**81-1224539**

State or other jurisdiction of incorporation or organization

(I.R.S. Employer Identification No.)

**974 Centre Road Building 730 Wilmington Delaware**

**19805**

(Address of Principal Executive Offices)

(Zip Code)

(302) 295-5783

(Registrant's Telephone Number, Including Area Code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.01 per share	DD	New York Stock Exchange

No securities are registered pursuant to Section 12(g) of the Act.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. ☒ Yes ☐ No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. ☐ Yes ☒ No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

☒ Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

☒ Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer ☒

Accelerated filer ☐

Non-accelerated filer ☐

Smaller reporting company ☐

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). ☐ Yes ☒ No

The aggregate market value of the common equity held by non-affiliates of the registrant as of June 30, 2024, (the last day of the registrant's most recently completed second fiscal quarter), was approximately \$34 billion based on the New York Stock Exchange closing price on such date. For purposes of this computation, the registrant has assumed that its Directors and Executive Officers are affiliates.

The registrant had 418,049,127 shares of common stock, \$0.01 par value, outstanding at February 12, 2025.

DuPont™ and all products, unless otherwise noted, denoted with ™, SM or ® are trademarks, service marks or registered trademarks of affiliates of DuPont de Nemours, Inc.

## Overview

On May 22, 2024, DuPont announced a plan to separate each of its Electronics and Water businesses in a tax-free manner to its shareholders, (the “Previously Intended Business Separations”). On January 15, 2025, DuPont announced it is targeting November 1, 2025, for the completion of the intended separation of the Electronics business (the “Intended Electronics Separation”). DuPont also announced that it would retain the Water business. The Intended Electronics Separation will not require a shareholder vote and is subject to satisfaction of customary conditions, including final approval by DuPont's Board of Directors, receipt of tax opinion from counsel, the filing and effectiveness of a Form 10 registration statement with the U.S. Securities and Exchange Commission, applicable regulatory approvals and satisfactory completion of financing.

Effective in the first quarter 2025, in light of the Intended Electronics Separation, the Company will realign its management and reporting structure. This realignment will result in a change in reportable segments in the first quarter of 2025 which will change the manner in which the Company reports its financial results by segment (the “2025 Segment Realignment”), principally with the businesses comprising the Intended Electronics Separation to be reported as a single reportable segment. The businesses that comprise the Intended Electronics Separation are the businesses that currently comprise Semiconductor and Interconnect Solutions, as well as the electronics businesses that are currently part of Industrial Solutions. The results of operations discussion included in Management’s Discussion and Analysis of Financial Condition and Results of Operations, as well as the segment information in the Consolidated Financial Statements, are not reflective of the impact of 2025 Segment Realignment.

Effective as of January 1, 2024, Electronics & Industrial realigned certain product lines that comprise its business units (Industrial Solutions, Interconnect Solutions and Semiconductor Technologies) that are intended to optimize business operations across the segment leading to enhanced value for customers and cost savings. The net trade revenue table, within Note 5 to the Consolidated Financial Statements, has been recast for all periods presented to reflect the new structure. The realignment did not result in changes to total Electronics & Industrial segment net sales.

On November 1, 2023, DuPont completed the divestiture of the Delrin® acetal homopolymer (H-POM) business to TJC LP, (the “Delrin® Divestiture”). On November 1, 2022, DuPont completed the divestiture of the majority of the historic Mobility & Materials segment, (the “M&M Divestiture”). The results of operations for the year ended December 31, 2023, present the financial results of the Delrin® Divestiture as discontinued operations. The results of operations for the year ended December 31, 2022, present the financial results of both the M&M Divestiture and the Delrin® Divestiture as discontinued operations. Unless otherwise indicated, the discussion of results, including the financial measures further discussed below, refers only to DuPont's Continuing Operations and does not include discussion of balances or activity of the M&M Divestiture or the Delrin® Divestiture.

## FORWARD-LOOKING STATEMENTS

This document contains “forward-looking statements” within the meaning of the federal securities laws, including Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. In this context, forward-looking statements often address expected future business and financial performance and financial condition, and often contain words such as “expect,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “see,” “will,” “would,” “target,” “outlook,” “stabilization,” “confident,” “preliminary,” “initial,” and similar expressions and variations or negatives of these words. All statements, other than statements of historical fact, are forward-looking statements, including statements regarding outlook, expectations and guidance. Forward-looking statements address matters that are, to varying degrees, uncertain and subject to risks, uncertainties, and assumptions, many of which that are beyond DuPont’s control, that could cause actual results to differ materially from those expressed in any forward-looking statements.

Forward-looking statements are not guarantees of future results. Some of the important factors that could cause DuPont’s actual results to differ materially from those projected in any such forward-looking statements include, but are not limited to: (i) the ability of DuPont to effect the Intended Electronics Separation and to meet the conditions related thereto; (ii) the possibility that the Intended Electronics Separation will not be completed within the anticipated time period or at all; (iii) the possibility that the Intended Electronics Separation will not achieve its intended benefits; (iv) the impact of Intended Electronics Separation on DuPont’s businesses and the risk that the separation may be more difficult, time-consuming or costly than expected, including

the impact on DuPont's resources, systems, procedures and controls, diversion of management's attention and the impact and possible disruption of existing relationships with customers, suppliers, employees and other business counterparties; (v) the possibility of disruption, including disputes, litigation or unanticipated costs, in connection with the Intended Electronics Separation; (vi) the uncertainty of the expected financial performance of DuPont or the separated company following completion of the Intended Electronics Separation; (vii) negative effects of the announcement or pendency of the Intended Electronics Separation on the market price of DuPont's securities and/or on the financial performance of DuPont; (viii) the ability to achieve anticipated capital structures in connection with Intended Electronics Separation, including the future availability of credit and factors that may affect such availability; (ix) the ability to achieve anticipated credit ratings in connection with the Intended Electronics Separation; (x) the ability to achieve anticipated tax treatments in connection with the Intended Electronics Separation and completed and future, if any, divestitures, mergers, acquisitions and other portfolio changes and the impact of changes in relevant tax and other laws; (xi) risks and costs related to each of the parties respective performance under and the impact of the arrangement to share future eligible PFAS costs by and among DuPont, Corteva and Chemours, including the outcome of any pending or future litigation related to PFAS or PFOA, including personal injury claims and natural resource damages claims; the extent and cost of ongoing remediation obligations and potential future remediation obligations; and changes in laws and regulations applicable to PFAS chemicals; (xii) indemnification of certain legacy liabilities; (xiii) the failure to realize expected benefits and effectively manage and achieve anticipated synergies and operational efficiencies in connection with the Intended Electronics Separation and completed and future, if any, divestitures, mergers, acquisitions, and other portfolio management, productivity and infrastructure actions; (xiv) the risks and uncertainties, including increased costs and the ability to obtain raw materials and meet customer needs from, among other events, pandemics and responsive actions; (xv) adverse changes in worldwide economic, political, regulatory, international trade, geopolitical, capital markets and other external conditions; and other factors beyond DuPont's control, including inflation, recession, military conflicts, natural and other disasters or weather-related events, that impact the operations of DuPont, its customers and/or its suppliers; (xvi) the ability to offset increases in cost of inputs, including raw materials, energy and logistics; (xvii) the risks associated with continuing or expanding trade disputes or restrictions, new or increased tariffs or export controls including on exports to China of U.S.-regulated products and technology; (xviii) the risks, including ability to achieve, and costs associated with DuPont's sustainability strategy, including the actual conduct of DuPont's activities and results thereof, and the development, implementation, achievement or continuation of any goal, program, policy or initiative discussed or expected; (xix) other risks to DuPont's business and operations, including the risk of impairment; and (xx) other risk factors discussed in DuPont's most recent annual report and subsequent current and periodic reports filed with the U.S. Securities and Exchange Commission. Unlisted factors may present significant additional obstacles to the realization of forward-looking statements. Consequences of material differences in results as compared with those anticipated in the forward-looking statements could include, among other things, business or supply chain disruption, operational problems, financial loss, legal liability to third parties and similar risks, any of which could have a material adverse effect on DuPont's consolidated financial condition, results of operations, credit rating or liquidity. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. DuPont assumes no obligation to publicly provide revisions or updates to any forward-looking statements whether as a result of new information, future developments or otherwise, should circumstances change, except as otherwise required by securities and other applicable laws.

**ITEM 1. BUSINESS**

Throughout this Annual Report on Form 10-K, except as otherwise noted by the context, the terms "DuPont" or "Company" used herein mean DuPont de Nemours, Inc. and its consolidated subsidiaries.

DuPont is a Delaware corporation formed in 2015 (formerly, DowDuPont Inc.), for the purpose of effecting an all-stock merger of equals transactions between The Dow Chemical Company ("TDCC") and E. I. du Pont de Nemours and Company ("EID"). Effective August 31, 2017, pursuant to the merger of equals transaction contemplated by the Agreement and Plan of Merger, dated as of December 11, 2015, as amended on March 31, 2017 ("DWDP Merger Agreement"), TDCC and EID each merged with subsidiaries of DowDuPont Inc. ("DowDuPont") and, as a result, TDCC and EID became subsidiaries of DowDuPont (the "DWDP Merger"). Prior to the DWDP Merger, DowDuPont did not conduct any business activities other than those required for its formation and matters contemplated by the DWDP Merger Agreement. For purposes of DowDuPont's financial statement presentation, TDCC was determined to be the accounting acquirer in the DWDP Merger and EID's assets and liabilities are reflected at fair value as of the DWDP Merger Effectiveness Time.

On April 1, 2019, the Company completed the separation of the materials science business through the spin-off of Dow Inc., ("Dow") including Dow's subsidiary TDCC (the "Dow Distribution"). On June 1, 2019, the Company completed the separation of the agriculture business through the spin-off of Corteva, Inc. ("Corteva") including Corteva's subsidiary EID, (the "Corteva Distribution" and together with the Dow Distribution, the "DWDP Distributions"). Effective January 1, 2023, Corteva's subsidiary EID changed its name to EIDP, Inc. ("EIDP"), and therefore references to EID reflect this name change as appropriate.

DuPont is a global innovation leader with technology-based materials and solutions that help transform industries and everyday life by applying diverse science and expertise to help customers advance their best ideas and deliver essential innovations in key markets including electronics, transportation, construction, water, healthcare and worker safety. At December 31, 2024, the Company has subsidiaries in about 50 countries worldwide and manufacturing operations in about 24 countries. See Note 23 to the Consolidated Financial Statements for details on the location of the Company's sales and property.

*Significant Transformational Divestitures*

On February 1, 2021, the Company completed the divestiture of the Nutrition & Biosciences ("N&B") business to International Flavors & Fragrance Inc. ("IFF") in a Reverse Morris Trust transaction (the "N&B Transaction") that resulted in IFF issuing shares to DuPont stockholders. See Note 4 to the Consolidated Financial Statements for more information.

On February 18, 2022, the Company announced that it had entered an agreement on February 17, 2022, (the "Transaction Agreement") with Celanese Corporation ("Celanese") for divestiture of the majority of DuPont's historic Mobility & Materials ("M&M") segment, (the "M&M Divestiture"). The Auto Adhesives & Fluids, Multibase<sup>TM</sup> and Tedlar<sup>®</sup> product line, which were part of the historic M&M segment, are referred to as the "Retained Businesses". On November 1, 2022, DuPont and Celanese completed the M&M Divestiture and DuPont received cash proceeds of \$11 billion which was subject to transaction adjustments in accordance with the Transaction Agreement. See Note 4 to the Consolidated Financial Statements for more information.

As part of its announcement on February 18, 2022 regarding the M&M Divestiture, DuPont also announced the Board of Directors' approval for the divestiture of the Delrin<sup>®</sup> acetal homopolymer (H-POM) business (the "Delrin<sup>®</sup> Divestiture"). On November 1, 2023, the Company closed the sale of the Delrin<sup>®</sup> business to TJC LP ("TJC"), (the "Delrin<sup>®</sup> Divestiture"). The Delrin<sup>®</sup> Divestiture together with the M&M Divestiture, are referred to as the "M&M Divestitures".

*Intended Electronics Separation*

On May 22, 2024, DuPont announced a plan to separate each of its Electronics and Water businesses in a tax-free manner to its shareholders, (the "Previously Intended Business Separations"). On January 15, 2025, DuPont announced it is targeting November 1, 2025, for the completion of the intended separation of the Electronics business (the "Intended Electronics Separation"). DuPont also announced that it would retain the Water business. The Intended Electronics Separation will not require a shareholder vote and is subject to satisfaction of customary conditions, including final approval by DuPont's Board of Directors, receipt of a tax opinion from counsel, the filing and effectiveness of a Form 10 registration statement with the U.S. Securities and Exchange Commission, applicable regulatory approvals and satisfactory completion of financing.

### *Financial Flexibility and Return of Excess Capital*

Following the M&M Divestiture, in November 2022, DuPont redeemed in full \$2.5 billion in fixed-rate long term senior unsecured notes due November 2023. Following the announcement of the Previously Intended Business Separations, in the second quarter 2024, DuPont completed a partial redemption of \$650 million aggregate principal amount of its 2038 Notes and entered into two forward-starting fixed-to-floating interest rate swap agreements ("2024 Swaps") to hedge the changes in the fair value of the Company's long-term debt due to interest rate change movements.

In the fourth quarter of 2022, DuPont's Board of Directors approved a new share repurchase program authorizing the repurchase and retirement of up to \$5 billion of common stock, (the "\$5B Share Buyback Program"). In the third quarter 2023, the Company completed the repurchase and retired a total of 46.8 million shares of common stock with \$250 million of such repurchases completing the \$1 billion share repurchase program approved in February 2022 and the remaining \$3 billion under the \$5B Share Buyback Program.

In the first quarter of 2024, the Company completed the remaining \$2 billion of buyback authority under the \$5B Share Buyback Program repurchasing 27.9 million shares. In the first quarter of 2024, the Company's Board of Directors approved a new share repurchase program authorizing the repurchase and retirement of up to \$1 billion of common stock (the "\$1B Share Buyback Program"). The \$1B Share Buyback Program terminates on June 30, 2025, unless extended or shortened by the Board of Directors.

In the second quarter of 2024, DuPont completed an accelerated stock repurchase transaction ("ASR") for the repurchase of about \$500 million of common stock. In total, the Company repurchased 6.9 million shares at an average price of \$71.96 per share under the transaction. In connection with the Previously Intended Business Separations and continuing in light of the Intended Electronics Separation, DuPont announced its intent not to complete the remaining \$500 million in share buyback authority under the \$1B Share Buyback Program.

For more information, see the discussion of Liquidity & Capital Resources in See Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations.

### *Targeted Acquisitions*

On August 1, 2023, the Company completed the acquisition of Spectrum Plastics Group ("Spectrum") from AEA Investors (the "Spectrum Acquisition") which is part of Industrial Solutions within the Electronics & Industrial segment.

On July 28, 2024, DuPont completed the acquisition of Donatelle Plastics, LLC ("Donatelle Plastics"), (the "Donatelle Plastics Acquisition"), which is being integrated into Industrial Solutions within the Electronics & Industrial segment.

See Note 3 to the Consolidated Financial Statements for more information.

### *Water District Settlement Agreement*

In April 2024, the \$1.185B Water District Settlement became final and therefore DuPont's \$400 million contribution, plus interest, to the Water District Settlement Fund is reflected as a cash outflow within cash flows from discontinued operations during the year ended December 31, 2024. See Note 16 to the Consolidated Financial Statements for additional information.

## **BASIS OF PRESENTATION**

The M&M Divestitures represent a strategic shift with a related major impact on DuPont's operations and results.

The Consolidated Financial Statements included in this annual report present the financial position of DuPont as of December 31, 2024 and 2023, the results of operations of DuPont for the years ended December 31, 2024, 2023 and 2022, and the Consolidated Statements of Cash Flows giving effect to the M&M Divestitures as if it had occurred on January 1, 2022, with the historical financial results of the businesses divested as part of the M&M Divestitures (the "M&M Businesses") reflected as discontinued operations, as applicable. The comprehensive income related to the M&M Businesses has not been segregated and are included in the Consolidated Statements of Comprehensive Income, for the year ended December 31, 2024, 2023 and 2022, as applicable. Unless otherwise indicated, the information in the Notes to the Consolidated Financial Statements refer only to DuPont's continuing operations and do not include discussion of balances or activity of the M&M Businesses.

## SEGMENT INFORMATION

The revenues and certain expenses of the M&M Businesses are classified as discontinued operations in the current and historical periods. Indirect costs, such as those related to corporate and shared service functions previously allocated to the M&M Businesses, do not meet the criteria for discontinued operations and remain reported within continuing operations. The Retained Businesses are not included in the scope of the M&M Divestitures and are included in Corporate & Other.

See Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations and Note 23 in this annual report for additional information concerning the Company's operating segments.

## ELECTRONICS & INDUSTRIAL

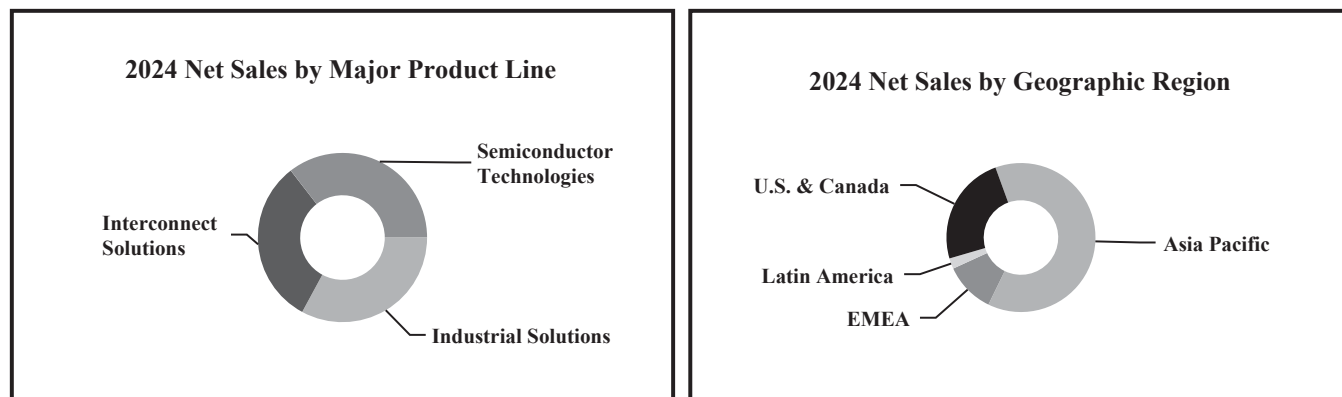

Electronics & Industrial is a leading global provider of differentiated materials and component solutions for high performance computing, 5G, electric vehicles ("EV"), a broad range of consumer electronics including mobile devices, television monitors, personal computers and a variety of other industries including aerospace, defense, transportation, healthcare and medical devices. The segment supplies industry leading materials and solutions for the fabrication of semiconductors and integrated circuits addressing multiple steps of the manufacturing process. The segment offers a broad portfolio of semiconductor and advanced packaging materials, providing chemical mechanical planarization ("CMP") pads and slurries, photoresists and advanced coatings for lithography, removers and cleaners; dielectric and metallization solutions for advanced chip packaging; along with silicones for light emitting diode ("LED") packaging and semiconductor applications. Electronics & Industrial also provides permanent and process chemistries for the fabrication of printed circuit boards to include laminates and substrates, electroless and electrolytic metallization solutions, as well as patterning solutions and materials and innovative metallization processes for metal finishing, decorative, and industrial applications and provides high-performance electromagnetic shielding and thermal management solutions. With the acquisitions of Spectrum and Donatelle, Electronics & Industrial also produces specialty medical devices. Electronics & Industrial is a leading global supplier in the packaging graphics industry providing photopolymer plates and platemaking systems used in flexographic printing and digital inks for textile, commercial and home-office printing applications. The segment also provides cutting-edge materials for the manufacturing of rigid and flexible displays for organic light emitting diode ("OLED") and other display applications. In addition, the segment produces high performance parts and specialty silicone elastomers and lubricants to meet customer specifications in automotive, aerospace, electronics, industrial and healthcare markets. Electronics & Industrial addresses these markets by leveraging a strong science and technology base and customer-driven application engineering capabilities to provide the critical materials and solutions for creating a more connected and digital world.

### Acquisitions & Divestitures

On July 28, 2024, DuPont completed the acquisition of Donatelle Plastics, LLC. Donatelle Plastics is a medical device company specializing in the design, development and manufacture of medical components and devices. Donatelle Plastics is presented within the Industrial Solutions business.

On August 1, 2023, the Company completed the acquisition of Spectrum Plastics Group from AEA Investors. Spectrum is a recognized leader in advanced manufacturing of specialty medical devices and components with a strategic focus on key therapeutic areas such as structural heart, electrophysiology, surgical robotics and cardiovascular. Spectrum is presented within the Industrial Solutions business.

Details on Electronics & Industrial's 2024 net sales, by major product line and geographic region, are as follows:

## Products

Major applications/market segments and technologies are listed below by major product line:

<i>Major Product Line</i>	<i>Applications/Market Segments</i>	<i>Technologies</i>
Semiconductor Technologies	Integrated circuit fabrication for memory and logic semiconductors	CMP consumables, photolithography materials, semiconductor fabrication materials, fabrication cleaners and removers, advanced chip packaging materials and thermal management materials, OLED and other display process materials
Interconnect Solutions	Printed circuit board, electronic and industrial finishing	Circuit packaging film and laminate materials, interconnect metallization and imaging process chemistries, dry film photoresists, polyimide films, flexible circuit materials, LED encapsulants, electromagnetic shielding and thermal management materials
Industrial Solutions <sup>1</sup>	Flexographic printing and inkjet printing, high performance parts and specialty silicones for automotive, aerospace, electronics, industrial, healthcare and medical device markets	Flexographic printing plates and materials, digital inks, perfluoroelastomer and polyimide parts and shapes, specialty silicone elastomers and lubricants, and specialty extrusion and molded parts for medical devices and components

1. Donatelle Plastics, a recently acquired component of the Electronics & Industrial segment, has been included within the Industrial Solutions business.

## Key Raw Materials

The major commodities, raw materials and supplies for the Electronics & Industrial segment include: p-acetoxystyrene, monomers, pigments and dyes, styrenic block copolymers, copper foil, diglycolamine, hydroxylamine, filler alumina, nickel silver, oxydianiline, palladium, photoactive compounds, polyester and other polymer films, polyethylene resins, polyurethane resins, polyvinyl chloride compounds, pyromellitic dianhydride and silicones.

## Current and Future Investments

The Company will invest approximately \$70 million in its Electronics & Industrial segment to build new production assets at a Dayton, Ohio plant. The new assets will expand polymer production capacity to meet growing customer demand from the semiconductor market. At December 31, 2024, the Company had spent approximately \$19 million since the start of the project and expects the new assets to be operational by the end of 2026.

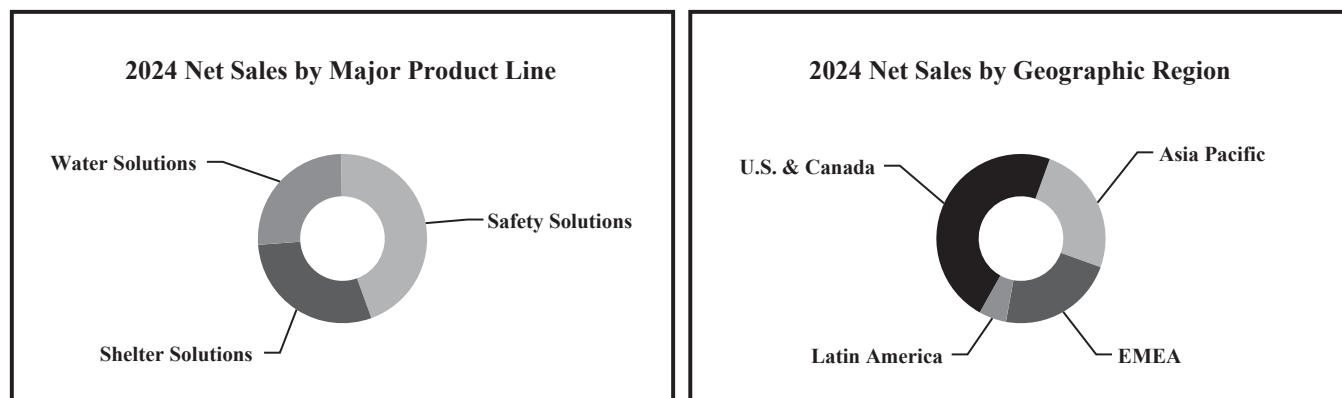

Additionally, the Company expects to invest about \$165 million over the next five years at its Newark, Delaware plant to expand domestic production capacity to meet global customer demand from the semiconductor market. The multi-year investment plan will expand capacity and improve reliability for domestic supply assurance, improve product quality and consistency for advanced nodes, and expand manufacturing capabilities to enable new technology. At December 31, 2024, the Company had spent approximately \$40 million under the investment plan.

## WATER & PROTECTION

Water & Protection is the global leader in providing innovative engineered products and integrated systems for a number of industries including, worker safety, water purification and separation, transportation, energy, medical packaging and building materials. Water & Protection addresses the growing global needs of businesses, governments and consumers for solutions that make life safer, healthier and better.

Innovation is the business imperative. By uniting market-driven science and engineering with the strength of highly regarded brands including KEVLAR® high-strength material, NOMEX® thermal-resistant material, CORIAN® solid surfaces, TYVEK® selective barriers, FILMTEC™ reverse osmosis elements, AMBERLITE™ ion exchange resins, STYROFOAM™ insulation and GREAT STUFF™ insulating foam sealants, the segment strives to bring new products and solutions to solve customers' needs faster, better and more cost effectively. Water & Protection is investing in future growth initiatives such as water management solutions, construction productivity solutions, high strength and light weighting composite solutions and circular ecosystem / zero waste solutions.

Details on Water & Protection's 2024 net sales, by major product line and geographic region, are as follows:

### Products

Major applications and products are listed below by major product line:

<i>Major Product Line</i>	<i>Applications / Market Segments</i>	<i>Major Products / Technologies</i>
Safety Solutions	Industrial personnel protection, military and emergency response, medical devices and packaging, automotive, aerospace and oil and gas	KEVLAR® fiber; NOMEX® fiber and paper; TYVEK® protective materials; TYCHEM® protective suits
Shelter Solutions	Rigid and spray foam insulation, weatherization, waterproofing and air sealing, caulks and sealants, roof coatings and decorative surface materials	STYROFOAM™ brand insulation products, THERMAX™ exterior insulation, XENERGY™ high performance insulation, LIQUIDARMOR™ flashing and sealant, GREAT STUFF™ insulating foam sealants and adhesives, CORIAN® design solid and quartz surfaces, TYVEK® weather resistant barriers
Water Solutions	Water filtration and purification technology for residential, municipal and industrial use. Key industries include municipal drinking water and wastewater, power generation, microelectronics, pharmaceuticals, food and beverage, industrial wastewater reuse, metals and mining and oil and gas segments	AMBERLITE™ ion exchange resins, FILMTEC™ reverse osmosis and nanofiltration elements, INTEGRAFLUX™ ultrafiltration modules, FORTILIFE™ challenging water reverse osmosis membranes and TAPTEC™ water filtration and purification for drinking water in homes and commercial buildings

**Key Raw Materials**

The major commodities, raw materials and supplies for the Water & Protection segment include: methyl methacrylate, alumina trihydrate, methyl pentanediol, styrene, polysulfone, Terephthaloyl- & Isophthaloyl- chloride, high-density polyethylene, polyethylene, aniline, calcium chloride, divinyl benzene monomers caustic and sulfuric acid.

**Current and Future Investments**

The Company completed the previously announced plans to increase capacity for the manufacture of TYVEK® nonwoven materials at its Luxembourg site due to growing global demand. The new assets were online and operational in early 2024 and the total investment was approximately \$400 million.

**CORPORATE & OTHER**

Corporate & Other includes sales and activity of the Retained Businesses including the Auto Adhesives & Fluids, Multibase™ and Tedlar® product lines. Corporate & Other includes DuPont's equity interest in Derby Holdings Group related to the Delrin® Divestiture. The results of Corporate & Other also include the sales and activity of certain divested businesses including the operations of the Biomaterials business unit divested in May 2022. Corporate & Other also includes certain enterprise and governance activities including non-allocated corporate overhead costs and support functions, leveraged services, non-business aligned litigation expenses and other costs not absorbed by reportable segments.

The costs of the M&M Businesses that are classified as discontinued operations include only direct operating expenses incurred prior to the M&M Divestiture on November 1, 2022 and costs which the Company stopped incurring upon the close of the Delrin® Divestiture. Indirect costs, such as those related to corporate and shared service functions previously allocated to the M&M Businesses, do not meet the criteria for discontinued operations and remain reported within continuing operations. A portion of these indirect costs related to activities the Company continues to undertake post-closing of the M&M Divestitures, and for which it is reimbursed ("Future Reimbursable Indirect Costs"). Future Reimbursable Indirect Costs are reported within continuing operations in Corporate & Other but are excluded from Operating EBITDA as defined below. The remaining portion of these indirect costs are not subject to future reimbursement ("Stranded Costs"). Stranded Costs are reported within continuing operations in Corporate & Other and are included within Operating EBITDA.

The Company's measure of profit/loss for segment reporting purposes is Operating EBITDA as this is the manner in which the Company's chief operating decision maker ("CODM") assesses performance and allocates resources. The Company defines Operating EBITDA as earnings (i.e., "Income from continuing operations before income taxes") before interest, depreciation, amortization, non-operating pension / other post-employment benefits ("OPEB") / charges, and foreign exchange gains / losses, excluding Future Reimbursable Indirect Costs, and adjusted for significant items.

## INDUSTRY SEGMENTS AND GEOGRAPHIC REGION RESULTS

See Note 5 to the Consolidated Financial Statements for net sales by business or major product line.

Sales by geographic region are included within Part II, Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations", "Results of Operations." See Note 23 to the Consolidated Financial Statements for information regarding total net sales and total assets by segment, as well as net sales and long-lived assets by geographic region.

## SIGNIFICANT CUSTOMERS AND COMPETITION

In 2024, no significant portion of the Company's sales was dependent upon a single customer. The markets in which the Company participates compete primarily through technology, range of products and services, performance, quality, reliability, brand, reputation, service and support. The Company provides extensive support, technical services and testing services for its customers, in addition to new product development. The Company believes that its proprietary product and process technologies, robust product and application development pipelines, customer intimacy, global manufacturing capability and local service capability enable it to compete successfully.

DuPont is a multi-industrial company and is subject to competition across all product and service areas. Key competitors include but are not limited to:

- *Electronics & Industrial:* Element Solutions, Entegris, Fujifilm, Henkel, JSR, Merck KGaA, MKS Instruments, and Resonac.
- *Water & Protection:* 3M, Honeywell, Hydranautics, Kingspan, Kolon, Lanxess, Owens-Corning, Ecolab, Avient, Toray, Teijin, and Yantai.

Against this competitive backdrop, value-in-use is the primary driver of price for the Company's products, although price is impacted by many factors including, among others, fluctuations in supply and demand, and availability and cost of key manufacturing inputs including raw materials and energy.

## SOURCES AND AVAILABILITY OF MAJOR RAW MATERIALS

The Company uses a wide variety of raw materials in the manufacturing of products. The prices of raw materials are driven by global supply and demand. In recent years, raw material prices and availability have been affected by worldwide economic conditions, including supply chain disruptions and inflationary cost pressures. The Company actively works to mitigate impacts of such conditions.

## DISTRIBUTION

Most products are marketed primarily through the Company's sales organization, although for some product lines, more emphasis is placed on sales through distributors. The Company has a diverse worldwide network which markets and distributes the Company's brands to customers globally. This network consists of the Company's sales and marketing organization partnering with distributors, independent retailers, cooperatives and agents throughout the world.

## BACKLOG

In general, the Company does not manufacture its products against a backlog of orders and does not consider backlog to be a significant indicator of the level of future sales activity. Production and inventory levels are typically based on the level of incoming orders as well as projections of future demand. However, from time to time in limited instances the Company does operate against a backlog for certain products, which has in the past resulted, and in the future may result, from the availability of raw materials from third-party suppliers. Therefore, the Company believes that backlog information is generally not meaningful to understanding its overall business and should not be considered a reliable indicator of the Company's ability to achieve any particular level of revenue or financial performance.

## SEASONALITY

Certain of the Company's sales are seasonal as consumer electronics and North American and European construction end-market demand generally increases in the second and third fiscal quarters resulting in sales increases in Interconnect Solutions and Shelter Solutions, respectively. This seasonality is partially mitigated by the other products provided by the Company that have no material seasonal effect.

## INTELLECTUAL PROPERTY

The Company's businesses differentially manage their respective intellectual property estates to support Company strategic priorities, which can include leveraging intellectual property within and across product lines.

*Trade Secrets:* Trade secrets are an important part of the Company's intellectual property. Many of the processes used to make products are kept as trade secrets which, from time to time, may be licensed to third parties. DuPont vigilantly protects all of its intellectual property including its trade secrets. When the Company discovers that its trade secrets have been unlawfully taken, it reports the matter to governmental authorities for investigation and potential criminal action, as appropriate. In addition, the Company takes measures to mitigate any potential impact, which may include civil actions seeking redress, restitution and/or damages based on loss to the Company and/or unjust enrichment.

*Patents:* The Company applies for and obtains patents in many countries, including the U.S., and has access to a large patent portfolio, both owned and licensed. DuPont's rights under these patents and licenses, as well as the products made and sold under them, are important to the Company in the aggregate. The Company considers various intellectual property protections and strategic business priorities when deciding whether to apply for or maintain a patent.

The protection afforded by patents varies based on country, scope of individual patent coverage, as well as the availability of legal remedies in each country and type of patent protection. The term of these patents is approximately twenty years from the filing date in general, but varies depending on country and type of patent protection. DuPont's significant patent estate may be leveraged to align with the Company's strategic priorities within and across product lines. At December 31, 2024, the Company owned about 12,800 patents and patent applications globally. Approximately 80 percent of the Company's patent estate has a remaining term of more than 5 years.

*Trademarks:* The Company owns or licenses many trademarks that have significant recognition at the consumer retail level and/or the product line to product line level. Ownership rights in trademarks do not expire if the trademarks are continued in use and properly protected.

## **ENVIRONMENTAL REGULATORY MATTERS**

DuPont operates global manufacturing, product handling and distribution facilities that are subject to a broad array of environmental laws and regulations. For more information see: (1) Environmental Proceedings on page 30, (2) Management's Discussion and Analysis of Financial Condition and Results of Operations beginning on page 37, (3) Notes 1 and 16 to the Consolidated Financial Statements.

## **SUSTAINABILITY**

DuPont's purpose is to empower the world with the essential innovations to thrive. The Company operates within four core values of protecting safety and health; respect for people; conduct in accordance with the highest ethical behavior; and protecting the planet. DuPont's sustainability strategy is focused on driving innovations to create sustainable solutions that help address the most pressing challenges facing society and the planet; enhancing the sustainability of its operations and facilities; and protecting the health and well-being of its employees and communities. DuPont believes that climate change is an important global environmental issue that presents risks and opportunities. The Company is continuously evaluating opportunities for existing and new product and service offerings to meet the anticipated demands of a low-carbon economy.

Information about DuPont's sustainability-related policies, programs, initiatives and goals is available under Sustainability in the "About Us" section of its website. The Company's 2024 Sustainability Report, which is aligned to the Global Reporting Initiative ("GRI") Standards and the Sustainability Accounting Standards Board ("SASB") frameworks, includes information based on the businesses and facilities owned and operated by the Company during the calendar year 2023.

Additional corporate governance information, including DuPont's amended and restated charter, amended and restated bylaws, corporate governance guidelines, Board committee charters, and code of business conduct and ethics, is available under Corporate Governance in the "For Investors" section of the Company's website. Nothing on the DuPont websites shall be deemed incorporated by reference into this Annual Report on Form 10-K.

## **HUMAN CAPITAL**

Foundational to the Company's current and future success is its employees, who drive the Company's strategic vision, manage operations and develop products. The Company focuses significant attention on attracting, motivating and retaining talent at all levels. Through training and professional development initiatives, promoting a respectful and welcoming culture, and emphasizing the importance of health, safety and well-being, the Company's aim is to create an environment that fully supports the needs of its employees providing opportunity for financial and career growth, an inclusive and collegial experience and purpose in doing work that matters.

The Company is committed to upholding a workplace culture that prioritizes the wellbeing and fulfillment of our employees and strongly believes that this approach not only aligns with our values but also positively impacts our long-term performance. To ensure that the Company is consistently fulfilling this commitment, DuPont regularly gathers feedback from our colleagues and analyzes our progress. Annually, an enterprise-wide engagement survey is conducted, which provides insight into employee morale and aspects of workplace culture like core values, commitment to ethical behavior, teamwork and employee development.

The Company is committed to creating a high-performance culture built on continual learning to support the strategic needs of its workforce. The professional growth of our people is essential to the growth of our business. Our annual goal process asks employees to not only identify three key goals around business contributions but also and one goal focused on self-development. The Company has prioritized learning and career development opportunities for leaders and all employees. The Company offers a wide set of training, education and development opportunities, both formally and informally, throughout the year. All employees take part in a mix of on-the-job training and appropriate learning and training opportunities focusing on topics that are the most critical and relevant to each employees' job function. Employees have the freedom to create meaningful development plans, identify goals, and take steps to achieve them.

The Company is committed to ensuring fair access to growth and fulfillment opportunities for its employees and to positively impacting communities in which it operates. In furtherance of these commitments, the Company supports several employee-led resource groups which are open to all employees.

Organizational culture is only as strong and resilient as its leaders; therefore, DuPont invests in leadership development. DuPont provides programming to equip leaders with the skills needed to support our employees through effective leadership. Annually, our senior leadership identifies key talent based on performance, potential and aspiration to develop for advancement.

The Company's success also depends on the well-being of employees, including physical, mental and emotional health. DuPont employees have access to online health resources through our global wellness provider to help them improve their overall well-being, including a health assessment, healthy habit building and tracking, videos and content to reduce stress and increase resilience, better sleep habits, nutrition guides, company wellness challenges, and financial wellness education. The Company continues to provide no-cost Employee Assistance Program ("EAP") services to all employees globally and their immediate household members. All employees also have the support of the Company's Health Services teams, which provides onsite and intranet-based services to support and monitor the health and welfare of employees. The Company's larger manufacturing and research sites have onsite clinics where employees can get occupational care, first aid treatment, travel vaccinations and referrals for off-site medical care. The Company continuously strives for zero workplace injuries, occupational illnesses and incidents. The Company's safety metrics are continually measured against this goal, and DuPont's Environmental, Health, Safety & Sustainability Committee oversees improvements in the Company's health and safety practices. Health Services also assesses health risks across DuPont to find out which health concerns are most important to the Company's employees, conducts medical surveillance exams based on occupational risks and regulatory compliance priorities flagged by DuPont's Environmental, Health and Safety team.

As of December 31, 2024, the Company employed approximately 24,000 people worldwide. Approximately 34 percent of employees were in Asia Pacific, 16 percent were in the EMEA, 5 percent were in Latin America and 45 percent were in the U.S and Canada. Within the United States, about 6,000 employees were in non-exempt or hourly-rate positions.

#### **AVAILABLE INFORMATION**

The Company is subject to the reporting requirements under the Securities Exchange Act of 1934. Consequently, the Company is required to file reports and information with the Securities and Exchange Commission ("SEC"), including reports on the following forms: annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934.

The SEC maintains an Internet site at <http://www.sec.gov> that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC, from which the public may obtain any materials the Company files with the SEC.

The Company's annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports are also accessible on DuPont's website at <http://www.investors.dupont.com> by clicking on the section labeled "Investors", then on "Filings & Reports". These reports are made available, without charge, as soon as is reasonably practicable after the Company files or furnishes them electronically with the SEC.

DuPont webcasts its quarterly earnings calls and certain events it participates in or hosts with members of the investment community under *For Investors* section, in the "About Us" section of the Company's website. Additionally, DuPont provides notifications of news or announcements regarding its financial performance, including SEC filings, investor events, news and earnings releases under *For Investors*. The Company has used, uses and intends to continue to use, its website as means of disclosing material non-public information and for complying with its disclosure obligations under SEC's Regulation FD.

The contents of the Company's websites, including those referenced above and elsewhere in this report, are not intended to be incorporated by reference into this Annual Report on Form 10-K or in any other report or document DuPont has or in the future may file with the SEC, and any references to the Company's websites are intended to be inactive textual references only.

## ITEM 1A. RISK FACTORS

The Company's operations could be affected by various risks, many of which are beyond its control. Based on current information, the Company believes that the following identifies the most material risk factors that could affect its operations. Past financial performance may not be a reliable indicator of future performance and historical trends should not be used to anticipate results or trends in future periods.

### *Risks related to the Intended Electronics Separation*

#### **DuPont may be unable to achieve all the benefits that it expects to achieve from the Intended Electronics Separation, if the Intended Electronics Separation is effected at all.**

The success of the Intended Electronics Separation ultimately depends on, among other things, DuPont's ability to internally separate the Electronics business in a manner that facilitates the Intended Electronics Separation on a U.S. federal income tax-free basis and enables the future Electronics company as well as “new” DuPont, as a diversified industrials-focused company, (the “FutureCos” and each, a “FutureCo”), to benefit from increased focus and agility in their respective industries.

DuPont, and each of its businesses, has and continues to benefit from efficiencies through the optimization of its global footprint, leveraging of corporate, procurement and functional services and costs across all of its businesses. While the Intended Electronics Separation is expected to create dis-synergies, the intent is to stand the FutureCos in a way that is favorably competitive for each FutureCo's respective industry.

The separation and distribution transactions necessary to effectuate the Intended Electronics Separation will be complex, costly and time-consuming, and are subject to difficulties, uncertainties and unanticipated risks, each of which may diminish the benefits the Company expects to realize from the Intended Electronics Separation. These include, but are not limited to:

- delays, both generally and as a result of failure to satisfy all of the required conditions to the Intended Electronics Separation;
- unanticipated developments or changes, including changes in law, macroeconomic environment, market conditions or political or regulatory conditions, including as a result of executive orders;
- difficulties in standing the FutureCos and completing the Intended Electronics Separation in an efficient and effective manner to achieve business opportunities and growth prospects;
- costs or inefficiencies associated with dis-synergies, including due to increased borrowing costs;
- the diversion of management's attention from ongoing business concerns and performance shortfalls at the Company as a result of the devotion of management's attention to the Intended Electronics Separation;
- the possibility of faulty assumptions underlying expectations regarding the integration process, including with respect to the Intended Electronics Separation;
- unanticipated issues in creating information technology, communications programs, financial procedures and operations, and other systems, procedures and policies;
- impact on relationships with employees, suppliers, customers, distributors, licensors and other stakeholders;
- tax costs or inefficiencies associated with the Intended Electronics Separation; and
- potential negative reactions from the financial markets if the Company fails to complete the Intended Electronics Separation, as currently expected, within the anticipated time frame or at all.

If the Intended Electronics Separation is completed, each of the FutureCos will incur ongoing costs of operating as independent companies that will no longer be shared, and each of the FutureCos will be smaller, less diversified companies with more limited businesses concentrated in their respective industries than DuPont is today. As a result, the FutureCos may be more vulnerable to changing market conditions, be subject to costs that exceed the Company's estimates and the Intended Electronics Separation may result in existing shareholders divesting the stock of the FutureCos where investment strategies no longer align, which may affect the market price of the respective FutureCos' common stock following the consummation of the Intended Electronics Separation. Each of these risks may diminish the benefits the Company expects to realize from the Intended Electronics Separation. Further, if the Intended Electronics Separation is ultimately not consummated, the anticipated benefits, operational efficiencies, business opportunities and growth prospects may not be realized fully or at all, or may take longer to realize than expected, and the value of common stock, the revenues, levels of expenses and results of operations of each of the FutureCos may be adversely affected. In addition, the Company will have incurred costs (which may be significant) without realizing the benefits of such transaction.

**The Intended Electronics Separation may adversely impact DuPont's ability to access the capital markets and its cost of capital.**

The Intended Electronics Separation may have the effect of, among other things:

- requiring the Company to dedicate significant cash flow to the Company's debt, including, without limitation, the payment of principal and interest, payment of costs associated with the refinance, repayment, redemption, repurchase or exchange of the Company's outstanding debt, and payment of costs associated with the Intended Electronics Separation, which will reduce funds the Company has available for other purposes;
- exposing the Company to interest rate risk at the time of refinancing outstanding debt or on the portion of the Company's debt obligations that are issued at variable rates;
- increasing the borrowing costs associated with the re-allocation or taking on of new debt; and
- although the Company expects to maintain investment grade ratings, resulting in downgrades of the Company's credit ratings leading to increased borrowing costs to the Company.

