To our Shareholders:

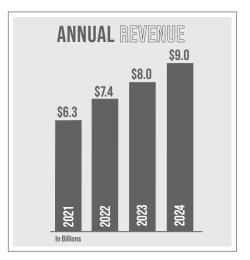

When we founded Skechers over three decades ago, our vision was to create a lifestyle brand focused on comfort, style, innovation, and quality at a reasonable price. As we celebrate our 25th year as a publicly traded company and the third-largest footwear brand in the world with thriving Performance and Lifestyle divisions, we're proud to say that these core principles continue to drive our success and growth.

In 2024, Skechers achieved another year of **exceptional performance**: four **record sales** quarters, leading to **annual sales of \$9 billion** and diluted earnings per share of \$4.40 on a constant currency basis. Additionally, we achieved annual gross margins of 53.2 percent and a double-digit operating margin of 10.1 percent. This success stems from robust worldwide demand for our diverse product offering, innovative marketing efforts, strong partnerships, and the dedication of our global team.

Our broad-based distribution allows us to navigate regional fluctuations and capitalize on emerging opportunities worldwide. For the year, we achieved sales increases of 12 percent in both our **Domestic** and **International** businesses, with the latter representing 62 percent of our total sales, a key focus for long-term growth. Our improvements were broad-based, with sales increases of 11 percent in the Americas, 21

percent in Europe, Middle East and Africa, and 7 percent in Asia Pacific. Importantly, we accomplished this growth despite ongoing economic challenges, including inflationary pressures and geopolitical uncertainties.

Given the breadth of product offering, **Direct-to-Consumer** continues to be a key indicator of consumer sentiment and a focus for Skechers. Our Direct-to-Consumer business achieved growth of 11 percent for the year, underscoring the success of our omnichannel strategy and our loyal customers' appetite for Skechers. We ended the year with 1,787 Company-owned Skechers stores, of which 1,177 are international locations. In total, consumers could shop at 5,296 Skechers-branded stores worldwide, with 4,686 outside the United States.

Looking ahead, we plan to open an additional 180 to 200 Company-owned stores in 2025, further strengthening our retail presence globally. This expansion will include a mix of retail store formats to showcase the full range of our product line, and, in key markets, offer an immersive brand experience such as our first interactive store in Canada. This location at one of the largest malls in North America features indoor courts for basketball and pickleball, providing shoppers with a unique opportunity to test our products.

In our **Wholesale** business, which grew 13 percent for the year, we expanded our presence through innovative shop-in-shops and engaging windows, creating immersive Skechers environments for our retail partners. As sought-after products generated demand, we also developed dedicated spaces for our varied lifestyle and performance footwear in key retailers.

Brand recognition remains paramount to our success, and our **marketing** efforts have continued to be diverse and far-reaching. We engaged customers through traditional and digital media, as well as unconventional placements such as stadium perimeter boards and airport security areas. Our campaigns featured a talented roster of celebrities and influencers, ensuring broad appeal across different markets and demographics.

In product development, we again focused on further innovations in our comfort technologies, including extensions of our popular Skechers Hands Free Slip-ins and Skechers Arch Fit lines both within our lifestyle and performance portfolios, as well as for kids.

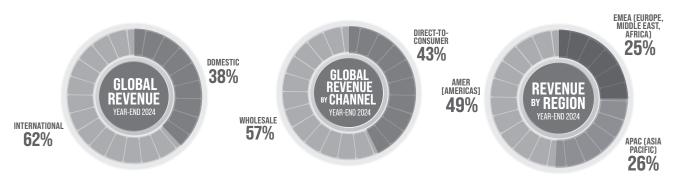

For our vast **lifestyle** and **fashion footwear** offering, including Skechers Hands Free Slip-ins and Skechers Uno, we utilized global celebrities Howie Mandel and Martha Stewart, as well as regional talents Cha Eun-woo (Southeast Asia), Vanessa Mai (Germany) and Pia Wurtzbach (Philippines) to further solidify our position as **The Comfort Technology Company** in the mainstream consciousness.

Our commitment to innovation was evident in the expansion of our **Performance Division**. Building upon our successful entry into soccer/football and basketball in 2023, we introduced elite, academy, and youth styles worldwide in 2024. This strategic expansion allows us to cater to athletes at all levels, from professionals to aspiring young players. The launch of Skechers Cricket footwear and apparel in India, now available globally, further demonstrates our ability to adapt to diverse markets and meet local demands while maintaining our core focus on comfort and performance.

To support our Performance Division endeavors, we expanded our roster of elite athletes across multiple sports. Along with our notable 2023 signings of European football's top scorer Harry Kane and NBA All-Star Julius Randle, Team Skechers now includes European football stars Mohammed Kudus, Baris Alger Yilmaz, Isco Alarcón and Anthony Elanga; NBA players Joel Embiid, Norman Powell and Terance Mann; WNBA rising star Rickea Jackson; MLB players Clayton Kershaw and Aaron Nola; and Indian cricket athletes Ishan Kishan and Yastika Bhatia. Additionally, both our golf athletes – Matt Fitzpatrick and Brooke Henderson – and pickleball players – Tyson McGuffin and Catherine Parenteau – continue to hit the green and court in Skechers' signature **Comfort that Performs**. These elite athlete partnerships not only enhance our credibility in the performance footwear market but also help us build product that meets the demanding needs of athletes at all levels and connect with diverse audiences worldwide.

We continued our successful product collaborations with cultural icons Martha Stewart and Snoop Dogg, leveraging their broad appeal to showcase the versatility of our brand. We also launched a footwear partnership with John Deere, expanding our co-branded offering to include Goodyear, demonstrating our ability to create unique opportunities that resonate with different consumer segments.

Notable developments in **global operations** and **logistics** capabilities include the progress made on the expansion of our distribution centers in the United States, Europe, and China, which will enhance our ability to efficiently manage inventory and support growth in these key markets. These investments are crucial to meet the increasing demand for our products and improve our speed to market.

2024 was a year of significant accomplishments for Skechers, and we enter 2025 with momentum and optimism. While we anticipate potential macroeconomic headwinds, we are a resilient global brand with a diverse product portfolio, established network of retail stores, robust online presence, vast market reach and stable infrastructure and operations, all of which position us well to navigate these challenges and continue our growth trajectory. Looking ahead, we believe our strategic product development, innovative marketing, and operational excellence will drive us toward continued profitable growth.

As always, we want to express our deepest gratitude to our entire supply chain, our loyal retail partners, our dedicated global team, and importantly, our wonderful consumers around the world. Your continued support and trust in our brand have been instrumental in making 2024 another record-breaking year for Skechers. As we move forward, we remain dedicated to delivering the style, comfort, innovation, and quality that you have come to expect from us, always at a reasonable price.

We look forward to continuing our journey of growth in the years to come.

Sincerely,

Robert Greenberg CEO & Chairman of the Board

Michael Greenberg President

This annual report contains forward-looking statements that are made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. #### **Special Note on Forward-Looking Statements**

This annual report on Form 10-K contains forward-looking statements that are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, including statements with regards to future revenue, projected operating results, earnings, spending, margins, cash flow, orders, expected timing of shipment of products, inventory levels, future growth or success in specific countries, categories or market sectors, continued or expected distribution to specific retailers, liquidity, capital resources and market risk, strategies and objectives. Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate or simply state future results, performance or achievements, and can be identified by the use of forward-looking language such as "believe," "anticipate," "expect," "estimate," "intend," "plan," "project," "will," "could," "may," "might," or any variations of such words with similar meanings. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and reported results shall not be considered an indication of our future performance. Factors that might cause or contribute to such differences include:

- our ability to maintain our brand image and to anticipate, forecast, identify, and respond to changes in fashion trends, consumer demand for the products and other market factors;
- our ability to sustain, manage and forecast our costs and proper inventory levels;
- our ability to remain competitive among sellers of footwear for consumers, including in the highly competitive performance footwear market;
- global economic, political and market conditions including the effects of inflation and foreign currency exchange rate fluctuations around the world, the challenging consumer retail market in the United States ("U.S.") and the impact of war and other conflicts around the world;
- the loss of any significant customers, decreased demand by industry retailers and the cancellation of order commitments;
- our ability to continue to manufacture and ship our products that are sourced in China and Vietnam, which could be adversely affected by various economic, political, health or trade conditions, or a natural disaster in China or Vietnam; and
- our ability to manage the impact from delays and disruptions in our supply chain.

The risks included here are not exhaustive. Other sections of this report include additional factors that could adversely impact our business, financial condition and results of operations. Moreover, we operate in a very competitive and rapidly changing environment, and new risk factors emerge from time to time. We cannot predict all such risk factors, nor can we assess the impact of all such risk factors on our business or the extent to which any factor or combination of factors may cause actual results to differ materially from those contained in any forward-looking statements. Given these inherent and changing risks and uncertainties, investors should not place undue reliance on forward-looking statements, which reflect our opinions only as of the date of this annual report, as a prediction of actual results. We undertake no obligation to publicly release any revisions to the forward-looking statements after the date of this document, except as otherwise required by reporting requirements of applicable federal and state securities laws.

#### PART I

#### Item 1. Business

#### DESCRIPTION OF BUSINESS

Skechers U.S.A., Inc., designs, develops and markets a diverse range of footwear, apparel, and accessories. Our company was incorporated in California in 1992 and reincorporated in Delaware in 1999. For over 30 years, we have expanded our product offering and grown our sales while substantially increasing the breadth of our consumer and customer base. Our objective is to profitably grow our operations worldwide by delivering stylish, comfortable, innovative and high-quality products at a reasonable price.

Skechers is the third largest athletic footwear company in the world due to our innovative comfort technology products, supported by impactful marketing, as well as a diverse distribution strategy, a dedicated global employee base and a loyal network of partners.

In this annual report on Form 10-K for the fiscal year ended December 31, 2024, Skechers U.S.A., Inc., its consolidated subsidiaries and certain variable interest entities ("VIEs") of which it is the primary beneficiary, are referred to as "Skechers," "the Company," "we," "us," or "our." Reference in this annual report to "sales" refers to Skechers net sales reported under U.S. generally accepted accounting principles.

#### SEGMENTS

We have two reportable segments: Wholesale and Direct-to-Consumer.

Wholesale. Our Wholesale segment is comprised of sales to a network of partners including:

- Skechers-branded stores operated by third-party franchisees and licensees;
- Family shoe stores, specialty athletic and sporting goods retailers, department stores and big box club stores;
- E-commerce retailers; and
- Distributors in select international markets.

Growth in the Wholesale segment is expected to derive from adding new partners, more third-party Skechers-branded stores, as well as expanding our existing shelf space with current partners from the introduction of new products.

*Direct-to-Consumer.* Our Direct-to-Consumer segment comprises sales by us directly to consumers through a combination of channels including:

- Company-owned Skechers-branded stores;
- Company-owned e-commerce sites; and
- Leading third-party marketplaces and digital platforms.

Growth in the Direct-to-Consumer segment is expected to derive from expanding our footprint, leveraging third-party digital marketplaces and platforms and introducing new products.

#### PRODUCTS

Skechers is a product-driven company with comfort and innovation at the core of our design process. We offer footwear and accessories for men, women and kids, as well as apparel for men and women. We market our products at multiple price points and provide consumers with what we believe is an offering with superior comfort technology.

Product design and development is essential to our success and is driven by our ability to recognize trends and to design products that anticipate and accommodate consumers' evolving preferences. Lifestyle trend information is compiled and analyzed by our designers in various ways, including reviewing and analyzing pop culture, and fashion media. We also consult with our customers on current retail selling trends and collaborate with partners and ambassadors to ensure that our products are designed to address the intended market opportunity and convey the distinctive perspective and lifestyle associated with our brand. A key component of our design philosophy is to continually reinterpret and improve our most successful styles.

*Footwear.* We offer a comprehensive line of Skechers-branded performance and lifestyle footwear for men, women, and kids – with the Company's signature comfort features and innovations. We develop footwear for athletes at all levels, everyday comfort needs, as well as occupational requirements. Our footwear categories include the following:

• *Lifestyle* – Forward, innovative and on trend, the brand's fashion, athleisure, and casual collections inspire millions to enjoy the style, comfort and quality synonymous with Skechers. Our lifestyle offering delivers comfort technologies such as Skechers Hands Free Slip-ins®, Skechers Arch Fit®, and Skechers Air-Cooled Memory Foam®, among others. With a street, fashion and court classic range, Skechers is able to reach a younger demographic.

- **Performance** Winner of numerous awards, the Skechers Performance collection offers elite athletes and enthusiasts innovative technologies for soccer/football, basketball, golf, pickleball, running and walking, as well as cricket in India in 2024. The Skechers Performance division develops footwear utilizing the latest advancements in materials and works with its athletes to develop superior designs. Signature technologies include Skechers Hyper Burst®, Goodyear<sup>®</sup> Resagrip Technology, Skechers Hands Free Slip-ins® and Skechers Arch Fit®. To support and market our Performance footwear, we have a roster of elite athletes, including Harry Kane, Europe's top football scorer for 2023 and captain of the England national team; NBA players Julius Randle, Terance Mann, Joel Embiid, Jabari Walker and WNBA player Rickea Jackson; Major golfers Matt Fitzpatrick and Brooke Henderson; pickleball pros Tyson McGuffin and Catherine Parenteau; and cricketers Ishan Kishan and Yastika Bhatia.
- *Kids* Skechers appeals to kids with bright and bold colors and designs and are made with the latest comfort features specific to growing children's feet. Along with unique styles for children like S-Lights, Skechers Kids also includes take-downs of our most popular products, including Skech-Air, Foamies, Skechers Hands Free Slip-ins®, Skechers Stretch Fit, and Skechers Street.
- *Work* A leading work brand in the United States and other international markets, Skechers Work is made to last offering service and occupational employees style, comfort and industry-certified quality for all-day protection. Available for men and women, the Skechers Work line includes slip-resistant and safety-toe shoes and boots for professionals who use protective footwear in their work environments with safety and durability features such as steel, composite and lightweight safety toes, high-abrasion soles, puncture resistance, waterproofing and electrostatic-dissipative technology.
- *Earth-Friendly* Skechers Our Planet Matters line is made with recycled materials to help reduce our environmental impact. An important part of our product innovation process includes seeking out new material and textile technologies to improve upon the recycled content in Skechers Our Planet Matters products.

*Apparel.* We offer the latest trends in athletic and lifestyle apparel. Our collections are designed to complement our footwear products, by offering apparel that is stylish, high-quality and comfortable all at a reasonable price.

*Accessories.* Skechers licenses a variety of Skechers-branded products including socks, eyewear, medical scrubs, undergarments, fitness and yoga accessories, and cold weather products.

#### TRADEMARKS, PATENTS AND LICENSING

We own and utilize a variety of trademarks, including the Skechers trademark. We consider our Skechers trademark a significant factor in building our brand image and in distinguishing our products from those of others. We vigorously protect our trademarks against infringement, including through the use of cease-and-desist letters, administrative proceedings and lawsuits. We have a significant number of both registrations and pending applications for our U.S. trademarks. In addition, we have trademark registrations and trademark applications in 165 foreign countries. Further, we have design patents and pending design and utility patent applications in both the U.S. and a myriad of foreign countries. We continuously look to increase the number of our patents and trademarks both domestically and internationally.

We believe that selective licensing of the Skechers brand name to manufacturers broadens and enhances the brand without requiring incremental capital investments or operating expenses. As of December 31, 2024, we had 25 active licensing agreements in which we are the licensor. We license a variety of Skechers-branded products including apparel and accessories.

#### MARKETING

Brand recognition is an important element for success in the footwear business. Senior management is directly involved in shaping our image and the conception, development and implementation of our advertising and marketing activities. We aggressively market our brands through comprehensive marketing campaigns. The Skechers brand is supported by television, digital, print, radio, outdoor, and press campaigns. To further drive recognition, we enlist numerous celebrities, athletes, and influencers to appear in our campaigns. We strategically select ambassadors who we believe work well with the Company to promote the brand and support the product. In 2024, our brand ambassadors included television personalities and entertainers Martha Stewart, Snoop Dogg, Amanda Kloots, Brooke Burke, Howie Mandel, Myleene Klass, Andy Reid and Vanessa Mai, and former athletes Sugar Ray Leonard, Tony Romo, Howie Long, Jamie Redknapp, Fabio Cannavaro, Ruud, Gullet and Frank Leboeuf.

Additionally, athletes supporting our performance footwear included elite golfers Matt Fitzpatrick and Brooke Henderson, professional pickleball players Tyson McGuffin and Catherine Parenteau, and Major League Baseball players Clayton Kershaw, Chris Taylor, Brendan Donovan, Aaron Nola and Wade Miley. Skechers Football launched at the start of the 2023/24 season when the Company signed Bayern Munich striker Harry Kane as the first professional to compete in the boot. Skechers expanded its roster with a number of Premier League athletes including Mohammed Kudus, Oleksandr Zinchenko and Anthony Elanga, as well as Indian Super League all-time top scorer Sunil Chhetri and Turkey's Super Lig and national team player Baris Alper Yilmaz. Skechers Basketball launched at the start of the 2023/24 season with NBA pros Julius Randle and Terance Mann. The roster expanded in 2024 with gold-medal winner Joel Embiid, Jabari Walker and Rickea Jackson, our first WNBA athlete. For the 2024 launch of Skechers Cricket, we signed Mumbai Indian cricketers Ishan Kishan and Yastika Bhatia. We identify athletes who benefit from the comfort and technologies that our brand has to offer, and whose performance on the field, court, pitch, or course is augmented through the product.

#### SOURCING AND MANUFACTURING

Our suppliers are integral partners in delivering stylish, high-quality footwear and apparel to our consumers worldwide. Our products are produced by independent contract manufacturers located primarily in Asia. We do not own or operate any manufacturing facilities. We believe that the use of independent manufacturers substantially increases our production flexibility and capacity, while reducing capital expenditures and avoiding the costs of managing a large production workforce. To minimize disruption of our product supply due to potential political instability, civil unrest, economic instability, changes in government policies or regulations, natural and manmade disasters, and other risks, we source product from multiple facilities across multiple countries. We believe that the existing production capacity at our third-party manufacturers' facilities is sufficient to handle our expected volume in the foreseeable future.

To safeguard product quality and consistency, we monitor the key aspects of production from initial prototype manufacturing, through initial production runs, to final manufacturing. Monitoring of production is performed in the U.S. by our in-house production department and in Asia by staff working from our offices in China and Vietnam. We believe that our Asia presence allows us to negotiate supplier and manufacturer arrangements more effectively, decrease product turnaround time, and ensure timely delivery of finished footwear.

We believe quality control is an important and effective means of maintaining the quality and reputation of our products and brand. Our quality control program is designed to ensure finished goods meet our established design specifications and goods bearing our trademarks meet our standards for quality. Our quality control personnel located in China and Vietnam perform an array of inspection procedures at various stages of the production process, including examination and testing of prototypes of key raw materials prior to manufacture, samples and materials at various stages of production and final products prior to shipment. Our employees are on-site at each of our major manufacturers to oversee production and ensure that manufacturers comply with our Supplier Code of Conduct.

