INTRODUCTION

Reference is made to the Announcement in relation to, among other things, the Share Consolidation, the Increase in Authorised Share Capital, the Rights Issue and the Placing Agreement and the respective transactions contemplated thereunder.

The purpose of this circular is to provide you with, among other things, (i) further details of the Share Consolidation, the Increase in Authorised Share Capital, the Rights Issue and the Placing Agreement; (ii) a letter of recommendation from the Independent Board Committee to the Independent Shareholders in respect of the Rights Issue and the Placing Agreement; (iii) a letter of advice from the independent financial adviser to the Independent Board Committee and the Independent Shareholders in respect of the Rights Issue and the Placing Agreement; and (iv) a notice convening the EGM, for the purpose of considering and, if thought fit, approving, among other things, the Share Consolidation, the Increase in Authorised Share Capital, the Rights Issue, the Placing Agreement and the respective transactions contemplated thereunder.

PROPOSED SHARE CONSOLIDATION

The Board proposes to implement the Share Consolidation on the basis that every five (5) issued and unissued Shares of par value of HK\$0.1 each be consolidated into one (1) Consolidated Share of HK\$0.5 each.

Effects of the Share Consolidation

As at the Latest Practicable Date, the authorised share capital of the Company is HK\$200,000,000 divided into 2,000,000,000 Shares with par value of HK\$0.1 each, of which 600,000,000 Shares have been issued and are fully paid or credited as fully paid.

Assuming that no further Shares will be issued or repurchased from the date hereof until the date of the EGM, immediately upon the Share Consolidation becoming effective, the authorised share capital of the Company will become HK\$200,000,000 divided into 400,000,000 Consolidated Shares with par value of HK\$0.5 each, of which 120,000,000 Consolidated Shares will be in issue and fully paid or credited as fully paid.

Upon the Share Consolidation becoming effective, the Consolidated Shares shall rank *pari passu* in all respects with each other, and the Share Consolidation will not result in any change in the relative rights of the Shareholders. As at the Latest Practicable Date, the Company does not have any other derivatives, options, warrants, other securities, conversion rights, or similar rights that are convertible or exchangeable into Shares or Consolidated Shares.

Other than the expenses to be incurred in relation to the Share Consolidation, the implementation thereof will not alter the underlying assets, business operations, management or financial position of the Company or the proportionate interests or rights of the Shareholders, save for any fractional Consolidated Shares will not be allocated to the Shareholders who may otherwise be entitled.

Conditions of the Share Consolidation

The Share Consolidation is conditional upon the following conditions:

- (i) the passing of an ordinary resolution by the Shareholders at the EGM to approve the Share Consolidation;
- (ii) the Listing Committee of the Stock Exchange granting the listing of, and permission to deal in, the Consolidated Shares upon the Share Consolidation becoming effective; and
- (iii) the compliance with all relevant procedures and requirements under the applicable laws of the Cayman Islands and the Listing Rules to effect the Share Consolidation.

Subject to the fulfilment of the conditions of the Share Consolidation, the effective date of the Share Consolidation is expected to be on Monday, 2 November 2026.

As at the Latest Practicable Date, none of the conditions above have been fulfilled.

Application for listing of the Consolidated Shares

The Company will make an application to the Listing Committee of the Stock Exchange for the listing of, and the permission to deal in, the Consolidated Shares upon the Share Consolidation becoming effective.

Subject to the granting of listing of, and permission to deal in, the Consolidated Shares on the Stock Exchange upon the Share Consolidation becoming effective, as well as compliance with the stock admission requirements of the HKSCC, the Consolidated Shares will be accepted as eligible securities by HKSCC for deposit, clearance and settlement in CCASS with effect from the commencement date of dealings in the Consolidated Shares on the Stock Exchange or such other date as determined by HKSCC. Settlement of transactions between participants of the Stock Exchange on any trading day is required to take place in CCASS on the second settlement day thereafter. All activities under CCASS are subject to the General Rules of HKSCC and HKSCC Operational Procedures, which are in effect from time to time. All necessary arrangements will be made for the Consolidated Shares to be admitted into CCASS, which was established and operated by HKSCC.

None of the Shares are listed or dealt in any other stock exchange other than the Stock Exchange, and at the time the Share Consolidation becoming effective, the Consolidated Shares in issue will not be listed or dealt in on any stock exchange other than the Stock Exchange, and no such listing or permission to deal is being or is proposed to be sought.

Odd lots arrangement and matching services

In order to facilitate the trading of odd lots (if any) of the Consolidated Shares arising from the Share Consolidation, designated broker will be appointed to match the purchase and sale of odd lots of the Consolidated Shares at the relevant market price per Consolidated Share on a best effort basis. Holders of odd lots of Consolidated Shares should note that successful matching of the sale and purchase of odd lots of the Consolidated Shares is not guaranteed. Any Shareholder who is in any doubt about the odd lots arrangement is recommended to consult his/her/its own professional advisers. Further details of the odd lots arrangement will be set out in the Prospectus.

Shareholders or potential investors should note that (i) odd lots will be created after the Share Consolidation; (ii) odd lots arrangement does not guarantee successful matching of all odd lots at the relevant market price; and (iii) odd lots might be sold below the market price in the market.

Fractional entitlement to the Consolidated Shares

Fractional Consolidated Shares arising from the Share Consolidation, if any, will be disregarded and will not be allocated to the Shareholders but will be aggregated and, if possible, sold for the benefit of the Company. Fractional Consolidated Shares will only arise in respect of the entire shareholding of a holder of the Shares regardless of the number of share certificates held by such holder. Shareholders concerned about losing out on any fractional entitlement are recommended to consult their licensed securities dealer, bank manager, solicitor, professional accountant or other professional adviser and may wish to consider the possibility of buying or selling Shares in a number sufficient to make up an entitlement to receive a whole number of Consolidated Shares.

Other securities of the Company

As at the Latest Practicable Date, the Company has no outstanding share option and has available scheme mandate limit of 50,000,000 options which may be granted under the share option scheme adopted on 16 October 2020. Upon the Share Consolidation becoming effective, the number of options available for grant under the scheme mandate limit would be 10,000,000 options.

Save as mentioned above, as at the Latest Practicable Date, the Company had no other outstanding options, warrants or other securities in issue which are convertible into or giving rights to subscribe for, convert or exchange into, any Shares or Consolidated Shares, as the case may be.

