BUSINESS REVIEW

During 2024, the Group's revenue from continuing operations increased by 91.6% to HK\$101.0 million as compared to that of HK\$52.7 million for 2023. The Group's gross profit from continuing operations increased by 20.0% to HK\$21.3 million in 2024 as compared to that of HK\$17.8 million in 2023 and net loss from continuing operations increased by 100.0% to HK\$80.8 million in 2024 as compared to that of HK\$40.4 million in 2023.

The Group operated four segments during the year: Distribution Segment, Manufacturing Segment, Investment Segment and Financial Leasing Segment in the PRC and Hong Kong.

Distribution Segment

Distribution Segment includes production, wholesale, distribution and trading of daily necessities, medical products, health products and hygiene products in Hong Kong. Its revenue increased by 105.7% to HK88.4 million in 2024 as compared to that of HK\$42.9 million in 2023. Such increase was mainly due to the fact that (i) sales of health and wellness products under our own brand increased; and (ii) sale of traditional Chinese medical products was driven by stabilised supply from the manufacturer. This segment recorded a net loss of HK\$19.3 million in 2024, representing an increase of 288.7% as compared to that of HK\$5.0 million in 2023. The loss increase was mainly due to an impairment loss on goodwill of HK\$15.0 million recognised in 2024. The goodwill impairment loss was primarily driven by a decline in the averaged profit margins projected in the approved five-year financial forecasts for 2024 (2024: 6.6%; 2023: 12.7%). This decline reflects the impact of rising operating costs - such as those associated with the sales of health products - and slower-than-anticipated market growth influenced by shifting consumer preferences, intensified competition, and broader economic factors. These challenges reduced the recoverable amount as determined by the value-in-use assessment, resulting in a deficit when compared to the carrying value of the relevant cash-generating unit (CGU).

Manufacturing Segment

Manufacturing Segment includes manufacturing and sale of food products and nutrient enhancers such as meal replacements partly made of Chlamydomonas Reinhardtii and other nutrient enhancers. A brand-new production line of healthy food products launched in the fourth quarter of 2024. During 2024, it recorded revenue of HK\$6.4 million (2023: HK\$2.9 million) and a net loss of HK\$4.7 million (2023: HK\$4.6 million). The increase in its revenue was mainly due to broaden product diversity and customer base.

業務回顧

於二零二四年,本集團持續經營業務收入為 101,000,000港元,較二零二三年的52,700,000港元 增加91.6%。本集團二零二四年持續經營業務毛利 為21,300,000港元,較二零二三年的17,800,000港元 增加20.0%,而二零二四年持續經營業務淨虧損為 80,800,000港元,較二零二三年的40,400,000港元增 加100.0%。

本集團於本年度在中國及香港經營四個分部:分銷 分部、生產分部、投資分部及融資租賃分部。

分銷分部

分銷分部包括於香港進行生產、批發、分銷及買 賣日用品、醫療保健及衛生產品。二零二四年, 該分部的收入為88,400,000港元,較二零二三年的 42.900.000港元增加105.7%。有關增加主要由於(i) 我們自有品牌旗下的健康及保健產品的銷售額增 加;及(ii)製造商的穩定供應推動傳統中醫藥產品的 銷售。二零二四年,該分部錄得淨虧損19.300.000港 元,較二零二三年的5.000.000港元增加288.7%。虧 損增加主要由於二零二四年確認的商譽減值虧損 15.000.000港元所致。商譽減值虧損主要由於經批 准二零二四年五年財務預測的預計平均利潤率(二 零二四年:6.6%;二零二三年:12.7%)下降所致。 該下降反映了經營成本 (如與銷售保健產品有關的 成本)不斷上漲、受消費者偏好轉變影響市場增長 低於預期、競爭加劇及更廣泛的經濟因素的影響。 利用使用價值評估釐定的可收回金額因該等挑戰 而有所減少,導致較相關現金產生單位的賬面值出 現虧絀。

生產分部

生產分部包括食品產品及營養強化劑生產及銷售, 例如部分由萊茵衣藻及其他營養強化劑製成的代 餐食品。於二零二四年第四季度推出一條健康食品 產品的全新生產線。該分部於二零二四年錄得收入 6,400,000港元(二零二三年:2,900,000港元)及淨虧 損4,700,000港元(二零二三年:4,600,000港元)。該 分部的收入增加主要由於拓寬產品多樣性及客戶 基礎所致。

Investment Segment

Revenue from the Investment Segment decreased by 9.7% to HK\$6.2 million in 2024 as compared to that of HK\$6.8 million in 2023. This segment recorded a net loss of HK\$20.5 million in 2024 as compared to that of HK\$8.5 million in 2023. Such increase in loss of HK\$11.9 million was mainly due to the fair value loss on PRC investment properties of HK\$21.0 million in 2024 (2023: HK\$8.0 million).

Financial Leasing Segment

In 2024, Beijing Ever Grand International Financial Leasing Co. Ltd. ("BJEG") and its subsidiaries ("BJEG Group"), responsible for the Financial Leasing Segment, continued as an associate of the Group for the first seven-month period ended 31 July 2024, following its deconsolidation on 31 July 2023. However, it was subsequently reclassified as equity investments at fair value through other comprehensive income ("FVTOCI") due to Director, who held the board seat in BJEG, was no longer served for and acting for the Group on 1 August 2024. Accordingly, the Financial Leasing Segment only reflected its results for the first seven-month period of 2024, whereas it covered the period from 1 August 2023 to 31 December 2023 in the comparative figures for last year. This segment recorded a net loss of HK\$14.3 million in 2024 as compared to profit of HK\$2.4 million in 2023. The loss from this associate in 2024 was mainly arising from interest costs from finance lease and the fair value loss on financial assets at FVTPL.

After taking into account of the corporate and other expenses and finance costs of HK\$19.9 million in 2024 (2023: HK\$25.8 million), a loss arising from share of results of associates (excluding the associate under Financial Leasing Segment) in 2024 of HK\$2.1 million (2023: profit of HK\$0.5 million), a net loss from certain unallocated other income, gains and losses of HK\$85,000 in 2024 (2023: the net gain of HK\$66,000), income tax expense of HK\$19,000 in 2024 (2023: credit of HK\$0.5 million), the Group recorded a net loss from continuing operations attributable to the owners of the Company of HK\$80.8 million (2023: HK\$40.4 million) and a net loss from continuing and discontinued operations of HK\$80.8 million in 2024 (2023: HK\$37.3 million). The increase in net loss from continuing operations was mainly due to significant increase in fair value loss on investment properties in the PRC, the poor operating performance of associates in 2024 compared with 2023 and the impairment loss on goodwill recognised in 2024 whereas no such impairment in 2023.

