QUARTERLY UPDATE – Q4 2025

February 26, 2026

Important Information

This presentation and the information and views included herein do not constitute investment advice, or a recommendation or an offer to enter into any transaction with Eagle Point Credit Company Inc. ("ECC" or the "Company") or any of its affiliates. This presentation is provided for informational purposes only, does not constitute an offer to sell securities of the Company or a solicitation of an offer to purchase any such securities, and is not a prospectus. From time to time, the Company may have a registration statement relating to one or more of its securities on file with the Securities and Exchange Commission ("SEC"). Any registration statement that has not yet been declared effective by the SEC, and any prospectus relating thereto, is not complete and may be changed. Any securities that are the subject of such a registration statement may not be sold until the registration statement filed with the SEC is effective.

Investors should read the Company's prospectus and SEC filings (which are publicly available on the EDGAR Database on the SEC website at <http://www.sec.gov>) carefully and consider their investment goals, time horizons and risk tolerance before investing in the Company. Investors should consider the Company's investment objectives, risks, charges and expenses carefully before investing in securities of the Company as described in the prospectus. There is no guarantee that any of the goals, targets or objectives described in this presentation will be achieved. An investment in the Company is not appropriate for all investors. The investment program of the Company is speculative, entails substantial risk and includes investment techniques not employed by traditional mutual funds. An investment in the Company is not intended to be a complete investment program. Shares of closed-end investment companies, such as the Company, frequently trade at a discount from their net asset value ("NAV"), which may increase investors' risk of loss. **Past performance is not indicative of, or a guarantee of, future performance.** The performance and certain other portfolio information quoted herein represents information as of dates noted herein. Nothing herein shall be relied upon as a representation as to the future performance or portfolio holdings of the Company. Investment return and principal value of an investment will fluctuate, and shares, when sold, may be worth more or less than their original cost. The Company's performance is subject to change since the end of the period noted in this report and may be lower or higher than the performance data shown herein.

Neither the Adviser nor the Company provides legal, accounting or tax advice. Any statement regarding such matters is explanatory and may not be relied upon as advice. Investors should consult with their legal, accounting and tax advisers regarding any potential investment. The information presented herein is as of the dates noted and is derived from financial and other information of the Company, and, in certain cases, from third party sources and reports (including reports of third party custodians, collateralized loan obligation (CLO) collateral managers and trustees) that have not been independently verified by the Company. As noted herein, certain of this information is estimated and unaudited, and therefore subject to change. The Company does not represent that such information is accurate or complete, and it should not be relied upon as such. This report does not purport to be complete and no obligation to update or revise any information herein is being assumed.

Information contained on our website is not incorporated by reference into this report and you should not consider information contained on our website to be part of this report or any other report we file with the SEC.

ABOUT EAGLE POINT CREDIT COMPANY

The Company is a non-diversified, closed-end management investment company. The Company's primary investment objective is to generate high current income, with a secondary objective to generate capital appreciation. The Company seeks to achieve its investment objectives by investing primarily in equity and junior debt tranches of CLOs. The Company is externally managed and advised by Eagle Point Credit Management LLC. In addition to the Company's regulatory requirement to file certain portfolio information with the SEC, the Company makes certain additional financial information available to investors via its website (www.eaglepointcreditcompany.com), press releases and other public disclosures.

FORWARD-LOOKING STATEMENTS

These materials may contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Statements other than statements of historical facts included in this presentation may constitute forward-looking statements and are not guarantees of future performance or results and involve a number of risks and uncertainties. Actual results may differ materially from those in the forward-looking statements as a result of a number of factors, including those described in the prospectus and the Company's other filings with the SEC. The Company undertakes no duty to update any forward-looking statement made herein. All forward-looking statements speak only as of the date of this presentation.

