# Safe Harbor Statements

## Cautionary Note Regarding Forward-Looking Statements

The information presented herein includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements, which are based on current expectations, estimates and projections about the industry and markets in which Vistra Corp. (“Vistra”) operates and beliefs of and assumptions made by Vistra’s management, involve risks and uncertainties, which are difficult to predict and are not guarantees of future performance, that could significantly affect the financial results of Vistra. All statements, other than statements of historical facts, that are presented herein, or in response to questions or otherwise, that address activities, events or developments that may occur in the future, including such matters as activities related to our financial or operational projections including financial condition and cash flows, projected synergy, net debt targets, capital allocation, capital expenditures, liquidity, projected Adjusted EBITDA to free cash flow conversion rate, dividend policy, business strategy, competitive strengths, goals, future acquisitions or dispositions, development or operation of power generation assets, market and industry developments and the growth of our businesses and operations, including potential transactions with large load facilities at our nuclear and natural gas plants (often, but not always, through the use of words or phrases, or the negative variations of those words or other comparable words of a future or forward-looking nature, including, but not limited to: “intends,” “plans,” “will likely,” “unlikely,” “believe,” “confident”, “expect,” “seek,” “anticipate,” “estimate,” “continue,” “will,” “shall,” “should,” “could,” “may,” “might,” “predict,” “project,” “forecast,” “target,” “potential,” “goal,” “objective,” “guidance” and “outlook”), are forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements. Although Vistra believes that in making any such forward-looking statement, Vistra’s expectations are based on reasonable assumptions, any such forward-looking statement involves uncertainties and risks that could cause results to differ materially from those projected in or implied by any such forward-looking statement, including, but not limited to: (i) adverse changes in general economic or market conditions (including changes in interest rates) or changes in political conditions or federal or state laws and regulations; (ii) the ability of Vistra to execute upon its contemplated strategic, capital allocation, performance, and cost-saving initiatives, and to successfully integrate acquired businesses; (iii) actions by credit ratings agencies; (iv) the severity, magnitude and duration of extreme weather events, contingencies and uncertainties relating thereto, most of which are difficult to predict and many of which are beyond our control, and the resulting effects on our results of operations, financial condition and cash flows; and (v) those additional risks and factors discussed in reports filed with the Securities and Exchange Commission by Vistra from time to time, including the uncertainties and risks discussed in the sections entitled “Risk Factors” and “Forward-Looking Statements” in Vistra’s annual report on Form 10-K for the year ended December 31, 2024 and subsequently filed quarterly reports on Form 10-Q.

Any forward-looking statement speaks only at the date on which it is made, and except as may be required by law, Vistra will not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date on which it is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible to predict all of them; nor can Vistra assess the impact of each such factor or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement.

## Disclaimer Regarding Industry and Market Data

Certain industry and market data used in this presentation is based on independent industry publications, government publications, reports by market research firms or other published independent sources. We did not commission any of these publications, reports or other sources. Some data is also based on good faith estimates, which are derived from our review of internal surveys, as well as the independent sources listed above. Industry publications, reports and other sources generally state that they have obtained information from sources believed to be reliable, but do not guarantee the accuracy and completeness of such information. While we believe that each of these publications, reports and other sources is reliable, we have not independently investigated or verified the information contained or referred to therein and make no representation as to the accuracy or completeness of such information. Forecasts are particularly likely to be inaccurate, especially over long periods of time, and we often do not know what assumptions were used in preparing such forecasts. Statements regarding industry and market data used in this presentation involve risks and uncertainties and are subject to change based on various factors, including those discussed above under the heading “Cautionary Note Regarding Forward-Looking Statements”.

