#### **COMMUNICATION WITH STAKEHOLDERS**

The Group understands that the solid support of its stakeholders is crucial for the Group's long-term development. To improve communications with stakeholders, the Group has taken great efforts to establish effective communication channels. The Group has published the ESG report on its website for the convenience of all stakeholders. Meanwhile, the Group has also communicated with stakeholders regarding its vision and initiatives on the environmental, social and governance aspect through channels such as meetings, e-mails and service hotlines.

The Group understands the customers' expectations on product responsibility, and the government's supervision on construction machinery emissions and financial services. Therefore, through understanding employees' concerns on occupational health and safety, training and development, and through communication with suppliers to understand their concerns with the Group's supply chain management policy, the Group has adopted a series of policies and measures in response to the demands of all parties.

#### Stakeholders and engagement methods

#### 與持份者溝通

本集團深明持份者的堅實支持對本集團的長遠發展十分重要。為著不斷加強與持份者溝通,本集團十分注重建立有效的溝通渠道,本集團在網站發佈環境、社會及管治報告以便各界持份者取閱。與此同時,本集團亦透過會議、電郵及服務熱線等渠道,與持份者交流公司的環境、社會及管治方面的願景及舉措。

本集團深明顧客對公司產品責任的期望以及 政府當局對建築機械的排放物以及金融服務 的監管。因此,通過了解僱員對職業健康安全 以及培訓發展的關注,亦透過與供應商溝通 明了他們關注本集團的供應鏈管理政策,本 集團故此採取一系列政策及措施以回應各方 的訴求。

於報告期間,本集團並無涉及任何已呈報有關廢氣及廢物排放或其他環境事宜的違規行為。於報告期間,本集團並未發現任何重大違反環境法律及法規的情況。

環境、社會及管治報告

#### **Aspect A1. Emissions**

The Group is aware that emission reduction has increasingly become an important element for the global economy, hence has integrated environmental management into the operational decisions and various processes of the Group.

The Group's construction machinery sector primarily engages in the leasing and sales of construction machinery. Despite not being the end user of the construction machinery, the Group has still acted in accordance with government policies and has taken measures to help end users achieve better emissions performance. The Group procured machinery that complies with the Environmental Protection Department's regulatory control on emissions of non-road mobile machinery. Older machinery would be progressively phased out. Most of the machineries comply with the standards of the EU Stage IIIA or the Ministry of the Environment of Japan. Where technically feasible and market conditions permitted, the Group endeavoured to introduce construction machinery with better emission performance. This year, the Group has procured twelve new crawler cranes that comply with the newest regulatory control on emissions of non-road mobile machinery to help customers improve on environmental protection performance and reduce the impact on the environment. Meanwhile, the Group has also regularly serviced and maintained rental machinery to ensure that the operation and emission of machinery are in excellent condition. The Company follows the policy requirements of the Environmental Protection Department to phase out pre-Euro IV diesel vehicles to improve emission performance.

In regard to waste management, the Group has registered with the Environmental Protection Department as a producer of chemical waste given that the Group produces waste oil when performing mechanical repairs. In strict compliance with the relevant requirements and guidelines, the Group has entrusted licensed chemical waste collectors to collect and dispose of all waste oil to ensure that the waste oil would be treated in an environmentally approved manner to prevent any impact on the environment. Non-hazardous waste produced by the Group in daily operation are categorised and collected by respective property management companies.

#### 方面A1.排放物

本集團意識到排減降耗日漸成為環球經濟的重要元素,因此將環境管理納入本 集團的營運決策以及各個流程當中。

本集團的建築機械板塊主要從事租賃及 銷售建築機械,縱然本集團並非建築機 械的最終使用者,但仍配合政府政策, 並致力採取一系列措施協助最終使用者 達到更佳的排放表現。本集團採購符合 環境保護署管制非道路移動機械廢氣排 放規例的機械,並繼續逐步淘汰較舊的 機器,大部分機械均已符合歐盟IIIA期或 日本環境省標準,本集團更在技術上可 行以及市場情況許可的情況下優先引入 具有更佳排放表現的建築機械。本集團 年內採購十二台符合最新的非道路移動 機械廢氣排放規例的新型履帶吊機,協 助客戶提升環保表現,減低環境影響。 本集團與此同時亦定期維修保養供出租 的建築機械,確保機械的運作及排放表 現優良。公司遵循環境保護署的政策要 求,淘汰歐盟四期以前的柴油車輛以持 續改善排放表現。

而在廢物管理方面,鑑於本集團進行機 械維修時會產生廢機油,本集團進行 境保護署登記成為化學廢委生持牌 見恪守相關商收集及處理所有於 學廢物收集商收集及處理所有式或 學廢機油得以環保合規的方式。 避免對環境構成影響。本集團 避中產生的無害廢棄物已分類,並由 關物業管理公司收集。

The Group has strictly complied with the relevant environmental laws and regulations. During the reporting period, there were no cases of prosecution for violating environmental laws and regulations.