#### OUR MARKET

Our collections are available in approximately 180 countries and territories and can be accessed in digital or physical stores. We are continually expanding and enhancing our distribution and logistics facilities and systems to support our omni-channel capabilities and provide greater access to merchandise selection and faster delivery. Our company-owned e-commerce business enables consumers to shop, browse, find store locations, socially interact, post reviews, and immerse themselves in our brands. Additionally, the e-commerce business provides an efficient and effective direct-to-consumer distribution channel, which continues to improve our customer service and brand experience. We manage our international business through a network of wholly-owned subsidiaries, joint venture partners, and distributors. Our joint venture interests include China, Malaysia, Vietnam and Singapore (50%), Thailand (51%), Mexico (60%), South Korea (65%) and Israel (75%). Where we do not sell directly through our international subsidiaries and joint ventures, our footwear is distributed through a network of distributors and licensees who sell our products to department, athletic and specialty stores, and digital stores, as well as in Skechers-branded retail stores.

#### COMPETITION

The global footwear industry is a competitive business. Although we believe that we do not compete directly with any single company with respect to our entire range of products, our products compete with other branded products within their product category as well as with private label products sold by retailers, including some of our customers. We also compete with numerous manufacturers, importers, and distributors of footwear for the limited shelf space available for displaying such products to the consumer. Moreover, the general availability of contract manufacturing capacity allows ease of access by new market entrants. Some of our competitors are larger, have been in existence longer, have strong brand recognition, have captured greater market share and/or have substantially greater financial, distribution, marketing and other resources than we do. We believe, however, that we have competitive advantages because of our brand recognition, our quality comfort technology products, and our application of pricing and distribution strategies, among other factors.

#### HUMAN CAPITAL

Skechers employees are central to our success. We are a family brand at the core, and our commitment to family extends to our diverse team of global employees. We believe our unique backgrounds and experiences have made us stronger, inspired new ideas, and driven our innovative spirit. From our corporate offices to our retail stores and our distribution centers, we aim to build a workplace that supports each employee's well-being and encourages everyone to grow in their careers and give back to their community. We are focused on creating a positive, supportive work environment where our team can work and feel their best every day.

*Employees.* As of December 31, 2024, we employed approximately 20,100 persons worldwide, of whom approximately 10,100 were employed on a full-time basis and approximately 10,000 were employed on a part-time basis, primarily in our retail stores.

*Compensation and Benefits.* We seek to provide market-competitive compensation and benefits that attract and retain the best talent. We offer a broad range of benefits including medical, prescription, dental and vision plans, flexible spending accounts, company-provided disability insurance, pet insurance, paid sick and vacation time, employee assistance program, childcare subsidies, parental leave and tuition reimbursement. Additional benefits for certain employees include a 401(k) plan, 529 college savings plan and pensions.

*Workplace Culture.* Skechers was founded on inclusivity, diversity, respect, and entrepreneurial spirit with the philosophy of putting people first. In conjunction with our corporate policy against discrimination, Skechers emphasizes that every employee, applicant, contractor, and customer is entitled to be treated with dignity and respect. Human rights are a core value at the heart of how we conduct our business, at every level of the Company – including our factories and suppliers. Our Code of Ethics, Corporate Code of Conduct and Supplier Code of Conduct codify our commitment to these values. These codes are in the Corporate Governance section of the Investor Relations page of our corporate information website located at investors.skechers.com/corporate-governance/governance-documents. We intend to post any amendment to, or waivers of, these codes on our website.

#### CORPORATE RESPONSIBILITY

Despite the dynamic growth we have seen over the years, we remain firmly rooted in the same community where we began while dedicated to serving the people around the world. In so doing, we take seriously our position as a steward of the many communities and stakeholders we impact in our daily business activities. This increasingly involves considering multiple ways we can evolve our business practices and processes to improve the health of our planet, the lives of our people and our communities. Corporate responsibility is a top priority for our leadership, who are investing in plans to further our environmental, social and governance ("ESG") efforts.

*Sustainability.* We believe it is our responsibility as a family-focused footwear and apparel brand to create and implement sustainable strategies across our operations to minimize our impact on the environment and support our customers, employees, and partners. Environmental advancements are a top priority in the development of our corporate offices as well as logistic centers. Many of our facilities are designed and operated with sustainability in mind, including one of America's largest LEED Gold certified facilities at our North America distribution center in Southern California. Our European Distribution Center in Liege, Belgium, has both a BREEAM Very Good rating and a Lean and Green certification. Additionally, our China Distribution Center in Taicang incorporates sustainable features such as natural lighting, LED motion detectors and temperature controllers; and our recently opened India Distribution Center outside Mumbai is designed as a LEED building with certification pending. Now under construction, our corporate offices in Manhattan Beach remain future-focused as we incorporate our earth-friendly philosophy into our growing footprint. All four new buildings are being designed to receive LEED Gold certification upon completion.

In 2021, we introduced Our Planet Matters, a collection for men and women that utilizes recycled materials. We partnered with a global conservation organization to help fund its organization's global efforts which align with our interests and commitment to reduce tree harvesting and emissions through packaging. These efforts represent our growing focus on more environmentally sustainable manufacturing, packaging, distribution, product development, corporate processes, and activities.

*Human Rights.* We require our manufacturers to operate in a manner consistent with the Skechers Supplier Code of Conduct posted on our corporate website. We partner with factories that ensure humane conditions for their employees and we engage in routine auditing and monitoring procedures to ensure that those who contribute to our product are treated with civility and respect. This code outlines our policies and expectations on topics including discrimination, harassment and abuse, forced labor, freedom of association, compensation and benefits, and health and safety, among others.

*Community.* Skechers encourages active participation in the greater community, with annual charity walks for children near our corporate offices and in select global markets. We promote charitable giving and volunteering by sponsoring community service days along with blood drives, food drives and shoe drives. Additionally, we regularly donate product to not-for-profit organizations and for humanitarian relief. In 2024, we donated \$1.6 million to Petco Love Foundation to help save the lives of animals in need in the U.S. and Canada. In addition, in 2024, we donated \$2.0 million to the Skechers Foundation which is dedicated to ensuring the well-being of youth around the world.

For additional information on Skechers value creation and global impact, refer to our Impact Report which can be found on our website at about.skechers.com/social-responsibility.

#### AVAILABLE INFORMATION

We file annual, quarterly, and current reports, proxy statements and other documents with the Securities and Exchange Commission ("SEC"). The SEC maintains an internet site at sec.gov that contains reports, proxy and information statements, and other information regarding issuers that file electronically. Our internet address is www.skechers.com. Our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and other information are also made available, free of charge, on our investor relations website at investors.skechers.com as soon as reasonably practicable after we file or furnish with the SEC. The information found on, or otherwise accessible through, our website is not incorporated into, and does not form a part of this annual report on Form 10-K or our other filings with the SEC.

#### Item 1A. Risk Factors

In addition to the other information in this annual report, the following factors should be considered in evaluating us and our business.

#### RISKS RELATED TO OUR BUSINESS AND INDUSTRY

#### Our Future Success Depends On Our Ability To Maintain Our Brand Name And Image With Consumers.

Our success to date has largely been due to the strength of the Skechers brand. Maintaining, promoting, and growing our brand depends on our ability to develop high-quality, innovative, and fashion forward products, as well as our ability to create fresh and relevant marketing and advertising campaigns. The inability to execute or adverse developments in these areas could negatively impact our brand. Our brand could also be negatively impacted if we or any of our products were to receive negative publicity. If we are unable to maintain, promote and grow our brand, then our business, financial condition, results of operations, and cash flows could be materially and adversely affected.

### Our Future Success Depends On Our Ability To Respond To Changing Consumer Preferences, Identify And Interpret Consumer Trends, And Successfully Market New Products.

The footwear industry is subject to rapidly changing consumer preferences. The continued popularity of our footwear requires us to accurately identify changing consumer preferences and effectively respond in a timely manner. Demand for and market acceptance of existing and new products are uncertain and depend on the following factors:

- substantial investment in product innovation, design and development;
- execution of product quality; and
- significant and sustained marketing efforts and expenditures, including with respect to the monitoring of consumer trends.

We are often required to make decisions about product designs and marketing expenditures several months in advance of when consumer acceptance can be determined. As a result, we may not be successful in responding to shifting consumer preferences with new products that achieve market acceptance. If we fail to identify and effectively respond to changing consumer preferences, we could experience excess inventories, higher than normal markdowns, returns, order cancellations or an inability to profitably sell our products, and our business, financial condition, results of operations and cash flows could be materially and adversely affected.

### We Face Intense Competition, Including Competition From Companies In The Footwear Industry and With Significantly Greater Resources Than Ours.

We face intense competition from other established companies in the footwear industry in the areas of product offerings, pricing, costs of production, and advertising and marketing expenditures. Consumer demand for our products may decline significantly if we do not adequately and timely anticipate and respond to our competitors. Some of our competitors have significantly greater financial, technological, engineering, manufacturing, marketing and distribution resources than we do. Their greater capabilities in these areas may enable them to better withstand periodic downturns in the footwear industry, compete more effectively on price and production, more effectively keep up with rapid changes in footwear technology, and more quickly develop new products. New companies may also enter the markets in which we compete, further increasing competition. We may not be able to compete successfully in the future, and increased competition may result in price reductions, cost increases, reduced profit margins, loss of market share and an inability to generate cash flows that are sufficient to maintain or expand our development and marketing of new products, which would materially and adversely affect our business, financial condition, results of operations and cash flows.

### Our Strategies Involve A Number Of Risks That Could Prevent Or Delay The Successful Opening Of New Stores As Well As Negatively Impact The Performance Of Our Existing Stores.

Our ability to successfully open and operate new stores depends on many factors, including our ability to identify suitable store locations, the availability of which is outside of our control; negotiate acceptable lease terms, including desired tenant improvement allowances; source sufficient levels of inventory to meet the needs of new stores; hire, train and retain store personnel; successfully integrate new stores into our existing operations; and satisfy the fashion preferences in new geographic areas.

In addition, new stores could be opened in regions in which we currently have few or no stores. Any expansion into new markets may present competitive, merchandising and distribution challenges that are different from those we encounter in our existing markets. Any of these challenges could adversely affect our business and results of operations. In addition, any new store openings in existing markets could result in reduced sales in existing stores in those markets. We may decide to close stores that experience sales declines, which could result in additional costs, expenses, asset impairments or asset write-downs.

### Our Global Retail Business Has Required, And Will Continue To Require, A Substantial Investment And Commitment Of Resources And Is Subject To Numerous Risks And Uncertainties.

Our global retail business has required substantial investments in leasehold improvements, inventory, and personnel. We have also made significant operating lease commitments for retail space worldwide. Due to the high fixed-cost structure associated with our global retail business, the poor performance or closure of stores could result in significant lease termination costs, write-offs or impairments of leasehold improvements, and employee-related termination costs. The success of our global retail operations also depends on our ability to identify and adapt to changes in consumer spending patterns and retail shopping preferences globally, including the shift from brick and mortar to digital and mobile channels. Our failure to successfully respond to these factors could adversely affect our retail business, as well as damage our brand and reputation, and could materially and adversely affect our business, financial condition, results of operations and cash flows.

#### Our Retail Stores Depend On The Customer Traffic Generated By Shopping And Factory Outlet Malls Or By Tourism.

We have concept stores in shopping malls and factory outlet stores in outlet malls. We depend on obtaining prominent locations and the overall success of the malls to generate customer traffic. The overall success of the malls can be negatively impacted by factors outside of our control, such as store closures by other retailers. Some of our concept stores occupy street locations that are heavily dependent on customer traffic generated by tourism. Tourism can be adversely affected by external factors such as an economic slowdown or social or political events. Any substantial decrease in customer traffic generated by malls or tourism has, and may continue to have, an adverse effect on sales in our existing stores or hinder our ability to open retail stores in new markets, which could materially and adversely affect our business, financial condition, results of operations and cash flows.

### We Depend On Key Personnel To Manage Our Business Effectively In A Rapidly Changing Market, And If We Are Unable To Retain Key Personnel, Our Business Could Be Harmed.

We depend upon the continued services of key personnel, including Robert Greenberg, Chairman of the Board and Chief Executive Officer; Michael Greenberg, President and a member of our Board of Directors; and David Weinberg, Executive Vice President, Chief Operating Officer and a member of our Board of Directors. We also depend on our ability to identify, attract and retain additional qualified personnel. Competition for employees in our industry is intense, and we may not be successful in attracting and retaining such personnel. The loss of the services of senior management and other key personnel or the failure to attract additional personnel and execute a succession plan could materially and adversely affect our business, financial condition, results of operations and cash flows.

#### We Have A Significant Work Force And Are Subject To Risks Related To Human Capital Management.

We employ approximately 20,100 employees worldwide and a significant portion of our operating expenses relate to compensation and benefits. Although we spend a significant amount of time and expense on human capital management, we cannot ensure that we will be able to maintain a happy and productive workforce. If we are unable to offer competitive compensation and benefits, appropriate training and development, and a compelling work environment or sustain employee satisfaction, our culture may be adversely affected, our reputation may be damaged, and we may incur costs related to turnover.

#### RISKS RELATED TO SUPPLY CHAIN

#### Our Business Could Be Harmed If We Fail To Maintain Appropriate Inventory Levels.

We place orders with our manufacturers for some of our products prior to the time we receive customer orders. We do this to minimize purchasing costs, the time necessary to fill customer orders, and the risk of non-delivery. We also maintain an inventory of certain products that we anticipate will be in greater demand. Unanticipated declines in the popularity of Skechers footwear or other unforeseen circumstances may make it difficult for us and our customers to accurately forecast demand, and we may be unable to sell the products we have ordered in advance from manufacturers or that we have in our inventory. Inventory levels exceeding customer demand may result in inventory write-downs and the sale of excess inventory at discounted prices, which could significantly impair our brand image and have a material adverse effect on our operating results, financial condition and cash flows. Conversely, if we underestimate consumer demand for our products or if our manufacturers fail to supply products when we need them, we may experience inventory shortages. Inventory shortages might delay shipments to customers, negatively impact retailer and distributor relationships, and diminish brand loyalty.

# Our International Sales And Manufacturing Operations Are Subject To The Risks Of Doing Business Abroad, Particularly In China and Vietnam, Which Could Affect Our Ability To Manufacture Or Sell Our Products, Obtain Products From Foreign Suppliers Or Control The Costs Of Our Products.

Substantially all our sales during the year ended December 31, 2024 were derived from sales of footwear manufactured in foreign countries, with most manufactured in China and Vietnam. We also sell our footwear in foreign countries and plan to increase our international sales efforts as part of our growth strategy. Foreign manufacturing and sales are subject to a number of risks, including the following: political and social unrest, including terrorism; changing economic conditions, including higher labor costs; increased costs of raw materials; currency exchange rate fluctuations; labor shortages and work stoppages, including those due to the outbreak of a disease leading to an epidemic or pandemic spread; electrical shortages; transportation delays; loss or damage to products in transit; expropriation; nationalization; the adjustment, elimination or imposition of domestic and international duties, tariffs, quotas, import and export controls and other non-tariff barriers; exposure to different legal standards (particularly with respect to intellectual property); compliance with foreign laws; changes in domestic and foreign governmental policies; and the potential for circumstances where we may have to incur premium freight charges to expedite the delivery of product to our customers. Apart from the impacts of the COVID-19 pandemic, including supply chain constraints, we have not, to date, been materially affected by any such risks, but we cannot predict the likelihood of such developments occurring or the resulting long-term adverse impact on our business, financial condition, results of operations and cash flows.

In particular, because most of our products are manufactured in China and Vietnam, the possibility of adverse changes in trade or political relations with China or Vietnam, political instability in China or Vietnam, increases in labor costs, the occurrence of prolonged adverse weather conditions or a natural disaster such as an earthquake or typhoon in China or Vietnam, or the outbreak of a pandemic disease in China or Vietnam could severely interfere with the manufacturing and/or shipment of our products and would have a material adverse effect on our operations. Our business operations may be adversely affected by the current and future political environment in China. The government of China has exercised and continues to exercise substantial control over virtually every sector of the Chinese economy through regulation and state ownership. Our ability to operate under China may be adversely affected by changes in Chinese laws and regulations, including those relating to taxation, import and export tariffs, raw materials, environmental regulations, land use rights, property and other matters. Under its current leadership, the government of China has been pursuing economic reform policies that encourage private economic activity and greater economic decentralization. There is no assurance, however, that the government of China will continue to pursue these policies, or that it will not significantly alter these policies from time to time without notice. A change in policies by the government of China could adversely affect our interests by, among other factors: changes in laws, regulations or the interpretation thereof, confiscatory taxation, restrictions on currency conversion, imports or sources of supplies, or the expropriation or nationalization of private enterprises.

#### We Rely On Independent Contract Manufacturers And, As A Result, Are Exposed To Disruptions In Product Supply.

Our footwear products are currently manufactured by independent contract manufacturers. During the year ended December 31, 2024, the top five manufacturers of our products produced approximately 42.4% of our total purchases. One manufacturer accounted for 20.4% of total purchases for the year ended December 31, 2024.

We compete with other footwear companies for production facilities, and we do not have long-term contracts with any of our contract manufacturers. Under our current arrangements with them, these manufacturers generally may unilaterally terminate their relationship with us at any time. If our current manufacturers cease doing business with us, we could experience an interruption in the manufacture of our products. Although we believe that we could find alternative manufacturers, we may be unable to establish relationships with alternative manufacturers that will be as favorable as the relationships we have now. For example, new manufacturers may have higher prices, less favorable payment terms, lower manufacturing capacity, lower quality standards or higher lead times for delivery. If we are unable to provide products consistent with our standards or the manufacture of our footwear is delayed or becomes more expensive, our business, financial condition, results of operations and cash flows could be materially and adversely affected.

### Our Ability To Deliver Our Products To The Market Could Be Disrupted If We Encounter Problems Affecting Our Logistics And Distribution Systems.

We rely on owned or independently operated distribution facilities to transport, warehouse and ship products to our customers. Our logistics and distribution systems include computer-controlled and automated equipment, which may be subject to risks related to security or computer viruses, the proper operation of software and hardware, power interruptions or other system failures. Substantially all our products are distributed from a few locations. Therefore, our operations could be interrupted by travel restrictions, earthquakes, floods, fires or other natural disasters near our distribution centers. Our business interruption insurance may not adequately protect us from the potential adverse effects of significant disruptions to our distribution system, such as the long-term loss of customers or an erosion of brand image. In addition, our distribution capacity is dependent on the timely performance of services by third parties, including the transportation of product to and from our distribution facilities. If we encounter problems affecting our distribution system, our ability to meet customer expectations, manage inventory, complete sales and achieve operating efficiencies could be materially adversely affected.

#### The Uncertainty Of Global Market Conditions.

The uncertain state of global economic and political conditions, including the impact of inflation and challenging consumer retail market, may negatively impact our business, which depends on the general economic environment and levels of consumers' discretionary spending. If the economic situation weakens, we may not be able to maintain or increase our sales to existing customers, make sales to new customers, open and operate new retail stores, maintain sales levels at our existing stores, maintain or increase our international operations on a profitable basis, or maintain or improve our earnings from operations as a percentage of sales. Additionally, if there is an unexpected decline in sales, our results of operations will depend on our ability to implement a corresponding and timely reduction in our costs and manage other aspects of our operations. These challenges include (i) managing our infrastructure, (ii) hiring and maintaining, as required, the appropriate number of qualified employees, (iii) managing inventory levels and (iv) controlling other expenses.

