## American International Group, Inc.

### Cautionary Note on Forward-Looking Statements

This Financial Supplement may include, and members of American International Group, Inc. (AIG) management may from time to time make and discuss, statements which, to the extent they are not statements of historical or present fact, may constitute "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements are intended to provide management's current expectations or plans for future operating and financial performance, based on assumptions currently believed to be valid and accurate. Forward-looking statements are often preceded by, followed by or include words such as "will," "believe," "anticipate," "expect," "expectations," "intend," "plan," "strategy," "prospects," "project," "anticipate," "should," "guidance," "outlook," "view," "target," "goal," "estimate" and other words of similar meaning in connection with a discussion of future operating or financial performance. These statements may include, among other things, projections, goals and assumptions that relate to future actions, prospective services or products, future performance or results of current and anticipated services or products, sales efforts, expense reduction efforts, the outcome of contingencies such as legal proceedings, anticipated organizational, business or regulatory changes, the effect of catastrophic events, both natural and man-made, and macroeconomic and/or geopolitical events, anticipated dispositions, monetization and/or acquisitions of businesses or assets, the successful integration of acquired businesses, management succession and retention plans, exposure to risk, trends in operations and financial results, and other statements that are not historical facts.

All forward-looking statements involve risks, uncertainties and other factors that may cause actual results and financial condition to differ, possibly materially, from the results and financial condition expressed or implied in the forward-looking statements. Factors that could cause actual results to differ, possibly materially, from those in specific projections, targets, goals, plans, assumptions and other forward-looking statements include, without limitation:

- the impact of adverse developments affecting economic conditions in the markets in which we operate, including financial market conditions, a U.S. federal government shutdown, macroeconomic trends, changes in trade policies, including tariffs, fluctuations in interest rates and foreign currency exchange rates, inflationary pressures, including social inflation, pressures on the commercial real estate market, pandemics, and geopolitical events or conflicts;
- the occurrence of catastrophic events, both natural and man-made, which may be exacerbated by the effects of climate change;
- disruptions in the availability or accessibility of our or a third party's information technology systems, including hardware and software, infrastructure or networks, and the inability to safeguard the confidentiality and integrity of customer, employee or company data due to cyberattacks, data security breaches or infrastructure vulnerabilities;
- our ability to effectively implement technological advancements, including the use of artificial intelligence (AI), and respond to competitors' AI and other technology initiatives;
- our ability to successfully complete strategic transactions, including to successfully dispose of, monetize and/or acquire businesses or assets or successfully integrate acquired businesses, and the anticipated benefits thereof;
- the effects of changes in laws and regulations, including those relating to privacy, data protection, cybersecurity and AI, and the regulation of insurance, in the U.S. and other countries in which we operate;
- concentrations in our investment portfolios;
- changes in the valuation of our investments;
- our reliance on third-party investment managers;
- nonperformance or defaults by counterparties;
- our reliance on third parties to provide certain business and administrative services;
- our ability to adequately assess risk and estimate related losses as well as the effectiveness of our enterprise risk management policies and procedures;
- changes in judgments or assumptions concerning insurance underwriting and insurance liabilities;
- concentrations of our insurance, reinsurance and other risk exposures;
- availability of adequate reinsurance or access to reinsurance on acceptable terms;
- changes to tax laws in the countries in which we operate;
- the effectiveness of strategies to retain and recruit key personnel and to implement effective succession plans;
- the effects of sanctions and the failure to comply with those sanctions;
- difficulty in marketing and distributing products through current and future distribution channels;
- actions by rating agencies with respect to our credit and financial strength ratings as well as those of its businesses and subsidiaries;
- changes in judgments concerning the recognition of deferred tax assets and the impairment of goodwill;
- our ability to address evolving global stakeholder expectations and regulatory requirements including with respect to environmental, social and governance matters and to effectively execute on sustainability targets and standards;
- our ability to effectively implement restructuring initiatives and potential cost-savings opportunities;
- changes to sources of or access to liquidity;
- changes in accounting principles and financial reporting requirements or their applicability to us;
- the outcome of significant legal, regulatory or governmental proceedings; and
- such other factors discussed in Part I, Item 1A. Risk Factors and Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) in AIG's Annual Report on Form 10-K for the year ended December 31, 2025 (which will be filed with the Securities and Exchange Commission (SEC)) and our other filings with the SEC.

Forward-looking statements speak only as of the date of this supplement. We are not under any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law. Additional information as to factors that may cause actual results to differ materially from those expressed or implied in any forward-looking statements is disclosed from time to time in our SEC filings.

