

# Investor Presentation

First Quarter 2025

### Cautionary Note On Forward-Looking Statements and Non-GAAP Measures

This presentation and the accompanying remarks contain forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in the U.S. federal securities laws. These statements reflect management's current expectations based on assumptions we believe are reasonable but are not guarantees of performance. Actual results may differ materially from those contained in forward-looking statements made on behalf of the Company. The forward-looking statements involve risks and uncertainties that include, but are not limited to, the impact of catastrophes, general economic conditions and conditions affecting the insurance and reinsurance industry, the adequacy of our reserves, our ability to assess underwriting risk, trends in rates for property and casualty insurance and reinsurance, competition, investment market and investment income fluctuations, trends in insured and paid losses, pandemic, regulatory and legal uncertainties and other factors described in our SEC filings, including our latest Annual Report on Form 10-K. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

In this presentation and the accompanying remarks, the Company uses certain non-GAAP financial measures, that may include after-tax net operating income (loss), after-tax net operating income (loss) per diluted share, attritional combined ratio, gross written premiums presented on a comparable basis, net operating income return on equity ("ROE"), underwriting income, and adjusted book value per common share outstanding excluding net unrealized appreciation (depreciation) on fixed maturity, available for sale securities ("URA(D)"). The Company presents these non-GAAP financial measures to facilitate a deeper understanding of the profitability drivers of our business, results of operations, financial condition and liquidity. The Company believes that such measures are important to investors and other interested persons, and that these measures are a useful supplement to GAAP information concerning the Company's performance. These measures may not, however, be comparable to similarly titled measures used by companies within or outside of the insurance industry. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, or superior to, the Company's financial measures prepared in accordance with generally accepted accounting principles ("GAAP"). Explanations and available reconciliations of non-GAAP financial measures are included in the appendix on slides 23 through 27.

**Everest Strategic Overview** 

### How Everest Builds Shareholder Value

	Diversified reinsurance and insurance P&C franchise		Tier-1 lead market reinsurer franchise
û	Disciplined long-term specialty Insurance strategy	۷	Strong underwriting culture
දිසිදු	Experienced and deep leadership team	îĭi	Net acquirer of top talent
(\$)	High-quality investment portfolio	幸	Balance sheet strength and nimble capital deployment

