This forecast reflects Sohu's management's current and preliminary view, which is subject to substantial uncertainty.

## Non-GAAP Disclosure

To supplement the unaudited consolidated financial statements presented in accordance with accounting principles generally accepted in the United States of America ("GAAP"), Sohu's management uses non-GAAP measures of gross profit, operating profit/(loss), net income/(loss), net income/(loss) attributable to Sohu.com Limited and diluted net income/(loss) attributable to Sohu.com Limited per ADS, which are adjusted from results based on GAAP to exclude the impact of share-based compensation expense; changes in fair value recognized in the Company's consolidated statements of operations with respect to the Company's investments; the impact of income tax related to changes in the fair value of the Company's investments; and interest expense recognized in connection with the Toll Charge imposed by the U.S. TCJA. These measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, GAAP results.

Sohu's management believes excluding share-based compensation expense; changes in fair value recognized in the Company's consolidated statements of operations with respect to the Company's investments; the impact of income tax related to changes in the fair value of the Company's investments; and interest expense recognized in connection with the Toll Charge from its non-GAAP financial measure is useful for itself and investors. Further, the impact of share-based compensation expense; changes in fair value recognized in the Company's consolidated statements of operations with respect to the Company's investments; the impact of income tax related to changes in the fair value of the Company's investments; and interest expense recognized in connection with the Toll Charge cannot be anticipated by management and business line leaders and these expenses were not built into the annual budgets and quarterly forecasts that have been the basis for information Sohu provides to analysts and investors as guidance for future operating performance. As share-based compensation expense, changes in fair value recognized in the Company's consolidated statements of operations with respect to the Company's investments, and the impact of income tax related to changes in the fair value of the Company's investments do not involve subsequent cash outflow or are reflected in the cash flows at the equity transaction level, Sohu does not factor in their impact when evaluating and approving expenditures or when determining the allocation of its resources to its business segments. As a result, in general, the monthly financial results for internal reporting and any performance measures for commissions and bonuses are based on non-GAAP financial measures that exclude share-based compensation expense, changes in fair value recognized in the Company's consolidated statements of operations with respect to the Company's investments, the impact of income tax related to changes in the fair value of the Company's investments, and interest expense recognized in connection with the Toll Charge.

The non-GAAP financial measures are provided to enhance investors' overall understanding of Sohu's current financial performance and prospects for the future. A limitation of using non-GAAP gross profit, operating profit/(loss), net income/(loss), net income/(loss) attributable to Sohu.com Limited, and diluted net income/(loss) attributable to Sohu.com Limited per ADS excluding share-based compensation expense and interest expense recognized in connection with the Toll Charge is that share-based compensation expense and interest expense recognized in connection with the Toll Charge have been and can be expected to continue to be significant recurring expenses in Sohu's business. It is also possible that changes in fair value recognized in the Company's consolidated statements of operations with respect to the Company's investments, and the impact of income tax related to changes in the fair value of the Company's investments, will recur in the future. In order to mitigate these limitations Sohu has provided specific information regarding the GAAP amounts excluded from each non-GAAP measure. The accompanying tables include details on the reconciliation between the GAAP financial measures that are most directly comparable to the non-GAAP financial measures that have been presented.

## Notes to Financial Information

Financial information in this press release other than the information indicated as being non-GAAP is derived from Sohu's unaudited financial statements prepared in accordance with GAAP.