(1) Represents investment income on alternative investments, which is comprised of hedge funds, private equity funds and real estate investments. Hedge funds for which we elected the fair value option are generally recorded on a one-month lag. Private equity funds are generally reported on a one-quarter lag. We use a 7.5% expected rate of return for the better (worse) than expected private equity funds and real estate investments, and a 6% expected rate of return for the better (worse) than expected hedge funds.

(2) Prior year premiums include additional or return premiums recorded as a result of changes in estimate of exposure and/or loss experience from prior years as well as reinstatement premiums related to prior year losses.

**American International Group, Inc.**  
**Investments Portfolio Results Notes**

- (1) Annualized Yield is calculated using quarterly annualized investment income divided by the average quarterly asset amortized cost for the interim periods. For hedge fund investments, annualized yield calculations are based on the average ending carrying value with adjustments for hedge fund redemptions that occurred at the beginning of the quarter. For purposes of calculating yield/total returns, average amortized cost was adjusted to exclude Fortitude Re withheld assets, consistent with the exclusion of net investment income on Fortitude Re funds withheld assets. In the fourth quarter of 2024, AIG realigned and began excluding the net results of run-off businesses previously reported in Other Operations. Historical results have been recast to reflect these changes. In the third quarter of 2025, AIG began excluding the net results of run-off businesses previously reported in General Insurance.
- (2) As of December 31, 2025, our GI Fixed maturity securities - AFS portfolio was approximately 77% fixed rate, 12% floating rate and 11% variable rate. The coupon of floating rate securities is linked to a reference interest rate and is impacted by movement in the reference interest rate. Variable rate securities' coupon have features that may allow their coupon to change based on pre-determined conditions and include callable bonds, step-up bonds and pass-through structured fixed income securities. Their coupon is generally not impacted by short term movement in interest rates.
- (3) GI Other invested assets - Hedge funds/Private equity includes investments accounted for under the equity method of accounting, where changes in our share of the net asset values are recorded through investment income and investments where we have elected the fair value option, where changes in the fair value are reported through investment income. For periods prior to 4Q24, Alternative Investment Income - Annualized Yield is calculated excluding real estate investments and is based on General Insurance segment.
- (4) GI All other includes bank deposits with a maturity greater than one year, investments in joint ventures with strategic partners and securities for which we elected the fair value option where the changes in the fair value of these securities are reported through investment income. Due to the mix of investments included within this line item and their varied performance which can result in significant fluctuation in the total return, annualized yield is not meaningful and therefore is not presented.
- (5) CRBG and other includes consolidations and eliminations and AIG's ownership interest in Corebridge on which AIG elected the fair value option of \$1.5 billion, \$2.7 billion, \$4.0 billion, \$4.0 billion and \$3.8 billion at December 31, September 30, June 30, and March 31, 2025, and December 31, 2024, respectively. Annualized yield is not meaningful and therefore is not presented.
- (6) Consistent with our definition of APTI, we exclude equity securities from our investments and changes in the fair values of equity securities, AIG's investment in Corebridge and gain/loss on sale of shares from gross and net investment income-APTI basis. The following table provides information related to equity securities for periods presented (on a pre-tax basis):

(in millions)	Quarterly					Twelve Months Ended December 31,	
	4Q25	3Q25	2Q25	1Q25	4Q24	2025	2024
<b>Equity Securities at fair value - Annualized Yield (1)</b>							
Investment income (loss)	(5.41)%	29.93 %	4.77 %	4.45 %	2.72 %	9.60 %	20.73 %
\$ (9)	\$ 60	\$ 9	\$ 8	\$ 5	\$ 502	\$ 68	\$ 147
Ending carrying value	502	829	775	733	704	502	704

- (7) GI Fixed Maturity Securities - AFS and mortgage other loans receivable investment yield excludes commercial mortgage loan prepayment fee and call and tender income and other. Annualized Yield is calculated using quarterly annualized investment income divided by the average quarterly asset amortized cost for the interim periods. Additionally, see Note 1.

