, excluding amortization of acquisition-related intangibles, transaction-related expenses and adjustments, LIFO inventory-related adjustments, gains from antitrust legal settlements, restructuring, impairment, and related charges, claims and litigation charges, and other adjustments.

The following provides further details regarding the adjustments made to our GAAP financial results to arrive at our Non-GAAP measures as defined above:

Amortization of acquisition-related intangibles - Amortization expenses of intangible assets directly related to business combinations and the formation of joint ventures.

Transaction-related expenses and adjustments - Transaction, integration, and other expenses that are directly related to business combinations, the formation of joint ventures, divestitures, and other transaction-related costs including initial public offering costs. Examples include transaction closing costs, professional service fees, legal fees, severance charges, retention payments and employee relocation expenses, facility or other exit-related expenses, certain fair value adjustments including deferred revenues, contingent consideration and inventory, recoveries of acquisition-related expenses or post-closing expenses, bridge loan fees and gains or losses on business combinations, and divestitures of businesses that do not qualify as discontinued operations.

LIFO inventory-related adjustments - LIFO inventory-related non-cash expense or credit adjustments.

Gains from antitrust legal settlements - Net cash proceeds representing the Company's share of antitrust lawsuit settlements.

Restructuring, impairment, and related charges - Restructuring charges that are incurred for programs in which we change our operations, the scope of a business undertaken by our business units, or the manner in which that business is conducted as well as long-lived asset impairments. Such charges may include employee severance, retention bonuses, facility closure or consolidation costs, lease or contract termination costs, asset impairments, accelerated depreciation and amortization, and other related expenses. The restructuring programs may be implemented due to the sale or discontinuation of a product line, reorganization or management structure changes, headcount rationalization, realignment of operations or products, integration of acquired businesses, and/or company-wide cost saving initiatives. The amount and/or frequency of these restructuring charges are not part of our underlying business, which include normal levels of reinvestment in the business. Any credit adjustments due to subsequent changes in estimates are also excluded from adjusted results.

Claims and litigation charges - Adjustments to certain of the Company's reserves, including those related to estimated probable settlements for its controlled substance monitoring and reporting, and opioid-related claims, as well as any applicable income items or credit adjustments due to subsequent changes in estimates. This does not include our legal fees to defend claims, which are expensed as incurred. This also may include charges or credits for general non-operational claims not directly related to our ongoing business.

Other adjustments - The Company evaluates the nature and significance of transactions qualitatively and quantitatively on an individual basis and may include them in the determination of our adjusted results from time to time. While not all-inclusive, other adjustments may include: other asset impairments; gains or losses from debt extinguishment; and other similar substantive and/or infrequent items as deemed appropriate.

The Company evaluates the aforementioned Non-GAAP measures on a periodic basis and updates the definitions from time to time. The evaluation considers both the quantitative and qualitative aspects of the Company's presentation of Non-GAAP adjusted results. A reconciliation of McKesson's GAAP financial results to Non-GAAP financial results is provided in Schedules 2 and 3 of the financial statement tables included with this presentation.

Supplemental Non-GAAP Financial Information

SUPPLEMENTAL NON-GAAP FINANCIAL INFORMATION (continued)

3 of 3

- **FX-Adjusted (Non-GAAP):** McKesson also presents its GAAP financial results and adjusted results (Non-GAAP) on an FX-Adjusted basis. To present our financial results on an FX-Adjusted basis, we convert current year period results of our operations in foreign countries, which are recorded in local currencies, into U.S. dollars by applying the average foreign currency exchange rates of the comparable prior year period. To present Adjusted Earnings per Diluted Share on an FX-Adjusted basis, we estimate the impact of foreign currency rate fluctuations on the Company's noncontrolling interests and adjusted income tax expense, which may vary from quarter to quarter. The supplemental FX-Adjusted information of the Company's GAAP financial results and adjusted results (Non-GAAP) is provided in Schedule 3 of the financial statement tables included with this presentation.
- **Free Cash Flow (Non-GAAP):** We define free cash flow as net cash provided by (used in) operating activities less payments for property, plant and equipment and capitalized software expenditures, as disclosed in our condensed consolidated statements of cash flows. A reconciliation of McKesson's GAAP financial results to Free Cash Flow (Non-GAAP) is provided in Schedule 6 of the financial statement tables included with this presentation.

The Company believes the presentation of Non-GAAP measures provides useful supplemental information to investors with regard to its operating performance, as well as assists with the comparison of its past financial performance to the Company's future financial results. Moreover, the Company believes that the presentation of Non-GAAP measures assists investors' ability to compare its financial results to those of other companies in the same industry. However, the Company's Non-GAAP measures used in this presentation may be defined and calculated differently by other companies in the same industry.

The Company internally uses both GAAP and Non-GAAP financial measures in connection with its own financial planning and reporting processes. Management utilizes Non-GAAP financial measures when allocating resources, deploying capital, as well as assessing business performance, and determining employee incentive compensation. The Company conducts its businesses internationally in local currencies, including Euro, British pound sterling, and Canadian dollars. As a result, the comparability of our results reported in U.S. dollars can be affected by changes in foreign currency exchange rates. We present FX-Adjusted information to provide a framework for assessing how our business performed excluding the estimated effect of foreign currency exchange rate fluctuations. We believe free cash flow is important to management and useful to investors as a supplemental measure as it indicates the cash flow available for working capital needs, re-investment opportunities, strategic acquisitions, dividend payments, or other strategic uses of cash. Nonetheless, Non-GAAP adjusted results and related Non-GAAP measures disclosed by the Company should not be considered a substitute for, nor superior to, financial results and measures as determined or calculated in accordance with GAAP.