投資分部

二零二四年,投資分部收入為6,200,000港元,較二 零二三年的6,800,000港元減少9.7%。二零二四年, 該分部錄得淨虧損20,500,000港元,而二零二三年 則為8,500,000港元。有關虧損增加11,900,000港元乃 主要由於二零二四年中國的投資物業之公平值虧 損21,000,000港元(二零二三年:8,000,000港元)所 致。

融資租賃分部

於二零二四年,負責融資租賃分部的北京恒嘉國際 融資租賃有限公司(「北京恒嘉」)及其附屬公司(「北 京恒嘉集團」)於二零二三年七月三十一日終止綜合 入賬後於截至二零二四年七月三十一日止首七個 月期間仍為本集團聯營公司。然而,其隨後於二零 二四年八月一日因擁有北京恒嘉董事會席位的董 事不再於本集團任職及為本集團行事,所以被重新 分類為按公平值透過其他全面收入列賬(「按公平值 透過其他全面收入列賬」)之股權投資。因此,融資 租賃分部僅反映其於二零二四年首七個月期間的 業績,而上一年度之比較數字覆蓋自二零二三年八 月一日起至二零二三年十二月三十一日止期間。該 分部於二零二四年錄得淨虧損14,300,000港元,而 二零二三年則為溢利2,400,000港元。二零二四年來 自該聯營公司之虧損主要由於融資租賃的利息成 本及按公平值透過損益列賬之金融資產之公平值 虧損所致。

經計及二零二四年企業及其他支出以及財務成本 19,900,000港元(二零二三年:25,800,000港元)、二 零二四年分攤聯營公司(不包括融資租賃分部項 下的聯營公司)業績所得虧損2,100,000港元(二零 二三年:溢利500,000港元)、來自二零二四年若干 未分配其他收入、收益及虧損的淨虧損85,000港元 (二零二三年:淨收益66,000港元)、二零二四年所 得稅開支19,000港元 (二零二三年:抵免500,000港 元),本集團於二零二四年錄得本公司擁有人應佔 持續經營業務淨虧損80,800,000港元(二零二三年: 40,400,000港元)及持續及非持續經營業務淨虧損 80,800,000港元(二零二三年:37,300,000港元)。持 續經營業務淨虧損增加乃主要由於二零二四年中 國的投資物業之公平值虧損大幅增加、聯營公司經 營業績較二零二三年不佳及於二零二四年確認商 譽減值虧損,而於二零二三年並無該等減值所致。

Revenue and gross profit

The Group's revenue from continuing operations increased by 91.6% to HK\$101.0 million in 2024 as compared to that of HK\$52.7 million in 2023. The revenue from the sale of daily necessities, medical products, health products and hygiene products increased by 105.7% to HK\$88.4 million in 2024 as compared to that of HK\$42.9 million in 2023. Such increase was mainly due to the increase in sales of a traditional Chinese medical product and the own brand healthcare products. Sales of food products and nutrient enhancers increased by 119.8% to HK\$6.4 million in 2024 as compared to that of HK\$2.9 million in 2023. The Group's gross profit from continuing operations increased by 20.0% to HK\$21.3 million in 2024 as compared to that of HK\$17.8 million in 2023. The gross profit margin, however, was dropped from 33.7% in 2023 to 21.1% in 2024, because of increase in sale of products with lower gross profit margin.

Basis of Assessment of ECL

ECL assessment on receivables are performed individually based on probability-weighted expected credit losses of multiple possible events ("PWECL") model adopted in accordance with HKFRS 9, which involves 5 key parameters, namely (i) exposure at default ("EAD"); (ii) probability of default ("PD"); (iii) loss given default ("LGD") or 100% minus recovery rate upon default ("Recovery Rate"); (iv) forward-looking factor; and (v) discount factor. The depth of PWECL model depends on the year end status of recoverability of each receivables which are classified into 3 stages from the lowest stage 1 to the highest stage 3 summarised as below and further set out in note 34 to the consolidated financial statements. References are made to the Company's announcement dated 3 September 2021 for capital terms used and further details.

預期信貸虧損之評估基準

根據香港財務報告準則第9號,採用多個可能事件的概率加權預期信貸虧損(「概率加權預期信貸虧損(「概率加權預期信貸虧損」)模型單獨評估應收款的預期信貸虧損,當中涉及五個關鍵參數,即(i)違約敞口(「EAD」);(ii)違約概率(「PD」);(ii)違約損失率(「LGD」)或100%減違約回收率(「回收率」);(iv)前瞻性因素;及(v)貼現係數。概率加權預期信貸虧損模型的深度取決於每項應收款的年末可收回狀況,應收款分類為3個階段,從最低的第1階段至最高的第3階段並概述如下,以及進一步詳情載於綜合財務報表附註34。有關所用資本條款及進一步詳情,請參閱本公司日期為二零二一年九月三日之公告。

Type of stage 階段類型	Year end status of recoverability 年末可收回狀況	Length of assessment 評估時長
Stage 1	The counterparty has a low risk of default and does not have any past-due amounts, or debtor frequently repays after due dates but usually settle after due date	12-month ECL
第1階段	對手方的違約風險低亦無任何逾期款項,或債務人經常於到期日後 償還但通常於到期日後結清	12個月預期信貸虧損
Stage 2	There has been a significant increase in credit risk since initial recognition through information developed internally or external resources	Lifetime ECL – not credit- impaired
第2階段	透過內部資料或外部資源,初步確認以來,信貸風險已顯著增加	在期內預期信貸虧損—非信貸 減值
Stage 3 第3階段	There is evidence indicating the asset is credit-impaired 有證據顯示資產為信貸減值	Lifetime ECL - credit-impaired 年期內預期信貸虧損一已信貸 減值
Note:	附註:	

As at 31 December 2024, the ECL calculation is based on EAD of HK\$9.5 million (2023: HK\$10 million) under stage 2, PD of 1.04%-5% (2023: 1.07%), LGD of 61.5%-61.8% (2023: 19.83%-22.08%), forward-looking factor of 54.1%-55.34% (2023: 63.15%) or Recovery Rate of 0.35%-1.71% (2023: 0.13%-0.15%) and discount factor of 1. PROSPECT

The Group primarily focuses on its operations in the PRC and Hong Kong, making the economic, political, and social aspects of these jurisdictions crucial to its overall performance. As of 2025, Hong Kong's economy faces significant challenges, including weak domestic consumption and a sluggish property market. However, the local stock market has shown signs of recovery, and the unemployment rate remains stable at around 3%. These mixed signals highlight the need for cautious optimism in navigating the local economic landscape.

Similarly, the PRC continues to grapple with weak domestic consumption and a persistently sluggish property market, although exports remain a promising driver of growth. The Sino-US geopolitical tensions and global protectionism pose substantial risks to China's economy. In response, the Chinese government has introduced various supportive measures, such as subsidies for replacing old electronic appliances and loosening fiscal policies, to counteract external threats, stimulate domestic demand and nurturing the high-end technology sector. These present thrilling opportunities amidst the uncertainties and the market turbulence.

The Distribution Segment aims to increase volume by diversifying products, expanding distribution channels, and broadening its customer base across various territories.