## About Non-GAAP Financial Measures and Items Affecting Comparability

“Adjusted EBITDA” (EBITDA as adjusted for unrealized gains or losses from hedging activities, tax receivable agreement impacts, reorganization items, and certain other items described from time to time in Vistra’s earnings releases), “Adjusted Free Cash Flow before Growth” (or “Adjusted FCFbG”) (cash from operating activities excluding changes in margin deposits and working capital and adjusted for capital expenditures (including capital expenditures for growth investments), other net investment activities, and other items described from time to time in Vistra’s earnings releases), “Ongoing Operations Adjusted EBITDA” (adjusted EBITDA less adjusted EBITDA from Asset Closure segment), “Ongoing Operations Adjusted Free Cash Flow before Growth” or “Ongoing Operations Adjusted FCFbG” (and its per share equivalent) (adjusted free cash flow before growth less cash flow from operating activities from Asset Closure segment before growth) are “non-GAAP financial measures.” A non-GAAP financial measure is a numerical measure of financial performance that excludes or includes amounts so as to be different than the most directly comparable measure calculated and presented in accordance with GAAP in Vistra’s consolidated statements of operations, comprehensive income, changes in stockholders’ equity and cash flows. Non-GAAP financial measures should not be considered in isolation or as a substitute for the most directly comparable GAAP measures. Vistra’s non-GAAP financial measures may be different from non-GAAP financial measures used by other companies.

Vistra uses Adjusted EBITDA as a measure of performance and believes that analysis of its business by external users is enhanced by visibility to both Net Income prepared in accordance with GAAP and Adjusted EBITDA. Vistra uses Adjusted Free Cash Flow before Growth as a measure of liquidity and performance, and believes it is a useful metric to assess current performance in the period and that analysis of capital available to allocate for debt service, growth, and return of capital to stockholders is supported by disclosure of both cash provided by (used in) operating activities prepared in accordance with GAAP as well as Adjusted Free Cash Flow before Growth. Vistra uses Ongoing Operations Adjusted EBITDA as a measure of performance and Ongoing Operations Adjusted Free Cash Flow before Growth as a measure of liquidity and performance, and Vistra’s management and board of directors have found it informative to view the Asset Closure segment as separate and distinct from Vistra’s ongoing operations. The schedules attached to this earnings release reconcile the non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with U.S. GAAP.

# Agenda

## Welcome and Safe Harbor

*Eric Micek, Vice President of Investor Relations*

## Q3 2025 Highlights

*Jim Burke, President & Chief Executive Officer*

## Q3 2025 Finance Update

*Kris Moldovan, Executive Vice President & Chief Financial Officer*

# Q3 2025 Highlights

**Jim Burke**

President & Chief Executive Officer

# Q3 2025 At-A-Glance

## NARROWING

# \$5.7-5.9B

2025 Adj. EBITDA guidance range<sup>1,2</sup>

2025 Adj. FCFbG<sup>1,2</sup> guidance midpoint raised; updated and narrowed range to \$3.3-3.5 billion

Expect to be above the guidance midpoint for 4th consecutive year

## INITIATING

# \$6.8-7.6B

2026 Adj. EBITDA guidance range<sup>1,2</sup>

2026 Adj. FCFbG<sup>1,2</sup> guidance range of \$3.925-4.725 billion

2027 Adj. EBITDA Midpoint Opportunity<sup>3</sup> of \$7.4-7.8 billion

## CONTRACTED

# 1,200 MW

at Comanche Peak Nuclear Power Plant site

20-year PPA underwrites plant operations through middle of the century

Energization expected Q4 2027

- 1) "Adj. EBITDA" is a reference to Ongoing Operations Adjusted EBITDA; "Adj. FCFbG" is a reference to Ongoing Operations Adjusted Free Cash Flow before Growth; Adj. EBITDA and Adj. FCFbG are non-GAAP financial measures. See the "Non-GAAP Reconciliation" tables at the end of this presentation for further details.
- 2) Ongoing Operations Adjusted EBITDA and Ongoing Operations Adjusted FCFbG guidance ranges for 2025 and 2026 based on market curves as of Oct. 31, 2025 and include the contribution from assets acquired from Lotus Infrastructure Partners. Vistra believes the nuclear production tax credit (PTC) should provide downside Ongoing Operations Adjusted EBITDA support.
- 3) Ongoing Operations Adjusted EBITDA midpoint opportunity for 2027 based on market curves as of Oct. 31, 2025. Midpoint opportunities are not intended to be guidance and represent only our estimate of potential opportunities for Adjusted EBITDA in 2027. Actual results could vary and are subject to a number of risks, uncertainties and factors, including power price market movements and our hedging strategy. We have not provided a quantitative reconciliation of the Adjusted EBITDA opportunity for 2027 to GAAP net income (loss) because we cannot, without unreasonable effort, calculate certain reconciling items with confidence due to the variability, complexity, and limited visibility of the adjusting items that would be excluded from Adjusted EBITDA in such out-year period.