Exchange of share certificates

Subject to the Share Consolidation becoming effective, Shareholders may during the period from Monday, 2 November 2026 to Tuesday, 8 December 2026 (both dates inclusive), submit

share certificates for the Shares (in light blue colour) to the Registrar at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong, in exchange, at the expense of the Company for new share certificates for the Consolidated Shares (in green colour). Thereafter, share certificates for the Shares will be accepted for exchange only on payment of a fee of HK\$2.50 (or such other amount as may be allowed by the Stock Exchange from time to time) for each share certificate for the Shares cancelled or each new share certificate issued for the Consolidated Shares, whichever the number of certificates cancelled/issued is higher.

The existing share certificates will only be valid for delivery, trading, and settlement purposes for the period up to 4:10 p.m. on Friday, 4 December 2026, and thereafter will not be accepted for delivery, trading, and settlement purposes. However, the existing share certificates will continue to be good evidence of title to the Consolidated Shares on the basis of five (5) Shares for one (1) Consolidated Share. The new share certificates for the Consolidated Shares will be issued in green colour to distinguish them from the existing share certificates for the Shares, which are in light blue colour.

Reasons for the Share Consolidation

Pursuant to Rule 13.64 of the Listing Rules, where the market price of the securities of the issuer approaches the extremities of HK\$0.01 or HK\$9,995, the Stock Exchange reserves the right to require the issuer either to change the trading method or to proceed with a consolidation or splitting of its securities. The “Guide on Trading Arrangements for Selected Types of Corporate Actions” issued by the Hong Kong Exchanges and Clearing Limited on 28 November 2008 and last updated in June 2026 has further stated that (i) market price of the Shares at a level less than HK\$0.1 each will be considered as trading at extremity as referred to under Rule 13.64 of the Listing Rules; and (ii) taking into account the minimum transaction costs for a securities trade, the expected value per board lot should be greater than HK\$1,000.

Since 3 December 2025, the share price of the Company has been trading below HK\$0.500, and the closing price of the Shares as at the Latest Practicable Date was HK\$0.320 per Share. Based on the existing board lot size of 2,000 Shares, the value of each existing board lot is less than HK\$1,000 as at the Latest Practicable Date. The Board considers that the proposed Share Consolidation will bring about a corresponding upward adjustment in the trading price of the Shares and increase the trading price of the Consolidated Shares, resulting in HK\$1.600 per Consolidated Share and HK\$3,200 per board lot of 2,000 Consolidated Shares.

Further, the Share Consolidation would reduce the overall transaction and handling costs of dealings in the Shares as a proportion of the market value of each board lot, since most of the banks/securities houses will charge a minimum transaction cost for each securities trade. Accordingly, the Board considers that the Share Consolidation would maintain the trading amount for each board lot at a reasonable level in order to attract potential investors and to extend the shareholder base of the Company. The Board believes that the Share Consolidation is in the interests of the Company and the Shareholders as a whole and that will not have any material adverse effect on the financial position of the Group nor result in any changes in the relative rights of the Shareholders.

As at the Latest Practicable Date, save for the Rights Issue, the Company currently (i) does not have any agreement, arrangement, understanding, intention, or negotiation (either concluded or in process) on any potential fundraising activities which will involve issue of equity securities of the Company; and (ii) has no other plan or intention to carry out any future corporate actions in the next twelve months which may have an effect of undermining or negating the intended purpose of the Share Consolidation. However, in the event there is any change to the business environment and/or financial position of the Company due to unforeseeable circumstances, and the Company is required to conduct further fundraising exercises when suitable opportunities arise in order to support future development of the Group, the Company will publish further announcement(s) in compliance with the Listing Rules, as and when appropriate.

Given the above reasons, the Board considers that the Share Consolidation is justifiable, notwithstanding the potential costs and impact arising from creating odd lots to Shareholders. Accordingly, the Board believes that the Share Consolidation is beneficial to and in the interests of the Company and the Shareholders as a whole.

Shareholders and potential investors should be aware of and take note that the Share Consolidation is conditional upon satisfaction of the conditions set out in the paragraph headed “Conditions of the Share Consolidation”. Accordingly, the Share Consolidation may or may not proceed. Shareholders and potential investors are advised to exercise caution when dealing in the Shares, and if they are in any doubt about their position, they should consult their professional advisers.

PROPOSED INCREASE IN AUTHORISED SHARE CAPITAL

As at the Latest Practicable Date, the authorised share capital of the Company is HK\$200,000,000 divided into 2,000,000,000 Shares with par value of HK\$0.1 each, of which 600,000,000 Shares have been issued and are fully paid or credited as fully paid.

To facilitate the Rights Issue and enable the future expansion and growth of the Group while also providing the Company with increased flexibility to raise funds, the Board proposes to increase the authorised share capital of the Company from HK\$200,000,000 divided into 2,000,000,000 Shares to HK\$600,000,000 divided into 6,000,000,000 Shares (or 1,200,000,000 Consolidated Shares after the Share Consolidation becoming effective).

The Board believes the Increase in Authorised Share Capital will give the Company more flexibility for future fundraising. Therefore, the Board considers this decision to be in the interests of the Company and the Shareholders.

The Increase in Authorised Share Capital is conditional upon the passing of an ordinary resolution by the Shareholders at the EGM to approve the Increase in Authorised Share Capital.

PROPOSED RIGHTS ISSUE

Subject to the Share Consolidation and the Increase in Authorised Share Capital becoming effective, the Board proposes to conduct the Rights Issue with the terms set out as follows:

Issue statistics

Basis of the Rights Issue	:	Three (3) Rights Shares for every one (1) Consolidated Share held by the Qualifying Shareholders at the close of business on the Record Date
Subscription Price	:	HK\$0.600 per Rights Share
Net price per Rights Share (i.e. Subscription Price less estimated cost and expenses incurred in the Rights Issue)	:	Approximately HK\$0.591 per Rights Share
Number of Shares in issue as at the Latest Practicable Date	:	600,000,000 Shares
Number of Consolidated Shares in issue as upon the Share Consolidation becoming effective	:	120,000,000 Consolidated Shares (assuming no change in the total number of Shares in issue on or before the effective date of the Share Consolidation)
Number of Rights Shares to be issued pursuant to the Rights Issue	:	Up to 360,000,000 Rights Shares (assuming no change in the total number of Shares in issue on or before the Record Date other than as a result of the Share Consolidation) with an aggregate nominal value of HK\$180.0 million
Total number of Shares in issue upon completion of the Rights Issue	:	Up to 480,000,000 Consolidated Shares (assuming no change in the total number of Shares in issue on or before the Record Date other than as a result of the Share Consolidation)
Gross proceeds from the Rights Issue	:	Up to approximately HK\$216.0 million before expenses (assuming no change in the total number of Shares in issue on or before the Record Date other than as a result of the Share Consolidation)

Net proceeds from the Rights Issue : Up to approximately HK\$212.8 million after deducting all necessary expenses (assuming no change in the total number of Shares in issue on or before the Record Date other than as a result of the Share Consolidation)

As at the Latest Practicable Date, the Company does not have any options outstanding under any share option scheme of the Company, any share awards outstanding under any share award scheme of the Company or any other derivatives, options, warrants and conversion rights or other similar rights which are convertible or exchangeable into Shares. As at the Latest Practicable Date, the Company has no intention to issue or grant any Shares, share awards, convertible securities, warranties and/or options which are convertible or exchangeable into Shares on or before the Record Date.