資產抵押

於二零二四年十二月三十一日,並無資產抵押(二 零二三年:無)。

或然負債

於二零二四年十二月三十一日,本集團並無重大或 然負債(二零二三年:無)。

資本承擔

於二零二四年十二月三十一日,本集團就收購物 業、廠房及設備作出資本承擔134,000港元(二零 二三年:1,100,000港元)。

前景

本集團主要專注於中國及香港的營運,故該等司法 管轄區的經濟、政治及社會狀況對本集團的整體 表現至關重要。截至二零二五年,香港經濟面臨重 大挑戰,包括當地消費疲軟及房地產市場低迷。然 而,當地股票市場呈現復甦跡象,失業率維持穩定 在3%左右。該等複雜信號表明須以審慎樂觀的態度 展望當地的經濟前景。

同樣,儘管出口仍是可靠的增長動力,中國繼續面 臨國內消費疲軟及房地產市場持續低迷的問題。 中美地緣政治緊張及全球貿易保護主義令中國經 濟面臨重大風險。為此,中國政府出台多種支持措 施,如家電以舊換新補貼以及放寬財政政策,以抵 禦外部威脅,拉動內需並扶持高端科技行業。該等 措施在不確定性及市場波動中帶來振奮人心的機 會。

分銷分部旨在透過多樣化產品、拓展分銷渠道以及 擴大不同地區的客戶群體來提升銷量。 As to the Manufacturing Segment, the Group has successfully established and is now steadily operating a new production line for healthy instant noodles. These noodles incorporate Chlamydomonas Reinhardtii Nutrition Powder as a key ingredient. The powder is rich in essential plant-based protein, dietary fiber, vitamins, omega-3 fatty acid, polycarbohydrate and some indispensable minerals that humans may not absorb enough through diets such as Selenium and iron. It brings significant health values to customers who are concerned about blood sugar, blood pressure, lipid levels, cardiovascular and cerebrovascular health, as well as immunity issues. Moreover, it can aid in addressing common concerns such as bad low bowel, constipation, dry eyes, etc. The segment has been carefully expanding its distribution channels and enhancing market exposure for its proprietary brand of healthy noodles. Additionally, it has been actively working to diversify its range of nutrient enhancers that demonstrate resilience, even in a challenging economic climate. Part of the products will be sold through our own platform in the Distribution Segment.

In the Investment Segment, the Group adheres to a conservative strategy for its portfolio, which includes equity, debt, and real estate. With the robust risk management and control policies, the Group will closely assess its performance and optimise its composition. In light of the current property market in the PRC, the Group may offload some of real estate properties in the PRC in order to replenish the required liquidity of the Group and address the increasing market risk of the properties.

Regarding the Financial Leasing Segment, now reclassified as equity investments at FVTOCI as of 31 December 2024, the Group will continue to actively explore potential solutions to amicably and effectively address the loss of control over BJEG and the litigation against the Group concerning the overdue capital injection. Having initiated multiple litigations against BJEG and its management, who are closely linked to another shareholder, the Group will continue to work closely with its PRC legal counsel to assess and implement legal strategies aimed at safeguarding and asserting shareholders' rights in BJEG.

The Group remains committed to optimizing its business segments to enhance volume and profitability, with a pledge to further reduce costs. We may consider withdrawing from the loss-making projects, offloading certain properties and relocating the resources to the growing and promising segments. The Group will cautiously and diligently explore new potential growth opportunities, undervalued assets and business expansion opportunities in order to diversify the income sources, bring in profits and ultimately attain long and sustainable growth and enhance shareholders' value as a whole. 在生產分部方面,本集團已成功建設且正穩定運營 一條健康方便面的新生產線。該等麵條的主要成分 是萊茵衣藻營養粉。該粉末富含人體必需的植物性 蛋白質、膳食纖維、維生素、歐米伽-3脂肪酸、多碳 水化合物以及硒及鐵等一些人類可能無法通過飲 食充分吸收的必要礦物質。其為關注血糖、血壓、 血脂水平、心腦血管健康以及免疫問題的客戶帶來 了重要的健康價值。此外,其亦能幫助解決腸胃不 好、便秘、眼睛乾澀等常見問題。該分部穩步拓展分 銷渠道並增加健康方便麵自主品牌的市場曝光率。 此外,該分部一直積極致力於豐富營養強化劑的品 類,即使在經濟形勢嚴峻時期,該產品仍展現出極 強的韌性。部分產品將通過我們分銷分部的自有平 台進行銷售。

CORPORATE GOVERNANCE REPORT

The Board and the management of the Group are committed to achieving and maintaining high standards of corporate governance, which they consider to be critical in safeguarding the integrity of the Company's operations and maintaining investors' trust in the Company. It is of utmost importance to conduct business with accountability, transparency and fairness. The Group's interests as well as those of its shareholders will be maximised in the long run by adhering to these principles. The management of the Group also actively observes the latest corporate governance developments in Hong Kong and overseas.

CORPORATE GOVERNANCE PRACTICE

The Company had complied with all the code provisions as set out in the Corporate Governance Code and Corporate Governance Report (the "CG Code") contained in Appendix C1 of the Listing Rules of the Stock Exchange throughout the year ended 31 December 2024, except the following deviations:

Code Provision C.2.1

The roles of the chairman and chief executive should be separate and should not be performed by the same individual. Under the current management structure of the Company, Mr. Wong Lik Ping ("Mr. Wong") is the chairman of the Board (the "Chairman") and chief executive officer of the Company (the "CEO"). Upon the resignation of former CEO, Mr. Lai Ka Fai on 31 July 2023, Mr. Wong took up the function of CEO while the Company has been in the course of nominating suitable candidates for the vacancy of CEO. In addition, under the supervision of the Board which is comprised of four executive Directors, one non-executive Director and three independent nonexecutive Directors, the Board is appropriately structured with balance of power to provide sufficient checks to protect the interests of the Company and its shareholders as a whole. Therefore, the Board considers that the deviation from Code Provision C.2.1 of the CG Code is appropriate in this circumstance and will be addressed in the future.

Code Provision E.1.2

The remuneration committee's terms of reference should include reviewing and making recommendations to the board on the issuer's policy and structure for senior management remuneration and the remuneration packages of senior management. The terms of reference of the remuneration committee of the Company exclude review of and making recommendations to the Board in relation to senior management remuneration, as in the Board's opinion, it was more appropriate for the executive Directors to perform these duties.

企業管治報告

本集團董事會及管理層致力於達致及保持高水平 企業管治,彼等認為這是確保本公司的廉潔營運環 境及維持投資者對本公司信心的關鍵因素。以負 責、透明及公平的態度經營業務極為重要。透過恪 守這些原則,長遠可提升本集團以及股東的利益。 本集團管理層亦積極留意香港與海外的最新企業 管治發展。

企業管治常規

於截至二零二四年十二月三十一日止年度期間,本 公司已一直遵從聯交所上市規則附錄C1所載的《企 業管治守則》及《企業管治報告》(「企業管治守則」) 的所有守則條文,惟下文所概述的若干偏離除外:

守則條文C.2.1

主席與行政總裁的角色應有區分,不應由一人同時擔任。根據本公司當前的管理架構,王力平先生 (「王先生」)為董事會主席(「主席」)兼本公司行政 總裁(「行政總裁」)。前行政總裁黎嘉輝先生於二零 二三年七月三十一日辭任後,王先生兼任行政總裁 之職能,而本公司一直處於為行政總裁之空缺提名 合適候選人之過程中。此外,在董事會(由四名執行 董事、一名非執行董事及三名獨立非執行董事組成) 的監督下,董事會以適當之權力制衡架構提供足夠 之制約以保障本公司及其股東之整體利益。因此, 董事會認為在該情況下偏離企業管治守則之守則 條文C.2.1屬適當,且該情況將於未來獲得解決。

守則條文E.1.2

薪酬委員會的職權範圍應包括檢討發行人關於高 級管理人員薪酬的政策及架構以及高級管理人員 的薪酬待遇,並就此類事項向董事會提供建議。本 公司薪酬委員會職權範圍並不包括就高級管理人 員之薪酬待遇作出檢討及向董事會提供建議,因董 事會認為執行董事更適合執行相關職務。

All Directors are regularly updated on governance and regulatory matters. There is an established procedure for Directors to obtain independent professional advice at the expense of the Company in discharge of their duties.

Mr. Ng Kwok Sang was appointed as an independent non-executive Director on 3 April 2024. Mr. Ng has obtained the legal advice as referred to in Rule 3.09D of the Listing Rules before his appointment became effective, and he has confirmed that he understood his obligations as a Director.