本集團嚴格遵行相關的環保法例,報告 期內並無因為違反與環保相關的法例而 被檢控的個案。

To contribute to the global efforts of emissions reduction, the Group formulated a series of environmental targets aimed at reducing its operational impact on the environment. The Group took into consideration the industry's best practices and analysed its previous quantitative environmental data disclosed in past ESG reports to develop a set of appropriate environmental targets.

Note 1: The intensity of emissions or waste produced was calculated by dividing the total amount of particular emissions or waste produced with the average number of employees during the Reporting Year.

為全球減少排放物出一分力,本集團設立一系列的環境目標,旨在減少其營運對環境的影響。本集團於制定一系列適當的環境目標時,考慮到行業的最佳做法,並分析其過往環境、社會及管治報告中披露的環境量化數據。

附註1: 排放物或廢棄物的密度按特定排放 物總量或廢棄物總量除以報告期間 的平均僱員人數計算。

廢棄物總量	與二一/二二年財政年度的基準相比,到二零二五/二六年,廢棄物總量密度(以每名僱員計算)減少2%。

#### Aspect A2. Use of Resources

The Group recognises that earth's resources are finite, hence judicious use of resources must go hand in hand with emission reduction. Where feasible, the Group's construction machinery sector has prioritized purchasing construction machinery with better fuel efficiency, and choosing appliances labelled with grade 1 energy efficiency labels. With effective use of resources as the key principle, the Group's office has adopted natural ventilation and reduced the use of air conditioners as much as possible to help reduce energy consumption. The Group used recycled water for cleaning equipment and machinery, and encouraged employees to save and cherish water by advocating the concept of good use of water resources. By doing so, the Group aims to reduce energy and water consumption by 2% in 3 years.

As paper usage in the office would impose burden on forestry resources, the Group has actively promoted the use of digital imaging and electronic file archives. The Group has implemented policies that promote paper conservation and encourage electronic medium, such as advocating double-sided printing and reusing paper, thereby achieving the goal of reducing the amount of paper used and ensuring substantive action for the protection of forest resources. The Group has also set up recycling containers to collect and recycle paper, aluminium cans and plastic waste, in order to make full use of available resources.

The products of the Group are mainly machinery, for which the delivery does not involve material use of packaging materials. Hence, the packaging materials used by the Group are immaterial.

#### 方面A2. 資源使用

有鑑於辦公室用紙會為林木資源帶來負 荷,本集團致力推動使用數碼方式作為 圖像及文件存檔,落實政策推廣節約 紙及電子化,又例如提倡雙面列印 張再用,從而達到減少紙張用量的自 級民護林木資源採取實質行動。本 以設置回收箱分別回收廢紙、鋁罐及 膠廢棄物,務求充分善用資源。

本集團的貨品主要為機械,其交付並不 涉及使用大量包裝材料。因此,本集團 所用的包裝材料微不足道。

#### 環境、社會及管治報告

#### Direct and indirect energy consumption in total and intensity

Electricity 電力	kWh 千瓦時	233,955	223,558	2,156	1,870
Water 水	cubic meter 立方米	529	576	5	5

Note 2: The intensity of consumption was calculated by dividing the total amount of particular resource consumption with the average number of employees during the reporting period.

#### **Aspect A3.** Environmental and Natural Resources

The Group's construction machinery segment has regularly arranged its employees to attend seminars held by the Environmental Protection Department, followed up closely on policy and regulatory changes of relevant regulatory authorities, and updated its environmental management policies in a timely manner to comply with the latest legal requirements. The Group has strictly complied with the policy requirements for the control of non-road mobile machinery emissions, non-road vehicle emissions and the phase-out of pre-Euro IV diesel vehicles, to ensure that all client users can achieve good emission level and minimize the potential environmental impact on the air quality.

