

ARK RESTAURANTS CORP.

2025 ANNUAL REPORT

January 26, 2026

Shareholders, Employees, and Friends of our Company,

Headwinds continued to pressure cash flow and Earnings Before Interest, Taxes, Depreciation and Amortization this past year. The precipitous slide from the excess demand the Company experienced in the post-covid reopening of our restaurants has over the past three years been replaced by continued deteriorating demand and increased cost of operating our restaurants. However, the major factors affecting our performance in the current year can be attributed to our lease situation in Bryant Park and our Sequoia operation in Washington D.C. I will get to these in a moment as well as discuss our opportunity at The Meadowlands Raceway in northern New Jersey, but first, a venue-by-venue discussion should provide some insight.

Our businesses away from Sequoia are generally profitable, Bryant Park included, although less so than in the prior year. Las Vegas experienced fewer visitors in 2025. Calculations by the Vegas Visitor Bureau estimate that number to be 9% less than 2024. In 2022 we signed extensions of our leases at New York New York Hotel and Casino ("NYNY") resulting in a minimum rent increase of approximately \$2 million annually. Also required as a condition of the extension was a substantial investment in refurbishing the restaurants and food court areas that we control. We were fortunate that in late 2024 we hired a new Vice President of Operations for Las Vegas who has significantly improved the efficiency and quality of our services, and we are now seeing these improvements bolster cash flow. We are also excited about the refurbishment of our America restaurant which is expected to be completed by May 2026. To some extent, the work of transforming America has been interruptive to its revenue. At completion, we believe that revenue will benefit greatly from the visual content created and that this should make this a destination venue beyond just servicing NYNY hotel guests.

Our two restaurants in Alabama continue to perform well with consistent revenue levels. Cash flow is somewhat constrained by the increased costs we are experiencing. While in general we have been slow to increase prices in all our restaurants, fearing to do so in the face of lessening demand, the steady demand for these two restaurants has provided an opportunity to offset some of these costs.

In Florida we operate the fast-food court at The Hard Rock Hotel and Casino in Hollywood and four full-service restaurants elsewhere. The fast-food court continues to be a stellar performer. Demand remains strong thanks in no small measure to the attraction of the Hotel. The margins at the four restaurants have been squeezed by lessening demand and higher costs. Increased pricing, which has been modest compared to other restaurants on the southeast coast, has not overcome the demand/expense squeeze. It is no consolation that we hear this to be a problem in general for restaurants in the areas where we operate. I keep reminding myself that a bad economic environment can defeat good management. We have good management and we are not defeated. These four restaurants all turn a profit. Their locations are first class, and it is my belief that we will be rewarded for our quality of product.

Washington D.C. has been difficult for us. Sequoia was for many years a good performer but has been abused by our mistakes in management. We are working on this and as we did in Las Vegas we need to find the right mix of stronger management, a new look for the menu, and better communication in marketing our product.

Robert in New York City had a very good year. We see no reason that this will be interrupted.

Regarding our operations in Bryant Park, we are litigating with Bryant Park Corporation, the manager of the park, under a management agreement with the Parks Department of the City of New York. After 30 years of operations our lease expired in April 2025. Bryant Park Corporation attempted, through a Request for Proposal process, to replace us with another tenant. We claim in the litigation that the RFP process was tainted and unfairly influenced. The litigation is our effort to retain this operation and secure the continued employment of some 250 employees, many of whom have been in their positions for 20 years or more. We continue to operate the restaurants, but the uncertainty of our lease situation has greatly impacted our event business, once considerable, and created confusion in the marketplace as many visitors and residents were led to believe that the restaurants were closed. That as well as the costs associated with the litigation has had an outsized negative impact on our cash flow. The underlying lawsuit filed by the Company to protect its rights continues, and we will pursue all available options to protect the Company's interests. While the outcome of any litigation is always in doubt, we believe in our position.

In December 2025 the State of New York made its choice for the issuance of three casino licenses to three venues in proximity to Manhattan. We have stated in the past that our investment in The Meadowlands Raceway in northern New Jersey was made on the assumption that if New Jersey were to ever issue a casino license outside of Atlantic City that the raceway at the Meadowlands for many reasons would be best situated for a license. We also were certain that New Jersey would not consider a license in the northern part of the state unless New York approved downstate licenses. Now that this has occurred our opinion is that a casino license for The Meadowlands Raceway is now in play. It will require a ballot referendum to be approved by a simple majority of New Jersey voters, and we expect that this referendum will have a chance to appear on the ballot this November or next year.

We continue to address the disappointment of our results along four lines. One is to continue to litigate our lease situation at Bryant Park. Second is to pursue efficiency in our operating expenses and improve efficiency in marketing. Third is addressing the highly unsatisfactory performance at Sequoia, and fourth by pursuing additional acquisitions. Regarding the latter, we have been fortunate in the acquisitions made in the past as all have provided strong returns on capital deployed. Although we are eager to expand our business and have a balance sheet and lines of credit that allow for this, we are not inclined to overpay.

Sincerely,

Michael

Emerging Growth Company	<input type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☐

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Exchange Act Rule 12b-2). Yes ☐ No ☒

As of March 29, 2025, the last business day of the registrant's most recently completed second fiscal quarter, the aggregate market value of voting and non-voting common equity held by non-affiliates of the registrant was \$21,909,042.

At December 12, 2025, there were outstanding 3,606,157 shares of the registrant's Common Stock, \$0.01 par value.

DOCUMENTS INCORPORATED BY REFERENCE

Certain information required by Part III hereof will either be incorporated into this Form 10-K by reference to the registrant's definitive proxy statement for the registrant's Annual Meeting of Stockholders filed within 120 days of September 27, 2025 or will be included in an amendment to this Form 10-K filed within 120 days of September 27, 2025.

PART I

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

On one or more occasions, we may make statements in this Annual Report on Form 10-K regarding our assumptions, projections, expectations, targets, intentions or beliefs about future events. All statements, other than statements of historical facts, included or incorporated by reference herein relating to management's current expectations of future financial performance, continued growth and changes in economic conditions or capital markets are forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended.

Words or phrases such as "anticipates," "believes," "estimates," "expects," "intends," "plans," "predicts," "projects," "targets," "will likely result," "hopes," "will continue" or similar expressions identify forward-looking statements. Forward-looking statements involve risks and uncertainties which could cause actual results or outcomes to differ materially from those expressed. We caution that while we make such statements in good faith and we believe such statements are based on reasonable assumptions, including without limitation, management's examination of historical operating trends, data contained in records and other data available from third parties, we cannot assure you that our projections will be achieved. Factors that may cause such differences include: economic conditions generally and in each of the markets in which we are located, the amount of sales contributed by new and existing restaurants, labor costs for our personnel, fluctuations in the cost of food products, adverse weather conditions, changes in consumer preferences and the level of competition from existing or new competitors. We have attempted to identify, in context, certain factors that we believe may cause actual future experience and results to differ materially from our current expectation regarding the relevant matter or subject area.

While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. All forward-looking statements are expressly qualified in their entirety by these cautionary statements. You should evaluate all forward-looking statements made in this report in the context of the factors that could cause outcomes to differ materially from our expectations. These factors include, but are not limited to:

- the adverse impact of the current political climate and current and future economic conditions, including inflation, on our: (i) operating results, cash flows and financial condition, (ii) ability to comply with the terms and covenants of our debt agreements, (iii) ability to pay or refinance our existing debt or to obtain additional financing, and (iv) projected cash flows used in assessing assets for impairment;
- increases in food, beverage and supply costs, especially for seafood, shellfish, chicken and beef;
- increases in wages and benefit costs, including the cost of group medical insurance;
- our ability to open new restaurants in new and existing markets, including difficulty in finding sites and in negotiating acceptable leases;
- our ability to identify appropriate acquisition candidates and complete such acquisitions on acceptable terms;
- vulnerability to changes in consumer preferences and economic conditions;
- vulnerability to conditions in the cities in which we operate;
- vulnerability to adverse weather conditions and natural disasters given the geographic concentration and real estate intensive nature of our business;
- our ability to extend existing leases on favorable terms, if at all;
- our ability to renew expired leases on favorable terms, if at all, including for *Bryant Park Grill & Café* which expired on April 30, 2025 and for *The Porch at Bryant Park* which expired on March 31, 2025;
- our ability to realize the expected benefits associated with our investment in the New Meadowlands Racetrack LLC, if at all;
- negative publicity, whether or not valid, and our ability to respond to and effectively manage the accelerated impact of social media;
- risks associated with food safety and quality and food-borne illnesses;

- the reliance of the Company on the continued service of its executive officers;
- the impact of any security breaches of confidential customer information in connection with our electronic process of credit and debit card transactions; and
- the impact of any failure of our information technology system or any breach of our network security.

We caution you that the important factors referenced above may not contain all of the factors that are important to you. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences we anticipate or affect us or our operations in the ways that we expect. The forward-looking statements included in this report are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as required by law. If we do update one or more forward-looking statements, no inference should be made that we will make additional updates with respect to those or other forward-looking statements. We qualify all of our forward-looking statements by these cautionary statements.

From time to time, oral or written forward-looking statements are also included in our reports on Forms 10-K, 10-Q, and 8-K, our Schedule 14A, our press releases and other materials released to the public. Although we believe that at the time made, the expectations reflected in all of these forward-looking statements are and will be reasonable; any or all of the forward-looking statements in this Annual Report on Form 10-K, our reports on Forms 10-Q, and 8-K, our Schedule 14A and any other public statements that are made by us may prove to be incorrect. This may occur as a result of inaccurate assumptions or as a consequence of known or unknown risks and uncertainties. Many factors discussed in this Annual Report on Form 10-K, certain of which are beyond our control, will be important in determining our future performance. Consequently, actual results may differ materially from those that might be anticipated from forward-looking statements. In light of these and other uncertainties, you should not regard the inclusion of a forward-looking statement in this Annual Report on Form 10-K or other public communications that we might make as a representation by us that our plans and objectives will be achieved, and you should not place undue reliance on such forward-looking statements.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. However, your attention is directed to any further disclosures made on related subjects in our subsequent periodic reports filed with the Securities and Exchange Commission on Forms 10-Q and 8-K and Schedule 14A.

Unless the context requires otherwise, references to “we,” “us,” “our,” “ARKR” and the “Company” refer specifically to Ark Restaurants Corp. and its subsidiaries, partnerships, variable interest entities and predecessor entities.

Item 1. Business

Overview

We are a New York corporation formed in 1983. As of the fiscal year ended September 27, 2025, we owned and/or operated 16 restaurants and bars, 12 fast food concepts and catering operations through our subsidiaries. Three of our restaurant and bar facilities are located in New York City, one is located in Washington, D.C., five are located in Las Vegas, Nevada, one is located in Atlantic City, New Jersey, four are located on the east coast of Florida and two are located on the Gulf Coast of Alabama.

Our restaurants are typically larger, destination properties intended to benefit from high patron traffic attributable to the uniqueness of the location and catered events. All of our expansion in recent years has been through acquisitions as follows: *The Rustic Inn* in Dania Beach, Florida (2014); *Shuckers* in Jensen Beach, Florida (2016); two *Original Oyster Houses*, one in Gulf Shores, Alabama and one in Spanish Fort, Alabama (2017), *JB's on the Beach* in Deerfield Beach, Florida (2019), and *Blue Moon Fish Company* (2021) in Lauderdale-by-the-Sea, Florida.

The names and themes of each of our restaurants are different except for our two *Broadway Burger Bar and Grill* restaurants and two *Original Oyster House* restaurants. The menus in our restaurants are extensive, offering a wide variety of high-quality foods at generally moderate prices. The atmosphere at many of the restaurants is lively and extremely casual. Most of the restaurants have separate bar areas, are open seven days a week and most serve lunch as well as dinner. A majority of our net sales are derived from dinner as opposed to lunch service.

While decor differs from restaurant to restaurant, interiors are marked by distinctive architectural and design elements which often incorporate dramatic interior open spaces and extensive glass exteriors. The wall treatments, lighting and decorations are typically vivid, unusual and, in some cases, highly theatrical.

Recent Developments

Bryant Park Grill

The Company's agreements with the Bryant Park Corporation (the "Landlord") (a private non-profit corporation that operates and maintains Bryant Park under agreements with the City of New York Department of Parks & Recreation), for the *Bryant Park Grill & Café* expired on April 30, 2025 and for *The Porch at Bryant Park* expired on March 31, 2025.

In July of 2023 (for the *Bryant Park Grill & Café*) and September of 2023 (for *The Porch at Bryant Park*), the Company received requests for proposals (the "RFPs") from the Landlord to which we responded on October 26, 2023. The agreements offered under the RFPs for both locations were for new 10-year agreements, with one five-year renewal option. In the second quarter of 2025, the Landlord stated publicly that it had selected a new operator for the *Bryant Park Grill & Café* and *The Porch at Bryant Park*. However, to the best of our knowledge, no agreements between the Landlord and the selected operator have received the approvals of either the City of New York Department of Parks & Recreation or the New York Public Library, of which both approvals are required before any new lease can become effective.

Management has been working with outside advisors to assist our efforts to ensure that the RFP awards process was both fair and transparent and to enforce the Company's right of first lease under our lease agreements, and otherwise to protect the Company's rights with respect to these matters. For a discussion of the related claims filed by the Company, please see Note 10 - Commitments and Contingencies to the Consolidated Financial Statements.

As of the date of this filing, we continue to operate the above properties and intend to do so until we are either awarded the lease extensions or ordered to vacate the premises. The underlying lawsuit filed by the Company to protect its rights continues, and we will pursue all available options to protect the Company's interests.

Management, after consultation with legal counsel, is unable to predict the outcome of this matter at this time. While the outcome of these proceedings cannot be predicted with certainty, the *Bryant Park Grill & Café* and *The Porch at Bryant Park*, collectively, accounted for \$25.5 million and \$31.1 million of our total revenues for the years ended September 27, 2025 and September 28, 2024, respectively, which represented approximately 15.4% and 17.4% of our total revenue for such periods, respectively.

The uncertainty related to this dispute has had a material adverse impact on our business, financial condition, and results of operations and will continue to do so while the dispute is litigated and if we are unable to prevail in the above actions and/or are unable to extend or renew these leases on favorable terms, if at all.

Investment in and Receivable From New Meadowlands Racetrack LLC

Since March 12, 2013, the Company has made investments in the New Meadowlands Racetrack LLC (“NMR”) through its purchase of membership interests in Meadowlands Newmark, LLC, an existing member of NMR. As of the date of this report, the Company has made a total investment of \$5,256,000. See Note 4 - Investment in and Receivable from New Meadowlands Racetrack to the Consolidated Financial Statements for a discussion of our investment in NMR and our rights relating to operating the food and beverage concessions at a future gaming facility at the Meadowlands Racetrack.

For several years, New York State has been conducting a bidding process to award up to three downstate casino licenses and on December 1, 2025, the New York State Gaming Facility Location Board approved three applications for casino gaming licenses. The New York State Gaming Commission is expected to issue licenses for the three approved applications by December 31, 2025. Concurrent with the New York process, NMR has been actively pursuing a full casino license to supplement its existing horse racing and sports betting operations. Any gaming license in the state of New Jersey outside of Atlantic City, including at the Meadowlands Racetrack, requires ratification of an amendment to the State of New Jersey constitution, followed by issuance of a license by the New Jersey Casino Control Commission. In May 2025, a Senate Concurrent Resolution was introduced proposing a ballot referendum to authorize casinos at both the Monmouth Park and Meadowlands Racetracks. It requires a three-fifths vote in both legislative chambers to reach the ballot in November 2026. If the referendum passes, NMR aims for a temporary facility potentially opening in 2027 and a permanent one by 2028. In conjunction with such referendum, NMR will need to raise substantial capital to fund a marketing campaign to support the passage of the referendum. To the extent the Company does not contribute to this effort, or if NMR raises outside capital, our interests will be diluted.

There can be no assurances that above referendum will be included in the November 2026 election ballot or that it will pass if it is included. If either of these do not occur, the Company’s investment in NMR will be evaluated based on the existing horse racing and sports betting operations and may be subject to substantial impairment.

The following table sets forth the restaurant properties we lease, own and operate as of September 27, 2025:

<u>Name</u>	<u>Location</u>	<u>Year Opened(1)</u>	<u>Restaurant Size (Square Feet)</u>	<u>Seating Capacity(2) Indoor- (Outdoor)</u>	<u>Lease Expiration(3)</u>

-
- (1) Restaurants are, from time to time, renovated, renamed and/or converted from or to managed or owned facilities. "Year Opened" refers to the year in which we, or an affiliated predecessor of us, first opened, acquired or began managing a restaurant at the applicable location, notwithstanding that the restaurant may have been renovated, renamed and/or converted from or to a managed or owned facility since that date.
- (2) Seating capacity refers to the seating capacity of the indoor part of a restaurant available for dining in all seasons and weather conditions. Outdoor seating capacity, if applicable, is set forth in parentheses and refers to the seating capacity of terraces and sidewalk cafes which are available for dining only in the warm seasons and then only inclement weather.
- (3) Assumes the exercise of all of our available lease renewal options.
- (4) The Company's leases for the *Bryant Park Grill & Café* and *The Porch at Bryant Park* expired on April 30, 2025. Please see Note 10 - Commitments and Contingencies to the Consolidated Financial Statements for additional information related to the status of these leases.

- (5) We operate six small food court restaurants and one full-service restaurant in the *Village Eateries* food court at the New York-New York Hotel and Casino. We also operate that hotel's room service, banquet facilities and employee cafeteria.
- (6) This location is for a kiosk located at Bryant Park, New York, New York and all seating is outdoors (see Note 10 - Commitments and Contingencies to the Consolidated Financial Statements).
- (*) Represents common area seating.