(in millions)	Quarterly					Twelve Months Ended December 31,	
	4Q25	3Q25	2Q25	1Q25	4Q24	2025	2024
<b>GI Fixed maturity securities - AFS, at fair value and Mortgage and other loans receivable - Annualized Yield (1)</b>							
GI Fixed maturity securities - AFS, Mortgage and other loans receivable investment income	4.59 %	4.58 %	4.42 %	4.10 %	3.91 %	4.43 %	3.88 %
\$ 795	\$ 789	\$ 799	\$ 683	\$ 649	\$ 3,066	\$ 2,621	
Less: GI commercial mortgage loan prepayments, call and tender income and other	3	—	42	—	(2)	45	2
Sub-total	792	789	757	683	651	3,021	2,619
GI AFS amortized cost and Mortgage and other loans receivable carrying value	\$ 68,912	\$ 69,246	\$ 69,536	\$ 67,346	\$ 65,913	\$ 68,912	\$ 65,913

- (8) In the year ended December 31, 2025, Other increased primarily as a result of impairments on investments in real estate funds, which were sold on December 23, 2025.

American International Group, Inc.

Fixed Maturity Security Portfolio by Composite AIG Credit Rating, at Fair Value Excluding Fortitude Re Funds Withheld Assets

December 31, 2025

(in millions)	Total Investment Grade						CCC and Lower	Total Below Investment Grade	Total

(1) Excludes \$94 million of fixed maturity securities for which no composite AIG credit rating is available.

## American International Group, Inc. Non-GAAP Financial Measures

Throughout this Financial Supplement, we present our financial condition and results of operations in the way we believe will be most meaningful and representative of our business results. Some of the measurements we use are “Non-GAAP financial measures” under SEC rules and regulations. GAAP is the acronym for generally accepted accounting principles in the United States. The non-GAAP financial measures we present may not be comparable to similarly-named measures reported by other companies. We use the following operating performance measures because we believe they enhance the understanding of the underlying profitability of continuing operations and trends of our segments. We believe they also allow for more meaningful comparisons with our insurance competitors. When we use these measures, reconciliations to the most comparable GAAP measure are provided on a consolidated basis.

**Adjusted Pre-tax Income (APTI)** is derived by excluding the items set forth below from income from continuing operations before income tax:

- changes in the fair values of equity securities, AIG's investment in Corebridge and gain/loss on sale of shares;
- net investment income on Fortitude Re funds withheld assets held by AIG in support of Fortitude Re's reinsurance obligations to AIG (Fortitude Re funds withheld assets);
- net realized gains and losses on Fortitude Re funds withheld assets;
- loss (gain) on extinguishment of debt;
- all net realized gains and losses except earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedging or for asset replication. Earned income on such economic hedges is reclassified from net realized gains and losses to specific APTI line items based on the economic risk being hedged (e.g. net investment income);
- income or loss from discontinued operations;
- net loss reserve discount benefit (charge);
- net results of businesses in run-off;
- non-operating pension expenses;
- net gain or loss on divestitures and other;
- non-operating litigation reserves and settlements;
- restructuring and other costs related to initiatives designed to reduce operating expenses, improve efficiency and simplify our organization;
- the portion of favorable or unfavorable prior year reserve development for which we have ceded the risk under retroactive reinsurance agreements and related changes in amortization of the deferred gain;
- integration and transaction costs associated with acquiring or divesting businesses;
- losses from the impairment of goodwill;
- non-recurring costs associated with the implementation of non-ordinary course legal or regulatory changes or changes to accounting principles; and
- income from elimination of the international reporting lag.

**Adjusted After-tax Income attributable to AIG common shareholders (AATI)** is derived by excluding the tax effected APTI adjustments described above, dividends on preferred stock and preferred stock redemption premiums, noncontrolling interest on net realized gains (losses), other non-operating expenses and the following tax items from net income attributable to AIG:

- deferred income tax valuation allowance releases and charges;
- changes in uncertain tax positions and other tax items related to legacy matters having no relevance to our current businesses or operating performance; and
- net tax charge related to the enactment of the Tax Cuts and Jobs Act (Tax Act).

## American International Group, Inc. Non-GAAP Financial Measures (Cont.)

Book value per share, excluding investments related cumulative unrealized gains and losses recorded in Accumulated other comprehensive income (loss) (AOCI) adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets (collectively, Investments AOCI) (Adjusted book value per share) is used to show the amount of our net worth on a per share basis after eliminating the fair value of investments that can fluctuate significantly from period to period due to changes in market conditions. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets held by AIG in support of Fortitude Re's reinsurance obligations to AIG (Fortitude Re funds withheld assets) since these fair value movements are economically transferred to Fortitude Re. Adjusted book value per share is derived by dividing total AIG common shareholders' equity, excluding Investments AOCI (AIG adjusted common shareholders' equity) by total common shares outstanding. The reconciliation to book value per share, the most comparable GAAP measure, is presented on page 23 herein.