DuPont's primary sources of liquidity to finance operations, including stock repurchases and dividends on its common stock, is cash generated by its businesses and access to the debt capital markets. Further, DuPont is considering potentially repaying, redeeming, repurchasing or exchanging some or all of its senior notes, of which there are about \$7.2 billion aggregate principal amount outstanding, with maturities in 2025, 2028, 2038 and 2048. If the Company's ability to continue to raise money in the debt capital markets is impaired, or if there is a significant increase in the cost of debt, there may be a significant negative effect on the Company's liquidity. If the Company is unable to generate sufficient cash flow or maintain access to adequate external financing, it could restrict the Company's current operations, activities under its current and future stock buyback programs, and the Company's growth opportunities, which could adversely affect the Company's operating results.

**If the intended distribution of the Electronics FutureCo, together with certain related transactions, were to fail to qualify for non-recognition treatment for U.S. federal income tax purposes, then DuPont could be subject to significant tax liability.**

It is expected that DuPont will receive a tax opinion from Skadden, Arps, Slate, Meagher & Flom LLP, its tax counsel, as a condition to the distribution, in form and substance acceptable to DuPont, substantially to the effect that, among other things, such distribution along with certain related transactions will qualify for non-recognition treatment under the Internal Revenue Code of 1986, as amended (the "Code," and such opinion, the "Tax Opinion"). The Tax Opinion is expected to rely on certain facts, assumptions, and undertakings, and certain representations from DuPont and the Electronics FutureCo, regarding the past and future conduct of each of their respective businesses and other matters. Notwithstanding the receipt of the Tax Opinion, the Internal Revenue Service (the "IRS") could determine on audit that the distribution and/or certain related transactions should be treated as taxable transactions if it determines that any of these facts, assumptions, representations or undertakings are not correct or have been violated, or that the distribution should be taxable for other reasons, including if the IRS were to disagree with the conclusions of the Tax Opinion. If the distribution and/or certain related transactions fail to qualify for tax-free treatment under U.S. federal, state and local tax law and/or foreign tax law, it is expected that DuPont could incur significant tax liabilities under U.S. federal, state, local and/or foreign tax law.

Generally, corporate taxes resulting from the failure of the distribution to qualify for tax-free treatment for U.S. federal income tax purposes would be imposed on DuPont. Under a tax matters agreement expected to be entered into between DuPont and the Electronics FutureCo, the responsibility for such taxes may be allocated between the FutureCos under certain circumstances and each FutureCo may be obligated to indemnify the other against any such taxes imposed on it. To the extent that DuPont is responsible for any liability as a result of the failure of the distribution and/or certain related transactions to qualify for non-recognition treatment for U.S. federal income tax purposes, there could be a material adverse impact on DuPont's business, financial condition, results of operations and cash flows in reporting periods following the Intended Electronics Separation.

***Risks Relating to the M&M Divestitures, N&B Transaction and the Dow and Corteva Distributions***

**DuPont could incur additional tax liabilities if certain internal transactions undertaken in connection with the completed divestiture of a majority of the Mobility & Materials business to Celanese and divestiture of the Delrin® business to TJC (the "M&M Divestitures"), fail to qualify for their intended tax treatment.**

Prior to the closing of the M&M Divestitures, DuPont engaged in certain internal reorganization activities to separate into and to separately align the legal entities holding the M&M Business and the Delrin® business for disposition. DuPont has recognized a tax liability pursuant to these reorganization activities related to the M&M Divestitures. However, if certain of these internal reorganization activities fail to qualify for their intended tax treatment under U.S. federal, state, local tax and/or foreign tax law, DuPont could incur additional tax liabilities.

**The separation and combination of DuPont's Nutrition & Biosciences business with IFF could result in a significant tax liability to DuPont.**

The distribution by DuPont to its stockholders of all the issued and outstanding shares of N&B through the Exchange Offer ("N&B Distribution") and the merger of N&B with a wholly-owned subsidiary of IFF ("N&B Merger") are expected to be tax-free to DuPont stockholders for U.S. federal income tax purposes (except to the extent that cash was paid to DuPont stockholders in lieu of fractional shares pursuant to the N&B Merger Agreement), and the N&B Contribution, defined below, N&B Distribution, and the one-time payment from N&B to DuPont of approximately \$7.3 billion ("Special Cash Payment") are expected to result in no recognition of gain or loss by DuPont for U.S. federal income tax purposes.

DuPont received an opinion of counsel and also obtained a private letter ruling from the IRS regarding certain matters impacting the U.S. federal income tax treatment of the separation and transfer by DuPont of its N&B Business (the "N&B Contribution"), N&B Distribution, Special Cash Payment and certain related transactions. The conclusions of the IRS private letter ruling were based, among other things, on various factual assumptions DuPont authorized and representations DuPont made to the IRS. If any of those assumptions or representations are, or become, inaccurate or incomplete, reliance on the IRS private letter ruling may be affected.

If the N&B Contribution and N&B Distribution failed to qualify for the treatment described above, DuPont would be required to generally recognize a taxable gain on the transactions and stockholders of DuPont who receive N&B Common Stock (and subsequently, IFF Common Stock) would be subject to tax on their receipt of the N&B Common Stock. Additionally, if the Special Cash Payment or certain internal transactions related to the separation of the Nutrition & Biosciences business fail to qualify for their intended tax-free treatment under U.S. federal, state, local tax and/or foreign tax law, DuPont could incur additional tax liabilities.

Under the Tax Matters Agreement by and between DuPont with N&B and IFF, N&B or IFF is generally required to indemnify DuPont for any taxes resulting from the separation of the Nutrition & Biosciences business (and any related costs and other damages) to the extent such amounts resulted from (i) certain actions taken by N&B or IFF involving the capital stock of N&B or IFF or any assets of the N&B group (excluding actions required by the documents governing the proposed transactions), or (ii) any breach of certain representations and covenants made by N&B or IFF.

**DuPont is subject to continuing contingent tax-related liabilities of Dow and Corteva following the separations and DWDP Distributions.**

After the separations and DWDP Distributions, there are several significant areas where the liabilities of Dow and Corteva may become the Company's obligations, either in whole or in part. For example, to the extent that any subsidiary of the Company was included in the consolidated tax reporting group of either TDCC or EIDP for any taxable period or portion of any taxable period ending on or before the effective date of the DWDP Merger, such subsidiary is jointly and severally liable for the U.S. federal income tax liability of the entire consolidated tax reporting group of TDCC or EIDP, as applicable, for such taxable period. In connection with the separations and DWDP Distributions, DuPont, Dow and Corteva have entered into a Tax Matters Agreement, as amended (the "DWDP Tax Matters Agreement"), that allocates the responsibility for prior period consolidated taxes among Dow, Corteva and DuPont. If Dow or Corteva are unable to pay any prior period taxes for which it is responsible, however, DuPont could be required to pay the entire amount of such taxes, and such amounts could be significant. Other provisions of federal, state, local, or foreign law may establish similar liability for other matters, including laws governing tax-qualified pension plans, as well as other contingent liabilities.

**In connection with the separations and DWDP Distributions, certain liabilities are allocated to or retained by DuPont through assumption or indemnification of Dow and/or Corteva, as applicable. If DuPont is required to make payments pursuant to these indemnities to Dow and/or Corteva, DuPont may need to divert cash to meet those obligations, and the Company's financial results could be negatively impacted. In addition, certain liabilities are allocated to or retained by Dow and/or Corteva through assumption or indemnification, or subject to indemnification by other third parties. These indemnities may not be sufficient to insure the Company against the full amount of liabilities, including PFAS Stray Liabilities, allocated to or retained by it, and Dow, Corteva and/or third parties may not be able to satisfy their respective indemnification obligations in the future.**

Pursuant to the DWDP Separation and Distribution Agreement, the DWDP Employee Matters Agreement, and the DWDP Tax Matters Agreement (collectively, the "Core Agreements") with Dow and Corteva, as well as the Letter Agreement between DuPont and Corteva, DuPont has agreed to assume, and indemnify Dow and Corteva for, certain liabilities. Payments pursuant to these indemnities may be significant and could negatively impact the Company's business.

Third parties could also seek to hold DuPont responsible for any of the liabilities allocated to Dow and Corteva, including those related to EIDP's materials science and/or agriculture businesses, or for the conduct of such businesses prior to the distributions, and such third parties could seek damages, other monetary penalties (whether civil or criminal) and/or other

remedies. Additionally, DuPont generally assumes and is responsible for the payment of the Company's share of (i) certain liabilities of DowDuPont relating to, arising out of or resulting from certain general corporate matters of DuPont and (ii) certain separation expenses not otherwise allocated to Corteva or Dow (or allocated specifically to it) pursuant to the Core Agreements, and third parties may seek to hold it responsible for Dow's or Corteva's share of any such liabilities. Dow and/or Corteva, as applicable, have agreed to indemnify it for such liabilities; however, such indemnities may not be sufficient to protect it against the full amount of such liabilities or from other remedies, and Dow and/or Corteva, as applicable, may not be able to fully satisfy their indemnification obligations. Even if DuPont ultimately succeeds in recovering from Dow and/or Corteva, as applicable, any amounts for which DuPont is held liable, DuPont may be temporarily required to bear these losses. Each of these risks could negatively affect the Company's business, financial condition, results of operations and cash flows.

Generally, as described in Litigation, Environmental Matters and Indemnifications, losses from liabilities related to discontinued and/or divested operations and businesses of EIDP that are not primarily related to its agriculture business or specialty products business, ("Stray Liabilities"), are allocated to or shared by each of Corteva and DuPont. Stray Liabilities include liabilities arising out of actions to the extent related to or resulting from EIDP's development, testing, manufacture or sale of per- or polyfluoroalkyl substances, ("PFAS Stray Liabilities"), that are not otherwise defended and indemnified by Chemours.

At December 31, 2024, the Company has recorded an indemnification liability related to Stray Liabilities. The Company recognizes an indemnification liability when a loss is reasonably probable and can be reasonably estimated. While the Company has established processes and controls over the information to support its accounting for indemnification liabilities with each of Corteva and Dow, the Company is reliant on the accuracy, transparency, completeness and timeliness of information from the applicable party, either Corteva or Dow, that retains direct liability for the underlying matter. Estimating indemnified costs of environmental remediation and compliance activities is particularly difficult since such activities are dependent on the nature of and activity at specific sites; new and evolving analytical, operating and remediation technologies and techniques; agreed action plans; changes in environmental regulations; permissible levels of specific compounds in water, air or soil; enforcement theories and policies, including efforts to recover natural resource damages; and the presence and financial viability of other potentially responsible parties.

At December 31, 2024, the Company had recorded indemnification assets related to Stray Liabilities and other matters. Although the Company believes it is remote, there can be no assurance that any such third-party would have adequate resources to satisfy its indemnification obligation when due, or, would not ultimately be successful in claiming defenses against payment. Even if recovery from the third-party is ultimately successful, DuPont may be temporarily required to bear these losses. Each of these risks could negatively affect the Company's business, financial condition, results of operations and cash flows. See discussion of the Core Agreements in Note 4 to the Consolidated Financial Statements and Litigation, Environmental Matters and Indemnifications in Note 16 to the Consolidated Financial Statements.

**On January 22, 2021, DuPont, Corteva and Chemours entered into a cost sharing arrangement related to future eligible PFAS costs. The Company's results of operations could be adversely affected by litigation and other commitments and contingencies, including expected performance under and impact of the cost sharing arrangement.**

While the cost sharing arrangement related to future PFAS eligible costs reduces uncertainty, its ultimate impact on the Company depends on a number of factors and uncertainties that include, but are not limited to: the achievement, terms and conditions of future agreements, if any, related to the cost sharing arrangement; the outcome of any pending or future litigation related to PFAS or PFOA, including personal injury claims and natural resource damages claims; the extent and cost of ongoing remediation obligations and potential future remediation obligations, including under Comprehensive Environmental Response, Compensation and Liability Act; changes in laws and regulations applicable to PFAS chemicals, changes in applicable health advisory levels and in chronic reference doses for PFAS in drinking water; the performance by each of the parties of their respective obligations under the cost sharing arrangement.

DuPont faces risks arising from various unasserted and asserted litigation matters, including product liability, patent infringement and other intellectual property disputes, contract and commercial litigation, claims for damage or personal injury, antitrust claims, governmental regulations and other actions. An adverse outcome in any one or more of these matters could be material to the Company's business, results of operations, financial condition and cash flows.

In the ordinary course of business, DuPont may make certain commitments, including representations, warranties and indemnities relating to current and past operations, including those related to divested businesses, and DuPont may issue guarantees of third-party obligations. If DuPont is required to make payments as a result, they could exceed the amounts accrued therefor, thereby adversely affecting the Company's results of operations.

**If the completed distribution of Corteva or Dow, in each case, together with certain related transactions, were to fail to qualify for non-recognition treatment for U.S. federal income tax purposes, then the Company could be subject to significant tax and indemnification liability.**

The completed distributions of Corteva and Dow were each conditioned upon the receipt of an opinion from Skadden, Arps, Slate, Meagher & Flom LLP, the Company's tax counsel, regarding the qualification of the applicable distribution along with certain related transactions as a tax-free transaction under Section 355 and Section 368(a)(1)(D) of the Code (such opinions, the "DWDP Tax Opinions"). The DWDP Tax Opinions relied on certain facts, assumptions, and undertakings, and certain representations from the Company, Dow and Corteva, as applicable, as well as the IRS Ruling (as defined below). Notwithstanding the DWDP Tax Opinions and the IRS Ruling, the IRS could determine on audit that either, or both, of the distributions and certain related transactions should be treated as taxable transactions if it determines that any of these facts, assumptions, representations or undertakings are not correct or have been violated, or that the distributions should be taxable for other reasons, including if the IRS were to disagree with the conclusions of the DWDP Tax Opinions.

Even if a distribution otherwise constituted a tax-free transaction to stockholders under Section 355 of the Code, the Company could be required to recognize corporate level tax on such distribution and certain related transactions under Section 355(e) of the Code if the IRS determines that, as a result of the DWDP Merger or other transactions considered part of a plan with such distribution, there was a 50 percent or greater change in ownership in the Company, Dow or Corteva, as relevant. In connection with the DWDP Merger, the Company sought and received a private letter ruling from the IRS regarding the proper time, manner and methodology for measuring common ownership in the stock of the Company, EIDP and TDCC for purposes of determining whether there was a 50 percent or greater change of ownership under Section 355(e) of the Code as a result of the DWDP Merger (the "IRS Ruling"). The DWDP Tax Opinions relied on the continued validity of the IRS Ruling and representations made by the Company as to the common ownership of the stock of TDCC and EIDP immediately prior to the DWDP Merger, and concluded that there was not a 50 percent or greater change of ownership for purposes of Section 355(e) as a result of the DWDP Merger. Notwithstanding the DWDP Tax Opinions and the IRS Ruling, the IRS could determine that a distribution or a related transaction should nevertheless be treated as a taxable transaction to the Company if it determines that any of the Company's facts, assumptions, representations or undertakings was not correct or that a distribution should be taxable for other reasons, including if the IRS were to disagree with the conclusions in the DWDP Tax Opinions that are not covered by the IRS Ruling.

Generally, corporate taxes resulting from the failure of a distribution to qualify for non-recognition treatment for U.S. federal income tax purposes would be imposed on the Company. Under the DWDP Tax Matters Agreement, Dow and Corteva are generally obligated to indemnify the Company against any such taxes imposed on it. However, if a distribution fails to qualify for non-recognition treatment for U.S. federal income tax purposes for certain reasons relating to the overall structure of the DWDP Merger and the distributions, then under the DWDP Tax Matters Agreement, the Company and Corteva, on the one hand, and Dow, on the other hand, would share the tax liability resulting from such failure in accordance with the relative equity values of the Company and Dow on the first full trading day following the distribution of Dow, and the Company and Corteva would in turn share any such resulting tax liability in accordance with the relative equity values of the Company and Corteva on the first full trading day following the distribution of Corteva. Furthermore, under the terms of the DWDP Tax Matters Agreement, a party also generally will be responsible for any taxes imposed on the other parties that arise from the failure of either distribution to qualify as tax-free for U.S. federal income tax purposes within the meaning of Section 355 of the Code or the failure of certain related transactions to qualify for tax-free treatment, to the extent such failure to qualify is attributable to actions, events or transactions relating to such party, or such party's affiliates', stock, assets or business, or any breach of such party's representations made in connection with the IRS Ruling or in any representation letter provided to a tax advisor in connection with certain tax opinions, including the DWDP Tax Opinions, regarding the tax-free status of the distributions and certain related transactions. To the extent that the Company is responsible for any liability under the DWDP Tax Matters Agreement, there could be a material adverse impact on the Company's business, financial condition, results of operations and cash flows in future reporting periods.

### ***Risks Relating to DuPont's Business and Results of Operations***

**Supply chain and operational disruptions, including those as a result of pandemics and climate change, and volatility in energy and raw material costs, could significantly increase costs and expenses, adversely impact the Company's sales and earnings and impact access to sources of liquidity.**

The Company's manufacturing processes and operations depend on the continued availability of energy and raw materials, the costs of which are subject to worldwide supply and demand as well as other factors beyond the Company's control, including potential legislation to address climate change by reducing greenhouse gas emissions, creating a carbon tax or implementing a cap and trade program which could create increases in costs and price volatility. Operational changes and transition to renewable energy sources to meet country, NGO and corporate-level net-zero GHG emissions pledges and related decarbonization technology investments, may require the Company to make significant capital investments, re-qualify its

products with certain suppliers, as well as meet additional regulatory and compliance requirements and could result in higher cost and expenses. Climate change increases the frequency and severity of potential supply chain and operational disruptions from weather events and natural disasters. The chronic physical impacts associated with climate change, for example, increased temperatures, changes in weather patterns and rising sea levels, could significantly increase costs and expenses and create additional supply chain and operational disruption risks.

Supply chain disruptions, plant and/or power outages, labor shortages and/or strikes, geo-political activity, weather events and natural disasters, including hurricanes or flooding that impact coastal regions, and global health risks or pandemics could seriously harm the Company's operations as well as the operations of the Company's customers and suppliers. In addition, the Company's suppliers may experience capacity limitations in their own operations or may elect to reduce or eliminate certain product lines. To address this risk, generally, the Company seeks to have many sources of supply for key raw materials in order to avoid significant dependence on any one or a few suppliers. In addition, and where the supply market for key raw materials is concentrated, DuPont takes additional steps to manage its exposure to supply chain risk and price fluctuations through, among other things, negotiated long-term contracts some which include minimum purchase obligations. However, there can be no assurance that such mitigation efforts will prevent future difficulty in obtaining sufficient and timely delivery of certain raw materials.

DuPont also takes actions to offset the effects of higher energy and raw material costs through selling price increases, productivity improvements and cost reduction programs. Success in offsetting higher raw material costs with price increases is largely influenced by competitive and economic conditions and could vary significantly depending on the market served. As a result, volatility in these costs may negatively impact the Company's business, results of operations, financial condition and cash flows.

DuPont's manufacturing operations may be adversely affected by impacts of pandemics including government actions and other responsive measures, quarantines and health and availability of essential onsite personnel. DuPont is unable to predict the extent of pandemic related impacts on its business, results of operations, access to sources of liquidity and financial condition which depends on highly uncertain and unpredictable future developments. DuPont's financial results may be materially and adversely impacted by a variety of factors that have not yet been determined, including potential impairments of goodwill and other assets. DuPont, when necessary, will take actions, including reducing costs, restructuring actions, and delaying certain capital expenditures and non-essential spend. In addition, the Company may consider further reductions in or furloughing additional operations in response to further and/or deeper declines in demand and/or or supply chain disruptions. There can be no guaranty that such actions would significantly mitigate the impact on the company's business, results of operations, access to sources of liquidity or financial condition and the Company may experience materially adverse impacts to its business, results of operations, financial condition and cash flows as a result of related global economic impacts, including inflationary pressures that have occurred and may continue to occur in the future.

**In light of the Previously Intended Business Separations and continuing in connection with the Intended Electronics Separation, DuPont has announced it does not expect to complete \$500 million in share buyback authority it has under the \$1B Share Buyback Program. DuPont may not realize the anticipated benefits of future share repurchase programs and any failure to repurchase the Company's common stock after DuPont has announced its intention to do so may negatively impact the Company's stock price.**

Under future share repurchase programs, DuPont may make share repurchases through a variety of methods, including open share market purchases or privately negotiated transactions off market, including additional ASR agreements in accordance with applicable federal securities laws. The timing and amount of any repurchases, if any, will depend on factors such as the stock price, economic and market conditions, and corporate and regulatory requirements. Any failure to repurchase shares after the Company has announced its intention to do so may negatively impact DuPont's reputation, investor confidence and the price of the Company's common stock.

The existence of share repurchase programs could cause the price of the Company's common stock to be higher than it otherwise would be and could potentially reduce the market liquidity for DuPont stock. Although these programs are intended to enhance long-term stockholder value, there is no assurance they will do so because the market price of DuPont common stock may decline below the levels at which DuPont repurchased shares and short-term stock price fluctuations could reduce the effectiveness of the programs.

Repurchasing common stock will reduce the amount of cash DuPont has available to fund working capital, capital expenditures, strategic acquisitions or business opportunities and other general corporate requirements, and the Company may fail to realize the anticipated benefits of these share repurchase programs.

**The Company's business, results of operations, financial condition and cash flows could be adversely affected by interruption or regulation of the Company's information technology or network systems and storage of information and other business disruptions.**

DuPont relies on centralized and local information technology and physical networks and systems, some of which are managed or accessible by third parties, to process, transmit and store electronic information, and to otherwise manage or support its business. Additionally, the Company collects, stores, processes, uses and has access to certain data, including proprietary business and personal information or data that is subject to privacy and security laws, regulations, orders and controls or rules imposed by customer or other contracts. The processing and storage of personal information is increasingly subject to privacy and data security regulations, and many such regulations are country or territory-specific. The interpretation and application of data protection laws in the U.S., Europe, including the EU General Data Protection Regulation, Asia Pacific, Latin America and elsewhere are continuing to evolve and may be different across these jurisdictions. The Company seeks to implement these requirements in a compliant manner. Violations of these laws or standards could result in criminal or civil sanctions, investigations, or enforcement actions. Even the mere allegation of such violations, could harm the Company's ability to do business, its results of operations, financial position and reputation.

Information technology system and/or network disruptions, whether caused by acts of sabotage, employee error, malfeasance or other actions, could have an adverse impact on the Company's operations as well as the operations of the Company's customers and suppliers. Other business disruptions may also be caused by security breaches, which could include, for example, attacks on information technology and infrastructure by hackers, viruses, breaches due to employee error, malfeasance or other actions or other disruptions. DuPont and/or the Company's suppliers may fail to effectively prevent, detect and recover from these or other security breaches and, therefore, such breaches could result in misuse of the Company's assets, loss of property including trade secrets and confidential or personal information, some of which is subject to privacy and security laws, and other business disruptions. As a result, DuPont may be subject to legal claims or proceedings, reporting errors, processing inefficiencies, negative media attention, loss of sales, interference with regulatory compliance which could result in sanctions or penalties, liability or penalties under privacy laws, disruption in the Company's operations, and damage to the Company's reputation, which could adversely affect the Company's business, results of operations, financial condition and cash flows.

Like other major corporations, DuPont is the target of cyber-attacks, from time to time, which include phishing, spam emails, hacking, social engineering, industrial espionage and malicious software. DuPont has determined that these attacks have resulted, and could result in the future, in unauthorized parties gaining access to certain confidential business information. However, risks from previous cybersecurity incidents, have not materially affected the Company, including its strategy, results of operations or financial condition. Although, there can be no assurance that DuPont will not suffer such losses in the future.

DuPont has engaged and expects to continue to engage in merger and acquisition activity. As part of preparatory and post-closing integration activities, the Company: (i) conducts a cybersecurity risk threat assessment and when evidence of a breach is uncovered, conducts additional due diligence; (ii) based on the assessment, the Company develops and implements risk mitigation plans if needed and brings the acquisition under the Company's cyber-attack/breach detection and response programs; and (iii) conducts an internal controls risk and compliance assessment and creates, as needed, responsive action plans intended to mitigate and remediate identified weaknesses in the control environment.

DuPont seeks to actively manage the risks within the Company's control that could lead to business disruptions and security breaches. As these threats continue to evolve, particularly around cybersecurity, DuPont may be required to expend significant resources to enhance the Company's control environment, processes, practices and other protective measures. Despite these efforts, such events could have a material adverse effect on the Company's business, results of operations, financial condition and cash flows.

**Enforcing the Company's intellectual property rights, or defending against intellectual property claims asserted by others, could adversely affect the Company's business, results of operations, financial condition and cash flows.**

Intellectual property rights, including patents, trade secrets, know-how and confidential information, trademarks, tradenames and trade dress, are important to the Company's business. DuPont endeavors to protect the Company's business, products and processes by obtaining and enforcing intellectual property rights under the intellectual property laws of certain jurisdictions around the world. However, DuPont may be unable to obtain or enforce its intellectual property rights in key jurisdictions for various reasons including government policies and regulations, and changes in such policies and regulations, including changes made in reaction to pressure from non-governmental organizations, or the public generally, which could impact the extent of intellectual property protection afforded by such jurisdictions.

DuPont has designed and implemented internal controls intended to restrict access to and unauthorized use of the Company's confidential information and trade secrets. Despite these precautions, the Company's confidential information and trade secrets are vulnerable to unauthorized access and use through employee error or actions, theft by employees or third parties,

cybersecurity incidents and other security breaches. When unauthorized access and use is discovered, DuPont considers the matter for report to governmental authorities for investigation, as appropriate, and takes measures intended to stop and contain unauthorized access and to mitigate any potential impact which may include civil actions seeking redress, and/or damages based on loss to the Company and/or unjust enrichment.

Third parties may also claim the Company's products violate their intellectual property rights. Defending such claims, even those without merit, is time-consuming and expensive. In addition, as a result of such claims, DuPont has and could be required in the future to enter into license agreements, develop non-infringing products or engage in litigation that could be costly. If challenges are resolved adversely, it could negatively impact the Company's ability to obtain licenses on competitive terms, commercialize new products and generate sales from existing products.

Any one or more of the above factors could significantly affect the Company's business, results of operations, financial condition and cash flows.

**An impairment of goodwill or intangible assets could negatively impact the Company's financial results.**

In connection with completed acquisitions, DuPont has recorded goodwill and other intangible assets on our balance sheet. As a result of the DWDP Merger and related acquisition method of accounting, EIDP's assets and liabilities were remeasured and DowDuPont recognized them at fair value. Since certain of the Company's assets at December 31, 2024 are heritage EIDP or were subsequently acquired, declines, if any, in projected cash flows could have a material, negative impact on the fair value of the Company's reporting units and assets. Refer to Note 14 of the Consolidated Financial Statements for further information regarding future impairment risk for the Protection reporting unit.

In accordance with US GAAP, at least annually, or more frequently if impairment indicators are identified, DuPont must assess both goodwill and indefinite-lived intangible assets for impairment. In addition, in connection with the 2025 Segment Realignment, the Company will realign its operating and reportable segments which is expected to change the composition of reporting units. The associated reporting units' goodwill and indefinite-lived intangible assets will be assessed for impairment before and after the 2025 Segment realignment which could result in future impairments. Intangible assets with finite lives are tested for impairment when events or changes in circumstances indicate their carrying value may not be recoverable. If testing indicates that goodwill or intangible assets are impaired, their carrying values will be written down based on fair values with a charge against earnings. Where DuPont utilizes discounted cash flow methodologies in determining fair values, significant negative industry or economic trends and forecasts (including projected revenue growth, EBITDA, capital expenditures, weighted average cost of capital, terminal growth rates, and the tax rates), disruptions to our business, inability to effectively integrate acquired businesses, unexpected significant change or planned changes in use of our assets, changes in the structure of the Company's business, divestitures, market capitalization declines or increases in associated discount rates may impair our goodwill and other intangible assets. When DuPont utilizes the market approach in determining fair values, adverse changes in projected EBITDA and derived multiples from comparable market transactions may impair our goodwill. Accordingly, any determination requiring the write-off of a significant portion of goodwill or intangible assets could negatively impact the Company's results of operations.

**Failure to effectively manage acquisitions, divestitures, alliances and other portfolio actions could adversely impact the Company's business, results of operations, financial condition and cash flows.**

DuPont has stated that it will actively manage its portfolio and continually evaluate opportunities to optimize its mix of businesses to align with its growth objectives. At times, DuPont may engage in M&A activities including reviewing acquisition opportunities, responding to incoming inquiries, and evaluating strategic alternatives for its businesses. These activities may or may not result in a transaction. If DuPont is unable to successfully integrate and develop acquired businesses, DuPont could fail to achieve anticipated synergies and cost savings, including any expected increases in revenues and operating results, which could have a material adverse effect on the Company's financial results. DuPont expects to continually review the Company's portfolio of assets for contributions to the Company's objectives and alignment with the Company's growth strategy. The Letter Agreement between the Company and Corteva limits DuPont's ability to separate certain businesses and assets to third parties without assigning certain of its indemnification obligations under the DWDP Separation and Distribution Agreement to the transferee of such businesses and assets or meeting certain other alternative conditions. DuPont may be unable to meet the conditions under the Letter Agreement, if applicable. Even if the conditions under the Letter Agreement are met or are not applicable, DuPont may not be successful in separating underperforming or non-strategic assets, and gains or losses on the divestiture of, or lost operating income from, such assets may affect the Company's earnings. Moreover, DuPont might incur asset impairment charges related to acquisitions or divestitures that reduce the Company's earnings. In addition, if the execution or implementation of acquisitions, divestitures, alliances, joint ventures and other portfolio actions is not successful and/or the Company fails to effectively manage its cost as its portfolio evolves, it could adversely impact the Company's business, results of operations, financial condition and cash flows.

**Failure to maintain a streamlined operating model and sustain operational improvements may reduce the Company's profitability or adversely impact the Company's business, results of operations, financial condition and cash flows.**

The Company's profitability and margin growth will depend in part on the Company's ability to maintain a streamlined operating model and drive sustainable improvements, through actions and projects, such as consolidation of manufacturing facilities, transitions to cost-competitive regions and product line rationalizations. A variety of factors may adversely affect the Company's ability to realize the targeted cost synergies, including failure to successfully optimize the Company's facilities footprint, the failure to take advantage of the Company's global supply chain, the failure to identify and eliminate duplicative programs. There can be no assurance that DuPont will be able to achieve or sustain any or all of the cost savings generated from restructuring actions.

**The Company's results will be affected by competitive conditions and customer preferences.**

Demand for the Company's products, which impacts revenue and profit margins, will be affected by (i) the development and timing of the introduction of competitive products; (ii) the Company's response to downward pricing trends to stay competitive; (iii) changes in customer preferences, order patterns, such as changes in the levels of inventory maintained by customers and the timing of customer purchases which may be affected by announced price changes and other factors outside of the Company's control; (iv) availability and cost of raw materials and energy, as well as the Company's ability and success in passing through increases in such costs; (v) levels of economic growth in the geographic and end use markets served by the Company; (vi) changes in buying patterns thought to be temporary destocking could be indicative of loss of market share and (vii) the mega-trends in digital transformation, connectivity, automation and ethics, environmental impact and sustainability driven purchasing decisions.

The demand for product offerings that align with sustainability goals is expected to continue to increase. Customers are seeking products that are made using environmentally sound practices and materials, and which adhere to ethical and human rights standards. Demand for product offerings that are less carbon-intensive or customers determine support their respective sustainability goals (in areas such as Substances of Concern, Circular Economy, Waste, Water, nature/biodiversity, Responsible Procurement, Human Rights) is expected to continue to increase, driven by end-user and customer demand, investor preference, and government legislative and market- and product-specific actions in response to risks created by climate change. Failure to timely react to these trends and manage the Company's product portfolio and innovation activities responsively could decrease the competitiveness of the Company's products and result in the de-selection of the Company as a partner of choice. In addition, the failure to set goals, take actions, make progress and report against, commensurate with relevant market competitors, the Company's sustainability strategy, could harm the Company's reputation, and its ability to compete and to attract top talent, and could result in increased investor activism and the deselection of the Company as a partner or supplier of choice.

Success in achieving the Company's growth objectives is significantly dependent on the timing and market acceptance of the Company's new product offerings, including the Company's ability to renew the Company's pipeline of new product offerings and to bring those offerings to market. This ability may be adversely affected by difficulties or delays in product development, such as the inability to identify viable new products, obtain adequate intellectual property protection, or gain market acceptance of new products.

The Company invests resources in technology and its operational assets to satisfy anticipated demand. There is no guarantee that demand will support the Company's new investments.

There are no guarantees that new product offerings will prove to be commercially successful. Additionally, the Company's expansion into new markets may result in greater-than-expected risks, liabilities and expenses.

**Failure to attract and retain talented people with the necessary knowledge and experience could adversely affect Company's ability to compete and achieve its strategic goals.**

Attracting, developing, and retaining talented employees is essential to the Company's successful delivery of products and services, ability to innovate, including developing new products and technologies, and ability to identify trends and develop new markets.

Competition for employees can be intense. If the Company is unable to successfully integrate, motivate and reward its employees, it may not be able to retain them or attract new employee in the future which could adversely impact the Company's ability to compete effectively. The Company may be required to increase salary and/or benefits to attract top performers which could significantly increase the Company's costs and adversely impact its results of operations.

## ***Risks Relating to Capital Resources and Liquidity***

**Changes in the Company's credit ratings could increase the Company's cost of borrowing or restrict the Company's ability to access debt capital markets. The Company's credit ratings are important to the Company's cost of capital.**

DuPont relies on access to the debt capital markets and other short-term borrowings to finance the Company's long-term and day-to-day operations. A decrease in the ratings assigned to it by the ratings agencies may negatively impact the Company's access to the debt capital markets and increase the Company's cost of borrowing. The major rating agencies will routinely evaluate the Company's credit profile and assign debt ratings to it. This evaluation is based on a number of factors, which include weighing the Company's financial strength versus business, industry and financial risk. The addition of further leverage to the Company's capital structure could impact the Company's credit ratings. Failure to maintain an investment grade rating at the Company's current level would adversely affect the Company's cost of funding and the Company's results of operations and could adversely affect the Company's liquidity and access to the capital markets. Any limitation on the Company's ability to continue to raise money in the debt capital markets could have a substantial negative effect on the Company's liquidity. If DuPont is unable to generate sufficient cash flow or maintain access to adequate external financing, it could restrict the Company's current operations, activities under its current and future share buyback programs, and the Company's growth opportunities, which could adversely affect the Company's operating results.

**A significant percentage of the Company's net sales are generated from the Company's international operations and are subject to economic, geo-political, foreign exchange and other risks.**

DuPont does business globally in about 50 countries. The percentage of net sales generated by the international operations of DuPont, including U.S. exports, was approximately 67 percent of net sales on a continuing operations basis for the year ended December 31, 2024. With Asia Pacific as the Company's largest region by revenue and China as the largest country within the Asia Pacific region and second largest globally by revenue, DuPont expects the percentage of the Company's net sales derived from international operations to continue to be significant. Risks related to international operations include:

- exchange control regulations
- fluctuations in foreign exchange rates
- foreign investment laws
- GDP growth rate, especially in the U.S. and China

The Company's international operations expose it to fluctuations in foreign currencies relative to the U.S. dollar, which could adversely affect the Company's results of operations. As of the year ended December 31, 2024, the Company's largest currency exposures are the European euro, Chinese renminbi, Japanese yen, South Korean won and Canadian dollar. U.S. dollar fluctuations against foreign currency have an impact to commercial prices and raw material costs in some cases and could result in local price increases if the price or raw material costs is denominated in U.S. dollar.

Sales and expenses of the Company's non-U.S. businesses are also translated into U.S. dollars for reporting purposes and fluctuations of foreign currency against the U.S. dollar could impact U.S. dollar-denominated earnings. In addition, the Company's assets and liabilities denominated in foreign currencies can also be impacted by foreign currency exchange rates against the U.S. dollar, which could result in exchange gain or loss from revaluation.

DuPont also faces exchange rate risk from the Company's investments in subsidiaries owned and operated in foreign countries.

DuPont has a balance sheet hedging program and actively looks for opportunities in managing currency exposures related to earnings. However, foreign exchange hedging activities bear a financial cost and may not always be available to it or be successful in completely mitigating such exposures.

DuPont generates significant amounts of cash outside of the United States that is invested with financial and non-financial counterparties. While DuPont employs comprehensive controls regarding global cash management to guard against cash or investment loss and to ensure the Company's ability to fund the Company's operations and commitments, a material disruption to the counterparties with whom DuPont transacts business could expose it to financial loss.

Any one or more of the above factors could adversely affect the Company's international operations and could significantly affect the Company's business, results of operations, financial condition and cash flows.

## ***Risks Related to Regulatory Changes and Compliance***

**Risks related to trade disputes, regulations and policies could adversely impact DuPont's results of operations.**

Trade regulations, policies and disputes can and have increased tariffs, trade barriers, limited the Company's ability to sell certain products to certain customers, and otherwise impacted the Company's global supply and distribution chains and

research and development activities. Continuing or expanding trade restrictions or disputes or changes in international trade policy, including new or increased tariffs or export controls, could adversely impact demand for and manufacture, distribution or sale of the Company's products, and restrict access to certain markets, any of which could have a material adverse effect on the Company's results of operations and growth prospects. China's policy to enhance domestic supply in sectors where the Company competes, could impact future demand for the Company's products.

**The costs of complying with evolving regulatory requirements could negatively impact the Company's business, results of operations, financial condition and cash flows. Actual or alleged violations of environmental laws or permit requirements could result in restrictions or prohibitions on plant operations and substantial civil or criminal sanctions, as well as the assessment of strict liability and/or joint and several liability.**

DuPont continues to be subject to extensive federal, state, local and foreign laws, regulations, rules and ordinances relating to pollution, protection of the environment, product content, greenhouse gas emissions, and the generation, storage, handling, transportation, treatment, disposal and remediation of hazardous substances, which include certain substances of concern, and waste materials. Increasing sustainability reporting, supply chain due diligence and regulatory registrations may incur further costs. Costs and capital expenditures relating to environmental, health or safety matters are subject to evolving regulatory requirements and depend on the timing of the promulgation and enforcement of specific standards which impose the requirements. Moreover, changes in the regulatory environment could inhibit or interrupt the Company's operations, require modifications to the Company's products, processes or facilities or cause the Company to discontinue or relocate the production of certain products. Changes to regulations or the implementation of additional regulations, may result in significant costs or capital expenditures or require changes in business practice that could result in reduced margins or profitability.

Accordingly, environmental, health or safety regulatory matters could result in significant unanticipated costs or liabilities causing a negative impact on the Company's business, cash flows and results of operations.

**The Company's business, results of operations and reputation could be adversely affected by industry-specific risks including process safety and product stewardship/regulatory compliance issues.**

DuPont is subject to risks which include, but are not limited to, product safety or quality; shifting consumer preferences and public perception; federal, state, and local regulations on manufacturing or labeling; packaging, environmental, health and safety regulations; and customer product liability claims.

In most jurisdictions, DuPont must test the safety, efficacy and environmental impact of the Company's products to satisfy regulatory requirements and obtain the needed approvals. In certain jurisdictions, DuPont must periodically renew the Company's approvals, which may require it to demonstrate compliance with then-current standards. The regulatory approvals process is lengthy, complex and in some markets unpredictable, with requirements that can vary by product, technology, industry and country. Regulatory standards and trial procedures are continuously changing in response to technological developments, changes in legislation, and governmental, NGO and societal demands for increasing levels of product safety and environmental protection. The pace of change together with the lack of regulatory harmony could result in unintended noncompliance. To maintain the Company's right to produce or sell existing products or to commercialize new products, DuPont must be able to demonstrate the Company's ability to satisfy the requirements of regulatory agencies, industries, and customers.

The failure to meet existing and new requirements or receive necessary permits or approvals could have near- and long-term effects on the Company's ability to produce and sell certain current and future products, which could significantly increase operating costs and adversely affect the Company's business, results of operations, financial condition and cash flows. In addition, negative publicity related to product liability, safety, health and environmental matters may damage the Company's reputation.

**Changes in the global and local tax regulatory environments in, and the distribution of income among, the various jurisdictions in which the Company operates, could adversely impact DuPont's results of operations.**

DuPont's future results of operations could be adversely affected by changes in the effective tax rate as a result of a change in the mix of earnings in countries with differing statutory tax rates, changes in tax laws, regulations and judicial rulings (or changes in the interpretation thereof), changes in generally accepted accounting principles, changes in the valuation of deferred tax assets and liabilities, changes in the amount of earnings permanently reinvested offshore, the results of audits and examinations of previously filed tax returns and continuing assessments of the Company's tax exposures and various other governmental enforcement initiatives. The Company has ongoing federal, state and international income tax audits in various jurisdictions and evaluates uncertain tax positions that may be challenged by local tax authorities. The impact, if any, of these audits to the Company's unrecognized tax benefits is not estimable. The Company's tax expense includes estimates of tax reserves and reflects other estimates and assumptions, including assessments of future earnings of the Company which could impact the valuation of the Company's deferred tax assets.

On August 16, 2022, the Inflation Reduction Act of 2022 (the “IRA”) was enacted into law in the United States. Among other changes to the Code, the IRA imposes a 15 percent corporate alternative minimum tax on certain corporations (the “CAMT”). Changes in tax laws or regulations, including further regulatory developments in connection with the IRA; multi-jurisdictional changes enacted in response to the action items provided by the Organization for Economic Co-operation and Development (OECD) including the OECD's Global Anti-Base Erosion ("GloBE") rules under Pillar Two, which introduces a global minimum corporate tax rate set at 15 percent on multinational enterprises; and the OECD's, European Commission's and other major jurisdiction's heightened interest in and taxation of large multi-national companies, increase tax uncertainty and could impact the Company's effective tax rate and provision for income taxes. Given the unpredictability of possible further changes to and the potential interdependency of the United States or foreign tax laws and regulations, it is difficult to predict the cumulative effect of such tax laws and regulations on DuPont's results of operations.

**The Company's business, results of operations and reputation could be harmed by improper conduct by its employees, agents or business partners.**

DuPont is required to comply with numerous U.S. and non-U.S. laws and regulations including those related to anti-corruption, anti-bribery, global trade, trade sanctions, anti-trust, anti-money laundering laws, anti-slavery and human rights. The Company's policies mandate compliance with these laws and regulations. The Company operates globally, including in parts of the world that are recognized as having governmental and commercial corruption and where local customs and practices can be inconsistent with anti-corruption and/or anti-bribery laws. Despite the Company's training and compliance program, DuPont cannot ensure that its internal control processes will prevent improper action by employees, agents, distributors, suppliers or business partners. Violations of these laws could result in criminal or civil sanctions and even the mere allegation of such violations, could harm the Company's ability to do business, its results of operations, financial position and reputation.

**ITEM 1B. UNRESOLVED STAFF COMMENTS.**

None.

## ITEM 1C. CYBERSECURITY.

### **Risk Management and Strategy**

DuPont has implemented processes for assessing, identifying and managing material risks from cybersecurity threats, which are integrated into the Company's overall risk management systems and processes. DuPont's cybersecurity risk management program leverages the National Institute of Standards and Technology (NIST) framework. The Company regularly assesses the threat landscape and takes a holistic view of cybersecurity risks, with a layered cybersecurity strategy based on prevention, detection and containment. The Company has other policies and procedures which directly or indirectly relate to cybersecurity, including those related to remote access monitoring, encryption standards, antivirus protection, multifactor authentication, confidential information and the use of the internet, social media, email and wireless devices. The Company also engages third parties in connection with the assessment of its cybersecurity risk management processes against the NIST framework.

DuPont has dedicated Information Technology security professionals that form the DuPont Cyber Incident Response Team ("DCIRT"). The DCIRT is led by our Chief Information Security Officer ("CISO") and is responsible for the detection and initial assessment of cybersecurity threats and incidents (collectively, "cyber incidents"), whether internal or experienced by significant third-party service providers, using, among other means, third-party software. The DCIRT classifies detected cyber incidents into one of four categories based on potential impact to the functionality of the affected systems, possible or known information involved and recoverability effort. The classification of a cyber incident is designed to allow rapid prioritization, response and escalation. The CISO and the Chief Information Officer ("CIO") are alerted as to any detected cyber incident that is potentially significant. Incidents are documented for regular internal reporting processes including notations and considerations of related attacks.

The CIO and CISO are required to engage the Cybersecurity Incident Review Committee ("CIRC"), a subcommittee of the DuPont Disclosure Committee, if a cyber incident has materially affected, or is reasonably likely to materially affect, the Company, including its business strategy, results of operations or financial condition. The CIRC is engaged if, in the opinion of the DCIRT, based on information then-available, a cyber incident is, or it is reasonably possible it may be, classified in one of the highest two severity categories discussed above. The CIRC includes membership representation from information technology, legal, finance, investor relations and internal audit and, if appropriate, the impacted business. The CIRC is responsible for performing a materiality assessment, activating the Crisis Management Committee ("CMC") when applicable, and overseeing the public disclosure of material cybersecurity matters, as appropriate. The CIRC coordinates with the Company's legal counsel and third parties, such as consultants and legal advisors, as needed. The CMC is a standing committee comprised of senior management and reports to the CEO. In the event the CMC is activated in relation to a cyber incident, the CEO is required by Board adopted policy to notify the Lead Director and any member of the Board of Directors identified as having cybersecurity expertise.