The following table sets forth less than wholly-owned properties that are managed by us, which have been consolidated as of September 27, 2025 (see Notes 1 and 2 to the Consolidated Financial Statements):

<u>Name</u>	<u>Location</u>	<u>Year Opened(1)</u>	<u>Restaurant Size (Square Feet)</u>	<u>Seating Capacity(2) Indoor- (Outdoor)</u>	<u>Lease Expiration(3)</u>
Hollywood Food Court (4)(5)	Hard Rock Hotel and Casino Hollywood, Florida	2004	9,000	250 (*)	2029

- (1) Restaurants are, from time to time, renovated, renamed and/or converted from or to managed or owned facilities. "Year Opened" refers to the year in which we, or an affiliated predecessor of us, first opened, acquired or began managing a restaurant at the applicable location, notwithstanding that the restaurant may have been renovated, renamed and/or converted from or to a managed or owned facility since that date.
- (2) Seating capacity refers to the seating capacity of the indoor part of a restaurant available for dining in all seasons and weather conditions. Outdoor seating capacity, if applicable, is set forth in parentheses and refers to the seating capacity of terraces and sidewalk cafes which are available for dining only in the warm seasons and then only inclement weather.
- (3) Assumes the exercise of all our available lease renewal options.
- (4) Management fees earned, which have been eliminated in consolidation, are based on a percentage of gross sales of the restaurant.
- (5) We own a 64.4% interest in the partnership that owns the *Hollywood Food Court*.
- (*) Represents common area seating

Leases

We are not currently committed to any significant development projects, except for the refresh obligations in connection with the New York-New York Hotel and Casino lease renewals discussed below; however, we may take advantage of opportunities we consider to be favorable, when they occur, depending upon the availability of financing and other factors.

Restaurant Expansion and Other Developments

On June 24, 2022, the Company extended its lease for *America* at the New York-New York Hotel and Casino in Las Vegas, NV through December 31, 2033. In connection with the extension, the Company has agreed to spend a minimum of \$4,000,000 to materially refresh the premises by March 31, 2026, as extended, subject to further extensions as set out in the agreement. To date approximately \$1,600,000 has been spent on this refresh and we expect to complete the work by March 31, 2026.

On July 21, 2022, the Company extended its lease for the *Village Eateries* at the New York-New York Hotel and Casino in Las Vegas, NV through December 31, 2034. As part of this extension, the *Broadway Burger Bar and Grill* and *Gonzalez y Gonzalez*, were carved out of the *Village Eateries* footprint and the extended date for those two locations is December 31, 2033. In connection with the extension, the Company has agreed to spend a minimum of \$3,500,000 to materially refresh all three of these premises by December 31, 2025, as extended. As part of this refresh, on November 11, 2024, the Company opened a new concept called *Lucky Pig* in the *Village Eateries* at a cost of approximately \$850,000. In addition, the Company has spent an additional \$950,000 to date on refreshing *Broadway Burger Bar and Grill*, *Gonzalez y Gonzalez* and other areas of the *Village Eateries*. We expect to complete all work related to these projects by December 31, 2025.

Each of the above refresh obligations are to be consistent with designs approved by the landlord which shall not be unreasonably withheld. We have and will continue to pay all rent as required by the leases without abatement during construction. Note that our

substantial completion of work set forth in plans approved by the landlord shall constitute our compliance with the requirements of the completion deadlines, regardless of whether or not the amount actually expended in connection therewith is less than the minimum.

Our restaurants generally do not achieve substantial increases in revenue from year to year, which we consider to be typical of the restaurant industry. To achieve significant increases in revenue or to replace revenue of restaurants that lose customer favor or which close because of lease expirations or other reasons, we would have to open additional restaurant facilities or expand existing restaurants. There can be no assurance that a restaurant will be successful after it is opened, particularly since in many instances we do not operate our new restaurants under a trade name currently used by us, thereby requiring new restaurants to establish their own identity.

We may take advantage of other opportunities we consider to be favorable, when they occur, depending upon the availability of financing and other factors.

Recent Restaurant Dispositions

In October 2024, the Company advised the landlord of *El Rio Grande* we would be terminating the lease and closing the property permanently. In connection with this notification, the Company recorded a loss of \$876,000 during the year ended September 28, 2024. The property closed permanently on January 3, 2025 and was vacated and delivered to the landlord on April 30, 2025. During the year ended September 27, 2025, the Company recognized a gain in the amount of \$173,000 as a result of refinements of estimates.

On November 26, 2024, a subsidiary of the Company, in which we own a 65% interest, Ark Hollywood/Tampa Investment LLC agreed to terminate its lease for the food court at The Hard Rock Hotel and Casino in Tampa, FL and, accordingly, vacated the premises on December 15, 2024. In connection with this agreement all obligations under the lease ceased and Ark Hollywood/Tampa Investment LLC received a termination payment in the amount of \$5,500,000. Accordingly, a gain, primarily net of write-offs of ROU and long-lived assets, in the amount of \$5,235,000 was recognized during the year ended September 27, 2025 and Ark Hollywood/Tampa Investment LLC distributed approximately \$1,710,000 of the net proceeds, after expenses, to the other equity holders of Ark Hollywood/Tampa Investment LLC.

During the year ended September 27, 2025, the Company sold three of the 14 condominium units it owns at the *Island Beach Resort* in Jensen Beach, FL which is adjacent to our *Shuckers* restaurant. In connection with the sales, the Company received net proceeds of \$1,203,000 and recorded a gain of \$594,000. The Company intends to sell the remaining units subject to market forces.

Restaurant Management

Each restaurant is managed by a general manager and has its own chef. Food products and other supplies are purchased primarily from various unaffiliated suppliers, in some cases by our headquarters' personnel. Each of our restaurants has two or more assistant managers and sous chefs (assistant chefs). Financial and management control is maintained at the corporate level through the use of automated systems that include centralized accounting and reporting.

Purchasing and Distribution

We strive to obtain quality menu ingredients, raw materials and other supplies and services for our operations from reliable sources at competitive prices. Substantially all menu items are prepared on each restaurant's premises daily from scratch, using fresh ingredients. Each restaurant's management determines the quantities of food and supplies required and then orders the items from local, regional and national suppliers on terms negotiated by our centralized purchasing staff. Restaurant-level inventories are maintained at a minimum dollar-value level in relation to sales due to the relatively rapid turnover of the perishable produce, poultry, meat, fish and dairy commodities that are used in operations.

We attempt to negotiate short-term and long-term supply agreements depending on market conditions and expected demand. However, we do not contract for long periods of time for our fresh commodities such as produce, poultry, meat, fish and dairy items and, consequently, such commodities can be subject to unforeseen supply and cost fluctuations. Independent food service distributors deliver most food and supply items daily to restaurants. The financial impact of the termination of any such supply agreements would not have a material adverse effect on our financial position. We believe that we have established stable long-term relationships with several key suppliers, particularly with respect to crabs and other shellfish.

Competition

The hospitality industry is highly competitive and is often affected by changes in taste and entertainment trends among the public, by local, national and economic conditions affecting spending habits, and by population and traffic patterns. We believe that the

principal means of competition among restaurants include the location, type and quality of facilities and the type, quality and price of beverage and food served.

Our restaurants compete directly or indirectly with many well-established competitors, both nationally and locally owned, some with substantially greater financial resources than we have. Their resources and market presence may provide advantages in marketing, purchasing and negotiating leases. We compete with other restaurant and retail establishments for sites and finding management personnel.

Employees

At November 30, 2025, we employed 1,566 persons (including employees at managed facilities), 1,047 of whom were full-time employees, and 519 of whom were part-time employees; 25 of whom were headquarters personnel, 125 of whom were restaurant management personnel, 597 of whom were kitchen personnel and 819 of whom were restaurant service and other personnel. A number of our restaurant service personnel are employed on a part-time basis. Changes in minimum wage levels may adversely affect our labor costs and the restaurant industry generally because a large percentage of restaurant personnel are paid at or slightly above the minimum wage. Our employees are not covered by any collective bargaining agreements.

In the past, we have experienced aggressive competition for talent, wage inflation and pressure to improve workplace conditions and benefits as a result of the COVID-19 pandemic and various other economic factors. Our compensation packages may prove insufficient to attract and retain the best personnel in light of wage pressures resulting from increased competition or labor shortages. Higher employee turnover levels or our failure to recruit and retain new restaurant employees in a timely manner could impact our ability to grow sales at existing restaurants or open new restaurants and also result in higher than projected labor costs.

Trademarks and Service Marks

We regard our trademarks and other service marks related to our restaurant businesses, as having significant value and as being important to our marketing efforts. Our policy is to pursue registration of our important service marks and trademarks and to vigorously oppose any infringement of them. Generally, with appropriate renewal and use, we expect that the registration of our service marks and trademarks will continue indefinitely.

Government Regulation

We are subject to various federal, state and local laws affecting our business. Each restaurant is subject to licensing and regulation by a number of governmental authorities that may include alcoholic beverage control, health, sanitation, environmental, zoning and public safety agencies in the state or municipality in which the restaurant is located. Difficulties in obtaining or failures to obtain the required licenses or approvals could delay or prevent the development and openings of new restaurants, or could disrupt the operations of existing restaurants.

Alcoholic beverage control regulations require each of our restaurants to apply to a state authority and, in certain locations, county and municipal authorities for licenses and permits to sell alcoholic beverages on the premises. Typically, licenses must be renewed annually and may be subject to penalties, temporary suspension or revocation for cause at any time. Alcoholic beverage control regulations impact many aspects of the daily operations of our restaurants, including the minimum ages of patrons and employees consuming or serving such beverages; employee alcoholic beverages training and certification requirements; hours of operation; advertising; wholesale purchasing and inventory control of such beverages; seating of minors and the service of food within our bar areas; and the storage and dispensing of alcoholic beverages. State and local authorities in many jurisdictions routinely monitor compliance with alcoholic beverage laws. The failure to receive or retain, or a delay in obtaining, a liquor license for a particular restaurant could adversely affect our ability to obtain such licenses in jurisdictions where the failure to receive or retain, or a delay in obtaining, a liquor license occurred.

We are subject to “dram-shop” statutes in most of the states in which we have operations, which generally provide a person injured by an intoxicated person the right to recover damages from an establishment that wrongfully served alcoholic beverages to such person. We carry liquor liability coverage as part of our existing comprehensive general liability insurance. A settlement or judgment against us under a “dram-shop” statute in excess of liability coverage could have a material adverse effect on our operations.

Various federal and state labor laws govern our operations and our relationship with employees, including such matters as minimum wages, breaks, overtime, fringe benefits, safety, working conditions and citizenship requirements. We are also subject to the regulations of the U.S. Citizenship and Immigration Services. If our employees do not meet federal citizenship or residency requirements, their deportation could lead to a disruption in our work force. Significant government-imposed increases in

minimum wages, paid leaves of absence and mandated health benefits, or increased tax reporting, assessment or payment requirements related to employees who receive gratuities could be detrimental to our profitability.

Our facilities must comply with the applicable requirements of the Americans With Disabilities Act of 1990 (“ADA”) and related state statutes. The ADA prohibits discrimination on the basis of disability with respect to public accommodations and employment. Under the ADA and related state laws, when constructing new restaurants or undertaking significant remodeling of existing restaurants, we must make them more readily accessible to disabled persons.

We are subject to federal and state environmental regulations, but these rules have not had a material effect on our operations. During fiscal 2025, there were no material capital expenditures for environmental control facilities and no material expenditures for this purpose are anticipated.

Seasonal Nature of Business

Our business is highly seasonal; however, our broader geographical reach as a result of recent acquisitions is expected to continue to mitigate some of the risk. For instance, the second quarter of our fiscal year, consisting of the non-holiday portion of the cold weather season in New York and Washington (January, February and March), is the poorest performing quarter; however, in recent years this has been partially offset by our locations in Florida as they experience increased results in the winter months. We achieve our best results during the warmer weather, attributable to our extensive outdoor dining availability, particularly at *Bryant Park Grill & Café* and *The Porch at Bryant Park* in New York and *Sequoia* in Washington, D.C. (our largest restaurants) and our outdoor cafes. However, even during summer months these facilities can be adversely affected by unusually cool or rainy weather conditions. Our facilities in Las Vegas are indoor and generally operate on a more consistent basis throughout the year, although in recent years the summer months have seen lower traffic.

Available Information

We make available free of charge through our Internet website, www.arkrestaurants.com, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, statements of beneficial ownership of securities on Forms 3, 4 and 5 and amendments to these reports and statements filed or furnished pursuant to Section 13(a) and Section 16 of the Securities Exchange Act of 1934 as soon as reasonably practicable after such materials are electronically filed with, or furnished to, the United States Securities and Exchange Commission, or SEC. These SEC reports can be accessed through the investor relations section of our website. The information found on our website is not part of this or any other report we file with or furnish to the SEC.

The above information is also available at the SEC’s Office of Investor Education and Advocacy at United States Securities and Exchange Commission, 100 F Street, N.E., Washington, D.C. 20549-0213 or obtainable by calling the SEC at (800) 732-0330. In addition, the SEC maintains an Internet website at www.sec.gov, where the above information can be viewed.

Our principal executive offices are located at 85 Fifth Avenue, New York, New York 10003, and our telephone number is (212) 206-8800. Unless the context specifically requires otherwise, the terms the “Company,” “Ark,” “we,” “us” and “our” mean Ark Restaurants Corp., a New York corporation, and its consolidated subsidiaries.

Item 1A. Risk Factors

Not applicable.

Item 1B. Unresolved Staff Comments

Not applicable.

Item 1C. Cybersecurity

Risk Management and Strategy

We have established policies and processes for assessing, identifying, and managing material risks from cybersecurity threats, and have integrated these processes into our overall risk management systems and processes. Management, with the assistance of third party service providers, routinely assesses material risks from cybersecurity threats, including any potential unauthorized occurrence on or conducted through our information systems that may result in adverse effects on the confidentiality, integrity, or availability of our information systems or any information residing therein.

We design and assess our program based on the National Institute of Standards and Technology ("NIST") Cybersecurity Framework ("NIST CSF"). This does not imply that we meet any particular technical standards, specifications, or requirements, but that we use the NIST framework as a guide to help us identify, assess, and manage cybersecurity risks relevant to our business.

We conduct risk assessments at least annually to identify cybersecurity threats based on the NIST CSF. These risk assessments include identifying reasonably foreseeable potential internal and external risks, the likelihood of occurrence and any potential damage that could result from such risks, and the sufficiency of existing policies, procedures, systems, controls and other safeguards we have put in place to manage such risks. Our risk management process also encompasses cybersecurity risks associated with the use of our major third-party vendors and service providers.

Following these risk assessments, we design, implement, and maintain reasonable safeguards to minimize the identified risks; reasonably address any identified gaps in existing safeguards; update existing safeguards as necessary; and monitor the effectiveness of our safeguards.

While cybersecurity threats have not materially affected our business strategy, results of operations or financial condition, future incidents may interrupt our operations and could materially adversely affect our business, results of operations and financial condition.

Governance

Our senior management, including our Chief Executive Officer ("CEO"), Chief Financial Officer ("CFO") and Co-Chief Operating Officers, are responsible for identifying and assessing cybersecurity risks on an ongoing basis, establishing processes designed to provide reasonable assurance that such potential cybersecurity risk exposures are monitored, instituting appropriate mitigation and remediation measures, and maintaining cybersecurity programs. Our cybersecurity program is led by our CFO who has experience in cybersecurity risk management from both a practical and management standpoint and utilizes third-party consulting firms on a regular basis to assist with risk mitigation, incident response and overall maintenance of our cybersecurity program.

The Board of Directors of the Company (the "Board") considers cybersecurity risk as part of its overall risk oversight function. The Board receives updates from the CFO regarding the Company's cybersecurity risk management program at least annually. These include updates on the Company's cybersecurity risks and threats, the status of projects to strengthen the information security systems, assessments of the information security program, and the emerging cybersecurity threat landscape.

Item 2. Properties

Our restaurant facilities and our executive offices, with the exception of *The Rustic Inn* in Dania Beach, Florida, *Shuckers* in Jensen Beach, Florida and the two *Original Oyster House* properties in Alabama, are occupied under leases. Most of our restaurant leases provide for the payment of base rents plus real estate taxes, insurance and other expenses and, in certain instances, for the payment of a percentage of our sales at such facility. As of September 27, 2025, these leases (including leases for managed restaurants) have terms (including any available renewal options) expiring as follows:

<u>Fiscal Year Lease Terms Expire</u>	<u>Number of Facilities</u>
2025-2029	2
2030-2034	5
2035-2039	3
2040-2044	1
2045-2049	1

Our executive, administrative and clerical offices are located in approximately 8,500 square feet of office space at 85 Fifth Avenue, New York, New York. Our lease for this office space expires in 2038.

For information concerning our future lease payments under non-cancelable operating leases, see Note 8 - Leases to the Consolidated Financial Statements.

Item 3. Legal Proceedings

In the ordinary course of our business, we are a party to various lawsuits arising from accidents at our restaurants and workers' compensation claims, which are generally handled by our insurance carriers.

Our employment of management personnel, waiters, waitresses and kitchen staff at a number of different restaurants has resulted in the institution, from time to time, of litigation alleging violation by us of employment discrimination laws. We do not believe that any of such suits will have a material adverse effect upon us, our financial condition or operations.

For a discussion of legal matters as of September 27, 2025, please see Note 10 - Commitments and Contingencies to the Consolidated Financial Statements, which is incorporated by reference into this item.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market For The Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market for Our Common Stock

Our common stock, \$0.01 par value, is traded on the NASDAQ Capital Market under the symbol "ARKR."

On December 9, 2025, there were approximately 23 holders of record of our common stock and the last reported sales price was \$7.09. A substantially greater number of holders of our common stock are "street name" or beneficial holders, whose shares are held by banks, brokers and other financial institutions.

Dividend Policy

On November 8, 2023, February 6, 2024, and May 7, 2024, the Board declared quarterly cash dividends of \$0.1875, \$0.1875, and \$0.1875, respectively, per share, which were paid on December 13, 2023, March 13, 2024, and June 12, 2024, respectively, to the stockholders of record of the Company's common stock at the close of business on November 30, 2023, February 29, 2024, and May 31, 2024, respectively. The Board has not declared any dividends since May 7, 2024. Future decisions to pay or to increase or decrease dividends are at the discretion of the Board and will depend upon operating performance and other factors.