Introduction to ECC

Private Equity Approach to Fixed Income Investing

Eagle Point employs a process that we believe is more akin to a private equity-style investment approach than the typical process used by many investors in fixed income securities

Investment Strategy and Process

- Proactive sourcing of investment opportunities
- Utilization of our methodical and rigorous investment analysis and due diligence process
- Involvement at the CLO formation and structuring stage enables us to influence the key terms and conditions of the investment for significant primary market investments
- Ongoing monitoring and diligence

Objective of the Process

- Outperformance relative to the CLO market
 - In the primary market, Eagle Point seeks to invest in CLO securities that have the potential to outperform other similar CLO securities issued within the respective vintage period

CLO Equity Overview

CLO Equity Overview

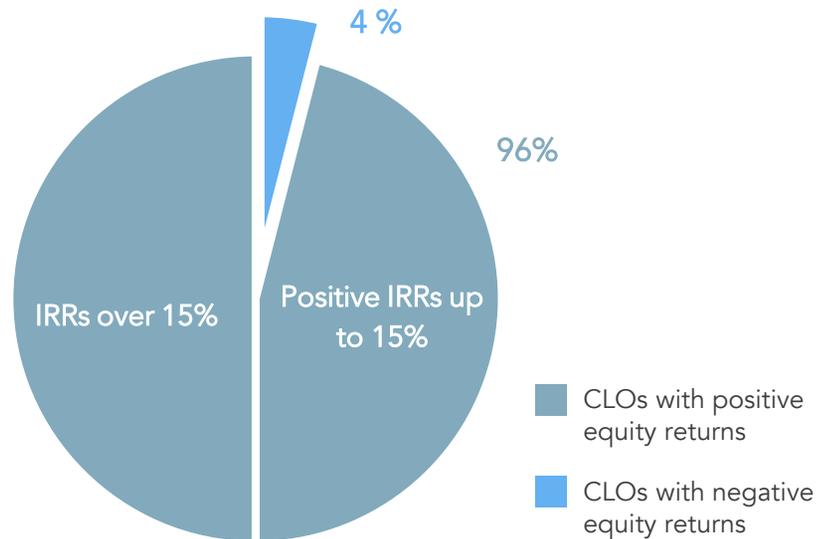

Why Invest in CLO Equity?

Eagle Point believes that CLO equity provides an attractive way to obtain exposure to loans

Distribution of CLO Equity IRRs US CLOs (2002 – 2011 Vintages)¹

- CLO equity has historically generated strong absolute returns with a low loss rate

CLO Equity Attributes

- Potential for strong absolute and risk-adjusted returns
- Expected shorter duration high-yielding credit investment with potential for high quarterly cash distributions
- Expected protection against rising interest rates²
- Expected low-to-moderate correlation over the long-term with fixed income and equity

Past performance is not indicative of, or a guarantee of, future performance. See Important Information on page 2.

CLO Equity Overview

CLOs are Securitizations of a Portfolio of Senior Secured Loans

The Company invests primarily in the equity and subordinated debt tranches

The CLO structure highlighted on this page is a hypothetical structure, and the structure of CLOs in which the Company invests may vary from this example. See the slide titled "CLO Equity Overview" in the Appendix: Endnotes section of this presentation for footnotes.

CLO Equity Overview

Senior Secured Loans are the Raw Materials of CLOs

Senior Secured Loans Represent "Pure" Credit Exposure

Senior	Senior position in a company's capital structure
Secured	First lien security interest in a company's assets
Floating Rate	Mitigates interest rate risk associated with fixed rate bonds ⁴
Low LTV	Senior secured loans often have a loan-to-value ratio of approximately 40-60% ⁵
Consistent Returns	Since 1992, the S&P UBS Leveraged Loan Index experienced only three years of negative total returns