Targeting a
Mid-Teens TSR<sup>1</sup>
Over the Cycle

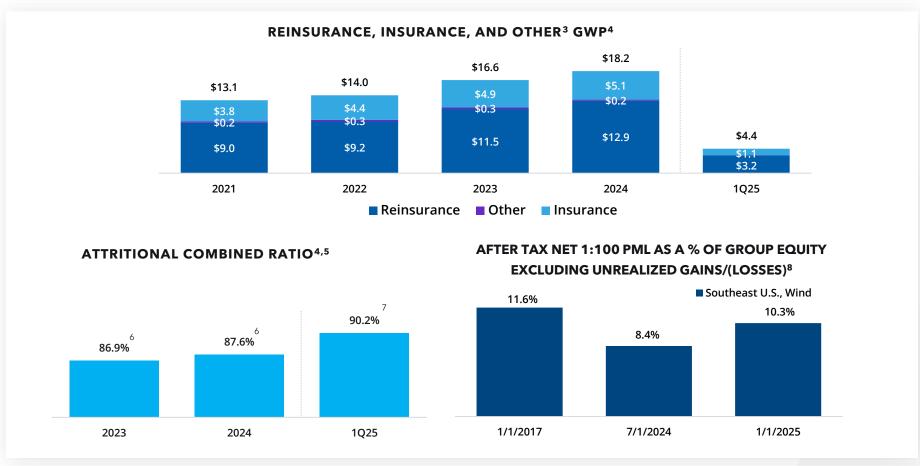

# Everest - A Leading Global Platform for Insurance and Reinsurance

#### Insurance:

Disciplined Long-Term Strategy to Develop a Leading Global Insurance Business

#### **Reinsurance:**

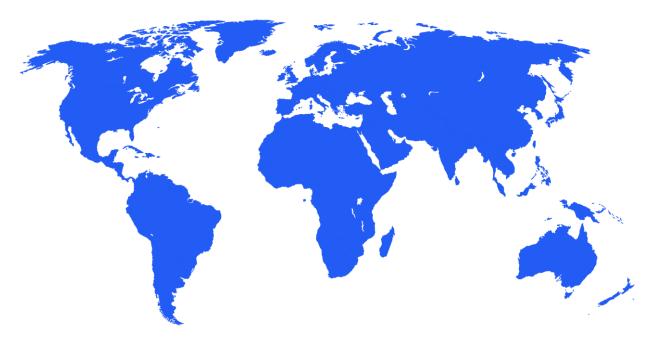

• The 4<sup>th</sup> Largest Global P/C Reinsurer<sup>2</sup> With Focus on Strategic Market Opportunities and Reduced Volatility

### Preferred Reinsurance Partner in Local and Global Markets

Recently increased local primary insurance presence in Asia, LatAm & Europe

### Think globally, trade locally

### Local strategy in action

- Offices across global reinsurance centers - with empowered, respected, and experienced local decision makers
- Breadth of diverse global risk solutions across geographies and business classes
- Ceding clients in over 100 countries
- Premium balanced between North America and International
- Dynamically allocating capital across markets to drive best returns

### **Top Financial Strength Ratings**

A.M. Best: A+

Moody's: A1

S&P Global: A+

# Quarterly and Annual Results Summary

### **Everest Group**

Financial Highlights, Total Shareholder Return and Net Operating Income

#### **2025 FIRST QUARTER HIGHLIGHTS**

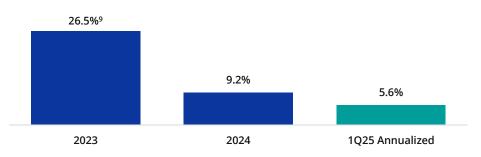

Growth in targeted classes including property and specialty lines was strong, partially offset by continued discipline, particularly in U.S. casualty

Continued to solidify tier-1 lead market Reinsurance franchise and rapidly transforming Insurance platform

First quarter was impacted by large catastrophe events and aviation losses, while highlighting the benefit of Everest's diversified portfolio

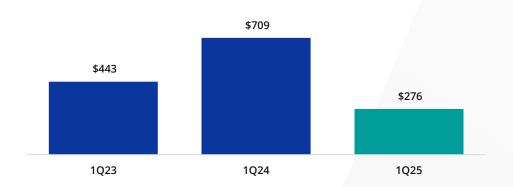

Net investment income of \$491 million, driven by higher assets under management

#### **TOTAL SHAREHOLDER RETURN**

 Our primary metric for measuring financial performance is Total Shareholder Return ("TSR"), defined as annual growth in Book Value Per Share (excluding Unrealized Gains and Losses on Available for Sale Fixed Maturity Investments) plus Dividends Per Share

#### **NET OPERATING INCOME - USD MILLIONS**

### **Everest Reinsurance Division**

### Financial Highlights

### **2025 FIRST QUARTER HIGHLIGHTS**

- Gross written premiums decreased 1.1% on a constant dollar basis and excl. reinstatement premiums, to approximately \$3.2 billion.
- Strong growth in property and specialty lines, partially offset by continued discipline in casualty lines.
- Attritional loss ratio increased 260 basis points to 59.8%, and the attritional combined ratio increased 270 basis points to 87.1%<sup>5</sup>. The increases were primarily driven by aviation losses, which added 2.4 points to the attritional loss and combined ratios.
- Pre-tax catastrophe losses were \$461 million net of estimated recoveries and reinstatement premiums, driven primarily by the California Wildfires.
- Risk-adjusted returns remain very attractive, particularly in property and specialty lines.