As part of preparatory and post-closing integration activities in connection with merger and acquisition activity, the Company: (i) conducts a cybersecurity risk threat assessment and when evidence of a breach is uncovered, conducts additional due diligence; (ii) based on the assessment, the Company develops and implements risk mitigation plans if needed and brings the acquisition under the Company's cyber-attack/breach detection and response programs; and (iii) conducts an internal controls risk and compliance assessment and creates, as needed, responsive action plans intended to mitigate and remediate identified weaknesses in the control environment.

DuPont deploys annual cybersecurity training for employees and considers this a critical step in safeguarding the Company's data and assets. The training provides employees and contractors with a baseline understanding of cybersecurity fundamentals to prevent security breaches and safely identify potential threats. The course includes enhancements to strengthen our defensive stance against the increasing number and sophistication of cyberattacks worldwide and includes interactive modules covering various areas, including insider attacks, phishing and email attacks, preventing malware attacks, data protection, data handling, passwords, cloud and internet security and cybersecurity fundamentals for mobile devices.

Like other major corporations, DuPont is the target of cyber-attacks from time to time. However, risks from previous cybersecurity incidents, have not materially affected the Company, including its strategy, results of operations or financial condition. For additional information about risks related to cybersecurity, see "The Company's business, results of operations, financial condition and cash flows could be adversely affected by interruption of the Company's information technology or network systems and other business disruptions" in Item 1A. Risk Factors of this Annual Report.

## Governance

### *Roles and Responsibilities*

Cybersecurity is an important part of our risk management processes and an area of focus for DuPont's Board of Directors and management. The CIO and the CISO are primarily responsible for assessing and managing material risks from cybersecurity threats. The CIO has sixteen years of cybersecurity experience, including seven years with DuPont, and the CISO has seventeen years of cybersecurity experience, including over three years with DuPont. Each of the CIO and CISO maintain industry recognized credentials relevant to their roles.

The Board, acting through its committee structure, is responsible for overseeing management's implementation and execution of the risk management process and for coordinating the outcome of reviews by Committees in their respective risk areas. Although each Committee is responsible for overseeing the management of certain risks, the full Board is regularly informed by the Committees about these risks. This helps enable the Board and the Committees to coordinate risk oversight and the relationships among the various risks faced by the Company, including cybersecurity risk.

The full Board is responsible for oversight of cybersecurity risk and receives regular reports from the CIO and the CISO. The CIO and the CISO also present their assessment of material risks from cybersecurity threats to the Board at least annually. The Audit Committee receives periodic reports regarding information technology general controls ("ITGC") in connection with its oversight of internal control over financial reporting. The impact, if any, of cyber incidents on internal control over financial reporting is also discussed with the full Board. The Nomination and Governance Committee considers cyber expertise in vetting nominees for the Board and recommending Committee appointments, and DuPont's Board of Directors has determined that one of its independent board members has cybersecurity expertise.

## ITEM 2. PROPERTIES

The Company's corporate headquarters is located in Wilmington, Delaware. The Company's manufacturing, processing, marketing and research and development facilities, as well as regional purchasing offices and distribution centers are located throughout the world. Additional information with respect to the Company's property, plant and equipment and leases is contained in Notes 12, 17 and 23 to the Consolidated Financial Statements.

The Company has investments in property, plant and equipment related to global manufacturing operations. The number of manufacturing sites at December 31, 2024 is as follows:

<i>Geographic Region</i>	<i>Electronics &amp; Industrial</i>	<i>Water &amp; Protection</i>	<i>Corporate &amp; Other</i>	<i>Total <sup>1</sup></i>
Asia Pacific	18	9	1	28
EMEA <sup>2</sup>	6	9	2	17
Latin America	4	—	1	5
U.S. & Canada	36	16	8	60
Total	64	34	12	110

1. Sites that are used by multiple segments are included more than once in the figures above.

2. Europe, Middle East, and Africa.

The Company's principal sites include facilities which, in the opinion of management, are suitable and adequate for their use and have sufficient capacity, or plans to increase capacity, which meet the Company's current needs and expected near-term growth. Properties are primarily owned by the Company; however, certain properties are leased. No title examination of the properties has been made for the purpose of this report and certain properties are shared with other tenants under long-term leases.

### ITEM 3. LEGAL PROCEEDINGS

The Company and its subsidiaries are subject to various litigation matters, including, but not limited to, product liability, patent infringement, antitrust claims, and claims for third-party property damage or personal injury stemming from alleged environmental torts. Information regarding certain of these matters is set forth below and in Note 16 to the Consolidated Financial Statements, which also includes discussion of the allocation of liabilities in connection with the DWDP Distributions.

#### **Litigation**

*See Note 16 to the Consolidated Financial Statements.*

#### **Environmental Proceedings**

The Company believes it is remote that the following matters will have a material impact on its financial position, liquidity or results of operations. The description is included per Regulation S-K, Item 103(c) of the Securities Exchange Act of 1934.

##### *EIDP Divested Neoprene Facility, La Place, Louisiana - EPA Compliance Inspection*

In 2016, the EPA conducted a focused compliance investigation at the Denka Performance Elastomer LLC (“Denka”) neoprene manufacturing facility in La Place, Louisiana. EIDP sold the neoprene business, including this manufacturing facility, to Denka in the fourth quarter of 2015. Subsequent to this inspection, the U.S. Environmental Protection Agency (“EPA”), the U.S. Department of Justice (“DOJ”), the Louisiana Department of Environmental Quality (“Louisiana DEQ”), EIDP and Denka began discussions in the spring of 2017 relating to the inspection conclusions and allegations of noncompliance arising under the Clean Air Act, including leak detection and repair.

For many years, Denka, EIDP, and DuPont, as the current landlord, continued to work with the EPA, DOJ and Louisiana DEQ to achieve an amicable resolution. On February 28, 2023, the United States Government, on behalf of the EPA, filed a lawsuit against Denka in Federal Court in Louisiana claiming that Denka’s continued chloroprene emissions constitute an imminent damage to the public. A DuPont subsidiary is identified as a defendant in this matter simply as a landlord/property owner. The lawsuit seeks injunctive relief requiring Denka to eliminate the alleged imminent and substantial endangerment posed by its chloroprene emissions from the facility. In January 2025, the Court set a pre-trial schedule with an anticipated 10-day trial to begin in the second quarter 2025.

##### *New Jersey Directive PFAS*

On March 25, 2019, the New Jersey Department of Environmental Protection (“NJDEP”) issued a Directive and Notice to Insurers to a number of companies, including Chemours, DowDuPont, EIDP, and certain DuPont subsidiaries. NJDEP’s allegations relate to former operations of EIDP involving poly- and perfluoroalkyl substances, (“PFAS”), including PFOA and PFOA- replacement products. The NJDEP seeks past and future costs of investigating, monitoring, testing, treating, and remediating New Jersey’s drinking water and waste systems, private drinking water wells and natural resources including groundwater, surface water, soil, sediments and biota. The Directive seeks certain information as to future costs and information related to the historical uses of PFAS and replacement chemicals including “information ranging from use and discharge of the chemicals through wastewater treatment plants, air emissions, and sales of products containing the chemicals to current development, manufacture, use and release of newer chemicals in the state.”

### ITEM 4. MINE SAFETY DISCLOSURES

Not applicable

**ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

The Company's common stock is traded on the NYSE under the ticker symbol "DD."

During 2024 and 2023, the Company paid quarterly dividends on its common stock of \$0.38 and \$0.36 per share, respectively.

The Company expects to continue to pay quarterly dividends, although each dividend is subject to the approval of the Company's Board of Directors.

At January 31, 2025, there were 60,030 stockholders of record.

See Part III, Item 11. Executive Compensation for information relating to the Company's equity compensation plans.

**Issuer Purchases of Equity Securities**

In the first quarter of 2024, the Company's Board of Directors approved the \$1B Share Buyback Program authorizing the repurchase and retirement of up to \$1 billion of common stock. For the three months ended December 31, 2024, there were no purchases of the Company's common stock. At December 31, 2024, \$500 million is the approximate dollar value of shares that may be purchased by the Company under this program. In connection with the Previously Intended Separations and continuing in light of the Intended Electronics Separation, DuPont announced its intent not to complete the remaining \$500 million in share buyback authority under the \$1B Share Buyback program. See the discussion under Liquidity and Capital Resources starting on page 47 for more information.

## Stockholder Return

The form of the chart presented below is in accordance with the requirements of the U.S. Securities and Exchange Commission. Stockholders are cautioned against drawing any conclusions from the data contained therein, as past results are not necessarily indicative of future performance. The chart illustrates the cumulative total return of the Company's stock based on a presumed investment of \$100 on December 31, 2019 and a presumption that all dividends were reinvested. The chart does not reflect the Company's forecast of future financial performance.

Cumulative Total Return	December 31, 2019	December 31, 2020	December 31, 2021	December 31, 2022	December 31, 2023	December 31, 2024
DuPont	\$ 100.00	\$ 113.31	\$ 130.75	\$ 113.25	\$ 129.48	\$ 130.81
S&P 500	\$ 100.00	\$ 118.40	\$ 152.39	\$ 124.79	\$ 157.59	\$ 197.02
S&P Industrials	\$ 100.00	\$ 111.06	\$ 134.52	\$ 127.15	\$ 150.20	\$ 176.44

## ITEM 6. RESERVED

Not applicable.

## **ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Management's discussion and analysis of financial condition and results of operations is provided as a supplement to, and should be read in conjunction with, the consolidated financial statements and related notes to enhance the understanding of the Company's operations and present business environment. Components of management's discussion and analysis of financial condition and results of operations include:

- Overview
- Analysis of Operations
- Result of Operations
- Segment Results
- Outlook
- Liquidity and Capital Resources
- Recent Accounting Pronouncements
- Critical Accounting Estimates
- Long-Term Employee Benefits
- Environmental Matters

### **OVERVIEW**

As of December 31, 2024, the Company has \$1.6 billion of net working capital and \$1.9 billion in cash and cash equivalents. The Company expects its cash and cash equivalents, cash generated from operations, and ability to access the debt capital markets to provide sufficient liquidity and financial flexibility to meet the liquidity requirements associated with its continued operations. The Company continually assesses its liquidity position, including possible sources of incremental liquidity, in light of the current economic environment, capital market conditions and Company performance.

### **Intended Electronics Separation**

On May 22, 2024, DuPont announced a plan to separate each of its Electronics and Water businesses in a tax-free manner to its shareholders, (the "Previously Intended Business Separations"). On January 15, 2025, DuPont announced it is targeting November 1, 2025, for the completion of the intended separation of the Electronics business (the "Intended Electronics Separation"). DuPont also announced that it would retain the Water business. The Intended Electronics Separation will not require a shareholder vote and is subject to satisfaction of customary conditions, including final approval by DuPont's Board of Directors, receipt of tax opinion from counsel, the filing and effectiveness of a Form 10 registration statement with the U.S. Securities and Exchange Commission, applicable regulatory approvals and satisfactory completion of financing.

### **Mobility & Materials Divestitures**

On November 1, 2022, (the "Transaction Date") DuPont completed the previously announced divestiture of the majority of the historic Mobility & Materials segment, including the Engineering Polymers business line and select product lines within the Advanced Solutions and Performance Resins business lines (the "M&M Divestiture"). The Company had previously entered into a Transaction Agreement (the "Transaction Agreement") with Celanese Corporation ("Celanese") on February 17, 2022 for a purchase price of \$11.0 billion in cash. Cash received on the Transaction Date, as adjusted for preliminary and other adjustments was \$11.0 billion. These adjustments include approximately \$0.5 billion of cash transferred with the M&M Divestiture for which DuPont was reimbursed at closing resulting in net proceeds of \$10.5 billion.

On February 18, 2022, the Company announced that its Board of Directors approved of the divestiture of the Delrin® acetal homopolymer (H-POM) business (the "Delrin® Divestiture"). On November 1, 2023, the Company closed the sale of the Delrin® business to TJC LP ("TJC"), (the "Delrin® Divestiture"). DuPont received cash proceeds of approximately \$1.28 billion, which includes certain customary transaction adjustments, a note receivable of \$350 million and acquired a 19.9 percent non-controlling equity interest in Derby Group Holdings LLC, ("Derby"). The customary transaction adjustments related to \$27 million of cash transferred with the Delrin® Divestiture for which DuPont was reimbursed at closing resulting in net cash proceeds of \$1.25 billion. TJC, through its subsidiaries, holds the 80.1 percent controlling interest in Derby. The Delrin® Divestiture together with the M&M Divestiture (collectively the "M&M Divestitures" and the businesses in scope for the M&M Divestitures collectively the "M&M Businesses") represent a strategic shift that has a major impact on DuPont's operations and results.

The results of operations for the year ended December 31, 2023 present the financial results of the Delrin® Divestiture through the November 1, 2023 transaction date, as discontinued operations. In the comparative period, the results of operations for the year ended December 31, 2022 present the financial results of the M&M Businesses as discontinued operations. For the year ended December 31, 2023, the Consolidated Statements of Cash Flows present the cash flows of the Delrin® Divestiture as

discontinued operations. In the comparative period, the cash flows for the year ended December 31, 2022 present the financial results of the M&M Businesses as discontinued operations. The comprehensive income of the M&M Businesses have not been segregated and are included in the Consolidated Statements of Comprehensive Income, respectively, for all periods presented. Unless otherwise indicated, the information in the notes to the Consolidated Financial Statements refer only to DuPont's continuing operations and do not include discussion of balances or activity of the M&M Businesses. See Note 4 to the Consolidated Financial Statements for additional information.

The Auto Adhesives & Fluids, Multibase<sup>TM</sup> and Tedlar<sup>®</sup> product lines, previously reported within the historic Mobility & Materials segment, (the "Retained Businesses") were not included in the scope of the M&M Divestitures. The Retained Businesses are included in Corporate & Other.

#### **Donatelle Plastics Acquisition**

On July 28, 2024, DuPont completed the acquisition of Donatelle Plastics, LLC ("Donatelle Plastics"), for a net purchase price of \$365 million (the "Donatelle Plastics Acquisition") which includes immaterial adjustments for acquired cash and net working capital. The net purchase price also includes the estimated fair value for a contingent earn-out liability of \$40 million. Donatelle Plastics is a medical device company specializing in the design, development and manufacture of medical components and devices. Donatelle Plastics part of Industrial Solutions within the Electronics & Industrial segment. See Note 3 to the Consolidated Financial Statements for additional information.

#### **Spectrum Acquisition**

On August 1, 2023, the Company completed the previously announced acquisition of Spectrum Plastics Group ("Spectrum") from AEA Investors (the "Spectrum Acquisition"). Spectrum manufactures flexible packaging products, plastic and silicone extrusions, and components for the industrial, food and medical business sectors throughout the United States and international markets. Spectrum is part of the Electronics & Industrial segment. The net purchase price was approximately \$1,781 million, including a net upward adjustment of approximately \$43 million for acquired cash and net working capital, among other items. See Note 3 to the Consolidated Financial Statements for additional information.

#### **Terminated Intended Rogers Acquisition**

On November 1, 2022, the Company announced the termination of the previously announced agreement to acquire the outstanding shares of Rogers Corporation ("Rogers") as DuPont and Rogers were unable to obtain timely clearance from all the required regulators ("Terminated Intended Rogers Corporation Acquisition").

#### **Other Divestitures**

In May 2022, the Company completed the sale of its Biomaterials business unit, which included the Company's equity method investment in DuPont Tate & Lyle Bio Products, to the Huafon Group. Total consideration received related to the sale was approximately \$240 million. In May 2022, a pre-tax gain of \$26 million (\$21 million net of tax) was recorded in "Sundry income (expense) - net" in the Company's Consolidated Statements of Operations. The results of operations of the Biomaterials business unit are reported in Corporate & Other for 2022.

## ANALYSIS OF OPERATIONS

### Joint Settlement Agreement

On January 22, 2021, the Company, Corteva, EIDP and Chemours entered into a binding Memorandum of Understanding (the "MOU"), pursuant to which the parties have agreed to share certain costs associated with potential future liabilities related to alleged historical releases of certain PFAS arising out of pre-July 1, 2015 conduct ("eligible PFAS costs") until the earlier to occur of (i) December 31, 2040, (ii) the day on which the aggregate amount of qualified spend (as defined in the MOU) is equal to \$4 billion or (iii) a termination in accordance with the terms of the MOU. The parties have agreed that, during the term of this sharing arrangement, Chemours will bear 50 percent of any qualified spend and the Company and Corteva shall together bear 50 percent of any qualified spend. As of December 31, 2024, the Company has recorded an indemnification liability of \$222 million in connection with the cost sharing arrangement related to future eligible PFAS costs.

Total pre-tax charges of \$46 million, \$487 million and \$96 million related to the MOU are reflected as a loss from discontinued operations for the year ended December 31, 2024, 2023 and 2022, respectively, in the Company's Consolidated Statements of Operations.

The increase in pre-tax charges for the year ended December 31, 2023, are primarily driven by the definitive agreement reached in June 2023 by Chemours, Corteva, EIDP and DuPont to comprehensively resolve all PFAS-related claims of a defined class of U.S. public water systems, (the "Water District Settlement Agreement") for \$1.185 billion in cash to be paid to a Qualified Settlement Fund, (the "Water District Settlement Fund"). DuPont's contribution of \$400 million to the Water District Settlement Fund was made in the third quarter 2023 and is reflected in "Restricted cash and cash equivalents "on the Consolidated Balance Sheets as of December 31, 2023. The Company's total contribution, including interest, of \$408 million has been removed from "Restricted cash and cash equivalents - current" along with the associated "Accrued and other current liabilities" within the Consolidated Balance Sheets as of December 31, 2024, as the settlement became final in the second quarter 2024.

See Note 16 of the Consolidated Financial Statements for additional information.

### Dividends

During 2024, the Board of Directors authorized and paid quarterly dividends of \$0.38 per share to shareholders of record in the first, second, third and fourth quarters, respectively.

### Share Buyback Program

The Company completed its share buyback programs that were open in 2022 and 2023.

In the first quarter 2024, the Company's Board of Directors approved a new share repurchase program authorizing the repurchase and retirement of up to \$1 billion of common stock (the "\$1B Share Buyback Program"). Under the \$1B Share Buyback Program, repurchases may be made from time to time on the open market at prevailing market prices or in privately negotiated transactions off market, including additional ASR agreements in accordance with applicable federal securities laws. The \$1B Program terminates on June 30, 2025, unless extended or shortened by the Board of Directors.

In the first half of 2024, the Company entered and completed a \$500 million ASR transaction under the \$1B Share Buyback Program. In total, the Company repurchased 6.9 million shares at an average price of \$71.96 per share under the Q1 2024 ASR Transaction. In connection with the Previously Intended Separations and continuing in light of the Intended Electronics Separation, DuPont announced its intent not to complete the remaining \$500 million in share buyback authority under the \$1B Share Buyback program. See the discussion under Liquidity and Capital Resources starting on page 47 for more information.

The Inflation Reduction Act of 2022 introduced a 1 percent nondeductible excise tax imposed on the net value of certain stock repurchases made after December 31, 2022. The net value is determined by the fair market value of the stock repurchased during the tax year, reduced by the fair market value of stock issued during the tax year. The Company recorded total excise tax of \$8 million and \$21 million, respectively, as a reduction to retained earnings for the years ended December 31, 2024 and 2023, reflected within stockholders' equity and a corresponding liability within "Accounts Payable" in our Consolidated Balance Sheets as of December 31, 2024 and 2023.

## **Interest Rate Swap Agreements**

In the second quarter of 2022, the Company entered into fixed-to-floating interest rate swap agreements ("2022 Swaps") with an aggregate notional principal amount totaling \$1 billion to hedge changes in the fair value of the Company's long-term debt due to interest rate change movements. These swaps converted \$1 billion of the Company's \$1.65 billion principal amount of fixed rate notes due 2038 into floating rate debt for the portion of their terms through 2032 with an interest rate based on the Secured Overnight Financing Rate ("SOFR"). Under the terms of the agreements, the Company agrees to exchange, at specified intervals, fixed for floating interest amounts based on the agreed upon notional principal amount. The 2022 Swaps expire on November 15, 2032 and are carried at fair value.

Since inception of the 2022 Swaps, fair value hedge accounting has been applied and thus, changes in the fair value of the 2022 Swaps and changes in the fair value of the related hedged portion of long-term debt were presented and net to zero in "Sundry income (expense) – net" in the Consolidated Statements of Operations. On June 5, 2024, DuPont issued a notice of redemption to the bond trustee with respect to a partial redemption of \$650 million aggregate principal amount of its 2038 Notes in accordance with their terms. The redemption was effective on June 15, 2024. As a result of the announced redemption, the Company dedesignated the then current hedging relationship. At the time of dedesignation, the total amount recorded as a cumulative fair value basis adjustment on the 2038 Notes was a loss of \$81 million of which \$32 million was recognized as a component of the loss from partial extinguishment of debt. The remaining basis adjustment is amortized to interest expense over the remaining term of the 2038 Notes. The basis adjustment amortization for the year December 31, 2024 was \$1 million. Refer to Note 15 for additional details on the partial redemption of the 2038 Notes.

In June 2024, the Company entered into two forward-starting fixed-to-floating interest rate swap agreements ("2024 Swaps") to hedge the changes in the fair value of the Company's long-term debt due to interest rate change movements. One swap converted \$2.15 billion principal amount of the fixed rate notes due 2048 into floating rate debt for the portion of their terms from 2025 through 2048 with an interest rate based on SOFR. The other swap converted \$1 billion principal amount of the 2038 Notes into floating rate debt for the portion of their terms from 2032 through 2038 with an interest rate based on SOFR. The 2024 Swaps have a mandatory early termination date of December 15, 2025 and are carried at fair value. Fair value hedge accounting has not been applied.

The 2022 Swaps and 2024 Swaps are considered economic hedges of the Company's fixed rate debt. As such, changes in the fair value and gain or loss from net interest settlement of the 2022 Swaps after the date of dedesignation and changes in the fair value of the 2024 Swaps since inception have been recorded in "Sundry income (expense) – net" in the Consolidated Statements of Operations. The amount charged related to interest rate swaps not designated as hedges was a loss of \$138 million and zero for the years December 31, 2024 and 2023, respectively.

## **Restructuring Programs**

### *2023-2024 Restructuring Program*

In December 2023, the Company approved targeted restructuring actions to capture near-term cost reductions due to macroeconomic factors as well as to further simplify certain organizational structures following the Spectrum acquisition and Delrin® Divestiture (the "2023-2024 Restructuring Program"). DuPont recorded a pre-tax charge related to the 2023-2024 Restructuring Program in the amount of \$199 million inception-to-date, recognized in "Restructuring and asset related charges - net" in the Company's Consolidated Statements of Operations, comprised of \$114 million of severance and related benefit costs and asset related charges of \$85 million. At December 31, 2024, total liabilities related to the 2023-2024 Restructuring Program were \$47 million for severance and related benefit costs, recognized in "Accrued and other current liabilities" in the Consolidated Balance Sheets.

### *2022 Restructuring Program*

In October 2022, the Company approved targeted restructuring actions to capture near-term cost reductions and to further simplify certain organizational structures following the M&M Divestitures (the "2022 Restructuring Program"). DuPont recorded pre-tax charges related to the 2022 Restructuring Program in the amount of \$94 million inception-to-date, recognized in "Restructuring and asset related charges - net" in the Company's Consolidated Statements of Operations, comprised of \$80 million of severance and related benefit costs and asset related charges of \$14 million. At December 31, 2024, total liabilities related to the 2022 Restructuring Program were \$1 million for severance and related benefit costs, recognized in "Accrued and other current liabilities" in the Consolidated Balance Sheets. The 2022 Restructuring Program is considered substantially complete.

## RESULTS OF OPERATIONS

Summary of Sales Results	For the Years Ended December 31,		
	2024	2023	2022

1. Corporate & Other includes activities of the Retained Businesses and certain divested businesses including Biomaterials, Clean Technologies and Solamet®.

2. Europe, Middle East and Africa.

### 2024 versus 2023

The Company reported net sales for the year ended December 31, 2024 of \$12.4 billion, up 3 percent from \$12.1 billion for the year ended December 31, 2023, due to a 2 percent increase in volume and a 3 percent increase in portfolio partially offset by 1 percent decreases due to local price and product mix as well as currency. The volume increase was driven by Electronics & Industrial (up 8 percent) partially offset by Water & Protection (down 2 percent) and Corporate & Other (down 3 percent). Portfolio and other changes increased by 3 percent compared to the same period last year, driven by Electronics & Industrial (up 6 percent), partially offset by Corporate & Other (down 1 percent). Local price and product mix decreased within Electronics & Industrial (down 2 percent), Water & Protection (down 1 percent) and Corporate & Other (down 1 percent). The 1 percent decrease in currency was driven by Asia Pacific (down 2 percent).

### 2023 versus 2022

The Company reported net sales for the year ended December 31, 2023 of \$12.1 billion, down 7 percent from \$13.0 billion for the year ended December 31, 2022, due to an 8 percent decrease in volume and a 1 percent unfavorable currency impact partially offset by a 2 percent increase due to local price and product mix. Volume decrease was driven by Electronics & Industrial (down 11 percent) and Water and Protection (down 7 percent) partially offset by Corporate & Other (up 2 percent). Local price and product mix increased within Water & Protection (up 3 percent) and Corporate & Other (up 1 percent) and remained flat in Electronics & Industrial. Currency was down 1 percent compared with the same period last year, primarily driven by Asia Pacific (down 2 percent) partially offset by EMEA (up 1 percent).

### Cost of Sales

Cost of sales was \$7.9 billion for the year ended December 31, 2024, up from \$7.8 billion for the year ended December 31, 2023. Cost of sales increased for the year ended December 31, 2024 primarily due to increased sales volume mostly offset by lower raw material, logistics and energy costs.

Cost of sales as a percentage of net sales for the year ended December 31, 2024 was 64 percent compared with 65 percent for the year ended December 31, 2023.

For the year ended December 31, 2023, cost of sales was \$7.8 billion, down from \$8.4 billion for the year ended December 31, 2022. Cost of sales decreased for the year ended December 31, 2023 primarily due to decreased sales volume and lower raw material, logistics and energy costs.

Cost of sales as a percentage of net sales for the years ended December 31, 2023 and December 31, 2022 was 65 percent.

**Research and Development Expense ("R&D")**

R&D expense was \$531 million for the year ended December 31, 2024, up from \$508 million for the year ended December 31, 2023 and \$536 million for the year ended December 31, 2022. R&D as a percentage of net sales was 4 percent for the years ended December 31, 2024, 2023 and 2022.

The increase in 2024 compared to 2023 was primarily due to higher variable compensation. The decrease in R&D expense in 2023 compared to 2022 was primarily due to lower personnel related expenses partially offset by the Spectrum Acquisition.

**Selling, General and Administrative Expenses ("SG&A")**

For the year ended December 31, 2024, SG&A expenses totaled \$1,552 million, up from \$1,408 million in the year ended December 31, 2023 and \$1,467 million for the year ended December 31, 2022. SG&A as a percentage of net sales was 13 percent, 12 percent, and 11 percent for the years ended December 31, 2024, 2023 and 2022, respectively.

The increase in SG&A cost in 2024 compared to 2023 was primarily due to higher variable compensation and incremental cost from the Spectrum and Donatelle acquisitions. The decrease in SG&A costs in 2023 compared with 2022 was primarily due to lower Stranded Costs related to the M&M Divestiture, lower personnel related expenses and lower bad debt expense partially offset by the Spectrum Acquisition.

**Amortization of Intangibles**

Amortization of intangibles was \$595 million, \$600 million and \$590 million for the years ended December 31, 2024, 2023 and 2022, respectively. The slight decrease in amortization of intangibles in 2024 compared to 2023 was primarily due to absence of amortization in 2024 from fully amortized assets. The increase in amortization of intangibles in 2023 compared to 2022 was primarily due to the amortization of the intangible assets acquired in the Spectrum Acquisition in the third quarter of 2023 partially offset by the absence of amortization in 2023 from fully amortized assets. See Note 14 to the Consolidated Financial Statements for additional information on intangible assets.

**Restructuring and Asset Related Charges - Net**

Restructuring and asset related charges - net were \$87 million, \$146 million and \$155 million for the years ended December 31, 2024, 2023 and 2022, respectively. For the years ended December 31, 2024 and 2023, DuPont recorded a pre-tax charge related to the 2023-2024 Restructuring Program in the amount of \$89 million and \$110 million, respectively. The activity for the year ended December 31, 2022 included a pre-tax charge related to the 2022 Restructuring Program in the amount of \$61 million of severance and related benefit costs and a \$94 million (\$65 million net of tax) impairment related to an equity method investment within the Electronics & Industrial segment. See Note 6 to the Consolidated Financial Statements for additional information. Inventory write-offs associated with restructuring programs are recorded to "Cost of Sales" in the Consolidated Statements of Operations.

**Goodwill Impairment Charges**

For the years ended December 31, 2024 and 2022, there were no goodwill impairment charges. For the year ended December 31, 2023, there was a goodwill impairment charge of \$804 million related to the Water & Protection segment.

**Acquisition, Integration and Separation Costs**

Acquisition, integration and separation costs were \$168 million, \$20 million and \$193 million for the years ended December 31, 2024, 2023 and 2022, respectively. Acquisition, integration and separation costs primarily consist of financial advisory, information technology, legal, accounting, consulting, other professional advisory fees and other contractual transaction payments. For the year ended December 31, 2024, these costs were primarily related to the Previously Intended Business Separations, including the Intended Electronics Separation. For the year ended December 31, 2023, these costs were primarily related to Spectrum Acquisition. For the year ended December 31, 2022, these costs were primarily related to the Terminated Intended Rogers Corporation Acquisition, specifically the \$162.5 million termination fee paid, the Biomaterials business unit divestiture and the Laird PM acquisition in 2021.

**Equity in Earnings of Nonconsolidated Affiliates**

The Company's share of the earnings of nonconsolidated affiliates was \$60 million, \$51 million and \$75 million for the years ended December 31, 2024, 2023 and 2022, respectively. The increase in earnings of nonconsolidated affiliates for the year ended December 31, 2024 and 2023 compared to the prior years is primarily due to higher earnings in the underlying nonconsolidated affiliates.

**Sundry Income (Expense) - Net**

Sundry income (expense) - net includes a variety of income and expenses such as foreign currency exchange gains or losses, interest income, dividends from investments, gains and losses on sales of investments, losses on debt extinguishments and assets, non-operating pension and other post-employment benefit plan credits or costs, interest rate swap mark-to-market adjustments, interest rate swap net interest settlement and certain litigation matters. Sundry income (expense) - net for the year ended December 31, 2024 was \$76 million of expense compared with \$102 million and \$191 million of income in the years ended December 31, 2023 and 2022, respectively.

The year ended December 31, 2024 included a \$138 million net loss related to interest rate swap activity including mark-to-market adjustments and a \$74 million loss on debt extinguishment partially offset by \$73 million of interest income. The decrease in interest income period over period is due to the decreased cash balance in 2024.

The year ended December 31, 2023 included interest income of \$155 million and a \$19 million net gain on divestiture and sales of other assets, primarily related to a land sale within the Water & Protection segment, partially offset by foreign currency exchange losses of \$73 million.

The year ended December 31, 2022 included interest income of \$50 million primarily due to higher cash on hand and marketable securities in the fourth quarter, income of \$37 million related to the second quarter sale of a land use right within the Water & Protection segment, a \$26 million gain on sale of the Biomaterials business unit recorded in the second quarter, income related to non-operating pension and other post-employment benefit plans of \$28 million and foreign currency exchange gains of \$15 million.

See Note 7 to the Consolidated Financial Statements for additional information.

**Interest Expense**

Interest expense was \$366 million, \$396 million, and \$492 million for the years ended December 31, 2024, 2023 and 2022, respectively. The decrease in interest expense in 2024 compared to 2023 is primarily due to the absence of interest expense on the \$300 million floating-rate long-term senior unsecured notes that matured in November 2023 and the partial redemption of \$650 million aggregate principal amount of the 2038 notes during the second quarter 2024, partially offset by a reduction in capitalized interest.

The decrease in interest expense from the 2023 compared to 2022, is primarily due to the redemption of \$2.5 billion fixed-rate long-term senior unsecured notes due in November 2023, the decrease in commercial paper borrowing and the absence of the structuring and the commitment fees on term loans related to the Terminated Intended Rogers Corporation Acquisition, partially offset by the increase in interest expense from the interest rate swap.

Refer to Note 15 to the Consolidated Financial Statements for additional information.

**Provision for (benefit from) Income Taxes on Continuing Operations**

The Company's effective tax rate fluctuates based on, among other factors, where income is earned and the level of income relative to tax attributes. For the year ended December 31, 2024, the Company's effective tax rate was 34.7 percent on pre-tax income from continuing operations of \$1,192 million. The effective tax rate for the year ended December 31, 2024, was principally driven by the geographic mix of earnings offset by the U.S. taxation of foreign operations as well as certain discrete tax expenses, including the settlement in the second quarter of an international tax audit for which the Company is partially indemnified. In addition, there was a \$103 million tax expense recorded in connection with an internal restructuring.

For the year ended December 31, 2023, the Company's effective tax rate was (5.8) percent on pre-tax income from continuing operations of \$504 million. The effective tax rate differential was principally the result of the non-tax-deductible goodwill impairment charge of \$804 million in the fourth quarter of 2023 partially offset by a \$324 million tax benefit recorded in connection with an internal restructuring.

For the year ended December 31, 2022, the Company's effective tax rate was 26.7 percent on pre-tax income from continuing operations of \$1,448 million. The effective tax rate differential was driven by the U.S tax effect of foreign earnings and dividends, geographic mix of earnings and the tax impacts of acquisition, integration, and separation costs.

The underlying factors affecting the Company's overall tax rate are summarized in Note 8 to the Consolidated Financial Statements.

## SEGMENT RESULTS

The revenues and certain expenses of the M&M Businesses are classified as discontinued operations in the historical periods. Certain expenses, including separation costs, of the M&M Businesses are classified as discontinued operations in the current period. In addition, the Auto Adhesives & Fluids, Multibase<sup>TM</sup> and Tedlar<sup>®</sup> product lines within the historical Mobility & Materials segment (the "Retained Businesses") are not included in the scope of the M&M Divestitures and are included in Corporate & Other.

The costs of the M&M Businesses that are classified as discontinued operations include only direct operating expenses incurred prior to the November 1, 2022 M&M Divestiture and prior to the November 1, 2023 Delrin<sup>®</sup> Divestiture. Indirect costs, such as those related to corporate and shared service functions previously allocated to the M&M Businesses, do not meet the criteria for discontinued operations and remain reported within continuing operations. A portion of these indirect costs related to activities the Company continues to undertake post-closing of the M&M Divestitures, and for which it is reimbursed ("Future Reimbursable Indirect Costs"). In addition, a portion of these indirect costs relate to activities the Company performs post the close of the Delrin<sup>®</sup> Divestiture and for which it is reimbursed. Future Reimbursable Indirect Costs are reported within continuing operations but are excluded from operating EBITDA as defined below. The remaining portion of these indirect costs are not subject to future reimbursement ("Stranded Costs"). Stranded Costs are reported within continuing operations in Corporate & Other and are included within Operating EBITDA.

On August 1, 2023, the Company completed the previously announced acquisition of Spectrum Plastics Group ("Spectrum") from AEA Investors (the "Spectrum Acquisition"). Spectrum is part of the Electronics & Industrial segment.

Effective as of January 1, 2024, Electronics & Industrial realigned certain product lines that comprise its business units (Industrial Solutions, Interconnect Solutions and Semiconductor Technologies) that are intended to optimize business operations across the segment leading to enhanced value for customers and cost savings. The net trade revenue table, within Note 5 to the Consolidated Financial Statements, has been recast for all periods presented to reflect the new structure. The realignment did not result in changes to total Electronics & Industrial segment net sales.

On July 28, 2024, DuPont completed the acquisition of Donatelle Plastics, LLC ("Donatelle Plastics"), (the "Donatelle Plastics Acquisition"). Donatelle Plastics is being integrated into Industrial Solutions within the Electronics & Industrial segment.

The Company's measure of profit/loss for segment reporting purposes is Operating EBITDA as this is the manner in which the Company's chief operating decision maker ("CODM") assesses performance and allocates resources. The Company defines Operating EBITDA as earnings (i.e., "Income from continuing operations before income taxes") before interest, depreciation, amortization, non-operating pension / other post-employment benefits ("OPEB") / charges, and foreign exchange gains / losses, excluding Future Reimbursable Indirect Costs, and adjusted for significant items.

## ELECTRONICS & INDUSTRIAL

The Electronics & Industrial segment is a leading provider of materials and solutions for the fabrication and packaging of semiconductors and integrated circuits and provides innovative solutions for thermal management and electromagnetic shielding as well as metallization processes for metal finishing, decorative, and industrial applications. The segment is a leading global supplier of differentiated materials and systems for a broad range of consumer electronics devices including mobile phones, computers, tablets, television monitors and other electronics applications used in a variety of industries. Electronics & Industrial is a leading provider of platemaking systems and photopolymer plates for the packaging graphics industry, digital printing inks and cutting-edge materials for the manufacturing of displays for organic light emitting diode ("OLED"). In addition, the segment produces innovative engineering polymer solutions, high performance parts, flexible packaging products, plastic and silicone extrusions, medical silicones, specialty lubricants and critical polymer-based components and devices for medical and other industrial markets.

Electronics & Industrial	For the Years Ended December 31,		
	2024	2023	2022
In millions			
Net sales	\$ 5,930	\$ 5,337	\$ 5,917
Operating EBITDA	\$ 1,717	\$ 1,472	\$ 1,836
Equity earnings	\$ 37	\$ 16	\$ 31

Electronics & Industrial	For the Years Ended December 31,	
	2024	2023
Percentage change from prior year		
<i>Change in Net Sales from Prior Period due to:</i>

Currency	(1)	(1)
Volume	8	(11)
Portfolio & other	6	2
Total	11 %	(10)%

### 2024 Versus 2023

Electronics & Industrial net sales were \$5,930 million for the year ended December 31, 2024, up 11 percent from \$5,337 million for the year ended December 31, 2023. Net sales increased due to an 8 percent increase in volume and a 6 percent increase in portfolio actions partially offset by a 2 percent decline in local price and product mix and a 1 percent unfavorable currency impact. Volume growth in Semiconductor Technologies and Interconnect Solutions was partially offset by declines in Industrial Solutions. Within Semiconductor Technologies, volume gains were driven by semiconductor demand recovery, primarily due to AI technology applications, advanced node transitions and higher China demand, as well as higher volume in OLED materials led by new product launches. Broad based volume growth in Interconnect Solutions driven by end-market recovery, market share gains and demand from AI-driven technology ramps. Volume declines in Industrial Solutions were driven by channel inventory destocking, primarily for Kalrez® and within biopharma markets. The portfolio impact reflects the August 2023 acquisition of Spectrum and the July 2024 acquisition of Donatelle Plastics. The unfavorable currency impact is primarily driven by the Japanese yen.

Operating EBITDA was \$1,717 million for the year ended December 31, 2024, up 17 percent compared with \$1,472 million for the year ended December 31, 2023 primarily due to volume growth, the impact of higher production rates in Semiconductor Technologies and Interconnect Solutions, savings from restructuring actions and the earnings contribution from the Spectrum and Donatelle Plastics acquisitions partially offset by higher variable compensation and select growth investments.

### 2023 Versus 2022

Electronics & Industrial net sales were \$5,337 million for the year ended December 31, 2023, down 10 percent from \$5,917 million for the year ended December 31, 2022. Net sales decreased due to an 11 percent volume decline and a 1 percent currency headwind offset by a 2 percent increase in portfolio. Volume declines in Semiconductor Technologies were driven by inventory destocking and reduced semiconductor fabrication utilization rates due to electronics demand weakness, led by China, slightly offset by increased demand for OLED materials. Volume declines in Interconnect Solutions related to decreased spending on consumer and industrial electronics and related channel inventory destocking, both led by China. Within Industrial Solutions, volume declines were driven by channel inventory destocking within electronic parts and biopharma markets and lower demand in printing and packaging markets. Local price and product mix gains in Semiconductor Technologies and Industrial Solutions, as a result of actions taken to offset cost inflation, were offset by declines in Interconnect Solutions, including the impact of lower pass-through metals prices. The unfavorable currency impact is primarily driven by the Japanese yen and Chinese yuan. The portfolio impact primarily reflects the August 1, 2023 acquisition of Spectrum.

Operating EBITDA was \$1,472 million for the year ended December 31, 2023, down 20 percent compared with \$1,836 million for the year ended December 31, 2022 primarily due to decreased sales volumes, the impact of reduced production rates to better align inventory with demand, slightly offset by the earnings associated with Spectrum.

## WATER & PROTECTION

The Water & Protection segment is a leading provider of engineered products and integrated systems for a number of industries including worker safety, water purification and separation, aerospace, energy, medical packaging and building materials. The segment satisfies the growing global needs of businesses, governments, and consumers for solutions that make life safer, healthier, and better. By uniting market-driven science with the strength of highly regarded brands, the segment strives to bring new products and solutions to solve customers' needs faster, better and more cost effectively.

<b>Water &amp; Protection</b>	<i>For the Years Ended December 31,</i>		
	<i>2024</i>	<i>2023</i>	<i>2022</i>
In millions			
Net sales	\$ 5,423	\$ 5,633	\$ 5,957
Operating EBITDA	\$ 1,360	\$ 1,388	\$ 1,431
Equity earnings	\$ 30	\$ 35	\$ 39

<b>Water &amp; Protection</b>	<i>For the Years Ended December 31,</i>	
	<i>2024</i>	<i>2023</i>
Percentage change from prior year		
<i>Change in Net Sales from Prior Period due to:</i>

Total	(4)%	(5)%

### 2024 Versus 2023

Water & Protection net sales were \$5,423 million for the year ended December 31, 2024, down 4 percent from \$5,633 million for the year ended December 31, 2023 due to a 2 percent decline in volume, and 1 percent declines related to local price and product mix and unfavorable currency impacts. Safety Solutions had volume declines mainly due to channel inventory destocking, primarily in medical packaging products within healthcare markets. Water Solutions volume declines were primarily due to distributor inventory destocking from weaker industrial demand in China. Shelter Solutions sales were relatively flat from mixed demand in construction markets. The unfavorable currency impact is primarily driven by the Japanese yen, and Chinese yuan, partially offset by the Euro.

Operating EBITDA was \$1,360 million for the year ended December 31, 2024, down 2 percent compared with \$1,388 million for the year ended December 31, 2023 driven by decreased volumes and higher variable compensation, partially offset by productivity and savings from restructuring actions.

### 2023 Versus 2022

Water & Protection net sales were \$5,633 million for the year ended December 31, 2023, down 5 percent from \$5,957 million for the year ended December 31, 2022 due to a 7 percent decline in volume and a 1 percent unfavorable currency impact, partially offset by a 3 percent increase in local price and product mix. Volume declines within Safety Solutions were due to channel inventory destocking, primarily in medical packaging. Shelter Solutions volume declines were driven by weak demand in construction markets including channel inventory destocking. Water Solutions volume declines were primarily due to distributor destocking and weaker industrial demand in China. Local price and product mix increased across all businesses and in all regions as the result of broad-based actions taken in the prior year to offset cost inflation. The unfavorable currency impact is primarily driven by the Chinese yuan and the Japanese yen.

Operating EBITDA was \$1,388 million for the year ended December 31, 2023, down 3 percent compared with \$1,431 million for the year ended December 31, 2022 driven by decreased sales volumes, the impact of reduced production rates and unfavorable currency impacts partially offset by net pricing gains. The currency impacts were primarily driven by the Chinese yuan and the Japanese yen.

### **Corporate & Other**

Corporate & Other includes sales and activity of the Retained Businesses including the Auto Adhesives & Fluids, Multibase™ and Tedlar® product lines. Related to the M&M Divestitures, Corporate & Other includes Stranded Costs and Future Reimbursable Indirect Costs. The results of Corporate & Other include the sales and activity of the Biomaterials (prior to its May 2022 divestiture) business units. Corporate & Other includes DuPont's equity interest in Derby Holdings Group related to the Delrin® Divestiture. Corporate & Other also includes certain enterprise and governance activities including non-allocated corporate overhead costs and support functions, leveraged services, non-business aligned litigation expenses and other costs not absorbed by reportable segments.

<b>Corporate &amp; Other</b> In millions	<i>For the Years Ended December 31,</i>		
	<i>2024</i>	<i>2023</i>	<i>2022</i>
Net sales	\$ 1,033	\$ 1,098	\$ 1,143
Operating EBITDA	\$ 67	\$ 82	\$ (6)
Equity earnings	\$ (7)	\$ —	\$ 5

### **2025 OUTLOOK**

For the full year 2025, the Company anticipates ongoing strength within semiconductor markets as well as more normalized sales patterns in China. Continued growth is expected in the markets served by Interconnect Solutions driven by improved consumer electronics demand and refresh cycles for devices in support of AI adoption. Within the healthcare markets, the Company anticipates growth acceleration in demand for medical devices along with continued demand stabilization for medical packaging applications and biopharma markets. In the markets served by Water, the Company expects increased demand to drive year over year volume growth. The Company anticipates stable demand within the markets served by the Company's other industrial-based product lines.