Assuming no Shares are issued or repurchased on or before the Record Date, the aggregate 360,000,000 Rights Shares to be issued pursuant to the terms of the Rights Issue represent 300% of the total number of issued Shares and approximately 75% of the total number of issued Shares as enlarged by the issue of the Rights Shares.

Non-underwritten basis

Subject to the fulfilment of the conditions of the Rights Issue, the Rights Issue will proceed on a non-underwritten basis irrespective of the level of acceptances of the provisionally allotted Rights Shares. There are no applicable statutory requirements regarding minimum subscription levels in respect of the Rights Issue. In the event the Rights Issue is not fully subscribed, any Unsubscribed Rights Shares together with the NQS Unsold Rights Shares will be placed to independent placees under the Compensatory Arrangements on a best effort basis. Any Unsubscribed Rights Shares or NQS Unsold Rights Shares which are not placed under the Compensatory Arrangements will not be issued by the Company and the size of the Rights Issue will be reduced accordingly. There is no minimum amount to be raised under the Rights Issue.

As the Rights Issue will proceed on a non-underwritten basis, a Qualifying Shareholder who applies to take up all or part of his/her/its entitlement under the PAL(s) may unwittingly incur an obligation to make a general offer for the Shares under the Takeovers Code. Accordingly, the Rights Issue will be made on terms that the Company will provide for the Qualifying Shareholders to apply on the basis that if the Rights Shares are not fully taken up, the application of any Qualifying Shareholder (except for HKSCC Nominees Limited) for his/ her/its assured entitlement under the Rights Issue will be scaled down to a level which (i) does not result in any non-compliance with the Public Float Requirement prescribed under the Listing Rules on the part of the Company; and (ii) does not trigger an obligation on part of the relevant Qualifying Shareholder to make a general offer under the Takeovers Code in accordance with the note to Rule 7.19(5)(b) of the Listing Rules.

Undertakings

As at the Latest Practicable Date, the Company has not received any information or irrevocable undertaking from any substantial Shareholders of their intention to take up their entitlement under the Rights Issue.

Subscription Price

The Subscription Price of HK\$0.600 per Rights Share is payable in full when a Qualifying Shareholder accepts the relevant provisional allotment of Rights Shares under the Rights Issue or when a transferee of nil-paid Rights Shares accepts the provisional allotment of the relevant Rights Shares.

The Subscription Price represents:

- (i) a discount of approximately 62.50% to the theoretical closing price of HK\$1.600 per Consolidated Share (after taking into account the effect of the Share Consolidation) as quoted on the Stock Exchange on the Latest Practicable Date;
- (ii) a discount of approximately 28.99% to the closing price of HK\$0.845 per Consolidated Share (after taking into account the effect of the Share Consolidation) as quoted on the Stock Exchange on the Last Trading Day;
- (iii) a discount of approximately 27.01% to the average closing price of approximately HK\$0.822 per Consolidated Share (after taking into account the effect of the Share Consolidation) as quoted on the Stock Exchange for the last five consecutive trading days prior to the Last Trading Day;
- (iv) a discount of approximately 27.80% to the average closing price of approximately HK\$0.831 per Consolidated Share (after taking into account the effect of the Share Consolidation) as quoted on the Stock Exchange for the last 10 consecutive trading days prior to the Last Trading Day;
- (v) a discount of approximately 9.23% to the theoretical ex-rights price of approximately HK\$0.661 per Consolidated Share (after taking into account the effect of the Share Consolidation) as adjusted for the effect of the Rights Issue based on the benchmarked price;
- (vi) a theoretical dilution effect (as defined under Rule 7.27B of the Listing Rules) of approximately 21.75% represented by the theoretical diluted price of approximately HK\$0.661 to the benchmarked price of approximately HK\$0.845 per Consolidated Share (as defined under Rule 7.27B of the Listing Rules, taking into account the higher of the closing price on the Last Trading Day of HK\$0.845 per Consolidated Share (after taking into account the effect of the Share Consolidation) and the average closing price of the Consolidated Share (after taking into account the effect of the

Share Consolidation) in the five trading days immediately prior to the Last Trading Day of HK\$0.822 per Consolidated Share), assuming no Shares are issued or repurchased on or before the Record Date; and

- (vii) a discount of approximately 29.25% to the consolidated unaudited net asset value per Consolidated Share of approximately RMB0.725 (equivalent to approximately HK\$0.848) (after taking into account the effect of the Share Consolidation) as at 30 June 2026 as disclosed in the Company's interim report for the six months ended 30 June 2026, calculated based on (i) the Company's consolidated unaudited net assets attributable to Shareholders of approximately RMB86,959,000 as at 30 June 2026; (ii) theoretical number of Consolidated Shares (after taking into account the effect of the Share Consolidation) in issue as at the date of the Announcement; and (iii) the exchange rate of RMB1.0:HK\$1.17 on the date of the Announcement for illustrative purposes only.

The Rights Issue does not, on its own, result in a theoretical dilution effect of 25% or more. As such, the theoretical dilution impact of the Rights Issue is in compliance with Rule 7.27B of the Listing Rules.

The Subscription Price was determined after taking into consideration of the following:

- (i) *the current business performance and financial position of the Group;*

The Group has recorded loss after tax for two consecutive years for the years ended 31 December 2024 and 2025 and it continued to record loss after tax for the six months ended 30 June 2026 under the increasingly competitive market landscape and challenging macroeconomic environment. In particular, the Group may not be able to obtain debt financing on favourable terms and in a timely manner. In addition, as at 31 August 2026, the Group had outstanding secured bank borrowings and guaranteed bank borrowings of RMB66.6 million and RMB20.0 million respectively. The equity funding from the Rights Issue is important to strengthen the Group's capital base without incurring additional interest costs and to provide the Group with more flexibility in managing its operational funding needs while meeting its obligations under the bank borrowings when they become due. Moreover, the subscription ratio under the Rights Issue was set to yield the optimum level of capital required without raising surplus capital that would unnecessarily expand the Group's share capital base;

- (ii) *the recent market price and low trading volume of the Shares under the prevailing market conditions;*

