2025

ANNUAL REPORT

TO OUR SHAREHOLDERS.

2025 was another outstanding year for Sprouts Farmers Market—one that reflects the strength of our strategy and the dedication of our team.

We delivered robust financial performance across all key metrics during the year. Comparable sales rose by more than 7%, total sales grew over 14%, and earnings per share increased more than 40% year over year. These results were driven by solid execution across our organization, even as the consumer environment became more challenging.

Our growth was broad-based across geographies and categories. New stores once again exceeded our expectations, validating our expansion strategy and reinforcing our confidence in the locations we're selecting. At the same time, our differentiated, attribute-driven products that define who we are continued to resonate with our core customers, reinforcing the durability of our model.

Innovation remains a real strength, and we know this is an area where we must keep raising the bar. Our foraging and innovation efforts led to the introduction of more than 7,000 new items in 2025. Our rollout of meat self-distribution was successful, improving quality, efficiency, and control across the supply chain.

Customer engagement moved forward. In 2025, we successfully launched our loyalty program, which saw rapid adoption. We will continue to invest in our personalization capabilities to increase the effectiveness of the program and support our customers' healthy living journeys. As customer interest in health and wellness accelerates across the industry, we will reinforce our leadership position in this important and growing category by deepening engagement, broadening customer insights, sharpening our offerings, and consistently delivering the experience our customers expect.

While we're proud of what we accomplished in 2025, we remain clear-sighted about the work ahead. The long-term tailwinds from health and wellness continue to build, however consumers are prioritizing value and making more deliberate choices in the current environment. We have built a solid foundation that positions us well to address near-term realities and capitalize on long-term opportunities. As I said on our year-end earnings call, we'll double down on our unique strengths that make customers say, "I love Sprouts!" and continue to invest in the systems, infrastructure, people, and capabilities that will enable us to sustain growth for many years to come.

None of this would be possible without our incredible team. I want to sincerely thank our 36,000 team members for their hard work, commitment, and passion—they are the driving force behind our success. Their willingness to push forward, even when challenges arise, makes progress possible. I also want to thank our shareholders for your continued confidence and support. We do not take that trust for granted.

We remain focused on executing our strategy, serving our customers, and creating long-term value as we continue to fulfill our purpose of helping people live and eat better. We are energized about the opportunities ahead and confident in our ability to deliver.

Thank you for being part of our journey.

Jack Sinclair,
Chief Executive Officer

2025 HIGHLIGHTS

- Achieved annual sales of \$8.8 billion, a 14% increase from 2024, bolstered by 7.3% comparable store sales growth
- Opened 37 new stores from sea to shining sea, resulting in 477 stores in 24 states as of 2025 year-end
- Created approximately 3,700 new jobs through our new store openings and promoted 6,000 our team members
- Elevated e-commerce sales to over 15% of sales and our ability to seamlessly integrate our digital and in-store experience
- Grew our Sprouts Brand to over 25% of our total sales, demonstrating the popularity of these differentiated products
- Donated the equivalent of 30 million meals to those in need through our Food Rescue program
- Returned \$472 million to shareholders through our ongoing share buyback program, contributing to our diluted earnings per share of \$5.31, an increase of 42% from 2024

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Trading Symbol(s)	Name of Each Exchange on Which Registered
Common Stock, \$0.001 par value	SFM	Nasdaq Global Select Market

Securities registered pursuant to Section 12(g) of the Act:

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of June 27, 2025, the last business day of the registrant's most recently completed second fiscal quarter, the aggregate market value of the registrant's voting common stock held by non-affiliates of the registrant was \$15,781,871,524, based on the last reported sale price of such stock as reported on The Nasdaq Global Select Market on such date.

As of February 17, 2026, there were 94,576,393 outstanding shares of the registrant's common stock, \$0.001 par value per share.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's definitive Proxy Statement for its 2026 Annual Meeting of Stockholders are incorporated by reference in Part III of this Annual Report on Form 10-K where indicated. Such Proxy Statement will be filed with the Securities and Exchange Commission within 120 days of the registrant's fiscal year ended December 28, 2025.

As used in this Annual Report on Form 10-K, unless the context otherwise requires, references to the “Company,” “Sprouts,” “we,” “us” and “our” refer to Sprouts Farmers Market, Inc., a Delaware corporation, and, where appropriate, its subsidiaries. The inclusion of our website addresses in this Annual Report on Form 10-K does not include or incorporate by reference the information on or accessible through our websites herein.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains “forward-looking statements” that involve substantial risks and uncertainties. The statements contained in this Annual Report on Form 10-K that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (referred to as the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (referred to as the “Exchange Act”), including, but not limited to, statements regarding our growth strategy, expectations, beliefs, intentions, future operations, future financial position, future revenue, projected expenses, and plans and objectives of management. In some cases, you can identify forward-looking statements by terms such as “anticipate,” “believe,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “project,” “will,” “would,” “should,” “could,” “can,” “predict,” “potential,” “continue,” “objective,” or the negative of these terms, and similar expressions intended to identify forward-looking statements. However, not all forward-looking statements contain these identifying words. These forward-looking statements reflect our current views about future events and involve known risks, uncertainties, and other factors that may cause our actual results, levels of activity, performance, or achievement to be materially different from those expressed or implied by the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in the section titled “Risk Factors” included in this Annual Report on Form 10-K. Furthermore, such forward-looking statements speak only as of the date of this report. Except as required by law, we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date of such statements.

PART I

Item 1. *Business*

Sprouts Farmers Market offers a unique specialty grocery experience featuring an open layout with fresh produce at the heart of the store. Sprouts inspires wellness naturally with a carefully curated assortment of better-for-you products paired with purpose-driven people. We continue to bring the latest in wholesome, innovative products made with lifestyle-friendly ingredients such as organic, plant-based and gluten-free. From our founding in 2002, we have grown rapidly, significantly increasing our sales, store count and profitability. Headquartered in Phoenix with 477 stores in 24 states as of December 28, 2025, we are one of the largest and fastest growing specialty retailers of fresh, natural and organic food in the United States.

Our Growth Strategy

We continue to execute on our long-term growth strategy that we believe is driving profitable growth, focusing on the following areas:

- *Win with Target Customers.* We are focusing attention on our target customers, identified through research as 'health enthusiasts' and 'selective shoppers', where there is ample opportunity to gain share within these customer segments. We believe our business can continue to grow by leveraging existing strengths in a unique assortment of better-for-you, quality products and by providing a full omnichannel offering through delivery or pickup via our website or the Sprouts app.
- *Market Expansion.* We are delivering unique smaller stores with expectations of stronger returns, while maintaining the approachable, fresh-focused farmer's market heritage Sprouts is known for. From 2021 through 2025, we have opened 112 new stores and remodeled one store featuring our updated format. Our geographic store expansion and new store placement will intersect where our target customers live, in markets with growth potential and supply chain support, which we believe will provide a long runway of approximately 10% annual unit growth.
- *Create an Advantaged Supply Chain.* We believe our network of distribution centers can drive efficiencies across the chain and support growth plans. To further deliver on our fresh commitment and reputation, as well as to increase our local offerings and improve financial results, we aspire to ultimately position fresh distribution centers within a 250-mile radius of stores. As a step to improve our fresh supply chain, in 2025 we began the transition to a self-distribution model for meat and seafood through our fresh distribution centers. As a result, we are better leveraging our existing distribution center capacity, and approximately 80% of our stores were within 250 miles of a distribution center as of December 28, 2025.
- *Customer Engagement and Personalization.* We believe we are elevating our national brand recognition and positioning by telling our unique brand story rooted in product innovation and differentiation. We are increasing our use of data analytics and insights, including through the nationwide launch of our Sprouts Rewards loyalty program in 2025. We believe this data-driven intelligence will increase customer engagement through personalization efforts with digital and social connections to drive additional sales growth and loyalty.
- *Inspire and Engage Our Talent to Create a Best Place to Work.* Subsequent to the initial launch of our long-term growth strategy, we have added the focus area of inspiring and engaging our talent through our culture, acquisition and development and total rewards program to attract and retain the talent we believe we need to execute on our strategic goals and transform our company into a premier place to work.
- *Invest in Technology for Growth.* We continue to make investments in technology in support of our strategy, with a focus on enhancing efficiency, scalability, and customer experience. While we are showing positive outcomes on our strategic investments in inventory management and customer personalization, we believe that ongoing investments in our technology foundation will allow us to streamline operations and improve decision making to execute on our strategy.

- *Deliver on Key Financial Metrics.* We are measuring and reporting on the success of this strategy against a number of long-term financial and operational targets. Since the implementation of our strategy beginning in 2020, we have significantly improved our margin structure above our 2019 baseline.

Our Stores and Operations

We believe our stores represent a blend of farmers markets, natural foods stores, and smaller specialty markets, distinguishing us from other food retailers, while also providing a broad offering of innovative and differentiated products with lifestyle friendly ingredients for our customers.

- *Store Design and Experience.* Our stores are organized in a “flipped” conventional food retail store model, positioning our produce at the center of the store surrounded by a specialty grocery offering. Produce remains the heart of our stores, as we typically dedicate approximately 20% of a store’s selling square footage to produce, which we believe is significantly higher than many of our peers. The stores are designed with open layouts and low displays, intended to provide an easy-to-shop environment that invokes a farmers’ market experience and allows our customers to view the entire store. Our small box format allows for quick in-and-out service, and our curated assortment of innovative, responsibly and locally sourced items offer treasure hunt shopping experiences. The below diagram shows a sample layout of our updated smaller format stores:

- *Customer Engagement.* We are committed to providing, and believe we have, best-in-class customer engagement, which builds trust with our customers and differentiates the Sprouts shopping experience from that of many of our competitors. We design our stores to maximize personal connections with our purpose-driven team members, as we believe this interaction provides an opportunity to educate customers and provides a valued, differentiated customer service model, which enhances customer loyalty and increases visits and purchases over time. In addition, we continue to expand mobile and digital opportunities to further engage with our customers and provide a full omnichannel offering as many customers use both in-store and online for their grocery needs.
- *Store Size.* Currently, our stores average approximately 28,000 square feet, which we believe is smaller than many of our peers’ average stores. Under our long-term growth strategy, our updated format stores feature a smaller box size, generally between 21,000 and 25,000 square feet, that stay true to our fresh-focused, farmers market heritage but are generally less expensive to build, reduce non-selling space, reduce occupancy and operating costs and leverage the strengths of

our older, highly productive stores. Our stores are located in a variety of mid-sized and larger shopping centers, lifestyle centers and in certain cases, independent single-unit, stand-alone developments. The size of our stores and our real estate strategy provide us flexibility in site selection.

- **Team Members.** Our stores are typically staffed with 75 to 100 full and part-time team members. We are intentional about our company culture, rooted in our purpose, with a dedication to developing team members throughout the organization. We take pride in caring for and assisting our store teams through our store support office and regional teams. We have prioritized making investments in training and team member development that we believe enhances our team members' knowledge, particularly with respect to our expanded and evolving product offerings, so our team members can continue to engage and assist our customers. We also support leadership and career opportunities for our team members at Sprouts. We believe our team members contribute to our consistently high service standards and this helps us successfully open and operate our stores.

Our Product Offering

We are a specialty natural and organic food retailer offering a unique shopping experience for our customers. To offer the right assortment of healthy alternatives and good-for-you options, we curate our product mix to attribute-driven and differentiated fresh, natural and organic foods and healthier options throughout all of our departments, with innovative products that feature lifestyle friendly ingredients.

Fresh, Natural and Organic Foods

We focus our product offerings on fresh, natural and organic foods. Foods are generally considered “fresh” if they are minimally processed or in their raw state not subject to any type of preservation or freezing. Natural foods can be broadly defined as foods that are minimally processed and are free of synthetic preservatives, artificial sweeteners, colors, flavors and other additives, growth hormones, antibiotics, hydrogenated oils, stabilizers and emulsifiers. Essentially, natural foods are largely or completely free of non-naturally occurring chemicals and are as near to their whole, natural state as possible. Organic foods refer to the food itself as well as the method by which it is produced. In general, organic operations must demonstrate that they are protecting natural resources, conserving biodiversity, and using only approved substances and must be certified by a USDA-accredited certifying agency. Further, retailers that handle, store or sell organic products must implement measures to protect their organic character.

Product Categories

We categorize the varieties of products we sell as perishable and non-perishable. Perishable product categories include produce, meat and meat alternatives, seafood, deli, bakery, floral and dairy and dairy alternatives. Non-perishable product categories include grocery, vitamins and supplements, bulk items, frozen foods, beer and wine, and natural health and body care. The following is a breakdown of our perishable and non-perishable sales mix:

	2025	2024	2023
Perishables	57.0 %	57.3 %	57.3 %
Non-Perishables	43.0 %	42.7 %	42.7 %

Departments

While we focus on providing an abundant and affordable offering of natural and organic produce, our stores also include the following departments: packaged groceries, meat and meat alternatives, seafood, deli, vitamins and supplements, dairy and dairy alternatives, bulk items, baked goods, frozen foods, natural health and body care, and beer and wine. Our departments reflect our unique selling proposition featuring intentional curation of responsibly and locally sourced products. We believe each of our departments provides high-quality, differentiated and value-oriented offerings for our customers which we continuously refine with our customers' preferences in mind.

Sprouts Brand

We continue to expand the breadth of our Sprouts-branded products through a dedicated product development team committed to driving growth with a focus on innovation and quality. Our broad assortment features differentiated, attribute-driven products that create an engaging and exploratory shopping experience for our customers. This curated selection—available exclusively at Sprouts—delivers exceptional taste and quality while offering strong value. Our initiative to update and redesign all Sprouts-branded products is now substantially complete, with a focus in 2025 on updating the vitamins and supplements assortment, enhancing consistency across the assortment and elevating the overall customer experience. We believe the refreshed design is contributing to increased sales and improved brand recognition. In fiscal 2025, Sprouts Brand products represented just over 25% of our revenue. We believe this portfolio strengthens and elevates the overall Sprouts shopping experience, differentiates us within the marketplace, fosters customer loyalty, and reinforces Sprouts as a destination for unique products available only in our stores.

Product Innovation

We believe Sprouts is on the forefront of food innovation and has paved the way for natural food trends for over two decades. Since our founding, Sprouts has carried a wide selection of innovative natural and organic brands that resonate with our target customers and inspire healthy living for everyone. We have nurtured and grown many startup brands that now serve as category leaders. As we continue to grow, we aspire to become the most innovative health and wellness specialty food retailer in the country by seeking out and growing our relationships with niche vendors to bring their unique, quality products to the millions of shoppers who visit our stores every week. Led by our dedicated foraging team, we embrace product innovation, and we believe our stores serve as an incubator for growth across the natural foods industry, highlighting new and differentiated items in our innovation center merchandising displays.

In 2025, we launched more than 7,000 new products. We feature thousands of responsibly sourced products with certifications and attributes that are desired by our target customer base, including organic, paleo, keto, plant-based, non-GMO, fair trade, gluten-free, vegan, grass-fed, raw and humane certified. We will continue to offer a treasure hunt experience for our customers by sourcing new, innovative and differentiated offerings into every department of our stores.

Sourcing and Distribution

We manage the buying of, and set the standards for, the products we sell, and we source our products from hundreds of vendors and suppliers, both domestically and internationally. We are committed to sourcing products in a manner that respects people, our communities and the environment, and we seek to partner with suppliers and service providers that share this commitment, as included in our Supplier Code of Conduct, which details our expectations regarding workplace standards and supplier best practices, and our Commitment to Human Rights, which details our commitment to respecting human rights in our operations and supply chain.

We believe, based on our industry experience, that our strong relationships in the produce business provide us a competitive advantage and enable us to offer differentiated varieties of high-quality produce. Our centralized buyers are supported by dedicated regional procurement teams that provide us flexibility to procure produce on local, regional and national levels. Our regional produce buying teams allow us to form meaningful relationships with farmers to build a path to growing with them as we grow, and our flexibility allows us to react to produce markets quickly in order to help us bring new and innovative varieties to our customers. These products become treasure hunt items found at our stores.

Given the importance of produce to our stores, we source, warehouse and self-distribute nearly all produce. This ensures our produce meets our high-quality standards. We have department and product specifications that ensure a consistently high level of quality and freshness across our produce offering. These specifications are measured at both entry and exit points to our facilities. We manage every aspect of quality control in our produce distribution centers.

As a pillar of our long-term growth strategy, we expect to create an advantaged supply chain and aspire to locate our distribution centers within 250 miles of the majority of our stores. We currently have six fresh distribution centers, with two located in California and one located in each of Arizona, Texas, Colorado and Florida. In 2025, we extended our partnership with a third-party produce distributor in Pennsylvania to supply fresh produce to our Mid-Atlantic stores. As of December 28, 2025, approximately 80% of our stores were within 250 miles of a distribution center. The proximity of our distribution centers to our stores has allowed us to deliver on our fresh commitment to our customers, by sourcing more products from local farmers and improving efficiencies in our distribution process.

We believe our scale, together with this decentralized purchasing structure and flexibility generates cost savings, which we frequently pass on to our customers. Distributors and farmers recognize the volume of goods we sell through our stores and our flexible purchasing and supply chain model allows us to opportunistically acquire produce at great value.

As a step to improve our fresh supply chain, in 2025 we began the transition to a self-distribution model for meat and seafood through our fresh distribution centers. During this process, we experienced third-party supply disruptions that led to availability challenges and customer disruption. However, as of December 28, 2025, we have transitioned meat and seafood distribution through four of our distribution centers, servicing approximately 70% of our stores and resulting in increased delivery frequency of fresh product and improved fill rates. We expect to transition our remaining distribution centers in 2026, resulting in approximately 95% of our stores to be serviced through our for meat and seafood self-distribution model.

For all non-produce products and the remaining meat and seafood products in geographies that have not yet transitioned to self-distribution, we use third-party distributors and vendors to distribute products directly to our stores following specifications and ingredient and quality control standards that are set by us.

KeHE Distributors, LLC (“KeHE”), is our primary supplier of dry grocery and frozen food products, accounting for approximately 52%, 50% and 47% of our total purchases in fiscal 2025, 2024 and 2023, respectively. Another 12% of our total purchases in fiscal 2025 and 3% of our total purchases in each of fiscal 2024 and 2023 were made through our secondary supplier, United Natural Foods, Inc. (“UNFI”).

We work closely with our supply chain partners to improve animal welfare standards, responsible seafood sourcing, support for organic and regenerative agriculture and the ethical treatment of people. For an overview of our product sourcing policies and programs, please visit: sprouts.com/about/sustainability/.

Our Pricing, Marketing and Advertising

Pricing

As a farmers market style store, we emphasize competitive prices throughout the entire store, as we are able to pass along the benefits of our scale and purchasing power to our customers, particularly in certain categories such as produce. We position our prices with everyday value for our customers within our margin structure, with regular promotions that drive traffic and trial. Our Sprouts Brand products offer entry-level price points in certain categories, but also focus on attributes, innovation, treasure hunt experience, wellness or health benefits and quality.

Marketing and Advertising

As part of our long-term growth strategy to refine our brand and marketing approach, we continue to grow our current marketing strategy to drive more profitable growth and create more meaningful connections with our customers. Our digital-first marketing strategy is focused on connecting with our most important, higher value target customers via precision geographic targeting, data-driven media and focusing on personal relevance to tap into our target audience's needs and affinities.

We are telling our unique and differentiated story through both traditional channels and digital media, including online video, streaming audio and outdoor media. Leveraging digital communications targeted to specific geographic areas provides us with greater flexibility to utilize different media channels based on market composition. This allows us to respond to local competitive activity and to better connect with customers in both our established and emerging markets. Connecting with our customers via owned customer relationship management ("CRM") channels like email and text messages continues to be a significant priority. We focus our efforts on personalizing content that is relevant to our customers.

In 2025, we launched our Sprouts Rewards loyalty program nationwide which we believe will allow us to enhance our customer engagement. Additionally, we experienced a 10% increase in email subscribers in 2025 compared to 2024. During 2025, our CRM platforms and weekly digital flyers generated over 17 million views, demonstrating that our leverage of digital media to reach customers and share what is new and unique at Sprouts resonates with the habits of today's shoppers.

We have developed and maintain the Sprouts app on which we include digital coupons and in-store scan features, and our website, www.sprouts.com, on which we display our weekly sales flyers and highlight our unique and differentiated product offerings. Our website and app also feature online ordering for delivery and pickup. We offer home deliveries from our stores through delivery service providers, including Instacart, DoorDash and Uber Eats, in all of our markets nationwide.

Sprouts continues to educate and reach shoppers through social partnerships, special content and sponsorships. Among our 2025 highlights:

- We continued our long-term commitment to and investment in collegiate women's athletics through partnerships with the Big 12 and SEC conferences. Through our PowHERed by Sprouts program, we expanded our NIL portfolio and partnered with over 175 female collegiate athletes.
- For the second year, Sprouts was the title partner of the ESPN Sprouts Farmers Market Collegiate Quad which features schools from top 25 collegiate gymnastics programs, All-Americans, and current and future Olympians. In 2025, this Collegiate Quad became the most watched NCAA gymnastics meet in ESPN history.
- Sprouts continued its back-of-jersey sponsorship with the Angel City Football Club in 2025. As a portion of this partnership, funds are allocated to support local causes that provide fresh food access and further children's nutrition education throughout Los Angeles. In 2025, Sprouts and Angel City held garden work days and contributed service hours into the local Los Angeles community.

Our Customers

We have employed deep research to understand our target customer, what occasions drive purchases, what they buy and where they buy it. Our research yielded a better understanding that our target customer is comprised of two specific groups: health enthusiasts and selective shoppers (whom we formerly referred to as experience seekers), and we are focusing on these groups in our long-term growth strategy.

Our target customer over-indexes on lifestyle choices and seeks better-for-you grocery options and innovative, quality products to support their healthy lifestyle. We believe they are engaged and connected to what they eat – how it makes them feel, where it comes from and the role it can play in their lives. Our target customer covers a wide range of incomes and age demographics – from Baby Boomers to Generation Z – and seek a variety of healthy and organic options in addition to a great store experience. We believe we only serve a small portion of these target customers at present and have an opportunity to gain a larger proportion of their market share of food-at-home purchases by targeting and identifying those innovative, attribute-driven, quality products and providing the in-store experience and support in living a healthy lifestyle that they are seeking.

Sustainability Impact

Central to our identity is our purpose rooted in care, community, and sustainability: “To Help People Live and Eat Better.” From our team culture to our curated customer experience and the way we uplift our communities, we aspire to make a meaningful impact. We work collaboratively with our supply chain partners, community organizations, and industry experts to understand our material impacts and prioritize our efforts to maximize our positive influence on the people and communities that we serve. During 2025, we continued to advance our sustainability strategy through policy implementation, responsible sourcing standards, and operational improvements across our value chain.

- Organic products remained a core component of our differentiated offering. During 2025, organic sales represented more than 30% of total company sales and more than 50% of fresh produce sales, reflecting sustained customer demand and our long-standing commitment to organic agriculture.
- In 2025, we released a formal Pollinator Health commitment, reinforcing our approach to responsible sourcing and agricultural practices that support ecosystem health and biodiversity.
- We also finalized the transition to group-housed pork in our meat department, eliminating the use of gestation crates during pregnancy. This milestone reflects our commitment to continuous improvement in animal welfare standards.
- Carbon emissions reduction and energy efficiency remain important components of our operational sustainability efforts. In 2025, we completed the transition to LED lighting across our store fleet and continued to invest in store commissioning and optimization efforts designed to improve building performance and reduce electricity demand.
- We continued advancing our resource management efforts to ensure surplus food is directed to its highest use while strengthening the communities we serve. In 2025, we rescued 36 million pounds of food, providing the equivalent of approximately 30 million meals through our Food Rescue partners.

For more information on our efforts and reporting, including our most recent Impact reports, please visit: sprouts.com/about/sustainability/.

The Sprouts Healthy Communities Foundation

In 2015, we formed the Sprouts Healthy Communities Foundation (referred to as our “Foundation”), a registered 501(c)(3) organization focused on advancing nutrition education, fresh food access and improved health outcomes for children and adults in the communities where Sprouts operates. Since its inception, our Foundation

has awarded more than \$50 million in donations to nonprofits and schools with programs that bring its mission to life.

Our Foundation's 2025 highlights included:

- Invested over \$3.3 million in hyper-local grants to 550 nonprofit organizations and schools focused on school garden education, and health and wellness programs for children and adults;
- Awarded \$10 million in high-impact capacity grants to empower nonprofit organizations to expand their program operations;
- Contributed \$0.8 million to the California Wildfire Relief Fund and \$0.2 million to California Fire Foundation to aid in relief and recovery efforts following the Palisades and Eaton Fires; and
- Hosted over 50 volunteer projects coast-to-coast for Annual Day of Service.

For more information on our Foundation, please visit: sprouts.com/about/sprouts-foundation/.

Human Capital Management

At Sprouts, we help people live and eat better. By living our purpose, we improve the health of the communities we serve. Our impact goes beyond healthy and delicious food. We help people live better holistically, represented by all the different ways that we care for each other, our customers, our communities, and for the planet. Our culture is rooted in our values of “Care”, “Own it”, and “Love Being Different”. Customer engagement is critical to our culture and growth plans, and we place great importance on recruiting candidates and retaining team members that have a love of food, pride themselves on service excellence, and share our purpose driven culture. We build on our targeted recruitment efforts with robust training on customer engagement and product knowledge to ensure there is friendly, approachable and knowledgeable staff in every store. As of December 28, 2025, we had more than 36,000 team members. None of our team members are subject to collective bargaining agreements. We consider our relations with our team members to be good, and we have never experienced a strike or significant work stoppage.

2025 Highlights. We are proud of the following achievements during the year:

- We have reinforced our purpose statement and values across the organization. We continue to engage in activities connecting each team member’s role to our purpose statement.
- We continue to cascade our three core values to intentionally shape our culture and act as a lens to guide the decisions we make. We reinforced the critical behaviors and actions to create a sense of belonging.
- We engaged in leadership development sessions across the organization, including a focus on coaching and feedback to develop and grow our team members.
- As one of the fastest growing specialty retailers of fresh, natural and organic food in the country, we created approximately 3,700 new jobs in 2025 through new store openings.
- Additionally, we promoted approximately 6,000 team members and filled 61% of store manager positions with internal candidates.
- Team members saved approximately \$26.0 million through store discounts.
- We awarded 50 scholarships to team members and dependents in 2025. Since the scholarship program’s inception, we have awarded more than \$2.0 million in scholarships.

Total Rewards. Because we are a people powered business, we are proud to continuously invest in our workforce by offering competitive salaries and wages, which we regularly assess against the current business environment and labor market. We proactively make changes to our total rewards programs to attract the talent that will support our growth strategy and will elevate the customer experience. Furthermore, we offer comprehensive, relevant and market competitive benefits to all eligible team members:

- We offer a variety of medical benefit plans to allow team members the ability to choose the best plan for them and their families.