The impact of wars, acts of war and other conflicts around the world may result in subsequent economic sanctions imposed by the U.S., NATO and other countries. Conflicts may impact global economic conditions or our ability to sell products to customers in the affected regions. Conflicts could also have broader implications on economics outside the directly impacted regions, such as the global inflationary impact of a potential boycott of Russian oil and gas by other countries. Furthermore, any unfavorable developments in global political, social and regulatory conditions, including geopolitical conflicts, political unrest, civil strife, terrorist activity, acts of war, public corruption, expropriation, nationalism and other economic or political uncertainties in the U.S. or internationally, could also impact our business. Any negative sentiment toward the U.S. as a result of any such developments could also adversely affect our business and reputation. If the uncertain global market conditions continue for a significant period or worsen, our business, financial condition, results of operations and cash flows could be materially and adversely affected.

### Our Business Could Be Adversely Affected By Changes In The Business Or Financial Condition Of Our Customers Due To Global Economic Conditions.

A global financial crisis could affect the banking system and financial markets and result in a tightening in the credit markets, more stringent lending standards and terms, higher inflation, and higher volatility in fixed income, credit, currency and equity markets. In addition, our business could be adversely affected by other economic conditions, such as the insolvency of certain of our key distributors, which could impair our distribution channels, or the diminished liquidity or an inability to obtain credit to finance purchases of our product by our significant customers. Our customers may also experience weak demand for our products or other difficulties in their businesses. If economic, financial or political conditions in global markets deteriorate in the future, demand may be lower than forecasted and insufficient to achieve our anticipated financial results. Any of these events would likely materially and adversely affect our business, financial condition, results of operations and cash flows.

### Our Sales Are Influenced By Economic Conditions And Uncertainty That Impact Consumer Spending And Consumer Confidence.

Consumer confidence and spending on discretionary items generally declines during periods of economic uncertainty or recession. Our wholesale customers anticipate and respond to adverse changes in economic conditions and uncertainty by reducing inventories and/or increasing promotional activity. Our retail stores are also affected by these conditions and may experience declines in consumer traffic and spending. As a result, factors that diminish consumer confidence and spending, particularly deterioration in general economic conditions, consumer credit availability, consumer debt levels, inflation, the impact of foreign currency exchange fluctuations on tourism and tourist spending, volatility in investment returns, fear of unemployment, increases in energy costs or taxes or interest rates, housing market downturns, fear about and impact of pandemic illness, and other factors such as acts of war, natural disasters or terrorist or political events that impact consumer confidence, have had, and may continue to have a material adverse effect on our operations and financial condition through their negative impact on our wholesale customers as well as decreased spending in our retail stores and potentially via our e-commerce business.

#### Natural Disasters, The Effects Of Climate Change, Pandemics, And Other Events Beyond Our Control.

Natural disasters or other catastrophic events may cause damage or disruption to our operations, international commerce, and the global economy, and thus could have a negative effect on us. Our business operations are subject to interruption from earthquakes, hurricanes, tornadoes, floods, fires, extreme weather events, power shortages, pandemics, telecommunications failure, vandalism, cyber-attacks, the effects of climate change, and other events beyond our control. Although we maintain disaster recovery plans, such events could disrupt our operations or those of our customers and suppliers, including through the inability of employees and contract professionals to work, destruction of facilities, loss of life, and adverse effects on supply chains, power, infrastructure and the integrity of information technology ("IT") systems, all of which could materially increase our costs and expenses, delay or decrease revenue from our customers and disrupt our ability to maintain business continuity. We could incur significant costs to improve the climate-related resiliency of our infrastructure and otherwise prepare for, respond to, and mitigate the effects of climate changes. Our insurance may not be sufficient, or cover losses or additional expenses that we may sustain. A significant natural disaster or other event that disrupts our operations or those of our customers or suppliers could have a material adverse effect on our business, results of operations, financial condition and cash flows.

#### Adverse Conditions Or Changes In California Could Increase Our Operating Expenses Or Adversely Affect Our Sales.

A substantial portion of our operations are in California, including 106 of our retail stores, our headquarters in Manhattan Beach and our North America distribution center in Rancho Belago. A decline in the economic conditions, or increase in regulations or the cost of doing business in California could have a material adverse impact on our business. Furthermore, a natural disaster or other catastrophic event in California, such as an earthquake or wildfire, could significantly disrupt our business including the operation of our only domestic distribution center. We may be more susceptible to these issues than our competitors whose operations are not as concentrated in California.

#### Foreign Currency Exchange Rate Fluctuations.

Foreign currency fluctuations affect our sales and profitability. Changes in currency exchange rates may impact our financial results positively or negatively in one period and not another, which may make it difficult to compare our operating results from different periods. Currency exchange rate fluctuations may also adversely impact third parties that manufacture our products by making their costs of raw materials or other production costs more expensive and more difficult to finance, thereby raising prices for us, our distributors and/or our licensees. We do not currently engage in hedging activities with respect to these currency exchange rate risks. For a more detailed discussion of the risks related to foreign currency fluctuation, see Item 7A "Quantitative and Qualitative Disclosures About Market Risk."

In addition, our foreign subsidiaries purchase products in U.S. dollars, which causes the cost of those products to vary depending on the foreign currency exchange rates and impacts the price charged to customers. Our foreign distributors also purchase products in U.S. dollars and sell in local currencies, which impacts the price to foreign consumers. As the U.S. dollar strengthens relative to foreign currencies, our sales and profits are reduced when translated into U.S. dollars and our margins may be negatively impacted by the increase in product costs due to foreign currency exchange rates. Although we typically work to mitigate the impact of exchange rate fluctuations through price increases and further actions to reduce costs, we may not be able to fully offset the impact, if at all. Our success depends, in part, on our ability to manage or mitigate these foreign currency impacts, as changes in the value of the U.S. dollar relative to other currencies could materially and adversely affect our business, financial condition, results of operations and cash flows.

#### RISKS RELATED TO ENVIRONMENT, SOCIAL, AND GOVERNANCE

### Our Environmental, Social And Governance Commitments and Disclosures May Expose Us To Reputational Risks And Legal Liability.

Our brand and reputation are associated with our public commitments to various corporate ESG initiatives, including our goals relating to sustainability and our employees. Our disclosures on these matters and any failure or perceived failure to achieve or accurately report on our commitments, could harm our reputation and adversely affect our client relationships or our recruitment and retention efforts, as well as expose us to potential legal liability. Increasing focus on ESG matters has resulted in, and is expected to continue to result in, the adoption of legal and regulatory requirements designed to mitigate the effects of climate change on the environmental, as well as legal and regulatory requirements requiring climate-related disclosures. If new laws or regulations are more stringent than current legal or regulatory requirements, and standards, and the interpretation or application of those frameworks and standards, may change from time to time or may not meet the expectations of investors or other stakeholders. Our processes and controls for reporting ESG matters across our operations and supply chain are evolving along with multiple disparate standards for identifying, measuring, and reporting ESG metrics, including ESG-related disclosures that may be required by the SEC, European and other regulators, and such standards may change over time, which could result in significant revisions to our current goals, reported progress in achieving such goals, or ability to achieve such goals in the future.

#### RISKS RELATED TO LEGAL AND REGULATORY MATTERS

#### Changes In Tax Laws Or The Potential Imposition Of Additional Duties, Quotas, Tariffs And Other Trade Restrictions.

Our products manufactured overseas and imported into the U.S., the European Union ("EU") and other countries are subject to customs duties. We are unable to predict whether there may be unfavorable changes in tax laws in the U.S. or overseas, additional customs duties, quotas, tariffs, anti-dumping duties, safeguard measures, cargo restrictions to prevent terrorism or other trade restrictions imposed on the importation of our products in the future. Such actions could adversely affect our ability to produce and market footwear at competitive prices and might have an adverse impact on our sales and results of operations.

In addition, changes in the tax laws of foreign jurisdictions could arise as a result of the base erosion and profit shifting project that was undertaken by the Organization for Economic Cooperation and Development ("OECD"). The OECD, which represents a coalition of member countries, recommended changes to long-standing tax principles related to transfer pricing and has developed model rules including establishing a global minimum corporate income tax tested on a jurisdictional basis (the "Pillar Two"). Many jurisdictions have adopted or announced an intention to adopt Pillar Two for tax years beginning in 2024. There can be no assurance that our effective tax rate, tax payments or conditional reduced tax rates will not be adversely affected as countries independently amend their tax laws to adopt Pillar Two. Changes in U.S. or foreign tax laws, including new or modified guidance with respect to existing tax laws, could materially and adversely affect our business, financial condition, results of operations and cash flows.

## Changes To U.S. Or Other Countries' Trade Policies And Import/Export Regulations Or Our Failure To Comply With Such Regulations.

Changes in laws and policies governing foreign trade, manufacturing, development and investment in the territories or countries where we currently sell our products or conduct our business could adversely affect our business. U.S. presidential administrations have instituted or proposed changes in trade policies that include the negotiation or termination of trade agreements, the imposition of higher tariffs on imports into the U.S., economic sanctions on individuals, corporations or countries, and other government regulations affecting trade between the U.S. and other countries where we conduct our business. It may be time-consuming and expensive for us to alter our business operations in order to adapt to or comply with any such changes.

In addition, changes or proposed changes in U.S. or other countries' trade policies may result in restrictions and economic disincentives on international trade. Tariffs and other changes in U.S. trade policy have in the past and could in the future trigger retaliatory actions by affected countries, and certain foreign governments have instituted or are considering imposing retaliatory measures on certain U.S. goods. Further, any emerging protectionist or nationalist trends either in the U.S. or in other countries could affect the trade environment. The Company, similar to many other multinational corporations, does a significant amount of business that would be impacted by changes to the trade policies of the U.S. and foreign countries (including governmental action related to tariffs, international trade agreements, or economic sanctions). Such changes have the potential to adversely impact the U.S. economy or certain sectors thereof or the economy of another country in which we conduct operations, our industry and the global demand for our products, and as a result, our business, financial condition, results of operations and cash flows could be materially and adversely affected.

#### Our Business Could Be Harmed If Our Contract Manufacturers, Suppliers Or Licensees Violate Labor, Trade Or Other Laws.

We require our independent contract manufacturers, suppliers and licensees to operate in compliance with applicable laws and regulations. Manufacturers are required to certify that neither convicted, forced or indentured labor (as defined under U.S. law) nor child labor (as defined by law in the manufacturer's country) is used in the production process, that compensation is paid in accordance with local law and that their factories are in compliance with local safety regulations. Although we promote ethical business practices and our sourcing personnel periodically visit and monitor the operations of our independent contract manufacturers, suppliers and licensees, we do not control them or their labor practices. If one of our independent contract manufacturers, suppliers or licensees violates labor or other laws or diverges from those labor practices generally accepted as ethical in the U.S., it could result in adverse publicity for us, damage our reputation in the U.S., or render our conduct of business in a particular foreign country undesirable or impractical, any of which could harm our business.

In addition, if we, or our foreign manufacturers, violate U.S. or foreign trade laws or regulations, we may be subject to extra duties, significant monetary penalties, the seizure and the forfeiture of the products we are attempting to import, or the loss of our import privileges. Possible violations of U.S. or foreign laws or regulations could include inadequate record-keeping of our imported products, misstatements or errors as to the origin, quota category, classification, marketing or valuation of our imported products, fraudulent visas, or labor violations. The effects of these factors could render our conduct of business in a particular country undesirable or impractical, and our business, financial condition, results of operations and cash flows could be materially and adversely affected.

#### The Disruption, Expense And Potential Liability Associated With Existing And Unanticipated Future Litigation Against Us.

In addition to the legal matters included in our reserve for loss contingencies, we occasionally become involved in litigation and investigations, and we are unable to determine the extent of any liability that may arise from any such matters. We have no reason to believe that there is a reasonable possibility or that it is probable that we may incur a material loss, or a material loss in excess of a recorded accrual, with respect to any other such loss contingencies. However, the outcome of litigation and investigation is inherently uncertain and assessments and decisions on defense and settlement can change significantly in a short period of time. Therefore, although we consider the likelihood of such an outcome to be remote with respect to those matters for which we have not reserved an amount for loss contingencies, if one or more of these legal matters were resolved against us in the same reporting period for amounts in excess of our expectations, our consolidated financial statements of a particular reporting period could be materially adversely affected. Further, any unanticipated litigation or investigation in the future, regardless of its merits, could also significantly divert management's attention from our operations and result in substantial legal fees being incurred. Such disruptions, legal fees and any losses resulting from these unanticipated future matters could materially and adversely affect our business, financial condition, results of operations and cash flows.

### Our Ability To Compete Could Be Jeopardized If We Are Unable To Protect Our Intellectual Property Rights Or If We Are Sued For Intellectual Property Infringement.

We believe that our trademarks, design patents and other proprietary rights are important to our success and our competitive position. We use trademarks on nearly all our products and believe that having distinctive marks that are readily identifiable is an important factor in creating a market for our goods, in identifying us and in distinguishing our goods from the goods of others. We

consider our \$\overline{1}\$, \$\overline{1}\$, \$\overline{1}\$, \$\verline{1}\$, \$\v

In addition, the laws of foreign countries where we source and distribute our products may not protect intellectual property rights to the same extent as do the laws of the U.S. We cannot be assured that the actions we have taken to establish and protect our trademarks and other intellectual property rights outside the U.S. will be adequate to prevent imitation of our products by others or, if necessary, successfully challenge another party's counterfeit products or products that otherwise infringe on our intellectual property rights on the basis of trademark or patent infringement. Continued sales of counterfeit products could adversely affect our sales and our brand and result in the shift of consumer preference away from our products. We may face significant expenses and liability in connection with the protection of our intellectual property rights outside the U.S., and if we are unable to successfully protect our rights or resolve intellectual property conflicts with others, our business, financial condition, results of operations, and cash flows could be materially and adversely affected.

#### RISKS RELATED TO INFORMATION SYSTEMS AND DATA SECUITY

## Breaches Or Compromises Of Our Information Security Systems, Information Technology Systems And Our Infrastructure To Support Our Business Could Result In Disruption Of Our Business And Damage To Our Reputation.

As a routine part of our business, we utilize information security and IT systems and websites that allow for the secure storage and transmission of proprietary or private information regarding our customers, employees, vendors and others. A security breach of our network, hosted service providers, or vendor systems, may expose us to a risk of loss or misuse of this information, litigation and potential liability. Hackers and data thieves are increasingly sophisticated and operate large-scale and complex automated attacks, and the retail industry has been the target of many recent cyber-attacks. Although we take measures to safeguard this sensitive information, we may not have the resources or technical sophistication to anticipate or prevent rapidly evolving types of cyber-attacks targeted at us, our customers, or others who have entrusted us with information. Actual or anticipated attacks may cause us to incur costs, including costs to deploy additional personnel and protection technologies, train employees, and engage third-party experts and consultants.

We invest in industry standard security technology to protect personal information. Advances in computer capabilities, new technological discoveries, or other developments may result in the technology used by us to protect against transaction or other data being breached or compromised. Although we maintain insurance designed to provide coverage for cyber risks related to what we believe to be adequate and collectible insurance in the event of theft, loss, fraudulent or unlawful use of customer, employee or company data, any compromise or breach of our cyber security systems could result in private information exposure and a violation of applicable privacy and other laws, significant potential liability including legal and financial costs, and loss of confidence in our security measures by customers, which could result in damage to our brand and have an adverse effect on our business, financial condition and reputation. In addition, we must comply with increasingly complex and rigorous regulatory standards enacted to protect business data. Compliance with existing and proposed laws and regulations can be costly, and any failure to comply with these regulatory standards could subject us to legal and reputational risks.

### Privacy Breaches And Other Cyber Security Risks Related To Our Business Could Negatively Affect Our Reputation, Credibility And Business.

We are dependent on IT systems and networks for a significant portion of our direct-to-consumer sales, including our e-commerce sites and retail business credit card transaction authorization and processing. We are responsible for storing data relating to our customers and employees and also rely on third-party vendors for the storage, processing and transmission of personal and Company information. Consumers, lawmakers and consumer advocates alike are increasingly concerned over the security of personal information transmitted over the Internet, consumer identity theft and privacy and the retail industry, in particular, has been the target of many recent cyberattacks. We generally require that third-party service providers implement reasonable security measures to protect our employees' and customers' identity and privacy, but we do not control these third-party service providers and cannot guarantee the elimination of electronic or physical computer break-ins or security breaches in the future. Cybersecurity breaches, including physical or electronic break-ins, security breaches due to employee error or misconduct, attacks by hackers, phishing scams, malicious software programs such as viruses and malware, and other breaches outside of our control, could result in unauthorized access or damage to our IT systems and the IT systems of our third-party service providers. Despite our efforts and the efforts of our third-party service providers to secure our and their IT systems, attacks on these systems do occur from time to time. As the techniques used to obtain unauthorized access to IT systems become more varied and sophisticated (as cyber criminals are finding new ways to launch their attacks) and if the occurrence of such security breaches becomes more frequent, we and our third-party service providers may be unable to adequately anticipate these techniques and implement appropriate preventative measures. There can be no assurance that our cybersecurity risk management program and processes, including our policies, controls or procedures, will be fully implemented, complied with or effective in protecting our systems and information. While we maintain cyber risk insurance to provide some coverage for certain risks associated with cybersecurity incidents, there is no assurance that such insurance would cover all or a significant portion of the costs or consequences associated with a cybersecurity incident. A significant breach of customer, employee or Company data could damage our reputation, our relationship with customers and our brands, and could result in lost sales, sizable fines, significant breach-notifications and other costs and lawsuits, as well as adversely affect our results of operations.

Additionally, we may incur increased costs and experience a significant strain on our resources to account for implementation of additional required security measures and technologies to protect personal data and confidential information or to comply with current and new state, federal and international laws governing the unauthorized disclosure of confidential information which are continuously being enacted and proposed, such as the General Data Protection Regulation in the EU, various consumer privacy and data privacy and protection acts in the U.S., including, but not limited to, the American Data Protection Act, the California Consumer Privacy Act and the California Privacy Rights Act, the Virginia Consumer Data Protection Act, the Colorado Privacy Act, the Utah Consumer Privacy Act, the Connecticut Data Privacy Act and the Iowa Consumer Data Protection Act, and the Personal Information Protection Law in China.

Increased scrutiny by federal regulators, such as the Federal Trade Commission, and state attorney generals focused on the retail industry may lead to increased privacy and cybersecurity costs such as organizational changes, deploying additional personnel, acquiring and implementing enhanced privacy and security technologies on e-commerce sites, mandatory employee training for those handling customer and employee personal data, and engaging third-party experts and consultants, and the unauthorized use of proprietary information may materially and adversely affect our business, financial condition, results of operations, and cash flows.

#### A Material Delay Or Disruption In Our Information Technology Systems Or E-Commerce Websites Or Our Failure Or Inability To Upgrade Our Information Technology Systems Precisely And Efficiently Could Negatively Affect Our Business.