As for the Group's financial segment, the Group is aware that the future international capital market must invest large sums of money in promoting the transition of a traditional economy to a green economy. The market's awareness of green finance has also deepened day by day, therefore assets invested in green financial products and projects have rapidly increased. Governments have taken action to encourage the development of green finance. The Hong Kong Government would also strengthen Hong Kong capital market by highlighting the conditions for Hong Kong to develop green financial products. The Group would also actively explore development opportunities in this trend and landscape.

By implementing environmental management policies, the Group did not have any significant environmental accidents during the Reporting Year.

附註2: 耗用密度按特定資源耗用總量除以 報告期間平均僱員人數計算。

#### 方面A3. 環境及天然資源

本集團透過施行環境管理政策,年內未 有重大的環境事故發生。

環境、社會及管治報告

#### Aspect A4. Climate Change

Due to the extreme climate changes caused by global warming, combating climate change has become an important issue with global concern. Moreover, energy conservation and reduction of greenhouse gas emissions have become top priorities for enterprises.

The risks posed by climate change include extreme weather events, such as severe typhoons, heavy rains and flooding, which can especially impact the Group's construction machinery sector, where employees work outdoors. We have established a typhoon emergency command group and formulated a typhoon and flood prevention emergency plan in the event of severe typhoons and rainstorms to ensure the safety of our employees. Risk assessment and emergency rescue preparation were made in the event of extreme weather. The Group has formulated emergency preparation response control procedures and other systems to conduct regular emergency drills every year, in order to establish a complete emergency plan system against severe threats from climate change. In the future, the Group will make great efforts to promote the utilisation of new energy and build solar power plants in its plants to reduce electricity consumption and carbon emissions.

#### B SOCIAL

#### Aspect B1. Employment

Equal rights and interests of employees are amongst the core values on which the Group places great importance. The Group opposes any form of discrimination, and respects the difference in gender, age, race, religion, disability, and other aspects of each person, thereby ensuring that each employee shall receive full respect and protection. The Group would provide competitive remuneration to its employees according to market standards, as well as medical insurance. In the unfortunate event of work injury, the Group would provide fair and reasonable compensation and support to its employees and their families.

Through evaluating employees' performance, the Group would make salary adjustments and job promotions according to objective based evaluation results, staff experience and ability.

The Group respects the established work hours and would refrain from forcing employees to work overtime, protecting employees' rest and leave benefits. The Group would also organize recreational activities for employees to help achieve work-life balance and improve work efficiency.

The Group has strictly complied with the relevant employment laws and regulations. During the Reporting Year, there were no cases of prosecution for violating employment laws and regulations.

#### 方面A4. 氣候變化

隨著全球暖化而導致極端氣候,應對氣 候變化已成為全球關注的重要議題。此 外,節約能源及減少溫室氣體排放亦已 成為各個企業的首要任務。

### B 社會

#### 方面B1. 僱傭

本集團通過評核僱員的工作表現,按照 評核結果以及員工的經驗和能力等客觀 依據對薪酬作出調整及安排職位晉升。

本集團尊重既定的工作時間,絕不強迫 僱員超時工作,維護僱員休息和休假的 權益,又為員工籌辦康樂活動,幫助僱 員達致工作生活平衡、提高工作效率。

本集團嚴格遵行相關的僱傭法例,年內 並無因為違反與僱傭相關的法例而被檢 控的個案。

#### Aspect B2. Health and Safety

The Group places great importance on occupational safety and has sought to continuously improve the level of occupational safety of the Group through education, verification and other such aspects. Before assigning an employee to a new workplace to perform their duties, the Group's construction machinery sector would provide safety training to ensure that they understand the type, environment and circumstances of the site and are fully aware of the safety matters needing attention when operating relevant construction machinery at the site. The Group has also arranged safety seminars and training to enhance the safety awareness of employees, refreshing and learning safety issues, allowing employees to identify high-risk areas and take appropriate measures to minimize risks.

As the final line of defence of the safety system, the Group has provided protective equipment for each employee who operates machinery, such as safety helmets and dust masks. The Group has also arranged designated staff to manage and record protective equipment, in order to ensure that the equipment is effective and in good condition, and to enhance the protection of employees' occupational safety.

The Group has strictly complied with the relevant safety laws and regulations. During the Reporting Year, there were no cases of prosecution for violating safety laws and regulations.

#### **Aspect B3.** Development and Training

Talent is a valuable asset of a corporation and the impetus for the Group's long-term development. The Group has actively provided employees with all aspects of vocational skills training and would subsidize appropriate employees to participate in further education so as to enhance the overall quality of employees. The Group is committed to nurturing talents for the long-term development of the Group.

