#### First Quarter 2025 Financial Results

**Total revenues** were RMB729.7 million (US\$100.6 million) in the first quarter of 2025, compared with RMB960.9 million in the same period of 2024.

*Marketing services revenue* was RMB197.0 million (US\$27.1 million), compared with RMB330.5 million in the same period of 2024. The decrease was primarily due to our proactive and ongoing refinement of service offerings to strategically focus on margin improvement.

*Paid membership revenue* was RMB417.9 million (US\$57.6 million), compared with RMB449.7 million in the same period of 2024. The slight decrease was primarily due to a marginal decline in the number of our average monthly subscribing members.

*Vocational training revenue* was RMB94.5 million (US\$13.0 million), compared with RMB145.4 million in the first quarter of 2024. The decrease was primarily due to a lower revenue contribution from our acquired businesses.

*Other revenues* were RMB20.3 million (US\$2.8 million), compared with RMB35.2 million in the same period of 2024.

**Cost of revenues** decreased by 33.3% to RMB278.6 million (US\$38.4 million) from RMB417.4 million in the same period of 2024. The decrease was primarily due to reduced content and operating costs associated with the decline in our revenues and a decrease in cloud services and bandwidth costs resulting from our improved technological efficiency.

**Gross profit** was RMB451.1 million (US\$62.2 million), compared with RMB543.5 million in the same period of 2024. **Gross margin** expanded to 61.8% from 56.6% in the same period of 2024, primarily attributable to our monetization enhancements and improvements in our operating efficiency.

**Total operating expenses** decreased by 34.4% to RMB503.7 million (US\$69.4 million) from RMB768.2 million in the same period of 2024.

*Selling and marketing expenses* decreased by 32.9% to RMB320.6 million (US\$44.2 million) from RMB478.0 million in the same period of 2024. The decrease was primarily due to more disciplined promotional spending and a decrease in personnel-related expenses.

Research and development expenses decreased by 28.1% to RMB141.9 million (US\$19.6 million) from RMB197.4 million in the same period of 2024. The decrease was primarily attributable to more efficient spending on technological innovation and a decrease in personnel-related expenses.

*General and administrative expenses* decreased by 55.6% to RMB41.2 million (US\$5.7 million) from RMB92.9 million in the same period of 2024. The decrease was primarily attributable to a decline in the allowance for expected credit losses on trade receivables.

**Loss from operations** narrowed by 76.6% to RMB52.6 million (US\$7.2 million) from RMB224.7 million in the same period of 2024.

**Adjusted loss from operations (non-GAAP)**<sup>[1]</sup> narrowed by 81.9% to RMB35.0 million (US\$4.8 million) from RMB193.6 million in the same period of 2024.

**Net loss** narrowed by 93.9% to RMB10.1 million (US\$1.4 million) from RMB165.8 million in the same period of 2024.

**Adjusted net income (non-GAAP)**<sup>[1]</sup> was RMB6.9 million (US\$1.0 million) in the first quarter of 2025, compared with an adjusted net loss of RMB135.7 million in the same period of 2024.

**Diluted net loss per American depositary share ("ADS")** was RMB0.12 (US\$0.02), compared with RMB1.76 in the same period of 2024.

#### Use of Non-GAAP Financial Measures

In evaluating the business, the Company considers and uses non-GAAP financial measures, such as adjusted income/(loss) from operations and adjusted net income/(loss), to supplement the review and assessment of its operating performance. The Company defines non-GAAP financial measures by excluding the impact of share-based compensation expenses, amortization of intangible assets resulting from business acquisitions and the tax effects of the non-GAAP adjustments, which are non-cash expenses. The Company believes that the non-GAAP financial measures facilitate comparisons of operating performance from period to period and company to company by adjusting for potential impacts of items, which the Company's management considers to be indicative of its operating performance. The Company believes that the non-GAAP financial measures provide useful information to investors and others in understanding and evaluating the Company's consolidated results of operations in the same manner as they help the Company's management.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. The presentation of the non-GAAP financial measures may not be comparable to similarly titled measures presented by other companies. The use of the non-GAAP

financial measures has limitations as an analytical tool, and investors should not consider them in isolation from or as a substitute for analysis of our results of operations or financial condition as reported under U.S. GAAP. For more information on the non-GAAP financial measures, please see the tables captioned "Unaudited Reconciliations of GAAP and Non-GAAP Results" set forth at the end of this press release.