The Company has also considered, the closing price and trading volume of the Shares from 15 June 2026 to the Last Trading Day, a three months period prior to and including the Last Trading Day (the "**Relevant Period**"), as a benchmark to reflect the prevailing market conditions and recent market sentiment. During the Relevant Period,

the closing price of the Shares was generally in a decreasing trend from the highest closing price of HK\$0.255 in the period from 9 July 2026 to 21 July 2026 to the lowest closing price of HK\$0.161 on 4 September 2026. In addition, the average daily trading volume was approximately 515,000 Shares, representing approximately 0.09% of the total number of issued Shares as at the Last Trading Day. Such relatively low average daily trading volume of the Shares indicated a lack of liquidity and demand for the Shares. Therefore, the Subscription Price was set at a discount in order to ensure the Rights Issue is commercially viable and to provide a meaningful incentive to the Qualifying Shareholders during this period of market volatility and low liquidity of the Shares. The Company balances this discount against the subscription ratio to ensure that while the Subscription Price attracts capital from the Qualifying Shareholders, the number of new Rights Shares issued does not cause excessive per-share dilution to non-participating Qualifying Shareholders; and

(iii) the amount of funds the Company intends to raise under the Rights Issue for the purposes described in the section headed “Reasons for and benefits of the Rights Issue and use of proceeds” in this circular.

The Directors have also considered the aggregate amount of funds to be raised under the Rights Issue calculated based on the Subscription Price and the number of Rights Shares to be issued, and the intended use of proceeds from the Rights Issue as further elaborated in the section headed “Reasons For and Benefits of the Rights Issue and use of proceeds” in the letter from the Board of this circular, in particular (a) the intended upgrade to the Group’s AI platform, LinkBriAI, which is beneficial to the Group’s core operations, and is in line with the Group’s long-term strategy given that the Group’s intelligent marketing solutions is its primary revenue generator; and (b) the business development and expansion of the Group’s existing business on provision of intelligent marketing solutions services, all of which would strengthen the business performance of the Group as a whole in the future.

Nevertheless, the Directors gave primary consideration to the potential dilution impact on its existing Shareholders. Since the Rights Issue is pre-emptive in nature, it offers all Qualifying Shareholders the right to maintain their pro-rata shareholding interest in the Company which could avoid equity dilution by taking up their entitlements in full. The Directors consider that the Rights Issue will provide the Qualifying Shareholders the opportunity to maintain their respective pro rata shareholding interests in the Company and to continue to participate in the future development of the Group and the Subscription Price at a discount to the current market price of the Consolidated Shares (after taking into account the effect of the Share Consolidation) would enhance the attractiveness of the Rights Issue, and in turn encourage the Qualifying Shareholders to take up their entitlements, thereby minimising possible dilution impact.

As at 30 June 2026, the total assets of the Group was approximately RMB265.5 million, of which approximately 39.7% was trade receivables and approximately 53.1% was deposits, prepayments and other receivables which are mainly prepayments to media publishers and advertising agents on behalf of the Group's customers to purchase virtual tokens to bid for advertisement inventories for advertisement placement which is typical for the Group's provision of intelligent marketing solutions services.

In view of (i) the recent unsatisfactory financial performance of the Group, having recorded net losses for two consecutive financial years since the year ended 31 December 2024 and for the six months ended 30 June 2026, alongside a declining net asset value during the same period; (ii) the weak market sentiment in the capital market in Hong Kong as a whole; and (iii) the low trading volume and liquidity for the Shares as described above, the Directors consider that the Subscription Price is fair and reasonable, despite representing a discount of approximately 29.25% to the Group's net asset value as at 30 June 2026.

The Directors consider that, in view of the prevailing market conditions and factors as described above, and despite any potential dilution impact of the Rights Issue on the shareholding interests of the Shareholders, the terms and structure of the Rights Issue are fair and reasonable and in the interests of the Company and the Shareholders as a whole, after taking into account the following factors: (i) the Qualifying Shareholders who do not wish to take up their provisional entitlements under the Rights Issue are able to sell the Nil Paid Rights in the market; (ii) the Qualifying Shareholders who choose to accept their provisional entitlements in full can maintain their respective existing shareholding interests in the Company after the Rights Issue; (iii) the strategic benefits of the immediate use of proceeds; and (iv) the dilution effect of 21.75% is balanced by the opportunity for Qualifying Shareholders to maintain their pro-rata stakes, the ability to trade Nil-Paid Rights, and the implementation of the Compensatory Arrangements to structurally safeguard the economic interests of Non-Qualifying Shareholders.

The estimated maximum net price per Rights Share (i.e. the Subscription Price less the estimated cost and expenses to be incurred in the Rights Issue) upon full acceptance of the relevant provisional allotment of Rights Shares will be approximately HK\$0.591 per Rights Share.

Basis of provisional allotment

Under the Rights Issue, the basis of the provisional allotment will be three (3) Rights Shares for every one (1) Consolidated Share held by the Qualifying Shareholders as at the close of business on the Record Date at the Subscription Price. Application for all or any part of a Qualifying Shareholder's provisional allotment should be made by completing a PAL and lodging the same with a cheque or a banker's cashier order for the sum payable for the Rights Shares being applied for with the Registrar on or before the Latest Time for Acceptance.

If a Qualifying Shareholder wishes to accept only a part of, or to renounce or transfer a part of, the Rights Shares provisionally allotted to him/her/it under the PAL, such Qualifying Shareholder will need to split his/her/its PAL into the denominations required. Details as to how to split the PALs will be set out in the Prospectus.

Fractional provisional allotment of the Rights Shares

On the basis of the provisional allotment of three (3) Rights Shares for every one (1) Consolidated Share held by the Qualifying Shareholders on the Record Date, no fractional entitlements to the Rights Shares will arise under the Rights Issue and no entitlements of the Non-Qualifying Shareholders to the Rights Shares shall be issued to the Non-Qualifying Shareholders.

Odd lot arrangement

In order to facilitate the trading of odd lots (if any) of the Consolidated Shares arising from the Rights Issue and the Share Consolidation, a designated broker will be appointed to match the purchase and sale of odd lots of the Consolidated Shares at the relevant market price per Consolidated Share on a best effort basis. Holders of odd lots of Consolidated Shares should note that successful matching of the sale and purchase of odd lots of Shares is not guaranteed. Any Shareholder who is in any doubt about the odd lot arrangement is recommended to consult his/her/its own professional advisers. Further details of the odd lot arrangement will be set out in the Prospectus.