The Board held meetings from time to time whenever necessary. Notice of at least 14 days has been given to all Directors for all regular board meetings and the Directors can include matters for discussion in the agenda if necessary. Agenda and accompanying board papers in respect of regular board meetings are sent out in full to all directors within reasonable time before the meeting. Draft minutes of all board meetings are circulated to Directors for comment within a reasonable time prior to confirmation.

Minutes of board meetings and meetings of Board Committees are kept by duly appointed secretaries of the respective meetings and all Directors have access to board papers and related materials, and are provided with adequate information on a timely manner, which enable the Board to make an informed decision on matters placed before it.

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Under Code Provision C.2.1 of the CG Code, the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. Upon the resignation of former CEO. Mr. Lai Ka Fai on 31 July 2023, Mr. Wong Lik Ping has been the Chairman and CEO. The Company has been in the course of nominating suitable candidates for the vacancy of CEO. The Board believes that the current measure is interim in nature. Therefore, the Board considers that the deviation from provision C.2.1 of the CG Code is appropriate in this circumstance. The Chairman provides leadership to management in respect of operational issues. The CEO has overall chief executive responsibility for the Group's business development and day-to-day management generally. The segregation of duties ensures a clear distinction between the Chairman's responsibility to manage the Board and the CEO's responsibility to manage the Group's business on behalf of the Board in the operational management of the Company. With the support of executive Directors and the company secretary of the Company (the "Company Secretary"), the Chairman seeks to ensure that all Directors are properly briefed on issues arising at Board meetings and receive adequate and reliable information in a timely manner.

董事會及董事委員會會議的會議記錄由各會議經 正式委任的秘書保存,全體董事均有權查閱董事會 的文件及有關資料,並會及時獲得充分資料,使董 事會可就提呈會議的事項作出知情決定。

主席及行政總裁

根據企業管治守則的守則條文C.2.1,主席及行政總 裁的角色應有區分,不應由一人同時擔任。前行政 總裁黎嘉輝先生於二零二三年七月三十一日辭任 後,王力平先生擔任主席兼行政總裁。本公司一直 處於為行政總裁之空缺提名合適候選人之過程中。 董事會認為當前措施屬臨時性質。因此,董事會認 為在該情況下偏離企業管治守則之條文C.2.1條屬 適當。主席就各項營運事宜領導管理層。行政總裁 對本集團的業務發展和日常管理有整體行政責任。 就本公司營運管理而言,此分工確保將主席管理董 事會之責任與行政總裁代表董事會管理本集團業 務之責任清楚區分。在執行董事及本公司的公司秘 書(「公司秘書」)的支持下,主席致力確保所有董事 對董事會會議提出的事項得到適當的簡介,並及時 收到足夠可靠的信息。

Risk Management and Internal Controls

The main features of the risk management and internal control systems of the Group are to provide a clear governance structure, policies and procedures, as well as reporting mechanism to facilitate the Group to manage its risks across business operations. The Group has established a risk management framework, which consists of the Board, the Audit Committee and the functional responsible management of the Group ("Senior Management"). The Board determines the nature and extent of risks that shall be taken in achieving the Group's strategic objectives, and has the overall responsibility for monitoring the design, implementation and the overall effectiveness of risk management and internal control systems. The risk management and internal control systems of the Group are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss. Its improvement is an ongoing process and the Board maintains a continuing commitment to strengthen the Company's control environment and processes. The Board, through the Audit Committee, conducts reviews of the effectiveness of such systems once annually, covering all material controls including financial, operational and compliance controls. The Group has formulated and adopted risk management policy in providing directions in identifying, evaluating and managing significant risks. At least on an annual basis, the Senior Management identifies risks that would adversely affect the achievement of the Group's objectives, and assesses and prioritizes the identified risks according to a set of standard criteria. Risk mitigation plans and risk owners are then established for those risks considered to be significant. In addition, the Group has engaged an internal control consultant to assist the Board and the Audit Committee in ongoing monitoring of risk management and internal control systems of the Group, which fulfil the internal audit functions of the Group. The annual review plan of the Group covers major activities and material controls including operational, financial and compliance of the Group's business units. It also covers the changes, since the last annual review, in the nature and extent of significant risks, and the Group's ability to respond to changes in its business and the external environment.

董事會將呈列平衡、清晰及易明的年度及中期報告 評估、其他股價敏感公告及上市規則規定的其他財 務披露資料,向監督機構的報告以及根據監管規定 須予披露的資料。

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2024, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. 致___

一 中國恒嘉融資租賃集團有限公司全體股東 *於開曼群島註冊成立之有限公司*)

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Investment properties

Refer to Note 16 to the consolidated financial statements

The Group measured its investment properties at fair value with the changes in fair value recognised in the consolidated profit or loss. This fair value measurement is significant to our audit because the balance of investment properties of HK\$110,695,000 as at 31 December 2024 and the fair value loss of HK\$21,030,000 for the year then ended are material to the consolidated financial statements. In addition, the Group's fair value measurement involves application of judgement and is based on assumptions and estimates.

Our audit procedures included, among others:

- Assessing the competence, independence and integrity of the external valuer engaged by Group;
- Obtaining the external valuation reports and meeting with the external valuer to discuss and challenge the valuation process, methodologies used and market evidence to support significant judgments and assumptions applied in the valuation model;
- Checking key assumptions and input data in the valuation model to supporting evidence;
- Checking arithmetical accuracy of the valuation model; and
- Assessing the disclosure of the fair value measurement in the consolidated financial statements.

We consider that the Group's fair value measurement of the investment properties is supported by the available evidence.

關鍵審計事項

關鍵審計事項是根據我們的專業判斷,認為對本期 綜合財務報表的審計最為重要的事項。這些事項是 在我們審計整體綜合財務報表及出具意見時進行 處理的。我們不會對這些事項提供單獨的意見。

投資物業

參閱綜合財務報表附註16

貴集團按公平值計量其投資物業,有關公平值變動 於綜合損益表內確認。是次公平值計量對我們的審 計而言屬重大,因投資物業於二零二四年十二月 三十一日之結餘110,695,000港元及截至該日止年度 公平值虧損21,030,000港元對綜合財務報表而言屬 重大。此外, 貴集團之公平值計量涉及判斷之應 用並根據多項假設及估計而作出。

我們的審計程序包括(其中包括):

- 評估 貴集團委聘之外聘估值師之才能、獨 立性及誠信;
- 獲取外部估值報告並與外聘估值師就估值 程序、所用之方法及支持重大判斷之市場 證據及估值模型應用之假設進行討論及提 出質疑;
- 檢查估值模型之主要假設及輸入數據以支 持證據;
- 檢查估值模型之計算準確性;及
- 評估綜合財務報表內公平值計量之披露。

我們認為已獲取的證據支持 貴集團對投資物業的 公平值計量。

Equity investment at fair value through other comprehensive income

Refer to Note 19 to the consolidated financial statements

The Group measured its equity investment at fair value through other comprehensive income. This fair value measurement is significant to our audit because the balance of equity investment at fair value through other comprehensive income of HK\$54,497,000 as at 31 December 2024 and the fair value loss of HK\$21,788,000 for the year then ended are material to the consolidated financial statements. In addition, the Group's fair value measurement involves application of judgement and is based on assumptions and estimates.

