

NXP Investor Presentation

Second Quarter 2025

July 2025

Forward Looking Statements

This document includes forward-looking statements which include statements regarding NXP's business strategy, financial condition, results of operations, market data, as well as any other statements which are not historical facts. By their nature, forward-looking statements are subject to numerous factors, risks and uncertainties that could cause actual outcomes and results to be materially different from those projected. These factors, risks and uncertainties include the following: market demand and semiconductor industry conditions; our ability to successfully introduce new technologies and products; the demand for the goods into which NXP's products are incorporated; global trade disputes, potential increase of barriers to international trade, including the imposition of new or increased tariffs, and resulting disruptions to our established supply chains; the impact of government actions and regulations, including as a result of executive orders, including restrictions on the export of products and technology; the impact of government actions and regulations, including as a result of executive orders, including restrictions on the export of products and technology; increasing and evolving cybersecurity threats and privacy risks; our ability to accurately estimate demand and match our production capacity accordingly or obtain supplies from third-party producers; our access to production capacity from third-party outsourcing partners, and any events that might affect their business or our relationship with them; our access to production from third-party outsourcing partners, and any events that might affect their business or our relationship with them; our ability to secure adequate and timely supply of equipment and materials from suppliers; our ability to avoid operational problems and product defects and, if such issues were to arise, to correct them quickly; our ability to form strategic partnerships and joint ventures and to successfully cooperate with our alliance partners; our ability to win competitive bid selection processes; our ability to develop products for use in customers' equipment and products; the ability to successfully hire and retain key management and senior product engineers; global hostilities, including the invasion of Ukraine by Russia and resulting regional instability, sanctions and any other retaliatory measures taken against Russia and the continued hostilities and the armed conflict in the Middle East, which could adversely impact the global supply chain, disrupt our operations or negatively impact the demand for our products in our primary end markets; our ability to maintain good relationships with NXP's suppliers; our ability to integrate acquired businesses in an efficient and effective manner; and a change in tax laws could have an effect on our estimated effective tax rate. In addition, this document contains information concerning the semiconductor industry, our end markets and business generally, which is forward-looking in nature and is based on a variety of assumptions regarding the ways in which the semiconductor industry, our end markets and business will develop. NXP has based these assumptions on information currently available, if any one or more of these assumptions turn out to be incorrect, actual results may differ from those predicted. While NXP does not know what impact any such differences may have on its business, if there are such differences, its future results of operations and its financial condition could be materially adversely affected. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak to results only as of the date the statements were made. Except for any ongoing obligation to disclose material information as required by the United States federal securities laws, NXP does not have any intention or obligation to publicly update or revise any forward-looking statements after we distribute this document, whether to reflect any future events or circumstances or otherwise. For a discussion of potential risks and uncertainties, please refer to the risk factors listed in our SEC filings. Copies of our SEC filings are available on our Investor Relations website, www.nxp.com/investor or from the SEC website, www.sec.gov.

No offer of solicitation

The Presentation does not constitute or form part of, and should not be construed as, an offer to sell or issue, or the solicitation of an offer to purchase, subscribe to or acquire, securities of NXP, or an inducement to enter into investment activity in the United States or in any other jurisdiction in which such offer, solicitation, inducement or sale would be unlawful prior to registration, exemption from registration or qualification under the securities laws of such jurisdiction. No part of this Presentation, nor the fact of its distribution, should form the basis of, or be relied on in connection with, any contract or commitment or investment decision whatsoever.

The Presentation is not for publication, release or distribution in any jurisdiction where such publication, release or distribution would constitute a violation of the relevant laws of such jurisdiction, nor should it be taken or transmitted into such jurisdiction.

Use of Non-GAAP Financial Measures

In this presentation, we have included certain non-GAAP financial information, including (i) Gross profit, (ii) Gross margin, (iii) Research and development, (iv) Selling, general and administrative, (v) Amortization of acquisition-related intangible assets, (vi) Other income, (vii) Operating income (loss), (viii) Operating margin, (ix) Financial Income (expense), (x) Income tax benefit (provision), (xi) Results relating to non-foundry equity-accounted investees, (xii) Net income (loss) attributable to stockholders, (xiii) Earnings per Share - Diluted, (xiv) EBITDA, adjusted EBITDA and trailing 12 month adjusted EBITDA, and (xv) free cash flow, trailing 12 month free cash flow and trailing 12 month free cash flow as a percent of Revenue. The non-GAAP information excludes, where applicable, the amortization of acquisition related intangible assets, the purchase accounting effect on inventory and property, plant and equipment, merger related costs (including integration costs), certain items related to divestitures, share-based compensation expense, restructuring and asset impairment charges, extinguishment of debt, foreign exchange gains and losses, income tax effect on adjustments described above and results from non-foundry equity-accounted investments. The difference in the benefit (provision) for income taxes between our GAAP and non-GAAP results relates to the income tax effects of the GAAP to non-GAAP adjustments that we make and the income tax effect of any discrete items that occur in the interim period. Discrete items primarily relate to unexpected tax events that may occur as these amounts cannot be forecasted (e.g., the impact of changes in tax law and/or rates, changes in estimates or resolved tax audits relating to prior year tax provisions, the excess or deficit tax effects on share-based compensation, etc.). Please refer to the NXP Historic Financial Model file found on the Financial Results page of the Investor Relations section of our website at www.nxp.com.
