

Innovent Biologics (1801 HK)

Entering sustainable profitability with a global innovation engine

- To achieve sustainable profitability. Innovent achieved profitability ahead of schedule in FY24, realizing full-year non-IFRS net profit of RMB332mn and non-IFRS EBITDA profit of RMB412mn. We think the better-than-expected profitability was mainly due to 1) strong product revenue growth and 2) one-off license fee income, especially the RMB690mn income from the transaction with IASO Bio. Total revenue reached RMB9.42bn (+52% YoY), including RMB8.23bn in product sales (+44% YoY). Sintilimab's sales grew by 34% YoY to US\$526mn, according to Eli Lilly. Looking ahead to FY25, mgmt projects continued non-IFRS EBITDA profitability, even excluding the US\$80mn upfront payment from the DLL3 ADC out-licensing deal with Roche. Non-IFRS GPM expanded to 84.9% in FY24 from 82.8% in FY23, while the SG&A expense ratio decreased to 50.9% in FY24 from 58.0% in FY23, demonstrating improved operational efficiency. As of end 2024, Innovent held a robust cash balance of RMB10.2bn to support its long-term development.
- Next-generation IO plus ADC, advancing toward global leadership in oncology. We see significant synergies between the Company's next-generation IO (IBI363) and its expanding ADC portfolio (Claudin18.2ADC, DLL3 ADC, bispecific ADCs, dual-payload ADCs and APCs). Innovent already has over 10 ADC clinical programs, with combination trials with IBI363 being a key focus moving forward. We think IBI363 (PD-1/IL-2) has the potential to become a blockbuster next-generation IO therapy, targeting IO-treated and cold tumors. Data updates are anticipated at ASCO meeting in Jun, including PFS results from the 3mg/kg dose in IO-resistant sq-NSCLC. Innovent expects to initiate a Ph3 trial in this treatment setting this year. A Ph2 pivotal trial is underway comparing IBI363 to Keytruda in first-line IO-naïve melanoma. Furthermore, Innovent plans to initiate a Ph3 trial of IBI363 plus bevacizumab in third-line MSS CRC in 2025.
- Emerging blockbuster pipeline in CVM and beyond. Key CVM pipelines include IBI3016 (AGT siRNA), IBI3032 (GLP-1 small molecule), IBI3012 (GIP/GLP-1/GCG), and IBI3030 (PCSK9-GLP-1/GCG/GIP). IBI-3012 demonstrates superior efficacy over Amgen's AM133 in preclinical models, with enhanced weight loss, better glycemic control, improved insulin sensitivity, reduced weight rebound, and a longer half-life due to optimized antibody engineering. In oncology, IBI3001 (EGFR/B7H3 ADC) has global FIC potential, while IBI3020 (CEACAM5 dual-payload ADC) is expected to file IND in 1H25. In autoimmune diseases, Ph1 readouts are expected in 2025 for IBI356 (OX40L) and IBI3002 (IL-4Rα/TSLP). Innovent targets five assets to enter Ph3 MRCTs by 2030, laying the foundation for globalization.
- Maintain BUY. Driven by the anticipated near-term approval of mazdutide, continued profitability, and strong momentum across its innovative pipeline, we revise up our earnings forecasts and lift our DCF-based TP from HK\$57.67 to HK\$61.71 (WACC: 9.3%, terminal growth rate: 3.0%).

For recipients of this document in the United States

CMBIGM is not a registered broker-dealer in the United States. As a result, CMBIGM is not subject to U.S. rules regarding the preparation of research reports and the independence of research analysts. The research analyst who is primary responsible for the content of this research report is not registered or qualified as a research analyst with the Financial Industry Regulatory Authority ("FINRA"). The analyst is not subject to applicable restrictions under FINRA Rules intended to ensure that the analyst is not affected by potential conflicts of interest that could bear upon the reliability of the research report. This report is intended for distribution in the United States solely to "major US institutional investors", as defined in Rule 15a-6 under the US, Securities Exchange Act of 1934, as amended, and may not be furnished to any other person in the United States. Each major US institutional investor that receives a copy of this report by its acceptance hereof represents and agrees that it shall not distribute or provide this report to any other person. Any U.S. recipient of this report wishing to effect any transaction to buy or sell securities based on the information provided in this report should do so only through a U.S.-registered broker-dealer.

For recipients of this document in Singapore

This report is distributed in Singapore by CMBI (Singapore) Pte. Limited (CMBISG) (Company Regn. No. 201731928D), an Exempt Financial Adviser as defined in the Financial Advisers Act (Cap. 110) of Singapore and regulated by the Monetary Authority of Singapore. CMBISG may distribute reports produced by its respective foreign entities, affiliates or other foreign research houses pursuant to an arrangement under Regulation 32C of the Financial Advisers Regulations. Where the report is distributed in Singapore to a person who is not an Accredited Investor, Expert Investor or an Institutional Investor, as defined in the Securities and Futures Act (Cap. 289) of Singapore, CMBISG accepts legal responsibility for the contents of the report to such persons only to the extent required by law. Singapore recipients should contact CMBISG at +65 6350 4400 for matters arising from, or in connection with the report.