Purchases of Equity Securities by Issuer and Affiliated Purchases

None

Recent Sales of Unregistered Securities

None

Securities Authorized for Issuance under Equity Compensation Plans

The Company has options outstanding under two stock option plans, the 2016 Stock Option Plan and the 2022 Stock Option Plan (the "2022 Plan"). Options granted under both plans are exercisable at prices at least equal to the fair market value of such stock on the dates the options were granted and expire 10 years after the date of grant.

On January 18, 2024, options to purchase 107,500 shares of common stock at an exercise price of \$14.80 per share were granted to officers and directors of the Company under the 2022 Plan. Such options are exercisable as to 25% of the shares commencing on the first anniversary of the date of grant and as to an additional 25% on each yearly anniversary thereafter. The grant date fair value of these stock options was \$4.39 per share and totaled approximately \$472,000.

On December 2, 2024, options to purchase 10,000 shares of common stock at an exercise price of \$9.99 per share were granted to an employee of the Company under the 2022 Plan. Such options are exercisable as to 25% of the shares commencing on the first anniversary of the date of grant and as to an additional 25% on each yearly anniversary thereafter. The grant date fair value of these stock options was \$2.94 per share and totaled approximately \$29,000.

The following is a summary of the securities issued and authorized for issuance under our Stock Option Plans at September 27, 2025:

Plan Category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted average exercise price of outstanding options, warrants and rights	(c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by shareholders	387,500	\$17.66	306,000
Equity compensation plans not approved by shareholders ⁽¹⁾	None	N/A	None
Total	387,500	\$17.66	306,000

Of the 387,500 options outstanding as of September 27, 2025, 159,000 were held by the Company's officers and directors.

(1) The Company has no equity compensation plans that were not approved by shareholders.

The Company also maintains a Section 162(m) Cash Bonus Plan. Under the Company's Section 162(m) Cash Bonus Plan, compensation paid in excess of \$1,000,000 to any employee who is the chief executive officer, or one of the three highest paid executive officers on the last day of that tax year (other than the chief executive officer or the chief financial officer) is not tax deductible.

Item 6. Reserved

Not applicable.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Statement Regarding Forward-Looking Disclosure

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our Consolidated Financial Statements and related notes included under Item 8 of this annual report. This discussion contains forward-looking statements, which involve risks and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of certain factors, including but not limited to, those discussed elsewhere in this annual report. Please see the discussion of forward-looking statements at the beginning of this annual report under "Special Note Regarding Forward-Looking Statements".

Inflation

In recent years, our operating results were impacted by geopolitical and other macroeconomic events, causing supply chain challenges and significantly increased commodity and wage inflation. While we have seen improvements in many of these areas, some of these factors continued to impact our operating results in fiscal 2025. The ongoing impact of these events could lead to further shifts in consumer behavior, wage inflation, staffing challenges, product and services cost inflation, disruptions in our supply chain and delays in opening and acquiring new restaurants. If these factors significantly impact our cash flow in the future, we may again implement mitigation actions such as suspension of dividends, increasing borrowings or modifying our operating strategies. Some of these measures may have an adverse impact on our business, including possible impairments of assets.

Overview

As of September 27, 2025, the Company owned and operated 16 restaurants and bars, 12 fast food concepts and catering operations, exclusively in the United States, that have similar economic characteristics, nature of products and service, class of customer and distribution methods. The Company believes it meets the criteria for aggregating its operating segments into a single reporting segment in accordance with applicable accounting guidance.

Accounting Period

Our fiscal year ends on the Saturday nearest September 30. We report fiscal years under a 52/53-week format. This reporting method is used by many companies in the hospitality industry and is meant to improve year-to-year comparisons of operating results. Under this method, certain years will contain 53 weeks. The fiscal years ended September 27, 2025 and September 28, 2024 both included 52 weeks.

Seasonality

The Company has substantial fixed costs that do not decline proportionally with sales. Although our business is highly seasonal, our broader geographical reach as a result of prior acquisitions is expected to continue to mitigate some of the risk. For instance, the second quarter of our fiscal year, consisting of the non-holiday portion of the cold weather season in New York and Washington (January, February and March), is the poorest performing quarter; however, in recent years this has been partially offset by our locations in Florida as they experience increased results in the winter months. We generally achieve our best results during the warmer weather, attributable to our extensive outdoor dining availability, particularly at *Bryant Park Grill & Café* and *The Porch at Bryant Park* in New York and *Sequoia* in Washington, D.C. (our largest restaurants) and our outdoor cafes. However, even during summer months these facilities can be adversely affected by unusually cool or rainy weather conditions. Our facilities in Las Vegas are indoor and generally operate on a more consistent basis throughout the year, although in recent years the summer months have seen lower traffic.

Recent Developments

Bryant Park Grill

The Company's agreements with the Bryant Park Corporation (the "Landlord") (a private non-profit corporation that operates and maintains Bryant Park under agreements with the City of New York Department of Parks & Recreation), for the *Bryant Park Grill & Café* expired on April 30, 2025 and for *The Porch at Bryant Park* expired on March 31, 2025.

In July of 2023 (for the *Bryant Park Grill & Café*) and September of 2023 (for *The Porch at Bryant Park*), the Company received requests for proposals (the "RFPs") from the Landlord to which we responded on October 26, 2023. The agreements offered under the RFPs for both locations were for new 10-year agreements, with one five-year renewal option. In the second quarter of 2025, the Landlord stated publicly that it had selected a new operator for the *Bryant Park Grill & Café* and *The Porch at Bryant Park*. However, to the best of our knowledge, no agreements between the Landlord and the selected operator have received the approvals of either the City of New York Department of Parks & Recreation or the New York Public Library, of which both approvals are required before any new lease can become effective.

Management has been working with outside advisors to assist our efforts to ensure that the RFP awards process was both fair and transparent and to enforce the Company's right of first lease under our lease agreements, and otherwise to protect the Company's rights with respect to these matters. For a discussion of the related claims filed by the Company, please see Note 10 - Commitments and Contingencies to the Consolidated Financial Statements.

As of the date of this filing, we continue to operate the above properties and intend to do so until we are either awarded the lease extensions or ordered to vacate the premises. The underlying lawsuit filed by the Company to protect its rights continues, and we will pursue all available options to protect the Company's interests.

Management, after consultation with legal counsel, is unable to predict the outcome of this matter at this time. While the outcome of these proceedings cannot be predicted with certainty, the *Bryant Park Grill & Café* and *The Porch at Bryant Park*, collectively, accounted for \$25.5 million and \$31.1 million of our total revenues for the years ended September 27, 2025 and September 28, 2024, respectively, which represented approximately 15.4% and 17.4% of our total revenue for such periods, respectively.

The uncertainty related to this dispute has had a material adverse impact on our business, financial condition, and results of operations and will continue to do so while the dispute is litigated and if we are unable to prevail in the above actions and/or are unable to extend or renew these leases on favorable terms, if at all.

Investment in and Receivable From New Meadowlands Racetrack LLC

Since March 12, 2013, the Company has made investments in the New Meadowlands Racetrack LLC ("NMR") through its purchase of membership interests in Meadowlands Newmark, LLC, an existing member of NMR. As of the date of this report, the Company has made a total investment of \$5,256,000. See Note 4 - Investment in and Receivable from New Meadowlands Racetrack to the Consolidated Financial Statements for a discussion of our investment in NMR and our rights relating to operating the food and beverage concessions at a future gaming facility at the Meadowlands Racetrack.

For several years, New York State has been conducting a bidding process to award up to three downstate casino licenses and on December 1, 2025, the New York State Gaming Facility Location Board approved three applications for casino gaming licenses. The New York State Gaming Commission is expected to issue licenses for the three approved applications by December 31, 2025. Concurrent with the New York process, NMR has been actively pursuing a full casino license to supplement its existing horse racing and sports betting operations. Any gaming license in the state of New Jersey outside of Atlantic City, including at the Meadowlands Racetrack, requires ratification of an amendment to the State of New Jersey constitution, followed by issuance of a license by the New Jersey Casino Control Commission. In May 2025, a Senate Concurrent Resolution was introduced proposing a ballot referendum to authorize casinos at both the Monmouth Park and Meadowlands Racetracks. It requires a three-fifths vote in both legislative chambers to reach the ballot in November 2026. If the referendum passes, NMR aims for a temporary facility potentially opening in 2027 and a permanent one by 2028. In conjunction with such referendum, NMR will need to raise substantial capital to fund a marketing campaign to support the passage of the referendum. To the extent the Company does not contribute to this effort, or if NMR raises outside capital, our interests will be diluted.

There can be no assurances that above referendum will be included in the November 2026 election ballot or that it will pass if it is included. If either of these do not occur, the Company's investment in NMR will be evaluated based on the existing horse racing and sports betting operations and may be subject to substantial impairment.

Results of Operations

The Company's operating loss for the year ended September 27, 2025 (which includes a gain on the closure of *El Rio Grande* of \$173,000, a gain on the termination of our *Tampa Food Court* lease of \$5,235,000, impairment losses on right-of-use and long-lived assets in the amount of \$4,700,000 related to *Sequoia* and a goodwill impairment charge of \$3,440,000) was \$4,064,000, down 5.4% as compared to an operating loss of \$4,294,000 for the year ended September 28, 2024 (which includes a loss on the closure of *El Rio Grande* of \$876,000, impairment losses on right-of-use and long-lived assets in the amount of \$2,500,000 related to *Sequoia* and a goodwill impairment charge of \$4,000,000). Excluding the above items in the current and prior periods, our adjusted operating loss for the year ended September 27, 2025 decreased 143.2% to \$1,331,000 as compared to operating income of \$3,082,000 for the year ended September 28, 2024.

The following table summarizes the significant components of the Company's operating results for the years ended September 27, 2025 and September 28, 2024, respectively:

	Year Ended		Variance	
	September 27, 2025	September 28, 2024	\$	%
REVENUES:	(in thousands)			
Food and beverage sales	\$ 163,312	\$ 179,110	\$ (15,798)	-8.8%
Other revenue	2,439	4,435	(1,996)	-45.0%
Total revenues	165,751	183,545	(17,794)	-9.7%
COSTS AND EXPENSES:				
Food and beverage cost of sales	46,427	49,519	(3,092)	-6.2%
Payroll expenses	60,346	65,844	(5,498)	-8.4%
Occupancy expenses	22,527	24,622	(2,095)	-8.5%
Other operating costs and expenses	22,644	24,125	(1,481)	-6.1%
General and administrative expenses	12,001	12,263	(262)	-2.1%
Depreciation and amortization	3,138	4,090	(952)	-23.3%
(Gain) loss on closure of El Rio Grande	(173)	876	(1,049)	-119.7%
Gain on termination of Tampa Food Court lease	(5,235)	—	(5,235)	N/A
Impairment losses on right-of-use and long-lived assets	4,700	2,500	2,200	88.0%
Goodwill impairment	3,440	4,000	(560)	-14.0%
Total costs and expenses	169,815	187,839	(18,024)	-9.6%
OPERATING LOSS	\$ (4,064)	\$ (4,294)	\$ 230	-5.4%

Revenues

During the year ended September 27, 2025, revenues decreased 9.7% as compared to revenues for the year ended September 28, 2024. We attribute this decrease primarily to the changes in same-store sales discussed below and the closures of *El Rio Grande* and the *Tampa Food Court*.

Food and Beverage Same-Store Sales

On a Company-wide basis, same-store food and beverage sales for the year ended September 27, 2025 decreased 4.2% as compared with the year ended September 28, 2024 as follows:

	Year Ended		Variance	
	September 27, 2025	September 28, 2024	\$	%
	(in thousands)			
Las Vegas	\$ 53,714	\$ 55,794	\$ (2,080)	-3.7%
New York	30,430	34,133	(3,703)	-10.8%
Washington, D.C.	7,773	9,135	(1,362)	-14.9%
Atlantic City, NJ	2,626	2,923	(297)	-10.2%
Alabama	17,454	17,885	(431)	-2.4%
Florida	48,939	48,149	790	1.6%
Same-store sales	160,936	168,019	<u>\$ (7,083)</u>	<u>-4.2%</u>
Other	2,376	11,091		
Food and beverage sales	<u>\$ 163,312</u>	<u>\$ 179,110</u>		

Same-store sales in Las Vegas decreased 3.7% as a result of lower customer traffic. Same-store sales in New York decreased 10.8% which we attribute primarily to decreases in both catering and a la carte revenue at the *Bryant Park Grill* as a result of the negative publicity related to our dispute with the landlord. Same-store sales in Washington, D.C. decreased 14.9% which we attribute primarily to lower headcounts as a result of challenging conditions associated with hybrid work schedules, government layoffs and elevated crime rates. Same-store sales in Atlantic City, NJ decreased 10.2% which we primarily attribute to lower customer traffic at the property where we are located. Same-store sales in Alabama decreased 2.4% which we attribute primarily to lower customer traffic as a result of economic pressures on the customers who frequent our properties. Same-store sales in Florida increased 1.6% which we attribute primarily to menu price increases.

Our restaurants generally do not achieve substantial increases in revenue from year to year, which we consider to be typical of the restaurant industry. To achieve significant increases in revenue or to replace revenue of restaurants that lose customer favor or which close because of lease expirations or other reasons, we would have to open additional restaurant facilities or expand existing restaurants. There can be no assurance that a restaurant will be successful after it is opened, particularly since in many instances we do not operate our new restaurants under a trade name currently used by us, thereby requiring new restaurants to establish their own identity.

Other Revenues

Included in other revenues are food and beverage sales related to properties that were closed during the respective period, merchandise sales, rental income, property management fees and other rentals as well as, in 2024, purchase service fees related to an affiliate that the Company no longer has an interest in, which represent commissions earned for providing services to other restaurant groups. The decrease in other revenues for the year ended September 27, 2025, as compared to the year ended September 28, 2024, is primarily due to the sales related to *El Rio Grande* and the *Tampa Food Court* (which were closed in December 2024) and purchase service fees in the amount of \$1,337,000 in the prior year.

Costs and Expenses

Costs and expenses for the years ended September 27, 2025 and September 28, 2024 were as follows (in thousands):

	Year Ended September 27, 2025	% to Total Revenues	Year Ended September 28, 2024	% to Total Revenues	Increase (Decrease)	
					\$	%
Food and beverage cost of sales	\$ 46,427	28.0%	\$ 49,519	27.0%	\$ (3,092)	-6.2%
Payroll expenses	60,346	36.4%	65,844	35.9%	(5,498)	-8.4%
Occupancy expenses	22,527	13.6%	24,622	13.4%	(2,095)	-8.5%
Other operating costs and expenses	22,644	13.7%	24,125	13.1%	(1,481)	-6.1%
General and administrative expenses	12,001	7.2%	12,263	6.7%	(262)	-2.1%
Depreciation and amortization	3,138	1.9%	4,090	2.2%	(952)	-23.3%
(Gain) loss on closure of El Rio Grande	(173)	-0.1%	876	0.5%	(1,049)	-119.7%
Gain on termination of Tampa Food Court lease	(5,235)	-3.2%	—	—%	(5,235)	N/A
Impairment losses on right-of-use and long-lived assets	4,700	2.8%	2,500	1.4%	2,200	88.0%
Goodwill impairment	3,440	2.1%	4,000	2.2%	(560)	-14.0%
Total costs and expenses	<u>\$ 169,815</u>		<u>\$ 187,839</u>		<u>\$ (18,024)</u>	-9.6%

Food and beverage costs as a percentage of total revenues for the year ended September 27, 2025 increased as compared to last year as a result of increases in commodity prices, which had been easing for several quarters, combined with a weaker event business in New York City and Washington, D.C. in the current year compared to the prior year.

Payroll expenses as a percentage of total revenues for the year ended September 27, 2025 increased marginally as compared to last year as a result of increasing minimum wages in the states where we operate partially offset by better shift management and related overtime hours.

Occupancy expenses as a percentage of total revenues for the year ended September 27, 2025 increased marginally as compared to last year primarily as a result of increases in base rents and increases in property and liability insurance premiums partially offset by lower percentage rents as a result of the sales decreases discussed above.

Other operating costs and expenses as a percentage of total revenues for the year ended September 27, 2025 increased as compared to last year primarily as a result of inflation and restaurant-level legal fees incurred in connection with the *Bryant Park Grill & Café* and *The Porch at Bryant Park* dispute with the landlord.

General and administrative expenses (which relate solely to the corporate office in New York City) for the year ended September 27, 2025 decreased marginally as compared to last year primarily as a result of the reversal of compensation expense in the prior year in the amount of \$1,134,000 related to options that expired or were cancelled unexercised partially offset by increased legal and consulting expenses.

Depreciation and amortization expense for the year ended September 27, 2025 decreased compared to last year primarily as a result of certain assets becoming fully depreciated and the removal of assets associated with *El Rio Grande* and the *Tampa Food Court*.

(Gain) Loss on Closure of El Rio Grande

In October 2024, the Company advised the landlord of *El Rio Grande* we would be terminating the lease and closing the property permanently. In connection with this notification, the Company recorded a loss of \$876,000 during the year ended September 28, 2024. The property closed permanently on January 3, 2025 and was vacated and delivered to the landlord on April 30, 2025. During the year ended September 27, 2025, the Company recognized a gain of \$173,000 as a result of refinements of estimates.

Gain on Termination of Tampa Food Court Lease

On November 26, 2024, the Company agreed to terminate its lease for the food court at The Hard Rock Hotel and Casino in Tampa, FL and, accordingly, vacated the premises on December 15, 2024. In connection with this, Ark Hollywood/Tampa Investment LLC, a subsidiary of the Company, (in which we own a 65% interest) received a termination payment in the amount of \$5,500,000, all obligations under the lease ceased and we recorded a gain, primarily net of write-offs of ROU and long-lived assets, in the amount of \$5,235,000 during the year ended September 27, 2025 and Ark Hollywood/Tampa Investment LLC distributed approximately \$1,710,000 of the net proceeds, after expenses, to the other equity holders of Ark Hollywood/Tampa Investment LLC.