- We offer well-being services and support dedicated to the mental, physical, emotional and financial well-being of our team members.
- We have a quarterly bonus plan for which all store team members are eligible.
- All team members over 18 can enroll in our 401(k) plan on the first of the month following three months of service, and we offer a contribution matching program.
- We offer a paid sick time policy for all team members and offer generous leave programs.
- All hourly team members are eligible for merit increases.
- We have enhanced our benefits to support mental well-being and counseling services for all team members.
- We offer team members the opportunity to participate in the Western Association of Food Chains' Retail Management Certificate Program that provides the core skills and knowledge to move into a management role in the retail industry. During 2025, 44 Sprouts team members enrolled in this program.
- We offer The Henry Boney Memorial Scholarship, which is designed to offer team members or their dependents a \$2,000 scholarship to achieve their college dreams.
- We also embarked on mentor circles offered as a program created and executed by our Inspiring Women at Sprouts team member resource group.
- We offer internal and external coaching to develop our leaders.
- All Sprouts team members can save at our stores, with a 15% Work Perk Discount. This year we offered a 30% discount to all team members over the course of five days aligned with our holiday celebrations. We also offered team members an additional three days with a 25% discount.

Education, Training and Safety. We believe Sprouts is an attractive place to work with significant growth opportunities for our more than 36,000 team members. To grow the next generation of leaders at Sprouts, we have developed Leadership Training Programs to on-board store managers and assistant store managers new to Sprouts. In 2025, we had 116 Leadership graduates totaling more than 42,800 hours in training. We graduated 20 leaders from our college fast-track program which trains college graduates for assistant store management roles. In addition, our Assistant Store Manager training program to accelerate internal promotions supported 73 team members. These development programs support our store growth and workforce plan. In 2024, we rolled out bite-sized training through our new learning management system. This enables daily learning through mobile devices. Our store team members completed over 1,129,000 hours of in-store training in 2025.

We are committed to maintaining a safe environment for our team members and customers. Our stores employ a variety of safety programs and operational controls designed to reduce and mitigate workplace hazards, supporting a safer work environment and enhanced shopping experience. In 2025, our stores reported workers' compensation claim frequency consistent with the prior year and an 8% reduction in general liability claim frequency compared to 2024.

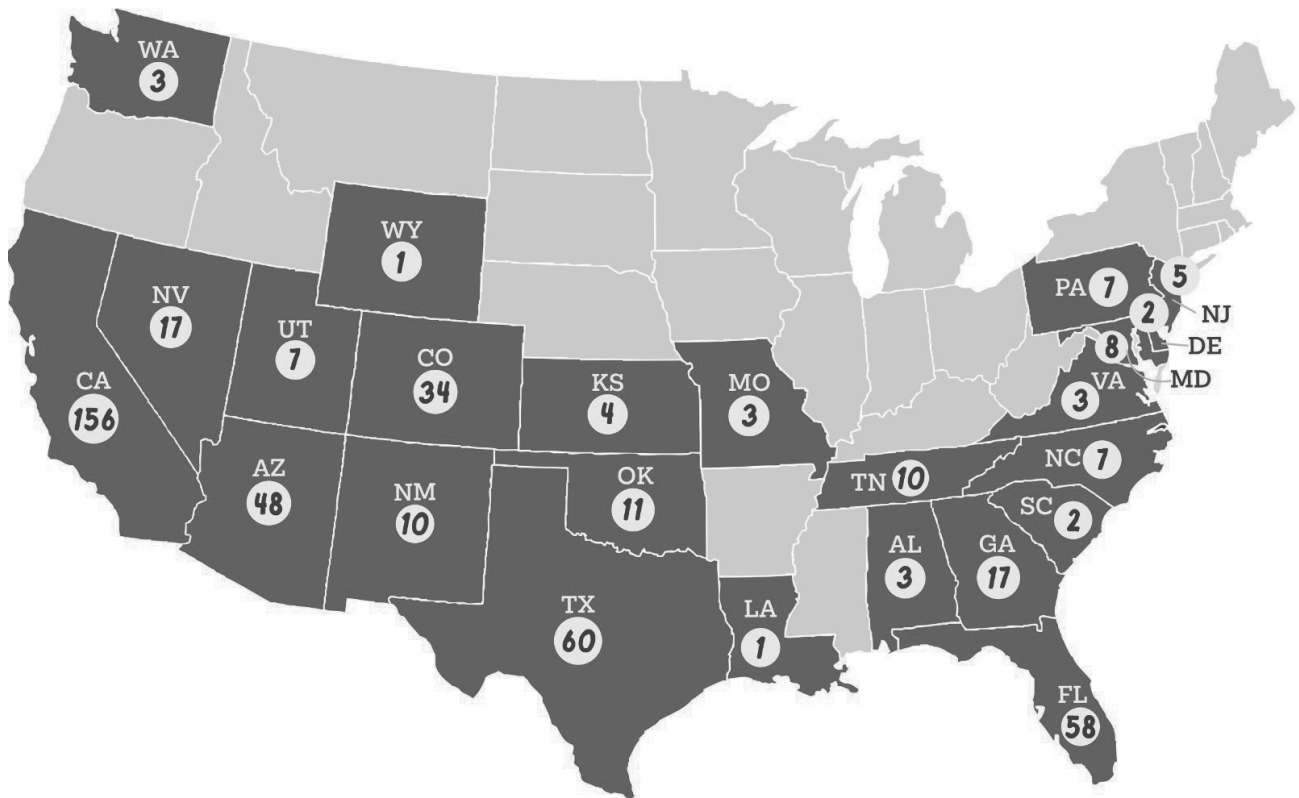

Team Member Resource Groups. We pride ourselves on supporting a respectful and caring culture throughout our organization. We have five team member resource groups that provide input on our recruiting efforts, community involvement, career development, and insight into team member sentiment and culture survey data to better inform our business and people planning efforts, and enhance our sense of belonging at Sprouts. These groups consist of "Inspiring Women at Sprouts" our women's resource group, "Sabor" our Hispanic and Latin resource group, "Soul" our Black/African American resource group, "Rainbow Alliance" our LGBTQIA+ resource group and "Honored to Serve" our veteran's resource group. These team member resource groups support our values of "care" and "love being different".

Growing Our Business

As part of our long-term growth plan, we plan to expand our store base with approximately 10% annual unit growth. Our geographic store expansion and new store placement will intersect where our target customers live, in markets with growth potential and supply chain support, providing a long runway for us to achieve our growth target.

We intend to continue to focus our growth on areas where we have a large concentration of stores, such as California and Texas, while building out our newer markets, such as Florida and the Mid-Atlantic region, to achieve a larger concentration of stores. We have opened 37, 33 and 30 new stores in fiscal 2025, 2024 and 2023, respectively. We expect to continue to expand our store base with more than 40 store openings planned for fiscal 2026. See "Item 2. Properties" for additional information with respect to our store closures in 2023.

The below diagram shows our store footprint, by state, as of December 28, 2025

New Store Development

We have an extensive analytics-based process for new store site selection, which includes in-depth analysis of area demographics, competition, growth potential, traffic patterns, grocery spend and other key criteria. We have a dedicated real estate team as well as a real estate committee that includes certain of our executive officers. Multiple members of this committee often conduct an on-site inspection prior to approving any new location.

We have been successful across a variety of urban, suburban and rural locations in diverse geographies, from coast to coast, which we believe supports the portability of the Sprouts brand and store model into a wide range of markets. As we implement our long-term growth strategy, our stores will continue to deliver a unique and friendly shopping experience that stays true to our farmers market heritage by featuring a smaller box size than our recent vintages, generally between 21,000 and 25,000 square feet. By reducing our store square footage, our newer stores generally have a lower cost to build and decreased occupancy and operating costs, while reducing non-selling space that results in generally flat sales compared to our larger stores. We expect these cost reductions will allow us to deliver higher returns than our larger stores and continue to accelerate our growth.

See “Item 2. Properties” for additional information with respect to our store locations.

Seasonality

Our business is subject to modest seasonality. Our average weekly sales per store fluctuate throughout the year and are typically highest in the first half of the fiscal year and lowest during the fourth quarter.

Our Competition and Industry

We operate within the competitive and highly fragmented grocery store industry which encompasses a wide array of food retailers, including large national and regional conventional chain supermarkets, warehouse clubs, small grocery and convenience stores, independent grocers, and natural and organic, specialty, mass, discount and other food retail and online formats. Based on our industry experience, we believe our new stores capture market share from conventional supermarkets and specialty concepts in the supermarket segment.

Grocery customers are attracted to unique product offerings, formats and differentiated shopping experiences. Based on our industry experience, we also believe consumers are increasingly focused on health and wellness and are actively seeking healthy foods in order to improve eating habits. This overall demand for healthy products is driven by many factors, including increased awareness about the benefits of eating healthy, a greater focus on preventative health measures using food as medicine, and the rising costs of health care. We believe customers are attracted to retailers with comprehensive health and wellness product offerings. As a result, food retailers are offering an increased assortment of fresh, natural and organic foods as well as vitamins and supplements to meet this demand.

Our competitors within the overall grocery industry primarily include other specialty food retailers such as Whole Foods, Trader Joe’s, and smaller local or regional operators, conventional supermarkets such as Kroger, Albertsons, Safeway, H-E-B and Publix, as well as mass or discount retailers such as Target and Walmart, warehouse membership clubs, online retailers such as Amazon, specialty stores, restaurants, home delivery and meal solution companies, and any other outlets offering food and similar products as those found in our stores. Although many retailers have significantly increased their health and wellness offerings, we believe Sprouts offers consumers a compelling value and differentiated products relative to our competitors and will continue to benefit from increasing consumer focus on health, wellness and value, as well as their emphasis on an enhanced shopping experience featuring a broad selection of attribute-driven products along with exceptional customer engagement.

Insurance and Risk Management

We use a combination of insurance and self-insurance to manage potential liabilities associated with workers’ compensation, general liability, product liability, cybersecurity, directors’ and officers’ liability, team member healthcare benefits, and other casualty and property risks. The ultimate cost of our insurance program can be influenced by several factors, including changes in legal trends and interpretations, inflation, claim frequency and severity, settlement practices, evolving regulations affecting benefit levels, the solvency and creditworthiness of insurance carriers, the effectiveness of risk-transfer strategies, and fluctuations in discount rates. As a result, there can be no assurance that our insurance coverage will fully mitigate all potential risks or claims. We continually evaluate the structure and adequacy of our coverage to ensure it appropriately reflects our risk profile, historical claims experience, and the external regulatory environment. We also monitor the financial strength and stability of our insurance carriers to minimize counterparty risk and support continuity of coverage.

Trademarks and Other Intellectual Property

We believe that our intellectual property has substantial value and has contributed to the success of our business. In particular, our trademarks, including our registered SPROUTS FARMERS MARKET® and SPROUTS® trademarks, are valuable assets that we believe reinforce our customers’ favorable perception of our stores. In addition to our trademarks, we believe that our trade dress, which includes the human-scale design, arrangement, color scheme and other physical characteristics of our stores and product displays, is a large part of the farmers

market atmosphere we create in our stores and enables customers to distinguish our stores and products from those of our competitors.

From time to time, third parties have used names similar to ours, have applied to register trademarks similar to ours and, we believe, have infringed or misappropriated our intellectual property rights. Third parties have also, from time to time, opposed our trademarks and challenged our intellectual property rights. We respond to these actions on a case-by-case basis. The outcomes of these actions have included both negotiated out-of-court settlements as well as litigation.

Information Technology Systems

We have continued to invest in IT infrastructure and business systems designed to support operating efficiency, scalability, and customer experience to support our long-term growth and operational resilience. These investments include enterprise data management, labor and shrink optimization, store replenishment, demand forecasting, and in-store technologies, which are intended to streamline operations and support improved decision-making.

Our IT initiatives are focused on supporting high in-stock availability, optimizing demand forecasting, automating elements of our supply chain processes, enhancing the customer experience, and increasing workforce productivity. These initiatives are intended to contribute to greater operational efficiency, cost management, and business agility. To further develop our capabilities, we continue to evaluate and integrate emerging technologies such as artificial intelligence, machine learning, and cloud computing to support automation, generate more timely insights, and enhance scalability.

We operate on an integrated IT platform intended to support business growth and evolving market demands. This platform is designed to promote operational consistency across our business and intended to support our ability to respond to changing conditions, while supporting our longer-term expansion objectives.

We rely on third-party service providers and technologies, including cloud-based services, to support certain information technology capabilities and business processes. As a result, our operations may be affected by disruptions, security incidents, performance issues, or other failures at these providers, as well as by changes to their products, services, or contractual terms. We seek to manage these risks through vendor oversight, contractual safeguards, and business continuity planning, but we cannot eliminate the possibility of adverse impacts.

To address risks such as cybersecurity threats, system disruptions, and data breaches, we have implemented a multi-layered security program that includes threat detection tools, monitoring processes, third-party security assessments, employee cybersecurity training, and disaster recovery and incident response protocols. Our cybersecurity program is informed by recognized industry frameworks, including the NIST Cybersecurity Framework (CSF), and our data protection practices are designed to address applicable privacy requirements, including the California Privacy Rights Act (CPRA). With respect to payment security, we maintain practices intended to be consistent with the Payment Card Industry Data Security Standard (PCI DSS) to support the protection of cardholder data and transaction processing.

Regulatory Compliance

Our stores and online retail operations are subject to various local, state and federal laws, regulations and administrative practices affecting our business. We must comply with provisions regulating health, sanitation and food safety standards, food labeling, equal employment, minimum wages, data privacy, environmental protection, licensing for the manufacture, preparation and sale of food and, in many stores, licensing for beer and wine or other alcoholic beverages, and cannabidiol and tetrahydrocannabinol ("CBD" and "THC") products. Our operations, including the manufacturing, processing, formulating, packaging, labeling, transportation and storage, and advertising of products by us and our vendors are subject to regulation by various state and federal agencies, including the Food and Drug Administration ("FDA"), the Federal Trade Commission ("FTC"), the U.S. Department of Agriculture ("USDA"), the Consumer Product Safety Commission ("CPSC"), the Environmental Protection Agency ("EPA") and comparable state authorities.

Food. The FDA has comprehensive authority to regulate the manufacture, labeling, distribution, sale, marketing and safety of food and food ingredients for humans and pets (other than meat, poultry, catfish and certain egg products), as well as dietary supplements under the Federal Food, Drug, and Cosmetic Act ("FDCA"). Similarly, the USDA's Food Safety Inspection Service ("FSIS") is the public health agency responsible for ensuring that the nation's commercial supply of meat, poultry, catfish and certain egg products is safe, wholesome and correctly labeled and packaged under the Federal Meat Inspection Act and the Poultry Products Inspection Act.

The Food Safety Modernization Act ("FSMA") and related FDA regulations govern the control and quality of food manufacturing and distribution. This authority applies to all domestic food facilities and to all foreign facilities that supply food products under the Foreign Supplier Verification Program. The FDA and FSIS highly regulate ingredients used in and labeling and promotion of food and meat products. USDA's Agricultural Marketing Service ("AMS") oversees compliance with the National Organic Standards Program and related labeling activity. In addition, AMS has responsibility for newly enacted requirements surrounding the disclosure of the presence of bioengineered ingredients in food.

AMS also enforces the Perishable Agricultural Commodities Act ("PACA") which imposes fair business practices on parties engaged in the sale of perishable fruits, vegetables and some nuts. Entities that buy and sell perishable commodities require a PACA license and disputes about sales of produce are subject to rules and regulations under PACA.

Cosmetics. The FDA has comprehensive authority to regulate cosmetics under the FDCA and the Fair Packaging and Labeling Act ("FPLA"). No cosmetic product labeling or marketing may advertise any therapeutic use, such as treating or preventing disease, or claim to affect the structure or function of the body. The Modernization of Cosmetics Regulation Act of 2022 ("MoCRA") created a comprehensive regulatory framework that imposes new FDA registration and listing requirements, adverse event reporting obligations, labeling rules, enforcement authority, and good manufacturing practices ("GMP") requirements, among other regulatory obligations, on cosmetic manufacturers, packers or distributors of cosmetic products whose name appears on the label of the product.

Homeopathic Products. The FDA has the authority to regulate homeopathic products as drug products. There are no FDA-approved products labeled as homeopathic, and as such, any product labeled as homeopathic is being marketed in the U.S. without FDA evaluation for safety or effectiveness.

CBD Products. In 2025, Congress enacted significant changes to the federal regulation of finished products containing hemp and CBD, narrowing the definition of federally legal products to those containing no more than 0.4 mg of total THC per package (versus the former .3% delta-9 THC). The new standard will likely remove from the retail market most CBD-containing edibles, beverages, oils, and extracts because they will exceed the new standard. The new law also bans the use of synthetic CBD. The effective date of the new law is November 2026. Products on the market until November 2026 will continue to be subject to the current FDA enforcement policies, which prohibits the sale of food or dietary supplements containing CBD because it has been approved as a drug product by the FDA. To date, FDA has limited its enforcement actions to those ingestible, topical, and cosmetic CBD products that make therapeutic or drug claims. However, regardless of enforcement priorities, FDA has the authority to remove from the market any CBD product if it is adulterated, its labeling is false or misleading, it is otherwise misbranded, or if it violates any other FDCA or FDA requirement or regulation. This enforcement authority extends to states that have legalized and regulated the distribution of ingestible CBD products. Numerous states have enacted laws authorizing the sale of certain CBD products, notwithstanding federal laws and policies, and some states may amend their laws based upon the new federal law changes.

Food, Cosmetics, Homeopathic and CBD and THC Products, and Dietary Supplement Advertising. The FTC exercises jurisdiction over the advertising of foods, cosmetics, homeopathic and CBD and THC products, and dietary supplements. The FTC has the power to institute monetary sanctions and the imposition of consent decrees and penalties that can severely limit a company's business practices. In recent years, the FTC has instituted numerous enforcement actions against companies for failure to have adequate substantiation for claims made in advertising or for the use of false or misleading advertising claims.

Compliance. As is common in our industry, we rely on our suppliers and contract manufacturers to ensure that the products they manufacture and sell to us comply with all applicable regulatory and legislative requirements. In general, we seek certifications of compliance, representations and warranties, guaranties, indemnification and/or insurance from our suppliers and contract manufacturers. However, even with adequate

insurance and indemnification, any claims of non-compliance could significantly damage our reputation and consumer confidence in products we sell. In addition, the failure of such products to comply with applicable regulatory and legislative requirements could prevent us from marketing the products or require us to recall or remove such products from our stores. In order to comply with applicable statutes and regulations, our suppliers and contract manufacturers have from time to time reformulated, eliminated or relabeled certain of their products and we have revised certain provisions of our sales and marketing program.

Corporate Offices

Our principal executive offices are located at 5455 East High Street, Suite 111, Phoenix, Arizona 85054. Our website address is *www.sprouts.com*.

Available Information

Our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and all amendments to those reports, and the Proxy Statement for our Annual Meeting of Stockholders are made available, free of charge, on our investor relations website at *http://investors.sprouts.com/*, as soon as reasonably practicable after such reports have been filed with or furnished to the SEC. We also use our website as a tool to disclose important information about our company and comply with our disclosure obligations under Regulation Fair Disclosure. Our corporate governance documents, code of ethics and Board committee charters and policies are also posted on *http://investors.sprouts.com/*.

Item 1A. Risk Factors

The disclosures in this section reflect our beliefs and opinions as to factors that may have a material adverse effect on our business, financial condition and results of operations. The risks and uncertainties described below are those that we have identified as material, but are not the only risks and uncertainties we face. You should carefully consider the risks and uncertainties described below, together with all of the other information in this Annual Report on Form 10-K, including our consolidated financial statements and related notes. Any of the following risks could materially and adversely affect our business, results of operations, cash flows, financial condition, or prospects and cause the value of our common stock to decline. References to past events are provided by way of example only and are not intended to be a complete listing or a representation as to whether or not such factors have occurred in the past.

Market and Other External Risks

General economic conditions that impact consumer spending or result in competitive responses could adversely affect our business.

The retail food business is sensitive to changes in general economic conditions. Our operating results have been, and will continue to be, impacted by a number of macroeconomic factors, including inflation, recessionary economic cycles, increases in interest rates, higher prices for commodities, raw materials, fuel and other energy, high levels of unemployment and consumer debt, depressed home values, high tax rates, tariffs and other factors that affect consumer spending and confidence or buying habits. These factors, which are largely outside of our control, may materially adversely affect the demand for and prices of products we sell in our stores. As a result, consumers have been and may continue to be more cautious about product affordability and reduce their spending in our stores or shift their spending to lower-priced competition, such as warehouse membership clubs, conventional supermarkets, dollar stores, online retailers or extreme value formats, which could have a material and adverse effect on our operating results and financial condition.

In addition, prolonged inflation or deflation can impact our business. Food inflation, when combined with reduced consumer spending, could also reduce sales, gross profit margins and comparable store sales. As a result, our operating results and financial condition could be materially adversely affected. Food deflation across multiple categories, particularly in produce and proteins, could also reduce sales growth and earnings if our competitors react by lowering their retail pricing and expanding their promotional activities, which can lead to retail deflation higher than cost deflation that could reduce our sales, gross profit margins and comparable store sales.

Our failure to compete successfully in our competitive industry may adversely affect our revenues and profitability.

We operate in the competitive retail food industry. Our competitors include specialty grocers, conventional supermarkets, natural food stores, mass or discount retailers, warehouse membership clubs, online retailers and specialty stores, as well as restaurants and home delivery and home meal solution providers. These businesses compete with us for products, customers and locations. We compete on a combination of factors, primarily differentiated product selection, quality, convenience, shopping experience, customer engagement, store format, location, price and delivery options. Our failure to offer products or services that appeal to our customers' preferences or to effectively market these products or services could lead to a decrease in our sales. To the extent that our competitors offer lower prices or similar products, our ability to maintain profit margins and sales levels may be negatively impacted. In addition, some competitors are aggressively expanding their number of stores or their health and wellness product offerings, increasing the space allocated to fresh, natural and organic foods, and enhancing options of engaging with and delivering their products to customers. Some of these competitors may have greater financial or marketing resources than we do and may be able to devote greater resources to sourcing, promoting and selling their products. As competition in certain areas or platforms intensifies or competitors open stores or expand health and wellness product offerings and delivery options within close proximity to our stores, our results of operations and cash flows may be negatively impacted through a loss of sales, decrease in customer traffic and market share, reduction in margin from competitive price changes or greater operating costs.

We rely heavily on sales of fresh produce and quality fresh, natural and organic products, and product supply disruptions may have an adverse effect on our profitability and operating results.

We have a significant focus on perishable products, including fresh produce and natural and organic products. Sales of produce accounted for approximately 17% and 18% of our net sales in fiscal 2025 and 2024,

respectively. We have generally not experienced significant difficulty to date in maintaining the supply of our produce and fresh, natural and organic products that meet our quality standards. However, there is no assurance that these products will be available to meet our needs in the future. The availability of such products at competitive prices depends on many factors beyond our control, including the number and size of farms that grow natural or organic crops or raise livestock that meet our quality, welfare and production standards, animal disease outbreaks (such as avian flu), agricultural workforce availability, tariffs and import regulations or restrictions on foreign-sourced products, stability of the global supply chain and the ability of our vendors to maintain required attributes or organic, non-genetically modified or other applicable third-party certifications for such products. Produce is also vulnerable to adverse weather conditions and natural disasters, such as floods, droughts, storms, frosts, wildfires, earthquakes, hurricanes, pestilences and other extreme or abnormal environmental conditions, including the potential effects of climate change, any of which can lower crop yields and reduce crop size and quality. This could reduce the available supply of, or increase the price of, fresh produce, which may adversely impact sales of our fresh produce and our other products that rely on produce as a key ingredient.

In addition, we and our suppliers compete with other food retailers in the procurement of fresh, natural and organic products, and other specialty, attribute-driven products which are often less available than conventional products. If our competitors significantly increase these types of product offerings due to increases in consumer demand or otherwise, we and our suppliers may not be able to obtain a sufficient supply of such products on favorable terms, or at all, and our sales may decrease, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. We could also suffer significant inventory losses in the event of disruption of our supply chain network or extended power outages or other damaging events in our stores or distribution centers. If we are unable to maintain inventory levels suitable for our business needs, it would materially adversely affect our financial condition, results of operations and cash flows.

The current geographic concentration of our stores creates an exposure to local or regional downturns or catastrophic occurrences and the impact of climate change.

As of December 28, 2025, we operated 156 stores in California, making California our largest market representing 33% of our total stores in fiscal 2025. We also have store concentration in Texas, Florida, Arizona, and Colorado, operating 60, 58, 48 and 34 stores in those states, respectively, and representing 13%, 12%, 10% and 7% of our total stores in fiscal 2025, respectively. As we continue to execute our long-term growth strategy, we may become even more concentrated in these markets, as well as other identified expansion markets. In addition, we source a large portion of our produce from California, ranging from approximately 40% to approximately 70% depending on the time of year. As a result, our business is currently more susceptible to regional conditions than the operations of more geographically diversified competitors, and we are vulnerable to economic downturns and natural disasters in those regions. Any unforeseen events or circumstances that negatively affect these areas in which we have stores or from which we obtain products could materially adversely affect our revenues and profitability. These factors include, among other things, changes in demographics, population and employee bases; workforce availability, regulation; wage increases; changes in economic conditions; floods, prolonged droughts, diminished water resources, windstorms such as tornados, cyclones, hurricanes and tropical storms, winter storms or other severe weather conditions, which may be caused or exacerbated by climate change; and other catastrophic occurrences, such as pandemics, earthquakes or wildfires. Such conditions may result in reduced customer traffic and spending in our stores, physical damage to our stores, full or partial loss of power in our stores, loss of inventory, closure of one or more of our stores, inadequate work force in our markets, temporary disruption in the supply of products whether from self or third-party distribution, delays in the delivery of goods to our stores and a reduction in the availability of products in our stores. Any of these factors, particularly in areas with significant geographic concentration of our stores or produce growers on which we rely, may disrupt our business and materially adversely affect our financial condition, results of operations and cash flows.

Fluctuations in product and commodity availability and prices, including from the impact of tariffs, may impact profitability.

The availability of many products we sell, including produce and proteins, or products with ingredients such as wheat, corn, oils, milk, sugar, cocoa, nuts and other key commodities, may be impacted by weather events, animal disease outbreaks (such as avian flu) and other catastrophic occurrences. These products and commodities are also subject to significant price fluctuations and may be impacted by economic factors such as tariffs and inflation. Any increase in prices of such products or key ingredients as a result of tariffs, inflation or

otherwise may cause our vendors to seek price increases from us. Price decreases may result in our competitors reducing retail prices on products or items containing such ingredients. If we are unable to mitigate these fluctuations by passing the effects through to our customers, which will largely depend upon competitive market conditions, our profitability may be impacted either through increased costs to us or lower prices and loss of customers due to competitive conditions, which may impact gross margins, or through reduced revenue as a result of a decline in the number and average size of customer transactions.

Supply chain disruptions may delay our store growth plans.

Disruptions to the global supply chain due to events beyond our control, such as tariffs, pandemics or wars, may cause us to experience shortages or increased costs of necessary products or equipment resulting in delays in or greater expenses for our future new store openings.

Widespread health epidemics or other incidents beyond our control could materially impact our business.

Our business could be severely impacted by widespread regional, national or global health epidemics or other incidents beyond our control such as terrorism, riots, acts of violence and other crimes. Such events may cause customers to avoid public gathering places such as our stores or otherwise change their shopping behaviors. Additionally, these occurrences could adversely impact our business by disrupting production and delivery of products to our stores and by impacting our ability to appropriately staff our stores.

Increasing energy costs, unless offset by more efficient usage or other operational responses, may impact our profitability.