Status of the Rights Shares

The Rights Shares (when allotted, fully paid or credited as fully paid and issued) will rank *pari passu* in all respects among themselves and with the Consolidated Shares in issue on the date of allotment and issue of the Rights Shares. Holders of the fully-paid Rights Shares will be entitled to receive all future dividends and distributions which may be declared, made or paid on or after the date of allotment and issue of the fully-paid Rights Shares. Dealings in the Rights Shares in both their nil-paid and fully-paid forms will be subject to payment of stamp duty, Stock Exchange trading fee, transaction levy, investor compensation levy or any other applicable fees and charges in Hong Kong.

Qualifying Shareholders

The Rights Issue will only be available to the Qualifying Shareholders. The Company will send the Prospectus Documents to the Qualifying Shareholders. Subject to the advice of the Company's legal advisers in the relevant jurisdictions and to the extent reasonably practicable, the Company may send copies of the Prospectus to the Non-Qualifying Shareholders for their information only but will not send any PAL to them.

To qualify for the Rights Issue, a Shareholder must (i) be registered as a member of the Company at the close of business on the Record Date; and (ii) not be a Non-Qualifying Shareholder.

Shareholders with their Shares held by a nominee (or held in CCASS) should note that the Board will consider nominee (including HKSCC Nominees Limited) as one single Shareholder according to the register of members of the Company and are advised to consider whether they would like to arrange for the registration of the relevant Shares in their own names prior to the Record Date.

In order to be registered as members of the Company on the Record Date, the Shareholders must lodge any transfer documents of the Shares (together with the relevant share certificates) with the Registrar, Tricor Investor Services Limited, at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong by no later than 4:30 p.m. on Wednesday, 4 November 2026.

The Company expects to send the Prospectus Documents to the Qualifying Shareholders on Thursday, 12 November 2026.

Qualifying Shareholders who take up their pro-rata entitlement in full under the Rights Issue will not suffer any dilution to their interests in the Company.

If a Qualifying Shareholder does not take up any of his/her/its entitlement in full under the Rights Issue, his/her/its proportionate shareholding in the Company will be diluted.

Certificates of the Rights Shares and refund cheques

Subject to fulfilment of the conditions of the Rights Issue, share certificates for all fully-paid Rights Shares are expected to be sent on or about Friday, 11 December 2026 by ordinary post to those entitled thereto, at their own risk, to their registered addresses. If the Rights Issue is terminated or for unsuccessful application for Rights Issue, refund cheques in respect of the acceptance for Rights Shares are expected to be posted on or before Friday, 11 December 2026 by ordinary post to the applicants at their own risk.

Taxation

Shareholders are advised to consult their professional advisers if they are in any doubt as to the taxation implications of the receipt, purchase, holding, exercising, disposing of or dealing in, the nil-paid Rights Shares or the Rights Shares and, regarding the Non-Qualifying Shareholders, their receipt of the net proceeds, if any, from sale of the nil-paid Rights Shares on their behalf.

Application for listing in nil-paid and fully-paid forms

The Company will apply to the Listing Committee for the listing of, and the permission to deal in, the Rights Shares (in both nil-paid and fully-paid forms) to be allotted and issued pursuant to the Rights Issue. No part of the securities of the Company is listed or dealt in, and no listing of or permission to deal in any such securities is being or is proposed to be sought, on any other stock exchanges. Dealing in the Rights Shares in both their nil-paid and fully-paid forms will be in the board lots of 2,000 Rights Shares.

Rights Shares will be eligible for admission into CCASS

Subject to the granting of the listing of, and the permission to deal in, the Rights Shares (in both their nil-paid and fully-paid forms) on the Stock Exchange as well as compliance with the stock admission requirements of HKSCC, the Rights Shares (in both their nil-paid and fully-paid forms) will be accepted as eligible securities by HKSCC for deposit, clearance and settlement in CCASS with effect from the respective commencement dates of dealings in the rights shares in their nil-paid and fully-paid forms on the Stock Exchange, or such other dates as determined by HKSCC.

Settlement of transactions between participants of the Stock Exchange on any trading day is required to take place in CCASS on the second trading day thereafter. All activities under CCASS are subject to the General Rules of HKSCC and HKSCC Operational Procedures in effect from time to time. Shareholders should seek advice from their licensed securities dealer(s) or other professional adviser(s) for details of those settlement arrangements and how such arrangements will affect their rights and interests.

Rights of Overseas Shareholders

The Prospectus Documents to be issued in connection with the Rights Issue will not be registered or filed under the securities law of any jurisdiction other than Hong Kong. If there are Overseas Shareholders at the close of business on the Record Date, the Overseas Shareholders may not be eligible to take part in the Rights Issue as explained below.

As at the Latest Practicable Date, based on the register of members of the Company, there was one Overseas Shareholder with registered address located in the British Virgin Islands who was interested in 71,020,000 Shares in aggregate, representing approximately 11.84% of the total issued Shares.

Pursuant to Rule 13.36(2) of the Listing Rules, the Company has made enquiry in respect of the legal restrictions under the laws of the relevant places and the requirements of the relevant regulatory body or stock exchange in those places for the Company to extend the Rights Issue to the Overseas Shareholders. Based on the relevant legal advice on the laws of the British Virgin Islands, the Board is of the view that it is not necessary or expedient to exclude the Overseas Shareholder with the registered address in the British Virgin Islands. In particular, there are no restrictions under securities law or other similar

laws in the British Virgin Islands which would prevent the Company from including the Overseas Shareholder with the registered address in the British Virgin Islands in the Rights Issue, and the offering of the Rights Shares to it will not violate any applicable law or regulations in the British Virgin Islands. There is no regulatory restriction or requirement of any regulatory body or stock exchange with respect to the extending of the Rights Issue by the Company to the Overseas Shareholder with the registered address in the British Virgin Islands in the relevant jurisdictions.

Accordingly, the Rights Issue will be extended to such Overseas Shareholder in the British Virgin Islands and there are no Non-Qualifying Shareholders for the Rights Issue as at the Latest Practicable Date. Save for the aforesaid Overseas Shareholder, all Shareholders on the Company's register of members as at the Latest Practicable Date have Hong Kong registered addresses.

The Company will continue to ascertain whether there are any other Overseas Shareholders as at the Record Date and will make further enquiries with legal advisers in other overseas jurisdictions regarding the feasibility of extending the Rights Issue to such Overseas Shareholder as at the Record Date.

The basis for excluding the Non-Qualifying Shareholders, if any, from the Rights Issue will be set out in the Prospectus to be issued. To the extent reasonably practicable and subject to the advice of legal advisers in the relevant jurisdictions in respect of applicable local laws and regulations, the Company will send the Prospectus (without the PAL) and a letter explaining the circumstances in which the Non-Qualifying Shareholders are not permitted to participate in the Rights Issue to the Non-Qualifying Shareholders for their information only.