Impairment Losses on Right-of-Use and Long-lived Assets

During the year ended September 28, 2024, impairment indicators were identified at our *Sequoia* property located in Washington, D.C. due to lower-than-expected operating results. Accordingly, the Company tested the recoverability of *Sequoia's* ROU and long-lived assets and concluded they were not recoverable. Based on a discounted cash flow analysis, the Company recognized impairment charges of \$1,561,000 and \$939,000 related to *Sequoia's* ROU assets and long-lived assets, respectively. The Company continued to monitor the performance of *Sequoia* throughout fiscal 2025 and, as a result of lower than expected operating results, we tested the recoverability of its ROU and long-lived assets again and, based on a discounted cash flow analysis, we recognized additional impairment charges of \$2,940,000 and \$1,760,000 during the year ended September 27, 2025 related to *Sequoia's* ROU and long-lived assets, respectively.

Goodwill Impairment

Goodwill is the excess of cost over fair market value of tangible and intangible net assets acquired. Goodwill is not presently amortized but tested for impairment annually or when the facts or circumstances indicate a possible impairment of goodwill as a result of a continual decline in performance or as a result of fundamental changes in a market.

In accordance with ASU 350-20, *Intangibles—Goodwill and Other*, the Company identified a triggering event during the three months ended March 29, 2025 primarily related to a decline in the Company's stock price during the second quarter of fiscal 2025 and the continued uncertainty related to the expiration of the *Bryant Park Grill & Café* and *The Porch at Bryant Park* leases (see Note 10 - Commitments and Contingencies). As a result, the Company performed an interim quantitative impairment test, and based on the results of the assessment, the fair value of our equity was determined to be less than its carrying amount. Accordingly, the Company recognized a non-cash impairment charge of the remaining balance of its goodwill in the amount of \$3,440,000 in our consolidated statement of operations for the year ended September 27, 2025.

As of September 28, 2024, the Company performed a qualitative assessment of its goodwill whereby the fair value of the equity was determined using the income approach. Given the relatively low volume of shares traded as of September 28, 2024, the Company determined the income approach provided the best approximation of fair value. In the income approach, we utilized a discounted cash flow analysis, which involved estimating the expected future after-tax cash flows generated and then discounting those cash flows to present value, reflecting the relevant risks associated with the achievement of projected cash flows, the possibility that the *Bryant Park Grill & Café* and *The Porch at Bryant Park* leases may not be renewed beyond their expirations on April 30, 2025, and the time value of money. This approach required the use of significant estimates and assumptions, including forecasted revenue growth rates, forecasted cash flows from operations, and discount rates that reflect the risk inherent in the future cash flows. Based on the impairment analysis, the carrying amount of our equity exceeded its estimated fair value, which indicated an impairment of the carrying value of our goodwill at September 28, 2024. Accordingly, during the fourth quarter of fiscal 2024, the Company recorded a goodwill impairment charge of \$4,000,000, of which \$4,000,000 was deductible for tax purposes and resulted in a deferred income tax benefit of \$1,074,000. Such impairment was attributed to factors such as, but not limited to, a decrease in the market price of the Company's common stock and lower than expected profitability.

Income Taxes

Our income tax expense, deferred tax assets and liabilities, and liabilities for uncertain tax positions reflect management's best estimate of current and future taxes to be paid. We are subject to income tax in various state taxing jurisdictions. Significant judgment and estimates are required in the determination of consolidated income tax expense. The provision for income taxes reflects federal and state income taxes.

Deferred income taxes arise from temporary differences between the tax bases of assets and liabilities and their reported amounts in the consolidated financial statements, which will result in taxable or deductible amounts in the future. In evaluating our ability to recover our deferred tax assets in the jurisdiction from which they arise, we consider all available positive and negative evidence, including scheduled reversals of deferred tax liabilities, projected future taxable income, tax-planning strategies, and results of recent operations. As of September 27, 2025, as a result of recent cumulative losses, we have recorded a full valuation allowance against our deferred tax assets. If these estimates and assumptions change in the future, the Company may be required

to reduce its existing valuation allowance resulting in less income tax expense. The Company evaluates the likelihood of realizing its deferred tax assets at each interim period based on the weight of available evidence.

On July 4, 2025, President Trump signed H.R. 1, the “One Big Beautiful Bill Act” (“OBBBA”) into law. The OBBBA makes permanent many of the tax provisions previously enacted as part of the 2017 Tax Cut and Jobs Act that were set to expire at the end of 2025. The OBBBA also includes (i) the restoration of immediate expensing for domestic research and development expenditures, (ii) the reinstatement of 100% bonus depreciation for qualified property and (iii) favorably modifying the Internal Revenue Code Section 163(j) interest limitation from tax adjusted EBIT to EBITDA. FASB Topic 740, Income Taxes, requires the tax effects of changes in tax laws or rates be recognized in the period in which the law is enacted. The enactment of the OBBBA did not have a material impact on the Company’s effective tax rate, or deferred tax balances as of September 27, 2025.

Liquidity and Capital Resources

Our primary source of capital has been cash provided by operations and, in recent years, bank and other borrowings to finance specific transactions, acquisitions and large remodeling projects. We utilize cash generated from operations to fund the cost of developing and opening new restaurants and smaller remodeling projects of existing restaurants we own. Consistent with many other restaurant operators, we typically use operating lease arrangements for our restaurants. In recent years, we have been able to acquire the underlying real estate at several locations along with the restaurant operation. We believe that our operating lease arrangements provide appropriate leverage of our capital structure in a financially efficient manner.

As of September 27, 2025, we had a cash and cash equivalents balance of \$11,324,000. The Company had a working capital deficit of \$5,377,000 at September 27, 2025 as compared to working capital deficit of \$10,659,000 at September 28, 2024. This decrease in the deficit is primarily the result of the payment received in connection with the termination of the *Tampa Food Court* lease, amendments to the due dates of our notes payable and proceeds from the sales of the two condominiums, partially offset by operating losses and capital expenditures in connection with the renovations at our properties in Las Vegas (see Management’s Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources - *Restaurant Expansion and Other Developments*).

We believe that our existing cash balances, internal cash-generating capabilities, current banking facilities and ability to secure additional financing, if necessary, are sufficient to finance our capital expenditures, debt maturities and other operating activities for at least the next 12 months and the foreseeable future.

Inflation

While we have been able to partially offset inflation and other changes in the costs of key operating resources by targeted increases in menu prices, coupled with more efficient purchasing practices, there can be no assurance that we will be able to continue to do so in the future. From time to time, competitive conditions will limit our menu pricing flexibility. In addition, macroeconomic conditions that impact consumer discretionary spending for food away from home could make additional menu price increases imprudent. There can be no assurance that all of our future cost increases can be offset by higher menu prices or that higher menu prices will be accepted by our restaurant customers without any resulting changes in their visit frequencies or purchasing patterns.

Cash Flows for the Years Ended September 27, 2025 and September 28, 2024

Net cash provided by operating activities for the year ended September 27, 2025 decreased to \$1,752,000 as compared to \$4,654,000 for the year ended September 28, 2024. This decrease resulted primarily from a decrease in operating income, excluding the previously discussed (i) gain on the termination of our *Tampa Food Court* lease of \$5,235,000 in fiscal 2025, (ii) impairment charges related to *Sequoia’s* ROU and long-lived assets of \$4,700,000 and \$2,500,000 in fiscal 2025 and fiscal 2024, respectively, (iii) goodwill impairment charges of \$3,440,000 and \$4,000,000 in fiscal 2025 and fiscal 2024, respectively, and (iv) effects of the closure of *El Rio Grande* in both periods, partially offset by changes in working capital related to accounts receivable and accrued expenses.

Net cash provided by investing activities for the year ended September 27, 2025 was \$3,427,000 compared to net cash used in investing activities of \$2,392,000 for the year ended September 28, 2024. This increase resulted primarily from the payment received in connection with the termination of our *Tampa Food Court* lease and the proceeds received from the sale of condominiums partially offset by higher purchases of fixed assets.

Net cash used in financing activities for the years ended September 27, 2025 and September 28, 2024 was \$4,128,000 and \$5,404,000, respectively, and resulted primarily from principal payments on notes payable and the payment of distributions to non-controlling interests and in the prior year the payment of dividends.

On November 8, 2023, February 6, 2024, and May 7, 2024, the Board declared quarterly cash dividends of \$0.1875, \$0.1875, and \$0.1875, respectively, per share, which were paid on December 13, 2023, March 13, 2024, and June 12, 2024, respectively, to the stockholders of record of the Company's common stock at the close of business on November 30, 2023, February 29, 2024, and May 31, 2024, respectively. The Board has not declared any dividends since May 7, 2024. Future decisions to pay dividends are at the discretion of the Board and will depend upon operating performance and other factors.

Recent Developments

Bryant Park Grill

As further described above in the “Overview” section of the Management’s Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this Annual Report, the Company's agreements with the Bryant Park Corporation for the *Bryant Park Grill & Café* expired on April 30, 2025 and for *The Porch at Bryant Park* expired on March 31, 2025.

As of the date of this filing, we continue to operate the above properties and intend to do so until we are either awarded the lease extensions or ordered to vacate the premises. The underlying lawsuit filed by the Company to protect its rights continues, and we will pursue all available options to protect the Company's interests.

Management, after consultation with legal counsel, is unable to predict the outcome of this matter at this time. While the outcome of these proceedings cannot be predicted with certainty, the *Bryant Park Grill & Café* and *The Porch at Bryant Park*, collectively, accounted for \$25.5 million and \$31.1 million of our total revenues for the years ended September 27, 2025 and September 28, 2024, respectively, which represented approximately 15.4% and 17.4% of our total revenue for such periods, respectively.

The uncertainty related to this dispute has had a material adverse impact on our business, financial condition, and results of operations and will continue to do so while the dispute is litigated and if we are unable to prevail in the above actions and/or are unable to extend or renew these leases on favorable terms, if at all.

Investment in and Receivable from New Meadowlands Racetrack LLC

As further described above in the “Overview” section of the Management’s Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this Annual Report, since March 2013, the Company has made investments in New Meadowlands Racetrack LLC (“NMR”) through its purchase of membership interests in Meadowlands Newmark, LLC, an existing member of NMR. As of the date of this report, the Company has made a total investment of \$5,256,000.

In May 2025, a Senate Concurrent Resolution was introduced proposing a ballot referendum to authorize casinos at both the Monmouth Park and Meadowlands Racetracks. It requires a three-fifths vote in both legislative chambers to reach the ballot in November 2026. If the referendum passes, NMR aims for a temporary facility potentially opening in 2027 and a permanent one by 2028.

In conjunction with such referendum, NMR will need to raise substantial capital to fund a marketing campaign to support the passage of the referendum. To the extent the Company does not contribute to this effort, or if NMR raises outside capital, our interests will be diluted.

There can be no assurances that the above referendum will be included in the November 2026 election ballot or that it will pass if it is included. If either of these do not occur, the Company’s investment in NMR will be evaluated based on the existing horse racing and sports betting operations and may be subject to substantial impairment.

Restaurant Expansion and Other Developments

On June 24, 2022, the Company extended its lease for *America* at the New York-New York Hotel and Casino in Las Vegas, NV through December 31, 2033. In connection with the extension, the Company has agreed to spend a minimum of \$4,000,000 to materially refresh the premises by March 31, 2026, as extended, subject to further extension as set out in the agreement. To date approximately \$1,600,000 has been spent on this refresh.

On July 21, 2022, the Company extended its lease for the *Village Eateries* at the New York-New York Hotel and Casino in Las Vegas, NV through December 31, 2034. As part of this extension, the *Broadway Burger Bar and Grill* and *Gonzalez y Gonzalez*, were carved out of the *Village Eateries* footprint and the extended date for those two locations is December 31, 2033. In connection with the extension, the Company has agreed to spend a minimum of \$3,500,000 to materially refresh all three of these premises by December 31, 2025, as extended. As part of this refresh, on November 11, 2024, the Company opened a new

concept called *Lucky Pig* in the *Village Eateries* at a cost of approximately \$850,000. In addition, the Company has spent an additional \$950,000 to date on refreshing *Broadway Burger Bar and Grill*, *Gonzalez y Gonzalez* and other areas of the *Village Eateries*. We expect to complete all work related to these projects by December 31, 2025.

Each of the above refresh obligations are to be consistent with designs approved by the landlord which shall not be unreasonably withheld. We have and will continue to pay all rent as required by the leases without abatement during construction. Note that our substantial completion of work set forth in plans approved by the landlord shall constitute our compliance with the requirements of the completion deadlines, regardless of whether or not the amount actually expended in connection therewith is less than the minimum.

Our restaurants generally do not achieve substantial increases in revenue from year to year, which we consider to be typical of the restaurant industry. To achieve significant increases in revenue or to replace revenue of restaurants that lose customer favor or which close because of lease expirations or other reasons, we would have to open additional restaurant facilities or expand existing restaurants. There can be no assurance that a restaurant will be successful after it is opened, particularly since in many instances we do not operate our new restaurants under a trade name currently used by us, thereby requiring new restaurants to establish their own identity.

We may take advantage of other opportunities we consider to be favorable, when they occur, depending upon the availability of financing and other factors.

Recent Restaurant Dispositions

In October 2024, the Company advised the landlord of *El Rio Grande* we would be terminating the lease and closing the property permanently. In connection with this notification, the Company recorded a loss of \$876,000 during the year ended September 28, 2024. The property closed permanently on January 3, 2025 and was vacated and delivered to the landlord on April 30, 2025. During the year ended September 27, 2025, the Company recognized a gain in the amount of \$173,000 as a result of refinements of estimates.

On November 26, 2024, a subsidiary of the Company, in which we own a 65% interest, Ark Hollywood/Tampa Investment LLC agreed to terminate its lease for the food court at The Hard Rock Hotel and Casino in Tampa, FL and, accordingly, vacated the premises on December 15, 2024. In connection with this agreement all obligations under the lease ceased and Ark Hollywood/Tampa Investment LLC received a termination payment in the amount of \$5,500,000. Accordingly, a gain, primarily net of write-offs of ROU and long-lived assets, in the amount of \$5,235,000 was recognized during the year ended September 27, 2025 and Ark Hollywood/Tampa Investment LLC distributed approximately \$1,710,000 of the net proceeds, after expenses, to the other equity holders of Ark Hollywood/Tampa Investment LLC.

During the year ended September 27, 2025, the Company sold three of the 14 condominium units it owns at the *Island Beach Resort* in Jensen Beach, FL which is adjacent to our *Shuckers* restaurant. In connection with the sales, the Company received net proceeds of \$1,203,000 and recorded a gain of \$594,000. The Company intends to sell the remaining units subject to market forces.

Notes Payable – Bank

On March 30, 2023, the Company entered into a Second Amended and Restated Credit Agreement (the “Credit Agreement”), with its lender, Bank Hapoalim B.M. (“BHBM”) which originally matured on June 1, 2025. On May 29, 2025, the Company entered into an Omnibus Amendment to the Credit Agreement which: (i) extended the maturity date of the Credit Agreement to June 1, 2028, (ii) amended the terms of the outstanding promissory notes as further discussed in Note 9 - Notes Payable to the Consolidated Financial Statements; (iii) reduced the maximum permitted obligations outstanding under the Credit Agreement from \$30,000,000 to \$20,000,000 (including the outstanding promissory notes), (iv) increased the minimum tangible net worth covenant from \$22,000,000 to \$28,000,000, and (v) removed the annual net income covenant. Advances and loans under the Credit Agreement bear interest, at the Company's election at the time of the advance, at either BHBM's prime rate of interest plus a 0.45% spread or SOFR plus a 3.65% spread. In addition, there is a 0.30% per annum fee for any unused portion of the facility. As of September 27, 2025, no advances were outstanding under the Credit Agreement. As of September 27, 2025, the weighted average interest on the outstanding BHBM indebtedness was approximately 8.0%.

Borrowings under the Credit Agreement, which include the promissory notes as discussed in Note 9 of the consolidated financial statements in the aggregate amount of \$3,609,000, are secured by all tangible and intangible personal property (including accounts receivable, inventory, equipment, general intangibles, documents, chattel paper, instruments, letter-of-credit rights, investment property, intellectual property and deposit accounts) and fixtures of the Company.

The loan agreements provide, among other things, that the Company meet minimum quarterly tangible net worth amounts and maintain a minimum fixed charge coverage ratio. The loan agreements also contain customary representations, warranties and affirmative covenants as well as customary negative covenants, subject to negotiated exceptions on liens, relating to other indebtedness, capital expenditures, liens, affiliate transactions, disposal of assets and certain changes in ownership.

Critical Accounting Policies and Estimates

Our significant accounting policies are more fully described in Note 1 to our consolidated financial statements. While all of these significant accounting policies impact our financial condition and results of operations, we view certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our consolidated financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates.

We believe that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause a material effect on our consolidated results of operations, financial position or cash flows for the periods presented in this report.

Below are listed certain policies that management believes are critical:

Revenue Recognition

We recognize revenue when it satisfies a performance obligation by transferring control over a product or service to a restaurant guest or other customer. Revenues from restaurant operations are presented net of discounts, coupons, employee meals and complimentary meals and recognized when food, beverage and retail products are sold. Sales tax collected from customers is excluded from sales and the obligation is included in sales tax payable until the taxes are remitted to the appropriate taxing authorities. Catering service revenue is generated through contracts with customers whereby the customer agrees to pay a contract rate for the service. Revenues from catered events are recognized in income upon satisfaction of the performance obligation (the date the event is held) and all customer payments, including nonrefundable upfront deposits, are deferred as a liability until such time.

Revenues from gift cards are deferred and recognized upon redemption. Deferrals are not reduced for potential non-use as we generally have a legal obligation to remit the value of unredeemed gift cards to the relevant jurisdictions in which they are sold.