## LIQUIDITY & CAPITAL RESOURCES

The Company continually reviews its sources of liquidity and debt portfolio and may make adjustments to one or both to ensure adequate liquidity and increase the Company's optionality and financing efficiency as it relates to financing cost and balancing terms/maturities. The Company's primary source of incremental liquidity is cash flows from operating activities. Management expects the generation of cash from operations and the ability to access the debt capital markets and other sources of liquidity will continue to provide sufficient liquidity and financial flexibility to meet the Company's and its subsidiaries' obligations as they come due. However, DuPont is unable to predict the extent of macroeconomic related impacts which depend on uncertain and unpredictable future developments. In light of this uncertainty, the Company has taken steps to further ensure liquidity and capital resources, as discussed below.

In millions	December 31, 2024	December 31, 2023
<b>Cash and cash equivalents</b>	\$ 1,850	\$ 2,392
<b>Total debt</b>	\$ 7,171	\$ 7,800

The Company's cash and cash equivalents at December 31, 2024 and December 31, 2023 were \$1.9 billion and \$2.4 billion, respectively, of which \$1.1 billion at December 31, 2024 and \$1.3 billion at December 31, 2023 were held by subsidiaries in foreign countries, including United States territories. For each of its foreign subsidiaries, the Company makes an assertion regarding the amount of earnings intended for permanent reinvestment, with the balance available to be repatriated to the United States. The Company held no investments in marketable securities at December 31, 2024 and 2023. The decrease in cash and cash equivalents at December 31, 2024 compared to December 31, 2023 was due to cash used in the current year to fund the Q1 2024 ASR Transaction, the Donatelle Acquisition, partial redemption of 2038 Notes and general corporate purposes. Refer to subsequent paragraphs for further discussion of the drivers of the change in cash and cash equivalents.

Total debt at December 31, 2024 and 2023 was \$7.2 billion and \$7.8 billion, respectively. The decrease was primarily due to the partial redemption of \$650 million of 2038 Notes discussed below.

As of December 31, 2024, the Company is contractually obligated to make future cash payments of \$7.3 billion and \$4.0 billion associated with principal and interest, respectively, on debt obligations. Related to the principal, \$1.9 billion will be due in the next twelve months and the remainder will be due subsequent to 2025. The Company may address the maturity with cash on hand, issuance of commercial paper, utilizing existing credit facilities, accessing the debt capital markets or a combination of any of them. Related to interest, \$359 million will be due in the next twelve months and the remainder will be due subsequent to 2025. The majority of interest obligations will be due in 2030 or later.

In relation to the Company's fixed-to-floating interest rate swap agreements, there is a mandatory early termination date of December 15, 2025. The mark-to-market value on these swaps at December 31, 2024 is \$116 million. The final settlement amount will depend on movements in interest rates. Refer to Note 21 to the Consolidated Financial Statements for more information on the Company's interest rate swap agreements.

### *Capital Structure Actions*

In connection with the Previously Intended Business Separations, on June 5, 2024, DuPont issued a notice of redemption to the bond trustee with respect to a partial redemption of \$650 million aggregate principal amount of its 2038 Notes, in accordance with their terms. The partial redemption occurred on June 15, 2024, at the redemption price set forth in the indenture of the 2038 Notes. The Company funded the repayment with cash on hand. As a result of the early redemption of the debt, for the year ended December 31, 2024, the Company incurred a loss of approximately \$74 million, which consisted of the redemption premium, write-off of the deferred debt issuance costs and the basis adjustment from fair value hedge accounting on the 2022 Swaps associated with this borrowing. See Note 21 for further detail on the 2022 Swaps.

In connection with the Previously Intended Business Separations and continuing in light of the Intended Electronics Separation, DuPont is considering potentially repaying, redeeming, repurchasing, or exchanging some or all of its other senior notes, which could include redemptions, tender offers, open market purchases, privately negotiated transactions, or other transactions or a combination of any of them, which will be on pricing terms that are determined at the time of any such transaction. Such transactions will depend on liquidity considerations, contractual and legal restrictions, prevailing market conditions and other factors.

### *Revolving Credit Facilities*

The Company has entered a \$1.0 billion 364-day revolving credit facility in the second quarter of each calendar year beginning in 2022. In July 2022, the Company drew down \$600 million under its 2022 \$1 billion revolving credit facility in order to facilitate certain intercompany internal restructuring steps related to the M&M Divestiture. The Company repaid the borrowing in September 2022.

The following table summarizes the Company's credit facilities:

<b>Committed and Available Credit Facilities at December 31, 2024</b>					
In millions	Effective Date	Committed Credit	Credit Available	Maturity Date	Interest
Five-Year Revolving Credit Facility <sup>1</sup>	April 2022	\$ 2,500	\$ 2,484	April 2027	Floating Rate
2024 \$1B Revolving Credit Facility <sup>2</sup>	May 2024	1,000	1,000	May 2025	Floating Rate
Total Committed and Available Credit Facilities		\$ 3,500	\$ 3,484		

1. The Five-Year Revolving Credit Facility is generally expected to remain undrawn and serve as a backstop to the Company's commercial paper and letter of credit issuance.

2. The 2024 \$1B Revolving Credit Facility is available to be used for general corporate purposes. There were no drawdowns under the facility during the year ended December 31, 2024. The Company intends to enter into a new revolving credit facility in the second quarter 2025.

### *Repayment of Senior Notes*

In November 2022, the Company redeemed in full \$2.5 billion of the 2023 Notes at a redemption price equal to 100 percent of the aggregated principal amount plus the accrued and unpaid interest. The redemption was funded with the net proceeds from the M&M Divestiture.

In November 2023, the \$300 million Floating Rate Senior Unsecured Notes matured and was repaid at par plus the accrued and unpaid interest. The Company funded the repayment with cash on hand.

### *Terminated Intended Rogers Acquisition*

In connection with the Terminated Intended Rogers Acquisition, on November 22, 2021, the Company entered into a two-year senior unsecured committed term loan agreement in the amount of \$5.2 billion. In October 2022, the facility was amended to extend the lending commitment (as amended the "Amended 2021 Term Loan Facility"). On November 1, 2022, the M&M Divestiture closed and, therefore, based on the terms of the Amended 2021 Term Loan Facility, the commitment was terminated. Separately, on November 1, 2022 the Company announced the termination of the previously announced agreement to acquire the outstanding shares of Rogers. The Company paid Rogers a termination fee of \$162.5 million in accordance with the agreement on November 2, 2022. The termination fee was paid with cash on hand and recorded in the "Acquisition, integration and separation costs" within the Consolidated Statement of Operations.

### *Commercial Paper*

In April 2022, DuPont downsized its authorized commercial paper program from \$3.0 billion to \$2.5 billion (the "DuPont Commercial Paper Program"). At December 31, 2024 and 2023, the Company had no issuances outstanding of commercial paper.

### *Donatelle Plastics Acquisition*

On July 28, 2024, DuPont completed the acquisition of Donatelle Plastics, LLC for a net purchase price of \$365 million, which includes the estimated fair value for a contingent earn-out liability of \$40 million. The Company utilized existing cash balances to complete the acquisition.

### *Spectrum Acquisition*

On August 1, 2023, the Company completed the Spectrum Acquisition for a net purchase price of approximately \$1,781 million, including a net upward adjustment of approximately \$43 million for acquired cash and net working capital, among other items. The Company utilized existing cash balances to complete the acquisition.

### *Water District Settlement Agreement*

The Company utilized the MOU escrow account balance of approximately \$100 million and cash on hand to make its \$400 million contribution to the Water District Settlement Fund. The judgment became final in April 2024, therefore the \$400 million contribution, plus interest, to the Water District Settlement Fund is reflected as a cash outflow within cash flows from discontinued operations during the year ended December 31, 2024. See Note 16 to the Consolidated Financial Statements for additional information.

### Delrin® Divestiture

On November 1, 2023, the Company closed the sale of the Delrin® business to TJC LP ("TJC"), (the "Delrin® Divestiture"). DuPont received cash proceeds of approximately \$1.28 billion, which includes certain customary transaction adjustments, a note receivable of \$350 million and acquired a 19.9 percent non-controlling equity interest in Derby Group Holdings LLC, ("Derby"). The customary transaction adjustments include \$27 million of cash transferred with the Delrin® Divestiture for which DuPont was reimbursed at closing resulting in net cash proceeds of \$1.25 billion. TJC, through its subsidiaries, holds the 80.1 percent controlling interest in Derby. See Note 4 to the Consolidated Financial Statements for additional information.

### Credit Ratings

The Company's credit ratings impact its access to the debt capital markets and cost of capital. The Company remains committed to maintaining a strong financial position with a balanced financial policy focused on maintaining a strong investment-grade rating and driving shareholder value and remuneration. At January 31, 2024, DuPont's credit ratings were as follows:

Credit Ratings	Long-Term Rating	Short-Term Rating	Outlook
Standard & Poor's	BBB+	A-2	Watch Negative
Moody's Investors Service	Baa1	P-2	Negative
Fitch Ratings	BBB+	F-2	Watch Negative

The Company's indenture covenants include customary limitations on liens, sale and leaseback transactions, and mergers and consolidations, subject to certain limitations. The senior unsecured notes (the "2018 Senior Notes") also contain customary default provisions. The Five-Year Revolving Credit Facility and 2024 \$1B Revolving Credit Facility contain a financial covenant, typical for companies with similar credit ratings, requiring that the ratio of Total Indebtedness to Total Capitalization for the Company and its consolidated subsidiaries not exceed 0.60. At December 31, 2024, the Company was in compliance with this financial covenant.

### Summary of Cash Flows

The Company's cash flows from operating, investing and financing activities, as reflected in the Consolidated Statements of Cash Flows, are summarized in the following table.

Cash Flow Summary	2024	2023	2022
(In millions) For the years ended December 31,			
Cash provided by (used for) from continuing operations:			
Operating activities	\$ 2,321	\$ 2,191	\$ 1,249
Investing activities	\$ (849)	\$ 172	\$ 9,004
Financing activities	\$ (1,847)	\$ (2,989)	\$ (7,646)
Cash used for discontinued operations	\$ (474)	\$ (306)	\$ (763)
Effect of exchange rate changes on cash, cash equivalents and restricted cash	\$ (62)	\$ (37)	\$ (148)

### Cash Flows provided by Operating Activities - Continuing Operations

Cash provided by operating activities of continuing operations was \$2,321 million, \$2,191 million and \$1,249 million for the years ended December 31, 2024, 2023 and 2022, respectively. Cash provided by operating activities increased in 2024 compared with 2023, primarily from higher earnings the net impact from changes in variable compensation payouts and accruals partially offset by an increase in cash used by net working capital. Cash provided by operating activities increased in 2023 compared with 2022, primarily from improvements in working capital.

The table below reflects net working capital on a continuing operations basis:

Net Working Capital	December 31, 2024	December 31, 2023 <sup>1</sup>
In millions (except ratio)		
Current assets	\$ 6,364	\$ 7,514
Current liabilities	4,801	3,098
Net working capital	\$ 1,563	\$ 4,416
Current ratio	1.33:1	2.43:1

1. Net working capital has been presented to exclude the assets and liabilities related to the Delrin® Divestiture. The assets and liabilities related to the Delrin® Divestiture are presented as assets of discontinued operations and liabilities of discontinued operations, respectively.

#### *Cash Flows used in/ provided by Investing Activities - Continuing Operations*

Cash used in investing activities of continuing operations in 2024 was \$849 million compared to cash provided by investing activities of \$172 million and \$9,004 million in 2023 and 2022, respectively. The change in investing activities in 2024 versus the 2023 is primarily attributable to the absence of proceeds received from sales and maturity of investments and proceeds from sales of property and business partially offset by the impact of the change in cash paid for acquisition in each year.

The decrease in cash provided from investing activities in 2023 versus the 2022 is primarily attributable to the absence of cash proceeds received from the M&M Divestiture and cash paid for the Spectrum acquisition, partially offset by proceeds from the Delrin® Divestiture, net of cash divested and the absence of cash used in the purchase of investments and an increase in cash provided by the proceeds from sales and maturities of investments that was previously invested and reflected as a cash outflow in 2022. Cash provided by investing activities in 2022 is primarily attributable to the cash proceeds received from the M&M Divestiture partially offset by purchases of investments.

Capital expenditures totaled \$579 million, \$619 million and \$662 million for the years ended December 31, 2024, 2023 and 2022, respectively. The Company expects 2025 capital expenditures to be about \$660 million which includes separation-related capital expenditures. The Company may adjust its spending throughout the year as economic conditions develop.

#### *Cash Flows used for Financing Activities - Continuing Operations*

Cash used for financing activities of continuing operations in 2024 was \$1,847 million compared to cash used for financing activities of \$2,989 million and \$7,646 million in 2023 and 2022, respectively. The decrease in cash used in financing activities in 2024 versus the 2023 is primarily attributable to the decrease in share buyback activities partially offset by the partial redemption of the 2038 Notes. The decrease in 2023 versus the 2022 is primarily attributable to the decrease in share buyback activities and decrease in the payment of long-term debt. Cash used for financing activities in 2022 primarily driven by the share buyback activities and the redemption of 2023 Notes.

#### *Cash Flows used for Discontinued Operations*

Cash used for discontinued operations was \$474 million compared with \$306 million in the same period last year. The cash used from discontinued operations includes MOU activity, refer to Note 4 to the Consolidated Financial Statements for additional information. The activity for the year ended December 31, 2023, Consolidated Statements of Cash Flows present the cash flows of Delrin® as discontinued operations. The activity for the year ended December 31, 2022, Consolidated Statements of Cash Flows present the financial results of the M&M Businesses as discontinued operations.

#### **Dividends**

The following table provides dividends paid to common shareholders for the years ended December 31, 2024, 2023 and 2022:

<b>Dividends Paid</b>	<i>December 31,</i>	<i>December 31,</i>	<i>December 31,</i>
In millions	2024	2023	2022
Dividends paid, per common share	\$ 1.52	\$ 1.44	\$ 1.32
Dividends paid to common stockholders	\$ 635	\$ 651	\$ 652

#### **Share Buyback Programs**

On February 8, 2022, the Company's Board of Directors approved the 2022 Share Buyback Program authorizing the repurchase and retirement of up to \$1 billion of common stock with a termination date of March 31, 2023. At the end of the third quarter of 2022, the Company had repurchased and retired a total of 11.9 million shares for \$750 million under the 2022 Share Buyback Program.

In November 2022, DuPont's Board of Directors approved the \$5B Share Buyback Program authorizing the repurchase and retirement of up to \$5 billion of common stock with a termination date of June 30, 2024.

In the fourth quarter 2022, DuPont entered into ASR agreements with three financial counterparties (the "\$3.25B ASR Transaction"). DuPont paid with cash on hand an aggregate of \$3.25 billion to the counterparties and received initial deliveries of 38.8 million shares in aggregate of DuPont common stock, which were retired immediately and recorded as a reduction to retained earnings of \$2.6 billion. The \$3.25B ASR Transaction was completed during the third quarter 2023 with DuPont receiving and retiring an additional 8.0 million shares of DuPont common stock. In connection with the completion the remaining \$613 million based on the market price of the shares at the time of delivery was settled as a forward contract indexed to DuPont common stock at the time of settlement, classified within stockholders' equity. At the completion of the \$3.25B ASR Transaction, the Company had repurchased and retired a total of 46.8 million shares at an average price of \$69.44 per share.

In the third quarter 2023, DuPont entered into accelerated share repurchase agreements with three financial counterparties to repurchase an aggregate of \$2.0 billion of common stock (the "\$2B ASR Transaction"). DuPont paid an aggregate of \$2.0 billion to the counterparties and received initial deliveries of 21.2 million shares in aggregate of DuPont common stock, which were retired immediately and recorded as a reduction to retained earnings of \$1.6 billion. The accelerated repurchase agreements under the \$2B ASR Transaction were settled during the first quarter of 2024. The settlement resulted in the delivery of 6.7 million additional shares of DuPont common stock, which were retired immediately and will be recorded as a reduction of retained earnings in the first quarter of 2024. In total, the Company repurchased 27.9 million shares at an average price of \$71.67 per share under the \$2B ASR Transaction. The completion of the \$2B ASR Transaction completes the \$5B Share Buyback Program.

In the first quarter 2024, the Company's Board of Directors approved a new share repurchase program authorizing the repurchase and retirement of up to \$1 billion of common stock ("the \$1B Share Buyback Program"). Under the \$1B Share Buyback Program, repurchases may be made from time to time on the open market at prevailing market prices or in privately negotiated transactions off market, including additional ASR agreements in accordance with applicable federal securities laws. The \$1B Share Buyback Program terminates on June 30, 2025, unless extended or shortened by the Board of Directors. The timing and number of shares to be repurchased will depend on factors such as the share price, economic and market conditions, and corporate and regulatory requirements. At this time and with the continued focus on the Intended Electronic Separation, the Company does not currently plan to complete the remaining authorization under the \$1B Share Buyback Program.

Also in the first quarter 2024, DuPont entered an ASR agreement with one counterparty for the repurchase of about \$500 million of common stock ("Q1 2024 ASR Transaction"). DuPont paid an aggregate of \$500 million to the counterparty and received initial deliveries of 6.0 million shares of DuPont common stock, which were retired immediately and recorded as a reduction of retained earnings of \$400 million. The remaining \$100 million was evaluated as an unsettled forward contract indexed to DuPont common stock, classified within stockholders' equity as of March 31, 2024.

In the second quarter of 2024, the Q1 2024 ASR Transaction was completed. The settlement resulted in the delivery of approximately 1.0 million additional shares of DuPont common stock, which were retired immediately and recorded as a reduction of retained earnings of \$72 million. In total, the Company repurchased 6.9 million shares at an average price of \$71.96 per share under the Q1 2024 ASR Transaction.

The Inflation Reduction Act of 2022 introduced a 1 percent nondeductible excise tax imposed on the net value of certain stock repurchases made after December 31, 2022. The net value is determined by the fair market value of the stock repurchased during the tax year, reduced by the fair market value of stock issued during the tax year. The Company recorded total excise tax of \$8 million and \$21 million, respectively, as a reduction to retained earnings for the years ended December 31, 2024 and 2023.

See Part II, Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities and Note 18 to the Consolidated Financial Statements, for additional information.

### **Pension and Other Post-Employment Plans**

The Company's funding policy is to contribute to defined benefit pension plans based on pension funding laws and local country requirements. Contributions exceeding funding requirements may be made at the Company's discretion. The Company expects to contribute approximately \$56 million to its pension plans in 2025. The amount and timing of the Company's actual future contributions will depend on applicable funding requirements, discount rates, investment performance, plan design, and various other factors, separations and distributions. See Note 19 to the Consolidated Financial Statements for additional information concerning the Company's pension plans.

As of December 31, 2024, the Company is contractually obligated to make future cash contributions of \$562 million related to pension and other post-employment benefit plans. \$56 million will be due in the next twelve months and the remainder will be due subsequent to 2025 with the majority due subsequent to 2029.

### **Restructuring**

In December 2023, the Company approved targeted restructuring actions to capture near-term cost reductions due to macroeconomic factors as well as to further simplify certain organizational structures following the Spectrum acquisition and Delrin® Divestiture (the "2023-2024 Restructuring Program"). For the years ended December 31, 2023 through December 31, 2024, DuPont recorded a pre-tax charge related to the 2023-2024 Restructuring Program in the amount of \$199 million, recognized in "Restructuring and asset related charges - net" in the Company's Consolidated Statements of Operations, comprised of \$114 million of severance and related benefit costs and asset related charges of \$85 million. At December 31, 2024, total liabilities related to the 2023-2024 Restructuring Program were \$47 million for severance and related benefit costs,

recognized in "Accrued and other current liabilities" in the Consolidated Balance Sheets. Inventory write-offs for plant line closures in connection with the 2023-2024 Restructuring Program were \$25 million in "Cost of Sales" within the Consolidated Statements of Operations for the year ended December 31, 2024.

In October 2022, the Company approved targeted restructuring actions to capture near-term cost reductions and to further simplify certain organizational structures following the M&M Divestitures (the "2022 Restructuring Program"). For the years ended December 31, 2023 through December 31, 2024, DuPont recorded a pre-tax charge related to the 2022 Restructuring Program in the amount of \$94 million, recognized in "Restructuring and asset related charges - net" in the Company's Consolidated Statements of Operations, comprised of severance and related benefit costs. At December 31, 2024, total liabilities related to the 2022 Restructuring Program were \$1 million for severance and related benefit costs, recognized in "Accrued and other current liabilities" in the Consolidated Balance Sheets. Actions related to the 2022 Restructuring Program are substantially complete.

See Note 6 to the Consolidated Financial Statements for more information on the Company's restructuring programs.

### **Other Off-balance Sheet Arrangements**

#### *The MOU Cost Sharing Agreement*

In connection with the cost sharing arrangement entered into as part of the MOU, the companies agreed to establish an escrow account to support and manage potential future eligible PFAS costs. Subject to the terms of the arrangement, contributions to the escrow account will be made annually by Chemours, DuPont and Corteva through 2028. Over such period, Chemours will deposit a total of \$500 million into the account and DuPont and Corteva, together, will deposit an additional \$500 million pursuant to the terms of their existing Letter Agreement. DuPont's aggregate escrow deposits of \$35 million at December 31, 2024, are reflected in "Restricted cash and cash equivalents - noncurrent" on the Consolidated Balance Sheet.

As of June 30, 2023, DuPont had deposited an aggregate of \$100 million into the MOU Escrow Account all of which it used to fund in part its \$400 million contribution to the Water District Settlement Fund. The judgment became final in April 2024, therefore \$400 million contribution, plus interest, to the Water District Settlement Fund is reflected as a cash outflow within cash flows from discontinued operations during the year ended December 31, 2024. See Note 16 to the Consolidated Financial Statements for more information.

As of December 31, 2024, the Company expects to make cash payments related to qualified PFAS spend of \$30 million in the next twelve months. Additional information regarding the MOU and funding of the escrow account can be found in Note 16 to the Consolidated Financial Statements.

#### *Other Contractual Obligations*

Purchase obligations represents enforceable and legally binding agreements in excess of \$1 million to purchase goods or services that specify fixed or minimum quantities; fixed minimum or variable price provisions; and the approximate timing of the agreement. As of December 31, 2024, the Company is contractually obligated to make future cash payments of \$96 million related to purchase obligations, of which \$48 million will be due in the next twelve months and the remainder will be due subsequent to 2025.

Lease obligations represents future finance and operating lease payments. As of December 31, 2024, obligations of future lease payments are \$469 million, of which \$97 million will be due in the next twelve months and remainder will be due subsequent to 2025.

Environmental remediation obligations represents costs for remediation and restoration with respect to environmental matters and Non-PFAS clean-up responsibilities. As of December 31, 2024, the Company is contractually obligated to make future cash payments of \$129 million, of which \$18 million will be due in the next twelve months and remainder will be due subsequent to 2025. See Note 16 to the Consolidated Financial Statements for more information.

Other miscellaneous obligations includes liabilities related to deferred compensation and other noncurrent liabilities. As of December 31, 2024, the Company is contractually obligated to make future cash payments of \$111 million related to other miscellaneous obligations, the majority of which is due subsequent to 2025.

## RECENT ACCOUNTING PRONOUNCEMENTS

See Note 2 to the Consolidated Financial Statements for a description of recent accounting pronouncements.

## CRITICAL ACCOUNTING ESTIMATES

The Company's significant accounting policies are more fully described in Note 1 to the Consolidated Financial Statements. Management believes that the application of these policies on a consistent basis enables the Company to provide the users of the financial statements with useful and reliable information about the Company's operating results and financial condition.

The preparation of the Consolidated Financial Statements in conformity with generally accepted accounting principles ("GAAP") in the United States of America requires management to make estimates and assumptions that affect the reported amounts, including, but not limited to, receivable and inventory valuations, impairment of tangible and intangible assets, long-term employee benefit obligations, income taxes, restructuring liabilities, environmental matters and litigation. Management's estimates are based on historical experience, facts and circumstances available at the time and various other assumptions that are believed to be reasonable. The Company reviews these matters and reflects changes in estimates as appropriate. Management believes that the following represent some of the more critical judgment areas in the application of the Company's accounting policies which could have a material effect on the Company's financial position, liquidity or results of operations.

### *Pension Plans and Other Post-Employment Benefits*

Accounting for employee benefit plans involves numerous assumptions and estimates. Discount rate and expected return on plan assets are two critical assumptions in measuring the cost and benefit obligation of the Company's pension plans. Management reviews these two key assumptions when plans are re-measured. These and other assumptions are updated periodically to reflect the actual experience and expectations on a plan specific basis as appropriate. As permitted by GAAP, actual results that differ from the assumptions are accumulated on a plan-by-plan basis and to the extent that such differences exceed 10 percent of the greater of the plan's benefit obligation or the applicable plan assets, the excess is amortized over the average remaining service period of active employees or the average remaining life expectancy of the inactive participants if all or almost all of a plan's participants are inactive.

For the majority of the benefit plans, the Company utilizes the Aon AA corporate bond yield curves to determine the discount rate, applicable to each country, at the measurement date.

The Company establishes strategic asset allocation percentage targets and appropriate benchmarks for significant asset classes in accordance with the laws and practices of those countries. Where appropriate, asset-liability studies are also taken into consideration. For plans, the long-term expected return on plan assets pension expense is determined using the fair value of assets.

The following table highlights the potential impact on the Company's pre-tax earnings due to changes in certain key assumptions with respect to the Company's pension plans based on assets and liabilities on a continuing operations basis at December 31, 2024:

<b>Pre-tax Earnings Benefit (Charge)</b>	<b>1/4 Percentage Point Increase</b>	<b>1/4 Percentage Point Decrease</b>
<i>(Dollars in millions)</i>		
Discount rate	\$ (1)	\$ 1
Expected rate of return on plan assets	5	(5)

Additional information with respect to pension plans, liabilities and assumptions is discussed under "Long-term Employee Benefits" and in Note 19 to the Consolidated Financial Statements.

### *Legal Commitments and Contingencies*

The Company's results of operations could be affected by significant litigation adverse to the Company, including product liability claims, patent infringement and antitrust claims, and claims for third-party property damage or personal injury stemming from alleged environmental torts. The Company records accruals for legal matters, including its obligations under the MOU as impacted by the Letter Agreement, when the information available indicates that it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Management makes adjustments to these accruals to reflect the impact and status of negotiations, settlements, rulings, advice of counsel and other information and events that may pertain to a particular matter. Predicting the outcome of claims and lawsuits and estimating related costs and exposure involves substantial uncertainties that could cause actual costs to vary materially from estimates. In making determinations of likely outcomes of litigation matters, management considers many factors. These factors include, but are not limited to, the nature of specific

claims including unasserted claims, the Company's experience with similar types of claims, the jurisdiction in which the matter is filed, input from outside legal counsel, the likelihood of resolving the matter through alternative dispute resolution mechanisms, and the matter's current status. Considerable judgment is required in determining whether to establish a litigation accrual when an adverse judgment is rendered against the Company in a court proceeding. In such situations, the Company will not recognize a loss if, based upon a thorough review of all relevant facts and information, management believes that it is probable that the pending judgment will be successfully overturned on appeal. A detailed discussion of significant litigation matters is contained in Note 16 to the Consolidated Financial Statements.

#### *Income Taxes*

The breadth of the Company's operations and the global complexity of tax regulations require assessments of uncertainties and judgments in estimating taxes the Company will ultimately pay. The final taxes paid are dependent upon many factors, including negotiations with taxing authorities in various jurisdictions, outcomes of tax litigation and resolution of disputes arising from federal, state and international tax audits in the normal course of business. The resolution of these uncertainties may result in adjustments to the Company's tax assets and tax liabilities. It is reasonably possible that changes to the Company's global unrecognized tax benefits could be significant; however, due to the uncertainty regarding the timing of completion of audits and the possible outcomes, a current estimate of the range of increases or decreases that may occur within the next twelve months cannot be made. The Company has ongoing federal, state and international income tax audits in various jurisdictions and evaluates uncertain tax positions that may be challenged by local tax authorities. The impact, if any, of these audits to the Company's unrecognized tax benefits is not estimable.

Deferred income taxes result from differences between the financial and tax basis of the Company's assets and liabilities and are adjusted for changes in tax rates and tax laws when changes are enacted. Valuation allowances are recorded to reduce deferred tax assets when it is more likely than not that a tax benefit will not be realized. Significant judgment is required in evaluating the need for and magnitude of appropriate valuation allowances against deferred tax assets. The realization of these assets is dependent on generating future taxable income, as well as successful implementation of various tax planning strategies. For example, changes in facts and circumstances that alter the probability that the Company will realize deferred tax assets could result in recording a valuation allowance, thereby reducing the deferred tax asset and generating a deferred tax expense in the relevant period. In some situations, these changes could be material.

At December 31, 2024, the Company had a net deferred tax liability balance of \$669 million, net of a valuation allowance of \$772 million. Realization of deferred tax assets is expected to occur over an extended period of time. As a result, changes in tax laws, assumptions with respect to future taxable income, and tax planning strategies could result in adjustments to deferred tax assets. See Note 8 to the Consolidated Financial Statements for additional details related to the deferred tax liability balance.

The Inflation Reduction Act of 2022 ("IRA") was signed into law on August 16, 2022 and is effective to applicable corporations beginning in 2023. The IRA introduced a new 15 percent corporate alternative minimum tax ("CAMT"), based on adjusted financial statement income of certain large corporations. Applicable corporations will be allowed to claim a credit for the minimum tax paid against regular tax in future years. The Company is an applicable corporation subject to the CAMT requirements however, the Company did not incur a CAMT liability for 2024 and 2023. The IRA also established an excise tax that imposes a 1 percent surcharge on stock repurchases, effective January 1, 2023. Refer to Note 18 to the Consolidated Financial Statements for further information on the 1 percent surcharge on stock repurchases.

#### *Assessments of Long-Lived Assets and Goodwill*

Assessment of the potential impairment of goodwill, other intangible assets, property, plant and equipment, investments in nonconsolidated affiliates, and other assets is an integral part of the Company's normal ongoing review of operations. Testing for potential impairment of these assets is significantly dependent on numerous assumptions and reflects management's best estimates at a particular point in time. The dynamic economic environments in which the Company's diversified product lines operate, and key economic and product line assumptions with respect to projected selling prices, market growth and inflation rates, can significantly affect the outcome of impairment tests. Estimates based on these assumptions may differ significantly from actual results. Changes in factors and assumptions used in assessing potential impairments can have a significant impact on the existence and magnitude of impairments, as well as the time in which such impairments are recognized. In addition, the Company continually reviews its diverse portfolio of assets to ensure they are achieving their greatest potential and are aligned with the Company's growth strategy. Strategic decisions involving a particular group of assets may trigger an assessment of the recoverability of the related assets. Such an assessment could result in impairment losses.

The Company performs its annual goodwill impairment testing during the fourth quarter, or more frequently when events or changes in circumstances indicate that the fair value is below carrying value, at the reporting unit level which is defined as the operating segment or one level below the operating segment. One level below the operating segment, or component, is a business in which discrete financial information is available and regularly reviewed by segment management. The Company aggregates certain components into reporting units based on economic similarities. The Company has eight reporting units.

For purposes of goodwill impairment testing, the Company has the option to first perform qualitative testing to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value. The qualitative evaluation is an assessment of factors, including reporting unit or asset specific operating results and cost factors, as well as industry, market and macroeconomic conditions, to determine whether it is more likely than not that the fair value of a reporting unit or asset is less than the respective carrying amount, including goodwill. If the Company chooses not to complete a qualitative assessment for a given reporting unit or if the initial assessment indicates that it is more likely than not that the carrying value of a reporting unit exceeds its estimated fair value, additional quantitative testing is required.

If additional quantitative testing is performed, an impairment loss is recognized when the amount by which the carrying value of the reporting unit exceeds its fair value, limited to the amount of goodwill at the reporting unit. The Company determines fair values for each of the reporting units using a combination of the income approach and market approach.

Under the income approach, fair value is determined based on the present value of estimated future cash flows, discounted at an appropriate risk-adjusted rate. The Company uses internal forecasts to estimate future cash flows and includes an estimate of long-term future growth rates based on its most recent views of the long-term outlook for each reporting unit. Discounted cash flow valuations are completed using the following key assumptions, some of which are considered significant, including Level 3 unobservable inputs: projected revenue growth, EBITDA margin, capital expenditures, weighted average cost of capital, terminal growth rate, and the tax rate. These key assumptions are determined through evaluation of the Company as a whole, underlying business fundamentals and industry risk. The Company derives its discount rates using a capital asset pricing model and analyzing published rates for industries relevant to its reporting units to estimate the cost of equity financing. The Company uses discount rates that are commensurate with the risks and uncertainty inherent in the respective reporting units and in its internally developed forecasts.

Under the market approach, the Company applies the Guideline Public Company Method ("GPCM") utilizing Level 3 unobservable inputs. Selected peer sets are based on close competitors, publicly traded companies and reviews of analysts' reports, public filings, and industry research. In selecting the EBITDA multiples and determining the fair value, the Company considers the size, growth, and profitability of each reporting unit versus the relevant guideline public companies. When applicable, third-party purchase offers may be utilized to measure fair value.

Estimating the fair value of reporting units requires the use of estimates and significant judgments that are based on a number of factors including actual operating results. It is reasonably possible that the judgments and estimates described above could change in future periods.

#### *Goodwill Impairment Testing at October 1, 2024*

In the fourth quarter of 2024 at October 1, the Company performed its annual goodwill impairment testing by applying the qualitative assessment to seven of its reporting units and the quantitative assessment to one reporting unit. The Company considered various qualitative factors that would have affected the estimated fair value of the reporting units, and the results of the qualitative assessments indicated that it is not more likely than not that the fair values of the reporting units were less than their carrying values. For the reporting units tested under the quantitative assessment, the results indicated that the estimated fair values of the reporting units exceeded its carrying values. The estimated fair value of the Protection reporting unit within Water & Protection exceeded its carrying value by approximately 5 percent. Given this level of fair value, the reporting unit is sensitive to changes in the significant assumptions used in the analysis, including projected revenue growth, EBITDA margin, weighted average cost of capital, terminal growth rate and tax rate.

## LONG-TERM EMPLOYEE BENEFITS

The Company has various obligations to its employees and retirees. The Company maintains retirement-related programs in many countries that have a long-term impact on the Company's earnings and cash flows. These plans are typically defined benefit pension plans. The Company has a few medical, dental and life insurance benefits for employees, pensioners and survivors and for employees (other post-employment benefits or "OPEB" plans).

Pension coverage for employees of the Company's non-U.S. consolidated subsidiaries is provided, to the extent deemed appropriate, through separate plans. The Company regularly explores alternative solutions to meet its global pension obligations in the most cost-effective manner possible as demographics, life expectancy and country-specific pension funding rules change. Where permitted by applicable law, the Company reserves the right to change, modify or discontinue its plans that provide pension, medical, dental and life insurance. Benefits under defined benefit pension plans are based primarily on years of service and employees' pay near retirement.

Pension benefits are paid primarily from trust funds established to comply with applicable laws and regulations of the sovereign country in which the pension plan operates. Unless required by law, the Company does not make contributions that are in excess of tax-deductible limits. The actuarial assumptions and procedures utilized are reviewed periodically by the plans' actuaries to provide reasonable assurance that there will be adequate funds for the payment of benefits. Thus, there is not necessarily a direct correlation between pension funding and pension expense. In general, however, improvements in plans' funded status tends to moderate subsequent funding needs.

The Company contributed \$5 million to its funded pension plans for the year ended December 31, 2024. The Company contributed \$9 million and \$23 million to its funded pension plans for the years ended December 31, 2023 and 2022, respectively. All values within this Long-Term Employee Benefits section are inclusive of balances and activity associated with discontinued operations.

The Company does maintain one U.S. pension benefit plan. This plan is a separate unfunded plan and these benefits are paid to employees from operating cash flows. The Company's remaining pension plans with no plan assets are paid from operating cash flows. The Company made benefit payments of \$46 million, \$57 million, and \$56 million to its unfunded plans, including OPEB plans, for the years ended December 31, 2024, 2023 and 2022, respectively.

In 2025, the Company expects to contribute approximately \$56 million to its funded pension plans and its remaining plans with no plan assets. The amount and timing of actual future contributions will depend on applicable funding requirements, discount rates, investment performance, plan design, and various other factors.

The Company's income can be affected by pension and defined contribution charges/(benefits) as well as OPEB costs. The following table summarizes the extent to which the Company's income for the years ended December 31, 2024, December 31, 2023 and December 31, 2022 was affected by pre-tax charges related to long-term employee benefits, which include defined contributions and net periodic benefit costs (credits):

<i>In millions</i>	<i>For the Years Ended</i>		
	<i>December 31, 2024</i>	<i>December 31, 2023</i>	<i>December 31, 2022</i>
Long-term employee benefit plan charges	\$ 123	\$ 159	\$ 138

The above charges (benefit) for pension and OPEB are determined as of the beginning of each period. See "Pension Plans and Other Post-Employment Benefits" under the Critical Accounting Estimates section of this report for additional information on determining annual expense.

For 2025, long term employee benefit expense from continuing operations is expected to increase by about \$14 million compared to 2024. The increase is mainly due to higher expected net periodic benefit costs.

## ENVIRONMENTAL MATTERS

The Company operates global manufacturing facilities that are subject to a broad array of environmental laws and regulations. Such rules are subject to change by the implementing governmental agency, and the Company monitors these changes closely. Company policy requires that all operations meet or exceed legal and regulatory requirements.

In addition, the Company implements various voluntary programs to reduce its environmental footprint, which include initiatives to reduce air emissions, and greenhouse gas (GHG) emissions, minimize the generation of hazardous waste, decrease the volume of water used and discharged, increase the efficiency of energy use, and seek to avoid, eliminate or minimize substances of concerns.

The Company incurs, and expects to incur for the foreseeable future, costs to comply with complex environmental laws and regulations, as well as internal voluntary programs and goals, such as DuPont's sustainability strategy. Based on existing facts and circumstances, management does not believe that year-over-year changes, if any, in environmental expenses charged to current operations will have a material impact on the Company's financial position, liquidity or results of operations. Annual expenditures in the near term are not expected to vary significantly from the range of such expenditures experienced in the past few years. Longer term, expenditures are subject to considerable uncertainty and may fluctuate significantly.

Public policies may bring higher operating costs as well as greater revenue and margin opportunities. Legislative efforts to control or limit GHG emissions could affect the Company's energy source and supply choices as well as increase the cost of energy and raw materials derived from fossil fuels. Such efforts are also anticipated to provide the business community with greater certainty for the regulatory future, help guide investment decisions, and drive growth in demand for low-carbon and energy-efficient products, technologies, and services. Similarly, demand is expected to grow for products that facilitate adaptation to a changing climate. However, the current unsettled policy environment in the U.S., where many company facilities are located, adds an element of uncertainty to business decisions, particularly those relating to long-term capital investments.

In addition, significant differences in regional or national approaches could present challenges in a global marketplace. An effective global climate policy framework will help drive the market changes that are needed to stimulate and efficiently deploy new innovations in science and technology, while maintaining open and competitive global markets.

### *Environmental Operating Costs*

As a result of its operations, the Company incurs costs for pollution abatement activities including waste collection and disposal, installation and maintenance of air pollution controls and wastewater treatment, emissions testing and monitoring, and obtaining permits. The Company also incurs costs related to environmental related research and development activities including environmental field and treatment studies as well as toxicity and degradation testing to evaluate the environmental impact of products and raw materials.

### *Environmental Remediation*

The Company has incurred environmental remediation costs, including indemnification remediation costs, of \$21 million, \$69 million and \$12 million, for the years ended December 31, 2024, 2023 and 2022, respectively.

Changes in the remediation accrual balance are summarized below:

<i>(In millions)</i>	
Balance at December 31, 2022	\$ 90
Remediation payments <sup>1</sup>	(5)
Net increase in remediation accrual <sup>1</sup>	10
Net change, indemnification <sup>2</sup>	53
Balance at December 31, 2023	\$ 148
Remediation payments <sup>1</sup>	(7)
Net increase in remediation accrual <sup>1</sup>	6
Net change, indemnification <sup>2</sup>	(18)
Balance at December 31, 2024	\$ 129

1. Excludes indemnification remediation obligations and payments.

2. Represents the net change in indemnified remediation obligations based on activity pursuant to the DWDP Separation and Distribution Agreement and Letter Agreement as discussed below and in Note 16 to the Consolidated Financial Statements. This is not inclusive of the environmental accrual related to eligible PFAS costs associated with the MOU of \$146 million and \$152 million as of December 31, 2024 and 2023, respectively.

Considerable uncertainty exists with respect to environmental remediation costs, and, under adverse changes in circumstances, the potential liability may range up to \$285 million above the amount accrued as of December 31, 2024. However, based on existing facts and circumstances, management does not believe that any loss, in excess of amounts accrued, related to remediation activities at any individual site will have a material impact on the financial position, liquidity or results of operations of the Company.

Pursuant to the DWDP Separation and Distribution Agreement and the Letter Agreement discussed in Note 16 to the Consolidated Financial Statements, the Company indemnifies Dow and Corteva for certain environmental matters. The Company has recorded an indemnification liability of \$84 million corresponding to the Company's accrual balance related to these matters at December 31, 2024. The indemnification liability is included in the total remediation accrual liability of \$129 million.

#### *Environmental Capital Expenditures*

Capital expenditures for environmental projects, either required by law or necessary to meet the Company's internal environmental goals, were \$11 million for the year ended December 31, 2024. This amount includes \$2 million of expenditures used towards the Company's climate change initiatives. The Company currently estimates expenditures for environmental-related capital projects to be approximately \$12 million in 2025, with less than \$3 million estimated for climate change initiatives.

## ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's global operations are exposed to financial market risks relating to fluctuations in foreign currency exchange rates, commodity prices, and interest rates. The Company has established a variety of programs including the use of derivative instruments and other financial instruments to manage the exposure to financial market risks as to minimize volatility of financial results. In the ordinary course of business, the Company enters into derivative instruments to hedge its exposure to foreign currency, interest rate and commodity price risks under established procedures and controls. For additional information on these derivatives and related exposures, see Note 21 to the Consolidated Financial Statements. Decisions regarding whether or not to hedge a given commitment are made on a case-by-case basis, taking into consideration the amount and duration of the exposure, market volatility and economic trends. Foreign currency exchange contracts are also used, from time to time, to manage near-term foreign currency cash requirements.

### Foreign Currency Exchange Rate Risks

The Company has significant international operations resulting in a large number of currency transactions from international sales, purchases, investments and borrowings. The primary currencies for which the Company has an exchange rate exposure are the European euro ("EUR"), Chinese renminbi ("CNY"), Japanese yen ("JPY"), South Korean won ("KRW") and Canadian dollar ("CAD"). The Company uses forward exchange contracts to offset its net exposures, by currency, related to the foreign currency denominated monetary assets and liabilities of its operations. In addition to the contracts disclosed in Note 21 to the Consolidated Financial Statements, from time to time, the Company will enter into foreign currency exchange contracts to establish with certainty the U.S. dollar ("USD") amount of future firm commitments denominated in a foreign currency.

The following table illustrates the fair values of outstanding foreign currency contracts at December 31, 2024 and 2023, and the effect on fair values of a hypothetical adverse change in the foreign exchange rates that existed at December 31, 2024 and 2023. The sensitivities for foreign currency contracts are based on a 10 percent adverse change in foreign exchange rates.

In millions	Fair Value Asset/(Liability)		Fair Value Sensitivity	
	2024	2023	2024	2023
Foreign currency contracts	\$ —	\$ 3	\$ (181)	\$ (165)

The Company uses cross currency swaps, designated as a net investment hedge, to hedge portions of its net investment in its European operations. The net investment hedge serves to offset the foreign currency translation risk from the Company's foreign operations. If the U.S. dollar weakened by 10 percent, the fair value of the net investment hedge would have been approximately \$88 million lower as of December 31, 2024 and approximately \$101 million lower as of December 31, 2023.

The Company uses interest rate swaps to hedge changes in the fair value of the hedged item due to changes in the Secured Overnight Financing Rate ("SOFR"). If the floating rates appreciated by 10 percent, the fair value of the interest rate swaps would have been approximately \$165 million lower as of December 31, 2024 and approximately \$26 million lower as of December 31, 2023.

Since the Company's risk management programs are highly effective, the potential loss in value for each risk management portfolio described above would be largely offset by changes in the value of the underlying exposure.

### Concentration of Credit Risk

The Company maintains cash and cash equivalents, derivatives and certain other financial instruments with various financial institutions. These financial institutions are generally highly rated and geographically dispersed and the Company has a policy to limit the dollar amount of credit exposure with any one institution.

As part of the Company's financial risk management processes, it continuously evaluates the relative credit standing of all of the financial institutions that service DuPont and monitors actual exposures versus established limits. The Company has not sustained credit losses from instruments held at financial institutions.

The Company's sales are not materially dependent on any single customer. As of December 31, 2024, no one individual customer balance represented more than five percent of the Company's total outstanding receivables balance. Credit risk associated with its receivables balance is representative of the geographic, industry and customer diversity associated with the Company's global product lines.