We utilize natural gas, water, sewer and electricity in our stores and our transportation providers use gasoline and diesel in trucks that deliver products to our stores. We have been adversely impacted by the increased costs of energy and may be further adversely impacted if costs continue to increase. We may also be required to pay certain adjustments or other amounts pursuant to our supply and delivery contracts in connection with increases in fuel prices. Increases in energy costs, whether driven by increased demand, decreased or disrupted supply, increased environmental regulations or an anticipation of any such events or otherwise, will increase the costs of operating our stores and distribution centers. Our shipping costs also may increase if fuel and freight prices increase. We may not be able to recover these rising costs through increased prices charged to our customers, and any increased prices may exacerbate the risk of customers choosing lower-cost alternatives. In addition, if we are unsuccessful in attempts to protect against these increases in energy costs through long-term energy contracts, improved energy procurement, improved efficiency and other operational improvements, the overall costs of operating our stores will increase, which would impact our profitability, financial condition, results of operations and cash flows.

We may require additional capital to fund the expansion of our business, and our inability to obtain such capital could harm our business.

To support our growth strategy, we must have sufficient capital to continue to make significant investments in our new and existing stores. If cash flows from operations are not sufficient, we may need additional equity or debt financing to provide the funds required to expand our business. If such financing is not available on satisfactory terms or at all, we may be unable to expand our business or to develop new business at the rate desired. Debt financing increases expenses, may contain covenants that restrict the operation of our business, and must be repaid regardless of operating results. Equity financing, or debt financing that is convertible into equity, could result in additional dilution to our existing stockholders. Our inability to obtain adequate capital resources to fund our business and growth strategy may require us to delay, scale back or eliminate some or all of our operations or the expansion of our business, which may have a material adverse effect on our business, operating results, financial condition or prospects.

Business and Operating Risks

Our ability to execute on our long-term growth strategy largely depends on new store openings, and our failure to successfully open new stores could negatively impact our business.

Our continued growth depends, in large part, on our ability to open new stores and to operate those stores successfully. Successful implementation of our long-term growth strategy depends upon a number of

factors, including our ability to effectively achieve a level of cash flow or obtain necessary financing to support our expansion; find suitable sites for new store locations; manage supply chain constraints to obtain necessary equipment; negotiate and execute leases on acceptable terms; secure and manage the inventory necessary for the launch and operation of our new stores; hire, train and retain skilled team members; promote and market new stores; successfully execute and gain customer acceptance of our store format; and address competitive merchandising, distribution, operational and other challenges encountered in connection with expansion into new geographic areas and markets. Although we plan to expand our store base primarily through new store openings, we may grow through strategic acquisitions. Our ability to grow through strategic acquisitions will depend upon our ability to identify suitable targets and negotiate acceptable terms and conditions for their acquisition, as well as our ability to obtain financing for such acquisitions, integrate the acquired stores into our existing store base and retain the customers of such stores. If we are ineffective in performing these activities, then our efforts to open and operate new stores may be unsuccessful or unprofitable, and we may be unable to execute our growth strategy.

In fiscal 2025, we opened 37 new stores. In fiscal 2024, we opened 33 new stores. We currently expect to achieve approximately 10% annual unit growth and to open more than 40 new stores in 2026, including penetration of new markets with a greater concentration of new stores. However, we may not achieve this expected level of new store growth due to inability to find suitable sites, supply chain disruptions or otherwise. We may not have the level of cash flow or financing necessary to support our growth strategy. Additionally, our proposed expansion will place increased demands on our operational, managerial and administrative resources. These increased demands could cause us to operate our existing business less effectively, which in turn could cause deterioration in the financial performance of our existing stores. Further, new store openings in markets where we have existing stores may result in reduced sales volumes at our existing stores in those markets, while new store openings in new markets may not perform as well as our established markets for a number of reasons, including lack of customer awareness of our offering. If we experience a decline in performance, we may slow or discontinue store openings, or we may decide to close stores that we are unable to operate in a profitable manner. If we fail to successfully implement our growth strategy, including by opening new stores, our financial condition, results of operations and cash flows may be adversely affected.

Real or perceived concerns that products we sell could cause unexpected illness, side effects, injury or death could result in their discontinuance or expose us to lawsuits, either of which could result in unexpected costs and damage to our reputation.

There is increasing public awareness regarding and governmental scrutiny of food safety. Unexpected illness, side effects, injury, or death caused by products we prepare and/or sell, in particular our Sprouts Brand products, or involving vendors that provide us with products or services that are consumed by our customers could expose us to severe damage to our reputation, product liability or negligence lawsuits or government enforcement actions. Any claims brought against us may exceed our existing or future insurance policy coverage or limits. Any judgment against us that is in excess of our policy limits would have to be paid from our cash reserves, which would reduce our capital resources. Further, we may not have sufficient capital resources to pay a judgment, in which case our creditors could levy against our assets. Such illnesses, side effects, injuries or deaths could also result in the discontinuance of sales of these products or our relationship with such vendors or prevent us from achieving market acceptance of the affected products.

As a fresh, natural and organic retailer, we believe that many customers choose to shop our stores because of their interest in health, nutrition and food safety. As a result, we believe that our customers hold us to a high food safety and quality standard, in particular for our Sprouts Brand products. Therefore, real or perceived quality or food safety concerns, whether or not ultimately based on fact, and whether or not involving products prepared and/or sold at our stores or vendors that supply us with products or provide us with services, would cause negative publicity and lost confidence regarding our company, brand, or products, which could in turn harm our reputation and net sales, and could have a material adverse effect on our business, results of operations, cash flows or financial condition.

Product recalls or other product liability claims could materially and adversely affect us.

Selling products for human and pet consumption involves inherent legal and other risks, including product contamination, spoilage, product tampering, allergens, or adulteration. In the ordinary course of our business, we have recalled and may continue to recall products due to suspected or confirmed product adulteration, misbranding, tampering or other quality deficiencies. Product recalls or market withdrawals could result in significant losses due to their costs, destruction of product, and lost sales. Recalls can also negatively

affect consumer confidence in the safety and quality of the products we sell and could damage our reputation and disrupt our supply chain and the relations with our suppliers.

Any significant interruption in the operations of our distribution centers or supply chain network could disrupt our ability to deliver our produce, meat and seafood, and other products in a timely manner.

We self-distribute our produce, a portion of our meat and seafood and certain of our other products through six distribution centers located in Arizona, Texas, northern California, southern California, Colorado and Florida. We also have entered into a partnership with a third-party produce distributor in Pennsylvania to supply fresh produce to our Mid-Atlantic stores. As we further expand our geographic footprint or self-distribute additional product categories, we may require additional distribution centers or expansion of our existing distribution centers. Any unanticipated or unusual expenses or significant interruption or failure in the operation of our distribution center infrastructure, such as disruptions due to fire, severe weather or other catastrophic events, cyberattacks, network or power outages, labor shortages or disagreements, shipping or infrastructure problems, food safety concerns, integration of new distribution centers or product categories into our supply chain network, inability of our new distribution centers to perform as expected or contractual disputes with third-party service providers could result in increased expenses and adversely impact our ability to distribute produce and other products to our stores. Such interruptions could result in lost sales and a loss of customer loyalty to our brand, as well as increased costs from third-party service providers. While we maintain business interruption and property insurance, if the operation of our distribution centers or transportation network were interrupted for any reason, causing delays in shipment of product to our stores, our insurance may not be sufficient to cover losses we experience, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

In addition, unexpected delays in deliveries from vendors that ship directly to our stores or increases in distribution and transportation costs (including through increased labor or fuel costs) could have a material adverse effect on our financial condition, results of operations and cash flows. Labor shortages, work stoppages or wage increases in the transportation or other industries, long-term disruptions to the national and international transportation infrastructure, reduction in capacity and industry-specific regulations such as hours-of-service rules that lead to delays or interruptions of deliveries or increased costs could negatively affect our business.

Disruption of significant distributor relationships could negatively affect our business.

KeHE is our primary distributor of dry grocery and frozen food products, accounting for approximately 52% and 50% of our total purchases in fiscal 2025 and 2024, respectively. Our current primary contractual relationship with KeHE continues through July 31, 2035 and provides that KeHE will be our primary distributor for all of our stores. Another 12% and 3% of our total purchases in fiscal 2025 and 2024, respectively, were made through our secondary distributor of dry grocery and frozen food products, UNFI. Our current primary contractual relationship with UNFI continues through July 31, 2026. Due to this concentration of purchases from a small number of third-party distributors, the cancellation or interruption of our distribution arrangements or the disruption, delay or inability of our distributors to timely deliver product to our stores in quantities or within service parameters that meet our requirements may materially and adversely affect our operating results while we establish alternative supply chain channels due to lost sales, as well as increased costs from alternative distribution arrangements. In addition, in 2025 we began the process of transitioning to a self-distribution model for meat and seafood. As with complex transitions of this magnitude, we experienced and may continue to experience short-term challenges, including in particular, potential product supply disruptions resulting in lost sales at our stores and customer disruption and transition-related expenses that exceed our expectations. There is no assurance KeHE, UNFI or other distributors will be able to fulfill our needs on favorable terms or at all. If KeHE, UNFI or any of our other distributors or suppliers fail to fulfill their financial or contractual obligations or the products they distribute fail to comply with food safety, labeling or other laws and regulations, or face allegations of non-compliance, their operations may be disrupted and we could incur substantial related costs. Further, the food distribution and manufacturing industries are dynamic. Consolidation or dissolution of distributors or the manufacturers that supply them could reduce our supply options and detrimentally impact the terms under which we purchase products. We may not be able to find replacement distributors or suppliers on commercially reasonable terms, which would have a material adverse effect on our financial condition, results of operations and cash flows.

Disruptions to, security breaches or non-compliance involving, our information technology systems could harm our ability to run our business and expose us to potential liability and loss of revenues.

We rely extensively on information technology systems for point-of-sale processing in our stores, supply chain, financial reporting, human resources, store operations, ecommerce and various other processes and transactions. Our information technology systems are subject to damage or interruption from power outages, computer and telecommunications failures, computer viruses, security breaches, including tampering with hardware and breaches of our transaction processing or other systems that could result in the compromise of confidential customer or team member data, ransomware attacks, catastrophic events, and usage errors by our team members. Phishing attacks have emerged as particularly pervasive, including as a means for ransomware attacks, which have increased both in frequency and breadth. Point-of-sale hardware in our stores has also been targeted by individuals attempting to install skimmer devices or conduct other tampering to illicitly obtain payment card information. In response to these wide-ranging cybersecurity and data privacy risks, we have implemented numerous security protocols in order to strengthen security, and we maintain a customary cyber insurance policy, but there can be no assurance breaches will not occur in the future, be detected in a timely manner or be covered by our insurance policy. Significant expenditures could be required to remedy future cybersecurity problems and protect against future breaches, and such threats may continue to increase and evolve with the rapid evolution of artificial intelligence and machine learning technologies. Additionally, compliance with current and future applicable federal and state privacy, cybersecurity and related laws, including for example the California Privacy Act of 2018 (“CCPA”) and the California Privacy Rights Act (“CPRA”), can be costly and time-consuming, and we could be subject to enforcement actions or penalties for non-compliance. These costs could have a material adverse effect on our business, and our efforts may not meaningfully limit the success of future attempts to breach our information technology systems.

Our information technology systems may also fail to perform as we anticipate, and we may encounter difficulties or significant expenses in implementing new systems, adapting these systems to changing technologies or legal requirements or expanding them to meet the future needs and growth of our business. Emerging technologies, including artificial intelligence and machine learning, may not deliver expected efficiencies and could introduce new risks. If our systems are improperly implemented, breached, damaged, cease to function properly, do not function or provide benefits as anticipated or are perceived to have failed, we may have to make significant investments to fix or replace them; suffer interruptions in our operations; experience data loss; incur liability to our customers, team members and others; face costly litigation, enforcement actions and penalties; and our brand and reputation with our customers may be harmed. Various third parties, such as our service providers and suppliers, including our most significant distributors, and payment processors and their suppliers (*i.e.*, our fourth parties), also rely heavily on information technology systems, and any failure of these systems for any reason (*e.g.*, cybersecurity attack, software glitch, human or system error or omission), could also cause loss of sales, transactional or other data, compromise of customer or team member data and significant interruptions to our business. Any security breach or other material interruption in the information technology systems we rely on, particularly those required for point-of-sale payment processing in our stores, may have a material adverse effect on our business, operating results and financial condition.

In addition, many of our store support team members work remotely. Our failure to provide appropriate technological resources and maintain adequate safeguards around our remote work environment could result in loss of productivity and usage errors by our team members or the loss or compromise of confidential customer, team member or company data. In addition, the remote work environment may increase certain risks to our business, including phishing and other cybersecurity attacks.

If we are unable to successfully identify market trends and react to changing consumer preferences in a timely manner, our sales may decrease.

We believe our success depends, in substantial part, on our ability to:

- anticipate, identify and react to fresh, natural and organic grocery and dietary supplement trends and changing consumer preferences and demographics in a timely manner;
- translate market trends into appropriate, innovative product and service offerings in our stores before our competitors and effectively market these trends to our target customers; and
- develop and maintain vendor and service provider relationships that provide us access to the newest on-trend merchandise and customer engagement options on reasonable terms.

Consumer preferences often change rapidly and without warning, moving from one trend to another among many product or retail concepts. Our performance is impacted by trends regarding healthy lifestyles, product attributes, dietary preferences, convenient options, fresh, natural and organic products, meal solutions, ingredient transparency and sustainability, and vitamins and supplements, as well as new and evolving methods of engaging with and delivering our products to our customers. Consumer preferences towards our offering of vitamins, supplements and fresh, natural and organic food products might shift as a result of, among other things, economic conditions, food safety perceptions, consumption patterns (including changes in behavior arising from the increased use of prescription weight-loss therapies such as GLP-1), scientific research or findings regarding the benefits or efficacy of such products, national media attention and the cost, attributes or sustainability of these products. A change in consumer preferences away from our offerings would have a material adverse effect on our business. Additionally, negative publicity over the safety, efficacy or benefits of any such items, in particular our Sprouts Brand products, may adversely affect demand for our products, and could result in lower customer traffic, sales, results of operations and cash flows.

If we are unable to anticipate and satisfy consumer preferences with respect to product offerings and customer engagement options, our sales may decrease, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our newly opened stores may negatively impact our financial results in the short-term, and may not achieve sales and operating levels consistent with our more mature stores on a timely basis or at all.

We have actively pursued new store growth as part of our long-term strategy and plan to continue doing so in the future. Our new store openings may not be as successful or reach the sales and profitability levels of our existing stores. New store openings may negatively impact our financial results in the short-term due to the effect of store opening costs and lower sales and contribution to overall profitability during the initial period following opening. New stores typically build their sales volume and their customer base over time and, as a result, generally have lower margins and higher operating expenses, as a percentage of net sales, than our more mature stores. New stores may not achieve sustained sales and operating levels consistent with our more mature store base on a timely basis or at all. This may result in store closures or otherwise have an adverse effect on our financial condition and operating results. Further, we have experienced in the past, and expect to experience in the future, some sales volume transfer from our existing stores to our new stores as some of our existing customers switch to new, closer locations. If our new stores are less profitable than our existing stores, or if we experience sales volume transfer from our existing stores, our financial condition and operating results may be adversely affected.

On many of our projects, we have received landlord contributions for leasehold improvements and other build-out costs. We cannot guarantee that we will be able to continue to receive landlord contributions at the same levels or at all. Any reductions of landlord contributions could have an adverse impact on our new store cash-on-cash returns and our operating results.

We may be unable to maintain or increase comparable store sales, which could negatively impact our business and stock price.

We may not be able to achieve or improve the levels of comparable store sales that we have experienced in the past. Our comparable store sales growth could be lower than our historical average for many reasons, including general economic conditions, competition, cycling prior year performance and the other matters discussed in these Risk Factors. These factors have caused and may continue to cause our comparable store sales results to be materially lower than in recent periods, which could harm our business and result in a decline in the price of our common stock.

We may be unable to maintain or improve our operating margins, which could adversely affect our financial condition and ability to grow.

If we are unable to successfully manage the potential difficulties associated with store growth, we may not be able to capture the efficiencies of scale that we expect from expansion. If we are not able to capture efficiencies of scale related to our smaller store format, improve our systems, sustain cost discipline, optimize promotional activity and maintain appropriate store labor levels and disciplined product selection, our customer traffic and operating margins may stagnate or decline. In addition, competition and pricing pressures from competitors and our inability to timely pass on product cost increases due to inflation or otherwise to our customers through retail price increases may also adversely impact our operating margins. Both our inability to capture the efficiencies from scale and the impact of competition could have a material adverse effect on our

business, financial condition, results of operations and cash flows and adversely affect the price of our common stock.

If we fail to maintain our reputation and the value of our brand, our sales may decline.

We believe our continued success depends on our ability to maintain and grow the value of the Sprouts brand. Maintaining, promoting and positioning our brand and reputation will depend largely on the success of our marketing and merchandising efforts and our ability to provide a consistent, high-quality customer experience. Brand value is based in large part on perceptions of subjective qualities, and even isolated incidents involving our company, our team members, suppliers, agents, marketing partners, third-party service providers or the products we sell can erode trust and confidence, particularly if they involve our Sprouts Brand products, or result in adverse publicity, governmental investigations or litigation. Our brand could be adversely affected if we fail to manage these risks, or if our public image or reputation were to be tarnished by negative publicity.

If we are unable to protect against inventory shrink, our results of operations and financial condition could be adversely affected.

Our business depends on our ability to effectively manage our inventory. We have historically experienced loss of inventory (also called shrink) due to damage, theft, spoilage, inventory management and other causes. Sustained elevated levels of inventory shrink could adversely affect our results of operations and financial condition. To protect against the possibility of rising inventory shrink, we have taken, and may continue to take, certain operational and strategic actions that could adversely affect our results of operations. In addition, sustained high rates of inventory shrink at certain stores could impact the profitability of those stores and result in the impairment of long-lived assets.

The loss of key management could negatively affect our business.

We are dependent upon a number of key management and other team members. If we were to lose the services of a key member of our management team or a significant number of key team members within a short period of time, this could have a material adverse effect on our operations as we may not be able to find suitable individuals to replace them on a timely basis, if at all. In addition, any such departure could be viewed in a negative light by investors and analysts, which may cause our stock price to decline. We do not maintain key person insurance on any team member.

If we are unable to attract, train and retain team members, we may not be able to grow or successfully operate our business.

The food retail industry is labor intensive. Our continued success and ability to grow through new store openings is dependent upon our ability to attract, develop and retain qualified team members in our stores and at our store support office who understand and appreciate our culture and values and are able to represent our brand effectively and establish credibility with our business partners and customers, particularly as we expand into new markets. We face intense competition for qualified team members. Due to a tight labor market, availability of talent and other factors, we have experienced, and could continue to experience, a shortage of labor for store positions. Our ability to meet our labor needs, while controlling wage and labor-related costs, is subject to numerous external factors, including the availability of a sufficient number of qualified persons in the work force in the markets in which we are located, unemployment levels within those markets, unionization of the available work force, prevailing wage rates, changing demographics, health and other insurance costs and changes in employment legislation. In the event of increasing wage rates, if we fail to increase our wages competitively, the quality of our workforce could decline, causing our customer engagement to suffer, while increasing our wages could cause our earnings to decrease. If we are unable to hire, train and retain team members capable of meeting our business needs and expectations, our business and brand image may be impaired. Any failure to meet our staffing needs or any material increase in turnover rates of our team members or team member wages may adversely affect our business, results of operations, cash flows or financial condition.

Union attempts to organize our team members could negatively affect our business.

None of our team members are currently subject to a collective bargaining agreement. As we continue to grow and enter different regions, unions may attempt to organize all or part of our team member base at certain stores or within certain regions. Responding to such organization attempts may distract management

and team members and may have a negative financial impact on individual stores, or on our business as a whole.

Higher wage and benefit costs could adversely affect our business.

Changes in federal and state minimum wage laws and other laws relating to employee compensation and benefits could cause us to incur additional wage and benefit costs, as well as increased contractual costs associated with our service providers. Increased labor costs brought about by changes in minimum wage laws, other regulations or prevailing market conditions would increase our expenses and have an adverse impact on our profitability.

Our lease obligations could adversely affect our financial performance and may require us to continue paying rent for store locations that we no longer operate.

We are subject to risks associated with our current and future store, distribution center and administrative office real estate leases. Our high level of fixed lease obligations will require us to use a portion of cash generated by our operations to satisfy these obligations and could adversely impact our ability to obtain future financing, if required, to support our growth or other operational investments. We will require substantial cash flows from operations to make our payments under our operating leases, all of which provide for periodic increases in rent. If we are not able to make the required payments under the leases, the lenders or owners of the relevant stores, distribution centers or administrative offices may, among other things, repossess those assets, which could adversely affect our ability to conduct our operations. In addition, our failure to make payments under our operating leases could trigger defaults under other leases or under agreements governing our indebtedness, which could cause the counterparties under those agreements to accelerate the obligations due thereunder.

Further, we generally cannot cancel our leases, so if we decide to close or relocate a location, we may nonetheless be committed to perform our obligations under the applicable lease, including paying the base rent for the remaining lease term. In addition, as our leases expire, we may fail to negotiate renewals, either on commercially acceptable terms or any terms at all, which could materially adversely affect our business, results of operations, cash flows or financial condition.

Claims under our insurance plans may differ from our estimates, which could materially impact our results of operations.

We use a combination of insurance and self-insurance plans to provide for potential liabilities, including for workers' compensation, general liability (including, in connection with legal proceedings described under "— Legal proceedings could materially impact our business, financial condition, results of operations and cash flows" below), property insurance, director and officers' liability insurance, automobile liability insurance, environmental liability insurance, and team member health-care benefits. Liabilities associated with the risks that are retained by us are estimated, in part, by considering historical claims experience, demographic factors, severity factors and other actuarial assumptions. Our results could be materially impacted by claims and other expenses related to such plans if future occurrences and claims differ from these assumptions and historical trends.

We may be unable to generate sufficient cash flow to satisfy our debt service obligations, which could adversely impact our business.

As of December 28, 2025, the Company had no long-term debt outstanding debt under our credit agreement (referred to as the "Credit Agreement"). We may incur indebtedness in the future, including borrowings under our Credit Agreement. Any indebtedness we may incur, or any hedging arrangements related to such indebtedness could require us to divert funds identified for other purposes for debt service and impair our liquidity position. If we cannot generate sufficient cash flow from operations to service our debt, we may need to refinance our debt, dispose of assets or issue equity to obtain necessary funds. We do not know whether we will be able to take any of such actions on a timely basis, on terms satisfactory to us or at all.

Covenants in our Credit Agreement restrict our operational flexibility.

Our Credit Agreement contains usual and customary restrictive covenants relating to our management and the operation of our business, including incurring additional indebtedness; making certain investments; merging, dissolving, liquidating, consolidating, or disposing of all or substantially all of our assets; paying

dividends, making distributions, or redeeming capital stock; entering into transactions with our affiliates; and granting liens on our assets.

Our Credit Agreement also requires us to maintain a specified total net leverage ratio and minimum interest coverage ratio at the end of any fiscal quarter at any time the facility is drawn. Our ability to meet these ratios, if applicable, could be affected by events beyond our control. Failure to comply with any of the covenants under our Credit Agreement could result in a default under the facility, which could cause our lenders to accelerate the timing of payments and exercise their lien on substantially all of our assets, which would have a material adverse effect on our business, operating results, and financial condition.

Financial Reporting, Legal and Other Regulatory Risks

Legal proceedings could materially impact our business, financial condition, results of operations and cash flows.

We have been and will continue to be subject to litigation and other legal proceedings that may adversely affect our business, including claims brought by team members, customers, government agencies, suppliers, distributors, stockholders, job applicants or others. Our operations, which are characterized by a high volume of customer traffic and data collection for transactions involving a wide variety of product selections, carry a higher exposure to litigation risk when compared to the operations of companies operating in some other industries. Consequently, we have been and may in the future be a party to individual personal injury, product liability, intellectual property, data security and privacy, accessibility and other legal actions in the ordinary course of our business, including litigation arising from food-related illness, product labeling or marketing and advertising claims. In addition, our team members may, from time to time, bring lawsuits against us regarding injury, hostile work environment, discrimination, wage and hour disputes, sexual harassment, or other employment issues. Additionally, we could be exposed to industry-wide or class-action claims or governmental enforcement actions arising from products we carry or industry-specific business or employment practices. The outcome of litigation, particularly class action lawsuits, is difficult to assess or quantify. Plaintiffs in these types of lawsuits may seek recovery of very large or indeterminate amounts, and the magnitude of the potential loss relating to such lawsuits may remain unknown for substantial periods of time. While we maintain insurance against many types of claims, insurance coverage may not be adequate, and the cost to defend against future litigation may be significant. There may also be adverse publicity associated with litigation that may decrease consumer confidence in or perceptions of our business and impact our ability to hire and retain team members, regardless of whether the allegations are valid or whether we are ultimately found liable. As a result, litigation may materially adversely affect our business, financial condition, results of operations and cash flows. See Note 17, "Commitments and Contingencies" to our consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K for information regarding certain legal proceedings in which we are involved.

We, as well as our vendors, are subject to numerous laws and regulations and our compliance with these laws and regulations may increase our costs, limit or eliminate our ability to sell certain products, raise regulatory enforcement risks, or otherwise adversely affect our business, reputation, results of operations, cash flows and financial condition.

Enforcement. Both FDA and USDA have broad authority to enforce their applicable statutes and regulations relating to the registration and listing of products, safety, labeling, manufacturing, distribution and promotion of foods, cosmetics, homeopathic and CBD products, and dietary supplements, including powers to issue a public warning letter to a company, publicize information about adulterated or misbranded products, institute an administrative detention of products, request or order a recall from the market, impose import restrictions and request the Department of Justice to initiate a seizure action, an injunction action or a criminal prosecution. Enforcement actions may also lead to follow-on consumer class action litigation. Regulatory enforcement actions could interrupt the marketing and sales of products in our stores, including our private label products, severely damage our brand reputation and public image, increase the cost of products in our stores, result in product recalls or costly litigation, and impede our ability to deliver merchandise in sufficient quantities or quality to our stores, which could result in a material adverse effect on our business, financial condition, results of operations and cash flows.

Foods, Dietary Supplements, CBD and Homeopathic Product Risks. Our sales of these products are regulated by FDA. However, other public and private actors are increasingly targeting food and dietary supplement retailers and manufacturers for selling products that fail to adhere to requirements under the FDCA. While the FDCA provides FDA with the authority to remove products from the market that are adulterated or misbranded, state governments and the Plaintiffs' Bar have been targeting retailers and manufacturers of these products for failing to adhere to current good manufacturing practices and for false or misleading product claims

relating to nutritional or therapeutic value or structure or function claims. States may also narrow their laws on the sale of CBD products in their states to conform to new federal laws.

Advertising and Product Claims Risks. In connection with the marketing and advertisement of products we sell, we could be the target of claims relating to false or deceptive advertising, including under the oversight of the FTC and pursuant to the FTC Act and consumer protection statutes of some states. Further, state governments and private plaintiffs target food, drug, and cosmetic retailers and manufacturers for false and misleading advertising and product compliance, including but not limited to natural, organic and GMO claims and statements, which could materially and adversely affect our reputation and profitability and cause consumers to lose confidence in the quality and safety of our products. The cost of defending against any such claims could be significant.