Other revenues include purchase service fees which represent commissions earned by a subsidiary of the Company for providing purchasing services to other restaurant groups, as well as license fees, property management fees and other rentals.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates are used for, but are not limited to: (i) projected cash flows related to asset impairments, including goodwill and intangibles, (ii) income tax valuation allowances for deferred tax assets, (iii) assumptions regarding discount rates related to lease accounting, (iv) the useful lives and recoverability of our long-lived assets, such as fixed assets and intangibles, (v) uncertain tax positions, and (vi) determining when investment impairments are other-than-temporary. The Company's accounting estimates require the use of judgment as future events and the effect of these events cannot be predicted with certainty. The accounting estimates may change as new events occur, as more experience is acquired and as more information is obtained. The Company evaluates and updates assumptions and estimates on an ongoing basis and may use outside experts to assist in the Company's evaluation, as considered necessary. Actual results could differ from those estimates.

Long-Lived Assets

Long-lived assets, such as property, plant and equipment subject to amortization, and right-of-use assets ("ROU assets") are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In the evaluation of the fair value and future benefits of long-lived assets, the Company performs an analysis of the anticipated undiscounted future net cash flows of the related long-lived assets. If the carrying value of the related asset exceeds the undiscounted cash flows, the carrying value is reduced to its fair value. Various factors including estimated future sales growth and estimated profit margins are included in this analysis.

The Company considers a triggering event related to long-lived or ROU assets in a net asset position to have occurred related to a specific restaurant if the restaurant's cash flows for the last 12 months are less than a minimum threshold or if consistent levels of undiscounted cash flows for the remaining lease period are less than the carrying value of the restaurant's assets. Additionally, the Company considers a triggering event related to ROU assets to have occurred related to a specific lease if the location has been subleased and future estimated sublease income is less than current lease payments. If the Company concludes that the carrying value of certain long-lived and ROU assets will not be recovered based on expected undiscounted future cash flows, an impairment loss is recorded to reduce the long-lived or ROU assets to their estimated fair value. The fair value is measured on a nonrecurring basis using unobservable (Level 3) inputs. There is uncertainty in the projected undiscounted future cash flows used in the Company's impairment review analysis, which requires the use of estimates and assumptions. If actual performance does not achieve the projections, or if the assumptions used change in the future, the Company may be required to recognize impairment charges in future periods, and such charges could be material.

During the year ended September 28, 2024, impairment indicators were identified at our *Sequoia* property located in Washington, D.C. due to lower-than-expected operating results. Accordingly, the Company tested the recoverability of *Sequoia's* ROU and long-lived assets and concluded they were not recoverable. Based on a discounted cash flow analysis, the Company recognized impairment charges of \$1,561,000 and \$939,000 related to *Sequoia's* ROU and long-lived assets, respectively. The Company continued to monitor the performance of *Sequoia* throughout fiscal 2025 and, as a result of lower than expected operating results we tested the recoverability of its ROU and long-lived assets again and based on a discounted cash flow analysis, we recognized additional impairment charges of \$2,940,000 and \$1,760,000 during the year ended September 27, 2025 related to *Sequoia's* ROU and long-lived assets, respectively.

Recoverability of Investment in New Meadowlands Racetrack ("NMR")

The carrying value of our investment in Meadowlands Newmark LLC, which has a 63.7% ownership in NMR, is determined using the cost method. In accordance with the cost method, our initial investment is recorded at cost and we record dividend income when applicable, if dividends are declared. We review our investment in NMR each reporting period to determine whether a significant event or change in circumstances has occurred that may have an adverse effect on its fair value.

As a result, we performed an assessment of the recoverability of our indirect investment in NMR as of September 27, 2025 which involved critical accounting estimates. These estimates require significant management judgment, include inherent uncertainties and are often interdependent; therefore, they do not change in isolation. Factors that management estimated include, among others, the probability of gambling being approved in northern New Jersey and NMR obtaining a license to operate a casino, revenue levels, cost of capital, marketing spending, tax rates and capital spending.

In performing this assessment, we estimate the fair value of our investment in NMR using our best estimate of these assumptions which we believe would be consistent with what a hypothetical marketplace participant would use. The variability of these factors depends on a number of conditions, including uncertainty about future events and our inability as a minority shareholder to control certain outcomes and, thus, our accounting estimates may change from period to period. If other assumptions and estimates had been used when these tests were performed, impairment charges could have resulted.

As mentioned above, these factors do not change in isolation and, therefore, we do not believe it is practicable or meaningful to present the impact of changing a single factor. Furthermore, if management uses different assumptions or if different conditions occur in future periods, future impairment charges could result. See Note 4 - Investment in and Receivable from New Meadowlands Racetrack LLC to the Consolidated Financial Statements for additional discussion.

Leases

We determine if an arrangement contains a lease at inception. An arrangement contains a lease if it implicitly or explicitly identifies an asset to be used and conveys the right to control the use of the identified asset in exchange for consideration. As a lessee, we include operating leases in Operating lease ROU assets and Operating lease liabilities in our consolidated balance sheet. ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized upon commencement of the lease based on the present value of the lease payments over the lease term. As most of our leases do not provide an implicit interest rate, we use our incremental borrowing rate based on the information available at commencement date to determine the present value of lease payments. Our lease terms may include options to extend or terminate the lease. Options are included when it is reasonably certain that we will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term. Amendments or modifications to lease terms are accounted for as variable lease payments. Leases with a lease term of 12 months or less are accounted for using the practical expedient which allows for straight-line rent expense over the remaining term of the lease.

Deferred Income Tax Valuation Allowance

We provide such allowance due to uncertainty that some of the deferred tax amounts may not be realized. Certain items, such as state and local tax loss carryforwards, are dependent on future earnings or the availability of tax strategies. Future results could require an increase or decrease in the valuation allowance and a resulting adjustment to income in such period.

Goodwill and Trademarks

Goodwill and trademarks are not amortized, but are subject to impairment analysis. We assess the potential impairment of goodwill and trademarks annually (at the end of our fourth quarter) and on an interim basis whenever events or changes in circumstances indicate that the carrying value may not be recoverable. If we determine through the impairment review process that goodwill or trademarks are impaired, we record an impairment charge in our consolidated statements of operations.

With respect to goodwill, the Company assesses qualitative factors to determine whether it is necessary to perform a more detailed quantitative impairment test. The Company may elect to bypass the qualitative assessment and proceed directly to the quantitative test. When performing the quantitative test, an impairment loss is recognized if the carrying value of our equity, including goodwill, exceeds its fair value.

In accordance with ASU 350-20, *Intangibles—Goodwill and Other*, the Company identified a triggering event during the three months ended March 29, 2025 primarily related to a decline in the Company's stock price during the second quarter of fiscal 2025 and the continued uncertainty related to the expiration of the *Bryant Park Grill & Café* and *The Porch at Bryant Park* leases (see Note 10 - Commitments and Contingencies). As a result, the Company performed an interim quantitative impairment test and based on the results of the assessment, the fair value of our equity was determined to be less than its carrying amount. Accordingly, the Company recognized a non-cash impairment charge of the remaining balance of its goodwill in the amount of \$3,440,000 in our consolidated statement of operations for the year ended September 27, 2025.

As of September 28, 2024, the Company performed a qualitative assessment of its goodwill whereby the fair value of the equity was determined using the income approach. Given the relatively low volume of shares traded as of September 28, 2024, the Company determined the income approach provided the best approximation of fair value. In the income approach, we utilized a discounted cash flow analysis, which involved estimating the expected future after-tax cash flows generated and then discounting those cash flows to present value, reflecting the relevant risks associated with the achievement of projected cash flows, the possibility that the *Bryant Park Grill & Café* and *The Porch at Bryant Park* leases may not be renewed beyond their expirations on April 30, 2025, and the time value of money. This approach required the use of significant estimates and assumptions, including forecasted revenue growth rates, forecasted cash flows from operations, and discount rates that reflect the risk inherent in the future cash flows. Based on the impairment analysis, the carrying amount of our equity exceeded its estimated fair value, which indicated an impairment of the carrying value of our goodwill at September 28, 2024. Accordingly, during the fourth quarter of fiscal 2024, the Company recorded a goodwill impairment charge of \$4,000,000, of which \$4,000,000 was deductible for tax purposes and resulted in a deferred income tax benefit of \$1,074,000. Such impairment was attributed to factors such as, but not limited to, a decrease in the market price of the Company's common stock and lower than expected profitability.

Our impairment analysis for trademarks consists of a comparison of the fair value to the carrying value of the assets. This comparison is made based on a review of historical, current and forecasted sales and profit levels, as well as a review of any factors that may indicate potential impairment. For the years ended September 27, 2025 and September 28, 2024, our impairment analysis did not result in any other charges related to trademarks.

Recently Adopted and Issued Accounting Standards

See Note 1 of Notes to Consolidated Financial Statements for a description of recent accounting pronouncements, including those adopted in fiscal 2025 and the expected dates of adoption and the anticipated impact on the consolidated financial statements.

Recent Developments

None

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

Item 8. Financial Statements and Supplementary Data

Our consolidated financial statements are included in this report immediately following Part IV.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of September 27, 2025 (the end of the period covered by this report), management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, at the end of such period, our disclosure controls and procedures were effective and provided reasonable assurance that information required to be disclosed in our periodic SEC filings is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of such possible controls and procedures.

Management's Annual Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Exchange Act Rule 13a-15(f), and for performing an assessment of the effectiveness of internal control over financial reporting as of September 27, 2025. Internal control over financial reporting is a process designed by, or under the supervision of, our principal executive and principal financial officers, or persons performing similar functions, and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that receipts and expenditures are being made only in accordance with authorizations; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Management performed an assessment of the effectiveness of our internal control over financial reporting as of September 27, 2025 based upon the criteria set forth in Internal Control — Integrated Framework issued by the 2013 Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on our assessment, management determined that our internal control over financial reporting was effective as of September 27, 2025.

This Annual Report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting as management's report was not subject to attestation by our independent registered public accounting firm pursuant to the permanent exemption of the SEC that permits us to provide only management's report in this annual report.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during the fourth quarter of fiscal 2025 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting, other than changes to certain restaurant-level procedures with respect to approval limits and reconciliation procedures.

Limitations of the Effectiveness of Internal Control

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the internal control system are met. Because of the inherent limitations of any internal control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.

Item 9B. Other Information

Insider Trading Arrangements

During the 2025 fiscal year, none of our directors or executive officers adopted Rule 10b5-1 trading plans and none of our directors or executive officers terminated a Rule 10b5-1 trading plan or adopted or terminated a non-Rule 10b5-1 trading arrangement (as defined in item 408(c) of Regulation S-K).

Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

Information relating to our directors and executive officers is incorporated by reference to the definitive proxy statement for our annual meeting of stockholders to be filed with the Securities and Exchange Commission (the “SEC”) pursuant to Regulation 14A no later than 120 days after the end of the fiscal year covered by this form (the “Proxy Statement”). Information relating to compliance with Section 16(a) of the Exchange Act is incorporated by reference to the Proxy Statement.

Code of Ethics

We have adopted a code of ethics (which includes our insider trading policy) that applies to our principal executive officer, principal financial officer, principal accounting officer or controller, and persons performing similar functions. A copy is available free of charge through our Internet website, www.arkrestaurants.com, under the “Investors-Corporate Governance” caption. We intend to satisfy the disclosure requirement under Item 5.05 of Current Report on Form 8-K regarding an amendment to, or waiver from, a provision of this code by posting such information on our website, at the address specified above.

Item 11. Executive Compensation

The information required by this item is incorporated herein by reference to the Proxy Statement which will be filed no later than 120 days after September 27, 2025.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this item is incorporated herein by reference to the Proxy Statement which will be filed no later than 120 days after September 27, 2025.

Item 13. Certain Relationships and Related Transactions and Director Independence

The information required by this item is incorporated herein by reference to the Proxy Statement which will be filed no later than 120 days after September 27, 2025.

Item 14. Principal Accountant Fees and Services

The information required by this item is incorporated herein by reference to the Proxy Statement which will be filed no later than 120 days after September 27, 2025.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
Ark Restaurants Corp.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Ark Restaurants Corp. and Subsidiaries (the “Company”) as of September 27, 2025 and September 28, 2024, and the related consolidated statements of operations, changes in equity, and cash flows for each of the two years then ended, and the related notes (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of September 27, 2025 and September 28, 2024, and the results of its operations and its cash flows for each of the two years then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These consolidated financial statements are the responsibility of the entity’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to Ark Restaurant Corp. in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current period audit of the consolidated financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Long-lived Asset and Right-of-Use Asset Valuation (Note 1 to the Consolidated Financial Statements)

Critical Audit Matter

Long-lived assets, such as property and plant and equipment subject to depreciation and amortization, and right-of-use assets (“ROU assets”) are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In the evaluation of the fair value and future benefits of long-lived assets, the Company performs an analysis of the anticipated undiscounted future net cash flows of the related long-lived assets. If the carrying value of the related asset exceeds the undiscounted cash flows, the carrying value is reduced to its fair value. Various factors including estimated future sales growth and estimated profit margins are included in this analysis.

The Company considers a triggering event related to long-lived assets or ROU assets in a net asset position to have occurred related to a specific restaurant if the restaurant’s projected levels of undiscounted cash flows for the remaining lease period are less than the carrying value of the restaurant’s assets. Additionally, the Company considers a triggering event related to ROU assets to have occurred related to a specific lease if the location has been subleased and future estimated sublease income is less than current lease payments. If the Company concludes that the carrying value of certain long-lived assets and ROU assets will

not be recovered based on expected undiscounted future cash flows, an impairment loss is recorded to reduce the long-lived or ROU assets to their estimated fair value. The Company recorded impairment charges for its location in Washington, DC of \$4,700,000 during the year ended September 27, 2025.

Significant judgment is exercised by the Company in performing their long-lived asset and right-of-use asset impairment analysis specifically surrounding the development of undiscounted cash flow forecasts. The related audit effort in evaluating management's judgments in determining the cash flow forecasts to be utilized was complex, subjective, and challenging, and required a high degree of auditor judgment.

How our Audit Addressed the Critical Audit Matter

Our principal audit procedures related to this critical audit matter included the following, among others:

- We gained an understanding of and evaluated the design and implementation of the Company's controls that address the risk of material misstatement related to potential impairment.
- We evaluated management's significant accounting policies related to the consideration of impairment for long-lived assets for reasonableness.
- We tested the reasonableness of the underlying data used to determine the forecasted undiscounted future cash flows.
- We evaluated the reasonableness of undiscounted future cash flows utilized in the impairment analysis for the restaurants by comparing forecasted undiscounted cash flows to historical cash flows from each restaurant location, and evaluating management's future operating forecasts.
- We evaluated the reasonableness of management's estimate that no impairment charges were appropriate during the year other than what was recorded.

/s/ CohnReznick LLP PCAOB ID: 596

We have served as the Company's auditors since 2004.

Melville, New York

ARK RESTAURANTS CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As of September 27, 2025, Ark Restaurants Corp. and Subsidiaries (the “Company”) owned and operated 16 restaurants and bars, 12 fast food concepts and catering operations, exclusively in the United States, that have similar economic characteristics, nature of products and service, class of customers and distribution methods. The Company believes it meets the criteria for aggregating its operating segments into a single reporting segment in accordance with applicable accounting guidance.

The Company operates three restaurants in New York City, one in Washington, D.C., five in Las Vegas, Nevada, one in Atlantic City, New Jersey, four in Florida and two on the gulf coast of Alabama. The Las Vegas operations include four restaurants within the New York-New York Hotel and Casino Resort and operation of the hotel’s room service, banquet facilities, employee dining room and six food court concepts and one restaurant within the Planet Hollywood Resort and Casino. In Atlantic City, New Jersey, the Company operates a restaurant in the Tropicana Hotel and Casino. The Florida operations include *The Rustic Inn* in Dania Beach, *Shuckers* in Jensen Beach, *JB's on the Beach* in Deerfield Beach, *The Blue Moon Fish Company* in Fort Lauderdale and the operation of six fast food facilities in Hollywood at the Hard Rock Hotel and Casino. In Alabama, the Company operates two *Original Oyster Houses*, one in Gulf Shores and one in Spanish Fort.

Inflation — In recent years, our operating results were impacted by geopolitical and other macroeconomic events, causing supply chain challenges and significantly increased commodity and wage inflation. While we have seen improvements in many of these areas, some of these factors continued to impact our operating results in fiscal 2025. The ongoing impact of these events could lead to further shifts in consumer behavior, wage inflation, staffing challenges, product and services cost inflation, disruptions in our supply chain and delays in opening and acquiring new restaurants. If these factors significantly impact our cash flow in the future, we may again implement mitigation actions such as suspension of dividends, increasing borrowings or modifying our operating strategies. Some of these measures may have an adverse impact on our business, including possible impairments of assets.

Basis of Presentation — The accompanying consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) and accounting principles generally accepted in the United States of America (“GAAP”). The Company’s reporting currency is the United States dollar.

Accounting Period — The Company's fiscal year ends on the Saturday nearest September 30. The fiscal years ended September 27, 2025 and September 28, 2024 both included 52 weeks.

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates are used for, but are not limited to: (i) projected cash flows related to asset impairments, including goodwill and intangibles, (ii) income tax valuation allowances for deferred tax assets, (iii) allowances for potential credit losses on receivables, (iv) assumptions regarding discount rates related to lease accounting, (v) the useful lives and recoverability of our long-lived assets, such as fixed assets and intangibles, (vi) fair values of financial instruments, (vii) share-based compensation, (viii) estimates made in connection with acquisition purchase price allocations, (ix) uncertain tax positions, and (x) determining when investment impairments are other-than-temporary. The Company’s accounting estimates require the use of judgment as future events and the effect of these events cannot be predicted with certainty. The accounting estimates may change as new events occur, as more experience is acquired and as more information is obtained. The Company evaluates and updates assumptions and estimates on an ongoing basis and may use outside experts to assist in the Company’s evaluation, as considered necessary. Because of the uncertainty in such estimates, actual results may differ from those estimates.

Principles of Consolidation — The consolidated financial statements include the accounts of Ark Restaurants Corp. and all of its wholly-owned subsidiaries, partnerships and other entities in which it has a controlling interest, collectively herein referred to as the “Company”.