The Company also maintains strong credit controls in evaluating and granting customer credit. As a result, it may require that customers provide some type of financial guarantee in certain circumstances. Length of terms for customer credit varies by industry and region.

## **ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA**

The financial statements and supplementary data required by this Item are included herein, commencing on page F-1 of this report.

## **ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

None.

## **ITEM 9A. CONTROLS AND PROCEDURES**

### **Evaluation of Disclosure Controls and Procedures**

The Company maintains a system of disclosure controls and procedures to give reasonable assurance that information required to be disclosed in the Company's reports filed or submitted under the Securities Exchange Act of 1934 (Exchange Act) is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. These controls and procedures also give reasonable assurance that information required to be disclosed in such reports is accumulated and communicated to management to allow timely decisions regarding required disclosures.

As of December 31, 2024, the Company's Executive Chairman (Principal Executive Officer (PEO)), Chief Executive Officer (CEO) and Chief Financial Officer (CFO), together with management, conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based on that evaluation, the PEO, CEO and CFO concluded that these disclosure controls and procedures are effective.

### **Changes in Internal Control Over Financial Reporting**

There were no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 and 15d-15 that was conducted during the quarter ended December 31, 2024 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2024 excluded Donatelle Plastics, LLC, which was acquired by the Company in July 2024. The total assets and total net sales of Donatelle Plastics, LLC excluded from management's assessment of internal control over financial reporting both represent less than 1 percent of the related consolidated financial statement amounts as of and for the year ended December 31, 2024. Companies are allowed to exclude acquisitions from their assessment of internal control over financial reporting in the year of acquisition while integrating the acquired company under guidelines established by the Securities and Exchange Commission.

The Company has completed its evaluation of its internal controls and has concluded that the Company's system of internal controls over financial reporting was effective as of December 31, 2024 (see page F-2).

## **ITEM 9B. OTHER INFORMATION**

During the three months ended December 31, 2024, no director or officer of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.

## **ITEM 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections**

Not applicable.

**ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE**

Information related to Directors, certain executive officers and certain corporate governance matters (including identification of Audit Committee members and financial expert(s)) is contained in the definitive Proxy Statement for the 2025 Annual Meeting of Stockholders of DuPont de Nemours, Inc. and is incorporated herein by reference.

Information related to DuPont's insider trading policies and procedures applicable to directors, officers and employees, and to the Company itself is contained in the definitive Proxy Statement for the 2025 Annual Meeting of Stockholders of DuPont de Nemours, Inc. and is incorporated herein by reference. A copy of the Company's Insider Trading Policy is filed as Exhibit 19 to this Form 10-K.

**ITEM 11. EXECUTIVE COMPENSATION**

Information related to executive compensation and the Company's equity compensation plans is contained in the definitive Proxy Statement for the 2025 Annual Meeting of Stockholders of DuPont de Nemours, Inc. and is incorporated herein by reference.

**ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS**

Information with respect to beneficial ownership of DuPont de Nemours, Inc. common stock by each Director and all Directors and executive officers of the Company as a group is contained in the definitive Proxy Statement for the 2025 Annual Meeting of Stockholders of DuPont de Nemours, Inc. and is incorporated herein by reference.

Information relating to any person who beneficially owns in excess of 5 percent of the total outstanding shares of DuPont de Nemours, Inc. common stock is contained in the definitive Proxy Statement for the 2025 Annual Meeting of Stockholders of DuPont de Nemours, Inc. and is incorporated herein by reference.

Information with respect to compensation plans under which equity securities are authorized for issuance is contained in the definitive Proxy Statement for the 2025 Annual Meeting of Stockholders of DuPont de Nemours, Inc. and is incorporated herein by reference.

**ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE**

Reportable relationships and related transactions, if any, as well as information relating to director independence are contained in the definitive Proxy Statement for the 2025 Annual Meeting of Stockholders of DuPont de Nemours, Inc. and are incorporated herein by reference.

**ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES**

Information with respect to fees and services related to the Company's independent auditors, PricewaterhouseCoopers LLP, and the disclosure of the Audit Committee's pre-approval policies and procedures are contained in the definitive Proxy Statement for the 2025 Annual Meeting of Stockholders of DuPont and are incorporated herein by reference.

## PART IV

## ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

## (a) Financial Statements and Financial Statement Schedules:

1. Financial Statements (See the Index to the Consolidated Financial Statements on page F-1 of this report).
2. Financial Statement Schedules

## Schedule II—Valuation and Qualifying Accounts

(In millions) for the years ended December 31,	2024	2023	2022
<b>Accounts Receivable—Allowance for Doubtful Receivables</b>			
Balance at beginning of period	\$ 40	\$ 38	\$ 28
Additions charged to expenses	17	12	11
Deductions from reserves <sup>1</sup>	(31)	(10)	(1)
Balance at end of period	\$ 26	\$ 40	\$ 38
<b>Inventory—Obsolescence Reserve</b>			
Balance at beginning of period	\$ 8	\$ 4	\$ 6
Additions charged to expenses	41	14	18
Deductions from reserves <sup>2</sup>	(14)	(10)	(20)
Balance at end of period	\$ 35	\$ 8	\$ 4
<b>Deferred Tax Assets—Valuation Allowance</b>			
Balance at beginning of period	\$ 738	\$ 703	\$ 700
Additions <sup>3</sup>	122	47	125
Deductions from reserves <sup>3</sup>	(88)	(12)	(122)
Balance at end of period	\$ 772	\$ 738	\$ 703

1. Deductions include write-offs, recoveries and currency translation adjustments.

2. Deductions include disposals and currency translation adjustments.

3. Additions and Deductions include currency translation adjustments.

Financial Statement Schedules listed under the Securities and Exchange Commission ("SEC") rules but not included in this report are omitted because they are not applicable or the required information is shown in the Consolidated Financial Statements or notes thereto incorporated by reference.

(b) Exhibits required to be filed by Item 601 of Regulation S-K (all of which are under Commission File No. 0001666700):

<b>EXHIBIT NO.</b>	<b>DESCRIPTION</b>
3.1	Third Amended and Restated Certificate of Incorporation of DuPont de Nemours, Inc. incorporated by reference to Exhibit 3.1 to DuPont de Nemours, Inc.'s Current Report on Form 8-K filed April 30, 2021.

## **Management's Reports on Responsibility for Financial Statements and Internal Control over Financial Reporting**

### **Management's Report on Responsibility for Financial Statements**

Management is responsible for the Consolidated Financial Statements and the other financial information contained in this Annual Report on Form 10-K. The financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") and are considered by management to present fairly the Company's financial position, results of operations and cash flows. The financial statements include some amounts that are based on management's best estimates and judgments. The financial statements have been audited by the Company's independent registered public accounting firm, PricewaterhouseCoopers LLP. The purpose of their audit is to express an opinion as to whether the Consolidated Financial Statements included in this Annual Report on Form 10-K present fairly, in all material respects, the Company's financial position, results of operations and cash flows in conformity with GAAP. Their report is presented on the following pages.

### **Management's Report on Internal Control over Financial Reporting**

Management is responsible for establishing and maintaining an adequate system of internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. The Company's internal control over financial reporting includes those policies and procedures that:

- i. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- ii. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorization of management and directors of the Company; and
- iii. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisitions, use or disposition of the Company's assets that could have a material effect on the financial statements.

Internal control over financial reporting has certain inherent limitations which may not prevent or detect misstatements. In addition, changes in conditions and business practices may cause variation in the effectiveness of internal controls.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2024, based on criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in *Internal Control-Integrated Framework (2013)*. Based on its assessment and those criteria, management concluded that the Company maintained effective internal control over financial reporting as of December 31, 2024. Management's assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2024 excluded Donatelle Plastics, LLC, which was acquired by the Company in July 2024. The total assets and total net sales of Donatelle Plastic, LLC excluded from management's assessment of internal control over financial reporting both represent less than 1 percent of the related consolidated financial statement amounts as of and for the year ended December 31, 2024. Companies are allowed to exclude acquisitions from their assessment of internal control over financial reporting in the year of acquisition while integrating the acquired company under guidelines established by the Securities and Exchange Commission staff.

PricewaterhouseCoopers LLP, an independent registered public accounting firm, has audited the effectiveness of the Company's internal control over financial reporting as of December 31, 2024, as stated in its report, which is presented on the following pages.

## **Report of Independent Registered Public Accounting Firm**

To the Board of Directors and Stockholders of DuPont de Nemours, Inc.

### ***Opinions on the Financial Statements and Internal Control over Financial Reporting***

We have audited the accompanying consolidated balance sheets of DuPont de Nemours, Inc. and its subsidiaries (the “Company”) as of December 31, 2024 and 2023, and the related consolidated statements of operations, of comprehensive income, of equity and of cash flows for each of the three years in the period ended December 31, 2024, including the related notes and schedule of valuation and qualifying accounts for each of the three years in the period ended December 31, 2024 appearing under Item 15(a)(2) (collectively referred to as the “consolidated financial statements”). We also have audited the Company’s internal control over financial reporting as of December 31, 2024, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2024 and 2023, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2024 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2024, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the COSO.

### ***Basis for Opinions***

The Company’s management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control over Financial Reporting. Our responsibility is to express opinions on the Company’s consolidated financial statements and on the Company’s internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

As described in Management’s Report on Internal Control over Financial Reporting, management has excluded Donatelle Plastics, LLC from its assessment of internal control over financial reporting as of December 31, 2024 because it was acquired by the Company in a purchase business combination during 2024. We have also excluded Donatelle Plastics, LLC from our audit of internal control over financial reporting. Donatelle Plastics, LLC is a wholly-owned subsidiary whose total assets and total net sales excluded from management’s assessment and our audit of internal control over financial reporting both represent less than 1 percent of the related consolidated financial statement amounts as of and for the year ended December 31, 2024.

### ***Definition and Limitations of Internal Control over Financial Reporting***

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### ***Critical Audit Matters***

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

#### ***Goodwill impairment assessment – Protection reporting unit***

As described in Notes 1 and 14 to the consolidated financial statements, as of December 31, 2024, the Company's consolidated goodwill balance was \$16.6 billion, and the goodwill associated with the Protection reporting unit was \$4.8 billion. Management tests goodwill for impairment at the reporting unit level annually during the fourth quarter, or more frequently when events or changes in circumstances indicate the fair value of a reporting unit has more likely than not declined below its carrying value. Management performed quantitative testing on the Protection reporting unit using a combination of the discounted cash flow model (a form of the income approach) and the Guideline Public Company Method (a form of market approach). As a result of the assessment performed, management concluded the estimated fair value of the Protection reporting unit exceeded its carrying value and that no impairments were identified. As disclosed by management, under the income approach, fair value is determined based on the present value of estimated future cash flows, discounted at an appropriate risk-adjusted rate. Management uses internal forecasts to estimate future cash flows and includes an estimate of long-term future growth rates based on its most recent views of the long-term outlook for each reporting unit. Discounted cash flow valuations are completed using the following significant assumptions: projected revenue growth, EBITDA margin, weighted average cost of capital, terminal growth rate and the tax rate. Under the market approach, management applies the Guideline Public Company Method, which uses projected earnings before interest, taxes, depreciation and amortization (EBITDA) and derived multiples from comparable market transactions.

The principal considerations for our determination that performing procedures relating to the goodwill impairment assessment of the Protection reporting unit is a critical audit matter are (i) the significant judgment by management when developing the fair value estimate of the Protection reporting unit; (ii) a high degree of auditor judgment, subjectivity and effort in performing procedures and evaluating management's significant assumptions related to projected revenue growth, EBITDA margins, the weighted average cost of capital, the terminal growth rate and the tax rate for the income approach and market multiples for the market approach; and (iii) the audit effort involved the use of professionals with specialized skill and knowledge.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to management's goodwill impairment assessment, including controls over the valuation of the Protection reporting unit and controls over the development of the significant assumptions related to projected revenue growth, EBITDA margins, the weighted average cost of capital, the terminal growth rate, the tax rate and market multiples. These procedures also included, among others (i) testing management's process for developing the fair value estimate of the Protection reporting unit; (ii) evaluating the appropriateness of the income and market approaches used by management; (iii) testing the completeness and accuracy of underlying data used in the income and market approaches; and (iv) evaluating the reasonableness of the significant assumptions used by management related to projected revenue growth, EBITDA margins, the weighted average cost of capital,

the terminal growth rate and the tax rate for the income approach and market multiples for the market approach. Evaluating management's assumptions related to projected revenue growth, EBITDA margins, and the tax rate involved considering (i) the current economic conditions and recent operating results of the Protection reporting unit; (ii) the consistency with external market and industry data; and (iii) whether the assumptions used by management were consistent with evidence obtained in other areas of the audit. Professionals with specialized skill and knowledge were used to assist in evaluating (i) the appropriateness of the Company's income and market approaches and (ii) the reasonableness of the weighted average cost of capital, the terminal growth rate and market multiples assumptions.

## **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **Principles of Consolidation and Basis of Presentation**

The accompanying Consolidated Financial Statements of DuPont de Nemours, Inc. ("DuPont" or the "Company") were prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The significant accounting policies described below, together with the other notes that follow, are an integral part of the Consolidated Financial Statements.

The Consolidated Financial Statements include the accounts of the Company and subsidiaries in which a controlling interest is maintained. The Consolidated Financial Statements also include the accounts of joint ventures that are variable interest entities ("VIEs") in which the Company is the primary beneficiary due to the Company's power to direct the VIEs significant activities. For those consolidated subsidiaries in which the Company's ownership is less than 100 percent, the outside stockholders' interests are shown as noncontrolling interests. Investments in affiliates over which the Company has the ability to exercise significant influence but does not have a controlling interest are accounted for under the equity method.

The Company is also involved with certain joint ventures accounted for under the equity method of accounting that are VIEs. The Company is not the primary beneficiary, as the nature of the Company's involvement with the VIEs does not provide it the power to direct the VIEs significant activities. Future events may require these VIEs to be consolidated if the Company becomes the primary beneficiary. At December 31, 2024 and 2023, the maximum exposure to loss related to the nonconsolidated VIEs is not considered material to the Consolidated Financial Statements.

### **DWDP Distributions**

Effective August 31, 2017, E. I. du Pont de Nemours and Company ("EID") and The Dow Chemical Company ("TDCC") each merged with subsidiaries of DowDuPont Inc. (n/k/a "DuPont") and, as a result, EID and TDCC became subsidiaries of the Company. On April 1, 2019, the Company completed the separation of the materials science business through the spin-off of Dow Inc., ("Dow") including Dow's subsidiary TDCC (the "Dow Distribution"). On June 1, 2019, the Company completed the separation of the agriculture business through the spin-off of Corteva, Inc. ("Corteva") including Corteva's subsidiary EID (subsequently renamed EIDP, Inc. (n/k/a "EIDP")), (the "Corteva Distribution" and together with the Dow Distribution, the "DWDP Distributions"). Following the Corteva Distribution, DuPont holds the specialty products business as continuing operations. DowDuPont Inc. changed its registered name to DuPont de Nemours, Inc. ("DuPont") (for certain events prior to June 1, 2019, the Company may be referred to as DowDuPont). Beginning on June 3, 2019, the Company's common stock is traded on the New York Stock Exchange under the ticker symbol "DD."

### **Intended Electronics Separation**

On May 22, 2024, DuPont announced a plan to separate each of its Electronics and Water businesses in a tax-free manner to its shareholders, (the "Previously Intended Business Separations"). On January 15, 2025, DuPont announced it is targeting November 1, 2025, for the completion of the intended separation of the Electronics business (the "Intended Electronics Separation"). DuPont also announced that it would retain the Water business. The Intended Electronics Separation will not require a shareholder vote and is subject to satisfaction of customary conditions, including final approval by DuPont's Board of Directors, receipt of tax opinion from counsel, the filing and effectiveness of a Form 10 registration statement with the U.S. Securities and Exchange Commission, applicable regulatory approvals and satisfactory completion of financing.

### **M&M Transactions**

On November 1, 2022, DuPont completed the previously announced divestiture of the majority of its historic Mobility & Materials segment, including the Engineering Polymers business line and select product lines within the Advanced Solutions and Performance Resins business lines (the "M&M Divestiture"), to Celanese Corporation ("Celanese") for cash proceeds of \$11.0 billion. On November 1, 2023, the Company closed the sale of the Delrin® business to TJC LP ("TJC"), (the "Delrin® Divestiture"). The Delrin® Divestiture and together with the M&M Divestiture, collectively the "M&M Divestitures" and the businesses in scope of the M&M Divestitures collectively the "M&M Businesses". See Note 4 for more information.

The results of operations for the year ended December 31, 2023, present the financial results of Delrin® as discontinued operations through November 1, 2023. The results of operations for the year ended December 31, 2022, present the financial results of the M&M Businesses as discontinued operations. For the year ended December 31, 2023, the Consolidated Statements of Cash Flows present the cash flows of the Delrin® Divestiture as discontinued operations for activity. The Consolidated Statements of Cash Flows for the year ended December 31, 2022, present the cash flows from the M&M Businesses as discontinued operations. The comprehensive income of the M&M Businesses has not been segregated and is included in the Consolidated Statements of Comprehensive Income for all periods presented. Unless otherwise indicated, the information in the notes to the Consolidated Financial Statements refer only to DuPont's continuing operations and do not include discussion of balances or activity of the M&M Businesses.

### **Use of Estimates in Financial Statement Preparation**

The preparation of financial statements in accordance with U.S. GAAP requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The Company's Consolidated Financial Statements include amounts that are based on management's best estimates and judgments. Actual results could differ from those estimates.

### **Cash and Cash Equivalents**

Cash equivalents represent investments with maturities of three months or less from time of purchase. They are carried at cost plus accrued interest, which approximates fair value.

### **Restricted Cash and Cash Equivalents**

Restricted cash and cash equivalents represents trust assets, cash held in escrow and cash within qualified settlement funds. These funds are restricted as to withdrawal or use under the terms of certain contractual agreements. Restricted cash is classified as a current or non-current asset based on the timing and nature of when or how the cash is expected to be used. See Note 7 and 16 for further information.

### **Marketable Securities**

Marketable securities represent investments in fixed and floating rate financial instruments with maturities greater than three months and up to twelve months at time of purchase. Investments classified as held-to-maturity are recorded at amortized cost. The carrying value approximates fair value due to the short-term nature of the investments.

### **Fair Value Measurements**

Under the accounting guidance for fair value measurements and disclosures, a fair value hierarchy was established that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The Company uses the following valuation techniques to measure fair value for its assets and liabilities:

- Level 1            –    Quoted market prices in active markets for identical assets or liabilities;
  
- Level 2            –    Significant other observable inputs (e.g. quoted prices for similar items in active markets, quoted prices for identical or similar items in markets that are not active, inputs other than quoted prices that are observable such as interest rate and yield curves, and market-corroborated inputs);
  
- Level 3            –    Unobservable inputs for the asset or liability, which are valued based on management's estimates of assumptions that market participants would use in pricing the asset or liability.

### **Foreign Currency Translation**

The Company's worldwide operations utilize the U.S. dollar ("USD") or local currency as the functional currency, where applicable. The Company identifies its separate and distinct foreign entities and groups the foreign entities into two categories: 1) extension of the parent or foreign subsidiaries operating in a hyper-inflationary environment (USD functional currency) and 2) self-contained (local functional currency). If a foreign entity does not align with either category, factors are evaluated and a judgment is made to determine the functional currency.

For foreign entities where the USD is the functional currency, all foreign currency-denominated asset and liability amounts are re-measured into USD at end-of-period exchange rates, except for inventories, prepaid expenses, property, plant and equipment, goodwill, other intangible assets and other non-monetary items, which are re-measured at historical rates. Foreign currency income and expenses are re-measured at average exchange rates in effect during the year, except for expenses related to balance sheet amounts re-measured at historical exchange rates. Exchange gains and losses arising from re-measurement of foreign currency-denominated monetary assets and liabilities are included in income in the period in which they occur.

For foreign entities where the local currency is the functional currency, assets and liabilities denominated in local currencies are translated into USD at end-of-period exchange rates and the resultant translation adjustments are reported, net of their related tax effects, as a component of accumulated other comprehensive loss in equity. Assets and liabilities denominated in other than the local currency are re-measured into the local currency prior to translation into USD and the resultant exchange gains or

losses are included in income in the period in which they occur. Income and expenses are translated into USD at average exchange rates in effect during the period.

The Company changes the functional currency of its separate and distinct foreign entities only when significant changes in economic facts and circumstances indicate clearly that the functional currency has changed.

### **Interest Rate Swap Agreements**

The Company has entered into a fixed-to-floating interest rate swap agreement to hedge changes in the fair value of the Company's long-term debt due to interest rate movements. Under the terms of the agreement, the Company agrees to exchange, at specified intervals, fixed for floating interest amounts based on the agreed upon notional principal amount. The interest rate swaps are designated and carried as fair value hedges. Fair value hedge accounting has been applied and thus, changes in the fair value of these swaps and changes in the fair value of the related hedged portion of long-term debt will be presented and will net to zero in Sundry income (expense) – net in the Consolidated Statements of Operations.

In 2024, the Company issued a notice of partial redemption concerning the associated long-term debt linked to this hedging relationship. As a result, the Company dedesignated the hedging relationship, and fair value hedge accounting is no longer applied to these swaps. After dedesignation, changes in fair value of these swaps are recognized directly in earnings in "Sundry income (expense) – net" in the Consolidated Statements of Operations, resulting in gains or losses that are separate from the hedged item.

In addition, the Company has entered into two forward-starting fixed-to-floating interest rate swap agreements to hedge changes in the fair value of the Company's long-term debt resulting from interest rate movements. These new derivatives convert fixed interest rate payments to floating rate payments. The Company employs both the dedesignated fixed-to-floating interest rate swaps and the forward-starting fixed-to-floating interest rate swaps as economic hedges of its fixed-rate debt. Changes in the fair value of the economic hedges, and any gains or losses from net interest settlements associated with the dedesignated swaps, are recorded in "Sundry income (expense) – net" in the Consolidated Statements of Operations.

Cash payments or receipts associated with interest rate swaps are classified as operating activities in the Consolidated Statements of Cash Flows.

### **Net Foreign Investment Hedge**

The Company has fixed-for-fixed cross currency swaps which are designated as a net investment hedge and has made an accounting policy election to account for the net investment hedge using the spot method. The Company has also elected to amortize the excluded components in interest expense in the related quarterly accounting period that such interest is accrued. The cross-currency swap is marked to market at each reporting date and any unrealized gains or losses are included in unrealized currency translation adjustments within "Accumulated other comprehensive loss" ("AOCL"), net of amounts associated with excluded components which are recognized in interest expense in the Consolidated Statements of Operations.

### **Inventories**

The Company's inventories are valued at the lower of cost or net realizable value. Elements of cost in inventories include raw materials, direct labor and manufacturing overhead. Stores and supplies are valued at cost or net realizable value, whichever is lower; cost is generally determined by the average cost method. The Company's inventories are generally accounted for under the average cost method. The Company establishes allowances for obsolescence of inventory based upon quality considerations and assumptions about future demand and market conditions.

In periods of abnormally low production, certain fixed costs normally absorbed into inventory are recorded directly to cost of sales in the period incurred.

### **Property, Plant and Equipment**

Property, plant and equipment are carried at cost less accumulated depreciation. Depreciation is based on the estimated service lives of depreciable assets and is calculated using the straight-line method. Fully depreciated assets are retained in property and accumulated depreciation accounts until they are removed from service. When assets are surrendered, retired, sold, or otherwise disposed of, their gross carrying values and related accumulated depreciation are removed from the Consolidated Balance Sheets and included in determining gain or loss on such disposals.

### **Goodwill and Other Intangible Assets**

The Company records goodwill when the purchase price of a business acquisition exceeds the estimated fair value of net identified tangible and intangible assets acquired. Goodwill is tested for impairment at the reporting unit level annually during the fourth quarter, or more frequently when events or changes in circumstances indicate that the fair value of a reporting unit has more likely than not declined below its carrying value.

When testing goodwill for impairment, the Company has the option to first perform qualitative testing to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value. If the Company chooses not to complete a qualitative assessment for a given reporting unit or if the initial assessment indicates that it is more likely than not that the carrying value of a reporting unit exceeds its estimated fair value, additional quantitative testing is required. If the carrying value of a reporting unit exceeds its fair value, an impairment loss is recognized in the amount by which the carrying value of the reporting unit exceeds its fair value, limited to the amount of goodwill at the reporting unit. The Company determines fair values for each of the reporting units using a combination of the income approach and/or market approach. Under the income approach, fair value is determined based on the net present value of estimated future cash flows, discounted at an appropriate risk-adjusted rate. Under the market approach, the Company selects peer sets based on close competitors and reviews the EBITDA multiples to determine the fair value. When applicable, third-party purchase offers may be utilized to measure fair value. The Company applies a weighting to the market approach and income approach to determine the fair value. See Note 14 for further information on goodwill.

Indefinite-lived intangible assets are tested for impairment at least annually during the fourth quarter; however, these tests are performed more frequently when events or changes in circumstances indicate that the asset may be impaired. When testing indefinite-lived intangible assets for impairment, the Company has the option to first perform qualitative testing to determine whether it is more likely than not that the fair value of indefinite-lived intangible assets is less than carrying value. If the Company chooses not to complete a qualitative assessment for indefinite-lived intangible assets or if the initial assessment indicates that it is more likely than not that the carrying value of indefinite-lived intangible assets exceeds the fair value, additional quantitative testing is required. Impairment exists when carrying value exceeds fair value. The Company's fair value methodology is primarily based on discounted cash flow techniques.

Definite-lived intangible assets are amortized over their estimated useful lives, generally on a straight-line basis for periods ranging primarily from 1 to 20 years. The Company continually evaluates the reasonableness of the useful lives of these assets.

### **Impairment and Disposals of Long-Lived Assets**

The Company evaluates the carrying value of long-lived assets to be held and used when events or changes in circumstances indicate the carrying value may not be recoverable. The carrying value of a long-lived asset group is considered for impairment when the total projected undiscounted cash flows from the assets are separately identifiable and are less than its carrying value. In that event, a loss would be recognized based on the amount by which the carrying value exceeds the fair value of the long-lived asset group. The Company's fair value methodology is an estimate of fair market value which is made based on prices of similar assets or other valuation methodologies, including present value techniques. Long-lived assets to be disposed of by sale, if material, are classified as held for sale and reported at the lower of carrying amount or fair value less cost to sell, and depreciation is ceased. Long-lived assets to be disposed of other than by sale are classified as held and used until they are disposed. Depreciation is recognized over the remaining useful life of the assets.

### **Acquisitions**

In accordance with ASC 805, *Business Combinations*, acquisitions are recorded using the acquisition method of accounting. The Company includes the operating results of acquired entities from their respective dates of acquisition. The Company recognizes and measures the identifiable assets acquired and liabilities assumed as of the acquisition date fair value, where applicable. The excess, if any, of total consideration transferred in a business combination over the fair value of identifiable assets acquired and liabilities assumed is recognized as goodwill. Costs incurred as a result of a business combination other than costs related to the issuance of debt or equity securities are recorded in the period the costs are incurred.

### **Leases**

The Company determines whether an arrangement is a lease at the inception of the arrangement based on the terms and conditions in the contract, in accordance with ASC 842, *Leases*. A contract contains a lease if there is an identified asset and the Company has the right to control the asset. Operating lease right-of-use ("ROU") assets are included in "Deferred charges and other assets" on the Consolidated Balance Sheets. Operating lease liabilities are included in "Accrued and other current liabilities" and "Other noncurrent obligations" on the Consolidated Balance Sheets. Finance lease ROU assets are included in "Property, plant and equipment - net" and the corresponding lease liabilities are included in "Long-term debt" or "Short-term borrowings" on the Consolidated Balance Sheets.

ROU assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at the commencement date based on the present value of lease payments over the lease term. As most of the Company's leases do not provide the lessor's implicit rate, the Company uses its incremental borrowing rate at the commencement date in determining the present value of lease payments. Lease terms include options to extend the lease when it is reasonably certain those options will be exercised. Leases with an initial term of 12 months or less are not recorded on the balance sheet, and lease expense is recognized on a straight-line basis over the lease term.

The Company has lease agreements with lease and non-lease components, which are accounted for as a single lease component for all asset classes. Additionally, for certain equipment leases, the portfolio approach is applied to account for the operating lease ROU assets and lease liabilities. In the Consolidated Statements of Operations, lease expense for operating lease payments is recognized on a straight-line basis over the lease term. For finance leases, interest expense is recognized on the lease liability and the ROU asset is amortized over the lease term.

The Company has leases in which it is the lessor, these leases are classified as operating leases and lessor revenue and related expenses are not significant to the Company's Consolidated Balance Sheets or Consolidated Statement of Operations. Lease income is recorded in "Selling, general, and administrative expenses" and "Research and development expenses". See Note 17 for additional information regarding the Company's leases.

### **Derivative Instruments**

Derivative instruments are reported in the Consolidated Balance Sheets at their fair values. The Company utilizes derivatives to manage exposures to foreign currency exchange rates and commodity prices. Changes in the fair values of derivative instruments that are not designated as hedges are recorded in current period earnings. For derivative instruments designated as cash flow hedges, the gain or loss is reported in AOCL until it is cleared to earnings during the same period in which the hedged item affects earnings.

In the event that a derivative designated as a hedge of a firm commitment or an anticipated transaction is terminated prior to the maturation of the hedged transaction, the net gain or loss in AOCL generally remains in AOCL until the item that was hedged affects earnings. If a hedged transaction matures, or is sold, extinguished, or terminated prior to the maturity of a derivative designated as a hedge of such transaction, gains or losses associated with the derivative through the date the transaction matured are included in the measurement of the hedged transaction and the derivative is reclassified as for trading purposes. Derivatives designated as hedges of anticipated transactions are reclassified as for trading purposes if the anticipated transaction is no longer probable.

For derivative instruments designated as net investment hedges, the gain or loss is reported as a component of Other comprehensive income (loss) and recorded in AOCL. The gain or loss will be subsequently reclassified into net earnings when the hedged net investment is either sold or substantially liquidated.

### **Environmental Matters**

Accruals for environmental matters are recorded when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated. These accruals are adjusted periodically as assessment and remediation efforts progress or as additional technical or legal information becomes available. Accruals for environmental liabilities are included in the Consolidated Balance Sheets in "Accrued and other current liabilities" and "Other noncurrent obligations" at undiscounted amounts. Accruals for related insurance or other third-party recoveries for environmental liabilities are recorded when it is probable that a recovery will be realized and are included in the Consolidated Balance Sheets as "Accounts and notes receivable - net."

Environmental costs are capitalized if the costs extend the life of the property, increase its capacity, and/or mitigate or prevent contamination from future operations. Environmental costs are also capitalized in recognition of legal asset retirement obligations resulting from the acquisition, construction and/or normal operation of a long-lived asset. Costs related to environmental contamination treatment and cleanup are charged to expense. Estimated future incremental operations, maintenance and management costs directly related to remediation are accrued when such costs are probable and reasonably estimable.

**Revenue Recognition**

The Company recognizes revenue when its customer obtains control of promised goods or services, in an amount that reflects the consideration which the Company expects to receive in exchange for those goods or services. To determine revenue recognition for the arrangements that the Company determines are within the scope of Revenue from Contracts with Customers (Topic 606), the Company performs the following five steps: (1) identify the contract(s) with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) the entity satisfies a performance obligation. See Note 5 for additional information on revenue recognition.

**Cost of Sales**

Cost of sales primarily includes the cost of manufacture and delivery, ingredients or raw materials, direct salaries, wages and benefits and overhead, non-capitalizable costs associated with capital projects and other operational expenses. No amortization of intangibles is included within costs of sales.

**Research and Development**

Research and development costs are expensed as incurred. Research and development expense includes costs (primarily consisting of employee costs, materials, contract services, research agreements, and other external spend) relating to the discovery and development of new products, and enhancement of existing products.

**Selling, General and Administrative Expenses**

Selling, general and administrative expenses primarily include selling and marketing expenses, commissions, functional costs, and business management expenses.

**Acquisition, Integration and Separation Costs**

Acquisition, integration and separation costs primarily consist of financial advisory, information technology, legal, accounting, consulting, other professional advisory fees and other contractual transaction payments associated with the preparation and execution of activities related to strategic initiatives.

**Litigation**

Accruals for legal matters are recorded when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated. Legal costs, such as outside counsel fees and expenses, are charged to expense in the period incurred.

**Restructuring and Asset Related Charges**

Charges for restructuring programs generally include targeted actions involving employee severance and related benefit costs, contract termination charges, and asset related charges, which include impairments or accelerated depreciation/amortization of long-lived assets associated with such actions. Employee severance and related benefit costs are provided to employees under the Company's ongoing benefit arrangements. These charges are accrued during the period when management commits to a plan of termination and it becomes probable that employees will be entitled to benefits at amounts that can be reasonably estimated. Contract termination charges primarily reflect costs to terminate a contract before the end of its term or costs that will continue to be incurred under the contract for its remaining term without economic benefit to the Company. Asset related charges reflect impairments to long-lived assets and indefinite-lived intangible assets no longer deemed recoverable and depreciation/amortization of long-lived assets, which is accelerated over their remaining economic lives.

**Income Taxes**

The Company accounts for income taxes using the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying amounts and tax bases of assets and liabilities using enacted tax rates. The effect of a change in tax rates on deferred tax assets or liabilities is recognized in income in the period that includes the enactment date.

The Company recognizes the financial statement effects of an uncertain income tax position when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. The Company accrues for other tax contingencies, such as indemnifications, when it is probable that a liability to a taxing authority has been incurred and the amount of the contingency can be reasonably estimated. The current portion of uncertain income tax positions is included in "Income taxes payable" and the long-term portion is included in "Other noncurrent obligations" in the Consolidated Balance Sheets.

## **NOTE 2 - RECENT ACCOUNTING GUIDANCE**

### **Recently Adopted Accounting Guidance**

In September 2022, the FASB issued Accounting Standards Update No. 2022-04, "Liabilities-Supplier Finance Programs (Subtopic 405-50)" ("ASU 2022-04") to enhance transparency about the use of supplier finance programs. The new guidance requires that a buyer in a supplier finance program provides additional qualitative and quantitative disclosures about its program including the nature of the program, activity during the period, changes from period to period, and the potential magnitude of the program. The amendments in ASU 2022-04 are effective for fiscal years beginning after December 15, 2022 on a retrospective basis, including interim periods within those fiscal years, except for the amendment on rollforward information which is effective prospectively for fiscal years beginning after December 15, 2023. The Company implemented the new disclosures, other than the rollforward information, as required in the first quarter of 2023. The rollforward information disclosures have been implemented as required for the year ended December 31, 2024. See Note 15 for more information.

In November 2023, the FASB issued Accounting Standards Update No. 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures" ("ASU 2023-07") to improve disclosure requirements about reportable segments and address requests from investors for additional, more detailed information about a reportable segment's expenses. The new guidance requires disclosures of significant segment expenses regularly provided to the Chief Operating Decision Maker ("CODM") and included in reported measures of segment profit and loss. Disclosure of the title and position of the CODM is required. The guidance requires interim and annual disclosures about a reportable segment's profit or loss and assets. Additionally, the guidance requires disclosure of other segment items by reportable segment including a description of its composition. The amendments in ASU 2023-07 are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, on a retrospective basis. The disclosures have been implemented as required for the year ended December 31, 2024. See Note 23 for more information.

### **Accounting Guidance Issued But Not Adopted at December 31, 2024**

In December 2023, the FASB issued Accounting Standards Update No. 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures" ("ASU 2023-09") to improve transparency and disclosure requirements for the rate reconciliation, income taxes paid and other tax disclosures. The amendments in ASU 2023-09 are effective for fiscal years beginning after December 15, 2024, on a prospective basis. The disclosures will be implemented as required for the Company's 2025 annual report. The Company is currently evaluating the impact of adopting this guidance.

In March 2024, the U.S. Securities and Exchange Commission ("SEC") adopted rules under SEC Release No. 33-11275, "The Enhancement and Standardization of Climate-Related Disclosures for Investors", which require a registrant to disclose information in annual reports and registration statements about climate-related risks that are reasonably likely to have a material impact on its business, results of operations, or financial condition. The information would include disclosure of a registrant's greenhouse gas emissions. In addition, certain disclosures related to severe weather events and other natural conditions will be required in a registrant's audited financial statements. Certain annual disclosure requirements would be effective as early as the fiscal year beginning January 1, 2025. However, in April 2024, the SEC voluntarily stayed the final rules pending certain legal challenges. The Company is currently evaluating the impact of these rules on its disclosures.

In November 2024, the FASB issued Accounting Standards Update No. 2024-03, "Income Statement: Reporting Comprehensive Income (Topic 220): Expense Disaggregation Disclosures" ("ASU 2024-03") to improve disclosures about the nature of expenses within line items on the statements of operations. The amendments in ASU 2024-03 are effective for the Company's 2028 annual report and subsequent interim periods; however, early adoption is permitted. The amendments can be applied prospectively or retrospectively to all periods presented. The Company is currently evaluating the impact of adopting this guidance.

## **NOTE 3 - ACQUISITIONS**

### **Donatelle Plastics Acquisition**

On July 28, 2024, DuPont completed the acquisition of Donatelle Plastics, LLC ("Donatelle Plastics"), for a net purchase price of \$365 million (the "Donatelle Plastics Acquisition"), which includes immaterial adjustments for acquired cash and net working capital. The net purchase price also includes the estimated fair value for a contingent earn-out liability of \$40 million, further discussed below. Donatelle Plastics is a medical device company specializing in the design, development and manufacture of medical components and devices. Donatelle Plastics is being integrated into Industrial Solutions within the Electronics & Industrial segment.

The purchase accounting and purchase price allocation for Donatelle Plastics are substantially complete. However, the Company continues to refine the preliminary valuation of certain acquired assets and liabilities assumed, including income tax related amounts, which could impact the amount of residual goodwill recorded. The Company will finalize the amounts recognized as it obtains the information necessary to complete the analysis, but no later than one year from the date of the acquisition.

The provisional fair values allocated to the assets acquired and liabilities assumed on July 28, 2024 include total assets of \$268 million and total liabilities of \$17 million. The goodwill acquired as part of the Donatelle Plastics Acquisition was \$114 million resulting in total consideration of \$365 million. The fair value of total assets acquired primarily includes \$201 million of other intangible assets and \$36 million of property, plant and equipment. The remaining assets acquired primarily include cash and cash equivalents and inventory. Final determination of the fair values may result in further adjustments to these values.

The significant fair value estimates included in the provisional allocation of purchase price are discussed below.

### **Other Intangible Assets**

Other intangible assets with definite lives primarily include provisional customer relationships of \$151 million and developed technology of \$47 million. Customer relationships and developed technology have useful lives of 20 years and 15 years, respectively. The customer-related intangible assets' estimated fair value was determined using the multi-period excess earnings method while the developed technology fair values were determined utilizing the relief from royalty method.

### **Goodwill**

The excess of the consideration for Donatelle Plastics over the preliminary net fair value of assets acquired and liabilities assumed resulted in the provisional recognition of \$114 million of goodwill, which has been assigned to the Electronics & Industrial segment. Goodwill is primarily attributable to the optimization of the combined Electronics & Industrial segment and Donatelle Plastics businesses' global activities across sales and manufacturing, as well as expected future customer relationships. Donatelle Plastics goodwill will be deductible for U.S. tax purposes.

### **Contingent Earn-out Liability**

The purchase agreement includes annual contingent earn-out payments based upon customer specific revenue generated through December 31, 2029, with total accumulated earn-out payments of up to \$85 million. The contingent earn-out liability was measured using a Monte Carlo simulation and the primary assumption used is the estimated likelihood the customer specific revenue is earned. The contingent earn-out liability estimate represents a recurring fair value measurement with significant unobservable inputs, considered to be Level 3 measurements under the fair value hierarchy. The fair value of the contingent earn-out liability at the acquisition date was \$40 million.

The fair value of the contingent earn-out liability is sensitive to changes in the interest rates, discount rates and the timing of the future payments, which are based upon estimates of future achievement of the customer specific revenue. Changes in the fair value of the contingent earn-out liability will be recognized in "Sundry income (expense), net" in the Consolidated Statements of Operations. As of December 31, 2024, the fair value of the contingent earn-out liability was \$40 million, reflected in "Other noncurrent obligations" on the Consolidated Balance Sheets.

The Company evaluated the disclosure requirements under ASC 805, Business Combinations and determined Donatelle Plastics was not considered a material business combination for purposes of disclosing either the earnings of Donatelle Plastics since the date of acquisition or supplemental pro forma information.

## Spectrum Acquisition

On August 1, 2023, the Company completed the previously announced acquisition of Spectrum Plastics Group (“Spectrum”) from AEA Investors (the “Spectrum Acquisition”). Spectrum manufactures flexible packaging products, plastic and silicone extrusions, and components for the global industrial, food and medical business sectors. Spectrum is part of the Electronics & Industrial segment. The net purchase price was approximately \$1,781 million, including a net upward adjustment of approximately \$43 million for acquired cash and net working capital, among other items. The Company accounted for the acquisition in accordance with ASC 805, which requires the assets acquired and liabilities assumed to be recognized on the balance sheet at their fair values as of the acquisition date.

The purchase accounting and purchase price allocation for Spectrum are complete as of December 31, 2024. In the third quarter 2024, the Company finalized the working capital settlements for an immaterial amount which impacted the residual goodwill recorded. The Company has finalized the fair values allocated to the assets acquired and liabilities assumed and the purchase allocation is considered final. Final determination of the fair values are presented in the following table:

<b>Spectrum Assets Acquired and Liabilities Assumed on August 1, 2023</b>	
In millions	
Fair value of assets acquired	
Cash and cash equivalents	\$ 31
Accounts and notes receivable	68
Inventories	52
Property, plant and equipment	125
Other intangible assets	916
Deferred charges and other assets	34
Total Assets Acquired	\$ 1,226
Fair value of liabilities assumed	
Accounts payable	\$ 21
Income taxes payable	17
Deferred income tax liabilities	177
Other noncurrent liabilities	44
Total Liabilities Assumed	\$ 259
Goodwill	814
Total Consideration	\$ 1,781

The significant fair value adjustments included in the allocation of purchase price are discussed below.

## Other Intangible Assets

Other intangible assets with definite lives include acquired customer-related intangible assets of \$772 million, developed technology of \$126 million and trademark/tradename of \$18 million. Acquired customer-related intangible assets, developed technology, and trademark/tradename have useful lives of 20 years, 15 years, and 5 years, respectively. The customer-related intangible assets' fair value was determined using the multi-period excess earnings method while the developed technology and trademark/tradename fair values were determined utilizing the relief from royalty method. The determination and allocation of fair value of other intangibles assets assumed is based on various assumptions and valuation methodologies requiring considerable management judgment, including estimates based on historical information, current market data and future expectations.

## Goodwill

The excess of the consideration for Spectrum over the net fair value of assets acquired and liabilities assumed resulted in the recognition of \$814 million of goodwill, which has been assigned to the Electronics & Industrial segment. Goodwill is primarily attributable to the optimization of the combined Electronics & Industrial segment and Spectrum businesses' global activities across sales and manufacturing, as well as expected future customer relationships. Spectrum goodwill will not be deductible for U.S. tax purposes.

The Company evaluated the disclosure requirements under ASC 805 and determined Spectrum was not considered a material business combination for purposes of disclosing the earnings of Spectrum since the date of acquisition or supplemental pro forma information.

**Terminated Intended Rogers Corporation Acquisition**

On November 1, 2022, the Company announced the termination of the agreement to acquire all the outstanding shares of Rogers Corporation ("Rogers") for about \$5.2 billion, as DuPont and Rogers were unable to obtain timely clearance from all the required regulators ("Terminated Intended Rogers Corporation Acquisition"). DuPont paid Rogers a termination fee of \$162.5 million in accordance with the agreement on November 2, 2022. The termination fee was recognized as a charge in the fourth quarter of 2022 and recorded in the "Acquisition, integration and separation costs" within the Consolidated Statements of Operations.

**Acquisition, Integration and Separation Costs**

Acquisition, integration and separation costs primarily consist of financial advisory, information technology, legal, accounting, consulting, other professional advisory fees and other contractual transaction payments. For the year ended December 31, 2024, these costs were primarily related to the Previously Intended Business Separations and the Intended Electronics Separation. For the year ended December 31, 2023, these costs were primarily related to the Spectrum Acquisition. Comparatively, for the year ended December 31, 2022, these costs were associated with the Terminated Intended Rogers Corporation Acquisition, including the \$162.5 million termination fee, the divestiture of the Biomaterials business unit and the prior year acquisition of Laird PM.

These costs are recorded within "Acquisition, integration and separation costs" within the Consolidated Statements of Operations.

(In millions) For the years ended December 31,	2024	2023	2022
Acquisition, integration and separation costs	\$ 168	\$ 20	\$ 193

## NOTE 4 - DIVESTITURES

### Mobility & Materials Divestitures

On November 1, 2022, (the "Transaction Date") DuPont completed the previously announced divestiture of the majority of the historic Mobility & Materials segment, including the Engineering Polymers business line and select product lines within the Advanced Solutions and Performance Resins business lines (the "M&M Divestiture"). The Company had previously entered into a Transaction Agreement (the "Transaction Agreement") with Celanese Corporation ("Celanese") on February 17, 2022, for consideration of \$11.0 billion. Cash received on the Transaction Date, as adjusted for preliminary and other adjustments, was \$11.0 billion. These adjustments include approximately \$500 million of cash transferred with the M&M Divestiture business for which DuPont was reimbursed at closing resulting in net proceeds of \$10.5 billion.