Our audit procedures included, among others:

- Assessing the competence, independence and integrity of the external valuer engaged by Group;
- Obtaining the external valuation reports and meeting with the external valuer to discuss and challenge the valuation process, methodologies used and market evidence to support significant judgments and assumptions applied in the valuation model;
- Checking key assumptions and input data in the valuation model to supporting evidence;
- Checking arithmetical accuracy of the valuation model; and
- Assessing the disclosure of the fair value measurement in the consolidated financial statements.

We consider that the Group's fair value measurement of the equity investment at fair value through other comprehensive income is supported by the available evidence.

按公平值透過其他全面收入列賬之股權投資

參閱綜合財務報表附註19

貴集團計量其按公平值透過其他全面收入列賬之 股權投資。是次公平值計量對我們的審計而言屬重 大,因按公平值透過其他全面收入列賬之股權投資 於二零二四年十二月三十一日之結餘54,497,000港 元及截至該日止年度之公平值虧損21,788,000港元 對綜合財務報表而言屬重大。此外, 貴集團之公 平值計量涉及判斷之應用並根據多項假設及估計 而作出。

我們的審計程序包括(其中包括):

評估 貴集團委聘之外聘估值師之才能、獨 立性及誠信;

獲取外部估值報告並與外聘估值師就估值 程序、所用之方法及支持重大判斷之市場 證據及估值模型應用之假設進行討論及提 出質疑;

- 檢查估值模型之主要假設及輸入數據以支 持證據;
- 檢查估值模型之計算準確性;及
- 評估綜合財務報表內公平值計量之披露。

我們認為已獲取的證據支持 貴集團對按公平值透 過其他全面收入列賬之股權投資的公平值計量。

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance and applicable disclosure requirements of the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules").

These consolidated financial statements have been prepared under the historical cost convention, except for certain financial instruments and investment properties which have been measured at fair value.

With reference to the Company's announcement date 8 February 2024, the Group no longer had control over the group of companies comprised of Beijing Ever Grand International Financial Leasing Co. Limited ("BJEG") and its subsidiaries ("BJEG Group") on 31 July 2023. As a result, the financial results of BJEG Group for the period from 1 January to 31 July 2023 were deconsolidated from the consolidated financial statements for the year ended 31 December 2023 (the "Deconsolidation") and have been accounted for as associates of the Company thereafter.

BJEG Group is engaged in the financial leasing segment of the Group. In accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*, the operating results of BJEG Group for the period from 1 January to 31 July 2023 (the "Date of the Deconsolidation") and its results, through investment in associates, for the remaining five months were presented under discontinued operation and continuing operations in the consolidated statement of profit or loss for the year ended 31 December 2023 respectively.

On 1 August 2024, the Director, who held the board seat in BJEG, was no longer served for and acting for the Group (the "Event"). The Group lost its seat on the board of directors of BJEG, resulting in the loss of its ability to exercise significant influence over BJEG in accordance with HKAS 28, and thus BJEG ceased to be an associate of the Group. The Group has therefore discontinued the use of the equity method under HKAS 28 accounting for its investment in BJEG. Henceforth, the Group's investment in BJEG has been accounted for as equity investments at FVTOCI since 1 August 2024.

綜合財務報表之編製基準及重 大會計政策

綜合財務報表乃按香港會計師公會頒佈的 香港財務報告準則、香港公認之會計原則 及香港公司條例之披露規定以及聯交所證 券上市規則(「上市規則」)的適用披露規定 編製。

除已按公平值計量之若干金融工具及投資 物業外,該等綜合財務報表乃按歷史成本 慣例編製。

茲提述本公司日期為二零二四年二月八日 之公告,本集團於二零二三年七月三十一 日不再擁有由北京恒嘉國際融資租賃有限 公司(「北京恒嘉」)及其附屬公司(「北京恒嘉 集團」)組成的集團公司的控制權。因此,北 京恒嘉集團自二零二三年一月一日起至七 月三十一日止期間之財務業績將不再於截 至二零二三年十二月三十一日止年度之綜 合財務報表內綜合入賬(「終止綜合入賬」), 之後已作為本公司聯營公司入賬。

北京恒嘉集團從事本集團融資租賃分部業務。根據香港財務報告準則第5號持作出 售的非流動資產及非持續經營業務,北京 恒嘉集團自二零二三年一月一日起至七月 三十一日(「終止綜合入賬日期」)止期間之 經營業績及其餘下五個月的業績(通過投資 聯營公司)於截至二零二三年十二月三十一 日止年度之綜合損益表中分別呈列於非持 續經營業務及持續經營業務項下。

於二零二四年八月一日,擁有北京恒嘉董 事會席位的董事不再於本集團任職並為本 集團行事(「該事件」)。根據香港會計準則第 28號,本集團喪失北京恒嘉董事會席位導 致失去其對北京恒嘉行使重大影響力之能 力,因此北京恒嘉不再為本集團聯營公司。 因此,本集團已停止使用香港會計準則第 28號項下的權益法入賬其於北京恒嘉的投 資。而從此以後本集團於北京恒嘉的投資 自二零二四年八月一日起入賬列為按公平 值透過其他全面收入列賬之股權投資。

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES (Continued)

The preparation of consolidated financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The preparation of these consolidated financial statements in conformity with HKFRSs requires the use of key assumptions and estimates. It also requires the Directors to exercise their judgements in the process of applying the accounting policies. The areas involving critical judgements and areas where assumptions and estimates are significant to these consolidated financial statements are disclosed in note 4.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES (Continued)

The material accounting policies applied in the preparation of these consolidated financial statements are set out below.

Material accounting policies

Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties, to determine whether it has control. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill relating to that subsidiary and any related accumulated exchange fluctuation reserve.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

綜合財務報表之編製基準及重 大會計政策 (續)

編製該等綜合財務報表時應用之主要會計 政策載列如下。

重大會計政策

綜合

綜合財務報表包括本公司及其附屬公司截 至十二月三十一日止之財務報表。附屬公 司乃本集團對其擁有控制權之實體。當本 集團通過參與實體業務而享有或有權享有 浮動回報,並有能力通過對實體之權力而 影響該等回報時,即對該實體具有控制權。 當本集團擁有令其目前能夠指揮相關活動 (即對實體回報造成重大影響之活動)之現 有權利時,本集團即對實體擁有權力。

在評估控制權時,本集團會考慮其潛在投 票權以及由其他各方持有之潛在投票權, 以確定其是否受控制。僅於持有人有實際 能力行使潛在投票權時方會考慮該等權 利。

附屬公司自控制權轉入本集團的日期起綜 合計算。彼等於控制權終止的日期起不再 綜合入賬。

出售附屬公司(導致失去控制權之情況下) 之損益乃指(i)出售代價公平值連同於該附 屬公司之任何保留投資之公平值與(ii)本公 司分佔該附屬公司資產淨值連同有關該附 屬公司之任何餘下商譽及任何相關累計匯 兌浮動儲備兩者間之差額。

集團內公司間之交易、結餘及未變現溢利 均予以對銷。除非有關交易提供證據證明 已轉讓資產出現減值,否則未變現虧損亦 予以對銷。附屬公司之會計政策已在需要 時作修改,確保其與本集團採納之政策一 致。

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES (Continued)

Material accounting policies (Continued)

Consolidation (Continued)

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. Non-controlling interests are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. Non-controlling interests are presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the non-controlling interests having a deficit balance.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions (i.e. transactions with owners in their capacity as owners). The carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

Business combination and goodwill

The acquisition method is used to account for the acquisition of a subsidiary in a business combination. The cost of acquisition is measured at the acquisition-date fair value of the assets given, equity instruments issued, liabilities incurred and contingent consideration. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received. Identifiable assets and liabilities of the subsidiary in the acquisition are measured at their acquisition-date fair values.