# Continued Execution Against Our Four Strategic Priorities

## Integrated Business Model

Diversified generation portfolio well-positioned to create value in growing demand environment

Strong commercial skills to deliver near and long-term value

Customer-centric retail business providing innovative solutions

## Disciplined Capital Allocation

Board authorization of \$1 billion incremental share repurchases expected to be utilized through YE 2027

Natural gas expansion including 860 MW build in West Texas and 2,600 MW acquisition from Lotus

## Resilient Balance Sheet

Net leverage<sup>1</sup> of ~2.6x pro forma for transactions closed in Q4 2025 and based on midpoint of 2026 Adj. EBITDA<sup>2</sup> guidance range

Refinanced \$1 billion of debt maturing in 2026 at lower interest rate

## Strategic Energy Transition

200-MW Oak Hill Solar Facility in ERCOT reached commercial operations in October

Feasibility studies on potential nuclear uprates expected to be completed by year-end

1) Excludes Vistra Zero non-recourse financings (i.e., Vistra Zero \$697 million TLB and BCOP Borrower LLC "BCOP" credit facility loans) and margin deposits. Represents Q3 2025 net debt adjusted for (a) the \$1.9 billion acquisition from Lotus Infrastructure Partners, funded with cash and assumption of \$803 million of existing indebtedness of the acquired companies, excluding other purchase price adjustments, (b) the \$2.0 billion senior secured notes issuances, and (c) \$1.0 billion senior unsecured note redemptions in October 2025.

2) "Adj. EBITDA" is a reference to Ongoing Operations Adjusted EBITDA; Adjusted EBITDA is a non-GAAP financial measure. See the "Non-GAAP Reconciliation" tables at the end of this presentation for further details.

# Structural Tailwinds in Power Markets

Sustained load growth in our markets is already driving higher financial and operational performance levels

## PJM and ERCOT Load Growth

Year-over-year weather adjusted growth in load (MWh) by quarter (%)<sup>1</sup>

### Our primary markets continue to outperform

- Continued support for annual peak load growth forecast of at least 3-5% in ERCOT and low-single digits in PJM through 2030
- Growth in energy expected to outpace growth in peak demand

### Customer signals remain strong

- Hyperscaler capex budgets continue to increase
- Key markets such as PJM and ERCOT attracting a growing share of the load growth

### Tailwinds driving more opportunities for Vistra

- Assets will economically be called to run more as demand grows
- 22 GW modern combined cycle gas fleet utilization of 58%, with potential to achieve up to 85%+ with minimal incremental expense

<sup>1)</sup> Source: PJM and ERCOT load data, weather adjusted.

# Multi-Year Execution Creating Value in Evolving Power Markets

Delivering on multiple opportunities while positioning for future growth

## Profitability and Cash Generation

Adj. EBITDA and Adj. FCFbG<sup>1,2,3</sup> (\$ in millions)

## Delivering growth through consistent execution

- ✓ Integrated model in strengthening power markets
- ✓ Capacity growth through gas augmentations and Vistra Zero
- ✓ Acquired over 6 GW through Energy Harbor and Lotus transactions

## Additional opportunities for value creation

- + Coal-to-gas conversions, nuclear uprates, new build, etc.
- + Ramp of Comanche Peak PPA to 1200MW
- + Future long-term PPAs at existing nuclear and gas sites
- + New gas and renewables development opportunities

1) "Adj. EBITDA" is a reference to Ongoing Operations Adjusted EBITDA. "Adj. FCFbG" is a reference to Ongoing Operations Adjusted Free Cash Flow before Growth. Adj. EBITDA and Adj. FCFbG are non-GAAP financial measures. See the "Non-GAAP Reconciliation" tables at the end of this presentation for further details.

2) Ongoing Operations Adjusted EBITDA guidance for 2025 and 2026 based on market curves as of Oct. 31, 2025. Vistra believes the nuclear production tax credit (PTC) should provide downside Ongoing Operations Adjusted EBITDA support.