We rely extensively on our IT systems to track inventory, manage our supply chain, record and process transactions, manage customer communications, summarize results and manage our business. The failure of our IT systems to operate properly or effectively, problems with transitioning to upgraded or replacement systems, or difficulty in or failure to implement new systems, could adversely affect our business. We also operate a number of e-commerce websites throughout the world. Our IT systems and e-commerce websites may be subject to damage and/or interruption from power outages, computer, network and telecommunications failures, malicious software, such as viruses and malware, attacks by hackers, security breaches, usage errors or misconduct by our employees and bad acts by our customers and website visitors which could materially adversely affect our business.

We are undergoing a multi-year Enterprise Resource Planning ("ERP") implementation. The implementation of the ERP will require a significant investment in human and financial resources. Implementing new systems also carries substantial risk, including failure to operate as designed, failure to properly integrate with other systems, potential loss of data or information, cost overruns, implementation delays and disruption of operations. Third-party vendors are also relied upon to design, program, maintain and service our ERP implementation program. Any failures of these vendors to properly deliver their services could similarly have a material adverse effect on our business. In addition, any disruptions or malfunctions affecting our ERP implementation plan could cause critical information upon which we rely to be delayed, defective, corrupted, inadequate, inaccessible or lost or otherwise cause delays or disruptions to our operations, and we may have to make significant investments to fix or replace impacted systems.

#### Our Quarterly Sales And Operating Results Fluctuate As A Result Of A Variety Of Factors, Including Fluctuations In Demand For Footwear, Delivery Delays And Potential Fluctuations In Our Estimated Annualized Tax Rate, Which May Result In Volatility Of Our Stock Price.

Our quarterly sales and operating results have varied significantly in the past and can be expected to fluctuate in the future due to a number of factors, many of which are beyond our control. Our major customers have no obligation to purchase forecasted amounts and from time to time cancel orders, change delivery schedules, or change the mix of products ordered with minimal notice and without penalty. As a result, we may not be able to accurately predict our quarterly sales. Furthermore, our expenses are partially based on our expectations of future sales, and we may be unable to adjust spending in a timely manner to compensate for any unexpected sales shifts. As a result, our expenses may be disproportionately large relative to our sales, which could have a material adverse effect on our operating results.

Our annualized tax rate is based on projections of our domestic and international operating results for the year, which we review and revise as necessary at the end of each quarter. Any quarterly fluctuations in our annualized tax rate could have a material impact on our quarterly operating results and the results for any one quarter may not be indicative of results for the full year. Any shortfall in sales or net earnings from levels expected by securities analysts and investors could cause a decrease in the trading price of our Class A Common Stock.

### One Principal Stockholder Is Able To Control Substantially All Matters Requiring Approval By Our Stockholders And His Interests May Differ From The Interests Of Our Other Stockholders.

As of December 31, 2024, Chairman of the Board and Chief Executive Officer, Robert Greenberg, beneficially owned 92.6% of our outstanding Class B Common Stock, and members of Mr. Greenberg's immediate family beneficially owned an additional 7.4% of our outstanding Class B Common Stock. The holders of Class A Common Stock and Class B Common Stock have identical rights except that holders of Class A Common Stock are entitled to one vote per share while holders of Class B Common Stock are entitled to ten votes per share on all matters submitted to a vote of our stockholders. As of December 31, 2024, Mr. Greenberg beneficially owned 54.9% of the aggregate number of votes eligible to be cast by our stockholders, and together with shares beneficially owned by members of his immediate family, Mr. Greenberg and his immediate family beneficially owned 59.9% of the aggregate number of votes eligible to be cast by our stockholders. Therefore, Mr. Greenberg is able to exert significant control over all matters requiring approval by our stockholders. Matters that require the approval of our stockholders include the election of directors and the approval of mergers or other business combination transactions. Mr. Greenberg also has significant influence over our management and operations. As a result of such influence, certain transactions are not likely without the approval of Mr. Greenberg, including proxy contests, tender offers, open market purchase programs or other transactions that can give our stockholders the opportunity to realize a premium over the thenprevailing market prices for their shares of our Class A Common Stock. Because Mr. Greenberg's interests may differ from the interests of the other stockholders, his ability to substantially control actions requiring stockholder approval, may result in our Company taking action that is not in the interests of all stockholders. The differential in the voting rights may also adversely affect the value of our Class A Common Stock to the extent that investors or any potential future purchaser view the voting rights of our Class B Common Stock to have superior value.

#### Our Charter Documents And Delaware Law May Inhibit A Takeover, Which May Adversely Affect The Value Of Our Stock.

Provisions of Delaware law, our certificate of incorporation or our bylaws could make it more difficult for a third party to acquire us, even if closing such a transaction would be beneficial to our stockholders. Mr. Greenberg's substantial beneficial ownership position, together with the authorization of Preferred Stock, the disparate voting rights between our Class A Common Stock and Class B Common Stock, the classification of our Board of Directors and the lack of cumulative voting in our certificate of incorporation and bylaws, may have the effect of delaying, deferring or preventing a change in control, may discourage bids for our Class A Common Stock at a premium over the market price of the Class A Common Stock and may adversely affect the market price of our Class A Common Stock.

#### Item 1B. Unresolved Staff Comments

None.

#### Item 1C. Cybersecurity

#### CYBERSECURITY RISK MANAGEMENT AND STRATEGY

We recognize the critical importance of maintaining the safety and security of our systems and data and have a holistic process for overseeing and managing cybersecurity and related risks. This process is supported by both management and our Board of Directors.

We have developed and implemented a Cybersecurity Risk Management Program intended to protect the confidentiality, integrity, and availability of our critical systems and information. Our cybersecurity risk management program includes a cybersecurity incident response plan.

We leverage industry standard frameworks such as the National Institute of Standards and Technology Cybersecurity Framework ("NIST CSF") and Center for Internet Security ("CIS") framework to inform how we identify, assess and manage cybersecurity risks relevant to our business.

Our Cybersecurity Risk Management Program includes:

- risk assessments designed to help identify material cybersecurity risks to our critical systems, information, products, services, and our broader enterprise IT environment;
- a security team principally responsible for managing (1) our cybersecurity risk assessment processes, (2) our security controls, and (3) our response to cybersecurity incidents;
- cybersecurity awareness training of our employees, and incident response personnel;
- a cybersecurity incident response plan that includes procedures for responding to cybersecurity incidents;
- a third-party risk management process for service providers, suppliers, and vendors; and
- engagement of third parties for our 24/7 monitoring, detection, and response; regular penetration testing, program controls assessment, and proactive incident preparedness activities.

We have not identified risks from known cybersecurity threats, including as a result of any prior cybersecurity incidents, that have materially affected or are reasonably likely to materially affect us, including our operations, business strategy, results of operations, or financial condition.

#### CYBERSECURITY GOVERNANCE

Our Board of Directors is responsible for overseeing our enterprise risk management activities in general, and each of our Board committees assists the Board in the role of risk oversight. Our Senior Vice President ("SVP") of Information Technology and the Vice President ("VP") of Information Security have overall responsibility for assessing and managing our material risks from cybersecurity threats. To help ensure effective oversight, the Audit Committee receives reports on information security and cybersecurity at least annually, and receives an update quarterly on information security and cybersecurity from materials provided by the VP of Information Security.

The VP of Information Security oversees the Information Security Steering Committee ("Steering Committee"), which provides education on the Company's cybersecurity programs and controls to key members of the Company. The Steering Committee meets quarterly and is comprised of members from the Executive Leadership Team, including the Chief Financial Officer and Executive Vice President of Business Affairs, as well as the SVP of Information Technology, VP of Information Security, VP of Corporate Communications, SVP of Digital Innovation, and Head of Global Human Resources.

Cybersecurity risk management is led by our VP of Information Security and our SVP of Information Technology, who reports to our Chief Operating Officer, who are generally responsible for management of cybersecurity risk and the protection and defense of our networks, systems and data. The VP of Information Security manages a team of cybersecurity professionals with broad experience, including in cybersecurity threat assessments and detection, mitigation technologies, cybersecurity training, incident response, cyber forensics, digital security and regulatory compliance.

Our VP of Information Security has over 15 years of experience in technology and information security, serves on the board of directors of the Retail & Hospitality Information Sharing and Analysis Center ("RH-ISAC") and holds several cybersecurity and risk management certifications. Our SVP of Information Technology has over 30 years of information technology management and cybersecurity experience and has held leadership roles overseeing all aspects of information technology operations for multiple Fortune 500 and Fortune 50 global companies, particularly in the retail and media & entertainment sectors.

We continue to invest in cybersecurity and resiliency of our networks and adapt our internal controls and processes, which are designed to help protect our systems and infrastructure, and the information they contain. For more information regarding the risks we face from cybersecurity threats, please see Item 1A "Risk Factors."

#### **Item 2. Properties**

#### CORPORATE HEADQUARTERS

Skechers Corporate Headquarters are located at several properties in or near Los Angeles, California, which consist of an aggregate of approximately 0.3 million square feet. We own and lease portions of our corporate headquarters.

We lease most of our international administrative offices and showrooms located in the Americas, Europe and Asia Pacific. The property leases expire on various dates through February 2033. Corporate offices, administrative offices, and showrooms are included within our Wholesale segment.

#### DISTRIBUTION FACILITIES

We believe that strong distribution is critical to our operations. Our distribution facilities include highly automated solutions to support our future growth in our Company. We regularly evaluate our distribution infrastructure and consolidate or expand our capacity as we believe appropriate for our operations. Our distribution facilities are included within our Wholesale segment. Our principal distribution facilities are as follows:

*Americas.* Our North America Distribution Center occupies approximately 2.6 million square feet on its main campus in Southern California, which is leased from a joint venture. In 2024, we entered into an agreement with a new joint venture for the future expansion of this distribution center. In addition, we lease 2.4 million square feet of distribution center space from third parties. The main campus leases expire at various dates through September 2036, and the leases for the remaining space expire at various dates through May 2028. Additionally, our Canada Distribution Center occupies approximately 0.4 million square feet in British Colombia and the lease is set to expire in December 2032.

*Europe, Middle East and Africa.* Our European Distribution Center occupies approximately 2.2 million square feet in Liege, Belgium. The leases comprising this Distribution Center provide for original terms of 8 to 15 years. The property leases expire on various dates through December 2030. We plan to further expand in Europe with the construction of a larger distribution center in Liege, with an estimated relocation in 2028.

*Asia Pacific.* Our China Distribution Center occupies approximately 1.6 million square feet in Taicang, China. We plan to further expand in this market with the construction of a second distribution center in China, which is expected to be an approximately 2.3 million square foot facility. Our Japan Distribution Center is approximately 0.9 million square feet. The lease is set to expire in October 2031. Our India Distribution Center occupies approximately 0.8 million square feet outside of Mumbai and the lease is set to expire in October 2043.

We have additional Company-operated distribution centers as well as third-party distribution centers serving regional markets in the Americas, Europe and Asia Pacific.

#### COMPANY OWNED AND THIRD-PARTY STORES

As of December 31, 2024, we had 5,296 Skechers-branded retail stores in 122 countries. The network of stores includes 1,787 Company-owned and 3,509 third-party locations. These third-party stores are distributor, licensed and franchise owned through our Wholesale segment.

Store count, openings and closings for our domestic, international, and third-party stores are as follows:

	Number of locations							
	December 31,			December 31,				
	2023	Opened	Closed	2024				
Domestic stores	563	62	(15)	610				
International stores	1,085	206	(114)	1,177				
Distributor, licensee and franchise stores	3,520	413	(424)	3,509				
Total Skechers stores	5,168	681	(553)	5,296				

We pursue our direct-to-consumer strategy through our integrated retail formats, which enable us to promote the full Skechers product offering in an attractive environment that appeals to a broad group of consumers. Our retail stores are included in our Direct-to-Consumer segment. Our physical retail formats are as follows:

*Concept Stores.* Our concept stores serve as a showcase for a wide range of our product offering. Retail locations are generally chosen to generate maximum marketing value for the Skechers brand name through signage, store front presentation and interior design. These stores also serve as product testing venues.

*Factory Outlet Stores.* Our factory outlet stores provide opportunities for us to sell discontinued and excess merchandise as well as feature key inline product.

**Big Box Stores.** Our free-standing and attached big box stores provide opportunities to sell new product while also allowing us to liquidate excess merchandise, discontinued lines and odd-size inventory.

Substantially all of our retail stores are leased, with terms that expire on various dates through February 2044. The leases provide for rent escalations tied to either increases in the lessor's operating expenses, fluctuations in the consumer price index in the relevant geographical area, or a percentage of the store's gross sales in excess of the base annual rent.

#### **Item 3. Legal Proceedings**

*Michael Conte v. Robert Greenberg, et al.* – On July 21, 2022, Skechers and certain past and present members of the Board of Directors were sued by a stockholder on behalf of our company in a derivative action in the Chancery Court of the State of Delaware, Case No. 2022-0633, alleging breach of fiduciary duty, waste of corporate assets, breach of duty of candor and breach of contract in connection with certain executive officers' personal use of two company-owned aircraft. The complaint seeks actual damages in favor of Skechers sustained as the alleged result of defendants' alleged breaches of fiduciary duties, judgment directing our company to take all necessary actions to reform and improve its corporate governance practices, termination of certain executive officers for allegedly violating their employment agreements, judgment directing the sale of one of the company-owned aircraft and attorneys', accountants' and experts' fees, costs and expenses. The defendants filed motions to dismiss the complaint. On February 2, 2024, the court granted the motions and thereafter dismissed the complaint with prejudice as to all named past and present director-defendants and the plaintiff appealed. On January 23, 2025, the Delaware Supreme Court issued an order affirming the Chancery Court's dismissal of the matter with prejudice and on February 10, 2025 the case was closed. This matter has been concluded.

*Nike, Inc. v. Skechers USA, Inc.*– On November 6, 2023, Nike filed an action against our company in the United States District Court for the Central District of California, Case No. 2:23-CV-09346, alleging that certain Skechers shoe designs infringe the claims of six Nike utility patents that purportedly cover Nike's Flyknit technologies. Nike seeks injunctive relief, damages (including treble damages), pre-judgment and post-judgment interest, and costs. On January 12, 2024, we answered Nike's complaint, denying the allegations, and filed counterclaims seeking declarations of invalidity of the asserted patents, and non-infringement. The District Court held a claim construction hearing on September 20, 2024, but has not yet issued its ruling. In early November 2024, we filed petitions with the Patent Trial and Appeals Board ("PTAB") seeking to institute inter partes review of each of the six Nike utility patents being asserted against us, and we are awaiting PTAB's decisions on our petitions. On February 5, 2025, the District Court, upon our motion and over Nike's opposition, stayed the case before it pending PTAB's decision on our petitions. While it is too early to predict the outcome of the PTAB proceedings or the District Court case, or whether an adverse result would have a material adverse impact on our operations or financial position, we believe we have meritorious defenses and intend to defend this matter vigorously.

In addition to the matters included in our reserve for loss contingencies, we occasionally become involved in litigation and investigations, and we are unable to determine the extent of any liability that may arise from any such matters. We have no reason to believe that there is a reasonable possibility or a probability that we may incur a material loss, or a material loss in excess of a recorded accrual, with respect to any other such loss contingencies. However, the outcome of litigation and investigations is inherently uncertain and assessments and decisions on defense and settlement can change significantly in a short period of time. Therefore, although we consider the likelihood of such an outcome to be remote with respect to those matters for which we have not reserved an amount for loss contingencies, if one or more of these legal matters were resolved against the Company in the same reporting period for amounts in excess of our expectations, our consolidated financial statements of a particular reporting period could be materially adversely affected.

#### Item 4. Mine Safety Disclosures

Not applicable.

#### PART II

#### Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our Class A Common Stock trades under the symbol "SKX" on the New York Stock Exchange.

#### HOLDERS

As of February 19, 2025, there were 69 holders of record of our Class A Common Stock (including holders who are nominees for an undetermined number of beneficial owners) and 32 holders of record of our Class B Common Stock. These figures do not include beneficial owners who hold shares in nominee name. The Class B Common Stock is not publicly traded, but each share is convertible upon request of the holder into one share of Class A Common Stock.

#### DIVIDEND INFORMATION

Since inception, we have not declared or paid cash dividends on our common stock, and we have no present intention of paying dividends on our common stock in the foreseeable future.

#### COMPANY PURCHASES OF EQUITY SECURITIES

The table below summarizes the number of shares of our Class A Common Stock that were repurchased during the three months ended December 31, 2024.

Month Ended	Total Number of Shares Purchased	rage Price Per Share	Total Number of Shares Purchased under the Share Repurchase Program	Maximum Dollar Value of Shares that May Yet Be Purchased under the Share Repurchase Program (in thousands)	
October 31, 2024	130,152	\$ 61.50	130,152	\$	901,968
November 30, 2024	1,375,830	61.81	1,375,830		816,924
December 31, 2024	392,199	 68.82	392,199		789,935
Total	1,898,181	\$ 63.24	1,898,181		

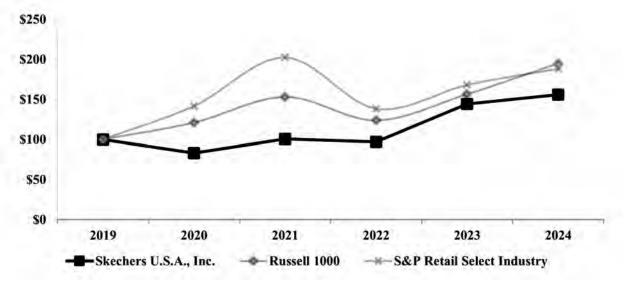

On July 25, 2024, the Company's Board of Directors announced a share repurchase program pursuant to which the Company may purchase shares of its Class A common stock, for an aggregate repurchase price not to exceed \$1.0 billion. This repurchase program expires on July 25, 2027 and does not obligate the Company to acquire any particular amount of shares.

#### EQUITY COMPENSATION PLAN INFORMATION

Our equity compensation plan information required by this item is hereby incorporated by reference to the information in Part III, Item 12 of this annual report on Form 10-K.

#### PERFORMANCE GRAPH

The following graph demonstrates the total return to stockholders of our Class A Common Stock from December 31, 2019 to December 31, 2024, relative to the performance of the Russell 1000 Index and S&P Retail Select Industry Index.

**Comparison of 5 Year Cumulative Total Returns** 

(in dollars)	2019	2020	2021	2022	2023	2024
Skechers U.S.A., Inc.	100.00	83.21	100.49	97.13	144.34	155.68
Russell 1000	100.00	120.96	152.96	123.71	156.53	194.89
S&P Retail Select Industry	100.00	141.63	202.49	138.26	168.04	188.41

Item 6. [Reserved]

#### Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this annual report on Form 10-K. We intend for this discussion to provide the reader with information that will assist in understanding our consolidated financial statements, the changes in certain key items in those financial statements from period to period, and the primary factors that accounted for those changes, as well as how certain accounting principles affect our consolidated financial statements. The discussion also provides information about the financial results of the various segments of our business to provide a better understanding of how those segments and their results affect the financial condition and results of operations of our company as a whole.