Representative Company Capital Structure

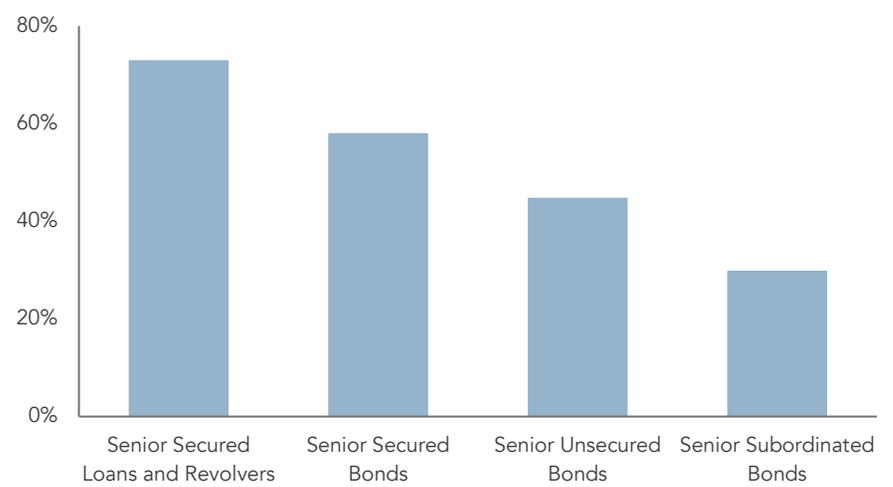

Assets	Liabilities and Equity	% of Capital Structure
<ul style="list-style-type: none"> Cash Receivables Inventory Property Plant Equipment Brands/Logos Intangibles Subsidiaries 	Senior Secured Loans First priority pledge of assets	40-60%
	Subordinated Bonds Generally unsecured	10-20%
	Equity	30-50%

Liquidity Considerations

- Secondary trading is conducted through BWICs (“Bids Wanted in Competition”) and privately negotiated sales
- CLO debt and equity tranches typically settle electronically via DTC and trade on a T+1 basis

Annual CLO Trading Volume

INSIGHT

There was over \$185 billion of CLO trading volume annually on average over the last 5 years

Introduction to Eagle Point Credit Company (ECC)

Company and Adviser Overview

1. Combined market capitalization of ECC, ECCC, ECC PRD, ECCU, ECCV, ECCW and ECCX is based on securities outstanding as of December 31, 2025 and closing market prices as of January 30, 2026. Does not include ECCF as it was fully redeemed on January 30, 2026. Market capitalization for periods after December 31, 2025 will vary based on stock price performance. Combined market capitalization also includes the principal value of the Company's 7.00% Series AA Convertible and Perpetual Preferred Stock and 7.00% Series AB Convertible and Perpetual Preferred Stock, which are not listed on an exchange.
2. Based on ECC's closing market price of \$5.42 per share on January 30, 2026 and frequency and amount of current distributions most recently declared by the Company. To date, a portion of common stock distributions has been estimated to be a return of capital as noted under the Tax Information section on the Company's website. The actual components of the Company's distributions for US tax reporting purposes can only be finally determined as of the end of each fiscal year of the Company and are thereafter reported on Form 1099-DIV. A distribution comprised in whole or in part by a return of capital does not necessarily reflect the Company's investment performance and should not be confused with "yield" or "income." Future distributions may consist of a return of capital. **Not a guarantee of future distributions or yield.**
3. As of January 31, 2026. Professionals count includes employees of Eagle Point Credit Management LLC and certain of its affiliates.
4. As of December 31, 2025. AUM represents gross assets, inclusive of committed but undrawn capital, managed by Eagle Point Credit Management LLC and certain of its affiliates.

ECC Highlights

5. The S&P UBS Leveraged Loan Index, formerly known as Credit Suisse Leveraged Loan Index (CSLLI), tracks the investable universe of the US dollar-denominated leveraged loan market. Similarly, since 2001, from a total return perspective, the Morningstar LSTA US Leveraged Loan Index experienced only three down full calendar years (2008, 2015 and 2022 with returns of -29.1%, -0.7% and -0.6%, respectively). The Morningstar LSTA US Leveraged Loan Index is a market value-weighted index designed to measure the performance of the US leveraged loan market based upon weightings, spreads and interest payments. You cannot invest directly in an index. See page 18.
6. Amount includes holdings of Eagle Point and its senior investment personnel as of December 31, 2025 (based on market values as of January 30, 2026).

Cumulative Common Stock Distributions

7. Based on amount and frequency of regular distributions most recently declared by the Company.
8. As of December 31, 2025. To date, a portion of common stock distributions has been estimated to be a return of capital as noted under the Tax Information section on the Company's website. The actual components of the Company's distributions for US tax reporting purposes can only be finally determined as of the end of each fiscal year of the Company and are thereafter reported on Form 1099-DIV. A distribution comprised in whole or in part by a return of capital does not necessarily reflect the Company's investment performance and should not be confused with "yield" or "income." Introduction to Eagle Point Credit Company (ECC)

Securities Outstanding

9. Reflects securities outstanding as of December 31, 2025, after giving effect to the full redemption of the Series F Term Preferred Stock, and market prices as of January 30, 2026. Yield is shown to the stated maturity based on market prices as of January 30, 2026. If called prior to stated maturity, the yield could be adversely impacted. Series AA/AB Convertible Perpetual Preferred Stock are unlisted and price per share reflects a public offering price.