Overseas Shareholders should note that they may or may not be entitled to the Rights Issue, subject to the results of enquiries made by the Directors pursuant to Rule 13.36(2) of the Listing Rules. Accordingly, Overseas Shareholders should exercise caution when dealing in the Shares. The Company reserves the right to treat as invalid any acceptances of, or applications for, the Rights Shares where it believes that such acceptance or application would violate the applicable securities or other laws or regulations of any territory or jurisdiction. Accordingly, Overseas Shareholders should exercise caution when dealing in the Shares, and if they are in any doubt about their position, they should consult their own professional advisers.

Procedures in respect of the Unsubscribed Rights Shares and the NQS Unsold Rights Shares and the Compensatory Arrangements

Pursuant to Rule 7.21(1)(b) of the Listing Rules, the Company must make arrangements to dispose of any Unsubscribed Rights Shares and the NQS Unsold Rights Shares not validly applied for by the No Action Shareholders by offering such Unsubscribed Rights Shares and the NQS Unsold Rights Shares to independent placees for the benefit of those Shareholders to whom they were offered by way of the Rights Issue. There will be no excess application arrangements in relation to the Rights Issue as stipulated by Rule 7.21(1)(a) of the Listing Rules.

The Company appointed the Joint Placing Agents to place the Unsubscribed Rights Shares and the NQS Unsold Rights Shares after the Latest Time for Acceptance to independent placees on a best effort basis, to subscribe for the Unsubscribed Rights Shares and the NQS Unsold Rights Shares. The Net Gain, which is the aggregate of any premium (being the aggregate amount paid by the placees after deducting (i) the aggregate amount of the Subscription Price for the Unsubscribed Rights Shares and the NQS Unsold Rights Shares placed by the Joint Placing Agents; and (ii) the aggregate amount of the expenses of the Joint Placing Agents and any other related expenses/fees under the Placing Agreement) under the Compensatory Arrangements, will be paid to the relevant No Action Shareholders and Non-Qualifying Shareholders in the manner set out below. The Joint Placing Agents will, on a best effort basis, procure, by not later than 4:00 p.m. on Friday, 4 December 2026, acquirers for all (or as many as possible) of those Unsubscribed Rights Shares and the NQS Unsold Rights Shares at a price not less than the Subscription Price.

Net Gain (if any) will be paid (without interest) to the No Action Shareholders and Non-Qualifying Shareholders as set out below on a pro rata basis (but rounded down to the nearest cent):

- A. the relevant Qualifying Shareholders (or such persons who hold any Nil-Paid Rights at the time such Nil-Paid Rights are lapsed) whose Nil-Paid Rights are not validly applied for in full, by reference to the extent that Shares in his/her/its Nil-Paid Rights are not validly applied for; and
- B. the relevant Non-Qualifying Shareholders with reference to their shareholdings in the Company on the Record Date.

It is proposed that Net Gain to any of the No Action Shareholder(s) or Non-Qualifying Shareholders of HK\$100 or more will be paid to them in Hong Kong Dollars only and the Company will retain individual amounts of less than HK\$100 for its own benefit. Shareholders are reminded that Net Gain may or may not be realised, and accordingly the No Action Shareholders and Non-Qualifying Shareholders may or may not receive any Net Gain.

- (i) the occurrence of any event, development or change (whether or not local, national or international or forming part of a series of events, developments or changes occurring or continuing before on and/or after the date hereof) and including an event or change in relation to or a development of an existing state of affairs of a political, military, industry, financial, economic, fiscal, regulatory or other nature, resulting in a change in, or may result in a change in, political, economic, fiscal, financial, regulatory or stock market conditions and which in the Joint Placing Agents' absolute opinion would affect the success of the Placing; or

The Placing Agreement shall remain in full force and effect between the Company and the Continuing Agent as if the Continuing Agent were the sole contract party in respect of its allocated shares (including any re-allocated shares).

To the best of the Directors’ knowledge, information and belief having made all reasonable enquiries, the Joint Placing Agents and their ultimate beneficial owners are Independent Third Parties and the Joint Placing Agents and their associates do not hold any Shares as at the Latest Practicable Date.

Basis of determining the placing commission

The placing commission of 0.5% was arrived at after arm’s length negotiations between the Company and the Joint Placing Agents, having regard to the size of the Rights Issue, the non-underwritten nature of the Compensatory Arrangements, the scope of services to be provided by the Joint Placing Agents and the prevailing market conditions. To assess the fairness and reasonableness of the placing commission, the Company conducted a review of all rights issue transactions published by companies listed on the Stock Exchange in the past three months up to the Last Trading Day (the “**Comparable Transactions**”), excluding those transactions which had been terminated up to the Last Trading Day or were proposed by companies whose shares were in prolonged suspension on the date of the relevant announcement. Based on the abovementioned selection criteria, the Company identified 26 Comparable Transactions and noted that the placing commission of the Comparable Transactions ranged from 1% to 4%. The placing commission offered by the Joint Placing Agents is notably below the minimum of the range observed in the Comparable Transactions. Having considered that the Comparable Transactions represent all rights issue transactions announced by companies listed on the Stock Exchange during the three months up to and including the Last Trading Day (other than those which had been terminated or were proposed by companies whose shares were in prolonged suspension), and that they provide a sufficient sample size to reflect the prevailing market practice during such review period, the Directors consider that the Comparable Transactions are fair and representative.

Taking into account that (i) the terms of the Placing Agreement were negotiated on an arm’s length basis; (ii) the placing commission rate is below the minimum of the range of the placing commission of the Comparable Transactions, highlighting its cost-efficiency and favorability for the Company and its Shareholders; and (iii) the arrangement aligns with the existing financial position of the Group, the Board considers that the terms of the Placing Agreement (including the placing commission) are on normal commercial terms, fair and reasonable, and in the interests of the Company and its Shareholders as a whole.

Conditions of the Rights Issue

The Rights Issue is conditional upon the fulfilment of the following conditions:

- (i) the Share Consolidation and the Increase in Authorised Share Capital becoming effective;
- (ii) the delivery to the Stock Exchange, and filing and registration with Companies Registry in Hong Kong of one copy of each of the Prospectus Documents duly signed by two Directors (or by their agents duly authorised in writing) as having been approved by a resolution of the Directors (and all other documents required to be attached thereto) not later than the Prospectus Posting Date and in compliance with the Listing Rules, the Companies (WUMP) Ordinance and the Companies Ordinance;
- (iii) the posting of the Prospectus Documents to the Qualifying Shareholders by the Prospectus Posting Date and the posting of the Prospectus and a letter to the Non-Qualifying Shareholders, if any, for information purpose only explaining the circumstances in which they are not permitted to participate in the Rights Issue on or before the Prospectus Posting Date;
- (iv) the Listing Committee granting or agreeing to grant (subject to allotment) listing of and permission to deal in all the Rights Shares, in both nil-paid and fully-paid forms and such listing not being withdrawn or revoked;
- (v) the passing by the Independent Shareholders at the EGM, by way of poll, of the necessary resolution to approve the Rights Issue and the Placing Agreement no later than the Prospectus Posting Date; and
- (vi) the Placing Agreement not having been terminated in accordance with the provisions thereof, and remaining in full force and effect.