3) Ongoing Operations Adjusted EBITDA midpoint opportunity for 2027 based on market curves as of Oct. 31, 2025. Midpoint opportunities are not intended to be guidance and represent only our estimate of potential opportunities for Adjusted EBITDA in 2027. Actual results could vary and are subject to risks, uncertainties and factors, including power price market movements and our hedging strategy. We have not provided a quantitative reconciliation of the Adjusted EBITDA opportunity for 2027 to GAAP net income (loss) because we cannot, without unreasonable effort, calculate certain reconciling items with confidence due to the variability, complexity, and limited visibility of the adjusting items that would be excluded from Adjusted EBITDA in such out-year period.

# Q3 2025 Finance Update

**Kris Moldovan**

Executive Vice President & Chief Financial Officer

# Q3 2025 Results

Resilient quarterly performance in milder weather environment

## Q3 2025 Financial Results

Adjusted EBITDA<sup>1,2</sup> (\$ in millions)

## Generation<sup>2</sup>

Q3 2025 and YTD 2025 favorable as compared to comparable 2024 periods, primarily driven by:

- Higher realized wholesale prices and capacity revenues and the recognition of expected nuclear PTCs, partially offset by extended outages at Martin Lake Unit 1 and Moss Landing battery facilities; and
- With respect to YTD results only, additional two months of legacy Energy Harbor results

## Retail

Q3 2025 unfavorable as compared to Q3 2024, primarily due to:

- Weather-driven gains in summer 2024 not repeated in 2025; and
- Expected intra-year timing impacts of supply costs

YTD 2025 favorable as compared to YTD 2024, primarily driven by:

- Strong residential customer counts and margin performance, including year-over-year favorability in supply costs

1) "Adjusted EBITDA" is a reference to Ongoing Operations Adjusted EBITDA; Adjusted EBITDA is a non-GAAP financial measure. See the "Non-GAAP Reconciliation" tables at the end of this presentation for further details. Ongoing Operations Adjusted EBITDA excludes results from Asset Closure segment of \$(12) million, \$(11) million, and \$(17) million in each of Q3 2023, Q3 2024, and Q3 2025, respectively, and \$36 million, \$(55) million and \$(58) million in each of YTD 2023, YTD 2024, and YTD 2025, respectively.

2) Generation includes Texas, East, West, and Corp./Other.

# Disciplined Capital Allocation

Incremental free cash flow to drive additional value for shareholders

**~\$10B**

Expected cumulative cash to allocate  
Q4 2025 – YE 2027<sup>3</sup>

**~\$6B**

Expected cumulative cash uses of:  
~\$3.4B for share repurchases, and common  
and preferred dividends<sup>4</sup>; and  
~\$2.6B for growth (incl. Lotus)

**~\$4B**

Projected cash still available for allocation  
Q4 2025 – YE 2027

## Earnings Visibility Driving Higher Available Capital

- Comprehensive hedging program and nuclear PTC provide cash flow visibility with expected generation hedge percentages of ~98%, ~96%, and ~70% for 2025, 2026, and 2027, respectively<sup>1</sup>
- Expect to consistently convert 60%+ of Adj. EBITDA to Adj. FCFbG over the medium term

## Delivering Shareholder Return

- Currently, ~\$2.2 billion remaining under existing share repurchase authorizations expected to be utilized through year-end 2027<sup>1</sup>
- Targeting at least ~\$1 billion in share repurchases and ~\$300 million in common dividends annually<sup>4</sup>

## Maintaining a Resilient Balance Sheet

- Expect to reduce leverage through the repayment of the Vistra Vision repurchase obligations
- Targeting investment grade credit ratings; projected additional capital available for allocation assumes net debt / Adj. EBITDA of ~2.3x at YE 2027<sup>2</sup>

## Strategic Investment to Drive Accretive Growth

- Target mid-teens or higher levered returns on growth investments, including the announced Permian gas units
- Acquisition from Lotus closed in Q4; expect to continue to pursue opportunistic M&A

1) As of Oct. 31, 2025 and includes the impact from assets acquired from Lotus Infrastructure Partners.