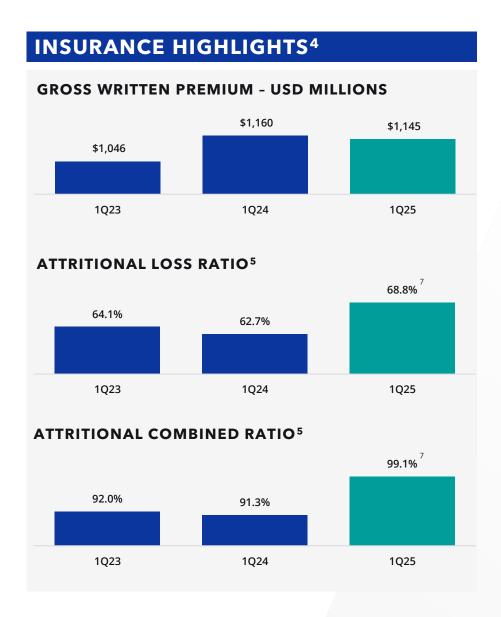

### **Everest Insurance Division**

### Financial Highlights

### **2025 FIRST QUARTER HIGHLIGHTS**

- Gross written premiums decreased 0.1% on a constant dollar basis to \$1.1 billion.
- Double-digit growth in short-tail and specialty lines, offset by reductions in certain casualty lines as we are aggressively executing on our one-renewal strategy
- Our International business continued to gain traction.
- Attritional loss and combined ratio increases reflect our conservative approach to setting initial loss picks, primarily in U.S. casualty lines, as well as aviation losses, which contributed 0.9 points to the increase
- Pricing continues to accelerate across U.S. casualty lines (excl. financial lines).

### **Everest - Quarterly Financial Highlights**

### **Equity and Capital Resources**

\$14.7 billion in shareholders' equity, excluding \$561 million of unrealized losses on the fixed maturity portfolio, resulting in a TSR<sup>1</sup> of 5.6%

Efficient capital structure including \$2.6 billion in long term debt at attractive interest rates

Repurchased \$200 million of common shares during the quarter

### **Investment Income and Cash Flow**

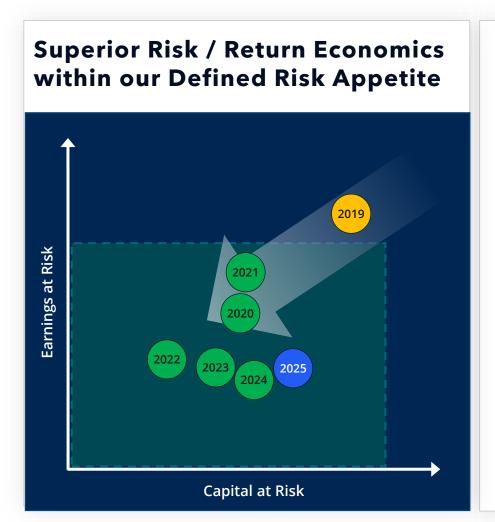

Enhanced interest income driven by increased assets under management; new money yields remain attractive

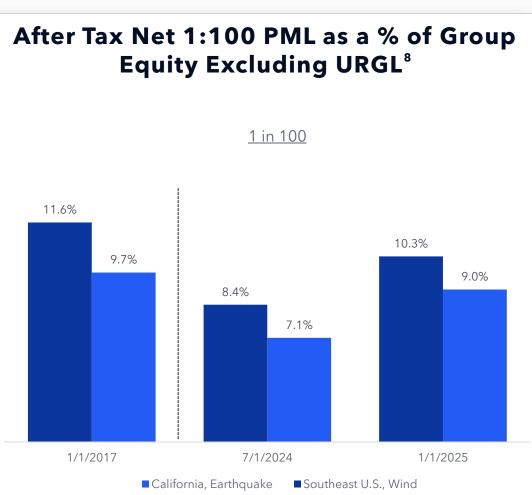

\$42.6 billion in invested assets 3.3-year fixed income duration AA- average credit quality

Operating cash flow of \$928 million for the quarter

# Transforming Everest's Risk Profile

Very attractive risk adjusted returns & targeted growth in attractive property lines