The Company also announced on February 18, 2022, that its Board of Directors approved the divestiture of the Delrin® acetal homopolymer (H-POM) business, subject to entry into a definitive agreement and satisfaction of customary closing conditions, (the Delrin® business together with the M&M Divestiture businesses, the "M&M Businesses"). On November 1, 2023, the Company closed the sale of the Delrin® business to TJC LP ("TJC"), (the "Delrin® Divestiture"). DuPont received cash proceeds of approximately \$1.28 billion, which includes certain customary transaction adjustments, a note receivable in the amount of \$350 million and acquired a 19.9 percent non-controlling equity interest in Derby Group Holdings LLC, ("Derby"). The customary transaction adjustments primarily relate to \$27 million of cash transferred with the Delrin® Divestiture for which DuPont was reimbursed at closing resulting in net cash proceeds of \$1.25 billion. TJC, through its subsidiaries, holds the 80.1 percent controlling interest in Derby. The Company accounts for its equity interest in Derby as an equity method investment based upon its non-controlling equity interest, its \$350 million intra-entity note receivable owed by an indirect, wholly owned subsidiary of Derby and its representation on the Derby board of directors. The note receivable has a maturity date of November 2031. The Company has limited continuing involvement with Derby including short term transition service agreements and insignificant sales to the Delrin® business.

As a result of the Delrin® Divestiture, and included as part of the \$419 million gain on the sale, the Company initially recognized the 19.9 percent equity interest and the \$350 million note receivable at fair values of \$121 million and \$224 million, respectively, which are recorded in "Investments and noncurrent receivables" in the Consolidated Balance Sheets. The fair value of the equity interest was determined using the enterprise value based on sales proceeds and a market approach primarily based on restricted stock studies. The fair value of the note receivable was determined using a market approach primarily based on current market interest rates for similar credit facilities and the duration of the note.

The Company determined the sales of the M&M Businesses represent a strategic shift that has a major effect on the Company's operations and results. For the years ended December 31, 2023 and 2022 the Company recognized an after-tax gain of \$480 million and \$5 billion, respectively, recorded in "(Loss) income from discontinued operations, net of tax" in the Company's Consolidated Statement Operations. For the year ended December 31, 2023, \$419 million is related to the gain on the sale of Delrin®, which is included in the Consolidated Statements of Cash Flows. The results of operations of the M&M Businesses are presented as discontinued operations as summarized below for all periods. The M&M Divestiture is reflected through the Transaction Date and the Delrin® Divestiture is reflected through November 1, 2023:

In millions	For the Years Ended December 31,	
	2023	2022
Net sales	\$ 460	\$ 3,532
Cost of sales	295	2,712
Research and development expenses	3	46
Selling, general and administrative expenses	2	127
Amortization of intangibles	—	28
Acquisition, integration and separation costs <sup>1</sup>	195	555
Equity in earnings of nonconsolidated affiliates	—	(9)
Sundry income (expense) - net	9	4
(Loss) income from discontinued operations before income taxes	\$ (26)	\$ 59
Provision for income taxes on discontinued operations	31	128
(Loss) income from discontinued operations, net of tax	\$ (57)	\$ (69)
Net (loss) income from discontinued operations attributable to noncontrolling interests	—	(4)
Gain on sale, net of tax <sup>2</sup>	480	5,024
Income from discontinued operations attributable to DuPont stockholders, net of tax	\$ 423	\$ 4,959

1. Includes costs related to the M&M Divestitures for all periods presented.

2. Gain includes purchase price adjustments related to the M&M Divestitures in 2023.

During the first quarter of 2022 after meeting the criteria to be classified as held for sale, the Company performed impairment analyses and allocated goodwill to the M&M Divestiture and Delrin® disposal groups and no impairments were identified. Refer to Note 14 for additional information. During each reporting period that the M&M Divestiture and Delrin® disposal groups were classified as held for sale, the Company assessed whether the fair value less cost to sell were less than the carrying value of each disposal group.

Pursuant to the Transaction Agreement, liabilities and assets related to the M&M Divestiture could not be directly assumed by Celanese and as a result, transferred by way of indemnification between both parties. In addition, pursuant to the Transaction Agreement, DuPont indemnifies Celanese against certain litigation, environmental, workers' compensation and other liabilities that arose prior to the transaction.

### Other Discontinued Operations Activity

The Company recorded a loss from discontinued operations, net of tax, of \$40 million and \$71 million for the years ended December 31, 2024 and 2023, respectively, and income from discontinued operations of \$4,856 million for the year ended December 31, 2022.

Discontinued operations activity consists of the following:

In millions	For the Years Ended December 31,		
	2024	2023	2022
M&M Divestitures <sup>1</sup>	\$ (27)	\$ 423	\$ 4,955
MOU Activity <sup>2</sup>	(36)	(426)	(74)
Indemnification activity - environmental and legal <sup>3</sup>	(24)	(50)	—
Tax related matters <sup>4</sup>	57	—	—
Other	(10)	(18)	(25)
(Loss) income from discontinued operations, net of tax	\$ (40)	\$ (71)	\$ 4,856

1. The year ended December 31, 2024 primarily includes separation costs and purchase price adjustments.

2. Includes the activity subject to the binding Memorandum of Understanding ("MOU") between Chemours, Corteva Inc ("Corteva"), E. I. du Pont de Nemours and Company ("EIDP") and the Company. The year ended December 31, 2023 includes a charge related to the Water District Settlement Agreement, as defined in Note 16.

3. Primarily related to the DWDP Separation and Distribution Agreement and Letter Agreement between Corteva and EIDP. For additional information on these matters, refer to Note 16.

4. The year ended December 31, 2024 includes tax indemnification activity associated with divested businesses.

### Biomaterials

In May 2022, the Company completed the sale of its Biomaterials business unit, which included the Company's equity method investment in DuPont Tate & Lyle Bio Products, to the Huafon Group. Total consideration received related to the sale was approximately \$240 million. For the year ended December 31, 2022, a pre-tax gain of \$26 million (\$21 million net of tax) was recorded in "Sundry income (expense) - net" in the Company's Consolidated Statements of Operations. For the year ended December 31, 2022, the results of operations of the Biomaterials business unit are reported in Corporate & Other.

## NOTE 5 - REVENUE

### Revenue Recognition

#### Products

Substantially all of DuPont's revenue is derived from product sales. Product sales consist of sales of DuPont's products to supply manufacturers and distributors. DuPont considers purchase orders, which in some cases are governed by master supply agreements, to be a contract with a customer. Contracts with customers are considered to be short-term when the time between order confirmation and satisfaction of the performance obligations is equal to or less than one year.

Revenue from product sales is recognized when the customer obtains control of the Company's product, which occurs at a point in time, usually upon shipment, with payment terms typically in the range of 30 to 60 days after invoicing depending on business and geographic region. The Company elected the practical expedient to not adjust the amount of consideration for the effects of a significant financing component for all instances in which the period between payment and transfer of the goods will be one year or less. When the Company performs shipping and handling activities after the transfer of control to the customer (e.g., when control transfers prior to shipment), these are considered fulfillment activities, and accordingly, the costs are accrued when the related revenue is recognized. Taxes collected from customers relating to product sales and remitted to governmental authorities are excluded from revenues. The Company elected to use the practical expedient to expense cash and non-cash sales incentives as the amortization period for the costs to obtain the contract would have been one year or less.

The transaction price includes estimates for reductions in revenue from customer rebates and rights of return on product sales. These amounts are estimated based upon the most likely amount of consideration to which the customer will be entitled. All estimates are based on historical experience, anticipated performance, and the Company's best judgment at the time to the extent it is probable, that a significant reversal of revenue recognized will not occur. All estimates for variable consideration are reassessed periodically.

For contracts with multiple performance obligations, the Company allocates the transaction price to each performance obligation based on the relative standalone selling price. The standalone selling price is the observable price which depicts the price as if sold to a similar customer in similar circumstances.

### Disaggregation of Revenue

The Company disaggregates its revenue from contracts with customers by segment and business or major product line and geographic region, as the Company believes it best depicts the nature, amount, timing and uncertainty of its revenue and cash flows. Refer to Note 23 for the breakout of net sales by geographic region.

Effective as of January 1, 2024, Electronics & Industrial realigned certain product lines that comprise its business units (Industrial Solutions, Interconnect Solutions and Semiconductor Technologies) that are intended to optimize business operations across the segment leading to enhanced value for customers and cost savings. The Net Trade Revenue table below has been recast for all periods presented to reflect the new structure. There was no change to total Electronics & Industrial segment net sales.

<b>Net Trade Revenue</b>			
(In millions) For the years ended December 31,	<i>2024</i>	<i>2023</i>	<i>2022</i>
Industrial Solutions	\$ 1,922	\$ 1,756	\$ 1,633
Interconnect Solutions	1,822	1,688	2,045
Semiconductor Technologies	2,186	1,893	2,239
Electronics & Industrial	\$ 5,930	\$ 5,337	\$ 5,917
Safety Solutions	\$ 2,375	\$ 2,519	\$ 2,649
Shelter Solutions	1,640	1,655	1,815
Water Solutions	1,408	1,459	1,493
Water & Protection	\$ 5,423	\$ 5,633	\$ 5,957
Retained Businesses <sup>1</sup>	\$ 1,033	\$ 1,098	\$ 1,067
Other <sup>2</sup>	—	—	76
Corporate & Other	\$ 1,033	\$ 1,098	\$ 1,143
Total	\$ 12,386	\$ 12,068	\$ 13,017

1. Net sales reflected in Retained Businesses includes the Auto Adhesives & Fluids, Multibase™ and Tedlar® businesses.

2. Net sales reflected in Other includes activity of the previously divested Biomaterials business.

### Contract Balances

From time to time, the Company enters into arrangements in which it receives payments from customers based upon contractual billing schedules. The Company records accounts receivables when the right to consideration becomes unconditional. Contract liabilities primarily reflect deferred revenue from advance payment for product that the Company has received from customers. The Company classifies deferred revenue as current or noncurrent based on the timing of when the Company expects to recognize revenue.

Revenue recognized for the years ended December 31, 2024 and 2023 from amounts included in contract liabilities at the beginning of the period was insignificant. The Company did not recognize any asset impairment charges related to contract assets during the period.

<b>Contract Balances</b>		
In millions	<i>December 31, 2024</i>	<i>December 31, 2023</i>
Accounts receivable - trade <sup>1</sup>	\$ 1,561	\$ 1,543
Deferred revenue - current <sup>2</sup>	\$ 2	\$ 1
Deferred revenue - non-current <sup>3</sup>	\$ 36	\$ 22

1. Included in "Accounts and notes receivable - net" in the Consolidated Balance Sheets.

2. Included in "Accrued and other current liabilities" in the Consolidated Balance Sheets.

3. Included in "Other noncurrent obligations" in the Consolidated Balance Sheets.

## NOTE 6 - RESTRUCTURING AND ASSET RELATED CHARGES - NET

The Company records restructuring liabilities that represent nonrecurring charges in connection with simplifying certain organizational structures and operations, including operations related to transformational projects such as divestitures and acquisitions. Charges for restructuring programs and asset related charges, which includes asset impairments, were \$87 million, \$146 million and \$155 million for the years ended December 31, 2024, 2023 and 2022, respectively. These charges were recorded in "Restructuring and asset related charges - net" in the Consolidated Statements of Operations. The total liability related to restructuring programs was \$48 million and \$107 million at December 31, 2024 and December 31, 2023, respectively, recorded in "Accrued and other current liabilities" in the Consolidated Balance Sheets. Inventory write-offs associated with restructuring programs are recorded to "Cost of Sales" in the Consolidated Statements of Operations. Restructuring activity consists of the following programs:

### 2023-2024 Restructuring Program

In December 2023, the Company approved targeted restructuring actions to capture near-term cost reductions due to macroeconomic factors as well as to further simplify certain organizational structures following the Spectrum acquisition and Delrin® Divestiture (the "2023-2024 Restructuring Program"). DuPont recorded a pre-tax charge related to the 2023-2024 Restructuring Program in the amount of \$199 million, inception to date, comprised of \$114 million of severance and related benefit costs and asset related charges of \$85 million. In connection with the 2023-2024 Restructuring Program, the Company recorded \$25 million of net inventory write-offs in "Cost of Sales" within the Consolidated Statements of Operations for the year ended December 31, 2024. The inventory write-offs are related to plant line closures within the Water & Protection segment. A raw material was written down to salvage value as it was only utilizable on the closed lines which were based on outdated technology and has a limited third party resale market. Refer to Note 23 for significant items by segment.

The following table summarizes the charges incurred by segment related to the 2023-2024 Restructuring Program:

<b>2023-2024 Restructuring Program Charges by Segment</b>			
(In millions) For the Year Ended December 31,		<i>2024</i>	<i>2023</i>
Electronics & Industrial	\$	2	\$ 21
Water & Protection		50	57
Corporate & Other		37	32
Total	\$	89	\$ 110

The following table summarizes the activities related to the 2023-2024 Restructuring Program:

<b>2023-2024 Restructuring Program</b>	<i>Severance and Related Benefit Cost</i>	<i>Asset Related Charges</i>	<i>Total</i>
In millions			
Reserve balance at December 31, 2022	\$ —	\$ —	\$ —
Restructuring charges	80	30	110
Reductions against the reserve	(1)	(30)	(31)
Reserve balance at December 31, 2023	\$ 79	\$ —	\$ 79
Restructuring charges	34	55	89
Reductions against the reserve	(3)	(55)	(58)
Cash payments	(63)	—	(63)
Reserve balance at December 31, 2024	\$ 47	\$ —	\$ 47

At December 31, 2024 and 2023, total liabilities related to the 2023-2024 Restructuring Program were \$47 million and \$79 million, respectively, for severance and related benefit costs, recognized in "Accrued and other current liabilities" in the Consolidated Balance Sheets. Actions related to the 2023-2024 Restructuring Program are substantially complete.

### 2022 Restructuring Program

In October 2022, the Company approved targeted restructuring actions to capture near-term cost reductions and to further simplify certain organizational structures following the M&M Divestitures (the "2022 Restructuring Program"). The Company recorded a pre-tax charge related to the 2022 Restructuring Program in the amount of \$94 million inception-to-date, comprised of \$80 million of severance and related benefit costs and asset related charges of \$14 million. The Company recorded pre-tax restructuring benefits of \$2 million and charges of \$35 million for the years ended December 31, 2024 and 2023, respectively.

The following table summarizes the charges incurred by segment related to the 2022 Restructuring Program:

<b>2022 Restructuring Program Charges by Segment</b> (In millions) For the years ended December 31,	<i>2024</i>	<i>2023</i>	<i>2022</i>
Electronics & Industrial	\$ 3	\$ 29	\$ 23
Water & Protection	—	(2)	16
Corporate & Other	(5)	8	22
<b>Total</b>	<b>\$ (2)</b>	<b>\$ 35</b>	<b>\$ 61</b>

At December 31, 2024 and 2023, total liabilities related to the 2022 Restructuring Program were \$1 million and \$27 million for severance and related benefit costs, recognized in "Accrued and other current liabilities" in the Consolidated Balance Sheets. Actions related to the 2022 Restructuring Program are substantially complete.

#### **Equity Method Investment Impairment Related Charges**

In connection with the M&M Divestitures, in the first quarter of 2022 a portion of an equity method investment was reclassified to "Assets of discontinued operations" within the Consolidated Balance Sheets. The reclassification served as a triggering event requiring the Company to perform an impairment analysis on the retained portion of the equity method investment held within "Investments and noncurrent receivables" on the Consolidated Balance Sheets. The fair value of the retained equity method investment was estimated using a discounted cash flow model (a form of the income approach). The Company's assumptions in estimating fair value utilize Level 3 inputs and include projected revenue growth, gross margins, EBITDA margins, weighted average costs of capital, and terminal growth rates. The Company determined the fair value of the retained equity method investment was below the carrying value and had no expectation the fair value would recover in the short-term due to the current economic environment. As a result, the Company concluded the impairment was other-than-temporary and, in March 2022, recorded a pre-tax impairment charge of \$94 million (\$65 million net of tax) in "Restructuring and asset related charges - net" in the Consolidated Statements of Operations for the year ended December 31, 2022 related to the Electronics & Industrial segment. No impairment was required to be recorded for the portion of the equity method investment previously included within "Assets of discontinued operations."

## NOTE 7 - SUPPLEMENTARY INFORMATION

<b>Sundry Income (Expense) - Net</b>			
(In millions) For the years ended December 31,	2024	2023	2022
Non-operating pension and other post-employment benefit ("OPEB") credits (costs)	\$ 18	\$ (9)	\$ 28
Interest income <sup>1, 2</sup>	73	155	50
Net gain on divestiture and sales of other assets and investments <sup>3, 4, 5</sup>	20	19	78
Foreign exchange gains (losses), net	3	(73)	15
Loss on debt extinguishment <sup>6</sup>	(74)	—	—
Interest rate swap mark-to-market loss <sup>7</sup>	(138)	—	—
Miscellaneous income (expenses) - net	22	10	20
Sundry income (expense) - net	\$ (76)	\$ 102	\$ 191

1. The years ended December 31, 2024 and 2023 include non-cash interest income of \$26 million and \$4 million, respectively, related to the \$350 million Delrin® related party note receivable. Refer to Note 4 for additional information.
2. The year ended December 31, 2023 includes interest on cash and marketable securities. Fluctuations in interest income are due to changes in cash balances and/or changes in interest rates.
3. The year ended December 31, 2024 primarily reflects income related to gains on sale of intellectual property.
4. The year ended December 31, 2023 primarily reflects income related to a land sale within the Water & Protection segment and gain adjustments from previously divested businesses.
5. The year ended December 31, 2022 primarily reflects income of \$26 million related to the gain on sale of the Biomaterials business unit and income of \$37 million related to the sale of a land use right within the Water & Protection segment.
6. Reflects the loss on the partial redemption of an aggregate principal amount of the 2038 Notes. Refer to Note 15 for further details.
7. Includes the mark-to-market loss related to the 2022 Swaps and 2024 Swaps. Refer to Note 21 for further details.

### Cash, Cash Equivalents and Restricted Cash

At December 31, 2024 and 2023, the Company had restricted cash of \$6 million and \$411 million, respectively, within "Restricted cash and cash equivalents" in the Consolidated Balance Sheets. At December 31, 2024, the Company also had \$36 million, within "Restricted cash and cash equivalents - noncurrent", which is related to the MOU escrow account deposits. During the second quarter 2024, the judgment related to the Water District Settlement Fund became final and therefore \$408 million was removed from "Restricted cash and cash equivalents". Additional information can be found in Note 16.

### Accrued and Other Current Liabilities

"Accrued and other current liabilities" in the Consolidated Balance Sheets were \$1,031 million at December 31, 2024 and \$1,269 million at December 31, 2023. "Accrued and other current liabilities" at December 31, 2023 includes approximately \$405 million related to a settlement agreement further discussed in Note 16. Accrued payroll, which is a component of "Accrued and other current liabilities" was \$383 million at December 31, 2024 and \$250 million at December 31, 2023. No other component of "Accrued and other current liabilities" was more than five percent of total current liabilities at December 31, 2024 and 2023.

## NOTE 8 - INCOME TAXES

<b>Geographic Allocation of Income (Loss) and Provision for (Benefit from) Income Taxes</b>			
(In millions) For the years ended December 31,	2024	2023	2022

Property	(360)	(343)
Intangibles	(876)	(999)
Total deferred tax liabilities	\$ (1,546)	\$ (1,679)
Total net deferred tax liability	\$ (669)	\$ (818)

1. Primarily related to recorded tax benefits and the non-realizability of tax losses and credit carryforwards from operations in the United States, Europe and Asia Pacific.

Included in the 2024 and 2023 deferred tax asset and liability amounts above is \$356 million and \$410 million, respectively, of a net deferred tax liability related to the Company's investment in DuPont Specialty Products USA, LLC, which is a partnership for U.S. federal income tax purposes. The Company and its subsidiaries own in aggregate 100 percent of DuPont Specialty Products USA, LLC and the assets and liabilities of DuPont Specialty Products USA, LLC are included in the Consolidated Financial Statements of the Company.

<b>Operating Loss and Tax Credit Carryforwards</b> (In millions) As of December 31,	<i>Deferred Tax Asset</i>	
	<i>2024</i>	<i>2023</i>
<b>Operating loss carryforwards</b>		
Expire within 5 years	\$ 5	\$ 40
Expire after 5 years or indefinite expiration	617	624
Total operating loss carryforwards	\$ 622	\$ 664
<b>Tax credit carryforwards</b>		
Expire within 5 years	\$ 40	\$ 37
Expire after 5 years or indefinite expiration	138	169
Total tax credit carryforwards	\$ 178	\$ 206
Total Operating Loss and Tax Credit Carryforwards	\$ 800	\$ 870

<b>Total Gross Unrecognized Tax Benefits</b> (In millions)	2024	2023	2022
Total unrecognized tax benefits at January 1,	\$ 473	\$ 470	\$ 351
Decreases related to positions taken on items from prior years	(32)	(4)	(4)
Increases related to positions taken on items from prior years	17	3	4
Increases related to positions taken in the current year	5	18	164
Settlement of uncertain tax positions with tax authorities	(21)	(10)	(10)
Decreases due to expiration of statutes of limitations	(5)	(9)	—
Exchange (gain) loss	(9)	5	(9)
Divestiture of M&M	—	—	(26)
Total unrecognized tax benefits at December 31, <sup>1</sup>	\$ 428	\$ 473	\$ 470
Total unrecognized tax benefits that, if recognized, would impact the effective tax rate of continuing operations	\$ 284	\$ 329	\$ 338
Total amount of interest and penalties (benefit) recognized in "Provision for (benefit from) income taxes on continuing operations"	\$ 7	\$ 8	\$ 3
Total accrual for interest and penalties associated with unrecognized tax benefits	\$ 43	\$ 28	\$ 16

1. Total unrecognized tax benefits includes \$140 million, \$141 million and \$128 million of benefits related to discontinued operations at December 31, 2024, 2023 and 2022.

Each year the Company files hundreds of tax returns in the various national, state and local income taxing jurisdictions in which it operates. These tax returns are subject to examination and possible challenge by the tax authorities. The Company has ongoing federal, state and international income tax audits in various jurisdictions and evaluates uncertain tax positions that may be challenged by local tax authorities. The impact, if any, of these audits to the Company's unrecognized tax benefits is not estimable. Positions challenged by the tax authorities may be settled or appealed by the Company. As a result, there is an uncertainty in income taxes recognized in the Company's financial statements in accordance with accounting for income taxes and accounting for uncertainty in income taxes. The ultimate resolution of such uncertainties is not expected to have a material impact on the Company's results of operations.

Tax years that remain subject to examination for the Company's major tax jurisdictions are shown below:

<b>Tax Years Subject to Examination by Major Tax Jurisdiction at December 31, 2024</b>	<i>Earliest Open Year</i>
<i>Jurisdiction</i>	
Brazil	2019
Canada	2017
China	2014
Denmark	2020
Germany	2019
Japan	2018
The Netherlands	2019
Switzerland	2019
United States:	
Federal income tax <sup>1</sup>	2012
State and local income tax	2012

1. The U.S. Federal income tax jurisdiction is open back to 2012 with respect to EIDP pursuant to the DWDP Tax Matters Agreement.

Undistributed earnings of foreign subsidiaries and related companies that are deemed to be permanently invested amounted to \$7,024 million as of December 31, 2024. In addition to the U.S. federal tax imposed by the Tax Cuts and Jobs Act ("The Act") on all accumulated unrepatriated earnings through December 31, 2017, The Act introduced additional U.S. federal tax on foreign earnings, effective as of January 1, 2018. The undistributed foreign earnings at December 31, 2024 may still be subject to certain taxes upon repatriation, primarily where foreign withholding taxes apply. It is not practicable to calculate the unrecognized deferred tax liability on undistributed foreign earnings due to the complexity of the hypothetical calculation.

**Intended Electronics Separation**

The Company is assessing the tax consequences of the Intended Electronics Separation, which if implemented may result in certain tax attributes being realized. The Company recorded income tax expense of \$103 million for the year ended December 31, 2024, in connection with certain internal restructurings related to the Intended Electronics Separation. These restructurings in certain instances relied upon legal entity and asset valuations. The aforementioned tax expense is included in “Provision for (benefit from) income taxes on continuing operations” in the Consolidated Statements of Operations.

**2023 Internal Restructurings**

The Company recorded a deferred tax benefit of \$324 million for the year ended December 31, 2023, in connection with certain internal restructurings. These restructurings in certain instances relied upon legal entity and asset valuations. The aforementioned tax benefit is included in “Provision for (benefit from) income taxes on continuing operations” in the Consolidated Statements of Operations.

**M&M Divestitures**

The Company recorded a net tax expense of \$21 million and \$127 million for the year ended December 31, 2023 and 2022, respectively, in connection with certain internal restructurings. These restructurings involve both legal entities within the M&M Businesses and legal entities retained by DuPont and in certain instances relied upon legal entity valuations. The aforementioned net tax expense is included in “Income from discontinued operations, net of tax” in the Consolidated Statements of Operations. See Note 4 for additional information on the M&M Divestitures.

**Laird PM Acquisition**

In connection with the integration of Laird PM, the Company completed certain internal restructurings that were determined to be tax free under the applicable sections of the Internal Revenue Code. If the aforementioned transactions were to fail to qualify for non-recognition treatment for U.S. federal income tax purposes, then the Company could be subject to significant tax liability.

**N&B Transaction**

Certain internal distributions and reorganizations that occurred during 2021 and 2020 in preparation for the N&B Transaction and the external distribution in 2021 qualified as tax-free transactions under the applicable sections of the Internal Revenue Code. If the aforementioned transactions were to fail to qualify for non-recognition treatment for U.S. federal income tax purposes, then the Company could be subject to significant tax liability. Under the N&B Tax Matters Agreement, the Company would generally be allocated such liability and not be indemnified, unless certain non qualifying actions are undertaken by N&B or IFF. To the extent that the Company is responsible for any such liability, there could be a material adverse impact on the Company's business, financial condition, results of operations and cash flows in future reporting periods.

**DWDP**

For periods between the DWDP Merger and the DWDP Distributions, DuPont's consolidated federal income tax group and consolidated tax return included the Dow and Corteva entities. Generally, the consolidated tax liability of the DuPont U.S. tax group for each year was apportioned among the members of the consolidated group in accordance with the terms of the Amended and Restated DWDP Tax Matters Agreement. DuPont, Corteva and Dow intend that to the extent Federal and/or State corporate income tax liabilities are reduced through the utilization of tax attributes of the other, settlement of any receivable and payable generated from the use of the other party's sub-group attributes will be in accordance with the Amended and Restated DWDP Tax Matters Agreement.

## NOTE 9 - EARNINGS PER SHARE CALCULATIONS

The following tables provide earnings per share calculations for the years ended December 31, 2024, 2023 and 2022:

<b>Net Income for Earnings Per Share Calculations - Basic &amp; Diluted</b> In millions	2024	2023	2022
Income from continuing operations, net of tax	\$ 778	\$ 533	\$ 1,061
Net income from continuing operations attributable to noncontrolling interests	35	39	53
Income from continuing operations attributable to common stockholders	\$ 743	\$ 494	\$ 1,008
(Loss) income from discontinued operations, net of tax	(40)	(71)	4,856
Net loss from discontinued operations attributable to noncontrolling interests	—	—	(4)
(Loss) income from discontinued operations attributable to common stockholders	(40)	(71)	4,860
Net income available to common stockholders	\$ 703	\$ 423	\$ 5,868

<b>Earnings Per Share Calculations - Basic</b> Dollars per share	2024	2023	2022
Earnings from continuing operations attributable to common stockholders	\$ 1.77	\$ 1.10	\$ 2.02
(Loss) earnings from discontinued operations, net of tax	(0.10)	(0.16)	9.75
Earnings available to common stockholders <sup>1</sup>	\$ 1.68	\$ 0.94	\$ 11.77

<b>Earnings Per Share Calculations - Diluted</b> Dollars per share	2024	2023	2022
Earnings from continuing operations attributable to common stockholders	\$ 1.77	\$ 1.09	\$ 2.02
(Loss) earnings from discontinued operations, net of tax	(0.10)	(0.16)	9.73
Earnings available to common stockholders <sup>1</sup>	\$ 1.67	\$ 0.94	\$ 11.75

<b>Share Count Information</b> Shares in Millions	2024	2023	2022
Weighted-average common shares - basic	419.2	449.9	498.5
Plus dilutive effect of equity compensation plans	1.4	1.3	0.9
Weighted-average common shares - diluted	420.6	451.2	499.4
Stock options, restricted stock units, and performance-based restricted stock units excluded from EPS calculations <sup>2</sup>	1.1	2.6	4.1

1. Earnings per share amounts are computed independently for income from continuing operations, income from discontinued operations and net income attributable to common stockholders. As a result, the per share amounts from continuing operations and discontinued operations may not equal the total per share amounts for net income attributable to common stockholders.

2. These outstanding options to purchase shares of common stock, restricted stock units and performance based restricted stock units were excluded from the calculation of diluted earnings per share because the effect of including them would have been antidilutive.

**NOTE 10 - ACCOUNTS AND NOTES RECEIVABLE - NET**

In millions	December 31, 2024	December 31, 2023
Accounts receivable – trade <sup>1</sup>	\$ 1,534	\$ 1,513
Income tax receivable	81	301
Other <sup>2</sup>	584	556
Total accounts and notes receivable - net	\$ 2,199	\$ 2,370

1. Accounts receivable – trade is net of allowances of \$26 million at December 31, 2024 and \$40 million at December 31, 2023. Allowances are equal to the estimated uncollectible amounts and current expected credit loss. That estimate is based on historical collection experience, current economic and market conditions, and review of the current status of customers' accounts.

2. Other includes receivables in relation to value added tax, indemnification assets, general sales tax and other taxes, and other receivables. No individual group represents more than ten percent of total receivables.

Accounts receivable are carried at amounts that approximate fair value.

**NOTE 11 - INVENTORIES**

In millions	December 31, 2024	December 31, 2023
Finished goods	\$ 1,162	\$ 1,184
Work in process	509	487
Raw materials	332	350
Supplies	127	126
Total inventories	\$ 2,130	\$ 2,147

**NOTE 12 - PROPERTY, PLANT AND EQUIPMENT**

In millions	Estimated Useful Lives (Years)	December 31, 2024	December 31, 2023
Land and land improvements	1 - 25	\$ 455	\$ 449
Buildings	1 - 50	2,238	2,121
Machinery, equipment, and other	1 - 25	7,657	7,306
Construction in progress		606	849
Total property, plant and equipment		\$ 10,956	\$ 10,725
Total accumulated depreciation		\$ 5,188	\$ 4,841
Total property, plant and equipment - net		\$ 5,768	\$ 5,884

In millions	2024	2023	2022
Depreciation expense	\$ 599	\$ 547	\$ 545

## NOTE 13 - NONCONSOLIDATED AFFILIATES

The Company's investments in companies accounted for using the equity method ("nonconsolidated affiliates") are recorded in "Investments and other noncurrent receivables" in the Consolidated Balance Sheets. The Company's net investment in nonconsolidated affiliates at December 31, 2024 and December 31, 2023 is \$778 million and \$788 million, respectively. In the fourth quarter of 2023, the Company acquired an equity interest in Derby Group Holdings LLC ("Derby"). See Note 4 and below for further information. In the first quarter of 2022, the Company recorded an other-than-temporary impairment on an equity method investment. See Note 6 for more information.

The Company's dividends received from nonconsolidated affiliates is shown in the following table:

<b>Dividends Received from Nonconsolidated Affiliates</b>			
(In millions) For the years ended December 31,	<i>2024</i>	<i>2023</i>	<i>2022</i>
Dividends from nonconsolidated affiliates	\$ 73	\$ 71	\$ 103

The Company had an ownership interest in seven nonconsolidated affiliates, with ownership interest (direct and indirect) ranging from 19.9 percent to 50 percent at December 31, 2024.

Sales to nonconsolidated affiliates represented less than 2 percent of total net sales for the years ended December 31, 2024, 2023 and 2022. Purchases from nonconsolidated affiliates represented less than 3 percent of "Cost of sales" for the years ended December 31, 2024 and 2023 and less than 4 percent for the year ended December 31, 2022.

### Derby Equity Interest

As a result of the Delrin® Divestiture, on November 1, 2023, the Company received a 19.9 percent non-controlling equity interest in Derby. The financial results of Derby, subsequent to the transaction date, are included in DuPont's Consolidated Financial Statements with a three-month lag, using the equity method of accounting and with intercompany profits eliminated in accordance with DuPont's accounting policy. DuPont's equity interest in Derby Holdings Group is reflected in Corporate & Other. For the year ended December 31, 2024, the Company recorded a loss of \$7 million in "Equity in earnings of nonconsolidated affiliates" on the Consolidated Statement of Operations which includes the impact of approximately \$17 million for transaction costs incurred by Derby and amortization expense from purchase accounting. The carry values of the equity interest as of December 31, 2024 and 2023, were \$117 million and \$121 million, respectively. The carry values of the note receivable as of December 31, 2024 and 2023, were \$254 million and \$228 million, respectively.

For the years ended December 31, 2024 and 2023, Company recognized non-cash interest income on the Derby Note Receivable of \$26 million and \$4 million, respectively, reported in "Sundry income (expense) - net" on the Consolidated Statements of Operations, and accreted to the carrying value of the note receivable.

## NOTE 14 - GOODWILL AND OTHER INTANGIBLE ASSETS

The following table summarizes changes in the carrying amount of goodwill for the years ended December 31, 2024 and 2023:

In millions	<i>Electronics &amp; Industrial</i>	<i>Water &amp; Protection</i>	<i>Corporate &amp; Other</i>	<i>Total</i>
Balance at December 31, 2022	\$ 9,397	\$ 6,656	\$ 610	\$ 16,663
Goodwill recognized for Spectrum Acquisition <sup>1</sup>	818	—	—	818
Currency Translation Adjustment	(10)	48	5	43
Impairment	—	(804)	—	(804)
Balance at December 31, 2023	\$ 10,205	\$ 5,900	\$ 615	\$ 16,720
Goodwill recognized for Donatelle Plastics Acquisition <sup>2</sup>	114	—	—	114
Goodwill recognized for Spectrum Acquisition <sup>1,3</sup>	(4)	—	—	(4)
Currency Translation Adjustment	(113)	(145)	(9)	(267)
Other	4	—	—	4
Balance at December 31, 2024	\$ 10,206	\$ 5,755	\$ 606	\$ 16,567

1. On August 1, 2023, DuPont completed the acquisition of Spectrum, which is included in the Electronics & Industrial segment. See Note 3 for additional information.

2. On July 28, 2024, DuPont completed the acquisition of Donatelle Plastics, which is included in the Electronics & Industrial segment. See Note 3 for additional information.

3. In the third quarter 2024, the Company finalized the working capital settlements which impacted the residual goodwill recorded. See Note 3 for additional information.

The Company tests goodwill for impairment annually during the fourth quarter, or more frequently when events or changes in circumstances indicate that the fair value is below carrying value. As a result of the related acquisition method of accounting in connection with the DWDP Merger, EIDP's assets and liabilities were measured at fair value resulting in increases to the Company's goodwill and other intangible assets. The fair value valuation increased the risk that any declines in financial projections, including changes to key assumptions, could have a material, negative impact on the fair value of the Company's reporting units and assets, and therefore could result in an impairment. The Company's significant assumptions in these analyses include projected revenue growth, EBITDA margin, weighted average cost of capital and terminal growth rates and the tax rate for the income approach and projected EBITDA and derived multiples from comparable market transactions for the market approach.

The Company's estimates of future cash flows are based on current regulatory and economic climates, recent operating results, and planned business strategies. Should future cash flows differ materially from the Company's estimate, or should there be a future market downturn, the Company may be required to perform additional impairment analyses that could result in a non-cash goodwill impairment charge.

As part of its annual impairment test at October 1, 2024, the Company performed qualitative testing on seven of its reporting units and performed quantitative testing on one of its reporting units. The qualitative evaluation is an assessment of factors, including reporting unit or asset specific operating results and cost factors, as well as industry, market and macroeconomic conditions, to determine whether it is more likely than not (more than 50 percent) that the fair value of a reporting unit or asset is less than the respective carrying amount, including goodwill. The results of the qualitative assessments indicated that it is not more likely than not that the fair values of the seven reporting units were less than their carrying values. The Protection reporting unit (aggregation of the Safety and Shelter businesses), within the Water & Protection segment, was tested by applying the quantitative assessment. The Company used a combination of discounted cash flow models (a form of the income approach) and the Guideline Public Company Method (a form of the market approach). No impairments were identified. The estimated fair value of the Protection reporting unit, exceeded its carrying value by approximately five percent. Given this level of fair value, the reporting unit remains at risk for future impairment. Should adverse impacts from macroeconomic conditions, or other events occur indicating that the estimated future cash flows of the reporting unit have declined and the reporting unit is unable to meet or exceed its projections, the Company may be required to record future non-cash impairment charges related to goodwill. As of the date of the quantitative assessment, the carrying amount of goodwill within this reporting unit was \$4.8 billion.

Effective as of January 1, 2024, Electronics & Industrial realigned certain of its product lines making up its lines of business (Industrial Solutions, Interconnect Solutions and Semiconductor Technologies). During the first quarter of 2024, the realignment of the businesses within Electronics & Industrial served as a triggering event requiring the Company to perform an impairment analysis related to goodwill carried by certain reporting units as of January 1, 2024, prior to the realignment. As part of the realignment, the Company assessed and re-defined certain reporting units effective January 1, 2024, including reallocation of goodwill on a relative fair value basis, as applicable, to reporting units impacted. Goodwill impairment analyses were then performed for reporting units impacted in the Electronics and Industrial segment and no impairments were identified. The fair value of each reporting unit tested was estimated using a combination of a discounted cash flow model and market approach. The Company's assumptions in estimating fair value include projected revenue growth, gross margins, selling, administrative, research and development expenses (SARD), capital expenditures, weighted average cost of capital, terminal growth rates, and the tax rate for the income approach and projected EBITDA and derived multiples from comparable market transactions for the market approach.

In connection with the preparation of the full year 2023 financial statements, the continuation of previously disclosed challenging macroeconomic environment in the residential, non-residential, and the repair and remodel construction markets, as well as incremental channel inventory destocking in healthcare and industrial end-markets served as a triggering event requiring the Company to perform an impairment analysis of the goodwill associated with its Protection reporting unit as of December 31, 2023. As a result of the analysis performed, the Company concluded that the carrying amount of the Protection reporting unit exceeded its fair value resulting in a non-cash goodwill impairment charge of \$804 million, which is recorded within "Goodwill impairment charge" on the Consolidated Statements of Operations for the year ended December 31, 2023.

## Other Intangible Assets

The gross carrying amounts and accumulated amortization of other intangible assets by major class are as follows:

In millions	December 31, 2024			December 31, 2023		
	Gross Carrying Amount	Accum Amort	Net	Gross Carrying Amount	Accum Amort	Net
Intangible assets with finite lives:						
Developed technology	\$ 1,975	\$ (1,124)	\$ 851	\$ 2,079	\$ (1,092)	\$ 987
Trademarks/tradenames	901	(451)	450	924	(414)	510
Customer-related	5,868	(2,623)	3,245	5,815	(2,329)	3,486
Other	27	(7)	20	28	(1)	27
Total other intangible assets with finite lives	\$ 8,771	\$ (4,205)	\$ 4,566	\$ 8,846	\$ (3,836)	\$ 5,010
Intangible assets with indefinite lives:						
Trademarks/tradenames	804	—	804	804	—	804
Total other intangible assets with indefinite lives	\$ 804	\$ —	\$ 804	\$ 804	\$ —	\$ 804
Total	\$ 9,575	\$ (4,205)	\$ 5,370	\$ 9,650	\$ (3,836)	\$ 5,814

During the fiscal year 2024, the Company retired fully amortized assets of \$145 million of developed technology intangible assets and \$27 million of trademarks/tradename intangible assets.

During the fiscal year 2023, the Company retired fully amortized assets of \$399 million of customer-related intangible assets and \$25 million of other intangible assets.

The following table provides the net carrying value of other intangible assets:

Net Intangibles In millions	December 31, 2024	December 31, 2023
Electronics & Industrial <sup>1</sup>	\$ 3,337	\$ 3,521
Water & Protection	1,957	2,206
Corporate & Other	76	87
Total	\$ 5,370	\$ 5,814

1. Includes intangible assets acquired as part of the Donatelle and Spectrum Acquisitions. See Note 3 for additional information.

Total estimated amortization expense for the next five fiscal years is as follows:

Estimated Amortization Expense In millions	
2025	\$ 555
2026	\$ 527
2027	\$ 480
2028	\$ 427
2029	\$ 337

## NOTE 15 - SHORT-TERM BORROWINGS, LONG-TERM DEBT AND AVAILABLE CREDIT FACILITIES AND OTHER OBLIGATIONS

The following tables summarize the Company's short-term borrowings, long-term debt and finance lease obligations:

<b>Short-Term Borrowings</b> (In millions)	<i>December 31, 2024</i>	<i>December 31, 2023</i>
Long-term debt due within one year <sup>1</sup>	\$ 1,848	\$ —

1. Presented net of current portion of unamortized debt issuance costs.

<b>Long-Term Debt</b>	<i>December 31, 2024</i>		<i>December 31, 2023</i>	
In millions	<i>Amount</i>	<i>Weighted Average Rate</i>	<i>Amount</i>	<i>Weighted Average Rate</i>
Promissory notes and debentures <sup>1</sup> :				
Final maturity 2025	\$ 1,850	4.49 %	\$ 1,850	4.49 %
Final maturity 2028	2,250	4.73 %	2,250	4.73 %
Final maturity 2030 and thereafter <sup>2</sup>	3,102	5.47 %	3,741	5.46 %
Other facilities:				
Finance lease obligations	9		10	
Less: Unamortized debt discount and issuance costs	40		51	
Less: Long-term debt due within one year	1,848		—	
<b>Total</b>	<b>\$ 5,323</b>		<b>\$ 7,800</b>	

1. Represents senior unsecured notes (the "2018 Senior Notes"), which are senior unsecured obligations of the Company.

2. Includes an unamortized basis adjustment of \$48 million related to the dedesignation of the Company's interest rate swap agreements and a fair value hedging adjustment of \$59 million, related to the Company's interest rate swap agreements at December 31, 2024 and 2023, respectively. See Note 21 for additional information.

In June 2024, the company partially redeemed \$650 million aggregate principal amount of 2038 Notes at the redemption price set forth in the indenture of the 2038 Notes. The Company funded the repayment with cash on hand. Further details are discussed below. In November 2023, the \$300 million Floating Rate Senior Unsecured Notes matured and was repaid at par plus the accrued and unpaid interest. The Company funded the repayment with cash on hand.

Principal payments of long-term debt for the five succeeding fiscal years are as follows:

<b>Maturities of Long-Term Debt for Next Five Years at December 31, 2024</b>	<i>Total</i>
In millions	
2025	\$ 1,850
2026	\$ —
2027	\$ —
2028	\$ 2,250
2029	\$ —

The estimated fair value of the Company's long-term borrowings was determined using Level 2 inputs within the fair value hierarchy, as described in Note 22. Based on quoted market prices for the same or similar issues, or on current rates offered to the Company for debt of the same remaining maturities, the fair value of the Company's long-term borrowings, not including long-term debt due within one year, was \$5,368 million and \$7,995 million at December 31, 2024 and 2023, respectively.

### Available Committed Credit Facilities

The following table summarizes the Company's credit facilities:

<b>Committed and Available Credit Facilities at December 31, 2024</b>					
In millions	<i>Effective Date</i>	<i>Committed Credit</i>	<i>Credit Available</i>	<i>Maturity Date</i>	<i>Interest</i>
Five-Year Revolving Credit Facility	April 2022	\$ 2,500	\$ 2,484	April 2027	Floating Rate
2024 \$1B Revolving Credit Facility	May 2024	1,000	1,000	May 2025	Floating Rate
<b>Total Committed and Available Credit Facilities</b>		<b>\$ 3,500</b>	<b>\$ 3,484</b>		

In July 2022, the Company drew down \$600 million under the 2022 \$1B Revolving Credit Facility in order to facilitate certain intercompany internal restructurings related to the M&M Divestiture. The Company repaid the borrowing in September 2022.