This section of this Form 10-K generally discusses 2024 and 2023 items and year-to-year comparisons between 2024 and 2023. Discussions of 2022 items and year-to-year comparisons that are not included in this Form 10-K can be found in "*Part II—Item 7*. *Management's Discussion and Analysis of Financial Condition and Results of Operations—Results of Operations*" and "*—Liquidity and Capital Resources*" in our annual report on Form 10-K for the fiscal year ended December 31, 2023 filed with the SEC on February 28, 2024.

#### **OVERVIEW**

When Skechers was founded in 1992, our focus was on creating a lifestyle brand centered on delivering products with comfort, style, innovation and quality at a reasonable price. Three decades later, with a diverse portfolio that includes performance product, we remain committed to our design principles and meeting the evolving footwear needs of our customers. Through the efforts of our dedicated teams globally, our strong partner relationships and loyal consumers, we believe we will continue to achieve well-managed profitable growth and ensure the longevity of both the Company and the Skechers brand.

Our financial results reflect the significant market demand for our product offerings and the value that we provide. Key highlights for 2024 include:

- Sales increased 12.1%, to \$8.97 billion, for the year ended December 31, 2024 when compared to the prior year, a new annual record;
- Gross margin improved to 53.2% and operating margin improved to 10.1% for the year ended December 31, 2024 when compared to the prior year;
- Twenty-five years as a listed company on the New York Stock Exchange;
- Expanded performance product offerings to include Skechers Cricket and continued the global rollout of Skechers Football and Skechers Basketball;
- Opened our first Skechers Performance store in Edmonton, Canada that features half courts for pickleball and basketball;
- Continued investments in our distribution centers, including planned expansions in North America, China and Europe; and
- Repurchased 5.2 million shares of our Class A common stock.

We believe brand recognition is paramount to continued success. We drive awareness and demand through comprehensive marketing campaigns. During the year, we introduced a partnership with John Deere for a range of lifestyle and work footwear and a collaboration with the Rolling Stones. Skechers Performance signed additional athletes worldwide, including Joel Embiid, gold medal winner in Paris, WNBA athlete Rickea Jackson, as well as others.

Our core product philosophy of comfort, style, innovation, and quality at the right price continues to resonate with consumers, and we remain focused on delivering our comfort technology footwear as efficiently as possible to meet consumer demand. We are committed to the following investments to execute our long-term global growth strategy:

- Continue to develop new comfort innovations and deliver more value in our products;
- Expand our distribution infrastructure to support growth;
- Open new stores and extend our digital capabilities to drive Direct-to-Consumer growth; and
- Implement market strategies to broaden our reach globally and attract new partners and consumers.

#### **RESULTS OF OPERATIONS**

Selected information from our results of operations follows:

	Year Ended December 31,			Change				
(in thousands)		2024			2023		\$	%
Sales	\$	8,969,351		\$	8,000,342		969,009	12.1
Cost of sales		4,201,912			3,847,938		353,974	9.2
Gross profit		4,767,439			4,152,404		615,035	14.8
Gross margin		53.2	%	6	51.9	%		120 bps
Operating expenses								
Selling		800,634			676,890		123,744	18.3
General and administrative		3,062,548			2,690,728		371,820	13.8
Total operating expenses		3,863,182			3,367,618		495,564	14.7
As a % of sales		43.1	%	6	42.1	%		100 bps
Earnings from operations		904,257			784,786		119,471	15.2
Operating margin		10.1	%	6	9.8	%		30 bps
Other (expense) income		(26,508)	)		16,086		(42,594)	n/m
Earnings before income taxes		877,749			800,872		76,877	9.6
Income tax expense		148,136			150,949		(2,813)	(1.9)
Net earnings		729,613			649,923		79,690	12.3
Less: Net earnings attributable to noncontrolling interests and								
redeemable noncontrolling interest		90,142			104,124		(13,982)	(13.4)
Net earnings attributable to Skechers U.S.A., Inc.	\$	639,471	_	\$	545,799		93,672	17.2

n/m: not meaningful.

#### Sales

Sales increased \$969.0 million, or 12.1%, to \$8.97 billion as a result of a 12.1% increase in both international and domestic sales. Wholesale sales increased 13.2% and Direct-to-Consumer sales increased 10.7%. Sales increased overall due to higher sales volume, partially offset by lower average selling prices.

#### Gross margin

Gross margin increased 120 basis points to 53.2% primarily due to lower costs per unit, driven by lower freight.

#### **Operating expenses**

Operating expenses increased \$495.6 million, or 14.7%, to \$3.9 billion, and as a percentage of sales increased 100 basis points to 43.1%. Selling expenses increased \$123.7 million, or 18.3%, to \$800.6 million, primarily due to higher demand creation expenditures in global marketing and digital advertising. General and administrative expenses increased \$371.8 million, or 13.8%, to \$3.1 billion. The increased expenses were driven by increases in labor costs of \$179.8 million, facility related costs of \$79.8 million, including rent and depreciation, and legal costs of \$22.3 million.

#### Other (expense) income

Other expense was \$26.5 million compared to other income of \$16.1 million in the prior year. The change of \$42.6 million was primarily due to unfavorable foreign currency exchange rates in Europe, Middle East & Africa, partially offset by an increase in interest income.

#### Income taxes

Income tax expense and the effective tax rate were as follows:

	Year Ended December 31,				
(in thousands)		2024		2023	
Income tax expense	\$	148,136	\$	150,949	
Effective tax rate		16.9%		18.8%	

Income tax expense was \$148.1 million as compared to \$150.9 million in 2023. Our effective tax rate was 16.9% as compared to 18.8% in the prior year. The decrease in tax rate is due to a favorable mix of earnings in lower tax jurisdictions, provision adjustments and the release of certain allowances.

Our income tax expense and effective income tax rate are significantly impacted by the mix of our domestic and foreign earnings (losses) before income taxes. In the foreign jurisdictions in which we have operations, the applicable statutory rates range from 0% to 35%, which on average are generally significantly lower than the U.S. federal and state combined statutory rate of approximately 24.9%.

The OECD has issued various proposals that would change long-standing global tax principles, namely, its Pillar Two framework, which imposes a global minimum corporate tax rate of 15% for large multinational companies. The adoption and effective dates of these rules may vary by country and could increase tax complexity and uncertainty and may adversely affect our provision for income taxes and cash tax payments in future periods. Certain countries in which we operate have already enacted the Pillar Two minimum tax regime. This did not have an impact to the tax provision and effective tax rate for the year ended December 31, 2024, however, certain rules begin to be effective for us in fiscal 2025 and we expect our tax rate to increase as a result. For fiscal 2025, we expect our tax rate to be between 22% and 23%. We continue to evaluate the potential impact of enacted and future legislation concerning the Pillar Two framework in the non-U.S. tax jurisdictions we operate in.

See Note 10 – Income Taxes of the Consolidated Financial Statements for additional information.

#### Noncontrolling interests and redeemable noncontrolling interest in net earnings of joint ventures

Noncontrolling interests and redeemable noncontrolling interest represents the share of net earnings or loss that is attributable to our joint venture partners. Net earnings attributable to noncontrolling interests and redeemable noncontrolling interest decreased \$14.0 million to \$90.1 million as compared to \$104.1 million in the prior year, primarily due to lower earnings by our joint ventures, predominantly in China.

#### **RESULTS OF SEGMENT OPERATIONS**

#### Wholesale

	Year Ended December 31,			Change		ge	
(in thousands)		2024		2023		\$	%
Sales	\$	5,100,479	\$	4,504,776		595,703	13.2
Gross profit		2,207,596		1,846,819		360,777	19.5
Gross margin		43.3%		41.0%			230 bps

Wholesale sales increased \$595.7 million, or 13.2%, to \$5.1 billion, due to increases in the Americas of 14.5%, Europe, Middle East & Africa of 16.7% and Asia Pacific of 5.7%. Volume increased 13.7% in the number of units sold and average selling price per unit decreased 0.4%.

Wholesale gross margin increased 230 basis points to 43.3% driven by lower cost per unit due to lower freight, and favorable channel mix.

#### Direct-to-Consumer

	Year Ended	December 31,	Change	ge	
(in thousands)	2024	2023	\$	%	
Sales	\$ 3,868,872	\$ 3,495,566	373,306	10.7	
Gross profit	2,559,843	2,305,585	254,258	11.0	
Gross margin	66.2%	66.0%		20 bps	

Direct-to-Consumer sales increased \$373.3 million, or 10.7%, to \$3.9 billion, due to increases in Europe, Middle East & Africa of 38.3%, the Americas of 6.6% and Asia Pacific of 8.0%. Volume increased 11.2% in the number of units sold and average selling price per unit decreased 0.5%.

Direct-to-Consumer gross margin increased 20 basis points to 66.2% due to favorable channel mix and lower cost per unit, partially offset by a decrease in average selling prices.

#### LIQUIDITY AND CAPITAL RESOURCES

#### Liquidity Outlook

We have cash and cash equivalents of \$1,116.5 million at December 31, 2024. Amounts held outside the U.S. were \$1,027.1 million, or 92.0%, and approximately \$362.1 million was available for repatriation to the U.S. as of December 31, 2024 without incurring additional U.S. federal income taxes and applicable non-U.S. income and withholding taxes.

We finance our production activities in part through the use of interest-bearing open purchase arrangements with certain of our contract manufacturers. These facilities currently bear interest at a rate between 0.0% and 0.4% for 30- to 60-day financing, depending on the factory. We believe that the use of these arrangements affords us additional liquidity and flexibility. We do not have any long-term contracts with any of our manufacturers, however, we have long-standing relationships with many and believe our relationships to be positive.

At December 31, 2024, we have unused credit capacity of \$745.4 million on our corporate revolving credit facility, with an additional \$250.0 million available through an accordion feature. We believe that anticipated cash flows from operations, existing cash and investments balances, available borrowings under our revolving credit facility, and current financing arrangements will be sufficient to provide us with the liquidity necessary to fund our anticipated working capital and capital requirements for the next twelve months.

#### Cash Flows

Our working capital at December 31, 2024 was \$2.2 billion, a decrease of \$0.1 billion from working capital of \$2.3 billion at December 31, 2023. Our cash and cash equivalents at December 31, 2024 were \$1,116.5 million compared to \$1,189.9 million at December 31, 2023. Our primary source of operating cash is collections from customers. Our primary uses of cash are inventory purchases, selling, general and administrative expenses and capital expenditures.

#### **Operating** Activities

Net cash provided by operating activities was \$687.4 million for 2024 and \$1,231.2 million for 2023. The \$543.8 million decrease in cash flows from operating activities in 2024 resulted from working capital, primarily higher inventory levels due to elevated merchandise-in-transit, resultant from the Red Sea crisis and growth in our business. These decreases were partially offset by earnings.

#### **Investing** Activities

Net cash used in investing activities was \$485.4 million for 2024 as compared to \$418.0 million for 2023. The \$67.3 million increase was due to increased capital expenditures of \$93.1 million and net investment activity of \$44.6 million, partially offset by acquisitions of \$70.4 million in the prior year.

Our capital investments remain focused on supporting our strategic growth priorities, growing our Direct-to-Consumer business, as well as expanding the presence of our brand internationally. Capital expenditures for the year ended December 31, 2024 were \$416.8 million, which included \$179.8 million for investments in our retail stores and direct-to-consumer technologies, \$124.6 million for the expansion of our global distribution infrastructure and \$59.1 million of investments in our new corporate offices. We expect our capital expenditures for 2025 to be approximately \$600 million to \$700 million, which is primarily related to expanding distribution capacity in key markets, new stores and the completion of our corporate offices. We expect to fund ongoing capital expenditures through a combination of available cash and borrowings.

#### **Financing** Activities

Net cash used in financing activities was \$253.5 million during 2024 compared to \$234.7 million in 2023. The increase of \$18.8 million is the result of increases in repurchases of common stock of \$170.0 million, net payments related to equity awards of \$28.8 million, and distributions to noncontrolling interests of \$22.2 million. These increases were partially offset by increased borrowings of \$194.7 million.

#### Capital Resources and Prospective Capital Requirements

#### Share Repurchase Program

On July 25, 2024, the Company's Board of Directors announced a new share repurchase program, pursuant to which the Company may purchase up to \$1.0 billion in shares of its Class A common stock. This repurchase program expires on July 25, 2027, does not obligate the Company to acquire any particular amount of shares and replaced the prior share repurchase program authorization. Remaining repurchase authorization under the 2022 Share Repurchase Program was terminated upon commencement of the new program. As of December 31, 2024, \$789.9 million remains available under the Share Repurchase Program.

#### **Financing Arrangements**

As of December 31, 2024, outstanding short-term and long-term borrowings were \$454.9 million, of which, \$271.0 million relates to loans for our domestic and China distribution centers, \$150.5 million relates to our operations in China and the remainder relates to our international operations. Our short-term and long-term debt obligations contain both financial and non-financial covenants, including cross-default provisions. We were in compliance with all debt covenants related to our short-term and long-term borrowings as of the date of this annual report. See Note 6 – Financial Commitments of the Consolidated Financial Statements for additional information.

#### **Commitments**

Our material cash requirements as of December 31, 2024 which are not reflected as liabilities in the Consolidated Balance Sheets include open purchase commitments with our foreign manufacturers of approximately \$1.2 billion. Additionally, in 2024, we created a new joint venture to support the expansion of our North America distribution center and, in 2025, we will contribute the remaining \$75.0 million required.

We are required to provide standby letters of credit to support certain obligations that arise in the ordinary course of business and may choose to provide letters of credit in place of posting cash collateral. Although the letters of credit are off-balance sheet, the majority of the obligations to which they relate are reflected as liabilities in the Consolidated Balance Sheets.

#### **Exchange** Rates

We receive U.S. dollars for substantially all of our domestic and a portion of our international product sales. Inventory purchases from offshore contract manufacturers are primarily denominated in U.S. dollars. However, purchase prices for our products may be impacted by fluctuations in the exchange rate between the U.S. dollar and the local currencies of the contract manufacturers, which may impact our cost of goods in the future. During 2024 and 2023, exchange rate fluctuations did not have a material impact on our inventory costs. We do not engage in hedging activities with respect to such exchange rate risk.

#### CRITICAL ACCOUNTING POLICIES AND USE OF ESTIMATES

The preparation of our consolidated financial statements requires us to make estimates that affect the reported amounts of assets, liabilities, sales and expenses, and related disclosure of contingent assets and liabilities. We base our estimates and judgments on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

We believe the following critical accounting estimates are affected by significant judgments used in the preparation of our consolidated financial statements.

**Reserves for returns and chargebacks.** Revenue is recorded net of estimates for returns from our customers and potential disputed amounts or chargebacks. We accrue a liability for product returns at the time of sale based on our historical experience. Our chargeback reserve is based on a collectability percentage based on factors such as historical trends, current economic conditions, and nature of the chargeback receivables.

Allowance for credit losses. Accounts receivable is recorded net of estimated losses from our customers' inability to pay. To minimize the likelihood of uncollectibility, customers' credit-worthiness is reviewed and adjusted periodically in accordance with external credit reporting services, financial statements issued by the customer and our experience with the account. We determine the amount of the reserve by analyzing known uncollectible accounts, aged receivables, historical losses and our customers' credit-worthiness. Amounts later determined and specifically identified to be uncollectible are charged or written off against this reserve. Allowances for credit losses are recorded to general and administrative expenses. For receivables that are not specifically identified as high risk, we provide a reserve based upon our historical loss rate as a percentage of sales.

*Inventory reserves.* Inventory is stated at the lower of cost or net realizable value. Inventory reserves are recorded for excess and slow-moving inventory. Our analysis includes a review of inventory quantities on hand at period-end in relation to year-to-date sales, existing orders from customers and projections for sales in the foreseeable future. The net realizable value is determined based on historical sales experience on a style-by-style basis. The valuation of inventory could be impacted by changes in public and consumer preferences, demand for product, changes in the buying patterns of both retailers and consumers and inventory management of customers.

*Litigation reserves.* Estimated amounts for claims that are probable and can be reasonably estimated are recorded as liabilities in our consolidated financial statements. The likelihood of a material change in these estimated reserves would depend on additional information or new claims as they may arise as well as the favorable or unfavorable outcome of particular litigation. Both the likelihood and amount (or range of loss) on a large portion of our remaining pending litigation is uncertain. As such, we are unable to make a reasonable estimate of the liability that could result from unfavorable outcomes in our remaining pending litigation. As additional information becomes available, we will assess the potential liability related to our pending litigation and revise our estimates. Such revisions in our estimates of potential liability could materially impact our results of operations and financial position.

*Tax estimates.* The establishment of deferred tax assets from intra-entity transfers of certain intellectual property rights and other transactions requires management to make significant estimates and assumptions to determine the fair value of such intellectual property rights. The valuation of deferred tax assets requires significant estimates and assumptions including, but not limited to, future sales growth, discount rates and the expected life of the assets, which by their nature are inherently uncertain and may ultimately differ materially from our actual results. We record a valuation allowance when necessary to reduce our deferred tax assets to the amount that is more likely than not to be realized. The likelihood of a material change in our expected realization of our deferred tax assets depends on future taxable income and the effectiveness of our tax planning strategies amongst the various domestic and international tax jurisdictions in which we operate. We evaluate our projections of taxable income to determine the recoverability of our deferred tax assets assets and the need for a valuation allowance.

**Business Combinations.** We use the acquisition method of accounting for business combinations and recognize assets acquired and liabilities assumed measured at their fair values on the date acquired. Goodwill is measured as of the acquisition date as the excess of consideration transferred over the net acquisition date fair value of the assets acquired and the liabilities assumed. The valuation of identifiable intangible assets reflects management's estimates based on, among other factors, use of established valuation methods, including, but not limited to, the multi-period excess earnings method income approach. Further estimates within these models include, but are not limited to, future expected cash flows, including revenues and expenses, and applicable discount rates. These estimates are inherently uncertain and subject to refinement. During the measurement period, which may be up to one year from the acquisition date, adjustments to the fair value of these tangible and intangible assets acquired and liabilities assumed may be recorded, with the corresponding offset to goodwill. Upon the conclusion of the measurement period or final determination of the fair value of assets

acquired and liabilities assumed, whichever comes first, any subsequent adjustments are recorded to our Consolidated Statements of Earnings and Comprehensive Income.

#### RECENT ACCOUNTING PRONOUNCEMENTS

Refer to Note 1 — Summary of Significant Accounting Policies in the accompanying Notes to the Consolidated Financial Statements for recently adopted and recently issued accounting standards.

#### Item 7A. Quantitative and Qualitative Disclosure About Market Risk

Market risk is the potential loss arising from the adverse changes in market rates and prices, such as interest rates and foreign currency exchange rates. Changes in interest rates and changes in foreign currency exchange rates have and will have an impact on our results of operations.

*Interest rate fluctuations.* As of December 31, 2024, we have \$454.9 million of outstanding short-term and long-term borrowings, subject to changes in interest rates. A 200-basis point increase in interest rates would have increased interest expense by approximately \$9.1 million for the year ended December 31, 2024. We do not expect changes in interest rates to have a material impact on our financial condition, results of operations or cash flows during 2025. Interest rates on our outstanding borrowings fluctuate based on a variety of base rates, including the following: the Secured Overnight Financing Rate ("SOFR"), the Bloomberg Short-Term Bank Yield Index ("BSBY") and reference rates provided by the People's Bank of China. Changes in these interest rates will have an effect on the interest charged on outstanding balances.