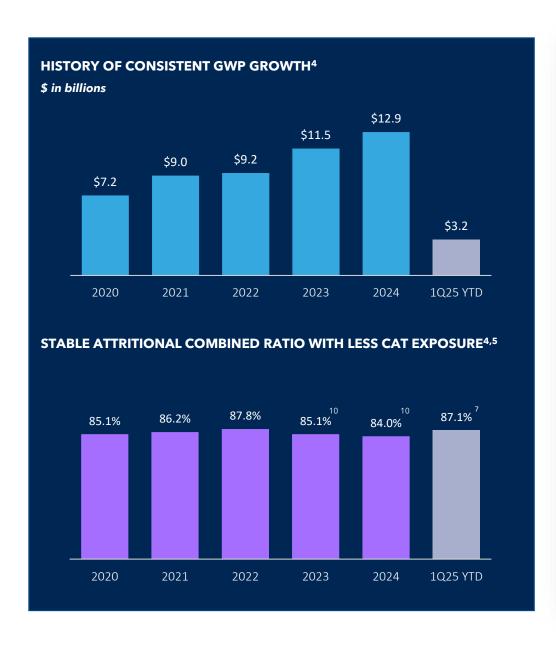

• The above chart for Illustrative purposes, as of 1/1/2025

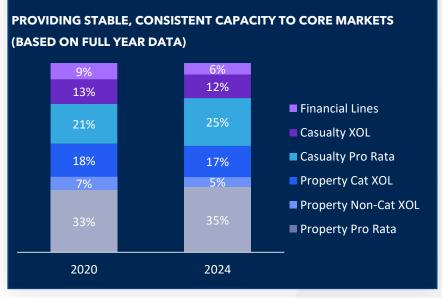

# **Everest Segment Summary**

### Preferred Lead Market Reinsurance Franchise

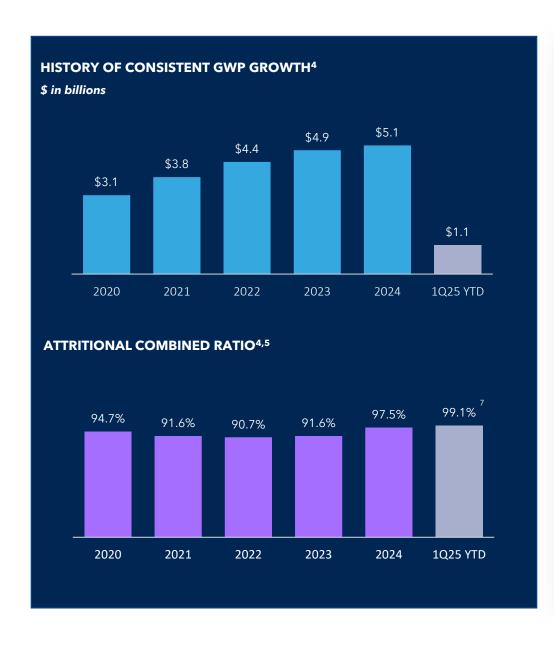

#### **Leading Reinsurance Platform**

- Leading global P&C reinsurer with a value proposition and relationships to continue to boost our leadership position around the globe and maximize our portfolio's performance
- Deliberate efforts to optimize our portfolio and reduce cat volatility continue to improve our risk adjusted returns.
- Expect favorable market conditions to continue through 2025, outlook remains strong.

### Disciplined Long-Term Global Primary Insurance Strategy

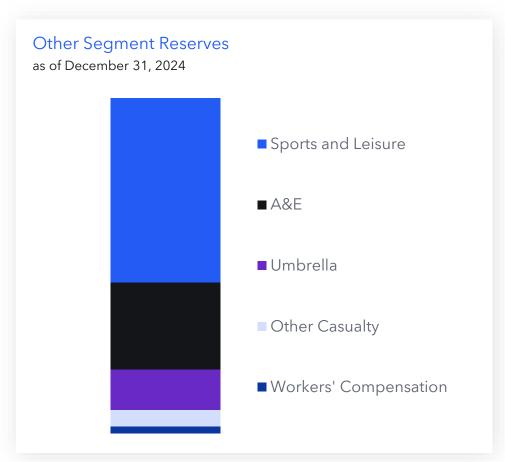

# **Global Strategy Focused on Profitable Growth**

- Significantly transforming North America insurance platform to deliver improved results
- Organic international insurance expansion performing strongly
- Armed with the talent, tools and capabilities to deliver consistent growth and underwriting results
- Global expansion to deliver balanced and diversified business mix