2) Leverage based on 2027 Adj. EBITDA midpoint opportunity of \$7.6 billion. Adjusted EBITDA is a reference to Ongoing Operations Adjusted EBITDA, which is a non-GAAP financial measure. For illustrative purposes only.

3) Excludes cash balance at Sept. 30, 2025. All remaining figures represent potential cumulative cash flows for the period Sept. 30, 2025 to Dec. 31, 2027. Assumes \$7.6 billion of Adj. EBITDA in 2027 and 60% conversion ratio to Adj. FCFbG. Growth and development capex shown net of expected non-recourse financing (60% of growth and development capex financed). PTC calculated as of Oct. 31, 2025 and assumes an interpretation of the definition of "gross receipts" which excludes hedges pending U.S. Treasury and Internal Revenue Service guidance. From Sept. 30, 2025 to Oct. 31, 2025, we repurchased approximately 0.37 million shares of common stock at an average price of \$199.20 for total consideration of approximately \$74 million.

4) Subject to board approval.

# Delivering Long-term Shareholder Value

We believe growing free cash flow per share is the primary driver of long-term value for our shareholders

## Vistra Cash Generation Outlook

Adj. Free Cash Flow before Growth (\$ per share)<sup>1,2</sup>

## Meaningful potential upside not included in current outlook

- Continued share repurchases
- Comanche Peak PPA expected to contribute after 2027
- Additional long-term contracts at nuclear and gas-fired generation sites
- Capacity expansions, including our Permian gas units
- Improving forward price outlook, potentially leading to higher realized prices and higher capacity factors

1) "Adjusted Free Cash Flow before Growth" is a reference to Ongoing Operations Adjusted Free Cash Flow before Growth (FCFbG). Adjusted FCFbG is a non-GAAP financial measure. See the "Non-GAAP Reconciliation" tables at the end of this presentation for further details.  
2) 2023 and 2024 actuals based on weighted average diluted share count. 2025 based on 9-months weighted average diluted share count as of Sept. 30, 2025. 2026 assumes flat diluted share count as of Sep. 30, 2025. Based on market curves as of Oct. 31, 2025.

# About Vistra

# America's Leading Integrated Power Provider

Integrated Fortune 500 retail electricity and power generation company based in Irving, Texas

#### Power Plants\*

- Natural Gas
- Coal
- Other

#### Vistra Zero

- Nuclear
- Solar / Batteries
- Solar (under development)
- Batteries (under development)

#### Operations

- Retail Operations
- Plant Operations
- Retail and Plant Operations

- Regional Office
- ★ Company Headquarters

\*Note: Does not include plants previously announced to be retired.

Note: As of Dec. 31, 2024. Shown pro-forma for the acquisition from Lotus.

1) Based on 2024 actual production; Includes full year of Energy Harbor and excludes plants acquired from Lotus.

## Products and services in 18 states and Washington D.C., including all major competitive wholesale markets in the U.S.

### Retail

- Serving approximately 5 million residential, commercial, and industrial retail customers
- More than 50 renewable energy plans

### Generation

- Largest competitive power generator in U.S.
- ~44,000 MW of generation powered by a diverse portfolio of natural gas, nuclear, coal, solar, and battery energy storage
- Owns and operates the second-largest competitive nuclear power fleet in the U.S.

Generation by Capacity  
~44,000 MW

■ Gas ■ Coal ■ Nuclear ■ Renewables ■ Other

Generation by Production<sup>1</sup>  
202 TWh

■ Gas ■ Coal ■ Nuclear ■ Renewables

# Environmental Stewardship

Pursuing a sustainable energy transition that balances reliability and affordability of power

## EMISSIONS REDUCTIONS<sup>1</sup>

### Scope 1 and Scope 2 Emissions

(Million mt CO<sub>2</sub>e)

### Methane Emissions

(Hundreds mt)

#### GHG emissions are improving

Scope 1 & 2 emissions have fallen **50%** since 2010 through responsible retirement

Methane emissions expected to show continued **decline** in the future

## PORTFOLIO TRANSFORMATION

### Generation Carbon Emissions Intensity

(mt CO<sub>2</sub>e/MWh)

#### Transforming our portfolio

Generation emission intensity has fallen more than **20%** since 2022

Capacity **increases** since 2022 have included nuclear, solar, battery and natural gas

<sup>1)</sup> Vistra's goal to achieve a 60% reduction in noted emissions by 2030, as compared to the 2010 baseline, and net-zero carbon emissions by 2050, assumes necessary advancements in technology and supportive market constructs and public policy.