Track Record: Common Stock Total Return and Price to Book Ratio

10. Total return is calculated as the percent change in the value of \$10,000 invested in ECC common stock at the time of the Company's IPO and assumes that any dividends or distributions are reinvested at prices obtained by the Company's dividend reinvestment plan on the applicable payment date. Future results may vary and may be higher or lower than those shown. Returns do not reflect the deduction of taxes that a shareholder would pay on Company distributions or the sale of Company shares.
11. The S&P BDC Index is designed to track leading business development companies (BDCs) that trade on NYSE and NASDAQ and satisfy market capitalization and equity requirements. Although ECC is not a BDC, BDCs generally invest in high yielding credit investments, as does ECC. In addition, similar to ECC, BDCs generally elect to be classified as a regulated investment company under the US Internal Revenue Code of 1986, as amended, which generally requires an investment company to distribute its taxable income to shareholders. You cannot invest directly in an index.
12. Price to book is calculated as price per share divided by book value per share, which for ECC, reflects management's reported estimate of book value for periods where final determined book values are not available. Future results may vary and may be higher or lower than those shown.

ECC By The Numbers

13. Since IPO date October 7, 2014 through December 31, 2025.

Why Invest in CLO Equity?

1. This chart shows certain performance data for CLO 1.0 vintages. For this purpose, CLO 1.0 vintages are defined as US broadly syndicated cash flow CLOs that were originated from 2002 to 2011. Information for later vintage CLOs is not as complete and is therefore not shown. The figures presented in this report do not reflect any projections regarding the returns of any investment strategy, and all returns earned on CLO investments will be reduced by any applicable expenses and management fees. Actual performance of a CLO investment will vary, and such variance may be material and adverse, including the potential for full loss of principal. In particular, ECC is only invested in CLOs issued after 2011 (the CLO 2.0 period), and no representation is being made with respect to the historical or future performance of such later issued CLOs. CLO investments involve multiple risks, including unhedged credit exposure to companies with speculative-grade ratings, the use of leverage, and pricing volatility. The analysis was prepared by Eagle Point based on its proprietary analysis of data sourced from Intex, Bloomberg, Moody's Investors Service, and proprietary CLO Manager presentations. While the data and information contained in this report have been obtained from sources that Eagle Point considers reliable, Eagle Point has not independently verified all such data and does not represent or warrant that such data and information are accurate or complete, and thus they should not be relied upon. In addition, for purposes of this analysis, IRRs were calculated at the CLO level net of all CLO-related expenses, and some of such IRRs have certain inherent limitations as they are calculated based on certain underlying assumptions, which may under or over compensate for the impact, if any, of certain market factors and financial risks, such as lack of liquidity, macroeconomic factors, and other similar factors. The IRR calculations assume an initial cash investment equal to the par balance of the equity tranche. For redeemed CLOs, the equity IRR is based on reported Intex cash flows or manager reported realized returns where Intex data was not available. For active CLOs, the equity IRR is based on reported Intex cash flows and assumes a terminal equity value equal to the CLO's NAV as of November 2, 2017. Such assumptions may not be reflective of actual market conditions in the past, present, or future. Additional information relating to this analysis is available upon request.
2. The Adviser expects CLO equity to provide some measure of protection against rising interest rates when the applicable benchmark rate is greater than the benchmark rate floor on a CLO's underlying assets (which can typically range from 0.00% to 1.00% depending on the loan). However, CLO equity is also subject to other forms of interest rate risk.

CLOs are Securitizations of a Portfolio of Senior Secured Loans

3. Since a CLO's indenture typically requires that the maturity dates of a CLO's assets (typically 5 to 7 years from the date of issuance of a senior secured loan) be shorter than the maturity date of the CLO's liabilities (typically 12 to 13 years), CLOs generally do not face refinancing risk on the CLO debt. However, CLO investors do face reinvestment risk with respect to a CLO's underlying portfolio. In addition, in most CLO transactions, CLO debt investors are subject to prepayment risk in that the holders of a majority of the equity tranche can direct a call or refinancing of a CLO, which would cause the CLO's outstanding CLO debt securities to be repaid at par.