### Capital Structure Actions

DuPont, with its advisors, is evaluating considerations related to the design of the capital structures for the Previously Intended Business Separations and the Intended Electronics Separation. On June 5, 2024, DuPont issued a notice of redemption to the bond trustee with respect to a partial redemption of \$650 million aggregate principal amount of its 2038 notes, (the "2038 Notes") in accordance with their terms. The partial redemption occurred on June 15, 2024, at the redemption price set forth in the indenture of the 2038 Notes. The Company funded the repayment with cash on hand. As a result of the early redemption of the debt for the year ended December 31, 2024, the Company incurred a loss of approximately \$74 million to "Sundry income (expense) - net" within the Consolidated Statements of Operations, which consisted of the redemption premium, write-off of the deferred debt issuance costs and the basis adjustment from fair value hedge accounting on the Company's interest rate swap agreements associated with this borrowing. See Note 21 for further detail on the dedesignation of the Company's interest rate swap agreements.

### Revolving Credit Facilities

On May 8, 2024, the Company entered into a \$1 billion 364-day revolving credit facility (the "2024 \$1B Revolving Credit Facility"). Prior to entering the new facility, the Company held another \$1 billion 364-day revolving credit facility, entered into on May 10, 2023, (the "2023 364-Day Revolving Credit Facility"). There were no drawdowns of either facility during the year ended December 31, 2024. On April 12, 2022, the Company entered into a new \$2.5 billion five-year revolving credit facility (the "Five-Year Revolving Credit Facility"). The Five-Year Revolving Credit Facility is generally expected to remain undrawn and serve as a backstop to the Company's commercial paper and letter of credit issuance.

### Uncommitted Credit Facilities and Outstanding Letters of Credit

Unused bank credit lines on uncommitted credit facilities were approximately \$650 million at December 31, 2024. These lines are available to support short-term liquidity needs and general corporate purposes including letters of credit. Outstanding letters of credit were approximately \$124 million at December 31, 2024. These letters of credit support commitments made in the ordinary course of business.

### Debt Covenants and Default Provisions

The Company's indenture covenants include customary limitations on liens, sale and leaseback transactions, and mergers and consolidations, subject to certain limitations. The 2018 Senior Notes also contain customary default provisions. The Five-Year Revolving Credit Facility and the 2024 \$1B Revolving Credit Facility contain a financial covenant requiring that the ratio of Total Indebtedness to Total Capitalization for the Company and its consolidated subsidiaries not exceed 0.60. At December 31, 2024, the Company was in compliance with this financial covenant. There were no material changes to the debt covenants and default provisions at December 31, 2024.

### Supplier Financing

The Company and certain of its designated suppliers, at their sole discretion, participate in a supplier financing program with a financial institution serving as an intermediary. Under this program, the Company agrees to pay the financial institution the stated amount of confirmed invoices from its designated suppliers on the same terms and on the original maturity dates of the confirmed invoices, which have a weighted average payment term of approximately 110 days. The Company does not pay any annual subscription or service fee to the financial institution, nor does the Company reimburse its suppliers for any costs they incur to participate in the program. The Company's obligations are not impacted by the suppliers' decision to participate in this program. The Company or the financial institution may terminate the agreement upon at least 30 days' notice. The amount of invoices outstanding confirmed as valid under the supplier financing programs are shown in the table below and recorded in "Accounts Payable" in the Consolidated Balance Sheets.

The following table summarizes the outstanding obligations confirmed as valid under the supplier financing programs for the year ended December 31, 2024:

<b>Supplier Financing Program Activity</b>	<i>Amount</i>
In millions	
Confirmed obligations outstanding as of January 1, 2024	\$ 97
Invoices confirmed to financial institutions	421
Confirmed invoices paid to financial institution	(413)
Foreign currency exchange impact	(1)
Confirmed obligations outstanding as of December 31, 2024	\$ 104

## NOTE 16 - COMMITMENTS AND CONTINGENT LIABILITIES

### **Litigation, Environmental Matters, and Indemnifications**

The Company and certain subsidiaries are involved in various lawsuits, claims and environmental actions that have arisen in the normal course of business with respect to product liability, patent infringement, governmental regulation, contract and commercial litigation, as well as possible obligations to investigate and mitigate the effects on the environment of the disposal or release of certain substances at various sites. In addition, in connection with divestitures and the related transactions, the Company from time to time has indemnified and has been indemnified by third parties against certain liabilities that may arise in connection with, among other things, business activities prior to the completion of the respective transactions. The term of these indemnifications, which typically pertain to environmental, tax and product liabilities, is generally indefinite. The Company records liabilities for ongoing and indemnification matters when the information available indicates that it is probable that a liability will be incurred and the amount of the loss can be reasonably estimated.

As of December 31, 2024, the Company has recorded indemnification assets of \$28 million within "Accounts and notes receivable - net" and \$298 million within "Deferred charges and other assets" and indemnification liabilities of \$178 million within "Accrued and other current liabilities" and \$237 million within "Other noncurrent obligations" within the Consolidated Balance Sheets. As of December 31, 2023, the Company has recorded indemnified assets of \$21 million within "Accounts and notes receivable - net" and \$242 million within "Deferred charges and other assets" and indemnified liabilities of \$200 million within "Accrued and other current liabilities" and \$263 million within "Other noncurrent obligations" within the Consolidated Balance Sheets.

The Company's accruals for indemnification liabilities related to the binding Memorandum of Understanding ("MOU") between Chemours, Corteva, EIDP and the Company and to the DowDuPont ("DWDP") Separation and Distribution Agreement and the Letter Agreement between the Company and Corteva (together the "Agreements") discussed below, are included in the balances above.

### ***PFAS Stray Liabilities: Future Eligible PFAS Costs***

On July 1, 2015, EIDP, a Corteva subsidiary since June 1, 2019, completed the separation of EIDP's Performance Chemicals segment through the spin-off of Chemours to holders of EIDP common stock (the "Chemours Separation"). On June 1, 2019, the Company completed the separation of its agriculture business through the spin-off of Corteva, Inc. ("Corteva"), including Corteva's subsidiary EIDP.

On January 22, 2021, the Company, Corteva, EIDP and Chemours entered into the MOU pursuant to which the parties have agreed to release certain claims that had been raised by Chemours including any claims arising out of or resulting from the process and manner in which EIDP structured or conducted the Chemours Separation, and any other claims that challenge the Chemours Separation or the assumption of Chemours Liabilities (as defined in the Chemours Separation Agreement) by Chemours and the allocation thereof, subject in each case to certain exceptions set forth in the MOU.

Pursuant to the MOU, the parties have agreed to share certain costs associated with potential future liabilities related to alleged historical releases of certain PFAS out of pre-July 1, 2015 conduct ("eligible PFAS costs") until the earlier to occur of (i) December 31, 2040, (ii) the day on which the aggregate amount of Qualified Spend, as defined in the MOU, is equal to \$4 billion or (iii) a termination in accordance with the terms of the MOU. PFAS refers to per- or polyfluoroalkyl substances, which include perfluorooctanoic acids and its ammonium salts ("PFOA").

The parties have agreed that, during the term of this sharing arrangement, Qualified Spend up to \$4 billion will be borne 50 percent by Chemours and 50 percent, up to a cap of \$2 billion, by the Company and Corteva. The Company and Corteva will split their 50 percent of Qualified Spend in accordance with the Agreements; accordingly, the Company's portion of the \$2 billion is approximately \$1.4 billion. At December 31, 2024, the Company had paid Qualified Spend of approximately \$605 million against its portion of the \$2 billion cap. After the term of this arrangement, Chemours' indemnification obligations under the Chemours Separation Agreement would continue unchanged.

In order to support and manage any potential future eligible PFAS costs, the parties also agreed to establish an escrow account (the "MOU Escrow Account"). The MOU provides that (1) no later than each of September 30, 2021 and September 30, 2022, Chemours shall deposit \$100 million and DuPont and Corteva shall together deposit \$100 million in the aggregate into the MOU Escrow Account and (2) no later than September 30 of each subsequent year through and including 2028, Chemours shall deposit \$50 million and DuPont and Corteva shall together deposit \$50 million in the aggregate into the MOU Escrow Account. Subject to the terms and conditions set forth in the MOU, each party may be permitted to defer funding in any calendar year beginning with 2022 through and including 2028. Additionally, if on December 31, 2028, the balance in the MOU Escrow Account (including interest) is less than \$700 million, Chemours will make 50 percent of the deposits and DuPont and Corteva

together will make 50 percent of the deposits necessary to restore the balance to \$700 million. Such payments will be made in a series of consecutive annual equal installments commencing on September 30, 2029 pursuant to the replenishment terms set forth in the MOU.

At December 31, 2024, each of Chemours, Corteva and DuPont have made additional deposits into the MOU Escrow Account totaling \$100 million in the aggregate. DuPont's aggregate MOU escrow deposits of \$35 million, not including interest, at December 31, 2024 are reflected in "Restricted cash and cash equivalents - noncurrent" on the Consolidated Balance Sheets.

Under the Agreements, Divested Operations and Businesses ("DDOB") liabilities of EIDP not allocated to or retained by Corteva or the Company are categorized as relating to either (i) PFAS Stray Liabilities, if they arise out of actions related to or resulting from the development, testing, manufacture or sale of PFAS; or (ii) Non-PFAS Stray Liabilities, (and together with PFAS Stray Liabilities, the "EIDP Stray Liabilities").

The Agreements provide that the Company and Corteva will each bear a certain percentage of the Indemnifiable Losses, described below, rising from EIDP Stray Liabilities and that the percentage changes upon each company meeting its respective threshold of \$150 million for PFAS Stray Liabilities and \$200 million for EIDP Stray Liabilities. In addition, for certain Non-PFAS Liabilities, ("Specified Spend Non-PFAS Liabilities"), Corteva must spend specified amounts before costs associated with such matter will be considered Indemnifiable Losses.

The Agreements provide that the Company and Corteva each bear 50 percent of the first \$300 million (\$150 million) of total Indemnifiable Losses related to PFAS Stray Liabilities. In 2023, the companies met their respective \$150 million threshold, and as a result the Company bears 71 percent of Indemnifiable Losses related to PFAS Stray Liabilities and Corteva bears 29 percent. At December 31, 2024, DuPont has accrued for future Qualified Spend and Indemnifiable Losses related to PFAS Stray Liabilities accordingly.

The \$150 million of Indemnifiable Losses incurred for PFAS Stray Liabilities has been credited against each company's \$200 million threshold. Corteva has met its \$200 million threshold. As a result, until the Company meets its \$200 million threshold, it is responsible for managing the Non-PFAS Stray Liabilities, excluding Specified Spend Non-PFAS Liabilities for which Corteva has not reached its specified spend amount, and is bearing all Indemnifiable Losses associated with such Non-PFAS Stray Liabilities. DuPont met its \$200 million threshold by December 31, 2024 and as a result, the Company will bear 71 percent and Corteva will bear 29 percent of Indemnifiable Losses related to Non-PFAS Stray Liabilities. At December 31, 2024, the Company has accrued for future Indemnifiable Losses related to Non-PFAS Stray Liabilities, including Specified Spend Non-PFAS Liabilities, accordingly.

Indemnifiable Losses, as defined in the DWDP Separation and Distribution Agreement, include, among other things, attorneys', accountants', consultants' and other professionals' fees and expenses incurred in the investigation or defense of EIDP Stray Liabilities.

In connection with the MOU and the Agreements, the Company has recognized the following indemnification liabilities related to eligible PFAS costs:

<b>Indemnification Related Liabilities Associated with the MOU</b>			
In millions	<i>December 31, 2024</i>	<i>December 31, 2023</i>	<i>Balance Sheet Classification</i>
Current indemnification liabilities	\$ 99	\$ 87	Accrued and other current liabilities
Long-term indemnification liabilities	123	119	Other noncurrent obligations
Total indemnification liabilities accrued under the MOU <sup>1</sup>	\$ 222	\$ 206	

1. As of December 31, 2024 and 2023, total indemnified liabilities accrued include \$128 million and \$139 million, respectively, related to Chemours environmental remediation activities at their site in Fayetteville, North Carolina under the Consent Order between Chemours and the North Carolina Department of Environmental Quality (the "NC DEQ").

In addition to the above, beginning the second quarter of 2023, the Company recognized a liability related to the Water District Settlement Agreement, defined below, between Chemours, Corteva, EIDP and DuPont related to the aqueous film-forming foams multi-district litigation. The judgment became final in April 2024, therefore \$408 million, including interest, is reflected as a cash outflow within cash flows from discontinued operations for the year ended December 31, 2024.

Future charges associated with the MOU will be recognized over the term of the agreement as a component of income from discontinued operations to the extent liabilities become probable and estimable.

In 2004 EIDP's reached a settlement in *Leach v. E.I. DuPont de Nemours & Co.*, which gave certain residents in Ohio and West Virginia standing to pursue personal injury claims for just six health conditions that an expert panel appointed under the Leach settlement reported in 2012 had a “probable link” (as defined in the settlement) with PFOA: pregnancy-induced hypertension, including preeclampsia; kidney cancer; testicular cancer; thyroid disease; ulcerative colitis; and diagnosed high cholesterol. After the panel reported its findings, approximately 3,550 personal injury lawsuits filed in Ohio and West Virginia state and federal courts, were consolidated in multi-district litigation in the U.S. District Court for the Southern District of Ohio (“Ohio MDL”). In 2017, Chemours and EIDP settled the Ohio MDL for \$670 million.

Post the 2017 settlement, approximately 100 additional cases were filed. EIDP and Chemours settled all but one of these cases in 2021 for \$83 million with each of the Company and EIDP contributing \$27 million and Chemours contributing \$29 million. The remaining case resulted in a jury verdict for the plaintiff which has been paid. The Company was not a defendant but made its share of the payment in accordance with the Agreements and MOU. Since that time, Plaintiffs’ counsel had approximately 70 cases that were, or were to be, filed in the Ohio MDL. Prior to the start of the first trial in September 2024, EIDP and Chemours entered into an agreement in principle providing for settlement for all pending cases in the MDL as well as additional pre-suit claims. On September 6, 2024, the parties accepted a mediator’s proposal, and the trials were postponed. The parties ultimately entered into a settlement agreement on November 13, 2024 (“2024 Settlement”). The agreement included two payments to be made, the first for approximately \$30 million, due upon receiving the dismissals for all the approximately 73 known filed and unfiled cases. A second payment of \$29 million is contingent upon the court’s order dissolving the Ohio MDL. In December 2024, the plaintiffs delivered dismissals for all cases, and filed a motion with the court to terminate the Ohio MDL and DuPont satisfied its portion (\$11 million) of the first payment. DuPont has also recorded a charge of \$10 million, representing its portion of the contingent second payment, which is accrued for as of December 31, 2024. On February 11, 2025, the court recommended a termination of the Ohio MDL. The second payment will become due if the panel overseeing the Ohio MDL accepts the court’s recommendation.

In November 2023, DuPont, Chemours and Corteva (for itself and EIDP) reached a settlement agreement with the State of Ohio designed to benefit Ohio’s natural resources and the people of the State of Ohio. Among other things, and subject to certain limitations and preservations, the settlement resolves the State’s claims relating to releases of PFAS in or into the State from the companies’ facilities and claims relating to the manufacture and sale of PFAS-containing products and the State’s claims related to AFFF. As part of the settlement, the companies agreed to pay the State of Ohio a combined total of \$110 million, 80 percent of which the State has allocated to restoration of natural resources related to operation of the Washington Works facility. The settlement will become effective and payable, upon resolution of the appeals process and entry of final judgment by the court. Consistent with the MOU, DuPont’s share of the settlement will be approximately \$39 million, which is accrued for as of December 31, 2024.

In July 2021, Chemours, Corteva (for itself and EIDP) and DuPont reached a resolution with the State of Delaware for \$50 million among other consideration, that avoids litigation and addresses potential natural resources damages from known historical and current releases by the companies in or affecting Delaware. In 2022, the companies paid the settlement consistent with the MOU. DuPont’s share was \$13 million. The settlement provides for a potential Supplemental Payment to Delaware up to a total of \$25 million, if certain conditions are met. As a result, upon the above described settlement with the State of Ohio reached in November 2023 becoming effective, a Supplemental Payment will be owed to the State of Delaware and paid in accordance to the terms of the MOU. The Company has accrued \$9 million as of December 31, 2024 related to the Supplemental Payment.

As of December 31, 2024, there are various cases alleging damages due to PFAS which are discussed below. Such actions often include claims alleging that EIDP’s transfer of certain PFAS liabilities to Chemours resulted in a fraudulent conveyance or voidable transaction. With the exception of the fraudulent conveyance claims, which are excluded from the MOU, legal fees, expenses, costs, and any potential liabilities for eligible PFAS costs presented by the following matters will be shared in accordance with the MOU between Chemours, EIDP, Corteva and DuPont.

Beginning in April 2019, lawsuits alleging damages from the use of PFAS-containing aqueous film-forming foams (“AFFF”) were filed against EIDP and Chemours, and companies such as 3M that made AFFF. The majority of these lawsuits were consolidated in a multi-district litigation (the “AFFF MDL”) captioned *In Re: Aqueous Film Forming Foams (AFFF) Products Liability Litigation* that is pending in the United States District Court for the District of South Carolina (the “Court”). The matters pending in the AFFF MDL allege damages as a result of contamination, in most cases allegedly from migration from airports or military installations, or personal injury from exposure to AFFF. The plaintiffs in the MDL include, among others, water districts, individuals and states attorneys general. DuPont has never made or sold AFFF, perfluorooctanesulfonic acid (“PFOS”) or PFOS-containing products, and most of the actions in the AFFF MDL name DuPont as a defendant solely related to fraudulent transfer claims related to the Chemours Separation and the DowDuPont separations.

On June 30, 2023, Chemours, Corteva, EIDP and DuPont entered a definitive agreement to resolve for \$1.185 billion in cash all PFAS-related claims of a defined class of U.S. public water systems, including claims that are part of the AFFF MDL, (the “Water District Settlement Agreement”).

DuPont paid its \$400 million contribution into the Water District Settlement Fund in the third quarter 2023. That payment included \$100 million that DuPont had deposited into the MOU Escrow Account as of June 30, 2023. The Company’s total contribution, including interest, of \$408 million has been removed from "Restricted cash and cash equivalents - current" along with the associated "Accrued and other current liabilities" within the Consolidated Balance Sheets as of December 31, 2024, as the settlement became final in the second quarter 2024. DuPont's aggregate MOU escrow deposits of \$405 million, including interest, at December 31, 2023 is reflected in "Restricted cash and cash equivalents - noncurrent" on the Consolidated Balance Sheets.

The Water District Settlement's defined class is composed of all Public Water Systems, as defined in 42 U.S.C § 300f, with a current detection of PFAS and all Public Water Systems, that are currently required to monitor for PFAS under the EPA’s Fifth Unregulated Contaminant Monitoring Rule (“UCMR 5”) or other applicable federal or state law. The class does not include water systems owned and operated by a State or the United States government or small systems that have not detected PFAS and are not currently required to monitor for it under federal or state requirements. While it is reasonably possible that the excluded systems or claims could result in additional future lawsuits, claims, assessments or proceedings, it is not possible to predict the outcome of any such matters, and as such, the Company is unable to develop an estimate of a possible loss or range of losses, if any, at this time.

As part of the approval process, the Court established, among other things, a mechanism for class members to submit requests to be excluded from the settlement. Approximately 900 of 14,167 entities on the list of potential class members submitted timely requests for exclusion. The time has passed for any further entities to opt out.

The Court ordered the dismissal of personal injury claims by September 10, 2024, that do not meet certain evidentiary requirements unless they allege one of the following eight health conditions: high cholesterol, pregnancy induced hypertension, ulcerative colitis, thyroid disease, testicular cancer, kidney cancer, liver cancer or thyroid cancer. Cases that are dismissed pursuant to the Court’s order may be re-filed within four years if plaintiffs later meet the evidentiary requirements specified in the Court’s order. There are about 5,200 personal injury cases currently pending in the AFFF MDL reflecting confirmed dismissals under the Court’s order and any newly filed cases. The Company expects additional personal injury cases – which include claims that identify one of the eight health conditions – will continue to be filed into the AFFF MDL.

The 25 bellwether personal injury cases have been further narrowed to a group of Tier 2 bellwether plaintiffs. The Tier 2 bellwether plaintiffs include nine cases that allege harm from kidney cancer, testicular cancer, ulcerative colitis, or thyroid disease. The court has set the first Tier 2 trial to occur on October 6, 2025. The trial will include a case or cases from Pennsylvania that allege harm from either kidney cancer or testicular cancer.

Some state attorneys general have filed lawsuits, on behalf of their respective states, against DuPont, outside of the AFFF MDL that allege environmental contamination by certain PFAS compounds distinct from AFFF. Generally, the states raise common law tort claims and seek economic impact damages for alleged harm to natural resources, punitive damages, present and future costs to clean up contamination from certain PFAS compounds, and to abate the alleged nuisance. Most of these actions include fraudulent transfer claims related to the Chemours Separation and the DowDuPont separations.

In April 2021, a historic DuPont Dutch subsidiary and the Dutch entities of Chemours and Corteva, received a civil summons issued by the Court of Rotterdam, the Netherlands, on behalf of four municipalities neighboring the Chemours Dordrecht facility. The municipalities are seeking liability declarations relating to the Dordrecht site’s current and historical PFAS operations and emissions. On September 27, 2023, the Court determined that the defendants were liable to the municipalities for (i) PFOA emissions between July 1, 1984 to March 1, 1998 and (ii) removal costs if deposited emissions on the municipalities' land infringes the applicable municipalities' property rights by an objective standard. Chemours entered into a Letter of Intent (“LOI”) with the municipalities on June 28, 2024, that includes the implementation of a specific remediation plan for the restoration of restricted vegetable gardens in certain areas of those municipalities to be funded by Chemours, sampling and developing a program to address the Merwelanden recreational lake, and further settlement discussions, including a fund to cover certain other expenditures aimed at environmental-related activities. The LOI contemplates the possibility of settling the court dispute, although still subject to further discussions which are ongoing with the municipalities and there is no guarantee that these discussions will result in a settlement. Although the Company believes a loss is probable, it is not estimable.

Additionally, there are cases in Canada that allege harm from PFAS contamination including property and natural resource damage claims, both related and unrelated to AFFF.

In addition to the above matters, there are other legal matters pending that make claims related to PFAS. The Company is specifically named in some of these legal matters and some are pending against Chemours and/or Corteva/EIDP in which the Company is not named. Certain of these actions may purport to be class actions and seek damages in very large amounts. Regardless of whether the Company is named, the costs of litigation and future liabilities, if any, in these matters, are or may be eligible PFAS costs under the MOU and Indemnification Losses under the Agreements.

While Management believes it has appropriately estimated the liability associated with eligible PFAS matters and Indemnifiable Losses as of the date of this report, it is reasonably possible that the Company could incur additional eligible PFAS costs and Indemnifiable Losses in excess of the amounts accrued. It is not possible to predict the outcome of any such matters due to various reasons including, among others, future actions and decisions, as well as factual and legal issues to be resolved in connection with PFAS matters. As such, at this time DuPont is unable to develop an estimate of a possible loss or range of losses, if any, above the liability accrued at December 31, 2024. It is possible that additional costs or losses could have a significant effect on the Company's financial condition and/or cash flows in the period in which they occur; however, costs qualifying as Qualified Spend are limited by the terms of the MOU.

### Other Litigation Matters

In addition to the matters described above, the Company is party to claims and lawsuits arising out of the normal course of business with respect to product liability, patent infringement, governmental regulation, contract and commercial litigation, and other actions. Certain of these actions may purport to be class actions and seek damages in very large amounts. As of December 31, 2024, the Company has liabilities of \$26 million associated with these other litigation matters. It is the opinion of the Company's management that the possibility is remote that the aggregate of all such other claims and lawsuits will have a material adverse impact on the results of operations, financial condition and cash flows of the Company. In accordance with its accounting policy for litigation matters, the Company will expense litigation defense costs as incurred, which could be significant to the Company's financial condition and/or cash flows in the period.

### Environmental Matters

Accruals for environmental matters are recorded when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated based on current law and existing technologies. At December 31, 2024, the Company had accrued obligations of \$275 million for probable environmental remediation and restoration costs. These obligations are included in "Accrued and other current liabilities" and "Other noncurrent obligations" in the Consolidated Balance Sheets. It is reasonably possible that environmental remediation and restoration costs in excess of amounts accrued could have a material impact on the Company's results of operations, financial condition and cash flows. Inherent uncertainties exist in these estimates primarily due to unknown conditions, changing governmental regulations and legal standards regarding liability, and emerging remediation technologies for handling site remediation and restoration.

The accrued environmental obligations include the following:

<b>Environmental Accrued Obligations</b>			
In millions	December 31, 2024	December 31, 2023	Potential exposure above the amount accrued <sup>1</sup>
Environmental remediation liabilities not subject to indemnity	\$ 45	\$ 46	\$ 106
Environmental remediation indemnified related liabilities:			
Indemnifications related to Dow and Corteva <sup>2</sup>	83	101	177
MOU related obligations (discussed above) <sup>3</sup>	146	152	31
Other environmental indemnifications	1	1	2
Total environmental related liabilities	\$ 275	\$ 300	\$ 316

1. The environmental accrual represents management's best estimate of the costs for remediation and restoration with respect to environmental matters, although it is reasonably possible that the ultimate cost with respect to these particular matters could range above the amount accrued as of December 31, 2024.

2. Pursuant to the DWDP Separation and Distribution Agreement and Letter Agreement, the Company is required to indemnify Dow and Corteva for certain Non-PFAS clean-up responsibilities and associated remediation costs.

3. The MOU related obligations include the Company's estimate of its liability under the MOU for remediation activities based on the current regulatory environment.

## NOTE 17 - LEASES

The Company has operating leases for real estate, an airplane, railcars, fleet, certain machinery and equipment, and information technology assets. The Company's leases have remaining lease terms of approximately 1 year to 30 years. For purposes of calculating operating lease liabilities, lease terms may be deemed to include options to extend the lease when it is reasonably certain that the Company will exercise that option. Some leasing arrangements require variable payments that are dependent on usage, output, or may vary for other reasons, such as insurance and tax payments. The variable lease payments are not presented as part of the initial ROU asset or lease liability.

Certain of the Company's leases include residual value guarantees. These residual value guarantees are based on a percentage of the lessor's asset acquisition price and the amount of such guarantee declines over the course of the lease term. The portion of residual value guarantees that are probable of payment is included in the related lease liability in the Consolidated Balance Sheets. At December 31, 2024, the Company has future maximum payments for residual value guarantees in operating leases of \$25 million with final expirations through 2034. The Company's lease agreements do not contain any material restrictive covenants.

The components of lease cost for operating leases for the years ended December 31, 2024, 2023 and 2022 were as follows:

In millions	2024	2023	2022
Operating lease cost	\$ 125	\$ 121	\$ 113
Short-term lease cost	5	4	4
Variable lease cost	37	39	39
Less: Sublease income <sup>1</sup>	4	4	12
Total lease cost	\$ 163	\$ 160	\$ 144

1. Reflects income associated with subleases, not inclusive of all lessor arrangements disclosed below.

Operating cash flows from operating leases related to continuing operations were \$120 million, \$115 million, and \$109 million for the year ended December 31, 2024, 2023 and 2022, respectively.

New operating lease assets and liabilities entered into during the year ended December 31, 2024, 2023 and 2022 were \$53 million, \$160 million and \$131 million, respectively. Supplemental balance sheet information related to leases was as follows:

In millions	December 31, 2024	December 31, 2023
<b>Operating Leases</b>		
Operating lease right-of-use assets <sup>1</sup>	\$ 403	\$ 484
Current operating lease liabilities <sup>2</sup>	84	97
Noncurrent operating lease liabilities <sup>3</sup>	322	390
Total operating lease liabilities	\$ 406	\$ 487

1. Included in "Deferred charges and other assets" in the Consolidated Balance Sheets.

2. Included in "Accrued and other current liabilities" in the Consolidated Balance Sheets.

3. Included in "Other noncurrent obligations" in the Consolidated Balance Sheets.

Operating lease ROU assets and lease liabilities are recognized at the commencement date based on the present value of the fixed minimum lease payments over the lease term. As most of the Company's leases do not provide the lessor's implicit rate, the Company uses its incremental borrowing rate at the commencement date in determining the present value of lease payments.

Lease Term and Discount Rate for Operating Leases	December 31, 2024	December 31, 2023
Weighted-average remaining lease term (years)	7.8	8.5
Weighted-average discount rate	3.78 %	3.55 %

Maturities of lease liabilities were as follows:

<b>Maturity of Lease Liabilities at December 31, 2024</b>	
In millions	<i>Operating Leases</i>
2025	\$ 97
2026	76
2027	61
2028	44
2029	34
2030 and thereafter	157
Total lease payments	\$ 469
Less: Interest	63
Present value of lease liabilities	\$ 406

The Company has leases in which it is the lessor, with the largest being a result of the N&B Transaction. In connection with the N&B Transaction and the M&M Divestitures, DuPont entered into leasing arrangements with IFF and Celanese, whereby DuPont is leasing certain properties, including office spaces and R&D laboratories. These leases are classified as operating leases and lessor revenue and related expenses are not significant to the Company's Consolidated Balance Sheets or Consolidated Statement of Operations. Lease agreements where the Company is the lessor have final expirations through 2036.

For the years ended December 31, 2024, 2023 and 2022 total lease income was \$75 million, \$73 million and \$58 million, respectively, for which the net profits recognized from these leases were approximately \$20 million, \$18 million and \$14 million, respectively. Total lease income for each period presented is recorded in "Selling, general, and administrative expenses" and "Research and development expenses". Contractual lease income for 2025 through 2029 ranges from \$49 million to \$75 million annually.

## NOTE 18 - STOCKHOLDERS' EQUITY

### Share Repurchase Programs

In February 2022, the Company's Board of Directors authorized a \$1.0 billion share buyback program which expires on March 31, 2023, (the "2022 Share Buyback Program"). As of September 30, 2022, the Company repurchased and retired a total of 11.9 million shares for \$750 million under the 2022 Share Buyback Program. In November 2022, DuPont's Board of Directors approved a new share repurchase program authorizing the repurchase and retirement of up to \$5 billion of common stock (the "\$5B Share Buyback Program", together with the 2022 Share Buyback Program, the "2022 Stock Repurchase Programs") in addition to the \$250 million remaining under the Company's existing share repurchase program.

In November 2022, DuPont entered into accelerated share repurchase ("ASR") agreements with each of three financial institutions (the "\$3.25B ASR Transaction"). DuPont paid an aggregate of approximately \$3.25 billion of common stock with \$250 million of such repurchases under the 2022 Share Buyback Program and the remaining \$3 billion under the \$5B Share Buyback Program. Pursuant to the terms of the \$3.25B ASR Transaction, DuPont paid an aggregate of \$3.25 billion to the ASR Counterparties and received initial deliveries of 38.8 million shares in aggregate of DuPont common stock, which were retired immediately and recorded as a reduction to retained earnings of \$2.6 billion. The \$3.25B ASR Transaction was completed during the third quarter of 2023 with DuPont receiving and retiring an additional 8.0 million shares of DuPont common stock. In connection with the completion of the transaction the remaining \$613 million based on the price of the shares at the time of delivery was settled as a forward contract indexed to DuPont common stock at the time of settlement, classified within stockholders' equity. At the completion of the \$3.25B ASR Transaction, the Company had repurchased and retired a total of 46.8 million shares at an average price of \$69.44 per share.

In the third quarter of 2023, DuPont entered into new accelerated share repurchase agreements with three financial counterparties to repurchase an aggregate of \$2 billion of common stock ("2B ASR Transaction"). DuPont paid an aggregate of \$2 billion to the counterparties and received initial deliveries of 21.2 million shares in aggregate of DuPont common stock, which were retired immediately and recorded as a reduction to retained earnings of \$1.6 billion. In the first quarter of 2024, the \$2B ASR Transaction was completed. The settlement resulted in the delivery of 6.7 million additional shares of DuPont common stock, which were retired immediately and will be recorded as a reduction of retained earnings in the first quarter of 2024. In total, the Company repurchased 27.9 million shares at an average price of \$71.67 per share under the \$2B ASR Transaction. The completion of the \$2B ASR Transaction effectively completes the \$5B Share Buyback Program and the Company's stock repurchase authorization.

In the first quarter 2024, the Company's Board of Directors approved a new share repurchase program authorizing the repurchase and retirement of up to \$1 billion of common stock ("the \$1B Share Buyback Program"). Under the \$1B Share Buyback Program, repurchases may be made from time to time on the open market at prevailing market prices or in privately negotiated transactions off market, including additional ASR agreements in accordance with applicable federal securities laws. The \$1B Program terminates on June 30, 2025, unless extended or shortened by the Board of Directors.

Also in the first quarter 2024, DuPont entered an ASR agreement with one counterparty for the repurchase of about \$500 million of common stock ("Q1 2024 ASR Transaction"). DuPont paid an aggregate of \$500 million to the counterparty and received initial deliveries of 6.0 million shares of DuPont common stock, which were retired immediately and recorded as a reduction of retained earnings of \$400 million. The remaining \$100 million was evaluated as an unsettled forward contract indexed to DuPont common stock, classified within stockholders' equity as of March 31, 2024.

In the second quarter of 2024, the Q1 2024 ASR Transaction was completed. The settlement resulted in the delivery of approximately 1.0 million additional shares of DuPont common stock, which were retired immediately and recorded as a reduction of retained earnings of \$72 million. In total, the Company repurchased 6.9 million shares at an average price of \$71.96 per share under the Q1 2024 ASR Transaction.

The Inflation Reduction Act of 2022 introduced a 1 percent nondeductible excise tax imposed on the net value of certain stock repurchases made after December 31, 2022. The net value is determined by the fair market value of the stock repurchased during the tax year, reduced by the fair market value of stock issued during the tax year. The Company recorded total excise tax of \$8 million and \$21 million, respectively, as a reduction to retained earnings for the years ended December 31, 2024 and 2023, reflected within stockholders' equity and a corresponding liability within "Accounts Payable" in our Consolidated Balance Sheets as of December 31, 2024 and 2023.

## Common Stock

The following table provides a reconciliation of DuPont Common Stock activity for the years ended December 31, 2024, 2023 and 2022:

<b>Shares of DuPont Common Stock</b>		
In thousands	<i>Issued</i>	<i>Held in Treasury</i>
Balance at January 1, 2022	511,793	—
Issued	2,074	—
Repurchased	—	55,743
Retired	(55,743)	(55,743)
Balance at December 31, 2022	458,124	—
Issued	1,225	—
Repurchased	—	29,239
Retired	(29,239)	(29,239)
Balance at December 31, 2023	430,110	—
Issued	1,513	—
Repurchased	—	13,629
Retired	(13,629)	(13,629)
Balance at December 31, 2024	417,994	—

## Retained Earnings

There are no significant restrictions limiting the Company's ability to pay dividends. Dividends declared and paid to common stockholders during the years ended December 31, 2024, 2023 and 2022 are summarized in the following table:

<b>Dividends Declared and Paid</b>			
In millions	<i>2024</i>	<i>2023</i>	<i>2022</i>
Dividends declared to common stockholders	\$ 635	\$ 651	\$ 652
Dividends paid to common stockholders	\$ 635	\$ 651	\$ 652

Undistributed earnings of nonconsolidated affiliates included in retained earnings were \$626 million at December 31, 2024 and \$637 million at December 31, 2023.

## Accumulated Other Comprehensive Loss

The following table summarizes the activity related to each component of accumulated other comprehensive loss ("AOCL") for the years ended December 31, 2024, 2023 and 2022:

<b>Accumulated Other Comprehensive Loss</b>	<i>Cumulative Translation Adj</i>	<i>Pension and OPEB</i>	<i>Derivative Instruments<sup>1</sup></i>	<i>Total</i>
In millions				
<b>2022</b>				
Balance at January 1, 2022	\$ (88)	\$ 73	\$ 56	\$ 41
Other comprehensive (loss) income before reclassifications	(1,101)	44	61	(996)
Amounts reclassified from accumulated other comprehensive income	—	(3)	—	(3)
M&M Divestiture reclassification adjustment	221	(54)	—	167
Net other comprehensive (loss) income	\$ (880)	\$ (13)	\$ 61	\$ (832)

Amounts reclassified from accumulated other comprehensive income	—	(9)	—	(9)
Delrin® Divestiture reclassification adjustment	(9)	(23)	—	(32)
Net other comprehensive income (loss)	\$ 37	\$ (115)	\$ (41)	\$ (119)
Balance at December 31, 2023	\$ (931)	\$ (55)	\$ 76	\$ (910)
<b>2024</b>				
Other comprehensive (loss) income before reclassifications	(562)	(59)	32	(589)
Amounts reclassified from accumulated other comprehensive income	—	(1)	—	(1)
Net other comprehensive (loss) income	\$ (562)	\$ (60)	\$ 32	\$ (590)
Balance at December 31, 2024	\$ (1,493)	\$ (115)	\$ 108	\$ (1,500)

1. Includes cumulative translation adjustment impact associated with derivative instruments.

The tax effects on the net activity related to each component of other comprehensive income (loss) for the years ended December 31, 2024, 2023 and 2022 were as follows:

<b>Tax Benefit (Expense)</b>	<i>2024</i>	<i>2023</i>	<i>2022</i>
In millions			
Pension and other post-employment benefit plans	\$ 11	\$ 26	\$ 16
Derivative instruments	(9)	12	(15)
Tax benefit from income taxes related to other comprehensive income (loss) items	\$ 2	\$ 38	\$ 1

A summary of the reclassifications out of AOCL for the years ended December 31, 2024, 2023 and 2022 is provided as follows:

<b>Reclassifications Out of Accumulated Other Comprehensive Loss</b>	<i>2024</i>	<i>2023</i>	<i>2022</i>	<i>Income Classification</i>
In millions				
Cumulative translation adjustments	\$ —	\$ (9)	\$ 221	See (1) below
Pension and other post-employment benefit plans	(2)	(35)	(71)	See (1) below
Tax expense (benefit)	1	3	14	See (1) below
Pension and other post-employment benefit plans, after tax	(1)	(32)	(57)	
Total reclassifications for the period, after tax	\$ (1)	\$ (41)	\$ 164	

1. The activity for the year ended December 31, 2024 is classified within "Sundry income (expense) - net" as part of continuing operations. The activity for the year ended December 31, 2023 is classified almost entirely within "(Loss) income from discontinued operations, net of tax" as part of the Delrin® Divestiture, with a portion classified within "Sundry income (expense) - net" as part of continuing operations. The activity for the year ended December 31, 2022 is classified almost entirely within "(Loss) income discontinued operations, net of tax" as part of the M&M Divestiture, with a portion classified within "Sundry income (expense) - net" as part of continuing operations.

## NOTE 19 - PENSION PLANS AND OTHER POST-EMPLOYMENT BENEFITS

The significant defined benefit pension and OPEB plans of the Company are summarized below. Unless otherwise noted, all values within this footnote are inclusive of balances and activity associated with discontinued operations.

### Defined Benefit Pension Plans

DuPont has both funded and unfunded defined benefit pension plans covering employees in a number of non-US countries. The United Kingdom qualified plan is the largest pension plan held by DuPont.

DuPont's funding policy is consistent with the funding requirements of each country's laws and regulations. Pension coverage for employees of DuPont's non-U.S. consolidated subsidiaries is provided, to the extent deemed appropriate, through separate plans. Obligations under such plans are funded by depositing funds with trustees, covered by insurance contracts, or remain unfunded. During 2024, the Company contributed \$51 million to its benefit plans. DuPont expects to contribute approximately \$56 million to its benefit plans in 2025.

The weighted-average assumptions used to determine pension plan obligations and net periodic benefit costs for all plans are summarized in the table below:

Weighted-Average Assumptions for Pension Plans	Benefit Obligations at December 31,		Net Periodic Costs for the Years Ended		
	2024	2023	2024	2023	2022
Discount rate	3.67 %	3.26 %	3.46 %	3.05 %	1.48 %
Interest crediting rate for applicable benefits	1.75 %	2.00 %	2.00 %	2.25 %	1.25 %
Rate of compensation increase	3.41 %	3.11 %	3.11 %	3.25 %	3.15 %
Expected return on plan assets	N/A	N/A	4.43 %	3.61 %	2.69 %

### Other Post-employment Benefit Plans

The Company retained U.S. and foreign other post-employment benefit obligations with the Canadian plan and the U.S. long-term disabilities plan being the two largest and accounting for the majority of the Company's total other post-employment benefit obligations. In comparison to the Company's defined benefit pension plans, the Company's other post-employment benefit plans are not significant. The total other post-employment benefits projected benefit obligation was \$27 million as of December 31, 2024 and \$29 million as of December 31, 2023.

### Assumptions

The Company determines the expected long-term rate of return on plan assets by performing a detailed analysis of key economic and market factors driving historical returns for each asset class and formulating a projected return based on factors in the current environment. Factors considered include, but are not limited to, inflation, real economic growth, interest rate yield, interest rate spreads, and other valuation measures and market metrics.

Service cost and interest cost for all other plans are determined on the basis of the discount rates derived in determining those plan obligations. The discount rates utilized to measure the majority of pension and other postretirement obligations are based on the Aon AA corporate bond yield curves applicable to each country at the measurement date. DuPont utilizes the mortality tables and generational mortality improvement scales, where available, developed in each of the respective countries in which the Company holds plans.

Summarized information on the Company's pension and other postretirement benefit plans is as follows:

<b>Change in Projected Benefit Obligations of All Plans</b>		
In millions	2024	2023
<i>Change in projected benefit obligations:</i>		
Benefit obligations at beginning of year	\$ 2,704	\$ 2,726
Service cost	17	25
Interest cost	84	99
Plan participants' contributions	9	7
Actuarial changes in assumptions and experience	(49)	132
Benefits paid	(208)	(208)
Acquisitions/divestitures/other <sup>1</sup>	—	(209)
Effect of foreign exchange rates	(122)	133
Termination benefits/curtailment cost/settlements	—	(1)
Benefit obligations at end of year	\$ 2,435	\$ 2,704

1. The year ended 2023 is primarily related to the Delrin® Divestiture.

<b>Change in Plan Assets and Funded Status of All Plans</b>		
In millions	2024	2023
<i>Change in plan assets:</i>		
Fair value of plan assets at beginning of year	\$ 2,424	\$ 2,596
Actual return on plan assets	(14)	109
Employer contributions	51	66
Plan participants' contributions	9	7
Benefits paid	(208)	(208)
Acquisitions/divestitures/other <sup>1</sup>	—	(285)
Effect of foreign exchange rates	(101)	139
Fair value of plan assets at end of year	\$ 2,161	\$ 2,424
<i>Funded status:</i>		
Plans with plan assets	\$ 186	\$ 233
All other plans	(460)	(513)
Funded status at end of year	\$ (274)	\$ (280)

1. The year ended 2023 is primarily related to the Delrin® Divestiture.

The following tables summarize the amounts recognized in the Consolidated Balance Sheets for all significant plans:

<b>Amounts Recognized in the Consolidated Balance Sheets for All Significant Plans</b>		
In millions	December 31, 2024	December 31, 2023
<i>Amounts recognized in the consolidated balance sheets:</i>		
Deferred charges and other assets	\$ 291	\$ 338
Accrued and other current liabilities	(42)	(53)
Pension and other postretirement benefits - noncurrent	(523)	(565)
Net amount recognized	\$ (274)	\$ (280)

<i>Pretax amounts recognized in accumulated other comprehensive loss (income):</i>		
Net loss (gain)	\$ 167	\$ 95
Prior service credit	(4)	(8)
Pretax balance in accumulated other comprehensive loss at end of year	\$ 163	\$ 87

The increase in the Company's actuarial losses for the year ended December 31, 2024 was primarily due to losses on assets in excess of what was expected, partially offset by the changes in weighted-average discount rates, which increased from 3.26 percent at December 31, 2023 to 3.67 percent at December 31, 2024.

The actuarial loss for the year ended December 31, 2023 was primarily due to the changes in weighted-average discount rates, which decreased from 3.71 percent at December 31, 2022 to 3.26 percent at December 31, 2023 and due to divestitures, partially offset by gains on assets in excess of what was expected.

The accumulated benefit obligation for all pension plans was \$2.4 billion and \$2.6 billion at December 31, 2024 and December 31, 2023, respectively.

<b>Pension Plans with Accumulated Benefit Obligations in Excess of Plan Assets</b>	<i>December 31,</i>	<i>December 31,</i>
In millions	<i>2024</i>	<i>2023</i>
Accumulated benefit obligations	\$ 646	\$ 700

Amortization of prior service credit	(3)	(2)	(4)
Amortization of unrecognized net (gain) loss	—	(1)	4
Curtailment/settlement	1	(3)	(4)
Net periodic benefit costs - Continuing operations	\$ (1)	\$ 31	\$ 2

### Estimated Future Benefit Payments

The estimated future benefit payments of continuing operations, reflecting expected future service, as appropriate, are presented in the following table:

Estimated Future Benefit Payments at December 31, 2024	
In millions	
2025	\$ 173
2026	171
2027	167
2028	169
2029	174
Years 2030-2034	845
Total	\$ 1,699

### Plan Assets

Plan assets consist primarily of equity and fixed income securities of U.S. and foreign issuers, and alternative investments such as insurance contracts, pooled investment vehicles and private market securities. At December 31, 2024, plan assets totaled \$2.2 billion.