**Book value per share, excluding Investments AOCI, deferred tax assets (DTA) and AIG's ownership interest in Corebridge (Core operating book value per share)** is used to show the amount of our net worth on a per share basis after eliminating Investments AOCI, DTA and AIG's ownership interest in Corebridge. We believe this measure is useful to investors because it eliminates the fair value of investments that can fluctuate significantly from period to period due to changes in market conditions. We also exclude the portion of DTA representing U.S. tax attributes related to net operating loss carryforwards (NOLs), corporate alternative minimum tax credits (CAMTCs) and foreign tax credits (FTCs) that have not yet been utilized. Amounts for interim periods are estimates based on projections of full-year attribute utilization. As NOLs, CAMTCs and FTCs are utilized, the corresponding portion of the DTA utilized is included. We exclude AIG's ownership interest in Corebridge since it is not a core long-term investment for AIG. Core operating book value per share is derived by dividing total AIG common shareholders' equity, excluding Investments AOCI, DTA and AIG's ownership interest in Corebridge (**AIG core operating shareholders' equity**) by total common shares outstanding. The reconciliation to book value per share, the most comparable GAAP measure, is presented on page 23 herein.

**Book Value per share, excluding Goodwill, Value of business acquired (VOBA), Value of distribution channel acquired (VODA) and Other intangible assets (Tangible book value per share)** is used to provide a useful measure of the realizable shareholder value on a per share basis. Tangible book value per share is derived by dividing Total AIG common shareholders' equity, excluding intangible assets (**AIG tangible common shareholders' equity**) by total common shares outstanding. The reconciliation to book value per share, the most comparable GAAP measure, is presented on page 23 herein.

**Book Value per share, excluding Investments AOCI, Goodwill, VOBA, VODA and Other intangible assets (Adjusted tangible book value per share)** is used to provide a useful measure of the realizable shareholder value on a per share basis after eliminating the fair value of investments that can fluctuate significantly from period to period due to changes in market conditions and Fortitude Re funds withheld assets since these fair value movements are economically transferred to Fortitude Re. Adjusted tangible book value per share is derived by dividing AIG adjusted common equity, excluding intangible assets, (**AIG adjusted tangible common shareholders' equity**) by total common shares outstanding. The reconciliation to book value per share, the most comparable GAAP measure, is presented on page 23 herein.

**Total debt to total adjusted capital ratio is used to show the AIG's debt leverage adjusted for Investments AOCI and is derived by dividing total debt by total capital excluding Investments AOCI (Total adjusted capital)**. We believe this measure is useful to investors because it eliminates items that can fluctuate significantly from period to period due to changes in market conditions. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets since these fair value movements are economically transferred to Fortitude Re. The reconciliation to Total capital, the most comparable GAAP measure, is presented on page 6 herein.

**Return on equity – Adjusted after-tax income excluding Investments AOCI (Adjusted return on equity)** is used to show the rate of return on common shareholders' equity excluding Investments AOCI. We believe this measure is useful to investors because it eliminates the fair value of investments which can fluctuate significantly from period to period due to changes in market conditions. Adjusted return on equity is derived by dividing actual or, for interim periods, annualized adjusted after-tax income attributable to AIG common shareholders by average AIG adjusted common shareholders' equity. The reconciliation to return on equity, the most comparable GAAP measure, is presented on page 24 herein.

**Return on equity – Adjusted after-tax income excluding Investments AOCI, DTA and AIG's ownership interest in Corebridge (Core operating return on equity)** is used to show the rate of return on common shareholders' equity excluding Investments AOCI, DTA and AIG's ownership interest in Corebridge. We believe this measure is useful to investors because it eliminates the fair value of investments that can fluctuate significantly from period to period due to changes in market conditions. We also exclude the portion of DTA representing U.S. tax attributes related to NOLs, CAMTCs and FTCs that have not yet been utilized. Amounts for interim periods are estimates based on projections of full-year attribute utilization. As NOLs, CAMTCs and FTCs are utilized, the corresponding portion of the DTA utilized is included. We exclude AIG's ownership interest in Corebridge since it is not a core long-term investment for AIG. We believe this metric provides investors with greater insight as to the underlying profitability of our property and casualty business. Core operating return on equity is derived by dividing actual or, for interim periods, annualized adjusted after-tax income attributable to AIG common shareholders by average AIG core operating shareholders' equity. The reconciliation to return on equity, the most comparable GAAP measure, is presented on page 24 herein.