Food Packaging and PFAS. While the FDA has authorized certain per and polyfluoroalkyl substances ("PFAS") for use in specific food contact applications, a growing number of states have passed legislation or issued policies restricting food contact articles with intentionally added PFAS, such as certain single-use food packaging and foodware items. For example, a California law that became effective in 2023 bans intentionally added PFAS in fiber-based food packaging, mandates online chemical disclosures, and limits claims about PFAS-free and other hazard groups. As more states impose similar restrictions, it is possible that additional states in which we operate will also implement bans on PFAS.

Ecommerce Platform. Our online order ecommerce platform is subject to the same laws and regulations as our retail operations. Product statements made on our website must be in accordance with labeling requirements.

Third-Party Risks. As is common in our industry, we rely on our suppliers and contract manufacturers to ensure that the products they manufacture and sell to us comply with all applicable regulatory and legal requirements. In general, we seek representations and warranties, indemnification and/or insurance from our suppliers and contract manufacturers. However, even with adequate insurance and indemnification, any claims of non-compliance could significantly damage our reputation and consumer confidence in products we sell. In addition, the failure of such products to comply with applicable regulatory and legislative requirements could prevent us from marketing the products or require us to recall or remove such products from our stores. In order to comply with applicable statutes and regulations, our suppliers and contract manufacturers have from time to time reformulated, eliminated or relabeled certain of their products and we have revised certain provisions of our sales and marketing program.

Future changes in legal and regulatory requirements may introduce new risks into our operations which we are not able to currently anticipate. For example, changes taking place in the United States associated with a new federal administration, as well as changes in legal standards, may introduce uncertainties with respect to our current and future operations. It is possible that new laws, regulations or executive orders may be enacted or enforced differently than they were before, which may expose us to additional uncertainty and require the expenditure of additional resources to ensure that we are able to comply. Such actions could also adversely restrict our business and operations. There could also be changes in FDA's regulatory and enforcement agenda and resources for such actions. Further, legal and regulatory changes may impact how we may market and sell our products in the future, for example, by changing food and dietary supplement label requirements. At this time, it is too early to predict the exact nature of any changes that may take place or whether and how they may impact our business and results of operations.

We are also subject to laws and regulations more generally applicable to retailers. Compliance with or changes to such laws and regulations may increase our costs, limit or eliminate our ability to sell certain products or otherwise adversely affect our business, reputation, results of operations, financial condition or cash flows.

We are subject to laws and regulations more generally applicable to retailers, including those related to labor and employment, taxation, zoning and land use, environmental protection, workplace safety, public health, community right-to-know, data privacy, waste diversion and hazardous waste disposal, packaging labels and content, consumer protection and alcoholic beverage sales, as well as other voluntary safety protocols. If violations are found, it could result in the assessment of fines, suspension of one or more needed licenses and, in the case of repeated "critical" violations, closure of the store until a re-inspection demonstrates that we have remediated the problem. Further, our new store openings could be delayed or prevented, or our existing stores could be impacted by difficulties or failures in our ability to obtain or maintain required permits, approvals or licenses. In addition, we are subject to federal, state and local environmental laws, including those pursuant to which we could be held responsible for all of the costs or liabilities relating to any contamination at our or our

predecessors' past or present facilities and at third-party waste disposal sites, regardless of our knowledge of, or responsibility for, such contamination, and such costs may exceed our environmental liability insurance coverage.

As is common in our industry, we rely on our suppliers and contract manufacturers to ensure that the products they manufacture and sell to us comply with all applicable regulatory and legislative requirements. In general, we seek representations and warranties, indemnification and/or insurance from our suppliers and contract manufacturers. However, even with adequate insurance and indemnification, any claims of non-compliance could significantly damage our reputation and consumer confidence in our products. In order to comply with applicable statutes and regulations, our suppliers and contract manufacturers have from time to time reformulated, eliminated or relabeled certain of their products and we have revised certain provisions of our sales and marketing program.

We cannot predict the nature of future laws, regulations, interpretations or applications, or determine what effect either additional government regulations or executive or administrative orders, when and if promulgated, or disparate federal, state and local regulatory schemes would have on our business in the future. They could, however, increase our costs; result in our unintended misinterpretation or noncompliance; expose us to litigation, enforcement actions and fines; require the reformulation of certain products or alternative sourcing from domestic suppliers or otherwise to meet new standards, regulations or trade restrictions; require the recall or discontinuance of certain products not able to be reformulated or alternatively sourced in compliance with new regulations or restrictions; impose additional recordkeeping; expand documentation of the properties of certain products; necessitate expanded or different labeling and/or scientific substantiation; or require us to discontinue certain operations. Any or all of such requirements could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We may be unable to adequately protect our intellectual property rights, which could harm our business.

We rely on a combination of trademark, trade secret, copyright and domain name law and internal procedures and nondisclosure agreements to protect our intellectual property. In particular, we believe our trademarks, including SPROUTS FARMERS MARKET® and SPROUTS®, and our domain names, including sprouts.com, are valuable assets. However, there can be no assurance that our intellectual property rights will be sufficient to distinguish our products and services from those of our competitors and to provide us with a competitive advantage. From time to time, third parties may use names and logos similar to ours, may apply to register trademarks or domain names similar to ours, and may infringe or otherwise violate our intellectual property rights. There can be no assurance that our intellectual property rights can be successfully asserted against such third parties or will not be invalidated, circumvented or challenged. Asserting or defending our intellectual property rights could be time consuming and costly and could distract management's attention and resources. If we are unable to prevent our competitors from using names, logos and domain names similar to ours, consumer confusion could result, the perception of our brand and products could be negatively affected, and our sales and profitability could suffer as a result.

We may also be subject to claims that our intellectual property, activities or the products we sell infringe, misappropriate or otherwise violate the intellectual property rights of others. Any such claims can be time consuming and costly to defend and may distract management's attention and resources, even if the claims are without merit. Such claims may also require us to enter into costly settlement or license agreements (which could, for example, prevent us from using our trademarks in certain geographies or in connection with certain products and services), pay costly damage awards, and face a temporary or permanent injunction prohibiting us from marketing or providing the affected products and services, any of which could have a material adverse effect on our business.

Changes in accounting standards may materially impact reporting of our financial condition and results of operations.

Accounting principles generally accepted in the United States and related accounting pronouncements, implementation guidelines, and interpretations for many aspects of our business, such as accounting for leases, inventories, goodwill and intangible assets, store closures, insurance, income taxes, share-based compensation and accounting for mergers and acquisitions and other special items, are complex and involve subjective judgments. Changes in these rules or their interpretation may necessitate changes to our financial statement presentation and significantly change or add significant volatility to our reported earnings without a comparable

underlying change in cash flow from operations. As a result, changes in accounting standards may materially impact our reported financial condition and results of operations.

If we are unable to maintain effective internal control over financial reporting in the future, we may fail to prevent or detect material misstatements in our financial statements, in which case investors may lose confidence in the accuracy and completeness of our financial reports and the market price of our common stock may decline.

As a public company, we are required to maintain internal control over financial reporting. If we are unable to maintain effective internal control over financial reporting, if we identify any material weaknesses therein, if we are unsuccessful in our efforts to remediate any such material weakness, if our management is unable to report that our internal control over financial reporting is effective, or if our independent registered public accounting firm is unable to express an opinion as to the effectiveness of our internal control over financial reporting, investors may lose confidence in the accuracy and completeness of our financial reports and the market price of our common stock could be negatively affected. In addition, we could become subject to investigations by the Nasdaq Stock Market, the SEC, or other regulatory authorities, which could require additional financial and management resources.

If our goodwill or other intangible assets become impaired, we may be required to record a significant charge to earnings.

We have a significant amount of goodwill and other intangible assets. As of December 28, 2025, we had goodwill and intangible assets of approximately \$381.8 million and \$208.2 million, respectively, which represented approximately 9.2% and 5.0% of our total assets as of such date, respectively. Goodwill is reviewed for impairment on an annual basis in the fourth fiscal quarter or whenever events occur or circumstances change that would more likely than not reduce the fair value of our reporting unit below its carrying amount. Fair value is determined based on the discounted cash flows and the market value of our single reporting unit. If the fair value of the reporting unit is less than its carrying value, an immediate charge to earnings would be recorded for the amount by which the reporting unit's carrying amount exceeds its fair value, not to exceed the carrying amount of the goodwill, which would adversely affect our operating results.

Our nutrition-oriented educational activities may be impacted by government regulation or our inability to secure adequate liability insurance.

We provide nutrition-oriented information to our customers, and these activities may be subject to state and federal regulation and oversight by professional organizations. In the past, the FDA has expressed concerns regarding summarized health and nutrition-related information that it (i) does not, in the FDA's view, accurately present such information, (ii) diverts a consumer's attention and focus from FDA-required nutrition labeling and information or (iii) impermissibly promotes drug-type disease-related benefits. If our team members or third parties we engage to provide this information do not act in accordance with regulatory requirements, we may become subject to penalties or litigation that could have a material adverse effect on our business.

Our business and reputation may be adversely impacted by evolving sustainability matters.

As a fresh, natural and organic specialty retailer, we believe that many stakeholders hold us to higher standards with respect to sustainability matters. As a result, we disclose certain sustainability-related metrics, initiatives and goals in our SEC filings and other public disclosures. Execution against these initiatives may be costly, and we may be unable to achieve our goals due to factors outside of our control. If our sustainability-related reporting is incomplete or inaccurate or fails to comply with regulatory requirements, or if we fail to achieve significant progress with respect to our goals on a timely basis, or at all, our business, financial performance, growth and reputation with our investors, customers and other stakeholders could be adversely affected. In addition, there also exists certain "anti-ESG" sentiment among some individuals and government institutions, and we may also face scrutiny and reputational harm from these parties regarding our sustainability initiatives or goals.

Common Stock Ownership Risks

Our stock price may be volatile, and you may not be able to resell your shares at or above the price you paid for them or at all.

There is no guarantee that our common stock will appreciate in value or even maintain the price at which our stockholders have purchased their shares. If our operating results or outlook fall below the

expectations of stock market analysts and investors, the market price of our common stock could decline substantially. In addition, the trading price of our common stock may be volatile and subject to wide price fluctuations in response to various factors, many of which are beyond our control. Furthermore, the stock markets have experienced extreme price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many companies. These fluctuations often have been unrelated or disproportionate to the operating performance of those companies. These and other factors may cause the market price and demand for our common stock to fluctuate substantially, which may limit or prevent investors from readily selling their shares of common stock and may otherwise negatively affect the price of our common stock. In addition, when the market price of a stock has been volatile, holders of that stock have sometimes instituted securities class action litigation against the company that issued the stock. Any current or future stockholder suits against us could cause us to incur substantial costs defending the lawsuit or paying for settlements or damages. Such a lawsuit could also divert the time and attention of our management. See Note 17, "Commitments and Contingencies" to our consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K for information regarding certain legal proceedings in which we are involved.

Anti-takeover provisions could impair a takeover attempt and adversely affect existing stockholders.

Certain provisions of our certificate of incorporation and bylaws and applicable provisions of Delaware law may have the effect of rendering more difficult, delaying, or preventing an acquisition of our company, even when this would be in the best interest of our stockholders. These include, without limitation, the following provisions:

- a classified board of directors (referred to as the "Board") whose members serve staggered three-year terms until our classified board structure is fully phased out at our 2028 annual meeting of stockholders pursuant to a measure adopted by our stockholders at our 2025 annual meeting of stockholders;
- "blank check" preferred stock, which could be issued by the board without stockholder approval and may contain voting, liquidation, dividend, and other rights superior to our common stock;
- inability of our stockholders to call special meetings of stockholders, which may delay the ability of our stockholders to force consideration of a proposal or the ability of holders controlling a majority of our capital stock to take action, including the removal of directors; and
- required advance notice of stockholder proposals for business to be conducted at meetings of our stockholders and for nominations of candidates for election to the board.

Any provision of our certificate of incorporation or bylaws or Delaware law that has the effect of delaying or deterring a change in control could limit the opportunity for our stockholders to receive a premium for their shares of our common stock, and could also affect the price that some investors are willing to pay for our common stock.

If securities or industry analysts cease publishing research or reports about us, our business, or our market, or if they adversely change their recommendations regarding our stock, our stock price and trading volume could decline.

The trading market for our common stock is influenced by the research and reports that industry or securities analysts may publish about us, our business, our market or our competitors. If we do not maintain adequate research coverage, or if any of the analysts who may cover us downgrade our stock or publish inaccurate or unfavorable research about our business or provide relatively more favorable recommendations about our competitors, our stock price could decline. If any analyst who may cover us were to cease coverage of our company or fail to regularly publish reports on us, we could lose visibility in the financial markets, which in turn could cause our stock price or trading volume to decline.

Since we do not expect to pay any cash dividends in the near future, investors may be forced to sell their stock in order to obtain a return on their investment.

Although we regularly evaluate our capital structure and opportunities to create value for our investors, we do not anticipate declaring or paying in the near future any cash dividends on our capital stock. Instead, we plan to retain any earnings to finance our operations and growth plans. In addition, our Credit Agreement contains covenants that we must satisfy in order to pay cash dividends. Accordingly, investors must rely on sales of their common stock after price appreciation, which may never occur, as the only way to realize any

return on their investment. As a result, investors seeking cash dividends should not purchase our common stock.

Our business could be impacted as a result of actions by activist stockholders or others.

We may be subject, from time to time, to legal and business challenges in the operation of our company due to actions instituted by activist shareholders or others. Responding to such actions, which may include private engagement, publicity campaigns, proxy contests, efforts to force transactions not supported by our board, and litigation, could be costly and time-consuming, may not align with our strategic plan and could divert the time and attention of our board and management from our business. Perceived uncertainties as to our future direction as a result of stockholder activism may lead to the perception of a change in the direction of the business or other instability and may affect our stock price, relationships with vendors, customers, prospective and current team members and others.

Item 1B. *Unresolved Staff Comments*

None.

Item 1C. *Cybersecurity*

Cybersecurity is important to our operations. We are susceptible to significant and persistent cybersecurity threats, including data breaches, ransomware, and phishing attacks. These threats, which are constantly evolving, include attempts by malicious actors to breach our security and compromise our information technology systems, as well as those of our vendors and suppliers. A cybersecurity incident impacting us or any third party could disrupt operations, damage our reputation, and result in costly litigation and/or government enforcement action. We seek to maintain robust cybersecurity and data protection practices and continuously evaluate cybersecurity threats, considering their immediate and long-term effects on our business strategy, operations, and financial condition.

Under the oversight of our Board of Directors, and the Board's risk committee, our management has established comprehensive processes for identifying, assessing, and managing material risks from cybersecurity threats. These processes are integrated into our enterprise risk management program and may include measures such as threat monitoring and detection, periodic testing, access controls, and team member training. Our cybersecurity risk management processes are informed by recognized standards such as the NIST Cybersecurity Framework. Our detailed incident response plan outlines steps for detection, assessment, notification, and recovery, including escalation to management, the Risk Committee, and the Board when appropriate.

The risk committee of our Board, chaired by a director with extensive cybersecurity expertise, receives quarterly updates from management on cybersecurity risks and incidents, including those with moderate or higher impacts. Management updates the full board regularly to support alignment on mitigation strategies. Our Chief Technology Officer, with more than 35 years of IT experience, oversees our cybersecurity efforts and is supported by our internal information security team and external consultants.

Our third-party vendors and service providers are integral to our operations but pose unique cybersecurity challenges due to their access to our data and systems and our reliance on them for certain critical operations, including supply chain management. To address these risks, we maintain a third-party vendor risk management program that includes pre-onboarding due diligence, periodic assessments, and ongoing monitoring for critical vendors and other vendors based on risk. We also assess certain critical vendors' supply chain security practices to help manage risks associated with subcontractors.

As of the date of this report, no cybersecurity incidents have had a material adverse effect on our business, financial condition, or results of operations. However, we recognize that no system is immune to breaches. While we maintain cyber insurance coverage for certain risks, such as ransomware attacks and business interruption, the costs of certain incidents could exceed policy limits. We evaluate and deploy technology enhancements, which may include threat detection capabilities, to strengthen our defenses against evolving threats.

See Item 1A. “Risk Factors – Disruptions to, security breaches or non-compliance involving our information technology systems could harm our ability to run our business and expose us to potential liability and loss of revenues” for additional discussion of cybersecurity risks that may materially impact us.

Item 2. *Properties*

We seek to select sites for our store locations in markets with growth potential where our target customers and supply chain capabilities intersect. As of December 28, 2025, we had 477 stores located in 24 states, as shown in the chart below:

State	Number of Stores	State	Number of Stores
Alabama	3	New Jersey	5
Arizona	48	New Mexico	10
California	156	North Carolina	7
Colorado	34	Oklahoma	11
Delaware	2	Pennsylvania	7
Florida	58	South Carolina	2
Georgia	17	Tennessee	10
Kansas	4	Texas	60
Louisiana	1	Utah	7
Maryland	8	Virginia	3
Missouri	3	Washington	3
Nevada	17	Wyoming	1

In fiscal 2025, we opened 37 new stores. In fiscal 2024, we opened 33 new stores.

We lease all of our stores from unaffiliated third parties. A typical store lease is for an initial 10 to 15 year term with three or four renewal options of five years each. We expect that we will be able to renegotiate these leases or relocate these stores as necessary. In addition to new store openings, we remodel or relocate stores periodically in order to improve performance. See “Business – New Store Development” for additional information with respect to our store site selection process.

As of December 28, 2025, we utilized six distribution centers. Information about such facilities, as well as our current corporate office in Phoenix, Arizona, is set forth in the table below:

Facility	State	Square Footage*
Corporate Office	Arizona	96,000
Distribution Center	Arizona	129,000
Distribution Center	California	337,000
Distribution Center	California	108,000
Distribution Center	Colorado	134,000
Distribution Center	Florida	134,000
Distribution Center	Texas	234,000

* Rounded to the nearest 1,000 square feet

We lease our corporate office and our distribution centers in Arizona, Southern California, Colorado, Florida and Texas from unaffiliated third parties; our Northern California distribution center is leased by a third-party logistics provider. We expect to expand our distribution center network to support our growth. See “Business – Sourcing and Distribution” for additional information with respect to our distribution centers.

We believe our portfolio of long-term leases is a valuable asset supporting our retail operations, but we do not believe that any individual store property or distribution center lease is material to our financial condition or results of operations.

In fiscal 2023 as part of our real estate portfolio review, we closed 11 stores. These stores, on average, were approximately 30% larger than our current prototype format and were underperforming financially. See Note 23, "Store Closures" to our consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K for additional information regarding these store closures.

Item 3. *Legal Proceedings*

From time to time we are a party to legal proceedings, including matters involving personnel and employment issues, product liability, personal injury, intellectual property and other proceedings arising in the ordinary course of business, which have not resulted in any material losses to date. Although our management does not expect that the outcome in these proceedings will have a material adverse effect on our financial condition or results of operations, litigation is inherently unpredictable. Therefore, we could incur judgments or enter into settlements of claims that could materially impact our results.

See Note 17, "Commitments and Contingencies" to our consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K for information regarding certain legal proceedings in which we are involved.

Item 4. *Mine Safety Disclosures*

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information

Our common stock began trading on the Nasdaq Global Select Market under the symbol "SFM" on August 1, 2013. The number of stockholders of record of our common stock as of February 17, 2026 was 24. This number excludes stockholders whose stock is held in nominee or street name by brokers.

Dividend Policy

Although we regularly evaluate our capital structure and opportunities to create value for our stockholders, since we became a publicly traded company on August 1, 2013, we have not declared or paid, and do not anticipate declaring or paying in the near future, any cash dividends on our capital stock. Any future determination as to the declaration and payment of dividends, if any, will be at the discretion of our board of directors and will depend on then existing conditions, including our operating results, financial condition, contractual restrictions, capital requirements, business prospects, and other factors our board of directors may deem relevant. Our Credit Agreement contains covenants that we must satisfy in order to pay cash dividends.

Issuer Purchases of Equity Securities

The following table provides information about our share repurchase activity during the thirteen weeks ended December 28, 2025.

Period ⁽¹⁾	Total number of shares purchased	Average price paid per share ⁽²⁾	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under the plans or programs ⁽³⁾
September 29, 2025 - October 26, 2025	91,484	\$ 109.33	91,484	\$ 956,004,000
October 27, 2025 - November 23, 2025	871,457	\$ 80.32	871,457	\$ 886,005,000
November 24, 2025 - December 28, 2025	593,094	\$ 84.30	593,094	\$ 836,005,000
Total	<u>1,556,035</u>		<u>1,556,035</u>	

- (1) Periodic information is presented by reference to our fiscal periods during the fourth quarter of fiscal year 2025.
- (2) Average price paid per share includes costs associated with the purchases, but excludes the excise tax on share repurchases imposed as part of the Inflation Reduction Act of 2022.
- (3) On August 13, 2025, our board of directors authorized a new \$1 billion share repurchase program of our common stock. The new repurchase authorization does not have an expiration date. The shares may be purchased on a discretionary basis from time to time, subject to general business and market conditions and other investment opportunities, through open market purchases, privately negotiated transactions, or other means, including through Rule 10b5-1 trading plans.

Performance Graph

The graph set forth below compares the cumulative total stockholder return on our common stock between January 3, 2021 and December 28, 2025, with the cumulative total return of (i) the Nasdaq Composite Index and (ii) the S&P Food Retail Index, over the same period.

The comparison assumes that \$100.00 was invested in our common stock, the Nasdaq Composite Index and the S&P Food Retail Index, and assumes reinvestment of dividends, if any. The graph assumes the initial value of our common stock on December 31, 2020 (the last trading day prior to the beginning of fiscal 2021) was the closing sale price on that day of \$20.10 per share. The performance shown on the graph below is based on historical results and is not intended to suggest future performance.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*

Among Sprouts Farmers Market Inc., the NASDAQ Composite Index and the S&P 500 Food Retail Index

*\$100 invested on 1/3/21 in stock or index, including reinvestment of dividends. Indexes calculated on month-end basis.

Item 6. [Reserved]

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with the consolidated financial statements and related notes that are included elsewhere in this Annual Report on Form 10-K as well as "Part II—Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Annual Report on Form 10-K for the fiscal year ended December 29, 2024 filed with the SEC on February 20, 2025, which provides comparisons of fiscal 2024 and fiscal 2023. This discussion contains forward-looking statements based upon current expectations that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under "Risk Factors" or in other parts of this Annual Report on Form 10-K. Please also see the section entitled "Special Note Regarding Forward-Looking Statements."

Business Overview

Sprouts Farmers Market offers a unique specialty grocery experience featuring an open layout with fresh produce at the heart of the store. Sprouts inspires wellness naturally with a carefully curated assortment of better-for-you products paired with purpose-driven people. We continue to bring the latest in wholesome, innovative products made with lifestyle-friendly ingredients such as organic, plant-based and gluten-free. From our founding in 2002, we have grown rapidly, significantly increasing our sales, store count and profitability. Headquartered in Phoenix with 477 stores in 24 states as of December 28, 2025, we are one of the largest and fastest growing specialty retailers of fresh, natural and organic food in the United States.

Outlook

We continue to execute on our long-term growth strategy that we believe is transforming our company and driving profitable growth, focusing on the following areas:

- *Win with Target Customers.* We are focusing attention on our target customers, identified through research as 'health enthusiasts' and 'selective shoppers', where there is ample opportunity to gain share within these customer segments. We believe our business can continue to grow by leveraging existing strengths in a unique assortment of better-for-you, quality products and by providing a full omnichannel offering through delivery or pickup via our website or the Sprouts app.
- *Market Expansion.* We are delivering unique smaller stores with expectations of stronger returns, while maintaining the approachable, fresh-focused farmer's market heritage Sprouts is known for. From 2021 through 2025, we have opened 112 new stores and remodeled one store featuring our updated format. Our geographic store expansion and new store placement will intersect where our target customers live, in markets with growth potential and supply chain support, which we believe will provide a long runway of approximately 10% annual unit growth.
- *Create an Advantaged Supply Chain.* We believe our network of distribution centers can drive efficiencies across the chain and support growth plans. To further deliver on our fresh commitment and reputation, as well as to increase our local offerings and improve financial results, we aspire to ultimately position fresh distribution centers within a 250-mile radius of stores. As a step to improve our fresh supply chain, in 2025 we began the transition to a self-distribution model for meat and seafood through our fresh distribution centers. As a result, we are better leveraging our existing distribution center capacity, and approximately 80% of our stores were within 250 miles of a distribution center as of December 28, 2025.
- *Customer Engagement and Personalization.* We believe we are elevating our national brand recognition and positioning by telling our unique brand story rooted in product innovation and differentiation. We are increasing our use of data analytics and insights, including through the nationwide launch of our Sprouts Rewards loyalty program in 2025. We believe this data-driven intelligence will increase customer engagement through personalization efforts with digital and social connections to drive additional sales growth and loyalty.
- *Inspire and Engage Our Talent to Create a Best Place to Work.* Subsequent to the initial launch of our long-term growth strategy, we have added the focus area of inspiring and engaging our talent through our culture, acquisition and development and total rewards program to attract and retain the talent we believe we need to execute on our strategic goals and transform our company into a premier place to work.
- *Invest in Technology for Growth.* We continue to make investments in technology in support of our strategy, with a focus on enhancing efficiency, scalability, and customer experience. While we are showing positive outcomes on our strategic investments in inventory management and customer personalization, we believe that ongoing investments in our technology foundation will allow us to streamline operations and improve decision making to execute on our strategy.
- *Deliver on Key Financial Metrics.* We are measuring and reporting on the success of this strategy against a number of long-term financial and operational targets. Since the implementation of our strategy beginning in 2020, we have significantly improved our margin structure above our 2019 baseline.

Components of Operating Results

We report our results of operations on a 52- or 53-week fiscal year ending on the Sunday closest to December 31, with each fiscal quarter generally divided into three periods consisting of two four-week periods and one five-week period. Fiscal 2025, fiscal 2024 and fiscal 2023 were 52-week years ending on December 28, 2025, December 29, 2024 and December 31, 2023, respectively.

Net Sales

We recognize sales revenue at the point of sale, with discounts provided to customers reflected as a reduction in sales revenue. Proceeds from sales of gift cards are recorded as a liability at the time of sale and recognized as sales when they are redeemed by the customer. During 2025, we implemented a customer loyalty program. As a customer earns points, we allocate a portion of the transaction price to a deferred loyalty liability. See Note 3, "Significant Accounting Policies" to our consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K for additional information on revenue recognition related to gift cards and our loyalty program. We do not include sales taxes in net sales.

We monitor our comparable store sales growth to evaluate and identify trends in our sales performance. Our practice is to include sales from a store in comparable store sales beginning on the first day of the 61st week following a store's opening or date of acquisition and to exclude sales from a closed store from comparable store sales on the day of closure. This practice may differ from the methods that other retailers use to calculate similar measures.