As at the Latest Practicable Date, none of the conditions has been fulfilled. None of the above conditions can be waived. The Company shall use its reasonable endeavours to procure the fulfilment of the conditions above (to the extent it is within its power to do so) and shall do all the things required to be done by it pursuant to the Prospectus Documents or otherwise reasonably necessary to give effect to the Rights Issue. If any of the conditions referred to above are not fulfilled at or before the Latest Time for Termination, the Rights Issue will not proceed.

As the proposed Rights Issue is subject to the fulfilment of the above conditions, it may or may not proceed. Shareholders and public investors are advised to exercise caution in dealing in the securities of the Company.

REASONS FOR AND BENEFITS OF THE RIGHTS ISSUE AND USE OF PROCEEDS

The Company was incorporated in the Cayman Islands with limited liability and its issued shares are listed on the Main Board of the Stock Exchange. The Company is an investment holding company. The Group is principally engaged in the provision of intelligent marketing solutions services, comprised of two key components, namely, influential placement services and integrated intelligent marketing solutions services, in the PRC.

Investment and development in artificial intelligence

The marketing industry is undergoing a structural transformation. Budget concentration on major internet platforms, combined with direct advertiser optimization through proprietary artificial intelligence (“AI”) placement tools, is disintermediating traditional third-party service providers and forcing smaller agencies to overhaul their business models. While generative AI has drastically lowered creative production costs, it has also created a content oversupply that dilutes the pricing power of individual assets, shifting competitive advantage toward data analytics, execution strategy, and contextual understanding. Meanwhile, short-form video continues to lead market growth by integrating content directly with commercial transactions. Alongside emerging formats such as AI comic dramas and vertical dramas, these shifts are prompting industry players to adapt flexibly and pursue new expansion opportunities.

In view of these changing industry dynamics, the Group developed a full value-chain intelligent marketing management platform, namely LinkBriAI, with a key focus on the material production process. The Group combined the proprietary material and placement data assets from its “Cloud Material Library AI Management System” with integrated, open-source AI tools. This enables the efficient generation and optimization of advertising creatives, expands content formats, enriches material types, shortens production cycles, and reduces the labour required for content creation.

By integrating innovative formats such as AI comic dramas into its promotional strategies, the Group successfully lowered content production costs, reduced creative entry barriers, and scaled supply to unlock advertising demand. This successful application demonstrates how combining AI with novel content enhances placement efficiency, creating a scalable model expected to drive long-term growth. Consequently, continued investment in AI development remains essential for the Group to maintain its competitive edge and enhance operational scalability.

Leading media platforms require substantial cash payments

The Group has maintained long-standing strategic partnerships with well-known leading media platforms. In particular, the Group acts as a first-tier agent for Baidu and ByteDance. These platforms generally require a deposit of a certain percentage of the estimated annual marketing budget or prepayment prior to acquiring user traffic, alongside shorter credit terms the Group's future transactions with them are expected to create substantial cash requirements. Consequently, further fundraising will be necessary to finance the purchase of media resources on these leading platforms.

Replenishing the Group's working capital

With reference to the Group's interim results announcement for the six months ended 30 June 2026 ("1H2026"), the total revenue of the Group was approximately RMB122.7 million, representing a decrease of approximately 81.6% compared to approximately RMB668.1 million for the six months ended 30 June 2025 ("1H2025"). This variance was primarily driven by the Group's proactive implementation of a business structure optimization strategy, aimed at refining its core operations and realigning its media partnerships to improve long-term efficiency. In connection with these strategic adjustments, the Group also incurred certain one-off administrative and workforce realignment expenses, which impacted the net financial results for 1H2026. As of 30 June 2026, the Group's cash and cash equivalents stood at approximately RMB10.4 million. To support its ongoing strategic transition, optimise liquidity management, and meet immediate operational demands, the Group requires additional fundraising to replenish its working capital.

The gross proceeds from the Rights Issue are expected to be approximately HK\$216.0 million. The net proceeds from the Rights Issue, after deducting related expenses, are estimated to be approximately HK\$212.8 million (equivalent to approximately RMB181.9 million) (the "**Full Subscription Proceeds**"). The Company intends to apply the net proceeds from the Rights Issue as follows:

- (i) approximately HK\$127.7 million (equivalent to approximately RMB109.1 million), representing approximately 60.0% of the net proceeds, for the development of the Group's AI platform. In particular:
 - (a) approximately HK\$119.2 million (equivalent to approximately RMB101.8 million), representing approximately 56.0% of the net proceeds, will be used for developing and upgrading the Group's AI platform, LinkBriAI, which currently serves as an internal data analytics system designed to assist clients in formulating marketing strategies. Such expenditure will be allocated towards (i) leasing AI-related hardware and software, including but not limited to cloud computing services, GPU computing power, servers, databases, AI development tools, data and system security, and other necessary hardware and software; (ii) the acquisition of ancillary hardware and software to integrate the leased AI processing capacity into the Group's AI platform; (iii) the procurement of

third-party data services to support data collection with a view to build high-quality datasets for the Group's AI platform, and build cloud-based data libraries and self-developed material library necessary for performing data analytics; and (iv) manpower costs for the development of new functionalities and upgrading the existing features of the LinkBriAI platform, covering both the Group's in-house research and development team and engagement of external service providers. The upgraded LinkBriAI platform will enable the Group to (i) strengthen analytical capabilities to formulate marketing strategies, budget allocation plans, platform placement strategies, campaign cadence recommendations tailored to customers' requirements; (ii) enhance performance monitoring and placement analytic function to support real-time analysis and optimization of advertising budgets, target audiences, creative combinations, and placement strategies; and (iii) integrate AI-generated content technology which could automatically generate advertising materials, short-video scripts, marketing image concepts, product promotional content, and social media content which are essential to the sustainable development of the Group's core online marketing business. The Group expects to fully utilise the net proceeds in this regard by the first half of 2028; and