Material accounting policies (Continued)

Business combination and goodwill (Continued)

The excess of the cost of acquisition over the Company's share of the net fair value of the subsidiary's identifiable assets and liabilities is recorded as goodwill. Any excess of the Company's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognised in consolidated profit or loss as a gain on bargain purchase which is attributed to the Company.

In a business combination achieved in stages, the previously held equity interest in the subsidiary is remeasured at its acquisition-date fair value and the resulting gain or loss is recognised in consolidated profit or loss. The fair value is added to the cost of acquisition to calculate the goodwill.

If the changes in the value of the previously held equity interest in the subsidiary were recognised in other comprehensive income (for example, equity investments at fair value through other comprehensive income), the amount that was recognised in other comprehensive income is recognised on the same basis as would be required if the previously held equity interest were disposed of.

Goodwill is tested annually for impairment or more frequently if events or changes in circumstances indicate that it might be impaired. Goodwill is measured at cost less accumulated impairment losses. The method of measuring impairment losses of goodwill is the same as that of other assets as stated in the accounting policy below. Impairment losses of goodwill are recognised in consolidated profit or loss and are not subsequently reversed. Goodwill is allocated to cashgenerating units that are expected to benefit from the synergies of the acquisition for the purpose of impairment testing.

The non-controlling interests in the subsidiary are initially measured at the non-controlling shareholders' proportionate share of the net fair value of the subsidiary's identifiable assets and liabilities at the acquisition date.

對於分階段進行之業務合併而言,先前已 持有之附屬公司之股權乃按收購日期之公 平值重新計量,而由此產生之盈虧於綜合 損益內確認。公平值被加入至收購成本以 計算商譽。

Investments in associates

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor a joint arrangement. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

Associates are accounted for using the equity method whereby they are initially recognised at cost and thereafter, their carrying amount are adjusted for the Group's share of the post-acquisition change in the associates' net assets except that losses in excess of the Group's interest in the associate are not recognised unless there is an obligation to make good those losses. Any premium paid for an associate above the fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities acquired is capitalised and included in the carrying amount of the associate. Where there is objective evidence that the investment in an associate has been impaired, the carrying amount of the investment is tested for impairment in the same way as other non-financial assets.

Profits and losses arising on transactions between the Group and its associates are recognised only to the extent of unrelated investors' interests in the associate. The investor's share in the associate's profits and losses resulting from these transactions is eliminated against the carrying value of the associate. Where unrealised losses provide evidence of impairment of the asset transferred, they are recognised immediately in profit or loss.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate. When the Group retains an interest in the former associate and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with HKFRS 9.

The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing a part interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, all amounts previously recognised in other comprehensive income in relation to that associate are recognised on the same basis as would be required if that associate had directly disposed of the related assets or liabilities.

Revenue from contracts with customers (Continued)

Depending on the terms of the contract and the laws that apply to the contract, control of the goods or service may be transferred over time or at a point in time. Control of the goods or service is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the goods or services transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the goods or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, that is only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

Existence of significant financing component

存在重大融資成分

When the contract contains a financing component which provides the customer a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amounts receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. For contracts where the period between the payment and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's entities are translated into the presentation currency of the Group (i.e. HK\$) at the rate of exchange prevailing at the end of the reporting period, and their income and expenses are translated at the average exchange rates for the year. Exchange differences arising, if any are recognised in other comprehensive income and accumulated in equity under the heading of the translation reserve (attributed to non-controlling interests as appropriate).

Short-term and other long-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax, as reported in the consolidated statement of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary differences arise from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary differences arise from the initial recognised if the temporary differences as the affects neither the taxable profit nor the accounting profit. Taxation (Continued)

Deferred tax (Continued)

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 *Income Taxes* requirements to the leasing transaction as a whole. Temporary differences relating to right-of-use assets and lease liabilities are assessed on a net basis. Excess of depreciation on right-of-use assets over the lease payments for the principal portion of lease liabilities resulting in net deductible temporary differences.

Deferred tax (Continued)

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model of the Group whose business objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. If the presumption is rebutted, deferred tax for such investment properties are measured based on the expected manner as to how the properties will be recovered.

Current and Deferred taxation for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Leases

The Group as lessee

Leases are recognised as right-of-use assets and corresponding lease liabilities when the leased assets are available for use by the Group. Right-of-use assets are stated at cost less accumulated depreciation and impairment losses. Depreciation of right-of-use assets is calculated at rates to write off their cost over the shorter of the asset's useful life and the lease term on a straight-line basis.

Right-of-use assets are measured at cost comprising the amount of the initial measurement of the lease liabilities, lease payments prepaid, initial direct costs and the restoration costs. Lease liabilities include the net present value of the lease payments discounted using the interest rate implicit in the lease if that rate can be determined, or otherwise the Group's incremental borrowing rate.

Property, plant and equipment

Property, plant and equipment including buildings and leasehold land held for use in the production or supply of goods or services, or for administrative purposes are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Property, plant and equipment are depreciated on their costs less their residual values on a straight-line basis over their estimated useful lives as follows:

Right-of-use assets	3 to 50 years
Leasehold improvements,	3 to 5 years or over lease term,
furniture and fixtures	whichever is shorter
Plant, machinery and	5 to 10 years
equipment	
Motor vehicles	3 to 8 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment property

Investment property is property held either to earn rentals or for capital appreciation or for both, but not held for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Investment property is measured at cost on initial recognition and subsequently at fair value with any change therein recognised in profit or loss.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and carrying amount of the asset) is included in the profit or loss in the period in which the item is derecognition.

Impairment losses on assets (other than financial assets and goodwill)

At the end of the reporting period, the Group reviews the carrying amounts of the following to determine whether there is any indication that those assets have suffered an impairment loss or an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment;
- right-of-use assets; and
- investments in subsidiaries and associates.

When it is not possible to estimate the recoverable amount of an asset individually, the Group estimates the recoverable amount of the cashgenerating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Impairment losses on assets (other than financial assets and goodwill) (Continued)

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the first-in, first-out method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cash and cash equivalents comprise cash at banks and on hand, deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and subject to an insignificant risk of change in value, having been within three months of maturity at acquisition.

Financial assets

Financial assets are recognised and derecognised on a trade date basis where the purchase or sale of an asset is under a contract whose terms require delivery of the asset within the timeframe established by the market concerned, and are initially recognised at fair value, plus directly attributable transaction costs except in the case of investments at fair value through profit or loss. Transaction costs directly attributable to the acquisition of investments at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets of the Group are classified under the following categories:

- Financial assets at amortised cost;
- Equity investments at fair value through other comprehensive income; and
- Investments at fair value through profit or loss.
- (i) Financial assets at amortised cost

Financial assets (including trade and other receivables) are classified under this category if they satisfy both of the following conditions:

- the assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

They are subsequently measured at amortised cost using the effective interest method less loss allowance for expected credit losses.

Significant increase in credit risk

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information. Credit risk means the risk of loss in respect of a financial instrument when the counterparty to the financial instrument cannot execute its obligations.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

Definition of default

The Group considers an event of default occurs when information obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default that is the magnitude of the loss if there is a default, and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forwardlooking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience, adjusted for forward looking information that is available without undue cost or effort.