Historically, our net sales have increased as a result of new store openings and comparable store sales growth. Additional factors that influence comparable store sales growth and other sales trends include:

- general economic conditions and trends, including levels of disposable income and consumer confidence;
- our competition, including competitive store openings in the vicinity of our stores and competitor pricing and merchandising strategies;
- consumer preferences and buying trends;
- our ability to identify market trends, and to source and provide product offerings that promote customer traffic and growth in average ticket;
- the number of customer transactions and average ticket;
- the prices of our products, including the effects of factors beyond our control, such as inflation, deflation and tariffs;
- opening new stores in the vicinity of our existing stores; and
- advertising, in-store merchandising and other marketing activities.

Cost of sales and gross profit

Cost of sales includes the cost of inventory sold during the period, including direct costs of purchased merchandise (net of discounts and allowances), distribution and supply chain costs, and depreciation and amortization expense for distribution centers and supply chain-related assets. Merchandise incentives received from vendors, which are reflected in the carrying value of inventory when earned or as progress is made toward earning the rebate or allowance, and are reflected as a component of cost of sales as the inventory is sold. Inflation and deflation in the prices of food and other products we sell may periodically affect our gross profit and gross margin. Tariffs may result in cost increases on products such as produce that we import from impacted countries, as well as products containing ingredients imported from these countries. The short-term impact of tariffs, inflation, and deflation is largely dependent on whether or not we pass the effects through to our customers, which will largely depend upon competitive market conditions.

Our cost of sales and gross profit are correlated to sales volumes. As sales increase, gross margin is affected by the relative mix of products sold, pricing and promotional strategies, inventory shrinkage and leverage of fixed costs of sales.

Selling, general and administrative expenses

Selling, general and administrative expenses primarily consist of salaries, wages and benefits costs, share-based compensation, store occupancy costs (including rent, property taxes, utilities, common area maintenance and insurance), advertising costs, buying costs, pre-opening and other administrative costs.

Depreciation and Amortization

Depreciation and amortization (exclusive of depreciation included in cost of sales) primarily consists of depreciation and amortization for buildings, store leasehold improvements, and equipment.

Store closure and other costs, net

Store closure and other costs, net primarily reflects impairment charges of long-lived assets and costs incurred related to store closures, including severance and any exit costs associated with closing a store, in addition to occupancy costs associated with closed store locations. One-time disaster recovery costs are also included here.

Results of Operations for Fiscal 2025, 2024 and 2023

The following tables set forth our results of operations and other operating data for the periods presented. The period-to-period comparison of financial results is not necessarily indicative of financial results to be achieved in future periods. Each of fiscal 2025, 2024 and 2023 consisted of 52 weeks.

	Fiscal 2025	Fiscal 2024	Fiscal 2023
(in thousands, except per share data)			
Consolidated Statement of Income Data:			
Net sales	\$ 8,806,159	\$ 7,719,290	\$ 6,837,384
Cost of sales	5,389,770	4,777,799	4,315,543
Gross profit	3,416,389	2,941,491	2,521,841
Selling, general and administrative expenses	2,574,687	2,291,350	2,000,437
Depreciation and amortization (exclusive of depreciation included in cost of sales)	149,969	132,748	131,893
Store closure and other costs, net	5,575	12,896	39,280
Income from operations	686,158	504,497	350,231
Interest (income) expense, net	(2,626)	(2,201)	6,491
Income before income taxes	688,784	506,698	343,740
Income tax provision	165,114	126,097	84,884
Net income	<u>\$ 523,670</u>	<u>\$ 380,601</u>	<u>\$ 258,856</u>
Weighted average shares outstanding - basic	97,687	100,363	102,479
Dilutive effect of equity-based awards	1,017	1,016	911
Weighted average shares and equivalent shares outstanding - diluted	<u>98,704</u>	<u>101,379</u>	<u>103,390</u>
Diluted net income per share	<u>\$ 5.31</u>	<u>\$ 3.75</u>	<u>\$ 2.50</u>
Other Operating Data:			
Comparable store sales growth	7.3 %	7.6 %	3.4 %
Stores at beginning of period	440	407	386
Opened ⁽¹⁾	37	33	30
Closed	—	—	(11)
Acquired	—	—	2
Stores at end of period	477	440	407
Total square feet at the end of the period ⁽²⁾	12,992,097	12,123,032	11,322,798
Average square feet per store at the end of the period	27,237	27,552	27,820

(1) Stores opened is exclusive of two store relocations during fiscal 2024.

(2) Total square feet at the end of the period includes the square footage for all stores that were open as of the end of the fiscal year presented and excludes any vacant or subleased space.

Comparison of Fiscal 2025 to 2024

Net sales

	Fiscal 2025	Fiscal 2024	Change	% Change
(dollars in thousands)				
Net sales	\$ 8,806,159	\$ 7,719,290	\$ 1,086,869	14 %
Comparable store sales growth	7.3 %	7.6 %		

Net sales during 2025 totaled \$8.8 billion, increasing 14%, over the prior fiscal year. The sales increase was primarily due to new stores opened since the prior year and a 7.3% increase in comparable store sales. Comparable store sales contributed approximately 93% of total sales in 2025 and 94% of total sales in 2024.

Cost of sales and gross profit

	Fiscal 2025	Fiscal 2024	Change	% Change
(dollars in thousands)				
Net sales	\$ 8,806,159	\$ 7,719,290	\$ 1,086,869	14 %
Cost of sales	5,389,770	4,777,799	611,971	13 %
Gross profit	3,416,389	2,941,491	474,898	16 %
Gross margin	38.8 %	38.1 %	0.7 %	

Gross profit increased during 2025 compared to 2024 by \$474.9 million to \$3.4 billion driven by increased sales volume. Gross margin increased by 0.7% to 38.8% compared to 38.1%. The increase was a result of improved shrink and our investments in inventory management.

Selling, general and administrative expenses

	Fiscal 2025	Fiscal 2024	Change	% Change
(dollars in thousands)				
Selling, general and administrative expenses	\$ 2,574,687	\$ 2,291,350	\$ 283,337	12 %
Percentage of net sales	29.2 %	29.7 %	(0.5)%	

Selling, general and administrative expenses increased \$283.3 million, or 12%, compared to 2024. The increase was primarily driven by the increase in new stores opened since the prior year. As a percentage of net sales, selling, general, and administrative expenses improved as a result of sales leverage from strong performance early in the year as well as lower incentive compensation.

Depreciation and amortization

	Fiscal 2025	Fiscal 2024	Change	% Change
(dollars in thousands)				
Depreciation and amortization	\$ 149,969	\$ 132,748	\$ 17,221	13 %
Percentage of net sales	1.7 %	1.7 %	—	

Depreciation and amortization expense (exclusive of depreciation included in cost of sales) was \$150.0 million in 2025, compared to \$132.7 million in 2024. Depreciation and amortization expense (exclusive of depreciation included in cost of sales) primarily consists of depreciation and amortization for buildings, store leasehold improvements, and equipment for new stores as well as remodel initiatives in older stores.

Store closure and other costs, net

	<u>Fiscal 2025</u>	<u>Fiscal 2024</u>	<u>Change</u>	<u>% Change</u>
	(dollars in thousands)			
Store closure and other costs, net	\$ 5,575	\$ 12,896	\$ (7,321)	(57)%
Percentage of net sales	0.1 %	0.2 %	(0.1)%	

Store closure and other costs, net decreased by \$7.3 million to \$5.6 million in 2025 compared to \$12.9 million in 2024. Store closure and other costs, net in 2025 and 2024 was primarily related to ongoing occupancy costs incurred in connection with our closed store locations.

Interest (income) expense, net

	<u>Fiscal 2025</u>	<u>Fiscal 2024</u>	<u>Change</u>	<u>% Change</u>
	(dollars in thousands)			
Long-term debt interest expense	\$ 826	\$ 4,259	\$ (3,433)	(81)%
Finance lease interest expense	943	747	196	26 %
Deferred financing costs	890	772	118	15 %
Interest income and other	(5,285)	(7,979)	2,694	34 %
Total interest income, net	<u>\$ (2,626)</u>	<u>\$ (2,201)</u>	<u>\$ (425)</u>	<u>(19)%</u>

The increase in interest income, net was primarily due to lower average debt outstanding. See Note 12, "Long-Term Debt and Other Finance Obligations" to our consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K.

Income tax provision

	<u>Fiscal 2025</u>	<u>Fiscal 2024</u>	<u>Change</u>	<u>% Change</u>
	(dollars in thousands)			
Income tax provision	\$ 165,114	\$ 126,097	\$ 39,017	31 %
Effective income tax rate	24.0 %	24.9 %	(0.9)%	

Income tax provision increased by \$39.0 million to \$165.1 million for 2025 from \$126.1 million for 2024, and the effective income tax rate decreased to 24.0% in 2025 from 24.9% in 2024. The decrease in the effective tax rate was primarily due to an increase in the benefit for stock-based compensation and benefit for purchase discount for transferable tax credits in the current year, partially offset by an increase in the rate detriment in the current year for nondeductible executive compensation.

Net income

	<u>Fiscal 2025</u>	<u>Fiscal 2024</u>	<u>Change</u>	<u>% Change</u>
	(dollars in thousands)			
Net income	\$ 523,670	\$ 380,601	\$ 143,069	38 %
Percentage of net sales	5.9 %	4.9 %	1.0 %	

Net income increased \$143.1 million primarily due to higher gross profit and lower store closure and other costs, partially offset by higher selling, general and administrative expenses for the reasons discussed above.

Diluted earnings per share

	<u>Fiscal 2025</u>	<u>Fiscal 2024</u>	<u>Change</u>	<u>% Change</u>
	(shares in thousands)			
Diluted earnings per share	\$ 5.31	\$ 3.75	\$ 1.56	42 %
Diluted weighted average shares outstanding	98,704	101,379	(2,675)	

The increase in diluted earnings per share of \$1.56 was driven by higher net income as well as fewer diluted shares outstanding compared to the prior year due to our repurchase of approximately 4.0 million shares for a total cost of \$476.2 million, including excise tax of 1%, under our share repurchase program.

Return on Invested Capital

In addition to reporting financial results in accordance with generally accepted accounting principles, or GAAP, we provide information regarding Return on Invested Capital (referred to as "ROIC") as additional information about our operating results. ROIC is a non-GAAP financial measure and should not be reviewed in isolation or considered as a substitute for our financial results as reported in accordance with GAAP. ROIC is an important measure used by management to evaluate our investment returns on capital and provides a meaningful measure of the effectiveness of our capital allocation over time.

We define ROIC as net operating profit after tax (referred to as "NOPAT"), including the effect of capitalized operating leases, divided by average invested capital. Operating lease interest represents the add-back to operating income driven by the hypothetical interest expense we would incur if the property under our operating leases were owned or accounted for as a finance lease. The assumed ownership and associated interest expense are calculated using the discount rate for each lease as recorded as a component of rent expense within selling, general and administrative expenses. Invested capital reflects a trailing four-quarter average.

As numerous methods exist for calculating ROIC, our method may differ from methods used by other companies to calculate their ROIC. It is important to understand the methods and the differences in those methods used by other companies to calculate their ROIC before comparing our ROIC to that of other companies.

Our calculation of ROIC for the fiscal years indicated was as follows:

	2025	2024	2023
	(dollars in thousands)		
Net income ⁽¹⁾	\$ 523,670	\$ 380,601	\$ 258,856
Special items, net of tax ^{(2), (3)}	—	—	34,272
Interest (income) expense, net of tax ⁽³⁾	(1,997)	(1,654)	4,882
Net operating profit after-tax (NOPAT)	<u>\$ 521,673</u>	<u>\$ 378,947</u>	<u>\$ 298,010</u>
Total rent expense, net of tax ⁽³⁾	208,442	189,896	175,592
Estimated depreciation on operating leases, net of tax ⁽³⁾	(114,851)	(105,570)	(98,535)
Estimated interest on operating leases, net of tax ^{(3), (4)}	93,591	84,326	77,057
NOPAT, including effect of operating leases	<u>\$ 615,264</u>	<u>\$ 463,273</u>	<u>\$ 375,067</u>
Average working capital	148,262	184,691	227,375
Average property and equipment	958,386	838,166	749,611
Average other assets	607,176	602,959	595,776
Average other liabilities	(114,074)	(102,539)	(97,870)
Average invested capital	<u>\$ 1,599,750</u>	<u>\$ 1,523,277</u>	<u>\$ 1,474,892</u>
Average operating leases ⁽⁵⁾	1,758,577	1,603,777	1,423,077
Average invested capital, including operating leases	<u>\$ 3,358,327</u>	<u>\$ 3,127,054</u>	<u>\$ 2,897,969</u>
ROIC, including operating leases	<u>18.3 %</u>	<u>14.8 %</u>	<u>12.9 %</u>

(1) Net income amounts represent total net income for the past four trailing quarters.

(2) Special items related to store closure, supply chain transition and acquisition related charges net of tax.

(3) Net of tax amounts are calculated using the normalized effective tax rate for the periods presented.

- (4) 2025, 2024 and 2023 estimated interest on operating leases is calculated by multiplying operating leases by the 7.0%, 7.0% and 7.2% discount rate, respectively, for each lease recorded as rent expense within direct store expense.
- (5) 2025, 2024 and 2023 average operating leases represents the average net present value of outstanding lease obligations over the trailing four quarters.

Liquidity and Capital Resources

The following table sets forth the major sources and uses of cash for each of the periods set forth below, as well as our cash, cash equivalents and restricted cash at the end of each period (in thousands):

	Fiscal 2025	Fiscal 2024	Fiscal 2023
Cash, cash equivalents and restricted cash at end of period	\$ 260,894	\$ 267,213	\$ 203,870
Cash from operating activities	\$ 715,998	\$ 645,214	\$ 465,068
Cash used in investing activities	\$ (248,267)	\$ (230,375)	\$ (238,342)
Cash used in financing activities	\$ (474,050)	\$ (351,496)	\$ (318,048)

We have generally financed our operations principally through cash generated from operations and borrowings under our credit facilities. Our primary uses of cash are for purchases of inventory, operating expenses, capital expenditures primarily for opening new stores, remodels and maintenance, repurchases of our common stock and debt service. Our principal contractual obligations and commitments consist of obligations under our Credit Agreement, interest on our Credit Agreement, operating and finance leases, purchase commitments and self-insurance liabilities. Our operating and finance leases for the rental of land, buildings, and for rental of facilities and equipment expire or become subject to renewal clauses at various dates through 2048. We believe that our existing cash, cash equivalents and restricted cash, and cash anticipated to be generated from operations will be sufficient to meet our anticipated cash needs for at least the next 12 months. Our future capital requirements will depend on many factors, including new store openings, remodel and maintenance capital expenditures at existing stores, store initiatives and other corporate capital expenditures and activities. Our cash, cash equivalents and restricted cash position benefits from the fact that we generally collect cash from sales to customers the same day or, in the case of credit or debit card transactions, within days from the related sale.

Operating Activities

Cash flows from operating activities increased \$70.8 million to \$716.0 million in 2025 compared to \$645.2 million in 2024. The increase in cash flows from operating activities was primarily a result of higher net income adjusted for non-cash items of \$171.4 million and a \$2.3 million reduction in payments on our operating lease liabilities partially offset by changes in working capital of \$97.7 million.

Cash flows provided by operating activities from changes in working capital were \$14.6 million in 2025, compared to \$112.3 million in 2024. This \$97.7 million decrease in cash flow from changes in working capital was primarily attributable to the following factors, each of which had a negative impact on working capital: (i) a \$63.6 million change in inventories primarily due to improving on-shelf availability in certain departments; (ii) a \$30.9 million change in accounts payable and accrued liabilities, primarily due to timing differences of payments for goods and services; (iii) a \$25.2 million change in accrued salaries and benefits due to decreased incentive compensation accruals in the current year and (iv) a \$2.8 million change in accounts receivable driven by the timing of collections. These decreases were partially offset by a \$24.8 million change in prepaid expenses and other current assets primarily due our timing of tax payments and purchased federal tax credits.

Investing Activities

Cash flows used in investing activities consist primarily of capital expenditures in new stores, including leasehold improvements and store equipment, capital expenditures to maintain the appearance of our stores, sales enhancing initiatives and other corporate investments as well as cash outlays for acquisitions. Cash flows used in investing activities were \$248.3 million and \$230.4 million for 2025 and 2024, respectively. The increase

in purchases of property and equipment was primarily due to more stores under construction in 2025 as compared to 2024 and heavier investment in upgraded equipment to support our initiatives.

We expect capital expenditures to be in the range of \$280 million to \$310 million in 2026, net of estimated landlord tenant improvement allowances, primarily to fund investments in new stores, remodels, maintenance capital expenditures and corporate capital expenditures. We expect to fund our capital expenditures with cash on hand and cash generated from operating activities. We do not have any material contractual commitments for future capital expenditures as of December 28, 2025.

Financing Activities

Cash flows used in financing activities were \$474.1 million for 2025 compared to \$351.5 million for 2024. During 2025, cash flows used in financing activities primarily consisted of approximately \$471.9 million for share repurchases and \$2.1 million for payments of excise tax on share repurchases partially offset by \$2.6 million in proceeds from the exercise of stock options. During 2024, cash flows used in financing activities primarily consisted of approximately \$228.5 million for share repurchases and \$125.0 million in payments on our Former Credit Facility, \$1.8 million for payments of excise tax on share repurchases partially offset by \$4.9 million in proceeds from the exercise of stock options.

Long-term Debt and Credit Facilities

The Company had no long-term debt outstanding as of December 28, 2025 and December 29, 2024.

See Note 12, “Long-Term Debt and Other Finance Obligations” to our consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K for a description of our Credit Agreement.

Share Repurchase Program

Our board of directors from time to time authorizes share repurchase programs for our common stock. The following table outlines the share repurchase programs authorized by our board, and the related repurchase activity and available authorization as of December 28, 2025:

Effective date	Expiration date	Amount authorized	Cost of repurchases	Authorization available
March 2, 2022	December 31, 2024	\$ 600,000	\$ 480,715	\$ —
May 22, 2024	May 22, 2027	\$ 600,000	\$ 457,408	\$ —
August 13, 2025	N/A	\$ 1,000,000	\$ 163,995	\$ 836,005

The shares under our current repurchase program may be purchased on a discretionary basis from time to time through the applicable expiration date, subject to general business and market conditions and other investment opportunities, through open market purchases, privately negotiated transactions, or other means, including through Rule 10b5-1 trading plans. Our board’s authorization of the share repurchase program does not obligate us to acquire any particular amount of common stock, and the repurchase program may be commenced, suspended, or discontinued at any time.

Share repurchase activity under our repurchase programs for the periods indicated was as follows (total cost in thousands):

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
Number of common shares acquired	3,955,324	2,656,058	5,864,246
Average price per common share acquired	\$ 120.39	\$ 90.57	\$ 35.00
Total cost of common shares acquired	\$ 476,198	\$ 240,562	\$ 205,262

Shares purchased under our repurchase programs were subsequently retired and the excess of the repurchase price over par value was charged to retained earnings. The cost of common shares repurchased included the 1% excise tax imposed as part of the Inflation Reduction Act of 2022.

Subsequent to December 28, 2025 and through February 17, 2026, the Company repurchased an additional 1.3 million shares of common stock for \$100.0 million, excluding excise tax.

Factors Affecting Liquidity

We can currently borrow under our Credit Agreement up to an initial aggregate commitment of \$600.0 million, which may be increased from time to time pursuant to an expansion feature set forth in the Credit Agreement. The interest rate we pay on our borrowings increases as our net leverage ratio increases and may increase or decrease based upon the achievement of certain diversity and sustainability-linked metric thresholds.

The Credit Agreement contains financial, affirmative and negative covenants. The negative covenants include, among other things, limitations on our ability to:

- incur additional indebtedness;
- grant additional liens;
- enter into sale-leaseback transactions;
- make loans or investments;
- merge, consolidate or enter into acquisitions;
- pay dividends or distributions;
- enter into transactions with affiliates;
- enter into new lines of business;
- modify the terms of debt or other material agreements; and
- change our fiscal year.

Each of these covenants is subject to customary and other agreed-upon exceptions.

In addition, the Credit Agreement requires that we and our subsidiaries maintain a maximum total net leverage ratio not to exceed 3.75 to 1.00, which ratio may be increased from time to time in connection with certain permitted acquisitions pursuant to conditions as set forth in the Credit Agreement, and a minimum interest coverage ratio not to be less than 3.00 to 1.00. Each of these covenants is tested on the last day of each fiscal quarter, starting with the fiscal quarter ended March 30, 2025.

We were in compliance with all applicable covenants under the Credit Agreement as of December 28, 2025.

Our Credit Agreement is defined and more fully described in Note 12, "Long-Term Debt and Other Finance Obligations" to our consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K.

Contractual Obligations

Our principal contractual obligations and commitments consist of obligations under our Credit Agreement, interest on our Credit Agreement, operating and finance leases, purchase commitments and self-insurance liabilities. See Note 7, "Leases," Note 12, "Long-Term Debt and Other Finance Obligations," Note 14, "Self-Insurance Programs" and Note 17, "Commitments and Contingencies" to our consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K for more information on the nature and timing of these obligations.

The future amount and timing of interest payments are expected to vary with the outstanding amounts and then prevailing contractual interest rates. Interest and fee payments through the July 25, 2030 maturity date of our Credit Agreement based on the outstanding amounts as of December 28, 2025 and interest rates in effect at the time of this filing, are estimated to be approximately \$3.6 million. These payments are estimated to be approximately \$0.8 million in 2026 and approximately \$2.8 million thereafter.

Real estate obligations, consisting of legally binding minimum lease payments for leases executed but not yet commenced, were \$1,175.9 million as of December 28, 2025, including \$14.2 million in 2026 and \$1,161.7 million thereafter through 2048.

Our purchase commitments under noncancelable service and supply contracts that are enforceable and legally binding totaled \$41.0 million as of December 28, 2025, including \$21.1 million in 2026 and \$19.9 million thereafter through 2029. Obligations under contracts that we can cancel without a significant penalty are not included in purchase commitments.

We periodically make other commitments and become subject to other contractual obligations that we believe to be routine in nature and incidental to the operation of the business. Management believes that such routine commitments and contractual obligations do not have a material impact on our business, financial condition or results of operations.

Impact of Inflation and Deflation

Inflation and deflation in the prices of food and other products we sell may periodically affect our sales, gross profit and gross margin. Food inflation, when combined with reduced consumer spending, could also reduce sales, gross profit margins and comparable store sales. Inflationary pressures on compensation, utilities, commodities, equipment and supplies may also impact our profitability. Food deflation across multiple categories, particularly in produce, could reduce sales growth and earnings if our competitors react by lowering their retail pricing and expanding their promotional activities, which can lead to retail deflation higher than cost deflation that could reduce our sales, gross profit margins and comparable store sales. The short-term impact of inflation and deflation is largely dependent on whether or not the effects are passed through to our customers, which is subject to competitive market conditions.

Food inflation and deflation is affected by a variety of factors and our determination of whether to pass on the effects of inflation or deflation to our customers is made in conjunction with our overall pricing and marketing strategies, as well as our competitors' responses. Although we may experience periodic effects on sales, gross profit, gross margins and cash flows as a result of changing prices, we do not expect the effect of inflation or deflation to have a material impact on our ability to execute our long-term business strategy.

Critical Accounting Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with GAAP. These principles require us to make estimates and judgments that affect the reported amounts of assets, liabilities, sales and expenses, cash flow and related disclosure of contingent assets and liabilities. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates. To the extent that there are material differences between these estimates and our actual results, our future financial statements will be affected.

We believe that of our significant accounting policies, which are described in Note 3, "Significant Accounting Policies" to the consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K, the following accounting policies involve the most difficult, complex or subjective judgments: inventories, lease assumptions, self-insurance reserves, goodwill and intangible assets, impairment of long-lived assets, and income taxes. Accordingly, we believe these are the most critical to fully understand and evaluate our financial condition and results of operations.

Inventories

We value our inventory at the lower of cost or net realizable value. The significant estimate used in inventory valuation is the estimate of inventory shrinkage.

Shrink expense is accrued as a percentage of sales based on historical shrink trends. We perform physical inventories regularly, and our shrink accrual represents the loss estimate since the last physical inventory date through the reporting date. Actual physical inventory losses could vary significantly from our estimates due to changes in market conditions and other internal or external factors.

We believe that all inventories are sellable and no allowances or reserves for obsolescence were recorded as of December 28, 2025 and December 29, 2024.

Lease Assumptions

The most significant estimates used by management in accounting for leases and the impact of those estimates are as follows:

Expected lease term—Our expected lease term includes both contractual lease periods and option periods that are determined to be reasonably certain. The expected lease term is used in determining whether the lease is accounted for as an operating lease or a finance lease. An increase in the expected lease term will increase the probability that a lease will be considered a finance lease and will generally result in higher interest and depreciation expense for a leased property recorded on our balance sheets.

Incremental borrowing rate—The incremental borrowing rate is primarily used in determining whether the lease is accounted for as an operating lease or a finance lease. An increase in the incremental borrowing rate decreases the net present value of the minimum lease payments and reduces the probability that a lease will be considered a finance lease. For finance leases, the incremental borrowing rate is also used in allocating our rental payments between interest expense and a reduction of the outstanding obligation.

Fair market value of the leased asset—The fair market value of leased retail property is generally estimated based on comparable market data provided by third-party sources and evaluated using the experience of our development staff. Fair market value is used in determining whether the lease is accounted for as an operating lease or a finance lease.

Self-Insurance Reserves

We are self-insured for costs related to workers' compensation, general liability and employee health benefits up to certain self-insured retentions and stop-loss limits. As of December 28, 2025, the consolidated self-insurance reserve balance was \$57.0 million, of which a majority of the balance related to workers' compensation and general liability reserves. Liabilities for self-insurance reserves are estimated based on

independent actuarial estimates, which are based on historical information and assumptions about future events. We utilize various techniques, including analysis of historical trends and actuarial valuation methods, to estimate the cost to settle reported claims and claims incurred but not yet reported as of the balance sheet date. The actuarial valuation methods consider loss development factors, which include the development time frame and expected claim reporting and settlement patterns, and expected loss costs, which include the expected frequency and severity of claim activity. We believe our assumptions are reasonable, but the estimated reserves for these liabilities could be affected materially by future events or claims experiences that differ from historical trends and assumptions.

Goodwill and Intangible Assets

Goodwill represents the cost of acquired businesses in excess of the fair value of assets and liabilities acquired. Our indefinite-lived intangible assets consist of trade names related to “Sprouts Farmers Market,” liquor licenses and reacquired rights recognized in connection with the acquisition of Ronald Cohn, Inc. in fiscal 2023. See Note 24, “Business Combination” to our consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K for additional information regarding this acquisition.

Goodwill and indefinite-lived intangible assets are evaluated for impairment on an annual basis during the fourth fiscal quarter, or more frequently if events or changes in circumstances indicate that the asset might be impaired. Our impairment evaluation of goodwill consists of a qualitative assessment to determine if it is more likely than not that the fair value of the reporting unit is less than its carrying amount. If this qualitative assessment indicates it is more likely than not that the estimated fair value of the reporting unit exceeds its carrying value, no further analysis is required, and goodwill is not impaired. Our qualitative assessment considers factors including changes in the competitive market, budget-to-actual performance, trends in market capitalization for us and our peers, turnover in key management personnel and overall changes in the macroeconomic environment.

Our impairment evaluation for our indefinite-lived intangible assets consists of a qualitative assessment, similar to that for goodwill. If the qualitative assessment indicates it is more likely than not that the estimated fair value of an indefinite-lived intangible asset exceeds its carrying value, no further analysis is required, and the asset is not impaired.