- (b) approximately HK\$8.5 million (equivalent to approximately RMB7.3 million), representing approximately 4.0% of the net proceeds, will be used for recruiting personnel for the research and development of the Group's AI platform. The Group expects to fully utilise the net proceeds in this regard by the first half of 2028.
- (ii) approximately HK\$63.8 million (equivalent to approximately RMB54.6 million), representing approximately 30.0% of the net proceeds, for the development and expansion of the Group's advertising and marketing business. In particular:
 - (a) approximately HK\$44.7 million (equivalent to approximately RMB38.2 million), representing approximately 21.0% of the net proceeds, will be used for expanding media resources on leading platforms. As discussed above, these media platforms require a deposit or prepayment for acquiring user traffic and they usually allow shorter credit periods. Therefore, additional funding is required for expansion to these media platforms to boost up user traffic. The Group expects to fully utilise the net proceeds in this regard by the first half of 2028;
 - (b) approximately HK\$12.8 million (equivalent to approximately RMB10.9 million), representing approximately 6.0% of the net proceeds, will be used for expanding the customer base. The Group intends to expand its business into emerging industries and sectors with high digital marketing demand, such as AI, robotics, e-commerce, and internet consumption. The Group expects to fully utilise the net proceeds in this regard by the first half of 2028; and

- (c) approximately HK\$6.4 million (equivalent to approximately RMB5.5 million), representing approximately 3.0% of the net proceeds, will be used for recruiting personnel for the sales and marketing of the Group's advertising and marketing business. The Group expects to fully utilise the net proceeds in this regard by the first half of 2028.
- (iii) approximately HK\$21.3 million (equivalent to approximately RMB18.2 million), representing approximately 10.0% of the net proceeds, for replenishing the Group's general working capital. In particular: (a) approximately HK\$12.8 million (equivalent to approximately RMB10.9 million) will be used for staff remuneration; (b) approximately HK\$3.2 million (equivalent to approximately RMB2.7 million) will be used for office rental and property-related expenses; (c) approximately HK\$3.2 million (equivalent to approximately RMB2.7 million) will be used for professional advisory, audit, and legal fees; and (d) approximately HK\$2.1 million (equivalent to approximately RMB1.9 million) will be used for other general operating expenses. The Group expects to fully utilise the net proceeds in this regard by the first half of 2028.

As the Rights Issue will proceed on a non-underwritten basis, in the event of an under-subscription of the Rights Issue and/or the Placing (as the case may be), priority will be given to the development and upgrade plan of the Group's AI platform as outlined in item (i) above for the use of the net proceeds from the Rights Issue.

The development and upgrade plan of the Group's AI platform would be implemented in stages. The Company estimates that the minimum amount of funding required for the implementation of a commercially viable development and a scalable upgrade plan for its AI platform is approximately HK\$80.0 million (equivalent to approximately RMB68.4 million) (the **"Minimum Required AI Funding"**) which was determined by the Directors with reference to the core components that the Group considers essential for the first stage of the upgrade plan to the Group's AI platform, comprising (i) approximately HK\$72.0 million (equivalent to approximately RMB61.5 million) for computing infrastructure, data acquisition, licensing and processing, software development, testing and deployment; and (ii) approximately HK\$8.0 million (equivalent to approximately RMB6.8 million) for the manpower costs covering both the Group's in-house research and development team and engagement of external service providers.

Further expenditure on the development and upgrade plan of the Group's AI platform of approximately HK\$47.7 million (equivalent to approximately RMB40.8 million) would be applied towards the scaling up of its capacity and further enhancement of the Group's AI platform's coverage of additional application scenarios, which could be implemented if additional funding is available without affecting the commercial viability of the first stage of the upgrade plan of the Group's AI platform.

In light of the above, the net proceeds from the Rights Issue and the Placing in the event of an under-subscription of the Rights Issue will be applied according to the following scenarios:

- (i) if the actual net proceeds from the Rights Issue are equal to or less than the Minimum Required AI Funding, all of the actual net proceeds will be applied towards the development and upgrade plan of the Group's AI platform. Any difference between the actual net proceeds from the Rights Issue and the Minimum Required AI Funding (the "Shortfall") will be funded by the Group's then internal resources available, debt financing or further equity fundraising or a combination of all of them; or
- (ii) if the actual net proceeds from the Rights Issue are more than the Minimum Required AI Funding but are less than the Full Subscription Proceeds, such proceeds will first be allocated towards the Minimum Required AI Funding, and the remaining balance will be allocated as to 60% for the development and upgrade of the Group's AI platform; as to 30% for the advertising and marketing business; and as to 10% for general working capital.

Having considered (i) the development and upgrade plan of the Group's AI platform could be achieved in stages with the first stage of it being funded by the Minimum Required AI Funding; (ii) the allocation mechanism of the use of net proceeds as described above with priority given towards the Minimum Required AI Funding of the Group's AI platform; and (iii) any Shortfall will be funded by the Group's then internal resources available, debt financing or further equity fundraising or a combination of all of them, in the event that the Rights Issue and the Placing were materially undersubscribed, the Directors are of the view that the Group would be able to fulfil its development and upgrade plan for the Group's AI platform.

As at the Latest Practicable Date, save as disclosed above, the Company currently (i) has no other specific acquisition plans or targets; and (ii) has no agreement, arrangement, undertaking, or negotiation to pursue new businesses or dispose of any of its existing business.

Other fundraising alternatives

The Board has considered other fundraising alternatives before resolving on the Rights Issue, including debt financing, bank borrowings and equity financing options such as an open offer or a placing of new Shares.

The Board is of the view that debt financing and bank borrowings would increase the gearing ratio of the Group. Furthermore, given the prevailing high interest rate environment, debt financing would increase the ongoing interest expenses of the Group, which could adversely affect its profitability. In addition, debt financing and bank borrowings may not be achievable on favourable terms or may require pledge of other kind of assets or securities which may reduce the Group's flexibility.

With respect to equity financing alternatives, the Board considers that placing of new Shares would be a sub-optimal fundraising method, as it is relatively smaller in scale as compared to fundraising through rights issue and it would lead to an immediate dilution of the shareholding interests of existing Shareholders without offering them the opportunity to participate in the enlargement of the Company's capital base. As for an open offer, while it similarly allows Qualifying Shareholders to participate, it does not permit the trading of rights entitlements in the open market.

The Directors are of the view that the Rights Issue provides better financial flexibility for the Company by strengthening its capital base, thereby enhancing overall working capital to fulfill the Group's development plans without further increasing its interest burden. The Rights Issue also offers all Qualifying Shareholders the opportunity to maintain their pro-rata shareholding interests in the Company and avoid shareholding dilution, provided they take up their entitlements under the Rights Issue in full.

Having considered the above, the Directors are of the view that the terms of the Rights Issue are on normal commercial terms, fair and reasonable, and in the interests of the Company and the Shareholders as a whole.