The amount of expected credit losses or reversal to adjust the loss allowance at the end of the reporting period to the required amount is recognised in profit or loss as an impairment gain or loss.

Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid is recognised in profit or loss.

Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under HKFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Financial liabilities at amortised cost including borrowings, trade payables and other payables are subsequently measured at amortised cost, using the effective interest rate method. The related interest expense is recognised in profit or loss.

Interest expense is recognised on an effective interest basis.

Derivatives (including contingent considerations under business combinations) are initially recognised and subsequently measured at fair value with any gains or losses arising from changes in fair values recognised in profit or loss.

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or nonoccurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

A contingent asset is a possible asset that arises from past events and whose existence will only be confirmed by the occurrence or nonoccurrence of one or more uncertain future events not wholly within the control of the Group. A contingent asset is not recognised but is disclosed in the notes to the consolidated financial statements, where necessary, when an inflow of economic benefits is probable. When inflow is virtually certain, an asset is recognised.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY 4. SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the Directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Significant influence over associates

Note 18 describes that Simagi Finance Company Limited ("Simagi"), in which the Group has 6.82% (2023: 6.82%) ownership interest and voting rights, is an associate of the Group as the Group has the right to appoint at least one director in the board of directors of Simagi. As at 31 December 2024 and 2023, the Group considered it had the power to exercise significant influence over Simagi by virtue of its contractual right appointed one out of two directors in the board of directors of Simagi.

Note 18 describes that BJEG, in which the Group has 51.39% ownership interest, is an associate of the Group. As at 31 December 2023, the Group considered it had the power to exercise significant influence over BJEG as one of the executive Directors remained in the board of directors of BJEG.

As at 31 December 2024, there was no director nominated and represented by the Group in the board of directors of BJEG due to the Event. Given the disagreement of another shareholder of BJEG, the Group is not able to appoint any new director or replace any existing director in the board of directors of BJEG. Accordingly, the Group considered that there was no significant influence over BJEG and BJEG ceased to be an associate of the Group as at 1 August 2024.

應用會計政策的重大判斷

以下為董事於應用本集團會計政策過程中 所作出而對於綜合財務報表確認的金額具 有最重大影響的重要判斷(涉及估計者除外 (見下文))。

對聯營公司有重大影響力

附註18詳述Simagi Finance Company Limited (「Simagi」,本集團於當中擁有6.82% (二零 二三年:6.82%)所有權權益及投票權)為 本集團的聯營公司,因為本集團有權委任 Simagi董事會至少一名董事。於二零二四年 及二零二三年十二月三十一日,本集團認 為憑藉其在Simagi董事會中任命兩名董事中 一名董事的合約權力,其有權對Simagi行使 重大影響力。

附註18詳述本集團擁有51.39%股權的北京 恒嘉為本集團的聯營公司。於二零二三年 十二月三十一日,本集團認為,由於北京恒 嘉董事會仍有一名執行董事,故其有權對 北京恒嘉行使重大影響力。

於二零二四年十二月三十一日,由於該事 件,北京恒嘉董事會中概無獲本集團提名 及代表的董事。鑑於北京恒嘉另一名股東 的意見分歧,本集團無法委任北京恒嘉董 事會的任何新董事或更換北京恒嘉董事會 的任何現有董事。因此,於二零二四年八月 一日,本集團認為對北京恒嘉並無重大影 響力,且北京恒嘉不再為本集團的聯營公 司。

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Impairment loss on goodwill

The value in use is determined based on the cash flow projection for the cash generating units ("CGUs"), discounted to their present values and requires the use of key assumptions, including the discount rate, terminal growth rate, budgeted sales and profit margin, taking into account the financial budget approved by the Directors based on the management's experience from the distribution business and also management's expectations for the market development. As at 31 December 2024, the carrying amount of goodwill was approximately HK\$10,543,000 (2023: HK\$25,556,000) and impairment loss on goodwill of approximately HK\$15,013,000 (2023: Nil) has been recognised to consolidated statement of profit or loss. Details of the recoverable amount calculation are disclosed in note 17.

Provision of ECL

The measurement of impairment losses under HKFRS 9 across all categories of financial assets requires significant judgment and estimation, in particular, the assessment of a significant increase in credit risk and credit-impaired financial assets as well as the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses. These estimates are driven by a number of factors, changes in which can result in different levels of allowances. At each reporting date, the Group assesses whether there has been a significant increase in credit risk for exposures since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Group considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and also forward-looking analysis. Details of the key assumptions and inputs used are set out in note 34.

Key sources of estimation uncertainty (Continued)

Fair value of equity investments at FVTOCI

The fair value of equity investments at FVTOCI that are not traded in an active market is determined by using valuation techniques. The Group uses its judgement to select a variety of methods (such as market approach and asset-based approach) and makes assumptions that are mainly based on market conditions existing at each statement of financial position date. The key assumptions adopted on valuation techniques and key inputs are based on management's best estimates with assistance of the independent professional valuer.

Fair values of investment properties

The Group appointed an independent professional valuer to assess the fair values of the investment properties. In determining the fair values, the valuer has utilised a method of valuation which involves certain estimates. The Directors have exercised their judgement and are satisfied that the method of valuation is reflective of the current market conditions.

17. 商譽

		2024 二零二四年 HK\$'000 千港元	2023 二零二三年 HK\$'000 千港元
Carrying amount Balance at beginning of the year Impairment loss recognised during the year	賬面值 年初之結餘 年內確認減值虧損	25,556 (15,013)	25,556
Balance at end of the year	年末之結餘	10,543	25,556

For the purpose of impairment testing, the carrying amounts of goodwill allocated to a subsidiary, Tripler Holdings Ltd., in the Distribution Segment (the "Distribution CGU"). The recoverable amount of CGU is determined based on a value-in-use calculation with the assistance of the independent professional qualified valuer not connected with the Group. The calculation uses cash flow projections based on financial budgets approved by the management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated terminal growth rates stated below.

就減值測試而言, 商譽的賬面值分配至 分銷分部的附屬公司森川實業有限公司 (「分銷現金產生單位」)。現金產生單位 的可收回金額乃在與本集團無關的獨立 專業合資格估值師協助下根據使用價值 計算釐定。有關計算使用基於管理層所批 准涵蓋五年期間的財務預算的現金流量 預測作出。超過五年期間的現金流量乃使 用下文所述的估計終端增長率推斷。

The major underlying assumptions on the value-in-use calculation are EBIT margin, discount rates and growth rates.

根據使用價值計算的主要相關假為EBIT利 潤率、貼現率及增長率。

		2024 二零二四年	2023 二零二三年
EBIT margin (average of next five years)	EBIT利潤率(未來五年平均數)	6.6%	12.7%
Discount rate	貼現率	13.5%	13.3%
Growth rate	增長率	2.5%	2.5%

Management determined the EBIT margin based on past performance, expectations regarding market development, and the business model the entity undertakes. The growth rates do not exceed the long-term average growth rate for the business in the markets in which each of the CGUs currently operates. The discount rates reflect specific risks relating to the CGU.