The Company establishes strategic asset allocation percentage targets and appropriate benchmarks for significant asset classes with the aim of achieving a prudent balance between return and risk. Strategic asset allocations in other countries are selected in accordance with the laws and practices of those countries. Where appropriate, asset liability studies are utilized in this process. The assets are managed by professional investment firms unrelated to the Company. Pension trust funds are permitted to enter into certain contractual arrangements generally described as derivative instruments. Derivatives are primarily used to reduce specific market risks, hedge currency and adjust portfolio duration and asset allocation in a cost-effective manner.

Equity securities primarily included investments in large- and small-cap companies located in both developed and emerging markets around the world. Global equity securities include varying market capitalization levels. U.S. equity investments are primarily large-cap companies. Fixed income securities included investment and non-investment grade corporate bonds of companies diversified across industries, U.S. treasuries, non-U.S. developed market securities, U.S. agency mortgage-backed securities, emerging market securities and fixed income related funds. Global fixed income investments include corporate-issued, government-issued and asset-backed securities. Corporate debt investments include a range of credit risk and industry diversification. U.S. fixed income investments are weighted heavier than non-U.S. fixed income securities. Alternative investments primarily included investments in real estate, various insurance contracts and interest rate, equity, commodity and foreign exchange derivative investments and hedges. Other investments include cash and cash equivalents, pooled investment vehicles, hedge funds and private market securities such as interests in private equity and venture capital partnerships.

The weighted-average target allocation for plan assets of DuPont's pension plans is summarized as follows:

Target Allocation for Plan Assets at December 31, 2024	
Asset Category	DuPont
Equity securities	2 %
Fixed income securities	9
Alternative investments	24
Hedge funds	26
Pooled investment vehicles	32
Other investments	7
Total	100 %

Fair value calculations may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For pension plan assets classified as Level 1 measurements (measured using quoted prices in active markets), total fair value is either the price of the most recent trade at the time of the market close or the official close price, as defined by the exchange on which the asset is most actively traded on the last trading day of the period, multiplied by the number of units held without consideration of transaction costs.

For pension plan assets classified as Level 2 measurements, where the security is frequently traded in less active markets, fair value is based on the closing price at the end of the period; where the security is less frequently traded, fair value is based on the price a dealer would pay for the security or similar securities, adjusted for any terms specific to that asset or liability. Market inputs are obtained from well-established and recognized vendors of market data and subjected to tolerance and quality checks. For derivative assets and liabilities, standard industry models are used to calculate the fair value of the various financial instruments based on significant observable market inputs, such as foreign exchange rates, commodity prices, swap rates, interest rates and implied volatilities obtained from various market sources. For other pension plan assets for which observable inputs are used, fair value is derived through the use of fair value models, such as a discounted cash flow model or other standard pricing models.

For pension plan assets classified as Level 3 measurements, total fair value is based on significant unobservable inputs including assumptions where there is little, if any, market activity for the investment. Valuations of the investments are provided by investment managers or fund managers. These valuations are reviewed for reasonableness based on applicable sector, benchmark and company performance. Valuations of insurance contracts are contractually determined and are based on exit price valuations or contract value. Adjustments to valuations are made where appropriate.

Certain pension plan assets are held in funds where fair value is based on an estimated net asset value per share (or its equivalent) as of the most recently available fund financial statements which are received on a monthly or quarterly basis. These valuations are reviewed for reasonableness based on applicable sector, benchmark and company performance. Adjustments to valuations are made where appropriate to arrive at an estimated net asset value per share at the measurement date. Where available, audited annual financial statements are obtained and reviewed for the investments as support for the manager's investment valuation. These funds are not classified within the fair value hierarchy.

The following table summarizes the bases used to measure the Company's pension plan assets at fair value for the years ended December 31, 2024 and 2023:

Basis of Fair Value Measurements In millions	December 31, 2024				December 31, 2023

### Defined Contribution Plans

The Company provides defined contribution benefits to its employees. The most significant is the U.S. Retirement Savings Plan ("the Plan"), which covers all U.S. full-service employees. This Plan includes a non-leveraged Employee Stock Ownership Plan ("ESOP"). Employees are not required to participate in the ESOP and those who do are free to diversify out of the ESOP. The purpose of the Plan is to provide retirement savings benefits for employees and to provide employees an opportunity to become stockholders of the Company. The Plan is a tax qualified contributory profit sharing plan, with cash or deferred arrangement and any eligible employee of the Company may participate. Currently, the Company contributes 100 percent of the first 6 percent of the employee's contribution election and also contributes 3 percent of each eligible employee's eligible compensation regardless of the employee's contribution. The Company's matching contributions vest immediately upon contribution. The 3 percent nonmatching employer contribution vests after employees complete three years of service. The Company's matching contributions to the Plan were \$60 million in 2024 and \$65 million in 2023. The Company's nonmatching contributions to the Plan were \$32 million in 2024 and \$34 million in 2023. In total, the Company's contributions to the Plan were \$92 million in 2024 and \$99 million in 2023. All amounts for 2023 are inclusive of Delrin® activity related to discontinued operations.

In addition, the Company made contributions to other defined contribution plans in 2024 in the amount of \$32 million and \$35 million in 2023. 2023 is inclusive of Delrin® activity related to discontinued operations.

### NOTE 20 - STOCK-BASED COMPENSATION

Effective with the DWDP Merger, on August 31, 2017, DowDuPont assumed all TDCC and EIDP equity incentive compensation awards outstanding immediately prior to the DWDP Merger. The TDCC and EIDP stock-based compensation plans were assumed by DowDuPont and remained in place with the ability to grant and issue DowDuPont common stock until the DWDP Distributions.

Immediately following the Corteva Distribution, DuPont adopted the DuPont Omnibus Incentive Plan ("DuPont OIP") which provides for equity-based and cash incentive awards to certain employees, directors, independent contractors and consultants. Upon adoption of the DuPont OIP, the TDCC and EIDP plans were rolled into the DuPont OIP as separate subplans and no longer granted new awards. All previously granted equity awards under these subplans have the same terms and conditions that were applicable to the awards under the TDCC and EIDP plans immediately prior to the DWDP Distributions. Due to reaching the plan term of the DuPont OIP, no further awards will be granted from the plan. Awards that are outstanding under the DuPont OIP remain outstanding in accordance with their terms.

During the second quarter of 2020, the stockholders of DuPont approved the DuPont 2020 Equity and Incentive Plan (the "2020 EIP"), which allows the Company to grant options, share appreciation rights, restricted shares, restricted stock units ("RSUs"), share bonuses, other share-based awards, cash awards, each as defined in the 2020 EIP, or any combination of the foregoing. Under the EIP, a maximum of 15 million shares of common stock are available for award as of December 31, 2024. The approval of the 2020 Plan had no effect on the Company's ability to make future grants under the DuPont OIP in accordance with its terms, and awards that are outstanding under the DuPont OIP remain outstanding in accordance with their terms.

A description of the Company's stock-based compensation is discussed below followed by a description of TDCC and EIDP stock-based compensation.

### Accounting for Stock-Based Compensation

The Company grants stock-based compensation awards that vest over a specified period or upon employees meeting certain performance and/or retirement eligibility criteria. The fair value of equity instruments issued to employees is measured on the grant date. The fair value of liability instruments issued to employees is measured at the end of each quarter. The fair value of equity and liability instruments is expensed over the vesting period or, in the case of retirement, from the grant date to the date on which retirement eligibility provisions have been met and additional service is no longer required. The Company estimates expected forfeitures.

DuPont recognized share-based compensation expense in continuing operations of \$77 million, \$74 million, and \$75 million during the years ended December 31, 2024, 2023 and 2022, respectively. The income tax benefits related to stock-based compensation arrangements were \$16 million for the years ended December 31, 2024, 2023 and 2022,.

Total unrecognized pretax compensation cost in continuing operations related to nonvested stock option awards of \$0.2 million at December 31, 2024, is expected to be recognized over a weighted-average period of 0.1 years. Total unrecognized pretax compensation cost in continuing operations related to RSUs and performance based stock units ("PSUs") of \$77 million at December 31, 2024, is expected to be recognized over a weighted average period of 1.8 years. The total fair value of RSUs and PSUs vested in the year ended December 31, 2024 was \$78 million. The weighted average grant-date fair value of RSUs and PSUs granted during 2024 was \$70.70.

At the time of the M&M Divestiture, outstanding, unvested share-based compensation awards granted in 2022 and held by Employees transferred to Celanese were terminated and reissued as equity awards under the Celanese stock plan. Pre-2022 awards held by M&M Employees were settled by DuPont based on vesting conditions noted in respective grant agreements.

### DuPont 2020 Equity Incentive Plan

#### *EIP Stock Options*

The exercise price of shares subject to option is equal to the market price of the Company's stock on the date of grant. Stock option awards expire 10 years after the grant date. The plan allows retirement-eligible employees of the Company to retain any granted awards upon retirement provided the employee has rendered at least 12 months of service following the grant date.

The Company uses the Black-Scholes option pricing model to determine the fair value of stock option awards and the assumptions set forth in the table below. The weighted-average assumptions used to calculate total stock-based compensation are included in the following table:

<b>EIP Weighted-Average Assumptions</b> <sup>1</sup>	<b>2022</b>
Dividend yield	1.8 %
Expected volatility	26.4 %
Risk-free interest rate	1.9 %
Expected life of stock options granted during period (years)	6.0

1. No stock options were granted by the Company out of the EIP plan in 2024 or 2023.

The Company determines the dividend yield by dividing the annualized dividend on DuPont's common stock by the option exercise price. A historical daily measurement of volatility is determined based on the expected life of the option granted. The risk-free interest rate is determined by reference to the yield on an outstanding U.S. Treasury note with a term equal to the expected life of the option granted. Expected life is determined by reference to DuPont's historical experience, adjusted for expected exercise patterns of in-the-money options.

The following table summarizes stock option activity for 2024 under the EIP:

<b>EIP Stock Options</b>	<i>Number of Shares (in thousands)</i>	<i>Weighted Average Exercise Price (per share)</i>	<i>Weighted Average Remaining Contractual Term (in years)</i>	<i>Aggregate Intrinsic Value (in thousands)</i>
Outstanding at January 1, 2024	627	\$ 74.48		
Granted <sup>1</sup>	—	\$ —		
Exercised	(106)	\$ 73.91		
Forfeited/Expired	(12)	\$ 74.40		
Outstanding at December 31, 2024	509	\$ 74.61	6.58	\$ 837
Exercisable at December 31, 2024	375	\$ 74.45	6.41	\$ 674

1. No awards were granted by the Company out of the EIP plan in 2024 and 2023.

<b>Additional Information about EIP Stock Options</b> <sup>1</sup>	<i>2024</i>	<i>2023</i>	<i>2022</i>
In millions, except per share amounts			
Weighted-average fair value per share of options granted <sup>1</sup>	\$ —	\$ —	\$ 17.41
Total compensation expense for stock options plans <sup>2</sup>	\$ 12	\$ 10	\$ 8
Related tax benefit <sup>2</sup>	\$ 2	\$ 2	\$ 2

1. No stock options were granted by the Company out of the EIP plan in 2024 and 2023.

2. These amounts represent life to date.

The aggregate intrinsic values in the table above represent the total pretax intrinsic value (the difference between the closing stock price on the last trading day of 2024 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their in-the-money options at year end.

#### *EIP Restricted Stock Units and Performance Based Stock Units*

The Company grants RSUs to certain employees that generally vest over a three-year period and, upon vesting, convert one-for-one to DuPont common stock. For grants issued prior to 2024, retirement eligible employee retains any granted awards upon retirement provided the employee has rendered at least 12 months of service following the grant date. For grants issued in 2024, a retirement eligible employee retains a prorated portion of any granted awards upon retirement provided the employee has rendered at least 12 months of service following the grant date. The fair value of all stock-settled RSUs is based upon the market price of the underlying common stock as of the grant date.

The Company grants PSUs to senior leadership under the DuPont EIP. Vesting for PSUs granted is based upon achieving certain return on invested capital ("ROIC") targets and certain adjusted corporate net income annual growth targets, weighted evenly between the metrics and modified by a relative total shareholder return ("TSR") percentile ranking goal as compared to the S&P 500. The actual award, delivered as DuPont common stock, can range from zero percent to 200 percent of the original grant. The weighted-average grant-date fair value of the PSUs, subject to the TSR metric, is based upon the market price of the underlying common stock as of the grant date and estimated using a Monte Carlo simulation.

Nonvested awards of RSUs and PSUs are shown below:

<b>EIP RSUs and PSUs</b>	<i>Number of Shares (in thousands)</i>	<i>Weighted Average Grant Date Fair Value (per share)</i>
Nonvested at January 1, 2024	1,991	\$ 69.85
Granted	1,212	\$ 70.70
Vested	(880)	\$ 72.86
Forfeited	(119)	\$ 69.88
Nonvested at December 31, 2024	2,204	\$ 69.11

#### **DuPont Omnibus Incentive Plan**

The DuPont OIP has two subplans that have the same terms and conditions of the TDCC and EIDP plans immediately prior to the DWDP Distributions. Awards previously granted under those plans that were nonvested will now vest in each subplan. No awards were granted by the Company out of the OIP plan in 2024, 2023 or 2022. All new awards will be granted by the EIP.

### *OIP Stock Options*

The exercise price of shares subject to option is equal to the market price of the Company's stock on the date of grant. Stock option awards expire 10 years after the grant date. The plan allows retirement-eligible employees of the Company to retain any granted awards upon retirement provided the employee has rendered at least six months of service following the grant date.

The Company uses the Black-Scholes option pricing model to determine the fair value of stock option awards. No awards were granted by the Company out of the OIP plan in 2024, 2023 and 2022.

The Company determines the dividend yield by dividing the annualized dividend on DuPont's common stock by the option exercise price. A historical daily measurement of volatility (using DowDuPont stock information after the DWDP Merger date and a weighted average of TDCC and EIDP prior to DWDP Merger date) is determined based on the expected life of the option granted. The risk-free interest rate is determined by reference to the yield on an outstanding U.S. Treasury note with a term equal to the expected life of the option granted. Expected life is determined by reference to DuPont's historical experience, adjusted for expected exercise patterns of in-the-money options.

The following table summarizes stock option activity for 2024 under the OIP:

<b>OIP Stock Options</b>	<i>Number of Shares (in thousands)</i>	<i>Weighted Average Exercise Price (per share)</i>	<i>Weighted Average Remaining Contractual Term (in years)</i>	<i>Aggregate Intrinsic Value (in thousands)</i>
Outstanding at January 1, 2024	1,637	\$ 62.58		
Granted	—	\$ —		
Exercised	(217)	\$ 62.55		
Forfeited/Expired	(30)	\$ 64.16		
Outstanding at December 31, 2024	1,390	\$ 62.55	5.12	\$ 19,041
Exercisable at December 31, 2024	1,390	\$ 62.55	5.12	\$ 19,041

<b>Additional Information about OIP Stock Options <sup>1</sup></b>	<i>2024</i>	<i>2023</i>	<i>2022</i>
In millions, except per share amounts			
Total compensation expense for stock options plans <sup>2</sup>	\$ 27	\$ 26	\$ 25
Related tax benefit <sup>2</sup>	\$ 6	\$ 6	\$ 5

1. No awards were granted by the Company out of the OIP plan in 2024, 2023 or 2022.

2. These amounts represent life to date.

The aggregate intrinsic values in the table above represent the total pretax intrinsic value (the difference between the closing stock price on the last trading day of 2024 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their in-the-money options at year end.

### *OIP Restricted Stock Units and Performance Based Stock Units*

The Company grants RSUs to certain employees that serially vested over a three-year period and, upon vesting, convert one-for-one to DuPont common stock. A retirement eligible employee retains any granted awards upon retirement provided the employee has rendered at least six months of service following the grant date. The fair value of all stock-settled RSUs is based upon the market price of the underlying common stock as of the grant date.

The Company grants PSUs to senior leadership under a subplan of the DuPont OIP. Vesting for PSUs granted is based upon achieving certain return on invested capital ("ROIC") targets and certain adjusted corporate net income annual growth targets, weighted evenly between the metrics and modified by a relative total shareholder return ("TSR") percentile ranking goal as compared to the S&P 500. The actual award, delivered as DuPont common stock, can range from zero percent to 200 percent of the original grant. The weighted-average grant-date fair value of the PSUs, subject to the TSR metric, is based upon the market price of the underlying common stock as of the grant date and estimated using a Monte Carlo simulation.

Nonvested awards of RSUs and PSUs are shown below.

<b>OIP RSUs and PSUs</b>	<i>Number of Shares (in thousands)</i>	<i>Weighted Average Grant Date Fair Value (per share)</i>
Nonvested at January 1, 2024	163	\$ 68.01
Granted	—	\$ —
Vested	(109)	\$ 71.93
Forfeited	(3)	\$ 71.42
Nonvested at December 31, 2024	51	\$ 59.40

### **TDCC Stock Incentive Plan**

In connection with the DWDP Merger, on August 31, 2017 all outstanding TDCC stock options under the TDCC 2012 Stock Incentive Plan (the "2012 Plan") were converted into stock options with respect to DowDuPont Common Stock.

#### *TDCC Stock Options*

TDCC granted stock options to certain employees, subject to certain annual and individual limits, with terms of the grants fixed at the grant date. The exercise price of each stock option equals the market price of TDCC's stock on the grant date. Options vest from one year to three years, and had a maximum term of 10 years. To measure the fair value of the awards on the date of grant, TDCC used the Black-Scholes option pricing model. No awards were granted by the Company out of the TDCC plan during 2024, 2023 and 2022.

### **EIDP Equity Incentive Plan**

#### *EIDP Stock Options*

The exercise price of shares subject to option is equal to the market price of EIDP's stock on the date of grant. All options vest serially over a three-year period. Stock option awards expire ten years after the grant date. The plan allowed retirement-eligible employees of EIDP to retain any granted awards upon retirement provided the employee has rendered at least six months of service following the grant date. There were no options granted out of the EIDP EIP in 2024, 2023 and 2022.

EIDP determined the dividend yield by dividing the annualized dividend on DowDuPont's Common Stock by the option exercise price. A historical daily measurement of volatility (using DowDuPont stock information after the DWDP Merger date and a weighted average of TDCC and EIDP prior to DWDP Merger date) is determined based on the expected life of the option granted. The risk-free interest rate is determined by reference to the yield on an outstanding U.S. Treasury note with a term equal to the expected life of the option granted. Expected life is determined by reference to EIDP's historical experience, adjusted for expected exercise patterns of in-the-money options.

The following table summarizes stock option activity for 2024:

<b>EIDP Stock Options</b>	<i>Number of Shares (in thousands)</i>	<i>Weighted Average Grant Date Fair Value (per share)</i>	<i>Weighted Average Remaining Contractual Term (in years)</i>	<i>Aggregate Intrinsic Value (in thousands)</i>
Outstanding at January 1, 2024	2,228	\$ 73.49		
Exercised	(205)	\$ 70.48		
Forfeited/Expired	(21)	\$ 76.58		
Outstanding at December 31, 2024	2,002	\$ 73.77	2.7	\$ 8,804
Exercisable at December 31, 2024	1,997	\$ 73.78	2.7	\$ 8,760

#### *EIDP Restricted Stock Units*

EIDP issued RSUs that serially vested over a three-year period. A retirement eligible employee retains any granted awards upon retirement provided the employee has rendered at least six months of service following the grant date. Additional RSUs were also granted periodically to key senior management employees. These RSUs generally vested over periods ranging from three years to five years. The fair value of all stock-settled RSUs is based upon the market price of the underlying common stock as of the grant date. The awards have the same terms and conditions as were applicable to such equity awards immediately prior to the DWDP Merger closing date. As of December 31, 2024, there are no material nonvested awards of RSUs and no RSUs granted out of the EIDP EIP in 2024, 2023 and 2022.

## NOTE 21 - FINANCIAL INSTRUMENTS

The following table summarizes the fair value of financial instruments at December 31, 2024 and December 31, 2023:

Fair Value of Financial Instruments In millions	December 31, 2024				December 31, 2023			
	Cost	Gain	Loss	Fair Value	Cost	Gain	Loss	Fair Value
Cash equivalents	\$ 314	\$ —	\$ —	\$ 314	\$ 408	\$ —	\$ —	\$ 408
Restricted cash equivalents <sup>1</sup>	\$ 42	\$ —	\$ —	\$ 42	\$ 411	\$ —	\$ —	\$ 411
Total cash and restricted cash equivalents	\$ 356	\$ —	\$ —	\$ 356	\$ 819	\$ —	\$ —	\$ 819
Long-term debt including debt due within one year <sup>2</sup>	\$ (7,171)	\$ 14	\$ (57)	\$ (7,214)	\$ (7,859)	\$ 70	\$ (206)	\$ (7,995)
Derivatives relating to:								
Net investment hedge <sup>3</sup>	—	137	—	137	—	96	—	96
Foreign currency <sup>4, 5</sup>	—	8	(8)	—	—	26	(23)	3
Interest rate swap agreements <sup>6</sup>	—	—	(206)	(206)	—	—	(59)	(59)
Total derivatives	\$ —	\$ 145	\$ (214)	\$ (69)	\$ —	\$ 122	\$ (82)	\$ 40

1. Refer to Note 7 and Note 16 for more information on Restricted cash equivalents.

2. At December 31, 2024 the balance included unamortized basis adjustment of \$48 million related to the 2022 Swaps, discussed below. At December 31, 2023, the balance included a fair value hedging revaluation related to the 2022 Swaps of \$59 million, discussed below. Fair value of long-term debt including debt due within one year is based on quoted market prices for the same or similar issues, or on current rates offered to the company for debt of the same remaining maturities and terms and represents a Level 2 fair value measurement.

3. Classified as "Deferred charges and other assets" in the Consolidated Balance Sheets.

4. Classified as "Prepaid and other current assets" and "Accrued and other current liabilities" in the Consolidated Balance Sheets.

5. Presented net of cash collateral where master netting arrangements allow.

6. The loss on the 2022 and 2024 Swaps are classified as "Other noncurrent obligations" and "Accrued and other current liabilities", respectively, in the Consolidated Balance Sheets.

### Derivative Instruments

#### Objectives and Strategies for Holding Derivative Instruments

In the ordinary course of business, the Company enters into contractual arrangements (derivatives) to reduce its exposure to foreign currency, interest rate and commodity price risks. The Company has established a variety of derivative programs to be utilized for financial risk management. These programs reflect varying levels of exposure coverage and time horizons based on an assessment of risk.

Derivative programs have procedures and controls and are approved by the Corporate Financial Risk Management Committee, consistent with the Company's financial risk management policies and guidelines. Derivative instruments used are forwards, options, futures and swaps.

The Company's financial risk management procedures also address counterparty credit approval, limits and routine exposure monitoring and reporting. The counterparties to these contractual arrangements are major financial institutions and major commodity exchanges. The Company is exposed to credit loss in the event of nonperformance by these counterparties. The Company utilizes collateral support annex agreements with certain counterparties to limit its exposure to credit losses. The Company anticipates performance by counterparties to these contracts and therefore no material loss is expected. Market and counterparty credit risks associated with these instruments are regularly reported to management.

The notional amounts of the Company's derivative instruments were as follows:

Notional Amounts In millions	December 31, 2024	December 31, 2023
<i>Derivatives designated as hedging instruments:</i>		
Net investment hedge	\$ 1,000	\$ 1,000
Interest rate swap agreements	\$ —	\$ 1,000
<i>Derivatives not designated as hedging instruments:</i>		
Foreign currency contracts <sup>1</sup>	\$ (1,176)	\$ (907)
Interest rate swap agreements <sup>2</sup>	\$ 4,150	\$ —

1. Presented net of contracts bought and sold.

2. Includes notional amounts related to the 2022 Swaps and 2024 Swaps, described further below.

## **Derivatives Designated in Hedging Relationships**

### *Net Foreign Investment Hedge*

In the second quarter of 2021, the Company entered into a fixed-for-fixed cross currency swaps with an aggregate notional amount totaling \$1 billion to hedge the variability of exchange rate impacts between the U.S. Dollar and Euro. Under the terms of the cross-currency swap agreement, the Company notionally exchanged \$1 billion at an interest rate of 4.73 percent for €819 million at a weighted average interest rate of 3.26 percent. The cross-currency swap is designated as a net investment hedge and expires on November 15, 2028.

The Company has made an accounting policy election to account for the net investment hedge using the spot method. The Company has also elected to amortize the excluded components in interest expense in the related quarterly accounting period that such interest is accrued. The cross-currency swap is marked to market at each reporting date and any unrealized gains or losses are included in unrealized currency translation adjustments within AOCL, net of amounts associated with excluded components which are recognized in interest expense in the Consolidated Statements of Operations.

## **Derivatives not Designated in Hedging Relationships**

### *Foreign Currency Contracts*

The Company routinely uses forward exchange contracts to reduce its net exposure, by currency, related to foreign currency-denominated monetary assets and liabilities of its operations so that exchange gains and losses resulting from exchange rate changes are minimized. The netting of such exposures precludes the use of hedge accounting; however, the required revaluation of the forward contracts and the associated foreign currency-denominated monetary assets and liabilities intends to achieve a minimal earnings impact, after taxes. The Company also uses foreign currency exchange contracts to offset a portion of the Company's exposure to certain foreign currency-denominated revenues so that gains and losses on the contracts offset changes in the USD value of the related foreign currency-denominated revenues.

Foreign currency derivatives not designated as hedges are used to offset foreign exchange gains or losses resulting from the underlying exposures of foreign currency-denominated assets and liabilities. The amount charged on a pretax basis related to foreign currency derivatives not designated as a hedge, which was included in "Sundry income (expense) - net" in the Consolidated Statements of Operations, was a loss of \$32 million for the year ended December 31, 2024 (\$64 million loss for the year ended December 31, 2023 and \$32 million loss for the year ended December 31, 2022).

### *Interest Rate Swap Agreements*

In the second quarter of 2022, the Company entered into fixed-to-floating interest rate swap agreements ("2022 Swaps") with an aggregate notional principal amount totaling \$1 billion to hedge changes in the fair value of the Company's long-term debt due to interest rate change movements. These swaps converted \$1 billion of the Company's \$1.65 billion principal amount of fixed rate notes due 2038 into floating rate debt for the portion of their terms through 2032 with an interest rate based on the Secured Overnight Financing Rate ("SOFR"). Under the terms of the agreements, the Company agrees to exchange, at specified intervals, fixed for floating interest amounts based on the agreed upon notional principal amount. The 2022 Swaps expire on November 15, 2032 and are carried at fair value.

Since inception of the 2022 Swaps, fair value hedge accounting has been applied and thus, changes in the fair value of the 2022 Swaps and changes in the fair value of the related hedged portion of long-term debt were presented and net to zero in "Sundry income (expense) – net" in the Consolidated Statements of Operations. On June 5, 2024, DuPont issued a notice of redemption to the bond trustee with respect to a partial redemption of \$650 million aggregate principal amount of its 2038 Notes in accordance with their terms. The redemption was effective on June 15, 2024. As a result of the announced redemption, the Company dedesignated the current hedging relationship. At the time of dedesignation, the total amount recorded as a cumulative fair value basis adjustment on the 2038 Notes was a loss of \$81 million of which \$32 million was recognized as a component of the loss from partial extinguishment of debt. The remaining basis adjustment is amortized to interest expense over the remaining term of the 2038 Notes. The basis adjustment amortization for the year December 31, 2024 was \$1 million. Refer to Note 15 for additional details on the partial redemption of the 2038 Notes.

In June 2024, the Company entered into two forward-starting fixed-to-floating interest rate swap agreements ("2024 Swaps") to hedge the changes in the fair value of the Company's long-term debt due to interest rate change movements. One swap converted \$2.15 billion principal amount of the fixed rate notes due 2048 into floating rate debt for the portion of their terms from 2025 through 2048 with an interest rate based on SOFR. The other swap converted \$1 billion principal amount of the fixed rate notes due 2038 into floating rate debt for the portion of their terms from 2032 through 2038 with an interest rate also based on SOFR. The 2024 Swaps have a mandatory early termination date of December 15, 2025 and are carried at fair value. At December 31, 2024, the mark-to-market value of the 2024 Swaps is \$116 million, and final settlement will depend on movements in interest rates. Fair value hedge accounting has not been applied.

The 2022 Swaps and 2024 Swaps are considered economic hedges of the Company's fixed rate debt. As such, changes in the fair value and gain or loss from net interest settlement of the 2022 Swaps after the date of dedesignation and changes in the fair value of the 2024 Swaps since inception have been recorded in "Sundry income (expense) – net" in the Consolidated Statements of Operations. The amount charged related to interest rate swaps not designated as hedges was a loss of \$138 million and zero for the years December 31, 2024 and 2023, respectively.

## NOTE 22 - FAIR VALUE MEASUREMENTS

### Fair Value Measurements on a Recurring Basis

The following tables summarize the basis used to measure certain assets and liabilities at fair value on a recurring basis:

<b>Basis of Fair Value Measurements on a Recurring Basis of Significant Other Observable Inputs (Level 2)</b> In millions	<i>December 31, 2024</i>	<i>December 31, 2023</i>
Assets at fair value:		
Cash equivalents <sup>1</sup>	\$ 314	\$ 364
Derivatives relating to: <sup>2</sup>		
Net investment hedge	137	96
Foreign currency contracts <sup>3</sup>	23	37
Total assets at fair value	\$ 474	\$ 497
Liabilities at fair value:		
Derivatives relating to: <sup>2</sup>		
Interest rate swap agreements	206	59
Foreign currency contracts <sup>3</sup>	23	34
Total liabilities at fair value	\$ 229	\$ 93

1. Time deposits included in "Cash and cash equivalents" in the Consolidated Balance Sheets are held at amortized cost, which approximates fair value. "Restricted cash and cash equivalents" and "Restricted cash and cash equivalents - noncurrent" in the Consolidated Balance Sheets at December 31, 2024 included \$42 million of money market funds representing Level 1 fair value measurement investments which are held at amortized cost. "Cash and cash equivalents" and "Restricted cash and cash equivalents" in the Consolidated Balance Sheets at December 31, 2023, included \$50 million of money market funds and \$405 million deposited within a qualified settlement fund consisting of treasury bills, respectively, representing Level 1 fair value measurement investment, also held at amortized cost.

2. See Note 21 for the classification of derivatives in the Consolidated Balance Sheets.

3. Assets and liability derivatives subject to an enforceable master netting arrangement with the same counterparty are presented on a net basis in the Consolidated Balance Sheets. The offsetting counterparty and cash collateral amounts were \$15 million and zero, respectively, for both assets and liabilities as of December 31, 2024. The offsetting counterparty and cash collateral amounts were \$11 million and zero, respectively, for both assets and liabilities as of December 31, 2023.

As part of the Donatelle Plastics Acquisition, the purchase agreement includes annual contingent earn-out payments based upon customer specific revenue generated through December 31, 2029, with total accumulated earn-out payments of up to \$85 million. The contingent earn-out liability was established using a Monte Carlo simulation and the significant assumption used is the estimated likelihood the customer specific revenue is earned. The contingent earn-out liability estimate represents a recurring fair value measurement with significant unobservable inputs. The fair value of the contingent earn-out liability is sensitive to changes in the interest rates, discount rates and the timing of the future payments, which are based upon estimates of future achievement of the customer specific revenue. Changes in the fair values of the contingent earn-out liability will be recognized in Sundry income/expense, net in the Consolidated Statements of Operations. The fair value of the contingent earn-out liability is reflected in "Accrued expenses and other liabilities" on the Consolidated Balance Sheets. See Note 3 for additional information.

<b>Basis of Fair Value Measurements on a Recurring Basis of Significant Unobservable Inputs (Level 3)</b> In millions	<i>December 31, 2024</i>	<i>December 31, 2023</i>
Liabilities at fair value:		
Contingent earn-out liabilities	\$ 40	\$ —
Total liabilities at fair value	\$ 40	\$ —

For assets and liabilities classified as Level 2 measurements, where the security is frequently traded in less active markets, fair value is based on the closing price at the end of the period; where the security is less frequently traded, fair value is based on the price a dealer would pay for the security or similar securities, adjusted for any terms specific to that asset or liability, or by using observable market data points of similar, more liquid securities to imply the price. For time deposits classified as held-to-maturity investments and reported at amortized cost, fair value is based on an observable interest rate for similar securities.

Market inputs are obtained from well-established and recognized vendors of market data and subjected to tolerance and quality checks.

For derivative assets and liabilities, standard industry models are used to calculate the fair value of the various financial instruments based on significant observable market inputs, such as foreign exchange rates, commodity prices, swap rates, interest rates and implied volatility obtained from various market sources. Market inputs are obtained from well-established and recognized vendors of market data and subjected to tolerance/quality checks.

For all other assets and liabilities for which observable inputs are used, fair value is derived through the use of fair value models, such as a discounted cash flow model or other standard pricing models.

There were no transfers between Levels 1 and 2 during the years ended December 31, 2024 and December 31, 2023.

#### **Fair Value Measurements on a Nonrecurring Basis**

The following table summarizes the basis used to measure certain assets at fair value on a nonrecurring basis:

<b>Basis of Fair Value Measurements on a Nonrecurring Basis <sup>1</sup></b>	<i>Significant Other Unobservable Inputs (Level 3)</i>	<i>Total Losses</i>
In millions		
<b><i>At December 31, 2023</i></b>		
Assets at fair value:		
Goodwill	\$ 4,814	\$ (804)
<b><i>At December 31, 2022</i></b>		
Assets at fair value:		
Long-lived assets, intangible assets, and other assets	\$ 55	\$ (94)

1. The Company did not incur any losses associated with fair value measurements on a nonrecurring basis for the year ended December 31, 2024.

#### *2023 Fair Value Measurements on a Nonrecurring Basis*

During the fourth quarter of 2023, the Company recorded an impairment charge related to goodwill within Water & Protection. The impairment analysis was performed using Level 3 inputs within the fair value hierarchy. See Note 14 for further discussion.

#### *2022 Fair Value Measurements on a Nonrecurring Basis*

During the first quarter of 2022, the Company recorded an impairment charge related to equity method investments within Electronics & Industrial. The impairment analysis was performed using Level 3 inputs within the fair value hierarchy. See Note 6 for further discussion.

## NOTE 23 - SEGMENTS AND GEOGRAPHIC REGIONS

The Company's segments are aligned with the market verticals they serve, while maintaining integration and innovation strengths within strategic value chains. DuPont is comprised of two operating segments: Electronics & Industrial and Water & Protection. Major products by segment include: Electronics & Industrial (printing and packaging materials, photopolymers, electronic materials, specialty silicones and lubricants); and Water & Protection (nonwovens, aramids, construction materials, water filtration and purification resins, elements and membranes). The Company operates globally in substantially all of its product lines. Transfers of products between operating segments are generally valued at cost, to the extent such transfers are applicable.

The revenues and certain expenses of the M&M Divestitures are classified as discontinued operations in the current and historical periods. The Auto Adhesives & Fluids, Multibase<sup>TM</sup> and Tedlar® product lines within the historical Mobility & Materials segment (the "Retained Businesses") are not included in the scope of the M&M Divestitures and are reflected within Corporate & Other. Corporate & Other includes DuPont's equity interest in Derby Holdings Group related to the Delrin® Divestiture.

The historic Mobility & Material segment costs that are classified as discontinued operations include only direct operating expenses incurred prior to the November 1, 2022 M&M Divestiture and November 1, 2023 Delrin® Divestiture. Indirect costs, such as those related to corporate and shared service functions previously allocated to the M&M Businesses, do not meet the criteria for discontinued operations and remain reported within continuing operations. A portion of these indirect costs include costs related to activities the Company will continue to undertake post-closing of the M&M Divestitures, and for which it is reimbursed ("Future Reimbursable Indirect Costs"). Future Reimbursable Indirect Costs are reported within continuing operations but are excluded from operating EBITDA as defined below. The remaining portion of these indirect costs are not subject to future reimbursement ("Stranded Costs"). Stranded Costs are reported within continuing operations in Corporate & Other and are included within Operating EBITDA.

The Company's measure of profit/loss for segment reporting purposes is Operating EBITDA as this is the manner in which the Company's chief operating decision maker ("CODM"), the Chief Executive Officer, assesses performance and allocates resources. The CODM utilizes Operating EBITDA to assess financial performance and allocate resources by comparing actual results to historical and previously forecasted results. The Company defines Operating EBITDA as earnings (i.e., "Income from continuing operations before income taxes") before interest, depreciation, amortization, non-operating pension / OPEB benefits / charges, and foreign exchange gains / losses, excluding Future Reimbursable Indirect Costs, and adjusted for significant items. Reconciliations of these measures are provided on the following pages.

Sales are attributed to geographic regions based on customer location; long-lived assets are attributed to geographic regions based on asset location.

<b>Net Trade Revenue by Geographic Region</b>			
(In millions) For the years ended December 31,	<i>2024</i>	<i>2023</i>	<i>2022</i>
United States	\$ 4,102	\$ 3,914	\$ 4,066
Canada	273	271	293
EMEA <sup>1</sup>	2,146	2,203	2,193
Asia Pacific <sup>2</sup>	5,368	5,191	6,022
Latin America	497	489	443
<b>Total</b>	<b>\$ 12,386</b>	<b>\$ 12,068</b>	<b>\$ 13,017</b>

1. Europe, Middle East and Africa.

2. Net sales attributed to China/Hong Kong, for the years ended December 31, 2024, 2023 and 2022 were \$2,345 million, \$2,206 million, and \$2,744 million, respectively.

<b>Long-lived Assets by Geographic Region</b>	<i>December 31,</i>		
In millions	<i>2024</i>	<i>2023</i>	<i>2022</i>
United States	\$ 3,590	\$ 3,559	\$ 3,501
Canada	60	54	49
EMEA <sup>1</sup>	1,259	1,336	1,271
Asia Pacific	823	896	883
Latin America	36	39	27
<b>Total</b>	<b>\$ 5,768</b>	<b>\$ 5,884</b>	<b>\$ 5,731</b>

1. Europe, Middle East and Africa.

Segment Revenue, Significant Segment Expenses and Segment Operating EBITDA (In millions)	For the years ended December 31,					
	2024		2023		2022	
	Electronics & Industrial	Water & Protection	Electronics & Industrial	Water & Protection	Electronics & Industrial	Water & Protection
Segment net sales	\$ 5,930	\$ 5,423	\$ 5,337	\$ 5,633	\$ 5,917	\$ 5,957
Less <sup>1</sup> :						
Cost of sales	\$ 3,420	\$ 3,674	\$ 3,139	\$ 3,879	\$ 3,341	\$ 4,149
Selling, general and administrative expenses	761	574	647	545	632	554
Research and development expenses	366	141	348	138	377	131
Amortization of intangibles & other segment items <sup>2</sup>	341	226	354	225	342	225
Add:						
Equity in earnings of nonconsolidated affiliates	\$ 37	\$ 30	\$ 16	\$ 35	\$ 31	\$ 39
Depreciation and amortization <sup>3</sup>	638	522	607	507	580	494
Segment Operating EBITDA	\$ 1,717	\$ 1,360	\$ 1,472	\$ 1,388	\$ 1,836	\$ 1,431

1. The significant expense categories and amounts align with the segment-level information that is regularly provided to the chief operating decision maker.

2. Other segment items include immaterial other gains or losses and miscellaneous income and expenses.

3. Depreciation is a reconciling item to segment Operating EBITDA as it is included within Cost of sales, Selling, general and administrative expenses and Research and development expenses.

Total reportable segment net sales are \$11,353 million, \$10,970 million and \$11,874 million for the years ended December 31, 2024, 2023 and 2022, respectively.

Reconciliation of Segment Operating EBITDA to Income from continuing operations before income taxes (In millions)	For the years ended December 31,		
	2024	2023	2022
Electronics & Industrial Segment Operating EBITDA	\$ 1,717	\$ 1,472	\$ 1,836
Water & Protection Segment Operating EBITDA	1,360	1,388	1,431
Reportable Segment Operating EBITDA	\$ 3,077	\$ 2,860	\$ 3,267
+ Corporate & Other Operating EBITDA	\$ 67	\$ 82	\$ (6)
- Depreciation and amortization	1,194	1,147	1,135
+ Interest income <sup>1</sup>	73	155	50
- Interest expense <sup>2</sup>	364	396	486
+ Non-operating pension/OPEB benefit costs (credits) <sup>1</sup>	18	(9)	28
+ Foreign exchange gains (losses), net <sup>1</sup>	3	(73)	15
- Future reimbursable indirect costs	—	7	52
+ Significant items charge	(488)	(961)	(233)
Income from continuing operations before income taxes	\$ 1,192	\$ 504	\$ 1,448

1. Included in "Sundry income (expense) - net."

2. The years ended December 31, 2024 and 2022 excludes significant items, refer to details below.

The following tables summarize the pre-tax impact of significant items that are excluded from Operating EBITDA above:

<b>Significant Items for the Year Ended December 31, 2024</b>	<i>Electronics &amp; Industrial</i>	<i>Water &amp; Protection</i>	<i>Corporate &amp; Other</i>	<i>Total</i>
In millions				
Acquisition, integration and separation costs <sup>1</sup>	\$ (12)	\$ —	\$ (156)	\$ (168)
Restructuring and asset related charges - net <sup>2</sup>	(5)	(50)	(32)	(87)
Inventory write-offs <sup>3</sup>	—	(25)	—	(25)
Inventory step-up amortization <sup>4</sup>	(2)	—	—	(2)
Loss on debt extinguishment <sup>5</sup>	—	—	(74)	(74)
Interest rate swap items <sup>6</sup>	—	—	(140)	(140)
Income tax items <sup>7</sup>	—	—	8	8
Total	\$ (19)	\$ (75)	\$ (394)	\$ (488)

1. Acquisition, integration and separation costs related to the Previously Intended Business Separations and the Intended Electronics Separation, and the acquisitions of Spectrum and Donatelle Plastics.
2. Includes restructuring actions and asset related charges. See Note 6 for additional information.
3. Reflects inventory write-offs recorded in "Cost of Sales" in connection with restructuring actions. See Note 6 for additional information.
4. Reflects the amortization of an inventory step-up adjustment related the Donatelle Plastics Acquisition.
5. Reflects the loss on extinguishment of debt related to the partial redemption of an aggregate principal amount of the 2038 Notes. Refer to Note 15 for further details.
6. Includes the non-cash mark-to-market loss related to the 2022 Swaps and 2024 Swaps, net interest settlement loss related to the 2022 Swaps and \$2 million of basis amortization on the 2022 Swaps. Refer to Note 21 for further details.
7. Reflects the impact of an indemnified international tax audit.

<b>Significant Items for the Year Ended December 31, 2023</b>	<i>Electronics &amp; Industrial</i>	<i>Water &amp; Protection</i>	<i>Corporate &amp; Other</i>	<i>Total</i>
In millions				
Acquisition, integration and separation costs <sup>1</sup>	\$ (20)	\$ —	\$ —	\$ (20)
Restructuring and asset related charges - net <sup>2</sup>	(49)	(55)	(42)	(146)
Goodwill impairment charge <sup>3</sup>	—	(804)	—	(804)
Gain on divestiture <sup>4</sup>	7	1	1	9
Total	\$ (62)	\$ (858)	\$ (41)	\$ (961)

1. Acquisition, integration and separation costs related to the Spectrum Acquisition.
2. Includes restructuring actions and asset related charges. See Note 6 for additional information.
3. Reflects a non-cash goodwill impairment charge in the Protection Reporting unit (aggregation of Safety and Shelter businesses). See Note 14 for additional information.
4. Reflected in "Sundry income (expense) - net."

<b>Significant Items for the Year Ended December 31, 2022</b>	<i>Electronics &amp; Industrial</i>	<i>Water &amp; Protection</i>	<i>Corporate &amp; Other</i>	<i>Total</i>
In millions				
Acquisition, integration and separation costs <sup>1</sup>	\$ —	\$ —	\$ (193)	\$ (193)
Restructuring and asset related charges - net <sup>2</sup>	(24)	(17)	(20)	(61)
Asset impairment charges <sup>3</sup>	(94)	—	—	(94)
Gain on divestiture <sup>4</sup>	—	37	32	69
Terminated Intended Rogers Acquisition financing fees <sup>5</sup>	—	—	(6)	(6)
Employee Retention Credit <sup>6</sup>	20	20	12	52
Total	\$ (98)	\$ 40	\$ (175)	\$ (233)

1. Acquisition, integration and separation costs related to strategic initiatives including the sale of the Biomaterials business unit, the acquisition of Laird PM, and the termination fee of \$162.5 million associated with the Terminated Intended Rogers Corporation Acquisition.
2. Includes restructuring actions and asset related charges. See Note 6 for additional information.
3. Relates to an impairment of an equity method investment. See Note 6 for additional information.
4. Reflected in "Sundry income (expense) - net." See Note 4 for additional information.
5. Includes acquisition costs associated with the Terminated Intended Rogers Corporation Acquisition related to the financing agreements, specifically the structuring fees and the amortization of the commitment fees reflected in "Interest Expense."
6. Employee Retention Credit pursuant to the Coronavirus Aid, Relief, and Economic Security ("CARES") Act as enhanced by the Consolidated Appropriations Act ("CAA") and American Rescue Plan Act ("ARPA") reflected in "Cost of sales," "Research and development expenses" and "Selling, general and administrative expenses."