Non-Controlling Interests — Non-controlling interests represent capital contributions, distributions and income and loss attributable to the shareholders of less than wholly-owned and consolidated entities.

Seasonality — The Company has substantial fixed costs that do not decline proportionally with sales. Although our business is highly seasonal, our broader geographical reach as a result of prior acquisitions mitigates some of this risk. For instance,

the second quarter of our fiscal year, consisting of the non-holiday portion of the cold weather season in New York and Washington (January, February and March), is the poorest performing quarter; however, in recent years this has been partially offset by our locations in Florida as they experience increased results in the winter months. We generally achieve our best results during the warmer weather, attributable to our extensive outdoor dining availability, particularly at *Bryant Park Grill & Café* and *The Porch at Bryant Park* in New York (see Note 10 - Commitments and Contingencies) and *Sequoia* in Washington, D.C. (our largest restaurants) and our outdoor cafes. However, even during summer months these facilities can be adversely affected by unusually cool or rainy weather conditions. Our facilities in Las Vegas are indoor and generally operate on a more consistent basis throughout the year, although in recent years the summer months have seen lower traffic.

Cash and Cash Equivalents — Cash and cash equivalents include cash on hand, deposits with banks and highly-liquid investments with original maturities of three months or less. Outstanding checks in excess of account balances, typically vendor payments, payroll and other contractual obligations disbursed after the last day of a reporting period are reported as a current liability in the accompanying consolidated balance sheets.

Concentrations of Credit Risk — Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents and accounts receivable. The Company reduces credit risk by placing its cash and cash equivalents with major financial institutions with high credit ratings. At times, such amounts may exceed federally insured limits. Accounts receivable are primarily comprised of normal business receivables, such as credit card receivables that are collected in a short period of time and other receivables from hotel operators where the Company has a location and are recorded upon satisfaction of the performance obligation. The Company reviews the collectability of its receivables on an ongoing basis, and has not provided for an allowance as it considers all of the counterparties will be able to meet their obligations. The concentration of credit risk with respect to accounts receivable is generally limited due to the short payment terms extended by the Company and the number of customers comprising the Company's customer base.

As of September 27, 2025 and September 28, 2024, the Company had accounts receivable balances due from one hotel operator totaling 29% and 52% of total accounts receivable, respectively.

For the year ended September 27, 2025, the Company made purchases from one vendor that accounted for 10% of total purchases. For the year ended September 28, 2024, the Company made purchases from two vendors that accounted for 22% of total purchases.

As of September 27, 2025, all debt outstanding is with one lender (see Note 9 – Notes Payable).

Fixed Assets — Fixed assets are stated at cost less accumulated depreciation and amortization. Depreciation is determined using the straight-line method over the estimated useful lives of the assets. Estimated lives range from three to seven years for furniture, fixtures and equipment and up to 40 years for buildings and related improvements. Amortization of improvements to leased properties is computed using the straight-line method based upon the initial term of the applicable lease or the estimated useful life of the improvements, whichever is less, and ranges from 5 to 30 years. For leases with renewal periods at the Company's option, if failure to exercise a renewal option imposes an economic penalty to the Company, management may determine at the inception of the lease that renewal is reasonably assured and include the renewal option period in the determination of appropriate estimated useful lives. Routine expenditures for repairs and maintenance are charged to expense when incurred. Major replacements and improvements are capitalized. Upon retirement or disposition of fixed assets, the cost and related accumulated depreciation are removed from the consolidated balance sheets and any resulting gain or loss is recognized in the consolidated statements of operations.

The Company includes in construction in progress, improvements to restaurants that are under construction or are undergoing substantial renovations. Once the projects have been completed, the Company begins depreciating and amortizing the assets. Start-up costs incurred during the construction period of restaurants, including rental of premises, training and payroll, are expensed as incurred.

Long-Lived and Right-of-Use Assets — Long-lived assets, such as property, plant and equipment and purchased intangibles subject to amortization, and right-of-use assets ("ROU assets") are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In the evaluation of the fair value and future benefits of long-lived assets, the Company performs an analysis of the anticipated undiscounted future net cash flows of the related long-lived assets. If the carrying value of the related asset exceeds the undiscounted cash flows, the carrying value is reduced to its fair value. Various factors including estimated future sales growth and estimated profit margins are included in this analysis.

The Company considers a triggering event related to long-lived assets or ROU assets in a net asset position to have occurred related to a specific restaurant if the restaurant's cash flows for the last 12 months are less than a minimum threshold or if

consistent levels of undiscounted cash flows for the remaining lease period are less than the carrying value of the restaurant's assets. Additionally, the Company considers a triggering event related to ROU assets to have occurred related to a specific lease if the location has been subleased and future estimated sublease income is less than current lease payments. If the Company concludes that the carrying value of certain long-lived and ROU assets will not be recovered based on expected undiscounted future cash flows, an impairment loss is recorded to reduce the long-lived or ROU assets to their estimated fair value. The fair value is measured on a nonrecurring basis using unobservable (Level 3) inputs. There is uncertainty in the projected undiscounted future cash flows used in the Company's impairment review analysis, which requires the use of estimates and assumptions. If actual performance does not achieve the projections, or if the assumptions used change in the future, the Company may be required to recognize impairment charges in future periods, and such charges could be material (see Note 5 - Fixed Assets).

Goodwill and Trademarks — Goodwill and trademarks are not amortized, but are subject to impairment analysis. We assess the potential impairment of goodwill and trademarks annually (at the end of our fourth quarter) and on an interim basis whenever events or changes in circumstances indicate that the carrying value may not be recoverable. If we determine through the impairment review process that goodwill or trademarks are impaired, we record an impairment charge in our consolidated statements of operations.

With respect to goodwill, the Company assesses qualitative factors to determine whether it is necessary to perform a more detailed quantitative impairment test. The Company may elect to bypass the qualitative assessment and proceed directly to the quantitative test. When performing the quantitative test, an impairment loss is recognized if the carrying value of our equity, including goodwill, exceeds its fair value (see Note 6 - Goodwill, Trademarks and Intangible Assets).

Our impairment analysis for trademarks consists of a comparison of the fair value to the carrying value of the assets. This comparison is made based on a review of historical, current and forecasted sales and profit levels, as well as a review of any factors that may indicate potential impairment. For the years ended September 27, 2025 and September 28, 2024, our impairment analysis did not result in any other charges related to trademarks.

Investments — Each reporting period, the Company reviews its investments in equity and debt securities, except for those classified as trading, to determine whether a significant event or change in circumstances has occurred that may have an adverse effect on the fair value of such investment. When such events or changes occur, the Company evaluates the fair value compared to cost basis in the investment. For investments in non-publicly traded companies, management's assessment of fair value is based on valuation methodologies including discounted cash flows, estimates of sales proceeds, and appraisals, as appropriate. The Company considers the assumptions that it believes hypothetical marketplace participants would use in evaluating estimated future cash flows when employing the discounted cash flow or estimates of sales proceeds valuation methodologies.

In the event the fair value of an investment declines below the Company's cost basis, management is required to determine if the decline in fair value is other than temporary. If management determines the decline is other than temporary, an impairment charge is recorded. Management's assessment as to the nature of a decline in fair value is based on, among other things, the length of time and the extent to which the market value has been less than the cost basis; the financial condition and near-term prospects of the issuer; and the Company's intent and ability to retain the investment for a period of time sufficient to allow for any anticipated recovery in market value.

Leases — We determine if an arrangement contains a lease at inception. An arrangement contains a lease if it implicitly or explicitly identifies an asset to be used and conveys the right to control the use of the identified asset in exchange for consideration. As a lessee, we include operating leases in Operating lease ROU assets and Operating lease liabilities in our consolidated balance sheets. ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized upon commencement of the lease based on the present value of the lease payments over the lease term. As most of our leases do not provide an implicit interest rate, we use our incremental borrowing rate based on the information available at commencement date to determine the present value of lease payments. Our lease terms may include options to extend or terminate the lease. Options are included when it is reasonably certain that we will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term. Amendments or modifications to lease terms are accounted for as variable lease payments. Leases with a lease term of 12 months or less are accounted for using the practical expedient which allows for straight-line rent expense over the remaining term of the lease.

Revenue Recognition — The Company recognizes revenue when it satisfies a performance obligation by transferring control over a product or service to a restaurant guest or other customer. Revenues from restaurant operations are presented net of discounts, coupons, employee meals and complimentary meals and recognized when food, beverage and retail products are sold. Sales tax collected from customers is excluded from sales and the obligation is included in sales tax payable until the

taxes are remitted to the appropriate taxing authorities. Catering service revenue is generated through contracts with customers whereby the customer agrees to pay a contract rate for the service. Revenues from catered events are recognized in income upon satisfaction of the performance obligation (the date the event is held). All customer payments, including nonrefundable upfront deposits, are deferred as a liability until such time. The Company recognized \$12,448,000 and \$16,147,000 in catering services revenue for the years ended September 27, 2025 and September 28, 2024, respectively. Unearned revenue which is included in accrued expenses and other current liabilities on the consolidated balance sheets as of September 27, 2025 and September 28, 2024 was \$4,265,000 and \$4,382,000, respectively.

Revenues from gift cards are deferred and recognized upon redemption. Deferrals are not reduced for potential non-use as we generally have a legal obligation to remit the value of unredeemed gift cards to the relevant jurisdictions in which they are sold. As of September 27, 2025 and September 28, 2024, the total liability for gift cards in the amounts of approximately \$438,000 and \$401,000, respectively, are included in accrued expenses and other current liabilities in the consolidated balance sheets.

Other revenues include merchandise sales, rental income, property management fees and other rentals as well as, in 2024, purchase service fees, related to an affiliate that the Company no longer has an interest in, which represent commissions earned for providing services to other restaurant groups.

Occupancy Expenses — Occupancy expenses include rent, rent taxes, real estate taxes, insurance and utility costs.

Income Taxes — Income taxes are accounted for under the asset and liability method whereby deferred tax assets and liabilities are recognized for future tax consequences attributable to the temporary differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The Company may recognize tax benefits from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities based on the technical merits of the position. The tax benefits recognized in the financial statements from such position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. The Company re-evaluates uncertain tax positions and considers factors, including, but not limited to, changes in tax law, the measurement of tax positions taken or expected to be taken on tax returns, and changes in circumstances related to a tax position. We classify interest and penalties related to unrecognized tax benefits as a component of income tax expense (benefit).

Non-controlling interests relating to the income or loss of consolidated partnerships includes no provision for income taxes as any tax liability related thereto is the responsibility of the individual minority investors.

Income Per Share of Common Stock — Basic net income per share is calculated on the basis of the weighted average number of common shares outstanding during each period. Diluted net income per share reflects the additional dilutive effect of potentially dilutive shares (principally those arising from the assumed exercise of stock options). The dilutive effect of stock options is reflected in diluted earnings per share by application of the treasury stock method. Under the treasury stock method, if the average market price of a share of common stock increases above the option's exercise price, the proceeds that would be assumed to be realized from the exercise of the option would be used to acquire outstanding shares of common stock. The dilutive effect of awards is directly correlated with the fair value of the shares of common stock.

Stock-Based Compensation — Stock-based compensation represents the cost related to stock-based awards granted to employees and non-employee directors. The Company measures stock-based compensation at the grant date based on the estimated fair value of the award and recognizes the cost (net of estimated forfeitures) as compensation expense on a straight-line basis over the requisite service period. Upon exercise of options, all excess tax benefits and tax deficiencies resulting from the difference between the deduction for tax purposes and the stock-based compensation cost recognized for financial reporting purposes are included as a component of income tax expense.

Recently Adopted Accounting Principles — On September 27, 2025, the Company adopted Accounting Standards Update ("ASU") No. 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* ("ASU 2023-07"). The amendments in this update are intended to improve reportable segment disclosure requirements primarily through enhanced disclosures about significant segment expenses. The disclosures required by ASU 2023-07 can be found in Note 16 - Segment Information of these consolidated financial statements.

Recently Issued Accounting Pronouncements — In November 2024, the Financial Accounting Standards Board (the “FASB”) issued ASU No. 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures* (“ASU 2024-03”), to expand expense disclosures by requiring disaggregated disclosure of certain income statement expense line items, including those that contain purchases of inventory, employee compensation, depreciation and amortization. ASU 2024-03 is effective for fiscal years beginning after December 15, 2026, or our fiscal year 2028, and subsequent interim periods, with early adoption permitted. The amendments should be applied prospectively, but retrospective application is permitted. The Company is currently evaluating the impact, if any, adoption will have on its consolidated financial statements and disclosures.

In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* (“ASU 2023-09”), which enhances transparency about income tax information through improvements to income tax disclosures primarily related to the rate reconciliation and income taxes paid and to improve the effectiveness of income tax disclosures. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024, which is for fiscal year 2026, with early adoption permitted. The Company has determined that ASU 2023-09 addresses disclosures only, and as such will not have any material effects on its consolidated financial condition, results of operation, or cash flows.

In October 2023, the FASB issued ASU 2023-06, *Disclosure Improvements: Codification Amendment in Response to the SEC’s Disclosure Update and Simplification Initiative*. This ASU incorporates several disclosure and presentation requirements currently residing in the SEC Regulations S-X and S-K. The amendments will be applied prospectively and are effective when the SEC removes the related requirements from Regulations S-X or S-K. Any amendments the SEC does not remove by June 30, 2027 will not be effective. As we are currently subject to these SEC requirements, this ASU is not expected to have a material impact on our consolidated financial statements or related disclosures.

No other new accounting pronouncements issued or effective as of September 27, 2025 have had or are expected to have a material impact on our consolidated financial statements.

2. RECENT RESTAURANT EXPANSION AND OTHER DEVELOPMENTS

On June 24, 2022, the Company extended its lease for *America* at the New York-New York Hotel and Casino in Las Vegas, NV through December 31, 2033. In connection with the extension, the Company has agreed to spend a minimum of \$4,000,000 to materially refresh the premises by March 31, 2026, as extended, subject to further extensions as set out in the agreement. To date approximately \$1,600,000 has been spent on this refresh and we expect to complete the work by March 31, 2026.

On July 21, 2022, the Company extended its lease for the *Village Eateries* at the New York-New York Hotel and Casino in Las Vegas, NV through December 31, 2034. As part of this extension, the *Broadway Burger Bar and Grill* and *Gonzalez y Gonzalez*, were carved out of the *Village Eateries* footprint and the extended date for those two locations is December 31, 2033. In connection with the extension, the Company has agreed to spend a minimum of \$3,500,000 to materially refresh all three of these premises by December 31, 2025, as extended. As part of this refresh, on November 11, 2024, the Company opened a new concept called *Lucky Pig* in the *Village Eateries* at a cost of approximately \$850,000. In addition, the Company has spent an additional \$950,000 to date on refreshing *Broadway Burger Bar and Grill*, *Gonzalez y Gonzalez* and other areas of the *Village Eateries*. We expect to complete all work related to these projects by December 31, 2025.

Each of the above refresh obligations are to be consistent with designs approved by the landlord which shall not be unreasonably withheld. We have and will continue to pay all rent as required by the leases without abatement during construction. Note that our substantial completion of work set forth in plans approved by the landlord shall constitute our compliance with the requirements of the completion deadlines, regardless of whether or not the amount actually expended in connection therewith is less than the minimum. In connection with the above renovations, the Company made payments totaling \$57,000 and \$43,000 to the mother of Samuel Weinstein, the Co-Chief Operating Officer, for design services during the years ended September 27, 2025 and September 28, 2024, respectively.

3. RECENT RESTAURANT DISPOSITIONS AND OTHER DEVELOPMENTS

During the year ended September 28, 2024, the Company dissolved the entity which owned *Lucky 7* at the Foxwoods Resort and Casino, which was closed in July of 2022. In connection with the dissolution, the Company reclassified the remaining non-controlling interest balance to additional paid-in capital.

During the year ended September 28, 2024, the Company dissolved the entity which owned *Clyde Frazier's Wine and Dine*, which was closed in September of 2021. In connection with the dissolution, the Company reclassified the remaining non-controlling interest balance to additional paid-in capital.

In October 2024, the Company advised the landlord of *El Rio Grande* we would be terminating the lease and closing the property permanently. In connection with this notification, the Company recorded a loss of \$876,000 during the year ended September 28, 2024. The property closed permanently on January 3, 2025 and was vacated and delivered to the landlord on April 30, 2025. During the year ended September 27, 2025, the Company recognized a gain in the amount of \$173,000 as a result of refinements of estimates.

On November 26, 2024, a subsidiary of the Company, in which we own a 65% interest, Ark Hollywood/Tampa Investment LLC agreed to terminate its lease for the food court at The Hard Rock Hotel and Casino in Tampa, FL and, accordingly, vacated the premises on December 15, 2024. In connection with this agreement, all obligations under the lease ceased and Ark Hollywood/Tampa Investment LLC received a termination payment in the amount of \$5,500,000. Accordingly, a gain, net of expenses, in the amount of \$5,235,000 was recognized during the year ended September 27, 2025 and Ark Hollywood/Tampa Investment LLC distributed approximately \$1,710,000 of the net proceeds, after expenses, to the other equity holders of Ark Hollywood/Tampa Investment LLC.

During the year ended September 27, 2025, the Company sold three of the 14 condominium units it owns at the *Island Beach Resort* in Jensen Beach, FL which is adjacent to our *Shuckers* restaurant. In connection with the sales, the Company received net proceeds of \$1,203,000 and recorded a gain of \$594,000. The Company intends to sell the remaining units subject to market forces.

4. INVESTMENT IN AND RECEIVABLE FROM NEW MEADOWLANDS RACETRACK

Investment

On March 12, 2013, the Company made a \$4,200,000 investment in the New Meadowlands Racetrack LLC (“NMR”) through its purchase of a membership interest in Meadowlands Newmark, LLC, an existing member of NMR with a then 63.7% ownership interest. On November 19, 2013, the Company invested an additional \$464,000 in NMR through a purchase of an additional membership interest in Meadowlands Newmark, LLC resulting in a total ownership of 11.6% of Meadowlands Newmark, LLC, and an effective ownership interest in NMR of 7.4%, subject to dilution. In prior years, the Company invested an additional \$444,000 in NMR and on May 13, 2025, the Company invested an additional \$148,000 in NMR, all as a result of capital calls with no change in ownership, bringing its total investment to \$5,256,000. The Company accounts for this investment at cost, less impairment, adjusted for subsequent observable price changes in accordance with ASU 2016-01. There are no observable prices for this investment.