# Supporting Employees and Our Communities

Vistra's Purpose: Lighting up lives, powering a better way forward

## STAKEHOLDER ENGAGEMENT

### Employee Support

- Formal **mentoring program** to help develop professional skills and provide networking opportunities
- Provided nearly \$1M for employee **education assistance** in 2024
- **15 Employee Resource Groups** available with focus on Vistra culture, business innovation, skills development for all employees, and the community

### Employee Health & Safety

- **0.72** Total Recordable Incident Rate achieved in 2024

- **14 Facilities** recognized with OSHA VPP Star Rating

### Community Support

- Contributed \$150,000 for the 2025 annual Beat the Heat campaign, which included more than 30 events with local non-profit social service agencies to distribute box fans and A/C units to families in need
- In 2024, Vista donated **\$11 million** to support communities in education, economic development, community welfare, employee involvement and sustainability

# Nuclear Production Tax Credit (PTC) Overview<sup>1</sup>

The IRA's nuclear PTC creates revenue stability during periods of lower power prices for nuclear generation

## Illustrative Revenue Support

## PTC Mechanism<sup>2</sup>

- The nuclear PTC is a tax credit of up to \$15/MWh
  - When gross receipts exceed \$26/MWh, the PTC amount is reduced by 80% of gross receipts exceeding \$26/MWh (2025)
  - When gross receipts exceed \$44.75/MWh (2025), the PTC amount is reduced to zero
- The PTC can be credited against taxes or monetized through a sale and will be recognized as revenue for accounting purposes
- The maximum PTC and gross receipts threshold are subject to inflation adjustments based on the GDP price deflator for the preceding calendar year
  - Maximum PTC is rounded to the nearest \$2.50/MWh
  - Gross receipts threshold rounded to nearest \$1.00/MWh
- Vistra Vision positioned to benefit directly from the IRA's nuclear PTC given its applicability to production from its ~6,400 MWs of Nuclear capacity

Source: Public Filings

1) Based on IRA bill signed by U.S. President Biden on Aug. 16, 2022 and IRS Bulletin No. 2025-30.

2) Calculations assume Vistra receives the 5x bonus adder to the nuclear PTC for meeting the prevailing wage requirements on all applicable contracts.

# Retail Overview

Strong margins driving Adj. EBITDA growth

## Highlights

- Retail volumes increased 5% YoY driven by continued growth in the business markets segment
- Grew residential counts in Texas within the quarter and year over year
- Residential results and large business markets sales performance well ahead of expectations
- Our TXU Energy brand held a 5-star PUCT rating

## Retail Volumes

(in TWh)

## Energy Degree Days

(Dallas-Fort Worth Area)

# Corporate Debt Profile

Vistra remains committed to a long-term net leverage target below 3x<sup>1</sup>

| Balances (\$ in millions)                                       | Proforma <sup>5</sup> |
|-----------------------------------------------------------------|-----------------------|
| Funded Revolving Credit Facilities                              | \$0                   |
| Vistra Operations Term Loan B                                   | 2,456                 |

| Total Realized Price (\$/MWh)                                 | \$40.25         | \$78.42 | \$42.12  | \$42.03  | \$52.18   | \$82.82 | \$48.78  | \$50.99   |

Note: amounts may not sum due to rounding. Hedge and market value represents generation only (excludes retail). Excludes the impact from assets acquired from Lotus Infrastructure Partners.

1) This sensitivity assumes a 7.2 mmbtu/MWh Heat Rate, therefore the change in spark spread is equal to the change in power price minus 7.2 times the change in delivered gas price.

2) The forecasted premium over the Hub Price includes shape impact for estimated dispatch generation as compared to running ATC, plant basis vs hubs, and estimated value from projected future incremental power sales based on Vistra's fundamental point of view.