The recoverable amount of the Distribution CGU based on the valuein-use calculation was lower than its carrying amount at 31 December 2024. Accordingly, an impairment loss on goodwill of approximately HK\$15,013,000 (2023: Nill) was recognised in profit or loss during the year ended 31 December 2024. 管理層根據過往表現、市場發展的預期以 及相關實體採用的業務模式釐定EBIT利潤 率。增長率不會超越各現金產生單位當前 營運所在市場的業務長期平均增長率。所 使用的折現率反映與現金產生單位有關的 特有風險。

根據使用價值計算的分銷現金產生單位 的可收回金額低於其於二零二四年十二 月三十一日的賬面值。因此,截至二零 二四年十二月三十一日的商譽減值虧損約 15,013,000港元(二零二三年:無)於損益中 確認。 For the year ended 31 December 2024 截至二零二四年十二月三十一日止年度

Notes:

- (a) Pursuant to the subscription agreement entered into between the Group's subsidiary and Simagi, the Group was entitled to have contractual right to appoint director on the board and involved in participation in the financial and operating policies decisions of Simagi. Accordingly the Directors considered that the Group could exercise significant influence over Simagi and this investment has been accounted for as associates.
- (b) With reference to the Company's announcement dated 8 February 2024, the Group is unable to have dominating control over BJEG's board of directors or control over BJEG from 31 July 2023 onward. Since under BJEG's articles no provisions on the shareholders' meeting of BJEG is available, the Group would not be able to exercise control over BJEG with its voting rights as a majority shareholder of BJEG or have control over the management of BJEG even it is interested in over 50% of the equity interest of BJEG. The Directors considered that the Group could exercise significant influence over BJEG's board of directors through one existing board seat and this investment has been accounted for as associates from 31 July 2023.

During the year, the Director, who held the abovementioned board seat, was no longer served for and acting for the Group. The Group lost its seat on the board of directors of BJEG, resulting in the loss of its ability to exercise significant influence over BJEG in accordance with HKAS 28, and thus BJEG ceased to be an associate of the Group. The Group has therefore discontinued the use of the equity method under HKAS 28 accounting for its investment in BJEG. Henceforth, the Group's investment in BJEG has been accounted for as equity investments at FVTOCI since 1 August 2024.

As at 31 December 2024 and 2023, the unpaid registered capital of BJEG was US\$42,000,000, to which the Group shall contribute US\$22,610,000 according to the proportion of its shareholding.

18. 於聯營公司之權益 (續)

附註:

(a) 根據本集團附屬公司與Simagi訂立的認購 協議,本集團享有合約權利,可委任董事加 入Simagi的董事會,並參與其財務及經營決 策。因此,董事認為,本集團可對Simagi行使 重大影響力,且該投資已入賬列為聯營公 司。

(b) 根據本公司日期為二零二四年二月八日的公告,本集團自二零二三年七月三十一日起無法對北京恒嘉董事會擁有支配性控制權或控制北京恒嘉。由於北京恒嘉章程細則並無有關北京恒嘉股東大會的條文,即使本集團擁有北京恒嘉超過50%的股權,本集團亦無法以北京恒嘉大股東身份,透過表決權對北京恒嘉行使控制權,或無法控制北京恒嘉的管理。董事認為,本集團可通過一個現有董事會席位對北京恒嘉董事會行使重大影響力,且該投資自二零二三年七月三十一日起作為聯營公司入賬。

於本年度,擁有上述董事會席位的董事不 再於本集團任職並為本集團行事。根據香 港會計準則第28號,本集團喪失北京恒嘉 董事會席位導致失去其對北京恒嘉行使重 大影響力之能力,因此北京恒嘉不再為本 集團聯營公司。因此,本集團已停止根據香 港會計準則第28號將其於北京恒嘉的投資 以權益會計法入賬。自此以後,本集團於北 京恒嘉的投資自二零二四年八月一日起入 賬列為按公平值透過其他全面收入列賬之 股權投資。

於二零二四年及二零二三年十二月三十一 日,北京恒嘉之未繳註冊資本為42,000,000 美元,其中本集團根據股權比例應出資 22,610,000美元。

The management manages this exposure by maintaining a portfolio of investments with different risks. The Group's price risk is mainly concentrated on equity instruments listed in The Stock Exchange of Hong Kong Limited and equity investments. Credit risk and impairment assessment

The Group's credit risk is primarily attributable to trade receivables, loan receivables, other receivables and deposits, deposits placed with non-bank financial institutions, and cash and cash equivalents.

The Group's maximum exposure to credit risk in the event of the counterparties failure to perform their obligations as at 31 December 2024 and 2023 in relation to each class of recognised financial assets is the carrying amount of those assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that followup action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts.

信貸風險及減值評估

本集團信貸風險主要因貿易應收款、應收 貸款、其他應收款及按金、存放於非銀行金 融機構的存款以及現金及現金等值物而引 致。

Bank balances and deposited with non-bank financial institutions

The Group's bank balances and deposits are deposited with banks and non-bank financial institutions in Hong Kong and the PRC and the Group has limited the exposure to any single financial institution. The credit risk on liquid funds is limited because the counterparties are banks and non-bank financial institution with good credit-rating.

Concentration of credit risk

Among these receivables, the Directors specifically identify considerable credit risk primarily arising from trade receivables and loan receivables. The concentration risk associated with these assets is further analysed in the following paragraph.

As at 31 December 2024, the Group had certain concentration of credit risk as 0.2% (2023: 34%) and 43% (2023: 47%) of the aggregate carrying amount of trade receivables from the Group's largest and the five largest customers respectively, while that as 53% (2023: 50%) and 100% (2023: 100%) of the aggregate carrying amount of loan receivables from the Group's largest and top five borrowers.

The management exercises due care in granting credit and checking the background of these counterparties on a regular basis and closely monitors the subsequent settlement of the customers. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

Measurement of ECL

The Group measures loss allowance for trade receivables based on lifetime ECLs. For other financial assets, the Group assessed the loss allowance for receivables that are not credit-impaired collectively based on 12 months ECL and lifetime ECL, and assessed receivables that are credit-impaired individually based on lifetime ECL.

銀行結餘及存款存放於非銀行金融機構

本集團的銀行結餘及存款存放於香港及中 國的銀行及非銀行金融機構及本集團承受 任何單一金融機構的風險有限。流動資金 的信貸風險有限,乃由於對手方為具有良 好信貸評級的銀行及非銀行金融機構。

信貸集中風險

於該等應收款中,董事特別識別主要產生 自貿易應收款及應收貸款的龐大信貸風 險。有關該等資產的集中風險於下文段落 進一步分析。

於二零二四年十二月三十一日,由於貿易 應收款總賬面值之0.2%(二零二三年:34%) 及43%(二零二三年:47%)分別來自本集 團最大及五大客戶,本集團因此承受若干 信貸集中風險,而應收貸款總賬面值之53% (二零二三年:50%)及100%(二零二三年: 100%)來自本集團最大及前五名借款人。

管理層審慎授出信貸,定期核查此等對手 方的背景,並密切監控客戶的後續結算。有 鑑於此,本公司董事認為本集團之信貸風 險已顯著地減低。

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of borrowings and ensures compliance with loan covenants.

The management considers that liquidity risk is limited after considering the future cash flows of the Group in the foreseeable future, including the repayment schedule of bank borrowing as discussed above, lease payments and the short-term liabilities which are required to be repaid within three months from the end of the reporting period. The maturity profile of financial liabilities as at the end of the reporting period, based on undiscounted payments, is as follows:

Fair value measurements of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2 inputs: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs: unobservable inputs for the asset or liability.

The Group's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.

Fair values of financial assets that are measured at fair value on a recurring basis

Some of the Group's financial assets are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets are determined (in particular, the valuation technique(s) and inputs used).