# Everest Other Segment<sup>3</sup>

### Other Segment: 4% of Group's Net Reserves

Newly created "Other" segment includes the recently sold sports and leisure insurance business, legacy asbestos and environmental, and other discontinued insurance programs and coverage classes in run-off

Segment net reserves of \$1.1B as of December 31, 2024

\$425M of reserve strengthening follows significant organizational transformation of U.S. casualty platform

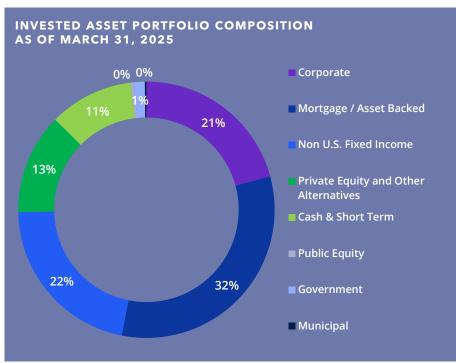

Other segment reserves include risk margin<sup>11</sup> of \$119M beyond Actuarial Central Estimate<sup>12</sup>

Average expected tail of reserves 3-4 years

### **Everest Investment Portfolio**

# INVESTMENT PORTFOLIO GUIDING PRINCIPLES

- Portfolio diversification
- High degree of liquidity
- Strong credit quality
- Asset/liability duration matching
- Optimize risk adjusted return and capital efficiency

# QUARTERLY AND YEAR TO DATE HIGHLIGHTS

Dual strategy approach: Stable income and total return

\$42.6B total invested assets, of which 87% are in fixed income and cash/short-term securities

3.3-year average duration of the fixed income portfolio, with an AA-average credit quality

\$491 million in net investment income for 1Q25

### Path Towards Consistently Generating Attractive Returns

Tier-1 lead market global reinsurance franchise

Aggressive response to U.S. casualty lines reserves in all segments

Rapidly transforming North America insurance platform to deliver improved results

Organic international insurance expansion performing strongly

Balance sheet strength and nimble capital deployment create optionality

**Growing high-quality investment portfolio** 

**Targeting Mid-Teens Total Shareholder Return<sup>1</sup> Over the Cycle** 

Appendix

# EVEREST FINANCIAL RETURN OBJECTIVE

**Total Shareholder Return ("TSR"):** Annual growth in Book Value per Share, excluding Unrealized Gains and Losses ("URGL") on Available for Sale Fixed Maturity Investments, plus Dividends per Share