We may enter into derivative financial instruments such as interest rate swaps in order to limit our interest rate risk on our longterm debt. As of December 31, 2024, we had one derivative instrument in place to hedge the cash flows on our \$129.5 million variable rate debt, with a notional amount of the same value. The rate swap agreement utilized by us effectively modifies our exposure to interest rate risk by converting our floating-rate debt to a fixed rate basis over the life of the loan. Our receive rate was 30-day SOFR rate and our average rate paid was 0.778%.

Refer to Note 6 — Financial Commitments in the accompanying Notes to the Consolidated Financial Statements for further details.

*Foreign currency exchange rate fluctuations.* We face market risk to the extent that changes in foreign currency exchange rates affect our non-U.S. dollar functional currency foreign subsidiaries' sales, expenses, assets and liabilities. In addition, changes in foreign currency exchange rates may affect the value of our inventory commitments. Also, inventory purchases of our products may be impacted by fluctuations in the exchange rates between the U.S. dollar and the local currencies of the contract manufacturers, which could have an impact on the cost of goods sold in the future. We manage these risks by primarily denominating these purchases and commitments in U.S. dollars.

Assets and liabilities outside the U.S. are located in regions where we have subsidiaries or joint ventures: the Americas, Europe, Middle East & Africa and Asia-Pacific. Our investments in foreign subsidiaries and joint ventures with a functional currency other than the U.S. dollar are generally considered long-term. The fluctuation of foreign currencies resulted in a cumulative foreign currency translation loss of \$97.8 million and gain of \$11.5 million, for the years ended December 31, 2024 and 2023, that are deferred and recorded as a component of accumulated other comprehensive loss in Skechers U.S.A., Inc.'s equity. A 200-basis point reduction in each of these exchange rates at December 31, 2024 would have reduced the values of our net investments by approximately \$112.8 million.

#### **Opinion on the Consolidated Financial Statements**

We have audited the accompanying consolidated balance sheets of Skechers U.S.A., Inc. (the "Company") as of December 31, 2024 and 2023, the related consolidated statements of earnings, comprehensive income, stockholders' equity and redeemable noncontrolling interest, and cash flows for each of the three years in the period ended December 31, 2024, and the related notes and financial statement schedule listed in the accompanying index (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2024 and 2023, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2024, in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the Company's internal control over financial reporting as of December 31, 2024, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") and our report dated February 28, 2025 expressed an unqualified opinion thereon.

#### **Basis for Opinion**

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

#### **Critical Audit Matter**

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

#### Accounting for Income Taxes

The Company is a U.S. based multinational entity subject to taxes in the U.S. and multiple foreign jurisdictions which affect the Company's provision for income taxes. The income tax provision is determined by management based on current enacted tax regulations at each jurisdiction with consideration of intercompany transactions across multiple tax jurisdictions. As indicated in Note 10 to the consolidated financial statements, total income tax expense for the year ended December 31, 2024 was \$148.1 million, of which \$9.3 million represented U.S. Federal tax expense, \$10.1 million represented U.S. State tax expense, and the remaining \$128.7 million represented foreign tax expense.

We identified the accounting for the Company's income tax provision as a critical audit matter due to the complexity involved in: (i) the application of relevant tax laws and regulations in calculating taxable income and deferred tax balances in certain jurisdictions, and (ii) the application of transfer pricing guidelines to various intercompany transactions. Auditing these elements required challenging auditor judgement and an increased extent of audit effort, including the use of income tax professionals, international tax service professionals, and transfer pricing tax professionals.

The primary procedures we performed to address this critical audit matter included:

- Testing the design and operating effectiveness of certain internal controls related to management's accounting for income taxes, including controls over: (i) calculating taxable income and deferred tax balances in certain jurisdictions, and (ii) the application of transfer pricing guidelines to various intercompany transactions.
- Testing the completeness and accuracy of the underlying data used to determine taxable income, deferred tax balances, and transfer pricing adjustments.
- Utilizing income tax professionals and international tax service professionals to assist in evaluating management's application of relevant tax laws and regulations in calculating taxable income and deferred tax balances in certain jurisdictions.
- Utilizing transfer pricing tax professionals to assist in evaluating management's application of transfer pricing guidelines to various intercompany transactions.

/s/ BDO USA, P.C.

We have served as the Company's auditor since 2013.

#### SKECHERS U.S.A., INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements

#### (1) Summary of Significant Accounting Policies

## BASIS OF PRESENTATION

Skechers U.S.A., Inc. and subsidiaries (the "Company") designs, develops, markets and distributes footwear, apparel and accessories. The Company's consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") as codified in the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC"). All significant intercompany balances and transactions have been eliminated in consolidation. Certain reclassifications of prior period balances have been made to conform to current presentation.

## USE OF ESTIMATES

The Company has made a number of estimates and assumptions relating to the reporting of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities to prepare these consolidated financial statements in conformity with GAAP. Significant areas requiring the use of estimates relate primarily to allowances for credit losses, returns and customer chargebacks, inventory reserves, litigation reserves and valuation of deferred income taxes. Actual results could differ materially from those estimates.

#### **REVENUE RECOGNITION**

The Company derives income from the sale of footwear, apparel and accessories and royalties earned from licensing the Skechers brand. The Company recognizes sales revenue, net of estimated returns and excluding sales and value added taxes. Revenue is recognized at point of sale or upon shipment, the point in time where control transfers to the customer.

Wholesale sales are primarily recognized upon shipment, and in certain international markets, upon delivery. Direct-to-Consumer sales are primarily recognized at the point of sale for transactions with customers at the Company's retail stores and recognized upon shipment for sales made through its websites.

Sales are reduced by an estimate of customer merchandise returns, which is calculated based on historical experience. The Company reserves for potential disputed amounts or chargebacks from its customers. The Company's chargeback reserve is based on a factors such as historical trends, customer behavior and nature of the chargeback.

## COST OF SALES

Cost of sales consists primarily of product costs, including inbound freight costs, purchasing and receiving costs, and third-party royalties. Expense associated with sales return and inventory reserves is recognized in cost of sales.

## ALLOWANCE FOR CREDIT LOSSES

The Company provides a reserve for estimated losses that may result from its customers' inability to pay. The Company determines the amount of the reserve by analyzing known uncollectible accounts, aged receivables, historical losses and its customers' credit-worthiness. Allowances for credit losses are recorded to general and administrative expenses.

#### WAREHOUSE AND DISTRIBUTION COSTS

The Company's distribution network-related costs are included in general and administrative expenses. Distribution expenses, including the functions of purchasing, receiving, inspecting, allocating, surface transportation, warehousing and packaging product totaled \$594.0 million, \$565.1 million and \$538.7 million for 2024, 2023 and 2022 (which includes rent and depreciation).

## PRODUCT DESIGN AND DEVELOPMENT COSTS

The Company charges product design and development costs to general and administrative expenses. Aggregate product design and development costs were approximately \$33.9 million, \$27.9 million, and \$28.1 million during the years ended December 31, 2024, 2023 and 2022.

#### ADVERTISING

Advertising costs are expensed in the period in which an advertisement first runs, or over the life of an endorsement contract. Advertising expense for the years ended December 31, 2024, 2023 and 2022 was approximately \$669.6 million, \$562.1 million and \$473.7 million. Prepaid advertising costs were \$37.0 million at December 31, 2024, consisting of \$17.3 million short-term and \$19.7 million long-term, which is included in other assets, net, in the Company's Consolidated Balance Sheets. Prepaid amounts represent the unamortized portion of endorsement contracts or advertising in trade publications and media productions created, but not run.

#### INCOME TAXES

The Company recognizes deferred tax liabilities for taxable temporary differences and deferred tax assets for deductible temporary differences and operating loss carry-forwards using enacted tax rates in effect in the years the differences are expected to reverse. Deferred income tax benefit or expense is recognized as a result of changes in net deferred tax assets or deferred tax liabilities. A valuation allowance is recorded when it is more likely than not that some or all of any deferred tax assets will not be realized.

#### CASH AND CASH EQUIVALENTS

Cash and cash equivalents include short-term investments, which are highly liquid investments with maturities of three months or less when purchased.

#### INVENTORY

Inventory is stated at the lower of cost or net realizable value. Cost is primarily based on the first-in, first-out method. The weighted-average cost method is used in certain markets and Direct-to-Consumer channels. Cost of product includes shipping and handling fees. The Company estimates losses from obsolete or slow-moving inventory and reserves the cost of inventory at the time such determinations are made. The Company has consistently applied these inventory cost methods from year to year.

#### PROPERTY, PLANT, AND EQUIPMENT

Property, plant and equipment are stated at cost, net of accumulated depreciation and amortization. Depreciation and amortization is provided using the straight-line method over the estimated useful lives of the assets. The Company reviews stores for impairment annually or when facts and circumstances indicate that the carrying values may be impaired. The Company did not record material impairment charges during the years ended December 31, 2024, 2023 or 2022. The principal estimated useful lives are as follows:

Buildings	20 to 40 years
Building improvements	10 to 20 years
Furniture, fixtures and equipment	5 to 20 years
Leasehold improvements	Shorter of useful life or remaining lease term

#### GOODWILL

Business acquisitions are accounted for under the acquisition method by assigning the purchase price to tangible and intangible assets acquired and liabilities assumed. Assets acquired and liabilities assumed are recorded at their fair values and the excess of the purchase price over the amounts assigned is recorded as goodwill. As of December 31, 2024 and 2023, the Company had \$94.5 million and \$101.2 million of goodwill included in the Wholesale segment. The decrease in goodwill relates to the effect of foreign currency exchange translation. Goodwill is not amortized but is tested at least annually in the fourth quarter for impairment or whenever events or changes in circumstances indicate that the carrying value may not be recoverable.

### INTANGIBLE ASSETS

Other assets, net, includes amortizable intangible assets consisting of reacquired rights with a gross carrying value of \$103.6 million and \$108.4 million and accumulated amortization of \$53.6 million and \$42.2 million as of December 31, 2024 and 2023. Purchased intangible assets with finite lives are amortized using the straight-line method over their estimated useful lives. Amortization expense related to amortizable intangible assets were \$14.7 million, \$11.4 million and \$6.9 million for years ended December 31, 2024, 2023 and 2022. Future amortization expense related to amortizable intangible assets related to amortizable intangible assets is expected to be approximately \$13.9 million for 2025, \$9.4 million for 2026, \$7.9 million for each of the years 2027 and 2028, \$7.7 million for 2029 and \$3.2 million thereafter. The weighted-average amortization period for amortizable reacquired rights is 7 years.

## NONCONTROLLING INTERESTS AND REDEEMABLE NONCONTROLLING INTEREST

The Company has equity interests in several joint ventures that were established either to exclusively distribute the Company's products throughout China, Israel, South Korea, Mexico and Southeast Asia or to construct the Company's domestic distribution facility. These joint ventures are variable interest entities ("VIE") and the Company is considered the primary beneficiary. This determination is based on the relationships between the Company has both of the following characteristics: (a) the power to direct the activities of the entity that most significantly impact the entity's economic performance and (b) the obligation to absorb losses of the entity that could potentially be significant to the VIE, or the right to receive benefits from the entity that could potentially be significant to the VIE. The assets and liabilities and results of operations of these entities are included in the Company's consolidated financial statements, even though the Company may not hold a majority equity interest.

In December 2023, the Company increased the ownership interest related to the Israel joint venture from 51% to 75% for \$6.0 million. The Israel entity continues to be included in the Company's consolidated financial statements.

During 2024, the Company created the new joint venture, HF Logistics-SKX T3, LLC ("HF-T3") to support expansion of its North America distribution center. The Company is obligated to contribute \$150.0 million, of which \$75.0 million was paid during the year ended December 31, 2024. The joint venture partner contributed land with a value of \$150.0 million. HF-T3 is fully consolidated in the Company's consolidated financial statements.

The Company continues to reassess these relationships based on events and circumstances. The assets of these joint ventures are restricted, as they are not available for general business use outside the context of such joint ventures. The holders of the liabilities of each joint venture have no recourse to the Company.

A joint venture agreement allows the partner, based on certain triggers, to require the Company to repurchase its noncontrolling interest. As the redemption feature is not solely within the control of the Company, the noncontrolling interest is classified within temporary equity as redeemable noncontrolling interest. As of December 31, 2024 and 2023, it was not probable that the redeemable noncontrolling interest would become redeemable. Prior periods presented were revised to reflect consistent presentation as the result of this correction. The impact to the previously reported Consolidated Balance Sheet as of December 31, 2023, was as follows:

		As of	December 31, 2023	
(in thousands)	As reported		Revised	 Adjustment
Redeemable noncontrolling interest \$	_	\$	89,832	\$ 89,832
Noncontrolling interests	380,700		290,868	(89,832)
Total stockholders' equity	4,400,042		4,310,210	(89,832)

The Consolidated Statements of Earnings and the Consolidated Statements of Comprehensive Income did not have any classification changes, only a change in the category descriptions to indicate as noncontrolling interests and redeemable noncontrolling interest.

## FOREIGN CURRENCY TRANSLATION

The Company's reporting currency is the U.S. dollar. Certain international operations use the respective local currency as their functional currency, while others use the U.S. dollar as their functional currency. Translation adjustments for subsidiaries with non-U.S. dollar functional currencies are included in other comprehensive income. Foreign currency transaction gains (losses), and remeasurement, resulting from exchange rate fluctuations on transactions denominated in a currency other than the functional currency are reported in earnings. Assets and liabilities of subsidiaries with non-U.S. dollar functional currencies are translated at the balance sheet date exchange rate. Net earnings and cash flow items are translated at the weighted-average exchange rates during the period. Translations of intercompany loans of a long-term investment nature are included as a component of translation adjustment in other comprehensive income.

### FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value hierarchy as defined by applicable accounting standards prioritizes the use of inputs used in valuation techniques into the following three levels:

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- Level 2: Other observable market-based inputs or unobservable inputs that are corroborated by market data.
- Level 3: Unobservable inputs that cannot be corroborated by market data that reflect the reporting entity's own assumptions.

The Company's Level 1 investments primarily include money market funds, U.S. Treasury securities and actively traded mutual funds; Level 2 investments primarily include corporate notes and bonds, asset-backed securities and U.S. Agency securities; and the Company does not currently have any Level 3 assets or liabilities. The Company has one Level 2 derivative instrument which is an interest rate swap (see Note 6 – Financial Commitments) classified as other assets, net, at both December 31, 2024 and 2023. The fair value of the interest rate swap was determined using the market standard methodology of netting the discounted future fixed cash payments and the discounted expected variable cash receipts. The variable cash receipt was based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. Credit valuation adjustments were incorporated to appropriately reflect both the Company's nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements.

The carrying amount of receivables, payables and other amounts arising out of the normal course of business approximates fair value because of the relatively short maturity of such instruments. The carrying amount of the Company's short-term and long-term borrowings, which are considered Level 2 liabilities, approximates fair value based on current rates and terms available to the Company for similar debt.

#### DERIVATIVE INSTRUMENTS

The Company's objective in using interest rate derivatives is to add stability to interest expense and to manage exposure to interest rate movements. To accomplish this objective, the Company uses an interest rate swap as part of its interest rate risk management strategy. The Company's interest rate swap is designated as a cash flow hedge. By utilizing an interest rate swap, the Company is exposed to credit-related losses in the event that the counterparty fails to perform under the terms of the derivative contract. To mitigate this risk, the Company enters into derivative contracts with major financial institutions based upon credit ratings and other factors. As of December 31, 2024, all counterparties to the interest rate swap had performed in accordance with their contractual obligations.

#### RECENT ACCOUNTING PRONOUNCEMENTS

In November 2024, the FASB issued Accounting Standards Update ("ASU") 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses.* The new guidance requires the disclosure of additional information related to certain costs and expenses, including amounts of inventory purchases, employee compensation and selling expenses included in each income statement line item. This update is effective for annual periods beginning after December 15, 2026, and interim periods beginning after December 15, 2026, and early adoption is permitted. The Company is currently evaluating the impact of the new disclosure requirements.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures.* ASU 2023-09 requires companies to disclose, on an annual basis, specific categories in the effective tax rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold. In addition, ASU 2023-09 requires companies to disclose additional information about income taxes paid. ASU 2023-09 will be effective for annual periods beginning January 1, 2025 and will be applied on a prospective basis with the option to apply the standard retrospectively. Once adopted, the Company expects to include additional income tax disclosures as required by the new guidance. The standard will not have an impact on the Company's consolidated financial position, results of operations and cash flows.

## RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*. Among other new disclosure requirements, ASU 2023-07 requires companies to disclose significant segment expenses that are regularly provided to the chief operating decision maker. The Company adopted ASU 2023-07 beginning with its annual period ended December 31, 2024. See Note 13 – Segment and Geographic Information for updated disclosures as a result of the adoption.

In March 2023, the FASB issued ASU 2023-01, *Leases (Topic 842): Common Control Arrangements*, which requires all lessees to amortize leasehold improvements associated with common control leases over their useful life to the common control group. The Company adopted ASU 2023-01 on January 1, 2024, and the adoption of this ASU did not have a material impact on its consolidated financial statements.

### (2) Cash, Cash Equivalents, Short-term and Long-term Investments

The following tables show the Company's cash, cash equivalents, short-term and long-term investments by significant investment category:

	As of December 31, 2024								
(in thousands) A	djusted Cost		Fair Value	Cash and Cash Equivalents			Short-Term Investments		Long-Term nvestments
Cash \$	1,094,228	\$	1,094,228	\$	1,094,228	\$		\$	—
Level 1									
Money market funds	15,441		15,441		15,441				
U.S. Treasury securities	26,160		26,160		2,849		14,513		8,798
Mutual funds	N/A		2,984						2,984
Total level 1	41,601		44,585		18,290		14,513		11,782
Level 2									
Corporate notes and bonds	129,588		129,588		2,998		85,767		40,823
Asset-backed securities	22,073		22,073				257		21,816
U.S. Agency securities	20,091		20,091		1,000		17,933		1,158
Total level 2	171,752		171,752		3,998		103,957		63,797
Total\$	1,307,581	\$	1,310,565	\$	1,116,516	\$	118,470	\$	75,579

	As of December 31, 2023									
-			<b>F</b> • <b>V</b> I	Cash and Cash			Short-Term		Long-Term	
(in thousands)	Adjusted Cost		Fair Value		Equivalents		nvestments		nvestments	
Cash	\$ 972,278	\$	972,278	\$	972,278	\$		\$		
Level 1										
Money market funds	176,317		176,317		176,317				—	
U.S. Treasury securities	39,769		39,769		29,942		9,827		—	
Mutual funds	N/A		8,535						8,535	
Total level 1	216,086		224,621		206,259		9,827		8,535	
Level 2										
Corporate notes and bonds	97,795		97,795		9,374		50,949		37,472	
Asset-backed securities	11,159		11,159						11,159	
U.S. Agency securities	27,269		27,269		1,999		11,819		13,451	
Total level 2	136,223		136,223		11,373		62,768		62,082	
Total	\$ 1,324,587	\$	1,333,122	\$	1,189,910	\$	72,595	\$	70,617	

The Company's investments consist of U.S. Treasury securities, corporate notes and bonds, asset-backed securities and U.S. agency securities, which the Company has the intent and ability to hold to maturity and therefore are classified as held-to-maturity. The Company holds mutual funds in its deferred compensation plan which are classified as trading securities. The Company may sell certain of its investments prior to their stated maturities for strategic reasons including, but not limited to, anticipation of credit deterioration and duration management. The maturities of the Company's long-term investments are less than two years. The Company minimizes the potential risk of principal loss by investing in highly-rated securities and limiting the amount of credit exposure to any one issuer. Fair values were determined for each individual security in the investment portfolio. Included in long-term investments on the Consolidated Balance Sheets are company owned life insurance contracts of \$71.1 million and \$53.4 million as of December 31, 2024 and December 31, 2023. Consolidated interest income was \$37.3 million, \$24.8 million, and \$6.0 million for the years ended December 31, 2024.