During the year ended September 28, 2024, the Company received a distribution from NMR in the amount of \$26,000, which is included in other income in the consolidated statements of operation. During the year ended September 27, 2025, the Company did not receive any distributions from NMR.

Advances

On April 25, 2014, the Company loaned \$1,500,000 to Meadowlands Newmark, LLC. The note bears interest at 3%, compounded monthly and added to the principal, and is due in its entirety on June 30, 2029. The note may be prepaid, in whole or in part, at any time without penalty or premium. The principal and accrued interest related to this note in the amounts of \$1,487,000 and \$1,442,000, are included in Investment In and Receivable From New Meadowlands Racetrack in the consolidated balance sheets at September 27, 2025 and September 28, 2024, respectively.

Other

In addition to the Company’s ownership interest in NMR through Meadowlands Newmark, LLC, if casino gaming is approved at the Meadowlands and NMR is granted the right to conduct said gaming, neither of which can be assured, the Company shall be granted the exclusive right to operate the food and beverage concessions in the gaming facility with the exception of one restaurant.

In conjunction with this investment, the Company, through a 97% owned subsidiary, Ark Meadowlands LLC (“AM VIE”), also entered into a long-term agreement with NMR for the exclusive right to operate food and beverage concessions serving the new raceway facilities (the “Racing F&B Concessions”) located in the new raceway grandstand constructed at the Meadowlands Racetrack in northern New Jersey. Under the agreement, NMR is responsible to pay for the costs and expenses incurred in the operation of the Racing F&B Concessions, and all revenues and profits thereof inure to the benefit of NMR. AM VIE receives an annual fee equal to 5% of the net profits received by NMR from the Racing F&B Concessions during each calendar year. AM VIE is a variable interest entity; however, based on qualitative consideration of the contracts with AM VIE, the operating structure of AM VIE, the Company’s role with AM VIE, and that the Company is not obligated to

absorb expected losses of AM VIE, the Company has concluded that it is not the primary beneficiary and not required to consolidate the operations of AM VIE.

The Company's maximum exposure to loss as a result of its involvement with AM VIE is limited to a receivable from AM VIE's primary beneficiary (NMR, a related party). As of September 27, 2025 and September 28, 2024, \$34,000 and \$16,000 were due AM VIE by NMR.

Recent Developments and Valuation

NMR has been actively pursuing a full casino license (including slots, table games like blackjack and roulette) to supplement its existing horse racing and sports betting operations. In May 2025, a Senate Concurrent Resolution was introduced proposing a ballot referendum to authorize casinos at both the Monmouth Park and Meadowlands Racetracks. It requires a three-fifths vote in both legislative chambers to reach the ballot in November 2026.

In conjunction with such referendum, NMR will need to raise substantial capital to fund a marketing campaign to support the passage of the referendum. To the extent the Company does not contribute to this effort, or if NMR raises outside capital, our interests will be diluted.

There can be no assurances that the above referendum will be included in the November 2026 election ballot or that it will pass if it is included. If either of these do not occur, the Company's investment in NMR will be evaluated based on the existing horse racing and sports betting operations and may be subject to substantial impairment.

The Company evaluated its investment in NMR for impairment indicators and concluded that its fair value exceeds the carrying value. Accordingly, the Company did not record any impairment during the years ended September 27, 2025 and September 28, 2024. Any future changes in the carrying value of our investment in NMR will be reflected in earnings.

5. FIXED ASSETS

Fixed assets consist of the following:

	September 27, 2025	September 28, 2024
	(in thousands)	
Land and building	\$ 17,752	\$ 18,393
Building and leasehold improvements	42,234	44,371
Furniture, fixtures and equipment	39,187	39,123
Construction in progress	2,198	1,107
	<u>101,371</u>	<u>102,994</u>
Less: accumulated depreciation and amortization	72,203	71,425
Fixed Assets - Net	<u><u>\$ 29,168</u></u>	<u><u>\$ 31,569</u></u>

Depreciation and amortization expense related to fixed assets for the years ended September 27, 2025 and September 28, 2024 was \$3,053,000 and \$4,001,000, respectively.

Management continually evaluates unfavorable cash flows, if any, related to underperforming restaurants. Periodically it is concluded that certain properties have become impaired based on their existing and anticipated future economic outlook in their respective markets. In such instances, we may impair assets to reduce their carrying values to fair values. Estimated fair values of impaired properties are based on comparable valuations, cash flows and/or management judgment.

During the year ended September 28, 2024, impairment indicators were identified at our *Sequoia* property located in Washington, D.C. due to lower-than-expected operating results. Accordingly, the Company tested the recoverability of *Sequoia's* ROU and long-lived assets and concluded they were not recoverable. Based on a discounted cash flow analysis, the Company recognized impairment charges of \$1,561,000 and \$939,000 related to *Sequoia's* ROU and long-lived assets, respectively. The Company continued to monitor the performance of *Sequoia* throughout fiscal 2025 and, as a result of lower than expected operating results, we tested the recoverability of its ROU and long-lived assets again and based on a discounted cash flow analysis, we recognized additional impairment charges of \$2,940,000 and \$1,760,000 during the year ended September 27, 2025 related to *Sequoia's* ROU and long-lived assets, respectively.

Given the inherent uncertainty in projecting results of restaurants, the Company will continue to monitor the recoverability of the carrying value of the assets of *Sequoia* and several other restaurants on an ongoing basis. If expected performance is not realized, further impairment charges may be recognized in future periods, and such charges could be material.

6. GOODWILL, TRADEMARKS AND INTANGIBLE ASSETS

Goodwill and Trademarks

The changes in the carrying amount of goodwill and trademarks for the years ended September 27, 2025 and September 28, 2024 are as follows:

	<u>Goodwill</u>	<u>Trademarks</u>
	<u>(in thousands)</u>	
Balance as of September 30, 2023	\$ 7,440	\$ 4,220
Acquired during the year	—	—
Impairment charge (1)	(4,000)	—
Balance as of September 28, 2024	3,440	4,220
Acquired during the year	—	—
Impairment charge (1)	(3,440)	—
Balance as of September 27, 2025	<u>\$ —</u>	<u>\$ 4,220</u>

(1) Accumulated impairment losses as of September 27, 2025 and September 28, 2024 were \$17,440,000 and \$14,000,000, respectively.

In accordance with ASU 350-20, *Intangibles—Goodwill and Other*, the Company identified a triggering event during the three months ended March 29, 2025 primarily related to a decline in the Company's stock price during the second quarter of fiscal 2025 and the continued uncertainty related to the expiration of the *Bryant Park Grill & Café* and *The Porch at Bryant Park* leases (see Note 10 - Commitments and Contingencies). As a result, the Company performed an interim quantitative impairment test and based on the results of the assessment, the fair value of our equity was determined to be less than its carrying amount. Accordingly, the Company recognized a non-cash impairment charge of the remaining balance of its goodwill in the amount of \$3,440,000 in our consolidated statement of operations for the year ended September 27, 2025.

As of September 28, 2024, the Company performed a qualitative assessment of its goodwill whereby the fair value of the equity was determined using the income approach. Given the relatively low volume of shares traded as of September 28, 2024, the Company determined the income approach provided the best approximation of fair value. In the income approach, we utilized a discounted cash flow analysis, which involved estimating the expected future after-tax cash flows generated and then discounting those cash flows to present value, reflecting the relevant risks associated with the achievement of projected cash flows, the possibility that the *Bryant Park Grill & Café* and *The Porch at Bryant Park* leases may not be renewed beyond their expirations on April 30, 2025, and the time value of money. This approach required the use of significant estimates and assumptions, including forecasted revenue growth rates, forecasted cash flows from operations, and discount rates that reflect the risk inherent in the future cash flows. Based on the impairment analysis, the carrying amount of our equity exceeded its estimated fair value, which indicated an impairment of the carrying value of our goodwill at September 28, 2024. Accordingly, during the fourth quarter of fiscal 2024, the Company recorded a goodwill impairment charge of \$4,000,000, of which \$4,000,000 was deductible for tax purposes and resulted in a deferred income tax benefit of \$1,074,000. Such impairment was attributed to factors such as, but not limited to, a decrease in the market price of the Company's common stock and lower than expected profitability.

Intangibles

Intangible assets consist of the following:

	September 27, 2025	September 28, 2024
	(in thousands)	
Purchased leasehold rights (a) - fully amortized	\$ 1,995	\$ 1,995
Noncompete agreements and other - 5-10 years	633	633
	2,628	2,628
Less accumulated amortization	2,615	2,530
Intangible Assets - Net	<u>\$ 13</u>	<u>\$ 98</u>

(a) Purchased leasehold rights arose from acquiring leases and subleases of various restaurants.

Amortization expense related to intangible assets for the years ended September 27, 2025 and September 28, 2024 was \$85,000 and \$89,000, respectively. Amortization expense is expected to be \$13,000 for fiscal 2026.

7. ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

Accrued expenses and other current liabilities consist of the following:

	September 27, 2025	September 28, 2024
	(in thousands)	
Sales tax payable	\$ 612	\$ 761
Accrued wages and payroll related costs	3,618	4,548
Customer advance deposits	4,265	4,382
Accrued occupancy and other operating expenses	2,310	2,354
	<u>\$ 10,805</u>	<u>\$ 12,045</u>

8. LEASES

Other than locations where we own the underlying property, we lease our restaurant locations as well as our corporate office under various non-cancelable real-estate lease agreements that expire on various dates through 2046. We evaluate whether we control the use of the asset, which is determined by assessing whether we obtain substantially all economic benefits from the use of the asset, and whether we have the right to direct the use of the asset. If these criteria are met and we have identified a lease, we account for the contract under the requirements of Accounting Standards Codification 842.

Upon taking possession of a leased asset, we determine its classification as an operating or finance lease. All of our real estate leases are classified as operating leases. We do not have any finance leases as of September 27, 2025 or September 28, 2024. Generally, our real estate leases have initial terms ranging from 10 to 25 years and typically include renewal options. Renewal options are recognized as part of the ROU assets and lease liabilities if it is reasonably certain at the date of adoption that we would exercise the options to extend the lease. Our real estate leases typically provide for fixed minimum rent payments and/or contingent rent payments based upon sales in excess of specified thresholds. When the achievement of such sales thresholds are deemed to be probable, variable lease expense is accrued in proportion to the sales recognized during the period. For operating leases that include rent holidays and rent escalation clauses, we recognize lease expense on a straight-line basis over the lease term from the date we take possession of the leased property. We record the straight-line lease expense and any contingent rent, if applicable, in occupancy expenses in the consolidated statements of operations.

Many of our real estate leases also require us to pay real estate taxes, common area maintenance costs and other occupancy costs ("non-lease components") which are included in occupancy related expenses in the consolidated statements of operations. Our lease agreements do not contain any material residual value guarantees or material restrictive covenants.

As there were no explicit rates provided in our leases, we used our incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments.

The components of lease expense in the consolidated statements of operations are as follows:

	September 27, 2025	September 28, 2024
	(in thousands)	
Operating lease expense - occupancy expenses (1)	\$ 12,720	\$ 13,893
Occupancy lease expense - general and administrative expenses	937	485
Variable lease expense	3,465	4,539
Total lease expense	<u>\$ 17,122</u>	<u>\$ 18,917</u>

(1) Includes short-term leases, which are immaterial.

Supplemental cash flow information related to leases is as follows:

	September 27, 2025	September 28, 2024
	(in thousands)	
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows related to operating leases	\$ 17,475	\$ 18,318
Non-cash investing activities:		
ROU assets obtained in exchange for new operating lease liabilities	\$ —	\$ —

The weighted average remaining lease terms and discount rates are as follows:

	September 27, 2025	September 28, 2024
Operating leases:		
Weighted average remaining lease term	10.9 years	11.5 years
Weighted average discount rate	6.2 %	6.3 %

The annual maturities of our lease liabilities as of September 27, 2025 are as follows:

Fiscal Year Ending	Operating Leases
	(in thousands)
October 3, 2026	\$ 11,329
October 2, 2027	11,123
September 30, 2028	11,197
September 29, 2029	11,095
September 28, 2030	10,823
Thereafter	57,041
Total future lease payments	112,608
Less imputed interest	(30,384)
Present value of lease liabilities	<u>\$ 82,224</u>

9. NOTES PAYABLE

Long-term debt consists of the following:

	September 27, 2025	September 28, 2024
	(in thousands)	
Promissory Note - <i>Rustic Inn</i> purchase	\$ 2,403	\$ 2,617
Promissory Note - <i>JB's on the Beach</i> purchase	750	1,750
Promissory Note - <i>Sequoia</i> renovation	456	800
Promissory Note - <i>Blue Moon Fish Company</i>	—	68
	<u>3,609</u>	<u>5,235</u>
Less: Current maturities	(1,493)	(5,193)
Less: Unamortized deferred financing costs	(92)	(42)
Long-term debt	<u>\$ 2,024</u>	<u>\$ —</u>

Credit Facility

On March 30, 2023, the Company entered into a Second Amended and Restated Credit Agreement (the “Credit Agreement”), with its lender, Bank Hapoalim B.M. (“BHBM”) which originally matured on June 1, 2025. On May 29, 2025, the Company entered into an Omnibus Amendment to the Credit Agreement which: (i) extended the maturity date of the Credit Agreement to June 1, 2028, (ii) amended the terms of the outstanding promissory notes as discussed below, (iii) reduced the maximum permitted obligations outstanding under the Credit Agreement from \$30,000,000 to \$20,000,000 (including the outstanding promissory notes), (iv) increased the minimum tangible net worth covenant from \$22,000,000 to \$28,000,000, and (v) removed the annual net income covenant. Advances and loans under the Credit Agreement bear interest, at the Company's election at the time of the advance, at either BHBM's prime rate of interest plus a 0.45% spread or SOFR plus a 3.65% spread. In addition, there is a 0.30% per annum fee for any unused portion of the facility. As of September 27, 2025, no advances were outstanding under the Credit Agreement. As of September 27, 2025, the weighted average interest on the outstanding BHBM indebtedness was approximately 8.0%.

The Credit Agreement also requires, among other things, that the Company meet minimum quarterly tangible net worth amounts and maintain a minimum fixed charge coverage ratio. The Credit Agreement contains customary representations, warranties and affirmative covenants as well as customary negative covenants, subject to negotiated exceptions on liens, relating to other indebtedness, capital expenditures, liens, affiliate transactions, disposal of assets and certain changes in ownership.

Borrowings and all other obligations under the Credit Agreement (including amounts outstanding under the existing term notes (discussed below) are secured by all tangible and intangible personal property (including accounts receivable, inventory, equipment, general intangibles, documents, chattel paper, instruments, letter-of-credit rights, investment property, intellectual property and deposit accounts) and fixtures of the Company.

The terms of outstanding promissory notes, as amended, are as follows as of September 27, 2025:

- *Promissory Note – Rustic Inn purchase* – in the original principal amount of \$4,400,000, which is secured by a mortgage on the *Rustic Inn* real estate, is payable in equal quarterly installments of \$71,333, with a balloon payment of \$1,618,000 on June 1, 2028, and bears interest at SOFR plus 3.65% per annum.
- *Promissory Note - JB's on the Beach purchase* – in the original principal amount of \$7,000,000 and is payable in equal quarterly installments of \$250,000 through June 1, 2026 with interest at SOFR plus 3.65% per annum.
- *Promissory Note - Sequoia renovation* – in the original principal amount of \$3,200,000 and is payable in equal quarterly installments of \$114,286 through June 1, 2026 with interest at SOFR plus 3.65% per annum.

Deferred Financing Costs

Deferred financing costs incurred in the amount of \$105,000 incurred in connection with the above amendment are being amortized over the life of the agreements using the effective interest rate method and included in interest expense. Deferred financing costs incurred in the amount of \$304,000 related to the expired agreement were fully amortized as of September 27,

2025. Amortization expense of \$54,000 and \$53,000 is included in interest expense for the years ended September 27, 2025 and September 28, 2024, respectively.

Maturities

As of September 27, 2025, the aggregate amounts of notes payable maturities (excluding borrowings under the Revolving Facility) are as follows (in thousands):

2025	\$	1,493
2026		2,116
	<u>\$</u>	<u>3,609</u>

10. COMMITMENTS AND CONTINGENCIES

Leases — The Company leases several restaurants, bar facilities, and administrative headquarters through its subsidiaries under terms expiring at various dates through 2046. Most of the leases provide for the payment of base rents plus real estate taxes, insurance and other expenses and, in certain instances, for the payment of a percentage of the restaurant's sales in excess of stipulated amounts at such facility and in one instance based on profits. In connection with one of our leases, the Company obtained and delivered irrevocable letters of credit in the aggregate amount of approximately \$324,000 as security deposits under such leases.

Bryant Park Grill — The Company's agreements with the Bryant Park Corporation (the "Landlord") (a private non-profit corporation that operates and maintains Bryant Park under agreements with the City of New York Department of Parks & Recreation), for the *Bryant Park Grill & Café* expired on April 30, 2025 and for *The Porch at Bryant Park* expired on March 31, 2025. In July of 2023 (for the *Bryant Park Grill & Café*) and September of 2023 (for *The Porch at Bryant Park*), the Company received requests for proposals (the "RFPs") from the Landlord to which we responded on October 26, 2023. The agreements offered under the RFPs for both locations were for new 10-year agreements, with one five-year renewal option. In the second quarter of 2025, the Landlord stated publicly that it had selected a new operator for the *Bryant Park Grill & Café* and *The Porch at Bryant Park*. However, to the best of our knowledge, no agreements between the Landlord and the selected operator have received the approvals of either the City of New York Department of Parks & Recreation or the New York Public Library, of which both approvals are required before any new lease can become effective.