**Return on Equity – Adjusted After-tax Income, Excluding Goodwill, VOBA, VODA and Other Intangible assets (Return on tangible equity)** is used to show the return on AIG tangible common shareholder's equity, which we believe is a useful measure of realizable shareholder value. We exclude Goodwill, VOBA, VODA and Other intangible assets from AIG common shareholders' equity to derive AIG tangible common shareholders' equity. Return on AIG tangible common equity is derived by dividing actual or, for interim periods, annualized adjusted after-tax income attributable to AIG common shareholders by average AIG tangible common shareholders' equity. The reconciliation to return on equity, the most comparable GAAP measure, is presented on page 24 herein.

## American International Group, Inc. Non-GAAP Financial Measures (Cont.)

**Ratios:** We, along with most property and casualty insurance companies, use the loss ratio, the expense ratio and the combined ratio as measures of underwriting performance. These ratios are relative measurements that describe, for every \$100 of net premiums earned, the amount of losses and loss adjustment expenses (which for General Insurance excludes net loss reserve discount), and the amount of other underwriting expenses that would be incurred. A combined ratio of less than 100 indicates underwriting income and a combined ratio of over 100 indicates an underwriting loss. Our ratios are calculated using the relevant segment information calculated under GAAP, and thus may not be comparable to similar ratios calculated for regulatory reporting purposes. The underwriting environment varies across countries and products, as does the degree of litigation activity, all of which affect such ratios. In addition, investment returns, local taxes, cost of capital, regulation, product type and competition can have an effect on pricing and consequently on profitability as reflected in underwriting income and associated ratios.

**Accident year loss and Accident year combined ratios, as adjusted (Accident year loss ratio, ex-CAT and Accident year combined ratio, ex-CAT):** both the accident year loss and accident year combined ratios, as adjusted, exclude catastrophe losses (CATs) and related reinstatement premiums, prior year development, net of premium adjustments, and the impact of reserve discounting. Natural catastrophe losses are generally weather or seismic events, in each case, having a net impact on AIG in excess of \$10 million and man-made catastrophe losses, such as terrorism and civil disorders that exceed the \$10 million threshold. We believe that as adjusted ratios are meaningful measures of our underwriting results on an ongoing basis as they exclude catastrophes and the impact of reserve discounting which are outside of management's control. We also exclude prior year development to provide transparency related to current accident year results.

Underwriting ratios are computed as follows:

- a. Loss ratio = Loss and loss adjustment expenses incurred ÷ Net premiums earned (NPE)
- b. Acquisition ratio = Total acquisition expenses ÷ NPE
- c. General operating expense ratio = General operating expenses ÷ NPE
- d. Expense ratio = Acquisition ratio + General operating expense ratio
- e. Combined ratio = Loss ratio + Expense ratio
- f. CATs and reinstatement premiums ratio = [Loss and loss adjustment expenses incurred – (CATs)] ÷ [NPE +/-(-) Reinstatement premiums related to catastrophes] – Loss ratio
- g. Accident year loss ratio, as adjusted (AYLR, ex-CAT) = [Loss and loss adjustment expenses incurred – CATs – PYD] ÷ [NPE +/-(-) Reinstatement premiums related to catastrophes +/-(-) Prior year premiums + Adjustment for ceded premium under reinsurance contracts related to prior accident years]
- h. Accident year combined ratio, as adjusted (AYCR, ex-CAT) = AYLR ex-CAT + Expense ratio
- i. Prior year development net of reinsurance and prior year premiums ratio = [Loss and loss adjustment expenses incurred – CATs – PYD] ÷ [NPE +/-(-) Reinstatement premiums related to catastrophes +/-(-) Prior year premiums] – Loss ratio – CATs and reinstatement premiums ratio.

Results from discontinued operations are excluded from all of these measures.

(1) Noncontrolling interest primarily relates to Corebridge and is the portion of Corebridge earnings that AIG did not own. Corebridge was consolidated until June 9, 2024. The historical results of Corebridge owned by AIG are reflected in the Income (loss) from discontinued operations, net of income taxes.

(2) In the three and twelve months ended December 31, 2025 includes a valuation allowance release related to our U.S. federal consolidated tax attribute carryforwards, as well as valuation allowance changes in certain foreign jurisdictions.

(3) Includes the impact of non-U.S. tax rates which differ from the applicable U.S. statutory tax rate and tax-only adjustments.

(4) Refer to footnote (1) on page 27.

(5) Refer to footnote (2) on page 27.

(6) Refer to footnote (3) on page 27.