When evaluating an investment for its current expected credit losses, the Company reviews factors such as historical experience with defaults, losses, credit ratings, term and macroeconomic trends, including current conditions and forecasts to the extent they are reasonable and supportable.

#### (3) Leases

The Company regularly enters into non-cancellable operating leases for retail stores, distribution facilities, offices, showrooms and automobiles. Retail stores typically have initial terms ranging from 5 to 10 years and other real estate or facility leases may have initial lease terms of up to 25 years. The Company's leases are recorded as operating lease right-of-use ("ROU") assets and operating lease liabilities. Operating lease liabilities are recognized based on the present value of the fixed portion of lease payments over the lease term at the commencement date. Net present value is calculated using an incremental borrowing rate based on a combination of market-based factors, such as market quoted forward yield curves and Company specific factors, such as lease size and duration. Many of the Company's real estate leases include options to extend and are included in the lease obligations when considered reasonably certain. ROU assets are recognized based on operating lease liabilities reduced by lease incentives and initial direct costs incurred. Fixed lease cost is recognized on a straight-line basis over the lease term.

The Company's real estate leases may require additional payments for percentage rent, real estate taxes, or other occupancyrelated costs. Percentage rent, a variable cost, is recognized in the consolidated financial statements when incurred and is based on the specific terms in the lease agreement. Real estate taxes and other occupancy-related costs are non-lease components.

Operating lease cost and other information:

	Year Ended December 31,						
(in thousands)	2024	2023			2022		
Fixed lease cost\$	409,936	\$	361,894	\$	307,265		
Variable lease cost	11,059		11,424		10,803		
Operating cash flows used for leases	411,617		359,727		303,721		
Weighted-average remaining lease term	6.44 years		5.43 years		5.52 years		
Weighted-average discount rate	4.59%	)	4.16%	)	3.12%		

The following table presents future lease payments as of December 31, 2024:

Year (in thousands)	Operating Leases
2025	\$ 356,293
2026	303,656
2027	254,437
2028	200,624
2029	164,496
Thereafter	446,351
Total lease payments	1,725,857
Less: Imputed interest	(251,641)
Operating lease liabilities	\$ 1,474,216

As of December 31, 2024, the Company has operating leases, primarily for distribution center expansion and retail stores, that have not yet commenced which will generate additional ROU assets of \$327.0 million.

#### **Property, Plant and Equipment** (4)

Property, plant and equipment were as follows:

		,		
(in thousands)		2024		2023
Land	\$	285,892	\$	122,433
Buildings and improvements		814,005		720,663
Furniture, fixtures and equipment		1,070,476		954,482
Leasehold improvements		723,930		669,886
Total property, plant and equipment		2,894,303		2,467,464
Less accumulated depreciation and amortization		1,059,373		960,774
Property, plant and equipment, net	\$	1,834,930	\$	1,506,690

Depreciation expense was \$179.7 million, \$156.5 million and \$131.3 million for the years ended December 31, 2024, 2023 and 2022.

#### **Accrued Expenses** (5)

Accrued expenses were as follows:

		As of Dec	ember 3	1,
(in thousands)	2024			2023
Accrued payroll, taxes, and other	\$	166,487	\$	166,132
Return reserve liability		73,088		80,968
Accrued inventory purchases		90,676		73,005
Accrued expenses	\$	330,251	\$	320,105

#### (6) **Financial Commitments**

The Company had \$36.6 million and \$32.5 million letters of credit at December 31, 2024 and 2023. Interest expense was \$21.9 million, \$22.4 million and \$19.7 million for the years ended December 31, 2024, 2023 and 2022. The Company was in compliance with all financial covenants as of December 31, 2024.

### SHORT-TERM BORROWINGS

		As of December 31,				
(in thousands)	<b>Expiration Date</b>		2024		2023	
Revolving credit facility - Corporate	December 2026	\$		\$		
Revolving credit facilities - India	Various 2025		21,209		6,021	
Other - international facilities	Various 2025		12,129		5,873	
Short-term borrowings		\$	33,338	\$	11,894	

#### Revolving Credit Facilities

The Company maintains a revolving credit facility with Bank of America, N.A. which allows for an unsecured credit facility to \$750.0 million, which may be increased up to \$250.0 million under certain conditions and provides for the issuance of letters of credit up to a maximum of \$100.0 million and swingline loans up to a maximum of \$50.0 million. The Company may use the proceeds for working capital and other lawful corporate purposes. Borrowings and letters of credit bear interest, at the Company's option, at a rate equal to (a) Term Secured Overnight Financing Rate ("SOFR") plus an applicable margin between 1.000% and 1.500% based upon the Company's Total Adjusted Net Leverage Ratio or (b) a base rate (defined as the highest of (i) the Federal Funds Rate plus 0.50%, (ii) the Bank of America prime rate, (iii) Term SOFR plus 1.00%, and (iv) 1.00%) plus an applicable margin between 0% and 0.500% based upon the Company's Total Adjusted Net Leverage Ratio. The unused credit capacity was \$745.4 million and \$746.9 million as of December 31, 2024 and 2023.

The Company is required to maintain a maximum total adjusted net leverage ratio of 3.75:1, except in the event of an acquisition in which case the ratio may be increased at the Company's election to 4.25:1 for the quarter in which such acquisition occurs and for the next three quarters thereafter.

The Company's subsidiary in India had various line of credits as of December 31, 2024 with unused capacity of \$37.5 million and a weighted average interest rate of 7.80%. Borrowings on the line of credit are due in 180 days. Additionally, the Company maintains various credit facilities within its other international markets with an aggregate unused capacity of approximately \$40.3 million that is available for working capital needs and issuance of letters of credit.

#### LONG-TERM BORROWINGS

		 As of Deco	mber 31,				
(in thousands)	Maturity Date	 2024		2023			
HF-T1 Distribution Center Loan	March 2025	\$ 129,505	\$	129,505			
HF-T2 Distribution Center Construction Loan	April 2025	73,017		73,017

China Operational Loans	Various 2025	150,517		46,228			
Other	Various	92		435			
Subtotal		421,581		289,515			
Less: Current installments of long-term borrowings		353,131		46,571			
Long-term borrowings		\$ 68,450	\$	242,944			

### HF-T1 Distribution Center Loan

To finance construction and improvements to the Company's North American distribution center, the Company's joint venture with HF Logistics I, LLC ("HF"), HF Logistics-SKX, LLC (the "JV"), through a wholly-owned subsidiary of the JV ("HF-T1"), entered into a \$129.5 million construction loan agreement with interest of SOFR Daily Floating Rate plus a margin of 1.75% per annum.

HF-T1 also entered into an interest rate swap agreement with Bank of America with a maturity date of March 18, 2025, which fixed the effective interest rate on the loan at 2.55% per annum. During the second quarter of 2023, the Company amended certain terms of the loan agreement and the related interest rate swap to replace the London Interbank Offered Rate ("LIBOR") with the daily SOFR as part of the reference rate reform. The amended loan and interest rate swap agreements are subject to customary covenants and events of default. The obligations of the JV under this loan are guaranteed by HF.

As of both December 31, 2024 and 2023, the interest rate swap had an aggregate notional amount of \$129.5 million. Under the terms of the amended swap agreement, the Company will pay a weighted-average fixed rate of 0.778% on the notional amount and receive payments from the counterparty based on the 30-day SOFR rate, effectively modifying the Company's exposure to interest rate risk by converting floating-rate debt to a fixed rate of 2.63%.

### HF-T2 Distribution Center Construction Loan

On April 3, 2020, HF Logistics-SKX T2, LLC ("HF-T2"), a joint venture, entered into a construction loan agreement of up to \$73.0 million with Bank of America to expand the North American distribution center. The interest rate is based on the Bloomberg Short-Term Bank Yield Index ("BSBY") Daily Floating Rate plus a margin of 190 basis points, reducing to 175 basis points upon substantial completion of the construction and certain other conditions being satisfied. In October 2024, the loan was amended to replace the BSBY rate with the SOFR rate. The weighted-average annual interest rate on borrowings was 6.94% during the year ended December 31, 2024. The obligations of the JV under this loan are guaranteed by TGD Holdings I, LLC, which is an affiliate of HF.

#### China Distribution Center Expansion Construction Loan

On October 18, 2022, the Company entered into a loan agreement for 1.1 billion yuan with Bank of China Co., Ltd to finance the construction of its distribution center expansion in China. Interest is paid quarterly. The interest rate at December 31, 2024 was 2.95% and may increase or decrease over the life of the loan, and is evaluated every 12 months. Beginning in 2026, the principal of the loan will be repaid in semi-annual installments of variable amounts. The obligations of this loan entered through the Company's Taicang Subsidiary are jointly and severally guaranteed by the Company's China joint venture.

#### China Operational Loans

The Company has certain secured credit facilities with an aggregate capacity of 1.75 billion yuan to support the operations of its China joint venture. As of December 31, 2024 and 2023, interest rates on outstanding borrowings ranged from 2.00% to 2.90% per annum.

The following table presents the future principal payments required under the Company's debt obligations, discussed above:

Year (in thousands)	Maturities
2025	\$ 353,131
2026	8,712
2027	8,712
2028	8,712
2029	9,957
Thereafter	32,357
Total	\$ 421,581

#### Other Financial Commitments

As of December 31, 2024, the Company had remaining obligations totaling \$75.0 million that will be contributed to the newly-formed joint venture, HF-T3, during the year ending December 31, 2025.

#### (7) Commitments and Contingencies

#### PRODUCT AND OTHER FINANCING

The Company finances production activities in part through the use of interest-bearing open purchase arrangements with certain of its international manufacturers. These arrangements currently bear interest at rates between 0.0% and 0.4% for 30- to 60-day financing. The amounts included in accounts payable and outstanding under these arrangements were \$273.6 million and \$298.9 million at December 31, 2024 and 2023. Interest expense incurred by the Company under these arrangements totaled \$5.3 million in 2024, \$6.5 million in 2023 and \$6.1 million in 2022. The Company has open purchase commitments with its foreign manufacturers of \$1.2 billion and warehouse and equipment and corporate construction contracts of \$184.8 million for the expansion of its distribution centers and corporate headquarters, which are not included in the Consolidated Balance Sheets at December 31, 2024.

## LITIGATION

In accordance with GAAP, the Company records a liability in its consolidated financial statements for loss contingencies when a loss is known or considered probable and the amount can be reasonably estimated. When determining the estimated loss or range of loss, significant judgment is required to estimate the amount and timing of a loss to be recorded. Estimates of probable losses resulting from litigation and governmental proceedings are inherently difficult to predict, particularly when the matters are in the procedural stages or with unspecified or indeterminate claims for damages, potential penalties, or fines. Accordingly, the Company cannot determine the final amount, if any, of its liability beyond the amount accrued in the consolidated financial statements as of December 31, 2024, nor is it possible to estimate what litigation-related costs will be in the future; however, the Company believes that the likelihood that claims related to litigation would result in a material loss to the Company, either individually or in the aggregate, is remote. The Company recognizes legal expense in connection with loss contingencies as incurred.

## (8) Stockholders' Equity and Stock Compensation

### COMMON STOCK

The authorized capital stock of the Company consists of 500.0 million shares of Class A Common Stock, par value \$0.001 per share ("Class A Common Stock"), 75.0 million shares of Class B Common Stock, par value \$0.001 per share ("Class B Common Stock"), and 10.0 million shares of Preferred Stock, par value \$0.001 per share.

The Company has two classes of issued and outstanding common stock: Class A Common Stock and Class B Common Stock. Holders of Class A Common Stock and holders of Class B Common Stock have substantially identical rights, including rights with respect to any declared dividends or distributions of cash or property, and the right to receive proceeds on liquidation or dissolution of the Company after payment of the Company's indebtedness. The two classes have different voting rights, with holders of Class A Common Stock entitled to one vote per share while holders of Class B Common Stock are entitled to ten votes per share on all matters submitted to a vote of stockholders. The Company uses the two-class method for calculating net earnings per share ("EPS"). Basic and diluted net EPS of Class A Common Stock and Class B Common Stock are identical. The shares of Class B Common Stock are convertible at any time at the option of the holder into shares of Class A Common Stock on a share-for-share basis. In addition, shares of Class B Common Stock will be automatically converted into a like number of shares of Class A Common Stock upon transfer to any person or entity who is not a permitted transferee.

During the years ended December 31, 2024, 2023 and 2022 certain Class B stockholders converted 803,758, 627,632 and 128,530 shares, respectively, of Class B Common Stock to Class A Common Stock.

### SHARE REPURCHASE PROGRAM

The Company's Board of Directors authorized a new share repurchase program effective July 25, 2024, pursuant to which the Company may purchase shares of its Class A common stock, for an aggregate repurchase price not to exceed \$1.0 billion. This repurchase program expires on July 25, 2027, does not obligate the Company to acquire any particular amount of shares, and replaced the prior share repurchase program. At December 31, 2024, there was \$789.9 million remaining to repurchase shares under the program.

The share repurchase program authorized in 2022 allowed the Company to purchase shares of its Class A common stock for an aggregate price not to exceed \$500.0 million. The remaining authorization under this repurchase program was terminated upon authorization of the new program in 2024.

The following table provides a summary of the Company's stock repurchase activities:

	 Year Ended December 31,						
	2024		2023				
Shares repurchased	5,150,502		3,197,345				
Average cost per share	\$ 64.09	\$	50.06				
Total cost of shares repurchased (in thousands)	\$ 330,103	\$	160,064				

## INCENTIVE AWARD PLAN

On April 6, 2023, the Company's Board of Directors adopted the 2023 Incentive Award Plan (the "2023 Plan"), which became effective upon approval by the Company's stockholders on June 12, 2023. The 2023 Plan superseded prior plans. Awards issued and outstanding under the prior plan vest in accordance with the original terms. A total of 7.5 million shares of Class A Common Stock are reserved for issuance under the 2023 Plan, which provides for the grants of restricted stock, restricted stock units and various other types of equity awards as described in the plan to the employees, consultants, and directors of the Company. The 2023 Plan is administered by the Company's Board of Directors with respect to awards to non-employee directors and by the Company's Compensation Committee with respect to other eligible participants.

For the year ended December 31, 2024, the Company granted restricted stock with time-based vesting, as well as performancebased awards. The performance-based awards include those with a market condition tied to the Company's total shareholder return in relation to its peer companies as well as those with a financial performance condition tied to annual EPS growth. The vesting and ultimate payout of performance awards is determined at the end of the three-year performance period and can vary from zero to 200% based on actual results. As of December 31, 2024, a total of 5,807,480 shares remain available for grant as equity awards under the 2023 Plan if target levels are achieved for performance-based awards and 5,223,030 available if maximum levels are achieved.

The Company granted the following stock-based instruments:

				Year Ended I	Decen	ıber 31,			
	2024			202	23		20	2022	
	Granted	Weighted- Average Grant-Date Fair Value		Weighted- Average Grant-Date Granted Fair Value			Granted	A Gr	eighted- verage ant-Date ir Value
Restricted stock	1,211,160	\$	59.12	959,690	\$	46.24	1,446,550	\$	38.27
Performance-based restricted stock <sup>(1)</sup>	93,500	\$	60.91	121,225	\$	43.34	116,250	\$	42.46
Market-based restricted stock (1)	93,500	\$	78.80	121,225	\$	59.71	116,250	\$	58.85

<sup>(1)</sup> Based on the target number of shares that may vest.

The Company determines the fair value of restricted stock awards and any performance-related components based on the closing market price of the Company's common stock on the date of grant. For share-based awards with a performance-based vesting requirement, the Company evaluates the probability of achieving the performance criteria throughout the performance period and will adjust stock compensation expense up or down based on its estimated probable outcome. Certain performance-based awards contain market condition components which are valued on the date of grant using a Monte Carlo simulation model.

A summary of the status and changes of the Company's unvested shares related to the Plan is presented below:

	Shares	Weighted-Average Grant-Date Fair Value
Unvested at December 31, 2021	3,253,316	\$ 38.97
Granted	1,679,050	39.98
Vested/Released	(1,423,531)	36.13
Cancelled	(84,933)	39.72
Unvested at December 31, 2022	3,423,902	40.62
Granted	1,202,140	47.31
Vested/Released	(1,119,837)	38.76
Cancelled	(43,500)	41.19
Unvested at December 31, 2023	3,462,705	43.54
Granted	1,398,160	60.56
Vested/Released	(1,969,990)	42.94
Cancelled	(58,650)	52.18
Performance Adjustment	224,809	46.87
Unvested at December 31, 2024	3,057,034	\$ 51.79

For the year ended December 31, 2024, shares were issued based on the achievement of certain EPS and TSR metrics as presented below:

_	Year ended December 31, 2024						
	Target Shares Payout Factor						
December 2020 EPS Grant	125,000	133 %	41,665				
December 2020 TSR Grant	125,000	162%	77,250				
March 2021 EPS Grant	108,750	133 %	36,250				
March 2021 TSR Grant	108,750	164%	69,644				
Total Performance Adjustments		=	224,809				

The Company recognized, as part of general and administrative, compensation expense of \$83.4 million, \$65.1 million and \$57.3 million for grants under the Plan for the years ended December 31, 2024, 2023 and 2022. Related excess tax expense (benefit) on stock compensation recorded in the Consolidated Statements of Earnings for the years ended December 31, 2024, 2023 and 2022, was \$(4.7) million, \$(0.9) million, and \$1.3 million. Nonvested shares generally vest over a graded vesting schedule from one to four years from the date of grant. For grants that have a service requirement, the Company accounts for forfeitures upon occurrence, rather than estimating the probability of forfeiture at the date of grant. Accordingly, the Company recognizes the full grant-date fair value of these awards on a straight-line basis throughout the requisite service period. There was \$83.9 million of unrecognized compensation cost related to nonvested restricted shares as of December 31, 2024, which is expected to be recognized over a weighted-average period of 1.47 years. The total grant-date fair value of shares vested during the years ended December 31, 2024, 2023 and 2022 was \$84.6 million, \$43.4 million and \$51.4 million.

## STOCK PURCHASE PLAN

As approved by the Company's stockholders on May 23, 2017, the 2018 Employee Stock Purchase Plan (the "ESPP") provides a total of 5.0 million shares of Class A Common Stock for sale. The ESPP provides eligible employees of the Company and its subsidiaries the opportunity to purchase shares of the Company's Class A Common Stock at a purchase price equal to 85% of the fair market value on the first trading day or last trading day of each purchase period, whichever is lower. Eligible employees can invest up to 15% of their compensation through payroll deductions during each purchase period. The purchase price discount and the look-back feature cause the ESPP to be compensatory and the Company recognizes compensation expense, which is computed using the Black-Scholes valuation model.