If our qualitative assessments indicate that it is more likely than not that the estimated fair value is less than carrying value, we compare the estimated fair value of the reporting unit or asset to its carrying amount with an impairment loss recognized for the amount, if any, by which carrying value exceeds estimated fair value. There are significant judgments and estimates in determining the estimated fair value of the reporting unit or asset; it is therefore possible that materially different amounts could be recorded if we used different assumptions or if the underlying circumstances were to change.

As of December 28, 2025, our consolidated goodwill balance was \$381.8 million, and our consolidated indefinite-lived intangible assets balance was \$208.2 million. No impairment of goodwill or indefinite-lived intangible assets was recorded during fiscal 2025, 2024 and 2023 because our qualitative assessments indicated that it was more likely than not that the estimated fair values of the reporting unit and the indefinite-lived intangible assets exceeded their carrying value.

Impairment of Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable. This evaluation is performed at the lowest level of identifiable cash flows independent of other assets. An impairment loss would be recognized when estimated undiscounted future cash flows from the operation and/or disposition of the assets are less than their carrying amount. Measurement of an impairment loss would be based on the excess of the carrying amount of the asset group over its fair value. Fair value is measured using discounted cash flows or independent opinions of value, as appropriate. Our estimates of cash flows used to assess impairment involve significant judgment and are based upon assumptions on variables such as sales growth rate, gross margin, payroll and other controllable expenses. Application of alternative assumptions and definitions could produce significantly different results.

No impairment was recorded during fiscal 2025. We recorded an impairment loss of \$0.4 million and \$30.5 million in fiscal 2024 and 2023, respectively. See Note 3, “Significant Accounting Policies,” Note 6,

"Property and Equipment" and Note 23, "Store Closures" to our consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. We recognize the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. We record interest and penalties related to unrecognized tax benefits as part of income tax expense.

During the ordinary course of business, there are many transactions and calculations for which the ultimate tax settlement is uncertain. Under applicable accounting guidance, we are required to evaluate the realizability of our deferred tax assets. The realization of our deferred tax assets is dependent on future earnings. Applicable accounting guidance requires that a valuation allowance be recognized when, based on available evidence, it is more likely than not that all or a portion of deferred tax assets will not be realized due to the inability to generate sufficient taxable income in future periods. In circumstances where there is significant negative evidence, establishment of a valuation allowance must be considered. A pattern of sustained profitability is considered significant positive evidence when evaluating a decision to reverse a valuation allowance. Further, in those cases where a pattern of sustained profitability exists, projected future taxable income may also represent positive evidence, to the extent that such projections are determined to be reliable given the current economic environment. Accordingly, our assessment of our valuation allowances requires considerable judgment and could have a significant negative or positive impact on our current and future earnings.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Sensitivity

As described in Note 12, "Long-Term Debt and Other Finance Obligations" to our accompanying consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K, we have a Credit Agreement that bears interest at a rate based in part on SOFR. Accordingly, we could be exposed to fluctuations in interest rates. As of December 28, 2025, we had no outstanding borrowings under our Credit Agreement.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Sprouts Farmers Market, Inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of Sprouts Farmers Market, Inc. and its subsidiaries (the "Company") as of December 28, 2025 and December 29, 2024, and the related consolidated statements of income, of stockholders' equity and of cash flows for each of the three years in the period ended December 28, 2025, including the related notes (collectively referred to as the "consolidated financial statements"). We also have audited the Company's internal control over financial reporting as of December 28, 2025, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 28, 2025 and December 29, 2024, and the results of its operations and its cash flows for each of the three years in the period ended December 28, 2025 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 28, 2025, based on criteria established in Internal Control - Integrated Framework (2013) issued by the COSO.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Annual Report on Internal Control Over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Determination of Lease Classification

As described in Notes 3, 7 and 12 to the consolidated financial statements, the Company leases its stores, distribution centers and administrative offices. Operating leases are included in operating lease assets, current portion of operating lease liabilities, and noncurrent portion of operating lease liabilities and were \$1,653 million, \$177 million, and \$1,682 million, respectively, as of December 28, 2025. Finance leases are included in property, plant, equipment, net, current portion of finance lease liabilities, long-term debt and other finance obligations were \$11 million, \$2 million, \$12 million, and \$69 million, respectively, as of December 28, 2025. The Company's lease assets represent a right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. As disclosed by management, significant lease assumptions used by management in determining whether the lease is accounted for as an operating lease or a finance lease include the expected lease term, the incremental borrowing rate, and the fair market value of the leased asset.

The principal considerations for our determination that performing procedures relating to lease classification is a critical audit matter are (i) the significant judgment by management when determining the classification of leases and (ii) a high degree of auditor judgment, subjectivity, and effort in performing procedures related to the expected lease term and incremental borrowing rate used by management in its determination of the lease classification.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to management's assessment of the classification of leases, including controls over the determination of expected lease term and incremental borrowing rates. These procedures also included, among others, for a sample of leases (i) reading source documents, such as lease agreements; (ii) testing the completeness and accuracy of underlying data used in management's lease classification assessment; and (iii) evaluating the reasonableness of significant assumptions used by management related to expected lease term and incremental borrowing rate. Evaluating management's assumptions involved evaluating whether the assumptions used by management were reasonable by considering (i) the current and past experience of the Company; (ii) whether the assumptions were consistent with evidence obtained in other areas of the audit; and (iii) for the incremental borrowing rate, the consistency with external market data.

/s/ PricewaterhouseCoopers LLP

Phoenix, Arizona
February 19, 2026

We have served as the Company's auditor since 2011.

SPROUTS FARMERS MARKET, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Description of Business

Sprouts Farmers Market, Inc., a Delaware corporation, through its subsidiaries, offers a unique specialty grocery experience featuring an open layout with fresh produce at the heart of the store. The Company continues to bring the latest in wholesome, innovative products made with lifestyle-friendly ingredients such as organic, plant-based and gluten-free. As of December 28, 2025, the Company operated 477 stores in 24 states. For convenience, the “Company” is used to refer collectively to Sprouts Farmers Market, Inc. and, unless the context requires otherwise, its subsidiaries. The Company’s store operations are conducted by its subsidiaries.

2. Basis of Presentation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries in accordance with accounting principles generally accepted in the United States of America (“GAAP”). All intercompany accounts and transactions have been eliminated in consolidation.

The Company has one operating segment, and therefore, one reportable segment: healthy grocery stores.

The Company categorizes the varieties of products it sells as perishable and non-perishable. Perishable product categories include produce, meat and meat alternatives, seafood, deli, bakery, floral and dairy and dairy alternatives. Non-perishable product categories include grocery, vitamins and supplements, bulk items, frozen foods, beer and wine, and natural health and body care.

The following is a breakdown of the Company’s perishable and non-perishable sales mix:

	<u>2025</u>	<u>2024</u>	<u>2023</u>
Perishables	57.0%	57.3%	57.3%
Non-Perishables	43.0%	42.7%	42.7%

All dollar amounts are in thousands, unless otherwise indicated.

3. Significant Accounting Policies

Fiscal Years

The Company reports its results of operations on a 52- or 53-week fiscal calendar ending on the Sunday closest to December 31. Fiscal year 2025 ended on December 28, 2025 and included 52 weeks. Fiscal year 2024 ended on December 29, 2024 and included 52 weeks. Fiscal year 2023 ended on December 31, 2023 and included 52 weeks. Fiscal years 2025, 2024 and 2023 are referred to as 2025, 2024 and 2023, respectively.

Significant Accounting Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions. Such estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company’s critical accounting estimates include inventories, lease assumptions, self-insurance reserves, goodwill and intangible assets, impairment of long-lived assets, and income taxes. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid instruments with an original maturity of three months or less to be cash equivalents. The Company's cash and cash equivalents are maintained at financial institutions in the United States of America. Deposits in transit include sales through the end of the period, the majority of which were paid with credit and debit cards and settle within a few days of the sales transactions. The amounts due from banks for these transactions at each reporting date were as follows:

	As Of	
	December 28, 2025	December 29, 2024
Due from banks for debit and credit card transactions	\$ 107,630	\$ 80,409

Restricted Cash

Restricted cash primarily relates to the Company's healthcare, general liability and workers' compensation plan benefits of approximately \$3.6 million and \$2.1 million as of December 28, 2025 and December 29, 2024, respectively. These balances are included in prepaid expenses and other current assets in the accompanying consolidated balance sheets.

Accounts Receivable

Accounts receivable primarily represents billings to vendors for scan, advertising and other rebates, receivables from ecommerce sales, billings to landlords for tenant allowances, manufacturer coupons and other miscellaneous receivables. Accounts receivable also includes receivables from the Company's insurance carrier for payments expected to be made in excess of self-insured retentions. The Company provides an allowance for doubtful accounts when a specific account is determined to be uncollectible.

Inventories

Inventories consist of merchandise purchased for resale, which are stated at the lower of cost or net realizable value. The cost method is used for distribution center and store perishable department inventories by assigning costs to each of these items based on a first-in, first-out (FIFO) basis (net of vendor discounts).

The Company's non-perishable inventory is valued at the lower of cost or net realizable value using weighted averaging, the use of which approximates the FIFO method.

Inventories are reduced for estimated losses related to shrinkage. The Company believes that all inventories are saleable and no allowances or reserves for obsolescence were recorded as of December 28, 2025 and December 29, 2024.

Property and Equipment

Property and equipment are stated at cost, net of accumulated depreciation and amortization. Expenditures for major additions and improvements to facilities as well as significant component replacements are capitalized. All other maintenance and repairs are charged to expense as incurred. When property is retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in the consolidated statements of income. Depreciation expense, which includes the amortization of assets recorded as finance leases, is computed using the straight-line method over the estimated useful lives of the individual assets. Terms of leases used in the determination of estimated useful lives may include renewal options if the exercise of the renewal option is determined to be reasonably certain.

The following table includes the estimated useful lives of certain of the Company's asset classes:

Computer hardware and software	3 to 5 years
Furniture, fixtures and equipment	3 to 20 years
Leasehold improvements	up to 15 years
Buildings	40 years

Store development costs, which include costs associated with the selection and procurement of real estate sites, are also included in property and equipment. These costs are included in leasehold improvements and are amortized over the remaining lease term of the successful sites with which they are associated.

Self-Insurance Reserves

The Company uses a combination of insurance and self-insurance programs to provide for costs associated with general liability, workers' compensation and team member health benefits. Liabilities for self-insurance reserves are estimated based on independent actuarial estimates, which are based on historical information and assumptions about future events. The Company utilizes various techniques, including analysis of historical trends and actuarial valuation methods, to estimate the cost to settle reported claims and claims incurred but not yet reported as of the balance sheet date. The actuarial valuation methods consider loss development factors, which include the development time frame and expected claim reporting and settlement patterns, and expected loss costs, which include the expected frequency and severity of claim activity. Amounts expected to be recovered from insurance companies are included in the liability, with a corresponding amount recorded in accounts receivable.

Goodwill and Intangible Assets

Goodwill represents the cost of acquired businesses in excess of the fair value of assets and liabilities acquired. The Company's indefinite-lived intangible assets consist of trade names related to "Sprouts Farmers Market," liquor licenses and reacquired rights recognized in connection with the acquisition of Ronald Cohn, Inc. in 2023. See Note 24, "Business Combination" for more information on this acquisition.

Goodwill and indefinite-lived intangible assets are evaluated for impairment on an annual basis during the fourth fiscal quarter, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The Company's impairment evaluation of goodwill consists of a qualitative assessment to determine if it is more likely than not that the fair value of the reporting unit is less than its carrying amount. The Company's qualitative assessment considered factors including changes in the competitive market, budget-to-actual performance, trends in market capitalization for the Company and its peers, turnover in key management personnel and overall changes in the macroeconomic environment. If this qualitative assessment indicates it is more likely than not that the estimated fair value of the reporting unit exceeds its carrying value, no further analysis is required, and goodwill is not impaired. Otherwise, the Company compares the estimated fair value of the reporting unit to its carrying amount with an impairment loss recognized for the amount, if any, by which carrying value exceeds estimated fair value.

The impairment evaluation for the Company's indefinite-lived intangible assets consists of a qualitative assessment, similar to that for goodwill. If the qualitative assessment indicates it is more likely than not that the estimated fair value exceeds its carrying value, no further analysis is required, and the asset is not impaired. Otherwise, the Company compares the estimated fair value of the asset to its carrying amount with an impairment loss recognized for the amount, if any, by which carrying value exceeds estimated fair value.

The Company has determined its business consists of a single reporting unit. The Company has had no goodwill or indefinite-lived intangible asset impairment charges for the past three fiscal years. See Note 8, "Intangible Assets" and Note 9, "Goodwill" for further discussion.

Impairment of Long-Lived Assets

The Company assesses its long-lived assets, including property and equipment and right-of-use assets, for potential impairment whenever events or changes in circumstances indicate that the carrying amount of an

asset group may not be recoverable. These events primarily include current period losses combined with a history of losses or a projection of continuing losses, a significant decrease in the market value of an asset or a decision to close or relocate a store. The Company groups and evaluates long-lived assets for impairment at the individual store level, which is the lowest level at which independent identifiable cash flows are available. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the asset group to the future undiscounted cash flows expected to be generated by that asset group. The Company's impairment analysis contains management assumptions about key variables including sales growth rate, gross margin, payroll and other controllable expenses.

If impairment is indicated, a loss is recognized for any excess of the carrying value over the estimated fair value of the asset group. The fair value of the asset group is estimated based on the discounted future cash flows using a discount rate commensurate with the related risk or comparable market values, if available. No impairment was recorded during fiscal 2025. The Company recorded an impairment loss of \$0.4 million in 2024, as part of the normal course of business primarily related to the write-down of right-of-use assets and leasehold improvements. The Company recorded an impairment loss of \$30.5 million in 2023 of which \$27.8 million was in connection with the decision to close certain underperforming stores (see Note 23, "Store Closures") and \$2.7 million was in the normal course of business primarily related to the write-down of right-of-use assets and leasehold improvements. These charges are recorded as a component of Store closure and other costs, net in the accompanying consolidated statements of income.

Deferred Financing Costs

The Company capitalizes certain fees and costs incurred in connection with the issuance of debt. Deferred financing costs are amortized to interest expense over the term of the debt using the effective interest method. For the Credit Agreement and Former Credit Facility (as defined in Note 12, "Long-Term Debt and Other Finance Obligations"), deferred financing costs are amortized on a straight-line basis over the term of the facility. Upon prepayment, redemption or conversion of debt, the Company accelerates the recognition of an appropriate amount of financing costs as loss on extinguishment of debt. The current and noncurrent portions of deferred financing costs are included in prepaid expenses and other current assets and other assets, respectively, in the accompanying consolidated balance sheets.

Leases

The Company leases its stores, distribution centers, and administrative offices. The Company determines if an arrangement is a lease at inception. Operating leases are included in operating lease assets, current portion of operating lease liabilities and noncurrent portion of operating lease liabilities in the accompanying consolidated balance sheets. Finance leases are included in property, plant, equipment, net, current portion of finance lease liabilities, and long-term debt and other finance obligations in the accompanying consolidated balance sheets. Operating lease payments are charged on a straight-line basis to rent expense, a component of selling, general and administrative expenses, over the lease term and finance lease payments are charged to interest expense and depreciation and amortization expense using a debt model over the lease term.

The Company's lease assets represent a right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. Lease assets and liabilities and the related rent expense are recognized at the lease commencement date (date on which the Company gains access to the property) based on the estimated present value of lease payments over the lease term, net of landlord allowances expected to be received. The Company accounts for the lease and non-lease components as a single lease component for all current classes of leases.

Most of the Company's lease agreements include variable payments related to pass-through costs for common area maintenance ("CAM"), property taxes, and insurance. Additionally, some of the Company's lease agreements include rental payments based on a percentage of retail sales over contractual levels. These variable payments are not included in the measurement of the lease liability or asset and are expensed as incurred.

As most of the Company's lease agreements do not provide an implicit rate, the Company uses an estimated incremental borrowing rate, which is derived from third-party information available at the lease

commencement date, in determining the present value of lease payments. The rate used is for a secured borrowing of a similar term as the lease.

Most leases include one or more options to renew, with renewal terms that can extend the lease term from one to twenty years or more. The exercise of lease renewal options is at the Company's sole discretion. The lease term includes the initial contractual term as well as any options to extend the lease when it is reasonably certain that the Company will exercise that option. Leases with a term of 12 months or less ("short-term leases") are not recorded on the balance sheet. The Company does not currently have any material short-term leases. Additionally, the Company's lease agreements do not contain any residual value guarantees or material restrictive covenants.

The Company subleases certain real estate to third parties, which have all been classified as operating leases. The Company recognizes sublease income on a straight-line basis.

Financing Lease Obligations

The Company has recorded a financing lease obligation for an office building lease. Based on certain criteria and the existence of a purchase option, the Company has been determined to be the owner during the construction period under ASC 842. Further, there is no evidence of an accounting sale to the landlord upon construction completion, which precludes sale-leaseback accounting. As a result, the building assets and corresponding financial obligation will remain on the Company's balance sheet and will be amortized over the life of the underlying building asset.

Monthly lease payments are allocated between the land component of the lease (which is accounted for as an finance lease) and the financing obligation. The financing obligation is amortized using the effective interest method and the interest rate is determined in accordance with the requirements of sale-leaseback accounting. Lease payments less the portion allocated to the land element of the lease and that portion considered to be interest expense decrease the financing liability. Additionally, this lease includes a residual value guarantee and purchase option. The final amount of the guarantee is to be determined based upon final construction costs. At the end of the initial lease term, should the Company decide not to renew the lease or exercise the purchase option, the net book value of the asset and the corresponding financing obligation would be reversed.

The outflows associated with the financing obligation principal payments will be classified as financing activities in the consolidated statements of cash flows upon rent commencement.

Fair Value Measurements

The Company records its financial assets and liabilities in accordance with the framework for measuring fair value in accordance with ASC 820. This framework establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value:

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3: Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Fair value measurements of nonfinancial assets and nonfinancial liabilities are primarily used in the impairment analysis of goodwill, intangible assets, and long-lived assets. Impairment losses related to store-level assets are calculated using significant unobservable inputs including the present value of future cash flows expected to be generated using a risk-adjusted market based weighted-average cost of capital, comparable store sales growth assumptions, and third party property appraisal data. Therefore, these inputs are classified as a level 3 measurement in the fair value hierarchy.

Derivative Financial Instruments

The Company records derivatives at fair value. The designation of a derivative instrument as a hedge and its ability to meet the hedge accounting criteria determine how the Company reflects the change in fair value of the derivative instrument in its financial statements. A derivative qualifies for hedge accounting if, at inception, the derivative is expected to be highly effective in offsetting the underlying hedged cash flows, and the Company fulfills the hedge documentation standards at the time it enters into the derivative contract. The Company designates its hedge based on the exposure it is hedging. For qualifying cash flow hedges, the Company records changes in fair value in other comprehensive income ("OCI"). The Company releases the derivative's gain or loss from OCI to match the timing of the underlying hedged item's effect on earnings.

The Company reviews the effectiveness of its hedging instruments quarterly. The Company recognizes changes in the fair value for derivatives not designated as hedges or those not qualifying for hedge accounting in current period earnings. The Company discontinues hedge accounting for any hedge that is no longer evaluated to be highly effective.

The Company does not enter into derivative financial instruments for trading or speculative purposes, and it monitors the financial stability and credit standing of its counterparties in these transactions. The Company had no active derivative financial instruments as of December 28, 2025 or December 29, 2024.

Share-Based Compensation

The Company measures share-based compensation cost at the grant date based on the fair value of the award and recognizes share-based compensation cost as expense over the vesting period. As share-based compensation expense recognized in the consolidated statements of income is based on awards ultimately expected to vest, the amount of expense has been reduced for actual forfeitures as they occur. The Company uses the Black-Scholes option-pricing model to determine the grant date fair value for each option grant. See Note 22, "Share-Based Compensation" for a discussion of assumptions used in the calculation of fair values. Application of alternative assumptions could produce different estimates of the fair value of share-based compensation and, consequently, the related amounts recognized in the accompanying consolidated statements of income. The grant date fair value of restricted stock units ("RSUs") and performance share awards ("PSAs") is based on the closing price per share of the Company's common stock on the grant date. The Company recognizes compensation expense for time-based awards on a straight-line basis and for performance-based awards on the graded-vesting method over the vesting period of the awards.

Revenue Recognition

The Company's performance obligations are satisfied upon the transfer of goods to the customer, which occurs at the point of sale, and payment from customers is also due at the time of sale. Proceeds from the sale of gift cards are recorded as a liability at the time of sale and recognized as sales when they are redeemed by the customer and the performance obligation is satisfied by the Company. The Company's gift cards do not expire. Based on historical redemption rates, a small and relatively stable percentage of gift cards will never be redeemed, referred to as "breakage." Estimated breakage revenue is recognized over time in proportion to actual gift card redemptions and was not material in any period presented. The outstanding gift card liability balance is included within accrued liabilities in the accompanying consolidated balance sheets.

Beginning in July 2025, the Company implemented a customer loyalty program under which customers earn points on qualifying purchases. Points may be redeemed in future periods for rewards to be used for discounts on the Company's products. The loyalty points represent a material right to the customer and are accounted for as a separate performance obligation. At the time of purchase, the Company allocates a portion of the transaction price to a deferred loyalty liability based on their estimated standalone selling price, net of estimated breakage. Revenue allocated to the points is deferred and recognized when the points are redeemed or expire. Points expire approximately 6 months after issuance, and points that have been converted to rewards expire 60 days following conversion. The outstanding liability balance at period end, which the Company classifies as a current liability due to the short expiration period, is included within accrued liabilities in the accompanying consolidated balance sheets.

A summary of the activity and balances in the gift card and loyalty program liabilities is as follows:

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
Beginning Balance	\$ 11,071	\$ 10,566	\$ 10,906
Gift cards issued during the period but not redeemed ⁽¹⁾	5,296	4,727	4,271
Loyalty value deferred during the period, net of amount redeemed or expired ⁽¹⁾	9,093	—	—
Revenue recognized from beginning liability	(4,361)	(4,222)	(4,611)
Ending Balance	\$ 21,099	\$ 11,071	\$ 10,566

⁽¹⁾ net of estimated breakage

The nature of goods the Company transfers to customers at the point of sale are inventories, consisting of merchandise purchased for resale.

The Company does not have any material contract assets or receivables from contracts with customers, any revenue recognized in the current period from performance obligations satisfied in previous periods, any contract performance obligations, or any material costs to obtain or fulfill a contract as of December 28, 2025.

Cost of Sales

Cost of sales includes the cost of inventory sold during the period, including the direct costs of purchased merchandise (net of discounts and allowances), distribution and supply chain costs, and depreciation and amortization for distribution centers and supply chain related assets. The Company recognizes vendor allowances and merchandise volume related rebate allowances as a reduction of inventories during the period when earned and reflects the allowances as a component of cost of sales as the inventory is sold.

The Company's largest supplier accounted for approximately 52%, 50% and 47% of total purchases during 2025, 2024 and 2023, respectively.

Selling, General and Administrative Expenses

Selling, general and administrative expenses primarily consist of salaries, wages and benefits costs, share-based compensation, occupancy costs (including rent, property taxes, utilities, CAM and insurance), advertising costs, buying costs, pre-opening and other administrative costs.

The Company charges certain vendors to place advertisements in the Company's in-store guide and circulars under a cooperative advertising program. The Company records rebates received from vendors in connection with cooperative advertising programs as a reduction to advertising costs when the allowance represents a reimbursement of a specific incremental and identifiable cost. Advertising costs are expensed as incurred. Advertising expense, net of rebates, was \$52.5 million, \$46.8 million and \$45.8 million for 2025, 2024 and 2023, respectively.

Depreciation and amortization

Depreciation and amortization expense (exclusive of depreciation included in cost of sales) primarily consists of depreciation and amortization for buildings, store leasehold improvements, and equipment.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company's deferred tax assets are subject to periodic recoverability

assessments. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount that more likely than not will be realized. Realization of the deferred tax assets is principally dependent upon achievement of projected future taxable income offset by deferred tax liabilities. Changes in recognition or measurement are reflected in the period in which the judgment occurs.

The Company files income tax returns for federal purposes and in many states. The Company's tax filings remain subject to examination by applicable tax authorities for a certain length of time, generally three years, following the tax year to which those filings relate.

The Company recognizes the effect of uncertain income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. The Company records interest and penalties related to unrecognized tax benefits as part of income tax expense.

Share Repurchases

The Company has elected to retire shares repurchased to date. Shares retired become part of the pool of authorized but unissued shares. The Company has elected to record the purchase price of the retired shares in excess of par value directly as a reduction of retained earnings. The cost of common shares repurchased includes a 1% excise tax imposed as part of the Inflation Reduction Act of 2022.

Net Income per Share

Basic net income per share is calculated by dividing net income by the weighted average number of shares outstanding during the fiscal period.

Diluted net income per share is based on the weighted average number of shares outstanding, plus, where applicable, shares that would have been outstanding related to dilutive options, PSAs and RSUs.

Comprehensive Income

Comprehensive income consists of net income and the unrealized gains or losses on derivative instruments that qualify for and have been designated as cash flow hedges. The Company had no other comprehensive income for the past three fiscal years.

Recently Adopted Accounting Pronouncements

Income Taxes – Improvements to Income Tax Disclosures

In December 2023, the FASB issued ASU no. 2023-09, "Income Taxes (Topic 740) Improvements to Income Tax Disclosures." The amendments in this update enhanced a public entity's annual income tax disclosures primarily related to the rate reconciliation and income taxes paid information. The Company has prospectively adopted this standard effective December 28, 2025 and accordingly updated its income tax disclosures but there was no impact on the Company's results of operations, cash flows or financial condition.

Recently Issued Accounting Pronouncements Not Yet Adopted

Disaggregation of Income Statement Expenses

In November 2024, the FASB issued ASU no. 2024-03, "Income Statement-Reporting Comprehensive Income-Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses". The standard requires public entities to disclose additional disaggregation of expense in the notes to the financial statements for interim and annual reporting periods. The guidance is effective for the Company for its fiscal year 2027. Early adoption is permitted, and the guidance should be applied prospectively, with an option to apply it retrospectively. The Company is currently evaluating the potential impact of this ASU on its consolidated financial statements and disclosures.

Intangibles—Goodwill and Other—Internal-Use Software

In September 2025, the FASB issued ASU no. 2025-06, "Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40)". The standard clarifies and modernizes the accounting for costs related to the internal-use software in Accounting Standards Codification (ASC) 350-40. The guidance removes all references to project stages throughout ASC 350-40 and clarifies the threshold entities apply to begin capitalizing costs. The guidance is effective for the Company for its fiscal year 2028. Early adoption is permitted, as of the beginning of an annual reporting period. The Company is currently evaluating the potential impact of this ASU on its consolidated financial statements and disclosures.

Interim Reporting (Topic 270) - Narrow Scope Improvements

In December 2025, the FASB issued ASU no. 2025-11, "Interim Reporting (Topic 270) - Narrow Scope Improvements". The standard clarifies the interim reporting requirements by improving navigability of Topic 270 and more clearly specifying what disclosures are required in an interim reporting period. It is not intended to significantly change interim reporting or expand or reduce interim disclosure requirements. The guidance is effective for the Company for its interim reporting period beginning in fiscal year 2028. Early adoption is permitted, and the guidance can be applied either prospectively or retrospectively to any or all prior periods presented in the financial statements. The Company is currently evaluating the potential impact of this ASU on its consolidated financial statements and disclosures.

