First Quarter 2024 Financial Results

Net Revenues

¹ Include net revenues from Galénic, DR.WU (its mainland China business), Eve Lom and other skincare brands of the Company.

² Non-GAAP net loss is a non-GAAP financial measure. Effective from the fourth quarter of 2023, non-GAAP net loss is defined as net loss excluding (i) share-based compensation expenses, (ii) amortization of intangible assets resulting from assets and business acquisitions, (iii) revaluation of investments on the share of equity method investments, (iv) impairment of goodwill and (v) tax effects on non-GAAP adjustments. Non-GAAP net loss for the prior year period presented in this document is also calculated in the same manner.

Total net revenues for the first quarter of 2024 increased by 1.0% to RMB773.4 million (US\$107.1 million) from RMB765.4 million for the prior year period. The increase was primarily attributable to a 3.2% year-over-year increase in net revenues from Color Cosmetics Brands,³ combined with a 0.1% year-over-year increase in net revenues from Skincare Brands.

Gross Profit and Gross Margin

Gross profit for the first quarter of 2024 increased by 5.7% to RMB600.9 million (US\$83.2 million) from RMB568.7 million for the prior year period. Gross margin for the first quarter of 2024 increased to 77.7% from 74.3% for the prior year period. The increase was primarily driven by an increase in sales of higher-gross margin products.

Operating Expenses

Total operating expenses for the first quarter of 2024 increased by 31.7% to RMB758.7 million (US\$105.1 million) from RMB575.9 million for the prior year period. - Selling and Marketing Expenses. Selling and marketing expenses for the first quarter of 2024 were RMB539.2 million (US\$74.7 million), as compared with RMB459.0 million for the prior year period. As a percentage of total net revenues, selling and marketing expenses for the first quarter of 2024 increased to 69.7% from 60.0% for the prior year period. - General and Administrative Expenses. General and administrative expenses for the first quarter of 2024 were RMB140.1 million (US\$19.4 million), as compared with RMB40.7 million for the prior year period. As a percentage of total net revenues, general and administrative expenses for the first quarter of 2024 increased to 18.1% from 5.3% for the prior year period. The increase was primarily attributable to the exceptionally low general and administrative expenses recorded in the prior year period as a result of the reversal of recognized share-based compensation expenses of RMB109.4 million due to the forfeiture of unvested awards granted to the Company's former chief technology officer upon his resignation.
- Research and Development Expenses. Use of Non-GAAP Financial Measures

The Company uses non-GAAP income (loss) from operations, non-GAAP net income (loss), non-GAAP net income (loss) attributable to ordinary shareholders and non-GAAP net income (loss) attributable to ordinary shareholders per diluted ADS, each a non-GAAP financial measure, in reviewing and assessing its operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. The Company presents these non-GAAP financial measures because they are used by the management to evaluate operating performance and formulate business plans. Non-GAAP financial measures help identify underlying trends in its business, provide further information about its results of operations, and enhance the overall understanding of its past performance and future prospects. The Company defines non-GAAP income (loss) from operations as income (loss) from operations excluding (i) share-based compensation expenses, (ii) amortization of intangible assets resulting from assets and business acquisitions and (iii) impairment of goodwill. The Company defines non-GAAP net income (loss) as net income (loss) excluding (i) share-based compensation expenses, (ii) amortization of intangible assets resulting from assets and business acquisitions, (iii) revaluation of investments on the share of equity method investments, (iv) impairment of goodwill and (v) tax effects on non-GAAP adjustments. The Company defines non-GAAP net income (loss) attributable to ordinary shareholders as net income (loss) attributable to ordinary shareholders excluding (i) share-based compensation expenses, (ii) amortization of intangible assets resulting from assets and business acquisitions, (iii) revaluation of investments on the share of equity method investments, (iv) impairment of goodwill, (v) tax effects on non-GAAP adjustments and (vi) accretion to redeemable non-controlling interests. Non-GAAP net income (loss) attributable to ordinary shareholders per diluted ADS is computed using non-GAAP net income (loss) attributable to ordinary shareholders divided by weighted average number of diluted ADS outstanding for computing diluted earnings per ADS.

However, the non-GAAP financial measures have limitations as analytical tools as the non-GAAP financial measures are not presented in accordance with U.S. GAAP and may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited. The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating performance. The Company encourages investors and others to review its financial information in its entirety and not rely on a single financial measure. Reconciliations of Yatsen's non-GAAP financial measure to the most comparable U.S. GAAP measure are included at the end of this press release.