For the years ended December 31, 2024, 2023 and 2022, the Company recognized \$3.3 million, \$2.9 million, and \$2.6 million of ESPP stock compensation expense. Under the ESPP, the Company received cash of approximately \$11.0 million, \$9.4 million and \$8.1 million, and issued 213,168, 242,166 and 243,166 shares, for the years ended December 31, 2024, 2023 and 2022. As of December 31, 2024, there were 3,360,412 shares available for sale under the ESPP.

## (9) Earnings Per Share

Basic EPS and diluted EPS are calculated by dividing net earnings by the following: for basic EPS, the weighted-average number of common shares outstanding for the period; and for diluted EPS, the sum of the weighted-average number of both outstanding common shares and potentially dilutive common shares using the treasury stock method.

The calculation of EPS is as follows:

	Y	81,	,		
(in thousands, except per share data)	2024	 2023	2022		
Net earnings attributable to Skechers U.S.A., Inc \$	639,471	\$ 545,799	\$	373,028	
Weighted-average common shares outstanding, basic	151,838	154,533		155,627	
Dilutive effect of nonvested shares	2,005	 1,723		981	
Weighted-average common shares outstanding, diluted	153,843	 156,256		156,608	
Anti-dilutive common shares excluded above	7	 5		37	
Net earnings attributable to Skechers U.S.A., Inc.					
Basic \$	4.21	\$ 3.53	\$	2.40	
Diluted \$	4.16	\$ 3.49	\$	2.38	

### (10) Income Taxes

The Company's earnings before income tax expense consists of the following:

	Year Ended December 31,					
(in thousands)	2024			2023		2022
U.S. operations	\$	27,136	\$	16,740	\$	(48,311)
Foreign operations		850,613		784,132		570,568
Earnings before income taxes	\$	877,749	\$	800,872	\$	522,257

Income tax consists of the following:

	Year Ended December 31,						
(in thousands)	2024	2023			2022		
Current							
Federal \$	17,868	\$	16,839	\$	256		
State	10,062		7,986		9,564		
Foreign	115,125		130,655		84,904		
Total current	143,055		155,480		94,724		
Deferred							
Federal	(8,601)		(2,079)		7,043		
State	89		(4,598)		(1,287)		
Foreign	13,593		2,146		(7,385)		
Total deferred	5,081		(4,531)		(1,629)		
Income tax expense \$	148,136	\$	150,949	\$	93,095		

Income taxes differ from the statutory tax rates as applied to earnings before income taxes as follows:

	Year Ended December 31,					
(in thousands)		2024	2023			2022
Expected income tax expense	\$	184,327	\$	168,183	\$	109,674
State income tax, net of federal benefit		2,334		(832)		(1,597)
Rate differential on foreign income		(48,495)		(27,931)		(49,175)
Change in unrecognized tax benefits		4,075		3,841		12,310
Intra-entity intellectual property transfer						(3,232)
Non-deductible compensation		12,235		14,397		13,668
Tax credits		(6,489)		(6,813)		(7,544)
Excess tax (benefit) expense on stock compensation		(4,701)		(854)		1,305
U.S. tax on foreign earnings		8,986		8,180		7,611
Other		(3,978)		(5,235)		217
Change in valuation allowance		(158)		(1,987)		9,858
Income tax expense	\$	148,136	\$	150,949	\$	93,095
Effective tax rate		16.9%		18.8%		17.8%

The Company's income tax expense and effective income tax rate are significantly impacted by the mix of the Company's domestic and foreign earnings (loss) before income taxes. In the non-U.S. jurisdictions in which the Company has operations, the applicable statutory rates are generally lower than in the U.S., ranging from 0% to 35%. The Company's income tax expense was calculated using the applicable rate for each jurisdiction applied to the Company's pre-tax earnings (loss) while the Company's effective tax rate is calculated by dividing income tax expense by earnings before income taxes. For 2024, the effective tax rate was lower than the U.S. federal and state combined statutory rate of approximately 24.9%, primarily due to tax benefits related to earnings from foreign operations in jurisdictions imposing either lower tax rates on corporate earnings or no corporate income tax.

The Company is subject to a tax on global intangible low-taxed income ("GILTI"). GILTI taxes foreign income in excess of a deemed return on tangible assets of foreign corporations and is treated as a period cost.

The tax effects of temporary differences giving rise to deferred tax assets and liabilities are presented below:

	As of December 31,			,
(in thousands)	2024			2023
Deferred tax assets				
Inventory adjustments	\$	13,047	\$	9,413
Accrued expenses		128,396		109,510
Allowances for credit losses and chargebacks		8,635		5,648
Intra-entity IP transfer		314,626		330,545
Section 174 Capitalized Costs		40,320		43,130
Loss carryforwards		36,007		46,021
Business credit carryforward		19,309		22,571
Share-based compensation		14,264		10,486
Operating lease liabilities		363,052		338,389
Total deferred tax assets		937,656		915,713
Valuation allowance		(56,176)		(56,334)
Total deferred tax assets, net		881,480		859,379
Deferred tax liabilities				
Prepaid expenses		2,448		3,873
Right-of-use assets		363,052		338,389
Foreign intangibles		23,068		16,116
Depreciation on property, plant and equipment		63,702		63,021
Total deferred tax liabilities		452,270		421,399
Net deferred tax assets	\$	429,210	\$	437,980

At December 31, 2024, combined foreign net operating loss carry-forwards were approximately \$122.2 million of which \$2.2 million expire in 2025 and \$37.0 million can be carried forward indefinitely.

U.S. federal tax credit carry-forward at December 31, 2024 was \$3.4 million. State tax credit and net operating loss carry-forwards at December 31, 2024 were \$28.6 million and \$52.7 million. The state tax credit carries forward indefinitely and the net operating loss carry-forward amounts begin to expire in 2033. No valuation allowance has been recorded on these amounts as the Company believes they will be fully utilized.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

	As of December 31,			Ι,
(in thousands)	2024	4		2023
Beginning balance	\$	43,216	\$	41,247
Additions for current year tax positions		6,168		4,530
Additions for prior year tax positions				1,379
Reductions for prior year tax positions		(7,040)		—
Settlement of uncertain tax positions				(1,722)
Reductions related to lapse of statute of limitations		(1,936)		(2,218)
Ending balance	\$	40,408	\$	43,216

Current unrecognized tax benefits are recorded as a reduction in prepaid expense and included in tax expense when recorded. Long-term unrecognized tax benefits are recorded as an increase in long-term taxes payable with a portion included in tax expense and a portion recorded as a reduction in deferred tax liabilities when recorded. If recognized, \$42.5 million of unrecognized tax benefits would be recorded as a reduction in income tax expense and \$2.1 million would be recorded as a net increase in deferred tax asset.

The amount of income taxes the Company pays is subject to ongoing audits by taxing jurisdictions around the world. The Company's estimate of the potential outcome of any uncertain tax position is subject to its assessment of relevant risks, facts, and circumstances existing at that time. The Company believes that it has adequately provided for these matters. However, the Company's future results may include favorable or unfavorable adjustments to its estimates in the period the audits are resolved, which may impact the Company's effective tax rate.

As of December 31, 2024, the Company's U.S. federal tax returns are under examination for fiscal years ended December 31, 2015, 2018, 2019, 2020, 2021 and 2022 by the Internal Revenue Service. Additionally, the Company is currently under examination in certain foreign jurisdictions. The Company is unable to determine the impact as these examinations have not been completed. As of December 31, 2024, the Company's tax filings are generally subject to examination in most foreign jurisdictions for years ended on or after December 31, 2019. It is reasonably possible that certain foreign statutes will expire during the next twelve months which would reduce the balance of unrecognized tax benefits by \$0.8 million.

The Company estimates interest and penalties related to income tax matters which are included in income tax expense (benefit). Amounts were (0.7) million, 2.3 million, and (1.9) million for the years ended December 31, 2024, 2023 and 2022. Accrued interest and penalties were 5.8 million and 6.4 million as of December 31, 2024 and 2023.

The Company's cash and cash equivalents held in the U.S. and cash provided from operations are sufficient to meet the Company's liquidity needs in the U.S. for the next twelve months. However, the Company may repatriate certain funds held outside the U.S. for which all applicable U.S. and non-U.S. tax has been fully provided as of December 31, 2024. The Company has provided for the tax impact of expected distributions from its joint venture in China as well as from its subsidiary in Chile to its intermediate parent company in Switzerland. Otherwise, because of the need for cash for operating capital and continued overseas expansion, the Company does not foresee the need for any of its other foreign subsidiaries to distribute funds up to an intermediate foreign parent company in any form of taxable dividend. Under current applicable tax laws, if the Company chooses to repatriate some or all of the funds the Company has designated as indefinitely reinvested outside the U.S., the amount repatriated would not be subject to federal income tax but may be subject to applicable non-U.S. income and withholding taxes, and to certain state income taxes. In addition to certain tax restrictions, the joint venture in China has limitations on its distribution of earnings, as local law currently requires it to maintain \$30.0 million of its earnings in a statutory reserve. On October 18, 2024, the Company repatriated \$400.0 million of foreign earnings to the U.S.

### (11) Employee Benefit Plans

The Company has a 401(k) defined contribution plan covering U.S. employees who are 21 years of age. The Company's contribution is based on a non-discretionary match as defined by the plan which vests immediately. The Company made contributions of \$8.2 million, \$6.5 million, and \$4.2 million to the plan for the years ended December 31, 2024, 2023, and 2022.

The Skechers U.S.A., Inc. Deferred Compensation Plan allows eligible employees to defer compensation, up to a maximum amount, to a future date on a nonqualified basis. The Plan provides for the Company to make discretionary contributions to participating employees as determined by the Company's Compensation Committee. No contributions were made for the years ended December 31, 2024, 2023 and 2022. Deferred compensation liability is recognized based on the fair value of the participants' accounts.

#### (12) Related Party Transactions

The Skechers Foundation (the "Foundation") is a 501(c)(3) non-profit entity and not a subsidiary or otherwise affiliated with the Company. The Company does not have a financial interest in the Foundation. However, two officers and directors of the Company, Michael Greenberg, the Company's President, and David Weinberg, the Company's Chief Operating Officer, are officers and directors of the Foundation. The Company made cash contributions of \$2.0 million to the Foundation in each of the years ended December 31, 2024, 2023 and 2022.

The Company had receivables from officers and employees of \$0.7 million and \$0.6 million at December 31, 2024 and 2023. These amounts relate to travel advances, incidental personal purchases on Company-issued credit cards and employee loans. These receivables are short-term and are expected to be repaid within a reasonable period of time.

## (13) Segment and Geographic Information

The Company has two reportable segments, Wholesale and Direct-to-Consumer. Wholesale includes Skechers-branded stores operated by third-party franchisees and licensees, family shoe stores, specialty athletic and sporting goods retailers, department stores and big box club stores, and distributors in select international markets. Direct-to-Consumer includes Company-owned Skechersbranded stores, Company-owned e-commerce sites and leading third-party marketplaces and digital platforms. The Company's Chief Operating Decision Maker ("CODM") is its Chief Operating Officer, who evaluates segment performance based on sales and gross margin. This information is used by the CODM to analyze the growth of each segment and then makes decisions about how to allocate capital and other resources to each segment. Other costs and expenses of the Company are analyzed on an aggregate basis and not allocated to the segments. The following summarizes the Company's operations by segment and geographic area:

#### Segment Information

0 7		Y	Year	Ended December 31,

### CONCENTRATIONS OF RISK

The Company's sales to its five largest customers accounted for approximately 10.3%, 8.4%, and 9.6% of total sales for the years ended December 31, 2024, 2023 and 2022.

Assets located outside the U.S. consist primarily of cash, accounts receivable, inventory, property, plant and equipment, and other assets. Assets held outside the U.S. were \$5.6 billion and \$5.1 billion at December 31, 2024 and 2023.

The Company performs regular evaluations concerning the ability of customers to satisfy their obligations and provides for estimated credit losses. Domestic accounts receivable generally do not require collateral. Foreign accounts receivable are generally collateralized by letters of credit. The Company's additions to the provision for expected credit losses for the years ended December 31, 2024, 2023 and 2022 were \$5.3 million, \$3.9 million, and \$5.3 million.

The Company's accounts receivables, excluding allowances for credit losses and chargebacks, by geography are summarized as follows:

	As of December 31,			l <b>,</b>
(in thousands)		2024		2023
Domestic accounts receivable	\$	345,488	\$	276,918
International accounts receivable		711,686		641,249

The Company's top five manufacturers produced the following:

	Year Ended December 31,		
(percentage of total production)	2024	2023	2022
Manufacturer #1	20.4	21.4	16.5
Manufacturer #2	6.5	7.5	7.0
Manufacturer #3	6.3	6.7	5.2
Manufacturer #4	5.6	5.6	5.2
Manufacturer #5	3.6	4.5	5.1
Total	42.4	45.7	39.0

#### (14) Business Combinations

Business acquisitions are accounted for under the acquisition method by assigning the purchase consideration to tangible and intangible assets acquired and liabilities assumed. The results of businesses acquired in a business combination are included in the consolidated financial statements from the date of acquisition. Purchased intangible assets with finite lives are amortized over their estimated useful lives. Fair value determinations require judgment and may involve the use of significant estimates and assumptions, including assumptions with respect to future cash inflows and outflows, discount rates, asset lives, and market multiples, among other items.

On May 31, 2023, the Company acquired 100% of the equity interests of Sports Connection Holdings ApS ("Sports Connection"), a Denmark-based company and a former distributor, to further broaden the Company's reach in Europe. The total consideration was approximately \$83.7 million and consisted of an initial cash payment of \$74.8 million, the settlement of pre-existing receivables of \$1.7 million and a contingent consideration payable of up to \$7.5 million, and reduced by a working capital adjustment of \$0.3 million. On the acquisition date, the Company recorded intangible assets of \$54.4 million, goodwill of \$7.7 million and other net assets of \$21.6 million. The intangible assets have an estimated life of 7 years and are primarily related to reacquired rights. The acquisition is a non-taxable business combination and goodwill is not deductible for tax purposes.

The contingent consideration was paid in February 2024 in the amount of \$7.1 million, which was based on the acquiree achieving certain financial results in 2023.

The results of Sports Connection's operations have been included in, but are not material to, the Company's consolidated results of operations since the date of acquisition. One-time acquisition related costs of \$1.6 million were expensed as general and administrative expenses in 2023.

#### Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

#### **Item 9A. Controls and Procedures**

Attached as exhibits to this annual report on Form 10-K are certifications of our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), which are required in accordance with Rule 13a-14 of the Exchange Act. This "Controls and Procedures" section includes information concerning the controls and controls evaluation referred to in the certifications.

## EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within required time periods and that such information is accumulated and communicated to allow timely decisions regarding required disclosures. As of the end of the period covered by this annual report on Form 10-K, we carried out an evaluation under the supervision and with the participation of our management, including our CEO and CFO, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 of the Exchange Act. Based upon that evaluation, our CEO and CFO concluded that our disclosure controls and procedures are effective, at the reasonable assurance level as of such time, and that the previously disclosed material weakness has been remediated.

## MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act. Internal control over financial reporting includes those policies and procedures that:

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
- (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

With the participation of our management, including our CEO and CFO, we conducted an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2024, based on the framework in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation, our management has concluded that our internal control over financial reporting is effective as of December 31, 2024. We reviewed the results of management's assessment with the Audit Committee of our Board.

As previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2023, we identified a material weakness in our internal control over financial reporting related to the information technology general controls related to segregation of duties within an information system relevant to the preparation of the Company's consolidated financial statements. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis.

We have completed the execution of our remediation plan and to address the material weakness, our management designed and implemented internal control measures, which included:

- Rationalizing user access roles and privileges;
- Implementing user activity monitoring; and
- Formalizing additional control activities over the completeness and accuracy of data provided by the affected system.

During the quarter ended December 31, 2024, management performed adequate testing to conclude that the material weakness has been remediated.

Our independent registered public accountants, BDO USA, P.C., who audited the consolidated financial statements included in this annual report on Form 10-K, has issued an attestation report on the effectiveness of our internal control over financial reporting as of December 31, 2024, which is set forth below.

## INHERENT LIMITATIONS ON EFFECTIVENESS OF CONTROLS

Our management does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Assessments of any evaluation of controls' effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures. Because of the inherent limitations in a cost-effective control system, misstatements as a result of error or fraud may occur and not be detected.

### CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

Other than the remediation efforts described above, there were no changes to our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting during the fourth quarter of 2024.

### **Report of Independent Registered Public Accounting Firm**

Shareholders and Board of Directors Skechers U.S.A., Inc. Manhattan Beach, California

#### **Opinion on Internal Control over Financial Reporting**

We have audited Skechers U.S.A., Inc.'s (the "Company's") internal control over financial reporting as of December 31, 2024, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (the "COSO criteria"). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2024, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the consolidated balance sheets of the Company as of December 31, 2024 and 2023, the related consolidated statements of earnings, comprehensive income, stockholders' equity and redeemable noncontrolling interest, and cash flows for each of the three years in the period ended December 31, 2024, and the related notes and financial statement schedule listed in the accompanying index and our report dated February 28, 2025 expressed an unqualified opinion thereon.

#### **Basis for Opinion**

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Item 9A, Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit of internal control over financial reporting in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

### Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

/s/ BDO USA, P.C. Los Angeles, California February 28, 2025

#### Item 9B. Other Information

During the quarter ended December 31, 2024, no director or officer of the Company adopted or terminated a "Rule 10b-1 trading agreement" or "non-Rule 10b-1 trading agreement" as each such term is defined in Item 408 of Regulation S-K.

#### Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections

Not applicable.

#### PART III

#### Item 10. Directors, Executive Officers and Corporate Governance

We have adopted an insider trading compliance policy that governs the purchase, sale, and/or other dispositions of our securities by our directors, officers, certain employees designated by our company, and certain entities and individuals related to these persons, which is reasonably designed to promote compliance with insider trading laws, rules and regulations, and the listing requirements of the NYSE. A copy of our insider trading compliance policy is filed as Exhibit 19.1 to this Annual Report on Form 10-K.

The information required by this Item 10 is hereby incorporated by reference from our definitive proxy statement, to be filed pursuant to Regulation 14A within 120 days after the end of our 2024 fiscal year.

#### Item 11. Executive Compensation

The information required by this Item 11 is hereby incorporated by reference from our definitive proxy statement, to be filed pursuant to Regulation 14A within 120 days after the end of our 2024 fiscal year.

#### Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this Item 12 is hereby incorporated by reference from our definitive proxy statement, to be filed pursuant to Regulation 14A within 120 days after the end of our 2024 fiscal year.

#### Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this Item 13 is hereby incorporated by reference from our definitive proxy statement, to be filed pursuant to Regulation 14A within 120 days after the end of our 2024 fiscal year.

#### Item 14. Principal Accountant Fees and Services

The information required by this Item 14 is hereby incorporated by reference from our definitive proxy statement, to be filed pursuant to Regulation 14A within 120 days after the end of our 2024 fiscal year.