No other new accounting pronouncements issued or effective during 2025 had, or are expected to have, a material impact on the Company's consolidated financial statements.

4. Accounts Receivable

A summary of accounts receivable is as follows:

	As Of	
	December 28, 2025	December 29, 2024
Landlords	\$ 3,332	\$ 5,577
Vendors	36,708	3,814
Insurance	3,651	2,913
Ecommerce	11,027	9,993
Other	10,503	8,604
Total	<u>\$ 65,221</u>	<u>\$ 30,901</u>

The Company recorded allowances for certain vendor receivables of \$7.5 million and \$1.3 million at December 28, 2025 and December 29, 2024, respectively.

5. Prepaid Expenses and Other Current Assets

A summary of prepaid expenses and other current assets is as follows:

	As Of	
	December 28, 2025	December 29, 2024
Prepaid expenses	\$ 24,938	\$ 24,469
Restricted cash	3,612	2,054
Income tax receivable	31,221	8,839
Other current assets	535	769
Total	<u>\$ 60,306</u>	<u>\$ 36,131</u>

6. Property and Equipment

A summary of property and equipment, net is as follows:

	As Of	
	December 28, 2025	December 29, 2024
Land and finance lease assets	\$ 23,146	\$ 16,859
Furniture, fixtures and equipment	1,303,376	1,129,303
Leasehold improvements	889,893	831,020
Construction in progress	174,467	79,994
Total property and equipment	2,390,882	2,057,176
Accumulated depreciation and amortization	(1,305,526)	(1,161,987)
Property and equipment, net	\$ 1,085,356	\$ 895,189

Depreciation expense was \$156.7 million, \$139.2 million and \$136.6 million for 2025, 2024 and 2023, respectively. Depreciation expense is primarily reflected in Depreciation and amortization on the consolidated statements of income.

No impairment was recorded in 2025. Impairment expense was \$0.4 million and \$30.5 million for 2024 and 2023, respectively. Impairment expense is reflected in Store closure and other costs, net on the consolidated statements of income.

7. Leases

Lease cost includes both the fixed and variable expenses recorded for leases. The components of lease cost are as follows:

	Classification	Year Ended		
		December 28, 2025	December 29, 2024	December 31, 2023
Operating lease cost:				
Open locations	Selling, general and administrative expenses ⁽¹⁾	\$ 270,171	\$ 247,312	\$ 232,745
Closed locations	Store closure and other costs, net	1,111	7,122	4,029
Finance lease cost:				
Amortization of Property and Equipment	Depreciation and amortization	1,499	1,128	1,062
Interest on lease liabilities	Interest expense	943	747	816
Variable lease cost:				
Open locations	Selling, general and administrative expenses ⁽¹⁾	81,898	75,646	70,197
Closed locations	Store closure and other costs, net	775	2,138	2,302
Sublease income:				
Open locations	Selling, general and administrative expenses	(586)	(831)	(832)
Closed locations	Store closure and other costs, net	(241)	(71)	—
Total net lease cost		\$ 355,570	\$ 333,191	\$ 310,319

- (1) Supply chain-related amounts of \$20.8 million, \$20.3 million and \$18.2 million were included in cost of sales for 2025, 2024 and 2023, respectively.

Supplemental balance sheet information related to leases is as follows:

		Classification	As Of	
			December 28, 2025	December 29, 2024
Assets				
Operating	Operating lease assets		\$ 1,652,732	\$ 1,466,903
Finance	Property and equipment, net		10,680	6,161
Total lease assets			<u>\$ 1,663,412</u>	<u>\$ 1,473,064</u>
Liabilities				
Current:				
Operating	Current portion of operating lease liabilities		\$ 177,263	\$ 150,400
Finance	Current portion of finance lease liabilities		1,653	1,321
Noncurrent:				
Operating	Long-term operating lease liabilities		1,682,425	1,520,272
Finance	Long-term debt and other finance obligations		12,165	7,248
Total lease liabilities			<u>\$ 1,873,506</u>	<u>\$ 1,679,241</u>

	2025	2024	2023
Weighted average remaining lease term (years):			
Operating leases	10.3	10.1	10.0
Finance leases	7.6	5.8	6.7
Weighted average discount rate:			
Operating leases	7.0 %	7.0 %	7.2 %
Finance leases	7.6 %	8.4 %	8.3 %

Supplemental cash flow and other information related to leases is as follows:

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
Cash paid for amounts included in measurement of lease liabilities:			
Operating cash flows for operating leases	\$ 259,976	\$ 249,862	\$ 228,411
Operating cash flows for finance leases	943	747	816
Lease assets obtained in exchange for lease liabilities:			
Finance leases	\$ 6,266	\$ —	\$ 809
Operating leases	332,427	278,230	364,997

A summary of maturities of lease liabilities is as follows:

	Operating Leases ^{(1), (2)}	Finance Leases	Total
2026	\$ 286,062	\$ 2,253	\$ 288,315
2027	285,295	2,875	288,170
2028	251,238	2,634	253,872
2029	261,792	2,175	263,967
2030	263,586	1,832	265,418
Thereafter	1,302,788	6,817	1,309,605
Total lease payments	2,650,761	18,586	2,669,347
Less: Imputed interest	(791,073)	(4,768)	(795,841)
Total lease liabilities	1,859,688	13,818	1,873,506
Less: Current portion	(177,263)	(1,653)	(178,916)
Long-term lease liabilities	\$ 1,682,425	\$ 12,165	\$ 1,694,590

- (1) Operating lease payments include \$94.6 million related to periods covered by options to extend lease terms that are reasonably certain of being exercised and exclude \$1,175.9 million of legally binding minimum lease payments for leases executed but not yet commenced.
- (2) These amounts include rental income related to subtenant agreements under which we will receive \$1.1 million in 2026, \$1.2 million in 2027, \$0.9 million in 2028, \$0.8 million in 2029, \$0.6 million in 2030 and \$0.2 million thereafter.

8. Intangible Assets

A summary of the activity and balances in intangible assets is as follows:

	Balance at December 31, 2023	Additions/Adjustments	Balance at December 29, 2024
Indefinite-lived trade names	\$ 182,937	\$ —	\$ 182,937
Indefinite-lived reacquired rights	23,100	—	23,100
Indefinite-lived liquor licenses	2,023	34	2,057
Total intangible assets	\$ 208,060	\$ 34	\$ 208,094

	Balance at December 29, 2024	Additions/Adjustments	Balance at December 28, 2025
Indefinite-lived trade names	\$ 182,937	\$ —	\$ 182,937
Indefinite-lived reacquired rights	23,100	—	23,100
Indefinite-lived liquor licenses	2,057	121	2,178
Total intangible assets	\$ 208,094	\$ 121	\$ 208,215

There was no amortization expense in 2025, 2024 and 2023.

9. Goodwill

The Company's goodwill balance was \$381.8 million as of December 28, 2025 and December 29, 2024. As of December 28, 2025 and December 29, 2024, the Company had no accumulated goodwill impairment losses. The goodwill was related to the acquisitions of Henry's Farmers Market and Sunflower Farmers Market in 2011 and 2012, respectively, and the acquisition of Ronald Cohn, Inc. in 2023. For further details, see Note 24, "Business Combination."

10. Accrued Liabilities

A summary of accrued liabilities is as follows:

	As Of	
	December 28, 2025	December 29, 2024
Accrued transferable federal tax credit	\$ 60,244	\$ —
Self-insurance reserves	31,555	28,927
Accrued occupancy related (CAM, property taxes, etc.)	26,556	25,971
Gift card and loyalty program liabilities, net of breakage	21,099	11,071
Accrued sales, use and excise tax	19,508	16,550
Other accrued liabilities	145,457	134,323
Total	<u>\$ 304,419</u>	<u>\$ 216,842</u>

11. Accrued Salaries and Benefits

A summary of accrued salaries and benefits is as follows:

	As Of	
	December 28, 2025	December 29, 2024
Bonuses	\$ 46,467	\$ 52,454
Payroll	25,686	23,205
Vacation	22,082	20,061
Severance and other	1,782	2,271
Total	<u>\$ 96,017</u>	<u>\$ 97,991</u>

12. Long-Term Debt and Other Finance Obligations

A summary of long-term debt and other finance obligations is as follows:

Facility	Maturity	Interest Rate	As Of	
			December 28, 2025	December 29, 2024
Senior secured debt

Long-term debt and finance lease liabilities			<u>\$ 81,585</u>	<u>\$ 7,248</u>

⁽¹⁾ The Former Credit Facility was replaced by the \$600.0 million Credit Agreement as discussed below.

New Credit Agreement

The Company's subsidiary, Sprouts Farmers Markets Holdings, LLC ("Intermediate Holdings"), is the borrower under a credit agreement entered into on July 25, 2025 (the "Credit Agreement"). The Credit Agreement provides for a revolving credit facility (the "Revolving Credit Facility") with an initial aggregate commitment of \$600.0 million. Amounts outstanding under the Credit Agreement may be increased from time to time in accordance with an expansion feature set forth in the Credit Agreement.

The Company capitalized debt issuance costs of \$1.6 million related to the Credit Agreement, which, combined with the remaining \$1.1 million debt issuance costs in respect of that certain amended and restated credit agreement entered into on March 25, 2022 (the "Former Credit Facility"), by and among the Company, Intermediate Holdings, certain lenders party thereto and JPMorgan Chase Bank, N.A., as administrative agent and collateral agent, which remained outstanding as of the time of Intermediate Holdings' entry into the Credit Agreement, are being amortized on a straight-line basis to interest expense over the five-year term of the Credit Agreement.

The Credit Agreement provides for a \$100.0 million letter of credit sub-facility (the "Letter of Credit Sub-Facility") and a \$50.0 million swingline facility. Letters of credit issued under the Credit Agreement reduce the capacity of Intermediate Holdings to borrow under the Revolving Credit Facility. Letters of credit totaling \$23.1 million have been issued as of December 28, 2025 under the Letter of Credit Sub-Facility, primarily to support the Company's insurance programs.

Guarantees

Obligations under the Credit Agreement are guaranteed by the Company and substantially all of its existing and future wholly-owned material domestic subsidiaries, and are secured by first-priority security interests in substantially all of the assets of the Company, Intermediate Holdings, and the subsidiary guarantors, including, without limitation, a pledge by the Company of its equity interest in Intermediate Holdings.

Interest and Fees

Loans under the Credit Agreement will initially bear interest, at the Company's option, either at the Term SOFR (with a floor of 0.00%) plus a 1.00% per annum or alternate base rate (with a floor of 0.00%) plus 0.00% per annum. The interest rate margins are subject to upward adjustments pursuant to a pricing grid based on the Company's total net leverage ratio as set forth in the Credit Agreement and to upward or downward adjustments of up to 0.05% based upon the achievement of certain sustainability-linked metric thresholds, as set forth in the Credit Agreement.

Under the terms of the Credit Agreement, the Company is obligated to pay a commitment fee on the available unused amount of the commitments, which commitment fee ranges between 0.09% to 0.225% per annum, pursuant to a pricing grid based on the Company's total net leverage ratio. The commitment fees are subject to upward or downward adjustments of up to 0.01% based upon the achievement of certain sustainability-linked metric thresholds, as set forth in the Credit Agreement.

As of December 28, 2025, loans outstanding under the Credit Agreement bore interest at Term SOFR (as defined in the Credit Agreement) plus 1.00% per annum. The Company had no loans outstanding under the Credit Agreement as of December 28, 2025.

As of December 28, 2025, outstanding letters of credit issued under the Credit Agreement were subject to a participation fee of 1.00% per annum and a fronting fee of 0.125% per annum.

Payments and Borrowings

The Credit Agreement is scheduled to mature, and the commitments thereunder will terminate on July 25, 2030, subject to extensions as set forth therein.

The Company may prepay loans and permanently reduce commitments under the Credit Agreement at any time in agreed-upon minimum principal amounts, without premium or penalty (except SOFR breakage costs, if applicable).

During 2025, the Company made no borrowings and had no outstanding debt under the Credit Agreement or the Former Credit Facility as of December 28, 2025. During 2024, the Company made no additional borrowings and principal payments of \$125.0 million, resulting in no outstanding debt under the Former Credit Facility as of December 29, 2024.

Covenants

The Credit Agreement contains financial, affirmative and negative covenants. The negative covenants include, among other things, limitations on the Company's ability to:

- incur additional indebtedness;

- grant additional liens;
- enter into sale-leaseback transactions;
- make loans or investments;
- merge, consolidate or enter into acquisitions;
- pay dividends or distributions;
- enter into transactions with affiliates;
- enter into new lines of business;
- modify the terms of debt or other material agreements; and
- change its fiscal year.

Each of these covenants is subject to customary and other agreed-upon exceptions.

In addition, the Credit Agreement requires that the Company and its subsidiaries maintain a maximum total net leverage ratio not to exceed 3.75 to 1.00, which ratio may be increased from time to time in connection with certain permitted acquisitions pursuant to conditions as set forth in the Credit Agreement, and a minimum interest coverage ratio not to be less than 3.00 to 1.00. Each of these covenants is tested on the last day of each fiscal quarter.

The Company was in compliance with all applicable covenants under the Credit Agreement as of December 28, 2025.

Finance Obligations

On April 24, 2025, the Company executed a real estate lease for a new corporate headquarters campus and store location that has since commenced. The initial term of the lease is 10 years and the total non-cancellable lease payments are \$110.0 million. These payments have been allocated to the building and land components based on the relative standalone fair value. In addition, the lease includes a renewal option for a period of 10 years. Monthly payments commence on completion of construction, increase annually by a nominal amount, and continue through end of the initial term. Based on certain criteria and the existence of a purchase option, the Company has been determined to be the owner during the construction period under ASC 842. Further, there is no evidence of an accounting sale to the landlord upon construction completion, which precludes sale-leaseback accounting. As a result, the building assets and corresponding financial obligation will remain on the Company's balance sheet and will be amortized over the life of the underlying building asset. As of December 28, 2025, the Company has recorded \$69.4 million in both construction in progress assets and finance obligations. There will be no material impact to the statements of income until construction completion, which is expected in the latter half of 2026. Additionally, this lease includes a residual value guarantee. The final

amount of the guarantee is to be determined based upon final construction costs. As of December 28, 2025, no amounts related to this residual value guarantee have been deemed probable.

A summary of maturities of financing obligations is as follows:

	Financing Obligations
2026	\$ 2,930
2027	8,878
2028	9,144
2029	9,419
2030	9,701
Thereafter	60,697
Total	\$ 100,769

The maturities shown in the table above include additional obligations expected to be incurred as construction is completed during 2026.

13. Other Long-Term Liabilities

A summary of other long-term liabilities is as follows:

	As Of	
	December 28, 2025	December 29, 2024
Long-term portion of self-insurance reserves	\$ 25,457	\$ 24,301
Other	14,826	13,958
Total	\$ 40,283	\$ 38,259

14. Self-Insurance Programs

The Company is self-insured for costs related to workers' compensation, general liability and employee health benefits up to certain self-insured retentions and stop-loss limits. The Company establishes reserves for the ultimate obligation of reported and incurred but not reported ("IBNR") claims. IBNR claims are estimated using various techniques, including analysis of historical trends and actuarial valuation methods.

The Company purchases coverage from third-party insurers for exposures in excess of certain stop-loss limits and recorded receivables of \$3.1 million and \$2.1 million from its insurance carriers for payments expected to be made in excess of self-insured retentions at December 28, 2025 and December 29, 2024, respectively. The Company recorded amounts for general liability, workers' compensation and team member health benefit liabilities of \$57.0 million and \$53.2 million at December 28, 2025 and December 29, 2024, respectively.

The following table summarizes the changes in the Company's self-insurance reserves through December 28, 2025:

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
Beginning Balance	\$ 53,228	\$ 47,838	\$ 47,612
Expenses, net of actuarial adjustments	127,771	106,093	85,148
Claim Payments	(123,987)	(100,703)	(84,922)
Ending Balance	57,012	53,228	47,838
Less: Current portion	(31,555)	(28,927)	(25,012)
Long-term portion	<u>\$ 25,457</u>	<u>\$ 24,301</u>	<u>\$ 22,826</u>

The current portion of the self-insurance reserves is included in "Accrued Liabilities" and the long-term portion is included in "Other Long-Term Liabilities" in the accompanying consolidated balance sheets.

15. Defined Contribution Plan

The Company maintains the Sprouts Farmers Market, Inc. Employee 401(k) Savings Plan (the "Plan"), which is a defined contribution plan covering all eligible team members. Under the provisions of the Plan, participants may direct the Company to defer a portion of their compensation to the Plan, subject to the Internal Revenue Code limitations. The Company provides for an employer matching contribution equal to 50% of each dollar contributed by the participants up to 6% of their eligible compensation.

The following table outlines the total expense recorded for the matching under the Plan, which is reflected in Selling, general and administrative expenses on the consolidated statements of income:

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
\$	10,742	9,570	8,496

16. Income Taxes

Income Tax Provision

The income tax provision consists of the following:

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
U.S. Federal—current	\$ 118,558	\$ 87,601	\$ 67,898
U.S. Federal—deferred	6,062	8,501	(5,927)
U.S. Federal—total	124,620	96,102	61,971
State—current	39,136	27,805	21,902
State—deferred	1,358	2,190	1,011
State—total	40,494	29,995	22,913
Total provision	<u>\$ 165,114</u>	<u>\$ 126,097</u>	<u>\$ 84,884</u>

Tax Rate Reconciliation

Income tax provision differed from the amounts computed by applying the U.S. federal income tax rate to pre-tax income as a result of the following:

The table below provides the updated requirements of ASU no. 2023-09 for 2025. See Note 3. Significant Accounting Policies—Recently adopted accounting pronouncements for additional details on the adoption of ASU no. 2023-09.

	Year Ended	
	December 28, 2025	
Federal statutory rate	\$ 144,645	21.0 %
Increase (decrease) in income taxes resulting from:		
State income taxes, net of federal benefit ⁽¹⁾	\$ 32,336	4.7 %
Nontaxable or nondeductible items:		
Enhanced charitable contribution impact	\$ (6,133)	(0.9)%
Non-deductible Executive Compensation	\$ 11,657	1.7 %
Excess tax benefits from share based payments	\$ (13,123)	(1.9)%
Other	\$ 207	— %
Tax Credits:		
Benefit of federal tax credit	\$ (1,649)	(0.2)%
Transferable Tax Credit Benefit	\$ (3,506)	(0.5)%
Other, net ⁽²⁾	\$ 680	0.1 %
Effective income tax rate	<u>\$ 165,114</u>	<u>24.0 %</u>

⁽¹⁾ State taxes in California made up the majority (greater than 50%) of the tax effect in this category.

⁽²⁾ Includes valuation allowance, uncertain tax position, and other items that are all immaterial individually.

	Year Ended	
	December 29, 2024	December 31, 2023
Federal statutory rate	21.0 %	21.0 %
Increase (decrease) in income taxes resulting from:		
State income taxes, net of federal benefit	4.8	5.4
Enhanced charitable contribution impact	(0.9)	(1.0)
Non-deductible Executive Compensation	1.4	1.4
Benefit of federal tax credit	(0.3)	(0.7)
Excess tax benefits from share based payments	(1.1)	(1.2)
Other, net	—	(0.2)
Effective income tax rate	<u>24.9 %</u>	<u>24.7 %</u>

The effective income tax rate decreased to 24.0% in 2025 from 24.9% in 2024 primarily due to an increased benefit for stock-based compensation in the current year and benefit for purchase discount on tax credits partially offset by an increase in nondeductible officer compensation and the rate benefit in prior year due to receipt of interest related to the 2017 amended federal return refund. The effective income tax rate increased to 24.9% in 2024 from 24.7% in 2023 primarily due to a reduction in federal credits and reduced impact of other permanent items due to higher pre-tax income, offset by a reduction in state taxes due to a state valuation allowance recorded in the prior year.

Excess tax benefits or detriments associated with share-based payment awards are recognized as income tax benefits or expense in the income statement. The tax effects of exercised or vested awards are treated as discrete items in the reporting period in which they occur. The total income tax benefit resulting from

share-based awards was \$16.1 million, \$7.0 million and \$5.0 million for 2025, 2024 and 2023, respectively, and is reflected as a reduction to the 2025, 2024 and 2023 income tax provision.

Deferred Taxes

Significant components of the Company's deferred tax assets and deferred tax liabilities are as follows:

	As Of	
	December 28, 2025	December 29, 2024
Deferred tax assets		
Employee benefits	\$ 23,233	\$ 22,163
Operating leases	477,940	429,362
Other lease related	25,486	5,946
Other accrued liabilities	7,943	5,411
Charitable contribution carryforward	4,463	4,522
Inventories and other	4,961	2,881
Total gross deferred tax assets	544,026	470,285
Less: Valuation Allowance	(4,463)	(4,522)
Total deferred tax assets, net of valuation allowance	539,563	465,763
Deferred tax liabilities		
Depreciation and amortization	(116,992)	(89,974)
Intangible assets	(77,491)	(70,978)
Operating leases	(424,752)	(376,994)
Asset retirement obligations	(807)	(876)
Total gross deferred tax liabilities	(620,042)	(538,822)
Net deferred tax liability	<u>\$ (80,479)</u>	<u>\$ (73,059)</u>

A valuation allowance is established for deferred tax assets if it is more likely than not that these items will either expire before the Company is able to realize their benefits, or that the realization of future deductions is uncertain.

Management performs an assessment over future taxable income to analyze whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

The valuation allowance was \$4.5 million as of December 28, 2025 and December 29, 2024, related to contribution carryforwards that management does not believe will ultimately be realized.

The Company has evaluated all available positive and negative evidence and believes it is probable that all other the deferred tax assets will be realized and has not recorded any other valuation allowance against the Company's deferred tax assets as of December 28, 2025 and December 29, 2024.

The Company applies the authoritative accounting guidance under ASC 740 for the recognition, measurement, classification and disclosure of uncertain tax positions taken or expected to be taken in a tax return.

A reconciliation of the beginning and ending amounts of unrecognized tax benefits is as follows:

	As Of		
	December 28, 2025	December 29, 2024	December 31, 2023
Beginning balance	\$ 232	\$ 477	\$ 1,119
Additions based on tax positions related to the current year	—	—	58
Reduction due to lapse of applicable statute of limitations	(232)	(245)	(700)
Ending balance	<u>\$ —</u>	<u>\$ 232</u>	<u>\$ 477</u>

The Company had no unrecognized tax benefits as of December 28, 2025. The Company had unrecognized tax benefits (tax effected) of \$0.2 million as of December 29, 2024.

The Company's policy is to recognize accrued interest and penalties as a component of income tax expense.

The Company files income tax returns with federal and state tax authorities within the United States. The general statute of limitations for income tax examinations remains open for federal tax returns for tax years 2022 through 2024 and state tax returns for the tax years 2021 through 2024 with few exceptions.

Total Income taxes paid (net of refunds):

	Year Ended
	December 28, 2025
Federal	\$ 82,000
State	38,076
Total	<u>\$ 120,076</u>

Income taxes paid (net of refunds) exceeded five percent of total income taxes paid (net of refunds) in the following jurisdiction:

	Year Ended
	December 28, 2025
State	
California	\$ 23,150

On July 4, 2025, the legislation commonly referred to as the One Big Beautiful Bill Act ("OBBBA") was enacted. The OBBBA includes significant provisions that could have income tax implications. The Company has evaluated the potential impact on its consolidated financial statements and disclosures and has determined that no material impact is expected pending further guidance that may be issued by the Internal Revenue Service.

Pursuant to provisions under the Inflation Reduction Act ("IRA"), the Company executed agreements to purchase transferable federal tax credits of \$63.8 million. Such federal tax credits are purchased at negotiated discounts, allowing the Company to reduce its 2025 federal income taxes payable by the amount of credits it expects to claim on its 2025 tax return. The Company has included a tax benefit of \$3.5 million in its effective tax rate for the year ended December 28, 2025 for the difference between the tax credit and negotiated price for expected current year tax credits.

17. Commitments and Contingencies

Commitments

Real estate obligations, which include legally binding minimum lease payments for leases executed but not yet commenced, were \$1,175.9 million as of December 28, 2025.

In addition to its lease obligations, the Company maintains certain purchase commitments with various vendors to ensure its operational needs are fulfilled. As of December 28, 2025, total future purchase commitments under noncancelable service and supply contracts were \$41.0 million.

Commitments related to the Company's business operations cover varying periods of time and are not individually significant. These commitments are expected to be fulfilled with no adverse consequences to the Company's operations or financial conditions.

Contingencies

The Company is exposed to claims and litigation matters arising in the ordinary course of business and uses various methods to resolve these matters that are believed to best serve the interests of the Company's stakeholders. The Company's primary contingencies are associated with self-insurance obligations and litigation matters. Self-insurance liabilities require significant judgments, and actual claim settlements and associated expenses may differ from the Company's current provisions for loss. See Note 14, "Self-Insurance Programs" for more information. The Company records an accrual for legal contingencies when it determines that it is probable that the Company has incurred a liability and can reasonably estimate the amount of the loss. However, predicting the outcomes of legal matters involves substantial uncertainties. While management currently believes that estimated liabilities recorded are reasonable and not material to the Company, differences in actual outcomes or changes in management's evaluation of estimated liabilities could arise that could be material to the Company's results of operations.

Litigation

Harvest Sherwood

In February 2025, the Company terminated its agreement with Harvest Sherwood Food Distributors, Inc. ("Harvest Sherwood") for the distribution of certain meat and seafood products to the Company due to, among other things, Harvest Sherwood's failure to pay the Company's vendors for these products. Subsequently, on February 24, 2025, Harvest Sherwood filed a complaint against the Company in the Superior Court for the State of Delaware alleging breach of contract among other claims and seeking monetary damages of approximately \$42.0 million. On March 6, 2025, the Company filed an answer and counterclaims against Harvest Sherwood, asserting its defenses to the complaint and its claims against Harvest Sherwood for breach of contract, negligent misrepresentation and unjust enrichment, among others, and seeking monetary damages of approximately \$65.0 million. On May 5, 2025, Harvest Sherwood filed a petition for Chapter 11 bankruptcy in the United States Bankruptcy Court for the Northern District of Texas (the "Bankruptcy Court") and filed a substantially similar adversary proceeding against the Company in the Bankruptcy Court. As a result, the Company's litigation against Harvest Sherwood has been stayed in the Superior Court for the State of Delaware, and the adversary matter is proceeding. Discovery has substantially concluded, and a trial date has been set for June 2026.

Stockholder Actions

On November 24, 2025, a complaint was filed in the United States District Court for the District of Arizona against the Company and certain of its officers by Singh Family Revocable Trust u/a dtd 02/18/2019 on behalf of a purported class of the Company's stockholders. The complaint purports to state claims under Sections 10 and 20 of the Securities Exchange Act of 1934, as amended, based on allegedly false and misleading statements made by certain of the Company's officers regarding the resilience of its customers against macroeconomic pressures. The complaint seeks damages on behalf of the purported class in an unspecified amount and an award of reasonable costs and attorneys' fees.