### **Endnotes**

- Total Shareholder Return ("TSR") is annual growth in Book Value Per Share excluding Unrealized Gains and Losses on Fixed Maturity Available for Sale Securities, plus Dividends Per Share
- <sup>2</sup> Source: Aon's Reinsurance Aggregate (April 2023)
- Our new other segment primarily includes the results of our sports and leisure business that was sold in October 2024, consisting of policies written prior to the sale and policies renewed and certain new business on the Company's paper post-sale. It also includes run-off asbestos and environmental exposures, certain discontinued insurance programs primarily written prior to 2012, and certain discontinued insurance and reinsurance coverage classes. The Other segment does not generally sell insurance or reinsurance products but are responsible for the management of existing policies and settlement of related losses. The only noteworthy exception relates to a limited number of renewed and new policies written on the Company's paper by the purchaser of the sports and leisure business referred to above, for a finite period of time post-closing.
- <sup>4</sup> Prior years were restated to reflect segment reclassifications and adjusted attritional ratios calculations to include the impact of CECL.
- <sup>5</sup> Attritional ratios exclude catastrophe losses, net catastrophe reinstatement premiums, prior year development, Covid-19 losses, and losses from the Russian/Ukraine war.
- <sup>6</sup> Excludes approximately \$68m and \$94m of profit commission related to loss reserves releases for the year ended December 31, 2024 and 2023, respectively. When including this profit commission, the Group's reported attritional combined ratio is 88.1% and 87.6% for the year ended December 31, 2024 and 2023, respectively.
- <sup>7</sup> The Washington, D.C. aviation losses, net of recoveries and reinstatement premiums, contributed 2.0 points, 2.4 points, and 0.9 points to the Group, Reinsurance, and Insurance attritional loss ratios, respectively.
- <sup>8</sup> Calculated as the 1:100 net economic loss as of January 1, divided by Everest's shareholders' equity excluding unrealized gains/(losses) on available for sale fixed maturity investments of the preceding December 31, and preceding June 30 for 7/1/24 PMLs.
- <sup>9</sup> 2023 Total Shareholder Return includes a 5.2-point benefit from the deferred tax asset associated with the change in Bermuda tax law.
- Excludes approximately \$68m and \$94m of profit commission related to loss reserves releases for the year ended December 31, 2024 and 2023, respectively. When including this profit commission, the Reinsurance Segment's reported attritional combined ratio is 84.6% and 86.1% for the year ended December 31, 2024 and 2023, respectively.
- <sup>11</sup> "Risk margin" represents an allowance for uncertainty added by management to the Actuarial Central Estimate to arrive at the reserve amount booked ("Management's Best Estimate"), which represents management's view of the ultimate loss liability.
- <sup>12</sup> An Actuarial Central Estimate is a neutral, most likely prediction of a future financial outcome.
- <sup>13</sup> Amounts may not sum due to rounding.
- <sup>14</sup> U.S. Casualty Reinsurance contains all treaty and facultative casualty classes writing predominantly U.S. (but also a small amount of non-U.S.) exposures in auto liability, excess / umbrella, and general liability lines, and also a small portion of workers' compensation.
- <sup>15</sup> A large preponderance of U.S. Casualty Insurance consists of auto liability, excess / umbrella, and general liability lines.
- <sup>16</sup> Consists predominantly of U.S. Casualty 2024 accident year strengthening and includes a small portion of non-casualty lines.
- <sup>17</sup> Consists predominantly of run-off excess / umbrella portfolios.

# Information Regarding Non-GAAP Financial Measures: After-tax Net Operating Income (Loss) and After-tax Net Operating Income (Loss) Per Diluted Share

After-tax net operating income (loss) (also referred to in this Investor Presentation as net operating income (loss)) consists of net income (loss) excluding after-tax net gains (losses) on investments and after-tax net foreign exchange income (expense).

Although net gains (losses) on investments and net foreign exchange income (expense) are an integral part of the Company's reinsurance/insurance operations, the determination of net gains (losses) on investments and foreign exchange income (expense) is independent of the reinsurance/insurance underwriting process. The Company believes that the level of net gains (losses) on investments and net foreign exchange income (expense) for any particular period are not indicative of the performance of the underlying business in that particular period. Providing only a GAAP presentation of net income (loss) makes it more difficult for users of the financial information to evaluate the Company's success or failure in its basic business and may lead to incorrect or misleading assumptions and conclusions. The Company understands that the equity analysts who follow the Company focus on after-tax net operating income (loss) in their analyses for the reasons discussed above. The Company provides after-tax net operating income (loss) to investors so that they have what management believes to be a useful supplement to GAAP information concerning the Company's performance.

### Information Regarding Non-GAAP Financial Measures: Attritional Loss Ratio

The loss ratio is calculated as the sum of total incurred losses and loss adjustment expenses, divided by net premiums earned. The attritional loss ratio is defined as the loss ratio, adjusted to exclude catastrophe losses, net catastrophe reinstatement premiums, prior year development, COVID-19 losses and losses from the Russia/Ukraine war. The Company believes the attritional loss ratio is useful to management and investors because the adjusted ratio provides for better comparability and more accurately measure the Company's underlying underwriting performance. The following table is a reconciliation of the loss ratio and attritional loss ratio for the periods noted:

		Year-to-Date		For the year ended						
	March 31, 2025	March 31, 2024	March 31, 2023	December 31, 2024	December 31, 2023	December 31, 2022	December 31, 2021	December 31, 2020

<sup>(12)</sup> Prior-year development includes the impact of COVID-19 losses.