CLO Equity Overview

Senior Secured Loans are the Raw Materials of CLOs

4. The Adviser expects CLO equity to provide some measure of protection against rising interest rates when the applicable benchmark rate is greater than the benchmark rate floor on a CLO's underlying assets (which can typically range from 0.00% to 1.00% depending on the loan). However, CLO equity is also subject to other forms of interest rate risk.
5. Loan-to-value ratio is typically based on market values as determined in an acquisition, by the public in the case of publicly traded companies, or by private market multiples and other valuation methodologies in the case of private companies.
6. The illustrative borrowers shown may not reflect a meaningful part of the portfolios of our CLO investments and have been selected to provide context regarding the general types of borrowers of US senior secured loans. Most of such borrowers are not as recognizable to the public as those shown.

The Spread in Loan Market Remains at High End of Historical Range

12. The S&P UBS Leveraged Loan Index, formerly known as CSLLI, launched January 31, 1992 and tracks the investable universe of the US dollar-denominated leveraged loan market. Similarly, since 2001, from a total return perspective, the Morningstar LSTA US Leveraged Loan Index experienced only three down years (2008, 2015 and 2022 with returns of -29.1%, -0.7% and -0.6%, respectively). ECC Supplemental Information

Portfolio Details – Q4 2025

1. The information contained herein is unaudited. The information shown is derived from the Company's 2025 Annual Report, interim quarterly unaudited financial statements and/or other related financial information, CLO trustee reports, custody statements and/or other information received from CLO collateral managers. Excludes CLO debt, loan accumulation facilities and non-CLO investments. Dollar amounts in thousands.
2. As of December 31, 2025, the CLO either had not reached its first payment date or, in the case of secondary purchases, had not made a payment since the Company owned the security.

Portfolio Investments and Underlying Portfolio Characteristics and Maturity Distribution of Underlying Obligors

4. The summary of portfolio investments and cash shown is based on the estimated fair value of the underlying positions and cash net of pending trade settlements as of December 31, 2025. Excludes restricted cash.
5. The information presented herein is on a look-through basis to CLO equity held by the Company as of the period ends noted (except as otherwise noted) and reflects the aggregate underlying exposure of the Company based on the portfolios of those investments. The data is estimated and unaudited and is derived from CLO trustee reports received by the Company relating to the period ends noted above and from custody statements and/or other information received from CLO collateral managers and other third-party sources. Information relating to the market price of the underlying collateral is as of month end; however, with respect to other information shown, depending on when such information was received, the data may reflect a lag in the information reported. As such, while this information was obtained from third party data sources, period end trustee reports and similar reports, other than the market price, it does not reflect actual underlying portfolio characteristics as of the period ends noted above, and this data may not be representative of current or future holdings. The weighted average remaining reinvestment period information is based on the fair value of CLO equity investments held by the Company at the end of the reporting periods.
6. The Company obtains exposure in underlying senior secured loans indirectly through CLOs.
7. Credit ratings shown are based on those assigned by Standard & Poor's Rating Group, or "S&P," or, for comparison and informational purposes, if S&P does not assign a rating to a particular obligor, the weighted average rating shown reflects the S&P equivalent rating of a rating agency that rated the obligor provided that such other rating is available with respect to a CLO equity or related investment held by us. In the event multiple ratings are available, the lowest S&P rating, or if there is no S&P rating, the lowest equivalent rating, is used. The ratings of specific borrowings by an obligor may differ from the rating assigned to the obligor and may differ among rating agencies. For certain obligors, no rating is available in the reports received by the Company. Such obligors are not shown in the graphs and, accordingly, the sum of the percentages in the graphs may not equal 100%. Ratings below BBB- are below investment grade. Further information regarding S&P's rating methodology and definitions may be found on its website (www.standardandpoors.com). This data includes underlying portfolio characteristics of the Company's CLO equity.

Obligor and Industry Exposures

8. Industry categories are based on the S&P industry categorization of each obligor as reported in CLO trustee reports to the extent so reported. Certain CLO trustee reports do not report the industry category of all of the underlying obligors and where such information is not reported, it is not included in the summary look-through industry information shown.