On December 16, 2025, stockholder Fraser MacDonald filed a separate complaint in the United States District Court for the District of Arizona, purporting to assert derivatively on behalf of the Company claims under federal and state law against nine of the Company's directors and officers. This complaint echoes many of the

substantive allegations in the securities class action and, in addition to unspecified damages and attorneys' fees, seeks corporate governance reforms by the Company.

The Company and its executives intend to defend these cases vigorously, but at this stage of the proceedings, the Company is unable to predict or reasonably estimate any potential loss or effect on the Company. Accordingly, no loss contingency was recorded for these actions.

18. Capital Stock

Common stock

As of December 28, 2025, 95,926,024 shares of the Company's common stock were issued and outstanding after the repurchase and retirement of 3,955,324 shares during 2025, as described below. As of December 28, 2025, 5,300,371 shares of common stock are reserved for issuance under the 2022 Incentive Plan (see Note 22, "Share-Based Compensation").

The following table outlines the options exercised in exchange for the issuance of shares of common stock during 2025, 2024 and 2023:

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
Options exercised	96,939	210,312	637,387
Other share issuances under stock plans	529,373	488,798	811,729

Share Repurchases

On August 13, 2025, the Company's board of directors authorized a new \$1 billion share repurchase program for its common stock. The new authorization replaced the Company's then-existing share repurchase authorization of \$600 million that was due to expire on May 22, 2027, of which \$142.6 million remained available upon its replacement, and under which no further shares may be repurchased. The following table outlines the common stock share repurchase programs authorized by the Company's board of directors and the related repurchase activity and available authorization as of December 28, 2025:

Effective date	Expiration date	Amount authorized	Cost of repurchases	Authorization available
March 2, 2022	December 31, 2024	\$ 600,000	\$ 480,715	\$ —
May 22, 2024	May 22, 2027	\$ 600,000	\$ 457,408	\$ —
August 13, 2025	N/A	\$ 1,000,000	\$ 163,995	\$ 836,005

The shares under the Company's repurchase programs may be purchased on a discretionary basis from time to time through the applicable expiration date, subject to general business and market conditions and other investment opportunities, through open market purchases, privately negotiated transactions, or other means, including through Rule 10b5-1 trading plans. The board's authorization of the share repurchase programs does not obligate the Company to acquire any particular amount of common stock, and the repurchase programs may be commenced, suspended, or discontinued at any time.

Share repurchase activity under the Company's repurchase programs for the periods indicated was as follows (total cost in thousands):

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
Number of common shares acquired	3,955,324	2,656,058	5,864,246
Average price per common share acquired	\$ 120.39	\$ 90.57	\$ 35.00
Total cost of common shares acquired	\$ 476,198	\$ 240,562	\$ 205,262

Shares purchased under the Company's repurchase programs were subsequently retired and the excess of the repurchase price over par value was charged to retained earnings. The cost of common shares repurchased included the 1% excise tax imposed as part of the Inflation Reduction Act of 2022.

Subsequent to December 28, 2025 and through February 17, 2026, the Company repurchased an additional 1.3 million shares of common stock for \$100.0 million, excluding excise tax.

Preferred Stock

The Company's board of directors is authorized, subject to limitations prescribed by Delaware law, to issue up to 10,000,000 shares of the Company's preferred stock in one or more series, to establish from time to time the number of shares to be included in each series, to fix the designation, powers, preferences, and rights of the shares of each series and any of its qualifications, limitations, or restrictions, in each case without further action by the Company's stockholders. The Company's board of directors can also increase or decrease the number of shares of any series of preferred stock, but not below the number of shares of that series then outstanding. The Company's board of directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of the common stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring, or preventing a change in control of the Company and might adversely affect the market price of the Company's common stock and the voting and other rights of the holders of the Company's common stock. The Company has no current plan to issue any shares of preferred stock.

19. Net Income per Share

The computation of basic net income per share is based on the number of weighted average shares outstanding during the period. The computation of diluted net income per share includes the dilutive effect of share equivalents consisting of incremental shares deemed outstanding from the assumed exercise of options and unvested RSUs. PSAs are included in the computation of diluted net income per share only to the extent that the underlying performance conditions are satisfied prior to the end of the reporting period or would be satisfied if the end of the reporting period were the end of the related performance period, and if the effect would be dilutive.

A reconciliation of the numerators and denominators of the basic and diluted net income per share calculations is as follows (in thousands, except per share amounts):

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
Basic net income per share:			
Net income	\$ 523,670	\$ 380,601	\$ 258,856
Weighted average shares outstanding - basic	97,687	100,363	102,479
Basic net income per share	\$ 5.36	\$ 3.79	\$ 2.53
Diluted net income per share:			
Net income	\$ 523,670	\$ 380,601	\$ 258,856
Weighted average shares outstanding - basic	97,687	100,363	102,479
Dilutive effect of share-based awards:			
Assumed exercise of options to purchase shares	534	497	343
RSUs	285	474	524
PSAs	198	45	44
Weighted average shares and equivalent shares outstanding - diluted	98,704	101,379	103,390
Diluted net income per share	\$ 5.31	\$ 3.75	\$ 2.50

For the year ended December 28, 2025, the Company had 0.1 million options and 0.2 million PSAs outstanding which were excluded from the computation of diluted net income per share as those awards would have been antidilutive or were performance awards with performance conditions not yet deemed met. For the year ended December 29, 2024 the Company had 0.2 million PSAs outstanding which were excluded from the computation of diluted net income per share as those awards would have been antidilutive or were performance awards with performance conditions not yet deemed met. For the year ended December 31, 2023, the Company had 0.2 million options and 0.4 million PSAs outstanding which were excluded from the computation of diluted net income per share as those awards would have been antidilutive or were performance awards with performance conditions not yet deemed met.

20. Fair Value Measurements

The Company records its financial assets and liabilities in accordance with the framework for measuring fair value in accordance with GAAP. This framework establishes a fair value hierarchy that prioritizes the inputs used to measure fair value:

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3: Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Fair value measurements of nonfinancial assets and nonfinancial liabilities are primarily used in the impairment analysis of goodwill, intangible assets, and long-lived assets.

The Company did not have any financial liabilities measured at fair value on a recurring basis as of December 28, 2025 and December 29, 2024.

The determination of fair values of certain tangible and intangible assets for purposes of the Company's goodwill or long-lived asset impairment evaluation as described above is based upon Level 3 inputs. When necessary, the Company uses third party market data and market participant assumptions to derive the fair value of its asset groupings, which primarily include right-of-use lease assets and property and equipment. For further details, see Note 3, "Significant Accounting Policies – Impairment of Long-lived Assets".

Cash, cash equivalents, and restricted cash, accounts receivable, prepaid expenses and other current assets, accounts payable, accrued liabilities, and accrued salaries and benefits approximate fair value because of the short maturity of those instruments.

21. Segments

The Company has one operating segment, and therefore, one reportable segment: healthy grocery stores. The Company derives all its revenues from the sale of products at its various store locations across the United States. The accounting policies of the segment are the same as described in the summary of significant accounting policies. The Company's chief operating decision maker ("CODM") is the chief executive officer. The CODM assesses performance and allocates resources based on consolidated net income. The measure of segment assets is reported on the balance sheet as total consolidated assets.

In accordance with ASC 280, the following table represents the significant expense and key metrics reviewed by the CODM:

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
Net Sales	\$ 8,806,159	\$ 7,719,290	\$ 6,837,384
Less:			
Cost of sales	5,389,770	4,777,799	4,315,543
Direct store expenses	2,210,092	1,958,392	1,723,726
Other segment items ⁽¹⁾	520,139	478,602	447,884
Interest (income) expense, net	(2,626)	(2,201)	6,491
Income tax provision	165,114	126,097	84,884
Net income	<u>\$ 523,670</u>	<u>\$ 380,601</u>	<u>\$ 258,856</u>

⁽¹⁾ Other segment items include non-store selling, general, and administrative expenses, depreciation and amortization, store closure costs, and other overhead expenses.

The Company categorizes the varieties of products it sells as perishable and non-perishable. Perishable product categories include produce, meat and meat alternatives, seafood, deli, bakery, floral and dairy and dairy alternatives. Non-perishable product categories include grocery, vitamins and supplements, bulk items, frozen foods, beer and wine, and natural health and body care.

In accordance with ASC 606, the following table represents a disaggregation of revenue for 2025, 2024 and 2023:

	Year Ended					
	December 28, 2025		December 29, 2024		December 31, 2023	
Perishables	\$ 5,020,140	57.0 %	\$ 4,424,762	57.3 %	\$ 3,915,971	57.3 %
Non-Perishables	3,786,019	43.0 %	3,294,528	42.7 %	2,921,413	42.7 %
Net sales	<u>\$ 8,806,159</u>	<u>100.0 %</u>	<u>\$ 7,719,290</u>	<u>100.0 %</u>	<u>\$ 6,837,384</u>	<u>100.0 %</u>

22. Share-Based Compensation

2022 Incentive Plan

In March 2022, the Company's board of directors adopted the Sprouts Farmers Market, Inc. 2022 Omnibus Incentive Compensation Plan (the "2022 Incentive Plan"), which became effective May 25, 2022, upon approval by the Company's stockholders. The 2022 Incentive Plan provides team members of the Company, certain consultants and advisors who perform services for the Company, and non-employee members of the Company's board of directors with the opportunity to receive grants of equity awards, including stock options, RSUs, PSAs, and other stock-based awards. The 2022 Incentive Plan replaced the 2013 Incentive Plan (as described below).

Awards Granted under the 2022 Incentive Plan

The Company granted the following awards during 2025 and 2024 under the 2022 Incentive Plan:

Grant Date	RSUs	PSAs	Options
March 18, 2025	185,228	58,805	61,079
June 3, 2025	333	—	—
November 10, 2025	8,087	—	—
Total	<u>193,648</u>	<u>58,805</u>	<u>61,079</u>
Weighted-average grant date fair value	\$ 135.42	\$ 137.81	\$ 51.46
Weighted-average exercise price	—	—	\$ 137.81

Grant Date	RSUs	PSAs	Options
March 19, 2024	272,855	103,584	135,783
June 4, 2024	1,538	—	—
September 4, 2024	15,024	—	—
Total	289,417	103,584	135,783
Weighted-average grant date fair value	\$ 63.14	\$ 61.15	\$ 23.50
Weighted-average exercise price	—	—	\$ 61.15

The aggregate number of shares of common stock that may be issued to team members and directors under the 2022 Incentive Plan may not exceed 6,600,000, subject to the following adjustments. If any awards granted under the 2022 Incentive Plan, terminate, expire, or are cancelled, forfeited, exchanged, or surrendered without having been exercised, vested or paid in shares, the shares will again be available for purposes of the 2022 Incentive Plan. In addition, the number of shares subject to outstanding awards under the Sprouts Farmers Market, Inc. 2013 Incentive Plan (the "2013 Incentive Plan") that terminate, expire, are paid in cash, or are cancelled, forfeited, exchanged, or surrendered without having been exercised, vested, or paid in shares under the 2013 Incentive Plan after the effective date of the 2022 Incentive Plan will be available for issuance under the 2022 Incentive Plan. As of December 28, 2025, there were 1,094,114 stock awards outstanding and 5,300,371 shares remaining available for issuance under the 2022 Incentive Plan.

2013 Incentive Plan

Prior to the adoption of the 2022 Incentive Plan, the 2013 Incentive Plan served as the umbrella plan for the Company's share-based and cash-based incentive compensation programs for its directors, officers and other team members. Upon stockholder approval of the 2022 Incentive Plan on May 25, 2022, no further awards were granted under the 2013 Incentive Plan, but awards outstanding under the 2013 Incentive Plan will remain outstanding in accordance with their terms and the terms of the 2013 Incentive Plan.

The RSUs generally vest either one-third each year for three years or one-half each year for two years for team members. RSUs granted to independent members of the Company's board of directors cliff vest in one year. The options expire seven years from grant date. The PSAs are described below.

Stock Options

Outstanding options only become immediately vested in the event of a change in control (as defined in the applicable team member award agreement) if the grants are not continued or assumed by the acquirer on a substantially equivalent basis. If the options and awards continue or are assumed on a substantially equivalent basis, but employment is terminated by the Company or an acquirer without cause or by the team member for good reason (as such terms are defined in the applicable team member award agreement) within 24 months following the change in control, such options or awards will become immediately vested upon such termination. Under all other scenarios, the awards continue to vest per the schedule outlined in the applicable award agreement.

Shares issued for option exercises are newly issued shares.

The estimated weighted average fair values of options granted during 2025, 2024 and 2023 were \$51.46, \$23.50 and \$12.63, respectively, and were calculated using the following assumptions in the table below:

	2025	2024	2023
Dividend yield	0.00 %	0.00 %	0.00 %
Expected volatility	37.60 %	38.41 %	39.48 %
Risk free interest rate	4.07 %	4.31 %	3.78 %
Expected term, in years	4.50	4.50	4.50

The grant date weighted average fair value of the 0.2 million options issued but not vested as of December 28, 2025 was \$28.38. The grant date weighted average fair value of the 0.3 million options issued

but not vested as of December 29, 2024 was \$16.90. The grant date weighted average fair value of the 0.4 million options issued but not vested as of December 31, 2023 was \$10.84.

The following table summarizes grant date weighted average fair value of options granted and options forfeited:

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
Grant date weighted average fair value of options granted	\$ 51.46	\$ 23.50	\$ 12.63
Grant date weighted average fair value of options forfeited	\$ —	\$ 11.87	\$ 10.98

Expected volatility for option grants and modifications are calculated based upon the Company's historical volatility data over a time frame consistent with the expected life of the awards. The expected term is estimated based on the expected period that the options are anticipated to be outstanding after initial grant until exercise or expiration based upon various factors including the contractual terms of the awards and vesting schedules. The expected risk-free rate is based on the U.S. Treasury yield curve rates in effect at the time of the grant using the term most consistent with the expected life of the award. Dividend yield was estimated at zero as the Company does not anticipate making regular future distributions to stockholders. The total intrinsic value of options exercised was \$10.9 million for fiscal 2025 and \$12.2 million for each of fiscal 2024 and 2023.

The following table summarizes option activity during 2025:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (In Years)	Aggregate Intrinsic Value
Outstanding at December 29, 2024	763,786	\$ 32.54		
Granted	61,079	137.81		
Forfeited	—	—		
Exercised	(96,939)	26.88		\$ 10,869
Outstanding at December 28, 2025	727,926	42.12	3.51	\$ 30,835
Exercisable—December 28, 2025	514,941	28.52	2.81	\$ 26,301
Vested/Expected to vest—December 28, 2025	727,926	\$ 42.12	3.51	\$ 30,835

RSUs

Outstanding RSUs only become immediately vested in the event of a change in control (as defined in the applicable team member award agreement) if the awards are not continued or assumed by the acquirer on a substantially equivalent basis. If the awards continue or are assumed on a substantially equivalent basis, but employment is terminated by the Company or an acquirer without cause or by the team member for good reason (as such terms are defined in the applicable team member award agreement) within 24 months following the change in control, such awards will become immediately vested upon such termination. Under all other scenarios, the awards continue to vest per the schedule outlined in the applicable award agreement.

Shares issued for RSU vesting are newly issued shares.

The fair value for restricted stock units is calculated based on the closing stock price on the date of grant. The total grant date fair value of RSUs vested during 2025, 2024 and 2023 was \$14.6 million, \$15.2 million and \$13.3 million, respectively.

The following table summarizes the weighted average grant date fair value of RSUs awarded during 2025, 2024 and 2023:

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
RSUs awarded	\$ 135.42	\$ 63.14	\$ 33.21

The following table summarizes RSU activity during 2025:

	Number of RSUs	Weighted Average Grant Date Fair Value
Outstanding at December 29, 2024	610,415	\$ 46.33
Awarded	193,648	135.42
Vested	(346,813)	42.06
Forfeited	(24,125)	72.74
Outstanding at December 28, 2025	<u>433,125</u>	\$ 88.11

PSAs

PSAs granted in 2021 are subject to the Company achieving certain EBIT performance targets for the 2023 fiscal year. The criteria is based on a range of performance targets in which grantees may earn 0% to 200% of the base number of awards granted. The performance conditions with respect to fiscal year 2023 EBIT were deemed not to have been met. Accordingly, no performance shares vested on the third anniversary of the grant date (March 2024). There were no outstanding 2021 PSAs as of December 28, 2025.

PSAs granted in 2022 are subject to the Company achieving certain EBIT performance targets for the 2024 fiscal year. The criteria is based on a range of performance targets in which grantees may earn 0% to 200% of the base number of awards granted. The performance conditions with respect to fiscal year 2024 EBIT were deemed to have been met, and PSAs vested at 148% payout level on the third anniversary of the grant date (March 2025). During the year ended December 28, 2025, 182,560 of the 2022 PSAs vested. There were no outstanding 2022 PSAs as of December 28, 2025.

PSAs granted in 2023 are subject to the Company achieving certain EBIT performance targets for the 2025 fiscal year. The criteria is based on a range of performance targets in which grantees may earn 0% to 200% of the base number of awards granted. Subsequent to December 28, 2025, the performance conditions with respect to fiscal year 2025 EBIT were deemed to have been met, and PSAs will vest at 200% payout level on the third anniversary of the grant date (March 2026).

PSAs granted in 2024 are subject to the Company achieving certain EBIT performance targets for the 2026 fiscal year. The criteria is based on a range of performance targets in which grantees may earn 0% to 200% of the base number of awards granted. If performance conditions are met, the applicable number of performance shares will vest on the third anniversary of the grant date (March 2027).

PSAs granted in 2025 are subject to the Company achieving certain EBIT performance targets for the 2027 fiscal year. The criteria is based on a range of performance targets in which grantees may earn 0% to 200% of the base number of awards granted. If performance conditions are met, the applicable number of performance shares will vest on the third anniversary of the grant date (March 2028).

The PSAs only become immediately vested in the event of a change in control (as defined in the applicable team member award agreement) if the awards are not continued or assumed by the acquirer on a substantially equivalent basis. If the awards continue or are assumed on a substantially equivalent basis, but employment is terminated by the Company or an acquirer without cause or by the team member for good reason (as such terms are defined in the applicable team member award agreement) within 24 months following

the change in control, such awards will become immediately vested upon such termination. Under all other scenarios, the awards continue to vest per the schedule outlined in the applicable team member award agreement.

Shares issued for PSA vesting are newly issued shares.

The fair value for PSAs is calculated based on the closing stock price on the date of grant.

The total grant date fair value of PSAs granted during 2025 was \$8.1 million. The total grant date fair value of PSAs vested during 2025 was \$5.8 million. No PSAs were forfeited during 2025. The total grant date fair value of the 0.3 million PSAs issued but not released as of December 28, 2025 was \$19.2 million.

The total grant date fair value of PSAs granted during 2024 was \$6.3 million. No PSAs vested during 2024. The total grant date fair value of performance shares forfeited and not earned during 2024 was \$4.2 million. The total grant date fair value of the 0.4 million PSAs issued but not released as of December 29, 2024 was \$14.9 million.

The total grant date fair value of PSAs granted during 2023 was \$5.7 million. The total grant date fair value of PSAs vested during 2023 was \$4.5 million. The total grant date fair value of performance shares forfeited or not earned during 2023 was \$1.1 million. The total grant date fair value of the 0.4 million PSAs issued but not released as of December 31, 2023 was \$12.9 million.

The following table summarizes PSA activity during 2025:

	Number of PSAs	Weighted Average Grant Date Fair Value
Outstanding at December 29, 2024	370,278	\$ 40.37
Awarded	58,805	137.81
Vested	(182,560)	31.54
Forfeited	—	—
PSAs earned	59,206	31.49
Outstanding at December 28, 2025	<u>305,729</u>	<u>\$ 62.67</u>

Share-Based Compensation Expense

The Company presents share-based compensation expense in Selling, general and administrative expenses on the Company's consolidated statements of income. The amount recognized was as follows:

	Year Ended		
	December 28, 2025	December 29, 2024	December 31, 2023
Share-based compensation expense	\$ 31,103	\$ 28,417	\$ 18,898
Income tax benefit	(3,581)	(3,647)	(3,007)
Net share-based compensation expense	<u>\$ 27,522</u>	<u>\$ 24,770</u>	<u>\$ 15,891</u>

As of December 28, 2025, total unrecognized compensation expense and remaining weighted average recognition period related to outstanding share-based awards were as follows:

	Unrecognized compensation expense	Remaining weighted average recognition period
Options	\$ 3,786	1.8
RSUs	24,761	2.0
PSAs	16,289	1.9
Total unrecognized compensation expense at December 28, 2025	<u>\$ 44,836</u>	

During 2025, 2024 and 2023, the Company received \$2.6 million, \$4.9 million and \$11.5 million in cash proceeds from the exercise of options, respectively.

The Company recorded tax benefits of \$16.1 million, \$7.0 million and \$5.0 million during 2025, 2024 and 2023, respectively, resulting from share-based awards.

23. Store Closures

In February 2023, the Company's board of directors approved the closing of 11 stores, all of which were closed during 2023. These stores, on average, were approximately 30% larger than the Company's current prototype format and were underperforming financially. The closure of these stores resulted in a charge of \$27.8 million in 2023 related to the impairment of leasehold improvements and right-of-use assets and was reflected in Store closure and other costs, net on the consolidated statements of income. The impairment charge represented the excess of the carrying value over the estimated fair value of each store's asset group. Accelerated depreciation on the closed stores' assets during 2023 was \$5.9 million, and was reflected in Depreciation and amortization on the consolidated statements of income. Severance expense during 2023 was immaterial.

No stores were closed during 2025 or 2024 and all lease costs associated with our closed locations, for which a lease remains in effect, are included within Store closure and other costs, net. See Note 7, "Leases", for amounts incurred during 2025 and 2024.

24. Business Combination

On March 20, 2023, the Company completed its acquisition of Ronald Cohn, Inc., a corporation that owned two stores located in California operating under the 'Sprouts Farmers Market' name pursuant to a legacy trademark license arrangement. The aggregate consideration paid in the transaction consisted of 0.6 million of the Company's common shares valued at \$18.1 million using the closing price of the Company's common stock on March 20, 2023 and cash consideration of \$13.0 million.

The Company accounted for this transaction as a business combination in accordance with the acquisition method of accounting, which requires that the purchase price be allocated to the assets and liabilities acquired based on their estimated fair values as of the acquisition date. Acquisition-related costs were immaterial and were expensed as incurred. The financial results of the acquired stores have been included in the Company's consolidated financial statements from the date of acquisition. The acquired stores' results of operations were not material to the Company's consolidated results.

The net purchase price was allocated to the net tangible assets of (\$4.9) million and a reacquired right intangible asset of \$23.1 million based on their fair values on the acquisition date. The remaining unallocated net purchase price of \$12.9 million was recorded as goodwill. Goodwill represents the future economic benefits to the Company from the acquisition, which include the Company's ability to fully control the Sprouts Farmers Market brand by termination of the legacy trademark license agreement and allowing further expansion opportunities in Southern California. The goodwill is not expected to be deductible for tax purposes.

Item 9. Changes In and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain a system of disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) designed to ensure that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and is accumulated and communicated to our management, including our Chief Executive Officer (our principal executive officer) and our Chief Financial Officer (our principal financial officer), as appropriate, to allow timely decisions regarding required disclosure.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures under the Exchange Act as of December 28, 2025, the end of the period covered by this Annual Report on Form 10-K. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of December 28, 2025, our disclosure controls and procedures were effective.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we assessed the effectiveness of our internal control over financial reporting as of December 28, 2025, using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control—Integrated Framework (2013 Framework). Based on this assessment, our management has concluded that our internal control over financial reporting was effective as of December 28, 2025.

PricewaterhouseCoopers LLP, our independent registered public accounting firm, assessed the effectiveness of our internal control over financial reporting as of December 28, 2025, as stated in the firm's report which is included with the consolidated financial statements in Item 8 of this Annual Report on Form 10-K.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarterly period ended December 28, 2025 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

During the fourth quarter of 2025, none of our directors or executive officers adopted or terminated a Rule 10b5-1 Trading Plan, or a "non-Rule 10b5-1 trading arrangement" (as defined in Item 408(c) of Regulation S-K).

Item 9C. *Disclosure Regarding Foreign Jurisdictions that Prevent Inspection*

Not Applicable.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this item will be contained in our definitive Proxy Statement to be filed with the SEC in connection with our 2026 Annual Meeting of Stockholders (referred to as the “Proxy Statement”), which is expected to be filed not later than 120 days after the end of our fiscal year ended December 28, 2025, and is incorporated herein by reference.

We have adopted a Code of Ethics – Principal Executive Officer and Senior Financial Officers (referred to as the “Code”) that applies to our principal executive officer, principal financial officer and principal accounting officer and controller. The Code is publicly available on our website at <https://investors.sprouts.com/governance/governance-documents/>.

We will provide disclosure of future updates, amendments or waivers from the Code by posting them to our investor relations website located at investors.sprouts.com.

Item 11. Executive Compensation

The information required by this Item will be set forth in the Proxy Statement and is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this Item will be set forth in the Proxy Statement and is incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this Item will be set forth in the Proxy Statement and is incorporated herein by reference.

Item 14. Principal Accountant Fees and Services

The information required by this Item will be set forth in the Proxy Statement and is incorporated herein by reference.

PART IV

Item 15. Exhibits and Financial Statement Schedules

- (a) Documents filed as part of this report:
1. Financial Statements: The information concerning our financial statements and Report of Independent Registered Public Accounting Firm required by this Item is incorporated by reference herein to the section of this Annual Report on Form 10-K in Item 8, titled “Financial Statements and Supplementary Data.”
 2. Financial Statement Schedules: Financial statement schedules have been omitted because they are not applicable, not required, or the required information is included in the consolidated financial statements or notes thereto.
 3. Exhibits: See Item 15(b) below.

(b) Exhibits:

<u>Exhibit Number</u>	<u>Description</u>
3.1	Amended and Restated Certificate of Incorporation of Sprouts Farmers Market, Inc. (1)
3.2	Third Amended and Restated Bylaws of Sprouts Farmers Market, Inc. (1)
4.1	Description of Sprouts Farmers Market, Inc. Securities (2)
10.1*	Sprouts Farmers Market, Inc. 2013 Incentive Plan, amended as of May 1, 2015 (3)
10.1.1*	Form of Stock Option Agreement under Sprouts Farmers Market, Inc. 2013 Incentive Plan (4)
10.1.2*	Form Notice of Amendment to Outstanding Awards granted under the Sprouts Farmers Market, Inc. 2013 Incentive Plan (5)
10.2†	Distribution Agreement, entered into on September 3, 2025, by and between SFM, LLC d/b/a Sprouts Farmers Market and KeHE Distributors, LLC (6)
10.3*	Form of Indemnification Agreement by and between Sprouts Farmers Market, Inc. and its directors and officers (7)
10.4	Credit Agreement, dated as of July 25, 2025, among Sprouts Farmers Market, Inc., Sprouts Farmers Markets Holdings, LLC, the lenders named therein, JPMorgan Chase Bank, N.A., as administrative agent, an issuing bank and swingline lender, J.P. Morgan Securities LLC, as sustainability structuring agent, Truist Bank and PNC Bank, National Association, as syndication agents, and Bank of America, N.A., BMO Bank, N.A. and US Bank National Association, as documentation agents (8)