# Information Regarding Non-GAAP Financial Measures: Attritional Combined Ratio

The combined ratio is calculated as the sum of total incurred losses and loss adjustment expenses, commission and brokerage expenses, and other underwriting expenses, divided by net premiums earned. The attritional combined ratio is defined as the combined ratio, adjusted to exclude catastrophe losses, net catastrophe reinstatement premiums, prior year development, COVID-19 losses and losses from the Russia/Ukraine war. The Company believes the attritional combined ratio is useful to management and investors because the adjusted ratio provides for better comparability and more accurately measure the Company's underlying underwriting performance. The following table is a reconciliation of the combined ratio and attritional combined ratio for the periods noted:

		Year-to-Date				For the year ended		
	March 31,	March 31,	March 31,	December 31,	December 31,	December 31,	December 31,	December 31,

# Information Regarding Non-GAAP Financial Measures: Gross Written Premium on a Comparable Basis

The Company has included in this Investor Presentation certain changes in gross written premium on a comparable basis, reflecting constant currency basis and excluding reinstatement premiums. Constant currency basis excludes the impact of foreign exchange rates. The Company provides change in gross written premium on a comparable basis to investors so that they have what management believes to be a useful supplement to GAAP information concerning the Company's performance. The following tables are a reconciliation of gross written premium and period-over-period changes on a GAAP basis to the non-GAAP comparable basis for the periods noted:

		-to-Date	ate

(Some amounts may not reconcile due to rounding.)

# Information Regarding Non-GAAP Financial Measures: Net Operating Income Return On Equity ("ROE") & Annualized Total Shareholder Return

Net Operating income ROE is calculated by dividing after-tax net operating income (loss) by average shareholders' equity, adjusted for average net unrealized depreciation (appreciation) of fixed maturity, available for sale securities. A reconciliation of net income, the most comparable GAAP measure, to net operating income is presented above. The Company believes net operating income ROE is a useful measure for management and investors as it allows for better comparability and removes variability when assessing the results of operations. A reconciliation of Net Operating Income ROE and Net Income ROE is shown below.

Annualized TSR ("TSR") is calculated as year-to-date growth in book value per common share outstanding (excluding URA(D)) plus year-to-date dividends per share. Book value per common share outstanding excluding net unrealized appreciation (depreciation) of fixed maturity, available for sale securities ("URA(D)") is a non-GAAP measure, and is calculated as reported shareholders' equity less URA(D), divided by common shares outstanding. Book value per share is the most comparable GAAP measure. The Company believes this metric is useful to management and investors as it shows the value of shareholder returns on a per share basis after eliminating the variability of investments held at fair value. A reconciliation of Net Operating Income ROE and Net Income ROE, TSR, and Book value per common share outstanding excluding URA(D) is shown below:

(Dollars in millions, except per share amounts)

#### RETURN ON EQUITY:

Beginning of period shareholders' equity

Net unrealized depreciation (appreciation) of fixed maturity, available for sale securities Adjusted beginning of period shareholders' equity

End of period shareholders' equity

Net unrealized depreciation (appreciation) of fixed maturity, available for sale securities Adjusted end of period shareholders' equity

Average adjusted shareholders' equity

After-tax net operating income (loss)
After-tax net gains (losses) on investments
After-tax net foreign exchange income (expense)

Net income (loss)

Return on equity (annualized)

After-tax net operating income (loss)
After-tax net gains (losses) on investments
After-tax net foreign exchange income (expense)

Net income (loss)

Common shares outstanding

Book value per common share outstanding

Book value per common share outstanding (excluding URA(D))

Total Shareholder Return (TSR)