Management has been working with outside advisors to assist our efforts to ensure that the RFP awards process was both fair and transparent and to enforce the Company's right of first lease under our lease agreements in connection with the *Bryant Park Café*. On March 28, 2025, we filed a complaint in New York State Supreme Court (the "New York Action"), alleging among other things, that the bid process conducted by the Landlord was defective, failed to comply with the provisions of the agreements underlying the Landlord's right to operate Bryant Park and violated applicable law; that a lease was being awarded to a lower bidder with a limited, unsuccessful track record in the hospitality business; and that the award of the lease for the *Café* violated our right of first lease. As part of the relief sought in the New York Action, we are requesting that the court declare that, under the circumstances presented, the Landlord was required to accept—and should have accepted—our submitted bids. In addition, on March 28, 2025, we also filed a motion for a preliminary injunction in court to enjoin the Landlord from commencing legal proceedings to evict the Company from the *Bryant Park Grill & Café* and *The Porch at Bryant Park* premises. On April 24, 2025, the Court denied the motion. We have filed a notice of appeal of the ruling. On April 29, 2025, we also filed a motion for a preliminary injunction in the New York State Supreme Court, Appellate Division, First Department. That motion was also denied. The Company has received from the Landlord a "notice to quit" the premises and for the Company to terminate its tenancy. On June 16, 2025, the Company filed an amended complaint in the New York Action, adding a cause of action for age discrimination by the Landlord in its selection of a new operator for the *Bryant Park Grill & Café* and *The Porch at Bryant Park*. On June 26, 2025, the Landlord filed counterclaims against the Company in the New York Action seeking, among other things, to eject the Company from the *Bryant Park Grill & Café* and *The Porch at Bryant Park* premises. On July 16, 2025, the Company moved to dismiss eight of the fourteen counterclaims filed by the Landlord. That motion is still pending. On July 29, 2025, the Landlord filed a motion to require the Company to make monthly use and occupancy payments in connection with the *Bryant Park Grill & Café* and *The Porch at Bryant Park* during the pendency of the case. Given that the Company had attempted to make rent payments, that were rejected by the Landlord, following commencement of its lawsuit, it did not oppose the Landlord's motion, and on August 13, 2025, the Court issued a decision requiring the Company to make use and occupancy payments for the *Bryant Park Grill & Café* and *The Porch at Bryant Park* during the pendency of the case. The Company has made and will continue to make all such payments.

As of the date of this filing, we continue to operate the above properties and intend to do so until we are either awarded the lease extensions or ordered to vacate the premises. The underlying lawsuit filed by the Company to protect its rights continues, and we will pursue all available options to protect the Company's interests.

Management, after consultation with legal counsel, is unable to predict the outcome of this matter at this time. While the outcome of these proceedings cannot be predicted with certainty, the *Bryant Park Grill & Café* and *The Porch at Bryant Park*, collectively, accounted for \$25.5 million and \$31.1 million of our total revenues for the years ended September 27, 2025 and September 28, 2024, respectively, which represented approximately 15.4% and 17.4% of our total revenue for such periods, respectively.

The uncertainty related to this dispute has had a material adverse impact on our business, financial condition, and results of operations and will continue to do so while the dispute is litigated and if we are unable to prevail in the above actions and/or are unable to extend or renew these leases on favorable terms, if at all.

Legal Proceedings — In the ordinary course of business, the Company is a party to various lawsuits arising from accidents at its restaurants and workers' compensation claims, which are generally handled by the Company's insurance carriers. The employment by the Company of management personnel, waiters, waitresses and kitchen staff at a number of different restaurants has resulted in the institution, from time to time, of litigation alleging violation by the Company of employment discrimination laws. Management believes, based in part on the advice of counsel, that the ultimate resolution of these matters will not have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

11. STOCK OPTIONS

The Company has options outstanding under two stock option plans, the 2016 Stock Option Plan and the 2022 Stock Option Plan. Options granted under both plans are exercisable at prices at least equal to the fair market value of such stock on the dates the options were granted and expire 10 years after the date of grant.

On January 18, 2024, options to purchase 107,500 shares of common stock at an exercise price of \$14.80 per share were granted to officers and directors of the Company under the 2022 Stock Option Plan (the "2024 Grant"). Such options are exercisable as to 25% of the shares commencing on the first anniversary of the date of grant and as to an additional 25% on each yearly anniversary thereafter. The grant date fair value of these stock options was \$4.39 per share and totaled approximately \$472,000.

On December 2, 2024, options to purchase 10,000 shares of common stock at an exercise price of \$9.99 per share were granted to an employee of the Company under the 2022 Stock Option Plan (the "2025 Grant"). Such options are exercisable as to 25% of the shares commencing on the first anniversary of the date of grant and as to an additional 25% on each yearly anniversary thereafter. The grant date fair value of these stock options was \$2.94 per share and totaled approximately \$29,000.

The Company generally issues new shares upon the exercise of employee stock options.

The fair value of each of the Company's stock options is estimated on the date of grant using a Black-Scholes option-pricing model that uses assumptions that relate to the expected volatility of the Company's common stock, the expected dividend yield of the Company's stock, the expected life of the options and the risk-free interest rate. The assumptions used for the 2024 Grant include a risk-free interest rate of 3.2%, volatility of 49.7%, a dividend yield of 4.2% and an expected life of 10 years and the assumptions used for the 2025 Grant include a risk-free interest rate of 4.1%, volatility of 34.1%, a dividend yield of 3.7% and an expected life of 10 years.

The Company also maintains a Section 162(m) Cash Bonus Plan. Under the Company's Section 162(m) Cash Bonus Plan, compensation paid in excess of \$1,000,000 to any employee who is the chief executive officer or one of the three highest paid executive officers on the last day of that tax year (other than the chief executive officer or the chief financial officer) is not tax deductible.

The following table summarizes stock option activity under all plans:

	2025			2024		
	Shares	Weighted Average Exercise Price	Weighted Average Contractual Term	Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value
Outstanding, beginning of year	415,750	\$ 17.89	6.3 years	471,250	\$ 19.57	
Options:						
Granted	10,000	\$ 9.99		107,500	\$ 14.80	
Exercised	(2,000)	\$ 10.65		—		
Canceled or expired	(36,500)	\$ 18.63		(163,000)	\$ 20.70	
Outstanding and expected to vest, end of year	387,250	\$ 17.66	5.5 years	415,750	\$ 17.89	\$ 83,000
Exercisable, end of year	306,000	\$ 18.52	4.8 years	276,875	\$ 19.92	\$ 41,000
Shares available for future grant	360,000			370,000		

Compensation cost charged to operations for the years ended September 27, 2025 and September 28, 2024 for stock-based compensation programs was approximately \$146,000 and \$237,000, respectively, and total stock-based compensation activity for the years ended September 27, 2025 and September 28, 2024 was \$34,000 and (\$919,000), respectively, which includes reversal of stock-based compensation expense relating to forfeitures in the amounts of \$112,000 and \$1,156,000 for the years ended September 27, 2025 and September 28, 2024, respectively. Compensation cost recognized is classified as a general and administrative expense in the consolidated statements of operations.

As of September 27, 2025, there was approximately \$347,000 of unrecognized compensation cost related to unvested stock options, which is expected to be recognized over a period of 2.5 years.

The following table summarizes information about stock options outstanding as of September 27, 2025:

Range of Exercise Prices	Options Outstanding			Options Exercisable		
	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining contractual life (in years)	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining contractual life (in years)
\$9.99	10,000	\$ 9.99	9.2	—	\$ —	—
\$10.65	68,750	\$ 10.65	5.2	68,750	\$ 10.65	5.2
\$14.80	87,500	\$ 14.80	8.3	21,875	\$ 14.80	8.3
\$17.80	22,500	\$ 17.80	6.9	16,875	\$ 17.80	6.9
\$21.90	156,000	\$ 21.90	4.4	156,000	\$ 21.90	4.4
\$19.61 - \$22.30	42,500	\$ 21.02	3.2	42,500	\$ 21.02	3.2
	387,250	\$ 17.66	5.5	306,000	\$ 18.52	4.8

12. INCOME TAXES

On July 4, 2025, President Trump signed H.R. 1, the “One Big Beautiful Bill Act” (“OBBBA”) into law. The OBBBA makes permanent many of the tax provisions previously enacted as part of the 2017 Tax Cut and Jobs Act that were set to expire at the end of 2025. The OBBBA also includes (i) the restoration of immediate expensing for domestic research and development expenditures, (ii) the reinstatement of 100% bonus depreciation for qualified property and (iii) favorably modifying the Internal Revenue Code Section 163(j) interest limitation from tax adjusted EBIT to EBITDA. FASB Topic 740, *Income Taxes*, requires the tax effects of changes in tax laws or rates be recognized in the period in which the law is

enacted. The enactment of the OBBBA did not have a material impact on the Company's effective tax rate, or deferred tax balances as of September 27, 2025.

On December 27, 2020, the Consolidated Appropriations Act of 2021 ("CAA") was enacted and provided clarification on the tax deductibility of expenses funded with PPP Loans as fully deductible for tax purposes. During the year ended September 28, 2024, the Company recorded income of \$285,000 for financial reporting purposes related to the forgiveness of its PPP Loans which is not taxable.

The provision (benefit) for income taxes consists of the following:

	Year Ended	
	September 27, 2025	September 28, 2024
	(in thousands)	
Current provision (benefit):		
Federal	\$ 102	\$ 85
State and local	62	161
	<u>164</u>	<u>246</u>
Deferred provision (benefit):		
Federal	581	(617)
State and local	4,579	(444)
	<u>5,160</u>	<u>(1,061)</u>
	<u>\$ 5,324</u>	<u>\$ (815)</u>

The effective tax rate differs from the U.S. income tax rate as follows:

	Year Ended	
	September 27, 2025	September 28, 2024
	(in thousands)	
Provision at federal statutory rate (21%)	\$ (806)	\$ (958)
State and local income taxes, net of tax benefits	(100)	231
Gain on forgiveness of PPP Loans	—	(60)
Tax credits	(801)	(943)
Loss attributable to non-controlling interest	(484)	(32)
Changes in tax rates	167	5
Change in valuation allowance	7,322	963
Other	26	(21)
	<u>\$ 5,324</u>	<u>\$ (815)</u>

Deferred income taxes reflect the net effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting and tax purposes. Significant components of the Company's deferred tax assets and liabilities are as follows:

	September 27, 2025	September 28, 2024
	(in thousands)	
Deferred tax assets:		
State net operating loss carryforwards	\$ 4,598	\$ 4,670
Lease liabilities	18,222	20,349
Deferred compensation	239	257
Tax credits	4,033	3,376
Partnership investments	260	
Other	228	392
Deferred tax assets, before valuation allowance	27,580	29,044
Valuation allowance	(11,558)	(4,236)
Deferred tax assets, net of valuation allowance	16,022	24,808
Deferred tax liabilities:		
Depreciation and amortization	(16,032)	(19,636)
Prepaid expenses	(350)	(373)
Deferred tax liabilities	(16,382)	(20,009)
Net deferred tax assets (liabilities)	\$ (360)	\$ 4,799

In assessing the realizability of deferred tax assets, management considers whether it is more-likely-than-not that the deferred tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income. In the assessment of the valuation allowance, appropriate consideration was given to all positive and negative evidence including reversal of existing taxable temporary differences, forecasts of future earnings, and the duration of statutory carryforward periods. A significant piece of objective negative evidence evaluated is the cumulative loss incurred over the three-year period ended September 27, 2025. Such objective evidence limits the ability to consider other subjective evidence, such as our projections for future growth. Based on the weight of available evidence, the Company determined that its deferred tax assets were not realizable on a more-likely-than-not basis and that a full valuation allowance is required. Accordingly, the Company increased the valuation allowance by \$7,322,000 for the year ended September 27, 2025.

As of September 27, 2025, the Company had General Business Credit carryforwards of approximately \$4,033,000 which expire through fiscal 2045. In addition, as of September 27, 2025, the Company has New York State net operating loss carryforwards of approximately \$27,471,000 and New York City net operating loss carryforwards of approximately \$25,268,000 that expire in varying amounts through fiscal 2041.

A reconciliation of the beginning and ending amounts of unrecognized tax benefits excluding interest and penalties is as follows:

	September 27, 2025	September 28, 2024
	(in thousands)	
Balance at beginning of year	\$ 210	\$ 185
Additions based on tax positions taken in current and prior years	(24)	25
Decreases based on tax positions taken in prior years	—	—
Balance at end of year	\$ 186	\$ 210

The entire amount of unrecognized tax benefits if recognized would reduce our annual effective tax rate. However, if recognized, the entire amount of unrecognized tax benefit would attract a valuation allowance, thereby offsetting the favorable impact to the annual effective tax rate. For the years ended September 27, 2025 and September 28, 2024, there are no amounts accrued for the payment of interest and penalties. The Company does not expect a significant change to its unrecognized tax benefits within the next 12 months.

The Company files tax returns in the U.S. and various state and local jurisdictions with varying statutes of limitations. The 2022 through 2025 fiscal years remain subject to examination by the Internal Revenue Service and most state and local tax authorities.

13. INCOME PER SHARE OF COMMON STOCK

Basic earnings per share is computed by dividing net income attributable to Ark Restaurants Corp. by the weighted average number of common shares outstanding for the period. Diluted earnings per share is computed similarly to basic earnings per share, except that it reflects the effect of common shares issuable upon exercise of stock options, using the treasury stock method in periods in which they have a dilutive effect.

A reconciliation of shares used in calculating earnings per basic and diluted share follows:

	Year Ended	
	September 27, 2025	September 28, 2024
	(in thousands)	
Basic	3,605	3,604
Effect of dilutive securities:		
Stock options	—	—
Diluted	3,605	3,604

For the year ended September 27, 2025, the dilutive effect of options to purchase 377,250 shares of common stock at exercise prices ranging from \$10.65 per share to \$22.30 per share were not included in diluted earnings per share as their impact would have been anti-dilutive.

For the year ended September 28, 2024, the dilutive effect of options to purchase 328,250 shares of common stock at exercise prices ranging from \$10.65 per share to \$22.30 per share were not included in diluted earnings per share as their impact would have been anti-dilutive.

14. DIVIDENDS

On November 8, 2023, February 6, 2024, and May 7, 2024, the Board declared quarterly cash dividends of \$0.1875, \$0.1875, and \$0.1875, respectively, per share, which were paid on December 13, 2023, March 13, 2024, and June 12, 2024, respectively, to the stockholders of record of the Company's common stock at the close of business on November 30, 2023, February 29, 2024, and May 31, 2024, respectively. The Board has not declared any dividends since May 7, 2024. Future decisions to pay dividends are at the discretion of the Board and will depend upon operating performance and other factors.

15. RELATED PARTY TRANSACTIONS

Employee receivables totaled approximately \$136,000 and \$255,000 at September 27, 2025 and September 28, 2024, respectively. Such amounts consist of loans that are payable on demand, bear interest at the minimum statutory rate (4.00% at September 27, 2025 and 4.57% at September 28, 2024), and are net of reserves for collectability.

During the years ended September 27, 2025 and September 28, 2024, the Company made payments totaling \$57,000 and \$43,000, respectively, to the mother of Samuel Weinstein, the Co-Chief Operating Officer, for design services.

16. SEGMENT INFORMATION

Operating segments are defined as components of a company that engage in business activities from which it may earn revenue and incur expenses, and for which separate financial information is available and is regularly reviewed by the chief operating decision maker ("CODM") to assess the performance of the individual segments and make decisions about company resources such as personnel and working capital to be allocated to the segments.

The Company determined that it has one operating segment and one reportable segment which is reflected in the Company's current organizational and management structure. The accounting policies of the segment are the same as those described in Note 1 - Business and Summary of Significant Accounting Policies.

The Company's CODM is the Chief Executive Officer who manages the Company's operations on a reportable segment basis. The Company's CODM reviews its operations and financial performance at a consolidated level by comparing actual results to expected and prior period results. This approach allows the CODM to assess whether the Company's operating segment is meeting its financial goals, identify trends and make more informed decisions about resource allocation and performance targets.

When evaluating the Company's financial performance, the CODM regularly reviews total revenues, expenses and consolidated net income (loss) as reported on the Consolidated Statements of Operations as well as non-GAAP measures such as Adjusted EBITDA to allocate Company resources and assess the performance of the Company. Segment asset information is not used by the CODM to assess performance and allocate resources.

The table below is a summary of the segment net income (loss), including significant segment expenses for the years ended September 27, 2025 and September 28, 2024:

	Year Ended	
	September 27, 2025	September 28, 2024
	(in thousands)	
REVENUES:		
Food and beverage sales	\$ 163,312	\$ 179,110
Other revenue	2,439	4,435
Total revenues	165,751	183,545
COSTS AND EXPENSES:		
Food and beverage cost of sales	46,427	49,519
Payroll expenses	60,346	65,844
Occupancy expenses	22,527	24,622
Other operating costs and expenses (1)	22,644	24,125
General and administrative expenses (2)	12,001	12,263
Depreciation and amortization	3,138	4,090
(Gain) loss on closure of El Rio Grande	(173)	876
Gain on termination of Tampa Food Court lease	(5,235)	—
Impairment losses on right-of-use and long-lived assets	4,700	2,500
Goodwill impairment	3,440	4,000
Interest expense, net	369	577
Other (income) expense, net (3)	(594)	(311)
Provision (benefit) for income taxes	5,324	(815)
Segment net loss	(9,163)	(3,745)
Reconciliation of profit or loss:		
Adjustments and reconciling items	—	—
Consolidated net loss	\$ (9,163)	\$ (3,745)

(1) Other operating costs and expenses are comprised of utilities, repairs and maintenance, advertising, credit card processing fees, restaurant supplies and other restaurant operating costs.

(2) General and administrative expenses relate solely to the corporate office in New York City and are comprised of salaries and benefits, professional and consulting fees and rent and related expenses. .

(3) Other (income) expense, net includes gains and losses on disposal of assets, dividends received and a gain on PPP loan forgiveness.