3) TEXAS: 90% North Hub, 10% West Hub; EAST: 15% Mass Hub, 50% AD Hub, 10% Ni Hub, 10% Western Hub, 5% NY Zone A, 10% Indiana Hub.

Note: PJM capacity positions represent volumes cleared and purchased in primary annual auctions, incremental auctions, and transitional auctions. Also includes bilateral transactions. ISO-NE represents capacity auction results, supplemental auctions, and bilateral capacity sales. NYISO represents capacity auction results and bilateral capacity sales; Winter period covers November through April and Summer period covers May through October. MISO positions represent volumes cleared and purchased in primary annual auctions, incremental auctions, and transitional auctions. West capacity position includes Moss Landing 300. West prices based on proprietary contracts and are not disclosed.

1) Capital summary for 2025E and 2026E prepared as of Nov. 6, 2025. Capital expenditure projection is on a cash basis, excludes capitalized interest, and reflects LTSA payments on an accrual basis. Projected capex estimates subject to change based upon market conditions.

2) Includes expenditures under the long-term maintenance contracts in place for our gas fleet.

3) Includes IT, Corporate, and Other.

4) Nuclear fuel capex shown net of nuclear fuel sales.

5) Non-recurring capital expenditures include non-recurring IT, Corporate, insurance proceeds, and Other.

6) Expect to partially fund with Project Level financings.

7) Includes growth capital expenditures for new and existing assets.

a) Includes \$65 million of unrealized mark-to-market net losses on interest rate swaps.

b) Includes nuclear fuel amortization of \$68 million in the Texas segment.

c) Represents estimate of anticipated market participant defaults or settlements on initial PJM capacity performance penalties due to extreme magnitude of penalties associated with Winter Storm Elliott.

d) Adjusted EBITDA impacts of Winter Storm Uri reflects the application of bill credits to large commercial and industrial customers that curtailed their usage during Winter Storm Uri and a reduction in the allocation of ERCOT default uplift charges which were expected to be paid over several decades under protocols existing at the time of the storm.

Note: Texas and East segments include nuclear PTC revenue estimate of \$281 million and \$264 million, respectively. See Note 4 to the Financial Statements for additional information.

a) Includes \$53 million of unrealized mark-to-market net gains on interest rate swaps.

b) Includes nuclear fuel amortization of \$105 million and \$282 million, respectively, in the Texas and East segments.

c) Includes \$10 million gain recognized on the repurchase of TRA Rights in the year ending December 31, 2024.

d) Represents net of all NDT income (loss) of the PJM nuclear facilities, ARO accretion expense for operating assets and ARO remeasurement impacts for operating assets.

a) Includes \$36 million of unrealized mark-to-market net losses on interest rate swaps.

b) Includes nuclear fuel amortization of \$91 million in the Texas segment.

c) Includes \$29 million gain recognized on the repurchase of TRA Rights in December 2023.

d) Represents estimate of anticipated market participant defaults or settlements on initial PJM capacity performance penalties due to extreme magnitude of penalties associated with Winter Storm Elliott.

e) Adjusted EBITDA impacts of Winter Storm Uri reflects the application of bill credits to large commercial and industrial customers that curtailed their usage during Winter Storm Uri and a reduction in the allocation of ERCOT default uplift charges which were expected to be paid over several decades under protocols existing at the time of the storm.

Regulation G Table for 2025 Guidance prepared as of Nov. 6, 2025, based on market curves as of Oct. 31, 2025. Guidance excludes any potential benefit from the nuclear production tax credit.

a) Includes \$105 million interest relates to noncontrolling interest repurchase.

b) Includes nuclear fuel amortization of \$412 million.

c) Represents net of all NDT income (loss) of the PJM nuclear facilities, ARO accretion expense for operating assets and ARO remeasurement impacts for operating assets.

Regulation G Table for 2026 Guidance prepared as of Nov. 6, 2025, based on market curves as of Oct. 31, 2025. Guidance excludes any potential benefit from the nuclear production tax credit.

a) Includes \$60 million interest related to noncontrolling interest repurchase.

b) Includes nuclear fuel amortization of \$423 million.

c) Represents net of all NDT income (loss) of the PJM nuclear facilities, ARO accretion expense for operating assets and ARO remeasurement impacts for operating assets.