The Group has provided in-service training to new employees to ensure that they have the necessary skills and knowledge to perform their duties. The construction machinery sector has also provided technical courses to existing employees who operate complex construction machinery. In order to obtain the latest skills and knowledge of machinery that are being leased and sold, the Group would send employees to participate in training courses organised by construction machinery manufacturers. All operators and engineering personnel of the Group must hold relevant certificates and licenses. The financial services sector would also provide compliance training related to securities and futures trading to existing employees to ensure that relevant employees are aware of the relevant internal control requirements and regulatory rules of relevant authorities.

The Group has also arranged senior staff to guide junior staff so that employees can complement each other and pass on valuable experience, establishing a talent hierarchy for the future development of the Group.

#### **Aspect B4.** Labour Standards

The Group strictly prohibits child labour and forced labour, and conducts stringent checks on the identities of potential candidates during recruitment in order to ensure that they are at least eighteen years of age. The Group prohibits any form of forced labour or servitude and ensures that all employees work on a voluntary basis.

If the Group discovers any incidents of child labor or forced labor, it will take immediate corrective action. This includes conducting a thorough investigation, terminating the contract with the staff involved, and reporting the incident to any relevant authorities of necessary. The Group is committed to taking all necessary steps to eliminate such unethical practices.

The Group did not have any situations of child labour or forced labour during the Reporting Year.

#### **Aspect B5.** Supply Chain Management

The Group understands that to achieve sustainable development, one cannot rely on its own strength. It requires concerted efforts from various parties. Therefore, the Group has conducted strict background investigations on its major suppliers to evaluate their corporate social responsibility performance and has kept close communication to enhance both parties' awareness on sustainable development. The Group would also review and evaluate existing suppliers annually and update the approved supplier list according to the evaluation results on a regular basis. Before selecting a new supplier, the Group would evaluate factors such as the supplier's background information, reputation, quality of product or service, market price, delivery date and level of customer service. The Group works with 65 suppliers in which 60 are located in Hong Kong, 5 are located overseas.

The Group takes into environmental and social considerations when managing its supply chain. Reviewed annually, the Code of Practice for Suppliers sets out the Group's expectations on Labour practice and standards, Environmental policy, Ethics and Review and documentation policy.

Labour practice and standards: This includes compliance with child labour laws, anti-discrimination practices, health and safety standards, working conditions, working hours, compensation, right to association and freely chosen employment.

Environmental policy: This takes into account product and material use, as well as transportation technology.

Ethics: These components are in place to establish anti- corruption measures, while also adhering to fair business practices and managing partner relationships (e.g. upstream in the supply chain).

Review and documentation policy: Outlines how the components are monitored and reviewed.

Furthermore, suppliers are more likely to be selected or retained if they are certified with the ISO 14000 Environmental management or SA 8000 Social Accountability. The Group is also dedicated to working with suppliers who demonstrate commitment to sustainable development and promote environmental practices in their supply chain through implementing environmental policies, conducting sustainability initiatives, and reporting their sustainability performance. In addition to ensuring that the supplier's safety and environmental awareness is assessed during the supplier performance assessment, employees liaise with suppliers and seek to ensure that they meet the same safety standards and requirements as upheld by the Group.

#### Aspect B6. Product Responsibility

Product and service quality are the cornerstones for the long-term development of the Group. Products distributed through the construction machinery sector would be subject to a series of testing and verification procedures before leaving the factory to ensure that the quality, performance, emission and safety levels are in compliance with the requirements of non-road mobile machinery. The Group has also provided comprehensive after-sales technical support, regular inspection, and repair and maintenance services for such distributed products. The manufacturer would generally provide a 12-month warranty for new machinery, and would be responsible for all liabilities and expenses in the event of any defects or malfunctions with regard to design, manufacturing or material during the warranty period. The Group has explicitly required all sales staff members to provide accurate and genuine information to customers during sales, reflecting the Group's reputation, and prioritising its long-term cooperation with customers.

The Group's financial sector has referred to the Codes and Guidelines issued by the Securities and Futures Commission, and has formulated and implemented corresponding policies, procedures and control measures according to the rules and standards for services such as financial products, securities and futures trading. Relevant laws and regulations such as Securities and Futures Ordinance have been met. When naming products or services, the Group would avoid any names that are inappropriate or misleading. Sales documents would also clearly contain information that investors need to allow them to make an informed decision.

道德:推行該等組成部分以設立反貪污措施,同時奉行公平的營商常規及管理合作夥伴關係(例如供應鏈上流)。
